

## Global CM 64

Chapter 64: The Sucker is Here Again!(3/5) \_1

Just as Chen Mo was preparing to synthesize another Equipment Upgrade Stone, a notification suddenly chimed in his Heavenly Path System.

[Heavenly Account 5566XX...: Do you have any shiny eternal silver coins?]

Hmm? Another one! Chen Mo's eyes immediately lit up. A big spender has arrived!

[Heavenly Account 7777XX...: How many do you need?]

[Heavenly Account 5566XX...: Just one will do. That damned old man only told me he needed another shiny eternal silver coin \*after\* he took my money! I reckon the drop rate for this thing is even more ridiculous than for shiny eternal copper coins, and I really don't want to go grind for it again. If you have one, I'll buy it directly.]

[Heavenly Account 7777XX...: What's your price?]

Chen Mo swallowed. This was a major customer. If he could strike it rich with this deal...

[Heavenly Account 5566XX...: You name the price. As long as it's not too outrageous, I don't mind.]

Hearing this, Chen Mo genuinely fell silent.

This synthesis only costs three million. Now that the buyer is letting me set the price, I don't know what to ask. I can't possibly ask for one hundred million, can I? That would be a bit crazy.

The bigger problem now, however, is my lack of funds. My current two hundred-odd eternal copper coins are just enough to be exchanged for two eternal silver coins, far from enough for the synthesis.

He then replied to the message.

[Heavenly Account 7777XX...: If I use a special method to draw it with a 100% success rate, I would need at least 50 eternal silver coins. If you can pay first, I'll get it for you right away.]

[The Heavenly Path's Hint: Heavenly Account 5566XX... has transferred 1 eternal gold coin to you. Please check your account.]

What the—!

Chen Mo was shocked. The person on the other side was certainly decisive and a man of few words.

He had asked for fifty million, but the other party had directly tossed over one hundred million.

He hadn't even produced the item yet, and the other party had tossed out one hundred million just like that. A character of at least fourth-transition tier was truly awe-inspiring!

[Heavenly Account 5566XX...: This should be enough, right?]

[Heavenly Account 7777XX...: Wait a moment.]

Chen Mo immediately used the Heavenly Path System to exchange 1 Gold Coin for 100 eternal silver coins and then started the synthesis.

A shiny eternal silver coin quickly formed.

This was, quite literally, getting something for nothing—a windfall of a full 97,000,000!

Chen Mo didn't use the listing function this time but directly mailed the item via the Heavenly Path System. Even though the postage cost one eternal silver coin, he didn't feel the slightest bit of regret.

At this time, Chen Mo still had a profit of 96,000,000. Adding the eternal copper coins he originally had on hand, he now possessed a substantial 98,850,000 in funds.

With money in hand, Chen Mo immediately used the Token Function, spending 4,914,000 to create two more rare Equipment Upgrade Stones.

With a net worth in the tens of millions, spending a few million doesn't hurt at all.

At this time, Chen Mo still had more than nine thousand three hundred eternal copper coins.

After creating the Equipment Upgrade Stones, Chen Mo immediately began upgrading his equipment.

[The Heavenly Path's Hint: You successfully used an upgrade stone on the equipment "Harvest Suit-Platinum-grade". The equipment's level has increased to 5!]

[...Successfully used an upgrade stone. The equipment's level has increased to 10!]

[The Heavenly Path's Hint: You successfully used an upgrade stone on the equipment "Thousand-mile Scepter-Platinum-grade". The equipment's level has increased to 5!]

[...Successfully used an upgrade stone. The equipment's level has increased to 10!]

With four rare Equipment Upgrade Stones used, the two Level 1 pieces of equipment instantly transformed into Level 10 equipment.

The attributes of these two pieces of equipment had also undergone a massive change.

