Chapter 3801 Inheritance.1

Xia ruofei had already briefly explained the functions of the cloud piercing shuttle to Song Wei and Ling Qingxue when they were in green Immortal Island.

Thus, after returning to the balcony outside, Ling Qingxue was also a little impatient. She said,""RUO Fei, quickly take a look at how to use this cloud piercing shuttle. In the future, we'll also have a flying magic treasure to use!"

Xia ruofei laughed and said,"don't be anxious. Call my adopted husband over first. Then, I'll tell the story together." Anyway, in the future, whoever among you needs it can take it!"

"MMH! Then quickly call him over!" Ling Qingxue nodded.

Xia ruofei was too lazy to make a phone call. He used his spiritual power to scan the area and found Li Yifu. He realized that Li Yifu was not cultivating, so he sent him a telepathic message and asked him to come to the suite on the top floor.

Li Yifu naturally did not dare to disobey the Grand uncle-master's order. He arrived at the door of the suite where Xia ruofei and the others were staying at as fast as he could. He took a short breath and knocked on the door. He said respectfully,""Martial granduncle, this disciple has arrived!"

Xia ruofei and the other two were still standing on the balcony. Xia ruofei waved his hand and the door of the suite opened automatically.

He chuckled and said,"adopted husband, come this way!" We're on the balcony!"

"Yes! Senior granduncle!" Li Yifu said respectfully.

He walked through the spacious living room and arrived at the terrace. He was immediately stunned by the green Immortal Island that occupied more than half of the terrace.

This immortal Island looked like a miniature model, but it was very lifelike. Every blade of grass, every tree, and every Pavilion on it was quite exquisite. There was also a faint fluctuation of an array. It was obvious that this was not an ordinary miniature model.

Li Yifu was very curious, but since Xia ruofei did not say anything, he naturally would not ask.

Therefore, he was only stunned for a moment before he looked away from green travel Immortal Island. He bowed respectfully to Xia ruofei and said,""Martial granduncle, do you have any instructions for me?"

Xia ruofei chuckled."Ruofei, this is an immortal's cave abode. It's called green Immortal Island. I obtained it by chance when I was in the Qi refinement realm. However, I haven't been able to completely refine the control core of the cave abode. I only managed to do so recently, so I took some time to collect this immortal abode."

Li Yifu couldn't help but widen his eyes and ask,""Martial granduncle, this is an immortal cave? But ..."

"But isn't it too small?" Ling Qingxue did not wait for Xia ruofei to speak and interrupted Li Yifu's words. She said with a smile,"this is actually a spatial treasure. Its size can be changed. Even in our current form, we can still enter the immortal Island! I'll show you!"

With that, Ling Qingxue immediately used the talisman that Xia ruofei had given her and entered the green Immortal Island.

Ling Qingxue was like a child who had just gotten her favorite toy. She could not help but show it off when she saw someone. Xia ruofei could not help but smile bitterly when he saw Ling Qingxue's childish look.

However, he didn't try to stop Ling Qingxue. After all, this was the most direct method.

Ling Qingxue didn't stay on green Immortal Island for too long and quickly returned to the outside world. Li Yifu, on the other hand, was still in a state of shock and had yet to recover from the shock.

"Foster husband," Xia ruofei said with a smile,"from now on, green Immortal Island will be on the balcony. If you want to visit, you have plenty of time!"

Li Yifu came back to his senses and quickly said,""Congratulations to martial granduncle for obtaining this celestial cave abode!"

Chapter 3803 Good will be rewarded (1)

When they alighted from the black Phoenix flying ship, Xia ruofei had already used a secret technique to change his appearance and even put on some makeup.

He had a head full of white hair and a white beard. His face had changed a lot compared to his usual self, and there were even a few more wrinkles. In addition, he was wearing a Daoist robe that cultivators often wore.

Wearing a moon - White Daoist robe, he looked like a Sage - like senior cultivator.

Xia ruofei stood in front of the moss - covered rock. This was actually the Jade void temple's Mountain Gate. The formation that the Jade void temple used to hide their tracks was completely useless in his eyes.

Of course, if it was an ordinary person from the secular world, or even a cultivator with a relatively weak array Dao, or a cultivator with insufficient spiritual power, they would not be able to see anything even if they came in front of this huge rock.

Xia ruofei had changed his appearance this time because he had no intention of hiding his tracks.

Therefore, he didn't break the formation of the Jade void temple on his own. Instead, he stood in front of the mountain Gate and shouted,""Fellow Daoist of the Jade void temple, I'm Cang Xu. I'm here to pay a visit to your sect's immortal Yu Qing. Please pass the message!"

After all, a sect like the Jade void temple had a thousand years of inheritance. Even if it had declined in the past two to three hundred years, it was not like those unrated sects,

where they had no rules to follow. Hence, Xia ruofei paid special attention to these details. Even though he was here to give them benefits, he did not want to break the rules.

Moreover, he knew that such an important position as the mountain Gate must be guarded at all times.

As expected, just as he finished speaking, there was a wave of ripples on the huge rock. A middle - aged Taoist walked out and sized Xia ruofei up with a judgmental look.

Xia ruofei smiled and did not hide his cultivation. He released the aura of a late - Stage golden core cultivator.

The middle - aged Daoist's expression changed slightly. He quickly bowed and said respectfully,""Junior Yuming greets senior Cang Xu!"

Xia ruofei smiled and nodded, maintaining the demeanor of an expert. He said lightly,""So it's fellow Daoist Yuming. I've met your sect's immortal Yuqing once, and I've come to visit you this time. I wonder if immortal Yuqing is in the sect?"

Yu mingzi muttered in his heart. This senior Cang Xu's cultivation was unfathomable. The sect leader of the Jade void temple was only in the early stage of the Golden core realm. From the cultivation aura that Xia ruofei had just released, his cultivation was much higher than the sect leader 's!

Chapter 3805 A gift in return (1)

Xia ruofei had already expected that Xuan Chen Zi would ask this question so he was prepared.

He smiled and said,"Daoist Xuanzang, I've told Daoist Yuqing about this. Back then, I was fortunate enough to obtain an opportunity left behind by senior bi youzi. It can be said that senior bi youzi has imparted his teachings to me. So that night at the three mountains, I found out that Daoist Yuqing was a disciple of the Jade void temple and saw that his dantian was injured, so I helped him in passing. It can be considered as a way of repaying senior bi youzi!"

Xia ruofei didn't tell them everything. After all, the green touring immortal mansion and the cultivation resources, magical weapons, spiritual herbs and spiritual medicines in it were an unimaginable wealth to the current cultivation world. Wealth could move people's hearts. He didn't know what kind of temperament bi youzi's junior Disciples had.

Even if Xuan Hezi and the others were weak and couldn't pose a threat to him, he didn't want to cause more trouble. Thus, he was vague about the specific matters.

Even so, Xuan Chen Zi couldn't help but be greatly shocked.

His voice trembled as he said,"if that's the case, fellow Daoist Cang Xu ... No!" Senior Cang Xu, you're considered Grandmaster bi youzi's disciple? Then ... According to our seniority, we should also call you Grandmaster!"

Xia ruofei waved his hand."Daoist Xuanzang, you're being too serious. Although senior bi youzi has taught me, I'm not worthy enough to be his disciple." There was no way to talk about seniority! I don't even dare to be a senior, let's just talk as equals!"

Xuan Chen Zi also heaved a sigh of relief. If Cang Xu Taoist priest was really bi youzi's disciple, then the Xuan generation would really have to call him Grandmaster. This was because the Jade void temple had been passed down to him for the ninth generation, while bi youzi's disciples were the second generation! In this way, this Taoist master Cang Xu could be considered their ancestor.

No one liked the sudden appearance of another ancestor, even if this person had a deep relationship with Grandmaster bi youzi.

Of course, even if they were of the same generation, master Xuan Chen and master Xuan qingzi's attitude towards Xia ruofei had also started to show some respect.

"Then we'll do as you say! Fellow ... Fellow Daoist Cang Xu!" Xuan Chen Zi said. He then asked tentatively,"I wonder what Daoist Cang Xu is here for? If it's something that our Jade void temple can do, we'll definitely spare no effort!"

Xia ruofei laughed and said,"Daoist Xuanzang, I'm not here to ask for help." I've come to see how Daoist priest Yu Qing's injuries are recovering, and secondly ..."

Xia ruofei paused for a moment and glanced at Xuan Hezi and Xuan qingzi. He then said,""I'm also entrusted by senior bi youzi to give something to your Jade void temple ..."

Master Xuan and master Xuan qingzi had been sitting, but they immediately stood up when they heard this. They were extremely excited.

"Fellow Daoist Cang Xu, does this mean ... Our sect's ancestral master bi youzi is still in the mortal world?" Xuan Chen Zi quickly asked.

If bi youzi was still alive, he would be at least a thousand years old. What cultivation level would he be at? These years, the Jade void temple was like most of the other cultivation sects. Because of the deterioration of the cultivation environment, it was very difficult for them to advance. The strength of the sect was also constantly declining. If

they had an ancestor who was more than 1000 years old and at least in the immortal soul Stage, it would naturally be a good thing for the sect.

Xia ruofei knew that Xuan Chen Zi had misunderstood him. He smiled and waved his hand,"Daoist Xuanzang, you've misunderstood. Of course, I can't be sure if senior bi youzi is still in the human world. However, senior bi youzi left a message and entrusted me with this matter. "

Xuan Chen Zi was slightly disappointed when he heard this. However, he quickly adjusted his mood. After all, the founder of the sect had specifically instructed him and this late Jindan expert had even personally made a trip. It must be a big matter and it was most likely a good thing for the Jade void temple.

Therefore, Xuan Chen Zi quickly asked,""Daoist Cang Xu, may I know what the ancestral master has entrusted you with?"

Xia ruofei smiled and took out a stack of books from the spirit map space. He placed them on the coffee table beside him.

Xia ruofei had already expected that Xuan Chen Zi would ask this question so he was prepared.

Chapter 3807 Target: original infant stage (1)

3807 Target: original infant stage (1)

Originally, Xia ruofei did not want it, but after hearing the words of Xuan Hezi and Xuan qingzi, he became interested.

"Daoist brother xuanlin, if that's the case, let me take a look at it first!" He said.

Xuan Hezi had already decided to give this to Xia ruofei, so he gave it to him without hesitation.

According to the average cultivator's vital Qi level, Xia ruofei estimated that he would need to be at least in the middle stage of the original level to meet the requirements to activate the array.

Even if Xia ruofei had the purplish - Gold golden core and his elemental energy was much denser than that of an ordinary Aurous core stage cultivator, he would still need to be at least in the beginner stage of the nascent Soul Stage to meet the requirements.

This was because from the Jindan stage to the Yuanying stage, it was a process of quantitative change to qualitative change. At the Yuanying stage, the Jindan began to transform and the vital Qi also began to liquify.

Otherwise, no matter how dense the vital Qi was, it would be useless.

This kind of formation could not be opened by brute force. Even if it could be broken by force, the cultivation level required was higher than directly opening the formation. It would require at least the cultivation of the advanced stage of the nascent soul or even the immortal soul Stage.

This was also the first time Xia ruofei had encountered such a strange formation. The principle was not complicated, but the method to break the formation was there. If one's cultivation was not high enough, they could only watch helplessly.

"Daoist Cang Xu, have you found a way to break it? " Xuan Chen Zi saw that Xia ruofei did not speak for a long time and could not help but ask curiously.

After all, this' Taoist master Cang Xu' had a much higher cultivation level than them. Although they could sense that Xia ruofei's cultivation level was definitely not at the nascent Soul Stage, Xuan Zan couldn't help but have a glimmer of hope. Perhaps this mysterious' Taoist master Cang Xu' had a way to break the protective barrier of the jade box?

Of course, he had already decided to give the jade box to Xia ruofei. Hence, he was only curious about the contents of the jade box. After all, this item had been passed down in their sect for a thousand years. He did not know if the previous nascent Soul Stage sect leader had opened the jade box. Anyway, there had not been any nascent Soul Stage cultivator in the Jade void temple for hundreds of years and no one had been able to open the jade box. Naturally, he was very curious about what was inside the jade box.

Xia ruofei smiled bitterly. " Daoist xuanlin, you think too highly of me. No one in your sect has been able to crack it for hundreds of years. How can I come up with a solution in just a few minutes? "

Originally, Xia ruofei did not want it. However, after hearing the words of Xuan Hezi and Xuan qingzi, he became interested.

"Daoist brother xuanlin, if that's the case, let me take a look at it first!"He said.

Xuan Hezi had already decided to give this to Xia ruofei, so he gave it to him without hesitation.

Xia ruofei took it and placed it on the ground carefully. Then, he used his spiritual power to examine it.

A surprised expression immediately appeared on his face.

Originally, Xia ruofei thought that the jade box should be protected by an array. The reason why the people of the Jade void temple could not open it was because their array skills were not good enough. They could only break the array by force. The sect leader with the highest cultivation among them, Xuan Hezi, was only in the early stage of the Aurous core stage. His cultivation was not enough to break the array, which led to the current situation.

However, the results of the spiritual power were beyond Xia ruofei's expectations.

There was indeed a formation on the jade box. The formation was not complicated and Xia ruofei had only spent a few minutes to analyze the principle of the entire formation.

However, there was only one way to break this formation.

That was to inject Yuan Qi that was pure enough.

According to Xia ruofei's analysis, the purity of one's vital Qi had to reach a high level to trigger the array to open the barrier.

According to the average cultivator's vital Qi level, Xia ruofei estimated that he would need to be at least in the middle stage of the original level to meet the requirements to activate the array.

Even if Xia ruofei had the purplish-gold golden core and his elemental energy was much denser than that of an ordinary Aurous core stage cultivator, he would still need to be at least in the beginner stage of the nascent Soul Stage to meet the requirements.

This was because from the Jindan stage to the Yuanying stage, it was a process of quantitative change to qualitative change. At the Yuanying stage, the Jindan began to transform and the vital Qi also began to liquify.

Only the liquefied vital Qi had the purity that met the requirements to activate the formation.

Otherwise, no matter how dense the vital Qi was, it would be useless.

Chapter 3808 The target is at the original infant stage (2)

This kind of formation could not be opened by brute force. Even if it could be broken by force, the cultivation level required was higher than directly opening the formation. It would require at least the cultivation of the advanced stage of the nascent soul or even the immortal soul Stage.

This was also the first time Xia ruofei had encountered such a strange formation. The principle was not complicated, but the method to break the formation was there. If one's cultivation was not high enough, they could only watch helplessly.

"Daoist Cang Xu, have you found a way to break it?" Xuan Chen Zi saw that Xia ruofei did not speak for a long time and could not help but ask curiously.

After all, this 'Taoist master Cang Xu' had a much higher cultivation level than them. Although they could sense that Xia ruofei's cultivation level was definitely not at the nascent Soul Stage, Xuan Zan couldn't help but have a glimmer of hope. Perhaps this mysterious 'Taoist master Cang Xu' had a way to break the protective barrier of the jade box?

