

Four Skills 411

Chapter 411: A Video)_I

Early in the morning, Moxiu was preparing to set off. He did not choose to take the train and was currently standing on the roof of the Strongest Group's building.

Cao Fenglin was the one who sent Mu Mu off. Mu Mu had already started to get busy.

Cao Fenglin asked, "Mo Xiu, how long will you be gone this time?"

"I won't be gone for long, but I might not come back to see you for a long time."

Cao Fenglin had a premonition that Moxiu had come to the strongest corporation in the wee hours of the morning. He seemed to be in a hurry. If it wasn't for the fact that time was of the essence, he wouldn't have chosen such a method to determine the direction of the strongest corporation.

As for that video, if Moxiu had the time, he would definitely hold another press conference and personally express his thoughts instead of using a video recording.

"Moxiu, ever since the war with firearms, I've always wanted to tell you something, but I couldn't bring myself to do so."

"What?" MO Xiu asked half-jokingly. Can you pull your face down now?"

Cao Fenglin said, "A person like you will always be the center of attention no matter what stage you're on. I think you'll have to prepare for the big battle after you leave this time. I'm afraid I won't have the chance to talk about it."

"Then tell me!"

Cao Fenglin struggled to say, "Thank you. I'm really grateful for your guidance. I was your teacher in the past. At that time, you were still very innocent. After that, whether it was the firearms war or the strongest corporation, you taught me many things. It's not an exaggeration to say that you're my teacher." Moxiu raised his hand to summon his Holy Sword and stood on it.

He turned around and said, "Old Cao, although I call you Old Cao now, you will always be my teacher. Without your guidance, I might not be able to play much of a role in the war with firearms. We are just learning from each other now." After saying that, he rode his sword and left towards the north.

Cao Fenglin was left alone on the rooftop, muttering to himself, "Learn from each other? I've already been pulled away."

MO Xiu, who was flying in the air, was also somewhat puzzled.

Back then, on the eve of the firearms war, he hadn't thought as clearly as Cao Fenglin.

However, when all the clues surfaced, such a plan suddenly appeared in his mind. After thinking carefully, he came up with a complete plan.

It was true that MO Xiu had come up with this plan, but it had appeared too suddenly. Even MO Xiu himself felt that it was too abrupt.

It was true that MO Xiu had the outstanding ability to break out of a situation, but he didn't have such excellent planning skills. It was as if he had grown overnight.

At noon that day, all the sales outlets of the Strongest Group closed down, and the application for preferential policies also stopped.

The announcement given by the Strongest Group was that the medicinal liquid related business would be suspended for a day to reorganize and adjust.

This action confused the people. The medicinal liquid was selling well, and there were no problems with the quality. Why did they stop adjusting it?

If there were too many people queuing up for the first sale, it was possible that they would close down.

But now that the sales had stabilized, the number of sales outlets in various places had increased, and the people's desire to buy was not so crazy. It was time to consider their financial resources.

All sorts of speculations flew around, but the media chose not to say anything.

NO matter what, the strongest corporation was 11Ke the sun at noon. Without clear news, no one dared to come out and report recklessly, or they might lose their jobs.

It wasn't until two o'clock in the afternoon that the most powerful group released a video on various platforms, causing an uproar.

It ignited the emotions of the people once again.

Only one person appeared in the entire video, and it was MO Xiu. He said two things.

The video was different from the press conference. There was no emotional mobilization or Mu Mu's singing.

Moxiu was the only one speaking, and it seemed rather monotonous.

However, the two things that Moxiu said struck the hearts of the people.

Only now did the people realize that plain words could also stir up people's emotions.

The video was like this.

At the start of the video, the camera was aimed at a table. Two seconds later, Moxiu appeared in the camera, sitting in front of the table.

“Hello everyone, I am Moxiu. I believe everyone has some impression of me. This video can be considered an announcement from the strongest corporation to all mankind.”

“It’s not a press conference, so there’s no need to talk about useless things. Let’s get straight to the point. When you see this video, all the offline sales of medicinal liquids should have been closed, and the online preferential policy application channel has also been suspended. Don’t worry, everyone. We’re not closing down, but we’ve decided to better serve the public.”

“Since the first sale of the medicinal liquid, we have received a lot of help and support, and we can’t do without your purchase. Until today, our strongest company has sold a total of hundreds of millions of medicinal liquids. This is just my estimation. In fact, it should be more than this. We have made some money, but not much.”

“You can see from the price that our profit is very limited, but we are still grateful for this achievement. Today, on behalf of the strongest group, I announce that the price of the medicinal liquid will be reduced again. As for what price it will be reduced to, everyone can guess.”

Moxiu paused for a moment, picked up the cup beside him, and took a sip of water, keeping him in suspense.

However, not long after, MO Xiu spoke again.

Moxiu’s decision had never disappointed the people. Therefore, during this pause, most people did not make any guesses. Instead, they waited for Moxiu to announce the price.

” The appearance of the medicinal liquid is beneficial to everyone. I’m proud that our company has such an invention. This is a blessing for all mankind, but we’re using it for business. Even if the price is already very low, I still feel that it’s not enough.”

“I’ve been thinking a lot these days. Is this really right? Medicinal liquid can help humans grow, in the future, very long, a period of time, may be able to be everyone’s necessities, so????

Moxiu paused again, but the audience could guess what he was going to say next. They were excited by the answer they had guessed.

It was very likely that the medicinal liquid would be sold at cost price in the future. The Strongest Group did not intend to profit from this project.

“From tomorrow onwards, all preferential policies will be canceled. Because we can’t use it anymore, I announce that all medicinal liquids will be free. The specific collection process can be found on the official website of the Strongest Group.”

Everyone who saw this was shocked, regardless of whether they were from the bottom or the middle class.

Moxiu’s actions were considered charity. That was a medicinal liquid, something that was related to herbs. How could it be free? How much money did the strongest corporation have to compensate?

Only a few DeoDle would think of this. Most DeoDle aDDlauded for MO Xiu. especially the people at the bottom. They were so excited that it was difficult to describe.

Amid the laughter, MO Xiu spoke again.

” This decision is undoubtedly difficult for the strongest group. Thanks to the support of various companies, the first batch of companies to support the aid is the Xiao Group...”

Moxiu read the advertisement on the spot, and the crowd only understood after they reacted.

At this time, every name was worth thousands of dollars..

Chapter 412: King Explosion

After MO Xiu and the other two finished their meeting, Mumu contacted a few companies with good relationships and clearly stated that they needed a large amount of financial assistance, and there would be no sharing of the sales of the medicinal liquid in the future.

The good thing was that MO Yuqing would personally help them do an advertisement, and the form and content of the advertisement could not be revealed.

This was a test of the trust these companies had in the strongest corporation. If they didn't get a share of the medicinal liquid in the future and invested more, it was very likely that it would be a one-time deal, which would be MO Xiu's advertisement this time.

There was no need to talk about MO Xiu's influence, but what was the format of the advertisement? What if the effect wasn't great? Wouldn't that be a loss?

These companies must first consider the company's interests. Trust trust and friendship had to stand back in the face of interests.

Dozens of calls were made, but only ten companies were willing to invest. Most of the others said that they would consider it again. Once they considered it, there was no chance.

The one who agreed the most was the Xiao family. There was nothing much to say about this. The two companies were tied together.

Moreover, she knew all the people in charge of the Xiao family, whether it was Shi, MO Xiu, Mu Mu, or even Cao Fenglin.

After receiving the call, he agreed without hesitation.

There was another company that was surprisingly straightforward. As soon as Mu Mu mentioned the plan, the other party said that they could cooperate and would invest the most support.

That was the Liu Clan!

Liu Jingshan, that old fox!

Last time, when MO Xiu and Liu Jingshan drew the line, the Liu family's momentum was halted. During this period of time, the Liu family had been lukewarm. At this time, no matter what Mu Mu's conditions were, Liu Jingshan would agree.

This was the best opportunity to reunite with Moxiu, and Liu Jingshan would not give it up so easily.

MO Xiu had mentioned the names of these ten companies in the video. Needless to say, the publicity effect was obvious.

Those companies that said they were considering it were probably regretting it now that they were watching the video.

This was a video posted on the Internet. Whether it was from the major media or from the media, or if it was seen by others in the future, these ten companies would be mentioned for a long time.

