

Four Skills 431

Chapter 431: Two Uncles

"Kid, I'm already so old, but I can't beat you?" Bailey said angrily."

"What do you mean? What does this have to do with age?" Moxiu replied. Can we get down to business now?"

"Tell me! I never stopped you from saying it!"

"But you haven't been talking properly!"

Bailey put her hands on her hips and said, "Tell me! Why are you looking for

"There are two unstable factors in the team this time," said Moxiu."

"I know that!" Bailey interrupted."

"Then tell me!"

"One of them is Nong Zhang, he's too combative. The second one is Li Ling 'er and Zhuge Zhong, the two of them...you know."

"You're right about one thing," Moxiu said. "The farm badge is unstable. I sent him out to buy things this time to see how his execution ability is." This is also the reason why I came to find you. Tell me, did the farmer's seal abide by the rules I set on the way here?"

Bailey began to recall that when she was shopping outside, her attention was attracted by all kinds of goods and she really did not pay attention to the farm stamp.

Now that Moxiu had asked, Bailey knew that Moxiu was evaluating everyone. She could not lie at this time. If she lied, Moxiu's arrangements would go wrong, and she might be the one who would suffer.

"Moxiu, to be honest, my attention wasn't on Nong Zhang. He didn't say anything when he was shopping, as if he was studying something with his head lowered. There's definitely no big problem, but I'm not sure if he completely followed the rules you set."

Moxiu knew that Nong Zhang must have been researching his skills along the way. In the previous battle, Nong Zhang had replicated the Martial God and Void Destruction.

This time, it was very likely that it would be a different person. It was most likely the Martial God and Holy Sword. This guy was really born for combat and had always been studying how to fight.

Bailey didn't give a detailed explanation, but nothing major happened, which meant that the farm badge was still relatively controllable.

Moxiu nodded." Alright, I understand. Since you don't know much, I'll take my leave first." ‘

Moxiu stood up and prepared to leave. Bailey also stood up to send him off.

When they reached the door, Bailey asked,""Oh right, Moxiu, you said that there are two unstable points. What's the other one?"

Moxiu pointed at Bailey and said, "It's you!"

Bailey was stunned at first, then she stomped her feet angrily and said, "Hurry up and leave! I'm so obedient, but I'm still unstable."

"Bang!"

The door was closed mercilessly.

"I wasn't wrong," Moxiu muttered to himself at the door."

"Hurry up and leave!"

Bailey's angry voice came from the door. Moxiu could only leave resentfully.

After returning to his room, Moxiu received a message from Xiao Hong.

"MO Xiu, you're not in the Imperial Family right now, right?"

MO Xiu replied.

"Yes, he's not here. He's on a mission."

"I know. I'm sorry. Even if we cultivate hard, we can't help you much."

MO Xiu understood that Xiao Hong and the others must have sensed that he was teaming up with someone else to carry out a mission. It was inevitable that they would feel a little disappointed.

"It's nothing. After we go back, we'll still fight side by side. I might lose contact with you for a period of time."

"Don't worry! "

After Xiao Hong's message, Yang Qingzhuo sent another message.

“Moxiu, you’ve been too busy recently. Didn’t you say that we were inseparable partners

“Okay, wait for me for a while more!”

“You keep your word!”

“Yes! I will!”

MO Xiu knew very well that Xiao Hong, Yang Qingzhuo, and the others were his core members, even though they had yet to fully mature.

Lying on the bed, MO Xiu wanted to have a good sleep, but there were too many things on his mind. He tossed and turned, unable to fall asleep.

He might as well not sleep. With Moxiu’s current physical fitness, it wouldn’t be a problem for him to not sleep for a few days.

Coupled with the buff of the Martial God state, it was not a problem for him to not sleep for a few months.

In addition, the holy flames could increase his energy. Even if Moxiu never slept, there would not be any problems.

He had to find something to do if he didn’t sleep. After thinking for a while, he took out Mr. Tang’s diary and continued reading.

“December 3rd.

It was very cold today. The battle between humans and beasts was in a dilemma. The city was in chaos. Whether it was humans or beasts, they had to form groups. Otherwise, it would be very dangerous.

In the current situation, social animals were stronger. Lions and tigers were inferior to cats and dogs.”

“15th December.

Today, Li Qing and I came out on a mission. She is my only family. I swear to protect her.”

“December 30th.

The Alliance conducted investigations among the human tribes to find the people who were hit by the meteorite fragments.

I was hit by the shard before and didn’t think much of it. I told many people about it, so they didn’t ask me and invited me to the Alliance Headquarters. I’m on my way now.”

“25th January.

He had been at the Alliance Headquarters for many days. He wondered how Li Qing was doing.

Most of the people who had been hit by the meteorite fragments had been found. The remaining people did not want to reveal it, so they could not continue searching.

The headquarters counted everyone. Four people were hit by the big shards, and thirty-five people were hit by the small shards.

Two of the people who were hit by the shards were from the central continent. They expressed their willingness to cooperate with the Alliance, but they did not reveal their names. These two people looked to be in their twenties and had a good relationship.

These two people were the most mysterious of all.

The other two people who were hit by the big shard, one from the north and one from the south, were now being taken back.

After several months of fighting, the Alliance was now divided into the south, central, and north. All three were fighting over the people who were hit by the meteorite fragments.

I was left at the headquarters and I don't know when I can go back."

"May 11th.

The two people who were hit by the big shards told me that those who were hit by the shards were all chosen people and had the responsibility to protect all mankind.

One of them was handsome, but he didn't smile when he spoke. He was cold. She would call him Uncle Leng from now on.

The other one had glasses and was always smiling. Let's call him Uncle Glasses.

I also realized that I'm really different from the others during the battle training today."

"June 21st.

The human territory gradually shrank towards the inland, while the wild beasts' territory expanded outwards. Many people were very excited. Being separated from the wild beasts meant that humans had their own living space.

The two mysterious uncles thought so. They felt that the wild beasts wanted to surround the humans and then slowly devour their territory."

"August 17th.

The two uncles were right. The wild beasts had launched several attacks in the past two months.

The two uncles also became key figures. Uncle Leng's combat power was unparalleled, and no beast could defeat him. Uncle Glasses predicted everything like a god and cracked all the tactics of the beasts, bringing the humans a rare victory..”

Chapter 432: The Supreme and Heavenly Tales

“October 11th.

When I saw Li Qing again, she had changed a lot. I was glad that she still treated me as a family member. I hope that I can spend more time with her in the future. ”

“March 5th.

The first thing I did when I obtained the right to move freely was to find Li Qing. Today, I'm fourteen years old!”

“June 9th.

The peace was broken once again. The chaos within the beasts had ended, and it seemed to have formed an order. The full-scale attack on mankind had begun.”

“December 3rd.

It was all thanks to Uncle Leng and Uncle Glasses that they had descended from the heavens. Without the two of them, humanity might have been finished. ”

“May 9th.

The second large-scale counterattack of the wild beasts has begun. I have to go to the front line again.”

“March 5th.

This battle has been going on for more than a year, and I’ve celebrated my birthday. I’m sixteen this year, and I didn’t have Li Qing to accompany me on the battlefield. ”

“March 5th.

The war was intense, so there was no time to write a diary. It was a birthday celebration. Seventeen years old!”

“March 5th.

It was another year’s birthday. According to what was said in the past, I was already an adult. I didn’t know when the war would end.”

“6th December.

The war had ended. After a few years of war, the humans had fallen into a desperate situation. The population had drastically decreased, and the wild beasts had suffered severe injuries. Both sides needed to slow down.

During the war, the two uncles had displayed amazing power and became the leaders of all mankind.

In the next war, will we be able to chase away the wild beasts?”

“26th January.

Today is the Spring Festival. The streets haven't been so lively for a long time. Li Qing and I also came out to take a walk."

"March 11th.

Today was a memorable day.

Two major events happened.

