

Gardevoir 28

Chapter 28 So I have another daughter?

Several Larulas were lying on the heads of some Kirliams, secretly observing the scene inside through the windows.

More than a dozen huge leader Gardevoirs were surrounding Yu Feng and his sister and observing them carefully.

"Sana. (So what blessings did you all receive?)"

With sharp eyes, Gardevoir looked at the person and two elves in front of her with some curiosity. The blessings obtained by each person were different, as if she had learned the mind and eyes that she should not have learned.

"Chirrut. (I feel like the power of my fairy skills has increased by 4/3, and I've also learned a skill called Miracle Eye.)"

Shining Kirlia felt the power of her own moves. In addition to the increased damage of fairy-type skills, she also learned a skill called Eye of Miracle.

"Shanai! (Great skill. With this, I can use my psychic powers to normally defeat those annoying evil-type Pokémon.)"

The youngest Gardevoir clapped her hands excitedly. Although Gardevoir is a fairy and psychic-type Pokémon, they prefer to use psychic powers compared to fairy skills.

After all, think about what their title is, Super Queen!

'It also has the power to distort space with its mental force, creating small black holes.'

This is the description of the human atlas. Doesn't it explain what their strengths are?

"Sana? (What about you, Xiao Fengfeng, you...)"

Gardevoir's mother wanted to say something, but when she saw Shining Gardevoir giving Yu Feng a massage, she didn't know what to say.

She suddenly felt a little jealous of this unknown Gardevoir, who dared to touch the son she had raised for so long.

"Garedo. (My sister and I got similar things, plus two unknown skills, plus I evolved into Gardevoir, and I also got this body.)"

The Shining Gardevoir behind Yu Feng spoke, which shocked the other leaders Gardevoir. How come our little prince became a little princess after going in?

No, Xiao Fengfeng is still there, so is this an extra body?

The Gardevoirs' eyes glanced back and forth between Yu Feng and Shining Gardevoir. This was the first time, even though Xiao Fengfeng's presence was also the first time.

But this is different. Xiao Fengfeng is a boy, and this shining Gardevoir is obviously a girl. The patch on her chest is almost as big as Xiao Fengfeng's mother's.

"It's weird to say this, but she is me."

Yu Feng kept doing the same actions as Shining Gardevoir. There was not much difference between their actions except that one was a human and the other was a Pokémon.

"Sana? (In just a short while, I have a daughter this big?)"

Gardevoir's mother was obviously confused. How come her son split into two just after a while, and one of them was a daughter?

"I think so."

"Shanai! (Mom, you may really have a new daughter.)"

Shiny Gardevoir placed its hands on its hips helplessly, looking at the aunts examining it with some surprise, although its body was 2.2 meters taller than the average Gardevoir.

but!

but!

but!

The important thing must be said three times!

His aunts are all four-meter-tall behemoths! !

After one evolution, his original body is only 1.75m tall, and Gardevoir's body is only 2.2m tall. No matter how you look at it, it's ridiculously small.

"Sana. (I haven't really thought about what to do about this.)"

Gardevoir's mother didn't know what to say, after all, it was the first time she had seen such a thing.

"Sana? (By the way, if you remove your superpowers, what will happen to this body?)"

Suddenly, the youngest Gardevoir poked the Shining Gardevoir's body curiously, but was slapped away by her.

"Let's talk it over nicely. But I don't know what will happen if I wake up and find that we are connected."

After hearing what his aunt said, even Yu Feng became curious about what would happen if the linked superpowers were cancelled, although multitasking was a normal operation for him.

"Let's try it. It shouldn't be dangerous, right?"

Although he was curious, Yu Feng was still a little unsure whether to do this. After all, he couldn't predict what would happen after withdrawing his mental power.

"Sana. (There are so many of us here, what are you afraid of?)"

Gardevoir spoke with sharp eyes. After all, she was also curious about what would happen.

"Then I'm leaving?"

Yu Feng glanced at his aunts, all of whom had emerald green water droplets full of life on their hands, and retracted his scattered mental energy.

After the mental power was completely withdrawn, the Shining Gardevoir next to her closed her eyes slightly and fell on the sofa like Sleeping Beauty.

More than a dozen life droplets instantly merged into the body of Shining Gardevoir.

"Sana. (Let me see, her pulse is normal and she can breathe. My mental power can't enter her. Apart from not having her own consciousness, she is just a Pokémon.)"

As the strongest old clan leader, he sensed the Shining Gardevoir lying on the sofa and found that she was a living Pokémon except that she had no consciousness. Her mental power could not control this body. It seemed that only Xiao Fengfeng's consciousness could control it.

"But just because your spiritual power can't enter, doesn't mean..."

Yu Feng was still a little worried about this matter. After all, there were elves stronger than the old patriarch.

"Garedo. (There are only a few people stronger than me. Why would I be interested in a Gardevoir?)"

The old patriarch assured Yu Feng that after all, the only Pokémon stronger than her were legendary Pokémon at the level of Xerneas. If Pokémon like Trinita came at this stage, they would never be able to leave. Did they really think that their forest was made of mud?

"Chirrut. (Brother, if you are so worried, why don't you just tame yourself?)"

The ignored Shining Kirlia suddenly interrupted at this time. After all, now that he had tamed him, there wouldn't be so many problems.

Of course, this is also the case when some buggy Poké Balls do not appear, such as Mewtwo's Mewtwo Ball and Vixia's Dark Ball.

One is the Mewtwo Ball, which will capture the Pokémon together with the Poké Ball even if you put it in the Poké Ball, and the other is the Dark Ball, which can capture other people's Pokémon.

Although the Mewtwo Ball and this Dark Ball only appeared once, Mewtwo no longer used this Poké Ball after being enlightened by Satoshi, and Vixia's Dark Ball was directly destroyed by Sakaki.

But these things will indeed have a big impact on him.

But think about it, it's earlier than Xia Si's plot, and Mewtwo may not necessarily attack him, so it is indeed a good choice to tame him at the moment.

"Sana. (How could I have almost forgotten this? You should subdue her first, so that no one throws the ball at her.)"

Gardevoir's mother slapped her head. She had forgotten that her clan was very popular among humans, so it was not impossible for them to lose the ball due to carelessness.
