

Global CM 161

Chapter 161: The God of Bravery, Geluo Pagoda Shines! (Three-in-one, 5/5)_4

Oh? Are there additional rewards? Chen Mo was immediately overjoyed. The Honor Brave Challenger Suit, with 'Honor' in its name, sounds quite precious. I wonder what its attributes are.

Following the Gatekeeper down a staircase, Chen Mo discovered that the space beneath the Geluo Pagoda was quite vast.

I wonder how many levels there are underground.

After descending about ten levels, the Gatekeeper finally brought Chen Mo before an old man dressed in coarse hemp clothes.

"Witch Gege, this is the newly promoted The God of Bravery..."

The old man, who had seemed to be deeply asleep in his chair, jolted awake upon hearing the Gatekeeper's words.

Only then did he notice the seven-colored light emanating from the surrounding tower walls. Shocked, he quickly stood up and stared at Chen Mo's chest.

Then, his hands trembling, he reached out and touched the five-star badge on Chen Mo's chest.

"How many years... How many years has it been since The God of Bravery last appeared? Can it be that God still watches over this land, to have sent us this savior!"

Hands clasped, the old man gazed towards the ceiling in worship, muttering to himself.

Unfortunately, all he could see was the pitch-black ceiling.

"Cough, old man, I have other matters to attend to, and I'm in a hurry..." Chen Mo said, seeing that the old man's devout ramblings were about to waste a lot of time and quickly speaking up to urge him along.

Hearing this, Witch Gege respectfully bowed to Chen Mo. "My apologies for my impertinence, Sir. I dare not keep you, The God of Bravery, waiting. I shall retrieve the Honor Brave Challenger Suit for you now."

"Wait a moment. May I ask, can one person receive three of these suits?"

"Three suits?" Witch Gege glanced at Chen Mo with some confusion.

"I have a special use for them."

"Sir Brave, I must inform you, this Honor Brave Challenger Suit cannot be worn by just anyone. Only those who have obtained the glory of The God of Bravery can wear it. Even if you take three suits, you won't be able to give them to others."

He must want to take them back as gifts for others, Witch Gege thought.

"That's not it. I intend to use them myself."

"Very well. However, according to the rules, apart from items specifically designated as gifts, other items must be sold. Although this suit is priceless, since you are The God of Bravery, if we price it at one eternal gold coin for you, I believe the Tower Master would not object."

"Witch Gege, perhaps we should contact the Tower Master first?" the Gatekeeper suggested, looking at him.

"I tried to contact her previously regarding some matters, but she never responded. I suspect she's either run into trouble or is in a place where she cannot reply to us."

"I see."

Witch Gege then said to Chen Mo, "Since the Tower Master is not present, I can only make the decision myself. So as not to delay your journey, Sir Brave, I have taken the liberty of setting this price. How does that sound to you?"

"I have no problem with that."

Chen Mo smiled and took out two eternal gold coins.

No problem? This is more than no problem; I've struck it rich! Equipment that requires an SSS-level title to wear is incredibly valuable! And I only spent two eternal gold coins for it. What an unbelievable steal!

Soon, the old man returned with three Honor Brave Challenger Suits.

The old man hadn't even approached him yet when Chen Mo was captivated by the dazzling glow of the Honor Brave Challenger Suits.

One can tell this equipment is of exceptional quality without even needing to check its attributes.

"Sir Brave, here are the three Honor Brave Challenger Suits. Please take them."

Witch Gege respectfully handed the three Honor Brave Challenger Suits to Chen Mo.

"Are these suits so light?" Chen Mo asked curiously, seeing the frail-looking old man effortlessly lift all three Honor Brave Challenger Suits.

"The Honor Brave Challenger Suit is made using a special process. It's as light as a cicada's wing, yet its defensive capabilities are excellent. Apart from true damage, there is no type of damage it cannot resist."

"Oh?"

Hearing this, Chen Mo became even more interested in the Honor Brave Challenger Suit.

However, a quick glance revealed that the Honor Brave Challenger Suit indeed had many attributes.

He was currently in a hurry to complete his quests, so he stored the Honor Brave Challenger Suits in his backpack, planning to examine them in detail later.

After bidding farewell to Witch Gege, Chen Mo returned to the third floor of the Geluo Pagoda.

Meanwhile, Lilian was holding a teacup, looking at the surrounding flashes of light in astonishment. She began to ask the old Sages beside her about it.

When she learned that this strange light signified the birth of The God of Bravery, Lilian touched the Sage's Ring on her hand in amazement.

Could it be that Big Brother really rushed through all the Brave Challenger's Trials, jumping straight from a trainee brave challenger to become The God of Bravery?

Chapter 162: Sage's Ring! (1/5)_1

As Chen Mo returned to the third floor, Lilian immediately noticed the five-star badge on his chest.

"Big Brother, you've really become the five-star hero known as The God of Bravery!" she exclaimed adoringly.

Chen Mo chuckled and said, "It was quite tough. I lucked out."

"Well, I won't need to accompany you back, then. All you need to do is wear this Sage's Ring and you can return directly to the Sage's Village."

Lilian took off the Sage's Ring and handed it to Chen Mo.

Accepting this peculiar, pure white ring, Chen Mo immediately checked its attributes.

[The Sage's Ring - Artifact Level]

[Special Limitation]: Only those who possess the title of Sage God or The God of Bravery can equip it.

[Equipment Attribute]: All Attributes +100; Restores 100% of life value and energy value per second.

[Equipment Special Effects]: Great Sage's Blessing, Great Sage's Praise.

[Great Sage's Blessing]: Designate a professional. Regardless of the star level of their initial profession, it can be upgraded to the unique hidden five-stars initial profession of the same type (upon use of this effect, the Sage's Ring will shatter and disappear).

[Great Sage's Praise]: You can teleport with any target to any location on the map (Cooldown of 1 minute - this effect is unaffected by the Stars Dungeon rules).

[Equipment Introduction]: Only those with the glory of the peak can use this extraordinary ring. Ordinary people cannot harness any of its effects when wearing it.

"HISS!" Exclaimed Chen Mo, shocked by the effect of the Sage's Ring.

The increase in attributes and the 100% restoration per second didn't surprise him much. Although powerful, it wasn't insurmountable. After all, there were many debilitating effects, such as the corpse poison from Chen Mo's Skeleton Monster, which could apply 100 layers to a BOSS, rendering 100% health recovery useless.

The true power of this ring lay in its two special effects.

The ability to teleport to any point on the entire map at will was already incredibly powerful.

Still, the most terrifying aspect was that the ring could directly change the star level of an initial profession.

Even though the cost was the destruction of a god-grade ring, it was absolutely worth it given the benefits.

Chen Mo had never heard of anything that could alter the star level of an initial profession.

Not only had Chen Mo never heard of it, but even the professionals of the entire Earth, the Eternity Star System with its three Life Planets, and the Kaiyang Star System Professionals with their two Life Planets, were also unaware of such an item's existence.

