

Four Skills 371

Chapter 371: The Negotiator (1)

Moxiu really hadn't considered this point, mainly because his thoughts hadn't jumped out yet.

The Li family was the main family. From Li Xin to Li Ling 'er and Li Chong, everyone in the Li family was trustworthy.

MO Xiu subconsciously thought that the Li family would support him unconditionally. However, he had neglected the fact that other than the core members of the Li family, there were others in the Li family, including the Ouyang family who had once had a grudge with them.

However, since things had come to this, he was back. There was nothing to be conflicted about.

Just like the last time he came back, he mainly wanted to meet two people. He wanted to see his mother and then talk to his grandfather.

His two uncles were busy with work, so MO Xiu rarely disturbed them.

As for Li Ling 'er and Li Chong, MO Xiu was quite familiar with the two of them. There was no need for him to specially come back to visit them. He had also interacted with them on a regular basis.

First, MO Xiu went to his mother's room and knocked on the door.

After Li Yuan opened the door, she was not surprised to see MO Xiu. She turned sideways and let MO Xiu in.

MO Xiu and his mother didn't stand on ceremony. They sat down on the sofa and asked, ""Mom, I didn't tell you in advance that I would be back. Why aren't you surprised to see me at all?"

Li Yuan brought over some fruit and said, “You’re my son. Do you think I don’t know you? I’ve long guessed that you’ll come back to take a look in the next few days after you return to the Imperial Family. I’ve been waiting for you.”

MO Xiu and Li Yuan’s conversation was basically just idle chatter. The mother and son rarely talked about serious matters.

The two of them knew each other’s personalities very well. MO Xiu was extremely opinionated, and Li Yuan had never interfered with MO Xiu’s decisions.

Li Yuan’s personality was actually very similar to MO Xiu’s. She was very stubborn and would do whatever she decided to do.

When MO Xiu advised Li Yuan to return to the Li family, he did not force Li

Yuan. In the end, Li Yuan wavered and wanted to go home, so she returned. Both of them had very stubborn personalities. Why talk about things that they had decided on?

However, there was one thing that MO Xiu was hesitant about. It was Elder Tang who kidnapped his mother. Should he tell his mother about this?

After much hesitation, Moxiu decided to tell her. Firstly, he didn’t want to hide anything from his mother. Secondly, judging from Elder Tang’s tone, he didn’t mind telling his mother.

MO Xiu made up his mind to say it out loud. His mother was very calm after hearing it. She wasn’t faking it. She was really calm.

“Mom, don’t you have anything to say?” asked MO Xiu.”

Li Yuan shook her head slowly and said, “Don’t tell your grandfather about this. Otherwise, it will affect you.

MO Xiu's heart warmed. After knowing the truth, his mother's first thought was still him.

"Mom, don't you care who kidnapped you?" asked MO Xiu. Who is my father?"

Li Yuan lowered her head and said, "I am very satisfied with you. You are my pride! ""

"Hmm? Mom, what did you say?"

Li Yuan continued, "I still don't regret giving birth to you. You have become my pride now. Does it matter who your father is?" Even if they found this person, what could they do? Should I hate him or thank him? Or could she be with him? I don't even know him. As long as you're my son, that's enough."

Li Yuan's words rendered MO Xiu speechless.

It was indeed as her mother had said. To her, it did not matter who her father was.

There was no way to change the current situation. It didn't matter who this person was. Moxiu still had some meaning to him. He wanted to know the truth.

However, she had really found this man who had no feelings for her mother. In fact, her mother had never even seen him before.

MO Xiu asked himself. He would never call this person 'daddy'. He had not done anything that a husband and father should do.

Thinking of this, Moxiu felt much more relaxed. That's right, the truth he had always wanted to know didn't seem to be that important anymore.

After chatting for a while, Moxiu walked out of his mother's room. He had just used his God's Authority to check his mother's skills.

A few skills had been upgraded again. His mother's talent was already high. After she was unsealed, she did not lack resources in the Li family.

It seemed that his mother had been training hard all this time, as if she wanted to find the genius girl from the past.

Moxiu felt very happy. It was never too late for a person to return to his past self.

With a smile, MO Xiu walked to his grandfather Li Xin's room.

The old man went to bed early, and he had chatted with his mother for a long time. It was very likely that he had fallen asleep at this time.

MO Xiu didn't want to disturb the old man's rest, so he didn't knock on the door and gently pushed it open to enter.

"Who is it?"

Li Xin sat on a chair in the living room and looked out the window with her back to the door.

"Grandpa, it's me!" MO Xiu hurriedly said."

Li Xin turned around and laughed loudly. MO Xiu felt very comfortable every time he heard his grandfather's hearty laughter.

"Hahaha, MO Xiu is here? The recent matter of you slaughtering the rankings has really made me proud!"

The old man's way of thinking was really different from ordinary people. Ordinary people would think that he was causing trouble for the family, but the old man actually felt that he had gained face.

“Hehe, it’s fine as long as I didn’t embarrass you.””

“How could that be?” Li Xin asked. I, Old Li, never cared about other people’s lies. Go ahead and do it. I’ll support you.”

“Don’t worry, Grandpa. I definitely won’t embarrass you this time.”

Li Xin didn’t sleep so late and was sitting alone in the living room in a daze. Something must have happened. At this time, she showed a sad expression again.

“MO Xiu, learn well from Elder Tang. Elder Tang’s life hasn’t been easy.”

So you’re thinking about Mr. Tang? Could it be that Grandpa and Mr. Tang had been in contact?

He wondered how his grandfather would react when he heard that his daughter was kidnapped by Mr. Tang.

“I’ll remember everything Elder Tang taught me,” Moxiu replied.”

Elder Tang didn’t give MO Xiu anything substantial. Instead, he left the matter to MO Xiu to handle.

However, Moxiu had indeed learned a lot from it and was very grateful to Elder Tang. Without Elder Tang’s support step by step, he would not have reached where he was today.

Even though the age gap was huge, when two men were together, it was inevitable that they would talk about the alliance and evaluate it.

The two of them talked about many things in the outside world. MO Xiu’s strongest company, the medicinal liquid, was about to be released, and it was also praised by Li Xin.

They even talked about wild beasts. Li Xin said some things that MO Xiu had never heard of before.

For example, the representative of the beasts and humans was Old Master Tang. He had been communicating with the beasts for so many years.

Due to Master Tang's close relationship with Beast and the fact that Shadow did not recruit royalty, many families did not like Master Tang.

The doubts in Moxiu's heart were slowly resolved. Elder Tang had brought Little Fushun to his side, probably because he wanted to find a way for humans and beasts to coexist peacefully. Unfortunately, he failed.

Also, why was Master Tang not in charge of the Shadow? He was busy all the time. He must have been in contact with the beasts.

The last two times they met, he was rather haggard. He might have had some conflicts with the wild beasts..

Chapter 372: Hunting the Heaven Devouring Beast

Mr. Tang had assumed many identities, and MO Xiu still didn't know him very well.

However, at least he knew that Mr. Tang wanted to find a way to coexist with the wild beasts and didn't want to kill Little Fushun. This was different from Yoruhana's order.

Thinking of this, MO Xiu asked Li Xin, ""Grandpa, have you heard of someone called Yoruhana?"

Li Xin held her head and thought for a long time. She shook her head and said, "It sounds a little familiar, but I can't remember. I didn't participate in the great war. Maybe it was someone from the great war."

Li Xin didn't know Yoruhana, but Mr. Tang did. The time of the illusion should have been right after the battle.

This meant that Yoruhana didn't stay on the stage of history for a long time and disappeared in a short period of time.

How could such a talented and supreme disciple so easily withdraw from the stage of history and not be remembered by others?

The most likely possibility that Moxiu could think of was that Yoruhana had really gone on a mission to hunt down the Heaven Devouring Beast and had stayed in the beast's territory to kill it before it could grow.

Yoruhana and Mr. Tang were from the same generation, which meant that Yoruhana was very likely still alive. If that was the case, Little Fushun would be in danger.

Little Fushun wasn't really safe in the wild beast territory anymore. There was still danger.

Moxiu could imagine the scene of Elder Tang and Yoruhana's conversation.

When he saw Little Fushun, Elder Tang hugged the little guy and said, "'The

Heaven Devouring Beast has appeared again. Are you still going to kill him?"

