Chapter 3751 - 3751: Treasure snatching in the magma (2)

Chapter 3751: Treasure snatching in the magma (2)

Was he really going to return empty – handed? Xia ruofei felt a sense of helplessness.

So far, there was no problem with his safety. If he gave up on this cave, he could still return to the square relatively easily.

However, Xia ruofei was not satisfied.

He knew that since senior copper coffin had specifically pointed out this cave, it meant that there was definitely an opportunity here, and it should basically be within the scope of his ability.

He must have missed something. Xia ruofei said in his heart.

His greatest strength wasn't his talent for cultivation, but his psychological quality that had been trained during his military life. He had always been very calm when he encountered things, and the calmer he was, the calmer he was.

Xia ruofei quickly got rid of the negative emotions and calmly thought about the current situation.

It was unrealistic to explore the magma directly, so he ruled it out.

And using his spiritual power to investigate was obviously not feasible.

In fact, this had basically ruled out the possibility of finding clues directly through the magma Lake.

He could only rely on other aspects.

Xia ruofei shifted his gaze away from the lava lake and looked at the other parts of the cave ...

Xia ruofei was on high alert. He glanced at the watch on his spacesuit and saw that the outside temperature was about 200 degrees Celsius. He was further away from the lava lake. He knew that if he got any closer, the temperature would increase even more.

In reality, this temperature was already the spacesuit's limit. However, Xia ruofei had put on an energy shield on the outside, so the spacesuit could still withstand it for the time being.

Of course, Xia ruofei didn't dare to step on the ground. He had been standing on the blue immortal sword.

He looked up at the lava lake and saw the red lava slowly rolling inside. From time to time, some bubbles would appear. Just looking at it was a bit shocking.

This was not a good place to stay, Xia ruofei thought.

He tried to release his spiritual power to check the situation in the lava lake.

Because the situation here was almost unobstructed, if there was any opportunity, it would probably be in this magma Lake.

However, Xia ruofei's spiritual power was quickly consumed the moment he came into contact with the lava. He could not go any deeper.

After a mere one or two meters deep, the consumption of spiritual power was already too much for him to bear.

At this depth of one to two meters, all he could detect was hot lava. He didn't find anything.

Although the lava lake was not big, it was at least a few dozen meters in radius. Even if it was one or two meters deep, Xia ruofei could not check it inch by inch. No matter how strong his spiritual power was, he could not support such a consumption.

Moreover, it was still unknown how deep this lava lake was. It was meaningless to check the surface of the lake.

Xia ruofei was at his wits 'end in this situation.

This lava lake was like a purgatory furnace. He couldn't just jump in to check it out, right? In such lava, the spacesuits 'protection was basically useless. Even a Yuan Qi protective shield would not be effective. If he had really jumped in, the only outcome would have been to turn into dust without leaving a trace.

Naturally, Xia ruofei was not completely unguarded. In fact, he had been on high alert the whole time. As soon as the yellow light appeared, he immediately made his move.

The blue immortal sword under Xia ruofei's feet changed direction nimbly and flew upwards again. Even though the yellow light was extremely fast, it only passed under Xia ruofei's feet and did not hurt him at all.

However, the yellow light did not hit its target. It made a turn in the air and continued to chase after Xia ruofei.

Of course, Xia ruofei wouldn't just Dodge. In fact, when he controlled the blue immortal sword to Dodge, he had already taken out the flying sword of qushuang.

He didn't even turn his head. The qushuang flying sword flew behind him and met the yellow light.

In the blink of an eye, the qushuang flying sword met the yellow light.

Ding! Ding! With a clanging of metal, the qushuang sword was knocked back several feet while the yellow light slowed.

At this moment, Xia ruofei had already changed his direction. He could finally see the true face of the yellow light.

To Xia ruofei's surprise, it was not an attack – Type magical weapon. Instead, it was a small snake that was emitting a faint yellow light.

The light yellow snake's eyes were cold. It flicked its tongue slightly and looked at Xia ruofei in the air. There was no emotion in its eyes. It was as if it was looking at a dead man.

The qushuang flying sword had come into contact with the pale yellow snake before, so Xia ruofei could roughly determine the snake's cultivation.

He was at least a late – Stage golden core cultivator!

In addition, this little snake's physical defense was extremely strong. The flying sword was quite sharp, but this little yellow snake had actually managed to withstand the attack without leaving any marks on its body.

This was a little scary.

Strong physical defense, unparalleled speed, and such a high cultivation ... Xia ruofei did not have many tricks up his sleeve when facing such an opponent.

However, Xia ruofei did not panic. Instead, he became even calmer.

After the light yellow snake was slowed down by qu Shuang's flying sword, it only hovered in the air for a few seconds. It looked at Xia ruofei coldly and then turned into a sharp light again, pouncing towards Xia ruofei.

Xia ruofei's mind moved slightly. The blue travel immortal sword under his feet followed the path of the casual steps. His body swayed slightly and he easily dodged it.

This time, the snake grazed past Xia ruofei's waist. Even though he was wearing a spacesuit and had a Yuan Qi protective layer, he could still feel the heat. It made him hold his breath.

Obviously, the little pale yellow snake was able to survive in the lava pool. It must have adapted to the environment here. It seemed that not only was its body resistant to heat, but it was also emitting a hot aura. This made Xia ruofei even more alert.

As expected, after the light yellow snake missed its target, it stopped in midair. Before it could turn around, it turned its head and opened its mouth at Xia ruofei.

With a whoosh, an extremely hot flame shot out from its mouth.

The flame was small at first, but when it came into contact with the hot air above the lava pool, it instantly grew bigger. In the end, it was like a sea of fire, sweeping towards Xia ruofei.

Xia ruofei's pupils shrank slightly. Without hesitation, he took out the spirit map scroll and entered the spirit map space with a thought. He controlled the blue immortal sword through the space and made it carry the spirit map scroll to escape to the periphery of the magma Lake.

Xia ruofei's judgment was very accurate. Even though the blue immortal sword was extremely fast, the sea of fire was even faster. In just one or two seconds, the blue immortal sword and the spirit map scroll were surrounded by the sea of fire.

Fortunately, the blue travel immortal sword was a Supreme – grade flying sword that had been tempered thousands of times, and there were many rare minerals in its material, so it would not be melted by the sea of fire in a short time. .

As for the spirit painting, it did not disappoint Xia ruofei. Even though it was in the sea of fire, it was not damaged at all.

He didn't know what kind of material the spirit painting scroll was made of.

The blue travel immortal sword carried the spirit map scroll and rushed out of the sea of fire at an extremely fast speed, returning to the shore of the lava lake.

After the flame swept past the range of the magma Lake, it quickly weakened and seemed to be a little weak. Soon, the blue traveling immortal sword returned to a relatively safe place with the spirit map scroll.

Seeing that Xia ruofei had retreated to the shore, the pale yellow snake did not chase after him. Instead, it turned its head to look at Xia ruofei. Xia ruofei could see a trace of mockery and disdain in its eyes.

A late – Stage golden core demonic beast was naturally sentient, just like the spiritual turtle. It could communicate with its spiritual power and was no different from a normal cultivator. However, Xia ruofei was still embarrassed to be looked down upon by a small snake.

Xia ruofei rode on the blue travel immortal sword and soon arrived at the top of the first black stone step.

There was still no movement in the magma Lake, only the bubbling and the waves of heat.

Xia ruofei didn't dare to relax. He was very clear that although the lightning King Snake seemed to have suffered a little injury, it was definitely not to the extent of a serious injury. It was just hiding in the lava lake, waiting for an opportunity to give him a fatal blow.

Moreover, according to the spiritual turtle, the king lightning snake rarely acted alone. In other words, there could be more than one king lightning snake in the lava lake. Hence, Xia ruofei did not dare to relax.

He continued to fly upwards on his flying sword as he focused his attention on the lava lake.

Soon, he arrived at the second black stone step. There was still no movement in the lava lake. However, the calmer it was, the more uneasy Xia ruofei felt. This kind of calmness often brewed fatal danger.

The third level, the fourth level...

Unknowingly, Xia ruofei had already approached the stone platform where the jade box was.

Xia ruofei continued to release his spiritual power, paying attention to every movement in the lava lake. Even though he had used up a lot of his spiritual power, he did not relax. This was not the time to save his spiritual power.

The blue travel immortal sword maintained a relatively constant speed as it flew diagonally upwards. When there were only two steps left and it was about to reach the stone platform, Xia ruofei silently performed the sword technique and the speed of the flying sword suddenly increased. .***m***

If it was like a car moving slowly in second gear at the beginning, it was now suddenly changing to fifth gear and accelerating instantly.

Chapter 3755 - 3755: Great harvest (1)

Chapter 3755: Great harvest (1)

Translator: 549690339 ***.m***

Xia ruofei was so excited that he almost lost his balance. To Xia ruofei, who had always been calm and steady, this was a rare situation.

The main reason was that the items he had obtained this time were simply too shocking.

In the ancient jade box, there were two elixirs that gave off a strong fragrance. Xia ruofei did not need to ask the spiritual turtle because he had obtained a large number of ancient books and had a very good understanding of this famous pill.

The primordial soul pill could greatly increase the success rate of a nascent Soul Stage cultivator breaking through to the primordial soul Stage.

To the current cultivation world, this was undoubtedly a priceless treasure.

After all, Xia ruofei had only received a bottle of nascent condensation pills as a reward for clearing the nine levels of the trial Pagoda in the mystic Luna realm.

Of course, Xia ruofei did not know that the bottle of nascent formation pills was also a prize that his master, Daoist priest Qing Xuan, had won after a bet with him. It included the gilded soft armor with strong defensive power, which was also a gift from Daoist priest Shan He to his disciple. He had broken the record and was the first to enter the 9th level of the trial Pagoda. The true reward was the large amount of precious books on the bookshelf, as well as the small mountain of purple Yuan crystals in his storage ring.

Of course, there were also two storage rings that could only be opened after he had broken through to the nascent Soul Stage and the primordial spirit stage. He was not sure what the rewards were in them yet.

In Xia ruofei's opinion, he had gone through so much trouble to pass the nine – Level trial tower, but the reward was only a nascent soul pill. According to the ancient records, the value of this primordial soul pill could be said to be ten times or even a hundred times more valuable than a nascent soul pill.

Even when the world of cultivation was at its peak, the primordial soul realm cultivators were the backbone of the world of cultivation.

On the other hand, one primordial soul elixir could basically create an immortal soul Stage cultivator.

Even during the golden age of the cultivation world, primordial soul pills could only be refined by a small number of high – Level alchemists, and the raw materials required were all very precious spiritual herbs. It was impossible for ordinary cultivators to collect all of them, and even if they were lucky enough to find one, it was very difficult to find a high – Level Alchemist who could refine primordial soul pills.

Even if all these conditions were met, the success rate of refining primordial soul pills was absurdly low. Even if an alchemy Grandmaster were to personally refine them, the success rate of refining primordial soul pills would only be about 30%.

The process of refining a primordial soul pill was extremely complicated and cumbersome, and it required an extremely high level of skill from The Alchemist. If there was a slight mistake in any link or a slight lack of control over the fire, all the effort would be destroyed in a day, and those extremely precious raw materials would naturally be burned to ashes.

Therefore, during the flourishing period of the cultivation world, primordial soul pills were priceless. Only outstanding disciples of some large sects had the opportunity to use them when they were about to break through.

Xia ruofei had never thought that he would be able to obtain the primordial soul pill in the lava cave of the underground palace. Furthermore, he had obtained two of them in one go.

He still felt like he was in a dream.

However, it seemed that everything was predestined. With a large number of purple origin crystals, nascent condensation pills, and primordial soul pills, it was no exaggeration to say that Xia ruofei's path of cultivation had become very open. From now on, he would reach the primordial soul realm without any delay.

