Chapter 3721: Re – exploring the ancient tomb at Mount Yu (1)

The next morning, Xia ruofei, Song Wei, and Ling Qingxue had breakfast together. After they cleaned up, they went straight to the rooftop.

To Xia ruofei's surprise, Li Yifu was already waiting on the rooftop.

The wind on the island was very strong, and Li Yifu's white beard was ruffled by the wind. However, he still didn't move, and it seemed that he had been waiting for a long time.

"Greetings, martial granduncle! Greetings to the two martial grandmother!" Li Yifu quickly greeted the three of them respectfully.

Xia ruofei frowned and said,"adopted husband, Didn't I tell you yesterday that I don't need you to send me?" Why are you still here?"

"Martial granduncle is going on a journey, how can this disciple not send you off? This is unreasonable!" Li Yifu lowered his head and said.

Xia ruofei did not know whether to be angry or to laugh. Seeing Li Yifu's expression, he was slightly touched. His tone softened and he asked,""How long have you been up here?"

"This disciple didn't know when martial granduncle would leave, so I was cultivating on this balcony last night." Li Yifu said respectfully.historical

"You ..." Xia ruofei pointed at Li Yifu with a helpless expression.

However, Xia ruofei did not know what to say to him. In the end, he could only smile bitterly and say,""Alright... You're too kind ..."

No matter what he said, he would not listen. He promised but still did things his way. Xia ruofei could not do anything about it. He could not really punish Li Yifu for such a thing.

As the saying goes, one shouldn't blame others for being too polite!

"Wei Wei, Qingxue, let's go!" Xia ruofei said.

With that said, he casually took out the black Phoenix flying ship.

The flying boat quickly enlarged and then quietly hovered above the rooftop.

Xia ruofei and the other two jumped onto the flying boat.

"This disciple will respectfully send off martial granduncle!" Li Yifu immediately bowed and said.

Xia ruofei stood on the deck and waved his hand.""You can go back! Let's go! Guard Peach Blossom Island well, contact me by phone if you need anything!" "Yes, martial granduncle!" Li Yifu said.

Xia ruofei didn't say anything else. He used his mind power to communicate with the core control of the flying boat. The black – armored flying ship trembled slightly before its speed increased rapidly. In the blink of an eye, it had disappeared into the horizon.

Chapter 3723: Easy and relaxed (1)

Ling Qingxue was the first to jump down from the hole. Xia ruofei immediately held her in his arms, followed by Song Wei. Xia ruofei easily held his two close female friends in his arms. He stepped on the blue travel immortal sword and the three of them were suspended in the corridor full of eerie sculptures.

Song Wei looked at the statues and the scene from when she entered the tomb of Mount Yu appeared in her mind. She said with fear,””Ruofei, be careful. We circled here for a long time and couldn’t get out... There were also traps and hidden weapons...”

Xia ruofei smiled and said, “”That was in the past, but I’m no longer the little cultivator I was back then. In terms of array Dao, I’m much stronger than I was back then.”

Xia ruofei then pointed to a spot in the corridor and said,””At that time, I had indeed just come into contact with array Dao and was confused by this kind of trap and kill array!

Now, he could basically see the flaws of the array with a glance. Even if it can't be easily broken, it's still relatively easy!"

Then, Xia ruofei took out a spiritual stone from the spirit map space and handed it to Song Wei. He smiled and said,""Did you see the tile I pointed at just now? Can you inject true Qi into it and directly hit the spirit stone in the center of the floor tile?"

"I'll try!" Song Wei said after some hesitation.

"If... I accidentally miss, will there be any serious consequences?" she asked.

Back at the ancient tomb on Mount Yu, she was the one who let her guard down and ran straight for the rope that was hanging down. In the end, she stepped on a tile and triggered the array. If Xia ruofei had not reacted in time, she would have been shot to death by the arrows.

That was why she was already traumatized.🅕🅡🅔🅔🅦🅝.🅒🅞🅜

Xia ruofei laughed and said,"don't be afraid. I'm here." Don't worry, just do it. It doesn't matter even if you're wrong!"

"Alright!" Song Wei said after taking a deep breath.

She held the spiritual stone tightly in her hand and looked deeply at the tile that Xia ruofei had pointed out. After aiming, she poured her genuine Qi into the spiritual stone and threw it out.

To a cultivator's eyes, this was a child's play. The main reason was that Song Wei had a psychological trauma, so she was very careful.

Song Wei was so careful that the spiritual stone could not miss. The spiritual stone hit the floor tile accurately. The spiritual stone was infused with true energy and moved very fast. It made a whistling sound as it touched the floor tile. It quickly shattered. Song Wei had used all her strength. If the spiritual stone hit a human body, it would definitely leave two holes.historical

After the spirit stone shattered, a wave of energy spread out.

The floor tiles looked completely undamaged, and the material was definitely of good quality.

Song Wei and Ling Qingxue stared at the corridor in front of them, but they could not see any changes.

However, in Xia ruofei's eyes, the entire trap & kill array had already been broken.

This floor tile was not the main array eye of the entire trap & kill array, but it was a weak link that was not very obvious. If it was the Xia ruofei of the past, he might not have been able to find it even after studying it for a long time. However, he had inherited so many array Dao inheritances and had gone through a lot of practice. His eyesight was no longer the same as before. He found it almost at a glance.

Chapter 3725 - 3725: Another battle with the spirit body (1)

Chapter 3725: Another battle with the spirit body (1)

The space and time formations had always been the most complicated formations.

This Space Array was the same. The seemingly simple array pattern actually contained countless changes.

The minute difference in each arc could lead to a completely different result.

The so – called “great Dao is simple” was roughly this principle.

Even with Xia ruofei’s array Dao level, it would still be very difficult for him to completely understand such an array technique.

Fortunately, Xia ruofei was not here to learn about arrays. He did not need to understand the most basic principles. It was enough for him to understand the different possibilities brought about by the changes in the array.

In this place, he only needed to “know how it is”, and not “know why it is.”

Formations served specific purposes, and the main function of this formation was transportation.

Xia ruofei started his analysis from the teleportation function.

He analyzed the different teleportation effects that different array patterns would bring.

This was especially so for the realm stone in the center of the formation. How would the formation be activated upon contact? this was the core of the formation’s function and was also the main point of Xia ruofei’s analysis.

Xia ruofei simulated in his mind again and again how the other array patterns would operate once he touched the realm stone. He also simulated how the teleportation destination would change under the effect of the entire array.

In fact, the amount of calculation required was not low. However, with Xia ruofei’s current array Dao level, he could still manage it.

Song Wei and Ling Qingxue stood beside Xia ruofei. Seeing that he was staring at the formation without moving, they did not dare to disturb him. They just stood there quietly.

As time passed, Xia ruofei did not seem to have any intention of taking any further action. Song Wei and Ling Qingxue were not impatient either. They knew that Xia ruofei must be analyzing the array, so they waited patiently at the side.

After a long time, Xia ruofei finally heaved a long sigh of relief and said,””This formation is really exquisite! From the scale of this underground Palace and the design of this formation, it can be seen that the senior who set up this underground Palace had a skill in the Dao of formations that people could only look up to.”

Xia ruofei's array skills were already enough to make song Wei and Ling Qingxue look up to him. Even in the entire cultivation world today, his array skills could be said to be superior to everyone else.historical

Even Xia ruofei was full of praise for this formation. It was clear that this was indeed a very exquisite formation.

Fortunately, Xia ruofei was not here to learn about arrays. He did not need to understand the most basic principles. It was enough for him to understand the different possibilities brought about by the changes in the array.

In this place, he only needed to "know how it is", and not "know why it is."

Formations served specific purposes, and the main function of this formation was transportation.

Xia ruofei started his analysis from the teleportation function.

He analyzed the different teleportation effects that different array patterns would bring.

This was especially so for the realm stone in the center of the formation. How would the formation be activated upon contact? this was the core of the formation's function and was also the main point of Xia ruofei's analysis.

Xia ruofei simulated in his mind again and again how the other array patterns would operate once he touched the realm stone. He also simulated how the teleportation destination would change under the effect of the entire array.

In fact, the amount of calculation required was not low. However, with Xia ruofei's current array Dao level, he could still manage it.

Song Wei and Ling Qingxue stood beside Xia ruofei. Seeing that he was staring at the formation without moving, they did not dare to disturb him. They just stood there quietly.

As time passed, Xia ruofei did not seem to have any intention of taking any further action. Song Wei and Ling Qingxue were not impatient either. They knew that Xia ruofei must be analyzing the array, so they waited patiently at the side.

After a long time, Xia ruofei finally heaved a long sigh of relief and said,""This formation is really exquisite! From the scale of this underground Palace and the design of this formation, it can be seen that the senior who set up this underground Palace had a skill in the Dao of formations that people could only look up to."

