

Four Skills 481

Chapter 481: The Three Battlefields Are Different

One month! A month passed.

During this period of time, whether it was the central region, the southern region, the northern region, or the eastern, southern, and northern regions of the wild beasts, all of them were nervously preparing for war. There was only one exception: the western region.

Beast Western Region was the starting gun of the war. As long as he did not move, the beasts of the other regions could only wait, and the humans would have one more day to prepare.

Fox City.

“What should we do now?” Ape asked anxiously. “The beasts from the other regions have been urging us, asking us why we haven’t started the war yet. There’s no news from Tang Wanhua, and we don’t even know if Supreme is real or fake. There are too many uncertain factors now, so we can’t start the war yet.”

Fox smiled and said, “Ape, you’ve changed. Originally, you wanted to try to set up a trap, but you were impulsive in your bones. If you can fight, you definitely won’t delay. Now you know how to consider so much.”

“What are you saying? Do you think that you are brave but not resourceful? Don’t forget that we apes are the beasts with the highest intelligence.”

Hu Buyi swept his gaze with disdain.

“Should we continue waiting?” the ape asked. The humans have been preparing for a long time, and it will be disadvantageous for us to start a war.”

Fox said disdainfully, "I still think that humans are not the strongest opponents. We can't act rashly before we confirm the matter of Supreme. If we started the war and Supreme is still alive, he won't let us go. We can..."

Wild Beast Eastern Region.

The last time Old Snake went to meet the Heaven Devouring Beast, he had met a wall. As he had expected, the Heaven Devouring Beast did not give him any face, but he had not expected it to reject him so readily.

From the looks of it, the Heaven Devouring Beast seemed to be very interested in the human civilization. This was not good news. If the Heaven Devouring Beast stood on the side of the human race, the balance of victory might change.

Fortunately, a month had passed, and there was no movement from the Western Regions. The people sent to communicate with them brought back news.

Fox and Ape said that their control over information was relatively weak and they could not grasp the true situation. They asked the various regions to act according to the situation.

Others might not know, but Old Snake knew best.

The two races in the Western Region were the most intelligent among the beasts, and the arrangement of spies had been carried out since a hundred years ago.

The possibility of suddenly losing control of the central intelligence, most likely the occurrence of something else, only to lead to the western region that has always been actively preparing for war, this month to ease down.

Once the battle started, the Eastern and Western regions would need to cooperate, and the opponents would be in the middle.

The current situation of the snake tribe was that the cat tribe of the eastern region did not want to participate in the war. He did not know what the two guys from the western region were up to.

Old Snake had lived for so long, so he could see through everything, let alone such a simple matter.

As the region with the strongest intelligence, the Western Region would have no problem taking the first shot. If the Snake Tribe were to show up at this time, not only would they attract the attention of the humans, but the wild beasts of other regions might also be dissatisfied.

Thus, Old Snake had given the order that if the Western Regions did not move, the Eastern Regions would not understand. However, he responded conservatively.

Southern Beast Region.

The two races of the Southern Mountain Range were the Phoenix Race and the Elephant Race. They were the two races that complemented each other the most. The Elephant Race was the strongest on land, while the Phoenix Race was the absolute overlord of the sky.

Therefore, the relationship between the two races was very good. The two beast kings often discussed things together.

"Phoenix King, this matter is a little strange!" said the Elephant King."

The Phoenix King nodded in agreement and said," Indeed, it was the Western Regions who said that they would tear up the treaty and attack the humans. They said that the top strength of the humans is declining and that it is a good time for war. However, it has been almost half a year now, and there has been no movement from the Western Regions."

The Elephant King handed a letter to the Phoenix King, saying,""If the Western

Regions don't move, we'll act according to the situation."

The Phoenix King thought for a moment and said, "Those two guys from the Western Region are too sinister. We can't completely believe what they say. However, we are in the southern part of the Human Alliance, which is relatively the weakest. We can test the intentions of the humans."

The two kings hit it off!

Northern Beast Region.

The two races in the north were the bear and the turtle. The relationship between the two races was not good. In the peaceful era of mankind, the two races had been constantly fighting. Even when the Western Region first sent out the news that they wanted to start a war with mankind, the two races did not stop fighting.

This might be the best news in the north of the Alliance. The two enemies were not on good terms.

However, there was also bad news. The two races in the north, the bear and the turtle, were both very strong and had a bad temper.

Both of them were very powerful and did not give in to each other. This was also the reason why the two races had not stopped fighting for many years.

The news of the war between the humans was somewhat useful. The war between the bear clan and the Turtle clan had subsided a little, but there had been no news from the western regions in the past month. The conflict between the two clans had intensified once again.

The Beast Kings on both sides were distressed. They understood the severity of the situation and the order of priority. The conflict between the two races could not be resolved, but the most important thing was to get rid of the humans first, and then the two races could fight however they wanted.

If the Western Regions didn't make a move now, the two races would be consuming themselves. If this dragged on any longer, the two races would enter a decisive battle, and the humans would have a chance to take advantage of it.

The news from the Western Region spread. For the first time, the two Beast Kings of the Northern Region reached a consensus. Since they wanted us to act according to the situation, we would attack the humans first.

Just like that, the style of the three main battlefields was set. The Northern Beast Region launched an all-out attack on the northern part of the Human Alliance.

The north was in chaos, and the Holy City was doing its best to resist the attacks of the wild beasts.

The Southern Mountain Range's phoenixes and elephants adopted a compromise and probing method. They did not attack in full force, but they did not idle either. They always sent small teams to the border to loiter, occasionally causing friction and small-scale battles.

For this reason, the south was on the highest alert and all the forces were mobilized to the border to prepare for the full-scale attack of the wild beasts.

But after that, the wild beasts seemed to have calmed down a lot. They still occasionally probed on a small scale and did not launch a general attack.

The strangest was the central region.

The central region was the strongest, and the enemies they faced were also the strongest. There were a total of four races and four beast kings.

After receiving the news from the south and north, the central region was on full alert and prepared to fight.

But whether it was the foxes and apes of the Western Region or the snakes and cats of the Eastern Region, there was no movement at all.

It was as if what happened in the south and north had nothing to do with them.

At this moment, the most anxious was the North of the Central Plains. The expected scene of the wild beasts attacking together did not appear. The situation of the three main battlefields was different.

The central region was the central region. They should send some reinforcements to the south and north. However, once the reinforcements were sent out, the beast regions would suddenly attack, and the central region would be empty.

If they did not send reinforcements, the pressure on the south and north would be great.

Especially in the north, facing the all-out attack of the bear clan and turtle clan, it was a real war.

The central region couldn't be left alone. Once the northern region fell, the central region would be attacked on three sides instead of two.

Just as Xi Bei was at a loss for what to do, MO Xiu came out of seclusion!

Chapter 482: Shackles

Xi Bei looked at MO Xiu, who had suddenly come out of seclusion, and asked, "Why did you come out of seclusion? The beasts haven't attacked yet."

"I'm asking for reinforcements to the north. Even if the wild beasts take the opportunity to attack us, the north must help us." MO Xiu said with a serious expression. "

Xi Bei waved his hand and said, "Sit down first. Let's talk about this in detail."

After MO Xiu sat down, he said anxiously, "What's there to talk about? We have to support them."

The situation in the north was not good, and Mu Qingyi was in the north at the moment.

If MO Xiu was sitting in Xi Bei's seat, if Mu Qingyi was not in the north, MO Xiu would also think carefully before making a decision.

Looking at MO Xiu's expression, Xi Bei knew what the reason was. The rumors that MO Xiu's girlfriend was in the north seemed to be true.

"MO Xiu, don't tell me you don't know the powerful relationship between them? Reinforcements had to go, but there were too many details to discuss. For example, what kind of strength would they send? How many people? Should they return immediately if they were in danger? That would cause even greater damage to the north. And most importantly, who would bring him there?"

MO Xiu immediately said, "I'll bring the 'same'. As for the rest, I'll listen to your arrangements. You must hurry!"

