

"What do you say you are, madam director? Is that it?" At this time, the Qin family had refused to recognize her. Pointing to Xia yunshang, he said, "drive her out for me."

Xia yunshang saw that grandma was crazy and was about to speak. He saw a gentle man with gold wire glasses outside the door.

This man has a pressing temperament. As soon as he enters the house, the people here all step back one after another.

The man walked directly to Lin Yan. Said: "why did my wife leave after calling a benefactor for so long?"

Lin Yan looked at the Qin family and said, "this is the mistress of the Xia family. If you don't bully my benefactor, you have to kick me out. Husband, you have to help my benefactor."

The man nodded, then looked at Qin and said, "Mrs. Xia, isn't she?"

Qin stared and said, "it's me. Who are you? "

"I'm the director Wang you just said."

Qin Shi was stunned. She wouldn't really be angry with her son's business.

She looked at Wu Minzhi beside her.

The second daughter-in-law nodded and whispered, "mother, this is the director Wang I told you before. The monarch is asking for."

Qin Shi is really stupid.

Lin Yan has just been completely offended by herself.

She thought for a while, looked at Xia yunshang and said, "it's all your fault. You found me this good grandson-in-law!"

Xia yunshang was wronged by the Qin family, but he didn't dare to say anything.

It is clear that her marriage with Xiao Chen was designated by her dead grandfather. How did she become her own fault.

"Why do we keep this kind of person in the Xia family? Listen to me, Xia yunshang. Divorce him quickly. I can't see him staying in my Xia family all day."

Qin Shi said and turned and went out.

She's smart enough to stay. I'm afraid there's no place for my old face.

Wu Minzhi not only didn't vent her anger for her son, but also offended director Wang and his wife when she saw Qin's departure.

She turned around and could only spread her anger on Xiao Chen.

Pulling Xiao Chen, he said, "wake up Ziliang quickly. If he doesn't wake up again, I'll report to the official now that you murdered my brother-in-law."

In fact, Xiao Chen didn't want to really do anything about Xia Ziliang.

Small punishments and great commandments.

Xiao Chen pointed to the two Shenshu acupoints on Xia Ziliang's back: "kick his two acupoints hard and he will wake up."

After hearing this, Wu Minzhi hurried forward and kicked heavily at his son's Shenshu Point.

Xia Ziliang's body trembled slightly, and there was a stuffy hum in his nose.

The eyelids moved.

But he didn't wake up.

Wu Minzhi thinks her strength is not enough. This time, he tried his best and kicked it hard.

But Xia Ziliang trembled again.

But I still didn't wake up.

"Xiao Chen, what's going on?"

Xiao Chen said faintly, "Oh, I forgot to say that I must play."

"What, you?"

Wu Minzhi almost gushed old blood out of his anger.

"Then you can't save it quickly."

The people around, seeing here, all saw that Xiao Chen was deliberately rectifying the mother and son. They all laughed.

Xiao Chen walked up to Xia Ziliang, kicked him out, and then collected the disease Qi into his body.

Xia Ziliang made a sound.

Then slowly open your eyes.

"Mom, why am I lying on the ground"

When he saw Xiao Chen, his face sank and said, "are you?"

Wu Minzhi saw her son wake up, saw him pick him up, pointed to Xiao Chen and said, "listen to me. If, if your second uncle's business goes wrong, our family will not let you go."

She then took Xia Ziliang and walked out.

Lin Yan glared fiercely and said, "husband, you see such people, she is so kind to our benefactor. Don't spare them lightly."

Hearing this, Xiao Chen said, "forget it. After all, I have to stay at Xia's house."

Lin Yan nodded. Way: "benefactor, we come today, actually want to invite you and doctor Xia."

"Oh. Thank you very much. It's just a little help. It's not necessary."

"How can this be done? Without you, our children would be gone. You are a great kindness to our family." Lin Yan said and looked at her husband.

Director Wang nodded and said, "anyway, doctor Xiao needs a face."

Xiao Chen was a little embarrassed and said, "I really have something to do later."

"What's up?" Lin Yan didn't seem to shirk when she saw him.

"How about tomorrow?"

Seeing that the couple sincerely invited each other, Xiao Chen nodded and agreed.

Watch director Wang and his wife leave.

Aunt Wang sneered and said, "you fool, who else can come to ask you out?"

Xia yunshang didn't take care of Aunt Wang's cold words to Xiao Chen and said, "Xiao Chen, go back. Clean up the warehouse."

Xiao Chen knew that she was uncomfortable because of what had just happened.

After all, Qin Shi and Wu Minzhi are the elders of the Xia family. If she goes on like this, I'm afraid it will be more difficult for her to do it in front of the Xia family.

Xiao Chen didn't dare to say anything. He bowed his head and walked to the warehouse.

Aunt Wang stared at him. "You are the burden of the young lady. Now you are looking for trouble for the young lady. The young lady is really kind. What do silly men like you keep and divorce directly."

Xiao Chen just didn't hear it. It's meaningless to quarrel with such a woman.

And he is just a fool in the eyes of everyone.

Sure enough, his forbearance made the people next to him think he was stupid and laugh at him.

Xia yunshang looked at him and felt a little distressed, so he took a towel to the ground and gave it to him.

"Take it and wipe it with sweat."

It was the first time that Xiao Chen was so concerned by his wife.

He was reallyattered.

"Cut, miss, this is for you to do well. Don't make any other trouble and make trouble for miss."

Aunt Wang always shows up when she shouldn't.

Xiao Chen is used to it.

Soon, it was time for the hospital to close again.

Xia yunshang left first.

Xiao Chen looked at the back of Xia yunshang.

"What are you looking at? Don't think about it in your life. Miss, I just pity you. Do you want to eat swan meat as a fool?"

Xiao Chen wanted to say something about her.

But right now.

A jeep pulled up to the door.

Aunt Wang looked and saw a young officer coming down from the military jeep.

"I'm sorry, sir. Our hospital is closed."

Staff Wang didn't look at Aunt Wang at all and went directly to Xiao Chen.

"Mr. Xiao, I'm coming."

Xiao Chen saw that it was him, smiled, nodded and said, "I'll clean up here, and we can start."

Aunt Wang saw that Xiao Chen and staff Wang regarded her as air.

She came up and pointed to Xiao Chen and said, "what are you doing? What if the hospital loses something?"

Not waiting for Xiao Chen to speak.

But staff member Wang's face sank and said, "what are you, dare to talk to doctor Xiao like this, get out of here!"