Xia ruofei checked them carefully and found that the quality of the two primordial soul pills was very good. The ancient jade box was probably specially made as well. Therefore, the medicinal properties of the two primordial soul pills had not been lost even after being in the lava for God knows how long. They were still in the same state as when they were first refined.

He hurriedly closed the box and carefully kept it in the stone chamber.

Then, Xia ruofei started to fly towards the exit of the cave on the blue travel immortal sword.

Along the way, Xia ruofei was still very excited. He was also very glad that he had persevered.

If he had decided to retreat after being persuaded by Song Wei and Ling Qingxue, or if he had given up after being at his wits 'end in front of the lava lake, he would not have been able to obtain the two primordial soul pills.

After the long conversation with senior copper coffin, Xia ruofei had a sense of urgency and was eager to improve his strength. Therefore, he didn't want to give up on any of the caves that senior copper coffin had pointed out.

It was also this kind of persistence that allowed him to obtain this unexpected surprise.

As Xia ruofei flew towards the cave's exit on his flying sword, he made up his mind. There were still three caves that senior copper coffin had pointed out that might contain opportunities.. No matter how difficult it was, he had to finish exploring them and obtain the opportunities in the caves!

Xia ruofei spent six to seven hours to walk through all three caves that senior copper coffin had pointed out.

It had to be said that the locations that senior copper coffin had pointed out to Xia ruofei were all within his capabilities. Ordinary late – Stage golden core cultivators might not be able to obtain all the opportunities. However, Xia ruofei was much stronger than ordinary late – Stage golden core cultivators and had many more tricks up his sleeve. Thus, even though the three caves were not smooth – sailing, he still managed to obtain the opportunities successfully.

He had obtained a piece of purple – Gold Cloud iron, a mysterious fog grass, and an illusion gold elixir from each of the three caves.

The purple – Gold Cloud iron was a top – grade material for refining weapons, especially when it was used to refine flying swords. If a small amount of purple

– Gold Cloud iron was added, the grade of the flying sword would increase by at least one grade. The purple – Gold Cloud iron that Xia ruofei had obtained was the size of an adult's fist. It was evident how precious it was.

The mysterious fog grass was a rare spiritual herb in the cultivation world. It was a necessary ingredient when refining many precious medicinal pills. What was even rarer was that this mysterious fog grass had grown directly in that cave and was not dry grass that had been processed. In the spiritual herb garden in the spirit map space, although there were countless precious spiritual herbs and spiritual herbs, there was no black mist Grass. Hence, Xia ruofei dug out the soil without hesitation and transplanted it to the spiritual herb garden in the heart Island of the mountain sea realm.

As for the illusion gold Mystic pill, it was also a very precious finished elixir that could only be consumed by nascent Soul Stage cultivators. Other than increasing cultivation, it could also stabilize the sea of consciousness and increase the power of the will. To nascent Soul Stage cultivators and even immortal soul Stage cultivators, it was an extremely precious cultivation resource. A single illusion gold Mystic pill was equivalent to two years of cultivation for an early nascent soul realm cultivator.

Of course, in Xia ruofei's opinion, the treasures in these three caves were not as precious as the primordial soul pill in the lava cave.

The foundation of a cultivator's heaven – defying cultivation was naturally cultivation. The primordial soul elixir could greatly increase the success rate of a nascent soul advanced stage cultivator breaking through to the primordial soul Stage. This was something that other precious materials and elixirs could not compare to.

Naturally, Xia ruofei had experienced some danger in these three caves. However, he had the spirit map space as a life – saving weapon and was proficient in arrays. In addition, his mental strength was far beyond that of ordinary late – Stage golden core cultivators. In addition, he also had two flying swords that could be considered of the highest quality and many arrays and talismans that could be used directly. Finally, he managed to obtain the opportunities in each cave without any danger.

Every time Xia ruofei entered a cave, he would return to the square from the exit and greet Song Wei and Ling Qingxue. Then, he would use the formation on the Jade platform to teleport to the next cave. Although his two female friends were worried about his safety, they did not have to wait for six to seven hours.

After going through all the caves that senior copper coffin had pointed out, Xia ruofei had no intention of exploring the other caves.

Xia ruofei spent six to seven hours to walk through all three caves that senior copper coffin had pointed out.

"Yes! Senior granduncle!" Li Yifu quickly replied respectfully. ***.m***

As Xia ruofei walked down the stairs, he said to Song Wei and Ling

Qingxue,""Weiwei, Qingxue, you two should stay here and cultivate. I'm going to be in closed – door cultivation for a long time, so we'll have to wait until 1 come out before we can cultivate together. In addition, if you have something to do and need to return to your country, let your foster husband arrange a plane for you. For the time being, this is the only way to overcome it!"

“No problem!” Song Wei nodded. I don’t have much to do at school, and I want to break through to the Golden core stage as soon as possible, so I won’t be back in the country for a while.”

“Yeah!” Ling Qingxue also agreed. Just focus on your cultivation! Don’t worry about us! I’ve already handed over all the matters of my company and my dad won’t look for me for anything. Like Weiwei, 1 plan to break through to the Golden core stage first!”

Xia ruofei nodded and said,”yes!” Then let’s work hard together!”

While they were talking, Xia ruofei and the others had already arrived at the large suite on the top floor.

“Senior granduncle,” Li Yifu said,”you’ve had a hard time on the way. Do you want to eat something first and rest before you go into seclusion?”

Due to the time difference, it was noon on peach source Island, and it was indeed time for lunch.

Xia ruofei thought for a while and nodded.””Alright! Then let’s have lunch first and have a good rest. We’ll officially start our closed – door cultivation tomorrow!”

“Alright!” Li Yifu replied happily. Then you and the two martial grandmothers can rest in the room first, this disciple will go prepare lunch!”

Xia ruofei said gently,”alright!” Then I’ll have to trouble you, foster husband!”

“Martial granduncle’s words are too serious, this is a disciple’s duty!” Li Yifu hurriedly said,”then, this disciple will take his leave first!”

Li Yifu went downstairs to prepare lunch, while Xia ruofei and the other two walked into the luxurious suite on the top floor.

Xia ruofei collapsed on the sofa and let out a comfortable sigh. She smiled and said,””It’s really like staying at home for a thousand days, but going out for a thousand days is difficult! Home is more comfortable than anywhere else!”

Under the joint management of Xia ruofei, Li Yifu, and the rest, Peach Blossom Island was now full of life. Whether it was Xia ruofei, Song Wei, Ling Qingxue, Li Yifu, or the rest, they had long regarded this place as their home.

Song Wei also felt the same and nodded,”This is really the most comfortable place to stay! Moreover, the cultivation environment here is so good. I just want to cultivate properly now, and I don’t want to go anywhere!”

The three of them sighed and went to their respective rooms to take a bath. When they went down to the underground palace, their bodies were stained with a lot of mud. Although they had changed their clothes on the way back to Peach Blossom Island, after staying in the underground palace for so long, they still felt that there was a rotten smell on their bodies. The three of them couldn't wait to take a good bath.

The suite was luxuriously decorated. Several rooms were equipped with their own large bathrooms, and even had a Jacuzzi. So, Song Wei and Ling Qingxue both chose to take a bath at the same time. They filled the bathtub with hot water and took a comfortable bath.

Xia ruofei took a shower directly, and it was natural for men to shower much faster. Hence, when he changed into fresh clothes and returned to the living room, there was still no movement in the room of his two female friends.

Xia ruofei walked to the huge balcony that was connected to the living room. He lit a cigarette and breathed in the air that was rich in spiritual energy. He looked at the blue sea and suddenly felt relaxed and happy.

After the three of them had taken a bath and changed their clothes, Xia ruofei brought Ling Qingxue and Song Wei downstairs. Li Yifu had already prepared lunch, but he did not disturb Xia ruofei and the others. He just kept the food warm.

When he saw Xia ruofei and the other two, Li Yifu quickly walked up to them and greeted them respectfully,""Martial granduncle! Grandmaster's grandmother! Lunch is ready!"

"Thank you for your hard work!" Xia ruofei said with a smile.

"Yes! Senior granduncle!" Li Yifu quickly replied respectfully.

As Xia ruofei walked down the stairs, he said to Song Wei and Ling

Chapter 3760: Rapid progress (1)

Translator: 549690339

Xia ruofei held the purple Yuan crystal in his hand. At the same time, he was also bathed in the rich spiritual Qi that was supported by the double array. The “great Dao Arts” was circulating at full speed. Large amounts of spiritual Qi were absorbed into his body and quickly transformed into vital Qi. It was also integrated into the Golden core that had already completely condensed and was emitting a purple – Gold light.

Ordinary cultivators could not even imagine Xia ruofei’s current cultivation speed.

The purple origin crystals were being used up as if they were free. Xia ruofei did not feel any heartache at all. The purple origin crystals in the storage ring that he had obtained were piled up like a mountain. Even if he did not have an endless supply, at least before he broke through to the primordial soul Stage, he would not have to worry about having enough resources.

Furthermore, once he broke through to the original level, he would be able to open a new storage ring. Xia ruofei was full of anticipation for that. He was also eager to know what kind of reward he had prepared for himself.

Of course, Xia ruofei was also clear that the more generous the rewards, the more serious the situation the cultivation world was facing. Just like the mountain – like pile of purple

essence crystals in the first storage ring that had been opened, Xia ruofei was not naive enough to think that purple essence crystals were worthless in the eyes of the senior Almighty experts. In fact, even during the peak of Earth's cultivation world, purple essence crystals were still a very strong hard currency.

In order to prepare so many purple origin crystals, it would definitely consume a large amount of energy from a powerful senior at the primordial soul Stage or even the leaving aperture stage.

Xia ruofei could feel that this was basically using up all the resources in the world of cultivation to cultivate the most outstanding person. As the first cultivator to pass the nine – Level Tower of Trials, he was the chosen one.

This gave him a lot of pressure.

He had just broken through to the late – Stage of the Aurous core stage, and his weak shoulders could not bear such a heavy mission.

He knew very well that the only thing he could do was to put aside all the mundane affairs and distracting thoughts and focus on cultivating and improving his cultivation base. Only when his strength reached a certain height would he have the possibility to control his fate. At that time, whether it was the entire cultivation world or him, he would have a certain possibility to change his fate.

With this in mind, Xia ruofei decided to cultivate in seclusion for a long time and cultivate without caring about the consumption.

The purple origin crystals were quickly consumed. Under the double array's support and the effect of the purple origin crystals, Xia ruofei's vital Qi and spiritual power cultivation were slowly increasing.

On the third day of his closed – door cultivation, Xia ruofei was surprised to find that the second Dragon – shaped pattern on the surface of the purplish – Gold golden elixir in his dantian was glowing with a golden light.

When he had broken through to the advanced stage of the Golden core, his purplish – Gold golden core had completely solidified. However, Xia ruofei still did not feel that he had broken through. After he continued to absorb more purple Yuan crystals, nine Dragon – shaped patterns appeared on the surface of his purplish – Gold golden core. When he continued to absorb the spiritual Qi from the purple Yuan crystals and completely lit up the first Dragon – shaped pattern, he had officially broken through to the advanced stage of the Golden core. *r.co*

And now, he had already begun to light up the second Dragon – shaped pill pattern, which showed that his cultivation had made a lot of progress.

Xia ruofei had not slept for three days and three nights. Naturally, he had not eaten or drunk anything. Three days without sleep and food was naturally nothing for a cultivator in the late jiedan stage. However, continuous cultivation for three days and three nights was also a great burden on the spirit.

Hence, Xia ruofei decided to stop and rest for a while.

He got up and stretched his limbs, then went to take a shower. He also picked a few peaches from the spirit map space to eat. After resting for about an hour, he immediately sat down and continued to cultivate.

Xia ruofei was basically in this state for the next few days.