Xi Bei shook his head helplessly. "MO Xiu, we all have people we care about, just like me. Prince Xi is my son. You don't know, right?"

MO Xiu was stunned for a moment. He never asked who King Duoxi's father was, and no one mentioned it when the others were discussing.

Xi Bei continued, "You also have someone you care about. They're in the north, right?" But this is a war between all of mankind. We can't ignore the overall situation for our own selfish interests, right? I even dared to place my son in the territory of wild beasts for the sake of the fate of mankind."

Although he didn't say it explicitly, this was Xi Bei rejecting him.

MO Xiu was still unwilling to give up. He said, "But this doesn't conflict with me

going to the north. Don't you trust my strength?"

“Hahaha, MO Xiu, I can choose not to trust anyone, so why wouldn’t I trust you? Your status in the central continent is even higher than mine, but you are lying to yourself. You know very well that it is not a good choice for you to go.”

” I think it’s possible. Besides, it’s not always in the north. I...’

MO Xiu was truly anxious. He had never been more anxious than now.

Xi Bei interrupted MO Xiu, “Mo Xiu, anyone can go, but you can’t!” MO Xiu sat there and struggled for the last time. He said, “Why?”

“During the month that you were in seclusion, your reputation in the outside world became even more famous. You were molded into a savior. Even if your strength was not enough, you were still a symbol of the people.”

MO Xiu lowered his head in disappointment. He had never pursued fame. At the same time, he felt that fame was something illusory.

Now that the people were calling him a hero, they might call him a bastard because of a small matter.

In the end, these false titles still became his shackles, trapping him in the royal family and preventing him from going to the north to save his loved ones. “Xi Bei, what if I have to go?” MO Xiu’s tone turned cold.”

This was the first time MO Xiu had called Xi Bei by his full name, and his voice seemed to contain some killing intent.

MO Xiu was not targeting Xi Bei. Xi Bei’s actions were not wrong. It was just that the two of them had different standpoints. MO Xiu was targeting the current him. He had completely gone against his original intentions. He knew that Little Fushun and Elder Tang were in the Beast Eastern Region and that it was very likely that they would fight, but he could not stop them.

The north was in a chaotic battle. With the strength of the northern region of the wild beasts, it was only a matter of time before the north fell.

What was the difference between this and Mr. Tang not saving Li Qing?

MO Xiu didn't want history to repeat itself, not to mention that he wasn't on the front lines. It wasn't because he was tied down by the war, but because he was trapped by his reputation.

This was something that MO Xiu could not tolerate, which was why he said those words to Xi Bei.

Xi Bei was very magnanimous. He was not angered by MO Xiu's impolite behavior. The Xi family seemed to have always been for the sake of humanity.

"Moxiu, I can understand how you feel. I've seen a lot in the outside world this past month, and the central continent can't do without you. Since I've returned to the royal family, I won't let you leave. Don't underestimate my strength, you're still not my match. Even if you win, do you think the manager of the royal family's space will let you leave?"

MO Xiu clenched his fists tightly and did not say a word. He returned to his seclusion.

That's right, even if Xi Bei wanted him to leave, the owner of the royal space, Lao Bai, would not let him go.

MO Xiu hated himself for not having the ability. He returned to the skill training room and started to train with all his might.

One day, I won't be bound by anyone or anything!

Xi Bei sat there for a long time before letting out a long sigh and sending a message.

"Old Li, please go to the north. Your granddaughter-in-law might be there!"

Western Beast Region.

The ape said, "The north is at war, so the south should be coming soon. It's just that Old Snake in the east hasn't made any movements."

Fox said, "Old Snake's family is the most cautious. Otherwise, they wouldn't have lived for so long. Don't expect him to stand out.""

"The current situation is not bad. The central region of the Human Alliance will definitely not dare to support the northern region. When the two boorish men, Bear and Turtle, break through the northern region and attack the central region, we can test whether Supreme is still alive or not."

"Hahaha, you're so smart!"

The two Beast Kings still didn't know that the Supreme in front of his door was actually just a clone of MO Xiu.

Moxiu did not know that his clone's scouting trip to Fox City had actually changed the situation.

The current situation was that the wild beasts were restraining each other, which undoubtedly gave the humans more time to breathe.

During this month, MO Li's arrangements in the Western Regions were basically complete.

The first was Prince Xi.

Wang Xi's strength was enough to make him climb up the ranks for a month. For this reason, he even delayed the progress of pulling his own people into the company.

Within a month, less than ten people joined the company, and dozens of people lived alone in the city.

However, in the end, all his efforts were worth it. Prince Xi became the deputy general manager of the company as he wished.

This was the highest position that Prince Xi could reach. In this position, it was much more convenient to do anything.

Prince Xi did not recruit the remaining dozens of people into his company.

Firstly, it would be suspicious to recruit so many people at the same time. Secondly, it was not very useful to have so many spies in a company.

Prince Xi only accepted ten people, and the rest were recommended to his company or companies in other cities.

With a high point, the next thing to do was not to hoard power, but to set up a big trap. Only then would the power and intelligence ability be stronger.

Prince Xi and MO Li had reached a consensus on this point.

Thanks to this, all the cities in the Western Region had spies. This was the first step to grasp the implementation of the Beastmen..

Chapter 483: Making the Situation Bigger

Prince Xi's ultimate goal was to control the economy of the Beastmen.

The development of the Western Region was very fast, but it was also unstable. As long as he arranged manpower in most companies, he could make Beast's economic system collapse.

The collapse of the economic system meant that the beasts would return to primitive society again, and there would be no order to speak of.

On the other side, Ape 9 City!

Within a month, Nong Zhang relied on his own strength and the continuous addition of powerful subordinates.

He used his fist to create a world.

He had brought Ape 9527's gang from the bottom of the night to the towering tree it was today.

Ape 9527 and the others were extremely touched. Although they were weak, they were the most trusted people in Nong Zhang.

Nong Zhang finally had the strength to sit on the stage and could share a piece of the pie with the top big shots of the night.

Brother Ape Six was among them. The alliance of the two formed a powerful force in Ape 69 City at night.

Nong Zhang thought that he would not have any more chances to fight in the future. After reporting to MO Li, he laughed again.

'Are you willing to stop here?' MO Li asked. Take down the other cities as well."

Similar to Prince Xi's strategy, Nong Zhang had reached his peak in Ape 69 City and was going to make a big deal out of it.

That night, Nong Zhang brought a group of brothers to fight in the neighboring city.

From today onwards, a legendary figure and a growing cross-city gang would appear at night.

Hu Sanba and his gang!

Beast Western Region, Ape City 7.

In a month's time, MO Li had been promoted several levels consecutively. He would challenge the class monitor every week. He would be the small class monitor, middle class monitor, and big class monitor.

Every day was more fulfilling. He ate, slept, and hit a mistress.

The weekly meeting was upgraded by one level, and it was currently in a meeting.

As the class monitor, MO Li was listening to the fourth brother's meeting.

He stared at Fourth Brother as if he was his prey.

Fourth Brother would occasionally glance at MO Li. This newcomer had only joined the military camp for a month, and he would challenge him at the weekly meeting. He would win every time and was now the class monitor. He had never heard of a newcomer who had risen so quickly.

Brother Four was a little nervous. He had fought Ape 2222 the last time and realized that it wasn't simple. However, it was hard to say how strong it was.

He knew that Ape 2222 was a threat, but he didn't expect it to come back so soon.

Fourth Brother was also weighing in his heart. Could he win?

On MO Li's side, she glared at Fourth Brother fiercely.

MO Xiu and MO Li shared the same consciousness. Just now, MO Xiu had suffered a setback at Xi Bei's place and was unable to go to the north. Now, he had nowhere to vent his anger.

From the looks of it, this fourth brother in front of him was quite good.

Fourth Brother had finally finished talking. Now, there was only one challenge left.

Sitting on the main seat, Fourth Brother looked at the six class monitors below. When he saw MO Li, he could see the anticipation in MO Li's eyes. It seemed that he couldn't avoid it.

