Chapter 81: Follow him, this is a big discovery!

That night, Yuto Seidai walked cautiously to the phone.

Seeing that there was no one around, Yuto Seidai hesitated and dialed the number that he didn't really want to answer.

"Who is it?"

A blonde lady yawned as she answered the phone.

"Cousin, it's me, Yuto Seidai."

Looking at the blonde lady in front of her, Yuto Seidai pursed her lips. This person was beyond her reach. At least no one in the family could compare to her.

"Oh, Sundae, why are you calling so late?"

The blonde lady thought about it and seemed to remember this distant cousin. A smile appeared on her face as if she was happy to see Yuto Seidai.

"Such a cousin, I saw a strange Pokémon today."

Then Yuto Seidai told Shirona what she had seen today, hoping that Shirona could tell her what it was, including the giant red-eyed Pokémon that the students had mentioned.

After hearing Yuto Seidai's description, Shirona was silent for a while, then her expression became very serious, and she said to Yuto Seidai word by word: "As for your question, the first one should be female love stewards according to your description. They are mainly distributed in the Galar region, and have also been introduced to the Huaxia region."

"As for the second one....can you take responsibility for what you said?"

Speaking of the giant red-eyed Pokémon that Sundae mentioned, Sirona rubbed her brows, hoping that Yuto Sundae would be responsible for what he said.

Because if she remembered correctly, she seemed to have read the Pokémon image that Yuto Seidai mentioned in an ancient book.

"Well, I can't guarantee that. I just heard it from my classmates. They said they saw a giant humanoid Pokémon with glowing red eyes in the thick fog."

After hesitating for a moment, Yuto Seidai finally told Sirona the truth. After all, she heard it from her classmates. She originally thought it was Onix or something like that, but after thinking about it, they said it was a humanoid Pokémon.

But this is obviously not Onix, but she grew up in the Kanto region, and there are really no large humanoid Pokémon in Kanto, or in other words, there are no humanoid Pokémon that are four or five meters tall in any region.

"To tell you the truth, based on your description, this Pokémon is very similar to a special case of a Pokémon from the ancient Sinnoh region that our family recorded."

Sirona paused, as if she wanted to let Yuto Seiji know the importance of this matter.

"If what you say is true, then this may be the only special case. You have to keep an eye on him and wait for me to pass by."

Sirona told Yuto Seidai the seriousness of the matter. To be more serious, this was related to the importance of their research on the habits of the elves in the ancient Sinnoh region.

Because it is said that when the elves had this special form, Sinnoh Great Lord once appeared. If we study this form, we may be able to understand what happened.

"Is that so? Then what should I do now?"

Yuto Seiyō didn't expect this matter to be so important and she was a little panicked subconsciously. She quickly asked her cousin what to do.

"He should be challenging the Quartz Conference in the Kanto region. You should follow him for the time being, and wait for me to come over and find out the situation."

Sirona thought about it and realized that since he came to Yuto Seidai's school with a badge, it meant that he was aiming for the Quartz Conference.

However, it was normal to let Yuto Seidai follow the other party. There were still a few months before the Quartz Conference started. Kanto was so big that she couldn't go looking for it one place after another when she came.

"Okay, I understand cousin."

Yuto Seidai nodded to indicate that she knew what to do.

"Okay, we'll contact each other later. I'll go pack my luggage and rush over."

After saying that, Sirona hung up the phone. It was obvious that she attached great importance to this discovery.

.....

"What's wrong Sirona? What are you packing so late at night?"

Dr. Mustard Orchid walked in wearing a white coat. The lights were on here late at night, which made people want to take a look.

"Grandma is like this..."

Shirona was not surprised to see her grandmother come in. After all, the doctor would do whatever he thought of.

However, she still told her grandmother what Yuto Seidai had just seen.

When Dr. Mustard Orchid heard Shirona's words and her actions just now, she was silent for a moment and then quietly returned to her room, dragged out a suitcase and looked at Shirona.

"Grandma, what are you doing?"

Shirona looked at her grandmother in some confusion. Why did she suddenly drag a suitcase out?

Professor Mustard Orchid looked at Shirona who was standing there in a daze, with an anxious look on his face. It was such a long time and she was still standing there in a daze. He hurriedly urged Shirona: "What are you doing standing there? Hurry up and pack your things, let's go to Kanto! If I'm not mistaken, this is a boss Pokémon that only exists in the ancient gods!"

Dr. Mustard Orchid was very dissatisfied with Shirona's dilatory actions. It was already this time, and it must be more important to study this matter.

"Grandma, it's not that simple. I still have to report to the alliance. You can't just leave like that either."

Shirona was a little amused and confused about her grandmother's attitude of leaving without saying goodbye. It was not so easy for champions and regional doctors like them to run to other regions.

"Really? The world is so advanced now, but these people's thinking is so feudal. What if they disappear in the future?"

Dr. Mustard Orchid was very impatient with the alliance's procedural matters. Why was it so troublesome for the alliance to go to other areas now and they had to report their whereabouts, while before they could go wherever they wanted.

Having said that, Dr. Mustard Orchid still put down the suitcase in his hand. Although he was very dissatisfied, it would be better to abide by the alliance's regulations now.

"Okay grandma, I've asked Sundae to follow that person, and we can just contact him directly when we get there."

Shirone was very serious when it came to business. She already knew that she had to wait for the process, so she asked Yuto Seidai to follow that person in advance.

"You are really thoughtful. That Yuto Seidai should be your cousin. You can take care of her when you have time."

Dr. Mustard Orchid sighed, but since Shirone mentioned Yuto Seidai, Dr. Mustard Orchid couldn't help but praise her for actually coming to inform them about such a thing.

She has to be guided by Shirone, there are not many good juniors like her.

"I understand. I will take care of her when I have time. It will take about a week for the alliance to approve it. Grandma, you should prepare the things you will need by then."

Shirone understood what her grandmother meant and nodded to show that she understood. Then she told her grandmother to prepare the things she was going to take.

After all, this is a huge discovery, so we have to give people some rewards.

"By the way, find a substitute in advance, otherwise it will be difficult for you to leave when the time comes."

Dr. Mustard Orchid warned Shirona with concern. After all, he knew his granddaughter well. It would be very troublesome if she acted daft.