Primarily, Random Rift Dungeons were uncommon. It was even rarer for them to transform into Stars Dungeons. Moreover, given the increased difficulty and rewards when a Random Rift Dungeon transformed into a Stars Dungeon, successfully completing a mission with a 99.99% mortality rate in such a dungeon was an even rarer feat.

Most people, upon encountering similar missions, were already doing well if they completed the standard mission progression as a three-star hero. Even the normal mission line for a three-star hero was SSS-level in difficulty, where a single misstep could be fatal.

Chen Mo had challenged a hidden SSS-level mission within an SSS-level difficulty mission.

It was this that had won him this divine ring!

And this ring didn't just simply enhance the star level of an initial profession; it directly upgraded it to a unique hidden five-star profession of the same type.

An initial profession and a hidden initial profession were two different concepts. Generally, a hidden profession could not be obtained through normal means, requiring special methods to acquire. Ordinary professionals had a certain chance of encountering related missions during their profession reincarnation, but completing them was extremely difficult.

Acquiring a hidden profession for an initial profession required extremely special methods, much like the Sage's Ring Chen Mo now possessed; obtaining such things was incredibly difficult!

So, what were the benefits of such hard-to-obtain hidden professions compared to standard ones?

Compared to a standard profession, a hidden profession possessed a much stronger hidden profession talent. In terms of apparent attributes, there was no difference between a five-star profession and a hidden five-star profession, but their actual strength varied significantly.

Although Chen Mo was eager to use the Sage's Ring to upgrade his current profession and see what hidden initial profession he would be promoted to, he refrained from hastily destroying the ring due to his current task requirements.

"Lilian, if I use the ring's ability now, can I teleport directly to the Sage's Village?"

"Yes, the coordinates for our Sage's Village are (55,555, 55,555). Although our village is protected by an enchantment, you won't be repelled by it if you teleport there wearing this Sage's Ring."

"I see. Then I'll take my leave."

With a thought from Chen Mo, his figure disappeared from the Geluo Pagoda.

「Meanwhile, in the distant Sage's Village.」

A handsome, tall young man appeared in the village.

As soon as Chen Mo teleported into the village, he immediately triggered the enchantment's response. Before he could even react, a figure in a white robe made a Flash Appearance in front of him.

It was an elderly man with white hair and a beard so long it almost seemed to drag on the ground. He held a staff that looked as if it were carved from ordinary wood, yet Chen Mo could distinctly feel the immense Magic Power contained within it.

Upon seeing Chen Mo, the elderly man mumbled to himself, "I can't believe my prophetic dream got it all right this time."

"Prophetic dream?" Chen Mo gave the elder a curious look.

The old man cracked a grin and said, "It's nothing important. Don't mind me. Please, come inside for some tea."

Chen Mo looked around the so-called Sage's Village. There were plenty of houses, but hardly anyone was out and about. It seemed like a deserted village.

Following the old man into a simple wooden house, Chen Mo sat down at a wooden table as indicated, scrutinizing the room's furnishings.

After carefully looking around, he noted that the room was almost devoid of decoration. Beyond a wooden table in the middle, there were practically only bookshelves and a small stove by the window.

The old man lifted the kettle from the small stove and, with a wave of his hand, two cups appeared on the table. After pouring two steaming cups of tea, he finally smiled and said, "Have a taste. This tea isn't something you see every day."

With that, the old man placed the kettle back on the stove and sat down across from Chen Mo.

Chen Mo glanced at the tea in his cup, which looked as transparent as regular tea, and brought it to his nose for a sniff. A refreshing, light tea aroma immediately filled his nostrils.

He blew on the tea to cool it slightly, then took a light sip. A faint, sweet taste immediately filled his mouth.

As Chen Mo swallowed the tea, he immediately received a prompt.

[The Heavenly Path's Hint: You drank Dew Tea. For the next 24 hours, your All Attributes will increase by 10 points.]

Just one sip has this effect? What if I drink the whole cup?

After cooling it down a bit more, Chen Mo drained the tea in one gulp.

[The Heavenly Path's Hint: You drank a large amount of Dew Tea. For the next 24 hours, your All Attributes will increase by 100 points.]

Chapter 163: Saintess' Spring! (2/5)_1

"Thank you for the tea, sir. I still don't know how I should address you."

"I am just an old man, nameless and untitled. People call me the Grand Sage."

"Grand Sage, I presume you know why I have come."

"Indeed. I have long known that the Xiensa Evil God is leading many evil curses to bring chaos to the world."

"If that's the case, Senior, why don't you intervene to save the world? With your strength, surely you can deal with this Xiensa Evil God."

"I could have, if it were the old me. Unfortunately, I can no longer do so."

"Why is that?"

"My power actually comes from the power of the gods. As the gods abandoned this continent, my own power has gradually waned. Now, I can barely sustain my life within this enchantment, isolating myself from the passage of time. If I were to step outside, I would immediately age and die."

"Why would the gods abandon this continent?"

Chen Mo also remembered what the Priest in Qiluo Town had mentioned: it was only after the Goddess of Harvest ceased her work that the villagers turned to an Evil God, leading to the current outcome.

"The gods grew weary of humanity's insatiable greed.

"With the Goddess of Harvest, people merely needed to sow seeds and wait idly year-round for bountiful harvests.

"With the Goddess of Fortune helping everyone avoid misfortune, people lived smooth and easy lives, gradually becoming arrogant, conceited, and losing themselves.

"With the Goddess of Love..."

After the Grand Sage had enumerated the deeds of all the gods as if counting family treasures, he continued, "With the help of the gods, humans lived prosperous and happy lives. This continued for a very long time, causing people to gradually take everything for granted.

"They no longer frequented the shrines to worship with the same diligence as before. Day after day, they lived without gratitude, idled their time away, and wasted their lives.

"Ultimately, they angered the gods, who abandoned them completely."

The old sage sighed and went on, "Once the gods departed, and with no Divine Power to block disasters, calamities immediately descended with a vengeance. This left people at a complete loss. Even if they then remembered to pray to the gods, it was all for naught.

"The gods had long since abandoned this continent; no god would answer their prayers anymore.

"Having lived under the daily protection of the gods, humans had gradually lost their ability to cope with disasters. How could they possibly handle such sudden upheaval?

"Thus, they began to panic, praying indiscriminately to anything they could.

"The only thing such actions could ultimately attract were those opportunistic evil curses with ulterior motives!"

And humans, unaware of their own folly, remained immersed in the prosperous life brought by the blessings of the gods.

"Instead of relying on those ethereal gods, what humans truly need to rely on is themselves."

"What the Hero says is quite right. In fact, I spoke with the gods before they departed.

"They said the same thing: when the people of this continent remember how humans are supposed to survive, perhaps the gods will return to spread faith and hope once more.

"Their existence was merely to help people reduce the harm from calamities, not to let humans become self-indulgent and cease to strive for improvement."