Of course, he had already decided to give the jade box to Xia ruofei. Hence, he was only curious about the contents of the jade box. After all, this item had been passed down in their sect for a thousand years. He did not know if the previous nascent Soul Stage sect leader had opened the jade box. Anyway, there had not been any nascent Soul Stage cultivator in the Jade void temple for hundreds of years and no one had been able to open the jade box. Naturally, he was very curious about what was inside the jade box.

Xia ruofei smiled bitterly."Daoist xuanlin, you think too highly of me. No one in your sect has been able to crack it for hundreds of years. How can I come up with a solution in just a few minutes?"

Originally, Xia ruofei did not want it, but after hearing the words of Xuan Hezi and Xuan qingzi, he became interested.

"Daoist brother xuanlin, if that's the case, let me take a look at it first!" He said.

Xuan Hezi had already decided to give this to Xia ruofei, so he gave it to him without hesitation.

Xia ruofei took it and placed it on the ground carefully. Then, he used his spiritual power to examine it.

A surprised expression immediately appeared on his face.

Originally, Xia ruofei thought that the jade box should be protected by an array. The reason why the people of the Jade void temple could not open it was because their array skills were not good enough. They could only break the array by force. Chapter 3809 Zhenyuan pill (1)

There were already many arrays set up on the terrace of green travel Immortal Island, so Xia ruofei did not need to do any more.

His mind communicated with the mansion - guarding wooden tablet. His figure flashed and directly entered the immortal Island, directly appearing in the green immortal abode.

Xia ruofei didn't immediately find a courtyard to go into seclusion. Instead, he walked to the bottom of a Pavilion with ease. The pavilion was made of bamboo, the kind of purple black bamboo that was commonly seen in the Azure immortal abode. There was a pool beside the pavilion, and a small path led to the bamboo forest not far away. The environment was very quiet.

Xia ruofei went up to the attic, opened a cabinet, and took out a Jade bottle.

He stood in front of the window of the attic and looked around. He found that the environment here was very good. Through the bamboo forest, he could vaguely see the distant sea. From the other side, he could also see the ancient buildings from the high ground.

Xia ruofei pondered for a moment and decided to cultivate in seclusion in this attic.

Thus, he put down the Jade bottle and went downstairs to set up layers of protective arrays, alarm arrays, sound - proof arrays, and so on.

Then, Xia ruofei returned to the outside world and pointed out to Song Wei and Ling Qingxue the building where he had been in seclusion.

After all, Song Wei and Ling Qingxue were free to enter and exit the Azure immortal abode. In order to prevent them from accidentally barging into his closed - door cultivation place, Xia ruofei naturally had to inform them in advance.

After giving his instructions, Xia ruofei returned to the pavilion in green touring immortal abode.

He took out a Jade futon from the spirit map space and placed it on the floor of the attic.

Then, he reached out to take the Jade bottle, gently broke the barrier on the Jade bottle, and pulled out the bottle stopper.

Xia ruofei poured out a white pill that was emitting a sweet fragrance from the Jade bottle. His eyes could not help but reveal a trace of eagerness.

This elixir was very famous. It was called the "Zhenyuan elixir." Even in the golden age of the cultivation world, the Zhenyuan elixir was a very precious elixir. This Jade bottle was one of the many cultivation resources and treasures that bi youzi had left for Xia ruofei. There were only three Zhenyuan elixir in the Jade bottle.

The effect of the essence enhancing pill was actually very simple and crude. It could increase the cultivation of a cultivator without any side effects. The cultivators who were

most suitable to take the Zhen Yuan pill were the Golden core cultivators. This was because the effects of the Zhen Yuan pill were too strong for Qi refining cultivators. For a cultivator in the nascent Soul Stage, the enhancement of cultivation brought by the Zhen Yuan pill was very little. The effect was not obvious.

After Xia ruofei had completely taken control of the green touring immortal abode, he had already discovered this bottle of Zhenyuan pills. He had seen records about the Zhenyuan pills in many cultivation manuals, so he recognized it at a glance.

Xia ruofei was more eager to break through to the nascent Soul Stage, so he decided to keep the three essence enhancing pills for his closed - door cultivation. Thus, he left them where they were and did not organize them with other treasures and resources.

Xia ruofei sat cross - legged on the Jade futon, then took out a large number of purple Yuan crystals and placed them around him. After doing all this, he took a deep breath, opened his mouth, and swallowed the essence enhancing pill in his hand.

As soon as the primordial enhancement pill entered his stomach, Xia ruofei felt a warm current rising from his dantian.

He quickly closed his eyes and concentrated, skillfully circulating the "great Dao Arts" technique, and continuously absorbing the thick energy released by the primordial enhancement pill.

After about an hour, the medicinal properties of the Zhen Yuan pill were completely absorbed.

Xia ruofei let out a long breath and checked his cultivation level. His eyes were filled with joy. In just an hour, his cultivation level had increased by a large margin. If he cultivated step by step, he would need at least two months of closed - door cultivation to achieve such an effect.

One should know that Xia ruofei's cultivation environment was blessed by the heavens, much better than the so - called paradisiacal lands of many cultivation sects. Furthermore, he used purple Yuan crystals to cultivate without caring about the cost. Under such circumstances, his cultivation would increase by a lot after two months of closed - door cultivation. It was many times better than ordinary cultivators who cultivated in an ordinary environment with spiritual crystals or even spiritual stones.

Besides, due to the special nature of the purplish - Gold golden elixir, it was much more difficult for Xia ruofei to improve his cultivation than ordinary cultivators.

This Qi replenishing pill could save Xia ruofei two months of cultivation time. The effect was quite amazing.

Xia ruofei was very satisfied with the effect of the primordial enhancement pill. The ninth Dragon - shaped elixir pattern on the purplish - Gold golden elixir was getting brighter and clearer. This was the last elixir pattern on the surface of the purplish - Gold golden elixir. As long as this elixir pattern was completely lit up, he would be able to break through to the nascent soul realm.

Xia ruofei continued to work hard. Without hesitation, he poured out the second elixir from the Jade bottle and threw it into his mouth.

He was probably the only one who ate the Zhen Yuan pill like it was candy.

Once the Pearl entered his stomach, Xia ruofei immediately lowered his head and immersed himself in cultivation.

This time, he circulated the "black origin Scripture".

The mystic essence Scripture and the great Dao Sutra were undoubtedly the top cultivation techniques in the world of cultivation. Although the mystic essence Scripture's cultivation effect was slightly worse than the great Dao Sutra, if one kept cultivating the great Dao Sutra, the effect would not be that good after a long time. Furthermore, by taking turns to cultivate the two techniques, Xia ruofei could retain the freshness to the greatest extent and it seemed that the cultivation effect would be better.

Chapter 3810 Zhenyuan pill (2)

That was why Xia ruofei had gotten used to alternating between the two techniques.

After about an hour, Xia ruofei had finished absorbing the essence enhancing pill.

As a result, his cultivation base had increased by another level on top of the foundation he had just built.

The golden light on the ninth Dragon - shaped elixir pattern became brighter, and the patterns became clearer.

However, Xia ruofei could feel that the increase in his cultivation this time seemed to be smaller than the first time he had taken the primordial enhancement pill.

However, he didn't feel strange or disappointed. The effect of the primordial enhancement pill was the best when it was taken for the first time. If one continued to take it, especially after such a short period of time, the effect would definitely weaken. In fact, it was similar to the body developing resistance to it.

Otherwise, as long as a cultivator continuously took the essence enhancing pill, they could rapidly increase their cultivation.

Although this kind of thing was impossible in the current cultivation world, there were still cultivators who had such wealth during the golden age of the cultivation world, especially those who were good at alchemy.

However, it was precisely because of the existence of the weakening effect that no one would completely rely on taking medicine to improve their cultivation.

Xia ruofei had already expected this. Of course, he did not care much about it. It would be helpful to his cultivation anyway. He would save as much time as he could.

He rested for a moment, and immediately took the third and last Zhen Yuan pill.

Then, Xia ruofei focused on circulating the "great Dao technique" and spent another hour to completely absorb the medicinal properties of the last Zhenyuan pill.

Xia ruofei checked his cultivation level and nodded with a satisfied expression.

These three Zhen Yuan pills had all been consumed, and although the effects of the consumption were decreasing, overall, it was at least equivalent to five months of his bitter cultivation.

The effectiveness of the primordial enhancement pill was not to be underestimated. Xia ruofei's five months of cultivation in this state was equivalent to a normal cultivator's several years or even more than ten years of cultivation. It was shocking that he could achieve such an effect after taking three pills.

The purplish - Gold golden elixir was still spinning in Xia ruofei's dantian. The nine Dragon - shaped elixir patterns on it were shining with a golden light. If one did not look closely, one would not be able to tell the difference between the golden light of the nine elixir patterns. However, Xia ruofei knew very well that the ninth Dragon - shaped elixir pattern had not been completely lit up. It was slightly different from the other eight Dragon - shaped elixir patterns that had been completely lit up.

However, Xia ruofei was not disappointed. If he had to cultivate in isolation, he would need at least five months to reach this level. However, he had only spent three to four hours. In addition, this ninth Dragon - shaped pill vein was also very close to being completely lit up. He was very clear that even if he didn't have a pill like the essence enhancing pill, it wouldn't take long for him to completely light up this pill vein if he completely relied on normal cultivation.

Moreover, as the golden light of the ninth Dragon - shaped core pattern became brighter and brighter, Xia ruofei could feel the bottleneck between the Golden core stage and the original infant stage more and more clearly.

Previously, it was only a vague perception, but now he could clearly feel the bottleneck.

All of this indicated that the distance between his cultivation and the original infant stage was perhaps only a thin layer of window paper!

Xia ruofei was very satisfied with the effect of the three Qi replenishing pills.

He stood up and stretched his muscles, then stood in front of the window of the bamboo pavilion and looked out at the sea, taking a short rest.

Ten minutes later, Xia ruofei returned to the house. He sat down cross - legged on the Jade futon, calmed his Qi and concentrated, and quickly entered a state of cultivation.

Without the Qi replenishing pill, Xia ruofei felt that his cultivation speed had slowed down by a lot. Of course, this was because the contrast was too strong. In fact, Xia ruofei's cultivation speed was still many times faster than the average golden core stage cultivator.

The purple Yuan crystals he had placed around him were also being rapidly consumed. Dense and pure ling qi poured into his body like seawater. The purple - Gold golden core was constantly spinning, absorbing the yuan Qi produced by cultivation. The Dragon - shaped core patterns on the surface of the Golden core also emitted bursts of golden light, causing the entire golden core to become dazzling.

The patterns on the Last Dragon - shaped pill pattern became clearer and clearer, and the golden light became brighter and brighter.

The difficulty of lighting up the Dragon - shaped pill veins gradually increased. The first few pill veins might take a few days, a dozen days, or at most a few dozen days to light up one. Slowly, it would take two to three months to light up one. It would take even longer to reach the Last Dragon - shaped pill pattern. Three Zhen Yuan pills were equivalent to at least five months of hard cultivation, and he still hadn't been able to completely light up the pill pattern.

Xia ruofei was completely engrossed in his cultivation. He was neither happy nor sad. Naturally, he was not in a rush. The mystic origin Scripture was constantly circulating. The purple origin crystal and the dense spiritual energy from the outside world were constantly being absorbed. His cultivation was also slowly but non - stop in this cultivation process.

Don't look at how it was just one last step away, it was very time - consuming to really cultivate.

After all, there were no longer any pills like the Qi replenishing pill that could directly increase cultivation. Xia ruofei could only rely on cultivation bit by bit to complete the final accumulation.

If it was an ordinary cultivator, like Chen Nanfeng, it would take several years to accumulate the last bit of energy.

Fortunately, Xia ruofei was blessed with unique conditions and had no lack of cultivation resources. Hence, his progress was much faster than that of ordinary cultivators.

He spent about five days 'time, and after using another batch of purple origin crystals, he finally completely lit up the Last Dragon - shaped pill pattern.

At the moment when the last pattern was lit up, Xia ruofei felt as if his entire body was trembling. The purplish - Gold golden elixir that was spinning in his dantian suddenly bloomed with a dazzling light. The brightness of the golden light suddenly increased by several times.

The nine Dragon - shaped patterns were completely lit up.

The nine elixir patterns also seemed to be alive. Nine divine Dragons of different postures seemed to be about to burst out of the surface of the purplish - Gold golden elixir. The dazzling golden light was emitted by these nine elixir patterns. All the golden light gathered on the surface of the purplish - Gold golden elixir and then suddenly bloomed, as dazzling as a star.

3811 Breakthrough to the nascent Soul Stage (1)

Of course - Xia ruofei had the confidence to break through directly because he had received a bottle of precious elixir, the nascent formation elixir - as a reward for reaching the top level of the trial tower in the mystic Luna realm. This elixir was known as the ticket to break through from the Aurous core stage to the nascent Soul Stage - it was specially made for cultivators in the later stage of the Aurous core stage to break through to the nascent Soul Stage. Its effect was quite good and could greatly increase the success rate of the breakthrough.

Xia ruofei naturally didn't want to use the nascent formation pill. After all, many of his friends and family were already at the Golden core stage. When they needed to break through to the original infant stage, the nascent formation pill might be able to play a decisive role.

However, he also had a faint feeling that his breakthrough would not be so smooth. After all, the purplish - Gold golden core was much tougher than the ordinary golden core. In truth, when he broke through to the Golden core stage, it was also more difficult than for ordinary cultivators to do so.

Therefore, this nascent formation pill was just a precaution. If the breakthrough didn't go smoothly, he couldn't care too much and had to use it.

Xia ruofei rested for a while and took out the bottle of nascent formation pills that he had prepared earlier from the spirit map.

He didn't know that the nascent formation pill hadn't been included in the rewards for reaching the top of the trial Pagoda. It had been won by his master, immortal mountain river, in a bet.

There were a total of ten nascent condensation pills in this bottle.

Xia ruofei was full of vital Qi and his purplish - Gold golden core was restless. He was on the verge of a breakthrough.

However, he was not in a hurry. Instead, he patiently sat on the hassock to rest and recover his psychic energy to its peak. After he had adjusted his mental state to its peak, he took a deep breath, closed his eyes, and began to circulate the great Dao Arts.

At such a critical moment like breaking through to the Yuanying stage, he still chose the cultivation method that he was most familiar with and best at.

Chapter 3813 Destruction before establishment (1)

Until now, although the breakthrough was a little difficult, it was relatively smooth. Xia ruofei was also a little happy. Maybe he could really break through the bottleneck smoothly and save on the nascent formation pills. When Song Wei and the others broke through to the original infant stage, the success rate of the breakthrough would be greatly increased with these nascent formation pills.

Of course, this thought only flashed across Xia ruofei's mind. As he was only halfway through his breakthrough, he quickly focused his attention and continued to operate the "great Dao technique" to increase the intensity of his absorption of spiritual Qi.

In fact, when all the yuan Qi inside the purplish - Gold golden core was converted into liquid, the Golden core was already full, and the liquid could no longer be compressed.

Xia ruofei continued to use his cultivation technique and forced the newly produced vital Qi into his purplish - Gold golden elixir.