"The last item of the meeting, I would like to ask, is there anyone who wants to issue a challenge?"

MO Li stood up and raised his hand. "Me! I challenge you!"

He looked as if he was afraid that Ling would run away.

The other five class monitors stood aside. They had heard of this new class monitor. He had not stopped challenging people ever since he entered Ape 7 City. They had expected MO Li's challenge, so they were not surprised.

Fourth Brother was laughing and angry at the same time. This rookie named Ape 2222, did he really think that he would win?

"Fourth Brother, let's begin!" said MO Li.

Fourth Brother knew that MO Li was strong, so he did not underestimate his opponent. He went all out from the start and attacked MO Li first.

MO Li, on the other hand, countered every move and did not fight too fiercely.

In the previous matches, the small class monitor, middle class monitor, and big class monitor had a certain gap in strength with MO Li, but MO Li did not take them seriously.

However, Fourth Brother was different. As a team leader of the combat team, he was one of the stronger team leaders.

His strength was not much different from MO Li's. He could try out his fourth brother's fighting style. It was very valuable.

Therefore, MO Li was not in a hurry to use his strength. He wanted to see how the other party would attack first.

MO Li's lack of strength proved that he was passively defending and did not reveal any flaws.

As a result, Fourth Brother was very depressed. He did not dare to use all his strength to attack and was only testing the waters. This way, he would not be injured, but at the same time, he could not hurt MO Li. The two of them continued to be in a stalemate.

The two of them exchanged dozens of moves, and MO Li made a shocking discovery.

Fourth Brother was using human moves, and it was an ancient martial art that humans rarely used. The wild beast fighting style that MO Li had imagined, like Little Fu Shun, did not appear.

At this moment, Fourth Brother's every move was even more human-like than a human's.

MO Li laughed. He wondered if this was a common phenomenon among wild beasts. If it was, then wild beasts were equivalent to degenerating, and their combat methods were not as exquisite as humans.

In the past hundred years, humans rarely used ancient martial arts. This was because there were some restrictions on the use of ancient martial arts except for those who had pure state skills.

Most experts used military-style moves. Each move was extremely simplified. The way they exerted force might not be as extreme as ancient martial arts, and the changes in their moves were not as varied. However, they were simple and had a better integration with their skills in actual combat.

It could be seen that the wild beast had been studying the ancient martial arts of humans for the past hundred years, and had gradually lost its combat skills.

MO Li couldn't agree with this method of using foreign culture to completely cover himself.

The original fighting style of the beasts and their own were very compatible, but they were all overthrown.

MO Li could understand why they did this. With the mutation, the bodies of the apes and foxes became more and more like humans, so they felt that the human way of fighting was the most correct.

However, they only knew how and why. Many of the ancient martial arts techniques of humans were learned from the fighting methods of wild beasts.

MO Li believed that the most correct way to fight was to add human moves into the original fighting style of wild beasts. That way, the power would definitely be much greater than what it was now.

Moxiu had already put this into practice before. He had learned the fighting style of wild beasts from Little Fu Shun and used it against Bobosai, helping Moxiu to obtain victory in that match.

MO Li felt that it was ironic to see Fourth Brother's practiced moves. Humans had written ancient martial arts into their teaching materials, but they rarely used them. However, wild beasts were actually so skilled in using them.

After seeing through the move, MO Li no longer passively defended. He suddenly changed his attack and attacked with all his might.

Fourth Brother was shocked by the sudden change. He quickly retreated and distanced himself from MO Li, looking at MO Li warily.

Is it about to start?" "Hmm? It's about to end!"

Chapter 484: Further Plan (1)

"It's over!"

Fourth Brother was furious and said, "What nonsense!" I'll teach you a lesson today!"

MO Li didn't waste any words, nor did he like to waste words. He went all out and attacked Fourth Brother!

The two of them fought once again, but this time, both the process and the result were different.

The two of them fought fiercely, but it was one-sided. Fourth Brother was beaten until he could not fight back. In the end, he was pressed to the ground by MO Li.

Fourth Brother, who was lying on the ground, was covered in injuries. He wanted to get up and fight again. It was obvious that he was not convinced by Mo Li.

However, MO Li had changed his previous style of fighting to the death. He advised, "Stop fighting. You know you can't beat me!"

Fourth Brother was stunned for a moment when he heard MO Li's words. He had heard of MO Li's hatred and thought that he would not be able to escape today. He was prepared to fight with his life. He did not expect MO Li to suddenly say such words. It was obvious that he was going to hold back.

With such a good thing, Ling definitely wouldn't reject it. There was no chance of winning anymore, so why should he take this beating?

The difference in strength between the two of them wasn't too great. MO Li was slightly stronger. In a situation where their strengths were equal, the moves and combat methods were the key.

Previously, MO Li had been testing Fourth Brother, but he hadn't really made a move. Fourth Brother didn't know MO Li's moves.

On the contrary, MO Li had a thorough understanding of Fourth Brother's moves, so once MO Li exerted his strength, the battle would end very quickly.

MO Li really wanted to beat up Fourth Brother to vent his anger, but after thinking about it, he decided not to. He could beat up the others as he pleased. He did not need these people.

However, it was different for a team leader. He had been dealing with other departments all year round. When MO Li first came in, he handed it over to the team leader directly. This could be used.

MO Li had infiltrated Ape 7 City to gather intelligence and understand the movements of the army. However, if possible, it was not a bad choice to squeeze more people in!

Therefore, not only did MO Li not hit Fourth Brother, but he also wanted to make him work for him. His strength and position had reached the level of a small captain, but in terms of connections, he was still not good enough. He needed someone to introduce him and Fourth Brother was the best candidate.

Of course, Fourth Brother would not be grateful to the person who had pulled him down from the position of captain just because MO Li did not go all out.

MO Li could tell what Ling was thinking. If there was a chance, Ling would retaliate.

MO Li turned to the other five class monitors and said, "" You have witnessed the result."

"I see it, captain!" The five of them said together."

MO Li waved his hand and said, "You guys can leave!" I have something to tell Fourth Brother! "

Fourth Brother immediately said, " Captain, you're too polite. You're the captain now. You can just call me Little Four!"

MO Li smiled. This fourth brother could immediately adapt to the fact that he had become a class monitor from a small captain. He was a ruthless character.

However, the more ruthless he was, the happier MO Li was.

"Don't, you still have to call me fourth brother. I asked you to stay here because

I want to discuss the cooperation with you."

"What cooperation?" Fourth Brother asked in surprise."

In Ape 7 City, or rather, in all the military camps in the Western Regions, the superiors would never cooperate with their subordinates because there was no need for them to do so. The subordinates would obey their superiors unconditionally.

"I'm still very young," MO Li said with a smile. "The captain isn't my final goal. I still want to go further, but my current strength doesn't allow it."

Fourth Brother said, "If you want to be promoted to the rank of captain, not only do you have to pass the test with your strength, but you also have to be recognized by the head captain and the City Lord. To be honest, your qualifications are a little shallow. Even if you can defeat the captain, there's a high chance that you won't be able to sit in that position."

"Yeah, you understand me very well, don't you?" MO Li nodded. You even asked me what I want to cooperate with."

Fourth Brother's eyes lit up and he said excitedly, ""Are you saying that you want to use my connections to allow you to gain a foothold in the city? When you are strong enough, you will challenge the Great Captain?"

"Not bad! That's why I need your help."

Fourth Brother was excited at first. He thought that this was an opportunity, but after thinking about it carefully, how could this help him?

If MO Li really became the captain, what good would it do him? At most, he would be the original squad leader.

With Fourth Brother's strength, it was very likely that he would be transferred to another team to be the captain. There was no need for him to help MO Li at all.

MO Li could read his brother's mind and said, ""I can share all the resources that your squad leader enjoys with you. When I become the squad leader, you will be the first squad leader. You helped me, and I used your connections. You are also the person I trust the most."

Brother Four looked at MO Li with a puzzled expression. After a long while, he said, ""Can you let me think about it?"