"These gods certainly have their principles."

"Actually, it is also for the sake of their own faith. When humans become so lazy that they can't even be bothered to pray, then the gods can no longer receive the Power of Faith from them."

"To put it plainly, it's a matter of mutual fulfillment."

The Grand Sage nodded. "That is indeed how gods and humans should coexist. When one party becomes overly reliant on the other, it is not a good thing for either side."

"But now, the entire world is tainted by evil curses. Even if people realize their past mistakes and wish to reflect on their actions, I'm afraid it's very difficult for them to find the chance."

"Originally, I too believed this land was finished. But a few days ago, I had a dream, and I realized that there might still be hope for this world."

"It's just a dream. Why would you take it so seriously?"

"Actually, at my level of attainment, I no longer fall asleep or dream easily. Once I do dream, it is usually a prophetic one. While I can't say it's entirely accurate, at least half of what occurs in the dream will come to pass.

"For instance, this time I dreamed that a Hero would come to save the world. However, I wasn't sure if it would be a three-star or a five-star Hero."

"No wonder you exclaimed that your dream had come entirely true when you first saw me."

Chen Mo immediately said with a smile, "Rather than saying I can save the world, it's more accurate to say I need your cooperation. For instance, I am currently facing this strange Xiensa Evil God, and I must rely on your Experience if I am to have a way to deal with it."

"The Xiensa Evil God is one of the Evil Gods living in the Ancient Abyss. It possesses a body of defilement and can corrupt any entity that consumes its flesh and blood. Its bathing place, the Xiensa Evil God's Pool, is a pool of defiled, malevolent water. This pool water alone is enough to transform any who drink it into a Xiensa Evil God's Body."

"To counteract the defiling effect of the water from the Xiensa Evil God's Pool, one needs to find the purest Energy in the world."

"The purest Energy? What is that?"

"The blood of a Holy Maiden who is a virgin."

"So many people have been affected by the defiled water. How much blood would that require?"

"That's not quite the case. One only needs to find three Holy Maidens who are still virgins. If their blood is dripped together into the source of the Earth Spring, then all water sources in the entire world will gain the power of purification. At that point, water from any source can become Purifying Holy Water to counteract the defiled water."

"Purifying Holy Water?"

Upon hearing this name, Chen Mo immediately thought of his own turbid Heart of God. His turbid Heart of God still needed four more bottles of Purifying Holy Water. Could it be that this Purifying Holy Water, created by three Holy Maidens together, was the Saintess' Spring he sought—one of those very items?

"Grand Sage, where should I go to find these three Holy Maidens?"

"The three Holy Maidens are in the Shrine of Gods located on three different continents. You can find them quickly if you wear the Sage's Ring."

Saying this, the Grand Sage gave Chen Mo three sets of coordinates.

"By the way, Senior, just cleansing the defiled water only treats the symptoms. If the Xiensa Evil God doesn't die, it will still make a comeback, won't it?"

"It's no use. The Xiensa Evil God's Divine Power is exceedingly strong; we simply cannot truly kill it! Moreover, its true body is still trapped at the bottom of the Ancient Abyss. What has come out is merely a sliver of its separated soul. We only need to eliminate this sliver of soul and then remind all the people of this continent not to believe in the Xiensa Evil God anymore. That way, disaster can be averted."

"I understand now. So, how powerful is this sliver of soul?"

"Given the Xiensa Evil God's power, this sliver of soul is at least comparable to a lesser Demon God. Its combat strength is certainly not trivial; it will absolutely not be easy to deal with!"

"It seems I will have to come and ask for your guidance again then. I shall first go and find the three Holy Maidens."

Chapter 164: Golden Boss is like killing a chicken! (Three in one, 5/5)_1

After bidding farewell to the Grand Sage, Chen Mo activated his ring's effect and first arrived at a Shrine of Gods on his Solar System Dungeon Map.

The three Holy Maidens the Grand Sage spoke of were actually located within three Shrines of Gods on three different maps.

Immediately after teleporting, Chen Mo sensed something was amiss. He swiftly waved his Magic Wand, summoning a large horde of Skeleton Monsters.

At the same time, he also shot into the air, attempting to evade an attack.

However, his flying speed was slower than his opponent's attack speed.

SLAP! Chen Mo took a direct hit from a vine whip, which sent him flying backward.

The moment he arrived, Chen Mo had used his pioneer's perception ability to detect a spirit BOSS, so he responded swiftly.

This spirit was colossal—a massive ancient tree whose canopy blotted out the sky, rooted near the Shrine of Gods. Countless vines spread from its base, completely enveloping the Shrine of Gods.

Fortunately, a powerful defensive enchantment was inscribed within the Shrine of Gods, so the Holy Maiden and some believers inside remained unharmed.

Inside the Shrine of Gods, aside from the Holy Maiden who continued to pray in her pure white robes, everyone else was already huddled together, trembling in fear.

Another Golden BOSS?

Chen Mo assessed the BOSS's strength and found it to be another Level 40 Golden BOSS that had undergone its first transition. Moreover, this BOSS was far tankier than the Bishop of Xiensa Evil God he had encountered previously.

Primarily, due to its nature as a tree spirit, a race inherently possessing very high Health, its Health was 10 times that of other typical BOSSes. It had an astonishing 1,700 billion Health. This amount was incredibly high.

However, creatures with high Health usually have weaker attack power compared to other monsters of the same type.

This creature didn't possess any troublesome domain abilities, so dealing with it was relatively straightforward.

It just took a little more time.

Under the exponential poison-burst bombardment from 3,400 Skeleton Monsters continuously stacking corpse poison, even a BOSS with 1,700 billion Health didn't last five minutes before collapsing.

[The Heavenly Path's Hint: Congratulations on successfully killing the Combat Ancient Tree. You have gained 1,000 dungeon reward points.]

[The Heavenly Path's Hint: Congratulations on successfully killing the Combat Ancient Tree. As this is a Stars Dungeon, all professionals in your Star System will also receive 1,000 dungeon reward points.]

Lin Ranhai, still reeling from the shock of Chen Mo completing an incredibly difficult SSS-level hidden mission, once again received The Heavenly Path's Hint.

[The Heavenly Path's Hint: As a professional from your Star System's forces has slain a Golden-grade BOSS, you have received 1,000 dungeon reward points.]

At this moment, Lin Ranhai stared blankly, his mind reeling.

Were there just two of us, or a hundred, when I entered this dungeon? Golden BOSSes are falling one after another!

Once Chen Mo defeated the tree spirit, the vines covering the Shrine of Gods all retracted into the corpse of the spirit BOSS.

"The vines are receding!"

"Quick, look! The vines are receding."

Indeed, someone quickly noticed that the vines ensnaring the Shrine of Gods had vanished in an instant.

"Quick, run out now while we have the chance!"

The people, who had been trapped in the Shrine of Gods and tormented by fear, now scrambled to escape, driven by a desperate frenzy.

