

Global Awakening: Apocalypse Ender's Chronicle

Chapter 36: First Horde

As the first wave of Crawler Zombies and Walker Zombies closed in on their shelter, Shane, Harper, and Anna swiftly took up their positions.

"I'll clear the Crawler Zombies! Stay here!" Shane said as he confirmed that the Crawler Zombies' movements were too slow. He jumped from the fence, swiftly navigated through the traps, and dashed toward the Crawler Zombies...

Since Cloud confirmed that there were no other zombies hiding behind the Crawler Zombies, he felt a lot more confident doing this.

Furthermore, the traps that they made would be wasted if they were only used against the pathetic Crawler Zombies. Most of the traps that they made could only be used once.

Because of that, Shane wanted these traps to be used against Runner or even Jumper Zombies rather than the Crawler Zombies.

Bam! Bam!

The sound of metal against bone reverberated through the air as the first of the Crawler Zombies slithered forward.

Shane's hatchet became a blur as he precisely cut open the heads of the Crawler Zombies. Each strike could swiftly kill a low-tier Zombie like he was slicing tofu!

It was the power of this Exceptional Rank Hatchet!

Unlike the Zombies in the mining site, where they have helmets on, these Crawler Zombies weren't protected by anything and could be easily killed.

Furthermore, Shane moved as quickly as possible since he planned to kill all of them before the Walker Zombies could reach Harper and Anna behind the fence.

"Haaa!"

Shane expertly dispatched the encroaching Crawlers, his movements swift and decisive, repelling the grotesque horde with practiced rhythm.

Over the past few days, Shane's fighting style using his hatchet had improved a lot. Although he doesn't have a Survivor Skill like a Hatchet Mastery, his method of using it was no longer a beginner at the very least.

Meanwhile, as the Walker Zombies close in, Harper's spear became incredibly useful. The spear was about 2.5 meters, and each of his thrusts could kill a Walker Zombie!

Although there were many Walker Zombies, they were blocked by the metal wires and obstacles they placed in front of their fence!

"Die!" Harper shouted as he tried to get every zombie's attention to him.

Well, it would be a problem if these zombies would actually spread out. It was better if they lined up according to the obstacles they made.

Anna watched the battle closely, and whenever there was a Zombie that survived Harper's spear, she would smash them with her nail bat!

Bam!

She unleashed the full force of her nail bat upon seeing a Crawler Zombie hold the metal fence!

Beside her, Lucky barked and lunged at any approaching threat! The dog would actually bite the feet of the Walker Zombies, and he wasn't being turned into undead for some reason!

As Shane killed all the Crawler Zombies and looted them, he still failed to level up even with the help of the 2x Exp Potion!

'So difficult?! Just how many experience points do I need to collect?' Shane thought as he rushed to help the two fend off the Walker Zombies.

As the skirmish raged on, the trio's coordinated efforts proved invaluable. The metal fence and simple yet effective arrangements of obstacles and traps served as a formidable barrier against the relentless onslaught.

After about 15 more minutes, the last Walker Zombie died from Anna's nail bat.

Although a little tired, the trio were relieved as they stood amidst the aftermath of the battle against the first horde of zombies.

They surveyed the scene before them, the tangled remains of the defeated zombies were piled up as they formed a wall of corpses outside their fence.

"Let me loot them quickly..." Shane muttered as he swiftly looted each Walker Zombie. Luckily, it seemed that each time they cleared a horde of zombies, they would have a few minutes of break.

[Do you want to retrieve the loot?]

"Yes."

[You have earned 10 Experience Points.]

[Loots obtained: 1 Item Upgrade Crystal, 1 Core 500mL water, 100mL Walker Zombie Blood, 1 Spirit Enhancement Bottle]

[You have earned 10 Experience Points.]

[Loots obtained: 1 Item Upgrade Crystal, 1 Core 500mL water, 100mL Walker Zombie Blood, 1 Spirit Enhancement Bottle]

[You have earned 10 Experience Points.]

[Loots obtained: 1 Item Upgrade Crystal, 1 Core 500mL water, 100mL Walker Zombie Blood, 1 Spirit Enhancement Bottle]

In the meantime, while Shane was busy looting the Zombies, Harper and Anna finally had the time to rest.

Unlike Shane, the two of them have lower stat points. To be exact, they probably have the basic stat points, considering they weren't even combat-type residents.

So it was certainly a lot harder for them, even with the help of Special Spicy Noodle.

