Chapter 971: Ye Linglong's Growth; The Mysterious Senior is an Integration Great Power

One month later.

Ten Thousand Treasures Spiritual Ruins.

The Spirit Ruins Secret Realm, originally invaded by demons, was turned from peril to safety due to Jiang Fan's appearance, with many Foundation Establishment cultivators who entered the Ten Thousand Treasures Spiritual Ruins also saved, as numerous demons were slain by Jiang Fan's avatars.

Cultivators possessing Life Charts were discovered by Jiang Fan, who also activated their Life Charts and even left them a Cause and Effect Communication Immortal Talisman's sub-talisman.

Once refined, they could communicate with each other, and these talismans would not be seized by other cultivators, like their Lifebound Magical Treasure.

It could be said that the great disaster thus vanished into invisibility.

However, due to the power of the Celestial Cicada Spirit Leaf, aside from those cultivators with Life Charts, the other cultivators forgot Jiang Fan's appearance and deeds; they were unaware of how the demons were eradicated.

Even those cultivators with Life Charts only knew Jiang Fan's name — Talisman Daoist.

Yet this incident will inevitably profoundly affect the future of the Great Xuan Dynasty for countless years.

At this moment, somewhere in the Ten Thousand Treasures Spiritual Ruins.

A group of people gathered here.

If Jiang Fan were here, he would surely recognize the identity of these people; they are Jiang Mo, Xiao Duan, Su Wangyue, Liu Shengnan, and others.

Since Jiang Mo returned to his ancestry and became a princess of the Great Xuan Dynasty, he was immediately taken to the imperial capital and received royal training, rapidly advancing in cultivation.

In just a few short years, he had already reached the level of Foundation Establishment Perfection.

His younger siblings also gained enormous benefits, were also brought to the imperial capital, and advanced to Foundation Establishment.

So this time, they teamed up to enter the Ten Thousand Treasures Spiritual Ruins, hoping to achieve great gains.

"Linglong, that mysterious elder may appear again."

"The demons that once ravaged the Ten Thousand Treasures Spiritual Ruins were also completely eradicated by that mysterious elder."

"The person seems to claim to be the Talisman Daoist."

Jiang Mo spoke, for he saw Jiang Fan's avatar take action, annihilating a large batch of demons.

However, out of caution, he did not proactively approach for recognition, only observed silently.

After all, possessing a mediocre Upper Grade Life Chart allowed him to blend effortlessly into crowds, even making others naturally overlook his presence.

Hence, if faced with danger, he could easily escape.

"What exactly can that elder do?"

"The Ten Thousand Treasures Spiritual Ruins have powerful rules, and cultivators above the Golden Core aren't allowed to enter."

"In the past, Mahayana cultivators of the Great Xuan Dynasty personally attempted but couldn't defy the Spirit Ruins' rules."

"But this elder can do it easily, which is truly astounding."

Su Wangyue felt greatly surprised.

Since entering the Taoist Academy of the imperial capital, her Life Chart 'Son of Thunder' was fully activated, revealing a powerful talent and being accepted by a mighty thunder technique teacher as an apprentice.

Thus, she was thoroughly knowledgeable about various intelligence on the Ten Thousand Treasures Spiritual Ruins.

Because of this, when a large number of demons invaded the Spiritual Ruins, she was panicked; if these demons were allowed to rampage, the Foundation Establishment cultivators entering the Spiritual Ruins would perish here.

But she was helpless, as they couldn't leave, and outside cultivators couldn't come in; it was truly a place of death.

No one could have thought that the mysterious Talisman Daoist would reappear here.

Moreover, accomplishing what even Mahayana cultivators couldn't do, so easily.

"This elder is truly too mysterious."

"I heard an astounding rumor before."

"Originally, four or five Integration Great Powers of our Great Xuan Dynasty had already been replaced by demons."

"Because of these demon spies, numerous Demon Caves appeared in the Great Xuan Dynasty."

"But the imprisoned Integration Great Powers suddenly escaped back from prison, finally exposing the spies' identities, shocking the Great Xuan Dynasty."

"It's said that the mysterious cultivator who rescued these Integration Great Powers is Talisman Daoist."

Jiang Mo spoke seriously.

As a princess of the Great Xuan Dynasty, Jiang Mo is naturally well-informed.

Especially major events that shock the court and the public, she knows all about them.

However, she never expected that the mysterious cultivator who rescued so many Integration Great Powers would be the elder who once saved her, leaving her internally very shocked.

"If this mysterious elder could save so many Integration Great Powers, his cultivation might at least be in the Body Integration Realm, or perhaps he's not even a Mahayana realm cultivator. After all, being able to penetrate the Demon Realm isn't something any cultivator can do."

Liu Shengnan marveled.

Initially, she thought the mysterious elder might just be a Divinity Transformation or Void Refining cultivator.

Once she learned what the Talisman Daoist had done, she immediately believed the person must be a cultivator above Integration.

Otherwise, they simply couldn't rescue so many Integration Great Powers.

"If Talisman Daoist is an Integration Great Power, then why does he specifically come to Fengming City?"

"Although Linglong is indeed a princess of the Great Xuan Dynasty, such an existence should think little of a princess's status, given that there are many princes and princesses."

Xiao Duan was very curious about Talisman Daoist's real intentions.

He knew just how high-ranking Integration Great Powers are, as they have become princes of a domain, ruling numerous regions, and even the Human Emperor treats them with great respect.

Chapter 972: Ye Linglong's Growth, The Mysterious Senior Is an Integration Great Power (Part 2)

The identity of a royal prince or grandson holds immense value for ordinary cultivators, but for a Great Power who can live for up to thirty thousand years, it means little and there's no need to flatter some lost princess from another land.

In contrast, even if they wanted to flatter such an existence, they wouldn't have any opportunity.

"The purpose of that senior probably has a lot to do with the Life Chart."

"I believe you all are aware of your own special traits by now."

"Although others think we have awakened some kind of Spirit Body."

"That mysterious senior said we've awakened a certain kind of Life Chart instead."

"That's why we have various special innate talents."

"For example, Xiao Duan, your Life Chart is Auspicious Seeking, which allows you to sense various opportunities."

"Jiang Mo's Life Chart is Unremarkable, which can lower his presence and gain anyone's favor."

"And Liu Shengnan's Life Chart is Mirror Reflecting Heart, which allows one to have a mind as clear as a mirror, instantly see through an enemy's intent, and enhance one's comprehension."

"Lastly, there's me, with the Life Chart of Only I am Venerable."

"In summary, different Life Charts awaken different innate talents."

"Previously, I also tried to inquire about Life Chart intelligence from other teachers by indirectly suggesting theories."

"Unfortunately, those teachers also know nothing about what a Life Chart truly is."

"It's obvious that this is extremely secret knowledge; even a Great Power in the Integration Realm might not know."

Ye Linglong said in a solemn voice, expressing her insight.

"That's indeed the case."

"Because the power of the Life Chart is indeed too mysterious."

"Up to now, I haven't found a way to probe others' Life Charts."

"Let alone knowing what kind of Life Charts exist in other people."

"If we could know, we'd be able to see through everyone's innate talents."

"This would be an incredibly powerful ability."

Xiao Duan said with a touch of wonder.

He knew there were countless ordinary people in the world, but everyone possessed their unique talents.

However, not everyone is aware of their talents.

Often, not knowing one's strengths makes it easy to get lost.

For instance, if your talent is in Talisman Making, yet you pursue Alchemy instead, isn't that twice the work for half the result?