They couldn't bear to be trapped any longer.

However, just as they were about to flee, the Holy Maiden stopped them.

"Everyone, calm down! We can't be sure if the spirit outside has truly retreated. It might have withdrawn the vines deliberately to lure us out! I'll go out first and check. If it's safe, I'll call you all out."

Hearing this, many people calmed down. No matter how frantic they felt, their lives were on the line. If someone was willing to scout ahead, they were naturally content to let the Holy Maiden go first.

However, a few who still held onto their faith spoke up, "Holy Maiden, how can we let you take such a risk? You are our last hope to invoke God's mercy upon us mortals. You mustn't come to any harm! Let me go instead."

"No, I should be the one to go. I can't let all of you take the risk."

While the Holy Maiden and the believers were still arguing, a young figure appeared at the Shrine of Gods' entrance.

"Look, someone is coming over there."

Everyone immediately looked towards the entrance and saw a handsome young man slowly walking towards them.

"Why would someone appear just as the vines outside receded? Could he be the one who defeated that tree spirit?"

It's unclear who said it, but the words made everyone else come to the same realization.

The Holy Maiden's attributes were much higher than ordinary people's, granting her superior eyesight. From a distance, she spotted the five-star insignia on Chen Mo's chest.

Seeing this, she couldn't contain her excitement. Claspng her hands together in a prayer-like gesture, she excitedly ran towards Chen Mo.

"Excuse me, are you the God of Bravery?"

Reaching Chen Mo, her face flushed with excitement, the Holy Maiden asked.

This Holy Maiden is truly exceptional, Chen Mo mused, observing her delicate features, flushed with excitement like a newly bloomed flower, exuding infinite grace and beauty.

"You can call me that if you wish, but I'm not a god, just an Adventurer."

"Lord God of Bravery, you are far too modest! It has been over ten thousand years since a God of Bravery last appeared on the continent. You are truly a one-in-a-billion existence!"

Chapter 165: Golden Boss is like killing a chicken! (Three in one, 5/5)_2

"We were under the impression that the gods had abandoned our world, but apparently not; they sent you to us!"

The Holy Maiden, deeply moved, began praying fervently on the spot.

"No need to pray anymore." Chen Mo gently pressed down the Holy Maiden's praying hands as he spoke. "I have already met with the Grand Sage. He said that the gods have already abandoned this land. Currently, if we wish to save the world, we can only rely on our own hands!"

The surrounding believers, upon hearing these words, displayed looks of despair. They were still hoping the Holy Maiden could contact the gods to come and save them. They could not accept the fact that the gods had abandoned them.

If Chen Mo weren't the God of Bravery, they probably would have rushed up to angrily accuse him of spreading rumors. The crucial point was, Chen Mo *was* the God of Bravery! In this world, the God of Bravery was recognized as the closest being to the gods, second only to them, and the one most worthy of respect and reverence. Even when the gods were still present, no one dared to speak disrespectfully to the God of Bravery. Let alone now, when the gods had all departed, leaving the God of Bravery as the sole dominant figure. Everyone who wanted to obtain protection could only rely on this Lord God of Bravery. Who would dare to say 'no' to him?

Even in their despair, they had no choice but to accept the reality that the gods had deserted them.

Seeing the room filled with an air of dejection and despair, Chen Mo was thoroughly disappointed in them.

These people were really spoiled by the gods! Without the gods, they didn't even know how to survive!

Chen Mo decided not to bother with them for the moment. At this point, it wasn't just them; even the Holy Maiden, upon hearing such news, looked at Chen Mo with despair. "If even the gods have abandoned us, Lord God of Bravery," she asked, "how then are we to save ourselves?"

"Don't worry," Chen Mo said. "The Grand Sage told me that as long as we humans regain our confidence, we will possess enough power to save ourselves. According to the Grand Sage, this continent has been invaded by an Evil God. Now, the world needs your power to be saved. Are you willing?"

Hearing that it was an instruction from the Grand Sage, hope sparked in the Holy Maiden as well. The Grand Sage was considered the direct superior of all Holy Maidens. He was the only one who could directly contact all the gods. Since the Grand Sage said humanity still had hope, then humanity definitely still had hope.

"I am willing, Lord God of Bravery," the Holy Maiden declared. "Please, give your instructions. Whatever you need me to do, I can be of service."

"Very good. However, your strength alone is not enough. I also need the other two Holy Maidens. Please wait here for a moment; I'll go and be right back."

Seeing Chen Mo about to leave, the remaining crowd immediately knelt and asked, "Lord God of Bravery, what about us? You just said we humans can save ourselves. What should we do?"

Chen Mo looked at them, paused for a moment, and then replied, "The rest of you need to dispel the confusion and fear in your hearts. Those Evil Curses grow stronger by feeding on the Dark Energy released by your negative emotions. All of you must remain positive, optimistic, and face difficulties with strength, no longer succumbing to fear or confusion. If you do, the power of those Evil Curses will gradually weaken. This will be the greatest help in saving this world."

"Yes! We will definitely follow the words of the Lord God of Bravery! We will no longer be afraid! We will be positive and proactive!!!"

The crowd immediately began to shout slogans, their spirits lifted.

"Excellent!" Chen Mo said. "It's best if you can continue to spread this kind of sentiment outward. I just saw from the sky that there are some villages nearby. The villagers are still alive, but they all look terrified. I hope you can spread this positive sentiment, tell them that the monsters here have been eliminated. As long as they can avoid falling into negative emotions and remain positive, humanity still has a chance!"

"Yes, we will definitely carry out Lord God of Bravery's orders well!"

The Heavenly Path's Hint: Due to your encouragement, humans have realized the impact of their own emotions on Evil Curses. As human emotions gradually turn positive, the power of Evil Curses will gradually weaken. Currently, the power of Evil Curses has weakened by 1%!

It works like that!?! Chen Mo was momentarily speechless. Good heavens, what a hidden benefit! He had merely seen that these people still had some fighting spirit and casually said a few words, yet it could actually reduce the power of the Evil Curses! At this moment, Chen Mo couldn't help but admire his own astuteness.

After giving his instructions, Chen Mo directly activated the Sage's Ring and teleported to the location of the next Holy Maiden.

Meanwhile, the people from the Yongming Star System, who were advancing at full speed towards the Solar System map, suddenly noticed a change in coordinate positions.

"What's happening? Captain, look! Someone from the Solar System, their coordinates have appeared on our map!"

"Huh, it's true! How did he get over here?"

"Could it be a map display error?"

"No way. I just saw his coordinate point flickering erratically, jumping here one moment and there the next."

"He can teleport randomly across the entire map? Then how are we supposed to catch him?"

"What capture him? Haven't you all noticed the crucial problem?"

"What problem?"

"He's teleporting! Teleporting!!!"

Only then did everyone recall. "That's right! Why can he teleport?!"

Everyone quickly pulled up the Stellar Group Rule to check.