Nevertheless, after about 5 minutes, as Shane and the others caught their breath, Cloud, the A.I. assistant, alerted Shane to the presence of two unusual zombies.

[Two Zombies have been detected.]

[They have 75% similarities with the Crawler Zombies. It is possibly the Crawler Leader Zombie that we haven't met yet.]

Cloud reported.

Having learned from its previous mistake, Cloud no longer guaranteed its identification of a zombie unless it matched more than 90 percent of its data.

"Zombies are coming... There were only two of them but they're stronger..." Shane said as he informed his two companions.

Harper and Anna nodded at this. They didn't ask any more questions since it was enough to know that there were zombies coming.

Soon, the two figures suspected to be Crawler Leaders emerged from the shadows, and Shane indeed realized the striking difference.

They were slightly bigger, and they had muscular arms that allowed them to move faster than other normal crawlers. Of course, they still had injured legs and couldn't stand, but they were certainly more intimidating.

Their eyes glowed with an ominous intensity, and their movements through the obstacles were more calculated and deliberate, showing a heightened level of intelligence compared to the mindless horde they had encountered thus far.

Chapter 37: Two Leaders

"Are we going to stay behind the fence?" Harper asked as he saw the two zombies approaching them. Although they had rotten flesh and skin, they seemed to be muscular or sturdier than the previous zombies they killed.

Shane considered for a moment as he looked at their frail obstacles and fence... After some hesitation, he decided to approach the zombies instead.

"Let's go!"

Shane, Harper, and Anna charged at the two Crawler Leader Zombies.

Although Shane didn't have great leadership ability, he knew they had to work together to defeat the two zombies. With that in mind, he gave simple instructions to his two companions before engaging the zombies.

Shane dashed forward and swung his hatchet at the first Crawler Leader, aiming for its head...

However, to his surprise, the Crawler Leader Zombie dodged the attack by arching its body and at the same time, it grabbed Shane's right foot, trying to bite it!

Shane kicked the zombie in the face, making it let go.

Thanks to his Tier 3 Survivor Shoes, his kick was quite solid, and he was able to peel off some of its skin in the process.

From this momentum that he gained, Shane slashed his hatchet again! This time, he was able to hit the zombie's shoulder.

Graargh!

The zombie roared in pain and anger, before it lunged at Shane with its teeth.

At the same time, Harper threw his spear at the second Crawler Leader, hoping to pierce its heart. Although it may not kill the zombie immediately, it was a lot easier to hit its body than its head.

He was hoping that this attack could stop its advance.

However, similar to the zombie that Shane was dealing with, it was able to think and not just mindlessly attack its prey.

It saw the spear coming and rolled to the side, avoiding the hit!

"What? There's a zombie like this?!" Anna was shocked as she realized that they were dealing with sentient zombies. She had never encountered these types of zombies before!

Thud!

As the spear stuck on the ground, and Harper ran to retrieve it.

The zombie chased after him, crawling faster than Harper expected! The zombie reached Harper and clawed at his leg, drawing blood. Harper felt a sharp pain and stumbled, dropping his spear.

The zombie grabbed the spear and snapped it in half, rendering it useless.

Graargh!

The growled at Harper as if to tell that it was his end! Luckily, he still has pickaxe with him as he changed his weapon!

In the meantime, Anna noticed that Shane and the other Crawler Zombie were getting close to her... She noticed that the zombie had its right arm frozen by Shane's magic weapon, and part of its left should had similar situation.

Without hesitation, she stepped forward and hit the Crawler Leader with her nail bat, trying to help Shane! Since it was already injured, she believed that she could deal a killing blow to the zombie.

If they killed one of the zombies faster, they could easily surround and kill the remaining one!

Unfortunately, her strike wasn't enough!

The zombie was barely injured as it turned its attention to Anna and swiped at her with its arm. Obviously, the nail bat didn't do much damage, perhaps because of Anna's weak physical strength!

Bam!

Anna blocked the attack with her bat, but the force was too strong and she fell back.

"Y-you..."

The zombie crawled over her and opened its mouth, ready to bite her head.

"Get away!" Anna screamed and held her bat in front of her, hoping to fend off the zombie.

Lucky, Anna's dog, barked and ran to her rescue. He jumped on the Crawler Leader and bit its ear, distracting it.

This also made it difficult for Shane to use his hatchet...

At the very least, the zombie let go of Anna and tried to shake off Lucky, but the dog held on!

