Chapter 189 What! The talisman paper is fake!

"I don't think so. Musashi, please stop thinking of others as being so weird."

"And why do you need to post so many? Is it really useful?"

Kojiro felt helpless about Musashi talking about others behind their backs, but this was human nature. He was also very curious about why Mantori called Yu Feng over.

"You have a very loud mouth."

Seeing that Kojiro was unwilling to gossip with him, Musashi directly sealed a piece of talisman paper on his mouth. Since he didn't want to gossip with him about what they said, he should not talk and disturb his good mood.

Pikachu on the side was also constantly sticking talismans on Xiaogang, and accidentally stepped on air and fell off his body, which was so cute.

"Okay, our place is already fully covered. Have Xiao Feng and the others not returned yet?"

Xiaozhi walked in from outside and said that the side he was responsible for had been sorted out.

Then he looked around and found that Xiao Feng had not come back yet, so he asked Team Rocket in the house in confusion.

"How should we know? Stop bothering me."

As Musashi spoke, he stuck the talisman in his hand on Kojiro. He had no idea why he was contaminated with this stuff and had to spend money to buy talisman paper.

Fortunately, it was not their money that was spent, otherwise they would be heartbroken. While thinking this, she put another piece of talisman paper on Kojiro's eyes.

Xiaozhi didn't think much about it and continued to stick talismans in the house. After all, more protection is safer, isn't it?

Not long after, Yu Feng and Zhenniao walked in from outside. Judging from Zhenniao's expression, there should not be any conflict between the two.

"I say, you guys, why are you posting so many?"

Yu Feng tore off a piece of talisman paper from his body and looked at Kojiro and Xiaogang, who were almost wrapped like mummies in front of him, with complicated eyes.

It can't be said that the talisman papers can be used in this way. What's more, Yu Feng knows very well that whether these talismans work or not depends on whether Gastly is willing to let them work.

If it works, even one photo can drive away the girl's ghost. If it doesn't work, even if you paint the shrine white like they did, it will be useless.

"Just to be on the safe side, Xiao Feng, what did you talk about with this guy from Team Rocket?"

Xiaozhi said with a smile, after all, if you stick too many of them on, they might scare away the ghosts directly. Of course, he was also very concerned about what Xiaofeng talked about with the guy from Team Rocket. Of course, he had to emphasize to remind Xiaofeng that this person was with Team Rocket.

Maybe she's also a member of Team Rocket.

"An, of course I know, we were just chatting about some very ordinary things."

Yu Feng waved his hand. He knew better than Xiaozhi which questions could be answered and which could not be answered. Manato just asked some very ordinary questions.

He didn't even ask whether he wanted to join Team Rocket.

"Don't worry, I won't ask anything beyond the scope of my question."

Manatori pushed his glasses subconsciously. After all, no one would believe him if he made such a simple invitation, so he had to get closer to them slowly in the days to come, and only raise this question when the relationship was close enough.

No matter what they think, time passes like water.

In the blink of an eye, it was night. Kojiro and Xiaogang sat in the center of the shrine as if they were being baptized, while Yu Feng, Xiaozhi and the others hid aside to prevent any unpredictable problems.

"Yawn, it's so late, it should be fine."

Xiaozhi yawned loudly. It's so late now, everything should be over, right?

"Wait a little longer, I don't think it's that simple."

Yu Feng smiled without saying anything. He had just seen Gastly sneaking out, which showed that Gastly was planning to make this thing ineffective this time.

Not long after Yu Feng finished speaking, the door of the shrine was blasted open by an invisible force.

The talisman paper stuck on it kept dancing in the air with the strong wind, and the ghost of the girl suddenly appeared at the door.

"You are!"

Compared to others who were worried, Xiaogang was not afraid of the sudden appearance of the girl ghost and was not too scared.

"I've been waiting for you..."

The ghost of the girl didn't care what Xiaogang said. She just kept repeating the same words and slowly walked into the shrine.

"Really? I feel the same way."

"How terrible, how terrible!"

Compared to the frightened Xiaogang above, Kojiro now only felt terrified. He cried and wanted to escape from here, but there was no way as there were walls on all sides and the only exit was occupied by the ghost of the girl.

"I really want to see you..."

The girl's ghost repeated the words like a tireless robot, using an unknown force to take Xiaogang and Kojiro away.

"Why? I put a spell on it!"

Xiaogang obediently followed the force and floated outside, but Kojiro was different. He didn't want to become a mummy, so he held on to the nearby railing tightly and refused to let go.

"It's obvious at first glance that this is fake talisman paper, and yet you're still so unwilling to accept it."

Musashi looked at Xiaogang, who was almost wrapped like a mummy, and flew away. It would be strange if these talismans were real.

"You and I don't have an ordinary relationship. I don't want to break up with you. I don't want to leave you!"

Kojiro was so deeply in love that he actually forgot that he was holding on to the thing and couldn't let go. Of course, it might also be that the girl's ghost manipulated him to let go.

Musashi was deeply touched by Kojiro's words.

On the other hand, Xiaozhi and Xiaoxia hurriedly chased out and grabbed Xiaogang who showed no resistance, to prevent him from really turning into a shriveled mummy.

As no one held Kojiro back, he slowly drifted towards that direction.

"Ms. Manatori is so calm, aren't you going to save Kojiro?"

Although Yu Feng already knew the ending, and also knew that Gastly would not really hurt anyone, he was not in a hurry to save Xiaogang and the others.

It's really strange that Mantori can be as calm as me.

"Haha, just kidding. Of course I am anxious, but there are people who are more anxious than me."

Although Manatori didn't know the truth, she knew that if something happened to Kojiro, someone would be more anxious than her.

Just when Kojiro was about to be caught by the girl's ghost, a rocket directly shattered the girl's ghost.

Unfortunately, because she was a ghost, she only became a little more vague.

But because of this, Kojiro escaped from the control of the girl ghost and fell down the cliff.

"Miss, don't go too far. The guy has already said no."

Musashi, carrying a rocket launcher, stood in front of everyone, looking seriously at the ghost girl floating in the air, with an attitude of one man blocking the way for ten thousand.

"See, I told you there are people who are more anxious than me."

Zhenniao on the side nodded with satisfaction. At least these guys didn't embarrass her.
