The Lizard charged toward him. Alex only grabbed its head and threw it to the ground. He took out a few spears and pierced it on the lizard body, precisely, it was the lizard's hands and feet, making the lizard can't move.

Alex then summoned Anna for now. "Summon"

Anna appeared in front of him.

"Anna, I wanted to try something."

"Please just use me however you like, Young Master."

Alex felt annoyed and flicked his finger on her forehead. "Don't say 'Use' like that. You are not a tool."

Anna was surprised, and She let out a bit of tear. Alex was confused at the moment. "Anna?"

"Ah, no. My ki... I mean, Young Master" Anna wipe her tears in her eyes. "Let me correct myself, Young Master. What should I do?"

"How about you try attacking this lizard?" Alex pointed out his finger toward the lizard that was pinned to the ground.

"This Lizard? Understood" She raised her scythe and swung it down. But, when her scythe touched the lizard. It broke into crystals. Anna makes a weird smile and apologizes to Alex hurriedly, "I'm sorry, Young Master. I'm very useless."

Alex instinctively pat her head. "Don't worry about it. How about your scythe? We need to repair it... Ah, I'm sorry. I pat your head instinctively."

"No no, For me it's a reward from Young Master."

"Eh?" Alex looked at her weirdly. Her face is a bit red. Anna immediately changed the topic "My scythe is also fine. I just need to call it back and wait for a while, and it will be back to normal."

The scythe disappeared. After a while, Anna called it back. The broken scythe suddenly becomes her previous scythe like nothing had happened.

Alex nodded. Then he continues his experiment. He killed the lizard and looked at Anna. "How about it?"

"Ah, yes. Young Master is very handsome."

Alex makes a weird face, "I mean, how about your Exp? Is it increase?"

"Oh, that's what Young Master means. It didn't increase."

Alex was in thought. He took Anna to the lower floor when there are two orcs came to them. Alex incapacitate them. He took out his sword from the inventory and gave it to Anna.

"Anna, try to kill him with this sword."

Anna nodded carefully. She took Alex's sword like it was the biggest treasure in her life. She killed the Orc with Alex's sword. Alex confirmed with her again. "How about now?"

"Yes. It increased. I got 125 exp just now."

"Hmm... A big exp you got there. Well, it was to be expected, since you killed a rank 5 monster when you are level 1. Then, the next one. You injury it with the sword, and then I will kill it."

Anna nodded. She stabs the orc enough to injured him pretty severely while not enough to kill him. Alex then kill the orc.

"How about now?"

"I still got 125 exp."

"Hmm..." Alex pondered for a moment, and he makes another plan. He grabbed another monster.

This time, he called Leoz first. "Summon"

"Young Master" Leoz greets him. Alex nodded. "Then, Anna, please injure it like before."

Anna nodded. She stabbed the monster. After that, she pulled out the sword. Seeing the wound, Alex nodded.

"Then, give the sword to Leoz. Leoz, I wanted you to kill it with the sword" Alex said. He decided to go with his sword. If not, the accident like Anna scythe will happen again.

"What?" Anna was shocked. She looked at Leoz hatefully. She handed the sword to Leoz even though she was very reluctant to do it. Leoz didn't care about it. As he took the sword, he killed the monster immediately. "How about now? How much you get now, Anna?"

"I got 61 exp."

"How about you, Leoz?" Alex nodded and asked Leoz

"I got 64 exp."

"I still need one more to make some conclusions" As he said that, he grabbed another monster. "Now, I wanted you two injure it while I will be the one to kill it."

Since the sword still in Leoz's hand, he was the one who injures the monster. Then he gave the sword to Anna. No, basically, Anna snatched it from his hand. After she took the sword, she stabbed it. After that, Anna gave the sword to Alex. This time, she didn't give it reluctantly. Instead, she was delighted to do so. Alex killed the monster.

"I got 60 exp", Leoz

"I got 65 exp", Anna

"Hmm, it still the same amount" Alex muttered. It seems that it's like the party system. While he is in the center while he also outside of the party. He can help them kill the enemy to get exp, but after they injured them. The calculation might be different if they are not on the same level. But too much calculation needed. He just needs a rough conclusion. For now, he was planning to get them to Level 5/6

in this little time. He is sure that the exp would be less when they level up. And he needs to power leveling seven of them. Well, he didn't have anything to do anyway. So why not, they will also become his strength later.

"Alright. We will continue"

After he finished his experiments. He continues grabbing monsters and let his Spirits kill them. Alex already expected when Anna level up, the experience they got, become lesser. Alex continues doing that.

...

After three weeks.

"Anna, kill it."

"Yes" She raised her scythe, "Dark Cut."

They are currently on floor 74th. Alex's group killed another monster, which is a rank 7 tiger. All of them now reached level 7. It is equal to rank 6 according to this world power since they started from level 1, not 0. With Alex as the vanguard, they can bombard the monsters easily. At first, Alex was overwhelmed. It is a bit hard to help Stallion or Green Slime level up. They didn't have a weapon, nor they have a hand to hold his sword. After a while, the slime can extend its body to hold the sword while the stallion used its mouth to hold the sword. Though it took a while, it was worth it. All of them could kill one rank above theirs if they fought together. Of course, after a while, Alex stopped helping them.