Anna got up and swung her bat again, hitting the zombie's skull! This time, she was filled with energy!

Bam! Bam! Bam!

After over five strikes, the zombie groaned and collapsed, its brain damaged!

[You have eliminated a Crawler Leader Zombie.]

[Congratulations! You are the first to eliminate a Crawler Leader Zombie, a mid-tier zombie!]

[Hint: Only the first elimination of each Mid-Tier and High-Tier zombie can provide special rewards!]

[You can select one reward: 1 Instant Experience Potion, 20 Zombie Cores, 1 Random Giftpack]

Seeing Crawler Leader was down, Shane ran to help Harper.

As he noticed that Harper was in danger, he threw his hatchet and activated its Ice Effect at the same time!

Thud!

This was the third time he used the hatchet's effect, but it was worth it! The second Crawler Leader was hit on its right shoulder, freezing it momentarily!

Shane then picked up the broken spear and threw it at the zombie, hitting its back!

Thud!

The zombie shrieked and turned to face Shane, ignoring Harper.

'So tough?!'

Shane then took out his revolver and shot the zombie in the eye, blinding it and injuring its brain!

'Still alive?!'

He should've used the revolver's item effect! He truly underestimated its resilience!

The zombie howled and charged at Shane blindly, its arms outstretched.

It was able to use its arms to push on the ground and lunge at him!

As Shane was about to use his revolver once again, Harper was already behind the zombie!

He already got up and grabbed his pickaxe! As soon as the zombie was about to reach Shane, Harper swung his pickaxe at its neck, severing its spine!

Bam!

The zombie fell to the ground, motionless.

[You have eliminated a Crawler Leader Zombie.]

Shane, Harper, and Anna breathed a sigh of relief after confirming its death.

They had defeated the two Crawler Leader Zombies! It was time for Shane to loot them!

[You have earned 60 Experience Points.]

[You have earned 1 Reputation Point.]

[Loots obtained: 2 Item Upgrade Crystal, 2 Zombie Cores, 500mL Water, 5 Bread, 100mL Crawler Leader Zombie Blood, 1 Spirit Enhancement Bottle]

Chapter 38: Impaled

Shane felt excited as soon as he saw the loot.

60 Exp Points! That was quite a lot, and he also obtained one of the Instant Experience Potions a while ago!

Without delay, he looted the other Crawler Zombie Leader.

[You have earned 60 Experience Points.]

[You have earned 1 Reputation Point.]

[Loots obtained: 2 Item Upgrade Crystal, 2 Zombie Cores, 500mL Water, 5 Bread, 100mL Crawler Leader Zombie Blood, 1 Spirit Enhancement Bottle]

Furthermore, this loot confirmed that he could only obtain reputation points from the Leader-Type Zombies.

"It looks like we have some time to rest..." Harper said after noticing that there were no more zombies coming for them.

"That's good... Let's repair the obstacles and traps fast..."

Anna said as she worked on it.

Shane agreed, but before that, he materialized the instant Experience Potion from his inventory and drank it immediately.

[You have obtained 100 Experience Points]

"I still didn't level up?" Shane was confused and a little disappointed.

He thought that with the 120 points from the Leader Zombies, including the experience points he got from the Crawler and Walker Zombies, and another hundred points from the potion, he would finally reach level 10 and possibly get 2 Memory Spheres.

However, he really underestimated this.

In the end, Shane could only accept the reality... After a few moments, he then decided to check the Chat board...

However, as soon as he opened it, he saw a message from the system instead.

[You cannot access the Chat Room during the Zombie Wave. Please come back once the Zombie Wave is over.]

"So we can't cooperate with other Survivors during the Zombie Wave?" Shane wondered as he thought about the other Survivors nearby.

To be honest, ever since he learned that it's possible to escape from the Zombie Wave, he has already considered that a few Survivors might pass through his territory.

Well, it wouldn't be surprising if other Survivors decided to run away instead of fighting the Zombie Wave.

However, if they really passed through his territory, that could make his situation worse as they might actually attack him as well.

'There's no point thinking about it now... Let's just hope no one would pass through here.' Shane thought as he helped his companions fix the obstacles.

After fixing their crude fence, they took a short break and ate some of the bread and water they looted. Shane also used some of the Item Upgrade Crystals to improve their weapons and equipment.