These ten companies had contributed to all of humanity, making it possible for the medicinal liquid to be free. When people consumed it in the future, their personal feelings would make them choose these companies first.

It was not just an advertisement, but also a personal feeling.

Mu Mu's phone exploded with calls, asking if there were any other ways to cooperate.

Mu Mu answered in unison, yes! He would have to wait for further instructions from now on!

Moxiu's trick not only allowed him to screen out his closest business partners, but he also gave other companies a warning.

Forcing them to invest had suddenly changed from passive to active.

Mu Mu could imagine that all the companies would look for him to invest in the title sponsorship.

The video continued.

MO Xiu continued.

Next is the second matter. The production and use of the medicinal liquid is a matter for all of mankind. It is difficult for us to do it well. Therefore, the second difficult decision is to share the formula and production process of the medicinal liquid. I hope that more manufacturers can produce the medicinal liquid for all of mankind to use.”

This time, all the elites in society were boiling. Moxiu’s two decisions were simply too explosive.

This was still an opportunity for advertising, because the production of medicinal liquids would not be profitable. However, the effect of this publicity was different. They could even advertise their own products on the bottles of medicinal liquids.

Moxiu had only announced two things: the free medicinal liquid and the sharing of the formula. However, these two things had undoubtedly set off a wave of frenzy, and even changed the fate of many people.

MO Xiu continued.

In order to avoid ineffective supervision, even if we share the formula of the medicinal liquid, it will be managed by the strongest group. The company that applied for it needs to report it, and we have the relevant departments to verify whether the company has the production conditions before we can hand over the formula to the company. We will also sign a contract and be controlled by the strongest group.”

This plan was not complicated. The strongest group still had the power to supervise. If other companies wanted to produce, they would be like foundries in order to increase production and sales points.

However, this was enough. As long as the company had some strength, they would fight for this spot.

The person in charge of the review and management was Cao Fenglin. This mission wasn't as easy as the previous one, which was also the reason why Cao Fenglin was complaining.

"The first list of companies to cooperate with is the Xiao Corporation, the Liu Corporation..."

The audience was stunned, and the company's CEOs were dumbfounded.

Good heavens, the ten companies from before were announced again. This time, not only were there advertisements, but there were also the qualifications for the first batch of cooperation in the production of medicinal liquids.

Those companies that didn't agree to Mumu's request right away might be so angry that they would smash their phones now, right?

This time, they would miss out on a lot. At the same time, these people were thinking of ways to make up for it.

"These are all the announcements made by the Strongest Group today. I've finished talking about these two matters. Finally, I'll make an advertisement for myself to serve the people. We're serious!"

After the video ended, Moxiu's final words were a little vulgar. However, after two incidents, everyone believed that what Moxiu said was true. Such a huge sacrifice had turned the price of the medicinal liquid into free.

It was not an exaggeration to say that he was serving the people. It could even be said that he was doing charity.

After the video ended, the discussion on the Internet was extremely intense.

There were posts praising MO Xiu, praising Mu Ji, praising the strongest group, and there were also posts analyzing why MO Xiu did this.

There were all kinds of discussions. No matter what kind of posts, they were all praising!

Moxiu's previous preferential policies had left the trolls speechless. This time, he was even working for free and had even found a factory to increase production.

The Strongest Group and Moxiu had no benefits. What could they gain? Then it could only be reputation.

This was a private discussion among the netizens.

All the major media outlets were also fighting to report on this matter, following up on the developments of this matter. There were also many people who wanted to interview Mumu and Cao Fenglin, but they couldn't see them. Mumu and Cao Fenglin didn't have the time to be interviewed.

A few days later, the headline was the same!

"Serve the people! Hero MO Xiu represented the strongest group and used the King Explosion!"

These two incidents were indeed explosive, causing the people to relish in them.

At night, Moxiu rode his sword to the border between the central and northern regions. He decided to rest here for the night.

Moxiu had chosen to ride a flying sword because he felt that this would be the fastest way. After all, time waited for no one. He did not know when the imperial family's advance party would set off.

The purpose of going to the north this time was not simply to see Mu Qingyi, but to bring her away.

It was still unknown whether he could take Mu Qingyi away. Even if Mu Qingyi agreed, MO Xiu did not know how much resistance he would encounter.

He took out his phone and sent a message, but he still could not contact Mu Qingyi.

Raising his head to look at the moonlight, Moxiu recalled the rock outside the Universe cram school!

Chapter 413: Holy City (1)

July 14th, early morning.

Moxiu woke up in a small hotel. They had to continue their journey today.

Just as she walked out of the room, she found the owner of the inn waiting at the door.

“Boss, why are you up so early?” Moxiu asked amiably.”

When MO Xiu checked in yesterday, he was recognized by the boss and insisted on treating him to a meal. The boss ‘enthusiasm left a good impression on MO Xiu.

The boss nodded and said, “Mr. MO, I’ve been waiting for you here.””

“Why are you waiting for me?” asked MO Xiu.”

“I wanted to give you something, but you probably wouldn’t be interested in anything we can give you. I can only ask for a photo with you.”

“Group photo? Alright then.”

MO Xiu didn't refuse. With the recent publicity and the video from yesterday, his reputation was no worse than anyone else's.

When they went downstairs to the lobby to prepare for a photo, they found out that the boss wasn't alone. It was a family. However, Moxiu didn't mind and cooperated to complete the photo.

The boss's family was very practical. They knew that MO Xiu was very busy, so they didn't waste too much time and didn't ask for more photos.

The boss's daughter was in her teens. She asked MO Xiu, "Big Brother MO Xiu, you're amazing. All the students in our class are your fans."

"What fans?" MO Xiu replied with a smile. Study hard!"

The boss pulled his daughter to his side and said, "Call me Mr. Mo. Don't delay Mr. Mo's important matters."

It's alright," Moxiu said." I'll be leaving now. It won't take long. By the way, I hope Boss can delay the news of me staying here for a while. Is that okay?"

The boss nodded desperately and said righteously, "Mr. MO, don't worry. I

understand!"

After saying that, he puffed out his chest as if he had made a huge contribution to the Alliance.

MO Xiu left with a smile.

Today was not a simple day.

If Moxiu continued down, he would enter the north. There was another matter.

From today onwards, the medicinal liquid was officially free of charge. The market, which had calmed down, became popular again. The sales venue was crowded with people, and they sold it continuously for the entire day.

At the same time, there was another piece of good news. The City Lords of hundreds of cities in the entire alliance had joined forces to issue an announcement to subsidize the front-line employees who were selling.

This was considered an official subsidy. Not only that, but large companies in various places would also subsidize these employees.

In this way, the subsidies from the strongest group, the official subsidies from the city lord's mansion, and the subsidies from society.

Even though the Strongest Group had lowered their salaries, the sales staff of the medicinal liquid had become one of the most profitable occupations.

The ultimate goal of many fresh graduates had become a pharmaceutical salesperson.

The various city lords' mansions had the idea of subsidizing the early stages of the sale of the medicinal liquid. However, although the profits of the strongest group at that time were relatively small, they were still profitable. It was a private project and it was not easy to subsidize.

Now, it was different- All the medicinal liquids were free, which was equivalent

to charity. The city lords of the various cities had no worries and could subsidize them.

The problem of funds that Mu Mu and Cao Fenglin were most worried about was solved so easily.

With the financial support from many parties, it could be said that everyone was united in their desire to make the free medicinal liquid to the end. Of course, many people cared about their own interests, but in the end, the ones who received the benefits were still the ordinary people.

Things were progressing smoothly, so Moxiu didn't have any more concerns.

There were soldiers guarding the intersection between the north and the central region, as well as both the central and the north to prevent anyone from entering the country illegally.

There were some cases like the border between the two countries where illegal immigration was not allowed.

Now, it was even worse. In the past, cultural assimilation would be seen at the border between the two countries.

Logically speaking, there should be a lot of northerners in the area where the central continent and the northern region bordered. However, Moxiu had been observing from yesterday until today. There were almost no northerners. If there were any, they would be northerners born in the central continent.

This meant that the alliance was not as harmonious as it seemed on the surface. Both sides were very wary and did not communicate often. This was also the reason why the three parts of the alliance still had large cultural differences after being established for a hundred years.

