God-tier Farm

Chapter 3851 Gathering in the three mountains (1)

Xia ruofei hoped to bring all the people around him to the seven Star Pavilion at once.

On Peach Blossom Island, there were Song Wei, Ling Qingxue, and Li Yifu. There was also his eldest disciple, Tang Haoran, who was in Australia, as well as Luo Qingfeng, the head of the star Seizer sect. In addition, there was also Song Wei's father, song Qiming.

Since they were all in different places, the fastest way was naturally to pick them up by airboat. After planning the route, they could pick them all up in one trip.

Of course, Xia ruofei still had to consider the safety of Paradise Island.

At present, the Peach Blossom Island was still a very secretive existence. It had not been spread in the world of cultivation, so the probability of cultivators encountering it was not high. However, it was also impossible to block everyone and drive them away from the Peach Blossom

Island.

Therefore, once Li Yifu wanted to leave, someone had to take his place.

The most suitable candidate was naturally the star Seizer sect's Zheng Yongshou.

Zheng Yongshou was also a servant controlled by Xia ruofei's soul seal, so there was no need to worry about his loyalty. Moreover, his level of array Dao was higher than Li Yifu 's, and he had also learned the control of a simple array disc. With him in charge of the Peach Blossom Island, his safety could be assured. Even if an enemy invaded, he could rely on the help of the array to resist for a long time.

As Zheng Yongshou was Xia ruofei 's' Liaison Officer 'in the secular world, he spent most of his time cultivating on Peach Blossom Island, apart from returning to China regularly to meet up with the peach blossom company. It was not a problem for Li Yifu to leave Peach Blossom Island for a few days.

Hence, Xia ruofei first dialed the satellite phone that he had left in the suite on the top floor of the Yanhuang building on Peach Blossom Island.

On the phone, Xia ruofei asked Song Wei and Ling Qingxue to bring Li Yifu to Huaxia immediately. There was another flying magic treasure, the cloud piercing shuttle, on Peach Blossom Island, but it was slightly slower than the black Phoenix flying boat. It would only take about three hours to reach Huaxia, which was a rather convenient mode of transportation.

In addition, Xia ruofei told Song Wei to inform Li Yifu and let him take over the duties with Zheng Yongshou, especially the duties of the control of the formation.

During the days when Li Yifu left Peach Blossom Island, Zheng Yongshou would be fully responsible for the security work.

Finally, Xia ruofei answered Song Wei's call.""Wei Wei, there's one more thing. The three of you fly to the three mountains in China and wait for my news there. Contact uncle song in advance and tell him to spare a day's time. I want to bring uncle song with me to the heavenly sect to use the seven Star Pavilion's magic treasure."

Song Wei was naturally overjoyed and said without hesitation, "Alright! I'll contact him first, then I'll set off with Qingxue and my adopted husband!"

"Mm! You can just wait for my news at the three mountains. "Xia ruofei said,"I still have to go to Australia to pick up Haoran. Then, I'll go to the star Seizer sect to pick up Luo Qingfeng."

"Alright! I'll see you at the three mountains!" Song Wei said.

"I'll see you at the three mountains!"

After hanging up, Xia ruofei contacted Luo Qingfeng of the star Seizer sect.

In order to facilitate Xia ruofei's call at any time, the star Seizer sect had also specially set up a post similar to a communication terminal. In fact, it was just outside the range of the sect's array. There were disciples who took turns to guard the mobile phone. Once Xia ruofei called, they had a very convenient internal communication method. They could inform Luo Qingfeng at the first moment, and it was very convenient to contact him.

After Xia ruofei picked up the call, he waited for about two to three minutes before Luo Qingfeng's respectful voice came from the other end of the phone."Master!"

Xia ruofei knew that Luo Qingfeng must have asked the irrelevant people to leave. Otherwise, he would have covered up the way he addressed her. Therefore, it was not inconvenient to talk now.

"Qingfeng," Xia ruofei said directly,"make some arrangements in the sect. I'll come and pick you up today. I'll take you to the first heaven society!"

Luo Qingfeng did not even ask what Xia ruofei wanted. He said without thinking," "Yes, master! I'll make the arrangements immediately, and we'll be waiting for you at any time!"

