

Four Skills 331

Chapter 331: Malicious Star MO Xiu

Yang Qingzhuo and Yue Yuan walked back.

MO Xiu could clearly see the smile on Yang Qingzhuo's face. She was really happy.

After Yang Qingzhuo returned, he pulled MO Xiu and said, 'Mo Xiu, did you see that? I did it. I can be your shadow or your light.'

MO Xiu was happy for Yang Qingzhuo from the bottom of his heart. She had found her own path.

Yang Qingzhuo had wanted to become a warrior since he was young, but after awakening a skill, he gave up.

Later, under Yang Zekun's guidance, he gradually found a new life goal, and then found MO Xiu.

But was she happy all this time? No! He was never truly happy.

Yang Qingzhuo wanted to follow MO Xiu to find a sense of security and to prove that Yang Zekun's theory was correct.

The stronger the light, the stronger the shadow. This was something that Yang Qingzhuo had been eager to prove.

However, as time passed, MO Xiu became busier and busier, and Yang Qingzhuo spent less and less time with MO Xiu.

Yang Qingzhuo had changed. He wasn't as lively as he was at the beginning, pestering MO Xiu. Instead, he was quietly accompanying MO Xiu, silent.

Yang Qingzhuo began to doubt himself. Could he really prove himself by relying on others?

Yang Qingzhuo was strong but weak. She was sensitive and fell into self-doubt. It was only when she fought against MO Xiu with Yue Yuan that she realized that she could also fight against MO Xiu, and another path appeared.

Attack Support! This was a ridiculous idea, but it became a reality after Yang Qingzhuo upgraded his skills.

Yang Qingzhuo had awakened her second skill early on, but MO Xiu felt that

she was the most formidable in terms of SKIM and mentality.

The first skill was originally called Godly Speed, but now it had become a

Divine Command. It had been upgraded by one level and had a qualitative leap.

This was also something that Moxiu had recently discovered. When a skill reached Level 5, it would undergo a qualitative change.

The upgrade of the Divine Order did not increase the increase in the skills, but the effects of the skills were comprehensive. Not only did it increase speed, but it also increased the attributes in all aspects. Moreover, it could be switched at will. It was terrifying when used well.

The second skill's base attribute was also relatively limited, but it had an additional skill, Snatch Light.

Yang Qingzhuo had already shown how powerful the Light Steal was in actual combat. He was not at a disadvantage against Fu Lai in a head-on battle. Moreover, with the addition of Yue Yuan's array formation and the addition of the Divine Token, he suppressed Fu Lai.

Yang Qingzhuo's skills might not be effective against Moxiu, as Moxiu had too many attacking methods.

It was effective against pure warriors. In a one-on-one battle, Yang Qingzhuo could restrain pure warriors.

This was a very shocking thing. A Support could use the magical effects of his Support skill to fight against a Warrior, and he would become stronger when facing a stronger opponent.

Monet was even further away. Yang Qingzhuo could also fight wild beasts alone.

This was because most wild beasts had extremely powerful bodies and used their bodies to attack.

No matter what, Moxiu was happy for Yang Qingzhuo. She had found hope again, the hope of a warrior.

MO Xiu had never seen Yang Qingzhuo so confident and determined.

Yang Qingzhuo happily walked towards Xiao Hong. The two women began to discuss. The new Yang Qingzhuo and Xiao Hong had more in common. Not long after, everyone looked at Moxiu. Not only his companions, but also the audience.

The strength displayed by MO Xiu's group was shocking. They had improved so much in just a short month's time. As the leader, what kind of strength would MO Xiu have now?

Some people had already noticed that last month, Moxiu's ranking was 1254. At the end of the month, it suddenly soared to 265.

In the absence of any challenges, there were only two possibilities for him to increase his ranking.

Leveling up a skill or awakening a skill, but this rate was a little scary.

At that time, many people were discussing what kind of skill Moxiu had awakened that could increase his strength by so much.

In the end, it was attributed to Moxiu's royal family background. Perhaps he had an innate skill in the past, but it was not counted. This time, it was counted.

From then on, outsiders didn't dare to challenge MO Xiu's group. They didn't even talk much about it, afraid that MO Xiu would come and settle the score.

He could have beaten her in the past, but his background couldn't compare. Now, he couldn't even beat her.

With a ranking of 265, other than a small number of outsiders, very few people dared to challenge such a high ranking.

Moxiu wasn't in a hurry to challenge them. He looked at his companions in a daze.

Everyone had improved and surpassed Moxiu's expectations. This feeling was very good. His companions were accompanying him as he grew stronger.

The calm and composed Yue Yuan who was proficient in calculations.

Xiao Hong, who was becoming more and more mature and capable of fighting.

Liu Ziyang, who was still funny but very reliable.

Xiao Xinru, who had gradually changed but did not forget about her original intentions.

Yang Qingzhuo, who had found himself and rekindled his hope.

There was also the Great Hoodwinker Lin Feng, who was becoming more and more trustworthy.

MO Xiu suddenly felt that he had lived the past eighteen years in vain. He only knew how to train himself and put his head down to train hard.

If it wasn't for the deviation of fate, perhaps he would still be alone and wouldn't have met these companions.

Moxiu sighed lightly. He had walked out of his mentality of carrying a heavy burden. The current Moxiu was willing to face any challenge and pressure, even if it was the invasion of wild beasts.

He slowly walked to the bottom of the ranking board. Every step he took was stepping on the hearts of his companions and the eyes of the audience.

Everyone wanted to look at MO Xiu, who was so powerful in the outside world that even the royal family could not keep quiet.

How strong was this Mosha Star that outsiders avoided?

Moxiu stood still and looked up with determination. Actually, he had already chosen his opponent before coming here.

Everyone held their breaths, afraid that they wouldn't be able to hear the opponent that MO Xiu wanted to challenge.

"101st place, Bei Shiguang!"

"Whoa!"

The entire place was in an uproar. This was the highest ranking that MO Xiu could challenge. No one could challenge any higher.

Many people had already guessed this result, especially MO Xiu's companions.

Moxiu was ranked 265th even without any challenges. Based on Moxiu's personality, he would definitely challenge the most difficult one.

Xiao Hong and the others smiled as they looked at MO Xiu. They weren't worried at all, because MO Xiu had never needed them to worry about him.

Was MO Xiu going to prove himself in just over a month?

A person walked over from afar. It was Bei Shiguang.

Bei Shiguang said," MO Xiu, I guessed that you would challenge this ranking, so

I've been present. Please!" I really want to spar with you."

Moxiu also made an inviting gesture, and the two of them slowly walked towards the competition venue.

Bei Shiguang was not an outsider. There was not a single outsider in the top 100, and there were very few outsiders in the top 101.

If Moxiu succeeded this time, he would be able to charge towards the top 100.

All of this depended on whether Bei Shiguang could hold on.

The two of them entered. Bei Shiguang said," MO Xiu, I admire you very much. What you did in the outside world is very great, but this is not the outside world.'

" Thank you for the reminder," Moxiu said with a smile." I know that this is the imperial family.. Let's begin!"

Chapter 332: God Is Authority (1)

Bei Shiguang said," Your tone is not small. I know your background. Even if you have the Li family and the 'big' family behind you, it doesn't matter. At most, you're considered a royal family. The family won't interfere in the sparring between the younger generation of the royal family. In the end, you're still representing the Dark Shadow to challenge our royal family."

MO Xiu laughed. He couldn't help but praise Bei Shiguang. He liked people like Bei Shiguang who could see the situation clearly.

Bei Shiguang was right. He should quickly attract the attention of the younger generation of the imperial family. That way, he would not have to waste his energy on challenges in the future.

" You're right," Moxiu said with a smile." I'm representing the Dark Shadow to challenge the younger generation of the imperial family. This is my mission here and also my training."

"In that case..." Bei Shiguang said.

"Let's begin," Moxiu replied.

MO Xiu first read Bei Shiguang's skill.

"Talent Skill: Return (Passive)

[Skill effect: Triggered before active skill is released. After active skill is used, skill effects will be reversed. Can be used on any target. Can be used again. After that, it will enter cooldown.]

[Skill 1: Dazzling Light 6(to be used)]

[Skill Effect: Fire a ray of light (500), causing damage and stunning the target for 0.3 seconds.]

[Additional effect: Intimidation, reduces the speed of the target by 20% for two seconds.]