"No problem!"

Where there were people, there would be Jianghu. Even in a place like this where strength was the only thing that mattered, there were still three main divisions, which required favors.

Actually, MO Li didn't want to be a captain. A captain was considered a high-ranking official, and it would be inconvenient for him to do some things.

A squad leader was MO Li's ideal position. The main purpose of getting Fourth Brother to help him was to obtain information and also to contact the city defense team so that it would be convenient for him to arrange people.

After MO Li and Fourth Brother parted ways, he chatted with Prince Xi and Nong Zhang. With their current strength, they were completely capable of directly contacting the City Lord's Estate. It would not be a problem for them to obtain some identification documents.

With the identification and the help of a spy like him, he could place humans in Ape 7 City.

MO Li had not thought of this step when he entered Ape 7 City. However, life was full of surprises. The development of Xi Wang and Nong Zhang had exceeded his imagination.

Even his own progress in the city was frighteningly fast.

After contacting everything, all he needed to do was wait for a phone call!

The call did not come, but a text message came.

MO Li smiled when he saw the short words. The Western Regions had succeeded this time.

"Happy cooperation!"

Everything went smoothly. Even the Beast King seemed to be helping him, delaying the attack on the humans.

Central region, Yan City.

The current Yan City was different from the past. Whether it was in terms of military strength or population, it was not as good as before.

All of this stemmed from a city-sealing order half a month ago.

Yes, Yan City, the capital of the central region, was sealed!

They said internally that it was in the preparation stage to prevent the leakage of secrets.

In reality? Everyone knew what was going on. The people of Yan City were under control.

The Mayor's Mansion and the Yan City Army moved from the center of the city to the edge of the city, as if they were looking at the city.

The announcement said that it was to prevent the enemy from invading, but the reality was that it was much harder to go out than to enter Yan City. Everyone knew that they were not guarding against the people outside the city, but the people inside the city.

Such a move caused a huge uproar. The voices of protest became louder and louder, and they were about to go out of control.

At this moment, a person stood out and calmed the anger of the people.

This person was Mu Mu!

Chapter 485: Mu Qjingyi's Second Skill

Mu Mu didn't represent an individual, but the entire strongest group.

He would set an example by not leaving the city, cooperate with the City Lord, and trust the City Lord.

In the past month, the reputation and prestige of the Strongest Group had reached its peak. No matter what they did, they would respond with a single call.

This was no longer a company. It was the faith and guiding light of the people.

Such a change was completely unexpected to Mu and Cao Fenglin. All the news and public opinion pushed the strongest group to the altar.

Every time they did something, the media would publicize that the strongest group was contributing to all mankind.

Such an outcome wasn't something that MO Xiu wanted to see. Mu Mu and Cao Fenglin were initially stunned and didn't know what to do.

He could brag about the medicinal liquid, but how could doing a very ordinary thing become serving the country and the people?

Even the security department that Zheng Yi's father was in charge of was known as the most conscientious security department in the entire human race.

This confused Father Zheng and Mumu. The security business of the Strongest Group had always focused on service. The price was very expensive. How could they brag about this?

There were too many similar incidents. Mu Mu and Cao Fenglin only found it funny at first. How did things turn out like this?

After that, he slowly realized that something was wrong and began to worry.

With the halo around them, Mu Mu and Cao Fenglin's freedom of movement was restricted.

He was afraid that if he went somewhere and did something, it would be seen and misunderstood by others. There was once when Cao Fenglin bought a popsicle downstairs and was photographed by someone.

After a week of discussion online, the netizens finally came to the conclusion that Cao Fenglin's purchase of popsicles was a hint that humans and beasts were entering a cold war. When he bought heated food, it meant that he was about to start a war.

Cao Fenglin was about to go crazy from anger. Was eating a popsicle so difficult?

Mu Mu and Cao Fenglin's movements were restricted. They didn't dare to go out or accept interviews.

This invisible shackle not only bound MO Xiu, but also Mu Mu, Cao Fenglin, and even the entire strongest group.

The strongest group was originally developing rapidly, but now they had no choice but to stop and develop steadily.

Mu Mu didn't know what was going on in Yan City, but MO Xiu must know about it. Since MO Xiu didn't object, he should come out and comfort the people.

Therefore, Mu Mu came out and the people calmed down.

The people of Yan City had returned to their peaceful lives, but the economy was declining at a visible rate. Many people felt that there was something wrong with the city's lockdown and wanted to leave.

It was possible to leave the city, but the examination procedure was very complicated. There were more than ten procedures and even blood drawing.

Even so, there were still many people who left the city through these procedures.

When the people outside the city heard that Yan City was sealed, no one wanted to enter.

Therefore, the population of Yan City was gradually decreasing, and the economy was suffering a heavy blow.

All of this was the plan that Xi Bei and the City Lord of Yan City had come up with. No matter what, they had to move the core position of Yan City to another place and trap as many spies as possible inside Yan City.

It was easy for Xi Bei to make this decision, but the City Lord of Yan City was different. Yan City was his city. Everything in Yan City was closely related to him, and many things were decided by him.

Before he sealed the city, the City Lord of Yan City had already thought of a series of chain reactions that would follow. The loss of population and economic decline.

However, the sealing of the city was not for him alone, nor was it for the people of Yan City. It was for the entire central continent, and even for all of mankind.

The city had to be sealed, even if Yan City had to be relegated to a second-class city.

Who knew if Yan City would survive this calamity!

At the same time, all the other cities in the central region entered their strongest state of alert. The royal space was almost empty at this moment. All the royal families had come out in full force and headed to the cities they were in charge of. Everything was ready!

The imperial space, the top floor of the Xi family.

MO Xiu, who was in the middle of cultivating, suddenly opened his eyes.

"I've finally leveled up, but...it's still not enough."

Then, he closed his eyes and continued to cultivate in seclusion!

In the north.

The entire northern region was on the move. The turtles and bears in the northern region attacked fiercely, and all the people in the northern region participated in the battle.

It had to be said that the supreme leader of the north, Boboc, had the right strategy. None of the northerners were cowards. They might lose, but they dared to fight!

After the war started, Boboqi went to the Mu family and sincerely hoped that

they could lend a helping hand.

The Mu family was one of the two royal families that did not have any innate skills. Skills were still a very strategic space. If the Mu family was willing to take action, it would reduce the pressure on the north.

The Mu family had many branches, and all of them had decided to participate in the war. Some people had already forgotten that they were from the central continent and had lived in the north since they were young. It was only natural for them to fight for their hometown.

Some people believed that no matter what, this was a war between humans and beasts. It was inevitable and they had to fight. novel.com

No matter what they were thinking, they were still fighting on the front lines.

Including Mu Qingyi!

Mu Qingyi's skill was very practical and very mobile, but it did not have any offensive power.

However, the awakening of her second skill had changed her.

' Skill: Spatial Rift Blade 5

[Skill effect: Summons a spatial blade that can cut through space to form a crack (every attack deals 500 spatial elemental damage).]

[Additional effect: Crack. When slashing out, it will cause a spatial crack. It will ignore the defense and immunity of any target and cause direct damage.]

[Additional effect: Space is stable. The wound caused by the Air Blade cannot be healed. It will automatically heal after three hours.]

[Additional effect: Private. The weapon cannot be used by others.]

[Additional skill: Spatial Turbulence. Able to control the air blade to tear open space (lasts for one second). Able to enter spatial turbulence. Destined location is random.] [Duration: 30 minutes]

“Cooldown time: 3 hours.”

Mu Qingyi’s body’s basic attributes were not bad, but she did not have any status type skills to support her, so her close combat attack power was limited. In the past, she mainly used throwing knives to attack.

However, throwing knives also had a problem. Their attack power was insufficient. When facing experts, especially wild beasts, it was very difficult to break through their defenses.

This skill made up for all of Mu Qingyi’s weaknesses. If she did not have enough strength, the Spatial Blade 5 could ignore her defense and injure her opponent. It was very useful.