"What else?" Yoruhana asked expressionlessly. Leave him to flatten the human territory?"

"How about we do an experiment? If he doesn't return to the wild beast territory and stand with the wild beasts, I win. You can't kill him. If he returns to the wild beast territory, it's up to you!"

Yoruhana nodded slowly.

Moxiu's head buzzed. This was just Moxiu's imagination, but it was very real. All the clues pieced together showed that this was the truth.

Mr. Tang was doing an experiment, hoping that wild beasts and humans could coexist. However, the moment Little Fushun returned to the wild beasts' territory, he failed.

If he failed, Little Fushun would be hunted down by Yoruhana and eventually die.

So that was the case. Yoruhana's words weren't an order, but a threat!

MO Xiu letting Little Fu Shun go was no different from killing Little Fu Shun.

Li Xin saw that MO Xiu was suddenly hugging his head without any reaction and thought that MO Xiu was not feeling well.

"MO Xiu, you've been challenging for the past two days. Are you tired? Hurry up and go back to your room to sleep!"

MO Xiu raised his head with a pained expression. This had frightened Li Xin. He only had this one precious grandson!

Grandpa, I'm fine," MO Xiu said." I just remembered some sad things. I'll go back first today and come to see you another day. ""

"Aren't you staying for the night?"

"No, I'll go back." Moxiu shook his head."

After bidding farewell to his grandfather, Moxiu returned to the Outsider Building alone. He didn't stay overnight at the Li family because he didn't want to bring trouble to the Li family.

Why did he let Little Fushun go? Why didn't I think of this step before? How could he not have thought that if he didn't kill Little Fushun, Yoruhana would do it herself?

Or was his mind trapped? Yoruhana was a person in an illusion, so Moxiu naturally believed that he would not appear in the real world.

The current situation left Moxiu with no idea where to start. If he were to enter the wild beasts 'territory with his identity, once he was discovered, he would definitely start a war. At that time, it would no longer be a matter of Little Fushun's safety. It was very likely that the lives of the people would be plunged into misery.

Moxiu could only pray that Little Fushun wouldn't be caught by Yoruhana.

The next morning, MO Xiu still hadn't adjusted his mood. He hadn't slept the entire night and hadn't cultivated. He had spent the entire night thinking about how to save Little Fushun.

It was about time. Moxiu arrived at the central region's ranking board.

Compared to the past two days, the audience had arrived earlier and earlier. Some people had even come to reserve seats much earlier.

Seeing that Moxiu had arrived, the outsiders consciously made way for him.

MO Xiu walked to the bottom of the ranking board. Wen Tengdao had also arrived. He seemed to have noticed that MO Xiu was in a bad mood, so he didn't say anything and just nodded his head.

MO Xiu also nodded in response. Then, he turned around and said to the imperial disciples, "Hello, students!"

' Hello, teacher!!!'

A deafening sound rang out without any warning, startling MO Xiu and Wen Tengdao who were standing at the front.

Of course, this greeting wasn't from the royal descendants. It was from the outsiders behind him.

MO Xiu turned to look at the people behind him and said, "How cooperative!"

Such an obvious mocking action caused the imperial family to lose some face.

Did he really think of himself as a teacher? Who were they putting on an act for?

The imperial family was already angry, so MO Xiu added an even more infuriating sentence.

"Alright, rude student, it's time for class!"

These words almost made the imperial family explode with anger. They wanted to come out and scold MO Xiu.

Who knew that at this moment, Moxiu had already issued his challenge and was walking towards the competition venue, causing the Imperial Family members to hold their breaths.

MO Xiu started to work, and Wen Teng Dao didn't stay idle either. Back when

MO Xiu was guarding the arena, there were many people who challenged him.

Moreover, Wen Tengdao was stronger than MO Xiu. There were many challengers and the queue was already a few days later.

Many outsiders joked that Wen Tengdao's challenge might continue after MO Xiu's lesson.

The two of them got busy. As Moxiu's ranking rose, his opponents became stronger and stronger. It wasn't as easy as before.

Fortunately, Moxiu's skills were sufficiently comprehensive and didn't have any weaknesses. Otherwise, it would be difficult to deal with a skill that countered him in such a challenge.

The outsiders and the royal descendants did not idle around either. They continued to discuss what Moxiu's limit was.

In which ranking did MO Yuqing lose? This was the question that everyone wanted to know, so much so that both sides started betting.

Of course, the bet was the hard currency herbs. No matter what kind of herbs they were, they had corresponding points in the medicine hall, so it was easy to distinguish them.

The outsiders were just playing small. After all, no one dared to be a banker. They were all playing small games in groups.

However, it was different for the Imperial Family. Someone had opened the bid!

The person who placed the bid was not simple. It was Cha Lei, who was ranked tenth on the leaderboard.

The Zha family was one of the four great families of the imperial family. They were rich and overbearing. Anyone could bet, no matter how much they bet.

When Cha Lei started this game, many people placed their bets.

"I bet that MO Xiu's final ranking is between 25 and 30. I bet on three Earth Grade spirit herbs!"

"Are you an outsider? So shabby? I bet between 30 and 35 on Moxiu and five Heaven Grade Herbs."

"I bet on MO Xiu to be ranked second with 100 Heaven Grade herbs!"

Cha Lei raises his head and says with an ugly expression, "Li Ling 'er, what are you doing here?"

Chapter 373: 377 Curse

"Li Ling 'er, what are you doing here?"

The person who had bet on MO Yuqing to get second place was Li Ling 'er.

"What?" Li Ling 'er asked unhappily. You don't allow people to bet? Or are you, as a member of the imperial family, afraid that MO Xiu will take second place?"

Charley also didn't want to be outdone. He curled his lips and said, "I don't have that option here. I think that Moxiu can only enter the top twenty at most. I'll accept your one hundred Heaven Grade herbs, but second place? The second place was Nong Zhang. Could MO Xiu beat him? Forget about second place, as long as Moxiu enters the top 15, I'll lose."

Li Ling 'er seemed a little indifferent and said, "Remember to say something today. I'll come and get the herbs tomorrow."

Although Cha Lei didn't want to admit defeat, he didn't want to provoke Li Ling 'er.

Li Ling 'er's strength is already the first on the strength ranking list. Cha Lei is no match for her.

The Li family was also very special. The head of the Li family, Li Xin, had a bad temper. Twenty years ago, he fell out with the royal family because of Li Yuan. It could be seen from the last time he declared war on the Ouyang family that Li Xin was extremely protective of his children.

The current MO Xiu could be provoked, because this matter was caused by MO Xiu himself.

However, if he did anything to Li Ling 'er, it would be hard to explain.

Li Ling 'er didn't mean to cause trouble for Cha Lei. Even if Li Xin believed in MO Xiu, she still didn't believe that MO Xiu could enter the top ten.

It was purely because she had been in a bad mood recently. Zhuge Zhong had been locked up by the Zhuge family and could not be contacted until now. She rarely went out during this period of time and spent most of her time at home.

This time, she had come out to see how MO Xiu was acting tough. She hadn't expected to see Cha Lei's arrogant appearance. Li Ling 'er couldn't take it anymore, so she made such a bet.

He wasn't just betting on how far MO Xiu could reach, he was also betting on how long Wen Teng Dao could last.

On the other side, the two main characters were fighting with all their might.

There was less suspense on Wen Tengdao's side. He had successfully defended the arena for a day, which meant that he had the strength. Unless he met someone who could restrain him, there would be no accidents.

The most important and crucial thing was still MO Xiu.

In order to save time, MO Xiu did not walk back to the bottom of the ranking board. There were too many people in the middle, and it was noisy.

After each battle, Moxiu would stand at a distance and issue a challenge. This way, Moxiu would not be able to announce the rankings. The top 100 players would be able to tell everyone Moxiu's current ranking, or they would watch every match of Moxiu and calculate Moxiu's current ranking based on the number of opponents. "47th place!" "46th place!"

"45th place!"

“Aiya, I lost. I bet that Moxiu wouldn’t be able to enter the top 45. How did this happen? I heard a God analyze it the day before yesterday. It would be very difficult for Moxiu to enter the top 50.”

Forget it, that God doesn’t even dare to come out now. He even claims to be related to Tianji School. I’ve heard some reliable analysis these few days. MO Xiu’s limit is 37th place!”

“So precise? It looks a little real. I’ll bet on it!”

“40th place!”