Once off the right path, turning back becomes very difficult.

But if you could know your talents ahead of time and learn various knowledge accordingly, it would achieve twice the result with half the effort. Thus, they are grateful they could learn about their talents from that mysterious senior.

If they hadn't been enlightened, they could have easily gone down the wrong path, wasting a lot of time.

"I think that mysterious senior could do this possibly due to a special Life Chart."

"Perhaps that senior's Life Chart is Teaching Others."

"Those with such a Life Chart, the more students they cultivate, the higher the students' talents and future achievements, the greater the benefits they receive, which is why that senior seeks geniuses with Life Charts all over the world."

Su Wangyue shared her speculation.

She firmly believed there was no free lunch in the world, and there was no such thing as benefits without reason.

The reason the senior helped them activate their Life Charts and provided some assistance is definitely deeply connected to the senior's own Life Chart.

"A special Life Chart, huh? Honestly, it's quite possible."

"Otherwise, why would they voluntarily help us?"

"Perhaps this is also a path of cultivation for the senior."

"But if it's true, then it's actually a huge advantage for us."

"Equivalent to having a powerful backing."

Ye Linglong's eyes lit up with excitement.

Although she is a princess of the Great Xuan Dynasty, there are too many princesses. She is just one of them.

If she truly wants to obtain the empire's resources, she still needs to improve her cultivation and prove her value to the royal family.

Only then can she receive royal nurturing and further her cultivation.

If she can have a Great Power in the Integration Realm as her support, the benefits for her would be unimaginable.

"Sister Linglong, overall, that senior probably doesn't have much malicious intent toward us."

"If there were malicious intent, the senior wouldn't have saved us multiple times."

"For us, it's most important now to seize opportunities."

"Now that the catastrophe of the demons has ended, we shouldn't waste more time here."

"We should explore those mysterious palaces and obtain treasures instead."

Jiang Mo reminded.

"You're right."

"Xiao Duan, where do you sense an opportunity?"

Ye Linglong immediately asked.

"Northwest. I sense significant opportunities in the northwest direction."

Xiao Duan responded instantly.

Immediately, this group flew toward the northwest direction.

After all, using Xiao Duan's ability, they had found many opportunities.

Although they occasionally encountered danger, the rewards were also immense.

...

Meanwhile, elsewhere.

Inside the Exquisite Tower's world.

At this moment, Jiang Fan sat cross-legged on the ground, operating the Mixed Element Talisman Scripture.

After a month of diligent cultivation, his cultivation advanced by leaps and bounds, finally elevating to the Perfection level of the Fifth-Layer Divinity Transformation Realm, just a step away from advancing to the Sixth-Layer.

Centered on his body, massive amounts of Heaven and Earth Spiritual Qi surged in, as if his body had turned into a black hole, devouring every thread of it.

Simultaneously, this Spiritual Qi was rapidly converted into Primordial Magical Power.

Immediately, the vast Primordial Magical Power circulated through cycle after cycle.

It cycled through a total of one hundred and eight circulations.

This vast Primordial Magical Power surged toward the barrier of the Sixth-Layer Divinity Transformation, like a flood.

Containing immense, unstoppable strength.

Boom!

With a mere collision, the barrier of the Sixth-Layer Divinity Transformation shattered effortlessly, unable to resist.

Sixth-Layer Divinity Transformation!

Obviously, Jiang Fan's cultivation easily ascended from Fifth-Layer to Sixth-Layer in the Realm.

For him, there were no barriers in this realm; as long as his Primordial Magical Power is sufficient, he can naturally advance quickly without any hindrances.

"Finally broke through."

At this moment, Jiang Fan opened his eyes, revealing a joyous smile.

He didn't expect to break through to the Sixth-Layer Divinity Transformation Realm so quickly; clearly, the Ten Thousand Treasures Spiritual Ruins provided a favorable cultivation environment, significantly enhancing his cultivation efficiency.

However, the more important factor was the breakthrough of the Soaring Snake Technique.

Since advancing to the Late Stage of Tier Five Realm, his physique further strengthened, lifespan increased, granting him comprehensive empowerment.

That's why ascending to the Sixth-Layer Divinity Transformation was so swift.

After all, for cultivators, the body is the foundation; if the physique is strong, cultivation efficiency improves, complementing each other.

"Next is to engrave a new Life Talisman."

Jiang Fan was quite eager.

He had already decided on the next Thirty-Three Celestial Spirit Talisman, which would be the Heaven-Crashing Blade Talisman.

This Spirit Talisman originates from the Immortal Artifact Heaven-Crashing Blade.

To be honest, this Immortal Artifact is quite similar to the Heaven-Destroying Sword, Heaven-Dominating Saber, Erecting Spear, and so on; all belong to the attack-type Immortal Artifacts, containing terrifying destructive power.

It possesses the ability to shatter numerous items, Magical Treasures, and arrays.

Once the power of the Heaven-Crashing Blade is unleashed, it can easily destroy the enemy's Magical Treasures and shatter array barriers.

It could be said this Immortal Artifact specifically targets items and arrays, not people.

Therefore, in the Immortal Realm, the Heaven-Crashing Blade struck fear in many Immortals.

They weren't worried about losing a battle but feared their own Magical Treasures being destroyed by the Heaven-Crashing Blade.

If their Magical Treasures were destroyed, they'd lose more than half of their assets.

This was entirely unacceptable to Immortals.

"This kind of Spirit Talisman is quite impressive."

Jiang Fan stroked his chin.

In a way, the Heaven-Crashing Blade Talisman is even more powerful than his previous Life Talisman, the Five Elements Array-Breaking Talisman. Once used, it can shatter numerous array barriers and restriction arrays.

In some ancient ruins, even Immortal Realm ruins, there are bound to be many restriction arrays.

If you can't unravel them, you can't get in.

However, the Heaven-Crashing Blade Talisman happens to counter these restriction arrays' powers.

After successfully engraving this Immortal Realm Spirit Talisman, he'd have another method and trump card.

Chapter 973: The Immortal's Dao Fruit, the Immortal Artifact Ten Thousand Treasures Hall

On the other hand, at the center of the Ten Thousand Treasures Spiritual Ruins.

Here stood a grand palace, towering high, with flying eaves and interlocking brackets, decorated with carved beams and painted rafters, exuding a mysterious and ancient aura. The palace doors stood wide open, as if they could accommodate thousands upon thousands of beings coming and going simultaneously.

The roof was laid with mysterious glazed tiles, which shimmered with colorful lights under the sun or the illumination of Spiritual Qi, looking like a pearl in a celestial realm from afar.

The walls were integrated with dense Immortal Runes and an array of powerful Restriction Arrays.

Any living being approaching would be repelled by the Restriction Arrays.

This was the Ten Thousand Treasures Hall, the most mysterious palace.

However, at this moment, waves of black, eerie energy seeped through the Restriction Arrays, continuously eroding this Ten Thousand Treasures Hall.

It was like sewage continuously polluting this place, with an evil and dark aura spreading all around.

"Haha, you bunch of dogs."

"You still don't know, do you, that all the demons here have been killed."

"Your plan has completely failed."

"If you are wise, hurry up and scram, otherwise you will all die."

The voice of the Artifact Spirit of the Ten Thousand Treasures Hall came out, detecting some of the external events happening.

The demons that once rampaged all over the Ten Thousand Treasures Spiritual Ruins were now completely eradicated.

It sensed that beneficial events for itself must be happening outside.

