

Gardevoir 151

Chapter 151 continues.

"We are evenly matched, million-ton kick!"

Yu Feng was somewhat happy when looking at the situation on the field, which meant that he was not much weaker than Shirona.

And this is a good thing. At least I have snatched half of it, so I don't have to keep losing blood.

"Iron Tail!"

After receiving the command, Mega Gardevoir instantly used its super power to lock onto the Mega Garchomp in the sand, instantly moved to the nearest place, and kicked over with its hind legs glowing pink.

However, Super Land Shark also reacted very quickly, and its metallic tail lashed directly behind him.

It retreated immediately after being touched, and Super Gardevoir teleported to the top and smashed down towards Super Garchomp with gravity.

Super Garchomp reacted quickly and raised his hands to block the aggressive Mega Gardevoir.

As the two Pokémon competed secretly, the ground where Mega Garchomp was stepping on began to crack.

"Steel Claws knock her back!"

"Don't be afraid, Frozen Wind."

The situation changed rapidly. Super Garchomp drew out a sickle and, with a grim smile, knocked away Mega Gardevoir, who had nowhere to gain support in the air.

Mega Gardevoir used this power to leap to a safe distance, took a deep breath, exhaled an icy breath from its mouth, and charged towards Mega Garchomp.

After Super Garchomp repelled Mega Gardevoir, it chased after it with its steel claws. Facing the freezing wind blowing towards it, Super Garchomp waved its steel claws a few times and cleared a relatively safe gap in front of it.

However, this Freezing Wind and Gigantic Sound are similar skills. As long as Mega Gardevoir does not stop releasing them, it will continue to attack.

Soon, the Super Land Shark, which was moving against the freezing wind, was frozen in the ice and unable to move.

"It looks like the outcome has been decided."

Yu Feng breathed a sigh of relief, finally letting go of his worries when he saw the frozen Super Land Shark shadow, but he always felt something was wrong.

"Really? Super Land Shark Poison Attack!"

With a smile on her face that Yu Feng could not understand, Shirona gave her orders to the people on the field.

.....

"Oh, it looks like he made a similar image of himself out of sand before he was frozen."

Professor Oak knew at a glance that the creature that was frozen was definitely not the Super Garchomp. It should have dug a hole and escaped at that moment.

"That's what I was saying, but this young man has very little experience fighting against high-ranking officials."

Dr. Mustard Lan is not stingy with his praise for his granddaughter.

Although she is not good at fighting, it can be seen in just a short while that Yu Feng lacks experience in fighting strong enemies, and she should never relax until the referee announces the end of the game.

.....

"You seem very confused. Let me teach you a lesson. Never take it lightly until the referee announces the end of the game."

As Shirona finished her words, Mega Garchomp, which had been stacked in several layers of sword dance underground, broke out of the ground and stabbed Mega Gardevoir with its sickle glowing purple.

"Shauna!"

Mega Gardevoir was indeed surprised for a moment when the ground collapsed, but it quickly stabilized itself and used teleportation to avoid the attack from Mega Garchomp at the critical moment.

But the more she thought about it, the more uncomfortable she felt, and it was really frustrating to be beaten like this.

"oh, I understand now."

After all, they were the same person, and Yu Feng instantly understood what she meant.

It's really too frustrating to fight like this, so let them have a good fight!

The super powers were connected again, and at this moment their minds were united.

"Now let's start round two!"

"Sana! (Let's start the second round now!)"

The two of them made a hook gesture at the same time, provoking the Super Land Shark on the opposite side.

"Oh? Can you use superpowers like this? Don't be angry, Garchomp. Use rocks to block it when the time is right."

Looking at the identical movements on the opposite side, Shirona nodded. This one move alone would take her best friend a long time to learn, otherwise she would never be able to learn it.

Stopped wanting to take action

"First this way!"

Super Gardevoir teleported to the side of Super Garchomp and then punched it.

Super Garchomp is worthy of being Sirona's trump card. In just a moment, a rock blockade rose from the ground and tried to seal Mega Gardevoir in it.

However, the moment the rock touched, Super Gardevoir teleported to the other side and at the same time, the Million Ton Kick kicked hard at her target.

A sharp spike pierced her stomach, but she still used teleportation to dodge it the moment it came into contact.

Spikes continued to rise from the ground, and Gardevoir's teleportation distance was getting closer and closer.

'It's almost there! It's almost there!'

Finally, when stepping on a rock pillar, the power of the moon in Gardevoir's hand was ready to be unleashed, and it punched Tyrannosaurus Rex on the head, knocking him away.

Super Land Shark's body slammed heavily into the rock pillar formed by its own skills, and was then completely buried underneath.

Super Gardevoir also returned to Yu Feng, panting heavily. He had used teleportation thirty or forty times just now and almost drained his mental strength. Even with Yu Feng supporting him from behind, he almost couldn't hold on. He couldn't teleport again in a short time.

"That's amazing, let's start the final round!"

"Super Shark Current Break"

As Sirona's voice rang out, a large amount of water gushed out from the rubble where the Super Biting Land Shark was buried.

The water flow wrapped around Super Garchomp and rushed towards Mega Gardevoir. Super Gardevoir was also ready, with his hands on the orange heart-shaped pectoral fins on his chest. The dazzling pink ball of light expanded instantly, and then he gently pushed forward, and a destructive death light thicker than the water flow of Super Garchomp came out instantly.

The two sides collided and wrestled. Although the advance was slow, the Super Biting Land Shark was still advancing forward.

"Cut him open!"

"Increase the power!"

Both sides gave their final orders to their Pokémon, and now it was just a matter of seeing who would come out on top.

"Roar!!!!"

"sand!!!!"

Super Garchomp cut the Destruction Ray in half like a sharp blade. Seeing that the Destruction Ray could not be stopped, Super Gardevoir stopped charging power immediately and launched a million-ton punch instantly.

"bump!!"

Punches and sickles hit each other's faces and stomachs, and the field suddenly became quiet.

"Who wins this?"

Xiaozhi was very concerned about the battle on the field. The scene in front of him made him scratch his head and he was eager to know who was the winner. This was much more intense than watching his own battle.

"Yes....."