These were the results from the morning. Moxiu had only fought against eight opponents and had won all eight matches.

However, those who had watched the match knew that Moxiu had not won easily. The last two matches had even seemed a little strenuous.

This also made the Imperial Family even more certain that Moxiu would ultimately be ranked 37th.

In the afternoon, the competition continued.

“39th place!” “38th place!”

“37th place!”

When he reached this awkward ranking, MO Xiu stopped and held his phone to announce that the class would end early today!

He left just like that? A few days ago, it was already eight o’clock at night. Why did she leave early? Could it be that the Almighty was right? Moxiu’s strength would eventually stop at 37th place?

MO Xiu left, leaving the audience and people who were paying attention to this matter to explode.

Regardless of whether it was the imperial family or the outsiders, they all thought that Moxiu was afraid.

Otherwise, how could it be so coincidental that he stopped at the 37th place?

At this moment, a large number of people began to place their bets on Xio's final ranking between 40 and 35.

It was not only the members of the royal family. There were also some outsiders who joined in the fun. They believed that Moxiu was most likely in this ranking and wanted to profit from it.

It's easy to tell if he's a royal or not, but Cha Lei doesn't care. How many stones can an outsider have? In order to show the strength and magnanimity of the Cha family, no matter who came, as long as they brought herbs, they would accept them all!

Because it was a ranking guess, all the options were 1:1. Cha Lei roughly calculated that they were all individual investors. Even if MO Xiu didn't dare to come tomorrow and stayed at 37th place, he wouldn't lose much.

The gambling session did not end until eight o'clock in the evening. Just as it was about to end, two more uninvited guests arrived.

The bets were all very big, and the bets were very strange!

He chose the first 15 sections where only Li Ling 'er had placed her bet!

Cha Lei wasn't stupid. On the contrary, he was very smart. When he saw the person who came, he knew that things weren't that simple.

Of these two people, one was the 'big' Da Afraid, and the other was Liu Ruxue.

He was most likely a member of a large family and had a deep relationship with the Li family. Moreover, it was rumored that the 'big' family had a deep relationship with Moxiu.

It was hard not to think of Moxiu when they placed their bets at this time. It was very likely that Moxiu had made Da Afraid come.

Cha Lei tightly furrowed his brows. The one who really made him hesitate was Liu Ruxue.

Liu Ruxue opened an illegal shop. An outsider opened an illegal shop in the imperial family, and the Tianji School and the manager actually didn't object.

Furthermore, after many years of operation, Liu Ruxue had the most information in her hands after Tianji School.

There would even be royalty asking Liu Ruxue for information. Such a well-informed person would make a very useful judgment.

"I'm going to close the stall soon. You two, hurry up. How much do you want to bet?" Cha Lei said unwillingly."

Big Fear looked at Liu Ruxue and said,"" 500 Heaven Grade herbs!"

If Moxiu was here, he would have been surprised to find that Fearless didn't show any fear when he spoke to Cha Lei.

Once this number was out, Cha Lei almost fainted. Throughout the day, there weren't that many sky rank herbs.

"Don't brag, bring me the herbs!" Cha Lei said."

"You're the banker here under the Zha family's name. Otherwise, there wouldn't be so many people who believe you. In that case, I can use my 'big' family's reputation to guarantee it.""

Cha Lei takes a deep look at Da scared. It's not easy to say that he's a member of the family. Since he said so, he can't refuse. After all, he's relying on the reputation of his family.

"What about you?" Cha Lei turned to Liu Ruxue. How much are you going to bet?"

Liu Ruxue appeared polite and slightly bowed. "'I'm a female and don't have much strength.'" "How much is that?"

480 Heaven Grade herbs!" Cha Lei's eyes almost popped out..

Chapter 374: The First Skill Skill

The next morning, just like the previous two days, many spectators arrived early. Wen Tengdao also arrived early, preparing to continue guarding the arena.

After the previous days of defending the arena, the number of people challenging him today had drastically decreased. The royal family's descendants began to realize that this person, who had never been famous before, had terrifying strength and firmly guarded the rankings.

As time passed, MO Xiu still hadn't arrived. It was already past nine o'clock. In the past, MO Xiu would come at eight o'clock every day.

The morale of the imperial family soared. They unanimously believed that Moxiu would not dare to come. Otherwise, why would he leave early yesterday and not come at this time today?

The outsiders seemed to have a lot on their minds. It was not because they had stopped at their current position. The 37th place was already very strong, but even if they lost, they had to lose in a fair and square battle!

MO Xiu's bold words from a few days ago were still fresh in his mind. At that time, he had arrogantly forced the Imperial Family's disciples to accept the challenge, and his heroic spirit had soared to the sky.

Now that he was afraid of losing the match, he didn't even come. Wasn't this the coward that Moxiu himself called?

With every second that passed and every second that Moxiu did not appear, it was like a slap to the face of an outsider. It was very embarrassing.

The imperial disciples began to mock them. These few days, they had been frustrated by MO Xiu and Wen Tengdao. It wasn't easy for them to get such an opportunity, so they naturally couldn't let it go.

Although Wen Tengdao was still persistent, the leader was no longer around. What could a small team leader do?

"Yo, it's almost noon. Aren't you outsiders going back? Could it be that he had to wait for MO Xiu to admit defeat? It'll be even more embarrassing when the time comes!"

"That's right. You guys are still hoping that Moxiu left because he had something to do? What could happen in the Imperial Family? Even if he had something to do and left, he should have told his supporters, right?" "Hahaha, look at your ugly expressions. Hurry up and go back."

The outsiders didn't leave. Since things had already reached this stage, everyone had expressed their support for Moxiu. If they left now, all their previous efforts would be wasted.

However, the imperial family was right. The outsiders had no choice but to silently endure the ridicule. At least Wen Teng Dao was still fighting.

On the imperial family's side, Cha Lei heaved a sigh of relief. He had bet so much on Liu Ruxue yesterday that he thought MO Xiu would come today. But now, it seemed that MO Xiu had given up.

"I'm sorry! I'm late! Continue with the class!"

The corner of Cha Lei's eyes twitched. Against me? He appeared just as he was relieved?

This arrogant voice was extremely familiar to everyone present. MO Xiu was here!

Most of the people in the royal family felt that something was wrong, but there were still some who were stubborn and shouted, "Mo Xiu! A coward like you hasn't appeared for so long. Are you here to admit defeat?"

MO Xiu didn't even look at this person. He directly stood under the rankings and said," Challenge 36th place..."

Moxiu's actions were still as domineering as ever, proving it to everyone with his actions.

Although the battle had yet to begin and it was unknown if Moxiu would win, the outsiders had already started cheering. It was no longer important to win or lose. Moxiu was still the same Moxiu, representing the backbone and fighting spirit of the outsiders.

The battle began, and everyone was watching it on their phones.

Motheo's victory was no longer an easy one. He used all his skills, including Silence, Warrior Amplification, Flying Sword, and Fire Elemental.

He had used all four of his Skills, which proved that he had no more energy left. In this situation, the battle was not easy, which meant that he was reaching his limit.

Even so, they still won this round!

"35th place!"

"34th place!"

Moxiu had reached 34th place. The previous wave of people who had bet on the 35 to 40 range had all lost.

The person who had predicted that MO Xiu would be ranked 37th had also fallen from grace. He was scolded so badly that he didn't dare to leave the house.

When Moxiu returned to the rankings, the imperial family's disciples looked very worried. The outsiders were also very worried.

The Imperial Family was worried because even if Moxiu's ranking did not live up to his bragging a few days ago, it was still shocking enough.

Thinking back, on the first of July, when Moxiu stood under the ranking board and said that he would be attending classes, all the members of the Imperial Family thought that Moxiu was bragging. At that time, many people predicted that Moxiu would at most be able to reach the 80th place, and the limit would be beyond the 50th.

However, MO Xiu had unknowingly reached 34th place. He had been deceived by MO Xiu's boastful words and had forgotten to look at the rankings before him.

The 34th place on the leaderboard was a position that only Royals who were above the age of 23 could reach. After awakening all four skills, they had to polish for a period of time before they could reach this position.

Where was MO Xiu?

He had just awakened all four skills at the age of 19. He had surpassed all the royal family members of the same age.

Everything!

Moxiu's arrival here had already proved that he had the ability to teach because Moxiu was stronger than all the members of the imperial family!

