Chapter 171: Maximum Reward! (Three in one, 5/5)_2

Because they knew Chen Mo's Teleportation had a Cooldown, they were extremely curious as to why Chen Mo dared to teleport directly in front of the hundred-strong team of the Yongming Star System's Professionals.

While they were still puzzled by this, they were stunned to see several blue points representing the Yongming Star System's Professionals disappear within seconds!

This was a genuine surprise for them.

And this rate of decrease did not slow down; instead, it sped up!

In no time, half of the blue points representing the Yongming Star System's Professionals had disappeared!

"What's going on? Why has half of the blue points representing the Yongming Star System's Professionals disappeared so quickly?"

"Don't tell me they've been killed by the Professionals from the Solar System!"

"How is that possible? There are only two Professionals from the Solar System who entered the supplemental area, and even now, only one of them has reached the front line of the Yongming Star System's Professionals! How can one person kill a hundred!?"

"Exactly, facing ninety-nine is different from facing one hundred! A hundred can form an army array; this alone can completely overwhelm a single Professional!"

Hearing this, someone immediately responded, "Wait! When that guy from the Solar System appeared just now, I think I saw one blue point suddenly disappear from the Yongming Star System's side. I initially thought my eyes were playing tricks. Now that you mention it, my guess is that he preemptively assassinated one of them, eliminating the possibility of them forming an army array. After that, he took on the remaining ninety-nine!"

"Even so, how is it possible for one person to kill so many?"

The people from the Kaiyang Star System could hardly believe it.

And they gradually realized a fact. If everyone from the Yongming Star System were annihilated, their fate would likely be the same.

If the Yongming Star System's Professionals had directly gone after them, they could have scattered and bought more time by running all over the map.

But if this person from the Solar System was victorious, he would be able to teleport across the entire map!

Run? Run where?

For a moment, everyone from the Kaiyang Star System fell into an inexplicable panic...

On the Yongming Star System side, corpses were already everywhere!

Only a few remained alive.

From the moment half of them had died, these people had given up on resistance. They were quickly destroying the valuable items in their space backpacks, their goal to limit Chen Mo's gains.

Seeing this, Chen Mo naturally ordered the Skeleton Monsters to speed up their attack. What they were destroying were his treasures!

This was unbearable.

However, unfortunately, destroying their own items was too simple. They only had to apply to the Heavenly Dao to do so.

Although they had to confirm each destruction individually and couldn't destroy everything at once, by the time Chen Mo had killed all of them, these people had still rapidly and frantically destroyed a lot of good items.

This seriously annoyed Chen Mo.

These people sure know how to play mind tricks!

Chen Mo was irritated for a moment but quickly composed himself.

The more people tried to play mind games with him, the more composed he had to be. Otherwise, he would just be playing into their hands.

Just a little less income. It doesn't matter!

Chen Mo consoled himself and let it go.

He casually collected all the backpacks on the ground into his expanded space backpack.

Ever since the expanded space backpack was upgraded to be capable of accommodating other backpacks, it had become much easier to collect spoils of war.

Otherwise, he would have to pick up each backpack, pour out the contents, and then collect them into his space backpack.

That would be incredibly troublesome...

After packing up the spoils of war, Chen Mo activated the Sage's Ring again!

This time, he appeared directly in front of the twenty men of the Kaiyang Star System.

In the Qiluo Town Shrine, Lin Ranhai, who had been waiting for Chen Mo's return, was now utterly horrified!

When he saw Chen Mo suddenly teleport away again, he thought Chen Mo had gone off to deal with some golden-grade BOSS. Unexpectedly, Chen Mo's Teleportation had taken him in front of a large group of Professionals from the Yongming Star System.

Seeing that single red point on the map surrounded by a hundred blue points, Lin Ranhai's heart jumped into his throat.

He even doubted whether Chen Mo's extraordinary Teleportation ability that could bypass the restrictions of the Stellar Rules had a glitch that led to random teleportation, causing Chen Mo to accidentally teleport to these Yongming Star System Professionals instead of another location.

It was suicidal for the two of them to face a hundred men from the Yongming Star System, let alone Chen Mo who was now confronting a hundred men of the Yongming Star System alone.

There was no escape!

This made Lin Ranhai, who had just found a slim chance of survival from Chen Mo's series of achievements, fall into despair again.

But this despair didn't last long. Soon, he saw the blue points begin to decrease rapidly.

They were truly decreasing at an astonishing pace. Half of them vanished within a short period.

What!?

He was stunned! And then, he was utterly shocked!

He even suspected the map was malfunctioning. If not the map, then his eyes must be deceiving him. If not his eyes, then his mind must be.

Could it be that I've been under the influence of the Evil Curse? Is that why I keep receiving these impossible messages?

At this moment, Lin Ranhai was so shocked that he started doubting the reality of the world.

Chapter 172: Maximum Reward! (Three in one, 5/5)_3

Ever since Chen Mo swiftly killed the Golden BOSS, he had felt a strong sense of unreality.

Then, Chen Mo completed an SSS-level hidden mission with a 99.99% death rate, which shook him to his core.

After that, Chen Mo quickly killed one Golden BOSS after another.

Now, things had become even more absurd: he alone had obliterated 100 professionals from the Yongming Star System!

Is this a Level 20 professional? A first-transition professional?

Even a second-transition professional wouldn't dare claim they could single-handedly take on a 100-person, Level 40 first-transition team!

All of this was too unreal, causing Lin Ranhai to feel bewildered and doubt himself.

Moreover, this world had been invaded by an Evil curse. It wouldn't be unusual if he had been infected to the point that it distorted his mind.

Just as Lin Ranhai was doubting himself, he received another hint from the Heavenly Dao.

The Heavenly Dao's Hint: Attention! Attention! All professionals from the Yongming Star System have perished. All related Stars Dungeon rules are now void!

He summoned the Stars Dungeon rules and saw that, indeed, those pertaining to the Yongming Star System had vanished!

Really?! Did she actually wipe out a 100-person, Level 40 team all by herself?

Lin Ranhai couldn't even begin to imagine how she had managed it.

And while he was still marveling at her feat of single-handedly taking on a 100-person team, he saw that she didn't even pause to rest, immediately teleporting before the 20 people from the Kaiyang Star System.

"Let...Let us go. Our Kaiyang Star System has some cooperation with your Solar System in the Tower of Eternity. Our relations aren't bad!"

Seeing how this person had swiftly eliminated the 100-person team from the Yongming Star System and teleported directly to them, these 20 individuals had absolutely no confidence to confront her!

They immediately began begging for mercy out of fright.

They were different from the Yongming Star System. The Yongming Star System and the Solar System were mortal enemies!

Everyone in the nearby star systems knew this.

Indeed, the Kaiyang Star System's relationship with the Solar System wasn't bad, primarily because their key strategic positions were distant from each other, resulting in no immediate conflicts of interest.

Initially, if they had begged for mercy and offered a price sufficient to ransom their lives, Chen Mo might have considered letting them go.