Because the three divisions hardly had any contact, and the news was almost not common.

He watched as the soldiers guarding the border, MO Xiu, stood on top of the sacred sword and soared into the sky.

Moxiu chose to fly over the border to reduce the trouble.

If he told them his identity, they would probably let him pass. However, the news of him entering the north tomorrow would definitely be reported. Moxiu didn't want to be so high-profile.

According to what MO Xiu knew, Mu Qingyi was studying at the Federal Academy. The Federal Academy was located in the northern capital, the Holy City!

The northern region wasn't smaller than the central region, but their population wasn't as dense as the central region. Moxiu looked down from the sky and could see that there were only a few houses in many places. Unlike the central region, which was filled with buildings, the houses here were mostly small villas.

MO Xiu followed the map and flew for half a day before finally arriving near the Holy City.

After checking, he discovered that the Holy City's border was not guarded. In order to not attract attention, MO Xiu landed on an uninhabited hill near the Holy City.

Looking at the entire Holy City, the scenery inside was similar to Yan City. It was full of tall buildings and seemed to have a high population density.

It was a stark contrast to the other cities in the north. It was said that most of the northern leaders lived in the Holy City.

This was also the reason why Motheo was so cautious. In a place like this, he had to keep a low profile. Once he was discovered by the northern leaders, he might be captured and sent back to the central region.

After all, someone like Moxiu, who was so famous in the central continent, had entered the northern region without informing anyone. It was very easy for people to misunderstand.

Now, there was a problem in front of Moxiu. Would the faces of the people from the central continent cause trouble for him?

Fortunately, there was no difference in clothing between the central and northern regions. Otherwise, they would be suspected. The currency was also used throughout the Alliance, which avoided some trouble.

After walking for a while, he realized that there were not many people on the streets below the hill. The houses here were all small villas. It seemed that the difference between the surrounding areas of the Holy City and the city was still very large.

There was no one around. Moxiu felt helpless. He had to test the waters no matter what. Otherwise, it would be difficult to deal with any problems once they entered the city.

He walked around and found a restaurant. From the outside, there were not many people inside, so he decided to go in and take a look.

Moxiu walked into the restaurant with a calm expression. Without saying a word, he sat down and looked at the only waiter in the restaurant.

For such a small shop that was less than 30 square meters, the owner, the staff, and the chef must be the same person, right?

This person walked towards Moxiu with a strange expression on his face while holding the menu.

Moxiu lowered his head slightly. Could it be that Central Continent faces were rare in the Holy City? He was prepared to leave at any time.

“This shouldn’t be our old customer, right?”

Chapter 414: Stubborn Northerners (1)

“This isn’t an old customer of ours, right?”

“No, I was introduced here.”

The expression on this person’s face when he walked over was quite frightening. It seemed like he just didn’t know if Moxiu was an old customer or an acquaintance.

This way, it could prove that the faces of the people from the Central Plains were not that conspicuous in the Holy City. This would make things easier.

“Hey, I was wondering why he looked unfamiliar. What do you want to eat?”

Moxiu reached out to take the menu and flipped through it briefly. He realized that the dishes here were no different from those in the central region. As he was thinking, this person spoke again.

“I’m the boss here. Take a look. They’re all dishes from the central region. I guarantee that you’ll taste the taste of your hometown.”

So that was the case. This was a central cuisine restaurant.

‘I grew up here,’ MO Xiu said tentatively. ‘I’ve never eaten Central cuisine before. I can’t feel the taste of my hometown. Give me two signature dishes.’”

The boss took the menu and said, “Okay, it doesn’t matter if you haven’t eaten it before. I guarantee that you’ll want to eat it again after eating it once.””

According to the owner’s reply, Moxiu was able to obtain information that there were quite a number of people from the central continent who were born here.

Not long after, the boss brought the dishes over. MO Xiu looked at the dishes on the table and didn’t have any appetite at all. Putting aside whether they tasted good or not, they were far inferior to the dishes made by Yang Qingzhuo and Xiao Hong.

However, Moxiu still pretended to be curious and asked, “Boss, are there more people who come here to eat for the taste of their hometown, or are there more people who come here to taste the fresh food like me?”

The boss thought for a moment and said, “Both are quite a lot. You know the situation in the Holy City. Most of the people like you have never been to the central region. However, our shop is very targeted.

After all, there are very few people who want to try something new. Therefore, after neutralizing the two, the number of people who come is about the same. There are also many northerners who come.”

Moxiu nodded, placed the money on the table, and turned to leave.

The boss picked up the money on the table and looked at the untouched food. He didn't know what was wrong with this person.

Didn't you say you were here to try something new? Try it! He left without eating a single bite.

After Moxiu walked out of the restaurant, he headed straight for the Holy City.

The reason why I walk so decisively is because I want to know, the news is all I know, there is no need to waste time to stay.

Also...Mo Xiu really didn't want to eat that dish!

Moxiu entered the Holy City and discovered something different the moment he entered.

The population density inside and outside was too different. Even though Moxiu was at the border of the Holy City, there were people coming and going on the streets. When he turned around and looked outside the city, there was no one.

Moxiu found it interesting. Since there were no guards, why didn't the northerners expand their territory outside the city? Why did they have to squeeze in the city?

In fact, the northerners did not expect this. They all wanted to squeeze into the Holy City.

After MO Xiu entered, he met many people. No one found him strange, nor did they recognize him.

This made Moxiu a little suspicious. It was normal for no one to think that he was strange, but why did no one recognize him?

Even if the internet in the central and northern regions were not connected, the more important news in the central region would still be reported here.

Moxiu had already gained some fame in the northern regions during the inter-school competition. How could this be?

It was only when MO Xiu passed by a closed shop selling medicinal liquid that he realized something was wrong. He called Mu Mu Mu to ask.

After asking, he found out that the medicinal liquid had long since entered the north. At the beginning, it had received the support of quite a number of people.

However, good times didn't last long. A few days later, the leaders of the North ordered the closure of the medicinal shops and even earlier, they had sealed off all information from the Central region.

All of this had to start from Bobosai's defeat. In the hearts of the northerners, their leader was an invincible existence.

They were tough and simple, but at the same time, they cared about their reputation and did not want to see others stronger than them.

Only a few people knew about Bobosai's defeat, and it was not made public in the north. This was the leader's way of protecting his face.

In order to prevent the news from leaking out, they had also sealed off all information regarding the central continent. During this period of time, the northerners had not seen any news about Moxiu, so it was understandable that they did not recognize him.

This time, the medicinal liquid was free of charge. Mu Mu had communicated with the north, and the north was not allowed to import it.

Mumu also heard that some of the leaders in the north had speculated that the medicinal liquid was a conspiracy of the central continent. Their goal was to win the hearts of the people in the north so that they could unify the entire alliance in the future.

Moxiu was helpless. If it was a time of peace, it would have been fine if he thought this way. But now, it was a time when wild beasts were eyeing them covetously. It was impossible for the northern leaders not to know. At this time, he was still wary of his own people. This train of thought was

really unique.

Moxiu also asked about the situation in the south. The situation in the south was even worse. There was very little contact with the central continent to begin with. The medicinal liquid was only tested for a period of time before it was banned.

MO Xiu couldn't help but sigh. Was the cultural difference so huge? If the wild beasts invaded, would humans be able to unite and fight the enemy?

In the end, the north and the south were afraid of the central continent because the central continent had always been the strongest.

Originally, with the supreme suppression of all mankind, no one dared to say anything.

After Wu Shang disappeared, the northern and southern regions had some conflicts with the central region. In the end, they were still afraid of the imperial family's strength and did not make a move.

The hundred years of vigilance had created the current situation.

Now that he thought about it, the Mu family being sent to the north was more like a hostage.

After hanging up the phone, Moxiu continued to head towards his destination, the Federal Academy. He had to find Mu Qingyi first and ask for her opinion.

If Mu Qingyi wanted to return to the central region, MO Xiu would take her away even if he had to fall out with the northerners.

As he asked around, he walked towards the Federal Academy. The people on the way saw that he was a Central Continent citizen and did not discriminate against him or exclude him. Surprisingly, their attitudes were not bad.

It seemed that the northerners did not have any hatred for the people of the central continent. It was just that the higher-ups had always been on guard.