However, the limit was still the Exceptional Rank since the number of Crystals needed to advance it to the next level was 30 Item Upgrade Crystals... Thanks to this, Anna's Nail Bat had reached the Exceptional Rank and Harper's Hunter Set reached the Tier 3 like the ones Shane was wearing.

Although he could collect 30 Crystals to upgrade one Exceptional Item, he felt it would be better to have a more balanced set of equipment.

After all, he wanted Harper and Anna to have decent items so they could help him better in this Zombie Wave.

After some rest, they felt more refreshed and ready for the next wave.

They didn't have to wait long. After 5 minutes, they heard a loud and terrifying sound.

Rooooaarr~

It was the sound of fifty or so Zombies closing towards them.

They looked outside and saw a horde of Zombies that were a mix of Walker Zombies and Runner Zombies.

Walker Zombies walked slowly and clumsily, but they were persistent and numerous. However, this time, their bodies were equipped with leather armor, making only their heads a perfect target.

They made a low and guttural noise as they approached the shelter.

Runner Zombie, on the other hand, looked really dangerous.

They ran fast and agilely, and they looked ferocious.

They had lean and muscular bodies, and some of them even wore sporty and colorful clothes.

The three people in the shelter swiftly grabbed their weapons and got into position.

Luckily, the obstacles they prepared this time had several pointed metal pipes on the ground, and they could impale the Runner Zombies!

Thud! Thud! Thud!

As expected, before they could reach Shane's shelter, ten or so Runner Zombies who didn't care about the obstacles were impaled! Although they were still alive, they would become an easy kill for them later on.

Of course, Shane didn't use his Revolver once again as he knew he had to save his bullets for the most threatening targets.

Instead, he used his hatchet to chop the Runner Zombies that got too close from behind the metal fence and wires...

Harper, on the other hand, swung his pickaxe at the Runner Zombies, trying to break their skulls.

Unfortunately, his spear was broken in half by the Crawler Leader and they were used as spikes to impale the zombies instead.

'Die!'

Thud! Thud!

Anna then hit the Walker Zombies with her nail bat, trying to smash their brains.

They fought bravely and fiercely and won against the Zombies after about half an hour of battle...

But then, the situation that Shane feared happened.

Just like what Shane imagined before, a Survivor chased by several Zombie Dogs ran into his area!

'Not good...'

The Survivor was a young woman with long blonde hair and a leather jacket. She had a backpack and a pistol, but she looked exhausted and scared.

Behind her, the Zombie Dogs were large and muscular, with furless skin and sharp teeth.

They had collars and tags, indicating that they were once pets or strays. They made a loud and angry noise as they chased their target!

"We need to save her..." Anna muttered as she saw the frail woman being chased helplessly.

However, Shane shook his head as he noticed that the blonde woman had a couple of bite marks on her body.

Chapter 39: Survivor-Type Zombie

Harper and Anna were instantly on alert as they listened to Shane's words.

They quickly looked at the woman's body, and Shane was right! She was already bleeding from the bites she had on her shoulder and leg!

Even if she weren't becoming a zombie yet, it wouldn't be long before she does!

"Please! Help me!" The blonde woman cried as she saw Shane and the others. She was already feeling helpless, and the sight of other Survivors gave her a bit of hope to survive.

However, the reply she heard almost made her collapse.

"We can't help you! Go the other way! Don't bring those Zombie Dogs to us!" Shane yelled back. Although he was sure that he could fight those Zombie Dogs, it was better if they could save their energy.

However, the blonde woman had already made a decision. She already knew that she was also going to die, so she decided to drag others with her!

"If you don't want to help me! Then let's all die together!" The woman screamed as she led all the Zombie Dogs to Shane's shelter!

Shane, Harper, and Anna cursed as they saw the woman's actions.

They wanted to complain, but they didn't have the time to do that.

They knew they had no choice but to fight the Zombie Dogs! They held their weapons tightly and got ready for the battle.

Shane scanned the Zombies behind the woman and confirmed that there was no need for him to use his Revolver. None of the Zombie dogs looked special.

Soon, the blonde woman was caught in one of the traps and was impaled by one of the sharpened metal pipes!

Five or so Zombies Dogs immediately pounced on her, but the others continued running as they saw Shane and the others!

"Bring it on!" Shane shouted as he also felt a little excited about this battle. After all, he felt that these Zombies Dogs would finally allow him to reach level 10!

Swish~

Shane then used his hatchet to cut the Zombie Dogs that got too close. Furthermore, he used its Ice Effect to make the corpses of the Zombie Dogs as an ice wall.