Luo Qingfeng was also controlled by Xia ruofei's soul seal. His loyalty was 100%, so he would not question Xia ruofei's orders. Even if Xia ruofei wanted to take him to attack the first heaven society, he would not hesitate.

After contacting Luo Qingfeng, Xia ruofei immediately contacted Tang Yitian in Australia.

Xia ruofei said directly," "Big brother Tang, I need to take Haoran away from Australia for one or two days. There's an opportunity that's very important to him, so you have to help him apply for a two- day leave."

Tang Yitian also didn't hesitate and said directly," "No problem! I'll go and inform the school. RUO Fei, when are you coming over?"

"If it's possible, I want it to be done as soon as possible." Xia ruofei replied,"I'll be there in about an hour. Two hours at most."

"No problem! He's already finished school, so he'll be home in an hour. "Tang Yitian said,"you can just come to the manor directly! I'll help him apply for two days of leave from school. If it's not enough, he can extend it!"

"Alright!" Xia ruofei smiled and said, "I'll come over now!"

In fact, Xia ruofei had been flying the black Phoenix flying ship at high speed while he was making the call. Now that they were above the sea, he changed the direction of the Flying Ship and increased its altitude rapidly, flying towards Australia in the Southern Hemisphere.

Chapter 3852 Gathering at the three mountains (2)

.....

A few hours later, Xia ruofei's Black Phoenix flying boat returned to the jiangbin villa district in Sanshan city.

It was already past nineo' clock at night in China.

He had just made a round trip to Australia, and on his way back, he had made a detour to the star Seizer sect to pick up Luo Qingfeng. As for Song Wei and the other two, it was only a one - way trip from Peach Blossom Island to Huaxia. Hence, even though the cloud piercing shuttle was slower than the black Phoenix flying boat, the three of them had already arrived at the three mountains before Xia ruofei.

Li Yifu was the only one in the villa. Song Wei and Ling Qingxue had already gone home.

Song Wei had already spoken to song Qiming. Song Qiming pushed back his complicated work for two days and asked for leave from his superior. This way, he could head to the first heaven society with Xia ruofei and the rest the next morning.

Naturally, Ling Qingxue had returned home to accompany her father, Ling Xiaotian. She had spent most of her time on the Peach Blossom Island, and this time, she had only spent one night at the three mountains. Thus, it was only natural for her to return home to have a meal and chat with her father.

Xia ruofei brought Tang Haoran and Luo Qingfeng into the villa.

Li Yifu quickly stood up and respectfully said,""Greetings, martial granduncle! Greetings, little martial uncle!"

He then greeted Luo Qingfeng.

Xia ruofei nodded and said,"adopted husband, have you finished the handover with old man Zheng on Peach Blossom Island?"

"Yes!" Li Yifu quickly nodded. There's no problem with Zheng Yongshou controlling the Taixu xuanqing formation, and he's even more skilled than this disciple. With him guarding the Peach Blossom Island, nothing will happen. "

"Mm! There's nothing else for you to do tonight, so you can find a room and rest early. " Xia ruofei said,"rest well today and enter the seven Star Pavilion at the first heaven sect tomorrow. Only then will you be in good condition!" Qingfeng, the same goes. Rest early today!"

"Yes! If martial granduncle doesn't have any other instructions, this disciple will return to my room to rest!" Li Yifu said.

"Yes!" Luo Qingfeng also bowed and said."As you wish!"

"Go!" Xia ruofei nodded.

There were two guest rooms on the first floor of the villa, so Li Yifu and Qingfeng Luo had one each.

After the two of them returned to their rooms, Xia ruofei said to Tang Haoran,""Haoran, you should also find a room to rest! There shouldn't be any problems with washing up and taking a bath, right? In addition ... You wouldn't be afraid to sleep alone, would you?"

"You're underestimating me too much, master!"Tang Haoran puffed out his chest and said. I've been in my own room for a long time! I'm already so big, how can I need someone to help me shower?"

Xia ruofei patted Tang Haoran's head and smiled.""Hahaha! In the blink of an eye, the little kid had grown up! Alright, then you should also choose your own room and rest early! You're not allowed to play with your phone or stay up late, understand? I have to be in my best condition tomorrow!"

