

## Gacha 1141

### [Chapter 1141 - Reunion](#)

"It's been a while, Kyle, Stina, Ellen." Lin Xingzhi smiled.

"Yes." Kyle nodded with a smile. "Where is Master?"

"Alex is still in his practice. He probably needs another year to come back."

"I see, but I think this one is pretty urgent." Kyle's expression turned serious. "Do you know where we went during our trip?"

"Hmm? I didn't keep tabs on you, so I don't know. Though, I have updated your information from time to time according to your report."

"We had gone to a certain star where we saw so many phoenixes hiding on the surface of the star, cultivating by hopping from one star to another. We properly checked and tried to follow them as it became one of the reasons why we could get this strong so soon."

Lin Xingzhi stood up in shock and asked again, "What did you say?"

"As I said, we have found where the phoenixes are hiding. I have heard about Master's story on our trip, so I can somehow understand what he wants. That's why I believe that this information will bring happiness to both you and Master."

Lin Xingzhi facepalmed and remembered Alex's message. "Since it's not possible to handle their God Kings, he wants to strike the army to reduce their overall strength. At the same time, it's perfect to see them away from the Phoenix Goddess who controls a few Divine Worlds.

"And with Alex spreading the rumors about her being a traitor, he managed to suppress them a little bit. In other words, this would be the perfect time to strike them." Lin Xingzhi contemplated for a few seconds before returning to manage the system, relaying the message to Alex.

On a certain planet, Alex opened his mouth in surprise when he read it. "You sure?"

[Yes. To avoid being found out, I suggest that we only mobilize Eulja.]

Alex took a deep breath and decided. "Alright. Let me return to Eulja first. What's their number?"

[Fifty thousand God Rank Experts.]

"Prepare ten thousand God Rank Experts. Call the Guardians and Elemental Gods along with Anna and Jeanne. Also, don't forget about Anya and Aria. We are setting up a war council to wipe the phoenixes out of the picture."

[Understood.]

As soon as he finished the conversation, he looked up and smiled. "Kyle, huh. It's been a while."

A Teleportation Array appeared beneath his feet and sent him away from the planet.

It took another day for him to arrive, but this became a precious time for him to think about his course of action.

As soon as he returned to Eulja, Lin Xingzhi had been waiting for him in front of the Garden.

They went straight to the war council, where the meeting would happen. As expected, everyone had been waiting for them. Even Anya had set up everything and prepared to tell the plan.

Alex took the front seat and looked at all of them with a serious expression. "We can't afford to waste a single moment because they may pick it up or something. Hence, I'm going to attack them before they can run away."

"How?" Aria tilted her head in confusion as she couldn't see a way to kill all the phoenixes without being found out. She knew that a few thousand would likely survive this attack.

Alex smiled and answered her. "Quality beats quantity."

"Still, even if we bring the Commandants, it's still not sure we can kill all of the phoenixes." Aria shook her head, rejecting his claim.

"Who says I will bring the commandants? I literally ask for help from those who have been angry at the phoenixes since ancient times. He has hidden their hatred for too long, so I'm thinking about unleashing it." Alex made an evil smile as he could already foresee that those guys would actually use more than a hundred percent when the battle started.

Anya then realized and took a step back. "Are you serious?"

"It's time for them to show themselves to the universe." Alex smiled. "Comprising ten Rank 2 Gods, they are the strongest ally for Eulja at the moment. Ten God Beasts!"

The entire room fell silent as they never thought that Alex was far crazier than Anya.

Aria couldn't help but comment. "This means we have twenty-one Rank 2 Gods and three God Kings along with ten thousand God Rank Experts. If this doesn't work, we better surrender since the battle ahead will be too dangerous."

Alex nodded in agreement and added. "Also, I think my fire can suppress them. In fact, I can suppress Roy, so I think we can lower their number in a second. All of you can deal with the rest of them."

They looked at each other and nodded their heads in succession, agreeing with Alex's plan.

"Also, ask Kyle, Stina, Ellen, Firia and Sherry. I have something for them." Alex nodded and then left.

The others could only shrug their shoulders, leaving everything to Lin Xingzhi.

After that, Lin Xingzhi took over the meeting and told them a few things about the details.

Aria and Anya planned everything according to Alex's instruction and worked it up as they decided to attack them in three days.

Alex waited for the five of them in the garden as he gradually opened his eyes when the three arrived. Surprisingly, Silvia came along with Sherry because she seemed to have a matter of importance.

"What are you doing here?" Alex asked in confusion. "Do you need something from me?"

"Yes. I need you to lie down a bit." Silvia nodded with a serious expression.

"Lie down? Ehm, if you want to do it in the open, I don't mind, but there are others here. It's not appropriate." Alex shook his head, rejecting her request.

"Did your brain get burned or something?" Silvia shook her head helplessly before taking out her needles. "I mean this."

"Ah?!" Alex remembered his plan after reaching Rank 3 God. It was to have Silvia's massage once again to increase his power.

"You forgot about it?"

"Almost." Alex scratched the back of his head, feeling embarrassed. "Well, we can do it a bit later since I need to use my power right now."

"Is that so? Fine..." Silvia agreed and left. "I will be waiting for you in your room."

"Yeah sure. I will go there as soon as I finish and... thank you for taking care of me."

Silvia only waved her hand as the only reason she came here was due to the bitterness in her heart. She never expected that Alex truly caught up in Rank 3 God. There was no guarantee that Alex would reach Rank 2 God before her or not, but they truly reached the endpoint already.

The battle between him and the beast would probably be his last battle because from that point on, no one would dare to offend Eulja, especially with seven God Kings on one planet. Though she still believed that she could become another God King for both Eulja and her father.

Either way, she didn't hold a grudge or something and truly felt happy that Alex had become a Rank 3 God this soon.

Sherry and the others finally arrived in front of Alex with a confused expression, not knowing why Alex gathered them here.

But since only his contracted beasts and wives were here, they could somehow understand his purpose, especially with his other contracted beast, Leka, not included in the conversation.

"I think you all have guessed the purpose of this meeting. Yes. I have evolved my Pure Fire to another level after absorbing Planet Essence and Sun Essence. I think Sherry's Pure Fire can evolve into this too, but for now, I want to test whether you have a different feeling about it again. After all, this is outside my territory. I just want to be safe." Alex explained.

Firia and the others agreed without hesitation. "What do you want us to do?"

"First of all, I want to ask whether your fire has gotten stronger or not."

"I have." Firia nodded, feeling the sudden power increase in her Sacrificial Element. It was the most direct connection than anything else, so she obviously was the first to receive the benefit. "No change in purity or something, but the power is terrifying. I think I won't have trouble fighting Sherry's Pure Fire."

"Do you want to test it, Firia?" Sherry smirked before getting a smack from Alex. "Gah. I was joking. Well, I do feel a slight change, but I haven't explored it yet. By the way, what is the name of your new fire?"

"Sun God Fire."

"Godly Pure Fire and Sun Essence... Sun God Fire huh. Your naming sense sucks as always."

"I scored myself a passing score this time. At least, it's not that bad compared to the other names. And I should have named you Pochi or something."

"I'm going to fight you over this." She pouted before adding two words that completely changed the entire meaning. "On bed."

Firia pinched her cheeks and shook her head helplessly. "Alright. Enough you horny fox."

"But you are more perverted than me."

"What did you say?" Firia narrowed her eyes. "It's my skill that is better than yours. What do you mean by more perverted? What about you? Don't you think I don't know that you and sister Xingzhi have collaborated with each other? Raising the money to buy all kind of s\*x toys this universe can offer."

Her face became pale as she looked away. "I don't know what you're talking about."

"Hmph. You are already a corrupted official. You may have created channels for our business to grow, but you use a bit of it to collect all the toys. Where do you hide it?"

"I didn't embezzle money. I earned it." She pouted.

The two continued to argue for a few more seconds until Alex stopped them.

"Alright, alright. Let's stop here. What I want to know is the effect of this Sun God Fire. Do you mind if I burn you a bit?" Alex asked. "I mean, channeling my power into your body."

"We don't mind of course." Sherry nodded with a serious expression and looked at the others who had the same opinion.

"Thanks." Alex smiled before finally looking at Kyle and his family. "Still, it's nice to see you again, Kyle."

Seeing Alex open his arms wide, Kyle hugged him like brothers and smiled. "It's truly been a while, Master. To think I would be able to do something like this. Meeting you was really the greatest moment of my life. I'd also reunited with my family. We're working for the second child, but I think we will postpone it after this war is over."

"That's good. Be happy with your family. That's my sincerest wish."

"Thank you, Master."

After releasing Kyle, Alex then opened his arms again to Stina as the two hugged too. "I miss you, Master."

"Yeah, me too. You have left for decades. I thought you forgot about me."

"Haha. How can we forget the most impactful man in our lives?" Stina chuckled and released him. "Besides, Ellen is with us right now. I feel blessed."

"Ahaha. You make me embarrassed." Alex then looked at Ellen, who also gave him a hug. "How are you, Ellen? How is the kingdom?"

"I have passed it to the next generation and chased after my parents. Still, I wish I can contribute to something for Master. Not only have you done so much to my family, but you also have saved my life in the past."

"Haha, you don't need to worry about it." Alex smiled. "I'm glad that you've gained your freedom back now."

"Thank you, Master. I will work hard from today on."

"Yes. I will be looking forward to your achievement in the future. Just don't feel pressured because of it, okay?"

"Yes." Ellen smiled and took a few step backs.

Alex's expression turned serious as he called out his golden flame as if the "warm" atmosphere earlier truly turned warm... literally.

"Alright. Who is first?" Alex asked with an excited smile.

#### [Chapter 1142 - Annihilation](#)

"Ehm..." Ellen let out a cute moan as her body was enveloped by Alex's golden fire. It was an amazing experience for her. The flame itself didn't release any heat, yet she felt revitalized and filled with strength.

The Golden Fire surprisingly refined a bit of her fire a bit and turned them into something crazier than anyone could think. Even Sherry seemed to have a plan to acquire this Sun God Fire and asked Lin Xingzhi about the planet where she could absorb its essence for the starter.

Lin Xingzhi was more than happy to find one, knowing that this power would become even greater when she reached Rank 5 God. With Alex and her on the battlefield, they didn't need to care about Fire Element Users on the battlefield because they simply had no chance to fight.

Still, because of their huge gap and the fact that she became his contracted beast later than anyone here, Ellen had the best improvement in this opportunity, increasing her cultivation exponentially.

Alex felt happy for her and finished the treatment with an announcement. "Anyway, you all will be essential in the next battle. I am sorry to force you to participate even though you three just returned."

"Don't worry, Master. We all are ready." Kyle smiled. "I have missed so many battles, so I shouldn't slack anymore or people will call me a leech. Let me... No, let us fight alongside you. We will protect Ellen by ourselves, so Master doesn't need to worry."

Alex nodded with a smile. "Alright. I will leave it to you, Kyle."

"Yes."

"In that case, I will need to return first to get my treatment." Alex waved his hand and went back to his room.

As one would expect, Silvia had prepared all her equipment and was ready to massage Alex while giving some acupunctures.

