Chapter 26 Tree of Life

"Chi...Chi...Chi...Chilu! (What is this place!!)"

Looking at the huge trees in front of him, Kirlia was so shocked that she stuttered a little.

"How do we get here? Super powers?"

"No, I didn't feel any fluctuations in super powers."

Yu Feng wondered how they got here. It didn't seem like they had some superpower that allowed them to teleport here.

Instead, it's like... a barrier? But are there such things as barriers in the Pokémon world?

Just as Yu Feng was thinking, Flash Kirlia discovered something strange.

"Chirrut. (Brother, the way we came is gone!)"

Flash Kirlia was horrified to find that the road they came from had disappeared, replaced by an unknown road.

"Well, don't think too much about it. Let's do the offering first. Maybe we can get out after we're done."

Yu Feng glanced at the road just now and didn't find it strange. In fact, although he entered a barrier, he felt that the size of this barrier was very strange.

"Chiru. (Where should we go to make offerings?)"

"Are you stupid? Isn't it obvious that it's a big tree? And it's shining with colorful lights."

In fact, Shining Kirlia regretted asking this question as soon as she asked it. There was such a big tree there, flashing with colorful light, and it was almost as if the words "I am here" were pasted on it.

As expected, Yu Feng's eyes were very strange, as if he saw something strange. He pointed at the gorgeous and shapeless tree, which was the most conspicuous tree in this space.

Now that the direction was clear, the two of them set out to walk there. Although it looked far away, it was actually very close.

The closer Yu Feng got, the more familiar he felt that the tree looked, as if he had seen it somewhere before.

After careful observation, I found that the shape of the tree's branches is very much like a deer's head.

Seeing this, Yu Feng patted his head as if he had suddenly realized something. It was so obvious but he couldn't guess it, so there was something wrong.

Isn't this Xerneas in tree form? No wonder the old patriarch said he could receive His blessing.

He was still wondering how a fallen antler could be blessed, but he didn't expect that Xerneas himself was here. Was it strange to have a fallen antler?

"Chirrut. (We're here.)"

Kirlia saw the stone platform from a distance. A pair of deer antlers that emitted the same brilliance as those on the giant tree above were quietly placed on the stone platform.

"So the next question is what should we do?"

Yu Feng looked at the empty ground around the stone platform, wondering what they should do next.

The old patriarch only told them that they would be blessed if they came in and offered sacrifices, but he did not tell them the two detailed procedures.

"Chirrut. (How about putting the crystal on the table and trying?)"

Shining Kirlia expressed her own opinion. After all, the only stone platform around looked like a place for worship.

"Just give it a try. Nothing will happen anyway."

Yu Feng placed the crystal on the stone platform and looked around to see if anything strange would happen.

Sure enough, after he placed the crystal on the stone platform, a faint pink mist floated around it.

"I'm a little sleepy."

After Yu Feng said this, his eyes closed uncontrollably as if he would fall asleep in the next second. Of course, he couldn't hold on for long before he fell into a deep sleep.

Not far away his sister was in the same situation as him, falling into a deep sleep.

Yu Feng opened his eyes like a drowning man. It was dark all around him, which reminded him of the time when he was in the Pokémon egg when he first came here.

"This is?"

When Yu Feng was feeling confused, colorful light shone in the black space.

'You are here.'

Xerneas quietly appeared in front of him. Although he did not speak a word or use any super powers, Yu Feng was able to understand what he meant.

'Don't panic, this is your mental space, which can effectively prevent others from eavesdropping on our conversation.'

As if knowing what Yu Feng wanted to say, Xerneas's gentle voice resounded throughout the space, answering Yu Feng's doubts.

"No, I wanted to ask if you are a woman?"

Yu Feng scratched his head. Even though the question he wanted to ask most was spoiled by Xerneas, he still wanted to ask his question.

"Haha, gender is useless to me, you can just treat me as a female."

Xerneas' gentle voice answered Yu Feng's doubts. After all, gender really means nothing to him. However, he is indeed a human who dares to ask the King of Wind for feathers. He is really brave.

"Then how did the flash appear? Oh, where's my sister?"

Yu Feng was still very curious about how the legendary beasts could shine. After all, it was easy for those with tribes, but how could beasts like Xerneas and Ho-Oh, which obviously had no tribe, shine?

But he suddenly thought of his sister and asked about her condition. He knew she was fine without asking, as how many people would have the guts to cause trouble on Xerneas's territory?

"Is this the question? It's really interesting. Traveler, you should know that infinite parallel universes have infinite possibilities. As for your sister, I think you should have the answer."

Xerneas did not directly answer Yu Feng's question. After all, knowing His existence, there wouldn't be too many problems.

"Then I'm fine."

Yu Feng spread his hands. He had no questions now, or rather, Xerneas had answered all the questions he wanted to ask.

'Well, it's my turn, traveler. I foretell many great disasters in the future.'

'I see in the future that you are the one who can quell these disasters.'

'The awakening of the spirit, the rage of the sea and the earth, the collapse of time and space, the conflict between life and destruction, the invasion from another world, etc.'

Xerneas told Yu Feng the future he had seen, in which the world would experience many major disasters.

Every disaster will change the world's pattern. She sees that in the future only this child can truly calm their anger.

"I don't think I can do that. I promised my mother not to do anything dangerous."

Yu Feng shook his head. He had just promised his mother not to do anything dangerous. Wouldn't it be a slap in his face if he did it now?

What's more, these disasters can be easily solved by Xiaozhi, so why would he be needed?

"This is the choice of fate. Whether you like it or not, you will be drawn into the trajectory of fate."

Xerneas was not optimistic about Yu Feng's idea. He had observed countless futures in which Yu Feng had not been able to avoid them once.