One of them was a major event for all of humanity. The two uncles had sat on the throne that ruled all of humanity. They finally had a name.

The name was thought of by the people, and they all called it that.

Uncle Leng was known as the supreme because he was invincible in war.

Uncle Glasses was known as the Heavenly Secret because he could predict things like a god.

The second thing is my private matter. Li Qing and I are no longer just relatives, but also husband and wife! Haha!"

Upon seeing this, Moxiu abruptly closed the diary.

The further the diary went, the longer the time interval.

Sometimes, he only wrote one article a year. According to the time, Master Tang was nineteen years old, which meant that the meteorite had fallen for seven years.

In these seven years, humans had changed greatly. From the initial chaos of disunity to rebirth and the formation of an alliance.

As for the two battles that followed, the records were not very detailed, but a timeline could be sorted out.

It contained a lot of key information, such as meteorite fragments!

The last time Moxiu had read the diary, he had discovered this point. The meteorite fragments were very strange. This time, he had resolved this doubt.

According to the information, Moxiu was certain that the meteorite fragments could create experts, and Elder Tang was one of them.

And the two most dazzling people among them were Wu Shang and Tian Ji!

It was only when MO Xiu saw this that he realized that the two people who were unwilling to reveal their names were Wu Shang and Tian Ji.

According to Old Tang's description, Wu Shang and Tian Ji were friends. It was very likely that they were good friends before the world's metamorphosis.

He really did not expect that the so-called Tianji School, which was listed as the imperial family, was actually someone who was as famous as Wu Shang.

No wonder the other imperial families and managers respected the Elder of Heavenly Secrets so much.

According to seniority, that old man was a generation older than Master Tang.

Since he was an old friend, Elder Tang would definitely visit the Elder of Heavenly Secrets when he returned to the Imperial Family.

Apart from this key information, MO Xiu also saw a different Elder Tang. The woman named Li Qing should be the most important person to Elder Tang, right?

“Master, it’s not that you don’t have a girlfriend. It’s very likely that you’ve been thinking about her since you were twelve years old.”

MO Xiu was laughing in the room. He smiled bitterly.

Since Mr. Tang and Li Qing were already married at that time, Mr. Tang had no descendants now, and he had never heard Mr. Tang mention Li Qing.

If that was the case, Li Qing would most likely not have a good ending. This was also the reason why MO Xiu closed his laptop and didn’t want to continue reading. This should be the happiest moment for Elder Tang. What followed was destined to be unfortunate. MO Xiu didn’t want to read it, at least not today.

There were also a few details hidden in the love diary. The diary said that during the period of the world’s metamorphosis, humans were in a panic, and so were the beasts.

Beasts were even more chaotic than humans. Humans were chaotic at first because of their expansion after gaining power. Later on, they were slowly threatened by beasts and quickly adjusted to form alliances.

However, wild beasts were different. After gaining power, wild beasts gained more freedom. In the era of free hunting, they could do whatever they wanted. According to Moxiu’s analysis, wild beasts didn’t only prey on humans at that time, they also hunted other animals, so their internal consumption was also very high.

This was the reason why humans had the upper hand in the early stages of the war.

There was a sentence in the diary.

“Tigers and lions are inferior to cats and dogs.”

The males of tigers and lions usually acted alone. Cats and dogs had learned to live in groups in human society.

This was also the foundation of the eight great beast races, right?

Moxiu thought to himself. This world was not as simple as he thought. What would the society of the beasts be like?

As the sun rose, many questions would be answered today.

Moxiu tidied himself up and walked out of the door to wake everyone up, preparing to set off!

The group of seven people had a serious expression on their faces as they traveled. Even Li Ling 'er and Zhu Ge had restrained themselves a lot and were looking ahead with a serious expression.

The real test is coming

As they neared the border, the group of people landed discreetly. There were only a few straw huts and no other buildings.

This was the breakthrough point that Xi Bei had chosen for the team, and these straw huts were the temporary strongholds for the seven of them. There were also people inside to receive the team.

They entered the straw hut. There was only one person sitting inside, a middle-aged man.

The seven of them were shocked. Why was there only one person? If an accident happened, how would they respond?

MO Xiu also had this doubt. Since this matter was of great importance, he didn't beat around the bush and directly asked, "May I know your name?"

The middle-aged man did not seem to have been sent here at the last minute.

He seemed to have lived here for many years.

When he heard Moxiu's question, he replied lazily, ""My surname is Bai, and I'm older than all of you. Just call me Old Bail""

Another Lao Bai?

Wait a minute!

MO Xiu suddenly realized something. This person's surname was also Bai, and Xi Bei had arranged for him to come and receive him. Could it be...

Old White saw the expression on Moxiu's face and said, ""It's what you're thinking.. You should have seen my grandfather!""

Chapter 433: Another Old White (1)

Really!

Moxiu felt that this Old White had some sort of relationship with Manager Old White, but he didn't expect it to be true.

"Since that's the case, I'm relieved."

Old White nodded. He was very satisfied with Moxiu's trust.

Moxiu was relieved, but the others were not. This trip to the wild beast territory was extremely dangerous. If there was no way out, none of them would be at ease.

“MO Xiu, what’s going on?” Xi Bei asked. Can you tell me?” MO Xiu glanced at Old White, who slowly sat up straight.

“Let me tell you! My grandfather was the creator of the royal space.”

“What?”

Other than MO Xiu, everyone else was instantly shocked.

They were all people who grew up in the Royal Space. In the past, they had this question. Since the Royal Space and the outside world did not belong to the same space, how did the Royal Space come about?

Every member of the royal family had suspected that the royal space was someone’s skill, but after thinking about it carefully, they felt that it was unlikely. This was because such a space had all kinds of facilities. How could it be man-made? They had a better understanding of the imperial space than Moxiu, so they felt that it was even more impossible.

Therefore, even if he heard it with his own ears, he still found it unbelievable.

Lao Bai looked at them with contempt as if he was looking at an idiot.

“Listen to me first. I inherited my grandfather’s skill and also have the skill to create spaces. There are many experts in the space I created. If you are in trouble, I will immediately ask them to come out and help. This is my first guarantee as backup.”

“The second point is that I have the ability to connect to the royal space once.

After connecting, I can ask the experts of the royal family to come and help, or I can directly return to the royal family.”

MO Xiu had guessed the first point, but not the second.

Now, everyone was relieved. Not only did they have the help of experts, but if they really couldn't defeat them, they could also retreat to the imperial family. They could advance or retreat. Letting Old White come alone wouldn't be too big of a target. This was the best choice.

No! Lao Bai must have been living here, guarding the border.

Moxiu suddenly felt a sense of respect for Old White. This was another unknown hero. If it wasn't for the fact that the beasts wanted to start a war, Old White would most likely spend his entire life alone here.

Moxiu looked around and said, "No, we're just here to take a look. We'll immediately head to the territory of the wild beasts. When we landed, we realized that there was nothing on the other side. Are the wild beasts not guarded at the border?"

"I've lived here for a long time," Lao Bai said. "After many experiments, there is no guard or protective measures on the side of the wild beast except for a wall. You can just climb over the wall later. ""

Climb over the wall?

It seemed that the wild beasts really did not take humans seriously. Otherwise, they would not have been defenseless.

MO Xiu's gaze swept across everyone's faces as he said, ""Since there are no more problems, shall we set off?"

The six of them nodded in unison. Let's begin!

The seven of them didn't fly on the Holy Sword again. Instead, they really climbed over the wall.

This was out of safety considerations. Lao Bai said that it was fine to climb over the wall, so he should have already put it into practice.

If he revealed a flaw in his flight, wouldn't it end before he even started?

After climbing over the wall, he saw nothing but desolation. There was not a single wild beast.

It made sense. Whether it was a beast or a human, no one wanted to live at the border. Once the war started, the first to suffer would be here.