"I know, master!" "Yes, master," Tang Haoran replied."Can I sleep in the room next to yours?"

"No problem! The biggest master bedroom on the second floor is my room. You can choose any of the other rooms!" Xia ruofei said with a smile.

"Alright! Then I'll go upstairs first!" Tang Haoran said happily.

After sending Li Yifu and Tang Haoran back to their rooms, Xia ruofei returned to the master bedroom on the second floor. He took out a few bottles of elemental serum and cultivated for a few hours. He stopped cultivating at around midnight and went to the bathroom to take a shower before going to bed to rest.

The next morning, when Xia ruofei got up and went downstairs, Li Yifu was already busy in the kitchen. Luo Qingfeng was helping him.

Qingfeng Luo had been the sect master for so many years, and it had always been others who served him. He was really not familiar with the skills in the kitchen. In contrast, although Yifu li used to be a world - Class rich man, his cooking skills had always been good. He probably had this kind of interest in the past.

Luo Qingfeng quickly bowed and greeted Xia ruofei when he saw him.

Li Yifu also said respectfully,"senior granduncle, you're up!" Wait a moment, breakfast will be ready soon!"

Xia ruofei laughed and said,"my adopted husband!" Qingfeng! You guys are up so early! We don't have to prepare much for breakfast, just have a simple meal and we'll set off!"

"Alright! I'll be done in a minute!" Li Yifu said.

Xia ruofei looked around and realized that Tang Haoran was not on the first floor. He mumbled to himself,""Is this little fellow still sleeping in?"

He was about to go upstairs to wake Tang Haoran up when he heard footsteps coming from the second floor. Tang Haoran had already finished washing up and walked out of the room.

"Good Morning, master!" Tang Haoran said.

"Good Morning!" Xia ruofei looked at his watch and said,"not bad! I thought you were sleeping in!"

"My work and rest time is very regular!" Tang Haoran said,"but there's a two - hour time difference between this place and Australia. I'm still not used to it ..."

"It's fine, you don't need to get over the jet lag!" Xia ruofei laughed and said,"you'll only be out for a day or two this time. You'll be going back to Australia soon!"

At this time, Li Yifu had already prepared breakfast, and Luo Qingfeng was helping to bring it to the dining room. The breakfast was not particularly sumptuous. It was just home - cooked porridge, fried eggs, and the like, but there was still a variety.

Xia ruofei called everyone over for breakfast. He had already contacted Song Wei and Ling Qingxue on WeChat in the morning. Both of them said that they would come over after breakfast.

Ling Qingxue lived close by, so she could have breakfast with Ling Xiaotian, chat with him for a while, and then walk over.

On Song Wei's side, she had also finished her breakfast at home. Then, she drove her car and brought song Qiming to meet up with her.

After Xia ruofei and the other three finished their breakfast, Li Yifu and Luo Qingfeng cleaned up the table and the kitchen. Then, they sat in the living room and chatted.

At around 8:30 in the morning, Xia ruofei heard the sound of a car engine outside. Then, the courtyard gate of the villa slowly opened by itself. Xia ruofei had already registered with the property management and could enter the community directly. In addition, the license plate had been entered into the villa's access control system. When the license plate was recognized at the entrance, the courtyard gate would open automatically.

Xia ruofei scanned the room with his spiritual power and realized that Song Wei and song Qiming had arrived.

"Weiwei and uncle song are here, let's go and pick them up!" He said with a smile.

"Don't say anything wrong in front of Weiwei's father," Xia ruofei reminded them."Remember what I told you yesterday!"

When Li Yifu was on the Peach Blossom Island, he would address Song Wei and Ling Qingxue as "master grandmother." Tang Haoran followed suit and addressed them as "master's wife" whenever he saw them.

This time, she could not let it slip in front of song Qiming. Song Qiming would definitely not be able to accept polygamy, especially when one of the female leads was his precious daughter. If he was not mentally prepared, he might break down.

"Understood!" Li Yifu, Tang Haoran, and Luo Qingfeng responded in unison.