During this process, the purplish - Gold golden core trembled even more intensely.

Breaking through to the nascent soul realm was essentially a process of destruction before establishment.

In the end, the purplish - Gold golden core would be completely broken or even exploded into pieces. Then, it would be reassembled into a nascent soul.

Therefore, this was a very dangerous process. For cultivators, breaking through from the Golden core stage to the original infant stage was a very big hurdle on the road of cultivation. The degree of danger was far greater than breaking through from the Qi refining stage to the Golden core stage, and even more dangerous than breaking through from the original infant stage to the original spirit stage.

However, cultivation itself was going against the natural order of things. If one were to be afraid just because they knew there was danger, then it would be absolutely impossible to succeed.

At this moment, Xia ruofei did not have any apprehensions or hesitation. He continued to circulate the "great Dao Sutra" with a determined expression and continuously forced his vital Qi into the purplish - Gold golden elixir.

The purplish - Gold golden elixir was like a barrel of gunpowder.

Xia ruofei really felt like he was going to explode. He knew very well that the purplish - Gold golden core was much tougher than the average golden core. If he wanted to break it, the "breaking" process would not be easy to complete. As for the process of "forming", Xia ruofei did not have much experience from his predecessors. After all, no one had condensed a Supreme - grade golden core like the purplish - Gold golden core. In other words, he could only explore on his own based on the experience of his predecessors and finally create a path that belonged to him.

As more and more vital Qi poured in, the purplish - Gold golden core trembled more and more.

However, Xia ruofei clearly felt a strong resistance. It seemed that his guess was right. The Golden core was too powerful. It would be much more difficult to break through.

The feeling of "overeating" was becoming more and more obvious, but he still had to continuously increase the input of vital Qi. He had already broken through to this stage, so he couldn't give up halfway.

This kind of feeling was naturally not good. Yingying was clearly very full, but she still had to keep stuffing food into her mouth. No one would feel comfortable if it was anyone else, not to mention that her stomach couldn't take it!

Fortunately, Xia ruofei's military life had cultivated his tenacious character. The more difficult it was, the more determined he was. He had been gritting his teeth to overcome that uncomfortable feeling.

This process continued for more than two hours. The purplish - Gold golden Elixir's vibration was getting stronger and stronger. Xia ruofei even felt that if it was not wrapped by his dantian, the purplish - Gold golden elixir would have flown out.

Finally, Xia ruofei seemed to have heard a "crack" sound.

This was, of course, his misperception, but he could clearly sense that the surface of his purplish - Gold golden core had already begun to crack.

This greatly roused his spirit, and he continued to circulate the "great Dao Arts" cultivation technique, continuously and rapidly absorbing the rich spiritual energy from the purple origin crystals and the outside environment.

As the vital Qi continued to be forced into the purple - Gold golden core, more and more cracks appeared on the surface of the Golden core.

Finally, another critical point was crossed.

The entire purplish - Gold golden core exploded.

Xia ruofei felt as if he had heard a loud explosion. In fact, he felt the violent impact as well. The dantian where the purplish - Gold golden elixir was located was the first to bear the brunt of the impact. Xia ruofei's dantian was almost blown up by the violent impact. He felt something sweet in his throat and almost spat out a mouthful of blood.

Fortunately, Xia ruofei was not only strengthening his golden elixir during his cultivation. His dantian and meridians were also constantly being strengthened. If it was an ordinary cultivator, there would only be one result if such a strong explosion occurred in his dantian. His dantian would be blown to pieces. Even if he was lucky enough to survive, he would become a disabled person.

This was also an important reason why the success rate of breaking through to the Yuanying stage from the Jindan stage was low and the risk was high.

Although his dantian did not rupture, he was actually quite badly injured.

Xia ruofei was rather good at treating injuries in the dantian. The prescription he gave Yu qingzi was the most appropriate. He also had the ink cloud grass and other supplementary herbs in stock in the space.

However, he didn't have the time to care about that, and he couldn't stop to brew the medicine.

Hence, Xia ruofei chose a simpler and crueler method. He planned to use the petals of the spirit Heart Flower to heal the injury in his dantian. He took out three petals in one go.

Dantian injuries were more difficult to treat than other injuries. At this moment, Xia ruofei was at a critical juncture of his breakthrough and could not be calculative. Hence, to be on the safe side, he simply used three spirit Heart Flower petals in one go.

Chapter 3814 Destruction before establishment (2)

The three spirit Heart Flower petals floated in front of Xia ruofei. With a thought, these petals directly stuck to his lower abdomen, which was the closest to his dantian. Once the petals touched Xia ruofei's skin, they were immediately absorbed.

In the next moment, Xia ruofei felt the injury in his dantian recovering rapidly.

The entire process might have only taken two to three seconds. After absorbing the petals of the spirit Heart Flower, Xia ruofei immediately took out more purple Yuan crystals from the spirit map space and piled them all around him. Then, he continued to use the "great Dao Sutra".

The Golden core was broken, and the nascent soul was formed.

Destruction followed by establishment. Although the process of "destruction" was difficult and dangerous, it was finally completed.

The next step was the most challenging part of the whole breakthrough process, which tested the cultivator's comprehension and ability. At the same time, it was also the stage that consumed the most cultivation resources.

It was also the process of 'establishment' after destruction.

This was also the most crucial stage in the entire process of breaking through.

Xia ruofei's "great Dao technique" had been changed to a nascent Soul Stage technique. If he continued to use golden core stage techniques, it would be impossible to form a nascent soul.

Therefore, some cultivators "cultivation methods were relatively ordinary, and some had only reached the jiedan stage, which meant that they would never be able to break through to the Yuanying stage. Unless they found a higher level cultivation method, even if they completed all the previous processes, it was absolutely impossible to complete the Yuanying stage.

If he tried to break through rashly, he would end up in an awkward situation where his golden core would be broken, but he would not be able to form a nascent soul.

Once the breakthrough process was stopped, he would naturally become a cripple.

The "great way of the Dao" and the nascent Soul Stage techniques were still from the same line. Although the route and method of circulation were different, Xia ruofei had cultivated from the Qi refinement stage to the Golden core stage. He was about to break through to the nascent Soul Stage, so he had a very deep understanding of this technique. Thus, even though it was his first time circulating the nascent Soul Stage technique, Xia ruofei did not feel the slightest bit of awkwardness.

After a few rounds, Xia ruofei was more familiar with the process.

Next, he began to divide a bit of energy to control the circulation of the technique, while most of his attention was focused on his dantian.

The cultivation technique of the Yuanying stage still cultivated the vital Qi.

However, there was no longer any golden elixir in his dantian. The entire dantian was filled with the purplish - Gold golden Elixir's fragments. These fragments were floating in the liquefied elemental essence. Besides, Xia ruofei could also sense a few faint golden

lights flickering in the liquefied elemental essence. He could tell that these golden lights were coming from the Dragon - shaped elixir patterns.

He didn't expect that even though his purplish - Gold golden core had completely exploded, the Dragon - shaped patterns on the surface of the Golden core had been preserved in perfect condition.

Xia ruofei tried to control the new vital Qi to push the purple - Gold golden core fragments to merge and reorganize.

This was also the standard operation for forming a nascent soul in the process of breaking through from Jindan to Yuanying.

However, during this process, Xia ruofei felt an unprecedented difficulty.

Xia ruofei felt that the process of accumulating, compressing, and breaking the purplish - Gold golden elixir was not that easy. However, the difficult part was that the workload was relatively heavy. In reality, there was not much resistance. However, at this stage, he clearly felt a great resistance.

The purplish - Gold golden core fragments were like magnets. After they were broken, they produced a natural repulsive force. Xia ruofei had a hard time putting them together, let alone merging and reassembling them.

Xia ruofei was caught off guard.

He cultivated with all his might, constantly absorbing large amounts of spiritual energy to generate vital Qi, but the newly generated vital Qi was still like a cup of water on a burning cart of firewood. It basically couldn't move the purplish - Gold golden core fragments floating in the primordial liquid.

Xia ruofei felt that the problem did not lie in the amount of vital Qi. He felt that perhaps the purplish - Gold Aurous core was too heaven - defying. The difficulty of forming the nascent soul in the future was exponentially higher than that of forming the nascent soul after the Golden core was broken.

If he was stuck at this step, it would be a bit of a scam.

Xia ruofei had already shattered his purplish - Gold golden core. If he could not form a nascent soul, his dantian would gradually dry up once he stopped cultivating. This was an irreversible process and it would happen very quickly. The final result would be that all his previous efforts would be in vain and he would become a cripple.

Xia ruofei furrowed his brows and continued to practice for another half an hour.

In this half an hour, Xia ruofei had naturally cultivated more vital Qi. However, it was not of much help in pushing and merging the purple - Gold golden core fragments. Up until now, he could not even let any two pieces of the purple - Gold golden core fragment come into contact.

At this rate, Xia ruofei would not be able to form his nascent soul even if he cultivated for one or two years.

This was clearly not a normal phenomenon.

Xia ruofei sighed to himself. Then, he raised his hand and the Jade bottle not far away from him opened. A crystal clear pill flew out of the Jade bottle and Xia ruofei swallowed it.

This pill was naturally the nascent formation pill.

Originally, Xia ruofei didn't want to use the nascent formation pill. He wanted to save as much as he could. To his family and friends, one nascent formation pill might be able to create another original infant stage cultivator.

However, at this point, Xia ruofei knew that if he did not use the nascent condensation pill, it would be very difficult for him to break through.

Of course, he could not rule out the possibility that Xia ruofei would continue to cultivate. When his vital Qi had increased to a certain level, the driving force of the purple - Gold golden core fragment would have a qualitative increase.

However, Xia ruofei didn't want to wait any longer. Since he had obtained the nascent condensation pill by chance, he had to use it when he needed to. He couldn't delay his breakthrough just to save it.

Xia ruofei knew what was more important.

The nascent formation pill, as its name suggested, was a pill that helped to condense the nascent soul. In fact, the effect of the nascent formation pill was only at this stage of condensing the nascent soul after the Golden core was broken.

It was the perfect time for Xia ruofei to take the nascent condensation pill.

After the soul condensation pill entered his stomach, it immediately turned into a warm current and entered Xia ruofei's dantian. The effect was immediate. Xia ruofei immediately felt that the resistance had become much weaker. He controlled his vital Qi and pushed slightly. The two pieces of the purplish - Gold golden pill touched each other. It was a world of difference compared to before.

Xia ruofei was overjoyed but at the same time, he was very emotional. No wonder the nascent formation pill was so precious even during the peak of the cultivation world. This pill was a divine weapon for forming the nascent soul!

He calmed his mind and tried to merge the two purple - Gold golden core fragments together.

With the help of the nascent condensation pill, the fusion process was also very smooth.

A few minutes later, the two purplish - Gold golden cores had completely fused into one.

Xia ruofei continued to push another purplish - Gold golden elixir fragment over and fused it with the fragment.

Xia ruofei was like a hard - working ant, pushing the purplish - Gold golden core fragments bit by bit and then merging them together.

In the center of his dantian, in the sea formed by the essence liquid, the fused purplish - Gold golden core fragment grew larger and larger, while the number of purplish - Gold golden core fragments around it also decreased.

However, after about one - third of the fragments had been fused, Xia ruofei felt the resistance increase again.

He couldn't help sighing secretly. It was much more difficult for his purple - Gold golden core to break through to the nascent Soul Stage than for ordinary golden core cultivators. He knew very well that the medicinal effect of a nascent formation pill was about to be exhausted.

Xia ruofei knew very well that it would not be so difficult for an ordinary cultivator to break through to the nascent Soul Stage. Otherwise, Chen Nanfeng would not have had any chance of success when he broke through.

Xia ruofei did not hesitate. He took another nascent formation pill and swallowed it ...

Chapter 3815 Hard work pays off (1)

In order to merge these purplish - Gold golden core fragments together, Xia ruofei had used up three nascent formation pills.

If it was used on an ordinary cultivator, it would be enough to create three original infant stage cultivators.

However, Xia ruofei was also helpless. As long as the effect of the nascent condensation pill was almost used up, his progress in fusing with the purplish - Gold golden core fragment would become extremely slow. He had no choice but to take another pill.

Fortunately, after using up the three nascent formation pills, all the purple - Gold golden core fragments had been fused together again.

Of course, after the fusion, it would no longer be in the form of a golden core, but a mass of irregular - shaped objects, but it contained quite a terrible energy.

The next step was to condense this irregular object into a nascent soul.

This process tested the cultivator's understanding of the laws of heaven and earth. At the same time, it also had a high demand on one's psyche.

Fortunately, Xia ruofei did not have any problems in these two aspects. His comprehension of the laws and the realm of his spiritual power were far beyond that of ordinary late - Stage golden core cultivators.

Under the influence of Xia ruofei's will, the fused purplish - Gold golden core fragment began to change its form slowly and evolved in the direction of the nascent soul.

Xia ruofei soon realized that the process of condensation was also very slow.

The problem wasn't that his understanding of the rules of heaven and earth was insufficient, nor was it a problem with his mental power realm. It was completely because after these purple - Gold golden core fragments were fused again, their strength and toughness far exceeded that of ordinary golden core fragment fused bodies.

Xia ruofei could not help but smile bitterly.

Although he was very distressed about the consumption of the nascent formation pill, after some effort, he finally took out the fourth nascent formation pill and swallowed it.

As expected, when the medicinal properties of the nascent formation pill entered his dantian, Xia ruofei's speed of forming the nascent soul increased by a large margin.

His comprehension of the laws of heaven and earth was already far superior to cultivators of the same level. Now that he had the help of the nascent soul pill, the resistance had suddenly decreased a lot, so the process of forming a nascent soul naturally became much easier.

Under the control of Xia ruofei's mind, the purplish - Gold golden elixir kept changing its shape and slowly took the shape of a human body.

In fact, the process of condensing a nascent soul did not require a cultivator to control it very carefully. Basically, as long as the comprehension of the laws of heaven and earth satisfied the conditions, the nascent soul could be condensed in the end. However, there were differences between the nascent souls. Some cultivators condensed a nascent soul that was only a prototype, and even its eyebrows and eyes were only somewhat similar to the cultivator himself. The nascent soul formed by some cultivators could perfectly replicate the image of the cultivator himself, and even shape the meridians in the body.

Different yuanyings naturally had different power, and the corresponding upper limit of their future development was also very different.

As time passed, the purple - Gold golden core fragment in Xia ruofei's dantian had basically become a miniature version of Xia ruofei. However, he did not stop. He continued to refine his nascent soul while the medicinal properties of the nascent condensation pill had not completely disappeared.

When the medicinal effect of the nascent condensation pill was completely exhausted, Xia ruofei finally heaved a long sigh of relief. The nascent soul in his dantian was basically a miniature version of Xia ruofei, except that it had no hair. The two were almost exactly the same. Even the nascent soul had the same meridians as Xia ruofei. It could also absorb primordial Qi and circulate it in the meridians.

However, an even smaller version of the nascent soul wouldn't appear in the dantian of the nascent soul. It would just be an empty dantian, but it could still store primordial Qi and liquefied elemental essence.