There was nothing in front of him. This was a little difficult. Where should he

MO Xiu remembered that Xi Bei's notebook had written that the wild beasts gathered in the west, and the apes lived in the northwest. However, this was information from a hundred years ago, so there was no way to guarantee its accuracy.

Xi Wang looked at the first circle and asked, "Mo Xiu, what should we do now?" "I think the safest way is for Rong Bang to investigate. We'll go back to Lao Bai's place and wait. After Rong Bang has investigated the terrain, we'll set off."

Moxiu shook his head and said, "We're already here. There's no reason for us to go back. Besides, our mission this time is to investigate the strength of the wild beasts. We shouldn't let Rongbang investigate alone. He might not be able to return for a few days if he goes alone. It'll be too late if we wait for him to return before we set off."

Bailey said, "Give us a plan. We can't just wait here forever, right?"

"Actually, I've expected this situation. The best solution is to split up."

Actually, no matter what the situation was, Moxiu had planned to split up. It was just a matter of time.

Now, this situation needed to start early.

Everyone fell silent, thinking about the feasibility of MO Xiu's idea. Not long after, Prince Xi nodded and said, "I think it's feasible. Then, Moxiu, you can split into groups!"

Moxiu looked at the others. Since no one objected, they were split into groups. The hardest part was the grouping, which was also why Moxiu observed everyone.

"This time, we'll split into three groups, heading southwest, west, and northwest respectively. The three groups will act independently, and we'll meet up here once a month."

The arrangement was very reasonable, and no one objected.

"MO Xiu, there's no problem with this arrangement. But isn't this one month a little too long?" Li Ling'er said. What if the beasts started a war in less than a month?"

Without waiting for MO Xiu to speak, Prince Xi said, "A month is not a long time. If we meet up frequently, it might arouse suspicion. If the wild beasts attack in advance, we will retreat immediately."

Moxiu added, "That's right. The seven of us can't act together for this

operation. There's no signal on our phones here, and there's no way to communicate. Everyone has to be aware that we're separated. It's very likely that each of us will act alone before long."

MO Xiu's words were not pleasant to hear, but it was the truth. No one refuted it.

"Also, as long as the wild beasts want to start a war, we will definitely sense it when we live with them. Once there are signs, we will immediately retreat." The six of them nodded, and MO Xiu continued.

"Now, let's start dividing into groups. Uncle Xi's notes said that apes live in the northwest direction, but no one knows what's going on right now. Our target is the ape's territory, so according to the information we have, the danger levels of the three regions are in descending order: southwest, west, and northwest."

The others agreed with Moxiu's analysis ability. After a hundred years, the beast camp might change.

However, according to the current intelligence, the northwest was indeed the most likely place where apes lived, and it was also the safest place. The west side might be where the two races met, so the danger was moderate.

And the southwest was most likely the territory of the fox clan, so it was the most dangerous..

Chapter 434: Time Bomb (1)

Moxiu continued," Alright, I'll start dividing them into groups. The first group will be Rong Bang's solo operation. They'll be heading to the most dangerous southwest region. Among all of us, Rong Bang, you're the best at hiding. You don't have to come into contact with the wild beasts to carry out the investigation, so it's been hard on you.""

"This is what I should do." Rong Bang nodded."

MO Xiu had decided to give the most dangerous area to Rong Bang from the start.

In terms of strength alone, Rong Bang might be at the bottom of the team. However, in terms of concealment and survival ability, even MO Xiu could not compare to him.

Moreover, Rong Bang was very vigilant and was not good at communicating. In his previous battle with MO Xiu, MO Xiu also understood that Rong Bang was suitable for thinking alone.

Such people should be in a group to be more efficient.

' Next is the second group. Prince Xi, Li Ling 'er, and Zhuge Zhong. Prince Xi will be in charge of this group. They will head to the safest northwest direction."

Prince Xi thought for a moment. The remaining people were Nong Zhang and Bailey, two of the more problematic characters.

“Moxiu, I don’t have any objections to your grouping, but I think my group should head west.”

Prince Xi’s group was the most stable group. He felt that they could handle the more dangerous west direction.

MO Xiu shook his head and said, “No! Go to the northwest.”

Prince Xi still felt that it was not good. He said, “MO Xiu, I feel that this group is the most stable. We can go to the west and try.”

MO Xiu smiled and said to Prince Xi, “It’s precisely because your group is the most stable that we’re sending you to the most likely destination. You’re the main force.”

Prince Xi immediately understood what Moxiu meant. The grouping was not just based on the assessment of the risk, but also the group with the highest possibility of completing the mission.

MO Xiu added, “Your team has a steady warrior like you, the strongest fighter Li Ling ‘er, and Zhuge Zhong who can save his life. Whether or not this mission can succeed depends on your team and Rong Bang. The remaining three of us want to try our luck.”

“Understood!” King Xi said.

The reason why MO Xiu grouped them up was simple. The three people he was most at ease with were Prince Xi, Li Ling ‘er, and Rong Bang.

Needless to say, Rong Bang must have acted alone. Li Ling ‘er was also an assassin, and her combat strength was the strongest. She was a strong ally with Prince Xi.

As for Zhuge Zhong, MO Xiu didn't know much about him. According to their previous interactions, if he was separated from Li Ling 'er, the others might not be able to suppress him.

That was why he arranged for the three of them to be together. Even if Rong Bang did not gain anything, this was the most stable and effective group.

"The last group is the third group in the west direction, me, Nong Zhang, and Bailey."

There were two unstable factors. Nong Zhang needed someone who could control him. Otherwise, it would be easy for him to fight with the wild beasts.

MO Xiu felt more at ease keeping such a ticking time bomb by his side.

The other one was Bailey. Moxiu said that Bailey Bailey was not easy to manage, but he was actually joking.

Moxiu believed that Bailey would obey orders at the critical moment and put the overall situation first.

She was said to be unstable because she was a Mage. When she used her skills, she would cause a lot of commotion and would be easily discovered. Therefore, once she came into contact with wild beasts, Bailey would not be able to use her skills in most situations. If she became an ordinary person, she would be discovered once she tried to protect herself. This was the unstable factor.

If he handed these two over to Prince Xi, MO Xiu would be somewhat worried.

The seven of them lowered their heads and thought for a moment, analyzing the pros and cons.

"If there are no problems, we will set off."

Rong Bang nodded and turned invisible.

Prince Xi communicated with Li Ling 'er for a while before setting off as well.

Now, only Nong Zhangbeili and MO Xiu were left.

"Let's set off too, " said Moxiu."

Bailey had changed her previous style and said, ""Moxiu, are you in the same group as me to protect me?"

MO Xiu smiled and said," I'm the leader. I need to protect everyone. However, you're indeed the weaker one in this mission, so we'll form a group of three. Don't worry. If there's any problem in the west, we'll retreat immediately.""

"Mm, alright!"

Nong Zhang did not say a word from beginning to end.

After half a day, Moxiu finally saw the village in front of him.

In order to avoid unnecessary trouble, the three of them had walked over for half a day. Now that they saw the village, they finally saw hope.

Along with hope, there was also doubt. This village was built in the same way as humans.

Could it be that the people living here were humans?

MO Xiu said softly," Nong Zhang, from now on, you are my brother. Bailey is my sister-in-law. Remember this identity. It's best if you don't talk too much.

Do you understand?"

Nong Zhang nodded in response. Bailey asked, ""Why am I not your wife? It's your sister-in-law. Do you want to be single so that you can flirt with the little sisters of the fox clan? I heard that all of them are ridiculously beautiful. Tell me honestly, are you tempted?"

Moxiu did not mind Bailey's joke. It was not a bad time to lighten the atmosphere.

"Do you want to hear the truth?"

Of course," Bailey said with interest." If you have such an idea, I can help you.""

"The truth is...you're too old for me," Motheo said as he leaned closer to Bailey."

After saying that, she immediately took a few steps forward. Bailey was so angry that she gritted her teeth.

