

## Gardevoir 38

Chapter 38 So big!

"How could that be? I'm so excited!"

Xiaozhi clenched his fists and trembled all over. Of course, this was not a trembling of fear, but a trembling of excitement from meeting a strong enemy!

"The caterpillar uses silk to seal her movements!"

Xiaozhi waved his hand and let Caterpillar use silk to block the movement of Shiny Gardevoir. Caterpillar also obediently used silk in the direction of Shiny Gardevoir, trying to restrain her movement.

"Forget it, just have some fun with them."

Yu Feng closed his eyes, crossed his arms over his chest, and spoke casually to Shining Gardevoir.

"Sana (I understand.)"

After hearing Yu Feng's arrangement, Shiny Gardevoir also understood what he meant, and watched coldly as the Caterpillar surrounded her with silk threads.

The cold silk threads began to wrap around her legs. As if knowing that the silk threads were not enough to completely trap Shiny Gardevoir, the Caterpillar focused on controlling her limbs and mouth.

"Great! That's it, Caterpillar will use Impact next!"

Seeing that Caterpillar's attack was surprisingly successful, Xiaozhi happily let Caterpillar defeat Shiny Gardevoir with a collision.

The Caterpillar watched as his silk easily controlled the Shining Gardevoir, so he mustered up his courage and rushed towards the Shining Gardevoir with all his might.

Although the Caterpillar tried its best to hit her head, she was too tall and it could only hit her stomach.

But unfortunately, he couldn't even break through the defense. The Caterpillar felt like it had hit a solid wall and was instantly bounced back, then lay on the ground with circles in its eyes.

"Green Caterpillar!"

Xiaozhi exclaimed, quickly picking up the unconscious Caterpillar and calling out.

"Mao."

The Caterpillar responded weakly to Xiaozhi's call. He was a little dizzy from the previous blow and he hasn't recovered yet.

"Then next, go ahead, Pikachu!"

Xiaozhi pulled his hat back and sent Pikachu on board with a wave of his hand.

"Pickup!"

Pikachu jumped into the middle of the field full of energy, the electric sac on his face flashing with golden electric light.

"Okay, that's it, while she's unable to move Pikachu use the electric shock!"

The golden electric light shot towards Gardevoir through the air, but unfortunately Gardevoir still did not move, and even closed its eyes.

The electric shock struck her body, lighting up the dark forest nearby.

The silk wrapped around Shiny Gardevoir was broken by the electric shock, but unfortunately the damage caused by the electric shock was not even considered an injury given Shiny Gardevoir's strong physical strength.

"sand."

Shiny Gardevoir was even bored to the point of yawning during the electric shock. For her, who shared Yu Feng's memories, the electric shock now was not even a tickle.

But for some reason, Pikachu's eyes became a little blurry after seeing the actions of Shiny Gardevoir, but then he shook his head and forced himself to cheer up.

"Since that doesn't work, then Pikachu Lightning Flash!"

Xiaozhi didn't notice Pikachu's abnormality and loudly directed Pikachu's next actions.

Shaking the sleepiness away from his head, Pikachu perked up and rushed towards the Shiny Gardevoir, which still did not move, with a white light.

"Well, just show some respect, use telekinesis... never mind, it's not necessary."

Yu Feng originally wanted to let Shiny Gardevoir use telekinesis to stop Pikachu, but after looking at Pikachu's condition, he waved his hand and canceled the command.

Shiny Gardevoir looked at Pikachu that was staggering towards it and couldn't bear to attack it. As expected, Pikachu fell at the feet of Shiny Gardevoir and fell into a deep sleep.

"Pikachu! Wake up!"

Ash tried to wake up Pikachu, but unfortunately all his efforts were in vain.

Shiny Gardevoir gently picked up Pikachu and placed him in her hands, carefully observing the yellow-skinned mouse that had been with her for twenty years.

"Pikachu loses the ability to fight! Feng is the winner."

Seeing that Pikachu had no ability to fight anymore, Xiaoxia declared him the winner. Then she ignored Xiaozhi and ran to Yu Feng to look at the huge Pokémon.

Xiaoxia swallowed and asked Yu Feng with some fear: "Is Pikachu okay? And what kind of Pokémon is this?"

She was really curious. As far as she knew, the largest Pokémon on land was Onix, but this one looked much more terrifying than Onix. Onix was only eight meters long in total and only five or six meters tall when standing, but this Pokémon was more than five meters tall when standing alone, and looked much more powerful than Onix.

"He is just dreaming."

Yu Feng glanced at the bubbles on Pikachu's nose that kept growing bigger and smaller with his breathing and said calmly, and Xiaozhi breathed a sigh of relief when he heard that Pikachu was fine. Then he looked at the huge body of Shiny Gardevoir with curiosity, because Shiny Gardevoir was facing them, their sight was blocked by the huge mountain and they couldn't see her face.

All we can tell is that she is a female Pokémon that is humanoid.

"Don't you think she looks a lot like Shining Kirlia?"

Yu Feng seemed to be hinting at something. After all, it would be boring to say it directly. He also wanted to see if Xiao Zhineng could say anything shocking.

"Could it be...?"

"Is this the mother who raised you?"

Xiaozhi said his answer before Xiaoxia, without noticing that the others were looking at him with speechless expressions.

"What's wrong? Is there something wrong with what I said?"

Xiaozhi also noticed that the other eyes were not right. He was a little confused. Wasn't it related to Shiny Kirlia? Wasn't she the mother who raised Xiaofeng?

Yes, what Xiaozhi said is correct in a sense, but it must be said that Xiaozhi does not consider other things at all and has a wisdom that does not care about the safety of others.

"Xiaozhi, do you remember what Xiaofeng said about raising his Pokémon?"

Xiaoxia really doubts whether Xiaozhi has ever studied Pokémon knowledge well. Xiaofeng has made it obvious enough, right?

"Gardevoir, Xiaoxia, are you doubting my memory?!"

Xiaozhi strongly condemned Xiaoxia for doubting his memory, as he has a very good memory.

"Then do you want to see the color of this elf?"

Xiaoxia looked at Xiaozhi with a sneer. This pig-headed guy still hasn't figured out where he went wrong.

"Blue, what's wrong?"

Xiaozhi scratched his head, but still answered Xiaoxia's question. After all, he was not blind and could see colors.

"What about Shining Kirlia?"

"blue."

"hiss."

After answering Misty's question, Xiaozhi realized what he had said. Xiaofeng did not use the word Shiny to describe the Pokémon mother who raised her, which means that she is just an ordinary Pokémon, while the huge Shiny Gardevoir in front of him is a Shiny Pokémon.

"You seem quite stupid, don't you? As for her...I conquered her by chance."

Yu Feng couldn't help but look at Xiaozhi in a different light. At least he wasn't so stupid that he was hopeless. As for the Shiny Gardevoir, he really captured it by chance.

"Why is she so big? I don't think Shining Kirlia is that big either."

Misty compared the height of Shiny Kirlia to that of Shiny Gardevoir. No matter how she thought about it, this sudden height change shouldn't happen to a humanoid Pokémon.

"Oh, she is the leader. As for what a leader is, we'll talk about it later."

Yu Feng looked at the sky. It was already very late. He didn't want to explain to Xiaozhi what a boss was.

After taking back the Shiny Gardevoir, he didn't give Ash and Misty time to react and quickly went into his tent.

Xiaoxia and Xiaozhi were stunned by this scene. Why did Xiaofeng have a tent to sleep in, but they only had a sleeping bag?
