Chapter 131: Xiaoxia, it turns out that you are a girl!

"I was wondering, Xiaoxia, are you a girl? I thought Xiaofeng was a girl."

How should I put it, it's no wonder that Xiaozhi only found out about this after spending so much time with him.

It seems that Xiaoxia has never concealed anything, and the clothes she is wearing don't look like something a boy should wear.

If Shiny Kirlia remembered correctly, when challenging the Cerulean Gym, Misty mentioned the four beautiful Cerulean sisters.

She couldn't help herself from wanting to laugh at the thought, and she had no intention of holding back.

"Hahahaha!"

"Chirrut! (Hahaha)"

Yu Feng and she are indeed brother and sister, even their laughter came at the same time. As for why Yu Feng didn't care that Xiao Zhi said he was a girl, there were so many people who made the mistake and didn't care much about it, especially someone as silly as Xiao Zhi.

The unbridled laughter reached Xiaoxia's ears, making her cheeks red with anger. She held the Master Ball in both hands and threw it at Xiaozhi with all her strength, shouting, "I am the one!!!"

After finally sending Xiaozhi and the others away to go play, Yu Feng was happy to relax and enjoy the rare holiday with his Pokémon.

"Hey, Uncle Yu, come here quickly."

A very familiar voice reached Yu Feng's ears. Confused, Yu Feng opened his eyes and looked in the direction of the voice. After all, there were quite a few people who made him feel familiar.

A young girl with a blue top hat, white and blue gradient hair, and a blue ruffled swimsuit was leading a serious-looking water otter and greeting a friendly-looking middle-aged man.

Looking at this familiar hairstyle and voice, Yu Feng called out uncertainly: "Funina?"

The white-haired girl shuddered when she heard someone calling her, but then she remembered that she was not in the country, so she turned around to look for who was calling her.

When he found out it was Yu Feng, he was so shocked that his face turned red. He held the water otter and blocked Yu Feng with a sharp roar. "You...you...you...you, put on your clothes!"

"Ah? Ah! Ah~ You misunderstood."

Looking at Funina's actions, Yu Feng's head was full of question marks. He was at the beach, so why did he have to put on clothes?

When he saw her using the water otter to block herself, he instantly understood what she was talking about. He smiled and explained to Funina that he was a boy, which calmed her down.

"Hey, Xiao Fu, what's wrong with you? Don't scare me."

Seeing that Funina had suddenly gone berserk, the man she called Uncle Yu immediately came over with Aibutar and Eledo, wanting to see what was going on.

When Ai Guanshi saw Yu Feng's Ai Guanshi, his eyes lit up and he happily pulled her aside and whispered something.

"No, it's okay, Uncle Yu, I just met a fan."

After knowing that Yu Feng was a boy, the blush on Funina's face still did not disappear. Although Yu Feng was not a handsome guy, who doesn't like to look at a handsome man, especially such a handsome man.

"Well, it's okay. Who are you? From Galar? No, it doesn't look like... You are from our Chinese Alliance, right?"

Looking at the elves around Yu Feng, Uncle Yu felt a sense of familiarity. There are no bad people who like Pokémon with super powers.

But he actually knew Furninna's name. Seeing that his Pokémon was matched with everyone else's? He overturned his own thoughts. After all, his appearance was typical of the people on their side of the Huaxia Alliance.

"I don't know what region I am from. I was raised by elves."

In fact, there was nothing that could not be said. Yu Feng shrugged and told the two that he was raised by elves. He himself didn't even know which region he was from.

"Is that so? My name is Yu Huijun and I'm in my thirties. She's Fu Ningna, she just turned twenty. We're here for vacation."

After hearing what Yu Feng said, Yu Huijun nodded. This kind of thing was too common. Every year, one could find a few children raised by big wolfhounds or by two-tailed monsters.

Although I sympathize with his situation, now that he has grown up, there is nothing much to say, right?

"I'm Yu Feng, I'm ten years old."

I introduced myself to Yu Feng first and also told him my own news.

"Yu Feng, maybe we are from the same hometown. Let's go back and ask Uncle Yu if there is anyone who has lost a child..."

After hearing Yu Feng's self-introduction, Yu Huijun patted Yu Feng on the shoulder. Since his surname is Yu, he must be a Chinese. Maybe their ancestors are from the same family.

As he spoke, he seemed to sense that something was wrong.

"Wait a minute, Xiao Fu, how old did he say he was?"

Yu Huijun realized that something was wrong and turned his head to look at Fu Ningna in disbelief. Fu Ningna was already covering her mouth and staring at Yu Feng, trying to prove that what he had just heard was an auditory hallucination.

"He...he said he was ten."

Fu Ningna looked at Yu Feng, who was taller than her, and responded to Yu Huijun's question with some stammering. The majestic water otter next to her glanced at Yu Feng without saying much.

"Xiao Fu, don't be discouraged, you can still grow."

Yu Huijun looked at Yu Feng, who was about the same height as him, and then at Fu Ningna, who was half a head shorter than him. After a long pause, he said something.

"What are you talking about! Uncle Yu!"

After hearing Yu Huijun's words, Fu Ningna knew that she couldn't blame him for not being able to speak. After all, she didn't know what to say now.

Ten-year-old this tall? If it was a girl, it would mean that she was ten years old, had a better figure than her, was taller than her, and looked no worse than her.

Being raised by Pokémon, is the nutrition so good?

Fu Ningna fell into deep thought. He had seen those children being raised like that before.

But in fact, there are very few people like Yu Feng in front of him.

Long hair and a full beard are the standard appearance of this type of child.

"Don't get me wrong, I was raised by psychic Pokémon."

Yu Feng knew from their expressions that they hadn't thought it through and hurried to prove himself. After all, he also knew what those raised children looked like.

"Oh, it's a super power department, that's not surprising."

When they heard that he was raised by a psychic, the two of them were not so surprised anymore.

After all, it is well known that psychics are human-like and can communicate with humans, so it is more than enough for them to raise a child.

"So you are traveling now?"

Yu Huijun asked Yu Feng with some uncertainty. After all, considering his height before, he thought it was normal for him to travel, but now he knew his age.

It's hard to say about this kind of thing. After all, they are still in school at the age of 10 and can't even think about traveling by themselves.