The three of them chatted and laughed as they walked into the village, which made it seem more natural.

The further they went in, the stranger they felt. Not only were the houses like humans, but even the food and use were the same as humans.

Even their clothes were the same, which saved the three of them a lot of trouble.

Along the way, MO Xiu met a few people, but none of them spoke. He pretended to be someone hurrying along the way so as not to arouse suspicion.

Until a thin old man walked over. This old man's body and appearance were not much different from a human's.

However, its small and thin features allowed Moxiu to be certain that it was an ape.

Apes are divided into thin and strong.

Skinny had evolved from a monkey. He had an extremely high IQ and was the group of beasts with the highest intelligence in the entire west.

Zhuang was the evolution of the former gorilla. It was the main force, and its intelligence was slightly lower than the thin gorilla. However, its strength was shocking, and it also had a longer lifespan.

The old man in front of him should be the so-called skinny ape.

The old man examined MO Xiu and the others and asked, haven't seen you guys before. Did you come from another village?"

'Not bad," said Moxiu." Our village is very far from here. The three of us came out to travel together. Now, we want to go back, but we can't tell the direction."

"Where are your phones?" the old man asked."

[This sentence is so ridiculous that MO Xiu is stunned. Even a wild beast uses a cell phone?]

Moxiu quickly answered. If he answered too slowly, he might be suspected.

"The phone has run out of battery a long time ago. We want to go to a crowded place to ask for directions."

Since it's far away, I might not know," the old man said." The nearest city to us is Ape 69 City. You'll see it if you keep going west..""

Chapter 435: Ape 69 City

“Then let’s go and take a look.””

The old man didn’t stop them and watched as MO Xiu and the other two left.

When the three of them walked out of the village, Bailey asked, “Moxiu, why don’t we settle down here?”

It’s fine to settle down,” Moxiu said.” But I have a feeling that the old man is not easy to deal with. Have you forgotten?” If we stay, we will have more contact with them. We don’t know anything, so it’s easy for us to give ourselves away. ”

Bailey was still a little confused and continued to ask, “Then we still don’t know anything. Do we have to continue walking without stopping?

Moxiu suddenly stopped and answered Bailey’s questions. He had to make sure that everyone knew what was going on so that they wouldn’t make mistakes easily. Of course, it was unrealistic for Nong Zhang to analyze and remember all this.

“Who says we don’t know anything now? ” The information we have now is that the lifestyle and clothing of wild beasts are basically the same as humans, so we can walk in front of humans with ease. There’s also Ape 69 City and cell phones. With this information, we can use the existing information to get more information the next time we talk to people. Only when we have enough information can we enter the so-called Ape 69 City.”

Bailey understood Moxiu’s meaning and nodded.

He did not communicate much with the old man earlier because he had just entered the territory of the wild beasts. He did not know anything, not even the way of life of the wild beasts. If he continued to talk, there would be too many loopholes.

Since he had heard a few clues, he could slowly chat with the others on the way to get more information.

This method was safer, and it was also Moxiu's style of doing things.

MO Xiu asked, "Did you find anything in that village?!"

Bailey was still thinking when Nong Zhang said, ""There are not only apes but also foxes in that village."

MO Xiu was a little surprised that Nong Zhang could observe so carefully.

However, when he saw the battle intent in Nong Zhang's eyes, Moxiu understood that the others were observing the situation while he was looking for an opponent.

Moxiu said, "That's right. There are some men and women in the village who are very handsome and beautiful. They are very likely to be from the fox clan.

In other words, there are two races living in that small village just now. Moreover, there are some people who look ordinary and have well-proportioned figures. We can't be sure what race those people are from, but we can at least be sure that this area is very likely the central area where the fox clan and the ape clan live together."

"Well, that's right. We should be careful then," Bailey said."

"Have you taken the medicine to hide your smell?" asked Moxiu."

The two nodded in unison. Moxiu heaved a sigh of relief and continued walking forward.

Another half a day passed, and no creatures appeared along the way. Moxiu was very puzzled. It seemed that the wild beasts had plenty of territory, so why did they start a war?

This time, he saw a city. It was a real city. From afar, it was slightly smaller than Shun City. It was filled with high-rise buildings.

This scene caused the three of them to stop.

In Moxiu's expectations, even if the place where the wild beasts lived was not like a primitive society, it would at most be like the village just now, filled with straw huts and wooden houses.

He didn't expect the wild beasts to develop to such a level in a hundred years.

Looking at the city now was no less shocking than looking at the royal space.

On the side of the city's entrance, the words 'Ape 69 City' were written!

The three of them did not enter the city immediately. Instead, they walked around the city, wanting to gather information from the few of them. Otherwise, they would not be able to adapt to the city.

As it was late, almost no one left the city. After waiting for nearly an hour, they saw a man entering the city alone.

Hello," MO Xiu walked up and asked." We are foreigners passing by. Can we ask for directions?"

The man had a strong body, and it was obvious that he was a strong ape. He should be easier to communicate with than the thin ape.

The man said," Oh, I live here. Where do you want to go?"

MO Xiu looked at the two people behind him and said, "We want to go to Ape 9 City!"

The man looked at Moxiu with a strange gaze. He pointed at the city in front of him and said," So this is Ape 6th City!"

Moxiu looked at the city next to him with a blank expression and said embarrassedly, "So this is Ape 69 City? To think that we've been looking for it all this time."

The man nodded, seemingly unwilling to continue the conversation. He said goodbye and was about to leave.

Moxiu gave Bailey and Nong Zhang a hand signal and chased after them.

"Big brother, we're new here and don't know much about this place. Can we enter the city with you?"

The man wanted to say, "I'm busy, I'm busy, I've got some business, I'm going back as soon as possible." "

It doesn't matter," Moxiu said sincerely. "We'll just follow you for a short distance. If there's anything we don't understand, we'll ask you. Is that okay?" "

The man thought for a moment and said, "That's fine, but I'll leave when I get there. You can't follow me." "

"No problem. I still don't know your name." "

'My name is Ape 1764.' "

"Oh, my name is...ah?"

When the man said his name, MO Xiu didn't react in time. He was stunned for a moment. What kind of name was this? Ape 1754?

"What's wrong?" Ape 1764 asked. What's your name?"

Moxiu was a little embarrassed. It seemed like he had to give her a new name. However, he didn't know if this number had any special meaning.

He had a sudden inspiration and said, "His name is Fox6666. This is my brother Fox888, and this is my sister-in-law Fox123. Please take care of him."

"Oh."

Ape 1764 did not react.

Moxiu had deliberately made up three ranks of numbers to test Ape 1763's reaction, but he hadn't expected him to have no reaction at all.

Whether it was a four-digit number, a three-digit number, or a number that was closer to the front, there was no reaction.

From this, it could be seen that there were two problems. One was that this was how wild beasts were named. Ape or fox with numbers were not special.

The second was that the numbers did not seem to have any pattern. Even if the numbers were neat or the numbers were very close to the front, there was no explanation. Otherwise, the ape would definitely have some expression and would not be as calm as he thought.

In this case, the names of the three people were decided.

Moxiu and the other two followed Ape 1764 into the city. The scene in the city shocked Moxiu.

This...

The surrounding environment was very similar to Yan City. Perhaps the shops were different, but the overall structure was almost the same. It was like a miniature version of Yan City.

As they walked, Bailey also realized this and looked at Moxiu in shock.

This was a very important piece of information. There were definitely many spies among the humans, and they were hidden very well. Otherwise, how could they replicate Yan City?

Ape 69 City was obviously built according to Yan City. In other words, the wild beasts had imitated the way of life of humans in the past 100 years. They had imitated it very well, almost in all aspects.

Along the way, Moxiu asked all kinds of questions.

As more details were asked, Moxiu became more and more shocked..

Chapter 436: Landing (1)

They followed Ape 1764 until they were about to enter the city center.