Xia ruofei's array skills were already enough to make song Wei and Ling Qingxue look up to him. Even in the entire cultivation world today, his array skills could be said to be superior to everyone else.

Even Xia ruofei was full of praise for this formation. It was clear that this was indeed a very exquisite formation.

Song Wei turned to look at Xia ruofei and asked,""RUO Fei, does this mean that ... You've already seen through the pattern of this formation?"

Xia ruofei smiled."! have a certain judgment. However ... Whether it's correct or not, it needs to be tested."

"You're going to test the array?" Ling Qingxue could not help but ask.

"Of course, time is the only standard to test the truth!" Xia ruofei chuckled and said,"if you don't try it yourself, it'll always be empty talk."

"That makes sense!" Ling Qingxue laughed and said,"true knowledge comes from practice!"

Song Wei was a little anxious. She quickly said,"Since we're going to test the array, then the three of us will do it together!"

Last time, she had been separated from Xia ruofei here, so she had been traumatized.

Now that Xia ruofei wanted to test the array again, Song Wei was reminded of the situation back then. The helpless situation back then had left an indelible shadow in her heart.

Xia ruofei waved his hand and said,""Wei Wei, there's no need for that. Although I'm just testing out the function of the formation, I'm actually quite confident in it. There's no need to be so nervous."

“But...” Song Wei said anxiously.

“Let me finish.” Xia ruofei laughed and said,”even if my judgment is wrong, I’m confident that I can minimize the danger and return to this jade stone platform without any problems!”

Song Wei secretly sighed and said,””Alright! You’re an expert in formations, I trust your judgment!”

Xia ruofei gently pinched Song Wei’s soft hand and smiled.””Don’t be too nervous. I’m just doing a simple experiment to confirm my judgment. Remember, after I’m teleported away, don’t move and don’t touch the core of the formation. Do you understand?”

Xia ruofei was very serious. Song Wei and Ling Qingxue both nodded in agreement. This was not a joke. If they touched the core of the array, they might really die.

Xia ruofei and Song Wei were lucky that they were not teleported to a dangerous place. Otherwise, they would have died in the underground palace.

This could be considered as the ignorant being fearless!

After Xia ruofei had instructed Song Wei and Ling Qingxue, he slowly walked to the center of the Jade stone platform. At the core of the array, the realm stone was placed there quietly. It was exactly the same as when they had first entered.

However, in Xia ruofei’s eyes, this seemingly calm Jade stage was actually filled with all sorts of array patterns. Each array pattern contained several changes and when combined together, there were countless possibilities.

However, Xia ruofei had already done a thorough analysis of the teleportation array’s functions. Hence, the array patterns had evolved into various possibilities in Xia ruofei’s eyes.

He steadily walked to the world stone in the center of the Jade stone platform.

Chapter 3726: Another battle with the spirit body (2)

However, Xia ruofei didn't act immediately. He just stood quietly in front of the realm stone.

In fact, Xia ruofei's brain was spinning at full speed.

This was because these array patterns weren't stationary. Instead, after every change in the array pattern, the location of the transfer would change.

In other words, where the cultivator would be teleported to would depend on the timing of the world stone. historical

Xia ruofei had been waiting for this moment.

He stared at the brilliant array pattern in front of him and used his brain power to do a lot of complicated calculations.

After a few minutes, Xia ruofei finally found the right time. Then, without hesitation, he stretched out his hand and pressed on the realm stone.

The array pattern trembled slightly, and the teleportation function of the array was activated.

The scene of the stone pillars and the stone platform collapsing appeared in front of him again. However, Xia ruofei did not realize that this was a side effect of the teleportation array. Now, although the scene appeared again, Xia ruofei was not affected at all. This was because the scene was more or less distorted in his eyes and could be easily seen through.

This was the stark difference between Xia ruofei's current cultivation and strength.

Song Wei and Ling Qingxue could only watch as the white light flashed on the Jade stone platform. Then, Xia ruofei disappeared into thin air.

Although they were mentally prepared, the two of them still couldn't help but subconsciously let out a cry of surprise.

After the flash of white light, the Jade platform returned to its usual tranquility.

Song Wei and Ling Qingxue looked at each other.

This kind of quiet environment was actually even more frightening, especially when Xia ruofei had disappeared just like that. The person that the two of them trusted the most was gone. They were more or less feeling a little guilty.

"Wei Wei, where did RUO Fei get sent to?" Ling Qingxue asked in a low voice.

"1 don't know!" Song Wei shook her head. However, RUO Fei did this because he was confident. He was not a reckless person. Let's just wait here quietly. Remember RUO Fei's words, don't touch the core of the formation without permission."

Ling Qingxue nodded and said,"yes!" This formation is a bit evil, 1 don't dare to take the risk! Let's just obediently wait for RUO Fei!"

At this moment, Xia ruofei's voice came from behind them.""Hahaha! You guys are quite obedient! 1 couldn't resist my curiosity and touched the core of the formation."

The two of them turned around in surprise ...

Space and time formations had always been the most complicated formations.

This Space Array was the same. The seemingly simple array pattern actually contained countless changes.

The minute difference in each arc could lead to a completely different result.

The so – called "great Dao is simple" was roughly this principle.

Even with Xia ruofei's array Dao level, it would still be very difficult for him to completely understand such an array technique.

Fortunately, Xia ruofei was not here to learn about arrays. He did not need to understand the most basic principles. It was enough for him to understand the different possibilities brought about by the changes in the array.

Chapter 3727: Victory in battle (1)

The last time Xia ruofei encountered the spirit in this stone room, the strongest and most direct feeling he had was that it was extremely fast. Xia ruofei did not even have time to react. Even if his brain could react, his body could not keep up.

And that was when the spirit body had already taken over Song Wei's body. In fact, because it had not completely taken over her body, its speed and strength were affected to a certain extent. It was definitely not as fast as when it was a pure spirit body.

Even so, Xia ruofei could only make use of the time formation flag to make up for the difference in speed by using the difference in the flow of time inside and outside the formation.

However, the spirit body managed to break the seal very quickly. It made use of Song Wei's body to make Xia ruofei cautious and approach the time formation step by step.

This time, the other party was in the state of a pure spirit body, and his speed was a bit faster than the last time.

However, Xia ruofei was no longer the ignorant fool he was back then.

Before he entered the stone room, he was already on full alert. As soon as the spirit body appeared from the corner, he noticed it immediately.

This time, Xia ruofei's first thought was that the spirit body's speed had slowed down.

Although it was still extremely fast compared to ordinary people or cultivators, Xia ruofei could see its movement. It was no longer as impossible to guard against as it was last time. At that time, the spirit was still occupying Song Wei's body, but it was so fast that Xia ruofei felt that she was teleporting.

Of course, it wasn't because the spirit body had slowed down. It was because Xia ruofei's reaction speed and overall strength had increased by more than one level. Thus, in comparison, he felt that the spirit body was slower.

Xia ruofei could see clearly that the spirit body's movement was very erratic, making it difficult to predict its path.

In the blink of an eye, the spirit body had arrived in front of the three of them.

Ling Qingxue and Song Wei finally reacted. However, with their speed and strength, they couldn't Dodge at such a close distance.

In fact, they were much stronger than Xia ruofei when he first entered the stone room.

It was just that neither of them had any actual combat experience, so when a strong enemy was in front of them, they immediately became flustered.

Chapter 3729 - 3729: The copper coffin! Another copper coffinl i

Chapter 3729: The copper coffin! Another copper coffinl i

historical

A look of despair gradually appeared on the spirit body's face. At the same time, it was also filled with a trace of unwillingness. It dodged frantically while shouting,""Junior! Don't you go too far! If I was at my peak back then, killing you would be as easy as killing chickens and dogs!"

This spirit body was at least in the middle Yuanying stage. However, after losing its physical body, it focused on cultivating the spirit body, and its strength was greatly reduced. However, it was difficult for ordinary late Jindan cultivators to defeat it.

Unfortunately, its opponent was Xia ruofei. With his purplish – Gold golden core and his spiritual power, which was comparable to that of a mid – Stage nascent soul cultivator, he had completely suppressed the spiritual body in the battle. There was no chance of him turning the tables.

Xia ruofei's attack didn't slow down. He sneered,""What's the point of saying such harsh words? A real man doesn't boast about his past achievements. The truth is that you are no match for me!"

"The Tiger is being bullied by the dog!" The spirit body shouted in exasperation.

"You think you're worthy of being called a Tiger?" Xia ruofei laughed coldly."A thing that only knows how to hide in the corner of the underground palace and secretly snatch people's bodies! What's the use of talking so much nonsense, let's just fight!"