"Are you sure about this, Alex?" Silvia asked for one more time, confirming his intention.

"Yes."

"Even if it means that you can't push yourself too hard again because it will damage your foundation?"

"Yes. I have considered it as well. This is the best time to get this treatment since I will go straight to the Rank 2 God after settling everything. After that, I will start learning about Law like how the other Rank 2 Gods do. I already have the concept ready and I think it won't take me hundreds of years to get them.

"Rank 2 God is a special rank because the previous power system doesn't apply. Although it's true that you can get stronger by increasing your cultivation, it's impossible for you to break through to Rank 1 God or God King without learning the Law.

"And while learning about Law, cultivation will tag along, so I will get stronger in every way." Alex nodded with a serious expression.

Silvia narrowed her eyes and sighed. "There is also another universe, you know."

"I am a family guy. As long as I have a fulfilled life, I don't mind stopping in one place to settle down." Alex shook his head with a genuine smile, knowing that he didn't have the intention to step forward to the next step even if he knew there were many people far stronger than him.

If he continuously pursued this way, there wouldn't be an end to it. He would rather live peacefully with his family than becoming the strongest person.

Seeing the determination in his eyes, Silvia finally agreed to treat him. She stretched her hand to the bed. "Then, take off your clothes and lay down on the bed."

Alex followed her instruction, lying down on his stomach.

Silvia then started her "magical" treatment just like how she did it the first time.

It might be because the gap between each Rank in God Rank was bigger than a single gap from Foundation Rank to a God Rank, this time massage truly released a bigger influx of Divine Energy, allowing Alex to reach his goal faster.

Even Silvia felt his strong energy that had been accompanied by the Void Flower that basically created another reserve of Divine Energy in his body. All of them came out simultaneously.

If a Foundation Rank Expert stayed in this room for one hour, he would have become a Martial Lord within five minutes.

Of course, there was no way that their bodies could handle that pressure, but it just showed how much energy he released, specifically how dense the Divine Energy in the room was for the moment.

Eventually, he went into a deep state of cultivation, trying to get all the benefits this treatment could offer.

It took him a whole day just to finish it before he opened his eyes again, feeling refreshed.

"You've finally finished."

Alex turned around, finding Silvia sitting next to him.

"You don't need to wait for me here, you know."

"I am a doctor. I can't afford to let my patient go unnoticed in the middle of treatment." She shook her head in a serious expression before turning into a smile. Silvia came closer to him and whispered with a seductive tone. "I can do a sensual massage too, you know."

"Ho?!"

Alex and Silvia ended up coming out of the room the next day.

...

Another day passed and it was the time for Alex to bring his army to eradicate the phoenixes. Because of the scale of the operation, Alex only used one spaceship, his mothership.

Out of curiosity, Alex also decided to board on the spaceship.

From the interior alone, there wasn't much of a difference than the one he saw in the Dwarf Spaceship. It was made for battle after all.

Lin Xingzhi accompanied him to the main control room. There he could see several people waiting for him. All of them were God Rank Experts but on the low side. Yet, they each had a table for them alone, controlling everything in the spaceship.

There was a guy who controlled the living necessities on the spaceship, there was a girl preparing all types of arrays that the ship would use and many others. All of these guys had the responsibility to remain in the ship even if they needed to die because they simply could do almost anything even if the ship was half destroyed and all people's safety was riding on their shoulders.

In the middle of the room, there was one empty seat where the king would sit down.

Normally, it was for Lin Xingzhi if they went somewhere, but now that the new king had ascended, only one person had the right to sit on that seat.

Alex looked at Lin Xingzhi pointing her finger toward the seat as if telling him to sit there.

Alex agreed and followed her advice with Lin Xingzhi standing next to him.

"Your Majesty. Do you want to say something to everyone first?" A Spirit asked him politely. Since they were about to leave Eulja, Alex should probably say something to the people.

An array appeared right in front of him. It was none other than a Sound Transmission array. This way, everyone on this ship would be able to hear his voice.

Thinking for a moment, Alex finally opened his mouth. "This is Alexander Sirius. I only have one thing to say. We only have ten thousand people while the enemies are fifty thousand phoenixes. They clearly outnumbered us.

"However, fret not. I promise you that our victory is nothing but assured. On our sides, we have the five Guardians and six Elemental Gods as well as three God Kings. Hereby I announce, Lin Xingzhi will take the north position, Anna and Jeanne shall come from the west and east of the star while I will be closing in from the south.

"With this, we shall eliminate all the phoenixes without any mercy. Let's destroy their plan, shall we?" Alex smirked and paused for a second before shouting. "Move out!"

"Teleportation Formation has been activated. Calculating the distance. 3812 Teleportation Arrays shall be used together."

"Activating the Teleportation Arrays." Another guy shouted as the arrays on the ship's body began to glow as they prepared to jump directly to the sun where the phoenix hid.

"Using the Teleportation Formation. Teleport."

Alex felt as if a Space Disturbance appeared right in front of him but disappeared again. Although he had used the Teleportation Formation once, he never experienced moving something this big, so it was a nice experience for him.

He also activated his Spirit Eyes and saw the fact that the spaceship actually didn't teleport just like that. Instead, they created a Space Disturbance and took advantage of its ability to create a tunnel toward the place they were supposed to go.

After connecting both places, the ship then slipped past the Space Tunnel and arrived at its destination.

Alex could see a giant star that could be compared to that of the brightest star he used to create the Sun God Fire. At the same time, many presences came into his vision.

"Yes. I have confirmed this sun is the place we want to go to. There are tens of thousands of phoenixes there." Alex nodded with a serious expression. "How is the situation?"

"There's nothing abnormal. We have no visual of other people around the area. There should be no ambush other than ten presences next to us."

Nodding his head, his next command was, "Everyone will come out of the spaceship and prepare for annihilation."

"Uoh!"

The people cheered as their blood was boiling. They couldn't wait to see how they would dominate the phoenixes that once wreaked havoc in this universe. They would be the first person to destroy them like no one could do in the past.

Just like how Alex instructed, they all went toward their designated positions. Of course, this was the thing that the war council talked about after Alex left the room. They had split everyone evenly.

In the north, Lin Xingzhi was accompanied by Agnis, Zerah, Canaan, and Helena. Next to her were Rilt, Vina, William and Carissa right behind Anna. In the opposite direction, Jeanne was accompanied by the rest of the guardians and Sullivan.

Still, the fanciest guy in this place truly put even more pressure on all of them. He wasn't accompanied by any of Eulja's powerhouses, only the soldiers.

However, ten powerful presences appeared on the battlefield and stopped right behind Alex. The leader of those presences was none other than a red snake.

"Your Majesty, the Spirit King. We are grateful for this opportunity to release all of our hatred that couldn't be fulfilled in the past. It's time for us to take revenge for our master."

Yes. They were none other than ten God Beasts. In other words, behind Alex were ten giant beasts that had been terrorizing this universe under Phitrus's name.

Alex didn't reply to them. Instead, he activated his Fire Authority and released his Sun God Fire.

The moment they felt it, the phoenixes quickly came out of the sun, looking at all of them. They never expected to be found out.

"Time to eradicate them. All forces..." Alex commanded as his Sun God Fire revolved and completely let its presence known. "...Attack!"

"Uoh!"

#### [Chapter 1143 - Suggestions](#)

Taken aback by this surprise attack, the phoenixes began crying, signaling them to fight back.

Alex only smiled as he used his Pure Fire to the utmost limit to see whether he could suppress them or not.

The moment the Golden Fire showed its might, the Fire Spirits or even the Fire God's God Beasts started feeling the pressure and ended up lowering their heads. And Alex didn't even mean to suppress them.

This showed how much Alex's Sun God Fire could affect Fire Element users.

As one would expect, the Phoenixes also experienced the same thing. They suddenly felt their fire get taken away from them as if they couldn't do anything in front of the absolute monarch. Still, it seemed that because their strength was equal to Godly Pure Fire, those above Rank 4 Gods managed to resist Alex's suppression.

Alex channeled a bit more of his power to stop suppressing his ally and pressuring his enemies.

"Ten God Beasts are to deal with the Rank 4 Gods or above. The rest will eliminate all those phoenixes who can't do a single thing anymore."

"Uoh." In an instant, they already knew that this battle would be over in an instant. There were ten Rank 2 Gods among them, but they were simply overpowered by Lin Xingzhi and the others.

After knowing their fate, the phoenixes tried to escape either to the top or below them, but Alex and Lin Xingzhi intercepted them in two opposite directions.

There was no mercy at all. Even though his suppression couldn't go too far, he still managed to kill around fifteen thousand phoenixes under the suppression, minimizing their casualty.

The battle lasted for two hours before all phoenixes died floating in outer space like a normal bird.

"Haha, the battle was pretty anti-climatic." Lin Xingzhi laughed as she visited Alex after everything was over.

"It's good to feel this anti-climatic. I don't want to waste our resources and to see dying spirits tore my heart." Alex shook his head with a serious expression. "How is our force?"

"A few hundred have fallen... Well, I think it's around three to four hundred. If there is no suppression, we might have lost more than two thousand spirits since the Phoenix Sun Fire is so powerful."

"In any case, this will be a huge blow for the Phoenix Goddess. After all, she must have prepared this to add her personal army to get twenty Rank 2 Gods. This is extremely dangerous since the other weapon must have created it as well."

"Ah?!" Lin Xingzhi widened her eyes, never expecting this. "Fair enough. If we think it like that, there will be double the number from that war five thousand years ago. This is going to be a little rough since we have killed the snake but haven't found its army."

"Yes. There is a possibility of them coming out later, so I want to make our number equal first."

"So that's why you want us to attack the phoenixes here?"

"Exactly. Unfortunately, it seems they are going to hide the Bats until the last moment, so we don't have any hope. For now, search for the dragons and angels. We need to kill them as soon as possible."

"I understand. But we don't have their information about them at the moment... Only them."

Alex smirked. "What are you saying? Don't we have good bait?"

"Hmm? What do you mean?" Lin Xingzhi tilted her head, not understanding his intention, before she looked at the phoenix corpses floating in outer space. "Now I see."

"Yep. Carry all the Rank 2 Gods and destroy the rest." Alex nodded with a smile and changed the topic.

"Since I'm with you guys, I will continue my practice in Eulja since this universe will undergo a huge tribulation soon."

"I understand."

Alex thought for a moment. "Now, I am wondering what I should do right now... I mean, I have done everything I can until this point. I don't have any more goals until I reach Rank 2 God."

"Hmm..." She thought for a moment and shook her head helplessly. "I also don't know what to do at this point. You may need another two to three years just to reach Rank 2 God if not more, because you have gathered all the herbs. The only way to make another breakthrough will be another Divine Medicinal Herb that is equivalent to White Ash Pill."

Alex thought for a moment and sensed ten presences coming to him.

"Spirit God."

"Oh." Alex smiled and turned around, looking at the ten God Beasts before him. "I'm glad that everything is settled without any problem."

"Yes. Thank you for fulfilling our wish, Spirit God."

"It's fine. I hope that you all can help me in our next fights again."

"Don't worry. We won't rest until that beast dies, Spirit God."