Xia ruofei had read a lot of books on cultivation and had a good eye for things. He knew that the nascent soul he had formed this time was definitely of the highest quality.

Of course, the purplish - Gold golden core was above the grade of the Golden core. The nascent soul condensed after the purplish - Gold golden core was broken could not be too bad.

Xia ruofei was quite satisfied with himself.

However, his expression soon froze slightly, revealing a trace of doubt.

After forming his nascent soul, Xia ruofei didn't feel like he had been reborn after breaking through to the next realm.

Although he could sense that the power he controlled had been greatly improved, the extent of the increase did not meet his expectations, and this was definitely not the feeling of breaking through a large tier.

He couldn't help but feel a little lost because he was already very certain that the process of forming a nascent soul had been completed. Moreover, the nascent soul he had formed

was close to perfection. Even if there were extremely tiny flaws, they were not something that could be changed with his current strength. It could be said that he had already done everything he could.

But why couldn't he feel that he had broken through?

Xia ruofei continued to operate the nascent Soul Stage cultivation technique of the great Dao scroll while looking at his dantian, hoping to find the reason.

After forming a nascent soul, the cultivator would still cultivate vital Qi, but this vital Qi would directly enter the nascent soul to continue the circulatory Cycle Revolution, and then directly condense into liquid.

When the nascent soul's dantian was full of liquefied elemental essence, the cultivator could continue to cultivate. The liquefied elemental essence condensed by the nascent soul would then return to the cultivator's own dantian.

Chapter 3816 Hard work pays off (2)

In fact, during the process of breaking through, the yuan Qi in the cultivator's body was all compressed into liquid. When the Golden core was broken, the liquid was stored in the dantian. Therefore, the dantian of a nascent soul cultivator was like an ocean of liquid, and the nascent soul was actually floating in this ocean of liquid.

After successfully forming his nascent soul, Xia ruofei's cultivation efficiency had obviously increased by another level. At the same time, the consumption of purple origin crystals had also increased greatly.

A huge amount of spiritual energy was swallowed into the body by a whale, and it swam through the meridians like thunder. After a large circulation, it produced a wisp of primordial Qi and injected it into the nascent soul. Finally, it would condense into a drop of primordial liquid, which was first stored in the dantian of the nascent soul.

Xia ruofei continued to absorb the purple origin crystals and the rich spiritual Qi from the outside world. He produced an endless amount of Origin Energy and filled his dantian in no time.

However, Xia ruofei still could not figure out what the problem was.

The current cultivation mode was clearly the cultivation mode of a nascent Soul Stage cultivator, but why couldn't he feel that he had broken through?

He could only continue to absorb spirit Qi and cultivate. Drops of liquefied elemental essence began to be stored in his dantian.

At this moment, Xia ruofei suddenly realized the problem. According to the records in the cultivation manual, the cultivation of a nascent Soul Stage cultivator was mainly to strengthen the nascent soul and finally break through to the primordial soul Stage. In fact, the nascent soul was strengthened to the extreme and finally transformed into the primordial soul. The nascent soul naturally wouldn't grow stronger on its own. This process actually required the absorption of the liquid. Therefore, the nascent soul of a nascent soul cultivator would absorb the liquid in the cultivator's dantian. However, the nascent soul that he condensed didn't move at all. The liquid in the dantian increased, but the nascent soul remained motionless.

Could it be that I've formed a fake nascent soul? Xia ruofei couldn't help but have such a thought.

However, he quickly denied this idea because he had completely followed the method of breaking through to the Yuanying stage in the cultivation method, and also condensed a top - grade Yuanying. There couldn't be any problems in the process, otherwise it would be impossible to condense a Yuanying successfully.

Then why? Were there any steps that had not been completed?

Xia ruofei was deep in thought and did not stop cultivating. Yuan Qi was produced continuously and condensed into liquid. It seeped out of the nascent soul and directly stored in the dantian, fusing into the sea of liquid.

Before he could find the problem, Xia ruofei could only continue to cultivate.

Although he was a little confused, he did not panic. He still believed that there was no problem with his breakthrough process.

Just like that, Xia ruofei cultivated for another half an hour. Just as he was at his wit's end, a few golden lights suddenly flashed in the sea of elemental liquid in his dantian.

Xia ruofei had been looking at his dantian, hoping to find the problem. Naturally, he noticed this unusual situation immediately.

The streaks of golden light shot out of the sea of liquefied elemental essence, heading straight for the nascent soul.

Xia ruofei was shocked. Could it be that there was something strange in his dantian that could assassinate a nascent soul cultivator? Wasn't this a little too absurd?

However, he quickly calmed himself down because he immediately recognized those golden lights. Weren't they the Dragon - shaped elixir patterns on the surface of the purplish - Gold golden core?

Chapter 3817 The second ring (1)

Xia ruofei slowly opened his eyes and carefully felt the majestic energy in his body. Then, he stood up and walked to the window, looking into the distance.

This was what it felt like to break through!

Xia ruofei felt as if he had ascended. The world seemed to have more layers to it. The trees were still the same, and the sea was still the same, but there was a sense of color and clarity.

In fact, every breakthrough was a transition in the level of life. It was the process of accumulation of quantitative changes to finally achieve a qualitative change.

Therefore, after breaking through a major realm, cultivators would feel as if they had been reborn.

This included Xia ruofei's current immortal - like feeling. It was actually an illusion brought about by the sudden leap in life level.

He also carefully felt the situation in his dantian.

Just now, his nascent soul had sucked away quite a bit of liquefied elemental essence, causing the level of the liquefied elemental essence sea in his dantian to drop slightly.

In addition, the liquefied elemental essence absorbed by the nascent soul was completely used to strengthen itself. It wasn't like the liquefied elemental essence that was condensed after absorbing elemental energy, which would then be sent back to the dantian.

Xia ruofei felt that if he wanted to cultivate that much liquefied elemental essence, he would need at least a few hours of cultivation.

A few hours of hard work was only enough for a nascent soul to take a breath.

Did I have a big appetite? Xia ruofei could not help but smile bitterly.

Therefore, if one wanted to cultivate to the primordial soul realm, the consumption would be an astronomical figure.

And this didn't even include the situation of encountering a bottleneck. If one was stuck at a bottleneck for a period of time at a certain stage, the consumption would be even more astonishing.

Xia ruofei didn't think too much about it. It was a good thing to break through to the original level. Besides, he had enough cultivation resources for the time being. At least for now, he didn't need to worry about cultivation resources.

Therefore, he quickly returned to the Jade futon and sat down with his legs crossed. He first drank a few sips of the spirit pool water to replenish his mental power, and then began to cultivate again.

After all, he had just made a breakthrough, and he still needed to consolidate his cultivation.

Especially the nine Dragon - shaped patterns, which had barely been integrated into the nascent soul's body. Xia ruofei could feel that this connection was very fragile and clearly needed some time to consolidate.

It was also possible for the nascent soul to absorb a few more mouthfuls of liquefied elemental essence, allowing it to further consolidate its cultivation.

Xia ruofei replenished the purple Yuan crystals around him and started to circulate his cultivation technique.

This time, he was cultivating the "Mystic origin Scripture". Of course, he had also changed to the "Mystic origin Scripture" nascent Soul Stage cultivation technique.

Xia ruofei slowly opened his eyes and carefully felt the majestic energy in his body. Then, he stood up and walked to the window, looking into the distance.

He didn't know if the other Yuanying stage cultivators were in the same situation, but he felt that it was probably not so exaggerated. Otherwise, who could afford such a large consumption? One must know that even during the golden age of the cultivation world, resources like purple origin crystals were very precious.

If Xia ruofei wanted to cultivate the mouthful of liquefied elemental essence that had been absorbed by the nascent soul, he would probably have to use up an entire purple crystal. Now that he had broken through to the nascent Soul Stage, his cultivation consumption had naturally increased greatly. One purple crystal was only equivalent to two to three hours of his cultivation.

And this was only one mouthful. Xia ruofei didn't know how much liquid essence a nascent soul needed to absorb to complete its evolution.

Therefore, if one wanted to cultivate to the primordial soul realm, the consumption would be an astronomical figure.

Chapter 3819 Spare no effort_1

Xia ruofei had received three storage rings as a reward.

Xia ruofei could open the first storage ring immediately. There was a large amount of purple origin crystals, a bottle of nascent condensation pills, and a golden armor.

Xia ruofei did not know that the real reward was actually the purple Yuan crystal. The nascent formation pill was won for him by Daoist master mountain river, and the gilded soft armor was his own collection.

As for the second and third storage ring, Xia ruofei could not open them.

According to the information he had obtained at the top of the trial Pagoda, these three storage rings could be opened by cultivators in the Aurous core stage, nascent Soul Stage, and immortal soul Stage respectively.

The first storage ring had already been opened, and it had also brought him great help in his cultivation. If it wasn't for the massive amount of purple Yuan crystals, he wouldn't have been able to break through to the nascent Soul Stage so quickly. And if it wasn't for the nascent formation pill, the process of breaking through wouldn't have been so smooth.

Now that Xia ruofei had successfully reached the beginner stage of the original level, he naturally couldn't wait to open the second storage ring and see what was inside.

Xia ruofei was full of anticipation.

He looked at the storage ring in his hand and then silently circulated his vital Qi. Sure enough, the barrier that was once completely unbreakable, when it encountered Yuanying Qi, directly melted like ice and snow meeting the sun.

Then, Xia ruofei scanned the ring with his spiritual power and found that the restriction on the storage ring had been removed.

He immediately forced out a drop of blood from his fingertip and performed the owner recognition on the storage ring.

Then, Xia ruofei impatiently sent his spiritual force into the storage ring.

When he inspected the contents of the storage ring, he couldn't help but widen his eyes in shock despite being mentally prepared.

Inside the storage ring, there were hundreds of identical Jade bottles neatly arranged.

Xia ruofei casually checked a few Jade bottles and couldn't help but take in a breath of cold air. The Jade bottles were all filled with liquefied elemental essence!

That's right, it was the liquefied elemental essence that nascent soul cultivators had to painstakingly cultivate every day to form!

Chapter 3821 An unexpected surprise (1)

The moment Xia ruofei stepped out of the room, he saw Song Wei and Ling Qingxue waiting for him in the living room.

Song Wei looked at Xia ruofei in surprise and asked, "You've already consolidated your cultivation so quickly?"

From the time Xia ruofei entered the house to the time he left, it had only been slightly more than an hour. This was too short for cultivation. Basically, he had only completed 20 to 30 cycles.

Song Wei and Ling Qingxue thought that Xia ruofei wanted to consolidate his cultivation. After all, it would take at least a few hours. They even discussed whether they should go to the kitchen to prepare the ingredients first, in case Xia ruofei cultivated for too long and delayed his dinner time. After all, Xia ruofei had just said that they would have dinner together to celebrate.

He didn't expect that Xia ruofei would have finished cultivating in just over an hour.

Xia ruofei chuckled and said,"actually, when I was in closed - door cultivation, I had already consolidated my cultivation. I just strengthened it a little." Don't worry!"

"Wei Wei and I were thinking that if you took too long, we would go and prepare dinner first!" Ling Qingxue said with a smile.

"Don 't!" Xia ruofei was so scared that he waved his hands and said,"let me do this kind of rough work!"

Ling Qingxue pouted and asked,"what do you mean?" I'm the successor of Ling Ji F & B, so what's wrong with looking down on my cooking skills?"

Xia ruofei thought,"don't you know how good your cooking is?" Don't mention that Ling Ji F & B descendant of yours anymore! If it wasn't for the fact that uncle Ling's disciples were quite capable, your family's cooking skills would have been lost in your generation ...

Of course, Xia ruofei was only complaining in his heart. He denied it verbally and said without thinking,""I didn't have any other intentions! It's because you guys have been working so hard to protect me for the past few days, so I want to cook to reward you, right?"

"That's more like it ..." Ling Qingxue said with a smile.

In fact, she knew very well that her own cooking skills were not good enough for Ling Ji restaurant's reputation. Besides, even though Song Wei's cooking skills were slightly better than hers, she had been living in luxury since she was young. Therefore, compared to Ling Qingxue, Song Wei's cooking skills were not that good.

Xia ruofei quickly took the opportunity to run to the kitchen and politely declined the help of his two female friends. He started to work alone in the kitchen.

By the time the sun had set, Xia ruofei had already prepared a sumptuous dinner. He sent a telepathic message to Li Yifu, inviting him to come up and celebrate. Then, he took out two bottles of Drunken Eight Immortals and a bottle of Semillon white wine that was specially prepared for the ladies from the spirit map space.

Everyone gathered together. Xia ruofei had broken through to the original infant stage. It could be said that he had entered a whole new stage, so everyone was in a good mood. Under Xia ruofei's suggestion, everyone had a toast.

Then, Xia ruofei called everyone to eat and tried the feast he had prepared.

All of the ingredients were taken out from the spirit map space. Furthermore, Xia ruofei had picked a decent spiritual herb from the realm Heart island's herb garden and added it into the soup. Not only did it become more delicious, it was also very beneficial to cultivators.

Everyone was full of praise, especially Ling Qingxue, who drank two big bowls of soup without caring about her image.

After eating for a while, Xia ruofei put down his chopsticks and asked with a smile,""What's everyone's next plan?"

Ling Qingxue replied without hesitation,"what plans can we have? we'll just stay on this Paradise Island and cultivate!" It wasn't easy for me to break through to the Golden core stage, but with your breakthrough, the gap between us has widened again!"

"Qingxue, I think it's going to be difficult for us to catch up to RUO Fei ..." Song Wei said with a smile.

"Wei Wei, how can you boost other people's morale and diminish your own prestige?" Ling Qingxue said,"we are quite talented too, okay? What RUO Fei can do, we can do as well. It's just that we started a little later than him, but we'll definitely be able to catch up later!"

Xia ruofei gave Ling Qingxue a thumbs up and said with a smile,""Good! He had ambition! Cultivation has always been against the will of the heavens. It's a good thing that Qingxue has this unyielding spirit!"

Then, Xia ruofei looked at Li Yifu and asked with a smile,""What about you, foster husband? Do you have any plans?"

Li Yifu thought for a moment and said,"senior granduncle, I'm not very talented. It's all thanks to your help that I'm able to have my current cultivation." Therefore, this disciple doesn't have any specific plans for the next step. This disciple will follow your arrangements, senior granduncle! If you don't have any other arrangements, this disciple

is also willing to guard the Peach Blossom Island and cultivate while looking after this home for martial granduncle!"

Xia ruofei was stunned for a moment and then laughed. This answer was in line with Li Yifu's usual style ...

"Where's Wei Wei?" Xia ruofei looked at Song Wei and asked with a smile,"do you have any other specific plans for cultivation?"

"That depends on your plans. We'll try our best to be with you to ensure the efficiency of our training!" Song Wei said.

Song Wei was referring to the practice of the "absolute beginning Scripture" together. Although Xia ruofei had found a new technique for her and Ling Qingxue, in terms of cultivation efficiency, it was naturally more efficient to practice with a spirit body. Especially since Xia ruofei had broken through to the nascent Soul Stage, Song Wei and Ling Qingxue would probably benefit more if they practiced together.