However, recalling the moment they released an Action-Restriction Cursing Bug to harm him, he knew their fate was sealed!

Chen Mo feigned consideration. "What you said isn't wrong..." he remarked, but his intention was merely to prevent them from destroying their possessions. Then, just as they began to believe there was hope for survival, Chen Mo suddenly commanded the Skeleton Monsters to attack! "But you shouldn't have come after me!"

The instant Chen Mo finished speaking, a devastating barrage of projectiles rained down, giving the 20 people no time to dodge.

"No...!"

A mere 20 people against 3,400 Skeleton Monsters. With 170 Skeleton Monsters targeting each individual, it was enough for an instant kill.

So none of them could escape alive.

Even those with resurrection abilities, upon reviving, couldn't withstand the second wave of attacks.

Standing up again only meant death!

Some of their resurrection items were single-use, and by expending them, they somewhat reduced Chen Mo's loot.

It was obvious that everyone was thinking the same thing: even in death, they would not let the person who killed them profit any more than necessary.

After swiftly killing these people, Chen Mo directly stowed the spoils of war in his backpack.

At this moment, both he and Lin Ranhai simultaneously received a hint from the Heavenly Dao.

The Heavenly Dao's Hint: You have successfully eliminated all professionals non-native to this Star System within the Stars Dungeon. All Stars Dungeon rules have been lifted!

The Heavenly Dao's Hint: You have successfully eliminated all professionals non-native to this Star System within the Stars Dungeon. You are eligible to receive the maximum reward for this dungeon. The maximum reward is SSS-level. This reward can only be issued once and will be granted to the individual with the highest battle contribution!

The Heavenly Dao's Hint: Battle contribution calculation complete. Solar System professional Zhao Min: battle contribution 100%. Solar System professional Lin Ranhai: battle contribution 0%. The SSS-level reward will be awarded to professional Zhao Min! The recipient may redistribute it at their discretion.

The Heavenly Dao's Hint: Congratulations on receiving an SSS-level Gift Pack!

The Heavenly Dao's Hint is actually being announced using the identity I fabricated with my Illusion Ability! Chen Mo was somewhat surprised.

If his real name had been announced, Chen Mo would have genuinely needed to consider whether to let Lin Ranhai leave the Stars Dungeon knowing the truth.

Although Chen Mo could be ruthless and unhesitating when killing Aliens, he found it difficult to bring himself to harm an innocent compatriot merely for the sake of silencing them.

Now, however, he was relieved of this dilemma.

Lin Ranhai had absolutely no objections to the Heavenly Dao's allocation.

In fact, learning he could get an SS-level reward for free had him grinning from ear to ear.

The Heavenly Dao's Hint: You have eliminated all professionals non-native to this Star System. The Stars Dungeon can now be settled. Settle now?

As the space before him distorted, Lin Ranhai saw Chen Mo reappear in the shrine.

At this point, Lin Ranhai felt somewhat intimidated and hesitant to speak to Chen Mo.

In his eyes, he and Chen Mo were simply not on the same level.

"Although we can settle the Stars Dungeon now," Chen Mo said, "if we also complete the SSS-level hidden mission, we can get another reward. I've nearly finished this mission, so let's complete it before we leave."

Chapter 173: Maximum Reward! (Three in one, 5/5)_4

"I'm at your disposal; I'll follow all your commands."

Lin Ranhai, extremely deferential, kept his distance from Chen Mo, shrinking to one side and nodding repeatedly.

Seeing his demeanor, Chen Mo chuckled. "What's wrong with you?"

"Nothing. It's just that, Miss, you're too brilliant, too dazzling. I dare not get close," Lin Ranhai replied with an awkward smile.

Chen Mo was indeed dazzling. The disparity between them was like that between a mortal and a god. Facing an existence that could obliterate him with a wave of the hand, in such a lawless environment, it was difficult for Lin Ranhai not to feel profound fear.

Chen Mo paid him no further mind and started using the Sage's Ring to teleport all over, spreading hope of The God of Bravery's arrival.

This revived hope in the hearts of those who had gradually fallen into despair in this world.

As word spread from one to ten, and then to hundreds, negative energy began to recede while positive energy began to swell.

Chen Mo continually received The Heavenly Dao's Hint that the power of the Evil curse was steadily declining.

After he spent about a day, the power of the Evil curse finally weakened to just 1%.

"That should be enough."

Although Chen Mo felt that reducing it to 1% was sufficient, he still made sure to visit the Sage's Village first to consult the Grand Sage.

"Lord God of Bravery, I can feel the positive energy returning to this world. I imagine you must have spread hope throughout the land."

In the small wooden cabin within the village, the two sat opposite each other, chatting amiably.

"It certainly took a great deal of effort. We should be almost ready to deal with the Split Soul of the Xiensa Evil God now. However, it is an existence comparable to a lower-rank Demon God. I still wish to ask you, venerable Grand Sage, if you have a way to deal with it?"

"These old bones of mine have lived long enough. Even hiding within this enchantment merely delays my death. I would rather make one last contribution to this world before I pass."

The old Sage looked at Chen Mo and said, "I shall transfer my True Spirit into the Sage's Ring in your hand. When you encounter the Split Soul of the Xiensa Evil God, summon me. I will give my all to further weaken its combat power, making it easier for you to defeat it."

"And what will happen to you?"

"Do not worry. My True Spirit will reincarnate within this world. Once the gods return, I shall awaken once more."

"I see. In that case, please enter the ring."

The Grand Sage nodded, preparing to transform into light and enter the ring.

At this moment, Chen Mo suddenly thought of Lilian.

"Don't you want to say goodbye to your granddaughter first?"

"There's no need. More words would only bring more sorrow. It's better to let her remain ignorant. Once she completes the Sage's trial, she will understand."

"Very well."

As clusters of light spots emanated from the Grand Sage, his entire being transformed into a brilliant light and surged into the Sage's Ring in Chen Mo's hand.

At that moment, Chen Mo couldn't help but feel relieved that he hadn't rushed to destroy the ring to upgrade his profession. Otherwise, this instance dungeon mission would have been excruciatingly difficult, and obtaining two SSS-level rewards would have been nearly impossible.

Having secured the Grand Sage's assistance, Chen Mo immediately returned to the shrine in Qiluo Town.

"Priest, you can now try to lure the Split Soul of the Xiensa Evil God here. Now that positive energy is gradually rising across the continent, it will surely need you more."

The Priest nodded and said, "Yes. During the time you were away, it frantically contacted me several times. I've been stringing it along, just waiting for your command!"

With that, the Priest began to murmur prayers.

Soon, Chen Mo and Lin Ranhai sensed a nauseating stench permeating the shrine, a smell so revolting it made them want to vomit.

This stench was an indescribable foulness.

There was the smell of blood, the reek of sweat, and other unidentifiable, vile odors.

I truly despise these kinds of monsters!

The monster hadn't even materialized, yet Chen Mo was already filled with murderous intent.

He couldn't help but grouse inwardly, How can such revolting things even exist in the world?

As the Priest's prayers deepened, the entire shrine began to shake continuously.