Perhaps these monsters can be stopped.

"Hehe, foolish creature, what does it matter if those demons are all dead."

"Our target is you, not those human Foundation Establishment cultivators."

"As long as we pollute your soul, then the Ten Thousand Treasures Hall will be ours."

"Surrender obediently, even the Ten Thousand Treasures Immortal King has fallen, do you think you can survive?"

The eerie forces sneered without concern for the deaths of those demons, as they were merely tools.

Even if they all died, it wouldn't affect them at all.

Moreover, they were about to succeed.

Just one month's time, and they could completely extinguish the Artifact Spirit of the Ten Thousand Treasures Hall, and by then, no one could stop them.

"You think you can kill the Ten Thousand Treasures Immortal King? What a joke."

"The Immortal King is such an entity, even dead, he can be resurrected."

"Once the master revives, all you eerie forces will die."

The Artifact Spirit of the Ten Thousand Treasures Hall said, its tone full of deep killing intent and reluctance.

"Still stubborn here, huh."

"The Immortal Realm has been taken over by the Immortal Race, what can a mere Immortal King do."

"Even if resurrected, he would be suppressed by the lord again, just a defeated foe."

"But even if the Ten Thousand Treasures Immortal King revives, you won't see it happen again."

"Because you will soon die at our hands."

The eerie forces disdainfully spoke, not caring about the dying struggle of the Artifact Spirit of the Ten Thousand Treasures Hall.

To invade the Ten Thousand Treasures Spiritual Ruins, they paid a great price and planned for a long time.

Today, they finally found the loophole in the Ten Thousand Treasures Spiritual Ruins, which allowed them to infiltrate this Secret Realm World.

One could say their plan was foolproof, and the mere Artifact Spirit of the Ten Thousand Treasures Hall could not possibly stop them.

"You really think that since I'm gravely injured, I can't do anything to you."

"Even though I'm in a shattered state, I'm not something you can handle."

"Even if I am truly going to perish, you will gain nothing."

The Artifact Spirit of the Ten Thousand Treasures Hall was furious beyond measure.

Boom~~

In an instant, a fierce battle erupted again between the two sides, with terrifying void fluctuations permeating all around.

Endless colorful treasure lights clashed with black light, continuously wearing down each other's strength.

Deep in the void, waves of Law fluctuations emerged, as if Immortal beings were engaged in battle.

.....

In the blink of an eye, another month passed.

Jiang Fan had also spent a large number of Luck Points, finally successfully comprehending the Heaven-Crashing Blade Talisman, simultaneously engraving this Thirty-Three Celestial Spirit Talisman deep into his Primordial Spirit, making it his Life Talisman.

In the depths of his Primordial Spirit, a mysterious sharp blade appeared, radiating an aura of fierce and domineering energy, glinting with cold light, seemingly able to release rays of cold light, slicing through the void, once activated.

Undoubtedly, even though this Life Talisman was not particularly proficient in combat, in terms of destructiveness, it was not something an ordinary cultivator could withstand.

If encountered with a common Divinity Transformation cultivator, activating this talisman would release cold rays, instantly killing the enemy, slicing their body into countless pieces.

Thinking of this, Jiang Fan felt a stirring in his heart and immediately opened the Virtual Panel on his body.

Chapter 974: The Immortal's Dao Fruit, Immortal Artifact Ten Thousand Treasures Hall (Part 2)

[Realm: Sixth-Layer Divinity Transformation (24%)]

[Profession: Tier Five Middle Grade Talisman Master (95%)]

Without a doubt, this month's cultivation has also made his cultivation progress rapidly.

The Primordial Magical Power within him continues to grow, reaching 24% progress in cultivation.

It is estimated that with several more months, or even a year of cultivation, there will be an opportunity to advance to the Seventh-Layer Divinity Transformation.

"Origin Energy truly is profound and boundless."

"If there's a chance to destroy another Demon Cave, I'm afraid the cultivation speed would be even faster."

"Unfortunately, destroying a Demon Cave is not a simple matter."

"It is still necessary to wait for the right moment."

Jiang Fan is quite satisfied with his cultivation progress.

If he were still in the Void Realm now, advancing from the Fifth to the Sixth-Layer Divinity Transformation would take decades, or even a hundred years without breaking through.

It is unlike now, where he breaks through a layer in almost a year's time.

If this matter spreads, it would be unknown how many Divinity Transformation cultivators would be shocked.

However, this is a special treatment that can only be obtained when the world faces a great crisis.

It's like the Heavenly Dao bestowing enlightenment upon you.

This is also why the cultivation of those Children of Destiny is always so swift when the world faces a catastrophe, allowing them to rival those ancient monsters who have cultivated for ten thousand years within decades, or a hundred years.

After all, receiving the world's origin enlightenment naturally saves a lot of time spent in arduous cultivation.

Moreover, there would not be any after-effects.

"However, this month I have unexpectedly activated so many Life Chart holders."

"This Ten Thousand Treasures Spiritual Ruins is a treasure trove."

"As long as I stay here, many cultivators of the Great Xuan Dynasty will willingly come forward."

Jiang Fan was very excited.

He discovered that this time he found as many as 156 cultivators with Life Charts, and he established a cause-and-effect relationship with them, also gifting them Cause and Effect Communication Immortal Talismans.

Although these cultivators are still very weak, as time goes by and they grow, they might become a formidable force. After all, every cultivator with a Life Chart is a genius.

Even the talents of those with a Lower Grade Life Chart are stronger than those of ordinary cultivators.

Such geniuses naturally have a higher probability of growing strong.

"But truly, the Life Charts of these cultivators are extremely diverse."

"Almost none of the cultivators' Life Charts are the same."

"Even if they seem the same, the abilities they possess are entirely different."

Jiang Fan stroked his chin.

He sensed that he had formed a causal connection with each of the Life Chart cultivators.

He also learned many details about these Life Charts.

The appearance of these Life Charts also broadened his horizons, as if he were seeing the various cosmic paths of this universe.

For example, the Middle Grade Life Chart "Concealment and Biding" allows its holder to hide their aura and abilities, making others unable to detect their true strength. The longer they stay hidden, the higher their talent and cultivation will become.

The Lower Grade Life Chart "Silver Tongue" allows a cultivator to be very eloquent, making their words easily trusted by others. It helps them build vast networks of contacts, and the more relationships they forge, the stronger their Life Chart becomes.

The Upper Grade Life Chart "Famous Across the Land" requires a cultivator to have immense fame, and the greater their reputation, the faster their cultivation speed and higher their talent. So those with this Life Chart need to become famous, and the sooner, the better, as being low-profile would be detrimental to them.

In essence, different Life Charts contain different talents and bestow different abilities.

"Life Charts originate from the path achieved by an Immortal."

"They come from an Immortal's Dao Fruit."

"One could say they contain a portion of an Immortal's path."

"The higher-level the Life Chart, the more of the path it contains."

"By establishing causal relationships with many Life Charts, can it further activate my Life Chart?"

Jiang Fan squinted his eyes.

He felt that he had not fully unleashed the potential of his Life Chart, "Supreme Fortune," even though the ability of destiny guidance was already extremely powerful. However, it is not the limit of this Life Chart.

In some mysterious way, he felt he needed to obtain even greater Destiny and more Life Chart information to fully develop his Life Chart.

"Calculating the time, it's about time."

"It's also time to head to the Ten Thousand Treasures Hall."

At this moment, Jiang Fan was moved and started to remember his main task.