When the truth was laid out on the table, the arrogance of the royal descendants disappeared. Their pride had been shattered by Moxiu at this moment.

It was not that the members of the Imperial Family were unreasonable. It was just that they had been high and mighty for too long. They did not believe that a top-notch genius could appear among the outsiders. They did not believe that someone like MO Xiu would appear.

But the truth is right in front of us, and we can't let them find excuses for themselves.

The outsiders were also worried about the Conqueror because from the looks of it, MO Xiu was about to reach his limit. His ranking might not rise much.

He didn't have high expectations for Moxiu, but now that he was ranked, he could accept it.

However, Moxiu was such a person. He was a person who constantly created miracles, breaking their understanding time and time again.

There were even many people who believed in MO Xiu. They believed that he could reach a height that would shock everyone.

This was how people were. They would never be satisfied. Moxiu had raised their expectations bit by bit. At this moment, they actually felt that Moxiu hadn't done enough. He could have gone even higher.

MO Xiu looked at their reactions and knew what they were thinking. MO Xiu was becoming more and more sensitive to the thoughts of others.

For some reason, every time a skill awakened, not only did it increase Moxiu's strength, but it also increased his understanding of the overall situation. At first, he felt that it was strange, but after thinking about it, it was attributed to the increase in all of the War God's attributes.

The people on both sides were very worried. MO Xiu's goal had been achieved. "Students, the show has just begun. Next up is the key training!"

Everyone's attention was on Moxiu. At this moment, Moxiu continued to challenge and walked towards the battle location.

Moxiu had won this match easily. Everyone's opinion of Moxiu had changed

once again. Regardless of whether it was the imperial family's descendants or the outsiders, they all felt that they were too naive!

Moxiu was too terrifying. Even at this point, he was still hiding his strength.

He had just used a bubble skill and easily defeated his opponent. Wait a minute, Moxiu had already had four skills.. This was the fifth skill?

Chapter 375: First Auction of Medicinal Liquid

Previously, Motheo had already used four skills. Including the bubble skill this time, wasn't that five skills?

However, there was no need for Moxiu to explain this. The others could easily understand. Moxiu was a member of the Li family, so his Silence skill should be his innate skill.

Since Moxiu had an innate skill, he could be considered a member of the royal family.

This way, the morale of both sides was boosted. Since Moxiu was from the imperial family, the descendants of the imperial family didn't feel so defeated.

Moxiu's strength rose once again, and the outsiders saw hope in Moxiu's advancement.

There was only one person with a sad face, and that was Cha Lei!

Based on MO Xiu's current strength, he could very well enter the top 15. At that time, he would have to compensate Li Ling 'er, Da Pa, and Liu Ruxue with so many Heaven Grade herbs.

Even if he was rich and imposing, it would still be very difficult for him to take out so many herbs at once. It was impossible for him not to ask for help from his family. If that happened, he would lose a lot of face. If he lost so many herbs, he might even be punished by his family.

All the way until 8 O'clock in the evening, MO Xiu's ranking came to 22, and he was very close to the top 15.

He was also a big step closer to the goal that MO Xiu had mentioned of giving everyone on the rankings a lesson.

That night, the outsiders cheered. The day of their success was coming, even if their own strength was not enough to make it into the top 100.

However, MO Xiu's actions were just like Wen Tengdao's analysis. In the future, the royal family will look at us outsiders differently. The sparring between outsiders and the royal family will also become more intense. In addition to the motivation and motivation that MO Xiu brought to everyone, I believe that in the near future, there will be a second or third outsider who will enter the top 100 of the strength rankings.

On the Imperial Family's side, their emotions had calmed down. With Moxiu's strength, the 22nd place was also a real ranking. At this time, there was no longer any dispute.

Many members of the royal family calmed down and thought about it. Even if Moxiu had an innate skill, how could he be so far ahead of them?

Was it because the growth method of outsiders was better? However, outsiders did not have many resources in the outside world. How did MO Xiu become so strong?

On the other side, Cha Lei quietly closed his bets and stopped accepting bets.

This time, he had won a lot of herbs from individual investors, but the three big players had bet on MO Xiu to enter the top fifteen. If he did not think of a way, he would still lose money.

MO Xiu returned to his room and lay down. He had not left early yesterday and went late today on purpose. He really had something to do.

It was the matter of the strongest corporation in the outside world. Due to the high expectations of the people, all the preparations for the medicinal liquid were completed.

Mu Mu decided to sell the medicinal liquid ahead of time. Although MO Xiu couldn't return, it was still necessary to pay attention to the critical time of the first sale.

Therefore, Moxiu left the central area early yesterday and returned to his room to monitor the situation of the first sale. He wanted to see if there were any unexpected situations that he needed to resolve.

The first sale was set to be last night. Moxiu had been staring at it all the way until this morning. After seeing that there were no problems, he went to the rankings.

The first sale was not bad. The best thing about the sale of the medicinal liquid this time was that it had won the hearts of the people. The people were very grateful to Moxiu and the strongest group for giving them a chance.

It allowed everyone to use the medicinal liquid and have a chance to stand out. Everyone who came to buy it had a grateful heart.

They had already started lining up early. Everyone wanted to personally taste the medicinal liquid and see how it worked. No one wanted to give up this opportunity.

This also caused too many people to come to the first sale. Mumu had to change the plan at the last minute and reserved a portion of the liquid for the law enforcement team and the military of each city to help maintain order at the first sale.

If they did not do so, they would join the team. The pressure on the strongest group was very high, and there were not many staff members to maintain order.

After all, they needed a lot of manpower in all aspects. Every sales point needed to be equipped with security personnel, information verification personnel, sales personnel, guidance personnel, and records and fairness personnel.

Just the sales point alone required a lot of internal staff. Moreover, the workload was huge. At least three teams of people were needed to rotate in order to ensure normal work.

This was actually caused by Moxiu, Mu Mu, and the others. Moxiu had decided on the sales method during the press conference.

This method indeed had thousands of benefits, but the disadvantages were also obvious. It caused a lot of trouble for Mu Mu and Cao Fenglin's management work, and the pressure on the staff was also very high.

Before the launch, Mumu had already noticed that there was not enough staff, so he immediately contacted the law enforcement team and the military for help.

This was the difficulty before the launch, and there were still many difficulties after the launch.

It was still okay in Yan City. There were a total of five sales points, which dispersed the flow of people well. There would not be a large crowd.

However, this was not possible in small cities. Some cities only had one point of sale, and more than half of the city's population came to queue up to buy it. The queue was frighteningly long.

Many photos of people queuing up appeared on the Internet. The most frightening one was that the sales point was not in the city center, and there were many people queuing up. They actually queued up in other cities.

What was even more coincidental was that after queuing up in another city, he bumped into the last line of people queuing up in that city to buy the medicinal liquid.

The online evaluation said," On the first day of sales of the medicinal liquid, the sales points in the two cities were seamlessly connected."

When the teams lined up together, there would be chaos. In the end, the law enforcement teams of the two cities communicated and separated the two teams.

This wasn't the only piece of news that had appeared in the queue. It was really because of the sales policy of Moxiu that the sales efficiency was relatively low.

Not to mention queuing up, one had to verify one's identity when buying, leave a record, and drink the medicinal liquid on the spot before it was considered a completed sale. Only then could one leave.

In this way, the consumption of the medicinal liquid was actually not very large. The sale had not ended yet. According to Mu Mu's estimation, this batch of goods could be sold for five days. At that time, the next batch of goods could be released, achieving an unlimited supply.

It seemed like the strongest group had an endless supply of medicinal liquid, but in reality, many people could tell that this was just an illusion.

After buying a bottle of medicinal liquid, they would have to queue up again. When they queued up again, it might be two or three days later.

This supply was still not enough, and they could not achieve the goal of one per person per day that Moxiu had mentioned.

Later on, when the production of the medicinal liquid increased, he could improve this situation by increasing the sales points.

As soon as the queue and the shortage of supply appeared, many interesting things happened.

The first was the most common situation in daily life. Some powerful people directly went to Mu Mu or the top management of the strongest group to get their goods. Mu Mu had given a death order to prohibit such a situation from happening.

Moreover, some people relied on their strength to skip the queue and forcefully cut in line to buy, causing serious protests from the people.

In the later stages, he relied on the law enforcement team's seriousness and responsibility to improve..