Xia ruofei smiled and nodded.""Since no one has any specific plans, let me say it!"

The moment Xia ruofei stepped out of the room, he saw Song Wei and Ling Qingxue waiting for him in the living room.

Chapter 3823 Reappearing the world stone (1)

"What a familiar smell ..." The young voice exclaimed in surprise.

Xia ruofei was stunned for a moment before he came back to his senses. He realized that it was Bai Qingqing, the world Fox, who was speaking. This little fellow had not moved for a long time. When Xia ruofei entered the spirit map space, he would occasionally check on Bai Qingqing's situation and found that she was immersed in comprehending the laws in an independent space. She was probably about to make a breakthrough.

This kind of special spirit beast was very different from human cultivators. The realm Fox mainly relied on the rules of space to improve its cultivation. Therefore, it did not need to cultivate normally. It only needed to constantly comprehend the rules of space. The deeper its comprehension, the stronger it would be. In addition, the lifespan of a realm Fox was far longer than that of human cultivators. Therefore, it was normal for them to spend a few years without moving from their nest. It was equivalent to a human cultivator doing a small closed - door cultivation.

Hence, every time Xia ruofei checked, he would find that the Jie Li, Bai Qingqing, was not moving. He did not disturb it. He did not expect that it would suddenly speak today, which made Xia ruofei unable to react for a moment.

Without waiting for Xia ruofei to reply, Bai Qingqing immediately shouted excitedly,""It's the smell of world stones! Delicious world stones ... So many, so many ..."

Xia ruofei couldn't help but be stunned. He looked at the unopened Jade box and couldn't help but make a guess.

In reality, Xia ruofei still carried that sensing Jade Leaf with him. However, there was no movement at this moment. Logically speaking, there shouldn't be any world stones in the vicinity.

However, this was not absolute.

For example, if the world stone was in this Jade box, it might be able to block the Jade Leaf's detection.

As for why Bai Qingqing could sense it, it was because the world Fox was naturally sensitive to the world stone, far more sensitive than the Jade Leaf. Furthermore, when Xia ruofei had just broken through the layer of protective array, Bai Qingqing had sensed it, and the timing matched.

Thinking of this, Xia ruofei couldn't help but feel excited.

It had been a long time since he had found a world stone, and the spirit map space had not yet reached its final form.

However, the world stone had always been something that could only be found by chance. To put it bluntly, one could only rely on luck. Xia ruofei did not have any direction to go in.

If there were realm stones inside this Jade box, the size of this Jade box could hold quite a lot of them! Perhaps the spirit map space could be upgraded again!

When Xia ruofei thought of this, he started to lose his calm.

The protective array of the jade box had been broken. Xia ruofei was filled with anticipation. He opened the exquisite lock on the box and lifted the lid.

"What a familiar smell ..." The young voice exclaimed in surprise.

Chapter 3825 A long - Lost upgrade (1)

The spirit map scroll was like a rain after a long drought. After the World stone entered the spirit map space, the entire scroll trembled slightly.

In the spirit map space, in an independent space, the realm Fox Bai Qingqing could also sense that the fluctuations of the laws in the spirit map space had become stronger. It immediately perked up and quickly focused its mind and began to comprehend.

Xia ruofei was very familiar with the reaction of the spirit painting scroll when it absorbed the world stone. However, he had not seen this scene for a long time so he was very emotional.

Xia ruofei continued to take out world stones and threw them into the spirit map space.

There were many world stones in the jade box. Even after the spirit map continued to absorb the world stones for a while, the world stones in the jade box had only gone down by one or two layers.

Xia ruofei did not hesitate this time, nor did he feel any heartache for the world stones. He simply threw them into the spirit map space one by one. As the number of world stones absorbed increased, the spirit map scroll trembled more and more violently.

Xia ruofei knew that this was the reaction of the spirit map space after absorbing a large number of world stones in a short period of time. It did not mean that the space could break through immediately.

In reality, if one did not have enough world stones, the rate of investment would be the same, and the realm would not be able to level up.

However, Xia ruofei could not wait any longer. He estimated the number of world stones in the jade box and felt that it should be enough to upgrade the spirit map space by one level. Hence, he did not stop and continued to put in the world stones one by one.

Fortunately, the absorption speed of the spirit map space was extremely fast. Basically, once the world stone entered the space, it would be immediately absorbed completely without leaving a trace.

As for the realm Fox Bai Qingqing, she was also fully focused on understanding the special spatial rules.

Every world stone that entered the spirit map space was like throwing a stone into a calm ocean of laws. It would quickly cause a large number of ripples. At this time, the fluctuations of the laws of space were much more intense than usual. Bai Qingqing was now comprehending the laws, and she could come into contact with some of the laws that were usually not exposed. This would be of great help to her cultivation.

Time slowly passed, and the number of world stones in the jade box also decreased.

Unknowingly, there was only half a box of world stones left in the jade box. However, the spirit map scroll was still trembling without any signs of a breakthrough.

Xia ruofei's expression didn't change. He didn't slow down as he took out the world stones and threw them into the spirit map space.

Bai Qingqing was also focused on comprehending the spatial laws and did not notice that Xia ruofei had already thrown more than half of the world stones into the space.

Chapter 3827 A delightful change (1)

Xia ruofei waited for a few more minutes before the fluctuations of the laws in the spirit map space finally stopped.

Just as Xia ruofei was about to enter the spirit map space to take a look, he heard Bai Qingqing's voice in his mind,""Brother RUO Fei! You ... You only left me these few pieces! You're too petty ..."

Xia ruofei was a little embarrassed. He transmitted his voice,""That ... I didn't expect that the upgrade of this space would require so many world stones. However, I really didn't waste a single one. When my small space started to upgrade, I immediately stopped throwing in world stones, but ... The actual situation is like this. There are still eight more, so I'll leave them all for you!"

Even though Xia ruofei had obtained these realm stones himself, and it was reasonable for him not to give a single one to Bai Qingqing, Xia ruofei still felt a little guilty. After all, Bai Qingqing had helped him find the realm stones previously. It could be said that she had helped him before. This time, he had obtained an entire box of realm stones, so it was reasonable for him to leave some for Bai Qingqing.

Eight was indeed a little too little.

"Alright ..." Bai Qingqing said disappointedly,"it's better than nothing. After all, you found this world stone yourself. It's more important to upgrade your small space ..."

Xia ruofei consoled her."Qingqing, when I'm free, let's go out again. The world is so big, right? there's bound to be a chance to find more world stones. I'll give you more then!"

"Mm! Brother ruofei, you have to keep your word!" Bai Qingqing said,"can you quickly hand me these eight world stones? I'm about to starve to death ..."

"No problem! No problem!" Xia ruofei quickly said.

Then, he closed the jade box and entered the spirit map space with the jade box.

As the realm Fox Bai Qingqing had always been in the mountain and sea realm, Xia ruofei had also teleported to the mountain and sea realm. Furthermore, he had arrived in a small space above the sea.

The realm Fox, Bai Qingqing, had not moved for the past two years. She had been staying here to comprehend the special rules of the spirit map space.

What was special was that this small space was created by the realm Fox, Bai Qingqing. This meant that it had a deep understanding of the spatial rules of the spirit map space. Of course, this was under the silent consent of Xia ruofei. Otherwise, Bai Qingqing would not have been able to make any changes to the space.

Xia ruofei threw the jade box to Bai Qingqing.

Bai Qingqing had been lying lazily on her stomach and looked weak. However, when she saw Xia ruofei throw the jade box at her, she immediately perked up. She pounced over and hugged the jade box. Then, she used her head to push open the lid of the jade box and slipped into it.

Bai Qingqing's body was very small, about the size of a civet cat, so it didn't feel crowded at all when she got into the jade box.

It impatiently grabbed the world stone and stuffed it into its mouth, looking extremely hungry.

Xia ruofei waited for a few more minutes before the fluctuations of the laws in the spirit map space finally stopped.

Eight was indeed a little too little.

"Alright ..." Bai Qingqing said disappointedly,"it's better than nothing. After all, you found this world stone yourself. It's more important to upgrade your small space ..."

Xia ruofei consoled her."Qingqing, when I'm free, let's go out again. The world is so big, right? there's bound to be a chance to find more world stones. I'll give you more then!"

"Mm! Brother ruofei, you have to keep your word!" Bai Qingqing said,"can you quickly hand me these eight world stones? I'm about to starve to death ..."

"No problem! No problem!" Xia ruofei quickly said.

Then, he closed the jade box and entered the spirit map space with the jade box.

As the realm Fox Bai Qingqing had always been in the mountain and sea realm, Xia ruofei had also teleported to the mountain and sea realm. Furthermore, he had arrived in a small space above the sea.

The realm Fox, Bai Qingqing, had not moved for the past two years. She had been staying here to comprehend the special rules of the spirit map space.

What was special was that this small space was created by the realm Fox, Bai Qingqing. This meant that it had a deep understanding of the spatial rules of the spirit map space.

Of course, this was under the silent consent of Xia ruofei. Otherwise, Bai Qingqing would not have been able to make any changes to the space.

Xia ruofei threw the jade box to Bai Qingqing.

Bai Qingqing had been lying lazily on her stomach and looked weak. However, when she saw Xia ruofei throw the jade box at her, she immediately perked up. She pounced over and hugged the jade box. Then, she used her head to push open the lid of the jade box and slipped into it.

Just as Xia ruofei was about to enter the spirit map space to take a look, he heard Bai Qingqing's voice in his mind,""Brother RUO Fei! You ... You only left me these few pieces! You're too petty ..."

Even though Xia ruofei had obtained these realm stones himself, and it was reasonable for him not to give a single one to Bai Qingqing, Xia ruofei still felt a little guilty. After all, Bai Qingqing had helped him find the realm stones previously. It could be said that she had helped him before. This time, he had obtained an entire box of realm stones, so it was reasonable for him to leave some for Bai Qingqing.

It impatiently grabbed the world stone and stuffed it into its mouth, looking extremely hungry.

As the realm Fox Bai Qingqing had always been in the mountain and sea realm, Xia ruofei had also teleported to the mountain and sea realm. Furthermore, he had arrived in a small space above the sea.

Bai Qingqing's body was very small, about the size of a civet cat, so it didn't feel crowded at all when she got into the jade box.

Chapter 3829 New space function (1)

If the boundary Fox Bai Qingqing could be said to be the darling of space, able to comprehend the laws of the spirit map space to a very deep level in a very short time, then Xia ruofei would be the master of the laws in the spirit map space.

Of course, Xia ruofei's understanding of the rules of space in the spirit map space might not be as good as Bai Qingqing 's. However, as the owner of the space, he had absolute control over the spirit map space. Hence, he could easily use the rules of space to the extreme.

He had just noticed that there seemed to be a very different place in the sea of space, which had appeared after the upgrade.

However, this place was in the depths of the space ocean. In addition, Xia ruofei was in the center of the vast continent. Hence, he was a few hundred kilometers away from the new special location. If he were in the outside world, it would take him a long time to get there even if he took the black Phoenix flying ship.

But in the spirit map space, it wasn't so troublesome.

Xia ruofei's mind moved slightly, and the rules of the spirit map space fluctuated slightly. Xia ruofei's figure disappeared from where he was standing, and the next moment, he appeared out of thin air in the sky above a certain place in the depths of the space ocean, just standing there in the air.

Xia ruofei's figure disappeared from where he was standing, and the next moment, he appeared out of thin air in the sky above a certain place in the depths of the space ocean, just standing there in the air.

Nascent Soul Stage cultivators could hover and fly in the void without a flying sword. However, Xia ruofei didn't do it with his nascent Soul Stage cultivation. He made full use of the rules of the spirit map space.

It could be said that Xia ruofei was the absolute king in the spirit map space.

It was no exaggeration to say that Xia ruofei could decide the life and death of all the living beings in the spirit map space with a single thought.

Putting everything else aside, just the laws of space here were enough for Xia ruofei to kill someone in an instant. He could create thousands of spatial cracks around the target and generate countless spatial wind blades. Even a cultivator who was a few realms higher than Xia ruofei would be cut into pieces without any resistance.

Furthermore, Xia ruofei did not only control the rules of space.

At this moment, Xia ruofei was standing in the void. Under his feet was the sea. He looked around and saw the vast ocean. If other cultivators came here, they would never know that this was not the outside world but the inside of a spatial treasure.

Not far in front of Xia ruofei, there was an isolated island.

To be more precise, it couldn't even be considered an Island. It could only be considered a reef, because it was too small.

The part of the island above the sea was only six or seven meters high, and the top was a very regular flat surface, as if it had been cut by a sword. In fact, Xia ruofei also felt that it should have been cut by a sharp magical treasure.

The flat surface of the island wasn't big either. It was basically round and was probably only ten meters wide.

If a circle was drawn on it and an "H" symbol was drawn on the inside, it could be used as a small helicopter landing platform.

However, this place was obviously not used for helicopters.

On the circular surface of the top of the island, there were actually countless mysterious lines carved on it. With Xia ruofei's array Dao level, the first thing he felt was dizziness when he saw these lines. He could deduce the general function of a few lines, but when countless lines were combined together, the changes formed were simply endless. Furthermore, they were combined in such a complicated way that it was even more chaotic. Xia ruofei could not make out any clues.

Chapter 3831 Making up for the shortcomings (1)

At first, Xia ruofei was caught off guard, but after he got used to it, he became more relaxed.

He stood on the spot, enduring the formation's constant hammering on his sea of consciousness, while letting his thoughts go free.

There was no doubt that this array was extremely helpful for the cultivation of mental power. He had always been a little worried that the speed of his vital Qi cultivation was getting faster and faster because he had been using top - notch cultivation resources for the past two years. This might cause his mental power to be unable to keep up.

In fact, this trend had already appeared. His spiritual power had long reached the middle stage of the spirit gathering realm, which was equivalent to the spiritual power realm of a cultivator in the middle stage of the nascent soul realm. At that time, he had just broken through to the Golden core realm. Now that he had broken through to the early stage of the nascent soul realm, his spiritual power realm had only improved by a small realm, reaching the late stage of the spirit gathering realm. It was easy to imagine how difficult it would be to continue to break through to another realm.

Now, he had even begun to use the pure origin fluid to cultivate. His Yuan Qi cultivation would definitely improve at an extremely fast rate. As time passed, his Yuan Qi cultivation and mental power would get closer and closer to each other, to the point where his mental power might not be able to keep up with his Yuan Qi cultivation.

This could be considered Xia ruofei's current shortcoming.

However, the upgrade of the spirit map space this time had made up for this shortcoming.

Xia ruofei believed that as long as he continued to train his spiritual power in this formation, the improvement of his spiritual power would not be any less than the improvement of his vital Qi.

At the same time, Xia ruofei thought of Ling Qingxue, Song Wei, Li Yifu, and the rest.

In fact, their situation was similar to Xia ruofei 's. Now, the people closest to Xia ruofei were also enjoying the best cultivation environment and the best cultivation resources. Their vital Qi cultivation had improved more and more. Their spiritual power was even lower than Xia ruofei' s, so the contradiction was even more obvious.