He didn't always practice the great Dao chant. Basically, he took turns to practice the great Dao chant and the mystic essence Scripture.

Last time, after he had studied and discovered the fourth meridian circulation diagram of the "mysterious origin Scripture", this originally ordinary – looking cultivation method suddenly glowed with a new dazzling brilliance. The efficiency of cultivating the "mysterious origin Scripture" and cultivating the "great Dao Sutra" was basically the same.

This was also the first time Xia ruofei had seen a technique that was as efficient as the great Dao technique. Naturally, he would not let go of such a good technique to cultivate.

Moreover, when he was cultivating the mystic origin Scripture, he would often have some new comprehensions.

This was far better than cultivating one cultivation technique alone. Cultivating two cultivation techniques in exchange could not only avoid boredom, but also corroborate and inspire each other in some aspects.

This way of cultivation allowed Xia ruofei's cultivation to improve very quickly.

Unknowingly, he had already been in closed – door cultivation for a month.

Xia ruofei held the purple Yuan crystal in his hand. At the same time, he was also bathed in the rich spiritual Qi that was supported by the double array. The "great Dao Arts" was circulating at full speed. Large amounts of spiritual Qi were absorbed into his body and quickly transformed into vital Qi. It was also integrated into the Golden core that had already completely condensed and was emitting a purple – Gold light.

Ordinary cultivators could not even imagine Xia ruofei's current cultivation speed.

The purple origin crystals were being used up as if they were free. Xia ruofei did not feel any heartache at all. The purple origin crystals in the storage ring that he had obtained

were piled up like a mountain. Even if he did not have an endless supply, at least before he broke through to the primordial soul Stage, he would not have to worry about having enough resources.

Furthermore, once he broke through to the original level, he would be able to open a new storage ring. Xia ruofei was full of anticipation for that. He was also eager to know what kind of reward he had prepared for himself..

Xia ruofei walked out of the room and saw Song Wei and Ling Qingxue standing at the door.

He glanced at his two confidants, and his pupils suddenly shrank slightly. Then, an undetectable trace of joy flashed in his eyes.

However, Xia ruofei did not react. He pretended to be nervous and asked,""What happened? Why did you suddenly knock on the door?"

Ling Qingxue giggled and said,"we didn't hesitate to interrupt your cultivation to call you out. Of course, it's something important!" Why don't you guess!"

Xia ruofei pretended to be confused and said,""Don't tell me someone ate a bear's heart and a leopard's gall to attack the Peach Blossom Island?"

Then, he immediately denied himself,""Impossible! That was impossible! If someone were to break in, how could you all still be so calm?"

Seeing Xia ruofei's confused look, Ling Qingxue was even more amused. She giggled and said,""Of course not! Keep guessing! It's a good thing!"

Xia ruofei's eyes widened and he asked,"good thing? Could it be that one of you is pregnant? It can't be ... I've been in seclusion for almost half a year. If you're pregnant, you should be ..."

Song Wei and Ling Qingxue both blushed. Ling Qingxue snorted and said,""What nonsense are you saying? You're the one who's pregnant!"

Xia ruofei shrugged innocently and said,”I also want to! But... We don’t have such a function!”

Song Wei and Ling Qingxue couldn’t help but burst out laughing.

Song Wei looked at Ling Qingxue and said,””Qingxue, don’t keep us in suspense! RUO Fei must be teasing you! His cultivation is so high, how could he not see it?”

Only then did Ling Qingxue come back to her senses. She couldn’t help but punch Xia ruofei and said,””Hey! How can you be so bad! We were the first to share the good news with you, and you actually played me for a fool!”

Xia ruofei laughed and reached out to grab Ling Qingxue’s fist. He gently pulled her into his arms and directly hugged her.

He smiled and said,”Wei Wei, Qingxue, congratulations!” He had finally broken through to the Golden core stage! It’s not easy to take this step!”

With that, Xia ruofei wrapped his arm around Ling Qingxue’s waist and walked to Song Wei. He pulled her into his arms as well. They were both close friends and he could not be biased. Xia ruofei walked out of the room and saw Song Wei and Ling Qingxue standing at the door.

Chapter 3763 Careful counseling (1)

Tang Haoran had grown up very quickly in the past two years. Although he was not in junior high school, he was already 1.6 meters tall. He threw himself in front of Xia ruofei and hugged him very affectionately.

Xia ruofei patted Tang Haoran's back happily and said with a smile,""I haven't seen you for almost a year, and Haoran has grown up into a big boy!"

His spiritual power had already swept over and he could see Tang Haoran's current cultivation base at a glance.

Xia ruofei was overjoyed. Tang Haoran had indeed broken through to the Golden core stage.

When he first heard the news, Xia ruofei was a little worried. After all, there was no one around Tang Haoran to guide him all the time. He did not know how much Tang Haoran had cultivated. Xia ruofei was even worried that Tang Haoran had misjudged and had not broken through to the Golden elixir realm.

Now, it seemed that his worries were unnecessary. Tang Haoran was already an Aurous core stage cultivator.

If this news were to spread to the cultivation world, who knew how many cultivators who were suffering in the Qi refining stage would be envious.

Of course, Xia ruofei could see clearly that Tang Haoran had just entered the Golden core stage. He was not even in the early stage of the Golden core stage. He had just broken through the bottleneck between the Qi refining stage and the Golden core stage.

Moreover, Tang Haoran's cultivation base was somewhat unstable. It was obvious that he had not been able to consolidate his cultivation base in time.

Xia ruofei was secretly glad that he had rushed over in time. If he had delayed any longer, Tang Haoran's Foundation would have been so weak, and he would have been in big trouble.

Tang Yitian said from the side,"Haoran, you're already so old, why are you still sticking to master?" Quickly let go!"

Xia ruofei laughed and said,"I'm fine!" He was fine! I can't be happier with this child and his master!"

Jennifer said from the side,”Haoran wasn’t even that close to his mother!” It’s really sad …”

Tang Yitian laughed,”Haoran, hurry up and let go of your master.” Even your mother is jealous!”

Tang Haoran let go of Xia ruofei and ran over to Jennifer to hug her.””Of course I Love Mom and dad! He’s also very close to you guys!”

Jennifer suddenly smiled and hugged Tang Haoran.””Good child! Mommy loves you too!”

Everyone chatted in the living room for a while. The dining room was ready, so they went to the dining room and had lunch together.

Tang Haoran still had classes in the afternoon, so he didn’t have much time in the afternoon. Hence, Xia ruofei didn’t guide him in his cultivation. He only told him not to cultivate the Golden core cultivation technique for the next few days and to continue to cultivate the Qi refining cultivation technique to consolidate his cultivation.

After the Butler sent Tang Haoran to school, Xia ruofei bade farewell to the Tang Yitian couple.

“Big brother Tang, Jennifer, we’ll take our leave first!” Xia ruofei said,”I’ll come and pick up Haoran in three days!”

“If you don’t have anything to do, you can stay here for a few days!” “Haoran will be sad if he doesn’t see you after school,” Tang Yitian said.

Xia ruofei laughed and said,”won’t you see it in a few days?” Big brother Tang, I really have some things to deal with. I’ll come to pick up Haoran on time in three days!”

“Alright then!” Tang Yitian didn’t force her. He smiled and said,”then you’ll have to stay here for a few days in three days. Let’s have a good gathering. We’re in a hurry today, and you didn’t give us any notice …”

“We’ll see!” Xia ruofei smiled bitterly.”I’ve been a little busy recently. I’ll try my best to arrange it!”

When Xia ruofei said ‘busy’, he was naturally busy with his cultivation. He did not want to waste any time at all.

After bidding farewell to Tang Yitian today, Xia ruofei didn’t want to waste any more time outside. He planned to fly back to the peach source Island. Three days of cultivation could improve his cultivation.

“Alright! Your matter is more important, so it’s fine if you can’t arrange it!” Tang Yitian said straightforwardly.

He personally sent Xia ruofei to the garden at the back of the manor. Tang Yitian already knew about the existence of the black Phoenix flying ship. Naturally, he also knew that Xia ruofei would definitely take the Flying Ship if she wanted to leave, so he sent them to the garden at the back.

Xia ruofei and the other two boarded the flying boat and waved goodbye to Tang Yitian. Then, Xia ruofei controlled the flying boat to quickly ascend and leave Tang Yitian’s Manor.

He didn’t even go to the nearby Paradise Farm in Hunter Valley. Instead, he flew directly in the direction of the sea and headed straight for Paradise Island.

After an hour of flying, Xia ruofei and the other two returned to Paradise Island.

For the next three days, Xia ruofei continued to focus on his cultivation.

Because he was about to go to Sydney again, he didn’t go into seclusion and just stayed in the suite on the top floor of the Yanhuang building to cultivate.

With that, his schedule wasn’t as tight as when he was in closed – door cultivation. He basically had a normal day’s rest. In addition, he also took time out to practice the “absolute beginning Scripture” with Song Wei and Ling Qingxue, helping them to consolidate their early golden core cultivation.

Three days passed by in a flash. .

Xia ruofei left Paradise Island again and headed straight for Sydney.

This time, he was only going to pick up Tang Haoran and return. Therefore, he did not bring Song Wei and Ling Qingxue along. He went alone.

After about an hour of flight, Xia ruofei’s Black Phoenix flying boat landed in the back garden of Tang Yitian’s Manor. Three days before they left, Tang Yitian had told Xia ruofei to go straight to the back garden and not to go to the main gate.

Tang Yitian and Tang Haoran were already waiting there.

Chapter 3764 Careful counseling (2)

Tang Haoran had finished his last day of classes yesterday and was on leave today. Of course, there were also final exams in Australia. Normally, the official holiday would be one week later. At that time, the students still needed to go to the school to collect the result Handbook. However, for such a small matter, Tang Yitian would let the Butler collect it on his behalf. It wouldn't affect Tang Haoran's holiday.

"RUO Fei, go in and sit for a while!" Tang Yitian laughed."I've prepared a seafood feast for you. Let's have a few drinks today!"

According to Xia ruofei's plan, he wanted to pick up Tang Haoran and return to Peach Blossom Island. He did not even want to keep the black Phoenix flying boat.

However, Tang Yitian's hospitality and the fact that he came to pick up the son without even drinking water was indeed a bit unreasonable.

Hence, Xia ruofei kept the black Phoenix flying ship and smiled.""Then I won't be polite, big brother Tang! But I'm really busy, so I'll have to hurry after dinner!" .

"I've already guessed it!" Tang Yitian laughed and said,"don't worry! I won't make you stay any longer, just for a meal! This shouldn't be a problem, right?"

"It's still enough time for a meal!" Xia ruofei said with a smile.

"That's good! Let's go! Let's have a seafood feast!" Tang Yitian waved his hand.

"Alright!" Xia ruofei said,"seafood is best matched with white wine. How about this?" I'll contribute my precious wine to accompany big brother Tang for a few drinks today!"

Tang Yitian had also tasted the Drunken Eight Immortals wine before, so he was overjoyed when he heard this. "That's naturally the best!"

When they came to the restaurant, Jennifer greeted them with a smile and said,""Xia, I'm very unhappy that you're taking my precious son away as soon as you come!"

Xia ruofei laughed."Master and disciple are like father and son. Haoran is considered my child, but he spends most of his time with you. I just took advantage of his holiday to take him over to tutor him for a while. Don't compare yourself with me!"

"Alright then!" Jennifer shrugged and said,"but you have to promise me that you'll Take Good Care of My Baby Haoran!"

"Of course!" Xia ruofei said.

"Mommy, I'm already an adult. I've learned how to take care of myself!" Tang Haoran said. Tang Haoran had grown up very quickly in the past two years. Although he was not

The group walked down the stairs and arrived at the top floor suite.

Grand uncle Master, Ive already arranged for young uncle Master Haorans residence. What do you think Li Yifu said.