Xia ruofei's attacks were getting stronger and stronger. Song Wei and Ling Qingxue, who were watching the battle from the side, were also amazed. They rarely saw Xia ruofei in real combat.

After seeing Xia ruofei today, he suddenly felt that Xia ruofei was really extraordinary.

Especially Song Wei. She had a psychological trauma towards this spirit. Now that she saw that the fierce – looking spirit was completely suppressed by Xia ruofei and that it was only a matter of time before it lost, her admiration for Xia ruofei could not be any greater.

As the attack circle further shrank, the spirit body became more and more stretched.

A sharp glint flashed in Xia ruofei's eyes as he increased the speed of his attack. The blue immortal sword and the qushuang flying sword were like swimming Dragons as they attacked the spirit body. His palm, which was filled with vital Qi, turned into countless shadows, completely blocking the spirit body's escape.

The spirit body's eyes revealed a look of despair.

Xia ruofei's eyes flashed with killing intent. It was time to end this one – sided battle.

At this time, the spirit body had no space to Dodge at all, and the blue travel immortal sword was directly slashing at the spirit body's neck from a strange angle.

Although a spirit body didn't have a physical body, a sharp flying sword infused with vital Qi could cause fatal damage to it.

Pffft!

The figure that was transformed from the spirit body was cut open from the neck by the blue travel immortal sword, and his head almost fell off.

The flying sword of qushuang followed closely behind, whistling down from above.

At this time, the spirit body had no time to Dodge. The flying sword of qushuang directly pierced through the Spirit body's head, almost piercing through it.

The spirit body was stunned. Its eyes were filled with disbelief. It couldn't believe that it had suffered for more than two hundred years in exchange for such a cowardly ending.

Just as qushuang's flying sword pierced through the Spirit's head, Xia ruofei heard two voices in unison."Stop! Don't kill it!"

However, the sound came too late. Even Xia ruofei could not stop in time. Otherwise, he might have suffered from the backlash.

He only had time to slightly slow down the speed of the flying sword.

However, this was far from enough. The flying sword of bent frost still pierced through the Spirit body's heart.

If it was an ordinary cultivator, they would have died on the spot under the attack of these two swords.

After all, a spirit body didn't have a physical body. Therefore, although it was severely injured, it didn't die immediately.

At this time, the spirit body had completely given up on dodging. It just stood there in a daze. Its life force was dissipating at an extremely fast speed, and its vision was finally gradually darkening...

After a while, the spirit body fell to the ground.

At this moment, Xia ruofei finally came back to his senses. He recalled the two voices that had transmitted to him to stop him from killing the spirit body.

He was very familiar with the two voices.

One of them was master Yuntai, who was staying in the mountain and sea realm of Xia ruofei's spirit map space.

Actually, layman Yuntai was also in the state of a pure spirit body. He was currently living in the mysterious ore that Xia ruofei had placed in the mountain and sea realm.

However, this guy would go into seclusion to cultivate from time to time. The last time he appeared was in the mystic Luna realm. It could be said that he was a Dragon that moved about and never appeared.

A look of despair gradually appeared on the spirit body's face. At the same time, it was also filled with a trace of unwillingness. It dodged frantically while shouting,""Junior! Don't you go too far! If I was at my peak back then, killing you would be as easy as killing chickens and dogs!"

This spirit body was at least in the middle Yuanying stage. However, after losing its physical body, it focused on cultivating the spirit body, and its strength was greatly reduced. However, it was difficult for ordinary late Jindan cultivators to defeat it.

Unfortunately, its opponent was Xia ruofei. With his purplish – Gold golden core and his spiritual power, which was comparable to that of a mid – Stage nascent soul cultivator, he had completely suppressed the spiritual body in the battle. There was no chance of him turning the tables.

Xia ruofei's attack didn't slow down. He sneered,""What's the point of saying such harsh words? A real man doesn't boast about his past achievements. The truth is that you are no match for me!"

"The Tiger is being bullied by the dog!" The spirit body shouted in exasperation.

"You think you're worthy of being called a Tiger?" Xia ruofei laughed coldly.."A thing that only knows how to hide in the corner of the underground palace and secretly snatch people's bodies! What's the use of talking so much nonsense, let's just fight!"

Chapter 3730: The copper coffin! Another copper coffin!_2 .

Xia ruofei's attacks were getting stronger and stronger. Song Wei and Ling Qingxue, who were watching the battle from the side, were also amazed. They rarely saw Xia ruofei in real combat.

After seeing Xia ruofei today, he suddenly felt that Xia ruofei was really extraordinary.

Especially Song Wei. She had a psychological trauma towards this spirit. Now that she saw the fierce spirit being completely suppressed by Xia ruofei and it was only a matter of time before it lost, her admiration for Xia ruofei could not be any greater.

As the attack circle further shrank, the spirit body became more and more stretched.

A sharp glint flashed in Xia ruofei's eyes as he increased the speed of his attack. The blue immortal sword and the qushuang flying sword were like swimming Dragons as they attacked the spirit body. His palm, which was filled with vital Qi, turned into countless shadows, completely blocking the spirit body's escape.

Xia ruofei didn't expect the spirit body to have such an important role. He couldn't help but take a deep breath and said anxiously,""Uncle – Master Zhao, if that's the case, RUO Fei's recklessness this time has caused big trouble ..."

The senior in the coffin smiled and said,""I've fought with this spirit body several times in the past, and in the end, we both suffered heavy losses. I had no choice but to use this cold Yin place to control my injuries, but this spirit body's injuries are even more serious. Its physical body has been completely destroyed, and only this corner of the underground palace can barely keep its spirit body from being destroyed ..."

After saying that, the senior with the copper coffin sighed and continued,""In fact, my injuries have recovered quite well over the years, but the spirit body has been weakening day by day. Over the years, if 1 wanted to kill it, it would be as easy as turning my hand over. The reason why i have kept it is to balance the cold Qi in this underground Palace!"

Xia ruofei listened attentively and did not interrupt senior copper coffin. He just listened quietly.

"The yin Qi here is extremely dense, and it can be considered one of the more dangerous secret realms in the cultivation world," senior copper coffin continued. Back then, this old man and that spirit body fought here for a day and a night, and in the end, both sides were injured. This old man could only use this copper coffin as a shelter, absorbing Yin Qi day and night to recover from his injuries. The spirit body was the same; it was already a pure spirit body, and although the yin Qi couldn't allow it to regrow a physical body, it could at least greatly reduce the speed at which the spirit body dissipated. We've been absorbing the yin energy with all our might all these years, so ..."

Speaking of this, the senior in the copper coffin couldn't help but sigh and say,""In the beginning, almost all of the yin energy in the underground palace was gone. As time passed, my injuries slowly recovered, and I naturally didn't absorb as much yin energy as I did a few years ago. The amount of yin energy consumed by the spirit body is almost fixed every day, so the amount of yin energy we absorb is getting less and less. The underground palace has also gradually reached a balance between yin and yang..."

Xia ruofei finally understood. He said,""In that case, the spirit body has already been killed by me, so the yin Qi here will only increase?"

"That's right!"Senior copper coffin said with a smile. I believe it won't be long before this place becomes a true land of extreme Yin ... At that time, it won't be so easy to come in again."

The copper coffin senior then changed the topic and said,”Of course, even if you didn’t come in and kill this spirit body, as my injuries get better, my need for Yin Qi will also decrease correspondingly. By then, I’m sure that the spirit body won’t be able to keep up with the speed of the growth of the yin Qi, so it won’t have much of an impact. At most, you’ll just accelerate the process by killing the spirit body.”

“I understand ...” Xia ruofei said.”I was too rash ...”

Senior copper coffin waved his hand and said,”let’s not talk about this ... By the way, didn’t I remind you last time not to enter the underground palace before reaching the nascent Soul Stage?” This old master isn’t trying to scare you, but there are many areas in this underground Palace that are extremely dangerous. Even golden core cultivators will find it difficult to escape from those places!” “Thank you for your concern, uncle master Zhao!” Xia ruofei smiled and said,”it’s just that I’m a little impatient. We’ve been very careful this time and followed the same route as last time. We didn’t dare to barge in.”

Chapter 3733 - 3733: A bold inference (1)

Chapter 3733: A bold inference (1)

Senior copper coffin smiled and said,”Shanhe is a firm supporter of the third point of view!” He was proficient in the art of divination and was one of the most outstanding people in the younger generation of the cultivation world at that time, so his opinion naturally received the support of many people ...”

“Then ... How did the cultivation world deal with this matter?” Xia ruofei asked,”why did all the cultivators above the nascent Soul Stage disappear? why did the cultivation environment on earth continue to deteriorate?” .

