

Gacha 305

Chapter 305 Inner Disciple Tournament (10-Win)

"Spe... Spear... Spear Domain!"

All people, including Charya and the others, immediately got shocked by the sudden appearance of a Spear Domain.

Alex could use a Spear Domain was undoubtedly shocking, but the most surprising thing was he used a Spear Domain but with a Sword.

They recalled what he said before he released his domain.

"The spear has a shorter blade but longer handle while the sword has a longer blade but a shorter handle. As long as you bypass that condition, they are the same."

They sucked a cold breath. Not only was Alex a sword genius and an alchemy genius, but he was also a spear genius. And he could even release his Spear Intent and Spear Domain with a sword.

"Why can he use a Spear Domain?"

"Is not he a Sword User?"

"And how the heck can he release a Spear Domain with a sword?"

The arena turned into an uproar. All of them questioned everything that they could not believe even though they saw it with their eyes.

Alex looked at the shocked Intan and said coldly.

"I will say it again. Senior Sister is far more talented than you. And I believe by the setback she received, she will come back and reach a greater height. That's what I believe."

Intan gritted her teeth. She also wanted to be surprised and commented like everyone in the arena, but She was still fighting with Alex.

"Your domain is not real! There is no way you can release a spear domain with a sword. I will prove it to everyone." She jumped forward and thrust her spear.

"Silver Raven."

Alex looked at her spear that became a little bit dull because of her shock. Alex also thrust his sword.

"Immovable Step (+) Silver Raven."

Even though she was still shocked, he would not pull his punch. His Immovable Step immediately gave him the power he needed.

When both of their blades collided, it sent a massive shockwave to the arena. And a moment later, a loud crash sound was heard.

"Boom!"

Alex used his powerful strength to blow her away. But Intan also remembered what happened on Mega. She immediately rose again, so Alex would not be able to beat her like Mega.

"Bear Sovereign." Intan immediately tried to attack him with close combat with Bear Sovereign. After all, this Martial Art was a combination of Attack and Defense. She would engage a fight with him until she found a solution to the situation.

Alex only smiled as he said, "Bear Sovereign? I can do that too."

He also started moving with the exact movement like Intan. Both of them clashed with the same Martial Art. The others were too shocked by what happened that made them tongue-tied.

They clashed continuously for a few minutes. Intan used every ounce of her strength but could not get an advantage on Alex. In the meantime, Alex used that chance to exhaust her.

"Quick Silver!"

"Quick Silver!"

"Boom!"

Their fighting styles were completely the same, and Intan was starting to be depressed. She looked at Alex with eyes full of hatred. She realized she had been baited by him. But she could not afford to lose this fight as it might mean the end for her.

"You are just replicating me. Then, let me see how you can replicate this." She raised her spear and swung it down.

"Jewel Wind."

Alex only let out a smile when he saw this. He raised his swords as he started covering it with Spear Inten.

When Alex swung his sword, he suddenly generated a wind pressure, and this attack looked like the 'Jewel Wind.'

"Boom!"

The people could feel the sharpness from both attacks. And it could be said that Alex managed to replicate the Jewel Wind. Both of their attacks destroyed each other.

"How? How can you use Jewel Wind? You... Don't tell me your element is Wind Element!"

"If I have Wind Element, I won't be able to become an Alchemist. You are truly an idiot. Jewel Wind concept is to make a wind pressure that contains an overbearing sharpness. I just need to recreate that pressure with my Spear Inten." Alex said.

That was what he did to replicate the Jewel Wind. With his Spear Intent, he made a pressure that was equal to the Wind Pressure that Intan generated.

Although Alex could not use the Jewel Wind to its full potential, it was enough to generate the same power as Intan's Jewel Wind.

"You!"

Alex raised his sword and said, "This is the combination of Silver Raven and Bear Sovereign. I called it Silver Sovereign. Let see if you can take this."

Alex jumped forward and started clashing with her again in close combat.

But Alex's movement suddenly sharpened and even more precise. The predictable movement of Silver Raven had been solved by the profound movement of Bear Sovereign. It was the same for Bear Sovereign.

From others' perspectives, Alex was dancing. His every step was refined and precise. He tried to suppress Intan on every single occasion.

Especially for Putri. When she saw him performing this Martial Art, the masked man figure that she met on the battlefield immediately flashed on her mind. When she watched the masked man, she was mesmerized by his Martial Art.

She tried to follow him on every occasion just to watch his Martial Art, and maybe she could learn something from him. But the situation became even more chaotic so she couldn't keep up with him.

She finally realized that Alex never left the battlefield. He was there all the time. She involuntarily made a little smile and said, "So, you are always there."

But when Song Yu, who was beside her, noticed her smiling. Even if it was small, she was finally relieved. It seemed she had come to term with her condition.

Unfortunately, Alex had shown a little bit much in this battle. She was afraid that he would be targeted by influences. She might need to call her sister back to this place for a while. Of course, what she wanted was Sana, a peak Martial King.