Xia ruofei brought the three of them out of the villa and into the courtyard. Song Wei had just parked her car and was getting out of the car with song Qiming.

"Uncle song! Good Morning!" Xia ruofei smiled and greeted him.

"You're early too!" Song Qiming said with a smile.

"Will your work be affected by this last - minute arrangement?" Wang Yao asked. Xia ruofei asked.

Song Qiming laughed heartily and said,""Work can never be finished, but it's not a problem to squeeze out time! I heard from Weiwei that this is a rare opportunity that you fought for with great difficulty, so I definitely can't miss it!"

Xia ruofei smiled and nodded,"yes!" When everyone is here, I will tell everyone in detail about the magic treasure of the seven Star Pavilion that we will be in contact with this time! By the way, uncle song, let me introduce you!"

Then, Xia ruofei pointed at Li Yifu and said,""This is Li Yifu, we're from the same sect."

"Old Mr. Li is a famous patriotic Chinese, I know him!" Song Qiming said with a smile.

Li Yifu didn't dare to neglect Jian Jia. This was Song Wei's father. Song Wei and Xia ruofei were of the same generation. Song Wei's father was Xia ruofei's senior. However, he was Xia ruofei's Grand - disciple. In this way, he was no longer of the same generation.

"Hello, Mr. Song!" He quickly said.

When Xia ruofei introduced him, he said "we're from the same sect. "Just as Li Yifu was about to explain to song Qiming that he was actually Xia ruofei's Grand - disciple, the sound of footsteps came from outside, followed by Ling Qingxue's crisp voice."Everyone is early! I live the closest, but I'm the last one to arrive. I'm really sorry ..."

Chapter 3853 Visiting the first heaven society again (1)

Ling Qingxue's men had just reached the main entrance of the villa.

Song Wei greeted him with a smile and said,"Qingxue, you only went out because you saw my car passing by your house, right?"

Xia ruofei's and Ling Qingxue's mansions were not far from each other. Xia ruofei's mansion was bigger and was located further in, so most of the cars that came to Xia ruofei's mansion would pass by Ling Qingxue's house.

Ling Qingxue chuckled and said,"you even found out ..."

Li Yifu quickly stepped forward and greeted him respectfully,""Disciple greets master grandmother!"

In front of so many people, Ling Qingxue blushed. Song Qiming, who did not know what was going on, was dumbfounded. He looked at Xia ruofei and asked in confusion,""Ruofei, this ... This ... What's going on?"

"Sensei song, I didn't have time to explain just now. Actually, my seniority in the sect is relatively low, and the cultivation I have today is all because of senior granduncle's nurturing ..." Li Yifu quickly said.

"Grand uncle - Master ..." Song Qiming was stunned for a moment. Then, he looked at Xia ruofei with wide eyes and said,"ruofei, the Grand uncle - Master that old Mr. Li was talking about ... Is you?"

Xia ruofei smiled bitterly and nodded.""Yes! However, this is only the seniority in our sect. Uncle song, you and your foster husband can talk about their own matters, otherwise, your foster husband will have no seniority!"

Actually, Xia ruofei had another hidden meaning. Based on his relationship with Song Wei, song Qiming was one generation older than Song Wei. Strictly speaking, Li Yifu was not as old as song Qiming.

Of course, song Qiming could not tell. He understood it from the words. After all, Xia ruofei called him "uncle song" as well!

Therefore, song Qiming nodded in agreement and said,""Yes, yes, yes! Let's each talk about our own matters. You guys can talk about whatever your own sect wants to talk about. Old Mr. Li and I ..."

"Mr. Song, let's just talk as peers!" Li Yifu quickly said.

According to song Qiming, Li Yifu was already over eighty years old, about the same age as his father. By right, he should be one generation younger than Li Yifu.

Li Yifu could tell as well, so he quickly suggested that they should be friends before song Qiming could finish his sentence.

This was already the limit of Li Yifu's tolerance. He wouldn't dare to let his master's grandmother's father call him uncle even if he was given a few more guts! Moreover, the seniority would really be in chaos.