[Additional effect: Within three seconds of the previous release of light, it can be released a second time. The limit is 20 times.]

[Cooldown time: 45 minutes]

[Second Skill: Radiant Envoy 5(to be used)]

[Skill effect: Light attribute elementalization, 30% immunity to elemental damage (100% immunity to dark attribute damage), 60% immunity to physical damage, 4,000 increase in speed, 100% increase in light attribute skills.]

[Duration: 30 minutes]

“Cooldown time: 3 hours.”

Moxiu frowned. This innate skill was a little unreasonable. After seeing so many of the Imperial Family's innate skills, he increasingly felt that comparing the Imperial Family to the commoners was simply cheating.

The Bei Family's innate skill was very strong. It was similar to Sha Thearch's. One skill could be used twice.

The difference was that the effect of Bei's skills would be reversed. The damage would become healing, and the increase would become reduction.

In other words, Bei Shiguang's skill would turn into a healing skill after 20 attacks, healing himself.

After the second skill was released, Bei Shiguang would be buffed and could be released a second time. If the second skill was released on Moxiu, all the buffs would become a reduction effect. For example, increasing physical immunity would become a reduction in defense.

It was a very powerful innate skill.

However, when Moxiu noticed the trigger mechanism of Bei Shiguang's innate skill, he smiled. This was going to be interesting.

The match began!

Bei Shiguang immediately used his second skill and elementalized. He raised his head and saw that Moxiu did not launch an attack. What did this mean?

Bei Shiguang activated a skill to attack MO Xiu. A ray of light shot out, and MO Xiu easily dodged it.

After this attack, Bei Shiguang froze on the spot.

"Is there a problem, Brother Bei?" asked MO Xiu. If not, I'm going to start attacking! "

Bei Shiguang looked at his skill and was puzzled. Why didn't it become a reverse skill after using it?

This was the first time since he awakened that his innate skill could not be used.

Bei Shiguang looked at the talent skill that was as gray as usual. In the past, when he used an active skill, it would flash, but this time, it did not.

Thinking of MO Xiu's identity, he suddenly raised his head and looked at MO Xiu.

"Brother Bei, do you have any questions?"

Bei Shiguang was very disappointed. When the royal family chose a skill, they would choose a skill that was compatible with their talent skill.

Once they lost their innate skills, their strength would no longer be a problem of falling to the level of outsiders. Without a system core, it would cause a precipitous decline.

The current Bei Shiguang was no match for Moxiu. If he wanted to trigger his innate skill again, he would need to use it again. However, the two skills had yet to enter cooldown, so there was no way to trigger them.

“MO Xiu, you actually tricked me!” Bei Shiguang said angrily.”

“How did I trick you? I didn’t even attack you when you were standing on the spot. ”

“You have a sealing skill!”

MO Xiu indifferently smiled and said: ” I’m a member of the Li family. Is it strange to have a sealing skill?””

Bei Shiguang was speechless. He knew about the relationship between Moxiu and the Li family, but according to the information, Moxiu had never used a sealing skill before, not even in a life and death situation.

Either Moxiu would rather die than use it, or he had just awakened it. However, an innate skill was born with it. It was carried from birth. How could it be awakened later?

During this period of hesitation, Bei Shiguang’s skill had also exceeded three seconds. He could no longer use it and entered cooldown.

Bei Shiguang was speechless. MO Xiu did not want to waste any more time. He had thought that this would be a difficult battle, but he did not expect it to be so easy.

MO Xiu rushed to Bei Shiguang's side. Bei Shiguang wanted to continue resisting, but Bei Shiguang did not have a single skill. He did not even have any means of attack. He could only watch as MO Xiu threw him out of bounds.

The match ended, and MO Xiu won!

The entire audience was filled with question marks.

Bei Shiguang was just nineteen years old and only had two skills. He was not often challenged on the strength rankings, so everyone was not familiar with him.

However, everyone knew that Bei Shiguang was a member of the royal family. He would not be weak if he could reach 101st place.

But... Just this?

He was thrown out by MO Xiu with one hand?

MO Xiu smiled. Bei Shiguang was indeed silent, but he did not use any innate skill. MO Xiu did not have any so-called innate skill at all.

To be able to make Bei Shiguang's talent skill ineffective, it was completely the effect of God's Sight. No! It should be called God's Authority now.

" Skill 1: God's Authority 5

[Skill effect: Investigate. You can see all the skills and skill statuses of up to 20 targets, and estimate the power of elemental skills (the power of a Level 1 Fireball is 1).]

[Additional effect: Lock on, lock on the target being read. Able to sense the target's location within 30 minutes.]

[Additional skill: Silence. You can choose to silence the next skill of the target. Silence duration is three seconds (the same target can be silenced once within six hours).]

The name of God's Sight changed after it was upgraded to level five. It became God's Authority.

It only increased one effect, which was to silence the next skill released by the target for three seconds.

Due to Bei Shiguang's skill trigger mechanism, when using an active skill, the talent skill would be triggered first. The talent skill was silenced for three seconds. In three seconds, Bei Shiguang used two active skills, so the talent skill did not have any effect..

Chapter 333: Martial God (1)

God's Sight had been upgraded to God's Authority, and the skill had broken through its limitations.

Wang Yu's theory didn't mention anything about changing from a scouting-type skill to a more comprehensive skill.

However, there was a related conjecture, which was that there was an infinite possibility of leveling up skills.

One could tell from the name that God's Authority had been completely upgraded. The effect of Silence alone was not particularly strong, and there were limitations.

Within six hours, the target could only be silenced for three seconds. Moreover, Silencing would only affect the next single skill. If the opponent's next skill was not a core skill, then using it three seconds later would not cause much of an impact.

This Silence effect might be useful at the beginning, but as the effect was slowly figured out by others, it would not be of much use.

But... The true terror of this skill was not in solo battles, but in group battles. The more people there were in a group battle, the stronger they would be.

Motheo's Silence had two advantages. First, he could choose 20 targets every time he used God's Authority. Second, there was no cooldown time.

In other words, as long as Moxiu was willing and focused enough, he could completely silence an army and silence the next skill of everyone in the army.

In this way, the effect would be infinitely magnified. Military battles were different from individual battles. It was important to cooperate.

Even if they couldn't affect the combat power of this army, they could still disrupt the rhythm of this army's attack.

Once the rhythm was disrupted, they would lose the initiative, which also meant that the battle had failed.

In a sense, Moxiu's silence was even stronger than the Li family's innate skill.

However, his God Authority was only at Level 5. According to Moxiu's calculation, a Level 5 God Authority should be comparable to a Level 6 or even Level 7 skill of a Royal Genius.

Every time Moxiu leveled up his skills, it would be much more difficult for him to level up than others.

This also made MO Zou suspicious. Was his leveling system different from others?

It wasn't just this skill that made Motheo suspicious. There was also the God of War's Descent that had been upgraded along with God's Authority.

" Skill 1: Martial God 5

[Skill effect: Increase all attributes by 3,000%, immunity to 70% of elemental damage.]

[Additional effect: Cripple. Inflicts damage to other targets under the effect of the skill. Cannot be healed within 30 minutes.]

[Additional Skill: Divine Armor. Active activation. Lasts for one minute.

Physical Defense, Elemental Defense, and Mental Defense increase by

2,000%.]

[Duration: 3 hours]

Cooldown time: 10 minutes.”

The name of the Descent of the Martial God had changed, becoming the Martial God.

The ‘big’ family’s Descent of the Martial God didn’t change its name even after reaching rank 7, but Moxiu changed his name at rank 5.

This meant that Moxiu’s skill had deviated from its evolution and might be developing in a better direction.

It confirmed Moxiu’s thoughts. There was something wrong with his skill level.

He couldn’t see it when he was a fourth-level Martial God, but he could see it very clearly now that he was a fifth-level Martial God. The improvement was very great.

According to the comparison, Motheo's Level 5 skill should be equivalent to the strength of the 'big' family's Level 6 skill.

This was also why the big cat had said that Moxiu's skill was level 5.

At the same skill level, Moxiu's skill was stronger than the others.

The War God didn't have a new skill effect like God's Authority, only an increase in attributes.

Another point was that the additional skill from before was Hardening, which had become the current Godly Armor.

Moxiu had always felt that the effects of Hardening were very useless. It only increased physical defense, and the increase was relatively small. Moxiu had never used it much.

However, after leveling up, it was different. From the previous increase of only physical defense, it had become all defense. Moreover, the increase had increased to 2,000. This was a very impressive number.