And within the shrine, where initially only the stench had been present, the colossal, shadowy phantom of a dark, fleshy mass began to appear.

The blob of flesh was disgustingly grotesque. Its surface was densely covered with blood-filled pustules of varying sizes and various fleshy lumps, interspersed with numerous wide-open, round eyeballs. A single glance at the densely packed, repulsive features made Chen Mo's skin crawl, and goosebumps erupted all over his body.

Lin Ranhai, who was beside him, couldn't bear it any longer and fled the shrine. Outside, he immediately began to retch violently!

"URGH...!!! Damn it, how can there be such a disgusting monster in this dungeon!"

Lin Ranhai felt that the monster didn't even need to attack; its appearance alone was enough to make someone vomit to death!

Chapter 174: Is this a state of 99% weakening? (1/5)_1

[The Heavenly Path's Hint: Warning! Warning! The Xiensa Evil God's clone is about to descend! The battle difficulty is extremely high! Please prepare for battle!]

As the massive, shadowy flesh ball grew increasingly distinct, the warnings from The Heavenly Path's Hint sounded more frequently.

Chen Mo had long been prepared.

Clad in his impressive Titles and equipment, having drunk the Dew Tea, and empowered by the Glory Power BUFF, Chen Mo's current attributes were as follows:

[Attribute]:

[[Life]]: 273,280/273,280

[[Life Recovery]]: 5,776/10 seconds (140% per second)

[[Energy]]: 329,650/329,650

[[Energy Recovery]]: 7,103 points/10 seconds (140% per second)

[[Physical Attack]]: 16,644

[[Magic Attack]]: 20,799

[[Physical Defense]]: 38,880

[[Magic Defense]] : 42,965

[[Critical Damage]] : 5,548%

With these attributes, the Skeleton Monsters he could summon would have: Health 158,232, Physical Attack 47,470, Magic Attack 47,470, Physical Defense 0, Magic Defense 0, and the special traits—Bomb, Revival, Corpse Poison, Invisible, Sacred, and Unity.

[Power of Glory]: All damage dealt is guaranteed to be a critical hit and is increased tenfold (only effective against the current instance's BOSS).

My current attributes are significantly stronger than even a Level 40 first-transition professional,

Chen Mo mused. I wonder just how powerful this BOSS actually is.

As Chen Mo glanced at his attributes, the final BOSS made its grand entrance.

BOOM!

With a ground-shattering rumble, the entire shrine cracked apart. Above the Priest, a colossal black, fleshy mass, a full cubic kilometer in volume, materialized, hovering in the air.

Its sheer size was enough to blot out the sky.

The instant Chen Mo saw it, he began to inspect its attributes.

[Monster Name]: Xiensa Evil God's clone

[Monster Rank]: Lower-tier Demon God

[Demon's God Talent]: Immune to most abnormal effects!

[Level]: 100

[Attribute]:

[[Life]] : 13.5 billion/13.5 billion (99% weakened)

[[Energy]] : 13.5 billion/13.5 billion (99% weakened)

[[Physical Attack]] : 140,000 (99% weakened)

[[Magic Attack]] : 140,000 (99% weakened)

[[Physical Defense]] : 60,000 (99% weakened)

[[Magic Defense]] : 60,000 (99% weakened)

[Active Skills]: Xiensa Evil God's Curse (99 styles), Xiensa Evil God's Sorcery (99 styles)

[Divinity]: Filthy Body, Septic Body, Evil Curse Body, Xiensa's Body, Thousand Demonic Eyes

[[Filthy Body-God]] : Targets attacking this unit will be afflicted with permanent, stacking Filth. Each stack of Filth reduces the target's damage dealt by 1% and increases all damage they receive by 1%! (Filth can only be removed by using the Saintess' Spring.)

[[Septic Body-God]] : When the pustules on its body burst, they splash a large amount of septic pus. Targets hit by the splash become poisoned, their bodies gradually rotting, and their life value decreases according to the degree of poisoning.

[[Evil Curse Body·God]] : Any unit attacking this target will be subject to a random abnormal effect lasting 10 seconds for each attack.

[[Xiensa's Body·God]] : Reduces all damage received, except true damage, by 90%. Additionally, it recovers 10% of its maximum life value and energy value every second.

[[Thousand Demonic Eyes·God]] : When units stared at by the demonic eyes cast Skills, their Skill Cooldowns are increased by the number of demonic eyes staring at them. Each demonic eye adds 1 second to the Cooldown.

"This is its state after being weakened by 99%?"

Both Chen Mo and Lin Ranhai, who was not far off, were utterly astounded after seeing the BOSS's attributes.

The BOSS's strength had completely surpassed their expectations.

Setting aside its divinities, its two Active Skills alone were daunting.

These two Active Skills were actually compilations, each containing a staggering 99 individual Skills.

It would take Chen Mo a good while just to read through all the Skill descriptions, so he simply couldn't be bothered.

I wonder if my 'The God of Bravery' Title could even seal ninety-nine of its Skills at once, Chen Mo thought.

He tested it instantly, but to his disappointment, he realized he'd been too optimistic.

The Xiensa Evil God's Curse and Xiensa Evil God's Sorcery were merely collective names for the enemy's two sets of Skills.

It truly possessed a total of 198 Skills!

His 'The God of Bravery' Title could, at most, seal only three of the enemy's Skills.

It was like trying to extinguish a raging fire with a single cup of water.

With so many Skills, if it spammed one Skill per second, that alone would be too much to handle,

Chen Mo considered. Not to mention it could probably unleash a whole bunch at once. I've seen some outrageous BOSSes, but never one *this* outrageous.

Chen Mo promptly tried to contact the Grand Sage. If there's no way to deal with this, I'll just have to settle the instance rewards and run.

"Senior Grand Sage," Chen Mo said to the ring, "the Xiensa Evil God's clone has appeared. How can we restrain it?"

"If I use my full strength, I can seal all its abilities for three minutes," the Grand Sage communicated to Chen Mo via their spiritual connection. "You must do everything in your power to kill it within those three minutes. Even if you can't kill it, you must drastically reduce its Life. Otherwise, eliminating it will be incredibly difficult!"

"Abilities" referred to all Active Skills, Passive Skills, characteristics, and so on.

If the Grand Sage truly can completely seal its abilities for three minutes, then dealing with it will be much simpler, Chen Mo thought.

However, the Grand Sage added, "But I cannot seal its Demon's God Talent or its divinities. You'll have to handle those yourself."

"The divinities aren't a major issue; I have ways to deal with them," Chen Mo replied. "Its 198 Skills are the main problem. They're terrifying! As long as you can seal those, defeating it shouldn't be too difficult!"

"Alright, then this old man will make the first move!"

As the Grand Sage's voice faded, his True Spirit emerged from the Sage's Ring. It shot directly towards the Xiensa Evil God's clone, which had just arrived and hadn't yet uttered a word.

The moment the Grand Sage's True Spirit flew out, Chen Mo immediately waved his Magic Wand. He summoned a large host of Skeleton Monsters, bestowing upon them the Unwinding Worship BUFF and the group amplification effect from the Amplification God Ring.

