

## **Gardevoir 116**

Chapter 116 Since ancient times, the opponent has lost to the left

A huge Gardevoir appeared out of nowhere, erecting a emerald green shield to block the impact from the huge Dragonite's breath.

As the dragon's breath spread, the only remaining ground left for standing was the area where she had opened her shield.

The surrounding land was plowed directly by the dragon's breath, and the upper half of the Zhenghui Lighthouse disappeared without a trace, not even a rubble was left.

The giant Dragonite rubbed its eyes with some doubt, looking at the two Pokémons, one big and one small, below with some disbelief.

How come the other party split apart after he released his dragon breath? Judging from their appearance, apart from the difference in size, the two were simply carved from the same mold.

The aura was exactly the same, except that this one, which was about the size of his hand, was full of dangerous aura.

"So you copied it from me!"

Yu Feng complained when he saw his own appearance through the eyes of Shining Gardevoir. It turned out that she was made according to his image. No wonder he always felt that something was wrong with his body.

"Sana! (What are you talking about? Can't you just copy what I said?)"

After Shining Gardevoir easily defeated the giant Dragonite's jet of flames, it looked at its other self with dissatisfaction.

"How can the original body be modeled after the clone?"

Yu Feng rolled his eyes at Shiny Gardevoir. The clones were made according to the original body, but how could the original body be made according to the clones?

"Sanae! (Do you want to look at your chest before you say this to me? Do you think it's fun to make fun of yourself? Am I still you?)"

Shan Guang was speechless and choked up at Yu Feng's words. It's okay for you to lie to others, but is it really okay to lie to yourself? Don't think that she doesn't know what Yu Feng is thinking, she knows it very well.

Not to mention that to put it bluntly, this is to change back to his original appearance based on his own inner thoughts. Now it is clear what he is thinking.

"Bullshit, this is good genes in my family!"

Hearing what Shiny Gardevoir said, Yu Feng straightened his chest instantly, indicating that this was a sign of good family genes. Didn't you see that the size of his mother's body was not comparable to that of an ordinary Gardevoir!

"Sana! (No matter how much I say, it won't change the fact that you are a male, a male!!)"

Shining Gardevoir used instant movement to dodge the dragon tail of the huge Dragonite, and looked at Yu Feng who was still jumping speechlessly, "You are a man, and having these two pieces of fat can't change the fact that you are a man."

"Stop meddling in my business!!!"

Could Yu Feng say that he was scared by the shiny male Ralts in his previous life, so he became like this? Of course, Shiny Gardevoir knew it even if he didn't say it, but she couldn't scold him. After all, they were the same person, and scolding Yu Feng was the same as scolding herself.

"Woo~!!!"

Seeing Yu Feng and Shining Gardevoir bickering and dodging his skills, the giant Dragonite got angry. Did he look down on Dragonite so much? He still had the time to bicker. Thinking of this, a golden ball of light lingered around the giant Dragonite's mouth, exuding a tyrannical aura.

"It's time to face off. Are you sure?"

Yu Feng was a little scared when he saw the bright destructive ray on the mouth of the huge Dragonite. The diameter of this destructive ray was almost the same as that of the Shining Gardevoir, and it had not been launched yet. If it was launched, it would be disastrous.

"Sana? (Do you still have the time to talk nonsense over there?)"

Looking at the destructive death light that was almost bigger than itself, a drop of cold sweat flowed down from Shiny Gardevoir's head, and a golden light ball emitting a breath of destruction appeared at the corner of its mouth.

Looking at the actions of Shining Gardevoir, Yu Feng stopped talking nonsense and also gathered together a destructive death ray, but the difference was that his destructive death ray was a pink ball of light.

The environment on the field gradually became quiet. At this moment, there was only the buzzing sound of three destructive death rays as they were charging.

As time went by, the Buzz God gradually transformed into the Hiss God, making an overwhelming sound as if something was disturbed.

In an instant, three beams of destructive death rushed towards the other party. The destructive death beam of the giant Dragonite was nothing to say about its thickness! Big! After all, when he stood on the sea, he was about the same height as the lighthouse on the cliff. It would be unreasonable if it was not big.

On the other side, Yu Feng and the other person's destructive death light had some wonderful changes. The pink destructive death light was like a coiled dragon, circling around the golden destructive death light, with an indescribable beauty.

The three destructive death rays collided with each other with a loud bang, raising a cloud of dust. The strange thing was that except for the explosion when they first collided, the three destructive death rays actually maintained a strange balance.

"Sana! (Are we standing over there?)"

Even though they were in a standoff, Shiny Gardevoir still took the time to ask Yu Feng which direction they were in.

"From Xiaozhi and the others' perspective, we are on the right."

Yu Feng thought about the direction of the wave when his sister teleported Xiaozhi and the others, and said to the Shiny Gardevoir with certainty that from the perspective of Xiaozhi and the others, they were on the right.

"Sana! (Great! The left side has always lost in a duel! We'll definitely win.)"

Shiny Gardevoir was in a good mood after getting Yu Feng's affirmation. No matter what kind of anime it was, as long as he stood on the right side, he would win. Especially now that he was observing Satoshi and the others, he would win as long as he stood firmly on the right side of their sight.

Oh yeah, that's a bit of a perfect ending, except for meeting Dyna.

After confirming that the two of them were on the right, Gardevoir was in a good mood, and even its destruction ray became a little thicker.

The intersection point that was originally deadlocked between the three people was moving towards the direction of the giant Dragonite at a slow but steady pace.

The huge Dragonite was also full of regret at this time. Why not just fight against the opponent? There were two of them, and he was the only one on the opposite side who was equally matched with him. Although the other one was not a big threat, it would still hurt if he was hit.

But it was too late to say anything now. If he kept on going, the dragon would explode once in a while at most. If he stopped, he would be destroyed and killed, which would be unlucky. Not to mention that the pink energy would hurt the dragon. It was too late to retreat now.

I can't beat the wave, so I can only bear it like this.

The destructive death light on Yu Feng's side advanced towards the giant Dragonite with unstoppable force, and then a trail of black smoke exploded directly on his body.

At the same time, the huge Dragonite was knocked back several steps by the huge impact force, causing the nearby sea to become turbulent.

"Woo~~"

After being hit, the giant Dragonite simply raised his hands to signal a ceasefire. It was not a good thing to get beaten for nothing, and he was not stupid.

After hearing the giant Dragonite's words, Yu Feng put away the grass-type energy in his hand.

The vines that appeared quietly and wrapped around the giant Dragonite's feet disappeared quietly, as if they had never appeared and did not cause any ripples.

The huge Dragonite sat down very simply, with its head right on the edge of the cliff, and its eyes, which were bigger than Yu Feng's, were staring at them closely.

"Let my sister bring Xiaozhi and the others over here."