Alex nodded with a smile. "I understand. No one should know about all of you yet, so I think you need to hide for the time being until the time we fight together again."

"Yes. We will quickly disappear from the battlefield. If you need anything, please contact us again."

"Thank you." Alex waved his hand with a smile, looking at their backs as they left the battlefield. He then turned to Lin Xingzhi, "Anyway, do you have any suggestions for my training?"

Lin Xingzhi thought for a moment. "Since you can only start cultivating your Law... not related to an enlightenment when you have reached Rank 2 God, then I only have two suggestions for you."

"Hmm? I'm listening."

"Let's take a look at your repertoire. Fire, Space, Sword, Spear, Array, and Alchemy. Among those, you have perfected your Space, Array, and Alchemy. And now you are aiming for your Fire Element Arts, right?"

"Yes."

"Then how about making a move for your Sword and Spear?"

"What do you mean by not perfect? Oh, wait. I think I know." Alex came to a realization and looked down, thinking about it. "The Sword and Spear Qi are not fused yet. I have been using them this whole time and forcefully fuse them with my intent. However, I should complete it like my intent."

"Exactly. Because you have been busy with other things, I'm sure you forget that your sword and spear are your very first foundation."

"I know. I think I will return to the Sword God's Pavilion to meet her again to talk about this and make sure that nothing goes wrong. After all, other than me, she has the most in-depth knowledge about weapons."

"Sure. You can do whatever you want."

"What is the second suggestion?" Alex asked.

"You can just go treasure hunting, eating all kinds of medicinal herbs you have found or turned them into pills to increase your strength." Lin Xingzhi smiled.

"Leka!" Alex widened his eyes, remembering the small cute mouse he met during his training.

"Yes. You have never taken her out since the last time. Well, she has understood your situation this whole time, but I think you should go somewhere with her along with those three weapon spirits. They all love adventures, right?"

"I see. I will do it then until I reach Rank 2 God." Alex nodded. "I will try to reach Rank 2 God within two to three years. I believe that's a perfect time to start another war against them."

"Yep."

Alex nodded with a serious expression and waved his hand. "Let's return then."

...

Three days later, something big happened, especially among the alliance.

They gathered once again and talked about it. Sitting on the main seat was none other than the Phoenix Goddess, who was in the middle of this entire problem.

Next to her was a Dragon God, Earth God, and Battle God.

"Spirit God! You Bastard!" The Phoenix Goddess slammed the table. Her face was twisted. If Alex were here, he would have been messed up by the Phoenix Goddess in all kinds of torture.

"Phoenix Goddess, you need to calm down. I understand that you have lost your army, but we need to calm down." The Dragon God calmed him down.

"Do you think I can calm down? He has massacred the entire population of mine." The Phoenix Goddess roared as her fire emerged from her body, pressuring every single of them. However, this also showed her anger toward Alex and the others also knew it.

"Tch." The Earth God thought for a moment and said, "With this, we have lost more than we predicted. And the Supreme King still needs a long time to come out of that seal. Won't this mean we're screwed up?"

"Do you think our Supreme King hasn't predicted something like this? He has. He has given the arrangement for the Angel to fix this situation. What we need to worry about is how to stop the Spirit God." The Dragon God shook his head helplessly.

"We need to kill him!" The Phoenix Goddess kept spouting about it because of her anger.

However, the Earth God ignored her and replied to the Dragon God. "In that case, we can focus on the Spirit God. How about luring him inside a place? Although the Bats and the Angel aren't ready yet, we still have the advantage against the Spirit God and his alliances."

"Indeed. Still, it also means we are risking our lives since our position will be exposed. I'm sure that the Spirit God will take that chance to attack us."

"I know, but you need to know if we want to stop them, the only way is to hit the Spirit God. Dealing with allies first may lead us to another ambush since they're the obvious targets."

"But this may be the real intention from the Spirit God... What if when we plan to do this, the Spirit God is laughing?"

"..."

They couldn't come to an understanding because Alex's manipulative mind had yet to be deciphered by them. They simply couldn't comprehend why Alex was able to make all of these unpredictable moves.

"If that's the case, how about we take it one step further? We will order our army to go toward a certain planet where we set up an ambush. The Spirit God will surely show up at that point, so it's the time for one of us to go toward his planet and destroy them while the rest of us keep him there.

"Of course, we just need to buy time until everything is over. Other than our soldiers from our human form who will die, I don't think we will lose that much. What do you think?"

They looked at each other and agreed with this plan.

"That way, we can smear the Spirit God's reputation too. We need a careful plan for this and the preparation may take years."

The Phoenix Goddess slammed the table and said, "I will do it. As long as I can see the Spirit God fall into despair, I will do everything."

"How about we make him go to another planet first as a build-up?"

All of them suddenly came into a realization as they began planning about their trap, trying to force Alex into despair. They prepared to do anything to make sure that this plan was foolproof.

#### [Chapter 1144 - Before Traveling](#)

After that simple annihilation war, Alex started practicing his two Fire Divine Technique, Star God Divine Control and Divine Petals.

It was truly a marvelous experience for him. Unfortunately, he didn't have a sparring partner this whole time, only using his Subjective Reality to create a doll that could match his ability.

At the very least, he managed to understand the two techniques quicker than he expected. Instead of one and a half years to two years, he somehow learned both of them within one year.

A small mouse suddenly appeared from the ground as it tugged Alex's feet, looking at him with her giant eyes. "Master."

"Oh, Leka." Alex smiled and bent down, stretching his hand to the ground.

Leka walked onto Alex's palm and sat there.

"How are you doing? I'm sorry that I haven't done anything for you."

"It's fine, Master. Leka understands. Besides, everyone is so strong, so Leka is busy with cultivation." Leka shook her head, showing her strength that somehow ended up reaching Rank 10 God.

"Woah, to think you will be able to come this far so soon." Alex smiled.

"Hehe, Leka needs to be thankful for Master's blessing. Without everyone here, Leka would have died back then." She shook her head. "No, it would be even worse since Leka would be enslaved by those people."

"Ahaha, good for you." Alex thought for a moment and asked, "Do you have a thought of having a human form?"

"Nope. I can create an astral body to project my human form, but it won't be the real human form. If it can make it easier for the Master to talk to Leka, then I will use it right now."

"Nah, it's fine." Alex shook his head, remembering that the ten God Beasts also didn't wish to become human even if they had the ability to do so. He then summoned his spear and sword at the same time.

Eve, Elle, and Elliot appeared simultaneously as they cupped their hands. "Master."

"It's been a while, you three. Well, we have been staying in contact, but you haven't shown me this form for a few years already." Alex scratched the back of his head, feeling embarrassed.

"We don't mind, Master. You are not someone who will take back one's promise, so we can wait for you." Eve shook her head. "Besides, I am trying to understand your power."

"My power?" Alex tilted his head in confusion.

"Your Law."

"What?" Alex dropped his jaw in shock as he never expected that a sword spirit could understand Law. "Do you know anything about it?"

"I'm not sure. Although you may put it unconsciously, the Law is leaking from your body. They are transferred through your Sword Intent or any other form of energy. Of course, it's too little to the point it's hard for you to see it with your Spirit Eyes. However, we, weapon spirits, can feel that slight change." Eve explained with a calm expression.

Suddenly, Elliot commented with an innocent face. "You can feel that?"

Alex and Eve froze as they looked at Elliot dumbfoundedly, wondering if he seriously asked that question. They then turned to Elle for confirmation, which she ultimately shook her head.

"Then, is Eve different from the others?"

"I think? I am not sure myself."

"Well, whatever. We can find the answer along the way."

"Yes. By the way, may I know what Master's Law is?" Eve asked. "I think if I know the word, I can understand it better."

"Is that important right now? I mean, I haven't reached Rank 2 God yet."

"Hmm..." Eve started to doubt it since she didn't want to do something that might be harmful to her master. He was the best master she could hope for, so she didn't want to ruin it because of her curiosity.

"I understand. I won't ask again."

"How about I tell you when I reach Rank 2 God? Only you of course." Alex smiled. "Albeit it's bizarre, you know. You will feel that it has a connection but also doesn't have."

"Master, you are making me curious." Eve rolled her eyes while pouting.

"Haha.." Alex chuckled and asked, "Alright. I am planning to leave this world to search for treasures. This means I will go to multiple worlds. Who is with me?"

They all raised their hands since this was the first time they got Alex for themselves while traveling to multiple worlds.

"That's good. I am going to settle something first before we go, okay?" Alex smiled.

"Yes, take all the time you need."

Alex then opened his system. It had been years since the last time he opened a Gacha, so he expected a bit of a huge haul.

[Gacha Point: 534102]

[Gacha Coin: 655]

[Spirit Crystal Harvested: 823,745,997]

"Haha, it's been a while since I have seen the system, so I'm going all out. Turn every single Gacha Point to Gacha Coin." Alex smirked as his spirit was fired up. This was the last gacha he might ever have before traveling to other worlds.

He expected the Gacha Points because Alex mainly created Dungeons to harvest the Spirit Crystals. Now that he thought about it, it almost reached one billion within a short amount of time. And all of them were simply coming from four planets where he was supposed to be able to create ten.

If he finished all of the construction, he would still gain money even when he was asleep. Still, the most exciting parts would surely be the Gacha Coins because he could get any rare items from the system. This would be impactful for the current him.

[Processing]

[Gacha Point: 2]

[Gacha Coin: 5996]

[Spirit Crystal Harvested: 823,745,997]

"Ugh. Why are you doing this? It's literally four coins away from six Gachas." Alex let out a long sigh, feeling disappointed. "Either way, five are enough for now. We can open more in the future. Open them!"

[Processing]

[Bow Mastery Card Acquired.]

[Fire Elemental Orb Acquired.]

[Unknown Elemental Orb Acquired.]

[Unknown Elemental Orb Acquired.]

[Ice Elemental Orb Acquired.]

"Hmm..." Alex narrowed his eyes and asked, "Only one Mastery Card and four Elemental Orbs?"

[That's not my responsibility.]

"..." Alex shook his head in disappointment before taking out a Fire Elemental Orb. He had a brilliant idea to test, so the moment it was out, he quickly brought it to Eve. "Do you know this orb, Eve?"

Eve bent down and observed the Orb carefully. She felt immense fire energy inside the Orb that might enhance the one in her body. "What's this Master? I feel like I can get a bit stronger if I absorb this guy."

"This is a Fire Elemental Orb. Basically, it will give you a Fire Element like when that fire crystal is embedded in your body." Alex pointed at the red jewel on her body. "I thought that if I add another one, you will be able to get stronger."

"Yeah. I don't think you are wrong, Master. I indeed can get stronger with this thing." She nodded with confidence before turning to Elliot and Elle. "I think the orb suits them better."

Elle and Elliot never thought that Eve would pass it to them instead. Eve was their role model and sister figure in their hearts, yet, she just became their idol after that sentence.

The twins exchanged looks and rejected it without putting flowery words. "No, we don't need the Orb. If Master doesn't use it on Sister Eve, we will be mad."

"That's right. Sister Eve deserves more than this."

The two tried to "get" justice for Eve despite knowing how spoiled they and Eve were.