He certainly hadn't forgotten the previous destiny guidance.

The reason for waiting two months was to wait for the best timing.

Clearly, now should be the time when both the Ten Thousand Treasures Hall and the anomalies are gravely injured.

He could just as well reap the benefits without effort.

Woosh!

In an instant, Jiang Fan left the Exquisite Tower, flying in the direction of the Ten Thousand Treasures Hall.

The expanse of the Ten Thousand Treasures Spiritual Ruins is vast and boundless, with very complex terrain inside, with vast mountain ranges like giant dragons sprawling across the earth, rising and falling.

Many palaces are nestled among these mountains, dividing the land into separate regions.

The Ten Thousand Treasures Hall is naturally located in the center of the Ten Thousand Treasures Spiritual Ruins.

However, this place is quite hidden, surrounded by white mist.

Without the power of destiny guidance, Jiang Fan would also find it difficult to find the exact location of the Ten Thousand Treasures Hall in a short time.

"Is it here?"

Before long, Jiang Fan finally arrived near the Ten Thousand Treasures Hall.

Originally, this place was shrouded in white mist, with layers of restriction arrays etched in the void, containing fearsome power, capable of instantly killing any ordinary cultivators who approached.

Thus, for hundreds of millions of years, even if a Foundation Establishment Cultivator had passed by, they couldn't possibly enter.

Evidently, the Ten Thousand Treasures Hall did not wish for any cultivators to come near, so any intruder was ruthlessly killed, and over time, this place became a Life Forbidden Zone.

But now is not like the past.

The white mist here has completely dissipated, and a colossal palace was immediately presented in front of him.

At the same time, Jiang Fan could see a massive black cloud hovering above the palace, enveloping the surroundings, with the depths of the black mist filled with countless skulls, looking extremely eerie.

Even more terrifying, the palace, originally resplendent in gold and jade, now displayed black imprints, as if an eerie, terrifying force was eroding the very foundation of the palace.

And the palace was desperately holding on, but it was clearly reaching its breaking point.

It could be said that Jiang Fan instantly saw the Ten Thousand Treasures Hall and numerous anomalies locked in a life-or-death struggle, with neither willing to concede, and the anomalies clearly held the upper hand.

Boom~

At this moment, a message instantly entered the depths of his consciousness.

"The Immortal Artifact Ten Thousand Treasures Hall and the anomalies' confrontation has reached a critical moment, after two months of confrontation, both sides' forces are weakened to the extreme, yet the anomalies' forces hold the edge, about to achieve complete victory.

Everyone desires to become the fisherman and eventually prevail; historically, many cultivators have attempted to strategize against the anomalies but mostly failed, as their powers are unfathomable. If unable to kill them instantly, they often allow them a chance for a comeback; fortunately, with destiny guidance, you won't give them such an opportunity."

"Destiny will give you guidance."

"Destiny Tip One: To completely kill the anomalies, you have only three seconds, or they will react instantly, and even at their weakest moment, they are beyond your means to withstand.

In the first second, you need to use the Heaven-Crashing Blade Talisman, as they are covered by layers of restriction arrays requiring the talisman to break their restriction, shattering their defenses.

In the second second, employ the power of the Immortal Artifact Seven-Colored Lotus Lamp, activate the Seven-Colored Immortal Fire, as these anomalies are surrounded by darkness, curses, and death; only the fire can burn through these negative energies to break their secondary defenses and reach their core."

"In the third second, use the power of the Human Emperor Sword, for even if their defenses are broken, their core remains difficult to destroy, but the Human Emperor Sword, immune to anomalies, contains the Power of Human Dao perfectly countering their core, allowing anomalies to vanish entirely."

"Destiny Tip Two: Even if you slay the anomalies, remain vigilant,-ignore any words from the Ten Thousand Treasures Hall's Artifact Spirit, immediately refine this Immortal Artifact, as hesitating for even one second, the hall will move beyond this region, making it nearly impossible to locate again, causing you to lose the best opportunity to gain control over the Immortal Artifact Ten Thousand Treasures Hall entirely."

Chapter 975: Heavenly Destiny Artifact, Empowered by the Heavenly Dao

"Three seconds? That should be enough."

Sensing this message, a chill flashed in Jiang Fan's eyes.

Evidently, even if this strange group and the Ten Thousand Treasures Hall were both severely injured, killing them wasn't a simple task.

Fortunately, he possessed the power of the destiny hint, as if he could see through fate itself.

In this way, no matter how formidable that group of strange beings was, they couldn't escape the power of destiny.

Whoosh!

With that thought, Jiang Fan didn't hesitate. He immediately used Shrinking Earth into Inches and appeared in front of the Ten Thousand Treasures Hall in an instant. Then, he activated the Life Talisman on him—the Heaven-Crashing Blade Talisman.

Although this talisman was only at the Entry Level, his cultivation had already reached the Sixth-Layer Divinity Transformation, so he could unleash part of the power of this Immortal Realm talisman.

Boom~~

A talisman instantly condensed into terrifying blades that transformed into a rain of swords, attacking the many strange beings in the Ten Thousand Treasures Hall.

In an instant, a terrifying force of shattering erupted, striking these strange beings.

"What's going on?"

The many strange beings were dumbfounded. They hadn't detected Jiang Fan's arrival at all, after all, they were fully focused on dealing with the Ten Thousand Treasures Hall, aiming to erode the Artifact Spirit of this immortal artifact.

If they succeeded, not only could they merge completely with the Ten Thousand Treasures Spiritual Ruins, but also extinguish any chance for the Immortal King of Ten Thousand Treasures to resurrect. It was a plan with multiple benefits.

But they never expected that at this critical moment, another enemy would appear here.

They didn't even sense the presence of the enemy coming.

By the time they detected this power, it was already too late.

Boom!

Blades struck their bodies, instantly shattering the many barriers and restrictions covering them like glass, breaking into pieces.

This was their First Layer of defense.

Often, enemies couldn't even break their First Layer of defense.

But now, with just one attack from the enemy, their special barriers were completely shattered. This power seemed particularly effective against restrictions and barriers.

"A human, it's a Divinity Transformation human attacking."

"It must be that human cultivator who slaughtered many demons."

"When exactly did this bastard find the Ten Thousand Treasures Hall? Could he have known about our existence all along?"

"Kill him, kill this damned human immediately. We can't let him live."

The strange beings were furious beyond words.

Since infiltrating the Spirit Ruins Realm, they had never suffered such a loss.

And they were always the ones to ambush humans, never the other way around.

This was completely turning the tables.

But before these strange beings could react, the second second arrived.

Jiang Fan didn't hesitate at all, activating the Immortal Artifact, the Seven-Colored Lotus Lamp.

Suddenly, this immortal lamp was infused with abundant Primordial Magical Power, wisps of seven-colored immortal flames blazed fiercely, seemingly capable of dispelling endless darkness, burning the void into collapse.

Boom~~

The seven-colored immortal fire seemed to come alive, pouncing onto the strange beings, as if flames had touched oil, starting to blaze fiercely.

The dark matter on the strange beings' bodies acted like fuel, instead empowering the seven-colored immortal fire, causing their entire bodies to be engulfed in flames.

Intense pain spread instantly throughout their bodies, a kind of agony the strange beings had never tasted before.

"Impossible, could this be the legendary Seven-Colored Immortal Fire?"

"But wasn't the Seven-Colored Immortal Fire said to be extinct in the Immortal Realm? How could it appear here?"

