Chapter 79 These are not taught in the books

"But you only have two. You still dare to say that you have two badges. You are a very lucky person."

Yuto Seidai looked at Yu Feng's accessories carefully. Although there were six Poké Balls hanging around his waist, he only knew that it was the unknown giant Pokémon that those people talked about. It was probably Onix.

And the unknown Pokémon that is healing Starfish. After all, two Pokémon can get two badges.

"I find that you are a nosy person. As long as I can defeat them, it's fine. Why do you care how many Pokémon I have?"

Yu Feng is very dissatisfied with people like Yuto Seidai who are too nosy. Why do you care how many Pokémon I have? It's enough for me to beat the gym.

"I think your unknown Pokémon is at most level 20 or 30, maybe even lower. I'm talking about you."

After treating the Jewel Star, the butler looked around in surprise when he heard what Yuto Seidai said, and then pointed at himself in confusion under Yuto Seidai's gaze.

After getting a positive answer, even a very gentle Pokémon like Aibutu got a little angry. You said she could, but what about the master she serves?

Sorry, even if she loves housekeeping and is not good at fighting, you can't bear her anger.

"The first time you play, choose an unknown Pokémon as your starting Pokémon. No Pokémon textbook will teach you to use an unknown Pokémon as your starting Pokémon."

"Oh, you didn't know that. You still got two badges like that. It's hilarious."

"Do you know the attributes and skills of your elf? Oh, you don't know. It's ridiculous that you can get two badges with your skills."

“Oh↗ha↘ha↗ha↘ha↗ha↘”

Yuto Seidai's words came out like a string of cannonballs, so continuous that Yu Feng didn't know how to refute her for a moment.

"Is it possible that your knowledge is not enough? You have to know that there is more to the region than just Kanto."

"Oh, you don't know, are you still a junior chief student like this? It's really funny."

"As for the question of attributes, don't elves know their own attributes better than you do?"

"Oh, you don't know, are you still a junior chief student like this? It's really funny."

Yu Feng thought about it for a moment and came up with a countermeasure to Yuto Seiji's arrogant words, and then returned the question intact.

"you..."

Of course, Yuto Seidai knew that what Yu Feng said was correct, but as the top student in the beginner class, she certainly couldn't admit it. How would others see her?

"It seems like you don't know how to let go of your pride unless I teach you a lesson."

Yu Feng looked at Yuto Seidai who looked unconvinced and said calmly.

"That's what I want. I also want to seek justice for those students who are not doing well."

Yuto Seidai's proud smile remained unchanged. After all, she came here to seek an explanation for these classmates, but was delayed for a while by Xiaoxia.

After calming down the restless Love Ball and his sister, Yu Feng continued to look at Yuto Seidai and said to her seriously, "I advise you to think before you speak next time, otherwise you don't know who you will offend."

"Love steward, teach her a profound lesson!"

"Ai Wan"

Yu Feng commanded the angry steward to come out. The steward looked at Yuto Seidai angrily. She would not allow anyone to say that about her master, and they must pay the price.

"It's better to use him to deal with your Pokémon. Go ahead, kala kala!"

A caracara with bones appeared on the field under the graceful pitching posture of Yuto Seidai, and was as proud as his master Yuto Seidai.

"Hit her hard, don't give me face, let this little girl know what evil people are."

Yu Feng was ready to let Yuto Seidai know what a sinister human heart is, so he ordered Ai Guanshi not to hold back.

Ai Guanshi also understood Yu Feng's meaning. Did she really think that she had no fighting power because she was only responsible for taking care of Yu Feng's daily life?

Are you kidding! Every day, I release magic flames to control the water for boiling black tea, use magic leaves to collect fire starters, and even use super powers to teleport back and forth.

Although this is not as convenient as teleportation, her mental power has become very strong through such day-to-day work, and is not inferior to the elves used for fighting in Yu Feng's hands.

"Ai Wan!"

Seeing that the other party was ready, a dark green energy ball appeared in the butler's hand and he threw it directly at him.

"Block it, Caracalla."

When Yuto Seidai saw this unprecedented attack from Aibutsu, he subconsciously asked Caracalla to block the attack. At least it seemed that the energy ball was not very dangerous.

Caracalla swung the bone stick to form a wall to try to block the attack of the butler, but the energy ball of the butler was not so easy to catch.

At a very close distance from Carakara, Ai Guanshi directly used his telekinesis to detonate the energy ball. The violent grass-type energy directly knocked Carakara away and fell to the ground.

"Caracara!"

Yuto Seidai looked at Caracalla lying on the ground with concern. It would be so embarrassing if he was defeated like this.

"Kara..."

Hearing Yuto Seidai's call, Caracalla used a bone stick to support his body and stood up while enduring the pain.

"You have great courage, but sometimes lying on the ground and not getting up is a good thing. As a result, he loves to serve."

Yu Feng looked at Carakara who stood up and expressed his sincere admiration. The fact that she could stand up at the call of Yuto Seidai showed that the relationship between the two was very good. It was a pity that this master was really too arrogant.

Yu Feng didn't even need to give any orders, the winner was immediately apparent.

"Caracara, the bone boomerang!"

Even though he saw the situation, Yuto Seiji still wanted to struggle. After all, who knew if the opponent would be so fragile that he could be defeated by the bone boomerang.

The bone boomerang carrying Yuto Seidai's hope was thrown out by Caracalla. Facing the bone boomerang flying towards him, Ai Guanshi narrowed his eyes slightly, and the bone boomerang returned with unparalleled momentum.

Caracalla looked at the bone boomerang that was coming at him with great force, and because he did not receive any command from Yuto Seidai, he stood there stupidly and took the enhanced bone boomerang.

Karakara fell to the ground with mosquito coils in his eyes. Seeing this, Yuto Seidai's legs went weak and he knelt on the ground.

"I lost, Karakala, you've worked hard, come back."

"I never thought that skills could be used in this way. This is not mentioned in textbooks or reference books."

Yuto Seiji is not someone who can't afford to lose, it's just that most of the time she won't lose. It is normal for her to lose when her opponent is stronger than her. She even learned some knowledge from this that is not taught in books.