Although they had a metal fence and wires for defense, and also wooden pikes for trapping, he felt that adding some iced zombie dogs could help in their defense.

He planned to make at least ten of them...

On the other hand, Harper swung his pickaxe at the Zombie Dogs, trying to break their skulls.

Luckily for him, the Zombie Dogs weren't tall, and they were easy to hit with his current weapon. He just imagined that these Zombies were rocks that he had to smash.

Clank! Clank! Clank!

The sound of metal and bones was heard as he killed three Zombie Dogs in quick succession! However, Harper was horrified when he saw that the wooden handle of the pickaxe made a crack!

'Not good!'

Harper was worried that it would break, but he had no choice but to continue.

In the meantime, Anna hit the Zombie Dogs with her nail bat, trying to smash their heads.

Thankfully, she didn't have to use a lot of strength to kill these Dogs as their momentum was stopped by the barricade they made.

Nevertheless, they fought for quite some time and were only slightly injured before they defeated all the Zombie Dogs.

Graaaaahh~

But then, something unexpected happened!

The female Survivor who was impaled and bitten by Zombie Dogs suddenly turned into a Zombie!

And not just any Zombie, but a powerful one!

The Zombie was different from Walker or Runner Zombies. She suddenly had a muscular and athletic body. Shane could tell that this Zombie had also gotten taller!

This Zombie still had long blonde hair and a scarred face, but its eyes glowed with a red light. It had a metal pipe in its hand. It was probably picked up by the zombie on the ground.

Roar~

It then made a loud and furious noise as it stood up, and it aimed at Shane and the others. This Zombie was most likely similar to those Leader-Type Zombies!

It looked intelligent!

Shane didn't hesitate and drew his Revolver. He had a bad feeling about this Survivor-Type Zombie.

Bang!

Shane fired his Revolver at the Zombie, aiming for its head.

At this distance, he was sure that he would hit his target...

The Survivor-Type Zombie was unable to dodge the bullet and was struck! But it only blew off the right side of the zombie's face! It didn't go through it all!

Nevertheless, the Burn Effect was already working on it, so the Zombie's face was still on fire!

But it was not enough to finish the Zombie!

It suddenly rushed at them, trying to kill them!

Everything happened so quickly. It destroyed the barricade and the metal fence in a few seconds!

Shane, Harper, and Anna dodged the Zombie's charge, but it was fast and agile.

It swung its metal pipe at them, hitting Shane's arm.

"Aah!"

Shane felt a sharp pain and dropped his hatchet. He picked it up and tried to cut the Zombie's arm, but the Zombie blocked it with a metal pipe!

The Zombie then kicked Harper, who was about to attack with his pickaxe, in the chest, sending him flying!

Anna, on the other hand, worked together with Shane as they attacked from both sides!

"Die!"

Anna hit the Zombie's leg with her nail bat, making it limp!

It then tried to defend itself with its other arm without a weapon, but it only worked in Anna's favor!

"Shane!" Anna called out, as this was a perfect opportunity for Shane to fire his gun. However, Shane's dominant arm was still feeling painful.

The Zombie then turned to Anna and wanted to strike her with his metal pipe...

Fortunately, Lucky, Anna's dog, finally found an opportunity to attack and pounced on the Zombie!, making it fall!

Shane saw this and aimed his Revolver at the Zombie's head again!

Bang!

Chapter 40: Rewards

Shane wasn't an ambidextrous. His dominant right arm was injured, so he had to fire his gun with his left hand.

It was a bit tricky, but since they were close, he didn't have to focus a lot and was able to hit the Zombie's head quite easily...

This time, he didn't have to use the item's Burn Effect and used a normal round.

[You have eliminated a Survivor Zombie]

[Congratulations! You are the first to eliminate a Survivor Zombie!]

[You can select one reward: 1 Instant Experience Potion, 50 Zombie Cores, 50% Store Item Voucher x2]

Shane momentarily stopped after seeing the message. He couldn't help but smile after seeing how he got the first kill to a Survivor Zombie.

Anyway, the rewards offered to him were something new. The Zombie Cores increased a lot, and he even had two vouchers being offered.

If he only wanted to purchase things in the Survivor Store, the 50% vouchers were indeed a better choice. However, because he wanted to reach level 10 as quickly as possible, he decided to take the Instant Experience Potion once again.