After stumbling along the way, Moxiu finally found the Federal Academy.

The map of the central region didn't have a detailed location of the Holy City, so Moxiu could only ask around and find his way here.

Moxiu had never expected that the highest school in the entire north would be located in a corner of the Holy City. Moreover, its location was extremely difficult to find.

MO Xiu also asked the more friendly passers-by why they wanted to build the school here?

The answer he received was that it was already good enough to be in the Holy City. Should it be placed in the center of the city? That was where the leaders lived.

Moxiu was also speechless. It seemed that the central continent had made the right decision not to leave the imperial family alone. Otherwise, who knew if they would end up like their leader.

Although the location of the Federal Academy was a little remote, it still looked very imposing from the outside. There was still no one guarding the entrance.

MO Xiu swaggered in. He was a little troubled when he came in. He had found the place and knew that Mu Qingyi should be here, so...how could he find Mu Qingyi in this school?

Should he shout Mu Qingyi's name loudly, or should he wait somewhere?

Just as MO Xiu was thinking, two women came in from the main entrance and stared straight at MO Xiu.

"Yiqin, this is MO Xiu, right? Why was he here? Heavens! Are they looking for you?"

Chapter 415: Want Another Hug? 1

"Yiqin, do you think that's MO Xiu? Heavens! Why was he here? Are they looking for you?"

One of the two girls was Fan Yiqin, the one who MO Xiu had used as a ' Handsome Man ' before. The other girl had also gone to the central region with the team for a competition, so she knew MO Xiu.

After the complete defeat of the north, Fan Yiqin reflected on her painful experience. She was originally the number one seed of the Federal Academy and was prepared to receive criticism from her classmates after returning. She did not expect the north to suddenly seal off the news. The teacher in charge had also instructed that everything that happened in the central region could not be said, especially the defeat of the north and Bobosai.

This matter had always been a thorn in Fan Yiqin's side. The northerners had always been straightforward and had a clear distinction between love and hate.

However, Bobosai's cunning actions made Fan Yiqin feel uncomfortable. After they returned, the leaders made the same decision again. They did not dare to accept their defeat and wanted to save face.

Not only that, but he also didn't allow the contestants to admit defeat, which had a huge psychological impact on Fan Yiqin.

At this moment, Moxiu, who was one of the most vexed people in the school, suddenly appeared. Why was this person, who should be able to command the winds and clouds in the central region, coming to the northern region alone?

Just as MO Xiu was at his wit's end, he heard a voice beside him. He turned to look and happened to meet Fan Yiqin's eyes.

When he saw Fan Yiqin, MO Xiu laughed from the bottom of his heart. There was someone familiar!

Although he wasn't on good terms with Fan Yiqin, it was good enough to meet someone he knew.

One of the four great joys of life was meeting an old friend in a foreign land. Well, he and Fan Yiqin weren't considered old friends. On the contrary, there was some conflict, but it wasn't important.

Fan Yiqin's personality was still very straightforward. Normally, when a girl saw a guy looking straight at her and smiling like that, she would definitely avoid his eyes. At least, most girls in the central region would do that.

However, Fan Yiqin did not keep her eyes on MO Xiu.

Moxiu slowly walked over.

The girl beside Fan Yiqin whispered, "Yiqin, he's coming over. Should I leave for a while?"

Fan Yiqin was still staring at MO Xiu and didn't say anything. Seeing that Fan Yiqin didn't react, the girl looked left and right before leaving.

MO Xiu walked up to Fan Yiqin and said, "Fan Yiqin? Long time no see!" MO Xiu politely extended his right hand. Fan Yiqin looked at it but did not shake MO Xiu's hand.

"What's wrong? I don't dare to shake hands with you. Otherwise, you'll say that I'm coveting your beauty again."

“Are you holding a grudge?” Moxiu said with a cheeky smile. In my impression, Fan Yiqin is a kind and magnanimous girl. She shouldn’t hold a grudge!” Hmph!” Fan Yiqin snorted coldly.” Enough with the pleasantries. This isn’t

over. ””

MO Xiu said,” You can explain it to me. I was good for you, but you said I was good. So what?” It’s better to tell others about your skill? I’m helping you hide your skills. Besides, as far as I know, the north has sealed off the news, so the matter didn’t spread. It didn’t delay your search for a boyfriend, so why are you still holding a grudge?”

Fan Yiqin said, ” I know your considerations, but your performance at that time was really, really cheap!””

Moxiu thought about it and realized that it was indeed a little. However, he had done it to anger Bobosai, so it was hard to explain.

Fan Yiqin didn’t insist on this matter and continued,””It’s fine if you want to let this matter go. Fight me again. No matter who wins or loses, I’ll forgive you.” “You still want to fight?” MO Xiu asked in surprise. Don’t tell me you still want

to...hug me?”

“You bastard!”

This was Fan Yiqin’s territory. How could she allow MO Xiu to tease her so brazenly? She was about to make a move.

MO Xiu quickly stopped her and said,”Don’t be angry!” To be honest, I’m a little pressed for time now. Can I ask you something first? How about I come back and spar with you after I’m done?”

Fan Yiqin looked at MO Xiu without saying anything.

MO Xiu felt that there was hope and quickly said, "I just wanted to ask, what about you guys..."

Fan Yiqin interrupted MO Xiu and said, "'1 won't answer. Fight me first, and then I'll tell you everything I know!"

"Anything?" Moxiu asked."

"Don't go too far," Fan Yiqin said defensively. "You can't ask about indecent things."

MO Xiu said awkwardly, "Don't worry, it's not vulgar. Lead the way!"

After thinking for a moment, MO Xiu agreed. It was mainly because MO Xiu understood Mu Qingyi's character. She did not like to be in the limelight, especially in a foreign country.

There must be very few people who knew Mu Qingyi. Fan Yiqin and Mu Qingyi had been teammates before, so she had at least heard of them. The probability of finding Mu Qingyi might be higher, and it would at least be more efficient than asking around like a headless fly, right?

Fan Yiqin brought MO Xiu to a place that looked like a martial arts field. It was very spacious, and only MO Xiu and Fan Yiqin were there.

"I'm warning you in advance. If you use that skill again, you might even end up hugging each other."

MO Xiu's repeated teasing made Fan Yiqin's eyes almost spew fire.

"If you dare to hug me again, you're dead! "

MO Xiu didn't want to threaten her because he didn't want Fan Yiqin to see his skill.

The battle began.

The battle was over!

That's right!

The entire battle took less than three seconds.

If Fan Yiqin had used the Soul Exchange skill, she would have been able to hold on for a while longer. Perhaps Fan Yiqin had some concerns and did not use it.

MO Xiu did not use any other skills. He only used the Martial God skill to quickly defeat Fan Yiqin.

The Einherjar's elemental immunity and increased elemental defense were the natural enemies of Mages. In addition, his current speed was not something Fan Yiqin could lock onto, so he quickly ended the battle.

Fan Yiqin sat on the ground in a daze. Why was the battle over before she was ready?

The way he looked at MO Xiu changed. It was no longer hatred, but confusion and curiosity.

Even if she didn't use Soul Exchange, the difference between her and Moxiu shouldn't be so great.

In her memory, Moxiu still had a few skills that he hadn't used yet. "How did you improve so much in such a short time?" Fan Yiqin asked."

Moxiu smiled and said, "The education in the central region is good. Do you want to come back with me?""

If they could poach Fan Yiqin back, they would be contributing to the central region.

Fan Yiqin glared at MO Xiu.”

Motheo’s growth during this period of time was by leaps and bounds, especially after his first and second skill, a total of four skills, had reached level five. There had been a qualitative change.

“Why weren’t you affected by my skill just now?” Fan Yiqin asked again.”

Moxiu shook his head helplessly.” I’m affected. It’s just that the impact is limited.”“

Oh, then why did you...

MO Xiu couldn’t take it anymore and interrupted Fan Yiqin.”“Wait, didn’t we agree that I would ask you questions after the battle? Why are you asking me now?”

Fan Yiqin also felt a little embarrassed and said, ““Then ask!”

Chapter 416: Leader Palace (1)

“Go ahead then.”

MO Xiu’s expression became serious as he said, ““I want to ask, do you remember that when your academy went to the central region for the competition, there was a substitute called Mu Qingyi in the Federal Academy team?”