Chapter 376: The Fastest PirPirate in History

There was another matter that made MO Xiu not know whether to laugh or cry. He had originally thought that this would completely put an end to the scalpers and prevent them from reselling at a high price.

Yellow Ox's tricks were still very high. He could never block their path to making money.

If they couldn't get their hands on the medicinal liquid and couldn't sell it, they would sell something else. They would sell it directly to the queue. These scalpers were organized and disciplined. They sold the queue at a high price. Some rich people or people who wanted their children to use the medicinal liquid every day would buy it from them at a high price.

This problem was very difficult to solve at first, but later on, Morion came up with a solution. If he wanted to completely put an end to this problem, he could only wait until the sales volume increased in the future and the sales points were everywhere.

At this stage, the only thing they could do was to lower the price. The scalper's strategy was very simple and easy to understand. The closer they were to the purchasing area, the higher the price.

If they didn't have enough manpower, they could just watch the front of the team and force the scalpers to lower their prices so that the benefits they received would be limited.

This workload was also very large. Because it was difficult to distinguish between the real and fake, it took a lot of time to line up. Some young people could not waste their precious time on this. Many parents came to line up for them. When they were almost at the place, the children would come to change their parents.

This was a phenomenon that couldn't be stopped. If the children were to queue for two to three days, it would go against the original intention of Moxiu's creation of the medicinal liquid, and it would also reduce the effect of the medicinal liquid.

What was more serious was that some rich people moved their families to Yan City. Because there were many sales outlets in Yan City, they could save a lot of time and make one bottle of medicinal liquid a day.

This was something that MO Xiu had never thought of before. After checking online, he found that there were quite a number of people who imitated it.

Suddenly, a large number of residents entered the city, and the housing prices in Yan City rose. The housing prices were already very expensive. But after only one day, the housing prices in Yan City had become sky-high.

The real estate bosses in Yan City were overjoyed. They had brought such a big business opportunity.

Mu Mu even laughed at MO Xiu. You didn't expect this, did you? You have also driven the economic development of Yan City.

Many things like this had happened, and Mumu had actively dealt with them. Fortunately, there were no major problems.

There were even more positive comments online. Even though there were many shortcomings in such a sales policy, the strongest group had solved them one by one. Moreover, despite such good sales, they still did not change their original intentions.

This was what happened on the day of the sale. In just one day, there were so many things and overwhelming public opinion.

Every time there was a small incident, the media would report it wantonly. Of course, with the current status of Moxiu and the most powerful corporation, the media would not dare to report it recklessly. Everything was based on facts. Every time Mu Mu responded, it would be reported.

This also caused the reputation of the Strongest Corporation and the medicinal liquid to change countless times in one night.

The queue chaos exploded!

Doubtful voices appeared on the Internet, "The strongest group is not ready yet.""

The law enforcement team came out to maintain order!

"The strongest corporation is awesome!"

Yellow Ox appeared!

"Absolute fairness has been broken. Shouldn't the strongest corporation reflect on itself?"

After beating down Yellow Ox's income!

"The strongest corporation is awesome!"

The discussion and evaluation of the strongest group on the Internet had changed countless times. Mumu himself said that this was a roller coaster ride because this sales model had never appeared before. There was no experience to learn from, so he could only continue to fumble in the process.

Mu Mu didn't sleep that night, nor did he dare to sleep. There were too many situations, and he was afraid that a problem would appear. If it wasn't solved in time, it would affect the sales of the medicinal liquid.

There was a shortage of staff. Mu had already communicated with her best friend, He Lingyue, to borrow a group of trustworthy people from the strongest club to serve as staff.

As for remuneration, He Lingyue wanted the medicinal liquid, but she couldn't give it to him at this stage. She could only promise that after the sales increased, she would cooperate with the strongest club in Yan University.

He Lingyue also knew that Mu Mu's words were just nice words. The strongest club was the predecessor of the strongest group. They were inextricably linked and would definitely have deep cooperation in the future. This was actually nonsense.

But then again, the relationship between the two was so close. When they needed the strongest club, they should step up!

Joining the strongest club also greatly relieved Mu Mu's pressure. Mu Mu didn't have to worry about this and could focus on dealing with various problems.

MO Xiu felt that Mu Mu had done a good job and did not need his help. He had planned to come to the rankings early in the morning.

However, just as Moxiu was about to set off, an accident occurred that required

Moxiu to deal with.

Piracy had appeared!

This was probably the fastest pirated version in history. It was actually released on the same day as the original.

The price was double the price of the medicine from the Strongest Group. The purpose of this was very understandable. They wanted to take advantage of the fact that the Strongest Group had just released

the medicine and make a profit during this period of shortage. They would change their strategy when the production capacity of the StrongStrongest Group increased.

Mu Mu investigated the company overnight. The company had just been established and had its own factory. There were very few medicinal liquids available, and the effects of the medicinal liquids were much worse than those of the strongest group.

However, it was not fake. The medicinal liquid was indeed effective and was stronger than ordinary herbs.

With this information, Moxiu understood that the creator of this Grass Essence wasn't from the Imperial Family.

Moxiu's price was so low. If the imperial family wanted to sell it, the profit would not be high. No imperial family would be interested in such a small profit.

However, this company did not have the support of the royal family. They could produce the medicinal liquid just by listening to a press conference. Their pharmaceutical standards would far exceed those of the strongest corporations.

At least in terms of technology, he was much better than the people from the strongest group.

It was a pity that the marketing was not good enough. Moxiu could imagine that this was a group of technical staff gathered together, wanting to achieve something big.

They failed in terms of marketing. Grass Essence was a newly established company, and the strongest group had the names of MO Xiu and Mu Mu as guarantees. They were not on the same level at all.

Moreover, the medicinal liquid of the Strongest Group had been verified, and the public could use it without worry. A small company like Grass Essence was not famous in the past, and its products were not authentic.

Not to mention whether the quality could be guaranteed, it was hard to say whether there would be any side effects.

The price of the grass essence was even higher than that of the strongest group. Would rich people be at ease spending money on a product that had no background or reputation?

Obviously not!

If the price of the grass essence was very low, perhaps it would be better. However, in the current situation, coupled with the overwhelming media coverage of the strongest group, they could not even publicize it.

Not many people knew about it, and even if someone knew, they might not buy it..

Chapter 377: An Unforeseen Event (1)

The sales strategy of the grass essence directly led to bankruptcy on the first sale. They could only find a way to sell it at a low price.

This way, those who didn't believe them at first became even more skeptical.

This was the psychology of consumers. If you lowered the price of this thing as soon as it was sold, how could it be a good thing?

Mu Mu gave MO Xiu two plans.

First, this company was left alone. Because of this, no matter what official methods were used, they would advertise for this company. If they were left alone, Cao Jing Shui would soon go out of business.

Secondly, to avoid trouble, he would buy all of their herbs at the lowest price when the herb essence could not hold on any longer.

For the herb essence to be able to develop the medicinal liquid so quickly, the investment in research and development must have been huge. Now that the medicinal liquid could not be sold, it was very likely that it was on the verge of collapse. In the end, it would be sold at a price lower than the cost.

The condition that the Strongest Group had for purchasing the medicinal liquid was to stop researching the medicinal liquid in the future.

It was best to avoid having other marketing experts help them and get rid of trouble as soon as possible.

These two plans were not bad, but Moxiu had come up with his own plan.

Acquired!

Since they were rivals and could not continue doing business, they could buy it!

After the acquisition, the subsidiary company continued to produce the medicinal liquid, lowering the price of their medicinal liquid and continuing to sell it as a low-end product.

This could increase their sales volume and bring profits to the strongest group, killing two birds with one stone.

However, there was a condition for the acquisition, The core members had to sign a lifetime contract to prevent the secrets from being leaked.

Mu Mu immediately understood after hearing MO Xiu's plan. This was the most common move that MO Xiu and Hao Ren had used step by step.

Consolidating the market. Back when the strongest club dominated Yan University, this was what they did. Those who obeyed them would prosper and those who resisted them would perish. They would either join and improve together, or perish under the competition.

Mu Mu immediately carried out the order after receiving it. The acquisition went smoothly. The higher-ups of Grass Essence couldn't stand it anymore. When they saw Mu Mu's conditions, they agreed without hesitation.

Not only this time, Mumu had developed a complete acquisition plan. In the future, if there was a pirated manufacturer that met the acquisition conditions, they would immediately acquire it. Over time, there would not be a pirated manufacturer in the market.

