

Gardevoir 117

Chapter 117 I'm not a human being!

From the perspective of Xiaozhi and the others, it wasn't so thrilling.

To sum it up simply.

Feng was furious, and punched out with his chest, aiming for Dragonite. Dragonite spit fire to meet him, and the two fought for four or five rounds. Dragonite knew it was no match for him, so he responded with dragon breath, but Gardevoir caught it, and they exchanged beams.

Yes, it was that simple. After a battle of about twenty minutes, the giant Dragonite just sat motionless in the sea.

"Chirrut! (Yeah, I get it.)"

Just when everyone was wondering why the giant Dragonite suddenly sat down and didn't move, Shining Kirlia suddenly covered her ears with one hand and nodded seriously as if she heard something.

While the others were still looking at her in confusion, she moved everyone back without any further ado.

She is too lazy to communicate with them now. Even if she speaks, they won't understand. Not everyone is someone her brother can talk to directly.

Fortunately, he teleported very quickly and took them back before they could react. He didn't give them a chance to react either. He slapped their Poké Balls and went straight back into them without caring at all about how his brother would explain.

"Everyone is back, come and meet this giant Dragonite."

Looking at the confused people, Yu Feng, who had not yet recovered, introduced himself to them.

"Who are you? Xiao Feng?!"

Before everyone could react, they heard a smaller Shiny Gardevoir that looked exactly like Xiao Feng's huge Shiny Gardevoir introducing the huge Dragonite behind it in Yu Feng's voice.

As for why they recognized it immediately, the only person who could make that huge Gardevoir stand behind him willingly was Yu Feng. Moreover, the voice was the same, so there was no possibility of making a mistake.

It's just that...this shape...is a bit surprising.

It's not a human, but a Pokémon with a wasp waist and big breasts, and its appearance is no worse than Misty.

The most important thing is that Xiao Feng is a man! Xiao Xia can't even compete with a man?

Everyone's eyes shifted from Yu Feng to Yuto Seidai and then to Xiaoxia, and everyone's face showed an expression of regret.

It was already flat enough, but now it's even worse than a man, which is really sigh-worthy.

"You guys are going to die, I'm still young and can still grow!!"

Xiaoxia knew from the looks of these people that they were not holding back their fart, and looked at the people around her unhappily.

Well, Xiao Feng, now you are not sure whether you can beat Pokémon, so give up.

Dr. Zhenghui? He didn't care about her at all. Instead, he was observing Xiaofeng carefully. It was natural that someone who was willing to spend more than ten years waiting for the mysterious Pokémon would not care about her.

Yuto Seidai? Never mind, I can't afford to offend him, and Yuto Seidai only took a glance at him.

Xiaozhi? The child is already stupid, wouldn't he be even more stupid if this happened again?

So Xiaoxia looked at Xiaogang's head with an unfriendly look, and with one punch, the Xiaogang sank!

The others looked at Xiaoxia's actions and immediately retracted their gazes, staring at Yu Feng intently. After all, Yu Feng, who was with them day and night, was actually a Pokémon and had become a trainer with his own Pokémon.

"No, this is just an application of super powers."

Yu Feng waved his hand and pulled his arm out of Zhenghui's hand without leaving a trace. If he didn't know that this guy was the kind of person who wanted to experience the feelings of Pokémon, and in some versions of the game he would even exchange bodies with Pokémon to feel the feelings of Pokémon.

Based on his movements that were similar to those of Nan Tong, Yu Feng would have to give him a million-ton massage to loosen up his muscles.

"This is really amazing! There are so many things in this world waiting for me to explore."

Zhenghui couldn't help but sigh that he had seen more today than in the previous ten years.

Just observing Yu Feng for a short while brought Zhenghui a lot of benefits, and also made him realize how narrow his vision was before.

Why would he want to get inside the puppet to feel the Pokémon's heart? After all, the puppet is just a puppet.

He is completely unable to understand the feelings of Pokémon itself, and Zhenghui is always a real human being.

He Zhenghui! He wants to research a device that can turn humans into Pokémon or allow humans to exchange bodies with Pokémon.

This way he can really experience what it's like to be a Pokémon.

"What is the Doctor thinking about?"

Seeing Zhenghui's mouth corners gradually rising, Yu Feng curiously asked him what he was thinking about.

After all, the mysterious Pokémon he had been waiting for more than ten years was right in front of him. If he didn't observe it carefully, it would be really creepy to laugh here.

"Xiao Feng, human abilities have limits. I have learned one thing from my short life. The more I study Pokémon, the more I realize that human abilities have limits, unless we surpass humans."

Seeing Yu Feng and the Shining Gardevoir behind him, Zhenghui's excitement could no longer be expressed in words.

Such identical appearance, such a strong and sturdy body! And all unknown Pokémon.

In addition to the long-lost feeling of excitement from seeing the giant Dragonite just now, now seeing Yu Feng turning into a Pokémon, all this made him feel like he was in a dream.

"Doctor, you don't have a fever, do you?"

Unlike the others who had a puzzled look on their faces, Xiaozhi simply touched Zhenghui's head.

It can't be that he's going crazy just because the battle just now affected the lighthouse and made Dr. Zhenghui feel distressed.

"I guess your next words will be that you are no longer a human being."

After hearing Zhenghui's words, Yu Feng knew what he was going to do next. Wow, this is how Zhenghui researched the device for exchanging bodies with Pokémon.

"How do you know? Forget it, it's true that puppets are just puppets after all, but if they can really turn into Pokémon!!!"

As Zhenghui spoke, the sun slowly rose and the fog gradually dissipated. A ray of light from the sun cast a golden glow on Zhenghui's entire body.

Only by becoming a Pokémon can one understand Pokémon, so Zhenghui is no longer a human being!!!

"Doctor, don't be anxious. Xiao Feng, what's going on with you?"

Xiaogang recovered at some point. He first tried to kindly stop Zhenghui's somewhat unrealistic thoughts, and then became curious about Yu Feng's current condition.

They only know that Xiao Feng was raised by Pokémon, but they don't know that Xiao Feng is also a Pokémon. And judging from the looks of it, he should be the form of his sister after one evolution, that is, the shiny Gardevoir behind him. Is the size difference between them so big?

"This is the effect of my superpower. Everyone's superpower has different effects. Didn't I turn people into dolls before? The main effect of my superpower is that I can mimic the things I own."

Yu Feng didn't want to tell them that both forms were him. He could only say that they were special effects of super powers. There were many people with super powers in the entire Pokémon world, but there were only a few who were as powerful as their level.

Nancy, whose superpowers are huge and practical, Cattleya, whose superpowers are extremely offensive, and Gejihua, whose predictive abilities are extremely strong.

The slightly weaker ones are the green-collar gym leaders Xiao Feng and Xiao Nan who can read minds, and Sai Baoli who can only move objects.

Although they are all similar, everyone is good at different things.

"Is that so? You've had dolls before? Oh, that's not surprising."

Xiaogang and the others didn't know what people with super powers were like. They had only seen a few of them. But since Yu Feng said that, there must be a reason for it. He couldn't be lying to them.

As for the doll thing, Xiao Gang was about to refute it, but suddenly remembered that he seemed to have these things too, so it was okay.

"Okay, Doctor, what are you going to do?"

At this time, the effect of the special pollen ball had faded, and Yu Feng had turned back into a human, but he was not as gorgeous and dazzling as when he turned into Gardevoir.

He was now more curious about what Dr. Zhenghui, who was ready to resign, was going to do. After all, half of the lighthouse was destroyed. Fortunately, there were no major problems with the living area below.