At the same time, the effects of both his 'The God of Bravery' Title and 'Godslayer Challenger' Title activated.

Chen Mo left only the enemy's 'Evil Curse Body' divinity unsealed; the other four divinities were completely suppressed.

Since Chen Mo possessed the Honor Brave Challenger Suit, he wasn't afraid of the monster's abnormal effects.

"The Grand Sage!? You actually dared to leave Sage's Village? Hahaha, you're courting death!"

Upon seeing the Grand Sage, the Xiensa Evil God's clone showed no fear; instead, it grew excited.

It knew that while the Grand Sage was formidable within Sage's Village, his combat power would drastically diminish outside it.

This was a perfect opportunity to kill him and absorb his True Spirit!

Its power had been weakened due to the shift in human emotions on the continent, so the Xiensa Evil God's clone had been searching everywhere for sources of Energy.

The Priest from Qiluo Town was a target due to his unique Constitution, but the Grand Sage from Sage's Village was an even greater prize.

The Grand Sage's True Spirit contains an immense amount of Energy! it realized. If I can absorb it, I'll be able to recover my lost power quickly!

Chapter 175: Can't Hold On for 3 Minutes! (2/5)_1

Just as the Xiensa Evil God was exulting, it discovered that the Grand Sage had initiated an ancient soul-sacrificing ritual!

As pure energy from the rivers surrounding the town surged madly into the Grand Sage's body, five layers of an Array suddenly erupted around him!

"Damned creature, this is a sealing Array that sacrifices the True Spirit!!!"

Seeing the Grand Sage's technique, the Xiensa Evil God's black, hill-sized, fleshy body immediately began to tremble violently.

It instantly unleashed a barrage of curses and sorcery at the Grand Sage, hoping to kill him before the sealing technique could be completed.

Unfortunately, it was too late. The Grand Sage's sealing Array activated with extreme speed!

As the Grand Sage's True Spirit blazed with light, a terrifying binding force descended from the Heavenly Dao, enveloping the Xiensa Evil God.

This powerful sealing technique was manifested because the Grand Sage had sacrificed his own True Spirit to the heavens and earth!

In the final moment of his soul's sacrifice, he didn't forget to remind Chen Mo to attack quickly.

At this moment, Chen Mo also received a hint from the Heavenly Path.

[The Heavenly Path's Hint: The Grand Sage has sacrificed himself to use a sealing technique, completely sealing the abilities of the Xiensa Evil God's clone! Seal countdown: 2:59. Please attack immediately!]

Chen Mo didn't even spare a glance at The Heavenly Path's Hint. The instant he saw the Grand Sage successfully activate the sealing technique, he immediately ordered his Skeleton Monsters to attack the Xiensa Evil God.

Lin Ranhai, watching from behind, didn't even dare to get close.

It wasn't just a question of the Evil God's strength; the mere sight of its body, densely packed with eyes, pustules, and fleshy tumors, made Lin Ranhai want to vomit, let alone get close enough to strike it with his sword.

The BOSS hadn't even begun to inflict Physical Damage, yet it had already mentally crushed him.

Chen Mo also found the monster incredibly disgusting, but thankfully, he was a ranged class and relied mainly on his Skeleton Monsters for damage, so he could grit his teeth and endure the discomfort.

As 3,400 Skeleton Monsters launched their ranged attacks in unison, WHOOSH! WHOOSH! WHOOSH! A barrage of projectiles, like a vast curtain, flew towards the small mountain that was the Xiensa Evil God's clone, crashing into its enormous body.

The first wave of attacks, with Chen Mo's Energy Bullet arriving first, saw the Skeleton Monsters deal extremely high damage!

With the dual enhancements from Unwinding Worship and the Amplification Divine Ring, each Skeleton Monster's attack power now exceeded one hundred thousand.

This attack power landed on the Xiensa Evil God's clone, which only had sixty thousand defensive power, resulting in eighty to ninety thousand damage per hit.

After Chen Mo's Energy Bullet struck, the Skeleton Mage talent activated, doubling the damage dealt by the Skeleton Monsters.

One volley from the 3,400 Skeleton Monsters, including some critical hits, instantly wiped out over six hundred million of the Xiensa Evil God's Health.

Unfortunately, thanks to its Demon God's Talent, it was immune to most abnormal conditions, so the Corpse Poison had no effect.

Immunity to most abnormal effects... that's a fairly common trait, Chen Mo recalled. He'd learned about it in his general knowledge classes back in high school. Typically, it means the target is only susceptible to a very narrow range of status effects, a range that's even officially categorized. Attribute debuffs, effects that increase damage taken, and effects that reduce damage dealt—those still work. But other things like silence, blindness, stun, disarm, poison, burn, freeze, or healing reversal? It's completely immune to all of them. This trait usually shows up on really tough and powerful BOSSES.

At this time, although the abnormal status effects from Chen Mo's Skeleton Monsters couldn't be applied, their raw attack damage was more than the Xiensa Evil God could handle.

Dealing over six hundred million damage per second, the Xiensa Evil God's clone, weakened by 99% and left with only 13.7 billion Health, had no chance of surviving for three minutes!

Seeing itself, a mighty Evil God, being assaulted by a swarm of puny Skeleton Monsters, the Xiensa Evil God, though its abilities were sealed, could still use Normal Attacks. And its Normal Attacks were far from ordinary; it could sprout a multitude of tentacles from its back to lash out at the Skeleton Monsters.

While others could only attack once per Normal Attack, it could strike many times simultaneously.

However, Chen Mo soon discovered that although it had many tentacles, not every tentacle delivered its full attack power. Judging by the reduction in the shields of the front-line Skeleton Monsters, the combined attack of hundreds of its tentacles was actually only one percent of its regular attack power.

Chen Mo also noticed that some of the thicker tentacles dealt significantly more damage.

This showed that while its numerous tentacles suggested high attack efficiency, it actually achieved its high attack frequency by dispersing its attack power.

The Xiensa Evil God chose this tactic because it was far from stupid.

It knew that Skeleton Monsters, those trashy undead, had very weak defensive power. Even if it divided its attack power among hundreds of tentacles, each tentacle's hit would still inflict full damage on these fragile Skeleton Monsters.

Its original plan was to use the sheer number of tentacles to increase its attack frequency and quickly sweep away the several hundred annoying Skeleton Monsters in the front line.

To its surprise, however, the shields on the 900 front-line Skeleton Monsters were unbelievably thick!

Its mass of tentacles thrashed wildly, yet the shields barely seemed to diminish.

Chen Mo had poured all his available energy value into casting these shields.

He possessed the Sage's Ring, granting 100% energy recovery per second. Additionally, his Pioneer talent—upgraded to level 4 after completing the five-star SSS-level hidden mission, the Brave Challenger's Trials—provided another 40% energy recovery per second. Thus, his total energy recovery rate reached 140% per second!