The only thing he had to take note of was that this was a melee fight. He had to calculate the cooldown time of a skill and be prepared to retreat at any time so that he would not be in danger.

The additional skill was also very interesting. It could tear open space and enter to a random location. The range of this random location was not mentioned. If it appeared at the bottom of the sea, wouldn’t it be dead?

Mu Qingyi's current state was elegant yet cruel. MO Xiu had never seen her like this before.

Elegance meant that the moves and movements were very elegant.

Cruelty was a must on the battlefield. If you didn't kill people on the battlefield, you would be killed by others.

Mu Qingyi was currently moving about in the battlefield, and every time she appeared, a wild beast would lose its life.

Directly attacking vital points and killing in one blow was Mu Qingyi's cruelty

and also her gentleness..

Chapter 486: Granddaughter-in-law (1)

On the other side, MO Xiu, who was in the Xi Clan, had the urge to go to the north and was currently cultivating.

Suddenly, her phone rang. It was a text message.

Moxiu didn't want to waste his time reading the message, but the sound of the message seemed to have some kind of magic that made him uneasy and unable to concentrate.

In the end, he decided to take a look.

He picked up his phone and opened the message. It was an unfamiliar number with only one message.

“Everything is fine, don’t worry! Don’t return!”

There was no signature, but MO Xiu was extremely sure that it was from Mu Qingyi.

The fact that Mu Qingyi could send a message meant that she was temporarily safe, but it was only temporary.

The number was unfamiliar and he didn’t want to reply to it. The phone shouldn’t be hers, so who could it be?

Could it be that he was the one who picked it up on the battlefield?

MO Xiu was thinking about Hao Ren’s message.

“Beast Southern Region, stop testing!”

A month later.

This month was not peaceful anywhere. The south was in a bitter battle, and the north was gradually showing signs of decline after this month of fighting. It was on the verge of collapse.

The support team sent by the central continent was also fighting hard at the front line.

Such a scene had happened today.

Li Xin was leading the imperial family in a battle.

Li Xin was very strong, but his talent skill team was difficult to be compatible with others.

Most of the time, he was the only one who charged forward with his weapon and fought the wild beasts.

Li Xin might have an easier time fighting other wild beasts, but her opponents were bears and turtles. Even if they were silenced, their size still had an advantage.

The bear's body size did not change much from before the mutation, but its basic attributes had doubled. Fortunately, Li Xin's body was stronger than the bear's.

Tortoises were different. Tortoises were huge, more than twice the size of bears. Even if they were silenced, the defense of their shells was amazing. Li Xin found it difficult to deal with them.

It was very difficult to fight with pure physical strength between wild beasts. Li Xin had also figured out his own fighting style, which was to switch.

First, he would use his innate skill to silence the surrounding wild beasts. After fighting for a while, when he was tired, he would turn off his innate skill and use his own four skills to fight the enemy.

Li Xin's threat might have been reduced without the help of her innate skill, but her basic attributes were there. After the enhancement of her skill, her combat strength was quite impressive.

The constant switching of combat styles could relieve fatigue, cooperate with teammates, and make the enemy defenseless.

The battle continued. Li Xin was in a state where she had retracted her innate skill. There were two generals on the other side. Li Xin felt that it was a little difficult, so she released her innate skill and fought with the two generals.

At this moment, a woman entered Li Xin's silent range and looked around in surprise.

Seeing Li Xin tear the bodies of the two beast generals into pieces with brute force, he couldn't help but cover his mouth.

After Li Xin killed the two beasts, she was in a good mood. She turned around and saw the woman.

Li Xin said, "Little girl, go away. This is the range of my skill. I will silence you."

The woman said, "I'm sorry. I was just passing by. I didn't wake up and affect the senior's battle. I'll leave now."

Li Xin sized up the woman and stopped her when she turned to leave.

"Miss, wait!"

The woman turned around and asked, "Is there anything else?"

"You don't look like a northerner to me. Are you from the central continent?" "To be precise, I was born in the north, but I'm from the central continent." Li Xin became interested and asked, "So, you're from the Mu family?"

"Senior, are you the people from the central continent who came to support us?"

You know about our Mu family?"

Li Xin asked anxiously, "Of course I know. The Mu family used to be a royal family. Although I've never seen the Mu family, I've been mentioned by the elders since I was young. May I know your name?"

"Oh, sorry for being rude. Junior junior Mu Qingyi greets senior."

The woman was Mu Qingyi. She had just teleported to this area during the battle and realized that she could no longer use her two skills. She had also seen Li Xin tear the two Beast Generals apart with her bare hands. She was shocked and stopped for a while.

When Li Xin heard Mu Qingyi's name, she started to laugh loudly, laughing casually.

“Hahahaha, hahaha, I’ve finally found you. You’re Mu Qingyi!”

Mu Qingyi was a little confused. She did not know this senior in front of her. She did not have any acquaintances in the imperial family of the central region, so why was this senior smiling like that?

Li Xin seemed to have noticed the confusion in Mu Qingyi’s eyes as she explained, “I’m sorry, I was too excited just now. The other reason I came to the north this time is to find you.”

“Looking for me? I don’t understand.”

“What’s there to not understand? You’re my granddaughter-in-law.” Li Xin smiled. ”

Mu Qingyi widened her eyes and said in disbelief, “What do you mean? Granddaughter-in-law.”

Li Xin straightened her body and said proudly, “Mo Xiu is my grandson. My name is Li Xin.”

Mu Qingyi obviously did not think of this. The last time MO Xiu came to look for her, he did not mention that he had a grandfather, so she had not thought about it that way.

When she heard Li Xin say this, Mu Qingyi’s face instantly turned red as she said, “So that’s how it is. Junior greets Grandpa Li.”

“Eh? What grandfather? You don’t have to call me grandfather. You can just call me grandfather like MO Xiu.”

Mu Qingyi’s face was flushed red. She had thought that she would meet MO Xiu again after the war ended, but she did not expect to see MO Xiu’s family suddenly.

“Then...

Mu Qingyi was a little conflicted. It was a little embarrassing to call him Grandpa like this, but if she did not call him that, she would be ruining the old man's reputation.

After hesitating for a while, Mu Qingyi still called out.

"Grandpa!"

"Hahaha, good, good child!"

Li Xin laughed loudly in the battlefield, causing the wild beasts to charge over angrily. Li Xin turned around and fought the beasts alone, forcing the wild beasts to retreat.

In fact, Li Xin was already tired, but now that her granddaughter-in-law was watching, she couldn't lose face. No matter how tired she was, she had to hold on.

After forcing the wild beast back, Li Xin walked back to Mu Qingyi's side and said, ""Child, if it weren't for you, I wouldn't have come."

"Why?" Mu Qingyi asked.

Li Xin told him about the conflict between MO Xiu and Xi Bei in the office. Of course, the old man also had his own selfish motives. When he saw such a beautiful and outstanding girl, he definitely wanted MO Xiu to take her down. He also added some embellishments.

He said that if it wasn't for the fact that they were blocked, the two of them would have started fighting. The other party was the most powerful commander of the royal family.

In any case, it was a matter that had a representative, adding to the legend.

In reality? At that time, Li Xin was not even present.

However, Mu Qingyi did not know the truth, and she would not think that Li Xin, MO Xiu's grandfather, would add fuel to the fire.

After hearing this, she was extremely touched. She thanked Li Xin for not letting MO Xiu come. If MO Xiu had come, she would have become a sinner..

Chapter 487: Obeying Your Command

The beast's attacks gradually slowed down and slowly retreated. They probably would not fight again today, so Li Xin and Mu Qingyi chatted as they walked.

Li Xin was very old, but she was not an old-fashioned person. She usually did not like to chat with her two sons. She liked to chat with young people the most, such as Li Ling 'er and MO Xiu. Of course, there was one young person who was an exception, and that was Li Chong.

Old Master Li Xin had always disliked chatting with Li Chong. He felt that Li Chong was too calm and didn't seem like a young man.

After chatting with young people for a long time, she was good at chatting with them, and she was chatting quite well with Mu Qingyi now.

