

God of Milfs 171

Chapter 171: Whale Blubber

"Stop pulling on my pants, mom. You're going to tear it off." I said as my mother dragged me towards the bed while constantly trying to stick her hand into my pants and pull my cock out, like a dick hungry savage.

"What else am I supposed to do when you're suddenly acting so shy to get your penis out, when you were so confident before?" My mother said as she pushed me onto the bed and made me sit right on the edge, while she knelt on the ground right in front of me. "Just stay like that and let Mommy calm your penis down or else I'm afraid it will just fall off after standing for so long."

"I don't know who taught you reproductive health in school, but that definitely isn't what happens when-...W-Wait! Calm down! Don't pull on it like that!" I shouted in panic when I saw my mother grab my pants and pull them all the way down to my knees in one motion, with some kind of superhuman strength she got from somewhere.

Swish~

And with that, my fully erect cock swung out of my pants and stood like a proud flag pole in between my legs.

My mother also knew what was going to pop out but she still couldn't help but gulp when she saw the sheer size of her son's penis, that she was going to take care of now.

"I've already seen how big you are down there yesterday, Kafi, but I still can't help but be surprised at just how massive your penis is, especially since I've gotten used to seeing your penis from changing your diaper as a baby and know just how small it was like a baby carrot." My mother said in amazement as she grasped the bottom of my cock and squeezed it like she was checking if it was real or not.

"...But now, rather than a baby carrot, it looks like bitter melon that had too much fertilizer added to it and turned into this monster in the end, that could probably feed an entire village."

"What can I say, mom?"

After having you take care of me all these years, it's only appropriate that I, your son, have the proper equipment to satisfy your desires in the later years." I said with a grin on my face, as I felt my mother start to wriggle her fingers around the bottom of my cock while pushing her fist down, which was already enough to send shivers down my legs which showed just how talented she was at handling dick.

story-by-MvLeMpYr

"Other people's sons would work hard in school to get a respectable job in the future to show their appreciation to their parents. But here you are saying that you grew your penis just to do dirty things with your mother....Aren't you ashamed, Kafi?" My mother asked with a look of slight disdain in her eyes, as her hands started moving up my shaft and all the way to my tip.

"That would've been perfectly fine with any other mother, mom. But when I've got such a perverted mother who couldn't help but fall in love with her own son, I think that this is a better gift of appreciation for all the years you've taken care of me." I said while caressing her brown cheeks that felt like a fluffy sponge cake, which were slowly turning a shade of pink when she heard my words.

"Just think about it, mom, would you rather have a son who earned well and stayed away from home all the time because of his work, or a son who stayed by your side at all times and dicks you down all night while you moan out in sheer ecstasy?"

My mom thought about it for second while swirling her fingers around the tip of my cock and finally didn't say the answer to my question. But it was obvious from the way she jerked me off in a much more vigorous manner and the way her ears turned red, what her answer was.

"And I don't think that you simply stroking my cock is going to get us anywhere, as I need some visual stimulation to get me going." I said as I leered at her bulging chest, that was shaking everytime she moved her hands up and down. "So, why don't you be a dear, mom, and take of your top that I can see those fat tits you have hanging on your chest."

"They aren't fat, Kafi!" My mother exclaimed when she heard me teasing her about her breasts. "T-They're just a little bigger then average and they're not fat like you say."

"A little bigger then average is something that would perfectly fit in between my hand, mom." I said as I cupped my hands and showed it to her.

I then brought my hands down to her chest while she watched, and grabbed her soft breasts and said, "And from what I can see, it seem like a single one of your breasts itself needs both of my

hands to hold it up, so don't you dare say that your breasts aren't fat and apologise to all the women out there who actually have average-sized sized breasts and have dreams of having jugs like yours."

My mother simply shook her head and refused to accept just how big her breasts and squeezed my penis tightly, like she was punishing me for calling her breasts fat which felt good in its own way.

"But you really don't have to worry, mom, as your son here is quite fond of your plump breasts and wouldn't even mind if they grew twice their size, as I would be able to hug a different one to sleep every alternate night." I explained how I would treat each breast of her her's like teddy bears I use to fall asleep, which made her look down at her breasts and prayed that they didn't grow bigger then they already were or else she knew her son would latch onto them and never let go.

"So don't be ashamed of your massive knockers, mom, and be proud of the assets you possess and show them to the whole world with your head held up high."

"...And when I say the whole world, I mean me, since I've been dying to get a look at them ever since I laid my eyes on them since I was in kindergarten." I clarified as I would have to pluck out the eyes of everyone in this world, if such a thing were to ever happen.

"What?! Ever since you were a kindergartener?!" My mother exclaimed in shock. "There's no way you could be so perverted back then itself!"

"You'd be surprised, mom." I said as both my hands started to grope and play with my mother breasts, while she let me do whatever as she looked up at me with her limpid blue eyes. "When you have a mother who has a body as sexy as yours, it isn't weird that I had devious thoughts about these tits at a young age itself."

"T-Then, you really don't mind how big my breasts are, Kafi?" She propped her breasts up like she was trying to show me just how big they were and how much of a hindrance they were. "Even if they look like whale blubber packed into oversized brown ballons."

"I'd love them no matter how big or small they look, mom, since I they belong to you..." I said as I pushed her bangs away and bent down to kiss her forehead, which made her look up at me in a shy manner.

"I-I see, if it's like that...Then I guess there's no problem with me taking my top off." She said after seeing that her son loved even her most deepest insecurities and somehow always managed to make

her feel good about the same thing she would always worry about. "...But I'm going to need your help since this dress is quite tight and needs some effort to take off."

"More like you bought a top while not taking into account the size of your tits and realising it later on." My mother looked away when I guessed correctly, and pinched my leg for making fun of her.

She then lifted her hands up in the air and glared at me, like she was asking if I was going to help her or not.

Of course I wasn't going to let the opportunity slip, and quickly pulled her top off revealing her bountiful breasts that dropped down below...

Chapter 172: I Also Want To Have A Taste

Boing~ Boing~

Even though her breasts were contained in her bra, they still bounced like they were made out of jelly when they fell out of her clothes. Not to mention how my mom even bent down because of the impact force of her breasts falling down, which was enough to say how heavy her pair were. this-chapter-is-MVLeMpYr

They also looked absolutely bewitching with how her smooth coffee brown skin curved to form such lewd and elegant-looking globular objects on her chest that were covered up by her white bra, which had butterfly patterns all over it.

But no matter how pretty her bra looked, I still couldn't stand the sight of it since it was blocking me from seeing her two tiny hidden treasures that were underneath, so I tried removing her bra from the back.

"Wait!" My mother suddenly caught my hand and looked at me with a confounded look on her face. "Y-You're also going to take off my bra?"

I nodded my head.

"But that would mean you'd be seeing your mother's bare breasts with nothing to hide them..." She asked, as if she were asking me if I was ready to see such a taboo sight so early into our relationship.

"Of course, mom, I'm removing your bra just so that I can see that glorious sight." I said as I went past her hand towards the latch on her back. "And how else do you think I'm going to suck on your nipples if you're covering them with your bra...You don't actually expect me to actually bite them through a layer of fabric, right?"