As soon as Ape 1764 left, Bailey immediately said,""Moxiu, the situation here is far beyond our expectations. Why haven't the humans sent any spies over all these years?"

MO Xiu said," It should be too difficult. According to Uncle Xi's notes, foxes and apes had a certain gap with humans at that time. Humans living among wild beasts were easily discovered. I didn't expect that wild beasts would develop so quickly.""

The situation between humans and beasts after a great battle was completely different.

Before the war, mankind was in absolute dominance. After the war, there were a lot of things to be done. In the past hundred years, they might not have recovered to the level before the war.

However, wild beasts were the exact opposite. In the past, wild beasts had a lower status. They were either wild and untamed, or they were treated as pets or objects of visit by humans.

After the war, they had their own independent territory, which was a period of rapid development.

During this period, thanks to the experience of humans, there were fewer detours. Now, the development of wild beasts was very close to that of humans.

Especially in the west, the foxes and apes had the same body characteristics as humans. Everything designed for humans could be directly copied.

During the conversation with Ape 1764, Moxiu had gathered a lot of crucial information.

For example, the currency used by beasts was similar to that used by humans, but it was different. Let's call it Beast Coin for now.

In the city of beasts, it was difficult to move without beast coins, which was basically the same as human society.

There were also all kinds of shopping malls and entertainment facilities.

When they passed by a few clothing stores, Moxiu and the others saw the clothes in the stores. They found it very strange. In terms of fashion, beasts might have surpassed humans.

Moxiu had also asked around on the phone.

Beasts had their own communication system, which was completely different from humans.

This way, the investigation mission would be much easier. Beast had a communication system, and it was very likely that he had an internet

connecution.

With the internet, there would be discussion forums. These places were also crucial. Although they would not reflect the movements of the authorities, they could quickly understand the thoughts of the people.

The remaining problem was his identity. This was the problem that Moxiu was most worried about. If he could not solve the identity problem, he would not be able to live in the city. If that happened, the investigation would encounter obstacles.

This meant that the three of them would not be able to settle down smoothly. Moxiu had just asked them indirectly, saying that the three of them came from a remote mountain village and had never been to a city. Would they encounter any trouble if they settled down in a city?

Ape 1764's answer was that there was no identity system in Ape City 69. There were 100 cities in Ape City and 100 cities in Fox City. Only the top ten cities of each race had an identity system. In the cities with an identity system, everyone's name was not randomly chosen. Those who could live there were the elites among the beasts.

Based on Ape 1764's answer, he could analyze some things. There was a strict hierarchy among wild beasts. If he wanted to come into contact with the core things, he would have to go to the top ten cities to have a chance.

However, there was also good news. There was no identity system here, so the three of them could stay here for the time being.

Unless it was in the top 10 cities, names could be randomly chosen. No wonder Ape 1764 didn't react when he heard Moxiu's name.

"Moxiu, where are we going now?" asked Bailey."

MO Xiu said," We don't have any money now. This is very troublesome. There's definitely no place to stay here. If it doesn't work, we might have to leave the city and look for the surrounding villages and towns to see if they can survive for a night."

Bailey pouted and was a little unwilling. They had been walking for a whole day, but it seemed that there was no good way now.

Just as the three of them were about to turn around and leave the city, five burly men walked towards them.

There was no need to even think about it. This physique was definitely that of a strong ape. At this time, with this expression, it was obvious that he had come with ill intentions.

Moxiu shielded Bailey behind him and gave Nong Zhang a meaningful look.

Nong Zhang was a warmonger, but he wasn't stupid. What else could MO Xiu use him for?

Of course, it was a fight. He immediately copied Moxiu's skill and activated the Martial God.

This was something that Motheo had previously instructed him to avoid using skills in the territory of wild beasts. If necessary, he would use a status type skill, such as the Martial God. This way, he would not be suspected.

Five burly men swaggered over.

"Big brothers, what's the matter?" asked MO Xiu."

"Are you from another city?" asked one of them."

MO Xiu nodded and lowered his attitude. ""Yes, we came from a remote village. I don't know how we offended you when we first came here."

The man curled his lips and said, "There's nothing to offend us about. We Ape 69 City are reasonable people. We won't find trouble with you for no reason."" As soon as he said this, a hint of disappointment appeared on Moxiu's face.

“But?”

“But what?” Moxiu asked with anticipation.”

This question stunned the person. Why did it seem like this kid was still looking forward to it?

“However, we need to collect some protection fees to ensure your safety in the city. In the future, if you encounter anything, you can come and look for us.”

MO Xiu smiled. This was what he was waiting for.

“Brother, we just entered the city and don’t have much money. We still need to find a place to stay. Can you delay for two days?”

Just as he was about to reply, someone walked over from behind.

The man immediately said, “Big Brother, I’ll do the communication.””

The man called Big Brother said, “You’re too slow. Let me do it. The few of you hand over all the money and this young woman to accompany us for a few days.”

Moxiu pretended to be afraid and said, “”Don’t do anything rash. I heard that the security in the city is very good, and there are cameras everywhere. If you dare to do anything rash, don’t even think about escaping.”

“Hahaha, this brother is really unsophisticated. Is this your first time entering the city? The security during the day is indeed good, but no one cares at night. Look around, is there anyone? There were surveillance cameras. If there were surveillance cameras here, would we have come here?”

Moxiu’s expression suddenly changed as he coldly looked at the five people in front of him.

The leader of the group also realized that there was something wrong with the question and seriously examined Moxiu.

From the way he dressed to the way he spoke, he looked like a country bumpkin.

“Fox888, did you hear that?” It’s not a problem to beat people up here.”

Fox888 was a farmer. He obviously hadn’t gotten used to his new name yet. He only understood after a while.

He walked forward with an evil smile. This was a good opportunity. The battle that Moxiu allowed was justified!

“What do you mean?” asked the leader. Do you want to compete with us? With just you hybrids?”

Nong Zhang responded with a punch..

Chapter 437: Counter-Snatching

A minute later, all five of them fell to the ground. Nong Zhang sighed and shook his head. He had thought that he would finally have a chance to fight, but he did not expect the other party to be so weak.

Moxiu didn’t choose to attack. Instead, he watched from the side as the strong ape fought. In conclusion, it relied on brute force.

Previously, out of caution, Moxiu did not use his God’s Authority on the wild beasts that passed by. Now, he did not have any scruples. He used God’s Authority on the few of them to check their skills.

“Skill: Infinite (Passive)

[Skill effect: Able to grow. Infinite strength, high growth rate, no limit (current limit is 500% of initial strength)]

[Skill: King Kong (Passive)]

[Skill effect: Able to grow, body strength increases, high growth rate, no limit (current limit is 700% of initial body strength))”

The skill introduction was so simple. Moxiu did not expect that the innate skill would be so simple to be able to survive after a hundred years of baptism. Moreover, it was a strong ape from the western overlord ape branch.

The skills were very simple. The two skills were very basic. One increased strength and the other increased physical strength.

In other words, the two skills, one offensive and one defensive, increased strength would increase overall combat effectiveness.

Increasing the strength of the body would increase the overall defense.

After thinking about it carefully, Moxiu realized that there was nothing special about these two skills. They were very simple and not very strong.

Thinking back to the strength of the Liu family after their strength was increased, one could know that when the infinite skills of wild beasts were upgraded to a certain level, they would be quite terrifying.

Moreover, increasing one’s physical strength would also increase a portion of one’s attack power. It was somewhat similar to how War God Moxiu increased all his attributes.

Skills that could increase one's physical strength were also rare among humans.

There were also two inconspicuous places that attracted Moxiu's attention.

The first was a description of both skills. They had high growth potential and no limits.

Such a description was not seen in human skills. One could directly see the growth rate of wild beasts, which was the speed of improvement.

These two ordinary skills had a fast growth speed and had no limit. They could grow indefinitely.