Now, there was only one pharmaceutical branch company, Grass Essence. If there were more in the future, Mu Mu would not have the energy to manage it. This was a very large sector, and he was not at ease handing it over to others.

After asking Moxiu, it was finally decided that the Xiao family, a major shareholder of the strongest corporation, would be in charge of the integration and management.

When this matter reached Xiao Hong's ears, she was so excited that she broke her agreement with MO Xiu and came to MO Xiu's room to personally thank him.

This was not a small project. It was enough to make the Xiao family rise rapidly.

At this point, the matter of the medicinal liquid came to an end.

Moxiu returned to his room and didn't stay for long before heading to the Skill Cultivation Room. He hadn't cultivated for the past few days due to various reasons, but now that he was free, he had to continue cultivating.

As usual, MO Xiu placed an Earth Grade herb into the drawer and started cultivating.

She had just closed her eyes when she opened them again.

"Are you toying with me?"

Moxiu sighed. He had originally wanted to cultivate the Destruction Bubble, but the situation of no reaction after absorbing spiritual energy had occurred again.

It had appeared twice before. One was before the upgrade of 'flip' and the other was before the upgrade of 'self-healing'.

Every time, it was the passive skill leveling up that stole the spiritual energy. This time was no exception. When Moxiu focused his attention on the third passive skill, Random, he discovered something unusual.

Moxiu did not know if this was a good thing or a bad thing. There was no sign of when this passive skill would level up. It seemed to be completely dependent on his mood.

Recently, Moxiu had gained some insights when he used the Destruction Bubble. He was wondering if he could upgrade the Destruction Bubble.

He didn't expect the 'random' skill that he had never used in actual combat to join in the fun.

This interrupted Moxiu's plan. However, Moxiu was still looking forward to the 'random' leveling up.

Level 1 'Random' was simply useless. It might not help him or others.

He wondered if it would be more stable after leveling up. He was still looking forward to it.

The next morning, MO Xiu arrived at the ranking early. This was probably the earliest time he had come since the challenge was launched.

Last night, the outsiders and the royal family were very quiet. There was not much discussion. After all, Moxiu had already proved his strength.

The outsiders would also praise MO Xiu in a small area, but they didn't cause too much of a commotion. MO Xiu's challenge was still ongoing, and no one knew where MO Xiu would end up. They were all waiting for MO Xiu to finish his challenge before praising him together.

The Imperial Family remained silent. Moxiu had proven his strength and was about to complete the feat he had boasted about a few days ago.

Such a powerful and arrogant personality had even gained some support within the imperial family.

The group of people in the Imperial Family who supported Moxiu now was the same group of people who had once mocked Moxiu for being the most ruthless. They did not feel that they had been slapped in the face, but they felt that it was really fragrant.

When a person was just bragging, he would be laughed at and even looked down upon.

However, if this person had the ability to realize his awesomeness, then it would be completely different.

The voices of "Teacher MO" slowly began to appear among the royal disciples. There were also some love-struck girls who had their eyes on MO Xiu.

MO Xiu was a little handsome, and his strength was at the peak among his peers. Even the forces behind him were the two great clans and the Dark Shadow. Who wouldn't be tempted by such a person?

When he walked to the bottom of the ranking board, Wen Tengdao was already there. MO Xiu said, "Brother Wen, it's been hard on you. You don't have to guard the arena anymore!"

"It's okay, I'm not tired. I've improved a lot in the battle."

This was not a polite remark. Although the opponents these few days were not as good as him, they were all challenging the royal family at this time.

Wen Tengdao had gained a lot of experience from fighting the imperial family. He didn't have to do hard work, but he had also gained something.

MO Xiu said meaningfully, "I said you don't need to guard the arena, but I didn't ask you not to fight."

Wen Tengdao rolled his eyes and said, "Understood!"

The two separated. Wen Tengdao immediately gave up guarding the ring and charged towards the first hundred.

Wen Tengdao thought, 'Yeah, why didn't I think of that?' MO Xiu had reached the 22nd place, so there was no point in defending the arena. What could ignite the passion of the outsiders again? It was either MO Xiu entering the top ten or the second person to enter the top hundred of the Strength Rankings.

Wen Tengdao was the second person, and he immediately issued a challenge.

On the other side, MO Xiu said to the Imperial Family, "Let's start the class. We're already ranked 22nd, so there aren't many classes left. I'll challenge the

21st...Hmm?"

Moxiu was shocked. The others followed Moxiu's gaze and looked at the ranking board. They also revealed expressions of disbelief.

21st place is actually Cha Lei!!

Chapter 378: Cha Lei of the Four Great Clans

The 21st on the leaderboard was Cha Lei, the next person to be challenged by Mo Xiu.

Moxiu frowned slightly. He had thought that he would successfully complete this challenge, but he didn't expect someone to come out and cause trouble at the end.

Cha Lei was originally ranked 10th, but he became 21st overnight. Moreover, he had started a gambling session these days. It was hard not to think too much.

When Moxiu heard that Zha Lei had opened the bet, he also placed a bet. Of course, he couldn't place a bet with his own identity, so he asked Big Fear to help him and used the herbs in his small treasury as a bet.

That's right! Those 500 Heaven Rank herbs were MO Xiu's wager.

There was one thing that made MO Xiu's hair stand on end. Just as he had sent Big Fear a message, Liu Ruxue had sent a message saying that she wanted to vote.

Wasn't Liu Ruxue's intelligence too fast? Or was it expected? MO Xiu gave Liu Ruxue Da Afraid's contact information.

Many people in the audience didn't know what had happened. They looked around and asked. When they found out that Cha Lei had become the 21st on the power ranking, both outsiders and royal descendants started to curse!

If Cha Lei only wanted to spar with Moxiu in advance, it would still make sense. Moxiu had also said that he would challenge everyone, so sooner or later, he would challenge Cha Lei.

However, Cha Lei had started a gambling game. He was the banker and was ranked 21st. As a stumbling block for MO Xiu, he obviously wanted to control the gambling game and prevent MO Xiu from entering the top 15.

At this moment, Cha Lei walked out from the crowd of the imperial clan and said to MO Xiu, "Mo Xiu, what's wrong? No longer daring to challenge? Are you going to skip me?"

As soon as this sentence was said, regardless of whether it was the outsiders or the royal family, everyone cursed. How shameless was this? He was clearly the one who was cheating, yet he still dared to provoke MO Xiu!

Cha Lei panicked when he saw the reaction of the audience. In this situation, even if Moxiu skipped him, he wouldn't be affected.

Right now, Cha Lei could only look at MO Xiu with anticipation. A person like MO Xiu wouldn't skip over anyone, right?

The ones who reacted the most violently to Cha Lei's actions were not the outsiders but the imperial family.

The outsiders didn't think much of it. Cha Lei was the first to go back on his word. Even if Moxiu didn't challenge him anymore, it was Cha Lei's fault.

Besides, Cha Lei's reputation in the imperial family is not small. He is one of the top ten in the power ranking list and is also a member of the four great families. How could outsiders dare to offend him?

The descendants of the royal family were different. They knew the rules of the royal family.

Therefore, they weren't afraid of Cha Lei. Besides, they had a beneficial relationship with Cha Lei. Now, most of them were shouting for Cha Lei to withdraw the herbs.

Zha Lei, who was standing in front of MO Xiu, also felt a little awkward. He urged MO Xiu, "Mo Xiu, do you dare or not?"

In the eyes of the others, Moxiu had no reason to accept this battle and could legitimately skip a spot in the top ten.

MO Xiu's reaction was beyond everyone's expectations. Even though the people around him were making a ruckus, MO Xiu's expression did not change.

"Challenge the 21st place, Cha Lei!"

Saying that to the leaderboard proved that the challenge had been established.

Cha Lei was overjoyed. He quickly accepted the challenge on his phone and walked towards the battle location.

Halfway through, MO Xiu said, “Cha Lei!” Students who cheated would be punished!”

Cha Lei didn’t care about MO Xiu’s words at all. In his mind, MO Xiu couldn’t possibly win against him. As long as MO Xiu accepted the challenge, he would win.

In the previous matches, Moxiu had always been in the process of rising. If he won this match, he would enter the top ten.

This was a match that was eye-catching. This match came earlier than MO Xiu had expected.