Xia ruofei laughed and said,"uncle song, let's do as my foster husband says!" In the cultivation world, as long as they were not from the same sect, seniority was basically based on strength. Age did not matter. There were two hundred - year - old golden core cultivators and forty - year - old nascent soul cultivators. When golden core cultivators saw nascent soul cultivators, they would consider themselves as juniors and not seniors just because of their age. Of course, my foster husband's cultivation has already reached the Golden core stage, but uncle song should also break through to the Golden core stage soon. It's only a matter of time, and by then, my foster husband's cultivation will at most be at the middle stage of the Golden core stage, so it's appropriate for you to talk to him as your peers!"

Song Qiming did not know much about the rules in the world of cultivation. Since Xia ruofei had said so, he naturally had no objections. He nodded and said,""Alright! Then I'll listen to you!"

At this moment, Ling Qingxue walked over and held Xia ruofei's arm. She smiled at song Qiming and said,""Uncle song, long time no see!"

On the surface, Ling Qingxue was Xia ruofei's only girlfriend. Hence, she did not have to hide anything from song Qiming. However, it was different for Song Wei. She had to hide it carefully so that song Qiming would not notice anything amiss. Hence, Song Wei was very envious of Ling Qingxue.

Song Qiming also laughed and said,"yeah!" Little Ling, I heard from Wei Wei that you've also reached the Golden core stage. I'm very envious of you two!"

"You'll be able to break through to the Golden core stage soon!" Ling Qingxue smiled and said,"the cultivation technique that RUO Fei prepared for you is of a very high grade. In addition, you don't lack cultivation resources. It's only a matter of time before you break through to the Golden core stage. You've been too busy with work, which resulted in you not having enough time to cultivate every day. Otherwise, you would have broken through long ago!"

"Hahaha! It seems like Wei Wei has told you a lot about my situation!" Song Qiming laughed and said,"I had no choice. I had no choice! I also want to throw away everything to explore the great Dao of cultivation, but I also can't give up the career that I've worked hard for most of my life. For the time being, this is the only thing I can do. I'll try my best to balance it!"

Xia ruofei smiled and said,"uncle song, I have to correct you."

"Oh?" Song Qiming looked curious and said,"please speak!"

Xia ruofei smiled and said,"if you hadn't come into contact with cultivation, there wouldn't be a problem for you to say that you've been working hard for more than half of your life." But now, you're also a cultivator who's about to break through to the Golden core stage. Your life is much longer than that of ordinary people! If your cultivation continues to improve and you reach the nascent Soul Stage, then the first few decades of your work might not even be one - tenth of your lifetime. "

Song Qiming was stunned for a moment. Then, he laughed and said,""RUO Fei's words make sense! I wasn't careful enough!"

Ling Qingxue greeted song Qiming and Luo Qingfeng after exchanging a few pleasantries. Then, she ruffled Tang Haoran's hair and said with a smile,""Haoran has grown so tall! I think it won't be long before you'll be taller than all of us!"

Chapter 3854 Another visit to the first heaven society (2)

Song Wei said with a smile,"Haoran's genes are good!" Big brother Tang is handsome and tall, especially his mother. So, Haoran will definitely be tall and handsome in the future! I wonder how many girls will fall for him!"

Tang Haoran was a little embarrassed by Song Wei and Ling Qingxue's teasing. However, both of them were his master's wives. He had no way to resist them. He could only look at Xia ruofei with a bitter face and ask for help.

Xia ruofei smiled and said,"Alright, alright. Let's not just stand in the courtyard. Let's go in!" Pack your things and get ready to set off!"

The group of people followed Xia ruofei into the villa.

The originally spacious living room suddenly felt a little crowded.

"Since everyone is here, let's not waste any more time. Let's go!" Xia ruofei said.

Everyone had their own storage ring. Their daily use and cultivation items were all stored in the storage ring and carried with them. Xia ruofei had developed this habit long ago, so no matter where he went, he did not need to pack much. He could just walk away without any problem.

Everyone had been looking forward to this trip to the first heaven society, so they all agreed.

Thus, the group went to the balcony on the second floor and Xia ruofei released the black Phoenix flying boat.

The flying boat rapidly grew in size and quietly hovered a meter or two above the terrace.

As the black Phoenix flying ship was more than enough to carry these people, the cloud piercing shuttle, which was slightly slower, was no longer needed.