Fan Yiqin was stunned, not because she could not remember Mu Qingyi, but because MO Xiu’s expression had suddenly become serious and anxious.

“Ah! I remember, Mu Qingyi, our relationship back then was pretty good. She took the initiative to ask me out for a few meals, and she even asked about the things between us. So you two know each other!”

These words confused MO Xiu. Mu Qingyi had looked for Fan Yiqin? Didn't I say I'm not angry? After that, she went to look for Fan Yiqin to understand the situation. It seemed like Mu Qingyi was also a jealous person.

The corners of Moxiu's lips unconsciously curled up.

Fan Yiqin patted MO Xiu and said, ""Hey! There's indeed something wrong with the two of you. Look at how infatuated you are."

Moxiu immediately regained his solemn expression.

Fan Yiqin muttered softly, "Your girlfriend was right next to me, and you even teased me so many times!"

"What did you say?" asked MO Xiu.

"Ah! It's nothing. I'm quite close to Mu Qingyi. Do you want me to bring her a message or something?"

"No!" MO Xiu shook his head. I want to know where she is now. I want to find her!"

"Mu Qingyi isn't in the academy," Fan Yiqin said."

Moxiu frowned. Why wasn't he in school? According to what Mu Qingyi had said previously, she spent most of her time in the academy, but was monitored by the teachers. Could something have happened?

MO Xiu was a little nervous. He grabbed Fan Yiqin's shoulder and said, ""Then where is she now? Quickly tell me."

"Aiya, be gentler. Let go of your hand!"

Only then did MO Xiu realize that he had lost his composure and hurriedly let go.

“I’m sorry, can you please tell me where Mu Qingyi is?”

Fan Yiqin said, “ I can roughly guess where she is. Her surname is Mu. It’s a very special surname in the north. I heard from my father that every person with the surname Mu lives with the leaders after they awaken their complete skills. I haven’t seen Mu Qingyi in this month. I even looked for her before and found that she wasn’t in the academy.”

“Living with the leader? The palace in the center of the Sacred City?”

“That’s right!” Fan Yiqin nodded.”

MO Xiu’s heart skipped a beat. The situation was more serious than he had imagined. He might have arrived too late.

Mu Qingyi was not studying in school and had been recalled to the palace. The Mu family was very likely to have been placed under house arrest by the leaders. At the moment when this beast was about to invade, the leaders were wary of the Mu family escaping back to the central region to help the central region deal with the enemy.

The Mu family was just a family that was handed over to the north as a hostage. They had a very strong fighting force. The north could not let the Mu family go at this critical moment, or they might lose this fighting force.

Moxiu put himself in the other’s shoes. The northern side’s actions were reasonable, but not correct. The most correct method should have been to not restrict the freedom of the Mu family when they first entered the northern side, to give them trust, and to encourage marriage alliances.

In this way, the Mu family would have a sense of belonging to the north, and they could also obtain a certain degree of the Mu family’s spatial skill in the process of marriage.

But now, it seemed that the north had always been on guard against the Mu family and controlling them. Although this method was stable, it might cause a bad result. The Mu family would resist under the oppression.

There was one more thing that Moxiu didn't understand. The Mu Clan had spatial skills. Even if their leader was under house arrest, could the Mu Clan stop him if he wanted to leave?

"Thank you for your answer. I'll be leaving first." MO Xiu sighed."

After saying that, MO Xiu turned around and was about to leave when Fan Yiqin called out to him.

"Moxiu, are you going to the palace? That was the leader's territory. Ordinary people would be punished if they trespassed."

"Is there any other way to see Mu Qingyi?"

Fan Yiqin thought for a moment, then slowly shook her head.

MO Xiu spread his hands and said," That's why I can only go and take a look. When I get Mu Qingyi out, the two of us will treat you to a meal together! ""

After saying that, MO Xiu strode away from the group of people who were just about to leave.

Fan Yiqin wanted to stop MO Xiu, but she didn't say anything.

She had wanted to say that the leader was not to be messed with. If he did not allow her to enter, she should not force her way in. Otherwise, something big might happen.

But thinking about MO Xiu's various performances just now, Mu Qingyi might really be very important to him.

Thinking back to how he had seen Mu Qingyi in the academy most of the time, her face was filled with worry. It seemed that Mu Qingyi was also having a hard time, hoping that someone could save her?

“Well, I hope nothing happens!”

As night fell, Moxiu sneaked out of the palace. It was a huge palace that looked like the emperor’s palace in the central region.

In terms of luxury, it was beyond that of the grand palace. It was filled with modern architecture, and there was a certain gap between the art and details of the emperor’s palace.

MO Xiu didn’t rashly head over. He didn’t need to ask to know that such a place wouldn’t allow him to enter openly.

Ordinary people in the north couldn’t even enter, and he was an important figure in the central continent. If he were to visit without prior appointment, he would also be suspicious.

Moxiu spent more than an hour to check the surroundings. He discovered that the defenses were very tight and there were almost no loopholes. Every position was guarded.

Moreover, Moxiu had also checked the strength of the guards. They were not weak and were even equipped with scouts.

It would be difficult for Moxiu to sneak into the palace without harming them.

These soldiers weren’t leaders. They were probably the best of the northerners. Moxiu couldn’t understand what the northerners were thinking.

With such a vast territory and almost all the elites gathered together, how would the northern regions defend themselves when the wild beasts invaded?

Should the entire force of the Holy City attack and defend the border, or should they just defend the Holy City and wait for the situation to become clear before taking back the land occupied by the beasts?

There was one more thing that Moxiu couldn't understand. The leaders of the north were unlike the ancient emperors. The ancient emperors didn't have strong personalities and were easily assassinated.

On the contrary, the leader was the highest fighting force in the north. If that was the case, why was there such a strict defense?

What was the point of gathering the most outstanding people of the northern commoners to guard this palace?

To put it bluntly, if the wild beasts had a large-scale killing skill, after understanding the situation in the north, they could throw a skill at the palace. Once the people in the palace were injured, the north would have no ability to resist.

However, even though he was complaining, the problem now was how to get in. The people from the north had not done anything to him. Before he knew what Mu Qingyi was thinking, he must not fall out with the leader of the north, especially at this critical moment.

Moxiu had no idea what to do for a moment, so he strolled around the streets outside the palace.

As they walked, they saw a fireworks shop. There were no fireworks shops in the central region, but there were fireworks shops in the northern region.

Just as he was thinking about how to laugh it off, MO Xiu suddenly stopped in his tracks.

That's right! If he could not go in, he could call Mu Qingyi out!

Chapter 417: I Believe You Can Change the World

MO Xiu walked into the tobacco shop and was warmly received by the shop owner.

“Brother, are you here to buy fireworks? We’ll be arriving at Daqing soon. Are you going to stock up?”

Moxiu didn’t quite understand what Daqing was saying. He only found out the whole story after asking around.

It turned out that in a few days, the humans and the beasts would sign the contract. The northerners regarded this event as a victory for the humans, a victory for their leaders, and a day of peace.

Every time this day came, the whole of the northern side would celebrate like a new year. Many people would set off fireworks and firecrackers, and even the leaders would take the lead in celebrating.

This was the complete opposite of what the people of the central continent thought. The people of the central continent thought that signing a contract with wild beasts was not something glorious. After all, the humans had made concessions and given a portion of the territory to the wild beasts as compensation.

Moreover, this contract was exchanged with the blood of countless ancestors.

The people of the central continent would commemorate this day, but more importantly, they would mourn the deceased heroes who had contributed to mankind.

This was the exact opposite of the customs of the northerners. Northerners might think that the people in the middle were pessimistic, and the people in the middle would think that the northerners only cared about pleasure.

This was the fundamental difference between the people of the two regions. The huge cultural difference caused the two sides to have great differences in communication and the way they did things. Even if there was an absolute leader like Supreme in the central region, it was not the reason why the entire human force was unified.

MO Xiu listened to the shop owner’s story for a long time, but he had no intention of buying fireworks.

As the boss spoke, he became a little anxious and said, "I say, little brother, I've told you the story and you know the local customs. Are you buying or not?"

Moxiu nodded and said, "Buy!" Of course, he wanted to buy it! Let me take a look first!"

