

Gardevoir 30

Chapter 30 I found a good partner for you!

Yu Feng and Shining Kirlia finally managed to make Ai Guanshi and the others fall into a wonderful dream (physical).

Yu Feng and his sister began to discuss what caused this situation. After all, if they didn't figure out what was going on, the Larus filling the windows outside might really eat them both.

"Now that I think about it this didn't happen before we went in for the offering."

Yu Feng sat cross-legged and thought about their actions today and what had led to the current situation.

"Chirrut. (It was there after he came out, but it obviously had no effect on Gardevoir.)"

Shiny Kirlia suddenly remembered that this inexplicable attraction seemed to have no effect on Gardevoir. After all, this had never happened to her mother, her aunts, or even the Gardevoirs she met on the road.

"Wait a minute, could this be Xerneas's blessing?"

"Chirrut! (It's a blessing!)"

The two looked at each other in shock at the same time. Even though it was unlikely, this seemed to be the only possible scenario.

"Didn't mom remind us?"

"Chirrut. (Maybe she's waiting to see us make a fool of ourselves, just like that funny aunt.)"

Yu Feng was somewhat shocked that his mother didn't even give them any hints and just watched this happen.

Shining Kirliain guessed the general idea, after all, this matter was not very difficult to guess.

It was obvious that they had all experienced this and would tear up other umbrellas when they got caught in the rain.

"What should we do now? It's obvious that our position is as obvious to them as light in the darkness."

Yu Feng pointed at the window that was already a little curved. It was obvious that it was about to collapse.

"Chirrut. (Should we go back?)"

"Go back? It seems that Larulas and the others don't dare to go there."

Shining Kirlia suggested going back to the conference room, after all, Larulas and the others didn't dare to go there.

Yu Feng was about to say something, but then he remembered that they had been there for a long time and had not seen Larulas come over. Maybe they could really avoid the danger temporarily.

After figuring it out, Yu Feng took his sister's hand and was about to go out, but when he saw the Larulas outside with red eyes and drooling mouths, he decided to use his superpowers to teleport away.

"Miao?" A pink kitten flying in the air appeared at the spot, stared at the direction where Yu Feng and the others teleported, and then disappeared again.

In the blink of an eye, the scene in front of the two people changed from their own room to the clan's meeting room.

Of course, he couldn't relax after coming here. Yu Feng locked the door and then vigilantly observed the situation outside through the window.

After a long time, no one dared to come here except for seeing the Larulas going crazy like lunatics along the place where they walked.

"It seems that this side can indeed block their perception."

Looking at the Larulas who were like headless flies, Yu Feng finally breathed a sigh of relief.

"Chirrut. (I don't know how long this situation will last. Don't be too happy too soon.)"

Shining Kirlia supported her chin helplessly. This was the first time they had encountered such a thing, and they had no idea how long it would last.

If time goes on for a long time, eating and other things will become a problem again.

"I think it should be tomorrow. After all, didn't you say that you will return the Shining Gardevoir to me tomorrow?"

Yu Feng thought about it. He still remembered that his aunt said that she would return it to him tomorrow, which meant that the problem could be solved tomorrow. Even if it couldn't be solved, his aunt and the others probably had a way to block it.

"Chirrut. (That's all I can do. I'll meditate first so I don't get hungry later.)"

Although Shining Kirlia does not agree with this statement, there seems to be no better way at the moment.

After that, she closed her eyes, sat cross-legged on the sofa and began to meditate.

After all, her brother has already evolved into Gardevoir, and if she doesn't work harder, she will be left behind by her brother.

"What can I do if you meditate? Well, this is all I can do."

Yu Feng got a headache when he mentioned meditation. He hated sitting motionless like this the most.

But judging from the current situation, it seems that meditation is the only way to resist hunger.

He had no choice but to sit cross-legged near Shining Kirlia and start meditating.

Time passed quickly.

Just as they expected, their aunt found them early the next morning.

"Sana. (I thought you guys would just run around outside like idiots all night, but I didn't expect you guys knew that this place can block the outflow of aura.)"

Aunt Gardevoir looked at them in amazement. After all, according to her imagination, the two of them should be exhausted and collapsed outside by now.

She casually threw the love ball to Yu Feng, and the aunt looked at them as if she was looking at some rare creatures.

After all, she was being chased for a whole night. Why didn't she think of this side that could block the outflow of breath?

"We can't help it. After all, they didn't catch up with us when we were here. A little speculation will tell us that they definitely don't dare to come here, or they have some way to block our presence."

"Is this a necklace for me?"

Yu Feng explained their ideas to his aunt and caught his love ball at the same time. He suddenly found that the love ball was made into the shape of a necklace.

Yu Feng couldn't help but raise his eyebrows. Did his mother and the others want him to wear it as a necklace?

"Sana. (I modified it on purpose. After all, it's you, so you should have some sense of ceremony.)"

Gardevoir's mother handed two boxes of food to Yu Feng and Shining Kirliao. They hadn't eaten all night, so they needed to eat something to fill their stomachs.

"Sana. (I suggest you wait until you get back and release her so that you can have a surprise in the resonance.)"

"Sana. (By the way, are you guys ready to travel to which region? The closest to the competition seem to be the Kanto Alliance and the Huaxia Alliance.)"

Gardevoir's mother gently asked her son which region he was planning to travel to. She vaguely remembered that the conferences in other regions would still start a long time later.

The regions closest to the opening of the conference are Guandu and Huaxia Alliance. The conferences of other regions are still more than ten months away, and the conferences of these two regions are nearly half a year away.

"I'm afraid it's not a surprise but a shock. What do you think, mom?"

Yu Feng was somewhat helpless as the surprises they talked about always felt like serious shocks, but he did have an idea about where to travel, but the most important thing was to see what his mother said.

"Sana. (The Kanto region's tournament will be held three months earlier than the Huaxia region's. I suggest you win the Kanto region's championship first and then challenge the Huaxia region.)"

"Sana. (This way you can challenge fewer gyms, and the travel companion I prepared for you is also in the Kanto region.)"

At this moment Yu Feng felt as if a devil's tail had grown behind his mother. Are you so impatient to see your son find a partner?

At this moment Yu Feng felt deep malice from his mother, but what his mother said was right. Since the conference in the Chinese region would be held three months later, challenging the Kanto region first became a necessary option.
