In the arena, Alex and Xiang Bai were staring at the screen with serious expressions. When the people from four influences started coming toward them, Alex immediately went to Xiang Bai to calm him down since he knew Evelyn still had the Teleportation Array Plate with her.

Of course, he never expected that Thiveapia Kingdom would join the fray. In fact, he thought Thiveapia Kingdom would think highly about Evelyn and wanted to ensure her safety. After all, the only one that could become the sovereign of that Kingdom would only be Evelyn.

When he saw that on the screen, he felt glad that he left his Teleportation Array to her. He was wondering if two would be enough since he still had another two. After all, there was no rule about that. So, Evelyn would be able to use it.

By the time she used the Teleportation Array Plate, it suddenly startled all the people who watched it. Even Honda Sana did not escape from the astonishment. After all, it was one of the rarest treasures in this world after the hunt of Space Element users.

In fact, most of the items that held a Space Element in it immediately became a treasure in everyone's eyes. It included the Teleportation Array Plate in Evelyn's hand.

Unless they had an artifact that could lock the space around, it was impossible to stop Evelyn and the others escaping. This showed how powerful Space Element was.

"What did we see just now? Did the Heavenly Sword Sect just teleport?" The announcer shouted.

"But that was Array Paper..."

"Did she just use a Teleportation Array Plate? She just used a priceless treasure!"

The people were bewildered, especially those from Thiveapia Kingdom, as they never expected Evelyn had such a thing. After all, they never gave her something like that. They were also perplexed why the Thiveapia team suddenly joined hands with Mount Hua Sect and the others and attacked Heavenly Sword... No, Evelyn. They did not care about Heavenly Sword Sect.

The screen could only send the image, but could not transmit the sound. If they heard that Erol said they would kill everyone except Evelyn, they might be a bit relieved. Unfortunately, it could not.

Honda Sana also noticed all of these commotions and suddenly released her Spiritual Energy. The moment her Spiritual Energy filled the arena, they were surprised by it. In fact, even the sect masters from the four sects felt 'death' at that moment.

They felt they would not hold a candle against her as she could finish them in an instant. Of course, it was the same for the people from Zhou Kingdom. They felt fear when they felt her strength, but they felt confident even more. After all, they knew there would be a few Martial Kings like them after this, so they thought they would be able to conquer this entire continent.

The only problem would be the Teleportation Array Plate. They would need to check whether Evelyn still had more and the one who gave her the Array Plate. Of course, no one had yet to know it was Alex who gave it to her, except Xiang Bai.

Xiang Bai remembered Alex's master. Maxwell could suddenly teleport someone and trap them inside his barrier, which was precisely Space Element. And he was convinced that his master was the one who gave it to Alex.

Alex did not care about it as long as no one knew it was him. Of course, he did not know that Evelyn already told them he was the one who gave her the array plate.

And as soon as he saw both Heavenly Sword Sect and Rainbow Flower Sect had met, he got a bit relieved. Of course, if Alex were in Evelyn's position, he would notice that the people from that alliance did not want to kill her.

He would then use it to his advantage by going alone. He was sure that there would be one or two sects that would come to him. At that time, he would conceal the people from the sects to ambush them then kill the other teams. Unfortunately, Evelyn was consumed with rage, so she did not realize she was not targeted.

After a few hours of waiting, he saw the people from Heavenly Sword Sect and Rainbow Flower Sect moving. The moment Heavenly Sword Sect and Rainbow Flower Sect went separate ways with the constant chasing of two teams respectively, Alex immediately realized her plan.

It just, he did not know whether Evelyn would use the Array Plate or give it to Rainbow Flower Sect. If it were him, he would give it to them since they would already prepare for the Teleportation Array Plate. And they would never have expected that Evelyn would give such a treasure away.

However, it was at this time he got another surprise that could make him grit his teeth. He saw...

...

Back to Evelyn,

After they decided to move, they approached those four teams. It seemed they had decided that the Zhou Kingdom did not need the reward. Of course, they did not know the Zhou Kingdom did not need it because it would soon become theirs after this tournament.

They found all the tokens nearby, and it seemed Buddha Sect had been hiding this entire time. They would tire them out if they searched for them. So, they decided to stay in one place and waited for the competition to be over.

They did not need to search for Heavenly Sword Sect Team and Rainbow Flower Sect Team since they would appear in front of them sooner or later if they wanted to win the competition.

And it turned out they were right. Evelyn appeared in front of them together with her entire team as well as Rainbow Flower Sect. Evelyn shouted in anger, "Riolet! Come out here!"

Thirty two people suddenly appeared in front of them. When they saw them, Mina suddenly looked at Evelyn and said, "Wait? You said there are only three teams? How can they have thirty two people there?"

"We already agreed to fight together with you since the enemy would only be three teams. We should be able to deal with one of them while you are buying time for us."

"I... No..." Evelyn looked like she was trying to explain it to her. But Mina suddenly shouted again, "What? It is better to lose this way rather than dying since it is useless to oppose four of them at the same time."