She continued to watch the fight for the time being while calculating the plan to protect Alex. On the stage, Alex tried to suppress Intan.

But as expected of Intan. As an elite 10-Star Martial Grandmaster, Intan tried to block his advantage every time, giving him no opportunity to exploit.

Unfortunately, in this confusion, she needed to fight Alex with more energy because she didn't know how to counter Alex at all, even though she managed to stop Alex from suppressing her.

Alex just enjoyed his battle for a little bit until he could find an opportunity to beat Intan like what he did to Mega.

He continued clashing with Intan to wear her out. Until at one moment, Intan suddenly took out a yellow pill and swallowed it.

"You are the one who forced me to do this." Intan looked at Alex hatefully.

Alex instantly recognized the yellow pill. It was a rank 3 pill called rage pill. The effect was the same as Berserk Pill but a bit lower. The pill would give her a boost of power in a short amount of time. But after the effect wore off, she would be unable to cultivate for one month or more.

Her energy immediately sparked as soon as she swallowed the pill. Alex knew this pill, but he didn't want to make it because of the backlash, and he also had a skill that had the same effect as the rage pill.

He looked at Intan's energy. After swallowing the pill, her energy increased to a surprising level. Intan's strength alone suddenly became equal to a Martial Lord. But unlike an actual Martial Lord, her cultivation was still a peak Martial Grandmaster. If Alex should classify her, she should be a false Martial Lord. When he got astonished by that, she disappeared from the arena.

The moment she appeared, she already tried to thrust her spear on Alex. Alex didn't let her do that.

He raised his sword to deflect her spear, but surprisingly, when he tapped her spear, she managed to deflect it easily.

He realized he was baited. Intan immediately kicked him on his abdomen and blew him away.

"Boom!"

He crashed into the wall. But Intan didn't give him a chance as she immediately plunged her spear toward him.

"Flash Step!" Alex disappeared.

They started clashing once again, but this time, Intan had the upper hand. Alex was starting to get suppressed. But even though he got suppressed, he could just wait a few minutes, and the pill would wear off.

But in this fight, he wanted to show that even without Spear.

"Silver Sovereign."

"Boom!"

Alex used his Silver Sovereign to make distance with Intan. He took a deep breath before saying,

"Full Throttle."

Suddenly, his energy also sparked and increased in the same way as Intan. His cultivation reached 8-Star Martial Grandmaster at this point.

"Let's start round two." Alex also disappeared.

Clash after clash filled the arena, and it could be said that this was a fight that was beyond everyone's expectation. After Alex used his full throttle, he increased his prowess by twenty percent. He finally reached the same level as Intan.

Everyone got shocked again when they saw Alex also managed to reach Intan's level, which had been boosted by a Rage Pill.

Intan started becoming desperate when Alex used his Full Throttle as she could not see any chance of winning.

"You can do it, Alex." Suddenly, a loud shout reverberated the arena. It was a woman's voice, but for Alex, it was a very familiar voice.

It was Putri's voice. She managed to light the fire inside her heart again because of Alex. So, she didn't want Alex to lose this match.

Beside her, Song Yu looked at her with an astonished look. But soon turned to a gratified smile. Even Charya and Evelyn looked at each other and smiled. But when they smiled at each other, the sixteenth elder suddenly appeared in the arena.

"Not good!" Just with a moment of carelessness, the sixteenth elder escaped from Charya's observation. She jumped forward to stop her, but it was still too late.

But at that time, the third elder finally enraged. He released his full power and said deeply, "All of you are rather daring to ignore this old man's presence multiple times."

He released his 10-Star Martial Lord stage cultivation and sent the sixteenth Elder and Charya back to their room. He glared at them, telling them if they came to the stage again, he would be impolite.

Alex was surprised to see that. He never knew that the soft third elder could also show something like this. But at that moment, Intan jumped forward and thrust her spear toward Alex.

"Silver Raven."

Seeing that, Alex shook his head. He raised his sword, "Like I said, when you can overcome their differences, you can treat them as the same weapon. So I can also do this."

He swung his sword down.

"Seven Stars Cut."

A five layers Seven Stars Cut suddenly flew from his sword. Surprisingly, the Seven Stars Cut was covered by Spear Intent. After all, Alex had promised with a Heavenly Oath that he would fight with his spear in this match.

Intan's spear collided with Alex's Seven Stars Cut.

"Haaa!" Intan used every ounce of her strength to break through this attack and defeat Alex. Unfortunately, Seven Stars Cut was a Heaven Tier Martial Art.

"Boom!"

The Seven Stars Cut blew her away to the wall. And Elder Dolf immediately stopped the match. "Alexander Siri-!"

"I haven't lost yet." Intan suddenly came out of the wall and shouted. She couldn't afford to lose this fight. She said to Dolf Kolk with great difficulty, "I can still fi- Puah!"

Before she finished, she spat blood and fell down to the ground.

The third elder shook his head and announced, "Alexander Sirius Wins!"