Everyone jumped onto the swift Boat. Xia ruofei was the last one to board the swift Boat. He controlled the swift Boat to slowly rise in altitude, then changed its direction and accelerated towards the North.

The distance between the three mountains and the Mount Tai mountain range where the first heaven society was located was within the borders of China. It would only take two to three hours by plane, and it would be even faster if they used the black Phoenix flying boat. If they were to travel at full speed, they would be able to arrive in about twenty minutes. Therefore, no one went to the cabins. Everyone stayed on the deck, looking down at the mountains and rivers that flew past them with great interest.

Xia ruofei did not let the black Phoenix flying ship rise too high either. It was maintained at an altitude of less than a thousand meters.

If it was an ordinary commercial aircraft, it would naturally be very dangerous to fly at such a low altitude and high speed. After all, the terrain was uneven, and there were many mountains more than a thousand meters above sea level in China, so it was easy to hit the mountains if one was not careful.

However, a nascent Soul Stage cultivator with a Saint spirit realm mind power controlling the flying treasure would not pose any danger.

Xia ruofei's spiritual power had already been released to a distance of ten kilometers away. He could control the flying boat and make corresponding adjustments in any situation. Besides, Xia ruofei had deliberately avoided the areas near the airport while maintaining a direct flight route. Generally speaking, such a low altitude meant that, other than military aircraft training, there were only some flights taking off and landing near the airport. On normal routes, the aircraft's cruising altitude would reach a few thousand meters.

The black Phoenix flying ship continued to fly under the clouds, and everyone was naturally able to feast their eyes on the beautiful scenery of their homeland.

The entire journey took about half an hour. At a little past nine in the morning, the black Phoenix flying boat had already flown into the Mount Tai mountains. Under Xia ruofei's control, the flying boat began to slow down. It agilely flew past the mountains and soon arrived at the valley outside the mountain Gate of the first heaven sect.

At this time, the speed of the airboat was very slow, and the height had been reduced to more than ten meters above the valley. It basically just brushed past the treetops.

From a distance, Xia ruofei and the others could already see the crowd waiting below.

The huge black Phoenix flying ship drew a silent arc in the air before coming to a steady stop a meter above the ground.

Xia ruofei had just left the first heaven society yesterday and had arrived early this morning. However, the first heaven society still treated him with great respect. This time, it was not just Chen Xuan who had come out to welcome him. Even Chen Nanfeng had personally come to look forward to it.

This was already the limit of Li Yifu's tolerance. He wouldn't dare to let his master's grandmother's father call him uncle even if he was given a few more guts! Moreover, the seniority would really be in chaos.

Xia ruofei laughed and said,"uncle song, let's do as my foster husband says!" In the cultivation world, as long as they were not from the same sect, seniority was basically based on strength. "Since everyone is here, let's not waste any more time. Let's go!" Xia ruofei said.

Chapter 3855 Each with their own gains (1)

Xia ruofei did not intend to show off his strength. It was just that he wanted to let everyone close to him enter the seven Star Pavilion to find their own opportunities. After all, even though the weapon spirit of the seven Star Pavilion had basically recognized him, it was not appropriate for him to take the seven Star Pavilion away directly, even if it was secretly. In this way, it would be inconvenient for him to bring people to use the seven Star Pavilion every now and then. The first heaven society had given him a very high level of courtesy, so he could not really take an inch and ask for a mile. He did not treat himself as an outsider.

Therefore, he brought all the cultivators above the Golden core stage with him, which shocked Chen Nanfeng, Chen Xuan, and the others.

Xia ruofei laughed and said,"sect leader Chen, let me introduce you!" This is Li Yifu. He is from the same line as my master, so he can be considered a junior in my sect! These two are Song Wei and Ling Qingxue. They are my friends and have just broken through to the Golden core stage. This is Mr. Song Qiming. Uncle song is Song Wei's father. He has only been in contact with cultivation for a short time, so his cultivation level is not very high. The last one is a disciple I took in a few years ago. His name is Tang Haoran, and his cultivation has just reached the Golden core stage!"

Every time Xia ruofei introduced someone, they would come forward to greet Chen Nanfeng.