Stellar Group Rule (1): Before the sub level is cleared, all Teleport abilities are nullified! (This rule can be negated by eliminating all Solar System Professionals).

Chapter 166: Golden Boss is like killing a chicken! (Three in one, 5/5)_3

The first Stars rule clearly stated that all Teleport abilities would be rendered completely ineffective.

However, that wasn't the case at all now; people in the Solar System were frantically teleporting.

They teleported east in one instance and west in the next.

Where was there any sign of Teleportation being restricted?

Now, they had even teleported directly into the Yongming Star System's territory.

It was really quite outrageous!

"Has the Stars rule been revoked?"

Someone immediately attempted to use their Teleport ability.

[The Heavenly Path's Hint: Warning! You cannot teleport under the restriction of the Stars rule!]

"Nope, the Stars rule is still in effect."

At this point, the team leader spoke, "There's nothing strange about this. Haven't you all forgotten what kind of task he just completed and what level of reward he can receive?"

"But leader, even SSS-level treasures are restricted under the Stars rule."

"If the reward he got was an item related to the task, then naturally it would not be affected by the Stars rule."

"That's possible. I've heard the teachers mention this before."

"So, we're at his mercy? He can teleport anywhere while we can only run slowly."

"Don't worry, don't forget the captain still has a sorcerer! He's just reluctant to use it for now."

The team leader's eyes twinkled as he said, "Let's deal with his companions first. If he can only move by himself, then we'll threaten him with his companions. Then we'll see if we should use the sorcerer."

"That's right, let's deal with his companion first."

「...」

Knowing he had to go to the Yongming Star System, Chen Mo had calculated the distance before teleporting.

Upon seeing on the map how far these people were from the shrine, Chen Mo knew that even if they turned around to look for him, it would be too late, so he teleported directly.

It wasn't that Chen Mo was afraid of them.

Rather, he simply didn't have time to deal with this group of people for the time being.

After all, the Priest was still waiting to be rescued.

If the Priest suddenly died, causing the task to fail, that would be too depressing.

Upon Chen Mo's arrival at the second shrine, he saw that a golden-grade monster was also guarding it.

This time, the golden-grade monster looked like an octopus, but it was incredibly large, the size of a small hill.

It was pitch black, with eyes as large as wheels on its huge, oval head. Just looking at it from afar could send shivers down one's spine.

Chen Mo hated such disgusting creatures the most.

Especially the dense suckers on the octopus's tentacles; they could give anyone with tryphobia goosebumps from just a few glances.

And that was precisely how Chen Mo felt now.

To get rid of the disgusting monster quickly, he directly summoned his Skeleton Monsters, which immediately ganged up on it.

The Health of this octopus golden-grade BOSS was the same as that of the previous Bishop of Xiensa Evil God.

But it had higher damage reduction.

It took Chen Mo a few minutes to kill it.

[The Heavenly Path's Hint: Congratulations on successfully slaying the "past followers." You have earned 1,000 dungeon reward points.]

[The Heavenly Path's Hint: Congratulations on successfully slaying the "past followers." As this is the Stars Dungeon, all professionals in your Star System are eligible to earn 1,000 dungeon reward points.]

[The Heavenly Path's Hint: As a professional in your Star System has defeated a golden-grade BOSS, you have earned 1,000 dungeon reward points.]

Lin Ranhai, whose eyes were already dull, had no reaction at all when he heard The Heavenly Path's Hint.

He just stood there, speechless...

As the BOSS died, its body crashed to the ground with a thud.

The massive noise alerted everyone in the shrine.

There were fewer people in this shrine than the last one: only a Holy Maiden and two nuns.

When they saw the five-star badge on Chen Mo's chest, they were just as excited as the previous Holy Maiden.

After Chen Mo gave them some instructions, they immediately nodded in agreement.

Then, without stopping for a moment, Chen Mo teleported again to the shrine in the Kaiyang Star System.

The people of the Kaiyang Star System had also noticed Chen Mo flying around chaotically.

"That person from the Solar System is blatantly ignoring the rules and flying everywhere. If he continues like this, the people of the Yongming Star System might not even be able to catch him. In the end, they might come after us first. Should we do something about this problem?"

"Wasting valuable resources to help the people of the Yongming Star System... I just can't bring myself to do it!"

"It can't be helped; we're outmatched right now..."

"Then, let's release the Action-Restriction Cursing Bug!"

「...」

At this point, Chen Mo had arrived at the third Shrine of Gods.

But this time, it was rather strange; there was no BOSS guarding the surroundings of the third shrine.

However, after Chen Mo scanned the area with his senses, he was surprised to find that the third shrine was already littered with corpses, and rivers of blood flowed inside.

The Holy Maiden, meanwhile, was using a necklace to activate a protective barrier, struggling to resist the onslaught of an Archbishop dressed in red.

Has this guy been possessed?

Chen Mo noticed the aberrant crimson glow in the eyes of the red-robed Archbishop and, upon carefully sensing his attributes, realized he wasn't normal.

Well, what do you know? He was the golden-grade BOSS here.

He was afflicted by something called the Unknown Curse, causing red hair to grow all over his body. He looked quite disturbing.

Chen Mo immediately summoned a large group of Skeleton Monsters to attack.

Even though the Archbishop in red had been human before, he had now mutated into a monster. Chen Mo's The God of Bravery title was still effective against him. After nullifying three of the opponent's more troublesome abilities, his Skeleton Monsters' overwhelming barrage easily took care of this Archbishop.

Chapter 167: Golden Boss is like killing a chicken! (Three in one, 5/5)_4

[The Heavenly Path's Hint: Congratulations on your successful killing of the "Unknown Mutant." You've gained 1,000 dungeon reward points.]

[The Heavenly Path's Hint: Congratulations on your successful killing of the "Unknown Mutant." Since the dungeon is a Stars Dungeon, all professionals in your Star System have been awarded 1,000 dungeon reward points.]

[The Heavenly Path's Hint: Given that a professional in your Star System has successfully killed a Golden-grade BOSS, you've gained 1,000 dungeon reward points.]

Upon hearing the hints again, Lin Ranhai stood alone, applauding blankly on the spot, celebrating Chen Mo's success.

He was completely numb... Killing Golden-grade BOSSes was like chopping vegetables, one after another; he truly felt as if he were in a dream.

As Chen Mo killed the Unknown Mutant, the Holy Maiden had already taken note of his performance.

Seeing the five-star badge on Chen Mo's chest, she, whose heart had turned to ashes due to the slaughter at the shrine, felt hope rekindle within her.

"The shrine here is completely destroyed. Come with me; I need three Holy Maidens to help."

"As commanded by The God of Bravery, I shall obey," the Holy Maiden said, placing her right hand on her chest and bowing respectfully to Chen Mo.

"Very good!"

Chen Mo had finally gathered three Holy Maidens and prepared to take this one back immediately.

Just as he was about to act, he suddenly sensed something rapidly shooting towards him.