"Something's wrong, this human is highly suspicious. This bastard knows of our existence, he's here specifically to deal with us."

"No need to worry, we possess Undying Bodies, a mere human couldn't possibly kill us."

"Since this human seeks death, let's grant his wish."

The strange beings were both shocked and enraged.

But they also sensed something wrong, because the methods this human used seemed specifically crafted to restrain them, almost as if he knew their weaknesses very well.

Due to the burning of the Seven-Colored Immortal Fire, their Second Layer of defense was thoroughly destroyed, with the vast dark matter incinerated into nothingness, turning into ashes.

Immediately, they revealed their cores, the core of the strange beings.

The black cores looked extremely revolting, resembling living black hearts, only the size of a grain of rice, yet they seemed wrapped in twisted Laws.

They appeared as though they were made of numerous worms.

These strange cores carried an immortal aura, making them difficult to kill.

Buzz~~

In an instant, the strange beings were enraged to the extreme, their powers of darkness, curses, and death suddenly erupted, attempting a desperate struggle.

This piece of void was invaded by dark matter, with countless dark cracks appearing as though cursed tentacles enveloped thousands of kilometers.

The strange power emanating from them was enough to corrode any cultivator's Life Force, capable of seizing any living being's Lifespan, devouring life within them.

The third second!

However, Jiang Fan didn't pay attention to any of the strange beings' actions. Following the message of the destiny hint, he instantly took out the Immortal Artifact Human Emperor Sword.

Chapter 976: Heavenly Destiny Artifact, Empowered by the Power of the Heavenly Dao (2)

At the moment this Immortal Artifact appeared, the entire Spirit Ruins Realm began to tremble, seemingly transforming into a Heavenly Destiny Artifact.

Deep in the void, endless human Destiny and Heavenly Dao Destiny poured into the Human Emperor Sword.

It seemed that at this moment, this Immortal Artifact was bearing the infinite destiny of this world, carrying the fate of the entire world.

Boom~~

In an instant, the long sword emitted endless golden light, which spread out, containing the power to dispel all curses and darkness.

The dark aura and eerie presence that was originally rampaging from all directions began to dissolve upon contact with these golden lights, simultaneously emitting sizzling sounds.

At this moment, it felt as if this space-time had come to a standstill.

"Impossible; this is the Heavenly Destiny Artifact."

"It's merely a human Divinity Transformation, how could he possess the Heavenly Destiny Artifact?"

"Isn't the Heavenly Destiny Artifact in the hands of the Human Emperor? How did this guy get it, what exactly happened?"

The many eerie entities were terrified, shaking with disbelief.

They knew all too well how terrifying the Heavenly Destiny Artifact was, a Magical Treasure forged from the Origin Energy of the entire Great Thousand Worlds, bearing the world's Destiny.

Once such a Magical Treasure unleashes its power, it is akin to confronting the entire world.

The Heavenly Destiny Artifacts of different worlds differ.

Some worlds have a mirror, some have a cauldron, others a halberd, and so on.

Typically, such Heavenly Destiny Artifacts are held by the Child of Destiny.

For instance, the Heavenly Destiny Artifact of the Spirit Ruins Realm resides with the Emperor of the Great Xuan Dynasty.

How did this human Cultivator in front of them obtain it?!

The eerie entities could not understand why and had no time to ponder.

Because the power of the Human Emperor Sword was already crashing down on them.

Boom!

With just one strike, a terrifying golden sword light locked onto every eerie entity.

It was as if this sword was splitting the entire world in half.

The weight carried by one of the sword lights was the power of the whole world.

It can be said that this sword was merely the Heavenly Dao wielding Jiang Fan's hand to strike.

Like heavenly punishment.

Boom!

These eerie entities had no power to resist, even their seemingly indestructible eerie cores turned to dust under the sword's power.

It was as if they were completely devoured by the power of heavenly punishment, turning into nothingness.

"Dead, those eerie entities are finally dead."

At this moment, the artifact spirit of the Ten Thousand Treasures Hall sensed that the eerie entities corrupting its core were all dead; it was instantly overjoyed, feeling as if it had narrowly escaped death.

To be honest, it had truly believed that it was doomed, that its intelligence would be twisted by the eerie entities, becoming a puppet.

It had even prepared to perish with the enemy.

Who would have thought that this suddenly appearing human Divinity Transformation Cultivator actually possessed the ability to slay eerie entities, making it feel immensely joyful, as if it had been saved by its savior.

Of course, even so, it was not possible for it to acknowledge this human as its master.

Its master has always been the Immortal King of the Ten Thousand Treasures Hall.

However, since this human helped it, it could generously grant him a nice treasure.

For this mortal, this would be an unimaginable opportunity in his lifetime, wouldn't it?

"Mortal, you've done quite well."

"To actually have the ability to kill these eerie entities, you've earned the friendship of my Ten Thousand Treasures Hall."

"Kneel down, and you will receive the reward from the Immortal King of the Ten Thousand Treasures Hall."

The voice of the Ten Thousand Treasures Hall came out, full of arrogance.

Just like an Immortal high above, granting treasures to a mortal.

Boom~~

At this time, Jiang Fan's figure flickered, directly arriving in front of the Ten Thousand Treasures Hall, reaching out with a big hand to touch the Ten Thousand Treasures Hall.

At the same time, he instantly consumed a large amount of his Luck Points.

Five million, ten million, fifteen million, twenty million Luck Points...

Instantly, a mysterious energy suddenly poured into the Ten Thousand Treasures Hall, directly reaching the core depths of the Immortal Artifact, the Ten Thousand Treasures Hall.

This power was extremely domineering and ruthless, completely ignoring whether the artifact spirit of the Ten Thousand Treasures Hall was willing or unwilling, directly transforming into chains like Heavenly Dao chains, thoroughly refining the core within.

"What's happening? What on earth are you intending to do to the great Ten Thousand Treasures Hall, you damned human?"

"Damn it, you're not really planning to refine my great Ten Thousand Treasures Hall, are you? What a joke."

"I am an Immortal Artifact; the Lifebound Magical Treasure of the Immortal King."

"Mere Mortal Cultivator dares to refine me and lay hands on an Immortal Artifact?!"

The artifact spirit of the Ten Thousand Treasures Hall was shocked and angry, simply furious.

This is like stepping out of a wolf's den only to enter a tiger's lair.

I am the great Magical Treasure of the Immortal King, my full power in the prime could shake the Nine Heavens and Ten Lands.

Ordinary Immortals would kneel before me, begging to receive the Immortal King's grace.

But this mere Mortal Cultivator dares to act so brazenly, forcibly refining me.

This is simply a toad wishing to eat swan meat, a beggar attempting to marry a Princess.

No one has seen such audacious, reckless individuals.

It urged its internal Origin Energy, attempting to completely destroy the refining power of this fellow, while counteracting against him.

But it had just experienced a life-and-death battle with the eerie entities, having already exhausted all its energy reserves.

Even if it wanted to retaliate, it had no strength left to do so.

It's as if it was like the paralyzed Little Dragon Maiden, allowing anyone to do as they pleased with it.

Chapter 977: Heavenly Destiny Artifact, Empowered by the Heavenly Dao (Part 3)

Without a doubt, this wretch seized the moment, not only eliminating this hateful group of anomalies but also aiming to thoroughly refine me. This guy wants to kill two birds with one stone and achieve double benefits.

Rumble~~

In an instant, when Jiang Fan spent fifty million Luck Points, he felt his soul merge with the core of the Ten Thousand Treasures Hall, creating a destiny connection between them.