Therefore, the appearance of this spiritual energy formation not only solved Xia ruofei's shortcomings in cultivation but also solved the hidden dangers for the people around him.

However, there was another big problem. The formation was fixed in the depths of the mountain and sea realm in the spirit map space. Even Xia ruofei could not move the formation out of the spirit map space and let Li Yifu and the others use it.

Chapter 3833 A new mystical realm (1)

3833 A new mystical realm (1)

Xia ruofei was already able to touch the bottleneck of the Saint spirit realm, but it was obvious that this formation had a protective mechanism. When Xia ruofei's sea of consciousness could not bear it, it directly kicked him out of the formation.

This was a good thing, of course.

After all, everyone's willpower was different. For someone like Xia ruofei, who had a strong will, even if his sea of consciousness was in a dangerous state, he would still grit his teeth and persist. The result of continuing would be that his sea of consciousness would be severely damaged. The injuries to the sea of consciousness were much more troublesome than injuries to the physical body.

Therefore, with such a protective mechanism, cultivators who entered the array to train their mental power could not only squeeze out their potential to the limit, but also avoid really hurting their sea of consciousness.

Xia ruofei checked his own condition. His head was still aching and his sea of consciousness seemed to have been injured from the violent shock and hammering.

Of course, due to the existence of the protection mechanism, the damage was very minor.

Compared to the benefits he had gained from the array, this injury to his sea of consciousness was not worth mentioning.

It had not been long since Xia ruofei had broken through to the late - Stage of spiritualism. Before this, his spiritual power was still far from breaking through to the Saint spirit realm. However, after cultivating once in the array today, he had actually touched the bottleneck of the Saint spirit realm.

He didn't dare to say that he would have a chance to break through immediately, but this improvement was clearly unimaginable in the past.

The toughness of his spiritual sea and the strength of his spiritual power had also improved significantly compared to before he entered the formation cultivation.

Xia ruofei really wanted to continue cultivating and break through to the Saint spirit realm in one go, allowing his spiritual power to break through to the next realm.

However, after checking his own condition, he knew that this idea was unrealistic. Read most accurately at no(v) el...n(e) xt.com

Today's long period of cultivation had placed a heavy burden on his sea of consciousness, especially when he was cultivating the third Halo. He was directly kicked out by the formation and his sea of consciousness had suffered some minor injuries.

Although the injuries were insignificant and would not harm his Foundation at all, that was only in comparison.

Xia ruofei estimated that it would take at least five to seven days to recover.

In other words, although this array was extremely effective in training one's mental energy, it was impossible to repeatedly farm it for no reason and allow one's mental energy to increase infinitely.

In fact, it was not just the cultivation of spiritual power. The cultivation of any field was the same, and it paid attention to a degree of relaxation.

Even if Xia ruofei's sea of consciousness wasn't injured, he wouldn't be able to continue practicing formations.

Therefore, he already had a rough plan. In the future, he would come in every week or so to train his spiritual power, and the rest of the time, he would continue to practice the great Dao Arts and the black origin Sutra. He also had to plan the two ways of absorbing spiritual Qi and primordial liquid.

Xia ruofei believed that as long as he arranged his cultivation plan well, his vital Qi cultivation and spiritual power cultivation would welcome a period of rapid development!

Compared to before, even if he trained his mental power once a week, the improvement effect was a world of difference. He was confident that his mental power cultivation would always be ahead of his vital Qi cultivation by at least two small realms.

Xia ruofei took out a Jade futon and gulped down a few mouthfuls of water from the spiritual pond. Then, he sat down cross-legged and started to recover. At the same time, he slowly used his spiritual power to nourish his sea of consciousness and heal the injuries.

After resting for more than an hour, Xia ruofei stood up and kept the Jade futon.

His spiritual power had basically recovered, but the injury in his sea of consciousness would be relatively more troublesome. However, it would not be a problem to heal it, but it would still take a few days.

Xia ruofei stood at the edge of the formation on the island. With a slight thought, the surrounding space laws started to fluctuate. In the blink of an eye, the entire Island was surrounded by spatial barriers.

Now that he was standing here and looking around, he could no longer see the turbulent sea of space. The layers of space membranes could not be penetrated even by mind power.

Xia ruofei believed that, under such circumstances, he brought Song Wei, Ling Qingxue, and Li Yifu in. They would never have thought that this Island was located in a vast space - Type treasure.

After checking around and not finding any loopholes, Xia ruofei finally revealed a satisfied smile.

With a slight thought, his figure disappeared on the spot.

In the next moment, he had appeared in the central region of the mountain and sea realm.

Xia ruofei had originally wanted to return to his room in the outside world. However, before he left, he suddenly thought of Bai Qingqing, the world Fox. After all, the number of world stones used up for this upgrade had exceeded his expectations. As a result, he had only left eight world stones for Bai Qingqing. Xia ruofei felt a little guilty.

Therefore, he used his mind to check the small space where Bai Qingqing was.

To Xia ruofei's surprise, Bai Qingqing, who had finished eating the eight world stones, seemed to have entered a state of evolution.

Its eyes were closed, and its body was curled up in the small space. White rays of light appeared around its body. These rays of light seemed to be winding around it, forming a light cocoon.

Xia ruofei could not help but raise his eyebrows. It seemed that Bai Qingqing had taken the opportunity to comprehend a large amount of the spirit map's spatial rules during the upgrade process. Perhaps it was because she had replenished eight world stones at once, so it seemed like she was about to start evolving again.

Chapter 3834 A new mystical realm (2)

After Bai Qingqing evolved, she could communicate with him directly. At the beginning, Bai Qingqing didn't have the ability to speak. She could only make squeaking sounds and wave her forelimbs.

Xia ruofei wondered what changes Bai Qingqing would undergo after this evolution. He could not help but look forward to it.

However, he also knew that Bai Qingqing's evolution would not be so fast. For a period of time in the future, she would be in this kind of dormant state.

Xia ruofei checked and confirmed that Bai Qingqing had only entered a state of evolution and that there was nothing wrong with her body. Only then did he relax. With a thought, he left the spirit map space and returned to his room on the Paradise Island.

At this time, the sky outside had already completely darkened.

Xia ruofei had returned to his room in the afternoon to fiddle with the jade box. The process of upgrading the spirit map space was a long one. After the space upgrade, he went to the array deep in the sea to train his spiritual power for a few hours. So, it was already past nine in the evening.

As Xia ruofei had instructed them to do so, Song Wei and Ling Qingxue did not bother him.

Xia ruofei removed all the formations he had set up and kept the materials. Then, he opened the door and walked out.

Song Wei and Ling Qingxue were still sitting in the living room, watching TV in boredom.

The island was equipped with satellite antennas that could receive satellite TV signals directly. Currently, the TV was broadcasting a reality show on an Australian TV station. However, Song Wei and Ling Qingxue's minds were not on the TV, and they were both a little distracted.

Seeing Xia ruofei's room door open, they stood up at the same time.

"RUO Fei, what took you so long? We thought you were in closed - door cultivation again!" Ling Qingxue asked.

"I'm researching a formation, but I'm probably too engrossed in it! "I didn't notice the time ..." Xia ruofei said with a smile.

He had spent most of his afternoon and night training his spiritual power in the array in the depths of the space ocean, so strictly speaking, this was not a lie.

Xia ruofei was already able to touch the bottleneck of the Saint spirit realm, but it was obvious that this formation had a protective mechanism. When Xia ruofei's sea of consciousness could not bear it, it directly kicked him out of the formation.

Chapter 3835 Full horsepower (1)

"A small secret realm?" Ling Qingxue and Song Wei's eyes lit up at the same time.

Especially Ling Qingxue. She had been to the mystic Luna realm with Xia ruofei, so she had a more intuitive feeling about the opportunities that might exist in the mystic Luna realm. She asked impatiently,""Ruofei, what kind of secret realm is it? Just how small is a small secret realm?"

Xia ruofei laughed and said,"it's so small that it's beyond your imagination, but it's very interesting and very practical!" You'll know when you go in!"

In fact, this "small secret realm" was completely created by Xia ruofei in the spirit map space. He wanted to make the secret realm as big as he could. After all, the mountain and sea realm in the spirit map space now had almost one - tenth of the land area of China. The ocean was also very vast.

However, Xia ruofei didn't want to reveal the secret of the spirit map space, so he tried his best to surround it with a space membrane wall. There was only an area of about ten meters in diameter on the island, which was pitifully small.

"Alright! Alright! Quickly bring us in!" Ling Qingxue said hurriedly.

Xia ruofei smiled."Alright. Don't resist. I'll teleport you into the secret realm!"

Song Wei and Ling Qingxue were also experienced in this area. When Qianqian entered the green touring immortal abode, Xia ruofei had also brought them in directly. As long as they did not resist, it would be fine.

Hence, Xia ruofei easily brought his two confidants to the mountain and sea realm of the spirit map space. They accurately appeared on the island in the depths of the space sea.

With Xia ruofei's current level of control over the spirit map space, he could hit wherever he wanted. The error could be calculated in millimeters, so it was not difficult to move to the island accurately.

Song Wei and Ling Qingxue felt their vision blur, and then, as if the stars had shifted, the scenery in front of them changed completely.

They didn't realize that they had been moved into a vast, small space at all, because the 'small secret realm' in front of them was really small. There was a rock under their feet, and it was a circular area with a diameter of ten meters. Beyond that was the space membrane wall, and they could even touch it with their hands.

"This is the place!" Xia ruofei said with a smile.

Song Wei's gaze fell on the only eye - catching large array pattern on the island. She smiled and pointed in the direction of the array and asked,""RUO Fei, the interesting part of this small secret realm should be that formation, right?"

Xia ruofei laughed and nodded,""Of course! There was nothing else here other than this array! However, don't look down on this formation. It's super practical and will be of great help to me!"

"What kind of formation is this?" Ling Qingxue could not help but ask.

Xia ruofei said,"I've tried to figure it out. This should be an array specially used to train a cultivator's spiritual power ..."

Then, Xia ruofei explained everything he knew about the formation to his two female friends in detail. Finally, he said,""I brought you here to let you experience it first! In the future, you can come in regularly to train your spiritual power. This will be of great help to your cultivation!"

"A small secret realm?" Ling Qingxue and Song Wei's eyes lit up at the same time.

Especially Ling Qingxue. She had been to the mystic Luna realm with Xia ruofei, so she had a more intuitive feeling about the opportunities that might exist in the mystic Luna realm. She asked impatiently,""Ruofei, what kind of secret realm is it? Just how small is a small secret realm?"

"Alright! Alright! Quickly bring us in!" Ling Qingxue said hurriedly.

Xia ruofei smiled."Alright. Don't resist. I'll teleport you into the secret realm!"

Song Wei and Ling Qingxue were also experienced in this area. When Qianqian entered the green touring immortal abode, Xia ruofei had also brought them in directly. As long as they did not resist, it would be fine.

"This is the place!" Xia ruofei said with a smile.

Xia ruofei laughed and nodded,""Of course! There was nothing else here other than this array! But don't look down on this formation, it's really super practical and will be of great help to me!"

"What kind of formation is this?" Ling Qingxue could not help but ask.

Xia ruofei laughed and said,"it's so small that it's beyond your imagination, but it's very interesting and very practical!" You'll know when you go in!"

In fact, this "small secret realm" was completely created by Xia ruofei in the spirit map space. He wanted to make the secret realm as big as he could. After all, the mountain and sea realm in the spirit map space now had almost one - tenth of the land area of China. The ocean was also very vast.

However, Xia ruofei didn't want to reveal the secret of the spirit map space, so he tried his best to surround it with a space membrane wall. There was only an area of about ten meters in diameter on the island, which was pitifully small.

"Alright! Alright! Quickly bring us in!" Ling Qingxue said hurriedly.

Xia ruofei smiled."Alright. Don't resist. I'll teleport you into the secret realm!"

Song Wei and Ling Qingxue were also experienced in this area. When Qianqian entered the green touring immortal abode, Xia ruofei had also brought them in directly. As long as they did not resist, it would be fine.

Hence, Xia ruofei easily brought his two confidants to the mountain and sea realm of the spirit map space. They accurately appeared on the island in the depths of the space sea.

With Xia ruofei's current level of control over the spirit map space, he could hit wherever he wanted. The error could be calculated in millimeters, so it was not difficult to move to the island accurately.

Song Wei and Ling Qingxue felt their vision blur, and then, as if the stars had shifted, the scenery in front of them changed completely.

Song Wei didn't stop at the first Halo and walked into the second Halo's range.

The formation had been activated, so when Song Wei went in, she immediately felt the pressure of the hammer, shock, and spiritual power. The strength of her consciousness had increased by a lot.

Her delicate body trembled slightly, and her face turned pale.

Xia ruofei knew that what song Wei was feeling now was similar to what he was feeling in the third Halo. It might even be more than that.

The intensity of the second Halo's spiritual power was actually beyond what song Wei's current level of spiritual power could withstand. Therefore, the possibility of her holding on until she passed this stage was not high. The only question was how long she could last.

Naturally, the longer he persisted, the greater the benefits he would obtain.

Moreover, under this kind of extreme pressure, for every second he persisted, the tempering of his sea of

consciousness and the growth of his spiritual power might be greatly different.

Of course, this did not entirely depend on Song Wei's willpower.

If the array determined that her sea of consciousness had reached the limit of what it could bear and that continuing might cause irreversible damage, it would decisively send her out of the array. This was not something she could control.

However, as long as she could persevere to that point, it meant that Song Wei had already done her best in this array training.

Time passed slowly. Xia ruofei did not dare to be distracted. He kept an eye on Ling Qingxue's condition. After all, he did not dare to completely rely on the protective mechanism of the formation. After all, the formation was set up by humans and he did not know how long it had been. What if it was just this small and the protective mechanism had a problem at this time?

Hence, Xia ruofei had been observing Song Wei's situation. If her sea of consciousness was damaged and the

formation did not move, Xia ruofei would teleport Song Wei out decisively.

In the spirit map space, even if there was a formation, it was still easy for Xia ruofei to teleport Song Wei out.

Song Wei endured the second Halo for about five minutes. Her body was already trembling uncontrollably. Then, she was thrown out by an invisible force and landed outside the array.

However, she was better off than Xia ruofei in that she would not be thrown to the ground. This was because Xia ruofei had already moved the moment the formation activated. Before Song Wei landed, he was already in position and caught her firmly.

"Wei Wei, how do you feel?" Xia ruofei quickly asked.

Song Wei's face was as pale as a sheet of paper. There was even a trace of blood at the corner of her mouth. She looked very dispirited, but at the same time, she was very excited. With Xia ruofei's help, she stabilized her body and said, "Don't worry! It's not a big problem!"

"Weiwei, you're so good!" Ling Qingxue walked over and gave Song Wei a thumbs up."How does it feel to train your spiritual power?" she asked.