Xia ruofei waved his hand and said,Haoran will stay at my place for the next two days. I want to guide him in his cultivation. He will stay with me in a few days. Adopted husband, you can go ahead with your work! Inform me when its time for lunch.

Yes! Senior granduncle! Li Yifu immediately said.

In his heart, he was quite envious of Tang Haoran. He envied the fact that Xia ruofei had personally guided him in his cultivation for several days in a row. What a great blessing!bender

After Li Yifu left, Xia ruofei told Song Wei and Ling Qingxue to go and cultivate. Then, he brought Tang Haoran to a room and continued to answer his questions and guide him in his cultivation.

After lunch, Xia ruofei did not continue with his tutoring. Instead, he let Tang Haoran cultivate according to his instructions. His goal was naturally to consolidate his cultivation.

Xia ruofei found a room for himself, placed the purple origin crystals on it and started cultivating.

Now, as long as he had free time, he would make the best use of it to cultivate. He could not bear to waste even a little bit of time.

For the next few days, Xia ruofei would tutor Tang Haoran in the morning and let him cultivate by himself in the afternoon and night.

Tang Haoran naturally carried out his Masters words to the letter. These days, he didnt try to improve his cultivation, but devoted himself to consolidating his Foundation. His

talent was very good, and his previous Foundation was also very good, so in a few days, his Foundation was consolidated at a speed visible to the naked eye.

More importantly, he had accumulated a lot of questions in the past six months and Xia ruofei had answered all of them. The questions that he had not been sure about in the past were now cleared up like the clouds and the sun. His train of thought was suddenly cleared up and his cultivation was naturally smoother.

On the morning of the fourth day, Xia ruofei checked on Tang Haorans cultivation after he woke up. He nodded in satisfaction and smiled.

In four days, Tang Haorans unstable cultivation base had been completely resolved. This had also laid a solid foundation for his future cultivation.

Xia ruofei said with satisfaction,Haoran, some of your cultivation problems have been basically solved. From today on, you can cultivate the Golden core stage cultivation technique. However, you still have to follow the precautions I told you before. Take it one step at a time and dont rush for success.

OK, Haoran got it! Thankyou, master! Tang Haoran said gratefully.

Silly child, Im your master. 1 naturally have the duty to answer your questions. Whats there to thank for? Xia ruofei chuckled and said,you can stay in the room that Ive arranged for you today. Just cultivate diligently every day. The environment here is especially suitable for cultivation. You only have a few days of vacation each year, so you must treasure this opportunity and cultivate diligently. You must not slack off! .***m***

Ill remember it, master!Tang Haoran nodded solemnly.

Xia ruofei patted Tang Haorans head and smiled.Go! Your foster husband has already arranged a room for you, you can just go to him directly!

MMH! Goodbye, master! Tang Haoran said.

Yes! Xia ruofei nodded.If you have any questions about cultivation, you can come up and ask me anytime!

1 will! Tang Haoran said.

Then, he politely bade farewell to Song Wei and Ling Qingxue, before leaving the suite and heading downstairs to look for Li Yifu.

Haoran is becoming more and more sensible! Ling Qingxue chuckled.

Song Wei pursed her lips into a smile and said,this child bribed you by calling you Madam Ling! To praise him like that

Ling Qingxue pouted and said,so what if 1 am? Do you have any objections, Madam song? ₒm

Song Wei was thin skinned and immediately blushed. She lowered her head and said, Im going to kill you! You dont know how to choose your words!

Xia ruofei laughed and said,Madam, please dont compare yourself with each other. Its not easy for that third wheel to leave. We should get to know each other better.

Tang Haoran had been cultivating in the suite on the top floor for the past few days. Naturally, Xia ruofei could not be too close to his two close female friends. Otherwise, it would be a bad influence on the child. It should be known that cultivators had very good hearing. Walls and the like in this suite would not have any effect.

Of course, Xia ruofei could also set up a soundproof barrier, but he could not set up a barrier just to flirt with Song Wei and Ling Qingxue! That would be too inconvenient.

Song Wei and Ling Qingxue glared at Xia ruofei and said in unison,Go to the side!

Fine! It seems like Im asking for it Xia ruofei chuckled.! wanted to seize the time and cultivate with you two. Since youre not interested, Ill go cultivate by myself

Who said Im not interested! Ling Qingxue said immediately.

She looked at Song Wei and asked,Weiwei, did you say that just now?

No! Song Wei replied innocently. Is there something wrong with someones ears?

Its probably Its probably caused by being in seclusion for too long. Ling Qingxue said.

Xia ruofei looked at the two of them echoing each other and smiled bitterly.Enough, you guys! If you continue to join hands to run me down, Im really going to go back and cultivate in seclusion!

Dont! Ling Qingxue quickly replied,we were just joking with you! Its not easy for little Haoran to go downstairs to live, so of course we have to seize the time to cultivate together! Ill go now! Wei Wei, cultivate with RUG Fei first, Ill protect you!

Ling Qingxue then pushed Xia ruofei and Song Wei into the room.

Thats more like it Xia ruofei said with a proud smile.Dont push me, dont push me. Ill walk on my own! The group walked down the stairs and arrived at the top floor suite.

Chapter 3767 Balance between work and rest (1)

Xia ruofei did not continue to cultivate. He could feel that after such a long period of cultivation, his efficiency was getting lower and lower.

It wasn’t just because the difficulty of raising one’s cultivation level was getting higher and higher, but also because of the long period of closed – door cultivation. The cultivation intensity was several times higher than usual. He had repeatedly warned Tang Haoran not to be too hasty, but he himself seemed to be a little too hasty.

Xia ruofei stood up and looked around. The environment in the room did not change much. He would clean the room every once in a while and temporarily sealed the garbage that was produced in the spirit map space. Therefore, the room was still clean and fresh.

He felt slightly emotional. This one and a half years should be the time when he cultivated the hardest ever since he embarked on the path of cultivation. Of course, it was also the stage where his cultivation improved the fastest.

Although he was in the late jiedan stage before and after the closed – door training, and his realm did not seem to have improved, from the beginning of the late jiedan stage to the beginning of the breakthrough to the bottleneck of the Yuanying stage, it only took a total of about one and a half years. This speed would definitely make people speechless if it was spread out.

In fact, from the beginning of the advanced stage of the Aurous core stage to the peak of the advanced stage of the Aurous core stage, although the improvement of the entire stage did not involve the breakthrough of the realm, the difficulty of cultivation was indeed higher than the sum of all the previous improvements of the realm.

Chen Nanfeng had spent decades at this stage before he could slowly reach the peak of the advanced stage of the Golden core realm. In comparison, Xia ruofei was dozens of times faster than him.

Xia ruofei started to remove the formations one by one and then walked towards the door.

With a click, Xia ruofei opened the door and walked out.

The living room was right outside. Song Wei and Ling Qingxue were watching TV on the sofa. When they saw Xia ruofei's room door open, they were both stunned. .

Xia ruofei ended his closed – door cultivation without any warning.

Therefore, even though the Last Dragon – shaped pattern was starting to glow with a golden light and he was about to reach the bottleneck between the Golden core stage and the original infant stage, Xia ruofei still decided to stop.

The two closed – door training sessions had taken about a year and a half.

It had already been more than half a year since he went into seclusion.

He felt slightly emotional. This one and a half years should be the time when he cultivated the hardest ever since he embarked on the path of cultivation. Of course, it was also the stage where his cultivation improved the fastest.

Chapter 3768 A visit (1)

"Hello, little Xia!" Fang Liyun wiped the water off her hands on her apron and said warmly,"welcome to our house! Quickly come in and sit! I'll let Wei Wei accompany you to make tea and chat! Old song still has some work to do at work and will be back late. I still have things to do in the kitchen, you young people can chat!"

Fang Liyun's enthusiasm towards Xia ruofei came from the bottom of her heart. Of course, it was not because she knew about the relationship between Xia ruofei and Song Wei. It was entirely out of gratitude towards Xia ruofei.

Back then, not only did Xia ruofei cure the strange poison in Song Wei's body, but he also saved song Qiming when he was seriously injured and on the verge of death. Although song Qiming did not explain in detail, she knew that Xia ruofei had taught song Qiming some ways to maintain his health. Song Qiming's health had been getting better and better in the past few years. Some of his previous small problems had disappeared. The energetic song Qiming was naturally more comfortable in his work. It could be said that song Qiming's promotion this time was indirectly helped by Xia ruofei. .***m***

Xia ruofei had saved her life twice. In addition, he had helped song Qiming in his career. It was enough for Fang Liyun to be grateful to Xia ruofei.

Xia ruofei had not visited her for more than a year. Naturally, Fang Liyun was very enthusiastic to see him this time.

Xia ruofei quickly said,"aunty Fang, I'll go help you!" I'm pretty good at cooking ..."

"No need, no need!" Fang Liyun smiled and said,"I'm almost done. You're a guest, how can I let you cook?" Little Xia, just wait and eat, don't worry about anything else! Alright, I'm not going to talk to you anymore. The soup is still boiling in the kitchen! I have to go and keep an eye on it!"

After that, Fang Liyun hurried to the kitchen. When she reached the kitchen door, she turned back and said,""Wei Wei! Take good care of little Xia! That ... There's good tea in the drawer on the right under the coffee table. Your dad usually doesn't drink it, so he's taking it out to make tea for Xiao Xia!"

"Got it!" Song Wei said with a smile. Mom, you can go!"

Fang Liyun then turned around and went into the kitchen. Xia ruofei and Song Wei looked at each other and smiled. They went to the living room and sat down at the coffee table.

"Ruofei, try my dad's precious tea leaves!" Song Wei pursed her lips and smiled. It might not be as good as your Taoyuan Da Hong Pao, but it's still a very good tea!"

"Alright!" Xia ruofei said,"I'll do it!"

"I know you're good at making tea, so I won't fight with you!" Song Wei said with a smile.

She found a box of tea leaves in the shape of a biscuit from the drawer under the coffee table. She handed it to Xia ruofei and said,""There's only one box of tea leaves in here, so it should be this!"

Xia ruofei took it and opened the tea box. There was a tea cake in it, and it was just one size smaller than the tea box.

He raised his eyebrows and said,"this is white tea!" Then we can't just drink it in the pot, white tea has to be boiled!"

"I don't understand. I'll leave it to you!" Song Wei said with a smile.

"Alright! Then I'll do it!" Xia ruofei nodded.

He opened the wrapping paper of the tea cake, broke off a small piece of tea, and put it in a transparent kettle on the coffee table. He smiled and said,""Uncle song, you're also an expert! It's specially used to make tea!"

Xia ruofei pressed the switch and the water in the pure water bucket was immediately sucked up and into the teapot.

Xia ruofei sniffed and said,""The water is also very particular. This is not ordinary pure water. If I'm not wrong, it should be mountain spring water! It's the most suitable for making tea!"

After dinner, the sky gradually darkened. Song Qiming smiled and said,""RUO Fei, let's go! Go to my study room and make some tea! We haven't seen each other for a long time. Don't be in a hurry to leave today, let's have a good chat!"

Naturally, song Qiming had some questions about cultivation that he wanted to ask. However, it was not convenient for him to ask in front of Fang Liyun. Xia ruofei smiled and nodded."Alright! Uncle song, I was worried that I'd disturb your work!"

"Even the Secretary needs to get off work and rest!" Song Qiming chuckled and said,"let's go! Let's go to the study!"

Song Wei stayed behind to help Fang Liyun clean up the dishes. Xia ruofei followed song Qiming to the study on the second floor.

After entering the house, Xia ruofei casually set up a soundproof barrier and smiled.""Uncle song, it seems that you have been very busy recently. Your cultivation progress is slower than I expected!"

Before they ate, Xia ruofei had already scanned song Qiming with his spiritual power the moment he entered the room. Song Qiming did not even notice it, but Xia ruofei had already seen his cultivation level.