Senior copper coffin shook his head and said,”I’m not too sure about this. Not long after, a life – and – Death battle broke out between me and that spirit body in this underground Palace. In the end, both of us were injured. We hid in this dark corner to recuperate. Without realizing it, hundreds of years have passed

Xia ruofei couldn’t help but feel a little disappointed. He had a feeling that he was about to unveil the mystery of this matter, but he didn’t expect that senior copper coffin’s understanding of the situation would end here.

But right at this time, senior copper coffin revealed a thoughtful expression, and said,””But... I did hear some news ...” He said.

After saying that, senior copper coffin looked at Song Wei and Ling Qingxue, who were not far away. After thinking for a while, he changed his tone and said,”Nephew, this matter is of great importance. The cultivation of your two Dao companions is too low. It’s

not a good thing for them to know too much, and it may affect their Dao heart, so let's talk about it through voice transmission!"

Xia ruofei immediately nodded.'Alright. This concerns the survival of the cultivation world. Please enlighten us, uncle master Zhao!"

Senior copper coffin smiled and transmitted a message,'"TH naturally tell you everything 1 know. In fact, I also want to know what happened back then! Nephew, before I agreed to fight with the spirit body, I heard a piece of news. However, with the passage of time, I'm afraid it's hard to tell whether it's true or false. I'm only telling you this as a reference."

"Uncle – Master Zhao, please speak!" Xia ruofei transmitted his voice.

Senior copper coffin nodded and continued to transmit his voice,""It's like this. 1 heard that a few leaving aperture stage cultivators seemed to support Shan He's point of view. They seemed to be planning to go to the moon to investigate!" .

"Hiss ..." Xia ruofei could not help but gasp.

If even the cultivators of the leaving aperture stage at that time were inclined to believe that external evils were on the moon, it meant that this conclusion was very reasonable. Furthermore, it was very likely that the powerful beings had already discovered something when they went to the moon to investigate, and that was why the mystic Luna realm was created later on?

When Xia ruofei was in the mystic Luna realm, he had a feeling that the mystic Luna realm was selecting talents. The person who set up the mystic Luna realm must be an Almighty.

Could it be a secret realm set up by the few powerful people who went to the moon to investigate?

What did they find?

Why would they set up a secret realm in such a secret place to select talents? According to that method, how many talents could be selected?

Xia ruofei's mind was filled with thoughts.

"Nephew! My dear nephew!"

Senior copper coffin's voice woke Xia ruofei from his thoughts. He quickly said,""I'm sorry, uncle – Master Zhao, 1 was a little distracted just now."

"Did you think of something?" Senior copper coffin asked.

Xia ruofei's brain was spinning quickly. The existence of the mystic Luna realm seemed to be of great importance, and the selection mechanism was rather strict. Hence, he decided not to reveal it so easily, even to this senior copper coffin.

After all, he had only met Xia ruofei twice and he had only said that immortal mountain river was his old friend. He had to be careful since he did not know the other party well.

Hence, Xia ruofei quickly shook his head and said,""It's because martial uncle Zhao's news was too shocking, that's why this junior was a little dazed!"

Senior copper coffin looked at Xia ruofei. Of course, he knew that Xia ruofei was making an excuse, but he didn't pursue the matter. He knew that everyone had their own secrets. If Xia ruofei didn't want to talk about it, there was no point in asking.

Having lived for hundreds of years, this senior had long understood.

Senior copper coffin smiled and continued to transmit his voice,""This news was told to me by Shanhe because he also has to accompany several seniors in the leaving aperture stage to the moon. This is almost an unprecedented feat in the world of cultivation. That kid was very proud of himself at that time and kept showing off in front of me."

"If that's the case, the authenticity of this information is very high." Xia ruofei said.

Senior copper coffin nodded and said,"Shanhe, you don't have to brag in front of me. This should be true." Unfortunately, I was soon trapped in this deep underground Palace, and I didn't know what happened after that. By the way, you said that you're not a disciple that Shan He personally accepted, but that you've only inherited his magic weapon?"

Xia ruofei nodded and said,"yes!" In fact, ever since 1 entered the world of cultivation, I've never seen any seniors above the nascent Soul Stage, including my master... By the way, martial uncle Zhao, what was your and my master's cultivation level at that time?"

Senior copper coffin smiled and said,"Shanhe is stronger than me. However, he is at the late – Stage of the nascent soul realm, while 1 am at the mid – Stage." In the world of cultivation at that time, our cultivation could only be regarded as the backbone of the force. However, Shanhe was very young. Among the cultivators around his age, the best were only in the middle stage of the nascent soul realm.. He was the only one who had reached the late stage of the nascent soul realm!"

3734 A bold inference (2)

Xia ruofei couldn't help but find it funny. It seemed that this senior in front of him was also one of the "best"!

"Then ... If master was still in the human world, what level would his cultivation have reached?" Xia ruofei continued to ask.

Senior copper coffin looked a little embarrassed and said, "If Shanhe wasn't seriously injured like me and his strength wasn't greatly affected, he should have reached the primordial soul realm at the very least after so many years. He might even have reached the leaving aperture realm...

Speaking of this, senior copper coffin couldn't help but let out a long sigh and said,""The battle a few hundred years ago really took a toll on my vitality. For so many years, I've basically made no progress... No! To be more precise, my strength has been greatly damaged. Even if I recover my cultivation before I was injured, it will be an extremely difficult thing for me."

Xia ruofei understood. It seemed that this senior had been recovering from his injuries all these years. Naturally, he had put less energy into his cultivation. This was something that could not be helped.

From the looks of it, the senior in the coffin should be around the early stage of the original level. He had not fully recovered to the middle stage of the original level, but he should not have fallen to the Golden core stage. Otherwise, he would not have been able to suppress the spirit body.

Xia ruofei couldn't help but be alert. This copper coffin senior was as famous as immortal mountain river back then. He must have been an outstanding talent. However, because of a serious injury, he had to waste hundreds of years. His strength had declined instead of improving. This was a heavy lesson.

When he was in the Army, Xia ruofei would often listen to the leaders 'teachings."Don't treat other people's accidents as stories, or you might be the next one to get into an accident!

Therefore, Xia ruofei was deeply touched by the matter of senior copper coffin. At the same time, he secretly warned himself that it was better to be careful than to sail a ship for ten thousand years. He could not get carried away at any time, or else he might lose everything if he took a wrong step.

"Senior uncle Zhao, how long will it take for you to recover from your injuries?" Xia ruofei asked after some thought.

Senior copper coffin revealed a bitter smile and said, "It's easier said than done to recover completely. However, after two to three hundred years of hard work, I've finally recovered most of my injuries. I estimate that in another three to five years, I won't need

the yin Qi here to suppress my injuries and will be able to recover to 90% of my previous strength. I can only rely on myself to slowly repair the rest. However, I will be able to leave this damned place by then."

"Then I wish you a speedy recovery, uncle Zhao!" Xia ruofei nodded.

Once this copper coffin senior ended his 300 – year seclusion, it would mean that there would be another mid – Stage nascent soul cultivator in the world of cultivation. At that time, Chen Nanfeng and the first heaven society would no longer be the only dominant force.

However, three to five years was nothing to senior copper coffin. He had persevered for hundreds of years, so three to five years would pass in the blink of an eye. .

Senior copper coffin laughed and said,"thanks for your kind words!" Thank you! Thank you ... Nephew, I see that your cultivation is improving at a godly speed. Perhaps in three to five years, when I come out of seclusion, your cultivation will have already surpassed mine!"

Xia ruofei said,"uncle – Master Zhao, you may not know this, but the cultivation environment on earth is very harsh now. Cultivation has become a very difficult thing. Let alone mid – Stage or late – Stage nascent soul realm, even if you can break through to the early – Stage nascent soul realm, you'll be a peerless master." So far, only Chen Nanfeng, the sect master of the first heaven sect, has done it." Xia ruofei couldn't help but look worried."Uncle – Master Zhao, the cultivation world on earth is in such a terrible state. That means... My master and the other leaving aperture stage cultivators 'trip to the moon didn't go well ... The environment on earth is still deteriorating!"

Speaking of this, senior copper coffin couldn't help but let out a long sigh and said,""The battle a few hundred years ago really took a toll on my vitality. 3735 A heavy responsibility (1)

How could Xia ruofei not know what the copper coffin senior had said? *i.cₒm*

Everyone understood the logic, but when he felt that this heavy burden was on his shoulders, Xia ruofei still felt extremely stressed. He forced a smile and said,”uncle – Master Zhao, I understand... Please rest here and recuperate. I’m sure that with master and those powerful seniors here, the situation won’t deteriorate to an irredeemable stage.”