Alex thought for a moment and nodded. "How about it, Eve? Those two said they would be mad at me if you don't use it."

Eve pouted and looked away. "You're playing dirty, Master."

Eve had a soft spot for the twins since she was the one raising them. It was like the relationship between mother and children.

"In that case, you will use this Elemental Orb. As for the two Unknown ones, I can't really give them to anyone other than for testing, so I will just give them to Xingzhi. Last but not least, there is this Ice Elemental Orb. Alicia and Letizia can use this Orb, but Alicia fights mainly by her element while Letizia pursues the same path as me. I think it's better for Letizia to take it."

After making the decision, Alex threw all the three orbs into his Inventory along with his order so Lin Xingzhi could deliver the Ice Elemental Orb to Letizia through the system.

Alex then grabbed the Fire Elemental Orb and came closer to Eve's real body as he approached her with that powerful Orb.

Just like how it had been going, the Orb disappeared and entered Eve's body without hesitation. It gradually fused with her as she felt that she leveled up one more time.

"Thank you, Master." Eve smiled.

"No, you deserve it."

After settling everything, Alex then asked. "Alright. Do you have a place you wish to go? Like a world without land or something. We are treasure hunting, so I don't care about the places. After all, Divine Herbs can grow in all worlds. Of course, we will go to Divine Worlds from time to time since only there will we find a Divine Herb that could be eaten directly after harvesting it."

"I want to see a world where swords are useless." Eve was the first to raise her hand. Because becoming a weapon to kill was her only purpose since birth, Eve wanted to know what would happen when she wasn't wanted anymore. Obviously, she didn't wish for Alex to abandon her since that wasn't going to happen, but she wanted to know what kind of thing she would see when other people abandoned their swords.

Alex thought for a moment and nodded with a serious expression. "I see. A world of magic. Maybe we need to find a planet filled with magicians or magus? I think that's the general idea for that world. I'm sure they are somewhere, but we will see if Eulja has something recorded. Though, I will refrain myself from entering others' territories, okay?"

"Yes. That's fine. Even if I don't find it, I will be content with traveling alone as long as I'm with Master."

"Then, I want to see a place where people can't cultivate but still master their skills with weapons." Elliot raised his hand.

"Hmm... That's a vague one, but we will see whether we can find it. I don't have any concrete idea about that world, but I'm sure there is a planet that will fit your description." Alex nodded in agreement.

"As for me..." Elle thought for a moment and was a bit hesitant to tell him. After some urgings from him, she finally told him with an embarrassed expression. "I want to find a world where a weapon can turn into a human. Though I believe such a world doesn't exist."

Alex thought for a moment. "Although I can't understand such a concept, I think they exist. It's just... we don't have any information about them yet. We will eventually find it."

"I understand, Master. That's why it's only a dream."

"Haha, we will fulfill it at one point. Don't worry about it."

"Yes."

Lastly, Leka answered Alex's question with excitement. "I'm going to every single world because this is a TREASURE HUNTING time. My time to shine has arrived."

"You sound excited, eh?"

"Of course. I'm going to show Master that I can find almost anything." She boldly claimed.

"I will be waiting for it." Alex also accepted her answer and said to Lin Xingzhi behind the system. "I'm going right now. Say goodbye to others for me."

[Sure thing.]

The three Weapon Spirits then returned to their weapons before Alex stored them inside the Inventory. Meanwhile, Leka hopped on his shoulder as Alex snapped his finger, summoning a Teleportation Array that sent him away for this treasure hunting.

Also... Leka would be experiencing the train wreck Teleportation for the first time.

### [Chapter 1145 - Unexpected Encounter](#)

On a certain planet, a single man and a mouse walked through the dense forest. The man had a cultivation of a Martial Emperor while the mouse was also the same.

The trees were tall, absorbing more than half of the sunlight he was supposed to receive, making it a bit darker.

"Master, Master. I feel like they are nearby," said the mouse. Her heart was full of excitement because they just found another treasure.

"Alright." Alex nodded as he sensed people's presence in the direction Leka pointed at, so he was a bit unsure whether to go there or not.

Still, Elle and Elliot were resting on his back since he needed to take them out to experience something like this. Meanwhile, Eve was still in the scabbard, trying to see what kind of things they would find.

Two hundred meters from them, two people, a man and a woman, were surrounded by a group of ten wearing a tight black uniform.

"Just surrender yourself. It's impossible for you to escape from us."

The green-haired man narrowed his eyes and shouted. "I won't give up. We will just get tortured if we return. We better die than go back to that hell."

He seemed to have similar clothing to the opposite group, but he had a long robe, hiding all his body. The woman also had the exact clothes.

The man raised his hand, revealing his wand that had been hiding inside his clothes and shouted. "I'm going to fight with all of you here."

"Since that is the case, don't blame us." The group leader shouted as the others started going into their position, ready to beat these two to drag them back.

Meanwhile, Alex was still contemplating when he needed to make his presence known. He didn't know whether it was the young man's luck or not, but he and his girl were standing right underneath the treasure Alex wanted to pick.

Waiting an hour would be a hassle, so Alex ultimately chose to come out of this place. He saw that the young man raised his staff as a torrential wind appeared out of nowhere.

"Master, Master. What is that? It's cool." Leka's voice brought their concentration as both parties were confused by Alex's appearance.

They both took a step back to take a look at Alex, thinking that this guy was their enemy's reinforcement.

"Sword Enigma."

"Wind Burst."

A cross wave burst and a torrential wind flew toward Alex from two opposite directions.

"All of them are idiots..." Leka spoke, stunning all of them. However, she didn't let any of them even make a move as Leka leaped toward the attack and slapped the two attacks, deflecting them to the side without trouble.

"!!!" They widened their eyes as they never saw a mouse that was capable of doing something like that.

"Master, should I kill them?"

"Yeah." Alex nodded. "Even if they say it's a misunderstanding, I also misunderstand their words since I believe they are lying."

"Leka understands." Leka released her Spiritual Energy and flew straight to the leader of the huge group.

The opposite party gritted his teeth as he couldn't comprehend the guy who had such a powerful move. He struck Leka with his sword, but Leka simply waved her claw and cut both the guy and his sword into two. This was just the difference between a mortal body and a Divine Body. Leka was too strong.

"What?!" All of them, including the duo, dropped their jaws to the ground, never expecting to see a mouse of this caliber.

The young woman suddenly kneeled and shouted. "Young Sir. Everything is a misunderstanding. They have been pursuing us, so..."

Alex ignored her words and said to Leka instead. "Look, Leka. There is already one of them saying such a thing. That's why you don't need to care about them."

Leka smirked and nodded. "Leka understands. Leka will kill them all."

As Leka agreed, Leka started killing the others in black suits first while the man and woman knew that it was impossible for them to talk it out.

Suddenly, a small circle appeared right above the woman's head before the blue ring turned into a blue jewel on top of her head, releasing a powerful power that even Alex could feel.

Alex simply looked at that jewel and lowered his head as he couldn't care less. He only wanted to see the treasure underneath the ground.

Still, what made him shocked was the fact that nothing was underneath them. When he checked it again with his Spirit Eyes, only at that time, he found that the blue jewel was actually the treasure that Leka found.

"Leka... Is that the treasure?" Alex asked.

Leka turned around and halted her movement before widening her eyes. "Yes. I thought I felt it..."

Leka was in the middle of confusion because she believed that it was underneath the ground.

"How?"

Alex shrugged. "Don't ask me."

"Who are you? Why do you want this thing?"

Alex shrugged. "I'm a nobody. But since the treasure is someone's possession, I will just leave this place."

"You... You..." The woman narrowed her eyes and shouted. "I can give this treasure to you as long as you fight for me for one year."

"No can do. Just live in that dream, lady." Alex shrugged and said, "Leka, let's go back. We need to go to another place."

"Yes, Master. Are we not going to kill them? They attacked you earlier..."

"Well, fair enough." Alex nodded with a smile as he suddenly appeared in front of the young man with a serious expression. He flicked the young man's head, blowing him away.

The young man's body hit the trees a few times and snapped them with his body. He ended up crashing to the ground with heavy injury. But it was better than the other group who were dying.

The young lady gasped and blinked a few times. She never saw someone as strong as Alex. If she could ask him to fight for her even for a short period of time, she would be able to fix every problem.

She desperately lowered the condition and said, "One month... Just one month... No, one week. Please follow me for just one week. I will give you anything you want."

Alex shook his head helplessly as he appeared right in front of the lady with his forefinger in her forehead. The energy from his body flowed to his finger and burst it out, knocking the lady away as well as the other things behind her. "Listen here... The more desperate you are, the easier for someone to get annoyed because of your attitude."

The energy blast left a huge half-circular trail on the ground, spanning for one hundred meters. The woman was also blown fifty meters away from the original position, but she was in better shape than the guy.

"Haiz. Anyway, this one is a no go. Let's check another place." Alex smiled.

Leka nodded. "I understand. There is another treasure in this world, not far from here. But I feel like they are in the middle of the city. You may want to exchange it for another treasure since Master doesn't like to repay it with service."

"A city?" Alex narrowed his eyes, not wanting to deal with people. He looked at the woman and sighed.

"Nah. We will leave this planet right now."

"Are you sure, Master?"

"Yes. There is not much to be seen from this planet. Let's just go to the next one since it fits Eve's wish."

"I understand." Leka nodded while Eve sent a bit of her energy to Alex as her response.

Alex then released the seal for his power and went toward another planet. It was a Divine World where Alex didn't even need to seal his power, so he entered it without hesitation.

"According to the information, this place has a Rank 2 God among them. Well, I won't have a problem with them, so let's enter the world."

Alex landed inside another forest that would mask his presence here. Because he didn't want to get spotted in a Divine World like this, he decided to put on a mask.

"Do you feel something, Leka?"

"Yes. I have... Although thin, I think it's in this direction." Leka pointed at their right.

"Alright. Let's go." Alex agreed without hesitation and flew toward that direction, only to find a city. "A city, huh? We will check it and if it's someone else's possession, I'm going to trade it since Eve wants to see what kind of place this world is. It is not that bad to enjoy this world for a week or two."

"I understand. I can help you pinpoint its location."

"Yep. I will be leav—" Before he finished, he sensed someone's presence right on his left. That person was powerful as he appeared so suddenly next to him.

It was a female. She had blond hair and blue eyes. She wore a tight plain shirt and purple colored mini skirt. However, the one thing that sticks out the most would be her hat. The hat was none other than a big magician hat that a magician would actually use.

The other party turned around and smiled. "Ah, you are a Rank 3 God on this planet. You must be someone important. Who is your name? I have heard there is a treasure for me in this place... Wait a minute..."

Suddenly, she blinked her eyes a few times as if she felt something was wrong. "This fluctuation... A mask, golden hair. Wait! You..."

As if she could see through his mask, the female gasped and took out her golden staff.

At the same time, Alex also took out his sword and spear because he recognized this person. It was true that he never met her, but her face was instilled in his face by Lin Xingzhi. She was one of the God Kings in this universe, Magic Goddess.

[Alex!]

"I know!" Alex gritted his teeth and swung his sword.

The Magic Goddess struck his sword with her own staff.