"I had no choice!" Song Qiming said with a bitter smile. This position is related to the basic necessities of tens of millions of people. There's too much work to do in all aspects of such a large province ..."

"I understand! I understand!" Xia ruofei laughed and said,"uncle song, your Foundation is still very good. It's not a big problem for your cultivation speed to be a little slow now!

Experiencing the world of mortals is also very beneficial to a cultivator's Dao heart. With you in such a position, the effect will naturally be better!"

"That's the only way I can think of it!" Song Qiming laughed bitterly."By the way, I heard from Weiwei that you've been in closed – door cultivation for more than a year?"

"Almost! I've only gone into closed – door cultivation twice. " Xia ruofei smiled and said,"there was a gap of more than a month."

Song Qiming looked envious and said,""If only I had as much time as you to cultivate! RUO Fei, your current cultivation ..."

"He's still in the late – Stage of the Aurous core stage!" Xia ruofei did not hide anything."After the Golden core stage, it's even harder to break through. However, the effects of my closed – door cultivation this time are still very obvious!"

“I understand! I understand!” Xia ruofei laughed and said,”uncle song, your Foundation is still very good. It’s not a big problem for your cultivation speed to be a little slow now! Experiencing the world of mortals is also very beneficial to a cultivator’s Dao heart. With you in such a position, the effect will naturally be better!”

“That’s the only way I can think of it!” Song Qiming laughed bitterly.”By the way, I heard from Weiwei that you’ve been in closed – door cultivation for more than a year?”

“Almost! I’ve only gone into closed – door cultivation twice. ” Xia ruofei smiled and said,”there was a gap of more than a month.”

Song Qiming looked envious and said,""If only I had as much time as you to cultivate! RUO Fei, your current cultivation ..."

"He's still in the late – Stage of the Aurous core stage!" Xia ruofei did not hide anything."After the Golden core stage, it's even harder to break through. However, the effects of my closed – door cultivation this time are still very obvious!" "He's still in the late – Stage of the Aurous core stage!" Chapter 3771 Origin (1)

Xia ruofei hid in the dark and watched with great interest. With his current cultivation level, if he wanted to hide, even if Chen Nanfeng came personally, he might not be able to find him. It was naturally easier to hide from the detection of two Qi refining cultivators.

The cultivator hiding behind the tree at the foot of the wall was obviously aware of the approaching danger. He had already held his breath and his body was motionless, shrinking as much as possible in the shadow.

However, Xia ruofei shook his head secretly. He had already predicted the outcome. This cultivator could not be hidden.

On the one hand, he was badly injured. His chest was stained with a lot of blood, and it looked like he had been poisoned, so his blood had an unpleasant smell. Although the blood was almost dry, and ordinary people might not be able to smell the smell, it was obviously not easy to hide from the pursuing cultivator.

On the other hand, although the fleeing cultivator was holding his breath, his breath was even more chaotic, probably because he was nervous. Under the investigation of the cultivator's mental power, this chaotic breath was undisguisable.

Xia ruofei didn't know why this pathetic cultivator chose to hide here instead of running away. After all, he was quite far away from the cultivator who was chasing him.

However, there were only a few possible reasons. For example, he was exhausted and couldn't run at all. Or the poison in his body acted up, so he didn't dare to run for long.

From the looks of it, the situation was extremely disadvantageous to the cultivator who had escaped. If he had not managed to hide in Xia ruofei's courtyard, he would have been dead.

Xia ruofei was not in a hurry to show himself. Instead, he quietly observed in the dark.

In the battle of the cultivation world, there had never been an absolute right or wrong standard. It was more about strength. Even though this cultivator had been poisoned, Xia ruofei would not simply judge him as an evil cultivator just because he had used poison.

Xia ruofei had collected a large amount of poisonous lake water during his exploration in the underground palace a year and a half ago. This poison could cause the body of anyone who came into contact with it to explode and die. In terms of its degree of toxicity, it was much more severe than the poison that the escapeed cultivator had been poisoned with.

Methods always served the target, especially in the special ecosystem of the cultivation world. Xia ruofei would not simply use methods to determine right and wrong. .

After a while, Xia ruofei saw that the cultivator had slowed down.

He knew that the little fellow must have discovered something.

As expected, the cultivator switched his horsetail whisk to his right hand and was on full alert. He walked towards Xia ruofei's Villa with a cold gaze.

"Shang Daoyuan, stop hiding!" The Daoist said sarcastically,"I can smell your scent from miles away! It's better for you to come out on your own!" .

Xia ruofei hid in the dark and watched with great interest. With his current cultivation level, if he wanted to hide, even if Chen Nanfeng came personally, he might not be able to find him. It was naturally easier to hide from the detection of two Qi refining cultivators.

At that time, Xia ruofei was still in the Qi refining stage. In order to upgrade the spirit map space, he had specially bought a yacht to go out to sea and try his luck.

In the end, they encountered a storm at sea and almost died in the fish's stomach.

It was also at that time that he discovered an Island hidden in the fog, the roaming Jade Immortal Island.

Xia ruofei had gained a lot on green travel Immortal Island. The green travel immortal sword was the flying sword that he used the most.

Of course, the biggest gain on green Immortal Island was the inheritance of the immortal Island owner, bi youzi, which was the mansion – guarding wooden token. As long as he completely refined the mansion – guarding wooden token, he could sense the location of green Immortal Island and take the entire green Immortal Island into his body.

Of course, the process of refining the mansion – guarding wooden token was a long one. For the past few years, Xia ruofei had been using his spiritual power to refine the wooden token at all times. However, this kind of painstaking work could not be rushed, especially when his cultivation was still low at that time. The speed of refining was surprisingly slow.

Speaking of which, it seemed that he was not far from completely refining the residence – guarding wooden token.

At that time, he could go and collect green travel Immortal Island first. There were still the inheritance and treasures left behind by senior bi youzi!

Xia ruofei's thoughts drifted away.

Not far away, Yu qingzi didn't get a response and respectfully called out,""I am Yu qingzi, a cultivator of the Jade void temple. May I ask which senior saved me? please show yourself. I will never forget your life – saving grace!"

Xia ruofei finally came back to his senses. He didn't expect to meet a disciple of the Jade void temple under such circumstances.

The master of the green Immortal Island, senior bi youzi, was from the Jade void temple. .

Back then, bi youzi had left behind an image. Before the image disappeared, he had instructed the junior who had received the inheritance to take care of the Jade void temple disciples if they met them.

After Xia ruofei traveled the cultivation world, he had never met any cultivators from Yuxu temple. There were countless Daoist temples in the secular world called Yuxu temple. He couldn't specifically look for bi youzi's disciples and Grand – Disciples, so he didn't have the chance to take care of the cultivators from Yuxu temple and repay bi youzi's kindness.

And today, under such circumstances, he had inadvertently met a disciple of the Jade void temple. One had to admit that fate was really a wonderful thing.

Chapter 3774 Mansion - guarding wooden tablet (1)

The most precious cultivation resource Yu qingzi had ever seen was spirit crystals, and they weren't his own at all. He had seen them taken out by a Jindan stage senior from a distance.

Even if Yu qingzi was blind, he could sense that these three spiritual crystals were definitely a hundred times more precious than spirit crystals.

He didn't even know that they were called origin crystals. He only knew that they must be of a much higher grade than spirit crystals.

That senior had given him such a priceless treasure? And he even gave her three?

Yu Qing Zi subconsciously waved his hand and said,"Senior, this gift is too precious. This junior does not dare to accept it. Please take back your order!"

Xia ruofei said indifferently,"didn't your elders teach you that you can't refuse a gift from an elder?" Since you call me senior, and I have a relationship with your Grandmaster bi

youzi, as your senior, I'll give you a small meeting gift, and you're actually rejecting it? Is this the etiquette of your Jade void temple?"

Xia ruofei's words were a little heavy, causing Yu qingzi to break out in cold sweat.

Who didn't want good things? The key point was that the origin crystal was really too precious, making Yu qingzi feel that it was a hot potato, so he subconsciously refused.

Now that Xia ruofei had already said this, how could he still refuse?

"Senior, it's this Junior's fault!" Yu Qing Zi quickly said. Then senior's generous gift ... This junior will shamelessly accept it. Many thanks, senior!"

Yu qingzi was currently overjoyed. He realized that this was the biggest opportunity he had ever had since he stepped onto the path of cultivation.

He didn't expect that after so many years of diligent cultivation, the progress of his cultivation had been very slow. Now that he was middle – aged, such a great opportunity had inadvertently fallen on his head. This was really luck that even the city walls could not stop it!

Xia ruofei did not show himself. He was in the dark, watching Yu qingzi's overjoyed expression and couldn't help but sigh. It seemed that the continuous deterioration of the cultivation environment was not something that any sect in the entire cultivation world could escape from. Senior bi youzi's Jade void temple had also declined. Otherwise, how could a few crystals make Yu qingzi so ecstatic?

He was also very clear that Yu qingzi's attention was all on those three origin crystals.

Of course, three crystals were indeed a generous gift. Xia ruofei had investigated Yu qingzi's situation and found that these three crystals were basically enough to satisfy the yuan Qi He needed to cultivate to the Golden core stage. Unless he had a hole in his brain and brought these crystals back to offer the sect or exchange them for other treasures, he would definitely be able to break through to the Golden core stage after a few years.

However, there was a prerequisite for all these assumptions, and that was related to the spiritual herb with dark green leaves.

In reality, three origin crystals added together were not as valuable as this spiritual herb.

Because Yu qingzi's horizons were limited, he had eyes but couldn't recognize gold embedded in Jade. He had almost ignored the truly precious spiritual herbs.

Since Xia ruofei had given Yu qingzi this opportunity, he naturally wouldn't just give it away without any reason.

He said indifferently,”Yu qingzi, the three origin crystals in front of you all contain extremely dense spiritual energy. With them, you can cultivate at any time and place. Moreover, these three origin crystals should be enough to support your cultivation to the Golden core stage.”

Only now did Yu Qing Zi know that these precious crystals were the legendary origin crystals. Moreover, the senior had personally said that he could rely on these three origin crystals to cultivate to the Golden core stage. Naturally, he was surprised and happy. He quickly and respectfully bowed and said,”Many thanks, senior! Junior is unable to repay senior’s great kindness, but in the future, if senior needs help, junior will not hesitate to go through water and tread on fire!”

Chapter 3776 Exploring the immortal Island (1)

"Ruofei, well done!" Ling Qingxue walked over and stood outside the villa's fence, grinning as she spoke.

Even though Ling Qingxue could not find Xia ruofei's hiding spot, she knew that Xia ruofei must be right beside her.

Xia ruofei used his spiritual power to scan the area and clearly sensed that Yu qingzi did not stay in the vicinity. Instead, he left the villa district.

He walked out from the shadows and said,""It's so late, why aren't you sleeping? why are you running around?"

Ling Qingxue stuck out her tongue and said,""I was going to sleep! But there's so much noise outside, it's hard not to hear!"

Xia ruofei saw that Ling Qingxue was wearing a cute cotton pajamas with cartoon characters. Her hair was not completely dry. He knew that she must have just taken a shower and was about to go to bed. .

“Your vigilance is not bad, worthy of praise!” Xia ruofei smiled as he spoke to Ling Qingxue through the fence.

“That’s right! No matter what, I’m already a Jindan stage cultivator, okay?” Ling Qingxue giggled and said,”can you not always treat me like a weak woman who needs your protection?”

“Yes, yes, yes! Our Qingxue is already a heroine! If I didn’t stop you today, you would have rushed out!” Xia ruofei said with a smile.

“Of course!” Ling Qingxue snorted and said,”that Shang Daoyuan is the scum of the cultivation world. I can’t even vent my anger on him even if I cut him into eight pieces!”