His 140% energy recovery per second was substantial. After deducting the 30% per second consumed by The God of Bravery title to maintain the seals on the Evil God, he still had a net recovery of 110% of his maximum energy each second. This meant that even if his energy was completely depleted, he could instantly refill it and sustain the three Sealing Effects on the Xiensa Evil God!

With Chen Mo's current energy value of over three hundred thousand, the 900 shields he cast each had a thickness equivalent to over 24 million.

If the Xiensa Evil God focused its 160,000 attack power on a single Skeleton Monster, it would need at least 150 hits to break one shield.

Now that it had dispersed its attack power across all 900 Skeleton Monsters simultaneously, it naturally couldn't make a dent.

At this moment, the Xiensa Evil God was filled with immense hatred! If my Xiensa Evil God's Sorcery and Xiensa Evil God's Curse weren't sealed, I wouldn't even need to glance at these 900 pathetic weaklings!

Not only did its attacks accomplish nothing, but they also frantically triggered the Lightning Chain Retaliation from the Skeleton Monsters' shields, needlessly inflicting a great deal of extra damage upon itself.

After all, Chen Mo's current damage output was not to be underestimated. His array of targeted titles, combined with the Glory Power BUFF, made his attacks extremely potent against the Xiensa Evil God!

Chapter 176: Billion Dollar Assets! (Three in one, 5/5)_1

As a monster, the effect of Chen Mo's The God of Bravery title alone converted all damage he inflicted on the Xiensa Evil God into true damage, while also increasing it by 100%.

Furthermore, as a Demon God, the Xiensa Evil God was also subject to Chen Mo's Godslayer Challenger Title Effect. This also resulted in true damage, and his Tier 2 Godslayer Challenger title allowed him to inflict 200% increased damage on god-grade units.

On top of that, Chen Mo currently had the Glory Power BUFF, which guaranteed all his damage would be critical hits and increased it tenfold!

Under these triple enhancements, Chen Mo's personal damage output against the Xiensa Evil God was also incredibly explosive!

With Chen Mo's current Magic Attack of 20,799, a single attack could deal nearly 35 million points of critical true damage!

The Xiensa Evil God's hundreds of tentacles relentlessly attacked the 900 Skeleton Monsters, each hit provoking hundreds of Lightning Chain Retaliations.

Hundreds of Lightning Chain Retaliations, each dealing 35 million damage, led to a total damage output of three to four billion!

Chen Mo didn't even need to rely on his Skeleton Monsters for damage output; his own explosive damage was almost enough to kill the Xiensa Evil God directly through reflection.

Fortunately, the Xiensa Evil God was smart. After a CRACKLING electrocution caused his Health to plummet, he immediately halted his attacks out of fear.

Lin Ranhai stared as the BOSS's tens of billions of Health, after a CRACKLING barrage from the Lightning Chain, plummeted to a mere sliver. His eyeballs almost popped out of their sockets.

You call yourself a Summoner, and your summons are powerful, sure. But how are you also doing a Mage's job? Isn't Lightning Chain a skill for Thunder Mages? What's even more outrageous is that this damage is simply heaven-defying! In the blink of an eye, the BOSS was nearly electrocuted to death! Even a conventional Thunder Mage wouldn't dare claim such combat power!

Lin Ranhai couldn't help but wonder what kind of monster he had accidentally teamed up with for this dungeon!

As the saying goes, 'Good fortune follows a narrow escape from death.' I haven't even faced a great disaster yet, and I've already struck such good fortune. Originally, whether he entered the dungeon alone or with other first-transition professionals, they would have faced certain death against an invading force of a hundred. He never imagined that the person he'd randomly encountered would possess the combat power to turn the tables so dramatically!

While Lin Ranhai was still in shock, the Xiensa Evil God had already ceased his attacks.

But even though he had reacted, he had already lost 12 billion of his own Health by then.

A few more rounds of attacks from Chen Mo's Skeleton Monsters would be enough to finish him off.

Forget three minutes; not even one minute had passed.

If he hadn't attacked, he might have lasted about two minutes.

But now, he had courted death by attacking Chen Mo's shielded Skeleton Monsters. He had even split off hundreds of tentacles to attack simultaneously.

Wasn't that just asking for a quicker death? This chaotic assault had directly electrocuted him until he was charred inside and out.

Now that he had stopped, it was merely a slow death.

In less than three breaths, his Health was completely depleted by the Skeleton Monsters.

It didn't even have a chance to mutate before it exploded and died on the spot.

Fortunately, everything from its explosion vaporized into black ash. Otherwise, if its disgusting body fragments had splattered across the entire town, Qiluo Town would have become uninhabitable.

[The Heavenly Path's Hint: Congratulations on successfully killing the Xiensa Evil God's Clone. You have received 10,000 Dungeon Reward Points.]

[The Heavenly Path's Hint: Congratulations on successfully killing the Xiensa Evil God's Clone. As this is a Stars Dungeon, all professionals in your Star System will also receive 10,000 Dungeon Reward Points.]

[The Heavenly Path's Hint: Congratulations on killing the Xiensa Evil God's Clone and successfully saving this world!]

[The Heavenly Path's Hint: The difficulty for this dungeon mission was SSS-level. Calculating mission completion rating...!]

[The Heavenly Path's Hint: Mission completion rating: Perfect! You will be issued an SSS-level reward!]

[The Heavenly Path's Hint: Only one SSS-level reward can be obtained by the entire team. It will be issued to the member with the highest mission contribution. Other members will receive SS Level rewards. Calculating contribution...]

[The Heavenly Path's Hint: Professional Zhao Min: Contribution 100%. Professional Lin Ranhai: Contribution 0%. The SSS-level reward will be issued to Professional Zhao Min! The recipient may choose to distribute it further.]

[The Heavenly Path's Hint: Congratulations! You have received an SSS-level Gift Pack!]

[The Heavenly Path's Hint: This is a Level 40 first-transition Stars Dungeon. According to the reward rules, each reward point can be converted into 80 experience points. Detected: Your Level is less than 50% of the dungeon Level; experience points gained increased by 50%. Detected: You have not undergone a class advancement; experience points gained increased by an additional 50%.

Based on your 24,000 reward points, you have ultimately received 3,840,000 experience points!]

[The Heavenly Path's Hint: You have killed a total of 120 alien professionals in this instance. Your total experience points gained will be increased by an additional 120%!]

[The Heavenly Path's Hint: You have ultimately received 8,448,000 experience points!]

[The Heavenly Path's Hint: Your Level has increased! Current Level: 15!]

[Experience]: 8,247,338 / 149,600 (Third-Tier Bottleneck)

[The Heavenly Path's Hint: Your Level has reached 15, hitting the Third-Tier Bottleneck. You can choose to undertake the Breakthrough Trial!]

[The Heavenly Path's Hint: The Breakthrough Trial can only be attempted once, regardless of success or failure. If you choose to attempt it, please ensure you are in optimal condition.]

Chapter 177: Billion Dollar Assets! (Three in one, 5/5)_2

[The Heavenly Path's Hint: If you do not wish to undergo the Realm Breakthrough Assessment, please choose to break through on your own. At this stage, all you have to do is wait for seven days. You can then break through and surpass the level limit on your own. However, during this time, you will be unable to gain and accumulate experience points.]

