Chapter 53 Pipi: This fellow is so good looking

For these ignorant Zubats, Shiny Kirlia never mind sending them to have a good rest.

The super power directly blocked the fleeing Zubats, and regardless of whether they were stunned or not, Flash Kirliao roughly rolled them into a ball.

Then Shining Kirlia made a pitching gesture and threw these chattering Zubats directly into the cave behind.

Just after Yu Feng finished dealing with these Zubats, Xiaozhi was already tightly hugged by the man in the white coat, who kept thanking him. Even with Xiaozhi's strength, he couldn't break free from the man's embrace.

"Thank you for your kindness!!"

The man hugged Xiaozhi while crying, not caring at all about the hard feeling in Xiaozhi's lower body.

Pikachu was squeezed between two people, and his anger began to soar. His patience with these two humans who ignored him had reached its limit.

There is no need to endure it anymore!

"Pikachu!!!"

Pikachu decided not to endure it any longer, and the dazzling lightning electrocuted the two of them, turning them all black.

.....

"Thank you for showing my ideal of the warm friendship between humans and Pokémon."

"Even without Poké Balls, humans can still understand each other."

"Meeting you guys, I can't help but be pushed to the climax of emotion and excitement."

The man in the white coat raised his glasses and looked at Xiaozhi seriously, and even started waving his hands excitedly at the end of his speech.

"Actually, if you want to talk about this, Xiao Feng is the one who best fits your opinion. He is a child raised by elves."

Xiaozhi looked at the man in the white coat who was still excited, and decisively shifted his firepower to Yu Feng who was watching the show on the side.

"What! Madam, you are a child raised by elves."

Hearing Xiaozhi say this, fire burned in the man in the white coat's eyes. This was simply the best information. He immediately ran to Yu Feng and held his hand.

"You are the lady, your whole family is ladies! If you keep yelling, I will pull out your tongue."

Yu Feng clenched his fists and almost couldn't hold back a million-ton punch on his head.

"So it's you, sir. Please tell me the details."

The man in the white coat changed his address very willingly, because he saw the flash of Kirliia behind Yu Feng and began to get ready.

Then he started to pester Yu Feng with all kinds of questions, asking him how he lived since his childhood, and whether he was chased by Pokémon from other groups when he was a child.

At first, Yu Feng could still answer a few questions, but later on, the man in the white coat asked more and more tricky questions. Yu Feng could not bear it any longer, so he used his superpowers to take off his white coat and stuffed it into his mouth.

He finally breathed a sigh of relief. Without the glasses man chattering away, Yu Feng felt the air around him became sweeter.

The man with glasses finally pulled his white coat out of his mouth. At least for the time being, he didn't dare to bother Yu Feng anymore.

"Then may I ask why uncle was attacked by Zubat?"

Seeing the man in the white coat calm down, Xiaozhi began to ask him why he was chased and beaten by Zubat just now.

"Uncle? I'm not that old."

The man in the white coat was a little surprised to hear Xiaozhi's address. Although he looked a little mature, he shouldn't be as old as he is now, right?

"I'm a researcher of love and courage at the Nibi City Science Museum!"

The man in the white coat suddenly pointed into the distance and began to revel in himself. For some reason, a dazzling light flashed on his glasses.

"Xiao Gang, do you know him?"

Yu Feng pushed Xiao Gang beside him and asked in a low voice if he knew this guy, after all, he was from the Nibi City Science Museum.

"What do I know? You know my life is just a straight line between two points."

Xiaogang also whispered to Yu Feng that he didn't know this person at all. He used to take care of his younger siblings, and he only went between the gym and home, so he didn't have time to go to a museum.

"If you follow me, you will know why I was attacked."

Although Xiaogang and Yu Feng's voices were very low, they were not very far away from each other, so the man in the white coat next to them heard every word they said.

But he didn't care, after all, it was normal not to know him.

The man in the white coat called out to Xiaozhi and his friends to follow him, and he would explain to them why they were attacked by Zubat just now.

Xu Feng and the others followed the man in white coats into the cave, and what they saw was not completely dark.

Instead, it was extremely bright. Xiaozhi and the others looked up at the place where the light was coming from, and found that someone had connected a long electric wire at some point in time, with bright electric lights in the middle.

"Come and look at this cave. Isn't it bright? It's just like daytime."

"Some weird people messed up the cave like this, and as a result, the lives of the Pokémon are thrown out of balance."

The man in the white coat pointed at the bright caves around them and the electric lights above and said helplessly.

Because of these things, the lives of the Pokémon in the cave are in chaos.

It's not that he didn't think about taking these things down, but after they were taken down, they were quickly put back by others.

"You mean the Zubat was driven insane by these rays?"

Xiaogang doesn't know much about Zubat. Can this Pokémon be affected by light even though it doesn't have eyes?

"Yes, it's not just Zubat that's affected. Paras can't help but grow mushrooms."

When passing by the gathering place of Paras, Yu Feng and others saw that Paras actually picked the mushrooms behind him and planted them on the ground.

And it's not just one of them, most of the Paras have bald baldness on their backs.

"I patrol everywhere to protect Yuejian Mountain from being destroyed."

The man in the white coat led Yu Feng and the others inside and explained why he was here.

"So if you were always on patrol, why was it still vandalized?"

"Besides, Miss Junsha is not just a freeloader."

Yu Feng pointed out the problem directly. Since your patrol was still disrupted, it means that you can't guard it alone. Why don't you find some external help?

"Ever since the report that the Moon Stone can enhance the abilities of Pokémon came out, countless people have come here to hunt for treasures, trying to get the Moon Stone that fell here."

He became very excited when talking about this white coat. After all, he always believed that this thing belonged to Pokémon, and Pokémon came from the universe.

As he was talking excitedly, a Pipi passed by them holding the Moon Stone.

When she saw Yu Feng, Pippi tilted her body. She seemed a little curious about why this fellow in front of her looked so good and smelled so good.

However, Pippi didn't think about it for too long after all, she still had things to do. Pippi squinted her eyes and handed a small piece of Moonstone to Yu Feng under the gaze of Xiaozhi and the others, then jumped and ran into the cave.