Then, Ling Qingxue smiled and said,””But he ended up in such a miserable state. At least he can give an explanation to the innocent victims! Ruofei, you’ve done well in this matter!”

“This is the second time you’ve complimented me tonight!” Xia ruofei said with a smile.

Ling Qingxue showed a rare serious expression and said,””I’m saying this from the bottom of my heart! RUO Fei, tonight’s incident also made me realize for the first time the meaning of becoming a cultivator and constantly improving my cultivation. If I was an ordinary person, I wouldn’t be able to do anything other than express my anger. However, I’m a golden core stage cultivator. If you didn’t stop me today, I could have killed Shang Daoyuan on behalf of Tian xingdao!”

“Although my understanding isn’t deep enough, and it’s a little one – sided, what I said isn’t wrong.” Xia ruofei smiled and said,”no matter when, it’s always right to have enough strength. However, most of the time, the greater the strength, the greater the responsibility. ”

Xia ruofei was thinking about the crisis that the cultivation world on earth might face.

“Of course I know!” Ling Qingxue said,”the more powerful you are, the more responsibilities you have to bear. But no matter what, it’s better than not having any ability to protect yourself and being at the mercy of others! Those girls were tortured to death by Shang Daoyuan because they couldn’t resist, right?”

“That makes sense!” Xia ruofei laughed and said,”I say ... It’s such a long night. Are you going to chat with me through the fence? Why don’t you come in for a drink and do something more interesting?”

“Ruofei, well done!” Ling Qingxue walked over and stood outside the villa’s fence, grinning as she spoke.

At that time, Xia ruofei was still in the Qi refining stage. In order to upgrade the spirit map space, he had specially bought a yacht to go out to sea and try his luck.

In the end, they encountered a storm at sea and almost died in the fish's stomach.

It was also at that time that he discovered an Island hidden in the fog, the roaming Jade Immortal Island.

Xia ruofei had gained a lot on green travel Immortal Island. The green travel immortal sword was the flying sword that he used the most.

Of course, the biggest gain on green Immortal Island was the inheritance of the immortal Island owner, bi youzi, which was the mansion – guarding wooden token. As long as he completely refined the mansion – guarding wooden token, he could sense the location of green Immortal Island and take the entire green Immortal Island into his body.

Of course, the process of refining the mansion – guarding wooden token was a long one. For the past few years, Xia ruofei had been using his spiritual power to refine the wooden token at all times. However, this kind of painstaking work could not be rushed, especially when his cultivation was still low at that time. The speed of refining was surprisingly slow.

Speaking of which, it seemed that he was not far from completely refining the residence – guarding wooden token.

The master of the green Immortal Island, senior bi youzi, was from the Jade void temple.

Back then, bi youzi had left behind an image. Before the image disappeared, he had instructed the junior who had received the inheritance to take care of the Jade void temple disciples if they met them.

After Xia ruofei traveled the cultivation world, he had never met any cultivators from Yuxu temple. There were countless Taoist temples called Yuxu temple in the secular world. He could not specifically look for bi youzi's disciples and Grand – Disciples, so he had no chance to take care of the cultivators from Yuxu temple and repay bi youzi's kindness.

And today, under such circumstances, he had inadvertently met a disciple of the Jade void temple. One had to admit that fate was really a wonderful thing. Xia ruofei finally came back to his senses. He didn't expect to meet a disciple of the Jade void temple under such circumstances.

At that time, he could go and collect green travel Immortal Island first. There were still the inheritance and treasures left behind by senior bi youzi!

Xia ruofei's thoughts drifted away.

Not far away, Yu qingzi didn't get a response and respectfully called out,""I am Yu qingzi, a cultivator of the Jade void temple. May I ask which senior saved me? please show yourself. I will never forget your life – saving grace!"

Chapter 3778 Mansion – guarding wooden tablet (1)

The most precious cultivation resource Yu qingzi had ever seen was spirit crystals, and they weren't his own at all. He had seen them taken out by a Jindan stage senior from a distance. magic

Even if Yu qingzi was blind, he could sense that these three spiritual crystals were definitely a hundred times more precious than spirit crystals.

He didn't even know that they were called origin crystals. He only knew that they must be of a much higher grade than spirit crystals.

That senior had given him such a priceless treasure? And he even gave her three?

Yu Qing Zi subconsciously waved his hand and said,"Senior, this gift is too precious. This junior does not dare to accept it. Please take back your order!"

Xia ruofei said indifferently,"didn't your elders teach you that you can't refuse a gift from an elder?" Since you call me senior, and I have a relationship with your Grandmaster bi youzi, as your senior, I'll give you a small meeting gift, and you're actually rejecting it? Is this the etiquette of your Jade void temple?"

Xia ruofei's words were a little heavy, causing Yu qingzi to break out in cold sweat.

Who didn't want good things? The key point was that the origin crystal was really too precious, making Yu qingzi feel that it was a hot potato, so he subconsciously refused.

Now that Xia ruofei had already said this, how could he still refuse?

“Senior, it’s this Junior’s fault!” Yu Qing Zi quickly said. Then senior’s generous gift ... This junior will shamelessly accept it. Many thanks, senior!”

Yu qingzi was currently overjoyed. He realized that this was the biggest opportunity he had ever had since he stepped onto the path of cultivation.

He didn’t expect that after so many years of diligent cultivation, the progress of his cultivation had been very slow. Now that he was middle – aged, such a great opportunity had inadvertently fallen on his head. This was really luck that even the city walls could not stop it!

Xia ruofei did not show himself. He was in the dark, watching Yu qingzi’s overjoyed expression and couldn’t help but sigh. It seemed that the continuous deterioration of the cultivation environment was not something that any sect in the entire cultivation world could escape from. Senior bi youzi’s Jade void temple had also declined. Otherwise, how could a few crystals make Yu qingzi so ecstatic? .

He was also very clear that Yu qingzi’s attention was all on those three origin crystals.

Of course, three crystals were indeed a generous gift. Xia ruofei had investigated Yu qingzi’s situation and found that these three crystals were basically enough to satisfy the yuan Qi He needed to cultivate to the Golden core stage. Unless he had a hole in his brain and brought these crystals back to offer the sect or exchange them for other treasures, he would definitely be able to break through to the Golden core stage after a few years.

However, there was a prerequisite for all these assumptions, and that was related to the spiritual herb with dark green leaves.

In reality, three origin crystals added together were not as valuable as this spiritual herb.

Because Yu qingzi’s horizons were limited, he had eyes but couldn’t recognize gold embedded in Jade. He had almost ignored the truly precious spiritual herbs.

Since Xia ruofei had given Yu qingzi this opportunity, he naturally wouldn’t just give it away without any reason.

He said indifferently,”Yu qingzi, the three origin crystals in front of you all contain extremely dense spiritual energy. With them, you can cultivate at any time and place. Moreover, these three origin crystals should be enough to support your cultivation to the Golden core stage.”

Only now did Yu Qing Zi know that these precious crystals were the legendary origin crystals. Moreover, the senior had personally said that he could rely on these three origin crystals to cultivate to the Golden core stage. Naturally, he was surprised and happy. He quickly and respectfully bowed and said,”Many thanks, senior! Junior is unable to repay

senior’s great kindness, but in the future, if senior needs help, junior will not hesitate to go through water and tread on fire!”

Chapter 3780 Exploring the immortal Island (1)

"Ruofei, well done!" Ling Qingxue walked over and stood outside the villa's fence, grinning as she spoke.

Even though Ling Qingxue could not find Xia ruofei's hiding spot, she knew that Xia ruofei must be right beside her. magic

Xia ruofei used his spiritual power to scan the area and clearly sensed that Yu qingzi did not stay in the vicinity. Instead, he left the villa district.

He walked out from the shadows and said,""It's so late, why aren't you sleeping? why are you running around?"

Ling Qingxue stuck out her tongue and said,""I was going to sleep! But there's so much noise outside, it's hard not to hear!"

Xia ruofei saw that Ling Qingxue was wearing a cute cotton pajamas with cartoon characters. Her hair was not completely dry. He knew that she must have just taken a shower and was about to go to bed.

“Your vigilance is not bad, worthy of praise!” Xia ruofei smiled as he spoke to Ling Qingxue through the fence.

“That’s right! No matter what, I’m already a Jindan stage cultivator, okay?” Ling Qingxue giggled and said,”can you not always treat me like a weak woman who needs your protection?”

“Yes, yes, yes! Our Qingxue is already a heroine! If I didn’t stop you today, you would have rushed out!” Xia ruofei said with a smile.

“Of course!” Ling Qingxue snorted and said,”that Shang Daoyuan is the scum of the cultivation world. I can’t even vent my anger on him even if I cut him into eight pieces!”

Then, Ling Qingxue smiled and said,””But he ended up in such a miserable state. At least he can give an explanation to the innocent victims! Ruofei, you’ve done well in this matter!”

“This is the second time you’ve complimented me tonight!” Xia ruofei said with a smile.

Ling Qingxue showed a rare serious expression and said,””I’m saying this from the bottom of my heart! RUO Fei, tonight’s incident also made me realize for the first time the meaning of becoming a cultivator and constantly improving my cultivation. If I was an ordinary person, I wouldn’t be able to do anything other than express my anger. However, I’m a golden core stage cultivator. If you didn’t stop me today, I could have killed Shang Daoyuan on behalf of Tian xingdao!”

“Although my understanding isn’t deep enough, and it’s a little one – sided, what I said isn’t wrong.” Xia ruofei smiled and said,”no matter when, it’s always right to have enough strength. However, most of the time, the greater the strength, the greater the responsibility. ”

Xia ruofei was thinking about the crisis that the cultivation world on earth might face.

“Of course I know!” Ling Qingxue said,”the more powerful you are, the more responsibilities you have to bear. But no matter what, it’s better than not having any ability to protect yourself and being at the mercy of others! Those girls were tortured to death by Shang Daoyuan because they couldn’t resist, right?”

“That makes sense!” Xia ruofei laughed and said,”I say ... It’s such a long night. Are you going to chat with me through the fence? Why don’t you come in for a drink and do something more interesting?”

Chapter 3782 Green touring immortal abode (1)

Xia ruofei did not go out the entire morning. He sat in his bedroom and focused on refining the wooden token.

According to the progress, the refinement was 99.99% complete. He was just a little bit away. If Xia ruofei was still in the Qi refinement realm, the last 0.01% might take more than ten days or even dozens of days to complete. However, he was about to break through to the nascent soul realm and his spiritual power was about to reach the late –

Stage of spiritualisation realm. Therefore, the efficiency was naturally not the same as when he was in the Qi refinement realm.

Xia ruofei had used about three hours. In these three hours, he had changed his usual practice of using a trace of spiritual power to penetrate the wooden token. Instead, he had used all his spiritual power to remove the last bit of resistance.

Even so, it was almost noon when Xia ruofei finally refined the mansion – guarding wooden token.

The moment the wooden token was completely refined, Xia ruofei felt that the connection between him and the wooden token had become much clearer. Previously, when he had absorbed the wooden token into his dantian and refined it with his spiritual power every day, he had also established a connection with the wooden token. However, the connection was very weak, almost non – existent.

And the moment the mansion – guarding wooden token was refined, this invisible connection suddenly became several times stronger.

At the same time, a series of information entered Xia ruofei's mind.

Xia ruofei had received a lot of information in the spirit map space and the trial Pagoda in the mystic Luna realm. He was very familiar with this feeling, so he was not flustered at all. *e*.

In reality, the amount of information this time was very little, it might not even reach one ten – thousandth of the information on the 9th floor of the Tower of Trials. In just a breath or two, the transmission of information had ended.

Chapter 3783 Collecting the immortal abode (1)

The three mountains was a coastal city, so it only took a minute or two for the black Phoenix flying ship to reach the ocean from the jiangbin villa district.