Mu Qingyi felt warm in her heart when she faced such an understanding grandfather, and she told him all her difficulties.

His view of this world, his view of his freedom being restricted in the northern regions, and his relationship with Moxiu were very deep. It was because of this deep relationship that he did not return with Moxiu the last time he came.

Li Xin only knew that Mu Qingyi and MO Xiu were in a relationship, but she did not expect that there would be so many things involved. It was enough to make things difficult for MO Xiu and Mu Qingyi.

Li Xin let out a long sigh and said, "You've suffered. Both of you are good children. There's nothing wrong with you. However, this kid MO Xiu is not like my Li family in this aspect. He should carry such a good wife back."

Mu Qingyi was amused by Li Xin, and her mood improved a little.

After chatting for a while more, Mu Qingyi said that she was going back. If she did not go back on time, she would be questioned again.

Li Xin stopped Mu Qingyi and said, "Wait!" "Don't you want to see MO Xiu?"

Mu Qingyi subconsciously said, "Yes!"

Li Xin immediately took out her phone and called MO Xiu.

On the other side, in the royal space.

After two months of training, MO Xiu's skills had leveled up. However, MO Xiu felt that it was not enough. He had to make full use of his time to train.

Just as he was cultivating seriously, his phone suddenly rang. It was a video call.

During this month, Moxiu had told the others not to disturb him unless they had something important to report. Therefore, no one had contacted him except for Hao Ren, Wang Yu, and Xi Bei.

MO Xiu really couldn't think of anyone who would video call him.

He picked up his phone and saw that it was actually his grandfather, Li Xin. That's true. Other than him, who would call him directly?

However, she didn't know why her grandfather had sent the video at this time. Didn't he go to the north to provide support?

"Kid, what have you been busy with recently?" Li Xin asked after picking up the video call. She didn't have much time to chat with her grandfather."

MO Xiu's heart ached when he saw the old man's figure. He could tell that his grandfather was exhausted.

Grandpa, I've been in closed-door cultivation recently," MO Xiu said." I'm ready to fight at any time. How are you doing over there?" How's the situation?"

"How can you not know the situation of the battle?" Li Xin said in a strange tone. You have so many channels of information."

"Isn't this just a show of concern for you? You have to ask, right?"

Li Xin waved her hand and said," Don't worry about me. I'm fine, but you haven't improved recently.

"Work hard!"

"As long as you know how to work hard, don't let Mr. Tang down."

Moxiu nodded and said somewhat embarrassedly,"" Um, Grandpa, you've been in the north for so long. Have you seen..."

Li Xin reprimanded, "You brat, you want to ask that girl Mu Qingyi, right?" If you want to ask, just ask. Why are you so shy?"

"Yeah, have you seen her before?" Moxiu nodded and admitted."

“She’s fine. Don’t worry.”

“Oh? Grandpa, have you seen her?”

There was no response from the other end of the video call, and the camera went black.

Just as Moxiu was feeling puzzled, the camera lit up, and a figure that he had not seen for a long time appeared on the screen.

Who else could it be but Mu Qingyi?

Not being able to go to the north to support Mu Qingyi was something that MO Xiu had been brooding over the most recently. He was a little excited to see Mu Qingyi now.

“Qingyi, how are you doing over there?”

Mu Qingyi was also a little excited when she saw MO Xiu and did not speak for a moment.

MO Xiu’s heart that had been on tenterhooks was finally at ease. Mu Qingyi was fine.

Mu Qingyi really wanted to chat with MO Xiu for a while longer, but when she looked at the time, she was about to go back, so she could only say a few simple words.

“Moxiu, you don’t have to worry about me here. You should know my skills, so there won’t be any danger. Don’t make me worry. I heard from...um...grandfather that you’ve gotten into a conflict with the leader of the royal family because of me.”

“Grandpa?” fre(e)

MO Xiu laughed strangely as he looked at Mu Qingyi.

Mu Qingyi's face turned red again.

"Did you hear what I said?" Mu Qingyi pouted.

MO Xiu smiled and nodded repeatedly. "'I know, I know. The premise is that you must be safe."

Mu Qingyi looked at Li Xin beside her and said to MO Xiu, "'Moxiu, I'm leaving now. Let's keep in touch when we have time. You were too reckless last time. If it wasn't for Grandpa stopping you, would you have fought with him? It's all thanks to Grandpa that you didn't cause trouble! I'm leaving. Yes, I miss you!"

MO Xiu wanted to say a few more words and ask why his grandfather was stopping him. However, Mu Qingyi seemed to be a little anxious as she immediately put down the phone.

Li Xin took the phone back. MO Xiu asked, "'Grandpa, when did you stop me? It's all thanks to you that I didn't get into trouble."

Li Xin stammered, "Aiya, why are you asking so many questions? I just finished my battle here. I'm going back to rest. Bye!"

Before Moxiu could say goodbye, the other party hung up.

MO Xiu thought to himself that this old man must have made up some story.

However, Moxiu wasn't worried. That was his biological grandfather. He wouldn't do anything that would harm him.

MO Xiu had just put down his phone when it rang again. He picked it up and saw that it was a message from his grandfather.

“Brat, this lady Mu Qingyi is not bad. She has sacrificed a lot for you. I agree to your relationship, so you better treat her well too, understand?”

MO Xiu replied.

“Understood, received! That’s my wife.”

“The leaders of the north use the Mu family to fight, but they are still a little strict with their management. That girl is in a hurry to go back because she doesn’t want to cause trouble.”

“Grandfather, I’ve been in a long-distance relationship with Mu Qingyi for a long time.”

“What do you know! “Also, don’t worry about the matters in the north. With me around, no one can hurt my granddaughter-in-law. I’ll take care of this place. You can cultivate in peace and do what you should do.”

His grandfather’s words warmed MO Xiu’s heart, and he didn’t know what to say.

“Understood!”

Chapter 488: Exposed

Western Beast Region.

With three forces working together, Prince Xi became a true business elite, deciding the fate of many cities.

Prince Xi was a member of the Imperial Family. Financial matters were not his forte and he had no experience.

However, there was not much connection between the position and the related abilities. Instead, it was more dependent on one's own strength. Prince Xi could easily obtain a high position.

Prince Xi did not have any financial experience, but Mo Xiu did. Mo Xiu knew many things about the strongest corporation. When it came to business, it was all about insight into people's hearts and the use of information.

Mo Xiu had taught Mo Li many things, allowing Xi Wang to have a smooth journey and reach his current position.

At this time, Xi Wang could control more places than farming chapters because the economy was connected to all the cities, so it was easier to reach out to other places. However, the world at night was different, and he needed to fight step by step.

The development of the farming chapter was also relatively smooth. They had taken down all the cities around Ape 69 City. When they wanted to further develop, they were stopped by MO Li.

There was no order in the world at night, but when one's power reached a certain level, they would still be noticed by people on the surface, such as the City Lords, or the Beast Kings.

At this moment, the Three-Eight Gang of Nong Zhang was spread across a very wide area. They occupied a quarter of the entire Western Region. If they continued to develop, it was very likely that something would happen. It was enough!

Nong Zhang had been enjoying himself for the past three months. He had been fighting with different people every day, like a wild horse that had escaped its reins.

He was suddenly stopped by MO Li and could not continue developing. He felt a

little uncomfortable and repeatedly discussed it with MO Li.

In the end, MO Li still used the overall situation to suppress Nong Zhang. Maintaining the current situation was the most beneficial for mankind.

Even if Nong Zhang loved to fight, he was still a member of the royal family and a human. He could not do anything that would harm humans. This was the bottom line.

On the other side.

Inside Ape 7 City.

During this period of time, MO Li had made use of her identity as a squad leader and Fourth Brother's connections to make friends with many people.

The main focus was on the members of the city defense team. They had a lot of power and were responsible for defending the city, recruiting new members, assessing new members, assigning new members, and other related matters.