Senior copper coffin bitterly smiled and said,””No matter how anxious I am, I can’t do anything about it. To be honest ... Even if I were to recover and come out of seclusion right now, I wouldn’t be of much help with my mid – nascent Soul Stage strength ... Since things have come to this, I can only do my best and leave it to fate! I hope that the heavens will not destroy our cultivation world!”

Xia ruofei nodded and said,”””The heavens will always leave a way out. There must be hope!”

Senior copper coffin was panting slightly. He nodded and said, “Mm! Nephew, since you’ve come to this underground Palace, you can explore the places I’ve pointed out to

you. You might be able to gain something. As for the other areas, I advise you not to take any risks for the time being. Your current cultivation is still too low."

Xia ruofei nodded and said,"I understand!" Please don't worry, martial uncle Zhao, I'm not a reckless person. I won't joke around with my life." .***m***

Xia ruofei saw that senior copper coffin seemed to be in a dispirited state and guessed that he wouldn't be able to come out for too long, so he said, ""Martial uncle Zhao, you're still seriously injured. You should hurry and continue to recuperate! This junior will take his leave now!"

Senior copper coffin's face was a little pale. He nodded and said," "Alright! Since nephew was able to find this place, you can come and visit me when you have time and tell me about the situation in the cultivation world ..."

"No problem! Perhaps this junior has a lot of cultivation questions that I would like to ask you!" Xia ruofei said with a smile.

"I can't give any guidance to the disciples of the mountain river sect." Senior copper coffin smiled and said,"alright, I have to return to the copper coffin immediately. Otherwise, my injuries will continue to worsen! Nephew, let's part ways here!"

"Alright, I'll take my leave!" Xia ruofei bowed.

The copper coffin senior nodded slightly, and then lay back in the coffin. The lid of the coffin slid over silently and closed. Then, a loud bang sounded, and the huge copper coffin sank into the wall again. After the copper coffin senior returned, Song Wei and Ling Qingxue felt the pressure on their bodies ease up. Although the copper coffin senior's cultivation had dropped due to his serious injuries, his spiritual power was still extremely high. After he appeared, Song Wei and Ling Qingxue, who were only in the Qi refining stage, could not help but feel the pressure in the air.

This kind of feeling was rather uncomfortable. After senior copper coffin left, the two of them felt as if a heavy burden had been lifted off their shoulders.

Ling Qingxue couldn't help but let out a long breath, then asked impatiently," "RUO Fei, what did you talk about with this senior? Why are you still hiding it from me and Wei Wei?"

Xia ruofei turned around and looked at the wall where the coffin was buried. He said," "Go! Let's go out and talk!"bender

With that, Xia ruofei pulled Song Wei and Ling Qingxue out of the stone chamber.

He led his two female confidants and skillfully bypassed the winding tunnel. It didn't take long for them to find an entrance.

The three of them stood at the entrance of the cave and looked down. Below them was still the huge square, and the Jade stone platform in the center of the square could be clearly seen. Chapter 3737 - 3737: The mysterious lake (1)

Chapter 3737: The mysterious lake (1)

It seemed that this small lake was formed by the water droplets dripping from the stalactites.

Water drops pierced through rocks. It was unknown how long this place had existed, but the water droplets that continued to fall from above had created such a large crater in the rocks on the ground, forming a small lake.

Xia ruofei and the other two did not feel any danger here, but they still did not dare to let their guard down. Xia ruofei maintained the state of spiritual power radiation. He was on guard and looked around.

The cave was very quiet. Other than the sound of water droplets falling on the lake surface, there was basically no other sound. The footsteps of the three people formed an echo in the cave, which felt very empty.

Xia ruofei thought to himself,"senior copper coffin specifically pointed out this cave. What kind of opportunity is there?"

The interior of the cave was almost unobstructed. Other than the stalactites, the small lake below, and the craggy rock wall, nothing else could be seen.

Xia ruofei had also used his spiritual power to check carefully. There were no fluctuations of any arrays here. .

Besides, Xia ruofei used his spiritual power to check the places where there might be traps. He did not find anything unusual.

In other words, he could basically rule out the possibility of formations and traps.

Of course, unless the formation or mechanism could fool Xia ruofei's eyes.

Xia ruofei brought Song Wei and Ling Qingxue to his side and started to walk along the walls of the cave. They walked around the small lake and checked it out bit by bit. Sometimes, the detection of spiritual power was not omnipotent, especially in places where spiritual power might be suppressed. The naked eye was more useful.

However, the three of them still didn't find anything after walking around.

Xia ruofei looked at the small lake. Nothing seemed out of the ordinary. The only thing that could have changed was the small lake.

Actually, when Xia ruofei first entered the cave, his attention was focused on the lake.

However, after scanning with his mental power, he found that it seemed to be just an ordinary Lake. There was nothing special about it, so he put it aside for the time being and checked the surrounding environment first.

Now that there were no clues in the surroundings, Xia ruofei naturally focused his attention on the small lake.

He carefully examined the lake water again and still didn't find anything special. It felt like ordinary water.

However, when he wanted to investigate the situation at the bottom of the lake, he immediately felt a trace of abnormality. The lake's suppression on mental power was extraordinary, and his mental power could not go any deeper.

Xia ruofei suddenly became energetic.

His mental power was already comparable to a mid – Stage nascent soul cultivator. It was very unusual that he couldn't go deep into the lake.

Xia ruofei did not increase his spiritual power to check the situation at the bottom of the lake.

He then continued to analyze the lake water.

The lake water looked very clear, colorless and odorless, and under the investigation of his spiritual power, it did not show any unusual signs.

If there was nothing wrong with the lake water, then there must be something at the bottom of the lake that was suppressing his spiritual power.

However, Xia ruofei did not ignore the lake. Instead, he carefully examined it again. Even if he did not find anything unusual, he did not let his guard down.

He pondered for a moment and decided to take a fish from the river in the mountain and sea realm. Not only were there all kinds of fish, shrimp, crabs, and other creatures in the sea, but there were also some freshwater creatures in the river.

Xia ruofei had checked the lake and knew that it was freshwater, so he decided to try it with a freshwater fish.

With a thought, Xia ruofei took the chub out of the spirit map space and threw it into the small lake in front of him.

Song Wei and Ling Qingxue were shocked when they saw Xia ruofei take out a live fish from his spatial treasure.

They also knew that magical treasures like storage rings couldn't store living things. Even if a living thing was put in, it would die instantly.

However, they were already used to Xia ruofei's miracles, so they didn't think too much about it. Perhaps Xia ruofei's storage treasure was special, or perhaps he was using an array to protect these living creatures. After all, his array Dao was extremely high. In short, there were many possibilities. In their opinion, as long as Xia ruofei wanted to, there was nothing he couldn't do.

So, they quickly focused their attention on the fish.

After the chub entered the lake, it became extremely excited as if it had been injected with chicken blood. It swung its tail and dived into the depths of the lake.

However, the chub didn't swim far. Everyone could still see it clearly through the water. At this time, the chub suddenly exploded without warning... It seemed that this small lake was formed by the water droplets dripping from the stalactite.

Water drops pierced through rocks. It was unknown how long this place had existed, but the water droplets that continued to fall from above had created such a large crater in the rocks on the ground, forming a small lake.

If there was nothing wrong with the lake water, then there must be something at the bottom of the lake that was suppressing his spiritual power.

However, Xia ruofei did not ignore the lake. Instead, he carefully examined it again. Even if he did not find anything unusual, he did not let his guard down.

He pondered for a moment and decided to take a fish from the river in the mountain and sea realm. Not only were there all kinds of fish, shrimp, crabs, and other creatures in the sea, but there were also some freshwater creatures in the river.

Xia ruofei had checked the lake and knew that it was freshwater, so he decided to try it with a freshwater fish.

With a thought, Xia ruofei took the chub out of the spirit map space and threw it into the small lake in front of him.

Song Wei and Ling Qingxue were shocked when they saw Xia ruofei take out a live fish from his spatial treasure.

They also knew that magical treasures like storage rings couldn't store living things. Even if a living thing was put in, it would die instantly.

However, they were already used to Xia ruofei's miracles, so they didn't think too much about it. Perhaps Xia ruofei's storage treasure was special, or perhaps he was using an array to protect these living creatures. After all, his array Dao was extremely high. In short, there were many possibilities. In their opinion, as long as Xia ruofei wanted to, there was nothing he couldn't do.

So, they quickly focused their attention on the fish.

After the chub entered the lake, it became extremely excited as if it had been injected with chicken blood. It swung its tail and dived into the depths of the lake.

However, the chub didn't swim far. Everyone could still see it clearly through the water. At this time, the chub suddenly exploded without warning... It seemed that this small lake was formed by the water droplets dripping from the stalactite.

Water drops pierced through rocks. It was unimown how long this place had existed, but the water droplets that continued to fall from above had created such a large crater in the rocks on the ground, forming a small lake.