There was only one reason why they would attack each other the moment their eyes met. Magic Goddess originally participated in the alliance that the Holy God created and left the alliance as soon as he quitted.

Due to her surprise to see the Spirit God right before her eyes, she instinctively tried to hit him because the other party might do the same.

"Why would the Spirit God visit this planet?" She shouted.

Their weapons clashed with each other as the sheer amount of strength alone created a powerful shockwave. The ground turned into a crater in an instant as the cloud above them was split into two.

The ground then vibrated while the trees were blown away, but Alex didn't forget to shout back.

"Likewise. Why would the Magic Goddess visit this planet?"

#### [Chapter 1146 - Magic Goddess](#)

[I am going there immediately. No! Call Anna and Jeanne immediately.]

Lin Xingzhi panicked because she knew that this clash would be inevitable. Even she couldn't predict if a God King would show up in this world.

"Are you trying to destroy the people in this world too?!"

"Too? What the heck? I'm here just for a treasure." Alex thought that the best way to buy time was to keep her thinking instead of fighting. He might have the power to kill a Rank 2 God, but it didn't mean that he was strong enough to fight a God King.

Hence, his obvious course of action was just blurted his intention out so as to convince the Magic Goddess.

"A treasure? What kind of treasure do you want?"

"I don't know, that's why I'm going to this city."

"You are just trying to scout this city before destroying it, right?!"

"The image of me in your head is your own fault. I have no intention to do such a thing. Do you think this city or this planet is my enemy?!" Alex shouted back before five magic circles, different from Arrays, appeared out of nowhere.

"I will capture you first to see your real intention!" The Magic Goddess slightly waved down her wand.

"Five Great Stars Magic."

Alex clicked his tongue and raised his hand, creating a small barrier with his Space Element. The moment something emerged from the Magic Circles, they were deflected to another direction, missing him completely.

"Space Element?"

Boom.

All of them hit the ground simultaneously as the dust kicked up, giving Alex time.

"Since you left the alliance, why do you still attack me? If you think I don't dare to fight you, you are wrong!" Alex used that chance and took out Anna and Jeanne's cards as he summoned both of them.

"!!!" The Magic Goddess seemed to sense something and quickly raised her wand to create another magic circle in front of her.

Anna emerged from the smoke with her scythe. "Uncovered Darkness."

Black energy started covering her scythe as she struck the Magic Circle. The Darkness Energy began to spread on the Magic Circle before breaking it.

"God King? No!" Before she could even analyze Anna, she swung her staff to the right where Jeanne appeared, swinging both of her short swords.

"Queen Anna." Jeanne smiled as she had bought enough time for Anna.

Anna nodded her head with a serious expression as darkness began to cover her body. "True Spirit Body, Dark Butterfly Spirit."

The energy dispersed at once as her dress began to change along with the appearance of her wings.

She headed straight to the Magic Goddess, only to find that multiple Magic Circles appeared above her.

At the same time, Jeanne took a step back as she changed as well, revealing her new lightning called Blood Lightning. "True Spirit Body, Ethereal Lightning Form."

"Two God Kings? The first one is his wife, but who is the second one?!" The Magic Goddess was completely stupefied by this situation. She thought that she would be able to capture Alex but to think he actually traveled with two God Kings. It was beyond her imagination, especially with the appearance of Alaya on the last battlefield as well as Lin Xingzhi.

There was a chance that Eulja hosted more than four God Kings at once, becoming the strongest Divine World in history.

Knowing that defeat was inevitable, the Magic Goddess became mellowed a bit and asked, "Ehm? Can we talk right now?"

"What did you say earlier? Didn't you want to capture me so we can talk?" Alex narrowed his eyes, releasing his killing intent.

The Magic Goddess gulped down as she made a weird smile while fending off Anna and Jeanne's attacks. "I'm sorry. I didn't know your intention earlier. But considering you traveled with two God Kings, you shouldn't come to destroy this planet."

"Anna, capture her for me." Alex snorted and ignored her pleas before turning to Jeanne. "I will let you handle her a bit, Jeanne."

"Ah! That's great news to my ears, Master. I have never tortured a God King, so I'm curious what kind of thing I will face when I torture a God King." Jeanne made a sinister laugh, showing how excited she was.

The Magic Goddess's face became pale as she hurriedly explained. "Spirit God. Please, let's talk about it. I can give you treasures if you want. Let's talk a bit, shall we? If I can't do anything for you, we can fight it out again. You are just bullying a magical girl like me!"

"..." Alex was shocked by her last sentence, never expecting someone would call herself a magical girl, let alone a God King, known as Magic Goddess. However, he wasn't convinced yet since he attacked him out of nowhere.

"Come on!" The Magic Goddess knew that sooner or later, Jeanne and Anna would start getting the advantage. At the same time, Alex would surely prevent her from escaping through Teleportation Array Plates. The only way she could escape from this situation was through negotiation.

Hence, she changed the terms and shouted. "If you kill me right now, your reputation will be destroyed again. I know that you are using all those people to fight your so-called enemies. Don't you think it's best to resolve this peacefully?"

"So you can kill me, but I can't kill you?" Alex harrumphed as his killing intent soared.

"No, no. I can compensate you, alright? I have heard the information from the Holy God after leaving the alliance. How about I help you fight your enemies and give you some treasures? I can promise you with Universe Oath to do something like this since it won't be that long anymore, right?"

"Ho?!" Alex narrowed his eyes and said with a cold tone. "And do you think it's enough?"

"You are extorting me at this point. That's right. I have another piece of information for you. Someone met me long ago, offering me power. I have seen his true appearance with my Magic Eyes like how I saw through yours. I will tell you anything I know about that guy if you agree. If you keep doing this, I better commit suicide and blame everything on you!" The Magic Goddess shouted.

Alex contemplated for a moment as the term wasn't that bad.

However, the Magic Goddess misunderstood that gesture as him feeling it wasn't enough. She suddenly added another thing. "That's right. How about a one-night stand? I can do it with you as a bonus."

"Alright, Jeanne, Anna." Alex suddenly called both of their names as the Magic Goddess thought that this negotiation was successful.

Unfortunately for her, that was the only thing Alex hated, so he said, "Kill her."

"Wait, what?! Did I say something wrong?" She panicked and uttered a question. "I am the one and only Magical Girl, you know!"

"You should know about your opponent first before the negotiation."

"Then what do you want? You can add one thing that you want." The Magic Goddess became more and more frustrated since she had begun to lose her ground.

Alex also knew that the Magic Goddess was about to explode and if she truly used all her power in this world, there was a chance that his location would be exposed and his hidden plan for this war was disrupted. Hence, he called the two again. "Anna, Jeanne, stop."

Anna and Jeanne followed his order and stopped right in front of her, ready to swing their blade at any moment.

The Magic Goddess let out a sigh of relief as she thought she managed to convince him.

"First of all, I want to ask one question."

"Yes, yes. Just ask me anything other than the agreement." She hurriedly nodded.

"Why did you join the alliance back then?"

"Magical Girl is supposed to beat the bad guy, right? I'm there to do something like that because of the Holy God's invitation. If not, I would have stayed at home." She answered him with an innocent face as if she truly believed that way.

"So, I am the bad guy..." Alex narrowed his eyes.

"Was... was..." She quickly corrected his statement while sweating.

"You're narrow-minded. Now I'm wondering whether I should agree to your condition or just kill you right now." Alex shook his head helplessly.

"What do you mean narrow-minded? Although that was the main reason, I had calculated the pros and cons before coming to that decision."

"Whatever..." Alex shrugged. "As long as you can do something, you're not useless."

"The Universe Oath will prevent you from telling any lies and become my subordinate until I kill my enemy. If you agree to it, I will give you an explanation about why I'm so desperate to fight this enemy though I'm sure you have already gotten the gist of it from the rumor. That's my request. The time will probably be less than fifty years as of now, so I'm sure it's not that long."

The Magic Goddess contemplated the terms and set a few conditions as well. "First... I will fight alongside you as your subordinate, but I won't do anything other than that. If something possesses too much risk for me, I have the right to escape.

"Second, after everything is fulfilled, you can't kill the people of my territory or me. Lastly, I want to know the potential of success in this war."

Alex nodded in agreement. "Fine. It's not like I will use you other than in the war. However, just so you know that if you escape from the war, there is a chance that this Universe will be destroyed. Even if it's not, you will be condemned by my allies and will live as a deserter.

"As for the second term, I wouldn't care about anything after that point. As long as you don't offend me, I will not touch you or your people. That's the additional condition for your second condition. The last one... I will share a bit of the plan with you, but not everything because I can't see you as an ally like the Holy God and the others yet."

"I understand." The Magic Goddess nodded with a serious expression. She knew that this was the best solution other than her dying in his hand along with the potential of destruction.

"Before that... Do you know what happened to the alliance after that?"

She thought for a moment and shook her head. "I don't have much information. I don't see the Goddess of Destiny and God of Wrath in their territory, so I am assuming something big was going on. There was a possibility of them getting into something they couldn't escape. In other words, they were suspicious."

"Since you are smart enough to understand that, let's finalize the agreement." Alex raised his hand and swore. "I, Alexander Sirius, swear in front of Heaven and Earth that I will abuse the Magic Goddess like a

slave, won't touch her or her people unless they offend me first, and will tell a bit of my plan without lying."

Seeing that Alex initiated the Universe Oath, she raised her hand and followed suit. "I, Rubia Viest, swear in front of Heaven and Earth that I will follow Alexander Sirius like a subordinate in this war to protect this universe. At the same time, I won't attack him or bring him any harm directly or indirectly during this war.

"I will also share all the information I have with him truthfully and give him some treasures to compensate for my previous action. This promise will only be valid in the time of war to protect the universe."

Alex nodded and said, "Alright. Since that's the case, you better give me the information first."

"I think we should change places first." The Magic Goddess smiled and looked at the area, knowing that the experts from the city would come here soon. "Ah, we can discuss this in the city. I know a place there since I am a regular here."

Alex agreed to her promise and waved his hand, telling Anna and Jeanne to return to Eulja. He just wanted to show her that there were two God Kings that would come for her life if she did anything funny.

Rubia intentionally ignored it and led him to the city.

#### [Chapter 1147 - Negotiation](#)

After considering their talks, Rubia decided to guide Alex to a restaurant where they could talk privately about this matter.

Rubia ordered some food while Alex set up a Sound Insulation Array.

"So, we need to talk."

Rubia nodded with a serious expression as she continued, "We will finalize the agreement for the war as well as how I can help you, right?"

"Yes. You can't say anything about my appearance as well."

"I understand. So, what is your demand?"

"I don't have many demands. I want your full support in finding the enemies. You said you have information about them, so tell me."

She contemplated for a moment, structuring the information she had. "First of all, the guy who approached me back then was known as God of Virtue. I don't know about him that much other than his element, which is Light Element.

"He tried to persuade me for years until I expelled him from my world. At that time, he said to me that I'm not going to regret this choice because I will be standing on top of this universe. I didn't and don't have that ambition, so yeah... That wraps the whole thing."

Alex narrowed his eyes. "He sounds suspicious."