"B-But nipples are only meant to be sucked on by babies, Kafi." My mother caught her bra that slid down her chest and used it to cover up the most important places of her chest with a flushed face, while the rest of her fatty chest was revealed to me. "And I don't see you crawling on the ground or wearing diapers like you did in the past, so why do you want to suck on Mommy's nipples now?"

"It's because I never got a chance to suck on them in the past because of our relationship." I said in the sense that I didn't even exist in the past of this world and also because I was pretty sure that my mother hadn't breastfed my version in this world since she was never pregnant with him and probably picked him up from somewhere else, since there was a very small chance of a woman who gave birth to be virgin.

"And I also want to make sure that I make up for that time in the past and get all the nutrients from your milk that I didn't receive as a child, so that I don't get a deficiency in the future."

"B-But Mommy doesn't even have any milk in her breasts for you to drink." My mother said as she felt her bra get tugged on and tried her best to keep it on her since she wasn't just ready for her son to see her milkers.

"Oh, you don't have to worry about that, as I'll make sure that these fat jugs of yours start producing the thickest milk that the female body can produce after I'm thoroughly done with you..."

I said with my lips curled up as I forcefully pulled out my mother's bra, revealing her purple nipples that were so hard right now and almost looked like grapes that were hanging in a vineyard.

Pull!~

I also stared in a daze at her round areola that was larger than Camila's and also a very different colour; one being pink as bubble gum and the other being a vibrant purple as if she squeezed the juice out of a lavender flower and dyed her nipples in the same colour to make her brown skin stand out even more.

But sadly, that beautiful sight didn't last long, as my mother quickly covered her chest while looking up at me with teary eyes, wondering if I saw just how hard her nipples were right now, like they could cut through stone with a slash.

"B-But Kafi, even if I started producing all that milk, it would still all be for our c-child..." She said in a fluster, imagining what our child would look like, which also made her eyes glow like she couldn't wait for the day to happen and raise a baby with her son.

"...So, don't you think that you're being a little too greedy when you want all that milk just for you instead of sharing it with your daughter?"

"That's exactly why you have two breasts, mom." I said as I bent down, and to her surprise, I slid my hands under her arms, lifted her up like a child, and put her right on my lap, where her beautiful face was right before mine.

"One for me, your son and the father of our future child..." I pulled out her hand, covering her chest, revealing one of her breasts in their most naked form.

"And the other for our daughter, who I pray to God will look just like you, because my life will feel complete if I can see two Abigail's running around and playing in our back yard; one little one that will call me Daddy wherever she goes and another big one that calls me Daddy only when she's in bed with me." I pulled on her other hand, revealing her remaining breast that looked just as round as the other one, which made a perfect pair together.

"And don't even say that our daughter might not have enough milk to drink when you've got jugs these big, mom." I said as I slid my hand under her breast, like I was checking how heavy they were, which made her bite her own lips and look at her naked breasts that were being played around with by her own son.

"These fat tits you have can hold more than enough to feed our daughter for the rest of her life, so I'm pretty sure that she wouldn't mind sharing her food with her father."

Slurp~

"T-Then, what about me?" My mother trembled as she felt me hold her breasts up near my mouth and plunge the pointy tip into my mouth, where she felt my cold tongue lick her solid nipples that felt and tasted like sweet, hard candy. "If you father and daughter have all of the milk all to yourselves, then what am I, the one producing the milk, going to drink?"

Slurp~ Slurp~

"Oh, you also want to have a taste of your milk?..." I asked in surprise as I stopped licking my mother's nipple that felt so smooth on my tongue and found my mother looking at me in a loving manner, like she was also starting to get excited with the way things were going.

"...Then there's no problem at all since I'm willing to share my single breast with you, as I don't want my daughter to grow up and complain that she didn't get enough milk just like I did if I gave you her share."

Chapter 173: Why Don't We Suck On It Together?

"Hnnn~....How would I even drink my own milk?" My mother whimpered as she felt me move onto her other nipple, leaving the first one stained in my glistening saliva, even though I said I would only take one to myself and leave the other for my daughter. "Are you going to pour it out into a glass and give it to me for me to drink?...Hnnn!~"

Squeeze~ Press~

"Why would I do that when I can just take your milk into my mouth and pour it right into my mouth while kissing you?" I squeezed her chest like I was squeezing out the liquid out of a sponge, almost as if she already had milk in her chest, and sucked on her nipples that were reacting every time my tongue ran past them.

"Then what if I said that I wanted to taste them right from the source, like you are doing now?...Shhh!~...W-What would you do then?" My mother asked as she looked down on my cock, which was poking her abdomen and was barely reaching the bottom of her hanging breasts, and started stroking it once again, not forgetting her main duty.

"You want to suck your milk right out of your own nipple?" I said with a smile on my face, as if I were pleasantly surprised at how lewd my mother was. "I didn't expect you to be so perverted, mom."

"I'm not perverted, Kafi....Hnnnm!~...I-I just want to do the same thing my daughter and son are doing, so that I don't feel left out." She didn't seem to be lying and genuinely didn't seem to want to be the odd one out, which was rather adorable.

"Just thinking about how you and your daughter would sucking on my breasts with no care in the world while I have to go through all that biting and nibbling from me makes me so jealous that only you two can have that moment together."

"I want to be included too!"

She exclaimed like an adamant child while sliding my fingers across my shaft.

Stroke~ Stroke~ Suck~ Stroke~

"...Like I said, I'm fine with sharing. But do your nipples even reach all the way to your mouth, where you can even have a sip?" I asked as I enjoyed my time sucking each of her nipples one at a time, which made her pout out of jealousy for some odd reason.

"My breasts have been a hindrance for my whole life, and if I find out that I can't even suck on them after having grown them out to be so big and can't join you two, I really will cry~" She said with teary eyes, like she felt that it was unfair that the father and daughter could have a moment together, while she was left all alone with no milk-producing nipple in her mouth.

"If you're so worried that you won't be able to taste what you make right from the source, then why don't we just check if it's possible now?" I said as I held her breast in my hand, which felt like a water balloon that was filled to the brim with warm water, and pushed it towards her mouth, revealing the area under her breasts that was currently moist from being under a mound of hot fat all the time.

Lift~

"Oh, it looks like your breasts didn't disappoint with their size, and I can easily slip them into your mouth." I said in astonishment when I saw her purple nipple right next to her succulent pink lips, like they were waiting to be bitten on, which made my cock harder than it already was and a step closer to me blowing.

"Why don't you stick your tongue out and see if you can have a taste of your nipple, which already has a bit of my spit on it?"

Slurp~

"Like this?" My mother didn't hesitate to take her protruding nipple into her mouth and start sucking on it, as if hearing that my saliva was on her skin triggered something in her head to immediately have a taste.

Suck~ Suck~

"Is it fully in my mouth, Kafi?" My asked as she looked up at me with her pretty blue eyes while sucking on her nipple like she was a baby herself.

"A little bit more, mom." I said as I pushed more off her plump breast that was overflowing from my hand into her face. "You have to take a little bit more, or else you would be spilling your own milk all over the place."

Slurp~ Suck~

My mother did as I said and took a big bite of her breasts until her whole lips were submerged into her tit and the entirety of her areola was resting in her mouth. She then looked at me while she sucked on her udder with a seductive look in her eyes and said,

"Well, that's why I've got a son like you, Kafi... You'll surely lick off any milk that spills onto Mommy's body, right, like the good boy you are?"