He realized he finally refined this Immortal Artifact, and now he held the power of life and death over its Artifact Spirit.

With just a thought, he could plunge this Immortal Artifact's Artifact Spirit into silence, or nurture a new Artifact Spirit.

"It's over, it's over, it's completely over now."

"What despicable method did you use?"

"How could you refine an Immortal Artifact so easily?!"

Ten Thousand Treasures Hall was bewildered, sensing it was forcibly bound by a contract, all its imprints vanished cleanly, replaced by new contract imprints forced upon it by this Mortal Cultivator.

If the other party wished, it would be obliterated in an instant.

It had already been thoroughly refined by the other party.

"What rubbish Immortal King Magical Treasure, a downed Phoenix is worse than a chicken."

"You almost got killed by anomalies. If Master hadn't saved you, you'd be done for, and yet you put on airs here."

"Master being able to refine you is your fortune."

"Dare to complain, and your intelligence will be erased, birthing a new Artifact Spirit."

At this moment, the Ten Thousand Transformations Immortal Cauldron jumped out, cursing at the Ten Thousand Treasures Hall.

As the first Magical Treasure under the Master's possession, it couldn't stand this newly arrived Magical Treasure.

It must be fiercely taught a lesson to know who is the boss around the Master.

"Who are you to say such things to an Immortal King Magical Treasure?"

"Just a small, ordinary Immortal Artifact, how dare you have such audacity?"

"If I were still in my prime, one thought, and I could turn you, an ordinary Immortal Artifact, to ashes, you know?"

Ten Thousand Treasures Hall was furious.

For all its years, it was the first time it was insulted so by a junior.

It's just an ordinary Immortal Artifact yet dares to show off in front of me; simply asking for death.

"What rubbish prime, if you were so incredible, would you have been killed by anomalies?"

"Boasting about being the Ten Thousand Treasures Immortal King is purely putting gold on your face."

"Even in your prime, you probably weren't that powerful of an Immortal."

"My Master just faced unfortunate timing and short cultivation time."

"If born in the same era as that so-called Ten Thousand Treasures Immortal King, I bet that so-called Ten Thousand Treasures Immortal King would only be worthy of shining shoes for my Master."

The Ten Thousand Transformations Immortal Cauldron sneered.

What it detested most was this kind of poser.

Unaware of how many years ago it had fallen, yet still dared to boast about past glories.

If truly so incredible, it wouldn't be in this situation now.

"You!"

Ten Thousand Treasures Hall was furious to death, feeling this was its most infuriating day in all its years.

This guy's mouth was too toxic.

Wishing it could strike right now to beat this rubbish Ten Thousand Transformations Immortal Cauldron half dead.

"This."

Beside it, the Demon-Vibrating Bell, Exquisite Tower, Primordial Talisman Pen, Human Emperor Sword, and other Magical Treasures were speechless. They had suffered greatly from this; this fellow had been foul-mouthed from the start and liked to bully with authority, truly unique among Magical Treasures.

Chapter 978: One Hundred Million Luck Points, Another First-Grade Opportunity

Boom!

At this moment, a message instantly penetrated deep into Jiang Fan's sea of consciousness: "You have taken action to slay this group of strange creatures, successfully stopping a massive disaster that could have endangered the Spirit Ruins Realm, and you have received one billion Luck Points, as well as a First-Grade Opportunity."

Sensing this message, Jiang Fan couldn't help but raise an eyebrow.

There is no doubt that the so-called First-Grade Opportunity is this Ten Thousand Treasures Hall, an Immortal Artifact.

He didn't expect this Immortal Artifact to be precious to such a degree, even in a damaged state, it is incomparable to ordinary Magical Treasures, after all, its origins are significant.

But more importantly, he has gained a whopping one billion Luck Points this time, which is truly outrageous.

One must know, previously he had to destroy an entire Demon Cave to gain so many Luck Points.

Now, just by eliminating a group of strange creatures, he has gained so much.

But this also proves the harmfulness of this group of strange creatures.

Presumably, their damage to the Spirit Ruins Realm is no less than that of a Demon Cave, hence he gains such a vast Destiny.

By taking action to slay this group of strange creatures, it is equivalent to ridding the Heavenly Dao of the Spirit Ruins Realm of a formidable foe.

In the unseen, he sensed that his Destiny had once again skyrocketed.

Compared to before, his Destiny has surged again, gaining more favor from the Heavenly Dao of the Spirit Ruins Realm.

"What kind of abilities do you possess?"

Thinking of this, Jiang Fan spoke to the Ten Thousand Treasures Hall.

Upon hearing these words, the Ten Thousand Treasures Hall was instantly furious, it is, after all, a majestic Immortal King Magical Treasure, how could a mere Mortal Cultivator dare to question it? It's simply outrageous.

It originally didn't want to bother with this detestable human cultivator, but when the words were at its mouth, it couldn't help but say them: "I am the Ten Thousand Treasures Hall, once an unparalleled Immortal Artifact capable of trading among all realms, the Ten Thousand Treasures Immortal King relied on the Ten Thousand Treasures Hall to become one of the wealthiest immortals in the Immortal Realm, acquiring countless treasures."

As soon as it finished speaking, it wished it could slap itself; how could it listen to this bastard's words, it absolutely cannot be toyed with by this hateful human cultivator.

"Trading among all realms? How is that done?"

Jiang Fan continued to ask.

"I can condense countless Ten Thousand Treasures Tokens."

"Then sell these Ten Thousand Treasures Tokens to each Immortal."

"The Immortals can then transmit their treasures to the Ten Thousand Treasures Hall through the tokens, and the Ten Thousand Treasures Hall delivers the treasures to another person—it can be said that the Ten Thousand Treasures Hall does not need to do anything."

"Merely by being a transit station and charging commissions, it can earn a fortune."

The Ten Thousand Treasures Hall proudly declared.

In the past, the Ten Thousand Treasures Hall was a renowned place in the Immortal Realm, attracting countless Immortals.

Almost every treasure that appeared in the Immortal Realm could be bought from the Ten Thousand Treasures Hall.

It can be said that the Ten Thousand Treasures Hall became one of the greatest trading centers in the Immortal Realm.

Unfortunately, due to the enormous profits it earned, it became the target of countless Immortal Kings' envy, leading to the assassination of the Ten Thousand Treasures Immortal King, resulting in his death and soul dissipation.

Even the Ten Thousand Treasures Hall was struck down into the Mortal World, its body shattered and reduced to numerous fragments.

Now it is merely a core, with other parts lost and untraceable.

Because of this, it can only stay within the Ten Thousand Treasures Spiritual Ruins, unable to go anywhere.

"To think it can achieve such feats?!"

"How many Ten Thousand Treasures Tokens can you condense now?"

Upon hearing this, Jiang Fan's eyes shone brightly, he immediately realized the preciousness of the Ten Thousand Treasures Hall.

In a sense, the Ten Thousand Treasures Hall is akin to the Gate of the Void, both being spatial-type Magical Treasures.

Only the Gate of the Void allows him to traverse all places, while the Ten Thousand Treasures Hall allows the transmission of various treasures.

In this way, by utilizing the Ten Thousand Treasures Hall, he can transmit numerous precious cultivation resources from one place to another, saving countless transportation costs.

If he were a shrewd merchant, he could even use the power of the Ten Thousand Treasures Hall to buy low and sell high, earning enormous wealth and reaping endless benefits.