The more Chen Nanfeng and Chen Xuan heard, the more shocked they became. They had never heard of so many golden core cultivators, except for Luo Qingfeng. They had no reputation in the world of cultivation, so they immediately thought that these people might have been trained by Xia ruofei in the past few years.

Chen Nanfeng and Chen Xuan were already surprised by Xia ruofei's rapid improvement in cultivation. Now, even the cultivators around him were improving at a godly speed. This was even more unbelievable.

Xia ruofei did not intend to show off his strength. It was just that he wanted to let everyone close to him enter the seven Star Pavilion to find their own opportunities. After all, even though the weapon spirit of the seven Star Pavilion had basically recognized him, it was not appropriate for him to take the seven Star Pavilion away directly, even if it was secretly. In this way, it would be inconvenient for him to bring people to use the seven Star Pavilion every now and then. The first heaven society had given him a very high level of courtesy, so he could not really take an inch and ask for a mile. He did not treat himself as an outsider.

Therefore, he brought all the cultivators above the Golden core stage with him, which shocked Chen Nanfeng, Chen Xuan, and the others.

Xia ruofei laughed and said,"sect leader Chen, let me introduce you!" This is Li Yifu. He is from the same line as my master, so he can be considered a junior in my sect! These two are Song Wei and Ling Qingxue. They are my friends and have just broken through to the Golden core stage. This is Mr. Song Qiming. Uncle song is Song Wei's father. He has only been in contact with cultivation for a short time, so his cultivation level is not very high. The last one is a disciple I took in a few years ago. His name is Tang Haoran, and his cultivation has just reached the Golden core stage!"

Every time Xia ruofei introduced someone, they would come forward to greet Chen Nanfeng.

The more Chen Nanfeng and Chen Xuan heard, the more shocked they became. They had never heard of so many golden core cultivators, except for Luo Qingfeng. They had no reputation in the world of cultivation, so they immediately thought that these people might have been trained by Xia ruofei in the past few years.

Chen Nanfeng and Chen Xuan were already surprised by Xia ruofei's rapid improvement in cultivation. Now, even the cultivators around him were improving at a godly speed. This was even more unbelievable.

Chapter 3857 Getting in through the back door (1)

"Fellow Daoist Xia is too polite!" Chen Nanfeng hurriedly replied.

He looked at Xia ruofei in front of him and could not help but feel emotional. Two years ago, Xia ruofei was only in the Golden core stage. At that time, he had just broken through to the nascent Soul Stage and was in high spirits. At that time, Xia ruofei had taken out the precious origin crystals at the critical moment, allowing his breakthrough to be completed smoothly. Thus, out of gratitude and to show their closeness, he had made an agreement with Xia ruofei that he would call Xia ruofei "nephew" and Xia ruofei would call him "Uncle Chen". However, in the blink of an eye, Xia ruofei's cultivation had surpassed his. He was too embarrassed to call him uncle or nephew.

Chen Nanfeng sighed to himself and prepared to activate the seven stars Pavilion.

He suddenly had an idea. He turned around and asked,""By the way, fellow Daoist Xia, I don't think these friends of yours have ever come into contact with the" Mystic origin Scripture,"right?"

Xia ruofei smiled and said,"the" black origin Scripture "is a martial art from Tianyi school. I was lucky enough to learn this martial art. However, how can I teach it to others without your permission?" That's why no one has ever cultivated the mystic origin Scripture. "

Chen Nanfeng couldn't help but say anxiously,""Fellow Daoist Xia, this is not appropriate! We have accumulated many years of experience in challenging the seven Star Pavilion. This ... The disciples who have practiced the "black origin Sutra" will have a higher chance of being recognized by the seven Star Pavilion and improving their talent! If they entered the pavilion just like that, it would be very difficult for them to obtain the artifact Spirit's approval! Moreover, only cultivators who enter the seven Star Pavilion for the first time have the opportunity to improve their talent. Even if they cultivate the "mysterious origin Scripture" and enter again later, they won't have the chance!"