Xia ruofei and the other two did not feel any danger here, but they still did not dare to let their guard down. Xia ruofei maintained the state of spiritual power radiation. He was on guard and looked around.

The cave was very quiet. Other than the sound of water droplets falling on the lake surface, there was basically no other sound. The footsteps of the three people formed an echo in the cave, which felt very empty.

Xia ruofei thought to himself,"senior copper coffin specifically pointed out this cave. What kind of opportunity is there?"

The interior of the cave was almost unobstructed. Other than the stalactites, the small lake below, and the craggy rock wall, nothing else could be seen.

Xia ruofei had also used his spiritual power to check carefully. There were no fluctuations of any arrays here.

Besides, Xia ruofei used his spiritual power to check the places where there might be traps. He did not find anything unusual.

In other words, he could basically rule out the possibility of formations and traps.

Of course, unless the formation or mechanism could fool Xia ruofei's eyes.

Xia ruofei brought Song Wei and Ling Qingxue to his side and started to walk along the walls of the cave. They walked around the small lake and checked it out bit by bit. Sometimes, the detection of spiritual power was not omnipotent, especially in places where spiritual power might be suppressed. The naked eye was more useful.

However, the three of them still didn't find anything after walking around.

Xia ruofei looked at the small lake. Nothing seemed out of the ordinary. The only thing that could have changed was the small lake.

Actually, when Xia ruofei first entered the cave, his attention was focused on the lake.

However, after scanning with his mental power, he found that it seemed to be just an ordinary Lake. There was nothing special about it, so he put it aside for the time being and checked the surrounding environment first.

Now that there were no clues in the surroundings, Xia ruofei naturally focused his attention on the small lake. *e*.

He carefully examined the lake water again and still didn't find anything special. It felt like ordinary water.

However, when he wanted to investigate the situation at the bottom of the lake, he immediately felt a trace of abnormality. The lake's suppression on mental power was extraordinary, and his mental power could not go any deeper.

Xia ruofei suddenly became energetic.

His mental power was already comparable to a mid – Stage nascent soul cultivator. It was very unusual that he couldn't go deep into the lake.

Xia ruofei did not increase his spiritual power to check the situation at the bottom of the lake.

He then continued to analyze the lake water.

The lake water looked very clear, colorless and odorless, and under the investigation of his spiritual power, it did not show any unusual signs.

If there was nothing wrong with the lake water, then there must be something at the bottom of the lake that was suppressing his spiritual power.

However, Xia ruofei did not ignore the lake. Instead, he carefully examined it again. Even if he did not find anything unusual, he did not let his guard down.

Chapter 3739: A fruitful harvest (1)

Song Wei and Ling Qingxue had just seen with their own eyes that the lake water could make a chub explode. Now that they saw the lake water rushing towards Xia ruofei, they could not help but feel a little scared.

Xia ruofei laughed and said,”you guys don’t have to worry!” Since I dared to accept it, 1 naturally have a way! Could it be that in your eyes, I am such a stupid and reckless person? Be good and step back a little. Watch how I collect all the lake water!”

Only then did Song Wei and Ling Qingxue obediently step back. However, their eyes were still filled with worry.

Xia ruofei’s back was facing his two close female friends. In fact, the spirit painting scroll had already appeared in his palm.

After the lake water was drawn over, it entered the spirit painting. It seemed like it was all in his palm but in reality, it did not touch Xia ruofei’s body at all.

After the lake water was absorbed into the spirit map space, Xia ruofei naturally did not dare to place it carelessly. The space was filled with precious crops and all his belongings, so he naturally did not dare to let his guard down.

At the mountain sea realm, he used spatial power to create a small space, which floated above the sea of space.

After the lake water entered the spirit map space, it was directly stored in this small space.

It was constructed using the rules of space and was more secure than any other container. After all, this small space had no physical boundary. Even if the lake water was strongly corrosive, it was impossible to damage the small space, especially in the spirit map space. This kind of thing was even more impossible to happen.

Song Wei and Ling Qingxue stared at Xia ruofei worriedly. The lake water was like a Swimming Dragon. Xia ruofei took it from a distance and kept on disappearing from his palm. After a long time, Xia ruofei did not show any signs of abnormality. The two of them were slightly relieved.

Xia ruofei was absorbing the lake water very quickly. Of course, the lake was not that big, so the water level was dropping at a visible rate.

In the mountain and sea realm of the spirit map space, there was a small space above the sea of space that was constructed by an invisible spatial force. It was like a reservoir, and the water level slowly rose.

Xia ruofei controlled it carefully, making sure that every drop of lake water entered the small space.

If there was any leakage, even if it was just a drop, it could cause extremely dire consequences. Below them was the sea of space. If this drop of lake water directly polluted the entire sea, then all the living creatures in the sea would explode and die.

When Xia ruofei was absorbing the lake water, he was actually very careful. After all, the lake could suppress the detection of spiritual power. He was not sure if there was any danger at the bottom of the lake.

After a while, more than half of the lake's water had been absorbed.

Chapter 3741 - 3741: The spiritual turtle (1)

Chapter 3741: The spiritual turtle (1)

Xia ruofei rushed forward with great momentum. Without any fancy moves, he directly punched the turtle's back.

In fact, the turtle had already thought of retreating. However, Xia ruofei's speed was faster than it had imagined. It retreated quickly, but Xia ruofei had arrived first. In the blink of an eye, his fist had landed on the hard turtle shell.

Xia ruofei used almost all of his strength in this punch. Thick vital Qi was poured into his fist and he smashed it hard on the back of the turtle shell.

After a muffled bang, Xia ruofei's fist was in pain from the impact. The turtle's defense was indeed amazing. Xia ruofei felt as if the bones in his hand were about to crack from the impact.

Of course, under such circumstances, the turtle was not in a good state either.

Although the turtle shell was not broken, the force of Xia ruofei's attack had passed through the turtle shell and was directly transmitted to its body. It felt as if its internal organs had shifted and it almost spat out blood.

Fortunately, it was already in the middle jiedan stage. If it was an ordinary turtle, it would have been turned into a pile of meat paste under such a Thunderbolt attack.

However, there was a huge difference in strength between the two. Even if this punch didn't kill the tortoise, it was only temporary. It couldn't escape Xia ruofei's attack range.

Besides, Xia ruofei's ruthlessness had also come up. He did not use his flying sword anymore and did not care about the waves of pain coming from his fist. After that punch, he did not hesitate and threw another heavy punch.

Bang! Bang! Bang! Bang! Bang! Bang!

Muffled sounds could be heard continuously. Xia ruofei seemed to have gone crazy as he kept punching the turtle shell. His own hands were already covered in blood.

Of course, the tortoise was in an even worse state. Its tough shell was already cracking, and its body was suffering from even greater damage. Its internal organs were all seriously injured, and all of them were displaced.

Xia ruofei was not looking for trouble. After the first punch, the turtle had retracted its head and limbs back into its shell, looking like it was ready to be beaten.

Chapter 3743 - 3743: Continue to sweep up the goods (1)

Chapter 3743: Continue to sweep up the goods (1)

The water droplets on the stalactites at the top of the cave were gradually condensing, but it clearly still needed some time before they could fall down.

The spring at the bottom of the lake was constantly gushing out water, so very soon, a pool of clear water had gathered at the bottom of the lake.

Xia ruofei couldn’t help but click his tongue in wonder. Logically speaking, if the spring kept spewing water, this small lake would be filled up sooner or later. Why was the water level always maintained at a certain height?

He raised this question, and the turtle servant explained,””Master, there should be a drainage channel inside the spring, so after the water level reaches a certain height, it won’t rise any further. If too much water drops from the top of the cave, the poisonous

water will even flow through the drainage channel. However, there are very few drops of water falling from the top of the cave, so it basically has no effect!”

Xia ruofei nodded and stood in place, deep in thought.

The turtle was in a terrible condition. It had been seriously injured. After Xia ruofei stopped attacking, it had been channeling energy to heal itself, but its injuries were still worsening. If it were to receive effective treatment, it would not be able to hold on for long. It would die in an hour at most.

The spiritual turtle was very anxious and afraid. However, under the effect of the soul seal, it would not be as angry as Xia ruofei. It did not dare to make any requests and could only wait anxiously.

With a thought, Xia ruofei took out two more chubs from the spirit map space. After all, there were the most chubs in the river in the space. If he took one, there was a high chance that it would be a chubs.

He put one of the silver carp in a plastic basin, then took half a basin of spring water from the lake and filled it.

As for the other chub, Xia ruofei threw it directly into the spring water that had just emerged.