The current Moxiu did not know what level his true strength had reached. This was because not only had his first skill leveled up, but his second skill had also leveled up. Moreover, he had awakened three skills.

The increase in his strength came at a price. Moxiu had consumed a large number of herbs, and his points had been used up long ago. He had also used up many herbs from his small treasury.

MO Xiu walked out of the arena and returned to the bottom of the rankings.

At this point, MO Xiu and his group had all made their appearances. The feeling they gave the audience was that they had shocked the world with a single brilliant feat!

Moxiu had brought five people into the Imperial Family, and in less than two months, he had surpassed the vast majority of the people here.

How should he put it? It was a heavy blow to the other outsiders.

Those who could enter the royal family were not weak. They were all outstanding people in the outside world. However, after entering the royal family, all of them had to struggle for a long time before they could rise up.

MO Xiu's group was different. They had reached this level in less than two months. It really made people envious and jealous.

Moxiu could understand the others thinking this way. The current situation had exceeded his expectations.

Moxiu's original plan was to take things slow and steady, taking it step by step and slowly growing.

But... Fate played tricks on people!

Due to the Ouyang Clan, MO Xiu and the others had benefited from the disaster. They had obtained many resources, and after a month of closed-door cultivation, their strength had soared.

Didn't MO Xiu and the others suffer before? Yes! When they first entered the royal family, everyone had encountered some difficulties. During that period of time, Moxiu had tried all kinds of things, such as grouping and assigning tasks. The results were there, but it was not obvious.

It wasn't until Xiao Hong's accident that the turning point appeared.

Which one of the people MO Xiu chose was bad? Liu Ziyang and Yue Yuan were people that Elder Tang valued. Yang Qingzhuo's father was Yang Zekun, and his talent wasn't bad. Xiao Hong was from the royal family, and her talent and comprehensive ability were excellent.

In terms of combat experience, these people had all experienced heated weapons battles. That was a real war, not a challenge here. Their experience was not bad, but there were many talented people in the royal family, so they were not used to fighting against these top talents.

What these people lacked was not talent or diligence, but resources and mentality.

After the Ouyang family incident, Xiao Hong had untied the knot in her heart. She had a clear goal in her conversation with Li Xin, and her confidence had returned. The others also relaxed and regained their confidence during the dinner party and complaining about MO Xiu.

Most importantly, there was no disturbance from the outside world and sufficient resources to cultivate.

With the right timing, the right place, and the right people, everyone's rapid progress seemed unbelievable, but in fact, it was natural.

Moxiu looked at the complicated expressions of the thousands of spectators and said loudly.

"Everyone! "I have some connections with some royalty, but that's not important. I won't bully others. I'm here on behalf of the Dark Shadow. In the end, I'm an outsider like you. I want to challenge the royalty and prove my strength!"

MO Xiu had chosen a side!

MO Xiu launched an attack on the younger generation of the Imperial Family!

Chapter 334: Holy Sword (1)

MO Xiu once again spoke in front of everyone. This time, he was declaring war on the young descendants of the Imperial Family!

Ever since Moxiu had entered the royal family, he had not stopped. One incident after another had happened, and each incident was getting bigger and bigger.

Now, he was openly siding with outsiders and challenging the young members

of the royal family. As expected of MO Sha Xing, his name was not in vain.

Moxiu's actions were very charismatic. In addition to the firearms incident in the outside world, the strength he displayed in the royal family was quite infectious.

The outsiders who had been dealt a blow by Moxiu's group suddenly remembered the goal they had hidden in their hearts after hearing Moxiu's words.

Before they entered the Imperial Family, they were also insufferably arrogant talents. They dreamed of defeating the Imperial Family's disciples after entering the Imperial Family and obtaining the recognition of the Imperial Family's higher-ups.

However, after entering the royal family, he slowly realized that reality was much crueler than his dreams. Unless he had overwhelming talent, it was difficult to move forward in the royal family.

Most of the people were influenced by MO Xiu's words, but there was also a small group of people who secretly cursed MO Xiu for being shameless.

Everyone knew that Moxiu had a very good relationship with the two royal families.

It wasn't hard for those who were observant to notice that Moxiu and the others hadn't left the Outsider Building for the past month. They had frequently entered the Skill Cultivation Room.

There were no challenges, but they were able to enter the Skill Cultivation Room to cultivate. This meant that MO Xiu and his group did not lack resources.

It was not difficult to guess the source of the resources. It must have been given by the Li family or the 'big' family.

MO Xiu had the resources of the Imperial Family, yet he stood on the side of outsiders and challenged the Imperial Family's disciples. He was simply shameless to the extreme.

Among the outsiders, only a few knew the truth, but the imperial family basically knew.

It was hard to say what Moxiu's current identity was. An outsider? Master Tang's disciple? Or rather, it was not an exaggeration to say that he was a member of the royal family.

Moxiu didn't care what others thought, as long as he achieved his goal.

"Boss, are we going back?" Liu Ziyang asked."

"What for?" asked MO Xiu with a smile. You can challenge me again."

"Yeah, other than MO Xiu and me, you guys can also challenge the Potential Ranking once.'"

"Don't challenge them one by one this time. Let's do it together!" said Moxiu."

At this moment, more than half of the audience had dispersed. After seeing the strength of Moxiu's group, there was no need to continue watching.

Only some people who still wanted to watch the show were left. The others either started their own challenges or were busy with their own things.

Moxiu and the others also began to move. The moment they looked at the rankings, everyone was stunned.

The few people on the combat power list did not rank high last month, but they had always been in the top 100 on the potential list.

He was shocked when he saw that MO Xiu was at the top of the Potential List!

MO Xiu was also extremely shocked. He had just seen it before the challenge. At that time, he was ranked 29th.

How did he become the first place?

The Elder of Heavenly Secrets appeared in MO Xiu's mind. It seemed like that old man was up to something.

MO Xiu's strength wasn't just ranked at 265th on the combat strength rankings. However, that was the ranking just now. From the start, he had felt that something was wrong and thought that the Elder of Heavenly Secrets was deliberately lowering his ranking.

But now, he was ranked first on the Potential List. What was his motive?

"F * ck! Boss, you're already number one on the Potential Board?" Liu Ziyang shouted."

Liu Ziyang's voice was very loud, startling the people around him. They all looked at MO Xiu in shock.

The reason they were shocked was not because MO Xiu was ranked first on the Potential Roll, but because MO Xiu was still on it.

Including the three skills that Moxiu had just awakened, he had awakened a total of three times. However, this was something that only he knew.

To the outside world, Moxiu had already displayed three skills. Everyone thought that Moxiu had awakened three times.

Everyone's birthday was the easiest thing to find out, especially for a celebrity like MO Xiu. Many people knew that MO Xiu's birthday was in May.

Moreover, seeing the fluctuations in the rankings, it could be inferred that Moxiu had awakened a new skill.

Moxiu had awakened all four skills and was still on the Potential Ranking. This was impossible!

The requirement to enter the Potential List was to not awaken all four skills. Everyone's eyes were focused on MO Xiu.

Liu Ziyang knew that he had said something wrong. He immediately covered his mouth and looked at MO Xiu apologetically.

MO Xiu waved his hand. This was not Liu Ziyang's fault. This matter would be discovered sooner or later. There were so many people in the top 100 of the Potential Roll, and they could all see that MO Xiu was at the top.

MO Xiu laughed lightly. Being looked at with a strange gaze by everyone felt pretty good.

These people thought that Moxiu had four skills, but he actually had six active skills. The appearance of the fifth skill would definitely cause a commotion.

However, when Moxiu chose the two three skills, he had no intention of hiding it. Now, the Tianji Sect had placed him in such an eye-catching position.

It seemed that the Elder of Heavenly Secrets did not want him to hide it anymore. Was it time to make it public?

"You guys continue your challenge," said Moxiu. "I'll go back first!"

Under everyone's puzzled gazes, MO Xiu left without a word of explanation.

Xiao Hong left together with MO Xiu. The others wanted to continue the challenge, but Lin Feng stayed behind to provide information.

“MO Xiu, what’s going on?” Xiao Hong asked as she walked. You should have awakened four skills by now. Why are you still on the rankings? I originally thought that the leaderboard hadn’t been updated, but after the update, you’re in first place!”

“Maybe I’m not a normal person!” Moxiu said with a smile.”