This was exactly what MO Li needed. A month ago, MO Li contacted Prince Xi and Nong Zhang. The two of them contacted the people in the City Lord's Estate in their respective cities and created a large number of identification documents.

MO Li used this month to arrange for a large number of his own people to enter Ape 7 City.

Now, Moxiu's people were all over Ape 7 City, from the position of class monitor to the ordinary members.

Furthermore, they used the frequent exchanges between the various cities to send their own people to the other cities.

Of course, MO Li didn't put all his eggs in one basket. After having proof of identity, Ape 7 City wasn't the only place to stay. Many people went to the other top ten cities alone to take the assessment. Every top ten city had at least one spy.

Except for Ape City and Fox City.

At this moment, MO Li's arrangements in the Western Regions had already surpassed the arrangements that the beasts had made in the central region for the past hundred years.

This result was due to Motheo's precise operation and the fact that wild beasts did not have the habit of guarding against humans. They believed that humans could not live together with wild beasts.

They had underestimated the endurance and adaptability of humans.

In the conference room.

MO Li's position was still that of the squad leader. At this moment, the squad leader was having a meeting.

"This is a direct order from the City Lord. Immediately prepare the army to set off for the border."

MO Li was shocked.

However, the news was a little sudden. There was no sign at all, so it was difficult to tell if it was true or false.

MO Li thought about it again. If he spread false news throughout Ape 7 City, it would affect the morale of the army. Would the Beast King be so stupid?

Thinking of this, MO Xiu, who was in the royal space, immediately contacted Xi Bei and made preparations for battle.

It was better to believe it than not. If it was really a surprise attack, humans would be heavily injured.

Xi Bei's side also paid great attention and immediately increased the number of people in the designated positions to be on guard.

The next day, there was no movement from Ape 7 City's army. It was as if they had forgotten that they were going to the border the day before.

On the third day, there was still no news. MO Li's position was still unknown to the higher-ups. It could be a trick, or it could be that the army for the surprise attack was handed over to the other top ten cities. At this time, they could not let Xi Bei retreat. They still had to observe for a while.

On the fourth day, there was nothing wrong with the world.

On the fifth day, Ape City's general assembly! It was held in the city center square.

It was finally about to begin. It seemed like the surprise attack was real. Everyone was gathering and setting off.

MO Li brought all the members of his team to the central square. From afar, he could see a person standing at the very front. Surprisingly, the main component of the 7th Ape City was the top scorer. The core combat team consisted of six teams. Four of them were the robust ape team. The remaining two teams were the fox team and the thin ape team.

At this moment, the person standing at the front should be the City Lord. MO Li had not seen the City Lord in the two months he had been here.

From afar, it was clearly a thin ape. A thin ape was ruling over an army of strong apes. It seemed that it was very powerful.

When all the members of Ape 7 City arrived, MO Li realized that something was wrong.

Logically speaking, if they were to prepare for a surprise attack, they should have gathered the members of the Combat Corps and some of the Service Corps.

However, looking at the current situation, it was not just that. The combat team and the service team had all arrived. Even the city defense team had only left some of the necessary city defense personnel. The rest of the people had come. This situation was not right.

Either they had to leave an empty city behind, or...

Hopefully, it wasn't what MO Li had imagined.

Everyone was present. When the City Lord said the first sentence, MO Li knew that something was wrong!

"I'm very disappointed ! "

"I've always thought that our 7th Ape City was an iron plate that would not have any problems. I didn't expect that out of so many cities, only our 7th Ape City would have an accident!"

"A month ago, the Beast King summoned all the top ten city lords for a meeting. At the meeting, it was clearly pointed out that the previous information leak was not taken seriously. At that time, a large number of information leaks began. There must be a traitor in the Western Region, and a lot of confidential information was leaked."

Following that, the City Lord told him the details of the matter.

This was really a trap set up by the Beast King. Now that the City Lord had told him the details, it was to avoid affecting the morale of the army.

After all, he had spread such a big lie in the entire city. If he did not explain, the soldiers would definitely complain.

The news that the entire army was going to attack was fake. It was for the spy to report it. Even if the spy had doubts about this news, he would definitely report it back.. The central region would definitely react because the matter was too big!

Chapter 489: sigh! What an Act

This was the Beast Kings 'plan.

The news wasn't released at the same time. The news was carried out one by one in each city. The time and location of the surprise attack were different in each city.

In this case, as long as they sent people to pay attention to the situation at the border, they could see which area the humans would react to and when they would react. They could then lock onto which city had a traitor.

Moreover, the plans of all the City Lords were the same. The news did not reach everyone's ears, but reached the small captain. Even if it was leaked, not everyone would know in a short period of time.

This was also the reason why the spies that Moxiu had planted in the other cities did not give him any information.

The spies were all new to the organization, so the number of people they could come into contact with was limited. Their positions were not high, so it would be difficult to get any information.

When they found out which city the traitor was in, all the City Lords would just have to come out and explain it to them like the City Lord of Ape 7 City.

However!

Even if they did so well, it would still leave a hidden danger of instability in the morale of the army. If they could not catch all the traitors this time, it would leave a huge hidden danger.

When it was Ape 7 City's turn to carry out the mission, it was already nearing the end. In other words, all the top ten cities had experienced the same thing.

The morale of all the cities had been affected. This was the only good news that MO Li had heard.

After the City Lord explained the ins and outs of the matter, he continued," From today onwards, Ape City will be sealed off. Fox City 4 and Fox City 6 will arrive in three days to assist us in our investigation. The first batch of investigation targets will be the captain, then the captain, and then the captain. We will investigate from top to bottom, focusing on the members who have been in the city for the past four months."

"I could have delayed it for three days and waited for the people from the other two cities to come before investigating, but I want to give you a chance. No matter who you are, you have been here for so long. I can promise you here that as long as you confess, I'll guarantee that you won't die."

"From today onwards, until we find the traitor, no one is allowed to go out. All training will stop! Dismissed!"

All the captains stayed behind. The city lord and the three head captains had to investigate one by one.

MO Li immediately gave his team a lesson with a serious expression.

"Did you all hear what happened?"

The class leaders led by Fourth Brother said,"I heard it!"

MO Li looked at Fourth Brother and said," I followed the instructions of my superiors and didn't tell any of you about this matter. I believe that you are not suspicious, but you can't let your guard down. You must carefully observe all the people and things around you. Whoever can find this traitor will be the hero of the entire Ape 7 City."

The few of them nodded and prepared to go back to the meeting to convey MO Li's instructions.

Everyone else had left, leaving only Fourth Brother behind.

The only person MO Li had told about this was Ling! This was also MO Li's backup plan.

The higher-ups said that they could not spread the news, but it was impossible to not tell anyone. He might as well tell Fourth Brother. It could reduce the risk for him and also show his trust in Fourth Brother.

Fourth Brother was very happy when he heard the news. He felt that he had not followed the wrong person. MO Li had told him such an important secret.

At that time, he was pleased with himself, but now, he was miserable.

"Second Brother, I didn't..." Fourth Brother leaned closer to MO Li and said. MO Li interrupted Fourth Brother and said, "Let's talk when we get back!"

After returning to his residence, Fourth Brother immediately explained, "Second brother, I didn't spread this matter, so I can't be a spy!"

MO Li frowned and knew what she was thinking. Fourth Brother was afraid that MO Li would expose him, so he pulled MO Li's leg and said, "Second Brother, you can't tell your superiors about this. Otherwise, I'll lose a layer of skin."

MO Li shook off Fourth Brother and said, "What are you afraid of? You've been a squad leader for so many years, and you're already panicking over such a small matter? I'm the one who spread the news. I'm not afraid, so what are you afraid of?"

"How can I not be afraid?" Fourth Brother said with a forehead full of sweat. I know about this matter. After the investigation and interrogation, even if the higher-ups don't do anything to me, I can't keep my position as the class monitor!"

"What are you afraid of?" MO Li asked. I was the one who told you, not you. freewebno(v)el

You're so afraid because you told someone else!"

Fourth Brother looked at MO Li in horror and did not say anything for a moment.

