

## Global CM 84

Chapter 84: Not Enough to Chop! (5/5)\_1

As the three of them stepped onto the one-meter-wide formation pattern, it suddenly blazed with light.

The next instant, the ground around them began to shake.

Chen Mo and his companions immediately received The Heavenly Path's Hint.

[The Heavenly Path's Hint: Warning! Warning! You have accidentally triggered a Special BOSS Array. An S-level difficulty Special BOSS is about to descend! Please leave the area immediately! Please leave immediately!!!]

[The Heavenly Path's Hint: Warning...]

The Heavenly Path's Hint popped up three times consecutively.

Obviously, a Special BOSS was indeed dangerous; otherwise, The Heavenly Path's Hint wouldn't have popped up three times in a row.

Upon hearing such a solemn warning from The Heavenly Path, both Yan Yingyue and Lady Wu, who were behind Chen Mo, revealed expressions of terror.

"Chen Mo, let's get out of here quickly! Today, the strength of all the monsters in this area is multiplied by ten. A regular Special BOSS already ignores the usual daily strength limitations and appears at their original maximum strength. If this one is also ten times stronger, it's far too dangerous."

Yan Yingyue felt they should escape immediately.

She had originally thought they might trigger some hidden mission, but instead, they had summoned a formidable foe.

Lady Wu was even more scared. Her face turned pale, and she clung to Chen Mo's back, her hand trembling as she clutched his arm.

Seeing this, Yan Yingyue felt an unexpected pang of jealousy and quickly moved to Chen Mo's other side, also clinging to his back.

"You two fall back to a safe area. I'm worried it has powerful AoE attack Skills that could hurt you. I'll handle this BOSS."

One person against such a powerful BOSS? Upon hearing Chen Mo's confident words, the hearts of both women behind him fluttered.

"Chen Mo, can you handle it alone? It's very dangerous."

"It's fine. You two just stay in a safe area; otherwise, I'll have to divide my attention to protect you."

Having followed Chen Mo for so long in this area, which was only supposed to open on the second day, Yan Yingyue had gained some confidence in his abilities.

She nodded and began to retreat with Lady Wu.

As she retreated, she began to wave her Magic Wand.

[The Heavenly Path's Hint: Yan Yingyue has cast 'Holy Spirit Possession' on you. Due to her talent, the effect of her Support Skill has increased tenfold!]

[Holy Spirit Possession]: During Holy Spirit Possession, any damage you take will be reduced by 50%. When you suffer a fatal wound, you will be immune to all damage, all abnormal states will be cleansed, and your Life will be restored to its maximum value! (This immunity effect will only activate once).

During Holy Spirit Possession, every 30 seconds, you will receive the Holy Spirit's Blessing, which will cleanse all negative states and restore 100% of your maximum Life! This state lasts for 30 minutes.

As expected of a five-stars profession, what an insane buff!

Chen Mo was quite shocked after reading the buff's description.

This buff is ridiculously strong, but I don't know its Cooldown. If the Cooldown isn't long, it would definitely be a heaven-defying Support Skill.

However, at his current strength, Chen Mo didn't need this buff yet.

But Yan Yingyue's five-stars profession showed such power that Chen Mo felt her future was incredibly promising.

If developed well, she could definitely become a world-renowned Support Queen!

As Yan Yingyue pulled Lady Wu back, they left the shaking area.

Now, inside the shaking area, there was only Chen Mo and his large group of Skeleton Monsters.

Soon, a terrifying monster appeared before them. It resembled a massive ox, five meters tall, with fur ablaze and wreathed in Thunder.

"We're not really going to let Chen Mo face such a terrifying monster alone, are we?!"

Since she hadn't partied up with Chen Mo, Lady Wu couldn't see the Skeleton Monsters he had summoned.

She thought Chen Mo was facing the enemy alone.

But she soon received a party invitation from Chen Mo.

After all, they had summoned the Special BOSS together. It wouldn't be right not to let them get a share of the benefits.

Once Lady Wu accepted the party invitation, she reacted to these Skeleton Monsters much like Yan Yingyue had when she first saw them—standing there, utterly dumbfounded.

"Wow... so many Skeleton Monsters!" she exclaimed, covering her mouth and hopping in surprise.

Yan Yingyue chuckled and said, "Don't worry, these were summoned by Chen Mo."

"What?"

Upon hearing that these were summoned by Chen Mo, Lady Wu was even more shocked.

"Can a Level 10 Skeleton Mage summon so many Skeleton Monsters?"

"As long as one learns the corresponding top-tier Skill that has no Level restrictions."

"HISS! I heard that the instances that produce such top-tier, no-Level-restriction Skills are incredibly difficult, and they don't appear consistently—it's all down to luck. Chen Mo is actually that fortunate!"

Considering Chen Mo's unique background, Yan Yingyue didn't elaborate further. What she had said was enough for Lady Wu.

Meanwhile, Chen Mo used one of his exploration skills on the Special BOSS.

[Fire Thunder Bull · Special BOSS]: Health 760,800,000, Dual Attack 12,780, Dual Defense 5,210

So, the strength of an S-level Special BOSS is equivalent to a Level 10 Golden BOSS. Even if it's strengthened tenfold today, it's no problem. A mere 700 million Health is hardly enough for them to whittle down. Each of my Skeleton Monsters now has an attack power exceeding 10,000. Factoring in the 50% increase to attack power and attack speed from the Unwinding Worship Skill, and considering the BOSS's meager 5,000-plus defensive power, each Skeleton Monster can inflict over 10,000 damage to the BOSS per second. If I hit the BOSS with an Energy Bullet or shield the Skeleton Monsters, triggering Lightning Chain to damage the BOSS... with my talent activated, the damage could double again. A single Skeleton Monster could deal over 20,000 damage per second. Even if 700 out of my 1,700 Skeleton Monsters couldn't reach it, with just 1,000 in effective attack positions, they could still deal a massive twenty million-plus damage per second. Seven hundred million Health might sound like a lot, but it wouldn't last long at all. And that's just calculating the Skeleton Monsters' basic attack damage. The true damage would obviously be even higher.

Chen Mo casually cast shields on the Skeleton Monsters and ordered them to attack.

As for what Skills the BOSS possessed, Chen Mo couldn't be bothered to check.

They're probably Skills related to fire and thunder elements. No threat at all.

MOO!!!

As the BOSS fully materialized, its terrifying size, combined with its deafening roar, caused the surrounding frenzied Elemental Energy to scatter and retreat.

From a distance, Lady Wu and Yan Yingyue quickly used their exploration skills.

Both were stunned into silence after seeing the BOSS's terrifying attributes, enhanced tenfold.

Is this something a Level 10 can fight?!

"Chen Mo, this BOSS is too monstrous! While your Skeleton Monsters have its aggro, let's run! We can come back and kill it tomorrow. It's ten times stronger today; it won't be like this when the area officially opens tomorrow. Anyway, the rewards are the same no matter when we kill it..."

What Yan Yingyue said wasn't unreasonable. Since the rewards were the same, why risk challenging a monster whose attributes had increased so terrifyingly?

But before she could finish speaking, Chen Mo had already activated Unwinding Worship. A red light flared from all the Skeleton Monsters. After Chen Mo fired an initial Energy Bullet, they all surged towards the BOSS as if injected with adrenaline!

The next moment, astonishing damage numbers started floating frantically above the BOSS's head!