His own strength told Moxiu that there was nothing to be afraid of. Last month, Moxiu had leveled up in all aspects, and his second skill had also leveled up.

Second Skill: Holy Sword 5

[Skill effect: Summons the Holy Sword anywhere within a 2,000-meter range. The user can freely control the movement of the Holy Sword. The sharpness of the Holy Sword is equivalent to 1,500% of the attack power of the skill released by the user.]

[Additional effect: 10,000 Swords. Can control the Holy Sword to instantly transform into any number of small swords to attack. Each small sword can be controlled independently (the number of small swords that can be controlled is related to the strength of one’s spiritual power). When there are less than five small swords, the power will not change.]

[Additional effect: Sword Comes. When the Holy Sword is within a controllable range, it can teleport back to the hand at any time.]

[Additional effect: Sword Strike. The Holy Sword can teleport once (within a range of two thousand meters).]

[Additional effect: Sword Soul. Holy Sword has self-awareness.]

[Summon duration: 3 hours]

Cooldown time: 1 hour.’

The name of the Sword Saint's Divine Weapon had changed to Holy Sword, and all aspects had been greatly upgraded.

The sign of a metamorphosis was that he had gained self-awareness. He could move on his own without Moxiu's control.

It might sound useless, but it might save MO Xiu's life when he was in danger.

Once he lost his consciousness, the Holy Sword would very likely escape with Moxiu. However, Moxiu had not tested this yet, so he did not know if it would work.

Other than the regular upgrade, there was also an unexpected surprise.

The sword went!

With the ability to teleport once in battle, coupled with the cooldown of the flip, it was an unlimited teleportation. It was a must for sneak attacks..

Chapter 335: Holy Flame (1)

The Holy Sword's upgrade allowed Moxiu to attack more freely. The Holy Sword's advantage had always been its sharpness, but its attack power was relatively weak. When attacking alone, he needed to charge forward to increase his attack power.

However, this was somewhat useless. Sprinting required time, so how could it be considered a sneak attack?

It would be different after he had his own consciousness. If he worked well with Moxiu, he would be able to greatly increase his effectiveness.

In fact, the awakening of self-awareness was not sudden. There were several signs before that proved that the skill was about to level up.

There was still a slight change after the Holy Sword leveled up. The body of the sword had become a little smaller. In the previous few levels, the body of the sword had gradually become larger. This time, it had actually shrunk a little.

Then came the second skill.

Second Skill: Holy Flame 5

[Skill Effect: Holy Flames form an armor that increases attack and defense

(physical and elemental) by 1,500%. In the armor state, you can use Holy Flames attacks ten times.]

[Holy Flame Attack: Explodes objects upon contact, causing large-scale damage. Has the effect of purifying the soul. The target's soul is at peace.] (The damage on the first contact is 900. After the explosion, each single point of damage is 100.)

[Additional skill: Holy Light. Choose a target to remove negative status and heal them. Can be used three times.]

[Additional effect: Holy Flames will not be extinguished. After Holy Flames burst, it will continue to burn and cause damage (50) until the skill enters cooldown.]

[Duration: 30 minutes]

Cooldown time: 2 minutes."

Explosive Holy Flames had been renamed Holy Flames, and its effects were no longer limited to explosions.

All his skills were evolving to a higher level.

The skill upgrade was huge. All of its effects had been upgraded, from damage to status boost, to the number of times it could be used. However, the number of times it could be used and the cooldown time were no longer important to Moxiu.

Upgraded by flipping, all skills had no cooldown time and could be used indefinitely.

The two secondary skills had also leveled up greatly, and one of the key skills had also leveled up.

Self-healing!

The second passive skill had also leveled up.

After upgrading, Moxiu continued to cultivate as a Martial God. However, he clearly saw the self-healing icon flash.

Moxiu understood. The flipping was no longer about snatching spiritual energy. It was time for self-healing again.

MO Xiu didn't know whether to laugh or cry. A flower planted deliberately didn't bloom, but a willow planted unintentionally made a shade.

At first, his goal was to level up the Martial God. In the end, he leveled up and flipped over. Now, it became self-healing.

The leveling process of Self-Healing was also very long. It was only completed before Moxiu awakened his third skill.

After Self-Healing was upgraded to Level 2, it became controllable. After being injured, one could choose to activate it or not. With just a thought, one could control it. It was not like a skill, but like one's own body's instinct.

The Self-Healing effect had also been greatly improved. This time, while increasing the recovery speed, it could also recover stamina and mental fatigue. This was what surprised Moxiu.

This undoubtedly greatly increased Motheo's ability to fight for a long time. His skills had no cooldown, and he had unlimited stamina and fast regeneration speed. All his skills seemed to be developing in a certain direction.

This was what puzzled Moxiu the most. If Elder Tang could control one's life trajectory, how could others control the direction in which one's skills leveled

Skills could only be decided by oneself, and no one could interfere with the direction of leveling up.

There was another thing that he couldn't figure out. The core part of Wang Yu's theory, the theory of constitution limitation, didn't apply to MO Xiu.

Moxiu knew this from the start. When there were only two skills, it would be a Warrior skill and a Support skill. There was no limit to the system.

Moxiu had thought that this was a little strange at the time, but he had later assumed that it was because he had flipped, allowing him to have more skills.

This time, the comprehensive upgrade of his skills had once again violated this theory.

Not only did different types of skills appear on Moxiu, but the development of each skill was no longer restricted.

The most obvious was the God's Authority. The Silence effect was not a support type. According to Wang Yu's classification, this unexplainable effect should be classified as a special ability.

In that case, God's Authority would become a hybrid skill. This was also a step that Wang Yu had yet to study.

MO Xiu and Xiao Hong walked out of the crowd under everyone's gaze. "Aren't we going back?" Xiao Hong asked. But this direction..."

MO Xiu looked at Xiao Hong and said, "Other than me, you're the person with the highest chance of challenging the royal family. Let's go meet that friend and ask her to provide us with some information."

Xiao Hong knew who MO Xiu was going to meet. It was Liu Ruxue from the cafe.

"However, I know some information about the imperial family. If it really doesn't work, there's still Lin Feng."

Moxiu replied, "Lin Feng has been mingling with the outsiders. He has some understanding of the imperial family, but it's not detailed enough. I want detailed information. I have a feeling that time is running out!"

"What do you mean by time is running out? There's not much time left."

MO Xiu continued to walk forward. Xiao Hong stopped where she was and lowered her head in thought.

War? What war? Could it be...

The two of them arrived at the cafe. Xiao Hong didn't go in with MO Xiu and waited at the door.

Xiao Hong subconsciously thought that it would be smoother if MO Xiu went alone.

Moxiu pushed the door open and walked into the cafe. When he saw the scene inside, he said, "You're really lonely during the day!"

Liu Ruxue snorted coldly. "MO Xiu, you're going overboard. You didn't pay the entrance fee when you entered, did you?"

MO Xiu smiled and said, "When have the two of us not discussed big business?"

You, the famous Liu Ruxue, are still short of five points?"

MO Xiu was a jinx to Liu Ruxue, and now he didn't even give her a ticket.

After spending two million points, it seemed like Moxiu was planning to use it until the café disappeared.

"I don't want to argue with you. If there's anything, say it quickly!"

Moxiu walked to the middle and sat down."

"Ask! "

Liu Ruxue naturally knew about what had happened in the central area. She was also very curious about why MO Xiu was still on the Potential Roll and was thinking of ways to get information from him. "You know what I want to ask. Just tell me!"

Liu Ruxue narrowed her eyes. MO Xiu was too shrewd.

MO Xiu had come for the imperial clan's intelligence. There were so many types of intelligence, so Liu Ruxue was prepared to let MO Xiu ask a few more questions.

He didn't expect MO Xiu to say such a thing. No one was better at scheming than MO Xiu.

If Liu Ruxue didn't agree, MO Xiu would definitely say something. Then, he wouldn't ask anymore. He would ask the 'big' family or the Li family.

How about this?" Liu Ruxue said. "How about we make a deal?"

"What deal?"

Liu Ruxue smiled charmingly. "Tell me, why are you still on the Potential Roll? No matter how many questions you ask today, it's still a question. How about

"Deal! "

Liu Ruxue knew that she had been tricked again when she saw MO Xiu agree so readily!

Chapter 336: Random (1)

"Why did you agree so quickly?" asked Liu Ruxue.