Song Wei smiled and said,"it's almost the same as what RUO Fei described!" However, you still have to experience it for yourself, it's hard to describe it clearly with words ... Qingxue, you should get ready to enter the formation! This formation was really effective

in training one's mental energy! In such a short time, I feel that my spiritual power has improved by a large margin! I think he's already at the peak of the late stage of spirit gathering realm ...

"Yes, yes!" Ling Qingxue was also eager to try.

Xia ruofei said, "Qingxue, you can enter the formation at any time. Just remember the things I told you just now!"

Then, Xia ruofei said to Song Wei," "Wei Wei, quickly sit down and take a rest. Also, drink this ladle of water and quickly adjust your breathing and recover! I estimate that the injury in your sea of consciousness will take a few days to heal. Fortunately, it doesn't affect your cultivation!"

Chapter 3839 Saint spirit realm (1)

In the blink of an eye, another month had passed.

Xia ruofei's vital Qi and spiritual power were still improving steadily.

This was especially so for his Origin Energy cultivation. His spiritual power had basically reached a bottleneck, so the increase wasn't particularly large. However, he was able to last longer and longer in the third Halo of the formation. He was very optimistic that breaking through to the Saint spirit realm was only a matter of time.

After all, even without the help of the array, Xia ruofei could still cultivate the great Dao chant and the black origin Sutra step by step. With the help of the double array of the Yanhuang building, his spiritual power could still break through to the Saint spirit realm, but the time would be greatly extended. With a specialized spiritual power training array, it was only a matter of time before he broke through the bottleneck. Hence, Xia ruofei was not in a hurry.

As for his vital Qi cultivation, because he had just broken through to the early stage of the nascent soul realm, he would not encounter any bottlenecks. In addition, he had an almost unlimited supply of the best cultivation resources, so his progress was naturally extremely fast.

Although he had not broken through to the middle Yuanying stage, his strength had a significant increase compared to when he had just broken through.

The congealing degree of his nascent soul was probably higher than that of an ordinary cultivator in the middle stage of the nascent soul realm. However, because his nascent soul was more special, if he wanted to break through to the middle stage of the nascent soul realm, he still needed a qualitative change in four of the Dragon - shaped patterns, so he had not broken through the realm.

On the other hand, Song Wei and Ling Qingxue had already broken through to the late - Stage of the spirit gathering realm after training in the array for about seven or eight times over the past two months. No one would believe that they had broken through two small realms in two months. However, it was the truth. After all, they had not broken through the bottleneck of a large realm, so the training of the array was particularly effective.

However, the one who gained the most was probably Li Yifu.

This was because he entered the formation more frequently. The first time he entered the formation, Li Yifu had only reached the early stage of the spirit gathering realm. It was also because of this that he could enter the formation once every three or four days, so his early progress was extremely fast.

In less than a month, Li Yifu had already broken through to the middle stage of the spirit gathering realm.

Of course, after that, every time he entered the formation, the injury to his sea of consciousness would become more serious. This way, the frequency at which he trained his spiritual power would slowly start to decrease.

Chapter 3841 The crushing of the realm (1)

Xia ruofei twisted his body in the air and staggered a few steps when he landed. Finally, he managed to stabilize himself.

He already had seven or eight experiences of challenging the array, so he already had rich experience in dealing with the situation of being thrown out by the array.

Song Wei and Ling Qingxue hurried over. Song Wei asked with concern,""Ruofei, are you alright?"

Xia ruofei's face was frighteningly pale. Song Wei and Ling Qingxue could imagine how much he had to endure to be able to withstand the third Halo for such a long time.

Xia ruofei had entered the array on his own the previous few times. Song Wei and Ling Qingxue had never seen Xia ruofei break through the array with their own eyes. Today was the first time they had seen it in person. It was really frightening!

Xia ruofei grinned and said,"I'm very good!" You can say that it's better than any other time ..."

After such a long time, he had finally broken through the shackles of the Saint spirit realm. Xia ruofei was in a very good mood.

Ling Qingxue couldn't help but say,"you don't look too good ...""Ruofei, don't force yourself. Hurry up and recover ..."

Xia ruofei laughed and said,"don't worry!" I know what I'm doing! You two don't need to worry about me, hurry up and break the formation! I'm going to recover my spiritual force here!"

He didn't tell his two female friends about his breakthrough. In fact, he didn't have a clear judgment himself. He didn't know if he had broken through to the Saint spirit realm.

In addition, he felt that the injury in his sea of consciousness seemed to be slightly more serious than before. At this moment, he could hardly mobilize his spiritual power, so he had no way to check if there were any changes in his spiritual power.

It was not Xia ruofei's first time challenging the array. Hence, although Song Wei and Ling Qingxue were worried when they saw Xia ruofei's pale face, they still listened to his suggestion and decided to challenge the array first.

After all, they wouldn't be of much help if they stayed. They might even affect Xia ruofei's recovery.

The two of them discussed for a while and decided to let Song Wei go first.

Ling Qingxue stood guard at the side, mainly paying attention to Xia ruofei's situation. However, she did not come over to disturb Xia ruofei.

Xia ruofei took a ladle of the spiritual pond water and gulped it down. Then, he took the Jade futon and sat down cross - legged to regulate his breathing.

As time went by, Xia ruofei's spiritual energy started to recover.

This time, he had consumed more mental power than the previous times. He was almost exhausted.

Fortunately, both the spiritual pond water and the Jade futon were helpful for the recovery of his spiritual power. Although the recovery speed was not too fast, he had been accumulating his spiritual power steadily.

In addition, the injury in Xia ruofei's sea of consciousness was also slowly healing.

Although the sea of consciousness would suffer some damage if one persisted to the limit of the formation to temper one's spiritual power, the damage was very minor. Not only would it not affect the foundation, but it would also mostly recover on its own without the need for medicine.

This time, Xia ruofei could feel that his sea of consciousness had suffered more damage than the previous times under the strong shock and hammer.

However, he was also happy to notice that under the nourishment of his spiritual power, the recovery speed of his sea of consciousness was much faster than before. At this speed, he could even completely recover his sea of consciousness faster than before.

Maybe this was the benefit of breaking through to the next realm.

After a while, Song Wei was also thrown out by the formation.

In fact, Xia ruofei had been paying attention to Song Wei's situation in the array. So, when he saw that Song Wei had triggered the protection mechanism of the array, he immediately stopped regulating his breath and jumped up to catch Song Wei.

Every time Song Wei and Ling Qingxue came here to train their spiritual power, Xia ruofei would accompany them. Hence, Xia ruofei was already very familiar with this set of movements.

Song Wei's face was also pale. She said,"Ruofei, thank you!"

Xia ruofei took a ladle of spiritual pond water and passed it to Song Wei.""Don't talk anymore, quickly drink the spiritual pond water and go recover!"

Song Wei gulped down all the water in the pond and said,""RUO Fei, I'll go back to the outside world to recover my spiritual power! The formation in the Yanhuang building is also very helpful for mental power recovery. You still have to stay here and protect Qingxue, so keep this Jade futon for yourself. "

Song Wei knew that Xia ruofei's spiritual power had not fully recovered and his sea of consciousness might be even more severely injured. Hence, she did not want to occupy Xia ruofei's Jade futon.

Xia ruofei thought for a while and nodded.""That's good, you really don't have to waste your time here! Then I'll take you out first!"

"En!" Song Wei said.

Xia ruofei said to Ling Qingxue,"Qingxue, I'll send Wei Wei out first. Don't enter the formation for now. If anything happens, I won't be able to save you in time!"

"I know! You can go!" Ling Qingxue said.

Hence, with a thought, Xia ruofei brought Song Wei out of the spirit map space and returned to the bamboo pavilion in green immortal mansion.

Song Wei smiled and said,"ruofei, you can just drop me off here!" I have the talisman array you gave me, so I can freely enter and exit the green touring immortal abode!"

"Alright! Then you should use this time to recover your spiritual power and heal the injuries in your sea of consciousness!" Xia ruofei said,"you can also stay in green touring immortal abode to recover from your injuries! The great void clear sky formation and the allheaven formation on the outside will also be effective in the Azure immortal estate. "

Chapter 3842 The crushing difference in cultivation level (2)

"Mm! Then I'll wait for you in this attic!" Song Wei said with a smile.

Xia ruofei nodded and returned to the spirit map space.

Xia ruofei twisted his body in the air and staggered a few steps when he landed. Finally, he managed to stabilize himself.

Ling Qingxue couldn't help but say,"you don't look too good ...""Ruofei, don't force yourself. Hurry up and recover ..."

Xia ruofei laughed and said,"don't worry!" I know what I'm doing! You two don't need to worry about me, hurry up and break the formation! I'm going to recover my spiritual force here!"

He didn't tell his two female friends about his breakthrough. In fact, he didn't have a clear judgment himself. He didn't know if he had broken through to the Saint spirit realm.

In addition, he felt that the injury in his sea of consciousness seemed to be slightly more serious than before. At this moment, he could hardly mobilize his spiritual power, so he had no way to check if there were any changes in his spiritual power.

It was not Xia ruofei's first time challenging the array. Hence, although Song Wei and Ling Qingxue were worried when they saw Xia ruofei's pale face, they still listened to his suggestion and decided to challenge the array first.

After all, they wouldn't be of much help if they stayed. They might even affect Xia ruofei's recovery.

The two of them discussed for a while and decided to let Song Wei go first.

Ling Qingxue stood guard at the side, mainly paying attention to Xia ruofei's situation. However, she did not come over to disturb Xia ruofei.

Xia ruofei took a ladle of the spiritual pond water and gulped it down. Then, he took the Jade futon and sat down cross - legged to regulate his breathing.

As time went by, Xia ruofei's spiritual energy started to recover.

This time, he had consumed more mental power than the previous times. He was almost exhausted.

Fortunately, both the spiritual pond water and the Jade futon were helpful for the recovery of his spiritual power. Although the recovery speed was not too fast, he had been accumulating his spiritual power steadily.

In addition, the injury in Xia ruofei's sea of consciousness was also slowly healing.

Although the sea of consciousness would suffer some damage if one persisted to the limit of the formation to temper one's spiritual power, the damage was very minor. Not only would it not affect the foundation, but it would also mostly recover on its own without the need for medicine.

This time, Xia ruofei could feel that his sea of consciousness had suffered more damage than the previous times under the strong shock and hammer.

However, he was also happy to notice that under the nourishment of his spiritual power, the recovery speed of his sea of consciousness was much faster than before. At this speed, he could even completely recover his sea of consciousness faster than before.

Maybe this was the benefit of breaking through to the next realm.

After a while, Song Wei was also thrown out by the formation.

In fact, Xia ruofei had been paying attention to Song Wei's situation in the array. So, when he saw that Song Wei had triggered the protection mechanism of the array, he immediately stopped regulating his breath and jumped up to catch Song Wei.

Every time Song Wei and Ling Qingxue came here to train their spiritual power, Xia ruofei would accompany them. Hence, Xia ruofei was already very familiar with this set of movements.

Song Wei's face was also pale. She said,"Ruofei, thank you!"

Xia ruofei took a ladle of spiritual pond water and passed it to Song Wei.""Don't talk anymore, quickly drink the spiritual pond water and go recover!"

Song Wei gulped down all the water in the pond and said,""RUO Fei, I'll go back to the outside world to recover my spiritual power! The formation in the Yanhuang building is

also very helpful for mental power recovery. You still have to stay here and protect Qingxue, so keep this Jade futon for yourself. "

Song Wei knew that Xia ruofei's spiritual power had not fully recovered and his sea of consciousness might be even more severely injured. Hence, she did not want to occupy Xia ruofei's Jade futon.

Xia ruofei thought for a while and nodded.""That's good, you really don't have to waste your time here! Then I'll take you out first!"

"En!" Song Wei said.

Xia ruofei said to Ling Qingxue,"Qingxue, I'll send Wei Wei out first. Don't enter the formation for now. If anything happens, I won't be able to save you in time!"

"I know! You can go!" Ling Qingxue said.

Hence, with a thought, Xia ruofei brought Song Wei out of the spirit map space and returned to the bamboo pavilion in green immortal mansion.

Song Wei smiled and said,"ruofei, you can just drop me off here!" I have the talisman array you gave me, so I can freely enter and exit the green touring immortal abode!"

"Alright! Then you should use this time to recover your spiritual power and heal the injuries in your sea of consciousness!" Xia ruofei said,"you can also stay in green touring immortal abode to recover from your injuries! The great void clear sky formation and the allheaven formation on the outside will also be effective in the Azure immortal estate. "

"Mm! Then I'll wait for you in this attic!" Song Wei said with a smile.

Xia ruofei nodded and returned to the spirit map space. Xia ruofei twisted his body in the air and staggered a few steps when he landed. Finally, he managed to stabilize himself.

He already had seven or eight experiences of challenging the array, so he already had rich experience in dealing with the situation of being thrown out by the array.

Xia ruofei took a ladle of the spiritual pond water and gulped it down. Then, he took the Jade futon and sat down cross - legged to regulate his breathing.

Chapter 3843 A visit (1)

There was no doubt that the breakthrough of spiritual power was an obvious improvement in Xia ruofei's overall strength. It would also be of great help to his future cultivation.

Xia ruofei was enjoying the experience of breaking through to the Saint spirit realm. He only opened the door to welcome them when he sensed that Song Wei and Ling Qingxue had left the green touring immortal abode and returned to the outside world.

"Ruofei, are you alright?" Song Wei asked with concern,"you didn't look too good just now. Is it because your sea of consciousness was injured more severely this time?"

Xia ruofei laughed and said,"I'm fine!" Don't you see that I've already recovered?"

Song Wei and Ling Qingxue looked at Xia ruofei and realized that his face had really turned rosy. He was in high spirits and in a better condition than before. The two of them secretly heaved a sigh of relief.

"It's good that you're fine!" Ling Qingxue said,"that look just now was really a little scary ..."

Xia ruofei chuckled."The two of you, on the other hand, should be more careful these few days. Don't use your spiritual power if you can. Wait until your sea of consciousness recovers."

"Don't worry! It's not the first time!" Ling Qingxue smiled and said,"we know what to do!"

"That's good!" Xia ruofei said with a smile.

Song Wei couldn't help but look at Xia ruofei and said,""Ruofei, you look a little different today ... But I can't tell what's different ..."

"Yes, yes, yes! I was just about to say that!" Ling Qingxue quickly said,"you seem to be in a very good mental state! Don't tell me you're on steroids?"

Ling Qingxue couldn't help but giggle.

"You two have sharp eyes!" Xia ruofei laughed and said,"you can even tell!"

"Ah? There's really something!" Ling Qingxue couldn't help but look at Xia ruofei a few more times. She asked with uncertainty,"could it be ... That he had a breakthrough in his spiritual power?"

Xia ruofei smiled and did not say anything. Ling Qingxue became even more anxious. She pulled on Xia ruofei's sleeve and asked,""Aiya, don't keep me in suspense! Quickly tell me what happened!"

Xia ruofei did not answer directly. Instead, he said indifferently,""You want to know? Let's hear you call me husband!"

Although Ling Qingxue and Song Wei had long been intimate with Xia ruofei, and even now they were not against the three of them sleeping together, they had never called Xia ruofei "hubby" other than when they were rolling in the sheets.