Chubs grew up in the spirit map space, so their vitality was much stronger than ordinary chubs. The moment it entered the water, its tail wagged a few times with considerable strength, and it swam happily in the water.

The chub in the basin wasn’t very obedient either. It kept swimming in the small space, splashing water from time to time.

Xia ruofei observed quietly. The chub in the lake did not show any signs of abnormality. It swam freely in the spring water. A few minutes had passed, but it did not explode without any warning like the other fish.

As for the chub in the plastic basin, there was nothing unusual about it.

Xia ruofei placed the plastic basin at a relatively safe position about ten meters away from the lake. At the same time, he set up a protective barrier. .

At this time, under the stalactite at the top of the cave, the drop of water had finally condensed to a certain degree, and under the effect of gravity, it gently dripped down.

With a “ding dong” sound, the water bead fell into the spring at the bottom of the lake, splashing a little bit of water and spreading out in circles.

The chub in the water didn't seem to notice it and was still swimming happily.

However, after a short while, the chub followed in the footsteps of the few of its kind in front of it. Without any warning, it suddenly exploded.

Xia ruofei was already prepared. He had retreated to a safe distance and even activated his vital Qi protective shield.

The blood and flesh of the silver carp fell into the lake, and in the blink of an eye, the water became clear again. The blood and flesh seemed to have been completely absorbed and purified by the lake.

The chub in the plastic basin was still swimming freely without any abnormalities.

Xia ruofei nodded to himself. It seemed like the spiritual turtle's information was correct. The spring water itself was not poisonous, but when two types of water were mixed together, it could produce such a terrifying effect!

The lake water that he had collected was a rare treasure in itself. It could play a miraculous role in a battle!

There was more and more clear water at the bottom of the lake. Although there was only one drop of stalactite water, in theory, it was already poisonous water. What happened to the silver carp just now had also confirmed this.

However, Xia ruofei did not collect any more of the lake water. After all, he had already collected enough. This kind of thing would have a miraculous effect when the enemy caught him off guard. He did not need a lot of it to use. Moreover, the poisonous water was produced continuously here. Xia ruofei could not just wait here to collect it.

If he really needed more in the future, he could come in again. By then, the lake would be filled with water again, and he could just collect it all at once.

Xia ruofei did not impose any restrictions on the spiritual turtle. Hence, although it was in the spirit map space, it could still sense the situation outside.

The spiritual turtle watched Xia ruofei's experiment with his own eyes and couldn't help but sigh. Master is really strict!

Xia ruofei clearly knew that the spiritual turtle would not lie under the effect of the soul seal, but he still carried out his own verification meticulously.

After all, although the spirit turtle would not lie to him, he could not rule out the possibility that it had obtained wrong information.

Xia ruofei looked at the ceiling of the cave. A new drop of water was slowly forming at the bottom of the stalactite.

He took another silver carp and put it in a plastic basin, which also contained a lot of water from the space River.

Then, he took out the plastic basin with the chub from the spirit map space, lifted it with his mental power, and placed it right below the stalactite.

Then, he stood there and waited without moving.

The spirit turtle in the spirit map space was burning with anxiety. In just a short while, its injuries had worsened a lot, and it was really on the verge of death. If it wasn't for its strong cultivation, it would have died long ago..

Chapter 3744: Continue to sweep up the goods (2)

Ling Qingxue and Song Wei were very obedient and stayed far away. Of course, they were also very concerned about Xia ruofei's situation. However, since Xia ruofei did not let them out, they would definitely not go and disturb him.

The water droplets at the bottom of the stalactite grew larger and larger, and finally left the stalactite under the effect of gravity, gently dripping down.

If Xia ruofei had not placed a basin there, this drop of water would have naturally fallen into the lake. However, it would have been "intercepted" by the plastic basin.

The drop of water fell right into the plastic basin. It even fell directly on the back of the chub and then slid into the water.

Xia ruofei placed the plastic basin gently by the lakeshore and observed it silently.

A few minutes passed, and the chub still didn't show any signs of abnormality. It was still swimming in the water with great energy.

In the other plastic basin, the chub in the spring water at the bottom of the lake did the same. It did not suddenly explode.

At this point, Xia ruofei had completely verified the information provided by the spiritual turtle. Whether it was the spring water at the bottom of the lake or the stalactites on the top of the cave, they were not poisonous and would not have any adverse effects on living things. .

The combination of the two had proven its toxic effect many times.

At this moment, Xia ruofei finally confirmed the spiritual turtle's words.

He casually threw the two chubs into the lake. The two chubs had already completed their mission as test subjects, and they were both stained with the spring water from the bottom of the lake or stalactites from the top of the cave, so they naturally couldn't be thrown back into the river of space.

As long as there was the slightest possibility of polluting the space River, Xia ruofei would not be careless.

It didn't take long for the two chumps to explode almost at the same time, and without any warning, they exploded into pieces.

Xia ruofei put away the vital Qi Shield and continued to speak to the dying spiritual turtle in the spirit map space,""Looks like you're right. The two types of water aren't poisonous, but when mixed together, they can produce a terrifying effect! The fused lake water is indeed a good thing!"

"Master, of course I wouldn't dare to lie to you," the spirit turtle said, barely breathing.

Xia ruofei used his spiritual power to scan the spiritual turtle and found that it was in a bad state. Its serious injuries had basically made it on the verge of death.

Xia ruofei quickly said,"are you that badly injured?" You don't seem to be in good condition..."

"Master, I really can't hold on much longer." The spirit turtle laughed bitterly and sent a voice transmission,"! only hate that my body is too weak. I may not be able to serve you at all times ..."

Xia ruofei was a little embarrassed.""It's all my fault for being too heavy – handed..."

The spiritual turtle quickly transmitted a message."Master, you're too serious. We were enemies just now. You naturally couldn't hold back. How can you be blamed for this?"

Xia ruofei chuckled and said telepathically,"no matter what, your injury is directly related to me. 1 should take the blame." But don't worry, since you're my subordinate now, I won't leave you in the lurch!"

The spiritual turtle was overjoyed and said with tears of gratitude,""Thank you for your concern, master!"

Xia ruofei smiled and transmitted his voice to her."It's okay. Don't worry. This injury is nothing. I'll recover soon."

The spiritual turtle's injuries were actually very serious. It did not even dare to hope that the injuries would heal.

After Xia ruofei finished speaking, he did not hesitate to use an invisible force to retrieve a spirit Heart Flower petal from the spirit map space. He then sent it to the spirit turtle that was lying on the grass in the mountain sea realm.

Chapter 3745: A new cave i

Naturally, Xia ruofei would not explain too much to the spiritual turtle. He said lightly,””Alright, then you can stay here and slowly recuperate! There’s no rush in your cultivation. After I take you back to the cave, you’ll have plenty of time to cultivate!”

“Yes! Master!” The spiritual turtle said respectfully.

After Xia ruofei settled the spiritual turtle, he turned to look at Song Wei and Ling Qingxue, who were standing far away. He smiled and waved at them.

Song Wei and Ling Qingxue were watching from the side and had a stomach full of questions. However, Xia ruofei did not ask them to come out, so they did not dare to make any decisions on their own, for fear of becoming a burden to Xia ruofei.

So, when Xia ruofei indicated that they could come out, the two of them couldn’t wait to leave their hiding place and quickly walked towards Xia ruofei.

Ling Qingxue couldn’t keep her thoughts to herself. She couldn’t help but ask before she reached Xia ruofei’s side,””RUO Fei, where’s that powerful turtle?”

In Song Wei and Ling Qingxue’s eyes, the most dangerous scene was the moment when the turtle suddenly jumped out of the water. They were so scared that their faces turned pale, afraid that Xia ruofei would not be able to defeat the turtle.

Fortunately, Xia ruofei was much more powerful than they had imagined. He had an overwhelming advantage as he chased after the turtle and gave it a good beating.

However, Xia ruofei and the spiritual turtle communicated telepathically, so they did not know what had happened.

Xia ruofei chuckled.'Tve completely subdued that spiritual turtle. In the future, it will not dare to go west when 1 point east!" ***.m***

"Really?" Ling Qingxue said in surprise,"ruofei, don't joke with us! I feel that the black... The spiritual turtle is very powerful!"

Xia ruofei replied nonchalantly,"yes!" Although it's only in the middle stage of the Golden core realm, these great demons are naturally strong, so its true strength should be comparable to a human in the late stage of the Golden core realm ... It's also because its strength is not bad that 1 spared its life and tried to subdue it. Otherwise, I would have killed it long ago."

"So, you've really tamed that spiritual turtle?" Ling Qingxue asked.

"Of course!" Xia ruofei said with a smile.

Then, he didn't care that the spiritual turtle was still healing and directly moved it out of the spirit map.