"Then, can I ask for an explanation from you?"

"To put it simply, there was a beast that terrorized this universe. The previous generation of God Kings fought against this beast which turned out to have an army back then. The ones that led those armies were called "weapons" made of humans from Planet Earth.

"In the end, other than the Sword God and Life and Death Goddess, everyone died, including the past me."

"How did you die? Did you lose?" Rubia drew a gasp and covered her mouth. If the scariest and probably the strongest God King, the Spirit God, died, how could they even stand up against the beast along with its armies?

"You could say I lost, but at the same time, my past life used his life to seal the beast to protect this universe."

"And now that you have reincarnated, it's time to fight back?"

"Yes."

"Do you have confidence?"

"My past life has been helping me through my journey, so I can try to surpass him within a short time. As long as I can reach God King, I think I can fight against that beast again without losing." Alex sighed before recalling what his previous life said regarding the stage above God King.

There was a chance that the beast was actually at that stage this whole time and the universe turned blind eyes to it. Hence, he might need to increase his strength even further to kill it, albeit that was just the last trump card he would only use if necessary.

"I see." She contemplated for a second and asked, "What are the weapons?"

"The beast itself was six different life forms: Bear, Snake, Bats, Angel, Phoenix, and Dragon. Its weapons are those people."

"!!!" Rubia drew a gasp as she remembered the report about Alex's wars. "If I'm not wrong, the Array God had a snake arm before dying in the hand of the Nature Goddess... The Metal God died after turning into a bear... And an unknown Alchemist died because of a Phoenix Fire that was supposed to be out of this universe. Don't tell me..."

"Yes." Alex nodded with a serious expression. "You are not my enemy, right?"

Rubia blinked her eyes a few times and knew that Alex tried to test her. With the Universe Oath earlier, she was unable to lie to him, so she said with a grim expression, telling him that she was serious about this answer. "No! If the universe is threatened by something outside our universe, I have an obligation to protect this place where my home lies."

"Alright then." Alex took a deep breath and continued. "Anyway, each weapon can appoint a pet to receive their power in order to help them in this battle. Hence, I believe the battle is going to be fiercer than five thousand years ago."

"I see. This is bad, no?"

"Yeah, but I have made many preparations. I won't tell you everything, but I believe we can fight them." Alex assured her before saying, "Anyway, if you can fully support our side, our chance to fight them will increase."

While discussing this information, Alex had been using his Spirit Eyes the whole time to see the fluctuation of his energy. Fortunately, he didn't see any form of parasite hiding inside her body, so she might not be a double-agent.

"I understand your point, but it doesn't mean I can let go of your past, right? Your reputation alone scares so many people in this universe, making me a bit doubtful of your action. What if when everything is over, you are going to kill us? None of us can stop you anymore." She narrowed her eyes.

"I know that, but at that point, I'm starting to question people's intelligence. If they know that I'm scary, why would they even offend me?" Alex shook his head with a calm expression, blaming all the stupid people.

Even Rubia didn't expect him to answer with another question. She blinked her eyes a few times before shaking her head helplessly. "What should I say to you, Spirit God? Should I just offer myself to you so you will protect me and my people?"

"Ehm, no." Alex rejected that idea with a poker face as if it was something that didn't need consideration.

"Oh, come on. I'm a beauty, blonde hair, and can use magic. I'm the perfect magical girl. If it's in my world, people will adore or worship me."

"That's your people. I'm not." Alex shrugged. "Besides, if you continue talking about this, someone may claim your neck, you know."

Remembering Anna and Jeanne that could appear out of nowhere, she quickly covered her mouth to avoid spouting any more jokes. The Spirit God seemed to not be fond of it.

Little did she know that Alex loved joking around, but it wasn't about this kind of topic. "Anyway, let's eat."

Alex glanced to the right and deactivated his Sound Insulation Array, allowing the server to enter to bring their food.

After all were presented on the table, the Magic Goddess couldn't help but comment. "It's hard to imagine that the Spirit God will eat in a place like this."

"There's food in front of me and it will be thrown away if I don't eat it. Why should I waste food? You tell me." Alex shrugged. This belief actually derived from when he was a high-schooler. He didn't have money for food and many things, so he knew that he shouldn't waste food.

He ignored whatever she said next and started grabbing all the food, eating them one by one.

Even the Magic Goddess was surprised to see Alex eating like this. Cultivators like them didn't have the need to eat for the rest of their lives, but some chose to eat as a form of enjoyment. Some even

compared them to wine or tea, saying, "If they drink tea or wine without complaining, why should we not eat food?"

Either way, Rubia ended up eating a small portion while the rest went straight to Alex's stomach.

After a while, she couldn't end up asking, "How is it? Is it delicious?"

"Well, I've tasted worse." Alex shrugged. "Anyway, let's move to the second topic."

Rubia tilted her head in confusion. "What is it?"

Alex stretched his hand and asked, "The treasures."

"You're still looking for that." Rubia rolled her eyes, never expecting that Alex would demand it directly after eating. "Can't you treat women a bit better?"

"I treat them as my equal and I'm equally ruthless to both men and women." Alex waved his hand while saying, "Treasures."

"..." She shook her head and asked, "What kind of treasure do you want?"

"Leka," Alex called Leka's name again as she finally came out of his pocket since she didn't want to disturb Alex during the conversation.

"Yes, Master."

"What a cute mouse." Rubia's face got closer when she saw Leka and observed her. "Wait. This mouse... This mouse is the Gold Digger Mouse?"

"Leka may be known as Gold Digger Mouse, but Master calls Leka with Five Colored Mouse, symbolizing treasures. Leka likes the latter better!" She confronted her before looking away while puffing her cheek.

Yes, no matter how many times he heard it, he truly wanted to kill the one who named this mouse as Gold Digger Mouse. He facepalmed and shook his head helplessly while gently stroking Leka's head.

"That's how it is, just call her Leka instead of her species."

"I understand." Rubia nodded.

Leka contemplated for a moment and said, "We need a treasure for cultivation. And in this city, Leka found a treasure... Although Leka doesn't know its type, it's near this place."

"Well, the treasure is in this restaurant. I know that you're aiming for this treasure, so I'm just saying that this treasure won't suit you. It's more suitable for me. Instead of going for this treasure, how about we go to my world to get another one? I have something that can increase your cultivation... Not you..." Rubia turned around and looked at Alex with a smile. "Yours."

Alex shrugged. "I don't mind. It's not like you can harm me."

"Haha. That's true." She made an awkward smile before saying, "Anyway, let me receive the treasure first, okay? I will leave you for an hour or so in this room and we can go to my world, so I can give you another treasure to compensate for my first impulse earlier."

Alex nodded as Rubia finally left the room.

Since he had nothing to do, he sighed. "Anyway, it seems that we have gained another ally..."

[Indeed. Anyway, since we know about the identity that we suspect as an Angel, do you want to fight him right now?]

"Nah. We don't have proof. If we attack him right now, it will be great, but we don't have much information about him. The moment we are surrounded, it's over." Alex shook his head.

[Then, I should investigate him.]

"It will just alarm him. I am planning to attack that guy, but it's going to be a bit later. Because I know that a big war will come soon, I'm planning for a sneak attack. Anyway, just follow my lead in the future. I have a plan."

[Well, you're the boss. Even when I turn my brain upside down, I still can't beat Anya or you.]

Alex smiled. "Anyway, make sure that everyone is in great shape."

[Understood.]

Alex decided to wait for Rubia while chatting with Eve, Elliot, Elle, and Leka. They agreed to return to this place and experience this world since it was Eve's wish. Alex could even use this place to reach Rank 2 God while Leka brought Eve and the twins around the world.

After a long wait, Rubia finally returned to the room. "I'm sorry for making you wait. Shall we go?"

#### [Chapter 1148 - Unknown Elemental Orbs](#)

Since Alex's Space Element had been known, he offered to use his Teleportation Array to travel through outer space to save time to which she agreed.

Of course, Alex didn't use his full speed to avoid the Magic Goddess from knowing his style was close to that of the Dungeon God's.

Her planet wasn't that far from their current planet, so they managed to reach there in a few hours. It was no wonder that Rubia chose to go alone without any Teleportation Array since it only took her three days of constant flying. It was just a small price to pay.

When they arrived on her planet, she invited them in to see her world.

To his surprise, this world looked modern enough.

"Hmm... This world looks like it has the same level as Earth's technology," Alex muttered while scanning the place. There were many skyscrapers, but they looked the same as those on Earth. The Blackwade Clan had more advanced appearances to be honest.

He also saw cars and such, albeit it had been adjusted to Spiritual Energy instead of gasoline. It didn't do any harm to the world, so the purity of this world could keep at this level.

"Look! We all have this kind of building and transportations. You know, if we look out the window while we are working and see so many things at once from up there, you will feel refreshed again... That kind

of thing? And do you know this transportation called cars? They can let you travel even if you don't have power." Rubia explained things with an excited smile.

She seemed to be very proud of her world, which had this advanced technology.

However, Alex shook his head and said, "Teleportation Array is better."

"That's where you're wrong. People love to possess something and if they can have it for their method to visit another place far away from them, they will do it because they will have more time with family than the Teleportation Array. This was proven as soon as I started my business to create all those. Of course, the idea came from another world."

Alex shrugged. "So? You can still domesticate the monsters as a travel method."

"It seems that you refuse to believe in anything I say, eh?" Rubia felt something wrong and knew that Alex wouldn't agree to anything.

"So you are not that dense?"

Rubia rolled her eyes and sighed. "Anyway, I will lead you to my home."

She waved her hand and flew to the west, heading straight to a certain skyscraper.

"This is my house. I am living there. Of course, the bottom floors are used for my office." She smiled. "How about it?"

Alex looked at this white skyscraper without anything that stood out.

"I don't understand what you're excited about." Alex facepalmed and shook his head. "Though I know that your treasury is right below this building."

"!!!" Rubia drew a gasp and looked at his eyes. "Your Spirit Eyes... Ah, I almost forgot that your Spirit Eyes were the dream of every single Magical Girl. You could see the flow of energy so easily."

Alex shrugged. "So, let's enter and not waste our time here."

"Tch. You're a boring guy." She clicked her tongue.

"Hmm?" Alex narrowed his eyes.

She forced a smile and stretched her hand. "Nothing. Let's go inside."

Alex followed her and went inside her apartment from the top. She then showed her pool or any other facility that her house had before entering the elevator to go down.

Because of Alex's pressure, Rubia decided not to waste time anymore, especially in front of many people to avoid making him angry.

As soon as they arrived on the first floor, Rubia led him through the corridor on their left before going around in a maze. After that, they found a giant metal door where two Rank 5 Gods watched the door.

"Magical Girl Rubia. Please accept our bow." The two suddenly acted as if they were on drugs and waved their hands like crazy.

Normally, she would smile and wave back, but Alex's glare became more intense when he saw something like that.

His voice echoed in her ears, saying, "You must love to be called that, eh? Magical Girl?"

Gulped down, she ignored him and channeled her power into the door. "Esta."

A magic circle made its appearance before it spun a few times, acting like a key.

After everything was done, the door was opened. Rubia asked Alex to enter with her.