While trying to perceive information about this entity, Chen Mo casually tossed an Energy Bullet and destroyed it.

"An Action-Restriction Cursing Bug? Those fellows from the Kaiyang Star System certainly understand the principle of 'better a dead friend than a dead me,' always trying to find ways to get me killed!"

This Action-Restriction Cursing Bug was a truly disgusting thing. It had no effect when merely attached to a person, but once activated, it would render any Teleport ability of the cursed individual ineffective.

This type of bug was usually used to prevent enemies from escaping via teleportation.

Now, however, they were planning to use it against Chen Mo.

Chen Mo glanced at the map, noting the positions of these twenty people.

If he wasn't in such a hurry, he would have killed nineteen of these twenty people, leaving one to mark the coordinates.

"I'll come back to deal with you later."

After Chen Mo destroyed the Action-Restriction Cursing Bug, he returned to the shrine in the Yongming Star System with the Holy Maiden. He waited for a minute and then flew back to his own shrine with the second Holy Maiden.

Now, it was time to go to the Earth Spring.

The Earth Spring was located where the three dungeon continents converged.

Chen Mo directly teleported there with the three Holy Maidens.

Originally, he thought that the Evil Curse would have sent monsters to guard such an important place, possibly a large number of them.

He was fully prepared for a fight, but after teleporting there, he didn't see a single monster.

Even using a Pioneer's perception ability, he still couldn't sense anything.

Around them, there was nothing but flowers, trees, and the vibrant Earth Spring.

All sources of water in the world originated from the Earth Spring.

It was a spring that would never dry up!

"The three of you, I need each of you to drip some blood into the Earth Spring. This will transform it into the Saintess' Spring, allowing the pure Energy you embody to spread throughout the world and save the people afflicted by the Evil Curse."

"Yes!"

The three Holy Maidens were all women of few words. One of them took out the brooch pinned to her chest, pricked her finger, and dripped her blood into the Earth Spring. The other two Holy Maidens quickly vied to do the same.

As the fresh blood of the three Holy Maidens continuously dripped into the Earth Spring, Chen Mo felt the originally vibrant Earth Spring suddenly emit a holy light, its aura becoming incredibly sacred.

Merely standing nearby and inhaling the air, he felt as if his body and soul were being purified.

He immediately took out a bottle of Life Potion, which he had obtained when he killed the three assassins earlier. He poured it out and then filled the entire bottle with water from the Saintess' Spring.

"Can I take a few more bottles of this back with me?" Chen Mo couldn't help but wonder.

But The Heavenly Path's Hint reminded him it would be useless.

[The Heavenly Path's Hint: Bottled Saintess' Spring requires at least three drops of a Holy Maiden's blood to be infused into it to prevent its pure Energy from gradually dissipating.]

Chapter 168: Honor Brave Challenger Suit! (1/5)_1

Upon receiving The Heavenly Path's Hint, Chen Mo immediately asked for a drop of blood from each of the three women. He noticed they were beginning to look pale, although it didn't seem like they had lost much blood. This wasn't ordinary blood; it was their blood essence, the source of their Life. Dripping it out was like draining their pure energy, an act that harmed their very core. Under these circumstances, they obviously couldn't afford to lose much more.

Seeing this, Chen Mo abandoned his idea of taking a couple more bottles of Saintess' Spring to sell.

"Enough. The Earth Spring has been fully transformed. Let's go back and rest first," he said.

Chen Mo embraced the three of them. As his thoughts shifted, they flew back to the Shrine of Gods on the Solar System map.

"You three go and rest in the inner temple. I have other things to attend to, so I can't stay here with you," he told the exceptionally weak trio.

"Lord God of Bravery, you... go ahead. Saving... saving this world is what's important. We'll... we'll be fine..." one of them managed to say.

After they had spoken with great effort, Chen Mo nodded. He told the three Holy Maidens to rest well, then immediately disguised himself again and returned to Qiluo Town!

Once the Priest is cured, I won't have to rush anymore, Chen Mo thought.

At the entrance of the shrine, Lin Ranhai was leaning against a stone pillar, staring idly at the azure sky.

This instance dungeon seems to have nothing to do with me, he mused. My being here is completely redundant.

As he was lost in thought, a figure suddenly materialized beside him. Startled, Lin Ranhai instantly drew his sword and looked over. Although he had been lounging comfortably, he had promised to protect that thing inside the shrine, and he naturally intended to keep his word.

Turning his head, he was surprised to see a familiar face.

"Miss Zhao, you... you're back..."

At that moment, Lin Ranhai looked at Chen Mo as if she were from a different world. Even his form of address had changed to "Miss."

Chen Mo smiled faintly and asked, "Is the Priest all right?"

"He's fine, perfectly fine. Not even a fly has come near," Lin Ranhai replied.

Chen Mo nodded and immediately went to the well beside the shrine to draw a bucket of water. Due to the transformation of the Earth Spring, all water sources in the world had been purified. Now, any bucket of water drawn was pure Saintess' Spring. Of course, it had to be consumed near the source; otherwise, as The Heavenly Path's Hint previously indicated, the pure energy would gradually dissipate if it were bottled or served separately.

Carrying the bucket, Chen Mo rushed back into the shrine.

The Priest was still hiding in the shadows. Seeing Chen Mo return, he immediately looked over. When he saw the five-star badge on Chen Mo's chest, the Priest became visibly excited. His entire body wriggled as he scurried towards Chen Mo.

"This is Saintess' Spring. It can free you from the Xiensa Evil God's Body. Drink it quickly," Chen Mo said, placing the bucket before the Priest and gesturing for him to drink.

Learning he could return to his original form, the Priest was incredibly enthusiastic. He wriggled his fleshy body, wrapped his tentacles around the bucket, and began to GULP down the water.

A few seconds later, the Holy Water began to take effect. A surge of sacred and pure energy burst forth from within the Priest. After a blinding flash of light, a completely naked Priest appeared before Chen Mo.

This Priest looked remarkably young and handsome, a stark contrast to the elderly man Chen Mo had imagined.

Realizing his current state, the Priest hastily reached into his own chest and pulled out a set of white robes, which he quickly put on.

"Thank you for saving my life, Lord God of Bravery. I am eternally grateful," the Priest said.

As the Priest reverted to his true form, Chen Mo received another message from The Heavenly Path.

[The Heavenly Path's Hint: Congratulations on completing the prerequisite quest for Changes in Qiluo Town. The follow-up quests for Changes in Qiluo Town are now available!]

[The Heavenly Path's Hint: The Xiensa Evil God covets the Priest's body. Lure its clone here and eliminate it!]

Warning! The Xiensa Evil God's clone is extremely powerful. You can weaken it by reducing the negative energy and increasing the positive energy of humans across the continent!]

Seeing he could directly challenge the Xiensa Evil God, Chen Mo looked at the Priest before him and asked, "How powerful is the Xiensa Evil God's clone? How does it compare to the Bishop of Xiensa Evil God who appeared near Qiluo Town earlier?"