Gulp...I almost wanted to bark like a loyal dog and say that I would even lick it off the dirty ground if she asked me too, with the provocative way she was sucking on her own teat. discover-stories-MVLeMpYr

But I held myself back out of self-respect and so that my mother didn't look down on me for being such a deviant who would even lick concrete for a taste of some sweet breast milk.

"Actually, you don't even have to lick it off my body, Kafi~" My mother said as she pulled her breasts out of her mouth and started to lick her nipple like it was ice cream right in front of me, like she was showing me her own lewd show that made my throat go dry.

"You can just suck on my nipple with me and make sure that you slurp up any milk that Mommy spills and take it all into your mouth...I'm pretty sure you would like something like that, right?"

She gave an alluring smile and pushed her breast out towards me with her rock-hard nipple pointing right at the top, like she was asking me if she wanted to share the ice cream she was eating with me because she couldn't finish it all on her own and needed some assistance.

I didn't hesitate to take the erotic offer my mother gave me and thanked the heavens for giving me a mother who was innocent and gullible most of the time but turned into a natural seductress that could take down any man she laid her eyes upon when she was turned on and opened my mouth to give her nipple a suck while she watched with a playful look on her eye, like she found it funny how easy I was to tame with just a pair of useless breasts that had been a bother her whole life.

Slurp!~

After getting a good look of her son sucking on her breast like a baby, she gave a satisfied smile, like she was content and pleased that she could have her son sucking on her tits, which was long overdue, and opened her sexy lips to fight with me to get a share of her own nipple, which looked like it was going to cry with having two people biting and sucking on it to get a piece of it in their mouth.

Slurp!~ Suck!~ Lick!~ Slurp!~

Chapter 174: A Special Memory

My mother first simply watched as I played around with her nipple in my mouth, grazing my teeth on it every once in a while, which made her whimper out from the sharp edge of my teeth cutting past her equally hard nipples, which sent shivers through her spine, like the sound produced when you run a blade across a chalkboard.

But after seeing me enjoying her nipple all to myself, she plunged right into action and started fighting for her nipple as well.

Lick~ Slurp~ Lick~

At first, she couldn't do anything but lick the outer part of her areola and slide her tongue across the outer ring of the purple circle she had on her breasts; that was quite delicate to touch, like wet silk, since I had taken in her entire nipple into my mouth and refused to share it with her.

But she didn't let that get to her and continued to suck on the outer area of the place where her grape-like object protruded out and looked to be waiting for when I gave her a small gap to intrude.

Slurp!~ Suck!~ Lick!~

In the process of waiting, she also licked my upper lip several times, which felt quite ticklish.

At first, I thought that it was because our lips were accidentally touching since we were trying to suck a small area of skin on her jiggly breasts, but after seeing the teasing look in her eyes like she was playing a prank on me, I knew that she was doing it on purpose so that I let go of her nipple and that she could have her share.

I could have simply let her do whatever she wanted since her licking my lips didn't feel bad at all. But since she was acting up so much, I also decided to retaliate in my own way by biting down on her nipple, which made her let out a yelp.

"Haahh!~~"

I bit her nipple around the bottom with enough force that it would leave a mark but wouldn't make her feel too much pain or, rather, a pleasurable tingle.

"Ahhh!~ Kafi!~" My mother moaned out as she felt the edge of my sharp front teeth grind against her protruding cherry. "W-Why are biting me there like a mutt?! I don't remember raising you to be a dog that bit everything near its mouth!"

"It's simply payback for you trying to make me let go of your nipple." I said as I stopped biting her and ran my tongue over where my teeth pushed into her, and found that there was a faint bite mark there. "I would never have done such a thing if you weren't acting so sneaky in the first place."

"Well, I wouldn't have done such a thing either if you hadn't hogged my breast all for yourself, without giving me a single chance to have a taste of my own." My mother complained as she watched me run my tongue all over her breasts.

"And didn't you say that you would give me your share in the future...But looking at how greedy you are now for a nipple that hasn't even started producing any milk, I really doubt if you're ever going to let me have any and drink it all yourself."

"Well, I will admit that I got lost in sucking on these mounds of fat you have and totally forgot about their owner for a second." My mother narrowed her eyes and glared at me. "But at the same time, you could have just asked me to have a taste, and I would've lent your tit to you."

I stopped sucking her tit and nudged it to her like I was finally willing to share after feasting on it all this while, which made my mother roll her eyes.

"First of all, I doubt you would even be able to hear my words with the way you were frantically sucking me like a starved animal." My mother said as she pushed her hair aside and licked her purple areola, like she was trying to clean off all the places that had my saliva on them so that she could have a taste herself.

And then, after gliding her tongue across all the spots that had my spit glistening on them like she was licking off sweet honey off her udders, she swallowed whatever she took in her mouth with a satisfied look on her face, which made my heart rate pick up seeing how thirsty my mother was for my bodily fluids.

She then looked at me while pouting in a cute manner and said,

"And when did I ever say that I wanted to suck on my breast on my own? If I wanted to do such a thing, I could do it whenever I wanted to by myself since these breasts of mine aren't going anywhere but here on my chest."

She held up her breasts to my face to show that no matter how she pulled on them, they weren't going anywhere and would always be available for her to suck on.

"What I wanted to do was suck on my breasts together with you so that we could have our own special moment together..." My mother said with a flushed look on her face, not believing she admitted such an embarrassing thing to her own son.

"I've heard of mothers wanting to go on dinner dates with their sons so that they can catch up on what's going on in their lives and have a memorable time with them.

But this is the first time I've heard of someone who wants to suck on their own teat with their son so that they could have a special moment together." I said with a grin on my face, unable to contain my smile at the absurdity of the situation. "...Don't you think that it's too desperate even for you, mom, to have a memorable memory with your son?"

I was simply joking around with her, but it seems like my mother had some thoughts of her own that she had been keeping in her mind, which made her let out and give a very emotional response.

"Of course I'm desperate to have any kind of moment with you, Kafi!" My mother exclaimed like she was about to cry out while looking at me with glimmering eyes that were going through all sorts of emotions.

"When my son has been ghosting me for so many years, not even bothering to even have a single meal or talk about what's going on in his life with his mother, it's only inevitable that I would want to do as many things I could together with you, no matter how perverted they may seem."

"If only you knew what I've been going through all these years, then there's no way you would be making fun of me like this..." She looked away with a desolate and sad look on her face, revealing just how lonely she felt all these years, to the point where she was even willing to share even the most shameful moments with her son since she had nothing else to think about when she thought of the memories she had with her own son.

Ah shit...Now I feel like a piece of shit for making fun of my mother when she was silently enduring so much because of the bastard son she had in the past.

"Sorry, mom...I didn't know you were going through so much because of me, and I apologise for being such a shitty son in the past." I said as I ran my hands across her cheeks to make her look at me, but she refused to do so and looked away with her cheeks puffed out like a child throwing a tantrum.

"I know that no amount of apologies will make up for how I treated you in the past when you deserved the whole world..."

