Chapter 135 I won't tell you who it is

A familiar voice sounded, and Xiaozhi couldn't believe it for a moment.

"Dr. Oak, you're here?"

Yu Feng was very surprised, after all, it was rare to see Professor Oak here.

"Oh, it's Xiao Feng. You're here too. Who's on your side? Inspector Yu... and Pavilion Master Fu Ningna."

As one of the few people who were given an illustrated book, Professor Oak was still able to recognize Yu Feng. He also had wanted to study Yu Feng's shiny Kirliao for a long time. What is the difference between shiny Pokémon and ordinary Pokémon?

When I saw Yu Huijun standing next to me, I felt that he looked familiar, but when I saw him constantly winking at me, I knew that he didn't want to reveal his identity.

After thinking for a while, I finally decided to call him Inspector. After all, there was nothing wrong with calling him Inspector given his identity.

"Don't worry about that for now. Professor Oak, what method of making money are you talking about?"

Although Xiaozhi is very curious about the gym leader, the most important thing at the moment is to help Grandpa Liu make enough money. Challenging gyms can be put on hold for the time being.

"Xiaozhi, didn't I tell you that interrupting others is not nice?"

Hanako appeared in front of Xiaozhi at some point, and seemed to be dissatisfied with him interrupting other people's conversation.

"Mom...Mom..? Why are you here?"

When Xiaozhi saw Hanako suddenly appear, he seemed a little unconvinced as to why his mother would appear here. After all, this place was not close to Pallet Town.

"We'll talk about this later. Look at this."

Professor Oak hugged Xiaozhi and interrupted himself, and also interrupted Xiaozhi's words. Besides, isn't the most important thing for them now to find a good way to make money?

Professor Oak handed a booklet to Xiaozhi and motioned for him to read the contents. At least on this beach, this was the best way to make money.

"This is the Seaside Beauty and Pokémon Makeup Pageant. This is probably the best way for you guys to do this so far."

Watching Xiaozhi start to read the contents of the book through voice, Professor Oak briefly explained to Yu Feng and the others who couldn't see the contents what it was.

After hearing what Dr. Oak said, Yu Feng and Fu Ningna, who was an actress, knew what he meant. Once this event is held, people will gather here, and there will always be people here, and when people are hungry, they will come to this store.

Other stores are far away, even Grandma Jin's store is quite far from this venue, and they can completely set up the venue next to this store.

When this activity is launched, people will flock to it continuously. After all, who doesn't like to look at beautiful women?

"Can this kind of thing make money?"

Of course, with Xiaozhi's brain, you are destined not to let him understand Professor Oak's meaning at the first time.

"Xiaozhi, as long as the event starts, people will continue to flock here."

"By the time..."

Yu Feng didn't finish his words. After all, things had come to this point. If Xiaozhi still didn't understand, then he really didn't know what to say.

"Yeah, Xiao Feng is right. Fortunately, this is a beach with so many beauties. Besides, Xiao Zhi, you are not very confident in Pokémon."

Professor Oak also praised Yu Feng, saying that although he was raised by Pokémon, his intelligence was surprisingly much better than that of Satoshi who had been with him since childhood.

He understood it immediately, unlike Xiaozhi who only half understood it after explaining it to him for a long time.

"Then the next issue is the stage and publicity."

As an actress, Fu Ningna is very clear that an unknown event requires large-scale publicity to achieve the desired effect. Unfortunately, her reputation does not work in Guandu, otherwise she could attract many people to participate by just sending a message.

"The stage is simple enough for Ground and Rock-type Pokémon to create directly, but the others..."

Yu Feng said that the stage was a simple thing, and Xiaogang's Pokémon could be made, but the other things were troublesome.

"I still have some leftover props here that can be used to simply decorate the stage."

Grandpa Liu also said that what he had here could barely be used to decorate the stage.

"I can have Pidgeots drop leaflets from the sky for promotion."

Xiaozhi said that he could let Pidgeot distribute flyers, which is quite fast.

"As for the other equipment, I guess the Pokémon Center should have it."

"Then I'll take them both back with me, borrow their equipment, and make some copies of the flyers."

Yu Huijun said that he was determined to join in the fun, as it was rare to have such a great time.

"Is it really okay for you to do this?"

Professor Oak was a little surprised. It seemed that his mission was not what he imagined, otherwise there would be no need for him to join in such fun.

"I just came here for a vacation, nothing else. Okay, I'll take him with me."

Yu Huijun had nothing to hide. This was not a secret mission. It was just a vacation. They were not busy people who were always busy.

"I always feel like you are hinting at someone."

Professor Oak was a little speechless. Why did he have to hide his identity while on vacation? But that's easy to handle. Psychic Pokémon are best at doing this kind of thing.

"I don't. What champion would leave things to his subordinates?"

Yu Huijun bent back and looked at Professor Oak with pride. How could there be a champion in the world who leaves things to his subordinates? No way, no way.

When Yu Feng heard his words, he knew he was talking about Shirona. After all, no one else could do it except him, so he left the matter to his subordinates.

Are Junbu Yulongdu and Dandi so busy that they even patched up their cloaks? It seems that only Dandi patched up his cloaks, while Yulongdu just changed his clothes, and all his clothes in the closet were the same.

After determining their respective tasks, Professor Oak took Satoshi and the others to create the stage first.

Yu Yufeng, Fu Ningna and others went back to the Elf Center to borrow equipment.

"Okay, I'll go organize the tools I'll be using now. As for the battle site, it's in the back."

After confirming their request, Miss Joy readily agreed to their request to borrow the equipment.

This is also good for them, so there is no reason to refuse.

After saying goodbye to Miss Joy, Yu Huijun led them to the dueling arena in the backyard.

"Fu Ningna is a water gym leader. You should have seen the water otter named Navilai Otter following her. Even though he hasn't evolved yet, his level is ridiculously high."

During this time, Yu Huijun briefly introduced Fu Ningna to Yu Feng. After all, they were not from the same region, so he had to let him know some basic things.