She didn't forget to close it again to prevent anyone from entering.

It turned out that they needed to go through a few more floors underground before arriving at the most important room.

"Please wait here," Rubia asked politely, wishing Alex didn't enter the treasury to know what was inside.

Alex respected her that much and gave her privacy.

It took her an hour before she finally came out with a single round crystal in her hand.

"What's this?" Alex widened his eyes and looked at it with his Spirit Eyes, finding that the orb turned out to be the crystallization of Divine Energy instead.

"This is a Divine Orb. After doing some research, we have found a way to crystallize Divine Energy, allowing us to absorb that energy back to our body to increase our cultivation speed by at least half. Of course, this can only be done once in your entire life or it will damage the foundation of your body."

"Hmm?" Alex narrowed his eyes, feeling a bit suspicious. However, he couldn't see anything wrong with the orb, so he thought he could trust her a bit.

"This orb is the crystallization of my Divine Energy. It took me a hundred years to even make one, so I hope this is enough to apologize for my rudeness earlier."

"!!!" Alex widened his eyes, never expecting that she would give something that big. He began to contemplate whether to give her something in exchange since this was quite a big gift. Although he didn't need to exchange it with something at the same level because of the favor, he thought that the thought was important.

[How about giving her the Unknown Elemental Orb? I think she can analyze that thing from the system. It will be a big win for her and we can also get the benefit by getting an explanation from her. After that, we can set up a business trade between the two planets. I think that's a good idea.]

Alex thought for a moment and said inwardly, "Asked Sherry and Korzan."

[One minute.]

While waiting for their answer, Alex tried to buy time. "Such an expensive gift... I feel like I can't accept this one for an apology."

"This is the only thing I have to help you with your cultivation. I am afraid that none of my treasures will pique your interest, so rather than giving so many things at once, it's better to help you for the final battle. I'm trying to fulfill my role as your ally, you see." Rubia made a weird smile.

Alex contemplated for a few seconds until Lin Xingzhi gave an answer.

[Both said yes.]

Alright, he hurriedly said, "How about this... I have something I want you to take a look at."

"What is it?"

Alex took out an Unknown Elemental Orb and showed it to her. "This."

Suddenly, both her eyes brightened as she stared at the orb intensely, feeling the mysterious power in it. The orb itself contained Fire, Water, Ice, Wind, Earth, Lightning, Space, Dark, and Light elements, yet, it didn't give a feeling of that power. It was as if this orb was the crystallization of those elements.

"This... Orb... Can you sell it to me? I will buy it with everything you want. Wait! Why don't I offer myself? You will get a beautiful wife as well as the mystery of this orb unless you already know it." Stars appeared in her eyes as she shook Alex's body. Her face was close to his already, so Alex couldn't help but grab her face and push it away.

"You're too close." Alex sighed and took out another one. This time, he took out the Ice Elemental Orb since Letizia hadn't used it yet.

"Wait, this one contains a powerful Ice Element? It's different from the first one. It doesn't have any element other than Ice Element. No, it's probably the crystallization of an Ice Disturbance. Can I research about this?"

"How about we have a deal? I will let you study this under the premise that you will also share the information with Eulja. I can provide more of these crystals in the near future. I believe before long we can have a trade agreement."

"I'm on it." Rubia's eyes had no trace of doubt that something like that would happen. Suddenly, she dropped to the ground as if she realized something and sobbed. "To have your former enemy feed you something this good and even make such a deal is frustrating."

"Can you stop overreacting already? I'm already sick of it." Alex let out a long sigh. "If you don't want to, then I will just ask Eulja to research it. It may take a longer time, but I believe they can do the same."

"No, no! Please let me research it." Rubia grabbed his hands with excitement.

"Anyway, the deal will be simple. You're going to provide me information about your research and you have the right to mass-produce it in the future. Anything more will be determined in our business agreement in the future."

Rubia contemplated for a moment and nodded her head since she didn't lose much in this deal, considering that the potential of that orb might be higher than the orb she had.

"I, Rubia..." She initiated the Universe Oath to which Alex followed right after, sealing the deal.

Rubia then grabbed the floating orb and handed it to Alex. "This is the orb."

Alex nodded and gave the Unknown Elemental Orb to her. "I can only give this one to you because the other one is for my wife. Well, I will give you another one..."

Alex took out a few more Unknown Elemental Orbs that he had gotten in his journey.

Rubia's eyes couldn't stop shining as she looked at all these treasures.

"You're satisfied, right?"

"Yep, yep. I'm satisfied. I should have befriended you this whole time instead of getting caught up with the alliance thing. I would have started researching these precious treasures already. Ugh, is this the legendary scene where your enemy actually has anything you like? I mean, you know... Your enemy seems to have everything while your ally only has one or two."

Alex shrugged and ignored her idiotic comment. "Alright. Since we're done here, I need to go for another adventure."

Rubia waved her hand while smiling. "Have a nice trip."

She couldn't hide that smirk because the Unknown Elemental Orbs actually related to the source of her power. That was why she was excited. Not only could she unravel this mysterious orb and potentially mass-produce it, but she could also use it to increase her strength.

Alex, who didn't have an idea about it, simply used his Teleportation Array to go back to the previous world.

### [Chapter 1149 - Magic](#)

After finishing his business with the Magic Goddess, Alex returned to the previous world and specifically searched for a fight, so Eve could fulfill her desire.

To their surprise, they ended up finding the same couple they met not long ago, having another group of pursuers in their tails.

"Master. They're so unlucky." Leka couldn't help but comment.

Alex laughed before shrugging his shoulders. "It's probably because I knocked them unconscious."

"Ah, I see. That's their fault."

"Indeed. Let's watch them. Since I have gotten what I need, there's no need to rush anymore." Alex sat down in the air from afar, watching their every single movement without anyone noticing him. Leka was sitting on his lap as if watching a movie.

Eve, Elle, and Elliot also came out of the weapons as they observed this battle to see the difference between cultivators and magicians.

Alex, on the other hand, activated his Spirit Eyes to see what kind of fight they would show to him.

The man looked at the seven assassins while frowning. They seemed to be releasing a type of dark aura that screamed they were the bad guy. Alex could see killing intent, blood, and other things as if this guy was a mass murderer.

Still, if Alex truly released his everything, none of them would be able to beat him in those areas.

The guy shouted. "Do you think we are afraid of you? We have killed the previous pursuers and since you're courting death, I will grant you right here right now." The guy bluffed, taking advantage of the fact that Alex killed the black-clothed men to shake their emotions.

And it turned out he pretty much succeeded on it as the seven guys flinched. However, the leader shouted while pointing his blade at the guy. "Don't fret. Even if he killed them, he wouldn't have enough energy to spare. We will kill here right now."

With that single shout, the group regained their spirit and raised their swords.

"Yes, but you're too late." The guy tapped the ground two times before a huge magic circle appeared on the ground, enveloping everyone. The next second, they realized ten lights shone in the air as if they tried to purify them.

"Not good! This is a trap." The guys shouted while escaping the magic circle, but the guy was one step faster. The ten lights suddenly fell and hit the ground, exploding white light and engulfing the enemies.

"What is that, Master? I feel enormous energy from it." Leka asked, pointing at the ten lights.

"They are not a Divine Rank Expert yet, so it's just a simple Spiritual Energy. Though I believe this world calls it Magic Power instead. Anyway, cultivators are mostly using our own energy to influence the energy in their surroundings, but the majority portion of every single move comes from our body.

"From what I have seen from that attack, the person attracted the energy around it to create something bigger, allowing him to create that move without using much of his energy. To be honest, that's the reason why I feel like he can keep sending more and more attacks until the energy in the area starts to weaken.

"The Magic Goddess also has done the same thing, so I can assure you that's pretty accurate." Alex nodded with a serious expression as he continued to watch.

After creating that big magic, the female hurriedly helped him with a few magic circles that seemed to be boosting his power. The guy then used that power to create another magic circle before the group could recover.

"Anesta."

To their surprise, the ground began to shake before it emerged from the ground, creating a small hill with him in the center.

Once again, Leka was pretty shocked while saying, "Master, Master. That guy uses two elements. How? Does he have two elements?"

"I don't think so. That guy element is water to be honest. However, I feel like he is saying something that influences the movement of magic power, allowing him to control the Earth Energy in the air." Alex

shook his head while observing this battle clearly since it would be perfect information if the Magic Goddess ever thought about rebelling.

"Qima."

Boulders began to come out of the ground as they launched themselves to the sky like a cannonball, hitting the assassins.

Bam.

Bam.

Bam.

Three boulders hit and killed the pursuers while the others were cut by the assassins.

They finally recovered from the earlier shock and quickly climbed the hill to kill the guy, but he twisted his hand and a ring of water appeared around his body.

As if it was a portal under the sea, a strong current quickly burst out of that circle, trying to swallow them.

Since it was impossible to attack the guy from the ground, the assassins leaped to the sky and stayed afloat.

They created a rectangular to surround him.

The guy only raised his vision and said, "Only four of you remain here. Do you think you can fight me?"

"Don't think too highly of yourself." The assassins snorted before taking out a tube containing blue liquid. They drank the whole thing in one gulp as their eyes turned bloodshot and emanated the stronger aura from before. Their bodies also became bigger and buffed as if they were bloated like that of a balloon.

Yet, the guy only shook his head and said, "Idiot. I know about that medicine already and have been waiting for you to use it."

Not waiting for them to react, the female finally summoned four magic circles beneath the assassins' feet. Chains emerged and pinned them to the ground. Even with that huge body, the assassins couldn't do a single thing as if the chains were made of Rank 9 Materials.

The guy then tapped the ground with his staff and eight spikes came out of the ground, piercing their heads and hearts simultaneously, killing them.

"..." Leka widened her eyes and pointed her finger. "There's something like that?"

"Yep. That's called the pro gamer move." Alex nodded with a cold face before continuing. "Anyway, you need to do everything to kill your opponents because the other party might not honor the so-called chivalry when they fight you. Remember that, Leka."

Leka nodded with a serious expression. "I understand, Master. To put it simply, if I fight someone and another person stops the fight by talking to my enemy, I will use that time to sneak attack and kill him, right?"

"You're ruthless."

"Why?!"

"But I like it since you're right." Alex smiled.

"..." Leka swayed left and right while humming as if she got praised by Alex.

"Well, if they don't have enough experience and trust that person, you can do something like that. Unfortunately, they will team up against you if you fail to kill your enemy in a single strike."

"I understand. I will do anything to kill my enemy at that time." Leka repeatedly nodded her little head, taking Alex's lectures seriously.

Eve only facepalmed and shook her head helplessly, looking at her master, who was teaching "bad" things to Leka.

"Anyway, I have gotten a good understanding of their power system. They are using a kind of chant that allows them to control their surroundings. It's quite a unique concept, but the power won't be at the same level as someone who masters one element. Of course, there is always an exception like the Magic Goddess." Alex then rose from the air and disappeared with them, reaching a safe area that no one should come in.

He said, "Leka can bring the three to go around the world while I'm going to break through to Rank 2 God. I don't think there's much of a problem since Elle, Elliot, and Eve can use their power even without me wielding them. I will just give you a token to inform me when you're in trouble or you can escape to my position."

