

## Gacha 316

### 316 OP Guy Showed Up

"I never thought I would use Master's token this fast." Alex said in a disappointed tone. He was disappointed to himself as it was only two years after he came to the upper world.

But Alex could not do anything except asking for help. His Space Element had been sealed and even if he managed to escape, the others would die. He only cared about Charya, Song Yu, and the others. He never cared about other people even though they had the same sect.

After all, Alex was not a hero or a good person. He was a careful person.

Alex laughed loudly. "Hahahaha!"

His laugh reverberated on everyone's ears. They looked at him in confusion.

"What is funny?" The white haired man looked at him like he was looking a fool. He thought, 'Did this situation make him an idiot?'

"You are the one who forced me to use it. So... I will leave it to you, Master." Alex activated the token that Maxwell gave him.

Suddenly a person came out of the token. It was not a token but it was a will. The man looked like he was in his early thirties. With red long hair fluttering, and a kind of cosplay like costume on earth that made his appearance look gallant.

"Hmm..." When Maxwell suddenly appeared, he was still clueless as to what happened. He looked around and saw a few Martial Kings along with many Martial Lords were going to fight.

He then looked at Alex and asked, "What is this about, Alex?"

Everyone was surprised to see the sudden appearance of Maxwell. They did not know anything about this person. But the sect master as well as the elders heard what he said. They asked inwardly, 'Master?'

The person looked so young. But they never thought Alex would call him 'Master'. Even Song Yu tried to see through Maxwell but to no avail.

Alex approached him and said, "Disciple is useless. I can only ask for help from Master."

"Hmm?" Maxwell looked at him in confusion. Then he glanced toward the situation and realized why he said that. "I see, three Martial Kings and many Martial Lords."

"But still. To think you have reached 8-Star Martial Grandmaster in only two years. You are much faster than me." Maxwell said.

But before Alex could answer, there was suddenly a laugh that filled the air, "Hahahaha! I thought you wanted to call someone. To think you only call a person's will. This is so laughable."

"..." Maxwell only looked at him without any expression. He then turned to Alex, "Are they really your enemies?"

"Yes." Alex said, ashamed.

\ "Anyway. Do you remember about the requirement as an Array Master?\ "

Alex nodded.

\ "Since you have been practicing about that. I will show you something interesting.\ " Maxwell said casually as he turned to the people from Zhou Kingdom and Brynhildr Kingdom.

\ "Haha, show something interesting? What kind of interesting thing can you show us?\ " The white haired guy was laughing. He did not sense anything from the will. He never saw something like this in his entire life so he was convinced that Maxwell did not have power to oppose them.

Or at least, his experience as a Martial King convinced him like that. He had become a Martial King for too long so he started looking down on people.

Maxwell snapped his finger before suddenly two Arrays appeared. One of them appeared a bit far from them without anyone around it. And the others appeared around the people from the Zhou Kingdom.

\ "!!!\ " They were startled to see an Array appear around them. Unfortunately, before they managed to react, they suddenly got teleported to the second array.

The second array immediately erected a transparent sphere and locked them inside.

\ "What!\ "

\ "Array Master?\ "

\ "Why did we suddenly get enveloped by an Array? Was not an Array Master could only make an Array around them if it was not made by monster's blood?\ "

Many started to panic.

\ "Attack!\ "

\ "Destroy the barrier!\ "

\ "Boom Boom Boom!\ "

They started attacking the barrier but to no avail. Maxwell snorted, \ "Hmph. You are questioning me? What can I do? I can't do anything except this. I even hold back against you guys by only making a rank 7 Array. If my main body here, I will make a special array to even lock your soul inside for eternity.\ "

When they heard that, they gasped. Even the people from Heavenly Sword Sect sucked a cold breath. A rank 7 Array was equal to a Martial Monarch. Alex's identity was very mysterious. They remembered when the sect master told them about Alex's protector.

He said Alex's protector could destroy the entire Heavenly Sword Sect easily. They could not believe it until they saw this. Even Song Yu got shocked by this. She thought her identity alone was already crazy. It turned out Alex's identity was far bigger.

Maxwell could easily use rank 7 Array and it was not even his main body. She thought, 'What if his real body came to this place?'

She could not help but gasped, even her clan might not be able to fight with such a being.

\ "You bastard, let us go!\ "

\ "Do not you know who I am? I am-!\ "

The people inside the sphere started shouting but because it was too loud. Maxwell made a Sound Insulation Array.

\ "Alright. The nuisance has gone for the time being.\ " Maxwell said casually like dealing with them was not even a problem. He then looked at Alex, \ "Do you see what I just did?\ "

Alex paused for a bit before nodding his head. As soon as Maxwell said he wanted to show him something interesting. Alex did not know why but felt he should use his Spirit Eyes.

When he activated his Spirit Eyes, he could see Maxwell used his Space Element. He could see many blocks of condensed space in the spot of the two arrays. It then suddenly dyed with Symbols.