Xia ruofei and the other two were standing on the deck, enjoying the morning sea scenery.

“RUO Fei, there shouldn’t be any danger in this trip to collect the green touring immortal mansion, right?” Ling Qingxue smiled and said,”I realized that every time I go on an adventure with you, we always encounter this and that. It’s impossible to guard against!”

Xia ruofei chuckled,”why don’t you say that the harvest is beyond your imagination?” Wealth is found in danger!”

“That’s true, but this time you’ve refined the mansion – guarding wooden token, which means that the green Immortal Island is already under your control. There should be no more accidents!” Ling Qingxue said with a smile. .***m***

“Don’t say that …” Xia ruofei laughed bitterly.”As the saying goes, good things don’t work, bad things do. Your poisonous milk might bring us trouble!”

Ling Qingxue and Song Wei couldn’t help but giggle.

Xia ruofei looked at the endless sea below the flying boat and said,””You don’t say, I’m actually not very sure if I can successfully obtain the green touring immortal mansion this time.”

“What’s the situation?” Song Wei asked.

“There are no unexpected situations for now.” Xia ruofei said,”it’s the location of green Immortal Island. It’s much further than I thought …”

“No matter how far it is, as long as we’re on earth, distance is not a problem for the black Phoenix flying ship.” Ling Qingxue said with a smile.

Song Wei observed for a while and asked curiously,””Ruofei, we don’t seem to be flying all the way to the deep ocean in the East! Where are we going?” .

Xia ruofei shrugged and said,”I’m flying in the direction of green touring immortal abode. However, according to the mansion – guarding wooden tablet, it should be very far away and to our North. I’m just considering that the green immortal mansion must be floating on the sea! Therefore, we should fly above the ocean first, then head North – East. ”

“It seems like today’s voyage will be longer!” Song Wei smiled and said,”then let’s go into the cabin and rest for a while!”

Chapter 3785 Adventures in the North Pole (1)

Ling Qingxue and Song Wei were no longer newbies with no actual combat experience. After all, they had followed Xia ruofei to the underground palace of the ancient tomb of Mount Yu. In particular, Ling Qingxue and Xia ruofei had explored the mystic Luna realm together. Therefore, after receiving Xia ruofei's voice transmission reminder, the two of them did not show any signs of surprise on their faces. They did not even use their spiritual power to investigate further.

This was because they absolutely believed in Xia ruofei's investigation results. If they subconsciously released their spiritual power to investigate, they might be overreaching themselves and the other party might notice.

"Sure!" Song Wei replied without changing her expression. Then let's go down first! Let's see what's going on with this barrier. "

The three of them slowly lowered their flying swords. Not only were Song Wei and Ling Qingxue's movements a little clumsy, even Xia ruofei pretended that he was not very familiar with it and slowly returned to the ground.

After the three of them jumped onto the ice, they put away their flying swords, as if they were not prepared for any danger. *om*

Xia ruofei brought Song Wei and Ling Qingxue to the front of the barrier. They observed and talked about the situation of the barrier as if they were discussing how to break through it.

In reality, Xia ruofei had already been sending messages to Song Wei and Ling Qingxue.

At the same time, Xia ruofei's spiritual power had already locked onto the three cultivators who were getting closer, but they did not notice at all.

From this point, Xia ruofei could basically judge that even if these three people's cultivation was higher than his, it was probably not much higher. If they were nascent Soul Stage cultivators, even if Chen Nanfeng had just broken through to the early stage of the nascent Soul Stage, even if his spiritual power was not as strong as Xia ruofei 's, if Xia ruofei really used his spiritual power to detect them, he would definitely be able to sense it.

However, Xia ruofei did not let his guard down. After all, there were three of them and the situation was still unclear.

Hence, even though he appeared to be unconcerned, in reality, Xia ruofei was already ready to launch his strongest attack at any time.

In addition, he had asked Song Wei and Ling Qingxue to get as close to the barrier as possible just in case.

If the other party's strength was beyond his expectations and he could not match it for the time being, he could at least use the mansion – guarding wooden token to open the outer enchantment of the green Immortal Island in an instant and the three of them could hide in the green Immortal Island.

Although the energy barrier would not last long, Xia ruofei would be able to escape with Song Wei and Ling Qingxue in the black Phoenix flying ship with this precious time.

As for green travel Immortal Island, he could only stay here for the time being. After all, even if he relied on the mansion – guarding wooden token, it would still take some time to take away the entire Immortal Island.

Xia ruofei had already analyzed the current situation thoroughly in just a few short breaths.

Chapter 3787 The tip of the iceberg (1)

Of course, the cultivation world was so big, and there were naturally all kinds of cultivators. It could not be ruled out that some people did not have such awareness and did not care about the survival of the cultivation world at all.

Even if a leader called out to everyone, it was very likely that there would be some people who were unwilling to contribute and continue to stay in the cultivation world on earth.

However, this was the North Pole, which could be said to be the bitterly cold region. Besides, Xia ruofei had personally experienced the environment here. Not only was the natural environment very harsh, but it was also quite unfriendly to cultivators. The degree of violence of the spiritual energy here was even more serious than what he had felt in some of the famous mountains and rivers in Huaxia.

In other words, this place was not suitable for cultivation at all. Even at midnight and dawn, the spiritual energy might not be enough to meet the requirements for cultivation.

In such an extremely harsh environment, why did this expert still stay here?

Many thoughts flashed through Xia ruofei's mind in an instant. He pondered for a while and then raised his voice."Is senior's immortal's cave nearby? I wonder if you can show yourself!"

"Impudent!" Before the loud voice could reply, the mid – Stage golden core cultivator who had almost died under Xia ruofei's flying sword said with a dark expression,"you're just a small China rogue cultivator. What right do you have to meet the venerable one?"

The loud voice laughed and said,""Yuan Jian, this little friend's cultivation is much stronger than yours, and he's quite related to this old man. If you want to meet him, he's still qualified ..."

The intermediate stage golden core cultivator called Yuan Jian was stunned.

It was true that he couldn't detect Xia ruofei's cultivation level, but it was beyond his expectations that guru Yunxiao would say that this young man's cultivation level was higher than his. Chapter 3788 The magical uses of the immortal Island (1)

“Let’s go! I’ll take you on a tour of the island first!” Xia ruofei said with a smile.

He took out the blue travel immortal sword and lightly jumped on the flying sword. Song Wei and Ling Qingxue also took out their own flying swords. Their movements were a little awkward, but they still stood firmly on their flying swords.

The blue travel immortal sword seemed to be able to sense that he was near the immortal abode, so Xia ruofei could vaguely feel the jubilant mood from the immortal sword.

The immortal sword had a spirit. Although the blue travel immortal sword had not completely produced a device spirit, it probably already had a chaotic and ignorant prototype of a device spirit and had some simple emotions.

Naturally, Xia ruofei was very happy when he discovered this. This meant that the blue travel immortal sword’s grade was very high and that it still had room for growth in the future. If it really produced an Artifact Spirit like the one in the seven Star Pavilion, the grade of this flying sword would increase greatly, and its power would naturally be greater.

The three of them rode on their flying swords and flew in the direction of green travel Immortal Island at an altitude of more than ten meters from the ground.

Even though Xia ruofei had slowed down the speed of his sword Kinesis flight to take care of Song Wei and Ling Qingxue, the distance of a hundred meters was covered in a flash.

They landed their flying swords on a beach and jumped to the ground.

This looked very strange. There was not a single drop of seawater around the beach. It was covered in a thick layer of ice, and there was a clear boundary between the beach and the ice.

Xia ruofei stepped on the fine sand and looked around. He couldn’t help but smile.

It was really a coincidence. He recognized at a glance that this was the beach he had stepped on when he had encountered a storm at sea and accidentally entered the green Immortal Island.

The scene from that time was still vivid in his mind, and the beach seemed to have not changed since he left.

Time seemed to have stopped here. .

Chapter 3790 The sound of shock (1)

As soon as this thought appeared in Xia ruofei's mind, his train of thought immediately dispersed.

If the entire green Immortal Island could be moved into the spirit map space, the mountain sea realm would also have an ocean. Although the spirit map space had not yet evolved to its ultimate state, and the ocean was not as vast as the real ocean outside, it was more than enough to accommodate such a small island.

Not to mention one, even eight or ten would be a cinch.

In this case, it was equivalent to having such a beautiful immortal mansion in the spirit map space. The rich spirit Qi in the space could also accelerate the growth of spirit flowers and spirit herbs. If it was a particularly precious spirit herb, time array flags could be used to change the flow of time to achieve the effect of ripening.

It was simply too perfect!

Of course, Xia ruofei still needed to familiarize himself with the situation and figure out how to control the island through the mansion – guarding wooden token. .

According to bi youzi, as long as the mansion – guarding wooden token was refined, green Immortal Island could be taken directly. However, bi youzi did not go into details and Xia ruofei had to figure out the specifics himself.

While Xia ruofei's mind was racing, Song Wei and Ling Qingxue had long been stunned by the beautiful garden in front of them.

Speaking of which, the two of them were already golden core cultivators. Even if they were not very knowledgeable when they were with Xia ruofei, they had at least eaten and seen her before. They were not those poor rogue cultivators. However, coming to green touring immortal abode was still like entering the Grand View Garden.

"RUO Fei, this ... This is such a beautiful immortal mansion. Will it be yours in the future?" Ling Qingxue said with a look of disbelief.

Xia ruofei smiled."Theoretically, yes. But I still have to figure out how to take it away!"

"Yes, yes, yes!" Ling Qingxue said,"and we still have to think about how to settle it! He couldn't bring such a Big Island back to Huaxia! Even if it was placed in the ocean near Paradise Island, it didn't seem appropriate ... If the satellite in the sky discovered that there was suddenly an Island in the ocean, wouldn't it cause a huge uproar? Besides, there are also some other islands near our Paradise Island, and there are also residents on them, right? There's no way we can keep this a secret!"

Xia ruofei chuckled."You don't have to worry too much about this. The concealment array of green travel Immortal Island is quite advanced. Whether it's a satellite in the sky or a ship in the sea, as long as I don't want them to find me, they will definitely not be able to find me." Moreover, the amount of spiritual Qi required to maintain the concealment array isn't much, so it can be kept open 24 hours a day without a break. This shouldn't be a problem!"

Xia ruofei continued,"also ... I may not necessarily place green travel Immortal Island near Paradise Island ..."

"Ah?" Ling Qingxue couldn't help but ask,"then ... Then where do you want to put it?" Could it be hidden in the North Pole? It's too inconvenient to make a round trip!"

“I haven’t decided yet!” Xia ruofei smiled and said,”I’ll familiarize myself with the control of the wooden token first.”

He didn’t want Song Wei and Ling Qingxue to know about the spirit map space for the time being. He also had plans to place green Immortal Island in the spirit map space, so he could only be vague about it.

Song Wei smiled and said,”Qingxue, you can’t eat hot tofu in haste. Anyway, the control core of the entire immortal abode has been refined by RUO Fei. This immortal Island is already in RUO Fei’s pocket. Let’s just listen to RUO Fei!”

“Alright then!” Ling Qingxue said. She looked at the ancient buildings and couldn’t help but say,”the environment here is too beautiful! The only flaw is that the entire immortal estate is hidden underground, so it’s more or less a bit depressing …”

Xia ruofei’s heart skipped a beat.

According to normal logic, cultivators generally wouldn’t place their immortal’s caves so deep underground. After all, people still wanted to be exposed to the sun. Living in such an environment all year round, even if those lighting magic weapons could completely light up the place, there would still be a difference from the ground.

Bi youzi probably had some special considerations for hiding the immortal estate underground.

Or perhaps …

Xia ruofei had some guesses in his heart but he did not say them out loud.

“Let’s continue walking! There’s a big hall in front of us, that’s what I call majestic!” Xia ruofei said with a smile.