"The Xiensa Evil God's clone is on par with a lower-rank Demon God. It's a terrifying entity capable of battling Gods without being at a disadvantage. Its strength is at least that of a level 100 god-grade unit," the Priest explained.

Hearing this, Chen Mo's mouth twitched. My goodness! he thought. Level 100 god-grade, and that's just for a clone? How terrifyingly insane must the main body be?

Realizing the immense power of his opponent, Chen Mo didn't dare to lure it over immediately. He contemplated for a moment. He decided it was safer to first spread hope by announcing the existence of the God of Bravery. This would reduce the negative energy of the humans on the continent and, consequently, lower the threat from the Evil God's clone.

Besides, he now had the Teleport ability, so he didn't need to worry about how quickly word would spread.

But before that, Chen Mo opened the map. It's time to deal with the people in those two Star Systems, he thought.

Before setting off, Chen Mo took the time to carefully examine the attributes of the Honor Brave Challenger Suit he had obtained earlier.

[Honor Brave Challenger Suit-Dark Gold Level]

[Special Restriction]: Only those with the title of "The God of Bravery" can equip this.

[Equipment Level]: Scales with character level.

[Equipment Attributes]:

Life Value: $(\text{Job Star Level} + \text{Equipment Level}) * 5,000$

Energy Value: $(\text{Job Star Level} + \text{Equipment Level}) * 5,000$

Physical Defense: $(\text{Job Star Level} + \text{Equipment Level}) * 500$

Magic Defense: $(\text{Job Star Level} + \text{Equipment Level}) * 500$

All Attributes: $(\text{Job Star Level} + \text{Equipment Level}) * 50$

[Set Bonus]: Immune to all abnormal status and control effects inflicted by monsters.

[Effects]: Assimilation, Illusion, Isolation, Divine Protection, Glory, Barrier

[[Assimilation]] : Can absorb the special effects of other armor. The total number of special effects cannot exceed the equipment level.

[[Illusion]] : Can transform into any type of clothing (cannot be seen through).

[[Isolation]] : Blocks all detection abilities not higher than this equipment's grade (Currently SS-level).

[[Divine Protection]] : Reduces all incoming damage, except true damage, by 50%!

[[Glory]] : All Attributes increase by (Job Star Level + Equipment Level)%.

[[Barrier]] : Automatically blocks any incoming control or abnormal status effects. Can also be actively used to remove such effects from others. Number of blocks/removals equals equipment level. Recovers 1 charge every 5 seconds. Current charges: 13/13.

[Equipment Description]: Only a Hero of ultimate glory can equip this Extraordinary Suit. Ordinary people cannot unleash any of its effects.

After carefully studying the Honor Brave Challenger Suit, Chen Mo marveled at it. This suit is insanely powerful, and it's still only dark-gold grade, not even Artifact Level yet! I wonder how much stronger it will become when it reaches Artifact Level!

Chapter 169: Time to Rest! (2/5)_1

After checking the attributes of the equipment, Chen Mo immediately put them on.

At the same time, he assimilated the Harvest Suit he had replaced.

[The Heavenly Path's Hint: You are currently using the "Honor Brave Challenger Suit" assimilation effect on the "Harvest Suit". After assimilation, the "Harvest Suit" will disappear. Do you confirm?]

[Confirm!]

[The Heavenly Path's Hint: Assimilation successful. The "Harvest Suit" has three special effects: "knowledge" (increasing Experience gain by 100%), "Harvest" (increasing item drop rate by 100%), and "Bountiful Harvest" (item double drop rate 50%).

Please choose which special effects to inherit...]

Chen Mo opted to inherit all of them!

[The Heavenly Path's Hint: Inheritance successful!]

With the end of The Heavenly Path's Hint, three new special effects were added to the Honor Brave Challenger Suit.

Chen Mo nodded in satisfaction, planning to absorb some other effects later.

After all, it would likely require god-grade materials to synthesize a divine artifact from dark-gold grade equipment. He doesn't have access to such things at the moment. Even if they were sold at the auction house, their price would be exorbitant. Selling all the junk in his backpack wouldn't even be enough.

Having equipped his gear, Chen Mo opened the map to check the coordinates of the group from the Yongming Star System.

"You've all worked hard running around for half a day. It's time for you to rest!"

Chen Mo grinned and immediately used the Void Pearl to enter the Space of Void.

Then, using the Sage's Ring, he teleported to the location of the group from the Yongming Star System.

At this moment, many people from the Yongming Star System were constantly monitoring Chen Mo's movements. Aware that Chen Mo's small dot had disappeared from the map again, they knew he had once again entered the Space of Void.

However, no one would have thought that Chen Mo had, in fact, already arrived right beside them.

They were still discussing strategies to deal with Chen Mo.

"Captain, we've found a pattern. Every time he teleports, it takes at least one minute before he can teleport again. We have reason to believe his Teleportation has a Cooldown of at least one minute."

"Only one minute? Knowing that isn't very useful, is it? We can't possibly run from one end of the map to the other in one minute."

"How is it useless? Knowing this will make it easier for the captain's sorcerer to catch him. Naturally, it's not a bad thing."

"I can't wait to catch this guy! I wonder what reward he got for completing an SSS-level hidden mission. If I could get my hands on his treasure, I'd be rich!"

Because he possessed the perception ability, Chen Mo could easily perceive the situation in the original world even while in the Space of Void.

He had a clear insight into what the group from the Yongming Star System was up to outside.

"Sorcerer? What is that? It sounds like it can restrict me."

Chen Mo attempted to sense their attributes.

Previously, he had somewhat underestimated their strength, seeing that all one hundred of these Level 40 individuals were only first-transition.

However, after checking their attributes, Chen Mo found several formidable ones among them.

With their strength, they must have grand ambitions to still be holding off on their profession rebirth. They are probably deliberately delaying it to challenge a four-star or five-star rebirth mission.

"Can't investigate it. It seems the sorcerer is some kind of item. I'll just kill them and get my hands on it to see what effect it has."

"However, this group's combat power is indeed impressive. If I let them deploy their army array, it would take some effort to defeat them."

After some consideration, Chen Mo decided on a direct decapitation strike!

First, he would kill their captain, causing them to momentarily lose their backbone and the person who could activate the army array. Then, while they were in chaos, he would wipe them out!

First-transition Level 40 individuals are not weak. Many of them had Health over 500,000, with attack and defense stats around 20,000.

If they were allowed to activate the army array and consolidate these attributes, they would indeed pose a significant threat.

Especially since, unlike monsters, they used teamwork and tactics.

Although it was impossible for Chen Mo to lose with his current combat power, it would certainly be more troublesome than a sneak attack assassination.

Having made his decision, Chen Mo had already summoned 3,400 Skeleton Monsters in the Space of Void and applied Unwinding Worship and Huge Shield to them.

With a thought, his figure emerged from the Space of Void.