"I understand." Leka repeatedly nodded. "I will be protecting everyone."

"Yeah, yeah." Alex nodded and took them to another place. He dug a cave within a steep cliff before sending them off. "This is the time."

A token appeared on Alex's hand as he handed it to Leka. "This token can tell me your location as well as an alarm to me if you break it. I will quickly go to you. And you can even access the system and call someone like Jeanne or Anna to help you if you get into trouble."

"I know, Master. Leka is not a reckless type. I don't want to get caught again like in the past."

Alex smiled and turned to the others. "I hope that you four can get along. I will try to cultivate it as fast as possible."

Eve lowered her head and said, "May fortune be with you, Master."

"Thank you. Make sure you enjoy this world to the fullest, Eve."

"Yes." Eve made a big smile. The twins waved their hands to him as Alex gradually closed the cave entrance so he could start practicing.

Alex then took out the crystallization of Rubia's Divine Energy and started absorbing the energy. To his surprise, he could smell a bit of sweet perfume coming from the orb, making Alex wonder why such a smell would be stuck for so long. And there was also one hour gap before the Magic Goddess brought this crystal from the vault, so he thought there must be something important hidden there.

Unfortunately, he didn't have time to observe it more and proceeded with cultivation, sucking all the energy inside the crystal.

...

One year had passed since then and Leka had gone to every nook and corner, feeling that there wasn't anything to do other than waiting for Alex.

After getting into an agreement with Eve and the twins, Leka brought them back to the cave Alex practiced. On the way, Leka and the trio laughed over the fact that they almost got captured a few times because of various reasons, starting from Leka's species to a living weapon.

Either way, they had become a legend in this world that truly made people wonder why there was such a thing.

As soon as they arrived, Alex turned out to be still in the middle of his cultivation. Leka and the others decided to wait for him, praying for him to finish as soon as possible.

Leka also decided to confirm Alex's condition with Lin Xingzhi. After another three months, the Divine Energy in the area erupted as it was the sign of Alex breaking through to Rank 2 God. Not long after, the entrance gradually opened as Alex came out of the cave.

When they thought they would get a warm welcome from Alex, Alex's face was completely serious as he gazed at them coldly. "Let's go back. Something big will happen soon."

#### [Chapter 1150 - Alex's Plan](#)

A minute earlier, Alex, who just woke up from his cultivation, got a notification from Lin Xingzhi.

[Alex. A war is going to happen soon. You need to come back as soon as possible.]

"!!!" Alex widened his eyes before frowning. "A war, huh. This time they will shamelessly make a move?"

After contemplating for a few seconds, he rose from the ground and opened the cave, saying. "Let's return. Something big is going to happen soon. I apologize that I can't fulfill my promise to go around the universe for a bit more, but we will do it after this."

Eve made a big smile and said, "It's fine, Master. If it's anybody else, we won't be able to say this, but unlike them, you don't make an empty promise. We understand."

Alex scratched the back of his head and nodded. "Let's go back then."

However, Alex thought of another thing before he returned. Instead of going to Eulja, he went straight to the Magic Goddess's world to visit her.

As expected, the moment he entered her house, the Magic Goddess managed to pick up his presence and showed up.

"What is this? Are you asking for the research right now? I'm in a good part, you know. I will fulfill my promise after this." Rubia shook her head with a serious expression.

Unfortunately for her, Alex didn't come for that. He simply took a folded paper and handed it together with a token.

"This token will give you an induction when I break the other half. At that time, I want you to open this paper and follow what's written inside. Can you promise me? This is very important."

"Hmm?! A war?" She narrowed her eyes.

Alex didn't answer her. Instead, he just left her without saying anything.

After a "long" journey, he had finally arrived at Eulja, where Lin Xingzhi asked him to enter the war council immediately.

Alex followed her instruction without hesitation and found the Six Elemental Gods, Five Guardians, Strategists, Korzan, and even Alaya as well as God of Wrath. Since Anna and Jeanne had become God Kings too, they also participated in this council.

"I assume we are attacked?" Alex narrowed his eyes.

The room atmosphere turned heavy as they released their killing intentions after getting to know their current situation from Anya earlier.

"As expected..." Alex closed his eyes for a moment.

Anya came to him and said, "We're not the one, but the God of Destruction."

"!!!" Alex opened his eyes in surprise and thought for a moment. "Well, that doesn't change my plan."

"Anya, give me the status report."

Anya nodded and started her explanation. "According to our information, there are two God Kings that will attack the God of Destruction: The Dragon God and the Phoenix Goddess. I'm assuming they attack us because of the grudge, but I feel like they have another meaning. Then, Aria said..."

Before she finished, Alex pointed at the ground while saying, "Eulja is their target or any other people in our alliances."

"Exactly so."

"By directing us to help the God of Destruction, they will have the chance to attack us or our allies." Alex let out a long sigh. "Anyway, Lin Xingzhi and I will go to help the God of Destruction. What do you think, Alaya?"

Alaya's expression turned serious since Alex must want her opinion because she once stated that the God of Destruction was the closest to have the power of the previous generation of God Kings.

After thinking for a while, she said, "I don't have any assurance, but I think he can buy enough time. The same applies to Lin Xingzhi. From what I have seen, you haven't reached it yet, right?"

Lin Xingzhi looked down, feeling ashamed. "Yes."

"Buying time is enough. They are also planning to buy time, so I have an order ready." Alex made an evil smile.

"You have it ready?" Anya dropped her jaw to the ground.

"This move is above my expectation, but it's still within my imagination. Why do you think I choose to kill their people first before killing the head?"

"Don't tell me, you have been planning to make them think that you're planning something big for them, so they need to attack you once to create confusion?" Anya slammed the table as she recognized his intention after such a clue.

Even the others were shocked.

"You see, I still hate them for the fact they are trying to destroy Eulja when I and the others fight on another battlefield..." Alex smirked.

Everyone drew a gasp as they looked at Alex's sinister expression and remembered the war a few years ago where ten God Kings fought.

Alex nodded and announced. "I'm creating three teams. Lin Xingzhi, I, and Korzan will go to assist our ally, the God of Destruction. I need ten thousand God Rank Experts to follow us."

"Eh?! Me as well?" Korzan pointed at himself in confusion. This was the first time Alex asked him to go to the battlefield outside Eulja territories, so it was no wonder he was stunned.

Alex ignored him and continued his order. "The second team will be protecting Eulja, helping the Ten Commandants. They are Anna, Jeanne, and Marcus. You are in charge of Six Elemental Guards and Five Guardians, making sure that our area is well-protected. If they hit another ally, you are to go there to help them according to your discretion.

"The third team will be Alaya and Ten God Beasts. Someone contact them for me please... Anyway, you are to assess the situation. First, I want you to confirm whether the Angel or the Bats are ready or not. If they are coming at us, you are to call our allies to help the second team."

Alaya nodded with a serious expression before smiling. "I see. If the purpose of this fight is only to create confusion to buy them some time since the two are most likely not ready for war yet. Hence, after confirming it, we can ambush either battlefield and eliminate them."

Alex made a big smile as if he was excited about this war.

...

Meanwhile, his allies also received a report from Eulja about their current situation.

Inside the Holy Palace, the Holy God held a meeting with his retainers while looking at the letter that Eulja's messenger brought.

The Holy God could only shake his head helplessly, stunning all of his retainers.

"Your Holiness..." The Saintess furrowed her eyebrows and asked, "What are we going to do? The God of Destruction is..."

The Holy God waved his hand, stopping her from talking. He finished reading the message and sighed. "Ugh. I feel like being toyed with by the Spirit God."

"What do you mean? We have agreed to be his ally in this battle, but it doesn't mean he can look down on us." The Saintess slammed the table.

"My beloved daughter... You should calm down a bit. Do you know what people think about you? Berserker Saintess... That's the first time I have heard something like that." The Holy God let out a long sigh. "Anyway, the Spirit God can't cease to impress me. Since you like to battle so much, how about you lead the army to do something, Daughter?"

"Where?" The Saintess asked, ignoring her father's previous remark about her being a brute.

The Holy God smiled and said, "To..."

The same situation occurred in the same lake where the Song Goddess played her zither. Her assistant visited her and conveyed Alex's message. "Your Majesty, I have brought the message from the Spirit God."

"Please tell me." She smiled and continued playing her zither. However, her eyes already started emanating killing intent, feeling pretty excited to fight under the Spirit God again.

"Actually, he is asking you to gather our armies and move to the north a little bit."

"Alright. I will leave the army arrangement to you. What's next?"

"You're to stand by for an unknown period of time."

Teng.

The note of her music suddenly changed as a string snapped. The Song Goddess turned around and widened her eyes. "Stand by? What?"

Just like the Song Goddess, the Palm God also received the message that he couldn't comprehend. He sat face to face with his wife, who was making a stern expression as if telling him that the moment he opened his mouth, he's dead.

A few minutes passed and the Palm God finally couldn't wait any longer. He slammed the table and shouted. "Wife! What do you mean we are to not make a single move at all?! I can't comprehend this. Tell me the—"

Just like their usual conversation, the War Goddess grabbed his hand, slammed his head to the ground, and buried it. "As I said, we are going to stay here without doing anything. Can't you understand?"

"Mhmemehmehm." The Palm God seemed to say something, and surprisingly enough, the War Goddess completely understood it.

She sighed and decided to explain. "I can tell you the reason, but you're going to promise me that you will stay in the bedroom for three days."

"Of course, I will do everything for you."

"I don't trust you. You always choose to escape. Now I demand a Universe Oath."

The Palm God gulped down as he truly planned for that. He now needed to face a challenge whether to go alone to create a mess or follow his wife's words. After contemplating for a few minutes, he decided to swear to the Universe.

The War Goddess narrowed her eyes and nodded. "Alright. Listen to me. I'm going to say it once since I'm too busy right now."

"Yes, yes."

"It's simple. We're here to confuse the enemy."

"What? We can do something like that without even doing anything?"

"Yes. Just like how they want to confuse us, the Spirit God has another plan to turn that around. I have read his message and understood what kind of thing will happen on the battlefield. Still... The Spirit God... He is truly scary." The War Goddess sighed, wondering whether it was alright to let Silvia with him.

The only thought that lessened her worry was the fact that the Spirit God was overprotective to his family, so at least she would be safe and sound.

"Right! This is the son-in-law I have chosen. Sometimes my genius is...? it's almost frightening."

"You just like gambling. I don't call it genius." She shook her head helplessly, not knowing how to beat some senses to this guy's head anymore.

"Fine, fine. Through that gambling addiction of mine, I could find a beautiful and caring wife who is also capable and independent. Through another gamble, I have the best daughter and son-in-law under Heaven. Through another—"

Before he finished, the War Goddess cut in again. "And you lose this one gamble because you annoy me..."

Bang.

She slammed his head again to the ground with her foot.

And as expected, the Palm God didn't know when to give up as he raised his hand and said, "Wife... I prefer black."

The War Goddess's eyebrows twitched as she knew what he was talking about, considering she was wearing a skirt. She put more power into it and buried the whole body in the ground.

He... never learns.