Undoubtedly, this Immortal Artifact will become one of his important trump cards.

Especially the forces he established in the Spirit Ruins Realm.

He can completely gift the Ten Thousand Treasures Tokens to those with Life Charts.

In this way, those cultivators with Life Charts will certainly benefit greatly from it.

They can spread far and wide, acquiring countless resources of the Great Xuan Dynasty.

He could even borrow the power of Ye Linglong, Li Changsheng, and others to help him find more cultivators with Life Charts.

After all, it would be too difficult for him alone to find a large number of cultivators with Life Charts.

Yet with many people helping, who knows how much the efficiency will increase.

For example, if each person can find three cultivators with Life Charts, then the number will swell to hundreds.

Then those hundreds swell again, becoming thousands.

By analogy, it may not take long before all the Life Chart cultivators in the Spirit Ruins Realm can be gathered.

Of course, there are very few cultivators with Life Charts.

Relative to the vast population base of the Spirit Ruins Realm, they are but a drop in the ocean.

Therefore, the forces he builds can only be joined by elites, preventing a constant expansion in numbers.

"Condensing Ten Thousand Treasures Tokens is merely a small matter, however many you want, you can have that many."

"Completely trivial."

Chapter 979: 100 Million Luck Points, Another First-Grade Opportunity (2)

The Ten Thousand Treasures Hall spoke quite proudly.

Even though it is currently incomplete, it remains an Immortal King Magical Treasure, among all Immortal Artifacts, it is a top magical treasure, incomparable to ordinary Immortal Artifacts.

"That is indeed excellent."

Jiang Fan immediately understood the various abilities of the Ten Thousand Treasures Hall.

This Immortal Artifact can transmit a Ten Thousand Treasures Token to every destined person through the threads of karma.

In other words, as long as he establishes a relationship with a cultivator, he can gift the Ten Thousand Treasures Token to them.

The only drawback is that the Ten Thousand Treasures Hall cannot currently leave the Ten Thousand Treasures Spiritual Ruins.

Because it has already merged with the Spiritual Ruins, it is the core treasure of this Secret Realm World.

If it were to leave, the entire Secret Realm world would collapse thoroughly.

However, staying here also has its benefits, as the energy needed for the Ten Thousand Treasures Hall to operate is provided by the Ten Thousand Treasures Spiritual Ruins, thus it does not require much energy.

To some extent, obtaining the Ten Thousand Treasures Hall is equivalent to mastering the entire Ten Thousand Treasures Spiritual Ruins.

"Do you have any means to open the Restriction Arrays of other palaces?"

Jiang Fan inquired.

He knows that there are numerous palaces within this Secret Realm World.

These palaces contain countless treasures.

If he could open these palaces, the benefits he would gain are immeasurable.

"I have no means."

"Because these palaces were left by different Immortals."

"They contain the inheritance and treasures of different Immortals."

"Unless recognized and passed their trials, their treasures cannot be acquired."

The Ten Thousand Treasures Hall replied in a deep voice.

Although those Immortals were once subordinates of the Ten Thousand Treasures Immortal King, it can't alter the orders of these Immortals as the Ten Thousand Treasures Hall. However, if it were in its prime, breaking these palaces' Restriction Arrays wouldn't be a major issue.

But now it is in a damaged state, only retaining a sliver of its power.

Therefore, attempting to break these palaces' Restriction Arrays is practically impossible.

"Then let's leave it."

"Leave these palaces be; anyway, they can't escape."

Upon hearing this, Jiang Fan immediately abandoned the idea of opening other palaces' Restriction Arrays.

Regardless, the Restriction Arrays of these palaces are extremely strong, beyond his current capability to break.

Furthermore, if he truly breaks them all, the Great Xuan Dynasty would likely stop sending Foundation Establishment Cultivators in.

In that case, wouldn't he lose a channel to find numerous Life Plate Cultivators?

It's better to leave the Ten Thousand Treasures Spiritual Ruins as bait to continuously attract talented cultivators to venture here.

This is a more sustainable development path.

"By the way, how did the Ten Thousand Treasure Immortal King perish?"

At this moment, Jiang Fan curiously asked, looking at the Ten Thousand Treasures Hall.

Though he doesn't know how Immortals are ranked, as an Immortal King, it must be extremely powerful among Immortals. Yet, such a being still fell, indicating the enemy's extraordinary strength.

Considering previous information, the enemy is likely the Immortal Race.

"I cannot say."

"You are too weak."

"If revealed, the Immortal Race would definitely sense it."

"Then you would undoubtedly die."

"You must at least cross the tribulation and become an Immortal to be qualified to know these matters."

The Ten Thousand Treasures Hall spoke solemnly, its tone very serious.

As the former Immortal King Magical Treasure, it indeed knows a great deal of information.

But this information cannot be casually divulged; otherwise, the enemy would surely notice.

In fact, if it weren't concealed within the Mortal World, it might have been captured by the enemy long ago.

"Alright, since it's something I shouldn't know, don't mention it."

"However, according to your previous words, could the Ten Thousand Treasures Immortal King have a chance for resurrection?"

Jiang Fan asked.

After all, he forcibly refined the Ten Thousand Treasures Hall, which was once the opposing party's Lifebound Magical Treasure.

If genuinely resurrected, they might turn hostile against him.

Hence, he wants to know something in advance regarding the Ten Thousand Treasures Immortal King.

"Indeed, there is a chance for resurrection."

"Given how strong the Immortal King was, killing an Immortal King is not that simple."

"Even if truly fallen, they might revive from the depths of the Endless Void."

"Yet, the enemy is too formidable, possibly employing various means to prevent the Immortal King's resurrection."

"Frankly, I've waited too long with no news of the Ten Thousand Treasures Immortal King resurrecting."

"Thus, I feel the Ten Thousand Treasures Immortal King has perhaps truly perished."

The Ten Thousand Treasures Hall said, sounding quite helpless.

It naturally hopes the Ten Thousand Treasures Immortal King could revive, having been partners for so many years.

But billions of years have passed with no sign whatsoever of the Ten Thousand Treasures Immortal King reviving.

This causes it to feel waves of despair; the means of the Immortal Race are still terrifying.

Whenever recalling past events makes it shudder.

"I see."

Jiang Fan squinted his eyes without feeling the slightest joy; the Immortal Race even managed to kill an Immortal King completely, indicating the enemy's vast power.

To solve the Void Realm's impending doom thoroughly, it isn't easy either.

After all, the Void Realm once brimmed with mighty figures, yet was still annihilated.

However, even so, he hasn't lost confidence.

"Hmm, are those Foundation Establishment Cultivators about to leave the Ten Thousand Treasures Spiritual Ruins?"

"In that case, I'll return to the Ice Prison."

"Given I just killed so many anomalies, hiding in the Ice Prison's necessary to evade the enemy's tracking."

Jiang Fan hasn't forgotten the potential future dangers he might face, those anomalies wield mysterious means, possibly mastering unique methods to locate him via karma.

To avoid the enemy's tracking, hiding in the Ice Prison is required.

Whoosh!

Thinking of this, Jiang Fan decided without hesitation, opening the Gate of the Void, and soon left the Ten Thousand Treasures Spiritual Ruins.

...

Meanwhile, in a place within the Spirit Ruins Realm.

As numerous anomalies were slayed by Jiang Fan, this instantly became known to those anomalies concealed in the shadows, after all, this time only part of their forces assaulted the Ten Thousand Treasures Spiritual Ruins.