Emerging with him were 3,400 Skeleton Monsters in invisible mode.

The moment he emerged from the space, the people from the Yongming Star System hadn't even reacted to the sudden appearance of a person.

They currently felt no fear of being ambushed.

Their first reaction upon seeing Chen Mo was surprise.

Why would this professional from the Solar System fly over here to die?

They had just analyzed that even if this professional from the Solar System possessed an unrestricted Teleport ability, it still required a one-minute Cooldown before it could be used again.

He suddenly teleported in front of us; if he can't leave within a minute, isn't he just seeking death?

In that instant of astonishment, a wave of ecstatic joy washed over them!

Seeing Chen Mo, they felt as if a treasure had delivered itself to their doorstep!

They had seen reckless people before, but never someone so eager to die!

They were ecstatic!

And just as this group transitioned from bewilderment to elation, Chen Mo, whom they thought was delivering himself to them on a silver platter, had already commanded his Skeleton Monsters to attack.

SWISH! SWISH! SWISH!

As a dense barrage of flying arrows and fireballs rained down on them.

The professionals from the Yongming Star System were all dumbfounded.

Because, at the instant these flying arrows and fireballs appeared, the sky was suddenly filled with a dense formation of Skeleton Monsters wielding ranged weapons.

A vast, dark mass, numbering at least in the thousands at a glance.

They had thought only one person was approaching, never imagining he would suddenly pull out such a large swarm of monsters from who-knows-where!

The group, having just shifted from bewilderment to elation, was once again thrown into astonishment!

However, the captain of the Yongming Star System team truly lived up to his reputation as an experienced leader. Faced with this situation, he immediately snapped out of his astonishment and reacted promptly, choosing to activate the army array!

However, as mentioned before, activating the army array required all members to consent.

Until everyone agreed, the army array could not be initiated.

Even if he reacted faster than anyone else, as long as there was even one slow responder in the team, the army array could not be deployed immediately!

THUD! THUD! THUD! BANG! BANG! BANG!

As a barrage of arrows and firebombs concentrated on the Yongming Star System's team captain, even with his multitude of Avatars, he could not evade the focused fire from Chen Mo's Skeleton Monsters and was instantly killed!

For the members of the Yongming Star System team, The Heavenly Path's Hint for array formation arrived almost simultaneously with the notification of their captain's death.

Chapter 170: Maximum Reward! (Three in one, 5/5)_1

Many were unable to arrange their formation before their team leader was killed. However, even with their leader dead, the group wasn't as chaotic as Chen Mo had anticipated. They seemed to be a well-coordinated, experienced team. Despite their leader's sudden death, they reacted promptly, forming up with tanks in the front, DPS in the center, and Supports at the back. The Supports had even begun casting resurrection Skills on their leader. Unfortunately for them, he had been killed by Chen Mo!

Any unit killed by Chen Mo, who possessed the Ring of Death, needed its own resurrection ability to be revived. This leader had no such ability. He was completely dead.

With their leader dead, the group no longer had the 100 members required to form an army array. Now, they could only rely on their individual strength to fight Chen Mo. Still, their reaction was incredibly fast. They unleashed a barrage of multi-target and single-target debuff Skills at Chen Mo and the Skeleton Monsters.

Almost all of them targeted Chen Mo. Seeing so many Skeleton Monsters, they instantly realized Chen Mo was a Summoner-type professional; if they killed him, the Skeleton Monsters would vanish. Thus, killing Chen Mo became their top priority.

However, by the time their attacks and status effects landed on Chen Mo, the Skeleton Monsters' second wave of attacks was already underway. Three thousand four hundred Skeleton Monsters attacked 99 professionals!

Despite a significant Level difference, Chen Mo's powerful attributes largely nullified this disparity. Chen Mo planned to kill 10 people in this wave, assigning 340 Skeleton Monsters to focus on each tank; even the sturdiest tank would struggle to survive.

The attacks they launched against Chen Mo were practically harmless. A large number of his Skeleton Monsters were all covered by extremely thick Huge Shields; as long as the Skeleton Monsters didn't die, he wouldn't die!

After the first exchange, 10 tanks from the Yongming Star System had fallen. On Chen Mo's side, the Skeleton Monsters had only lost some of their shields and were largely unharmed.

"How is this possible! How is he so tanky!"

Someone immediately tried to inspect Chen Mo's strength. But Chen Mo was wearing the Honor Brave Challenger Suit, which had an isolation effect. No one could gather any information about him unless they possessed SSS-level probing abilities. The less information they could gather, the more they realized how tricky Chen Mo was.

Regrettably, retreating was not an option at this moment. Because of the Stars Dungeon rules, no one could leave the instance! And since their coordinates were exposed, scattering would only lead to a slow death. Their opponent possessed full-map Teleportation abilities. As long as their coordinates remained visible, escape was impossible, no matter where they ran.

The only thing they could do now was try everything to kill the Summoner. However, their attacks on the Summoner seemed to vanish like a clay ox into the sea, having no effect whatsoever. The once-calm group was now in a panic.

The team leader was dead and could not be revived. Ten front-row tanks had died. Except for 2 who had passive resurrection abilities and revived automatically, the other 8 could not be resurrected. Clearly, their opponent possessed an ability that prevented resurrection. This was what troubled them most.

Normally, when fighting a BOSS, even if members died, they could maintain combat effectiveness through resurrection. But now, once their combat power diminished, it was incredibly difficult to recover. They couldn't win, couldn't flee, and couldn't be revived. All that remained was despair.

The Yongming Star System and the Solar System were in a fight to the death. If they met outside, reconciliation was impossible, let alone within the Stars Dungeon.

"Brothers! Fight him! There are no cowards in the Yongming Star System!"

It's unclear who shouted it, but the previously sinking morale suddenly surged. Even knowing this was a battle they would likely die in, they still attacked Chen Mo with all their might.

Chen Mo admired their spirit. However, given their allegiances, the people of the Yongming Star System had to die. The debt for the countless Earth geniuses harmed by the Yongming Star System was not something these 100 people alone could repay.

Since the New Century began, the Solar System had been developing steadily. However, its rapid growth and increasing strength threatened the Yongming Star System within the Tower of Eternity, leading to deliberate suppression by the powerful Yongming Star System. Chen Mo would now show them that the Solar System was not to be trifled with.

As the Skeleton Monsters continued their onslaught, the numbers of the Yongming Star System members dwindled rapidly. In a short while, only half remained.

Meanwhile, in a distant part of the Kaiyang Star System map, 20 individuals from the Kaiyang Star System stared at their mini-map in shock. When they first saw the red dot representing Solar System Professionals appear near the large cluster of blue dots representing Yongming Star System's Professionals, they couldn't understand what this person from the Solar System was planning. Why would he throw himself into the net?

The Yongming Star System members, having observed Chen Mo's previous few Teleportations, had deduced his Cooldown was around 1 minute. The Kaiyang Star System members were no fools and had also easily reached the same conclusion.