After the two of them arrived at the competition venue, while waiting for the match to begin, countless people flooded into the live broadcast room where the two of them were fighting.

Unlike the previous matches, this time, apart from the younger generation, the spectators also received the attention of many older members of the royal family.

It was for no other reason than the fact that anyone who could enter the top ten of the Power Rankings would become a pillar of the clan in the future. If MO Xiu could really stand at the peak of the Power Rankings at his current age, then no matter how complicated his background was, he would have a certain amount of authority in the Imperial Family.

In the arena.

“Moxiu, your farce will end today. ””

Moxiu didn’t want to talk to Cha Lei. He said: “I know what you’re thinking.”

This match was also quite important to Moxiu. He had previously predicted that he would only encounter the top ten tomorrow. At that time, his passive skill 'Random' might be upgraded, which would increase his chances of winning.

There was something wrong with Cha Lei's personality. Today, he could do such a thing, which proved that he couldn't keep his cool. If Moxiu was a high-ranking member of the Cha family, he wouldn't put Cha Lei in an important position in the future.

However, personality is personality. Cha Lei is able to enter the top 10 because of his strength.

Motheo did not delay and immediately used God's Authority. At the same time, he also used the additional skill, Silence.

"Talent Skill: Double (Passive)

[Skill effect: All summoned creatures have doubled numbers and attributes.]

[Skill 1: Exploding Thunder 8 (to be used)]

[Skill Effect: Summon 10 Explosive Grenades (800). Able to control the position of the grenade (within 500 meters).]

[Additional effect: Control. You can control the sequence of the explosions one by one (the interval between the explosions is 90 seconds).]

[Additional effect: Stacking. The damage of the explosion can be stacked.]

[Additional effect: Explode. A grenade can cause damage within a two-meter radius.]

[Cooldown time: 15 minutes]

[Second Skill: Landmine (7) to be used)]

[Skill effect: Buries eight mines (800). Explosion method: trample or self-controlled explosion.]

[Additional effect: Spread effect. Deals damage within a three-meter radius and up to two meters.]

[Additional effect: Hidden, undetectable.]

[Additional skill: Chain. When you step on a mine, all the other mines will explode.]

[Cooldown time: 30 minutes]

[Third Skill: Lightning Armor 7 (to be used)]

[Skill Effect: Summons a spherical protective shield formed by explosive lightning within a five-meter range. Physical and elemental defense is 3,000 percent of the original body. It can be retracted automatically.]

[Additional effect: Clairvoyance. The main body can see outside the lightning armor, but those outside the lightning armor cannot see the main body inside the lightning armor.]

[Additional effect: Detonation. Lightning armor's defense is broken. Detonated by a bomb (500).]

[Duration: 1 hour] [Cooldown time: 30 minutes]

[Skill 4:8 Rocket Guns to be used]

[Skill Effect: Choose a target and release a rocket (4000)]

[Additional effect: Tracking. After selecting a target, it will follow the target until it touches an object and detonates.]

[Additional effect: Extreme Speed. The rocket will continue to accelerate (the limit is 10,000 percent of the original body).]

[Additional effect: Second detonation. The rocket will detonate for the first time after hitting the target. If the target still exists after the detonation, the target will become the new carrier and detonate for the second time. The damage will be half of the first detonation.]

Cooldown time: 40 minutes..”

Chapter 379: An Aggressive Slaughter

Summoning skills were considered to be a type of body constitution.

The main categories of abilities were summoning, changing the human body, and unexplainable skills, just like the skills of Tianji.

The specialty of the Esper Ability system was that it was unstable. It was not certain what kind of skills would appear. It was possible that his father’s generation had summoning skills, but he was not. The greatest probability of inheritance was the physique, not the skills.

MO Xiu was a little curious about the Cha family’s special ability physique, which meant that it was unstable. The talent skill was only useful for summoning skills, which meant that the population of the Cha family had to be very large in order to ensure that there were enough elites.

If it wasn’t for the summoning skill, the Zha family’s innate skill would be useless. The instability of the special ability constitution meant that many people in the Zha family weren’t very strong. Even so, the Zha family was still one of the four big families, which was enough to show that the Zha family had a large number of people.

Back to Charley’s skill, his talent skill could double the number and attributes of the summoned items. It did not look very strong, but it was actually very scary.

All of Charley's skills could deal elemental damage. The damage was already high, but after the buff from his passive skills, it was doubled.

The number would also double, and he could control more things.

MO Xiu could already imagine that the entire arena would be filled with the sound of thunder from the Lightning Detection when the match began.

The two of them had already finished their preparations, and the countdown was still ongoing.

Charley used the last ten seconds to say, "Mo Xiu, my Guaga-skill's damage is very high, and I don't want to hurt you. Are you really not going to admit defeat?"

Cha Lei also knew that these words were nonsense. However, the main purpose of saying these words at this time was to prevent MO Xiu from causing trouble in the future.

Moxiu didn't reply. His eyes were fixed on Zha Lei. The match...is about to begin!

"Let the competition begin!"

Cha Lei moved very quickly and instantly released two skills. The first was a mine and the second was a lightning armor.

Landmine was the first skill to be used. It was silenced for three seconds and was not released. The lightning armor was successfully released and wrapped around Zha Lei to form a protection.

Landmine was clearly used to defend against Moxiu's Silence. He had deliberately released it first so that he could use Lightning Armor to form a defense.

Moxiu's Silence had been through so many battles, and information about it had leaked out bit by bit. Others might not know about the cooldown, but the effects of the skill had been fully understood. It was

not strange for Charley to know about it. He was already prepared to fight Moxiu, so he naturally had to make ample preparations.

Moxiu was not idle either. He split the Holy Sword into five parts, and stepped on one of the swords to make himself fly. This was to prevent the mine from being released again after three seconds of mine inspection.

The other four swords surrounded Cha Lei's lightning armor. Moxiu first tried to use the Holy Sword to break through the defense, but it was useless. The sharpness of the divine swords was sufficient, but without Moxiu's control, their power was still lacking.

Then, Moxiu controlled the giant sword to fly toward Cha Lei at high speed. Just as he started, a thunderbolt appeared in front of Moxiu. Moxiu quickly stopped, and Cha Lei reacted quickly, controlling the thunderbolt to explode in front of Moxiu.

The Holy Sword wasn't agile enough. After being hit by the explosion, Moxiu fell to the ground. The damage from the explosion was blocked by Moxiu with his right arm. Some small wounds were slowly recovering.

After Moxiu saw Charley's skill, he felt that his skill was indeed very strong, but it also had a fatal flaw.

All the skills did not enhance the main body. The disadvantage of this was that the reaction speed was generally not very strong.

Why couldn't Xiao Xinru's lightning cage catch the fast assassins and warriors? It was because his reaction speed could not keep up.

However, Cha Lei gave off a different feeling when they first started fighting. His reaction was too fast and he almost injured himself.

With such a fast reaction speed, it was no wonder that he could use these skills to rank tenth on the leaderboard.

Moxiu didn't waste any time. He thought about it and continued to attack. This time, he didn't stand on the flying sword. Instead, he ran on the ground. The advantage of this was that he would be faster and more agile in dodging.

Even Cha Lei, who was in his lightning armor, laughed. Wasn't Moxiu the best at scheming?

He waved his hands and controlled the lightning to stop Moxiu from advancing.

"Boom!"

Another thunderbolt exploded, stirring up a cloud of dust. However, Moxiu was not affected at all. The Holy Sword accurately found the location of the thunderbolt and blocked it.

Moxiu had experimented with the Holy Sword's toughness. It was as tough as its sharpness, and it was basically impossible to destroy it. This block blocked most of the damage.

The remaining damage could be defended by Moxiu's main body.

The initial damage of the Explosive Grenade was 800, and after being doubled by the innate skill, it was 1600.

It was impressive, but it couldn't cause much damage to Moxiu.

Motheo was currently using his Holy Sword to block a portion of the damage. His body's defense was increased by 3,000%, and he was immune to 70% of elemental damage. He also had the additional skill of the War God, the Godly

Armor, and the Holy Flame, which increased his elemental defense by 2,000%.

With so many defenses, Xiao Hong's Flame Blast did not deal any damage. The Explosive Grenade did deal some damage, but it was negligible to Moxiu. He did not need to pay attention to it.

Zha Lei was also surprised inside the lightning armor. He didn't expect Moxiu to have such high elemental defense.