It was not difficult to analyze that such a skill might not show any advantage in the early stages of awakening, but the longer it lasted, the more terrifying it became.

It was definitely not a coincidence that the ape tribe was not eliminated and became one of the eight great tribes.

There was another point, but so far, the number of wild beasts Moxiu had checked was very limited. He had only checked on the Magic Falcon and Little Fu Shun.

Little Fushun was a Beast King, and his skills were impeccable.

As one of the more famous wild beasts, the Magic Hawk had a fundamental difference from the Strong Ape.

Weakness!

In the description of the Vigorous Ape's skill, there was no description of its weakness.

Moxiu had obtained quite a lot of information from reading the apes.

In terms of fighting style, the five people's moves were very ordinary, just like ordinary citizens fighting.

However, these strong apes were hooligans at the edge of the city, and their combat methods were not of much value.

After Nong Zhang defeated the five of them, he returned to Moxiu's side, somewhat disappointed.

MO Xiu went forward to check. Nong Zhang's attacks were not ruthless, and none of them were seriously injured.

Nong Zhang would only hold back when facing an expert. Such an opponent would lose his motivation the moment they exchanged blows. He would leave it to MO Xiu to deal with them easily.

MO Xiu looked at these few people. Indeed, each of them was weaker than the last. What were they thinking? He even came out to rob.

The skill they had just checked was the one they were leading. The others were weaker.

Seeing the sinister Moxiu walking over, the five of them hurriedly retreated.

Perhaps out of respect, the leader swallowed his saliva and said, "Who are you people? How can a country bumpkin be so strong?"

MO Xiu smiled and said, "Why? Are you looking down on us country bumpkins? I didn't expect the people in the city to be so weak!"

"Alright, we've lost this time. In the future, if there's a place for you, we'll take a detour!"

After saying that, he got up with difficulty and prepared to leave with the other four. However, he was stopped by Nong Zhang after taking two steps. "Brother, what do you mean by this?" he asked Moxiu. "Must you kill them all?"

Moxiu gave a 'friendly' smile and said, ""Kill them all? No, we don't have such a

big grudge!"

Having been out there for so long, they naturally understood MO Xiu's intentions. Since they didn't want their lives, they wanted money. After all, they didn't have any lust.

The leader rolled his eyes and said, "Brother, we have offended you. We should apologize, but we don't have money on hand. How about this?" We'll send someone back to get the money."

MO Xiu went up and slapped him."Tell you to go back and report? I'll take it now, as much as I have. Don't force me to search them one by one. If I search them, I won't just ask for money."

The leader looked back at the four of them and said,"Good! Take out all your money!"

Moxiu looked at the ATM at the corner of the street and said, ""Take out your cards too. Take them all out later!"

When the leader heard this, he was immediately unwilling and said, "Brother, there's no need to be so ruthless, right?"

At this moment, the five of them handed over their cash. There was only one card in total. It was found on the boss's body, but they refused to withdraw the money.

"Do you want your life or your money?" asked MO Xiu. Me and you take it together, don't say I don't take care of you, I only take half of it. What do you think?"

After a fierce internal struggle, the leader finally agreed and followed Moxiu to withdraw half of the money.

"I didn't expect you guys to make so much money in this line of work." The leader smiled but didn't say anything.

I saw your name when I withdrew the money just now," Moxiu said." Ape 9527, I'll remember you. Perhaps we'll meet again in the future.""

Ape 9527 glanced at Moxiu. I don't want to see you again in this lifetime.

MO Xiu let the few of them go, and the three of them quickly moved away to prevent them from bringing people back to cause trouble.

Moxiu handed all the money to Bailey and said,""From now on, the money will be handed over to you for safekeeping. You understand that money is very important in our situation."

Bailey took the money in surprise and said,""Don't worry, I'll definitely save money. There's a total of more than 10,000 yuan here. I wonder how the prices are here?"

If the money isn't worth anything," Moxiu said," would Ape 9527 feel so distressed?""

Bailey covered her mouth and laughed." When these five people appeared, I knew they were in danger. But I don't quite understand. Why did you take half of the money? He would agree to take all of them, right?"

Moxiu stretched out three fingers and said," First, they have solved our urgent problem. Second, don't be too ruthless. They should still be useful in the future. Third!" Bailey curiously moved closer to Moxiu and said,""What's three?"

"I'm sleepy!"

Chapter 438: Integration

Ape9527 had appeared out of nowhere and solved the problem of Moxiu and

the other two's lack of money. They could now settle down in Ape 69 City. It was already late at night. The three of them found a hotel nearby and stayed there.

The price was 50 yuan per room. The environment of the hotel was not bad. MO Xiu estimated that if he wanted to find a hotel like this in Yan City, it would cost at least 300 yuan.

It seemed that this 10,000 yuan was not a bad initial fund for the three of them.

It was already so late. The three of them had walked for a day and went straight back to their rooms to sleep.

Moxiu returned to the room and looked around carefully. He realized that the room was basically the same as a human's, except for some strange devices in the bathroom.

Moxiu studied it for a long time before he understood. It turned out that it was set up to make it easier to clean up the fur. It seemed that while the wild beasts copied humans, they also made some changes.

Apes looked similar to humans, but some of them had more hair.

As for the fox clan, it was needless to say. Their human form was an illusion, and their true form was still that of a beast. They might return to their original form to take a bath in the hotel.

Moxiu felt a little emotional. From a certain perspective, humans were indeed surrounded by wild beasts.

The alliance was divided into three parts. The three parts had been wary of each other for a hundred years and had never paid attention to wild beasts.

Of course, there were some objective reasons for this. Humans did not understand wild beasts, but they did not pay enough attention to them. There was no way to explain this.

Every city in the central region was autonomous. There was no unified person in charge, and there was no department like the Ministry of Foreign Affairs. This also caused humans to become more and more unfamiliar with wild beasts.

Moxiu looked out of the window. The wild beasts had such a good living environment, and they were still developing. The land was also very vast, and it had not reached the point where it was densely populated. Why would they start a war?

Early morning.

MO Xiu and the other two gathered.

"Xio, what should we do next?" Bailey asked."

Our mission this time is a long- term one," Motheo said." It might last until the wild beasts start a war. We have two things to do now. One is to survive as ordinary wild beasts. The other is to find a way to contact the other two teams and send effective information back as soon as possible.'"

Beast had a mobile phone and a communicator, so the three teams could move conveniently together.

Spreading the information they knew as soon as possible was the foundation of the mission. If the seven of them kept gathering information and could not transmit it in time, Xi Bei would not be able to respond according to the information, and the mission would be meaningless.

"I understand what you mean. What should we do now?" Bailey nodded."

Moxiu thought for a moment and said," Let's split up. I'll go and see if there's any work I can do. We'll first come into contact with more wild beasts before making other preparations.'"

“What about me?” Bailey asked.

“Go around and see if you can find a place to rent. It’s a little troublesome to stay in a hotel.”

“Understood. I’ll go now.” Bailey nodded.

“Wait!”

“What’s wrong?”

“Nong Zhang will go with you to protect your safety. Nong Zhang, you have to remember that you can only use status skills.”

Nong Zhang became interested and asked, “When is the last resort?”

When Moxiu saw Nong Zhang’s expectant gaze, his head hurt. He was bent on fighting.

“It’s very simple. When Bailey tells you to do it, do it.”

Nong Zhang immediately became dispirited. He originally thought that he would be comfortable after leaving MO Xiu, but he didn’t expect that he would still be controlled by others.

The two of them left after giving their instructions.

Bailey’s skills could not be used, which meant that she had no combat power. It was not safe for him to go out, so he could only let Nong Zhang protect Bailey.

Now, Moxiu was left alone. He planned to do two things today. He wanted to find a job that would allow him to come into contact with many wild beasts. Then, he wanted to find a way to get a phone and try to contact Prince Xi and Rong Bang.