"Agree quickly," Moxiu replied. "It shows that I'm sincere. Isn't that good?"

Liu Ruxue wasn't sure, but since she had already said it, she could only continue asking, "Tell me, why are you still on the Potential Ranking?" "Because I meet the requirements to be on the rankings."

Liu Ruxue's face darkened. Wasn't this nonsense? The main point was why he still met the requirements.

"You didn't awaken four skills?"

"I've awakened!"

Liu Ruxue frowned and pondered. MO Xiu had awakened four skills, so why was he still on the rankings?

The requirement to enter the Potential Ranking was to awaken all four skills. Could it be...

Liu Ruxue seemed to have figured it out and suddenly looked up at MO Xiu.

“What?” asked MO Xiu. Have you thought it through?”

Liu Ruxue nodded uncertainly and said, “[You have awakened four skills, but do you still have any skills?]”

MO Xiu didn’t hide anything. At this point, there was no need to hide anything.

“Smart, that’s it.”

Liu Ruxue fell into deep thought again. After thinking for a long time, she said, “Among the skills you’re displaying now, is one of them an innate skill? So, including the skills that you just awakened, it’s not all four skills, but one innate skill plus three ordinary skills?”

MO Xiu’s eyes lit up. He originally thought that he couldn’t hide it anymore, but Liu Ruxue helped him think of a perfect excuse.

Moreover, he could spread the news through Liu Ruxue. Wouldn’t he be able to hide it for a while longer?

MO Xiu suppressed his laughter and said, “That’s right. You’re really smart.” ”

Liu Ruxue stared at MO Xiu for a while. After she finished speaking, MO Xiu had clearly shown joy. Normal people might not be able to tell, but she was a psychologist.

How could he be happy that he had guessed correctly? Don’t even think about letting others know about this?

“Why are you staring at me?” asked Moxiu.”

“It’s nothing. You can start asking now.”

Moxiu smiled.” You already know what I want to ask. Why don’t you give me a rough idea first? I’ll ask you some questions.””

Liu Ruxue’s expression was a little ugly. There were so many matters regarding the imperial family. If they didn’t have a clear direction, they wouldn’t be able to finish talking for a day and a night.

“Make your goal clear. For example, which range of people on the strength rankings you want to challenge.”

“Top ten!”

“What is it? Are you crazy?”

“I’m not crazy. I want the information of the top ten.”

Liu Ruxue was stunned by MO Xiu’s nonsense. In her opinion, no matter how confident MO Xiu was, he would only be able to challenge around the 50th place. He would never have thought that he would directly set his goal at the top 10.

For those who entered the top 100, every increase in their ranking was very likely to be an opponent on a different level.

Not to mention the terrifying top ten. The names of the top ten would not change all year round.

“MO Xiu, have you thought it through? Do you really have the strength to challenge them now?”

Moxiu nodded and said,”Hurry up and say it!””

As a psychologist, Liu Ruxue knew that MO Xiu wasn't lying.

MO Xiu's aura didn't show any signs of disorder, which meant that MO Xiu was speaking the truth and was rather confident.

Liu Ruxue pulled herself out of her shock and said, ""Since your goal is the top ten, you should have seen the list of the top ten, right?"

MO Xiu was currently ranked 101st on the Ability Rankings. He could see the top 100 rankings. He had already seen it when the challenge had just ended.

The top ten were:

Li Ling 'er Second, the agricultural chapter

Third, King Xi

Fourth, Li Chong Five, Bailey.

Six, Michael

Seven, Chandan

Eight, Xi Hua Chang Nine, Rongbang

Check Lei.

"I've seen it before.'

"Then you should've noticed that the top ten rankings are occupied by a few surnames," said Liu Ruxue."

MO Xiu nodded and didn't reply, allowing Liu Ruxue to continue.

Liu Ruxue extended four fingers." There are four great clans in the imperial family. These four clans are all super clans. They possess extremely powerful strength and have a thriving population."

"They are Xi, Cha, Rong, and Bei. You have fought with the Bei family before, en...Kenke didn't count as a fight."

"I'm not surprised that Li Ling 'er is the first," MO Xiu asked." What about the second, Nong Zhang?" Why was it not one of the four great clans?"

Liu Ruxue explained," There are many families with powerful skills in the royal family. However, to become one of the four great families, one needs to have a thriving population. The families with powerful innate skills can be divided into four, three, and two. This was only recently confirmed."

"The 'big' family should be among them, right?" Moxiu asked."

When Liu Ruxue mentioned the four great clans, MO Xiu found it strange. The 'great' clans were powerful and had a thriving population, so why weren't they listed as one of the four great clans?

"Listen to me! The structure of the four great families had lasted for too many years. The recent appearance of the 'big' family could easily change the structure. However, later on, the manager came forward and appointed the 'big' family as the manager of order."

Order Manager?"

"Yes, the 'big' families still retain the status of royalty, but they are not counted as royalty. They are an organization between the managers and the royalty, assisting the managers in their work. Therefore, the 'big' families are not four, but three!"

Liu Ruxue took a sip of coffee and continued, ""Three refers to the special imperial families like the 'Da' family, including the 'Da' family, the Zhuge family, and the Tianji family."

"What's the second?" MO Xiu asked.'

"Second, the Li family and the farmer family. These two families have extremely strong talent skills, but there are too few people, especially the farmer family. Among the younger generation, there is only one farmer left."

After understanding the structure of the Royal Family, Moxiu asked about the situation of each of the top ten players and their general skills.

She asked in detail, even her personality.

After asking about the top ten, Moxiu began to ask other questions. He asked whatever came to his mind, afraid that he would waste this opportunity to ask casually.

Liu Ruxue couldn't do anything about MO Xiu's shameless behavior, so she kept asking until it was night time.

MO Xiu sighed when he saw the people entering the place one after another. He walked out of the door unwillingly.

Liu Ruxue was mentally and physically exhausted from being questioned. She didn't want to see MO Xiu again. She couldn't gain an advantage every time. MO Xiu went straight back to the Outsider Building. Xiao Honz had returned early.

After returning, he ate a simple meal and went to the skill training room to start cultivating.

He sighed as he absorbed the spiritual energy.

"Sigh, what a pity!"

All of Moxiu's skills were upgraded within a few days. This high efficiency efficiency was due to his third passive skill.

The third passive name was Random. When it was just awakened, the pattern was a vortex that could be activated automatically.

After activating it, the speed at which he absorbed spiritual energy increased by dozens of times. MO Xiu was extremely excited. He went to the small treasury to take a lot of herbs and began to cultivate in seclusion.

After leveling up all his skills, MO Xiu wanted to continue cultivating, but the state of accelerating the absorption of Spiritual Energy disappeared.

Motheo felt that the duration of the skill was up. When he wanted to activate the skill again, he realized that the skill pattern had changed. It had changed from a vortex to a fireball.

Motheo nervously took the initiative to cast the skill and realized that he had only thrown a fireball. After that, the skill pattern changed again..

Chapter 337: Destruction (1)

Random was a very strange passive skill. Just like its name, it was really random.

Different skills will appear randomly. After the skill is used, it will become another skill.

The first Whirlpool skill that appeared was to speed up the absorption of spiritual energy. This was a divine skill. MO Xiu thought that this was the passive skill and not a random one.

In fact, when he had lost the whirlpool skill, Moxiu had not been disappointed. Instead, he had been a little excited.

Random skills could change into unlimited skills, which meant that there were unlimited skills. If he could have about 10% of his skills reach the level of the vortex, it would definitely not be a loss.

However, in the later experiments, Moxiu was gradually disappointed. He missed the Whirlpool skill that could quickly increase his strength.

The passive of being random did indeed have unlimited possibilities. Sometimes, it might be able to save a life, but most of the time, it was a trap. It all depended on luck.

There were two reasons why Moxiu did not like the skill. One was that it was unstable, and the other was that it was not clear.

Let's talk about the instability first. Moxiu's ideal situation was for random skills to have their own skill library. By randomly releasing skills in the skill library, Moxiu could better understand the skills and use them.

However, things did not go according to his wishes. The number of skills that came out randomly was so many that it made one's hair stand on end. Moxiu used them for an entire day, but he did not find any duplicate skills. Even if he had a skill library, it was a bottomless pit. There was no pattern to speak of.

Not only that, but the skills that appeared were also of varying levels. There was no pattern to their strength. Sometimes, there would be healing skills and scouting skills. The level of the skills could not be seen, so it could be guessed that the level of these skills was random.