After completing his selection, he didn't even bother to loot all the zombies corpses first and decided to consume the potion immediately.

[You have consumed the Instant Experience Potion.]

[You have earned 100 Experience Points.]

[You have leveled up.]

[Congratulations! You are the first Survivor to reach Level 10!]

[You have earned 5 Reputation Points!]

[You have unlocked the World Chat Function!]

[Hint: Only Level 10 Survivors from the whole Fiend Continent could access the World Chat! Every Survivor would have 10 Megaphones that can be used for the World Chat, and it refreshes every week.]

[You have unlocked the Clan Function!]

[Hint: You can now create a Clan for only 100 Zombie Cores and 5 Reputation Points and enjoy bonus effects with your friends! You can invite other Survivors or even the Inhabitants of this Continent to join you! Lastly, you can only form a Clan with at least five members in your party, and pets aren't counted.]

"I did it..."

Shane muttered in excitement... After all, this means that he could finally access the Memory Spheres!

"Shane... Are you not going to loot them? I believe that the quality of loot will lessen if they stay unlooted for too long." Anna reminded as she saw Shane blankly staring at a space.

She knew that Shane was probably checking his attributes, but it was better to remind him.

"Ahh! You're right! Let me work on it." Shane said as he swiftly looted the Survivor Zombie.

[Do you want to retrieve the loot?]

"Yes."

[You have earned 60 Experience Points.]

[You have earned 1 Reputation Point.]

[Loots obtained: 2 Item Upgrade Crystal, 2 Zombie Cores, 500mL Water, 5 Bread, Revolver (Uncommon), Lockpicking Skill, Stealthy Feet Talent]

Shane's eyes widened as he saw the loot he obtained. It actually included the Survivor Skill and Talent!

However, something unexpected happened.

[You have reached the limit of Survivor Talents. Stealthy Feet Talent (Uncommon) was not added.]

[Do you want to remove one of your current Survivor Talents to accommodate the Stealthy Feet Talent?]

[Hint: You can only have 3 Survivor Talents, but you can check the Reputation Store occasionally, and perhaps you'll find a Talent Expansion Pack!]

Shane didn't even think for long as he swiftly rejected the idea of changing his talents. There was no way he would replace his three Legendary Talents for a trashy Uncommon talent.

At the very least, he was quite happy to receive the Lockpicking Skill.

Although he didn't have a use for this specific skill during this time, he knew that there would be a time when he could use it.

Anyway, he then started looting the Zombie Dogs around.

[Do you want to retrieve the loot?]

"Yes."

[You have earned 10 Experience Points.]

[Loots obtained: 1 Item Upgrade Crystal, 1 Zombie Core, 100mL Water, 1 Stale Bread, 100mL Zombie

Dog Blood, 1 Spirit Enhancement Bottle]

The Stale Bread didn't sound good, but it was better than nothing. After noticing that there was no unusual loot, Shane just continued with his actions.

[You have earned 10 Experience Points.]

[Loots obtained: 1 Item Upgrade Crystal, 1 Zombie Core, 100mL Water, 1 Stale Bread, 100mL Zombie

Dog Blood, 1 Spirit Enhancement Bottle]

[You have earned 10 Experience Points.]

[Loots obtained: 1 Item Upgrade Crystal, 1 Zombie Core, 100mL Water, 1 Stale Bread, 100mL Zombie

Dog Blood, 1 Spirit Enhancement Bottle]

...

[You have earned 10 Experience Points.]

[Loots obtained: 1 Item Upgrade Crystal, 1 Zombie Core, 100mL Water, 1 Stale Bread, 100mL Zombie

Dog Blood, 1 Spirit Enhancement Bottle]

It didn't take that long before his task was completed. Unfortunately, because the wave they encountered wasn't part of his Zombie Wave, they didn't have long enough time to fix their barricade when they heard the growling sounds of the zombie horde!

Furthermore, Shane leveled up, so he was able to recover easily, but Anna and Harper weren't in great condition!

'This looks bad...' Shane's senses were overwhelmed by the sight of a relentless swarm of agile Runner Zombies emerging ominously in the distance.

Their eerie silhouettes were advancing with terrifying speed!

Without wasting his time, he immediately retrieved the two Memory Spheres in his Inventory!

[Do you wish to absorb the two Memory Spheres?]

"Yes..." Shane replied without hesitation.

'My alternate self... Please give me a decent Survivor Skill!' He added in his mind...