Moxiu started walking around the shop again and again.

The owner looked at Moxiu and knew that he didn't want to buy it. Instead, he seemed to be here to make fun of him. Just as he was about to ask Moxiu to leave, Moxiu spoke.

"Boss, do you only have these in your shop?"

The boss was angry when he saw Moxiu. He had had such customers before. If they didn't want to buy it, they wouldn't say it directly. They would ask all kinds of questions. In the end, they would definitely be satisfied with something. Then, they would pretend to shake their heads and leave.

"There are plenty of goods. If you want to buy it, the fireworks in the whole city will be ready in half an hour."

MO Xiu asked in surprise, "Is that true?"

"Of course it's true. Why don't you ask around?" The boss said disdainfully.

Before the boss could finish speaking, he saw Moxiu pick up the smallest firecracker in the shop. It was something for children to play with.

Even if there was a large quantity of such things, there would not be much profit. There was no need to go through so much trouble.

"Little brother, are you here to cause trouble?" The boss quickly came forward and said. I'm not selling this thing in large quantities!"

“That’s exactly what I want!” said MO Xiu.

“What do you mean?”

In addition to these small items, the remaining fireworks have how much I want how much, now gather the whole process of fireworks, I wait you for half an hour!”

“Err...Little brother, are you bragging?”

Moxiu took out a card and handed it to the owner of the tobacco shop.

“I can pay first, but I have to be there within half an hour. Moreover, these fireworks have to be released tonight, and they have to be released according to my method!”

The boss took the card and checked the balance with the device in his hand. When he saw the number displayed, he was so scared that he quickly made arrangements. No matter who this little brother was, he could not afford to offend him.

In the leader’s palace, in a three-story villa near the central area.

Mu Qingyi was in her bedroom, sitting by the window and looking out.

It was already time to sleep, but Mu Qingyi did not want to sleep. She only looked outside like this, even though there was nothing outside except for the surrounding buildings.

This was Mu Qingyi’s only entertainment after she moved in, and it was also her happiest time.

When she first came here, Mu Qingyi knew that it was not her parents who controlled her, but the leaders of the north.

Growing up in the middle of the country when she was young was the result of her parents and grandparents begging for mercy. Mu Qingyi had originally thought that everything that happened in Shun City was unfortunate and that her freedom was restricted.

Now that she thought about it, she was really ridiculous at that time. At that time, her parents did not let her make friends on her own to protect her from being hurt when she left. She would not do anything out of line for her friends to avoid being investigated by the leaders.

No matter how unhappy she was, she still had the company of her classmates, the interlude from the cosmic cram school, and...meeting MO Xiu.

The man she thought she would never have much interaction with had unknowingly become the most important part of her life.

Mu Qingyi was quite happy during the days she was in the Federal Academy. Her parents knew that she was unhappy, but they did not restrict her freedom too much.

At that time, she could see MO Xiu's news through others and occasionally chat with MO Xiu, although she was discovered by her parents several times and was reprimanded.

Everything changed when the firearms war broke out. Moxiu had mentioned it many times in his previous calls with her.

When the battle started, Mu Qingyi tried to contact MO Xiu, but MO Xiu did not notice at that time.

Tossing and turning, Mu Qingyi finally made the most willful decision of her life, and went to Shun City to look for MO Xiu.

The Mu family even had to apply to the leaders to leave the Holy City, not to mention that Mu Qingyi had escaped from the north and went to Shun City to participate in the matters in the central region.

At that time, Mu Qingyi wanted so badly to elope with MO Xiu and not return to the north. At that time, she wanted to stay even more than MO Xiu.

But...Mu Qingyi knew what the consequences would be if she stayed. Her parents would be punished by the leaders.

MO Xiu was under unprecedented pressure. Under the pressure from the north, MO Xiu might turn from a hero into a sinner at that critical moment.

Mu Qingyi knew that she could not do that. That was not yearning for freedom, but selfishness. Returning to the north was a decision that was beneficial to everyone except her.

After returning to the north, Mu Qingyi was locked up for two whole months. During that time, she had thought about many things clearly.

Some people were destined to walk the path from birth. It was as difficult as ascending to the heavens to change.

Mu Qingyi did not feel lonely in that small room because she had always been so lonely.

Since he had chosen to break the rules for Moxiu, he would have to bear the consequences of breaking the rules.

At that time, Mu Qingyi would often mutter to herself.

"Everyone has something to worry about. People like me also have something to worry about. My parents and MO Xiu."

"Moxiu, I believe you! I believe you can change the world, but...you may not be

able to change my life!"

Chapter 418: I Want to Take You Back and Watch You Every Day!_I

After coming out of confinement, Mu Qingyi heard a piece of good news.

The inter-school competition was about to begin!

Under the request of Mu Qingyi and her parents, they were given the opportunity to go, but they needed someone to watch over them.

Furthermore, the leaders had stated in advance that if Mu Qingyi violated the rules again, she would never be able to step out of the palace.

After coming out of confinement, Mu Qingyi's thoughts had changed. She might never be able to be together with MO Xiu, and since that was the case, she should make things clear.

That's right! The reason he went to look for MO Xiu that time was to bid farewell to MO Xiu and draw a clear line between them.

However, the moment Moxiu appeared in front of her, she threw all the words she had prepared to say to the back of her mind.

He couldn't bear to!

He couldn't bear to part with her from the bottom of his heart!

The moment MO Xiu spoke, Mu Qingyi was selfish again.

She enjoyed the time she spent with MO Xiu while feeling guilty for what she had done. She wondered if it would affect MO Xiu in the future.

After that, Moxiu went to the hotel to find her. The two of them spent most of their time quietly together, holding hands, hugging, or...

At this moment, even if the two of them did not say it clearly, they would not believe it if they said that they were not a couple.

The two of them were probably the least talkative couple in the world, right? What was the reason? Perhaps he knew the other party too well?

Thinking of this, Mu Qingyi's lips curled up. If only time could stop at that moment?

After that, the situation took a turn for the worse. Moxiu defeated Bobosai in the match, and the northerners began to realize that something was wrong.

He had started to be wary of MO Xiu. The moment he returned to the north, the entire north had sealed off all news from the central region, and it did not take long for Mu Qingyi to be locked up here.

Mu Qingyi did not know why, and even MO Xiu did not know why.

The reason was partly because the beasts were about to invade, but the main reason was that Moxiu's various performances in the imperial family were known by the leaders.

The leaders also knew about Mu Qingyi and MO Xiu's matter. They did this to prevent Mu Qingyi from coming into contact with MO Xiu.

In other words, the leaders were actually guarding against MO Xiu!

After moving into the palace, Mu Qingyi's life changed again. She had almost no time for herself. She was arranged to cultivate during the day and spent the rest of her time on blind dates.

The leaders arranged blind dates for both ordinary people and leaders.

It was a little too late for the leaders to realize the importance of marriage.

Moreover, the Mu family was not to be trifled with. The Mu family abided by the rules of the leaders, but at the same time, the leaders did not have the right to interfere with the marriage of the Mu family.

Because of this, although Mu Qingyi had to go on blind dates every day, it was not a problem for her to reject them.

The only free time she had was during this period of time. It was time for Mu Qingyi to sleep, but she did not want to sleep and just stared out the window in a daze.

Mu Qingyi changed her angle, and she could see the moon from this angle.

“Bang!”

“Crack, crack, crack!”

Mu Qingyi was surprised. It was not time for the Northern Region’s celebration yet, so why were there people setting off fireworks now?

He shook his head. Perhaps someone had remembered the date wrongly?

The fireworks in the north are very common, she has no feeling for this too big, but the fireworks that bloom, block the moon!

Mu Qingyi shook her head and returned to the bed to lie down.

The sound of the fireworks was not soft. They could be heard through the window. It seemed that they were set up very close. Could it be the leader’s birthday celebration? After all, this had happened before.

Mu Qingyi closed her eyes and listened to the fireworks. It was still a little difficult for her to fall asleep.

“Peng peng peng peng, peng peng peng!”

The sound of the fireworks seemed to have formed some kind of melody that appeared in Mu Qingyi’s mind. It was a very familiar melody that was very comfortable to listen to, causing Mu Qingyi to gradually feel sleepy.

Suddenly!