The two of them were a little embarrassed by this title.

However, after hearing Xia ruofei's words today, Ling Qingxue's eyes seemed a little dazed. She then obediently said,""Honey ..."

When Song Wei saw this, she couldn't help but widen her eyes and look at Ling Qingxue in disbelief.

Chapter 3845 Shocked by the heavens (1)

Xia ruofei and Chen Xuan walked into the main hall of the Empyrean one Pavilion.

The first heaven society's banquet was held in the main hall. Usually, it was for important events or to receive important guests. This was enough to show how much Chen Nanfeng valued Xia ruofei.

Xia ruofei walked into the main hall and was stunned for a moment. Then, he smiled and said,""So Valley master Liu is also in the first heaven society. Lu You, long time no see!"

It turned out that the "old friends" that Chen Xuan had mentioned on the way here were the valley master of the soaring Flower Valley, Liu Mansha, and Lu You. When everyone had come to the heavenly sect to witness Chen Nanfeng's breakthrough to the nascent Soul Stage, Liu Mansha had admired Lu You's talent and accepted her as an in - Name disciple.

Although Lu You was an in - Name disciple, Liu Mansha had actually trained Lu You as a personal disciple. At that time, Liu Mansha had originally wanted to take Lu You in as a personal disciple. However, Lu You had already joined the water Yuan sect at that time,

and she did not want to change her allegiance just because the stronger soaring Flower Valley wanted to recruit her. Thus, she had politely rejected Liu Mansha's offer of an olive branch. Liu Mansha had then changed her mind and accepted Lu You as an in - Name disciple.

Liu Mansha and Lu You had already heard from Chen Nanfeng that Xia ruofei would be visiting the first heaven society today. Hence, they were not surprised by his appearance.

"It's been two years since we last met, and fellow Daoist Xia looks even more elegant than before!"Liu Mansha said with a smile.

"Valley master Liu, you flatter me!" Xia ruofei smiled.

Lu You also smiled and nodded at Xia ruofei in greeting, but she did not say anything.

Chapter 3847 Express your intention (1)

Chen Xuan and Liu Mansha were equally shocked. Both of them had made a breakthrough in their cultivation in the past two years, especially Liu Mansha, who had been stuck in the intermediate golden core stage for so many years. She had finally achieved her wish and improved. She did not expect Xia ruofei to reach the same level as her at such a young age. Chen Xuan, on the other hand, had finally managed to raise his cultivation level. He felt that he should be about the same level as Xia ruofei, but he did not expect the gap between them to be so huge.

This shocked the two of them, but at the same time, they couldn't help but feel a little disappointed.

In fact, the truth was even crueler.

Xia ruofei had already reached the late - Stage of the Golden core. Now, he was no longer in the Golden core stage but had broken through to the nascent Soul Stage. Furthermore, his cultivation was still rising rapidly after breaking through to the nascent Soul Stage. He had already surpassed Chen Nanfeng by a large margin.

If Chen Xuan and Liu Mansha knew the truth, they would not only be disappointed, they would also be shocked.

On the other hand, Lu You, who was only in the Qi refining stage, wasn't too surprised. It wasn't that she didn't know what the later stage of the Golden elixir realm meant, but in her heart, Xia ruofei should be so outstanding, or even more outstanding.

On the other hand, Lu You, who was only in the Qi refining stage, wasn't too surprised. It wasn't that she didn't know what the later stage of the Golden elixir realm meant, but in her heart, Xia ruofei should be so outstanding, or even more outstanding.

After a brief moment of shock, Chen Nanfeng managed to calm himself down. He smiled and said,""Fellow Daoist Xia is truly the most talented cultivator I've ever seen. Even during the legendary peak of the cultivation world, there was no such genius cultivator like fellow Daoist Xia. At least, there are no records of such a person in the preserved ancient books ..."

Liu Mansha also regained her senses. She looked at Xia ruofei with a hint of respect and said,""You're right, sect leader Chen. You really scared me. Fellow cultivator Xia's cultivation speed is absolutely unprecedented!"

Xia ruofei waved his hand and said humbly,""Two seniors really praise me too much, this Junior's luck was just a bit better, and my early cultivation speed was a bit faster, how could I dare to say that I'm unprecedented! If a true peerless genius were to hear this, that would be a huge joke!"

"Brother ruofei, being overly humble is being too arrogant!" Chen Xuan looked at Xia ruofei with a complicated expression. He smiled and said,"I've always thought that I'm quite talented and lucky. My cultivation speed has always been faster than my peers. However, compared to brother ruofei, it's like a Firefly compared to the bright moon!"

Xia ruofei smiled bitterly. If you continue to praise me like this, I'll be too embarrassed to stay here ... Please spare me!"

Chen Nanfeng and the others couldn't help but laugh.

In the following time, Chen Nanfeng no longer mentioned Xia ruofei's cultivation. He did not even ask why Xia ruofei had come. He just casually chatted with everyone about some anecdote of the cultivation world.

As they chatted, Xia ruofei found out why Liu Mansha and Lu You had come to the first heaven society.

Liu Mansha had spared no effort in nurturing Lu You. She had brought Lu You to the first heaven society this time to help Lu You improve her strength.

The first heaven school had a formation called the prime void formation. It had a long history and was left from the peak of the cultivation world. This formation was very helpful to Qi refining cultivators as its main purpose was to purify their Zhen Qi.

After Qi condensation cultivators absorbed spiritual energy, they would convert it into true Qi in their dantian. Only when they broke through to the Golden core stage would the true Qi evolve into Yuan Qi.

On the other hand, cultivators absorbed spiritual Qi from different sources. There was spiritual Qi from the outside world, spiritual Qi from cultivation resources such as spirit stones, and even the spiritual Qi from consuming some natural treasures.

No matter where it came from, it was impossible for the spiritual Qi to be 100% pure, and the true Qi formed by cultivation was also not 100% pure.

The purity of one's Zhen Qi would, to a certain extent, affect the strength of a cultivator. It would also have a significant impact on breaking through to the Golden core stage in the future.

Especially after the deterioration of the environment in the cultivation world, the spiritual energy in the environment had become more heterogeneous, causing the purity of the genuine Qi in the body of most cultivators to be much lower than that of the cultivators in the heyday of the cultivation world.

Chen Xuan and Liu Mansha were equally shocked. Both of them had made a breakthrough in their cultivation in the past two years, especially Liu Mansha, who had been stuck in the intermediate golden core stage for so many years. After Qi condensation cultivators absorbed spiritual energy, they would convert it into true Qi in their dantian. Only when they broke through to the Golden core stage would the true Qi evolve into Yuan Qi.

On the other hand, cultivators absorbed spiritual Qi from different sources. There was spiritual Qi from the outside world, spiritual Qi from cultivation resources such as spirit stones, and even the spiritual Qi from consuming some natural treasures.

No matter where it came from, it was impossible for the spiritual Qi to be 100% pure, and the true Qi formed by cultivation was also not 100% pure.

The purity of one's Zhen Qi would, to a certain extent, affect the strength of a cultivator. It would also have a significant impact on breaking through to the Golden core stage in the future.

Especially after the deterioration of the environment in the cultivation world, the spiritual energy in the environment had become more heterogeneous, causing the purity of the genuine Qi in the body of most cultivators to be much lower than that of the cultivators in the heyday of the cultivation world.

Chen Xuan and Liu Mansha were equally shocked. Both of them had made a breakthrough in their cultivation in the past two years, especially Liu Mansha, who had been stuck in the intermediate golden core stage for so many years. She had finally achieved her wish and improved. She did not expect Xia ruofei to reach the same level as her at such a young age. Chen Xuan, on the other hand, had finally managed to raise his cultivation level. He felt that he should be about the same level as Xia ruofei, but he did not expect the gap between them to be so huge.

This shocked the two of them, but at the same time, they couldn't help but feel a little disappointed.

In fact, the truth was even crueler.

Xia ruofei had already reached the late - Stage of the Golden core. Now, he was no longer in the Golden core stage but had broken through to the nascent Soul Stage. Furthermore, his cultivation was still rising rapidly after breaking through to the nascent Soul Stage. He had already surpassed Chen Nanfeng by a large margin.

If Chen Xuan and Liu Mansha knew the truth, they would not only be disappointed, they would also be shocked.

On the other hand, Lu You, who was only in the Qi refining stage, wasn't too surprised. It wasn't that she didn't know what the later stage of the Golden elixir realm meant, but in her heart, Xia ruofei should be so outstanding, or even more outstanding.

After a brief moment of shock, Chen Nanfeng managed to calm himself down. He smiled and said," "Fellow Daoist Xia is truly the most talented cultivator I've ever seen. Even during the legendary peak of the cultivation world, there was no such genius cultivator like fellow Daoist Xia. At least, there are no records of such a person in the preserved ancient books..."

Liu Mansha also regained her senses. She looked at Xia ruofei with a hint of respect and said, "You're right, sect leader Chen. You really scared me. Fellow cultivator Xia's cultivation speed is absolutely unprecedented!"

Xia ruofei waved his hand and said humbly," "Two seniors really praise me too much, this Junior's luck was just a bit better, and my early cultivation speed was a bit faster, how could I dare to say that I'm unprecedented! If a true peerless genius were to hear this, that would be a huge joke!"

"Brother ruofei, being overly humble is being too arrogant!" Chen Xuan looked at Xia ruofei with a complicated expression. He smiled and said, "I've always thought that I'm quite talented and lucky. My cultivation speed has always been faster than my peers. However, compared to brother ruofei, it's like a Firefly compared to the bright moon!"

Xia ruofei smiled bitterly. If you continue to praise me like this, I'll be too embarrassed to stay here ... Please spare me!"

Chen Nanfeng and the others couldn't help but laugh.

In the following time, Chen Nanfeng no longer mentioned Xia ruofei's cultivation. He did not even ask why Xia ruofei had come. He just casually chatted with everyone about some anecdote of the cultivation world.

As they chatted, Xia ruofei found out why Liu Mansha and Lu You had come to the first heaven society.

Liu Mansha had spared no effort in nurturing Lu You. She had brought Lu You to the first heaven society this time to help Lu You improve her strength.

The first heaven school had a formation called the prime void formation. It had a long history and was left from the peak of the cultivation world. This formation was very helpful to Qi refining cultivators as its main purpose was to purify their Zhen Qi.

After Qi condensation cultivators absorbed spiritual energy, they would convert it into true Qi in their dantian. Only when they broke through to the Golden core stage would the true Qi evolve into Yuan Qi.

Chapter 3849 Reaching an agreement (1)

Chen Nanfeng agreed without hesitation when Xia ruofei asked to borrow the seven Star Pavilion.

He said,"of course, there's no problem with using the seven Star Pavilion!" The disciples of the first heaven society don't use the seven Star Pavilion very often, so we usually gather a certain number of disciples and open it again. If fellow Daoist Xia has such a request, I can open the seven Star Pavilion alone!"

Chen Nanfeng was obviously more concerned about what Xia ruofei had said about the deterioration of the cultivation world and the mysterious disappearance of high - Level cultivators. He quickly asked,""Fellow Daoist Xia, what information do you have about the sudden disappearance of those seniors at the nascent Soul Stage and above a few hundred years ago? Is it convenient for you to share?"

Xia ruofei smiled."Of course. I'm not planning to hide anything from you."

Chen Nanfeng was overjoyed. He quickly said,""I'd like to hear the details!"

At this moment, Chen Nanfeng had completely treated Xia ruofei as an equal. He even felt that he was a head lower than Xia ruofei.

In fact, this was the case. Both of them were at the beginning stage of the nascent soul realm, and Xia ruofei's aura was clearly much stronger than Chen Nanfeng 's. Furthermore, there might be a mysterious and powerful cultivator behind Xia ruofei. Chen Nanfeng could not compare to them.

Xia ruofei thought for a while and said,""Sect leader Chen, what I'm going to say next is my own judgment based on certain facts. I can't guarantee absolute accuracy. In addition, this matter is of great importance. I hope that sect leader Chen can keep his mouth shut after we leave this room. After all, if some news gets out, it will only cause panic and have no meaning. "

"I understand," Chen Nanfeng said immediately."Don't worry, fellow Daoist Xia. This matter will end here with me. I definitely won't spread it!"

Xia ruofei nodded and said,"according to my judgment, the entire cultivation world, or even the entire earth, had been facing an unknown crisis since 200 to 300 years ago. At that time, the crisis was imminent. Therefore, all the cultivators above the nascent Soul Stage in the cultivation world had left earth in full force to deal with this crisis!"

Chen Nanfeng couldn't help but take a deep breath and said,""So, the continuous deterioration of the environment in the cultivation world is also related to this crisis?"

Xia ruofei nodded and said,"it should be. Our ancestors built a barrier for the cultivation world on earth. However, this barrier can only barely hold on and can't completely isolate this crisis. Therefore, the cultivation world's environment is still affected and has been deteriorating. It can be imagined that the seniors of the cultivation world who resolutely left earth a few hundred years ago are likely to have been carrying out a very difficult resistance all this time!"

Chen Nanfeng nodded silently. He knew that since Xia ruofei had said it, it must not be baseless speculation or nonsense. Just like what Xia ruofei had said, there must be some evidence.

Xia ruofei's words caused a huge wave in his heart.

However, Xia ruofei did not tell Chen Nanfeng about his experience in the North Pole. After all, he did not know what the seniors in the world of cultivation had planned. In fact, he did not know Chen Nanfeng's character in depth. If Chen Nanfeng really went to the North Pole to investigate, Xia ruofei did not want to see him ruin the seniors 'plan or get into danger himself.

After a long while, Chen Nanfeng finally said,""Fellow Daoist Xia's words are truly earth - shattering! Thinking back to the past ... Even when I was in the late jiedan stage, I was called the number one in the cultivation world, and I was actually a little self - satisfied, now that I think about it, it's really a bit ridiculous!"

"Sect leader Chen, you're being too serious ..." Xia ruofei said.

Chen Nanfeng waved his hand and said,"all these years, we've really been like frogs at the bottom of a well ... Let's not talk about it anymore!" Fellow Daoist Xia, did you hear this from your master?"

Xia ruofei was stunned for a moment, but he soon realized that most of the people in the cultivation world, including Chen Nanfeng, had guessed that he had a master with extremely high cultivation. Some of the rumors even made it sound real.

Xia ruofei thought for a while and said,""Master didn't tell me all of this personally, but ... I can only say that my speculations have a certain basis and should be very close to the truth!" Zhang xuan replied.

Chen Nanfeng nodded, then couldn't help but ask,""Fellow Daoist Xia, if I may ask, what is your master's current cultivation level?"

"I'm just a little curious," he explained."If it's not convenient for you to tell me, then forget it. It's fine!"

Xia ruofei laughed and waved his hand. "It's not inconvenient to say, but I'm afraid sect leader Chen will be disappointed. In fact, I don't know what master's cultivation level is now. He has never mentioned this before ..."

Chen Nanfeng agreed without hesitation when Xia ruofei asked to borrow the seven Star Pavilion.