The main forces remain concealed, ready to act.

"Dead, all companions that invaded the Ten Thousand Treasures Spiritual Ruins are dead, not a single one left behind."

"Impossible, the Ten Thousand Treasures Hall is merely a dying Immortal Artifact, how could it possibly resist our anomalies' force? According to previous calculations, our plan was foolproof."

"Ordinarily, it was indeed foolproof, with the Ten Thousand Treasures Hall thoroughly corroded, the Ten Thousand Treasures Spiritual Ruins would fall; however, a variable disrupted our plan."

"A variable? What kind of variable dares to sabotage our plan?"

"Talisman Daoist, it was the enemy named Talisman Daoist who killed our companions; he seems to wield a Heavenly Destiny Artifact that empowered him to murder our companions."

"Hold on, this guy previously also destroyed a Demon Cave, rescuing numerous human cultivators; who is this guy, constantly ruining our plans?"

"Unclear, previous investigations into Talisman Daoist yielded nothing of his background, like a mysterious cultivator appearing out of thin air."

Various anomalies discussed angrily, feeling very exasperated.

Before Talisman Daoist appeared, their plan proceeded smoothly; despite ongoing struggles by this world's cultivators, they could never halt their advancement.

Yet now, one vital plan after another was disrupted.

Though still unable to shake their foundation, this serves as a stark warning.

If this continues, it could genuinely threaten their force invading the Spirit Ruins Realm.

This is something they cannot allow.

"Can we track Talisman Daoist? We must find his trail and tear him apart."

"I just attempted a secret technique to track Talisman Daoist but discovered his karma had vanished entirely; he must have used some means to obscure his karma."

"Crafty human cultivator, it seems he comprehends many of our methods; we must observe Talisman Daoist closely, attack immediately upon finding him, and capture him—I want to see what this guy truly comes from."

Numerous anomalies were furious.

Deep inside, they suspect this Talisman Daoist might be the Child of Destiny of the Spirit Ruins Realm; only by killing this Talisman Daoist can they have the chance to thoroughly invade this world's forces.

Chapter 980: The Birth of the Primordial Alliance—An Organization Spanning the Spirit Ruins Realm

Another day passed.

Many Foundation Establishment Cultivators left the Ten Thousand Treasures Spiritual Ruins, and what happened there naturally caught the attention of the higher-ups of the Great Xuan Dynasty. Each one was quite astonished, as they hadn't anticipated such a change in the Ten Thousand Treasures Spiritual Ruins.

"Demons actually invaded the Ten Thousand Treasures Spiritual Ruins? How did they manage to do that?"

"Even with all our efforts, we couldn't break through the rules of the Ten Thousand Treasures Spiritual Ruins."

An Integration Great Power furrowed his brow.

He didn't understand how the demons managed such a feat; if they could easily break the rules of the Ten Thousand Treasures Spiritual Ruins, it indicated that this Secret Realm World might not be safe in the future.

This would be an extremely significant loss for the Great Xuan Dynasty.

Because the Secret Realm held too many treasures, and even Immortal legacies, the treasures inside are coveted even to Integration Cultivators.

"I'm not sure, but I estimate the demons paid a great price to achieve this."

"But those Foundation Establishment Cultivators were quite lucky to have encountered a mysterious cultivator who helped solve the issue with the demons, allowing them to survive."

"Are you kidding? Besides demons, other cultivators are also able to enter the Ten Thousand Treasures Spiritual Ruins? Could that person have mastered a loophole in the Ten Thousand Treasures Spiritual Ruins?"

"If they truly mastered a loophole, perhaps we could also get inside."

"Find out who that mysterious cultivator is, immediately."

Many Integration Cultivators spoke enthusiastically.

If they found a way to enter the Ten Thousand Treasures Spiritual Ruins, they would indeed prosper.

They certainly wouldn't let Foundation Establishment Cultivators enter such a precious Secret Realm World; it would surely be monopolized by these Integration Cultivators.

"Perhaps you already know the mysterious cultivator; it is the one who rescued the Ice Soul King and others, called Talisman Daoist," an Integration Great Power said leisurely.

Talisman Daoist?!

Upon hearing this, the pupils of the Integration Great Powers shrunk. Initially, they didn't know much about Talisman Daoist, but ever since he rescued the Ice Soul King and other Integration Cultivators and destroyed a Demon Cave, the higher-ups of the Great Xuan Dynasty started investigating the Talisman Daoist, hoping to uncover his origins.

Unfortunately, the clues they found were too sparse.

To this day, they have not uncovered more information about Talisman Daoist.

They never imagined that this mysterious cultivator would reappear in the Ten Thousand Treasures Spiritual Ruins, which was truly unimaginable.

Undoubtedly, this mysterious cultivator must possess many secrets of the Spirit Ruins Realm.

Otherwise, he wouldn't show up in so many mysterious places.

Honestly, they were becoming increasingly curious about this Talisman Daoist.

"We must find this Talisman Daoist."

"It's said that Talisman Daoist is being hunted by demons, they've issued a warrant for him."

"Judging by his actions, he should be on our human side."

"Indeed, if he weren't on our human side, he wouldn't have saved so many human cultivators."

"Unfortunately, he never interacts with others, leaving no clues."

"No matter, since he appeared, there will eventually be an opportunity to understand the Talisman Daoist."

Many Integration Great Powers discussed among themselves.

Of course, they wanted to find Talisman Daoist as soon as possible; unfortunately, this cultivator was too mysterious, seemingly mastering many techniques to obscure cause and effect, rendering them helpless.

No matter how much they wanted to know Talisman Daoist's true identity and origin, they were powerless.

...

Of course, for Jiang Fan, all speculations from other forces were irrelevant.

He hid within the Ice Prison.

Regardless of what methods these forces employed, they could not find him.

To others, the Ice Prison was practically a jail, only allowing entry but no exit.

But for Jiang Fan, it was a perfect sanctuary.

Once hidden inside the Ice Prison, other forces could do nothing to harm him no matter the techniques employed.

Even if they knew of the Ice Prison, they dared not send anyone inside, merely lamenting helplessly.

After returning to the Primordial Valley, Jiang Fan immediately entered seclusion to cultivate and enhance his cultivation.

He felt his cultivation was still too weak and needed to be enhanced quickly.

The best would be to advance to the Seventh Layer of Divinity Transformation and reach the late-stage Divinity Transformation Realm, significantly boosting his combat power.

Fortunately, after a fierce battle in the Ice Crystal Mountain Range, the Exotic Beast Influence and Demonic Cultivator Influence suffered heavy losses, allowing Primordial Valley a period of extreme peace without worrying about other dangers to develop smoothly.

Seasons changed, and a year swiftly passed.

Primordial Valley's development went without saying, it was steadily improving.

In fact, the greatest changes occurred within those Life Plate Cultivators who entered the Ten Thousand Treasures Spiritual Ruins.

Since Jiang Fan activated the Life Plates within them, they've noticed various changes in their bodies and constant improvement in their talent.

Especially Li Changsheng, who possessed a seven-colored Life Chart capable of longevity and perpetual vision.

He felt his age had been fixed at its peak moment.

His life force remained in its most vigorous state, enjoying endless lifespan.

Even when injured, he recovered quickly.

Numerous illusion techniques lost their effectiveness on him.

This made Li Changsheng completely believe the mysterious cultivator Talisman Daoist's words.

"But the truly remarkable aspect is this Cause and Effect Communication Immortal Talisman."