But in place of those useless sorrys, I can promise that from now on there won't be a single day in your life where you won't have a special memory with me since I'm going to stick onto you like a bug that won't let go." I said, which made my mother look at me with a corner of her eye, like a hamster that was coming out of its burrow after seeing a treat.

"In fact, you'll be seeing me so much that you'll actually get sick of seeing my face around you and will even want to go on a vacation so that you can get away from you!"

"R-Really?" My mother slowly turned her head to look at me and asked in a cautious manner, like she was testing if it was a trap. "Will we really spend so much time together that even I, your mother, will grow tired and sick of you?"

"Just you watch, mom. In a month's time, you'll be booking a ticket to some tropical island so that you can get away from me and get some time for yourself because of how tired you'll be of seeing my face." I said, which made my mother smile and shake her head, like she simply couldn't see that ever happening since she loved her son way too much.

"But for now, please do me the honour of sharing your breast with me in the hopes of making a beautiful memory together."

I held out her breast in my hand towards her face, like I was asking her to take the first bite, which made her roll her eyes at me.

"Hmph! What kind of beautiful memory has a mother and son licking and sucking on a single breast?!...This is simply a perverted fantasy of yours!" My mother gave a snarky reply but still stuck her tongue out to suck on one side of her nipple, while she looked at me provocatively as if she were inviting me to take a bite of the other side.

Of course I didn't hesitate to take her offer and bit down on the other side of her perky nipple, and just like that, we both started to torment her poor little grape that was stuck in between our two lips and tongues that were drenching it in our fluids and waterboarding it in our saliva, which I'm pretty sure would probably make her nipple plead with us to stop the torture it was going through if it had a mouth of its own...

Chapter 175: Sharing A Oversized Bun

Slurp!~ Lick!~ Slurp!~

My mother didn't hold back at all when sucking on her breast, as she would take the entire tip, push it into her mouth, and start sucking on it so hard that her cheeks caved into her mouth.

She would let go of her breasts and then look at me as if she were asking me to do the same, which I did as I took her breast in my hand like we were both sharing an oversized bun and started sucking on it like I was trying to get to the hidden cream inside the bun.

your-chapter-source-MvLeMpYr

Slurp!~ Suck!~ Lick!~ Slurp!~

Rather than when she had a taste of her udders, my mother seemed to enjoy it much more when I put my lips on her nipples and bit on the edge of it like I was trying to scrape of the tip of her nipple into my mouth, which would always make her tighten the grip on my cock and use her thumb to nudge the bulbous tip of my cock like she was trying to do the same.

And once I had my fill of her breast that was drenched in my saliva and handed it back to her so that she could get a bite, she would first stick her pink tongue out and slide it over her breast like she was cleaning off my spit on her breasts.

And would then only properly suck on her nipple, showing just how she valued my bodily fluids like it were a commodity that she didn't want to waste and have all for herself.

I also didn't want to let my mother feel as if she were alone and wanted her to experience a proper 'special moment' with her son, so while she was sucking on the tip of her hard nipple, I put my lips on her purple areola underneath and started sucking on it like I was trying to pull that smooth layer of skin into my mouth.

Massage!~ Swirl!~ Squish!~ Massage!~

I sucked on that part of her body that felt like the thinnest layer of leather so much that her already bright purple areola was starting to turn much darker from all that suction force, and now it looked like the circular patch on her breast was tanned to be a much darker tone.

It was especially very contrasting when you compared it with her breast on the left that hadn't been touched in a while, since it had been reserved for our future daughter and had a lonely nipple that was a vibrant purple like a lavender flower.

While the one I was sucking on looked like it had been worn, torn, and abused by the both of us and looked like there wasn't a day someone hadn't sucked on it and left their dirty mark on it.

Suck!~ Lick!~ Slurp!~

And seeing that I was having such a good time sucking on her areola that surrounded her nipple like it was an island, my mother also decided to join in on the fun and slid her lips down her nipple and started to suck on the small purple island around the tip of her breast as well.

Slurp!~ Suck!~ Slurp!~

I sucked and bit down on the lower half of the patch of tender skin, and she did the same on top.

We were both licking and running our tongues along her breasts, so it was inevitable that both our saliva would merge and mix into one another, but it was really no problem for us since both us mother and son were perverts that loved the taste of one another and happily licked off one another's bodily fluids with a satisfied look on our faces.

The area we had to share was also very small compared to her massive breasts, and our lips often touched when we ran into each other's path while teasing the tip of her breast. But we didn't see that as a hindrance and used it as an opportunity to suck on each other's lips and give each other as many quick kisses as we could.

Kiss!~ Slurp!~ Kiss!~ Suck!~

While my mother only gave gentle pecks on my lips when both our lips met, like she didn't want to disturb me too much while I played around with her nipple in my mouth, I wasn't as passive as her and stuck my tongue into her lips every chance I got while at the same time nibbling on her nipples.

Suck!~ Kiss!~ Suck!~

I would stick my tongue into her mouth, run it along her teeth, and then play around with her timid tongue, which would surrender every time it met my tongue, and then pull my tongue out to go back to sucking on her nipple again.

Bite!~ Slurp!~ Bite!~ Nibble!~

And when I got tired of biting on her breast, which already had my bite marks all over it, I would go towards my mother's lips, which were always sucking on the tip of her nipple, like she was addicted to the sensation of her own nipple in her mouth, and stuck my tongue in and did the same thing again, much to my mother's dismay.

My mother had no say in whatever I was doing to her, as I was too forceful and aggressive for her to handle, and she could only silently watch as I invaded her mouth and breast every time, leaving her out of breath with limpid eyes that were going through an intense experience of a lifetime.

Haah!~ Haah!~

All she could do while my tongue roamed around her mouth like it was searching for a treasure hidden inside was savour the taste of my drool that came with my tongue, which she would gulp down to make sure that I didn't take it back with me when I pulled my tongue out of her mouth.

And also increase the speed in which she jerked my dick off, which she had been doing from the start, no matter how hot and dizzy she felt right now, like she had never forgotten her main purpose of doing all this, which was to make me cum.

I could've let this moment simmer for a bit longer, as playing with my mother's breast while she also joined in was something that I had never experienced before and was something that I just didn't want to give up because of how exciting it was, but I also felt my mother's hand start to tremble like she was starting to get really tired of stroking my cock all this while but was still persevering to the end, so I decided to stop holding back and blow just like she wished for.

So, whilst I kissed my mother right on her lips while her nipple was in between our bottom lips and in our mouth; which would get battered by my tongue whenever I moved it around inside of my mother's mouth and also flooded by the saliva that flowed between our mouths, I shot my load that my mother had been anticipating for a while now right on to her naked breasts.

Splurt!~ Splurt!~

My jizz shot straight onto the bottom of her breasts since they were in their way and dripped down onto her abdomen, which made my mother take in a breath of air while she bit her lower lip and closed her eyes, when she felt the hot viscous fluid flowing down her belly.

"So, I guess we can stop right here since I've finally cum, mom and got to sleep..." I said jokingly as I watched my mother squeeze out the leftover cum in my shaft in a very meticulous manner.

But my mother seemed to have different plans in mind, as she looked at me with slight disdain and mockery, as if she were asking if I was joking when I asked to stop now.