[The Heavenly Path's Hint: Since you successfully eliminated all alien professionals this time, you've earned an extra "All Stars Gift Pack"!]

[The Heavenly Path's Hint: The dungeon is about to end, countdown 3, 2, 1...]

With the series of The Heavenly Path's Hints, Lin Ranhai was completely flabbergasted.

He never expected that not only would their dungeon venture go smoothly, but it would also yield such massive rewards.

Not only did he directly get two SS level rewards, but he also gained over eight million experience points.

Now, he could level up directly to Level 25, and he even had enough experience points necessary for challenging the Level 25 Realm Breakthrough Assessment.

Of course, by 'enough' he meant for a low-difficulty Realm Breakthrough Assessment.

Not everyone can challenge the SSS-level Realm Breakthrough Assessment like Chen Mo.

If you want to challenge the SSS-level Realm Breakthrough Assessment at Level 25, you need to have accumulated at least over nine million experience points.

As for Chen Mo at Level 15, much less is needed. With just under one and a half million experience points, he could challenge the SSS-level Realm Breakthrough Assessment.

However, that amount of experience is still very difficult for a normal Level 15 professional to accumulate.

Now, Chen Mo no longer needed to worry about this small amount of experience points.

As the dungeon countdown ended, there was a flash of light before their eyes, and both Chen Mo and Lin Ranhai had left the Dungeon Space, returning to Lin Ranhai's room.

"It was great working with you. I hope to see you again next time," Chen Mo said with a smile before directly flying out of Lin Ranhai's window.

After all, if he had walked out the front door, he risked being held up for a chat by Lin Ranhai's mother again.

Seeing this, Lin Ranhai didn't say anything and just watched Chen Mo leave.

Everything that had happened today felt like a surreal dream to him. After the excitement of his gains subsided, his heart was still filled with disbelief.

...

After leaving Lin Ranhai's house, Chen Mo flew straight back to the Myriad Heaven Auction House.

I wonder how much my two treasures sold for.

Chen Mo estimated that they could have sold for around 2.5 billion, but after the handling fees were deducted, he didn't know how much was left.

Because the dungeon had kept him occupied for more than a day, it was already the second day.

After pulling out his membership card for a look, Chen Mo found that the number on it had changed.

It was evident that the payment had already been made.

It was just that when he was in the dungeon, the information hadn't synchronized yet.

When he returned, the information was immediately updated.

This so-called membership card was more like a special card computer. Chen Mo could directly use the card to check his balance.

The technology for such a high-end card wasn't actually conceived by humans on Earth but was mastered in certain technology dungeons.

Chen Mo checked and found that after deducting transaction fees, service fees, and other charges, he still had 2.5 billion from the sale of the Resurrection Cross and the Gender Transformation Spiritual Fruit. This was even more than he had initially estimated.

After all, auction houses charge hefty fees, and it was entirely possible for them to deduct more than ten percent of the 2.5 billion.

Considering this much was left after deductions, it was a good income.

Of course, this money was still inside the membership card at the moment, and Chen Mo had to go to the counter to withdraw it.

Soon, he flew to the Myriad Heaven Auction House.

There was an endless stream of people here almost every day.

Chen Mo entered the auction house, but he didn't go directly to withdraw his money. Instead, he looked for the Auctioneer from yesterday.

Since people who sell Resurrection Crosses like Chen Mo are rare, the Auctioneer had a deep impression of him.

After she finished serving one customer, she warmly addressed Chen Mo, "Miss Zhao, you're back. What would you like appraised this time?"

"I have a lot of miscellaneous items over here. I hope you guys can take a look."

After speaking, Chen Mo took out numerous bags from his inventory and emptied all their contents.

Looking at the hundreds of pieces of equipment, items, and various materials lying on the ground, the three Appraisers in the room marveled.

Generally, people selling goods like this came straight from the Stars Dungeon.

But the people at Myriad Heaven Auction House didn't ask about the origin of the goods. All they were interested in was the price, so naturally, they didn't say much more.

The three were quite experienced Appraisers. After quickly categorizing the items on the ground, they divided the work and began their assessments in an orderly fashion.

It took nearly an hour for the three of them to complete their inventory.

"Miss Zhao, we have calculated the total value of all the items here. According to the purchase price, we can offer you a rounded total of 6 billion. How does that sound?"

"That works."

Chen Mo didn't even bother to haggle. There were too many items, and he didn't know the value of each one. He didn't have the time or the mood to check each one and negotiate the price individually.

Being able to sell everything in one go for a decent price was already a good thing.

Only by converting the gains into money could he keep the cycle going.

Soon, Chen Mo's membership card had another deposit of 6 billion.

At this point, Chen Mo's membership level wasn't far from achieving gold-grade membership.

His membership card alone showed assets of 8.5 billion, and Chen Mo personally still had over 1 billion.

Combined, Chen Mo's current wealth was close to 10 billion.

For the strong, Chen Mo's assets were not much. However, for someone who had not even undergone a first-transition, such wealth was considered quite affluent.

Chapter 178: Billion Dollar Assets! (Three in one, 5/5)_3

Right, a day has passed. I wonder if the items I want have been restocked.

Chen Mo put away his membership card and looked toward the receptionist.

"Miss Zhao, many new items were added yesterday. Please, have a look."

Seeing that Chen Mo was ready to spend again, the receptionist immediately and enthusiastically came forward to assist him.

Their auction house wouldn't charge a commission for receiving items, but they could easily earn one from transactions between customers.

Chen Mo took the tablet and scrolled through it. Although many new items had been added in just one day, he didn't see what he needed.

It seems that getting Legendary Level materials isn't easy.

Chen Mo sighed in disappointment. Perhaps Myriad Heaven in their town isn't high-end enough.

Maybe I should go to the high-level merchant association in the city.

He still hadn't checked on his grandfather's condition after the qualifying exam. Chen Mo decided to visit his grandfather and, while he was at it, check out the large merchant guild in Fengze City Center.

Perhaps they'll have what I'm looking for up for auction. It's worth a shot.

Before leaving the auction house, Chen Mo exchanged all the money on his membership card for eternal gold coins at the front desk and deposited them into the Heavenly Path System.

Actually, he didn't need to go through so much trouble.

If he had used his real identity to link to a Heavenly Path System account, he could have transferred the revenue remotely from a thousand miles away.

But Chen Mo didn't want to link his two identities, so he chose this slightly more troublesome method.

After leaving the auction house, Chen Mo wandered around town as usual. He then found a quiet place to revert to his original appearance before returning home.

Chen Mo planned to see if Sister Yiyi needed him to bring anything.

He called her directly.

"Hello, Mo, have you finished your qualifying exam yet?"

As soon as the call connected, Liu Yiyi's gentle voice came through.

"Yeah, I finished, and I even got very high bonus points. I'm at home now, preparing to head over to your place. Do you need me to bring you anything?"