As for communicating with the outside world, Moxiu had a trump card. That was his clone, MO Li.

The clones shared resources. MO Xiu could control MO Li to contact Xi Bei and spread the news.

After sorting out what he needed to do next, MO Xiu left the house.

He put a pill into his mouth to avoid being discovered by the fox clan.

Although this city was called Ape 69 City, according to observation, there were quite a number of foxes. The front desk of the hotel was a fox.

While Moxiu was greeting the receptionist downstairs, he read the receptionist's skill.

"Skill: Charm (in use)

[Skill's effect: High growth rate, no limits, can charm three targets (the success of the charm is related to the spiritual power of the bewitched). The bewitched is extremely obsessed with the main body, and the deep can be obedient.]

[Additional effect: Passive, increase charm.]

[Duration: Can be interrupted, but cannot exceed 48 hours.] NovelBin: Your Escape into Infinite Tales.

[Skill: Fox Shadow (Passive)]

[Skill effect: High growth rate, unlimited, increases speed and critical strike (current limit, speed is 800% of the main body, 50% chance of triggering critical strike, critical strike is 500% of the main body)]"

After looking at the skills, Moxiu's first impression was that the strong ape was a warrior, and the fox was an assassin.

The advantage of beast skills was that they did not have a cooldown time, while human skills had many advantages and were diverse.

The fox race had two very simple skills. Each of them was very practical, and they had high growth rates and unlimited characteristics.

The vixen in front of Moxiu was still using her charm skill. He shook his head and stopped investigating.

In the current society of wild beasts, the fox clan with charm would definitely live a better life than the brute force ape clan.

MO Xiu walked out of the hotel and wandered around. He stopped and walked until noon, but there was still no target.

There wasn't a job called an intermediary in the beast-like society. If Moxiu wanted to find a job, he could only look at every store to see if there were any hiring shops.

He didn't have a phone either. Otherwise, it would be easier to find a job online.

While Moxiu was wandering around, he didn't find any communication companies on these two streets. What should he do with his SIM card?

At noon, Moxiu decided to have a meal at a restaurant and ask around.

After opening the menu, MO Xiu was dumbfounded. What were these?

There were two systems, vegetarian and meat-based. From the looks of the picture, vegetarian food should be cooked and acceptable.

This meat was very strange. It did not specify what kind of meat it was. There

was only one type of meat that could be cooked or eaten raw.

With a curious attitude, Moxiu ordered a dish and a cooked meat.

After the dishes were served, Moxiu was stunned. The so-called vegetables were stir-fried weeds. How was he supposed to eat them?

The meat was even worse. It was just cooked and had no color. It was as if it had been cooked without any seasoning.

Since he couldn't eat grass, Moxiu decided to study the meat. Without chopsticks, he could only use his hands.

He grabbed the whole piece of meat and took a bite. A meaty smell assailed the atmosphere..

Chapter 439:

MO Xiu really couldn't eat anymore. He quickly paid the bill and left, even forgetting to ask for information.

Wasn't this too disgusting? His days in the future might not be easy.

As he walked down the street again, Moxiu didn't know what his goal was. When he came out, he had planned to complete two goals. Now, he hadn't completed a single one, and his progress was very slow.

When he reached a mobile phone store, Moxiu stopped. He had just passed by and had already noticed it.

However, he hadn't been able to find a communications business hall. Moxiu thought that buying a cell phone would be useless, so he didn't go in.

Since he hadn't found his target yet, Moxiu strode in and bought a cell phone before asking where the business hall was.

After entering the door, a White Fox woman warmly welcomed him and directly grabbed MO Xiu's arm.

Moxiu smiled awkwardly. Regardless of gender, this fox clansman was handsome to begin with. Coupled with the additional skill of Charm, he gave off a unique charm.

Such a person was really born to be a salesperson.

MO Xiu walked to the counter and the boss spoke.

"Little brother, do you want to buy a cell phone? We have all the new cell phones in our shop. Tell me, what do you need? He wanted to talk to her? Or take pictures or surf the internet more?"

"Don't you have a good phone?" Morion asked after a pause."

The boss had a pointy mouth and ape-like cheeks. He was a standard skinny ape. When he heard Moxiu's request, his eyes lit up.

"Yes! How about this one? With the latest processor, no matter if you were taking a front or back photo, taking a selfie or taking a photo for your girlfriend, it would definitely look good."

"Alright, I want to know the price." Moxiu nodded."

The boss pointed at the price and said,"We have a clear price tag. 1999!"

“You can’t bargain just because the price is clearly marked? It’s beyond my expectations. I’ll go to someone else’s house to take a look.”

Seeing that MO Xiu was about to leave, the skinny ape immediately stopped MO Xiu and said, “Brother, I see that you’re an honest person. I won’t hide anything from you. Tell me, what’s your budget?”

Moxiu stretched out a hand and said, “Five thousand!”

Skinny Monkey was stunned. The budget was 5,000 yuan, and 1999 yuan was too expensive?

“5,003!”

Shou Hou began to hesitate. He walked around the counter and finally gritted his teeth and said, “Brother, I’m selling it. This deal won’t make any money. I’ll treat it as making friends with you.”

MO Xiu looked at the skinny boss coldly.

It seemed that he had earned quite a bit. MO Xiu said, “I have a small request.” “You want some free gifts?” No problem. Our service will definitely satisfy you.” Moxiu shook his head and said, “No, I want you to help me get the card.”

The boss was stunned for a moment before saying, “What is this card?”

Moxiu was shocked. Did Beast’s phone not have a SIM card? Then how could he make a phone call?

This answer was crucial. If Moxiu didn’t answer well, he would be suspected.

“Oh, it’s like this, boss. My last phone was broken and I couldn’t make a call. When I opened it and tried to repair it, I found a card inside. It should be a call function, right?”

The skinny boss laughed and said, "Little brother, don't worry. Our phones are all authentic. They have a built-in communication chip. The phone number is written on the user's manual."

"I'm just asking. I believe you!" Moxiu said righteously. This is just paying for the machine."

"Alright, this way please."

Moxiu walked out with three mobile phones in his hands. What a mess. So Beast's SIM card was built into the mobile phone. No wonder there was no communication company.

Beasts' cell phones were strange. Beasts were imitating humans, but most of the beasts in the city had no identity. Even communication devices like cell phones were easy to buy.

There was no defense against humans at all. If he could hide in the wild beast territory so smoothly, the others should have no problem either.

Holding three phones, Moxiu walked into a convenience store.

It seemed that it was unlikely to find a job today. In that case, he would see if there was anything edible to buy for dinner.

Moxiu entered the convenience store and made a profit. It was very similar to a human convenience store. There were simple bento boxes and bread.

As the lunch had left a deep impression on Moxiu, he didn't dare to buy any more lunchboxes.

He could only casually buy a few pieces of bread. There was also some meat filling inside, so it probably wouldn't be delicious.

The person who paid the bill was a beautiful woman. She looked like a fox, but she was very different from those vixens who had charm skills.

There was no one in the shop at this time, so Moxiu chatted with the beauty for a while.

“Beauty, you don’t look very old. Are you working part-time here?” asked MO Xiu.”

After asking, Moxiu regretted his decision. First of all, he didn’t know if there was a school among the beasts. Moreover, there might not be a concept of part-time jobs here.

The beauty tilted her head, expressing her confusion. She asked in puzzlement, “What does youth have to do with part-time jobs?”

Moxiu heaved a sigh of relief. Beasts still had the concept of part-time jobs.

After the following conversation, Moxiu understood that although there were part-time jobs, the meaning was different.

MO Xiu’s meaning was the kind of part-time job where he went to school while working. This beautiful woman’s part-time job was to do many jobs at the same time.

MO Xiu said,” I’ve been looking for a job recently. I’m new here, so I don’t know that the recruitment standards for jobs in 69 cities are lower. I can get in quickly.””