In the end, Moxiu concluded that it was really random, completely random.

Furthermore, it was not clear. The weakness of passive skills had always been that there was no skill introduction.

Regardless of whether it was flipping or self-healing, Moxiu had to experiment with the effects himself. However, the first two were still acceptable. At least, they were stable. After testing out the effects, there were no drawbacks.

However, how could he test it randomly? Each skill was different, and it was an active skill. It was equivalent to having countless one-time skills.

This was also the thing that troubled Moxiu the most. There was no problem with random skills, but why don't you tell me the effects of each skill?

Without an introduction, the only information Moxiu could obtain was the skill pattern in his mind. This made Moxiu feel extremely miserable. Putting aside the question of whether he could guess what skill it was just based on the pattern, there were many similar patterns that made Moxiu unable to start.

There was also the fact that he couldn't distinguish the power of a skill. There was once when a skill shone with golden light. Moxiu thought that it was a support skill, so he released it on himself. However, that skill happened to be an attack skill that dealt a lot of damage, and he almost died on the spot.

After talking about the disadvantages, he talked about the advantages. The advantage was that there was no cooldown and it could be used indefinitely.

In theory, Motheo was a mobile arsenal.

Currently, this skill wasn't very useful. Moreover, if he released it, the outside world might think that Moxiu had unlimited skills, so he didn't plan on using it for the time being.

After a night of cultivation, MO Xiu came to the training field to meet everyone the next morning.

First, he distributed the points. The eight million points from the 'big' family had been transferred to his account. This time, Moxiu didn't even need to go to the 'big' family. It was directly transferred to his account.

This directly showed that he had deliberately asked Moxiu to go to the 'big' house to collect points.

According to the previous distribution method, MO Xiu took their phones and went to Liu Ruxue's place.

Liu Ruxue was afraid of MO Xiu. She was afraid that MO Xiu would take advantage of her again, so she quickly distributed the points and returned the phone to MO Xiu.

After Moxiu walked out, he sent a message to Fearful Big. Since he could transfer the points remotely, he would have Fearful Big distribute the points and transfer them to everyone's accounts. This would save Moxiu the trouble of making another trip.

After returning to the training grounds, Moxiu asked about everyone's results on the Potential Roll yesterday.

Yang Qingzhuo once again partnered with Yue Yuan, and his ranking rose to 41st place.

Xiao Xinru, this pervert, jumped to the 27th place.

Liu Ziyang was ranked 52nd and Yue Yuan was ranked 51st.

This time, Yue Yuan's ranking was one place higher than Liu Ziyang. It could be considered that he had regained his face. This also made Liu Ziyang brood over it.

After asking about the situation, Moxiu had everyone start the match normally.

"MO Xiu, you've also awakened your skill, right?" Xiao Hong asked curiously.

"They've already displayed their new skills, so don't hide them anymore." "Are you sure you want to see it?" asked Moxiu."

Everyone nodded. Every single one of Moxiu's skills was very powerful. Who wouldn't want to see a new skill?

"Alright then, stand further away. I'll let you take a look.""

He looked around and found a chair in the middle of the field. The others all stepped back.

Moxiu raised his right hand and locked his gaze on the chair. Nothing happened.

Just as everyone was puzzled, a bubble appeared out of thin air and enveloped the chair.

Xiao Hong and the others were puzzled. Bubbles? What was the use? "Boss, what's this?" Liu Ziyang asked. Just this?"

Moxiu nodded, his gaze locked onto the chair. The others also stared at the chair.

Three seconds later, the bubble shrank rapidly until it disappeared.

As the bubbles disappeared, the chair also changed. Its color became lighter.

Everyone immediately went forward to check. When they approached, a gust of wind blew and the chair turned into ashes.

Only then did everyone react. Moxiu's skill had completely destroyed the chair. Liu Ziyang swallowed his saliva and said, "Boss, this..."

What did Bubbles do to the chair? No one knew, but the chair was just like that...Destroyed

"Moxiu, is this an elemental attack?" Xiao Xinru asked excitedly. What element is this?"

Destruction Element!"

In reality, this skill was not just that.

” Third Skill: Vacuum Destruction 3

[Skill Effect: Summon Destruction Bubble (Maximum volume: 3 cubic meters). Can be used on up to three targets. The bubble wraps around and tracks the target. The bubble is in a vacuum state. After three seconds, the target inside the bubble will be dealt with Destruction Elemental Damage (500). The Destruction Element ignores all Defense and Immunity.]

[Choice: Vacuum Cage. Destructive elemental damage is canceled. The duration of the vacuum bubble has been increased to ten seconds.]

[Additional effect: Destruction. Damage caused by the Destruction Element cannot be healed within 6 hours.]

[Additional effect: Bubbles. Bubbles cannot be broken.]

Cooldown time: 6 hours.”

The moment this skill appeared, MO Xio chose it without hesitation. The most important reason was the element of destruction that he had never seen before.

The skill had two characteristics: the vacuum state. The three seconds of vacuum would affect the enemy's strength, and after locking on to the target, the enemy would not be able to dodge.

There was also the Destruction Element's characteristic, which ignored all defense and immunity. There was no need to say how terrifying the True Elemental Damage was, right?

It made the mere 500 damage look shocking..

Chapter 338: Distraction (1)

The Destruction Bubble fulfilled all of the requirements of MO Xiu. Its power was sufficient and it was a non -continuous skill.

He could use the cooldown effect of the Reversal skill indefinitely, and the threat would be many times greater.

It was a skill that Moxiu wanted to use in public. Of course!

There was more than one of the three skills!

The second skill was equally important, but it was more for the sake of the future war than the challenge and competition at hand.

” Third Skill: Divinity 3

[Skill Effect: Summons a clone with 100% of the main body’s attributes. Unable to use skills, can freely turn off the clone.]

[Additional effect: Divine Sense. The clone and the main body share the same divine sense. The main body can freely control the clone without reducing its spiritual power.]

[Additional effect: Infinite. There is no distance limit between the main body and the clone.]

[Additional effect: Sharing. The doppelganger has an independent vision and can share it with the main body.]

[Additional effect: Separation. After the clone appears, the state of the main body will not affect the clone, and vice versa.]

[Additional effect: Camouflage. Before summoning a clone, you can disguise yourself. The clone will change its body shape, appearance, and voice according to the original body’s imagination.]

[Additional Skill: Battle Chief. Transforms into a war puppet and breaks away from the main body's control. Executes indiscriminate slaughter regardless of losses. All attributes increased by 20%. Can be released once. Cannot be deactivated.]

[Duration: 30 minutes]

Cooldown time: 6 hours.”

At first glance, this skill was not as strong as Qiao Yang's clone. His combat strength had not increased, so he could not use the skill.

However, the many additional effects made the Soul Clone a divine skill. Almost every additional effect was very useful. In comparison, the additional skill Battle Chief was a little inferior.

Coupled with the cooldown time of the refresh, this was a long-lasting clone.

The effect of 'divine sense' allowed the clone to be controlled as freely as one's own hands and feet, without needing to expend one's mind to control it.

Limitless, no distance restriction. It was equivalent to two MO Xius in this world.

Sharing and Disguise allowed him to share information, and Moxiu could let his clone change his appearance to go to dangerous places to investigate.

The effect of isolation was actually to limit the strength of the clone. In other words, if the main body's strength increased, the clone would not increase. But... This effect had a wonderful effect. Even if the main body was silenced, it would not be affected.

MO Xiu might not be able to defeat Li Ling 'er, but Li Chong wasn't a problem.

His doppelganger only had Basic Attributes, so it was useless to silence it. However, Li Xin's Domain should still be unsolvable. Any Skills that entered the Domain would disappear.

After having a clone, whether in life or in war, there was more room for control.

“Destruction elements?” Xiao Xinru asked. This was the first time he had heard of it. It looked very powerful.”

Xiao Hong was also very surprised. Even she had never heard of it.

Yang Qingzhuo asked Lin Feng curiously, “Lin Feng, have you heard of him?” Lin Feng also shook his head, indicating that he had never mentioned it.

Moxiu was also very curious about the Destruction Element, but he could not verify it, so he could only leave it at that.

After that, everyone began their daily battle.

In the next few days, everyone followed their routine. The image of Moxiu and his group improved a little, and people slowly began to challenge them.

There were very few of them, so everyone was relatively free. The busiest was none other than MO Xiu.