After three weeks, Alex didn't need to worry anymore about fighting in this floor. He also learned about their element. From those six elements, Even if their element is Fire, some spirits hold magma power or heat control. Basically, it classified as Fire as long as the Spirit manipulates 'heat'. The same as water, it can also be Ice and so on. While earth means nature, it can be ground, wood, plant, or wind. The simplest is Thunder, it is only Thunder, literally. Light can be a holy attribute or support like a blessing, while dark can also be a curse element. All of those power condensed into six primary elements, which are Fire, Water, Earth, Thunder, Light, and Dark.

"Alright. We have been three weeks in here. I'm going to go back after this. What are you going to do after this?"

"We will continue killing monsters in here" Anna said

"You are not going to attend my wedding?" Alex asked

"I'm sorry Young Master."

Alex smiled, he patted her head again "Alright alright."

After saying goodbye to all of them, Alex disappeared.

Leoz looked at Anna. "Are you sure you won't go to his wedding?"

"Yes" Anna bitterly said

"So you are jealous. Well, that was to be expected. After all, previously. You and your twin sister are the ones closest to him. Oh, that's right. There is that goddess too, I'm sure her name is...Lin Xingzhi. And that guy, his butler, and his sword, Korzan."

"Well, Back then, Master pick us who is only a servant. He raised us with so much care and love. Even though we were very clumsy back then, Master didn't stop caring about us. He taught us step by step. Back then, when he told us that he wants to marry us. Even though he married sister Xingzhi first, It was still the best day ever for us. Even though at first, we are very hostile to her since she stole our Master. Her kindness eventually melts us, and we become friends. We accept each other. Since there is no first or second if we want to stay beside him, we agreed to it. But, when the day our marriage happened. That cursed being appeared and took all of our happiness. Master used his life to seal that cursed being.

We continuously searching for him until two years ago, Sister Xingzhi found him. When we know that he was in that exiled world, we understood the reason why we can't find him. But, once he comes back to this universe, sister Xingzhi immediately found him. When sister Xingzhi come to us about this plan, Big sister and I are the first ones to agree. If previously we can only accept his kindness, now, we are going to accompany him, protect him, become his shield and his sword. Sadly, you are the one who got picked first."

"It was random after all" Leoz said. "Besides, even though you two are twins. You are the opposite of each other. One is Dark, one is Light. One is shy, one is confidence. You can't convey your honest feeling to him. While your sister might seduce him immediately. But I'm confused. Usually, the dark color was for a seductive succubus, while the white color was for a shy and pure holy maiden. Well, one thing that you twins are the same. You both love him"

"I am Dark Butterfly Spirit while Sister Anya is Light Butterfly Spirit. Don't compare us to the like you, Thunder Berserker" Anna retorted him while blushing. "It is unfortunate that sister Xingzhi can't go with us like this to accompany him. She said she had something to do. Well, she said she will visit him from time to time, but I didn't know how she will do it."

"Korzan also can't be with us even though he wants to accompany him. He can't. He needs to watch over our Spirit World."

"Of course, some of our tribe chiefs also need to stay."

"Haha... Even if thousands of years have passed, our loyalty will never change."

"You don't need to say that. He will always be our king. And even though he had reincarnated. His habit is still there."

"Oh, you mean treating you like a kid?"

"What do you mean treating me like a kid! It is his way of showing his love. Do you want to die, Muscle brain?" Anna was immediately angered.

"Right right. Showing his love" Leoz laughed. "Even though he didn't have his previous memory, he still loves patting your head, he is unconscious about it, though. If your sister comes too, I'm sure he will also like that."

"Hmph!"

"But, are you sure we need to keep this secret?"

If Alex was here. He will be shocked. What kind of identity he had? What are they? Are they really his summoned being? Or something more? Was he really reincarnated? Who was he before? And especially, is that a Chinese name? It must be a coincidence, right? After all, there are countless worlds out there. Some similar names might be possible, right? And who is she? How many secrets that the system hold? How many secrets that he wasn't aware of?

"My king will know all of it later as he got stronger and stronger. If we told him about this, what kind of reaction will he have? He will be shocked and can't believe all of it. Our job is to help him as many as possible, even if we need to sacrifice our lives."

"Of course, I know that. But... how mysterious is that power called 'System'. It can convert us like this"

"Yes, I was shocked when I saw that power. I wonder where that power came from? Sister Xingzhi also doesn't know where it came from? Some theories are saying that there might be another place that has people much stronger than the gods and goddesses in this place."

"It's only a possibility. No need to overthink it."

"And besides..." Anna muttered.

"What?" Leoz looked at her

"Nothing" Anna shook her head. 'Besides, the way he is now, I'm sure that he won't accept any woman that he didn't know for long. I, Sister Anya, and Sister Xingzhi need to get closer to him and get into his heart slowly.'

...

Alex, who still ignorant about all of it, finally arrived in the capital city. When he came, he immediately searched for Alicia and Firia to prepare his wedding.