Mu Qingyi suddenly opened her eyes!

This melody is...

” Malan Blossom 21, 28256...”

How could a northerner have heard of this? Mu Qingyi did not know many people.

If there was one, it would be MO Xiu!!

Mu Qingyi immediately sat up and muttered to herself,””Mo Xiu, are you here?”

The melody continued, and the more she listened, the more it sounded like it. In order to verify that she had not heard wrongly, Mu Qingyi disappeared from the room and appeared on the rooftop, looking at the fireworks that filled the sky.

Wasn’t there too many fireworks?

Mu Qing could vaguely feel that this was the work of that man. She focused her eyes and looked carefully. The fireworks in the sky were blooming in the sky. The fireworks looked chaotic, but they

seemed to have some kind of pattern. But after looking at it for a while, Mu Qingyi still could not see the mystery.

“Could it be that the position is wrong?”

Mu Qingyi disappeared again, and this time, she appeared on the ground. She looked up and saw two words formed by the fireworks.

“Qingyi!”

“You really came? Where are you?”

This time, Mu Qingyi directly appeared outside the palace in a flash. She was thinking about where MO Xiu would be waiting for her if he came.

“Qingyi, I still called you out!”

Mu Qingyi raised her head and exclaimed, “”Mo Xiu, why are you standing at the main entrance? Aren’t you afraid that the leaders will find out?””

MO Xiu shook his head and said, “ I’m not afraid. I’m just afraid that I won’t be able to see you. Now that I’ve seen you, so what if they know?””

Mu Qingyi grabbed MO Xiu’s hand anxiously and disappeared into the crowd.

Only one sentence was left in front of the main door.

“You only know how to mess around!”

Moxiu disappeared from where he was. The boss of the tobacco shop and the waiter beside him were still busy.

“Boss, the customer has disappeared. Should we continue setting off fireworks?” asked the waiter.’

The boss scolded angrily,” Nonsense. They’ve already given us the money.

Hurry up and release it. What if they can’t finish it and ask us for a refund?” Inform the other people to continue!”

The shop assistant complained,” This customer’s requirements are too strict. The timing of the fireworks has to be controlled and the direction has to be precise. We can only open the fireworks one by one and release them manually. There are so many places that need people. Can we earn back the labor costs?”

The boss smiled smugly and said,” Don’t worry, am I someone who loses out? The labor fees have also been collected.’

Mu Qingyi brought MO Xiu and flashed dozens of times, only stopping when they were out of the Holy City.

Moxiu looked around and said, “Why did you bring me to this deserted place?”

Shouldn’t he find a comfortable place to stay?”

Mu Qingyi glared at MO Xiu.” Stop fooling around. Let me ask you. Why are you standing at the main entrance of the Leader’s Palace?” If the leaders see this, don’t even think about coming to see me again!”

MO Xiu said indifferently, “It’s okay. I don’t plan on coming to see you again!””“

Mu Qingyi was stunned when she heard MO Xiu’s words. Could it be that MO Xiu was here to break up this time?

Breaking up was also good. It wouldn't delay MO Xiu. "I want to bring you back and watch you every day!"

"What? You heard it!"

Chapter 419: I'm Not Sleepy, I Don't Want to Sleep

I heard it, but...'

MO Xiu's right hand gently brushed past Mu Qingyi's cheek as he said, "'I was standing at the main entrance because I was afraid that you wouldn't be able to find me, and I didn't want to leave you a way out."

Mu Qingyi lowered her head and said, 'You're too bad!'"

"You haven't made a decision yet, so I can only force you to make a decision. If you want to leave with me, it doesn't matter if the leaders see it. They will find out sooner or later."

"MO Xiu, you know that I don't like others forcing me."

"Am I someone else?" Moxiu replied."

"I don't know how to say it, but...'

"Don't you want to come with me? The wild beasts are about to invade. You should know that I'm worried about leaving you in the north."

MO Xiu went forward and held Mu Qingyi's shoulders, making her raise her head to look into his eyes.

“Are you coming with me?”

Mu Qingyi shook her head desperately, and MO Xiu had no choice but to let go of his hands. He was a little too agitated, and he should give Mu Qingyi some time to consider.

“You can consider it. I can wait.”

MO Xiu’s time was tight. He might not have the time to wait, but MO Xiu was willing to wait.

The two of them faced each other in silence for a while before Mu Qingyi suddenly smiled and said, “You haven’t taken a good look around the Holy City, have you? Shall I show you around?”

Mu Qingyi seemed to have forgotten about MO Xiu’s question and skipped over it without giving any response.

MO Xiu did not know what Mu Qingyi wanted to do, but he still nodded subconsciously.

Mu Qingyi pulled MO Xiu back to the Holy City and really started to stroll around from the outside to the inside.

It was late at night. Even though this was the capital of the north, the streets were empty.

However, Mu Qingyi did not care. She pulled MO Xiu along as they walked and stopped, introducing the story of each building.

MO Xiu suddenly stopped, and Mu Qingyi continued to take two steps forward before slowly turning around.

Still wearing a gentle smile, he asked, “What’s wrong? Why aren’t you leaving?” MO Xiu only spoke after a long while.

“I’m here to see you. No matter how beautiful the scenery is, I can’t see it.”

A bad premonition spread in MO Xiu’s heart. It had fermented while he was shopping, and it had finally erupted at this moment. MO Xiu did not want Mu Qingyi to avoid the problem. At least he wanted to see Mu Qingyi think seriously, even if the final result was no!

MO Xiu’s tone was not very good. This was also the first time MO Xiu had treated Mu Qingyi like this.

Even though MO Xiu’s attitude was not very good, Mu Qingyi still had a smile on her face as she said without a pause, “Yeah, it’s such a long way from Yan City to here. You must be tired from the journey, right? Shall we find a place to rest?”

“Ah?”

Mu Qingyi’s words confused MO Xiu. He did not mean that, so why was he still pretending to be dumb?

Mu Qingyi went forward and pulled MO Xiu, but MO Xiu did not move.

“What’s wrong? Aren’t you tired?”

“I’m not tired!” MO Xiu shook his head.

“Let’s go. It’s so late. It’s time to sleep.”

MO Xiu still didn’t move. He was as stubborn as a child.

“I’m not sleepy. I don’t want to sleep.”

Mu Qingyi suddenly pounced into MO Xiu’s arms when he was completely unprepared.

MO Xiu was stunned and quickly hugged her.

Mu Qingyi raised her head to look into MO Xiu's eyes, and MO Xiu's heart softened.

"I'll accompany you...Aren't you tired?"

MO Xiu, who was buffed by the Martial God Form, seemed to have lost all his defensive power at this moment.

In front of this woman, he had no resistance at all.

MO Xiu subconsciously followed Mu Qingyi to a hotel and hugged Mu Qingyi tightly after entering the room.

As the two of them chatted, Mu Qingyi lay on the bed and looked at MO Xiu.

"It's really late. It's time to sleep!"

MO Xiu sighed heavily."Although I have you to accompany me, I still don't want to sleep. "

Mu Qingyi's face turned red as she said coquettishly,""You're still pretending to be good after getting a bargain. If you don't...Ah! MO Xiu, don't you know how heavy you are? Also, ah! Jump over!"

It was a long night, and there was no more conversation.

Early in the morning, MO Xiu slowly opened his eyes on his bed. Mu Qingyi had already left. MO Xiu did not stop her, nor could he stop her.

Just now, Mu Qingyi had left and did not wake MO Xiu who was pretending to be asleep.

She only used her warm red lips to lightly touch MO Xiu's lips.

He put on his clothes.

He walked to the door.

He looked back at the door.

Moxiu knew everything, but he didn't open his eyes.

Because Moxiu was afraid that he would forcefully bring Mu Qingyi back to the central continent after seeing her. That way, he would no longer respect her opinions and become the kind of person she hated the most.

At this moment, MO Xiu was lying on the bed and looking at the door. There seemed to be Mu Qingyi's back view there.

She seemed to be there.

That place within reach.

Three days.

MO Xiu lay in bed for three whole days.

Perhaps ever since MO Xiu was born, he had never wasted his time like this.

MO Xiu was still hoping that Mu Qingyi would change her mind and leave with him, but she did not return.

She stood up and tidied herself up.