She then gave a playful grin while her eyes turned from that of a lamb caught in a trap to that of a cougar out on the hunt for some prey, and to my sudden surprise, she pushed me down onto the bed, where I completely rested flat on my back.

Push~

She then didn't even give me a chance to react to the sudden development and stood up from my lap and onto the bed, standing right above me, and started to take off her pants right before me.

Swish~ Swish~

Bounce~ Jiggle~ Bounce~

Her movements were precise and graceful, and it didn't take long for her to take off her pants and throw them in some corner, leaving her standing completely naked before me with her buxom breasts hanging down like juicy mangoes on a tree and her legs that were slender near her feet but became plump and thick near her thighs, giving her the perfect figure that any man can ask for.

Other than the single piece of thin underwear that was stopping me from seeing her pussy that was currently drenched, with how I could visibly see her love juices drip out of her nether regions and down her smooth brown legs, my mother was completely naked before me.

Drip~ Drip~

But that piece of fabric also didn't stay on her body for too long, as while looking down on me from above with a seductive look on her eyes like she found a toy that she was going to absolutely ravish to her heart's content, she lifted her leg and slowly took off her panties, revealing her soaking wet pussy to me that looked like it was throbbing to get my cock inside of it.

Chapter 176: I Think You Need Some Help

"...Hold on there, mom; I thought you were just going to make me cum and leave it off like that." I said as I stared at her pussy that was dripping down its love juice into my thighs, that felt like hot oil from a frying pan that burned my skin upon contact. "Why do you suddenly look like you're going to take my dick all the way inside of you and stir it around until your insides are all a mess?"

"When did I say that I was only going to make you cum, Kafi?" My mother asked as she eyed my erect cock that was pointing right at her dripping pussy, like it was calling out to it.

"I said that I would help your cock calm down after standing solid for an entire day...But looking at how hard it is now, like it has no intention of settling down after a simple handjob, I think that I need to do a bit more than a little stroking to help satiate it's hunger."

"And you think taking it into your sopping pussy is the best way to do that, mom?" I asked as I kicked off the pants on my knees and adjusted myself on the bed so that it would be optimal for my mother to do what she was craving to do.

"Why not?" My mother said with a lewd smile on her face as she spread her pussy open with her hands and crouched down a bit, like she was trying to show me how pink her insides were compared to her coffee brown skin that covered most of her body.

"Do you not want your mother's throbbing pussy to envelope your fat cock that's been standing all day just for this moment?...Are you disgusted because your mother's vagina is sopping wet right now and is making obnoxious noises because of how slippery it is now, since it looks dirty and vulgar to your eyes now?"

"Your small little cunt can be pouring out your love juice like a waterfall, and I'd still put my mouth right on top of it to gulp down whatever it gives, mom..." I said as I stretched my hand out to stroke the groove between her two lower lips, which covered the tip of my fingers in her viscous fluids, and then brought it to my mouth to lick off my fingers to show that there wasn't a single part of her that I didn't love, which made her pussy twitch at the sight.

"...But I'm afraid that you won't be able to take such a large rod inside that tiny little hole of yours on your own and might injure yourself on your way."

"Similar to what would happen if you tried to stuff a bamboo pole into the hole of a donut, I'm afraid the end result would be horrendous for you, and I think you need some assistance from me to save that beautiful little pussy you have, and not mar it by yourself and make it unrecognisable to the eye."

I pointed out one of my fingers in one hand and made a small circle with my finger in the other hand, and tried to pierce my finger into that hole that wasn't even a millimetre wide to show an example of what would happen.

My mother gulped when she saw how the only way my finger could enter that small hole was when the hole enlarged multiple times its original size, and she wondered if that was what was going to happen to her pussy when my massive cock entered it.

But she still threw those thoughts out of her head so that she wouldn't let herself get scared by me, and she said with a confident look on her face,

"Hmph! I think that you're underestimating the versatility of a woman's vagina, Kafi, as this is also the same part of the body that gives birth to babies."

"And it's also the same part of me that's going to birth our cute little baby girl into this world, so I really don't think that I have to be scared of something like your cock that simply looks terrifying but isn't anything much in actuality." My mother said as she stepped on the bottom of my shaft, pushed my cock onto my abdomen, and started to rub it with the sole of her soft feet, which was exciting in its own way, especially with the way she was standing on top of me now and looking down at me like I was a bug.

Step~ Step~ Rub~

"You also forgot that I'm not as inexperienced as I was yesterday and have already taken your flimsy dick inside of me, so it's nothing new to me." She said as she lifted her feet and stepped on my cock that was rising up every time she took her feet off it multiple times, as if she were telling it to know its place.

"Well, I also think that you forgot that you fainted the moment you took my dick all the way to your gut and that there will also be an entire team assisting you with the birth of our daughter, which kind of changes your perspective of taking my dick inside of you on your own, doesn't it?" I said, which made my mother's eyes flash with hesitation and made her stop stepping on me, allowing my cock to stand erect like a flag pole.

"I only fainted yesterday because it all happened all too quickly and I didn't have any time to prepare my mental state to take such a big thing inside of me..." My mother said after building up some courage so that her son didn't look down on her when she was the one on top of me while I was beneath her feet, but still looked nervous nonetheless and did her best to make herself seem as tough as possible.

"And women back in the day didn't have the facilities like we do now to give birth and did it all by themselves if they had to, so who's to say that I can't do it all myself as well."

Spread~

"Your pussy, mom...Your pussy is what's telling me that you can't give birth yourself." I said as I brought my hands to her vagina and spread it open to show just how tiny her hole was, that it looked like it could barely even fit in a pencil.

"Even though you may be brave enough to give birth on your own, this small little pussy of yours that's tighter than the average cunt is going to be a massive hindrance when you give birth, and you're probably going to need an entire team by your side so that you don't faint mid-birth."

"Be quiet, Kafi! Mommy has the same vagina as everyone else, and there's nothing different about it!" My mother exclaimed with a flushed look on her face, even though I knew her's was the tightest hole that I had ever entered, like a tunnel that grew narrower the more you entered, which would choke you by the end and refuse to let go.

"And whether you like it or not, I'm going to push your puny little cock all the way into me and show you that I can do anything on my own and make you stop looking down on me!"

"Okay fine~" I put my hands up in acceptance and defeat. "If taking your beloved son's cock, whom you've raised your whole life by yourself, is so important to you, then by all means go for it..."

"Ah! Don't say it like that! It makes what I'm about to do so vulgar and wrong!" My mother shouted in a fluster and lightly stepped on my cock to punish me for speaking to her, my mother, in such a lewd way.

"Sure, but if you want some help while taking my cock into you midway, then just give me a call and I'll help you out and make sure that you don't tear your own pussy..." I said in a laidback manner, put my hands behind my head, and relaxed myself with a smile on my face, like I was going to watch a good show.

"Hmph! Just you wait, Kafi!" My mother said as she nervously looked down on my cock, which was staring right back at her, which sent a shiver through her body. "I'll show you!"

Chapter 177: Wrong Hole

After her proclamation, my mother stared at my cock with an intense look in her eyes, like she had just found a worthy opponent that needed to be defeated, and took a few breaths to brace herself for what was about to come inside of her, literally and figuratively.

And after steeling her mind and gripping her fists as hard as she could, she bent down her legs like she was crouching and slowly descended down, with her wet pussy right on top of my cock.