[Harvest Suit·Platinum-grade]

[Career Requirement]: Combat profession

[Level Requirement]: Level 10

[Equipment Attribute]:

Life Value:  $16,000 + (\text{Profession Star Level} + \text{Equipment Level}) * 1,500$

Energy Value:  $33,750 + (\text{Profession Star Level} + \text{Equipment Level}) * 3,000$

Physical Defense:  $1,000 + (\text{Profession Star Level} + \text{Equipment Level}) * 150$

Magic Defense:  $1,000 + (\text{Profession Star Level} + \text{Equipment Level}) * 150$

All Attributes:  $(\text{Profession Star Level} + \text{Equipment Level}) * 10$

[Suit Special Effect]: Experience earning rate increases by  $30\% * (\text{Profession Star Level} + \text{Equipment Level})$ . All attributes increase by  $15 * (\text{Profession Star Level} + \text{Equipment Level})$ .

[Special Effect]: Knowledge (Experience earning rate increases by 100%), Harvest (Item drop rate increases by 100%), Rich Harvest (Double item drop rate 50%).

[Equipment Description]: Favored by the Great Path's Star, this novice suit originally did not exist in the world; its origins are unknown.

[Thousand-mile Scepter-Platinum-grade]

[Equipment Requirement]: Level 10

[Equipment Attribute]:

Magic Attack:  $(\text{Profession Star Level} + \text{Equipment Level}) * 60$

Attack Speed:  $(\text{Profession Star Level} + \text{Equipment Level}) * 30$

Energy Recovery Speed:  $(\text{Profession Star Level} + \text{Equipment Level}) * 30$  points/10 seconds

Wisdom: (Profession Star Level + Equipment Level) \* 10

Spirit: (Profession Star Level + Equipment Level) \* 10

[Equipment Special Effects]: Energy Missile, Shared Fate, Thousand-mile

[Equipment Description]: Baptized by the power of The Great Path's Star, it is said that with this item, anywhere within sight is within range.

With these two Level 10 platinum-grade pieces of equipment on him, Chen Mo's attributes were now quite luxurious.

[Name]: Chen Mo

[Grade]: Seven-star (two-star + five-stars hidden)

[Profession]: Skeleton Mage (initial profession), Infinite Fusion Master (hidden initial profession)

[Level]: Level 10

[Experience]: 79,420/50,600 (Second-tier bottleneck)

[Attribute]:

Constitution 1,445 = Life 84,850, Physical Defense 10,775, Life Recovery 1,445 points/10 seconds (20% per second)

Strength 1,345 = Physical Attack 4,035

Agility 1,345 = Critical Damage +1,345%

Wisdom 1,815 = Magic Attack 6,465

Spirit 1,815 = Energy 175,500, Magic Defense 12,625, Energy Recovery 2,325 points/10 seconds (20% per second)

With such attributes, he could summon Skeleton Monsters with the following stats: Health 30,855, Physical Attack 9,257, Magic Attack 9,257, Physical Defense 0, Magic Defense 0. Special Traits: Bomb, Revival, Corpse Poison, Invisible, Sacred.

His Health was close to one hundred thousand, and both his Physical and Magic Attack surpassed ten thousand. If his defensive power was more than three times an opponent's attack power, they could not inflict any damage. This meant that if Chen Mo faced characters with three thousand attack power, he could stand there and let them attack him, and they still wouldn't be able to do anything to him.

The synthesis effect resulted in ballooning attributes. This, combined with luxurious platinum-grade equipment comparable to purple-gold tier and a profession star level on par with a first-transition, created Chen Mo's current strength. It was a level that left those beneath the first-transition far behind, eating his dust.

With such strong attributes, passing the Level 10 Realm Breakthrough Assessment shouldn't be a problem, right?

Although he was aware of how outrageously difficult the SSS-level assessment was, looking at his current attributes, Chen Mo's confidence swelled immensely.

He immediately initiated the Realm Breakthrough Assessment.

Of course, confidence is one thing, but I'm not going to waste the free feature for assessing the pass rate.

Chen Mo immediately opted for an odds calculation.

After a short wait, the results of the odds calculation were displayed.

After seeing the results, Chen Mo couldn't help but be astounded.

[The Heavenly Path's Hint: Simulation calculations complete!]

[The Heavenly Path's Hint: Simulation results... Number of times you successfully passed the assessment: 0.]

[The Heavenly Path's Hint: Simulation results: Assessment failed 100 times. Number of deaths: 100.]

A 100% death rate? What the hell?! Chen Mo was shocked.