"You!" Evelyn was angered once again. Even the people from Mount Hua Sect smirked when they saw these two fools fighting with each other.

Mina then looked at Erol and the others, "Mhmm... There is a misunderstanding in this situation. If you want to deal with Heavenly Sword Sect, we won't interfere."

"Hoo... If I am not wrong, the relation between Rainbow Flower Sect and Heavenly Sword Sect is good. Do you think I will believe you?" Erol snorted.

Mina looked at Erol while sweating profusely. "We will leave this place immediately."

Mina then started guiding her teammates to leave this place and let the Heavenly Sword Sect deal with the four teams alone.

Just when they were about to leave, Erol suddenly shouted. "Wait! I never said you could leave?"

"What do you mean?"

"Back in the war, Rainbow Flower Sect came to Heavenly Sword Sect and aided them in the war. We were devastated back then. Do you think I will let you leave just like that? Maybe all of you should strip and serve us first." Erol said with an overbearing tone.

"Please, don't joke around." Mina smiled weirdly.

"Heh? Do you think I am joking?" Erol looked at them with a cold gaze.

"Run!" Mina immediately shouted toward her teammates. When they heard that, they started flying away to escape from them.

"Hmph! Hazel Kingdom and Thiveapia Kingdom will chase them, but don't kill them. We need to humiliate the Rainbow Flower Sect first in this competition. For example, how about raping all of them together? This will be the payback for what they did to us." Erol said coldly. He then looked at Riolet, "Make sure you do your job."

Riolet gritted his teeth as he could not even resolve their misunderstanding. They thought they could fight them at this moment with the addition of Rainbow Flower Sect. But before they could revolt and attack Erol with a surprise attack, the people from Rainbow Flower Sect already ran away.

They thought by doing it that way, they would be able to convince Evelyn that they did not betray her. But with Erol's order to chase Rainbow Flower Sect, the chance disappeared once again.

By making the Thiveapia Kingdom chase those people, they would not be able to go to Evelyn's side. In other words, Evelyn's life was at the mercy of Mount Hua Sect and Zhou Kingdom.

Because of the situation, Riolet and the others could only follow his command since they would not be able to fight them. After all, Hazel Kingdom was still here, and if they decided to fight, it would be a 3 versus 2 fight.

He then nodded his head and led his teammates to chase the Rainbow Flower Sect. Hazel Kingdom also followed them.

"Hmph!"

Evelyn looked at them while gritting her teeth. "You!"

"Hahaha, you think you can deceive them? And because of you, those eight women will be raped in front of you! That's right, you have females in your team too. Maybe, we will play with them for a few rounds before killing them!" Erol laughed evilly.

"Captain, what are we going to do now?" Florinda suddenly asked Evelyn.

"We... We are going to run!" Evelyn shouted.

When they heard that, Florinda and the others started running away. Erol then shouted, "Chase them!"

Evelyn and the others started running in the opposite direction of Rainbow Flower Sect. Everything was according to the plan.

She swore that she would kill Riolet after killing the people from Mount Hua Sect and Zhou Kingdom.

They were flying a few minutes before Evelyn suddenly stopped. Evelyn made everyone act like they had used their full power just to run away from them. So, when they suddenly stopped, Florinda and the others started panting.

When Erol saw this, he laughed as he gained even more confidence. He looked at Evelyn, "Hahaha... You won't be able to run away from us! You will see that everyone will be raped right in front of your eyes!"

"Do you think so?" Evelyn did not get taunted. Instead, she smirked. "Why do you think we stop in this place? But, I do say that everyone really can act."

"!!!" Erol immediately realized what she meant as he remembered about the Teleportation Array Plate from earlier. And when he saw their exhausted face disappear, he knew they got baited into this place. But, they could only use Array Plate once since it would be broken after she used it. He suddenly said, "The second Teleportation Array Plate!"

Evelyn smiled evilly. Even Florinda and the others also smiled.

"No! It is impossible! The Space Element Array Plate is a priceless treasure! And you said you have two? Even Thiveapia Kingdom did not have anything like that!" Erol shouted.

"Hmph. Thiveapia Kingdom? What are they? I don't know any Thiveapia Kingdom." She snorted as she was still mad because of that betrayal. "But you are right. I really don't have a Teleportation Array Plate anymore."

"That's right! You are just bluffing. There is no way you have such a treasure like that." Erol shouted as he felt relieved.

Evelyn smirked. "I don't have a Teleportation Array Plate anymore because I already gave it to someone. And that someone..."

She looked to the side, and eight people suddenly appeared out of nowhere. All of them were ladies, and Erol would immediately recognize them. "Rain-Rainbow Flower Sect!"

"Fufu... What did you say earlier? You want to rape us? This time, our number is equal, do you think we are afraid of you?" Mina looked at Erol and the others.

"You-!" Just before Erol shouted, all of them turned their heads to another direction. They were shocked by what they saw.

"!!!"