Descend~

But just as she was solemnly going down on me and was about to enter me at any moment while having a solemn atmosphere around her, I interrupted her pace and made her stop by saying,

"Mom, wait....Before you do anything, let me make sure of one thing."

"W-What is it, Kafi? Can't you see that Mommy is quite busy right now?" She said in a vexed manner after getting interrupted when she was concentrating so much, and she looked at me like she was telling me to hurry and tell what I needed to say.

MVLEmPyR-your-story-source

"Well, I normally never would've made sure of such a thing if any other girl was doing what you're doing right now, since it's quite obvious and no one would make such a mistake...But since you're quite clumsy in nature and make hasty decisions, let me just say this in case you mess up..." I said with a serious look on my face, like it was a life-threatening matter, which made my mother more nervous than she already was, and she looked at me, wondering just what I was about to say.

"I just wanted to make sure..." I paused as I looked straight at her shaky eyes, which made her gulp out of fright at what I was going to say. "...that you put your pussy into my cock and not the hole behind you, as you seem like someone who would somehow accidentally slip on a bed and take your anal virginity yourself by some dumb accident."

"What happened yesterday was fine since a vagina was literally meant to take and release a large object through it, and you somehow managed to come back alive after taking my dick all the way through."

I said as I watched my mother's face turn livid at how obviously I was making fun of her clumsiness that caused her to lose her virginity, when she thought that I was going to say something serious.

"...But if you suddenly drop your ass down onto my cock and peirce it straight through your asshole, then I'm afraid you're accidentally going to rearrange your guts, and I'm going to have to spend the rest of the night in the emergency room while you sit on the bed with a burning asshole...So, I hope you know what you're doing and take your time, since I don't want to be explaining to the doctor why my mother has a loose ass that just won't close up."

I looked up at her with pleading eyes, like I was seriously asking her to be careful in case anything happens, but my lips betrayed me as I couldn't help but smile at the thought of my mother accidentally taking her anal virginity as well, which was actually something that could happen, and silently started laughing.

Snicker~ Snicker~

"That's it, Kafi! That's the last straw!" My mother cried out in a rage with tears in her eyes, when she saw me poking at her trauma from yesterday that she wanted to forget at all costs.

"To make a mockery of your mother like this, who's raised you your whole life, just because she slipped up once!~...I'll show you that I can do it properly if I want to without screwing it up and rub mud all over your handsome face, that I just can't seem to hate no matter how much you make fun of me!~"

My mother exclaimed while glaring at me with pitiful eyes that were wet from how much her son was constantly bullying her.

And she also bit her lips in frustration because no matter how much her son made fun of her, she couldn't seem to get mad at him, as every time she saw the charming smile on his face, her feelings of vexation would melt away and would be replaced with overwhelming joy that she had such a handsome son as her partner.

But that didn't mean that she was going to give up and not show that she wasn't to be messed with, so in a haste of a moment to prove me wrong, she looked at me one last time to make sure I was watching her do what I said she couldn't, then looked down to see her target, which was my penis that was standing erect, and after confirming her mark, she closed her eyes, praying to God that everything would go alright, and dropped her ass down at full speed onto my cock, like she was trying to tell me that she didn't even need to look or take it in slowly to shove my cock up her pussy.

Swish!~ Drop!~

When I saw the reckless act she was doing to prove her point, I was scared shitless, as there was a very high chance of my clutz of a mother actually taking my cock into her asshole and ruining whatever was inside, when I was simply joking around before.

Swish~

I even moved my hand to stuff my finger in her asshole, just in case, so that I could block my penis from entering it and tearing it apart with no preparation whatsoever.

Pierce!~ Squelch!~

But it seemed like it was unnecessary, as somehow, even while closing her eyes and dropping down at full speed, my mother had managed to take my cock into her pussy which I instantly knew the moment I felt something wrap around the tip of my cock and also when I heard the sound of a fleshy fruit being punctured near my crotch.

Luck was on my mother's side, as somehow, without even looking at where she was going, she managed to push her pussy half way into my cock. And currently, I couldn't see the tip of my cock and could only feel it throbbing inside of her body, which felt so hot and slippery like a humid dungeon that was alive and tightened up every time it breathed.

Tighten~ Tighten~

I also wasn't kidding when I said that her cunt was the tightest that I had entered, as I could feel her inner walls trying to push the rod invading it out, only to be stopped by my mother, who was crouching on top with her eyes wide open and mouth parted, while looking at the ceiling, trying her best not to cry out at the feeling of having such a large object inside of her.

Haah~ Haah~

She seemed to be going through a mix of pain and stinging pleasure down there, as even though I could see my mother biting her lips and starting to tear up from her eyes, her pussy was also starting to leak out fluids from within that started flowing down my shaft as a reaction to her abrupt penetration.

Drip~ Leak~ Drip~

Chapter 178: I Can Enter Your Womb?!

"Are you alright, Mom? Do you need my help?" I asked out of genuine concern, ready to lift her off at any moment she asked. "Don't be stubborn and ask for my help if you really need it, since I really don't want to be rolling you around on a wheel chair tomorrow because you can't walk."

"I-I'm fine, Kafi...T-There's nothing you need to worry about at all...." My mother said as she took deep breaths to relax herself and her muscles down there that were gripping my penis, while looking down at her vagina's hole that had actually expanded in size after taking my dick in and was the size of a golfball, which scared her.

"...I-I'm just a bit scared that my lips down there will be loose after taking your penis in, since I've never seen them enlarge in such a way."

"Nothing like that should happen, mom, since, just like you said, the human body is quite versatile and can go through all sorts of abuse without any permanent damage."

I said, even though I had the same thoughts as her, but I reassured myself when I remembered that she had already taken in my dick yesterday and nothing like what she said had happened. "But are you really fine, mom, since you look like you're really struggling?"

"I promise not to laugh or even speak a word of it if you ask for some assistance, so please don't hesitate to tell me if you need any help." I advised her again, as I didn't want to see my mother impaled like a kebab.

"I really am fine, Kafi...Just look at this; I can even take more of your penis into me." To show that she was really okay, my mother clenched her teeth while sweat dripped down her back onto my legs and crouched down even further, which pushed my dick more than halfway into her pussy.

Slide~ Push~

This was already a benchmark achievement, as most girls I've been with in the past couldn't even take half of my dick in since there was no space left in their tunnel for my dick to explore, because it had already been clogged up by my dick.

And only the most experienced and abnormal women could take anymore than that, which would always have them trembling violently in the end, like they were going through a seizure.

But here my mother was taking half my dick in one go and pushing it down even further, with all the strength she could gather in her body, which was already commendable in my book and made me want to applaud her stubbornness, which was incomparable to the average person's.

I also wanted to praise her body and overall female anatomy in this world, as they were definitely different from the average female body morphology back on Earth, since even though more than a pencil's length of my dick was in her, I felt like I could go even deeper, which would be impossible back on Earth.

And just as I was thinking about how her body worked, I saw something that absolutely blew my mind and made me rethink just how spectacular the structure of her body was.

"Oh shit, mom! Look at your tummy!" experience-MVLeMpYr

I shouted in shock and pointed at her abdomen, which seemed to have some protrusion coming out of it from the bottom, like something was poking the inside of her stomach and making a outward dent form above the area where her bush was.