However, the 101st place was an important position. It was the only way to enter the top 100.

MO Xiu’s actions of occupying a pit but not taking a sh * t in it had aroused public anger.

Although he was wary of Moxiu’s reputation as a fiend, the 101st place was too important. He couldn’t let Moxiu occupy it forever.

6th month, 2nd day, MO Xiu received a challenge.

6th month, 3rd day, received five challenges.

6th month, 4th day, fifty challenges received.

The number of challengers kept increasing, but Moxiu remained indifferent and didn't take it seriously.

In the end, he decided to come in the morning and sit in a competition venue, waiting for others to challenge him.

Due to the number of challenges, one after another, the venue did not change.

Motheo was still quite focused on hiding. He switched between a few skills so that others wouldn't notice that he wasn't on cooldown.

6th month, 8th day, no one challenged MO Xiu anymore.

The strength displayed by Moxiu far surpassed the others. In other words, as long as Moxiu was willing, he could easily enter the top 100.

However, Moxiu didn't. He stayed in the key position of the 101st place, making everyone feel extremely cool.

At this point, other than the title of fiend, MO Xiu had a new title, the guard.

MO Xiu was in the top 100. If he didn't have any relations with outsiders, outsiders wouldn't be able to enter the top 100.

The younger generation of the imperial family was cursing and swearing at him, but Moxiu didn't care. They couldn't do anything about it. After all, they really couldn't beat him in a fight.

It was worth mentioning that there was one person who was still challenging MO Xiu, and that was Bei Shiguang, who was originally ranked 101.

He was crazily challenging Moxiu with all his might, but his innate skill was sealed every time. He was no match for Moxiu at all.

MO Xiu could use God's Authority before the match, so Bei Shiguang had no chance at all. In the end, MO Xiu simply ignored him.

News of Moxiu's actions of defending the top 100 spread back to the Li family.

Li Chong and Li Ling 'er were chatting in Li Xin's room.

"Grandpa, have you heard that MO Xiu is guarding the arena?" Li Chong asked. What was the point of doing this? Isn't this harming others and not benefiting oneself?"

Li Ling 'er couldn't figure it out either. Based on MO Xiu's usual style of doing things, he didn't seem like such a person.

Li Xin smiled and said, "This kid wants to anger the other people on the rankings."

"What's the point of doing this?" Li Chong asked in confusion.

"If you want to anger the people in front of you, it's best if they accept Moxiu's challenge as soon as he challenges them."

Li Chong was still confused. Li Ling 'er also seemed to understand. Why would they save time? Wasn't there plenty of time to challenge it? If he used the absolute right to challenge, it wouldn't be too slow to challenge once a month.

Li Xin leaned back in her chair and laughed.

“Hahaha, I did something like slaughtering the rankings when I was young.”

What?”

Time returned to the first day of June.

Outside, Yan University!

A handsome and gentle man walked into the school, went to the principal’s office, knocked on the door, and entered.

“Hello, Principal Zeng!”

Zeng Liugen raised his head and looked at the person carefully.””Hello, you

“To be precise, I’m not a student of Yan University yet. I want to be specially recruited into Yan University. This is my recommendation letter.”

Zeng Liugen picked up the letter and said,””Moxiu recommended? Then I really have to give him face. Wait a moment, I’ll verify it.”

The man nodded. Zeng Liugen contacted MO Xiu and put down the phone.

“No problem, you’ve been accepted. But why haven’t I heard that Moxiu has a younger brother?”

“I can’t say! ”

“I understand. What’s your name?”

“Mo Li..”

Chapter 339: MO Li

“MO Li? This name is good.”

As the principal of Yan University, Zeng Liugen had a very important position in Yan Capital. He had many students, so it was not strange that his disciple was among the outsiders.

He more or less knew some things about the imperial family.

He also knew about the relationship between MO Xiu and the Li Clan. In his opinion, the so-called MO Li couldn't possibly be MO Xiu's younger brother. The probability of him being a member of the Li Clan was very high.

However, no matter who MO Li was, Zeng Liugen didn't care. He had to give MO Xiu some face.

“Principal Zeng, I have another request.” MO Li said humbly.

“Just say it!”

“I want to be a student at Yan University. Can I not come to class?”

Zeng Liugen looked troubled and said, “That's a little difficult. A student's duty is to attend classes. You don't want to participate in the competition in school, right?”

Zeng Liugen pointed it out so MO Li didn't hide anything and nodded. “That's easy. You don't have to be a student anymore. I'll arrange for you to be a teacher at Yan University.”

MO Li wanted to discuss further, but Zeng Liugen rejected him and decided on it immediately.

Next was MO Li's recruitment procedures. With Zeng Liugen around, everything was simple and the procedures were quickly completed.

When MO Li walked out of Yan University, he was still a little confused. He originally wanted to go to school, so how did he become a teacher?

In fact, Zeng Liugen had his own thoughts. Although he was not good at reading people's minds, he was old enough to guess what MO Li wanted.

Zeng Liugen was certain that MO Li was a member of the royal family and had no status in the outside world.

If MO Xiu asked Zeng Liugen for help, Zeng Liugen could ask MO Li for help.

Even if MO Li didn't want to help, the education and theoretical knowledge that the imperial family had received since they were young was enough to be a teacher.

MO Li knew what Zeng Liugen was planning, but he had no other choice.

The strongest corporation.

After this period of development, the office area of the company had expanded from the first floor to the fifth floor. There were more and more people, and their strength was getting stronger and stronger.

Many people had recently heard of a new company called the Strongest Group.

With just a little inquiry, he could find out the background of this company. It was simply terrifying.

The chairman of the board was MO Xiu, the man whose reputation was unparalleled a while ago. Everyone in Yan City had to give him some face.

There had been no news in the past two months, but as long as the firearms incident was remembered, Moxiu would not fade from people's sights.

The general manager was the national goddess Mu Mu. Mu Mu was still very famous. She had been out of the public's sight for a long time, but her reputation as a goddess remained in the hearts of many people.

With the development of the strongest group, many people came to apply for jobs.

These people thought it was simpler. The strongest group was in the rapid development stage and would definitely lack talents in various fields. At this time, the success rate of applying would be much higher.

Just as these applicants were complacent about their long-term vision, they were informed of a recruitment criteria.

They would give priority to recruiting Shadow members. If they were not Shadow members, they would have to go through the preliminary and secondary examinations, work in the branch company for more than a year, and pass the internship assessment before they could enter the main company.

The branch of the Strongest Group was a logistics company, and all the interns worked as couriers.

This was what dissuaded most people. Who didn't have ambition when they wanted to enter the strongest corporation? Why would he be willing to be an ordinary courier?

It would be fine if the candidate was an ordinary employee, but what if the candidate was a senior executive? Being a courier for a year was a psychological test for the heart, and many people couldn't accept it.

This recruitment rule was something that Mumu came up with after contacting Hao Ren. If the strongest club was the origin of Moxiu's power, then the strongest corporation was the lifeline. No mistakes could be made. Even if the company's development was a little slow, there could not be internal chaos.

Mu Mu, Hao Ren, and Cao Fenglin knew MO Xiu the best. They all agreed that this was what MO Xiu wanted.

It was not that he did not want to go through Moxiu, but he had told Moxiu to do it himself.

It wasn't that the Strongest Group didn't recruit new members during this period of time. A batch of shadows had joined the Strongest Group.

These people did not receive any orders and joined the strongest group on their

own.

After some understanding, Cao Fenglin discovered some clues. Most of these people had participated in the war with firearms and had personally seen what the disaster had brought. They had also seen what Moxiu had done and were willing to work for Moxiu.

Even with such strict interviews and internships, there were still many people who came for interviews every day.

Today, a special interviewee came. He was dressed in ordinary clothes and was not very formal. He was not old and held a large suitcase in his hand. He was applying for the position of vice president.

During the initial interview, the interviewer did not pay much attention to this young man. However, after a short conversation, he realized that this person was different from the others. He analyzed the current development of the company and the difficulties that were about to be faced.

The Position of the interview was very high, and it was usually impossible to pass the initial examination. However, it was different when facing this young man.

His rationality told him that the person in front of him was a rare talent, but the general manager had ordered that unless the person interviewing for the vice president was particularly stunning, he would directly reject him.

After hesitating for a moment, he finally picked up the phone on the table and dialed the number.