However, Cha Lei has been through hundreds of battles, so he doesn't panic at all. Instead, he smiles.

With Moxiu's speed, he quickly arrived in front of the lightning armor. He casually grabbed the Holy Sword beside him and stabbed it at the lightning armor, wanting to break through its defense.

Before he could finish this action, a sense of danger suddenly struck him. Cha Lei didn't react at all. This is not right!

Moxiu immediately stopped and retreated. "Quick reaction, but too late!" shouted Charley."

"Boom!"

The explosion sounded again. This time, it was much louder, scaring the audience who were watching on their phones. Their bodies leaned back slightly.

The explosion this time was caused by the stacking of the remaining 18 bombs. The deafening sound and the terrifying damage caused were earth-shattering.

MO Xiu knew that the Explosive Grenades could be stacked, but this position was too close to the mine.

MO Xiu didn't expect Cha Lei to be so ruthless. The moment the stacked lightning exploded, the lightning armor would definitely disappear.

This is a trap that costs a lot. Without the lightning armor, Cha Lei will lose his protection.

Thus, Moxiu didn't think that Cha Lei would do this at first. However, Cha Lei's fighting style was so radical that Moxiu couldn't even imagine it!

The huge explosion destroyed the entire place. The buildings inside the royal family were very hard, but in this explosion, the walls cracked and a deep pit appeared on the ground.

Smoke and dust filled the room, preventing the audience from seeing what was

happening inside..

Chapter 380: You're in the Dark, I'm in the Light

The audience held their breaths and stared at the screen, wanting to see if the match had ended.

Cha Lei had been fighting on the leaderboard for many years, so many people were familiar with his skills. They knew that his ultimate skill was the rocket.

They thought that this battle had just begun, so Charley didn't use any rockets and Moxiu didn't use all his skills.

However, he didn't expect that Cha Lei was clearly more prepared. He had designed this strategy of killing 1,000 enemies and losing 800 of his own, causing the battle to enter a white-hot stage from the beginning.

This move was extremely vicious. Although he did not use his ultimate move, its power was absolutely terrifying.

It would depend on whether Moxiu could hold on. If he could, Charley would not have any defensive skills and would be forced into a passive position.

The dust gradually dispersed. The first thing that came into view was Cha Lei, who was standing in a corner of the arena. At this moment, the lightning armor no longer existed.

Cha Lei also looks nervously at the center of the arena.

Moxiu had reacted very quickly at the moment of the explosion. He had run towards the center of the arena. If nothing went wrong, Moxiu would be there.

As time passed, in just a short dozen seconds, Cha Lei and the audience's hearts were in their throats. Would Moxiu be able to continue fighting?

When the dust settled, Moxiu's figure appeared. When the audience in the central area saw Moxiu, they cried out in unison.

Moxiu was injured, and his injuries were not light. The blood on the ground was the best proof.

At this moment, Moxiu was sitting on the ground with his head lowered. His body was surrounded by fragments of a few swords. The power of the 18 Thunderbolts stacked together had shattered five Holy Swords. It was unknown if Moxiu was still conscious.

Cha Lei was at the scene and saw everything clearly. He had a strong feeling that MO Xiu was heavily injured, but he should still be conscious.

He immediately raised his hand and prepared to release his skill.

Even though the audience couldn't see Moxiu's condition clearly, Charley's reaction was enough to prove that Moxiu could still fight.

Cha Lei wasn't stupid. He couldn't make a move when MO Xiu's injuries were still unknown. If MO Xiu couldn't fight anymore, he would invite the Li Clan's revenge. However, if he didn't make a move, it would give MO Xiu more time to recover.

After thinking about it, he shouted, "Mo Xiu, how are you? If you don't speak, it means that you admit defeat!"

Before Cha Lei's voice faded, MO Xiu suddenly raised his head and looked at Cha Lei with a smile.

Many people saw this scene and couldn't help but feel a chill in their hearts. MO Xiu was smiling?

He was still smiling despite being heavily injured at this time?

The people who saw this scene in the video felt terrified. Cha Lei, who was at the scene, was so scared that he took a step back.

MO Xiu slowly stood up. He seemed to be struggling. He placed his hands on his knees to support himself before standing up.

"Cha Lei, good plan. I've fallen for it. I didn't attack you when you were retreating just now. It's even with you not attacking me just now."

Moxiu stood up straight and smiled again. This time, his smile wasn't scary, and it appeared very sincere.

Cha Lei had been scared away by MO Xiu's gaze just now, and had lost face. MO Xiu's words had undoubtedly given him a way out.

"Alright, Moxiu. I admire you as well."

Moxiu raised his right hand, and Holy Flames appeared in his hand. Just when the audience thought that Moxiu was going to throw Holy Flames to disrupt the long-range attack, the audience was shocked.

Moxiu changed his direction, and the holy flames struck his body.

Everyone was puzzled. Was he trying to harm himself?

Everyone was very familiar with this fire skill. It was an elemental attack skill, and its damage was not small. Why would Moxiu attack him?

What happened next shocked everyone.

When the flames touched Moxiu's body, they did not explode like before. Instead, they became warm and gradually disappeared.

After disappearing, Moxiu's injuries visibly improved. Everyone present was shocked.

This... Each of Motheo's skills was not simple. He had thought that the most ordinary elemental skills could actually heal?

The Holy Flames appeared in Moxiu's hands once again. Cha Lei immediately reacted. He could not let Moxiu recover any longer. However, his [Thunder Blast] skill had been used up and was still on cooldown. He could only use his ultimate move in advance!

Cha Lei put his hands in front of his chest and said, "Moxiu, I won't let you continue healing. Let's decide the outcome!"

Two rockets appeared in front of Charley and shot towards Moxiu.

MO Xiu threw the holy flame at Cha Lei. Cha Lei didn't expect MO Xiu to change so quickly. He threw the holy flame at him without any defense and could only dodge with all his might.

No matter how strong Cha Lei's body was, he couldn't outrun the holy flame. He was hit by the explosion of the holy flame and fell to the ground.

Cha Lei, who was lying on the ground, did not move. He had used his trump card. Moxiu had no time to care about this side. As long as one of the two rockets hit, Moxiu would be finished.

Not only that, but there were also 16 mines around Moxiu. Without the Holy Sword, Moxiu was unable to fly, and as long as Moxiu moved, they would detonate.

In Cha Lei's opinion, even if Moxiu ignored the rocket and attacked him, it would at least be a draw.

Zha Lei was going all out. He didn't take his comfort into consideration in the first battle and this battle. He just wanted to win against MO Xiu.

This wasn't the usual fighting style that Charley used. His usual style was to control the situation, mainly using mines and exploding mines to attack.

Last night, when he was studying Moxiu's battle recordings, he discovered that Moxiu's combat style was simple and efficient. He could quickly find the enemy's weakness and attack.

Cha Lei thought about it. If they fought in the same way as before, Moxiu would probably find their weakness. At that time, victory or defeat would be uncertain. It would be better to set a trap for their weakness. As expected, it worked.

MO Xiu was also very helpless. He had never encountered such an opponent. His opponent was in the dark, while he was in the light.

However, when Cha Lei lost the protection of his lightning armor, the match ended.

Two rockets flew towards Moxiu. Moxiu stood still, maintaining his smile.

Many of the audience members were dumbfounded. MO Xiu's performance after his injury was too strange.

Many experts, including Cha Lei, feel that something is wrong.

Moxiu opened his right hand and released his third skill, Void Destruction.

Three bubbles appeared at the same time. One enveloped Charley while the other two enveloped the two rockets.

The two rockets were in the vacuum and were affected by the air bubble, slowing down.

Cha Lei looked at everything in front of him in the bubble. That's right, how could he forget about this skill?

Three seconds later, the rocket had just reached Moxiu. The bubble was filled with Destruction Elements, engulfing the two rockets and turning them into ashes. There was no explosion.

Cha Lei is still in the bubble. Despair appears in his eyes.

The bubble surrounding Cha Lei was a cage, so Moxiu didn't use the Destruction Element to attack Cha Lei.

Charley's personality was a little problematic, but he was an expert in combat. The damage caused by the Destruction Element was too great, and Moxiu was afraid that he would lose his life!

The war was imminent, and such combat strength should be preserved. If they suffered incurable injuries in the battle, they would lose their combat strength..
