Chapter 134 This method is written in a thick booklet.

"Well, yes, how about you guys go eat first?"

When he saw Xiaozhi and the others promoting the restaurant, he knew that these people must have gotten into trouble again.

As for Yuto Seidai, he was probably busy in the restaurant, and he also saw familiar people here. Yes, the store they were about to enter happened to be where Team Rocket was working.

"It's okay. I don't think Fu Ningna would have any objection."

Yu Huijun looked at Fu Ningna with dead eyes. She was secretly eating macarons that came from nowhere and her tone was very calm. Anyway, she had already eaten a little and was not as hungry as before.

[illegible]

Fu Ningna's cheeks turned red instantly when she looked at them, but she didn't stop moving her mouth at all. She continued to chew the macarons, but at a much faster speed.

"I know, I know, eat slowly and no one will say anything to you."

Looking at the anxious Fu Ningna, Yu Huijun really didn't know what to say. How could the children nowadays be compared with those in their time? They would just not eat if they said they didn't want to.

But times have changed, there is no comparison.

After getting the consent of Yu Huijun and Fu Ningna, Yu Feng took them to the slightly depressed Xiaozhi and others to ask what happened.

Seeing that it was Yu Feng, Xiao Zhi couldn't help but start to complain. Everything was fine just now, how come a series of accidents suddenly occurred and caused problems?

"Okay, okay, it's just cooking, I'll ask the butler to help."

Yu Feng couldn't hold back his anger when listening to Xiao Zhi complaining to him. How could accidents happen one after another? In this situation, someone must be causing trouble.

Combining what he had seen of the Rockets not far away, the truth about them seemed to have become clear.

"Who are they, then?"

Xiaozhi then noticed the two people following Yu Feng and asked curiously.

After all, Xiao Feng himself said that he didn't know anyone, so it's a bit intriguing that a few friends suddenly show up.

"Oh, these two should be the owners of the Huaxia region. I don't know what this uncle is. The one eating macarons is the owner of the water system."

He briefly introduced Fu Ningna and the others to Xiaozhi and the others, and then asked them why they were working outside. Although they did not have much money, didn't they have a wealthy woman named Yuto Seidai by their side?

How did I end up working here?

"Well, it's a long story, so I'll make it short, but this is a long story."

Xiaozhi sighed. This matter was rather troublesome. They rented a yacht for fun, but they hit something and damaged the yacht. So he had to work here to pay back the money.

"How about I..."

Yu Feng was just about to say, why don't I just help you pay it back? After all, it would take them a long time to work to repair a yacht, and it would be such a waste of time.

As expected, the villain appeared at this time.

"Your store is still empty, mother-in-law."

"Looking at this situation, it's not surprising that it will go bankrupt, mother-in-law."

An old woman who looked very much like a goblin from mythology walked in with Team Rocket and couldn't help but sneer at the empty store.

It was as if he was an enemy of the owner of this shop and he started hurling abuse at him as soon as he opened his mouth.

"Granny Jin! What are you doing here?!"

When the store manager saw Granny Jin, he looked like he had seen an enemy, his expression becoming so ugly that it was beyond words.

"I just came to take a look. It's okay to close the business, but you have to pay me back the money you borrowed from me, mother-in-law."

Then, he saw the store manager who was taking a break, walked up to him and continued to say infuriating words.

Although paying back debts is natural, her attitude is really annoying. After all, judging from her tone, it will take some time for her to pay back the money. Yu Feng felt that she just came here to disgust him.

"The deadline for repayment is tomorrow, mother-in-law."

"If you don't pay me back tomorrow, I will take over your boat, mother-in-law."

After saying what she wanted to say, Granny Jin walked outside without looking back.

Now Yu Feng was sure that she was here to disgust people. Plus, the auras of Kojiro, Musashi and others nearby were almost overflowing, so how could Yu Feng not know who was responsible for the accident that Xiaozhi and the others were talking about.

"Wait! Only that ship won't work."

When the shop owner heard Granny Jin say she wanted to take away his boat, he immediately became anxious. The boat was his life, how could it be taken away like that?

"That's none of my business, mother-in-law."

Granny Jin didn't even bother to return. After all, it wasn't her who couldn't pay back the money. If she didn't have money, she could just mortgage her things. Besides, with a boat, she could start more business and attract more people.

As for how the ship came, that had nothing to do with her. The three members of Team Rocket made faces at Xiaozhi and the others, then laughed and went back with Granny Kim.

.....

"What should I do? The deadline for paying back the money is tomorrow, but I can't make any money today."

The owner was a little annoyed. There used to be customers before, but now there is not a single customer. Oh, there are still three, but it's a drop in the bucket.

Besides, looking at Grandma Jin's behavior, it is not difficult to guess who was responsible for those accidents.

Yu Feng, Yu Huijun and Fu Ningna sat in the chairs, eating fried noodles and watching everything in front of them without intervening. There was no need for them to intervene in such matters, or there was no reason for them to do so.

They have nothing to say about formal business competition, they might as well fill their own stomachs first.

"Don't worry, Grandpa Liu, we will definitely help you! Right, Xiao Feng."

Xiaozhi performed as stably as always. After comforting the shop owner, Grandpa Liu, he also became excited and pulled Yu Feng in as well.

"You've dragged me in, what else can I say?"

Yu Feng was speechless as he looked at Xiaozhi who had already agreed to this matter on his behalf. Isn't it a bit redundant to ask for my opinion after you have agreed to it?

But since this is the case, I have to help think of a solution. It is most convenient to just give the money directly, but Yu Feng is not a sucker. Being willing to give the tea from the Busihu to others does not mean that he is willing to pay. These are two different things.

Bu Sihu raised a lot of them at home, and their daily task was to produce tea. What he gave to Wei Laitao and Yuhuijun was only two days' supply.

"Xiaozhi, but having said that, what should we do?"

Grandpa Liu cheered up after hearing Xiaozhi's words. He could have ignored Xiaozhi, an outsider, but since he was willing to help to this extent, he had no reason to give up.

But the problem is that because of what Granny Jin did, there is no other customer in the store except Xiaozhi's friends.

As for other ways to make money quickly, they are all written in a thick booklet.

After hearing what Grandpa Liu said, Xiaozhi and the others fell into deep thought. Yes, if there were no customers in the restaurant, there would be no chance of turning the situation around.

"There is a good way to make money."