The turtle's body was the size of a basin. The sudden change of environment, and in the cave where it lived all year round, made it dazed. Naturally, Xia ruofei would not explain too much to the spiritual turtle. He said lightly,""Alright, then you can stay here and slowly recuperate! There's no rush in your cultivation. Xia ruofei also found a spare spacesuit from the spirit map space and quickly put it on.

In a short while, the three of them had put on their spacesuits and adjusted the walkie – talkie function.

Xia ruofei closed the spacesuit's visor and spoke through the intercom,""Qingxue, Weiwei, you two stay here and don't move. I'll go and check out the situation!"

"Alright!" Ling Qingxue replied. However, ruofei, you must be careful! Safety first!"

Xia ruofei smiled and said,"don't worry!" I have many ways to save my life, and 1 will definitely put safety first! There shouldn't be any danger here, but you can't let your guard down. Also, you must always pay attention to the oxygen level and change the oxygen supply module in advance!"

When they went to the moon for an expedition, each of them had prepared two spacesuits and a lot of oxygen supply modules. Some of them had been used on the way back to the moon, but there were still a lot of them left. Because everyone had a storage artifact, these things had been piled up in the storage artifact. They didn't expect to come in handy today.

Ling Qingxue said,"don't worry about this!" We'll take care of ourselves, just pay attention to your safety!"

Xia ruofei nodded and said,"yes!" Now that we've been teleported to this middle section, even if we have to give up the opportunity here, we must find a safe way out. Otherwise, we'll be trapped here to death."

Xia ruofei turned to look at the two passages and said,""Moreover, the senior in the bronze coffin definitely wouldn't speak without thinking. Since he guided us here, it means that there must be some kind of opportunity here. 1 won't be satisfied if 1 don't explore it before leaving!"

With that, Xia ruofei had Song Wei and Ling Qingxue come to a corner of the tunnel and marked out a certain area for them. He said,""You guys stay in this area. If there's any situation, inform me immediately through the walkie – talkie. Especially if there's any danger, don't take it head – on. You must tell me immediately!"

"We will. Don't worry and go Scout the way!" Song Wei said,"you don't have to worry about this!"

Xia ruofei turned to look at the two passages and said,""Moreover, the senior in the bronze coffin definitely wouldn't speak without thinking. Since he guided us here, it means that there must be some kind of opportunity here. I won't be satisfied if 1 don't explore it before leaving!" .

With that, Xia ruofei had Song Wei and Ling Qingxue come to a corner of the tunnel and marked out a certain area for them. He said,""You guys stay in this area. If there's any situation, inform me immediately through the walkie – talkie. Especially if there's any danger, don't take it head – on. You must tell me immediately!"

"We will. Don't worry and go Scout the way!" Song Wei said,"you don't have to worry about this!"

Xia ruofei also found a spare spacesuit from the spirit map space and quickly put it on.

In a short while, the three of them had put on their spacesuits and adjusted the walkie – talkie function.

Xia ruofei closed the spacesuit's visor and spoke through the intercom,""Qingxue, Weiwei, you two stay here and don't move. 1'11 go and check out the situation!"

"Alright!" Ling Qingxue replied. However, ruofei, you must be careful! Safety first!"

Xia ruofei smiled and said,”don’t worry!” I have many ways to save my life, and 1 will definitely put safety first! There shouldn’t be any danger here, but you can’t let your guard down. Also, you must always pay attention to the oxygen level and change the oxygen supply module in advance!”

When they went to the moon for an expedition, each of them had prepared two spacesuits and a lot of oxygen supply modules. Some of them had been used on the way back to the moon, but there were still a lot of them left. Because everyone had a storage artifact, these things had been piled up in the storage artifact. Chapter 3748: The magma Lake_2

Ling Qingxue said,”don’t worry about this!” We’ll take care of ourselves, just pay attention to your safety!”

Xia ruofei nodded and said,”yes!” Now that we’ve been teleported to this middle section, even if we have to give up the opportunity here, we must find a safe way out. Otherwise, we’ll be trapped here to death.”

Chapter 3749: Venturing into the lava cave alone (1)

Xia ruofei silently used his sward technique. The Golden flying sword trembled slightly and floated in front of the three of them.

Xia ruofei gestured for Song Wei and Ling Qingxue to jump onto the flying sword.

The two of them had not reached the Golden core stage, so they could not fly on their flying swords. However, rhe entrance of the cave was not far from the square, so Xia ruofei could control the flying sword from there.

After the two of them jumped on rhe flying sword, they didn't have Xia ruofei by their side, so they didn't have much confidence and their legs were trembling.

Xia ruofei added an energy shield around rhe two of them to prevent them from falling.

Then, he laughed and said/'don't worry, it's just a short distance! " 1'11 definitely send you down safely!"

Song Wei and Ling Qingxue nodded their heads and held each other's hands tightly as they stood on their flying swords.

With a thought, the Golden flying sword carried the two of them out of the cave.

Although there was no cover at the entrance of the cave, Xia ruofei knew that there was an invisible barrier there. One could only leave but not enter. Once they left, they would have to go back to the Jade platform and could not enter through the entrance.

After flying out of the cave, the Golden flying sword slowly descended under Xia ruofeis control.

lr didn't take long for them to reach the ground of the square.

Xia ruofei removed the protective shield and spoke into the walkie – talkie/"'Alright, you guys stay below this cave!"

Song Wei and Ling Qingxue jumped off the flying sword. Xia ruofei continued/"Right, Wei Wei, help me put this flying sword into my storage ring!"

"Alright!" Song Wei said.

At this moment, Xia ruofei had already withdrawn his sword technique. Song Wei easily kept the Golden flying sword into her storage ring.

Then, Xia ruofei told the two of them to stand still. He took out the formation materials and started to set up the formation around them from 20 to 30 meters away.

Although the square had been peaceful and there was no danger, Xia ruofei did not dare to let his guard down. He had taken all the necessary precautions. Xia ruofei silently used his sword technique. The Golden flying sword trembled slightly and floated in front of the three of them.

Chapter 3750 - 3750: Treasure snatching in the magma (1)

Chapter 3750: Treasure snatching in the magma (1)

Xia ruofei was on high alert. He glanced at the watch on his spacesuit and saw that the outside temperature was about 200 degrees Celsius. He was further away from the lava lake. He knew that if he got any closer, the temperature would increase even more.

In reality, this temperature was already the spacesuit's limit. However, Xia ruofei had put on an energy shield on the outside, so the spacesuit could still withstand it for the time being. *i.c₀m*

Of course, Xia ruofei didn't dare to step on the ground. He had been standing on the blue immortal sword.

He looked up at the lava lake and saw the red lava slowly rolling inside. From time to time, some bubbles would appear. Just looking at it was a bit shocking.

This was not a good place to stay, Xia ruofei thought.

He tried to release his spiritual power to check the situation in the lava lake.

Because the situation here was almost unobstructed, if there was any opportunity, it would probably be in this magma Lake.

However, Xia ruofei's spiritual power was quickly consumed the moment he came into contact with the lava. He could not go any deeper.

After a mere one or two meters deep, the consumption of spiritual power was already too much for him to bear.

At this depth of one to two meters, all he could detect was hot lava. He didn't find anything.

Although the lava lake was not big, it was at least dozens of meters wide. Even if it was one or two meters deep, Xia ruofei could not scan it inch by inch. No matter how strong his spiritual power was, he could not support such a consumption.

Moreover, it was still unknown how deep this lava lake was. It was meaningless to check the surface of the lake.

Xia ruofei was at his wits 'end in this situation.

This lava lake was like a purgatory furnace. He couldn't just jump in to check it out, right? In such lava, the spacesuits 'protection was basically useless. Even a Yuan Qi protective shield would not be effective. If he had really jumped in, the only outcome would have been to turn into dust without leaving a trace.

Was he really going to return empty – handed? Xia ruofei felt a sense of helplessness.

So far, there was no problem with his safety. If he gave up on this cave, he could still return to the square relatively easily.

However, Xia ruofei was not satisfied.

He knew that since senior copper coffin had specifically pointed out this cave, it meant that there was definitely an opportunity here, and it should basically be within the scope of his ability.

He must have missed something. Xia ruofei said in his heart.

His greatest strength wasn't his talent for cultivation, but his psychological quality that had been trained during his military life. He had always been very calm when he encountered things, and the calmer he was, the calmer he was.

Xia ruofei quickly got rid of the negative emotions and calmly thought about the current situation.

It was unrealistic to explore the magma directly, so he ruled it out.

And using his spiritual power to investigate was obviously not feasible.

In fact, this had basically ruled out the possibility of finding clues directly through the magma Lake.

He could only rely on other aspects.

Xia ruofei shifted his gaze away from the lava lake and looked at the other parts of the cave ...