He led Song Wei and Ling Qingxue into the house. .

After a while, Xia ruofei and the other two arrived at the huge square paved with bluestone slabs. These bluestone slabs were polished to the point that they could reflect people, just like mirrors.

In front of the bluestone square was the 30 – 40 meter tall Palace.

This should be the core building of the entire immortal abode. Back then, Xia ruofei had obtained the three boxes left behind by bi youzi in this Palace, and among them were the residence – guarding wooden token.

“It’s too majestic!” Ling Qingxue sighed as she looked up at the palace that had no name carved on it.

“Let’s go! Let’s go in and take a look!” Xia ruofei said with a smile.

After passing through the bluestone square and climbing a total of ninety – nine steps, the three of them arrived at the entrance of the palace.

Two three – meter – tall stone statues stood guard on both sides of the door. They looked like Guardian beasts. These Guardian beasts looked like dragons and Lions, but they were not at the same time Dragons and Lions. Although there was no life in them, just standing there, one could immediately feel a wave of pressure coming from them.

As soon as this thought appeared in Xia ruofei’s mind, his train of thought immediately dispersed.

This looked very strange. There was not a single drop of seawater around the beach. It was covered in a thick layer of ice, and there was a clear dividing line between the beach and the ice.

Xia ruofei stepped on the fine sand and looked around. He couldn't help but smile.

The immortal sword had a spirit. Although the blue travel immortal sword had not completely produced a device spirit, it probably already had a chaotic and ignorant prototype of a device spirit and had some simple emotions.*om*

Chapter 3793 The sound of shock (1)

As soon as this thought appeared in Xia ruofei's mind, his train of thought immediately dispersed.

If the entire green Immortal Island could be moved into the spirit map space, the mountain sea realm would also have an ocean. Although the spirit map space had not yet evolved to its ultimate state, and the ocean was not as vast as the real ocean outside, it was more than enough to accommodate such a small island.

Not to mention one, even eight or ten would be a cinch.

In this case, it was equivalent to having such a beautiful immortal mansion in the spirit map space. The rich spirit Qi in the space could also accelerate the growth of spirit flowers and spirit herbs. If it was a particularly precious spirit herb, time array flags could be used to change the flow of time to achieve the effect of ripening.

It was simply too perfect!

Of course, Xia ruofei still needed to familiarize himself with the situation and figure out how to control the island through the mansion – guarding wooden token.

According to bi youzi, as long as the mansion – guarding wooden token was refined, green Immortal Island could be taken directly. However, bi youzi did not go into details and Xia ruofei had to figure out the specifics himself.

While Xia ruofei's mind was racing, Song Wei and Ling Qingxue had long been stunned by the beautiful garden in front of them.

Speaking of which, the two of them were already golden core cultivators. Even if they were not very knowledgeable when they were with Xia ruofei, they had at least eaten and seen her before. They were not those poor rogue cultivators. However, coming to green touring immortal abode was still like entering the Grand View Garden.

"RUO Fei, this ... This is such a beautiful immortal mansion. Will it be yours in the future?" Ling Qingxue said with a look of disbelief.

Xia ruofei smiled."Theoretically, yes. But I still have to figure out how to take it away!"

"Yes, yes, yes!" Ling Qingxue said,"and we still have to think about how to settle it! He couldn't bring such a Big Island back to Huaxia! Even if it was placed in the ocean near Paradise Island, it didn't seem appropriate ... If the satellite in the sky discovered that there was suddenly an Island in the ocean, wouldn't it cause a huge uproar? Besides, there are also some other islands near our Paradise Island, and there are also residents on them, right? There's no way we can keep this a secret!"

Xia ruofei chuckled.”You don’t have to worry too much about this. The concealment array of green travel Immortal Island is quite advanced. Whether it’s a satellite in the sky or a ship in the sea, as long as I don’t want them to find me, they will definitely not be able to find me.” Moreover, the amount of spiritual Qi required to maintain the concealment array isn’t much, so it can be kept open 24 hours a day without a break. This shouldn’t be a problem!”

Xia ruofei continued,”also ... I may not necessarily place green travel Immortal Island near Paradise Island ...”

“Ah?” Ling Qingxue couldn’t help but ask,”then ... Then where do you want to put it?” Could it be hidden in the North Pole? It’s too inconvenient to make a round trip!”

“I haven’t decided yet!” Xia ruofei smiled and said,”I’ll familiarize myself with the control of the wooden token first.”

He didn’t want Song Wei and Ling Qingxue to know about the spirit map space for the time being. He also had plans to place green Immortal Island in the spirit map space, so he could only be vague about it.

Song Wei smiled and said,”Qingxue, you can’t eat hot tofu in haste. Anyway, the control core of the entire immortal abode has been refined by RUO Fei. This immortal Island is already in RUO Fei’s pocket. Let’s just listen to RUO Fei!”

“Alright then!” Ling Qingxue said. She looked at the ancient buildings and couldn’t help but say,”the environment here is too beautiful! The only flaw is that the entire immortal estate is hidden underground, so it’s more or less a bit depressing ...”

Xia ruofei’s heart skipped a beat.

According to normal logic, cultivators generally wouldn’t place their immortal’s caves so deep underground. After all, people still wanted to be exposed to the sun. Living in such an environment all year round, even if those lighting magic weapons could completely light up the place, there would still be a difference from the ground.

Bi youzi probably had some special considerations for hiding the immortal estate underground. ***.m***

Or perhaps ...

Xia ruofei had some guesses in his heart but he did not say them out loud.

“Let’s continue walking! There’s a big hall in front of us, that’s what I call majestic!” Xia ruofei said with a smile.

He led Song Wei and Ling Qingxue into the house.

After a while, Xia ruofei and the other two arrived at the huge square paved with bluestone slabs. These bluestone slabs were polished to the point that they could reflect people, just like mirrors.

In front of the bluestone square was the 30 – 40 meter tall Palace.

This should be the core building of the entire immortal abode. Back then, Xia ruofei had obtained the three boxes left behind by bi youzi in this Palace, and among them were the residence – guarding wooden token.

“It’s too majestic!” Ling Qingxue sighed as she looked up at the palace that had no name carved on it.

“Let’s go! Let’s go in and take a look!” Xia ruofei said with a smile.

After passing through the bluestone square and climbing a total of ninety – nine steps, the three of them arrived at the entrance of the palace.

Two three – meter – tall stone statues stood guard on both sides of the door. They looked like Guardian beasts. These Guardian beasts looked like dragons and Lions, but they were not at the same time Dragons and Lions. Although there was no life in them, just standing there, one could immediately feel a wave of pressure coming from them.

As soon as this thought appeared in Xia ruofei’s mind, his train of thought immediately dispersed.

Chapter 3795 Returning to the manor (1)

Xia ruofei stood below the throne, quietly comprehending the essence of "blue sword technique". This kind of direct memory inheritance could even transfer some of bi youzi's cultivation insights into his mind, so it was relatively easier to learn.

Besides, Xia ruofei's cultivation level was no longer the same as before. His cultivation level might be much lower than bi youzi 's, but in terms of vision and comprehension, he might not be much worse. After all, he had received too many martial arts inheritances. Even if he might not necessarily practice most of the martial arts, he would be able to comprehend them by analogy once he integrated his cultivation insights.

All the great DAOs had the same destination.

This was the logic.

Xia ruofei quickly gained a preliminary understanding of the 'blue sword technique'. He couldn't help but be secretly shocked. This sword technique was indeed very sharp and vicious. No wonder bi youzi had specially emphasized that even if the Jade void temple were to be imparted with some cultivation techniques, it would not include this 'blue sword technique'. Compared to the 'Noble Sword' that Xia ruofei had cultivated, the 'blue sword technique' was more than one level higher.

Especially if it was used with the blue immortal sword, the power of this Sword Art would be even greater.

There was another advantage, that was, using the “blue sword Art” to control the blue immortal sword to fly on the sword would make it more flexible. Obviously, the blue immortal sword was specially made for this set of Sword Art.

Of course, with the black Phoenix flying ship, Xia ruofei did not have many opportunities to use the blue travel immortal sword to fly.

After he had roughly understood The Blue Sword Art, he began to study how to use the mansion – guarding wooden token to control the blue immortal mansion.

If he had completely refined the mansion – guarding wooden token, his control over the green immortal mansion had greatly strengthened, then it could be said that he could now have absolute control over this precious immortal mansion. *r.c₀*

Bi youzi’s last video ended, and all the light gathered on the mansion – guarding wooden tablet, completely removing all the restrictions.

Chapter 3797 A new idea for the placement of the immortal Island (1)

Xia ruofei kept the green Immortal Island, which had shrunk to the size of a palm, in his arms. The place where the green Immortal Island had once occupied had now become a huge hole.

It could be seen that the ice near the North Pole was quite thick, and looking into the cave gave him a feeling of peeking into a deep abyss.

Especially the deep sea water, which gave people an inexplicable fear.

Xia ruofei, Song Wei, and Ling Qingxue were standing a little outside the original boundary of the green Immortal Island. They were now at the edge of the huge hole.

The North Pole had been dark for the past six months, but the White snow and ice reflected the moonlight, so visibility was still good. It was just that being in the dark all the time, one would also feel more depressed.

Xia ruofei had already taken green travel Immortal Island and naturally would not stay here any longer.

He took out the black Phoenix flying ship and threw it up. The Flying Ship grew in size with the wind and soon became a huge ship, floating one or two meters above the ice surface.

Xia ruofei and his two female friends jumped onto the deck of the airboat.

Just as Xia ruofei was about to control the black Phoenix flying ship to leave the North Pole and Return to Paradise Island, the ground in the distance seemed to shake.

Xia ruofei's expression turned serious. He could feel a terrifying aura coming from the direction of the earthquake.

This aura made Xia ruofei shiver for some reason. He was sure that it was not the aura of the Guru Yunxiao.

Although guru Yunxiao had a majestic aura, his aura was still very gentle. This might be because he did not have any hostility towards Xia ruofei.

However, the aura just now was filled with violence and killing intent.

Although it was only a trace of aura, Xia ruofei felt as if thousands of ferocious beasts were charging at him.

Xia ruofei immediately adjusted the black Phoenix flying ship's defense to the highest level. A thick protective barrier was erected around the Flying Ship.

This way, the speed at which the crystals on the control panel of the Flying Ship were being consumed was naturally greatly increased.

However, Xia ruofei did not care about the cost. .***m***

Even if it was just a trace of his aura, Xia ruofei knew that he was no match for him.

“Where do you guys think I should put it?” Xia ruofei asked with a smile.

Ling Qingxue replied without hesitation,”of course, it’d be best if it’s near the Peach Blossom Island!” It’ll be more convenient for us to go over! Of course, the premise is to ensure safety and not be discovered by ordinary people in the secular world. ”

“Wei Wei, what do you think?” Xia ruofei asked with a smile.

Song Wei pondered for a moment and said,”my opinion is similar to Qingxue ‘s. However, it doesn’t seem easy to ensure safety. Not only do we have to avoid the ordinary people in the secular world, but if a cultivator happens to pass by, they may also detect green travel Immortal Island. I don’t know how strong the defense of the immortal Island is ...”

“I have an idea,” Xia ruofei chuckled.”It can ensure our safety and privacy while making it easier for us to enter and exit at any time.”

“What method? Quickly tell me!” Ling Qingxue asked impatiently.

Xia ruofei smiled but did not say anything. He looked around and then brought Song Wei and Ling Qingxue to the balcony that was connected to the living room.

Then, he took out the green Immortal Island, which had shrunk to the size of his palm, and threw it up. “Ah?” Ling Qingxue was taken aback and couldn’t help but say,”this is much smaller than the actual size of green travel Immortal Island! It’s like a miniature model. Look ... The wooden houses built by the survivors are only the size of matchboxes. How are we going to get on the island?”