"Look at what?...Oh this?"

My mother looked below, and to her surprise, she found the faint outline of something moving up her abdomen from the inside, but she didn't look as flabbergasted as I was and even looked a little intrigued at what she saw.

"I guess this is what happens when you have a penis as big as yours, Kafi, that enters my womb after it has already filled up my vagina."

"My penis can enter your womb!?" I asked in an absurd manner as I saw the protrusion in her stomach that looked like a snake slowly move above.

"C-Can it not?" My mother struggled to say as she could feel a hot pole slowly entering her insides, being equally ignorant of how sex worked in this world.

"...I mean, if your penis was smaller than it was, then I don't think there's any chance of you reaching somewhere like my womb; that's all the way up here...But when you've got a log for a penis, I really don't see any issue with that happening since both the vagina and womb are connected."

"Or am I wrong to think that?..."

My mother asked me when I was as clueless as her as to what was going on, since I knew that her body was different than what I was used to. But not to the extent that I could feel her womb opening up for me.

"B-But..But..." I wanted to argue with her that it didn't biologically make sense but quickly realised that I wasn't in a world where everything made sense, and that I should just stop overthinking it and enjoy what was given to me.

"Ahhhh!~::~"

Squirt!~ Squirt!~ Squirt!~

And just when I thought that things couldn't become even more ridiculous, I suddenly heard my mother moan out in ecstasy as she threw her head back, unable to control herself, when she was so calm and composed until now.

And along with the raunchy moan she let out that only made my dick harder than it already was, her pussy suddenly started to squirt out an absurd amount of transparent fluids, which soaked the entirety of the lower part of my white t-shirt and made my abdomen feel all sticky and moist.

Squelch!~ Squirt!~ Squelch!~

It was almost as if my mother decided to have an intense orgasm while taking my dick in and peeing all over me after being unable to control her bladder from all the intense tremors her pussy was going through.

But that didn't make sense as she was fine all this while and was even talking to me normally while biting her lips, but all of a sudden decided to squirt all over, which made it obvious that something was up.

"Goddammit, mom?! What happened now?!" I asked in a frantic manner, losing my usual cool, as this bizarre situation was new to me as well, and I didn't know if it was good or bad. "Why did you suddenly decide to squirt all over me?!...I-Is your body okay?!"

"...I-I'm fine, Kafi. Y-You can relax." My mother slowly looked at me with dreary eyes, like she had just felt a lightning bolt zap through her body, while her chest moved up and down to take a breath and compose herself after that outburst. "M-Mommy just felt an intense feeling inside of her vagina when your penis started to enter my womb, and I couldn't help but c-cum a little."

"...S-Sorry for ruining your dress once again like I did yesterday, but Mommy really couldn't help it when she felt the fat tip of your penis go through the entrance of my womb and ended up making a mess once again." My mother said in a guilty manner and bent down to place her hands on my chest, since she couldn't support herself anymore after that orgasm she experienced now.

Bounce~ Bounce~

Her massive breasts that looked like mushy cantaloupes also dropped down along with her body and hung over my chest, which made me want to reach up and have a nibble of her lavender-coloured nipple that was sticking out of her brown breasts because of how hot and excited she was now.

Chapter 179: Unnecessary Worries

But I had bigger doubts that I cared for on my mind, so I ignored her bountiful breasts that were swinging before me as my mother gave seductive pants to calm herself down and asked slowly, with a peculiar look on my face,

"My dick is inside your w-womb right now, mom?...As in the same place that you make babies?..."

"I think so, Kafi, as after a certain point it felt like your penis had hit some kind of flesh wall inside of me. And out of curiosity at what would happen if I pushed myself in even further, I crouched down even more, and all of a sudden, I felt something open up inside of me and felt your penis slide into a part of me that I didn't even know that I had before..."

My mother said as she tried pulling my penis out a bit. But just as she thought, it didn't slide out as easily as she thought, which confirmed that the bulbous tip of my penis was lodged in a tight place that it wasn't meant to be in.

"...And once that happened, my pussy went crazy and started spasming out like I set off some kind of trigger the moment you entered my womb, which made me squirt all my fluids all over you."

My mother tried to wash off the squirt by rubbing my wet shirt with her hands. But because her love juice was so viscous in nature, it refused to go away so easily, which made my mother look down in embarrassment at squirting on her son once again like a pervert.

"So wait, does that mean I really am inside of your womb now?" I asked once again, as the fact that I was in her baby-making room was incomprehensible to me.

"Come on, Kafi~ How many times are you going to make me repeat such a shameful thing, as a son entering his mother so deeply that he had penetrated her womb~" Her face flushed as she explained what was happening in her pussy in a detailed manner, so that I understood.

"And just like how I can feel the tip of your penis enter an unfamiliar place that feels quite empty, don't you also feel as if you entered a new area that hasn't been touched until now?" My mother asked as she gyrated her hips around to see just exactly where my cock was inside of her.

Squirt!~ Squelch!~ Seep!~

But it only ended up with her pussy getting even wetter than it already was, as her womb seemed to be a very sensitive place that made her secrete out fluids whenever it was touched or provoked.

"No, not really since your pussy is so tight that it feels like it's choking my dick out, so I can't really feel anything down there and feels kind of numb." I told her the truth to her surprise about how tight her walls actually were, which felt like they were trying to strangle my shaft.

But if I concentrated really hard on the tip, I could feel that there wasn't any pressure, as if there was nothing restricting my dick there, and actually felt a bit humid, warm, and empty, which was something that I had never felt before.

"Woah, look, Kafi!...It's quite obvious that your penis is in my womb when you look at this!" My mother suddenly exclaimed and pointed at her tummy, which had a rod-shaped object protruding out of it, like the bump before had moved up her abdomen and grown even bigger.

It was quite faint before, and I wouldn't really have noticed if my mother hadn't stretched out her tummy. But now it was much more prominent and looked like a snake was growing along the inside of her skin on her belly.

Touch~ Stroke~

I could even touch it, which I did, and it felt like I was touching something stiff that had a layer of fat over it, which, to my surprise, brought forth a moan from my mother, like I touched a spot on her body that shouldn't have been touched.

"Hyaa!~" My mother let out a yelp when I ran my fingers across the protrusion on her abdomen and quickly grabbed my hand and said, "K-Kafi, don't touch that part like that, since it feels like you are pushing your penis into my womb even further when you do that!~"

"You can even feel that inside of you?"

I asked, since I had only gently touched her, to which she nodded timidly and looked down at the shape of my dick and caressed it herself while keeping her whimpers to herself. check-out-MvLeMpYr

Caress~ Caress~

"Then, since your body is giving such weird reactions whenever I go near your womb, I think we should retreat from that zone for now and think about it another day." I asked to pull out, which I never normally ask to do when the session hasn't even begun, since I was extremely unfamiliar with this kind of bizarre sex and didn't want to accidentally hurt my mother due to my ignorance.

But my mother had different plans in mind, as she looked at me and pleaded, saying,

"No, Kafi!~ Why should we do such a thing when we're so close to taking all of your penis inside of me!~"

"Isn't it obvious?...It's because your body's reacting in such a weird way whenever we do anything that involves that part of your body, and I don't want to risk something happening to you just for some carnal pleasure."