And he was shocked to the core when he saw what Maxwell did next. He assembled the space block that contained symbols within it together like playing a puzzle (Jigsaw Puzzle). When he finished assembling them, he then transported the array into the real world and activated it.

From others' perspectives, they could only see there was an Array that suddenly appeared around them. But for Alex, he could see how it was possible.

Two Space Element Martial Arts suddenly came to his mind. Spatial Door and Space Plate. He pictured making symbols on the Space Plate and transported them to the real world with his Spatial Door.

\ "Back then, I had two friends on this continent. I gave them my foundation Space Element Martial Arts: Spatial Door and Space Plate. I forgot to tell you about this back then. My friend's name was Skewes and Mirtha. I asked them to pass the Martial Arts to my disciple if he came.\ "

\ "!!!\ " Alex's body shook. Although he did not know who Mithra was, he could certainly remember the name of 'Skewes'. After all, from them he got the Spatial Door. And he had learned both Arts. Alex said, \ "Master, I have learned both of them.\ "

\ "What?\ " This time, it was Maxwell's turn to be surprised.

\ "I learned the Space Plate from this sect's Martial Arts Pavilion. And I found the Spatial Door in a corpse from Skewes Family. But Skewes Family... had long been exterminated.\ "

Maxwell opened his mouth in surprise. He closed his eyes for a moment before saying, \ "Well, I could not be more surprised to hear that. Well, both of them are weird people so I do not need to worry about them too much.\ "

\ "Alright. Since you are an 8-Star Martial Grandmaster, I hope you are not slacking on your Alchemy and Array, right?\ "

\ "Yes. But Master, are you sure we can talk about this in here?\ " Alex said while glancing at the others. He was worried if the others heard about this.

\ "Let them hear. I can solve it later.\ "

\ "Master, are you going to...\" Alex did not complete his sentence. But everyone was able to understand what he was going to say. They gulped down.

\ "Nah, do you think I am a person like that? Don't worry, there won't be any problem with them.\" He said casually. And suddenly everyone let out a breath of relief.

Alex hesitated a bit before taking out two badges from his Space Ring. He showed them to Maxwell, \ "Yes, I have not been slacking.\"

\ "Oh... Rank 4 Alchemist and Rank 4 Array Master. You have certainly surpassed my expectation.\" Maxwell was astonished to see both badges. Alex was different from him. Although Alex was also a reincarnated person, he did not have his previous memory.

Unlike him who had his previous memory, Alex would not understand anything about Alchemy and Array since he did not teach him that much. To think Alex had achieved rank 4 for both of them, it certainly surprised him.

But, others' reactions were the opposite of him. They became a bit crazy inside their mind. They knew about Alex's identity as a rank 4 Alchemist. However, it turned out Alex was also a rank 4 Array Master. If the others knew about it, they might make a war with them just for Alex.

They never knew there was such a great person inside their sect this entire time. Even Song Yu who came from the Northern Continent got shocked by this. She knew Alex was an Alchemist, but she did not know anything about Alex being an Array Master. And both of them were rank 4 to boot.

Only Putri who was a bit calmer than the others. After all, she was the only one who knew about his identity as an Array Master.

\ "Well, it seems I don't need to worry about that. Your goal for the time being is to replicate what I did earlier.\"

\ "Yes.\" Alex suddenly recalled a matter, he asked, \ "Master, how about Alicia and Firia?\"

\ "Oh, she has not come yet. But do not worry. After what you did, I am sure they would surely be safe.\"

\ "I see.\" Alex sighed. He missed them.

Seeing him like that, Maxwell continued, \ "You should worry about yourself. I am sure they will catch up with you in a few years.\"

\ "Yes, I understand.\"

\ "Anyway, what should I do with those people?\" Maxwell looked at the people who were inside his barrier.

He then looked at the people from Heavenly Sword Sect. \ "Hmm, Mirtha was staying here in the past, I guess... Considering the Martial Art that I entrusted to her was in this place. It is a bit of a shame about Skewes family, but I think I will just do something for this sect a little.

\ "After all, this sect has taken care of my Disciple a little bit. Hmm, what should I do... Well, I will just use those people's blood.\" Maxwell said while glancing at the people inside the barrier.

He snapped his finger again and an Array appeared. It was a big green Array.

Suddenly many small swords came out of the array and flew toward his barrier. The people inside started panicking. They had been trying to break the barrier but to no avail. When they saw numerous swords flew toward them, they got scared out of their lives.

But before the swords reached the barrier, a big portal appeared in front of them and every sword flew inside the portal. All of them were shocked as they thought there was another person who helped them.

Only Alex could see, it was also Maxwell who made the portal. When the people inside the barrier started rejoicing, they did not realize a big portal appeared behind them. The swords then came out of the portal and tore them to shred.

The people inside the barrier were screaming but because of the Sound Insulation Array, the people outside could not hear a single thing. But just watching them surely felt painful.

He shrugged his shoulder and turned to Alex, he said, \"Yeah, you can also use your power that way. It will depend how imaginative you are when using your power. So... good luck.\"
