Chapter 125 I said, don't you think it looks familiar?

Xiaozhi held up his orange badge and looked at the sun with a silly smile on his face.

"I say, why are you grinning at this thing? Aren't you tired of looking at it every day?"

Yu Feng looked at the silly Xiaozhi helplessly. He didn't understand why it took so long to look at a broken badge. He had never been like this before.

"You don't understand. This is Xiaozhi's first time getting a badge based on his own strength. Of course he has to be happy for a while."

Misty expressed what Xiaozhi was thinking without hesitation. After all, he was the one who defeated the opponent fairly by relying on his own strength.

"Hey, stop talking. Look how big this ship is."

Xiaozhi's way of changing the subject was a bit awkward, but there really was a huge ship in front of them.

"Has anyone ever told me that your way of changing the subject is awkward? But there is indeed a big ship."

Yu Feng touched his forehead. Has anyone ever said that Xiaozhi's way of changing the subject was awkward? But Xiaozhi was right. It was the first time he had seen such a big ship.

He had at most seen photos of this kind of large ship on the Internet before, but had never actually seen one in real life.

"How wonderful it is to think that I can sunbathe on a boat like this."

Looking at the big ship in front of her, Xiaoxia fell into her own fantasy, imagining herself wearing a cool bikini and leisurely sunbathing on the deck of the big ship. Thinking of this, she couldn't help but drool.

"Yes, this way we can meet many unknown Pokémon."

Xiaozhi was also very excited and had already imagined himself taking a boat to the other side of the sea to see more kinds of Pokémon.

"Is this stuff really that good?"

Yuto Seidai was a little surprised as to why the two of them were so interested in a ship. After all, her family was wealthy and she had ridden on better ships than this one before.

"But you don't have money."

Yu Feng's words instantly made Xiaozhi and Xiaoxia, who were immersed in their own fantasies, depressed.

Yes, they have no money. What a cruel statement.

It directly shattered their two beautiful dreams.

"Is it really okay for you to do this, Xiao Feng?"

Xiaogang quietly approached Yu Feng, wondering if it was really okay for Yu Feng to attack them like this?

"You always have to take more blows. Besides, isn't it normal to be broke? If you want, I can use my super powers to teleport you there."

Yu Feng said that it didn't matter. After all, the fact that he had no money was real. Besides, he had never been on a boat in his previous life, so he didn't even need to take a boat in this life. He could just use his superpowers to teleport to the other side.

It doesn't matter whether he hits Xiaozhi and Xiaoxia or not. Besides, he has money to take this ship, it's just that there is no need.

Before his mother left, she had stuffed him with a lot of common currency. It was said that it was the private money she took from his father before she left. It was probably about five years' salary of his father.

Anyway, his mother said that he wouldn't need ordinary things in the forest, so the food she prepared for him was directly picked from Pokémon. Except for salt and other things that had to be purchased outside, she didn't spend much money.

Besides, Yu Feng is out now, so the money will be of even less use. It would be better to give it all to him directly. It would be troublesome for Ai Guanshi to go back and forth to get the ingredients. Although she enjoys it, there are always times when it is inconvenient.

He didn't calculate the exact number, but it was enough for thousands of round trips on this kind of ship.

"The reality is very cruel."

Xiaozhi and Xiaoxia walked dejectedly into the distance thinking that out of sight, out of mind. Looking at the ship, they couldn't help but want to get on it themselves, but they had no money to take the ship.

There was no way out. Except for Satoshi and Misty who maintained a passive attitude, the remaining three people looked at them helplessly.

It's obvious that if you just say a word, there are two super rich people here who are willing to help them pay, but it seems like these two people are not prepared to say anything. Xiaozhi and the others are too lazy to mention these two people.

The main point is that if you don't mention it and I don't say anything, everyone will be better off.

"Boom!"

Just as Xiaozhi walked forward passively, two streamers exploded in front of his face.

"Congratulations, you look like super lucky people."

Two old acquaintances with dark skin, blonde hair, and wearing JK uniforms and bubble socks appeared in front of the two negative people.

"What?" x4

Why multiply it by four? Because Yu Feng's superpower allows him to tell who the two people in front of him are at a glance.

"Actually, the thing is, we both have tickets for this ship."

The dark-skinned 'Musashi' pushed the five tickets open and waved them in front of Xiaozhi and the others like a fan.

"super!"

The dark-skinned 'Kojiro' couldn't help but twist his body, with an expression that said you are very lucky.

"So, do you want this ticket?"

The dark-skinned 'Musashi' looked at Xiaozhi and the others with an expression that said "you've made a good deal", as if this ticket was something very valuable.

"I really want it, but we have no money."

Xiaogang brought up this topic on Xiaozhi's behalf that was impossible to talk about. A penny can make a hero fall.

"Yes, you guys are really super..."

"Super!"

"Super off the line."

"This is a gift! A gift!"

Musashi and Kojiro explained the reasons to Xiaozhi and the others one by one as if they were performing a crosstalk.

"Gift?"

Xiaozhi was very confused by their explanation. Who would have the time to send them gifts?

"We really want to go, but I have to go on a date with my boyfriend, so..."

"so..."

"If you like Pokémon, you must participate. You can't miss it."

Musashi handed 5 tickets to Xiaozhi, hoping that he would accept them.

Xiaozhi did not let Musashi and Kojiro down after acting for so long, and accepted the tickets.

"So!"

"Go ahead..."

"Please enjoy it!"

After saying this, Musashi and Kojiro ran away impatiently, as if there were ferocious beasts chasing them, jumping away from Xiaozhi and the others.

"Today is really a very lucky day."

Xiao Zhi was looking at the boat ticket in his hand and was worrying about not being able to get on the ship for the trip, when someone brought him five free tickets.

Are you sleepy? Don't you have a pillow?

He had no doubt at all as to why someone would give him five free tickets for a luxury cruise.

"Don't you think those two people look familiar?"

Yu Feng opened his eyes wide and watched them interacting. Although the Rockets team did wear makeup, it was obvious that the hairstyles of these two people did not change.

The voice hasn't changed, especially the way Kojiro speaks, it doesn't sound like a girl at all.
