

## Global CM 85

Chapter 85: Is there a Problem with the Rankings? (1/5)\_1

Because Chen Mo's Skeleton Monsters had scattered too far, they had already finished off all the other monsters in places Yan Yingyue couldn't see. So, Yan Yingyue had never witnessed just how effective Chen Mo's Skeleton Monsters truly were. But now, she finally had.

No wonder these Skeleton Monsters could maintain such a monstrous farming speed in an area that was clearly ten times tougher! They were inflicting over twenty thousand damage per strike on a BOSS with over five thousand defense! During this, other damage numbers also popped up, with the green poison explosion damage rapidly climbing at an astonishing rate.

The BOSS, with only seven hundred million life value, didn't even last five seconds under the Skeleton Monsters' high Physical Attack and terrifying poison explosion damage. It let out a sorrowful MOO before collapsing to the ground.

At this point, Yan Yingyue and Lady Wu hadn't even had time to recover from the shock of the Skeleton Monsters' immense burst damage.

Lady Wu covered her mouth in disbelief. "Dead... It's dead? It's dead already!?"

Yan Yingyue's face was also etched with shock. "That was too fast!"

This was an S-level difficulty BOSS with ten times its normal attributes, and it was hacked to death in less than five seconds? They hadn't even seen the BOSS make a move. This was just too powerful!

[The Heavenly Path's Hint: You have successfully killed the S-level Special BOSS. You have gained Survival Days +10, and you will receive a 10% bonus to your survival time at the final settlement.]

On the survival time leaderboard, Chen Mo's survival time had now become 19 days (+10%).

「A few moments prior, outside, within the City Academy Alliance Hall.」

On the Five Spirits Gathering Dungeon leaderboard, three names suddenly flashed red.

"The flickering frequency wasn't high. It looked like they've encountered an S-level Special BOSS."

The teachers didn't pay much attention. In this dungeon, any Special BOSS encountered was at least S-level, so naturally, it wasn't a major cause for concern.

But their expressions quickly changed. They saw the data on the leaderboard change. According to the change in survival days displayed on the leaderboard, it was clear they had already killed the Special BOSS.

"How is that possible?!"

"Is there a problem with the leaderboard?"

The staff members also found it quite astonishing and immediately ran a check.

"There's no problem. Although much information can't be transmitted due to the dungeon's isolation, the information that does get through is generally accurate. We just checked, and there were no errors in any part of the system. It's quite shocking, but they did indeed kill the Special BOSS at an extremely rapid pace."

Upon hearing the staff's report, the hall instantly erupted.

They came here every year, and every year there would be some outstanding students who surprised them. But they had never seen such a monstrous performance before!

"How many seconds passed between them encountering the Special BOSS and killing it?"

"I just took a quick look. It seems like it didn't even take five seconds for them to kill the Special BOSS."

"How much life value does an S-level Special BOSS have again?"

"The BOSSes in this dungeon are equivalent to outside Level 10 BOSSes. An S-level Special BOSS would be like an outside Level 10 Golden BOSS, so it should have over seventy million life value."

"Killed a BOSS with over seventy million life value in less than five seconds? What kind of damage is that?! Can a Level 10 character even achieve numbers like that?"

"Just what kind of class is this Holy Spirit Priest?"

Everyone's gaze couldn't help but fall on Yan Yingyue's name.

This was too much! They were mowing down monsters as easily as cutting melons and vegetables! Is this really a Priest? She's farming faster than a Berserker!

Among the many shocked teachers and parents, those from Seaside Second Middle School were both stunned and ecstatic. This year, Seaside Second Middle School had truly made a huge splash. Their students were so outstanding this year, continuously shocking everyone with one amazing feat after another, bringing great honor to Seaside Second Middle School. In previous years, Seaside Second Middle School had always been a mere foil for others, never receiving this much attention and discussion. This year, Shen Rulong felt a sense of pride and honor just by sitting there.

While everyone assumed Yan Yingyue was responsible, only Su Tianxin stared intently at Chen Mo's name.

She felt something wasn't quite right.

When Yan Yingyue had her awakening vision, it was clearly that of a pure support-type Priest. Although a five-star class possessed extraordinary and unpredictable capabilities, it was hard to believe a Priest could be \*this\* monstrously powerful.

But if it was Chen Mo, given the powerful equipment his parents left him, he might have had the chance to obtain even better limited-edition gear and possibly even learn high-tier skills that ignored level requirements.

Yet, even if all those conditions were met, it was still difficult to imagine him achieving such an astonishing kill speed.

Such a performance from either one of them alone would be astounding.

But if you considered them together, it wasn't entirely out of the realm of possibility.

First, let's assume Chen Mo was currently a Skeleton Mage with powerful summoning skills.

Then, let's assume Yan Yingyue's five-star class possessed support abilities that could significantly boost an ally's combat power.

If they cooperated, achieving such a feat wasn't impossible.

Still, it was incredibly hard to believe, mainly because the kill was just too fast. She even wondered if Yan Yingyue had some kind of percentage-based damage buff.

BOSSes outside of dungeons always had a special trait that made them immune to percentage-based damage.

This hidden characteristic applied to all of them, from the lowest-level common BOSSes to Golden BOSSes and even world raid BOSSes.

However, for BOSSes inside dungeons, apart from the final BOSS who was definitely immune, other BOSSes didn't necessarily have this trait.

「Just as Chen Mo once again shocked the outside world.」

Inside the dungeon, Chen Mo had already walked over to the BOSS's corpse.

He wanted to see if it had dropped anything.

Unfortunately, the monsters in this dungeon didn't drop experience points, nor did they drop any items. The only thing dropped was the BOSS's corpse.

But they were all combat professions; none of them were Collectors, so they couldn't harvest any materials from the BOSS's corpse.

After a moment's thought, Chen Mo decided he could take the BOSS's corpse back and sell it to a Collector. It should fetch some money, and every bit counted.

With a casual touch, he stored the Fire Thunder Bull's corpse into his space backpack.

He can fit such a large corpse into his space backpack! Just how big is Chen Mo's space backpack? He really isn't from an ordinary family! Yan Yingyue felt even more certain of one of her suspicions.

After collecting the BOSS's corpse, Chen Mo casually directed his Skeleton Monsters to resume farming.

Yan Yingyue also proactively left the party. Since both she and Chen Mo had already met the tenfold mission requirement, Chen Mo was now having his Skeleton Monsters continue farming solely to help Lady Wu increase her kill count. There was no need for Yan Yingyue to remain in the party and reduce efficiency.

"You can head back once you've met the tenfold mission requirement," Chen Mo said, looking at Lady Wu, who was still dazed.

Lady Wu immediately nodded, both excited and grateful. "Thank you so much!"

"No need for thanks, it's mutually beneficial," Chen Mo smiled, waving it off.

「Meanwhile, Meng Han and the others were farming monsters when someone suddenly exclaimed, "Quickly, look at the Survival Time Rankings!"」

Everyone immediately pulled up the rankings. Since Chen Mo's trio was at the top, they quickly spotted Lady Wu in third place.

"Impossible! He only left a little while ago, right? Shouldn't he have just gotten there?' Lin Luoluo exclaimed, opening her map to check the distance in disbelief."