I said in a concerned manner, as hot as I found it that I could push my cock all the way into her, I also didn't know if her body was built for that and risk it, since she wasn't some kind of sex tool that I could use and throw and someone that I genuinely loved with all my heart and wanted to keep safe at all costs.

"Yes, my body is reacting in ways that it has never done before, I-like squirting all over you just from entering your womb or sending shivers through my body when you touch it..." My mother accepted while looking at her pussy, which was continuing to slowly secrete out fluids as she spoke, which made me wonder just how much ejaculate she had inside of her.

"...B-But all those reactions my body has been going through are all signs of a woman going through intense pleasure, s-so I think it should be fine if we go in even further..."

Stare~

I stared my mother dead in the eye when I heard just how perverted she was—that she had let her lustful emotions take over her rationality and was willing to risk her safety for a chance at overwhelming pleasure, which made her look away in embarrassment at being looked like a dick hungry whore.

But even though my mother was dying to know what would happen if she pushed my dick all the way in, I was still scared at what would happen if I truly entered her womb since that seemed quite dangerous to my earthen mind, that had never seen such a thing happen before.

I had thought that my dick was still inside her vagina yesterday and was fine with it. But now that I knew it was actually in her baby-making room, I was scared that it might affect her reproductive ability if something went wrong and was hesitating to move forward.

But my hesitation completely disappeared when I got a message from the Gods who seemed like they couldn't watch me struggling so much and wanted me to move on so that they could watch a good show.

Ding~

[You idiot...This is the World of Milfs made specifically for you, where a lot of things don't make any sense but just happen for the convenience of the trial and to make it a better watching experience for the Gods watching above....So don't worry about common sense and do what you truly desire to do without holding back, as you have my promise that nothing bad will happen]

I didn't even care that Evageline called me an idiot and was overjoyed and breathed a sigh of relief, knowing that my mother was in the safe zone no matter what I did, and laughed at myself for overthinking it.

But it was better to be safe than sorry, so I didn't have a single regret about hesitating so much...

Chapter 180: Lend Me Your Hands

"K-Kafi..."

While I was thinking that it actually felt really nice to be called an idiot by Evageline since it made us seem much more familiar with one another, my mother timidly called out to me like she had something to say but was too embarrassed to admit it.

"C-Can you do your mother here a favour, without reminding me about what I said in the past and poking fun at me?..."

"What is it, mom?~ What favour does my adorable little mother want?~" I asked with a smile on my face as I pinched and pulled on her puffy cheeks, being a lot more relaxed knowing that there was no danger ahead.

I also knew what she was going to ask, but let her speak since I enjoyed how embarrassed she looked right now and wanted to savour it a bit more.

"...Well, both you and I know that I told you that I would be able to take all of your penis into me without needing your help, and nothing really has changed in that aspect as I really am going to do what I said without your help!" She hurriedly said so that I didn't misunderstand her for someone who didn't keep her word and so that I didn't look down on her, as at the end of the day, there was no mother who wanted to be looked down on by their own son.

"But at the same time, I'm also kind of scared of doing such an extreme thing as taking your massive penis all the way into me that I'm pretty sure that no woman in this world has gone through since their partners surely don't have a penis as big as yours..." My mother casually dissed every man in this world in the name of asking for a favour from me.

"...S-So I was hoping that you could forget what I said about doing everything by myself and lend me your hands, so that I could hold them for some support when going further down onto you since I'm pretty sure I would be much more confident with what I'm doing, knowing that you are right by my side all along the way."

She quickly said and looked away with closed eyes, ready to get bombarded by teasing from me for asking for my help when she promised that she wouldn't earlier.

But to her surprise, I didn't do such a thing and simply held out my hands for her to grab and said in a carefree manner, welcome-to-NovelFire

"Of course, mom~ You've held these hands of mine so that I didn't stray from the path all throughout my life~ So it's only my duty to lend them to you when you need them the most~..." I said which made an appreciative look appear in my mother's eyes, like she was proud of raising such a caring son.

But that look quickly turned into dismay when I added, "...even though what you're asking my hands for is driving your son's cock all the way through you, and is something that you could never say to anyone else because of how shameful it is."

Stare~ Pinch~

My mother glared at me for my comment and pinched my chest that she was resting her hands on.

She then pushed herself off from my chest, crouched straight with 70% of my dick in her hole, and caught a hold of both my hands that I had held up to her so that I could support what she was about to do.

Descend~

And then, while making sure that all her fingers were interlinked with mine and taking a deep breath, making sure I was by her side, my mother descended further down my crotch and slowly took all my dick into her pussy that was continuously ejaculating fluids all the way through, like it was trying to make the process much smoother.

Squelch~ Squelch~

I thought that my mother would take breaks in between and take her time to take my cock all the way through her small womb, which felt like an empty cavity in her body that was hot and humid, which wasn't built for taking my cock in.

But to my surprise, my mother simply bit her lips and lowered her ass in one smooth motion, no matter how much it hurt that she wanted to cry out or how pleasurable it felt as my cock grazed the opening of her womb and took all of my dick in until I couldn't see anymore of it left outside.

Squelch~

The only proof that I had a dick was gone and inside of her hole. And seeing how tightly her inner walls, which felt so slimy and wet, were gripping the shaft of my cock, it didn't seem like it was going to come back anytime soon.

"See, Kafi...Didn't your mother say that she could do it herself?" My mother said in a low voice as she looked at me with an exhausted look on her face, as if she had just run a marathon and was struggling to breathe.

"Just look at how deep I took your cock into my hole to the point it's showing through my tummy, and tell me that I did a terrible job at taking your thick dick into me...I dare you..."

She looked at the rod-like protrusion in her abdomen in a proud manner, like taking my massive willy into her was a big achievement, which it actually was since no girl could or had taken it this deep before.

I was also struggling to stay calm, as having the entirety of dick wrapped around layers of soft tissue and muscles that wanted to squeeze me to death was new to me, and I felt like I was going to blow at any moment because of how good it felt.

"I was wrong, mom. You did a really good job at what you said you were going to do and proved me wrong, which I will wholeheartedly accept as defeat..."

I said as I stretched my hand out to pat her head as a reward for proving me wrong, which she happily accepted with a content smile on her face even though she had such a massive object up her pussy now that was actually poking the top of her womb, sending shivers through her body whenever she moved, which she tried so hard to control to act strong and brave in front of me.

"But now that you're all the way in, all that's left for you is to move around, or else it wouldn't be called sex and more like I'm poking your insides for the fun of it..." I joked as I brought my hands down her body while sliding them around her bulging breasts that were hanging right on top, and caught her waist firmly so that I could support what we were going to do.

"...So, the question now is, are you going to be the one moving or, by chance, do you want me to help you out and-"

"No, I'll be the one moving!" My mother quickly exclaimed, like she was scared that I would take her well-deserved position. "Since I'm your mother and your elder, it's my duty to lead you when it comes to such things and take charge of such important matters, so I'll be the one moving, and don't you dare take that from me, Kafi!"

"Sure...If that's what you wish." I accepted seeing how excited she was to shake her hips on my crotch, praying to God that she doesn't break her hips along the way because of how much of a clutz she was...