This isn't the end. We'll meet again in the future. This time, I can't take you away.

When the battle is over, when I'm successful and famous, when no one dares to oppose me, I'll come back and take you away.

During this period, please protect yourself!

Moxiu left the hotel and looked towards the palace. He smiled wordlessly.

I know you're looking at me too!

MO Xiu did not leave immediately. Instead, he followed the route Mu Qingyi had taken that night and walked out of the city.

At that time, you said that you couldn't remember the beautiful scenery. Now, it seems that I remember every word you said.

As he walked, three figures appeared in front of him and stopped MO Xiu.

MO Xiu frowned but didn't say anything. He wanted to go around these people and continue walking out of the city.

These three people intentionally blocked MO Xiu's path.

"What do the three of you mean?"

One of them said," MO Xiu, I've seen your photo. I didn't expect the rumors these few days to be true. You came to the Holy City. You came for Mu Qingyi, right?" You look like you've been dumped."

MO Xiu smiled but didn't say anything. It was just a temporary separation!

"What are you laughing at? Our surname is Bobo. Since you came to the north, you should know what Bobo's surname means, right?"

Moxiu raised his head and didn't answer their questions. Explore the labyrinthine roots of this substance at Nøv€lßjn

"Do you know? I've come to the Holy City this time and felt that something was not right after meeting Mu Qingyi, causing me to still not want to leave. Do you know what it is?"

"Is there a need to say that?" One of them said. He couldn't bear to part with Mu Qingyi, what else could it be?"

Moxiu shook his head seriously and said, "No, when I saw you guys, I suddenly realized something!"

"What is it?"

"I'm holding in a fire, and I have nowhere to vent it!"

Chapter 420: Much More Comfortable (1)

"I'm holding back my anger!"

"MO Xiu, don't be too arrogant. If you want to fight, then come. The reason we're looking for you this time is to see your strength and see what level you're at!"

Moxiu looked around and said, "Is it here?" This is your ancient building, right? If you break it, don't make me pay for it."

“Why are you talking so much nonsense? Take this!”

Moxiu had checked the skills of these three people. They were on the same level as Bobosai, and were no match for him.

The three of them released their skills together and charged towards Moxiu. All kinds of animals filled the sky.

Motheo didn't use any other skills. He just used the Martial God to beat up the three of them. There was no technique, just absolute strength.

Not long after, the three of them were knocked to the ground by MO Xiu.

The strength of the three of them was equivalent to the top 200 of the Imperial Family's strength rankings. After MO Xiu defeated the three of them, he still felt that it was not enough, so he gave each of them another kick.

After saying that, he rode his sword and left.

“This is much more comfortable!”

After the three of them had fought with Moxiu this time, only one of them was still conscious. He quickly made a call and asked someone to bring them back to the palace.

The north was not called the royal family, but the leader. The leader was not separated by family, but by the surname Bobo.

There were a total of 12 teams, and each team was divided into 12 teams.

These three people were members of the ninth brigade's fifth team. As soon as they were carried back, they immediately explained the situation to the team leader.

When the squad leader heard that it was Moxiu who had beaten the three of them to such a state, he couldn't make up his mind. In the past few days, the news of Moxiu's appearance in the Holy City had spread like wildfire.

Of course, it was only spread within the palace. Ordinary people would not know about it. If the owner of the tobacco shop knew that the person who had made him a fortune that day was a famous person in the central continent, he would brag about it again and earn money from a famous person in the central continent.

All the Company Leaders knew about Moxiu's appearance. They heard their Company Leaders mention this matter in their meetings.

The first captain, who was also the head captain, only asked three questions when he heard about this.

"He came for Mu Qingyi?"

"Was he the one who set off the fireworks last night?"

"Is Mu Qingyi still in the palace?"

After the three questions, the head captain did not mention MO Xiu again.

At this moment, this squad leader couldn't make up his mind. It was hard to guess the attitude of the head captain at that time. It was most likely that he didn't want to provoke Moxiu and the central continent.

Based on the current information, Moxiu had a very high reputation in the central continent's outer world and within the imperial family.

Provoking Moxiu was equivalent to provoking the entire central continent.

MO Xiu had not informed them that he had come to the Holy City, but he had not provoked anyone in the north. His goal was very clear. He had come to look for Mu Qingyi and did not expect to have any contact with the leaders.

Thus, MO Xiu did not hide his whereabouts after seeing Mu Qingyi.

However, now that the three leaders had been beaten up by Moxiu, things had changed. If the squad leader did not stand up for the three of them now, it was very likely that he would lose the trust of the squad members.

Hence, he repeatedly confirmed how he had fought with Moxiu. Who made the first move?

The three of them had always believed that it was MO Xiu who attacked first. After the three of them met MO Xiu, MO Xiu said that he wanted to lose his temper, so he beat the three of them up.

When the squad leader heard this, his anger immediately rose. He brought the three of them to the captain of the ninth brigade.

He recounted what had happened in front of the main captain. He had to obtain the head captain's approval to attack Moxiu. He could not make the decision.

However, the captain was still more cautious than the captain. He asked the three people who were beaten up separately, and the answer he got was the same. It was Moxiu's fault.

After thinking for a while, he decided to report it. If he didn't report this matter, it was very likely that it would spread among the team members, When it spread, it would reach the ears of the captain. He wouldn't be able to explain it clearly.

Just like that, the captain of the 9th Brigade brought a total of five people, including the squad leader, to find the head captain.

Head Captain Boboqi was a middle-aged man with a noble temperament. His every move was elegant.

When Boboqi saw the 9th captain coming over, he knew what was going on.

In the Holy City, there was nothing that Boboqi didn't know. He had eyes and ears in every corner of the Holy City.

MO Xiu and the three people were fighting, while the others were fighting outside. At that time, there were many onlookers, and what happened was clear to Boboqi.

The moment the ninth captain came in, he said anxiously, "Head Captain, I have something to report to you. Three members of our brigade were injured by MO Xiu. I have checked their injuries. They are not fatal, but their injuries are not light either."

Boboqi glanced at the three of them and walked up to check their injuries again.

"Fortunately, it's not a big deal!"

"Head Captain, Moxiu is too much of a bully. You must stand up for us!" One of the three said.'

Boboc didn't say anything and slapped him.

The man was slapped to the ground. He covered his face and looked at Boboqi in shock. He didn't understand why Boboqi hit him. He wanted to say something, but he was stopped by the captain.

The captain looked at the captain. At this time, only the captain had the right to speak.

The captain frowned. He knew that something was wrong. It was very likely that these three people were not telling the truth. At this time, he did not say anything and only glared at the three of them.

The three of them saw that their captain didn't speak up for them, so they immediately lowered their heads and waited for Boboqi to scold them.

“Did you tell the captains that Moxiu attacked first?” asked Boboc. You guys weren’t lying. It was indeed Moxiu who attacked first, but why didn’t you guys say that you were the ones who provoked him first?”

The three of them immediately knelt on the ground, not daring to make a sound.

At this moment, the captain was furious. He went forward and was about to hit the three of them.

Everyone present knew that the captain was putting on an act when he was stopped by Boboc. Only then could they reduce the punishment.

Although everyone knew it, they had to act.

Boboqi gave him face and said,” Don’t be rash. There’s nothing wrong with them provoking Moxiu. I didn’t give any orders to stop them from provoking him. No matter how important Moxiu is in the central continent, he’s still considered a junior. It’s normal for the juniors to spar. However, you guys are no match for him, and you still want to complain? That’s not right.”

“I understand. I’ll go back and punish them now. ””

Boboqi nodded and said,” No need to punish me. Just go back and teach me a lesson.””

“Understood!”

The captain left with the few of them. As soon as he left, he could not help but say, “You’re really embarrassing me!”

The squad leader looked at the three of them helplessly. He was also implicated. Moreover, he and the squad leader were sandwiched in the middle. No one was having a good time.

After they left, Boboqi smiled and paced back and forth in the chief captain’s office.

Finally, she sat back down in her seat and whispered, "Find trouble with MO Xiu? What kind of joke was this? Elder Tang didn't treat MO Xiu as a disciple at all. Instead, he was grooming him as a supreme successor.. If I were to do anything to MO Xiu, Elder Tang would disregard everything and flatten the northern region!"