MO Li stood up and grabbed Fourth Brother, who was retreating, and said, "Tell who? Quickly tell me!"

Fourth Brother was a little scared. MO Li was really angry this time. She didn't say anything and just shook her head.

MO Li pressed Fourth Brother against the wall and said, "Why didn't you say anything? Don't you understand the current situation? I'm in the same boat as you. My responsibility is greater than yours. If you don't tell the truth, we can only wait for the investigation to come. Do you know what the consequences will be if we find out that you're lying?"

Fourth Brother was a smart person. If the investigation was fruitless and the mole did not come out to admit it, the final possible action of the higher-ups was to execute all the suspects.

Lying was suspicious. It was impossible for Fourth Brother not to know the truth.

After a fierce mental struggle, Fourth Brother finally confessed.

It seemed like MO Li would tell the truth when the higher-ups investigated him. If they investigated his fourth brother, he would die if he didn't tell the truth. It was better to tell him and everyone would think of a way together.

He immediately wrote down a list of all the people he had spread.

MO Li took it and took a look. Good heavens, this fourth brother was really not a kind person. The people on this list were almost everyone he knew.

In other words, after MO Li told Fourth Brother the news, Fourth Brother immediately found everyone he knew and started bragging.

MO Li punched Fourth Brother in the face. On the surface, she was furious, but in fact, she was overjoyed.

This fourth brother was really a good teammate. With so many people knowing the information, it would be difficult for the City Lord to investigate. He could also use the people on the list.

The more chaotic the situation was, the safer MO Li would be.

He felt bitter in his heart too. In the past, similar incidents had happened. The news had reached the squad leader, and the higher-ups had clearly said that they could not tell anyone else. However, in at most a week, the news would be sent out. There was no problem at all.

In this month, Fourth Brother was already depressed. He had changed from a small captain to a big class monitor. Many people around him had also distanced themselves from him.

It wasn't easy to get information that others didn't know. How could Fourth Brother not brag about it? Who knew that he would encounter such a thing?

Now, he might be the one who spread the news the most. Even if he was not suspected, his superiors would lose trust in him.

Chapter 490: Panic (1)

Fourth Brother did not complain at all after taking this punch. He knelt on the ground and said, "Second Brother, I know I was wrong. Please save me on account that I've helped you a lot this month!"

MO Li kicked him away again and said angrily, "Save you? I can't even protect myself now, and I still have to save you!"

Fourth Brother knew that MO Li was his only life-saving straw. He had to grab hold of her.

At this moment, he crawled over and said, "You must have a way, right? You're so promising at such a young age. The higher-ups will definitely treat you lightly.""

MO Li held his forehead with both hands and squeezed out a sentence from between his teeth.

"Go and find everyone on the list. Wait for me in the meeting room. Now, we can only find everyone who has spread the news from you and me. When the higher-ups come, they will take the initiative to explain and actively cooperate with the investigation."

Fourth Brother scrambled to the door and turned to MO Li. "I'll do it now!"

MO Li immediately took out his five phones and sent messages crazily.

He really didn't expect that he would be tricked one day, and by a wild beast at that.

However, there was nothing he could do about this outcome. Beast had spent a lot of money to catch the traitor. It was too difficult for MO Li not to fall into his trap. Now that Beast had locked his target on Ape 7 City, the longer he waited, the easier it would be for him to be exposed.

The other two top ten cities would arrive in three days. If there was still no progress after that, the Beast Kings might be alerted.

Thinking about the Fox King's shocking charm skill, MO Li felt a chill down his spine.

He had to make arrangements as soon as possible and think of a way to dispel his doubts.

At this moment, MO Li was communicating with Prince Xi, Nong Zhang, and some people who were in direct contact with him. They immediately reacted and took precautions.

As he was sending, MO Li stopped, as if he suddenly thought of something.

Even if he could dispel his suspicions, what about the other brothers in Ape

These brothers' identification cards came from Nong Zhang and Prince Xi's cities. If Beast investigated carefully, he might be able to trace them back to Prince Xi and Nong Zhang. If that happened, all his previous efforts would be in vain.

The huge intelligence network established by MO Li in the Western Beast Region was very successful, but at the same time, there was the danger of triggering the whole situation.

Since that was the case, he needed to change his way of thinking and tactics.

If you can't protect yourself...there will be many tactics!

MO Li smiled as she thought about it.

An hour later, Fourth Brother rushed over and filled the meeting room with everyone.

MO Li sighed again in his heart. Fourth Brother was really a f * cking talent!

The content of the meeting was very simple. It was to find out who these people had told and write down the list.

At first, some people were unwilling. MO Li repeated what he had said to Fourth Brother. After everyone understood the seriousness of the matter, everyone wrote down the list and handed it to MO Li.

When he received the list, MO Li was stunned. This list was not only spread among the combat division, but also among the service division and the city defense division. Some even told their relatives.

It was really unexpected. In the beast society, information spread faster than humans. They really couldn't control their mouths.

MO Li couldn't help but smile.

Everyone on the field saw this and thought that MO Lishi was angry. They apologized to MO Li together, hoping that this squad leader could save their lives.

MO Li only did two things. First, he made the name list public. He didn't hide anything. When the higher-ups came to investigate, they could say that they were investigating openly.

The second thing was to get them to immediately go back and have a private meeting. Gather all the people he had told and have a similar meeting to investigate. When the higher-ups came to investigate, they would take the initiative to hand over the name list. They would be able to gain a reputation for actively cooperating with the investigation. At that time, everyone would be rewarded.

Everyone believed it and went back to gather the staff for a meeting.

MO Li was flipping through the name list when Fourth Brother asked, "Second brother, what should I do now?"

MO Li threw the name list to Fourth Brother and said, "You sort out all the names, I'll go sound out the captain."

Everything that MO Li said during the meeting was nonsense. None of it was true, but no one doubted it.

The reason was very simple. They were afraid. They were afraid after knowing the pros and cons. That was why they believed MO Li when he said those words.

If it was someone who was not involved, it would be easy to find the loopholes in MO Li's plan.

How was it possible to find everyone? It was something impossible in itself.

There were so many people, and MO Li couldn't control everyone. They would write a list, so there must be someone they wanted to protect.

Also, the human-to-human transmission was too fast. It had been so many days since the incident. It might have spread far away, or it might have spread to the entire Ape City. It would take a long time to find out the truth.

Also, when the higher-ups came to investigate, what would be the use of MO Li handing over the list? Would it reduce the trouble for the higher-ups?

On the contrary, it would increase the difficulty of the higher-ups' investigation because no one could guarantee the accuracy of this list. The higher-ups would not believe it. Moreover, with this list, it would mislead the higher-ups and confuse them.

Even though MO Li's lie was full of loopholes, these people still believed it and treated MO Li as a life-saving straw.

What they didn't know was that MO Li wasn't their life-saving straw. He might even be a poisonous weed.

MO Li walked out of the meeting room and returned to his room. He took out a piece of paper and wrote a string of names on it before putting it in his pocket.

In the central square, the city lord and the head captain had already checked all the captains. No one was suspicious.

In fact, the captain was the least suspicious. Every captain was carefully selected. Moreover, no one had been promoted to the position of captain in the past few months. They were all old and trustworthy.

The captain was eliminated as a suspect. Next, the captain became the main force and went down to screen. Of course, the city lord and the three head captains would also follow.

The captain of the 6th Battalion, the Combat Team that MO Li was in, hurried back to his office.

There was a very suspicious person in their brigade. They had to investigate him first. That person was Ape 2222.

Ape 2222 was still a newcomer. The time he entered Ape 7 City coincided with the time the information was leaked. He was also very strong. In just a month, he had been promoted to the position of team leader, which happened to be the most suspicious position.

Back in the office, the captain picked up the phone to call Ape 2222. Just as he was about to dial the number, he saw a note on the table.

He put down the phone and opened the note in confusion. It was written that an anonymous report had been made. A squad leader of the Third Brigade of the Combat Corps was suspicious and had gathered in private..
