Chapter 114 This is it! My transformation!!!

As the mysterious Pokémon approaches, Xiaozhi and Zhenghui become more and more excited, as they will soon be able to see what this unknown Pokémon looks like.

This is the moment that Pokémon enthusiasts like them have been looking forward to the most.

Suddenly, a missile flew from nowhere and hit the Pokémon directly. This angered the unknown Pokémon, and it slapped the lighthouse that made the sound of wanting to see it to pieces.

Maybe in his opinion, this companion did not want to see him, but was trying to lure him here to be attacked. This directly angered the Pokémon and made him become ferocious.

Xiaozhi quickly pulled Zhenghui towards a safe place. Although he was reckless, he knew that this was not a situation he could handle. Xiaofeng's Pokémon might not be as big as the other person's hand.

At this moment Yu Feng suddenly woke up. He actually forgot the existence of Team Rocket. He sent away Team Rocket hanging on the cliff with a curved fantasy ray to prevent them from angering the giant Dragonite again.

Then, with his eyes flashing blue, he transferred all the people on the lighthouse to a safe area. After doing all this, Yu Feng took out a pollen ball with a grim expression and swallowed it. When he took out another pollen ball, Yu Feng's eyes flickered a little.

"Wait a minute! Phantom Pokémon! At least let me see what you look like clearly!"

Although they reached the safe area, for Zhenghui, if he didn't see the appearance of this Pokémon this time, he might not have any chance in the future.

Although they didn't know where the shell came from, they knew very well that he would not be fooled a second time.

"Woo~~"

The huge Pokémon shook his head. He didn't want others to see his appearance, especially since the person in front of him was not even of the same species.

"If you don't tell us what you look like, how can we help you find someone like you?"

Yu Feng really couldn't stand what they said. You didn't give him what he wanted, but you still wanted to see his reaction. It's not possible to get something for nothing, not to mention that you had deceived him before.

After hearing Yu Feng's words, the 'Giant Dragonite' that was about to leave stopped and looked back at the female that exuded a strange aura.

He was thinking about what the female said this time. It was true that he had been searching for a Pokémon for hundreds or even decades, but had not found even one of its kind. However, the Pokémon in front of him seemed to be very common on the continent. Maybe he could really help by asking them for help.

But he immediately dismissed the idea. These little guys were so fragile, and only this female with a strange aura looked a little stronger. It would be better for them to go find it themselves.

"I know you are Dragonite! So what kind of fellow are you looking for?"

Yu Feng struck while the iron was hot and tried to persuade the giant Dragonite. Of course, if he knew what the giant Dragonite was thinking, he might not want to continue the conversation.

"How do you know he's Dragonite?!"

After hearing Yu Feng's words, Zhenghui became completely excited. He was eager to know how Yu Feng knew that he was Dragonite.

"You're a doctor, but what else could this silhouette be but Dragonite? Those little wings, that fat belly."

"Besides, Xiaozhi has a picture book, so we can just scan it and it will be clear."

Yu Feng looked at Zhenghui who seemed a little crazy. It's not that he couldn't understand the feeling of knowing the truth, but as a doctor specializing in Pokémon, you have his relief in your lighthouse. It's just that the fog is a little thick, not that a blurry buff was given to you.

Besides, you also know that Ash contacted Professor Oak, so how come you didn't know that Professor Oak would send the Pokédex to Ash?

"Yes, yes! How could I have forgotten, young man, quickly scan it with your illustrated book."

After hearing what Yu Feng said, Zhenghui murmured like a madman, yes, how could he forget that someone who had Professor Oak's phone number, how could he not have an illustrated guide.

He then excitedly asked Xiaozhi to use the Pokédex to scan the huge Pokémon in front of them to verify their guess.

"oh oh!"

After hearing what Zhenghui said, Xiaozhi quickly took out the Pokédex and scanned the unknown Pokémon in front of him.

The illustrated book naturally showed the image of Dragonite, and introduced the Pokémon in front of it: "Dragonite, the Dragon Pokémon Dragonite, is the evolved form of Haxorus. It is sometimes called the incarnation of the sea, and sometimes the incarnation of the God of Destruction. When it sees people who accidentally drown or ships in distress, it will guide them to land. It is a very kind-hearted Pokémon. It is said that there is an island somewhere in the vast ocean, where only Dragonite lives. But so far, no one has seen that island with their own eyes."

The sound of the Pokémon Encyclopedia machine did not extinguish Zhenghui's burning heart. It was worth it that he waited here for more than ten years, and finally he discovered the true identity of this unknown Pokémon.

Although no one knows what made him become such a huge body, nor does anyone know what kind of companion he is looking for, this discovery is really very important.

"Woo~~~"

Since the people below already knew what he looked like, Dragonite didn't intend to hide it, or maybe he didn't even think about hiding it?

He told Yu Feng that he was looking for a companion, with a hint of expectation in his huge eyes. He was really tired now. If the female in front of him could find her own kind, he would not hesitate to help her.

Unexpectedly, Yu Feng's face turned extremely bad after hearing this, which made Xiaozhi and the others behind him curious about what Dragonite said that could make Yu Feng, who usually has a good temper, look so angry.

"What did he say?"

Xiaozhi is worthy of being Xiaozhi, he still leads the charge. Anyone with a discerning eye knows that in this situation either don't ask or just stand aside obediently. Only Xiaozhi would be foolish enough to ask.

"I think it's better for you not to know. Send them to a safe place."

Yu Feng looked at Xiaozhi with a wry smile, then released Flash Kirlia to ask her to take them to a safe place.

"Chirrut!? (Are you sure you want to do this, brother?)"

As soon as the shining Kirlia came out, she looked at the pollen ball in her brother's hand, which was almost scattered. Wasn't her brother the one who was most reluctant to use that? Why did he suddenly want to use it?

"It's fine if they can't see it, but he can't see it either. This is really making it difficult for me."

Yu Feng was now almost unable to suppress his anger. If his mind hadn't told him that the upcoming battle was not suitable for Xiaozhi and the others to watch up close, he would have joined in long ago.

After hearing this, Shining Kirlia understood. This was because the elder brother was angry because he made a mistake. But it was strange that although the elder brother was difficult to identify as a human, the elves could tell his gender.

But since she evolved, even elves are easily mistaken. If she didn't live with her brother day and night, she would want to call him sister every time they came out.

But she didn't think much about it, and took Xiaozhi and the others away from the lighthouse and found a suitable place to watch the battle. She wouldn't be able to participate in the next battle.

After watching Xiaozhi and the others leave, Yu Feng pointed at the giant Dragonite and said, "I promise to help you find its kind, but before that, let's have a fight first!"

"Look! This is my transformation!!"