“Hello, Secretary Cao, there’s someone here to interview for the vice president.”

” Ask the general manager to come over too,” the young man said.” I’m not only here for an interview, but I also have a big gift to give.”“

When the interviewer saw the young man suddenly speak, he was at a loss.

A voice came from the other end of the phone.

“Alright, we’ll go over now.”

The interviewer put down the phone and said to the young man,”“Wait a moment.”

After that, he went out.

The young man chuckled. After a while, Mu Mu and Cao Fenglin entered the room together.

When the two of them saw the young man, they felt that he was somewhat familiar, but they did not know where they had seen him before.

The two of them sat down. Cao Fenglin said,”Let’s introduce ourselves first.

“My name is MO Li, MO Xiu’s younger brother.”

What?”

Cao Fenglin slammed the table and stood up.

“My brother said that you were a little strange. It seems like it’s true!” MO Li said with a smile.”

“MO Xiu’s younger brother?” Cao Fenglin replied with disdain. Why haven’t I heard of it before?”

MO Li pressed two buttons on her phone and said,“”I’ll let my brother talk to you.”

Very soon, MO Xiu’s message was sent over. Cao Fenglin still couldn’t believe it. He understood MO Xiu’s situation very well. Where did his younger brother come from? And his biological brother.

Don’t doubt it,” MO Li said.” I’m here to apply for the position of vice president, and I’ve brought a gift.”“

“What gift?” Mu Mu asked.

In front of the two of them, Molly opened the suitcase he carried with him..

Chapter 340: Everyone Returns

6th month, 22nd day, within the royal family.

Today, as usual, Moxiu’s team went through their training.

Because Moxiu had been quite busy recently, he hadn’t come for a few days.

The others didn’t need MO Xiu to host them and trained on their own.

Just as Liu Ziyang and Xiao Hong's battle was about to begin, MO Xiu walked into the training field.

"Wait a minute. There's no competition today."

"Yeah, I have something to announce," Moxiu said. "It's been almost two months. We've been training in seclusion and our strength has improved greatly. So, I've decided to let everyone relax a little.'"

"Dinner again?" asked Liu Ziyang. "Wasn't it at night? You want to have a gathering now?"

Moxiu shook his head. "No, I'm taking you on a vacation this time. I'm going to the outside world!'"

Everyone's expressions were very rich. For such a long time, they had been focused on cultivating and improving. They had no intention of returning to the outside world. Now that MO Xiu had mentioned it, they were all filled with anticipation.

Except for one person, Lin Feng.

Lin Feng revealed a bitter expression. The last time he had asked MO Xiu to bring him out, MO Xiu had rejected him. This time, there probably wouldn't be any changes. However, he was about to reach the age to go to the outside world, so he wasn't in a hurry.

MO Xiu saw through Lin Feng's emotions and said, "Lin Feng, you can go out too. My plan is to let you stay in the outside world."

"Really?" Lin Feng asked excitedly."

The others looked at Lin Feng with congratulatory eyes. He could finally go to the outside world.

Of course it's true," Moxiu said. "You passed the test.'"

Since Moxiu had already mentioned the matter of returning to the outside world, it meant that it had been confirmed. The others naturally had no objections.

The royal family was good, but it was not home. Everyone wanted to go home and have a look.

Xiao Hong, in particular, had to go home and make some arrangements after thinking things through.

Everyone else had relatives outside, but Xiao Xinru was unwilling. She wanted to continue cultivating in the imperial family.

It had to be said that Xiao Xinru had also changed a lot. Everyone went out, but he didn't ask to stay.

Moxiu first emphasized the things that he needed to take note of when he went out.

It was the rule of the imperial family that they could not reveal anything to the outside world.

Also, he could not say that he was cultivating in the Imperial Family during this period of time to avoid unnecessary public opinion.

It wasn't that Moxiu was worried about the group, but that they would be staying in the outside world for a longer period of time. They were expected to return on the 1st of the seventh month.

It was different from the previous time. MO Xiu and Liu Ziyang only stayed for a day. This time, it was a long time, so it was inevitable that they would spill the beans. Therefore, MO Xiu emphasized it.

After that, everyone packed their luggage and prepared to leave.

He arrived at the entrance of the rooftop again. This time, Moxiu gently knocked on the entrance and quickly came out.

Big Pine Brush and Big Wang Ba smiled as they looked at MO Xiu.

“Seniors, long time no see. ””

The Da brothers ‘attitude had also changed a lot. It was no longer as arrogant as before, nor was it as ingratiating as before. They had returned to normal.

‘ Not long ago, ” Big Pine Brush said.” Didn’t you come out last month?” Eh? And this is?”

The Pine Pen pointed at Lin Feng and looked at MO Xiu in confusion. The others also looked at MO Xiu. Did MO Xiu sneak out at the end of last month?

” This is Lin Feng,” MO Xiu said.” He’s about to reach the age of leaving the

imperial family. I brought him out in advance. ””

The Da brothers looked at each other, and Da Wangba lowered his head to check his phone.

“This doesn’t conform to the rules!” Big Pine Brush said hesitantly.”

“Sigh, Lin Feng is useless in the royal family. It’s better to come out earlier and not waste the royal family’s resources.”

At this moment, Da Wangba put down his phone and whispered a few words into Da Songbi’s ear.

It’s alright.” The Great Pine Brush immediately corrected himself.” MO Xiu, we can rest assured about your judgment. Lin Feng can leave.””

MO Xiu said thank you, but he was cursing these two in his heart. They had known each other for so long, yet they still wanted to report and ask.

The 'big' family was now the middleman of the royal family and was considered a manager. This small matter was not a problem.

In fact, before Big Cat led the branch into the world, the " Big " family had already started to move closer to the managers. After all, the main gate of the royal family was guarded by the Big Brothers.

When they left the tavern, the car that they had parked here was still there.

Everyone got into the car and went their separate ways.

Xiao Xinru, Xiao Hong, Yue Yuan, and Yang Qingzhuo were in the same car. They were going back to their homes, so they were in the same car.

MO Xiu brought Liu Ziyang and Lin Feng back to Yan University.

The purpose of coming back this time was to let everyone relax. Another important reason was that Yan University was about to start school.

The Strongest Club was about to get busy, so MO Xiu brought everyone back to help.

They also had their own matters to deal with.

Everyone went their separate ways. MO Xiu brought the two of them to Yan University. When they returned, it was not even noon yet.

Liu Ziyang disappeared as soon as he got out of the car. There was no need to even think about it. He couldn't wait to find Du Ya.

MO Xiu didn't mind and brought Lin Feng to Hao Ren's office.

Moxiu had contacted Hao Ren last night and told him that he would come back to take charge of the school.

Because the Strongest Group did not have much experience before, how to publicize it and how to get all the new students to join the club was a problem.

Hao Ren wouldn't leave He Lingyue alone at this time, so he rushed back from the outside to help.

This was also the last time Hao Ren would help He Lingyue handle the work of the strongest club. After this, he would completely withdraw from the management of the club and focus on perfecting the know-it-all. Moxiu knocked on the door, and Hao Ren heard a familiar voice.

"Please come in!"

Seeing MO Xiu and Lin Feng enter, Hao Ren said enthusiastically, "Mo Xiu, how long has it been? If you hadn't appeared, I would have forgotten that you were a student."

"You're still talking about me?" said MO Xiu. You're not much better. You rarely come back these days, right? I've been trying to figure out the know-it-all. It's been hard on you."

"How is it hard? On the surface, I'm working for you, but in reality, isn't it for my own dream? And this is?"

"This person is called Lin Feng, and he is a trustworthy person."

Hao Ren nodded and understood what Moxiu meant.

MO Xiu and Hao Ren had a special relationship, and the trust between them was inexplicable. However, they had a tacit understanding. MO Xiu immediately understood that Lin Feng was his assistant.

Hao Ren extended his hand and said, "Hello, my name is Hao Ren." Lin Feng shook hands with Hao Ren and said, "Happy cooperation."

The two of them were well aware of this, so there was no need for MO Xiu to beat around the bush. He said to Lin Feng, "Lin Feng, you'll be working under Hao Ren from now on and be in charge of intelligence. If there's anything you don't understand, you must ask Hao Ren for his opinion."

"I understand. Please take care of me in the future. Don't worry, I'll be very obedient. "

Lin Feng was also very humble. Intelligence was his old job, and he didn't know many rules since he was new here, so he had to rely on Hao Ren..