"Not really, I've bought new clothes here. You can just come by yourself. But the college entrance exam is soon after the qualifying exam, right? You won't be delayed, will you?"

"No, don't you remember I can fly? Flying is very fast."

"Okay then."

After hanging up, Chen Mo flew directly out of his bedroom window and headed towards Yinchuan County in Fengze City.

Flying at full speed, he quickly arrived at the hospital.

It had been over ten days, and relatives had been visiting his grandfather for the past couple of days. As Chen Mo reached the corridor, he saw a few familiar faces.

These few were from his second granduncle's branch of the family.

Chen Mo's grandfather, Liu Yuanzong, had three brothers, making him the third of four.

Although the family was large, their luck didn't seem very good. Among the four brothers, surprisingly, only the youngest had awakened a combat profession; the other three all had lifestyle professions.

And the next generation hadn't improved much either.

Liu Yiyi had a lifestyle profession. So did the sons of the eldest brother, Liu Yuankui, and the second brother, Liu Yuansheng. Even the daughter of the youngest brother, Liu Yuanxi, had a lifestyle profession.

It was quite a grim situation.

However, the generation after that seemed to experience a sudden turn of fortune.

Liu Yiyi had remained single and adopted Chen Mo, who had a combat profession.

And Liu Yuankui's grandson, Liu Yuansheng's granddaughter, and Liu Yuanxi's grandson now all possess combat professions.

Moreover, their combat professions weren't bad: two three-stars and one two-star.

Including Chen Mo, that made two two-stars and two three-stars.

Only then did this family begin to harbor some hope.

Otherwise, just like before, the entire family would have had no one to rely on for income.

Aside from Liu Yuanxi, who could earn a decent income to support his grandson's development, the other two branches of the family were like Liu Yuanzong's: the money they had was barely enough to support themselves, let alone nurture the next generation.

Just then, Chen Mo encountered Liu Yunfei—the son of his second granduncle, Liu Yuansheng—and Liu Yunfei's own son, Liu Yiming. They were a father-son pair.

"Mo, what are you doing here? Weren't you supposed to be taking the qualifying exam?"

Liu Yunfei greeted Chen Mo enthusiastically upon seeing him.

His own son isn't very capable; he didn't even get a spot for the qualifying exam. This adopted kid, on the other hand, is promising.

"Hello, Uncle. I've finished the exam and came to visit Grandpa." Chen Mo said with a smile.

Although Liu Yunfei was the son of Chen Mo's second granduncle, he was the eldest among his cousins in that generation. Liu Yuanxi's daughter was the second eldest, Liu Yuankui's son was third, and Liu Yiyi was the youngest.

"Really? Quick, tell your uncle, how did your exam go?" Liu Yunfei said, smiling, as he put his arm around Chen Mo's shoulder, walking with him toward the hospital room.

"Not bad. I got 500 bonus points."

Chen Mo spoke casually, but both Liu Yunfei and Liu Yiming were stunned.

"Five hundred?!" Liu Yiming exclaimed in disbelief. "That has to be the maximum bonus points, right?"

Liu Yunfei also asked in awe, "You can only get five hundred bonus points if you rank near the top in a five-star difficulty survival instance, right? How long did you survive?"

"30 days."

"What?!"

This time, Liu Yunfei and Liu Yiming were completely petrified.

Thirty days? They wondered if there was something wrong with their ears.

Their exclamations startled the people in the hospital room, and someone immediately opened the door and came out.

Chapter 179: Billion Dollar Assets! (Three in one, 5/5)_4

Grandma peeked outside and said, "Mo is here. Come in quickly. And you two, what are you shouting about in the hallway? Come in as well."

Grandma had no idea what had just happened and was very calm.

But Liu Yunfei and Liu Yiming were not at all calm.

"Auntie, you don't know! Mo scored 500 points on the comprehensive assessment, that's a 500-point bonus!" Liu Yunfei exclaimed excitedly.

At this time, Liu Yiyi and a few other relatives in the ward heard the commotion outside and came over.

When they approached, the first thing they heard was that Chen Mo had scored 500 points on the comprehensive assessment.

Everyone was incredibly shocked.

"Five hundred points? How is that possible? That's the maximum bonus you can get from the comprehensive assessment! You can only get it by challenging a five-star difficulty dungeon, and you have to rank among the best. Even that isn't enough; you also have to get enough Special BOSS kills to possibly earn it."

"That's right. Even in previous years, a 500-point bonus wasn't common. Mo is just a two-star professional; how did he manage to do it?"

No one thought Chen Mo was lying. After all, this could easily be verified, and lying would be pointless. They were just finding it hard to believe.

Soon enough, someone quickly found the relevant announcement.

"It's true! Look, Mo's name is right up there with a five-star professional named Yan Yingyue. They both got a 500-point bonus."

Chen Mo smiled and said, "I only got the 500-point bonus with the help of this five-star professional classmate."

Chen Mo wasn't lying. In the later stages of the dungeon, he could barely handle the mobs, and Yan Yingyue had to use her parasitic ability to greatly increase his combat power.

Of course, if it hadn't been for Yan Yingyue, Chen Mo could have improved his combat power by upgrading his Skill Levels.

But that would have been too expensive.

When they heard that Chen Mo was able to obtain the 500-point bonus thanks to a five-star professional, everyone immediately urged Chen Mo to maintain a good relationship with this classmate.

After all, it wasn't easy to befriend a five-star professional.

They couldn't even manage to connect with one if they tried.

Since the other party was willing to help Chen Mo, a two-star professional, get the maximum bonus points, it clearly meant they had some rapport.

Naturally, they wanted to seize this opportunity to encourage him to solidify the connection.

After listening, Liu Yiyi also said, "Let's arrange a time for me to meet this classmate so I can thank her properly. She really did us a huge favor."

As soon as her words fell, someone immediately teased, "Judging by the name, it seems she's a girl. Our Mo here is quite handsome; if he works hard, he might just have a chance with her."

"Haha, Mo, you'll have to give it your all! If you manage to marry a five-star initial profession wife, we'd all feel like we were basking in your glory."

"That's not it at all. We're just ordinary friends, so please don't spread rumors."

Feeling somewhat embarrassed by the elders' teasing, Chen Mo quickly changed the subject. "Let's stop talking about me. How is Grandfather now?"

"He's fine, doing very well. To be honest, we relatives haven't been very helpful; we don't have much money to contribute. I heard you paid all his medical fees. Your grandpa can rest peacefully now thanks to you. Mo, you're a capable and good child. Now that your grandpa is out of danger, we can still help with daily living expenses. If you have any spare money, you should prioritize improving your own strength.

You managed to get a 500-point bonus, so you can't let that go to waste. Strive to get into a good school."

At this moment, Liu Yuansheng, the second eldest among them, stepped forward and looked at Chen Mo with gratitude.

When it came to money, they really couldn't help much.

The treatment cost this time had reached tens of millions; it was simply too much!

If it weren't for Chen Mo, even if Liu Yiyi's family had approached them for a loan, they likely wouldn't have been able to raise much.