The beautiful woman looked at MO Xiu with a strange gaze. MO Xiu pondered. Was there anything he didn’t say just now?

Just as he was thinking of retreating immediately if he gave himself away, the beauty spoke.

“You’re so strange. Why do you have to enter the job faster? Usually, people who said that didn’t have money, right?”

MO Xiu was about to say that he didn’t have any money, but when he saw the beautiful woman looking at the phone in his hand, he immediately understood.

“If you don’t have money, why would you buy three of the latest phones?” I heard that this one costs me more than half a month’s salary.”

MO Xiu took the opportunity to change the topic. Can I ask how much I earn a month here?”

“The boss here is very nice. His salary is relatively high in this line of work. He earns 1500 yuan a month.”

The corner of Moxiu’s mouth twitched. 1500 yuan. Half a month’s salary was at most 1000 yuan. In other words, he had spent 5000 yuan to buy three cell phones. He had already lost so much money that it was like his grandmother’s house.

That skinny, black-hearted boss actually cheated people like this.

As he thought about it, Moxiu laughed. How long had it been? It had been a long time since he had been annoyed by something that was expensive. He did not expect to find such a feeling in the wild beast territory.

Moxiu stopped thinking about it and asked, “We’ve been chatting for so long, but I still don’t know your name?”

“My name is Fox611, my friends call me Yiyi.”

Yiyi’s name did not sound so rigid, and it made people’s eyes light up..

Chapter 440: 1 1 m a Cashier

“Can I call you Yiyi?” asked MO Xiu.”

Yiyi was stunned for a moment before nodding slightly. Clearly, he had not expected MO Yu to ask such a question.

“My name is Fox6666. En, you can call me Four-Six.””

One covered his mouth and laughed. “46, this name is so strange.”

Moxiu looked at Yiyi’s smile and could not help but smile. Such an innocent smile, did it really appear on a wild beast?

“Yiyi, the treatment here is so good. Can I apply to work here?” asked MO Xiu. I think there’s only one person.”

One said,” Our shop is hiring. Someone just left, so I don’t have a partner today. Wait a moment, I’ll get the boss over. Although I can talk to you very well, we still have to go through the formal process. After all, I’m also a part-timer.””

MO Xiu nodded and said,”I know. There’s no problem.””

He really didn’t expect that when he wanted to do something, he couldn’t do anything. Today was about to end, and there was a possibility that he could complete both of them.

Not long after, a woman wearing strange clothes came in. Her clothes were very strange, revealing a piece here and a piece there.

As soon as he entered, Yiyi said,”Oh my god, did the boss take this dress?” Isn’t it too beautiful?”

MO Xiu was stunned. This was good? Could it be that he could not keep up with the fashion of the beasts?

“Who wants an interview?” the woman asked. It just so happens that I’m going out for a while. Let’s finish the interview first.”

Moxiu quickly raised his hand and said, "Boss, I'm here. I'm here for the interview.""

As the boss approached, Moxiu saw her face clearly. He was sure that she was another vixen.

The boss sized up Moxiu and asked, "'Name?"

"My name is Fox6666.""

The boss frowned and said, "Fox clan?" He's quite handsome, but he's not as feminine as the fox man. Are you a hybrid?"

Once again, he heard about the hybrid. If one were to take this hybrid literally, it would be the offspring of two races. However, in King Xi's notes, it was mentioned that the ape race and the fox race had mates, but they were unable to reproduce.

Since the hybrids really existed, Moxiu might as well beat them at their own game.

"That's right, I'm indeed a hybrid. Guess what my bloodline is?"

"Bloodline?" The boss asked doubtfully. What other bloodline could there be? You must be the descendant of the fox clan and the ape clan. If you want to be more specific, I guess you are the descendant of the magic fox and the strong ape."

Boss," said Moxiu, " your guess is really accurate. You're really amazing.""

The boss said delightedly, " Seriously, you're afraid of flattery when you've just arrived. I might not hire you. You can't just say a few nice words to work in my shop. The most important thing is the quality of the beast.""

Moxiu immediately said, " Boss, you've found the right person. I don't dare to say anything else, but my beast-grade is absolutely fine. I'm hardworking and honest. ""

The boss studied MO Xiu from head to toe. He looked rather old-fashioned and looked like a hardworking person.

“Fox6666, you’re not a local, are you? Where did you come from?”

Moxiu replied, “The place I came from is very far from here. It’s a small mountain village. My brother, sister-in-law, and I don’t want to live in a small mountain village for the rest of our lives. We wanted to come out and take a look. We walked an unknown distance and came here. Now, we can’t go back even if we want to. Seeing that this city is so big, we want to live here first.”

Moxiu spoke in great detail, but at the same time, he was very vague. He spoke of his fabricated experiences in detail in order to gain trust.

He didn’t mention where the village was or in which direction. He didn’t even mention how far they had gone to avoid revealing anything.

The boss nodded and said, “I think you’re not bad now, but I don’t know how you’re doing at work. How about this? I have something to do and I have to leave first. You work with Yiyi. Yiyi will tell you the specific working hours and matters. I’ll observe you for a week first. If there are no problems after a week, you can officially start.”

Moxiu stood up excitedly and thanked the boss profusely. The boss waved his hand and said, “There’s no need to be like this. Just work hard.”

“Yiyi, am I hired?” MO Xiu asked after sending the boss away.

One shook his head proudly and said, “I’ve passed the boss. Now, it depends on whether you can satisfy me within a week. Hehe.”

MO Xiu looked at Yiyi’s appearance and did not find anything strange about it. On the contrary, he felt that it was rather cute.

Moxiu casually took out a bottle of drink from the shelf beside him and handed it to Yiyi.

"I'll treat you to a drink."

Yiyi, who was still proud just now, quickly waved his hand and said, "Ah, no need. That's not what I meant. I was just joking."

MO Xiu stuffed the drink into Yiyi's hands and said, "Take it. We'll be colleagues in the future. There are many things I need to ask you."

Seeing Moxiu's expression, Yiyi took the drink and felt a little embarrassed.

Moxiu looked around and said, "Yiyi, what's my job?"

'Actually, there's no fixed job,' Oneby said. 'Everyone does the work in this shop together. I'll teach you according to what I understand.'

Moxiu nodded and listened attentively.

One continued, 'If there's nothing else, the two of us can stand at the cashier. You're a boy, so you should help out with physical labor. I'll leave the replenishment to you. If there's any missing goods, you can make up for it. Of course, I won't work less. I'll order the goods before I get off work at night and get off work a little later than you.'

The job was simple. Moxiu immediately began to familiarize himself with the environment and check where the various goods were placed.

With the mental strength of Moxiu's Martial God state, it was very easy for him to remember these things and learn how to pay the cashier. He learned it in a short while and stood at the cashier with Yiyi.

MO Xiu had finished his task and wanted to use one by one as a breakthrough point to understand some things. He did not expect so many people to come down at this time.

Yiyi and Moxiu started to get busy. After more than an hour, the number of customers in the convenience store gradually decreased.

“Take care.”

After sending off the last customer, MO Xiu asked, “Why are there so many customers?”

Yiyi was a little tired at this time, so she didn’t care anymore and drank the drink that MO Xiu bought for her. Novel-B1n was the first platform to present this chapter.

“It was five o’clock just now. Many people get off work at five o’clock. There are only two peak hours in this shop, the morning peak hour and the evening peak hour just now. Let’s pack up and get off work at seven o’clock.”

Moxiu looked at the time. It was already half-past six. Before the next group came to take over, they needed to clean up. It seemed that they would not have the chance to ask some questions today.

After cleaning up, he took out a book and counted the goods.

“Do you need my help?” Moxiu asked.

One said, “There’s no need. I wanted you to learn a little library, but seeing that you’re so smart, there’s no need at all. You can go first.”

MO Xiu nodded and didn’t stand on ceremony.

He still had to go back and see how Bailey and Nong Zhang were doing today..
