

Gardevoir 115

Chapter 115 You guessed wrong!

As Yu Feng ate what he had in his hand.

Intense white light burst out from his body, illuminating the surroundings as if it were daytime, and even cleared away the surrounding fog, revealing the huge Dragonite's doubtful expression.

The white light wrapped around Yu Feng's body like fine silk. The light blue light that appeared out of nowhere slowly merged into the white light like a mother's gentle caress.

A blue-white ball of light appeared where Yu Feng was standing, emitting dazzling light.

far away....

"Is Xiao Feng okay?"

Xiaozhi looked worriedly at the huge Dragonite whose half body was in the sea. Is it really okay for them to leave Xiaofeng there alone?

"Why don't you bring Kaede along, Kirlia?"

Yuto Seidai also looked worriedly towards the place where the light was coming from. Although he didn't know who was attacking the Dragonite, was it really a good idea not to bring Yu Feng along?

After hearing their words, Shining Kirlia was a little conflicted about whether to communicate with them. After all, she seldom communicated with others. But seeing that these people in front of her would definitely not give up until she got the reason.

"Chirrut. (Never mind, it doesn't matter if I tell you. I can handle it.)"

After thinking for a while, Shining Kirlia realized that there was no other way, so he could only use his superpowers to convey his thoughts to them.

"Don't worry, I believe that the girl can solve this problem if she stays there."

After knowing what the Pokémon that had been haunting him for the past decade was, Zhenghui briefly returned to normal. He knew that since the girl was willing to stay there, it meant that he had a way.

"Chirrut! (Oh, I already told you that I'm not your sister. You won't understand even if I tell you.)"

Seeing that Zhenghui still called Yu Feng his sister, Shining Kirliao was too lazy to explain anything and just let them watch his brother's battle.

.....

"You are still the first Pokémon to see me like this."

Yu Feng's voice came out from the light cocoon. To be honest, this was the first time that others and he himself had seen him in this state since his evolution.

Two blue hands stretched out from the inside of the light cocoon, pinched its edge and tore it apart fiercely, and the light cocoon instantly turned into light powder all over the sky.

The person standing in the middle was not the Yu Feng from before, but a shining Gardevoir. Although it did not have the exaggerated height of its mother, it was slightly larger than its peers. It was about 1.7 meters tall and had a particularly good figure.

The white skirt was rustling in the wind around it. The Shining Gardevoir, who was standing in place, raised the corners of her mouth slightly and clenched her fists, making crisp sounds.

"Round two begins now!"

Yu Feng's voice came from the Shiny Gardevoir, or rather, this Shiny Gardevoir was Yu Feng.

The giant Dragonite rubbed his eyes in disbelief. The female just now actually changed into another appearance right before his eyes!!!

"Woo~~"

Following the principle of asking if you don't know, the giant Dragonite asked directly how Yu Feng became like this.

"How did I become like this? If you beat me, I'll tell you!"

Shiny Gardevoir smiled evilly and hooked his finger to signal Dragonite to attack. Only after defeating him could he know the secret.

Looking at Yu Feng's huge movements, Dragonite felt a chill. For some reason, after he said this, a pink aura gradually spread around Yu Feng's body.

If expressed in words, the giant dragonite will find that after Yu Feng said this, a sentence like "Garnado is releasing the fairy aura!" will pop up.

The invisible fairy aura permeated the surroundings, and the giant Dragonite felt uncomfortable everywhere. The energy surrounding his body gave him a palpitating feeling. He had a premonition that if he was touched, it would definitely cause him great harm.

"You're not going to fight? Then take my million-ton punch first!"

Looking at the cautious movements of the giant Dragonite, Yu Feng knew that he would definitely not dare to act rashly now, so he let himself break the deadlock.

Unlike the white light used in the past, pink light gathered in his hands.

Yu Feng knew at a glance that his characteristics had changed. His previous characteristic was telepathy, so he had to devote all his efforts to training himself.

That feature is quite useful for normal Gardevoir, but it is completely useless for him. Now he has a fairy skin and it's useless!

Although it's a pity that the fairy skin can only be used in this way, it is still a trump card.

The pink million-ton punch smashed towards the giant Dragonite. Although the hit rate of this skill was very touching, it was really cool to hit a fixed target like the giant Dragonite.

After all, the giant Dragonite was too big to dodge, so it brewed a jet of flame from its mouth that was comparable to a fire-type ultimate move and swept towards Yu Feng.

Yu Feng's attack hit the target without any delay and he teleported away from the spot.

The huge Dragonite's thick jet of flames only slightly increased the temperature of the surrounding sea water, and did not achieve any results.

"Is your skin so thick?"

Yu Feng frowned as he looked at the giant Dragonite that didn't react much. You know, the million-ton punch just now was enhanced by the fairy aura and fairy skin, as well as the bonus of its own skills, and it only made the giant Dragonite shake slightly.

A serious king-level dragon-type Pokémon would be seriously injured or would at least take a few steps back after getting hit like this. How could it be as unscathed as the giant Dragonite?

"Sana? (Do you need my help?)"

The voice of Shining Gardevoir came into Yu Feng's ears, asking him if he needed help.

Seeing myself working so hard, I still feel a little sad. After all, who else can I count on if I don't feel sorry for myself?

Sister? Don't be ridiculous. She can't even beat herself in human form, not to mention that she can't beat the giant Dragonite now that she has been strengthened and cheated. She will be a piece of cake even if she comes. The aftermath is enough to make her leave.

Mom? Although Mom should be able to beat him, he was just kidding. He still wanted to live a few more years. If it really came, he didn't want to try the "Devil's Kiss".

Just when Yu Feng was thinking, the huge Dragonite immediately seized his weakness, and the fluctuations of dragon attributes gradually formed and shot towards Yu Feng.

"Sana! (Then shout out my name!!)"

Shiny Gardevoir's voice gradually became higher and higher. After all, this was the first time that the two of them joined forces to fight, although they were essentially the same person.

"Please! Another me!!"

Facing the huge airflow brought by the dragon's breath, Yu Feng took out the ball containing the shining Gardevoir from his depths.

"Sana! (Leave Xiao Fengfeng!!)"