After all, each family's children were in crucial stages of growth, and everyone had already invested their money into increasing their combat power.

When they suddenly received news of Chen Mo's grandfather's serious illness, they had no money to offer.

That Chen Mo, as Liu Yiyi's adopted son, was willing to forgo a Large Amount of funds meant for improving his own combat power to save a grandfather with no blood ties—a grandfather who, to put it bluntly, would be of little use even if he lived—made Liu Yuansheng, a blood relative who couldn't offer aid, feel incredibly ashamed.

Chapter 180: Sacred Spirit Medicine! (1/5)_1

"Second Grand-uncle, you shouldn't say such things. When Grandfather had his accident, since I had the ability to help, it was only natural that I did. It's my duty, after all. Besides, you can see I didn't even miss my exam; didn't I earn an extra five hundred points?"

"Well put, well put." Liu Yuansheng patted Chen Mo's shoulder with a satisfied expression, then glanced at Liu Yiyi beside him and said, "Yiyi, you've raised a good boy."

While they were talking, a nurse from the hospital walked over.

"Everyone, a four-star Pharmacist has visited our hospital today. He has produced the "Myriad Spirits Medicine" that can instantly cure all diseases. If you buy this medicine, it can directly cure your loved one.

"Of course, even if you don't use it now, keeping it for future use would be prudent. There are only three bottles in total, and even the medicine's prescription will be sold at the end. The auction will be held in the hospital's central garden soon. Would you all like to take a look?"

"With such effectiveness, it must be very expensive." Grandma shook her head as soon as she heard this. After all, Grandfather's current medical expenses already amounted to tens of millions, and it was still a long-term treatment plan. This so-called Ten-Thousand Spirit Medicine could supposedly cure all diseases instantaneously; the price of such a potent medicine was truly unimaginable. It wouldn't be surprising if a single bottle cost over a billion.

"Ten-Thousand Spirit Medicine? There's such a thing?" Chen Mo felt like he had never heard of it before.

"This medicine is very expensive, not something ordinary people can afford. Moreover, most diseases can be treated in regular hospitals, so there's no need for such precious potions. That's why hardly anyone mentions this medicine." The nurse wasn't surprised that Chen Mo was clueless about this.

If I could get my hands on the prescription for this medicine, wouldn't I be rich? Chen Mo thought, his interest suddenly piqued.

He had originally intended to give the items he obtained from the dungeon to Sister Yiyi and Grandma. However, seeing so many relatives present, taking them out now would seem a bit like showing off, which wasn't appropriate. So, he didn't bring it up for the time being.

After telling everyone he was going to check out the auction, he left on his own.

However, Liu Yiming soon caught up to him.

"Brother Mo, wait for me! I want to see the excitement too," Liu Yiming said with a laugh.

Although Liu Yiming called Chen Mo 'brother', there was only a few months' age difference between them. It was mainly because the children from their families got along very well.

"Sure." Chen Mo finished speaking and turned to Liu Yiming with a smile. "Right, I forgot to ask, how did your profession awakening go?"

"Not bad, a three-star Thunder Mage."

"That profession is indeed good. I heard that in the later stages, you can learn Instant Lightning, which offers first-class survivability."

"Speaking of which, Brother Mo, it's a bit of a pity for you. Considering your previous training level, I was sure you'd awaken as a three-star or higher."

"Two-star isn't bad either," Chen Mo replied with a smile. "Half the people in our year have lifestyle professions, and the other half have one-star professions. I'm in the top quarter."

"You're right. I heard the Skeleton Mage is quite strong in the later stages. The only problem is that it's difficult to upgrade. Its summons are strong, but it's hard to ensure your own survival rate. If attribute points are skewed towards enhancing personal survival, the summons will be weaker. It requires excellent equipment to achieve strong combat power."

"We'll cross that bridge when we come to it. As long as we're alive, whether it's powerful equipment or a powerful Skill, we might get it with good luck."

"If Grandfather hadn't had this accident, you could have used those tens of millions to equip yourself and become much stronger."

"It's alright. This time, with the help of friends, I survived for 30 days, and the alliance awarded me a total of 11 Gold Coins. I have quite a bit of money now."

As Chen Mo said this, Liu Yiming remembered. "I almost forgot about that! I did hear before that as long as you survive for over twenty days in the five-star entrance exam dungeon, you get one Gold Coin as a reward. If you reach thirty days, you get ten Gold Coins! Wow, Brother Mo, doesn't that make you a billionaire now?"

"Actually, it's not that much. It's time we moved to a new house. With this amount of money, it's not easy to buy a house in a good location."

"A billion is enough to buy a house in a fairly good area, but if you want to buy one near the Academy Alliance, that's still a long way off."

"Naturally, I want to buy one near the Academy Alliance. That way, if Sister Yiyi is at home in the future, I'll feel more at ease. So far, I haven't heard of anyone daring to cause trouble near the Academy Alliance."

Once Chen Mo finished speaking, he thought of the assassination within the Academy Alliance. Except Aliens, he silently added in his heart.

However, Aliens usually only targeted those they had set their sights on. They wouldn't bother exposing themselves to kill someone with a lifestyle profession; it was entirely not worth the risk.

While the two were chatting, they arrived at the hospital's central garden.

A large crowd had already gathered there. It was hard to tell how many were actual bidders.

"Everyone wishing to participate in the auction, please come over here to receive a bidding paddle!"

"Those with bidding paddles can sit in the bidding seats in front of the stage to bid. Other friends can stand nearby and watch."

Several nurses stood before a platform, shouting through megaphones.

Chen Mo saw a middle-aged man sitting on a stage erected in the center of the garden, drinking tea.

Chen Mo activated his Forerunner ability and instantly perceived his information.

So this is the four-star Pharmacist! Good heavens, he knows so many potion formulas!

After sensing for a moment, Chen Mo found that this four-star Pharmacist had learned at least several hundred formulas. Among them, Chen Mo also found information related to the Ten-Thousand Spirit Medicine.

****The Myriad Spirits Medicine's Prescription:**** Upon learning, enables the creation of Ten-Thousand Spirit Medicine. Only Pharmacists of four-star or higher can craft it. Permanently limits each person to crafting a maximum of ten bottles!

So it's a formula with a permanent production limit! No wonder he's willing to sell it. He's probably already used up his crafting attempts, making the formula useless to him now.

There were hardly any Pharmacists above four-star in this world. Even if someone bought this formula of his for a hefty price, they'd need an exclusive four-star Pharmacist first.

But while others might not be able to use this formula if they bought it, Chen Mo was different. He could obtain the Ten-Thousand Spirit Medicine without refining it!

This was because his Infinite Fusion Master profession had a second effect: with the corresponding prescription, he could directly synthesize the item!

This second ability wasn't restricted by any binding. Otherwise, this lifestyle profession would be unviable for making a living.

Chen Mo was still very interested in this prescription. As long as he learned it, if his family members fell ill in the future, he wouldn't have to fear any disease.

Chen Mo immediately went up to a nurse and got a bidding paddle.