At this point, Chen Nanfeng said,""Fellow Daoist Xia, I think it's better not to open the seven Star Pavilion for now! You're going to teach your friends the mystic origin Scripture

first. It's not a precious cultivation technique, so why do you still have so many scruples? I don't think this cultivation technique is difficult to understand. I believe that in three to five days 'time, everyone should be able to grasp the initial stage. At that time, when we enter the seven Star Pavilion, our chances will be much greater!"

Xia ruofei smiled and said,"sect leader Chen, let's not go through so much trouble. It's up to your fate whether you can improve your talent or not." I don't think the so - called increase in probability is reliable. Let's just let everyone go in directly!"

"Fellow Daoist Xia, after so many years of research, we've concluded that cultivating the mystic origin Scripture can indeed increase the chances of being recognized by the seven Star Pavilion's Artifact Spirit! Everyone only had one chance, so it was better to be cautious! Fellow Daoist Xia, please reconsider!"

Song Wei and the others also looked at Xia ruofei. However, they were not shaken by Chen Nanfeng's words. No matter what decision Xia ruofei made, they would support and execute it. Their trust in Xia ruofei was unconditional.

"Then ... Sect leader Chen, I'll think about it!" Xia ruofei said after a moment of silence.

Chen Nanfeng was indeed doing this for the good of Song Wei and the others. He really treated Xia ruofei's matter as his own. Otherwise, he would not have mentioned the mystic essence Scripture or authorized Xia ruofei to teach it to the others.

Anyway, he had opened the seven Star Pavilion for Xia ruofei's sake. As for how many people Xia ruofei brought, how many people went in, and how many people could improve their talent, it was none of his business. Even if no one could improve their talent, it was Xia ruofei's business. Moreover, Xia ruofei owed him a favor for this matter.

However, he still owed Xia ruofei a favor, and a big one at that. Something like opening the seven Star Pavilion was naturally not enough for him to return the favor he owed Xia ruofei.

"Fellow Daoist Xia, you'd better consider it carefully!" Chen Nanfeng said,"we have many guest rooms here. Everyone can stay here for a few days and wait until you have successfully cultivated the mystic essence Scripture before entering the seven stars Pavilion. That's the most prudent move!"

"I'll think about it ..." Xia ruofei smiled.

At this moment, Xia ruofei's mind power had already reached the seven Star Pavilion in the center of the back garden. He directly transmitted his voice,""Senior Artifact Spirit! Senior Artifact Spirit!"

Xia ruofei had refined the seven stars order given to him by the artifact Spirit, so his control over the seven stars Pavilion was actually much higher than Chen Nanfeng 's.

However, the weapon spirit did not completely recognize Xia ruofei, so it only recognized him as its master. The weapon spirit itself did not recognize him as its master. Xia ruofei could only control the seven stars Pavilion through the seven stars order.

As for the artifact Spirit, it was naturally within the seven Star Pavilion.

Xia ruofei could even guess the weapon Spirit's exact location. This was because after he refined the seven stars order, he could already sense the situation inside the seven stars Pavilion. Furthermore, this sense was much stronger and clearer than Chen Nanfeng 's. However, there were still a few places that were shrouded in fog. Needless to say, those must be the places where the weapon spirit usually resided.

Xia ruofei shouted a few times but did not get any response.

Xia ruofei couldn't help but smile bitterly,"is the weapon spirit in a deep sleep?" If that was the case, they could not let Song Wei and the rest enter the seven Star Pavilion now. The talent of the seven Star Pavilion to transform cultivators was controlled by the artifact Spirit. If the artifact Spirit was asleep, it would be useless even if Song Wei and the rest cultivated the black origin Scripture to the same level as Xia ruofei.

Chapter 3858 Back door (2)

Just as Xia ruofei's thoughts were in a mess, the familiar voice of the artifact Spirit rang in his mind. The artifact Spirit said lazily,""What are you doing? Can't you just let me sleep?"

"Senior Artifact Spirit! This junior has come to see you again!" Xia ruofei quickly transmitted his voice.

The artifact Spirit still spoke in a lazy tone,""I know! You're the only one who can contact me directly through voice transmission ... It's only been two years, right? What are you doing here? Don't tell me you've changed your mind and want to take the seven Star Pavilion away?"

"No..." Xia ruofei transmitted his voice awkwardly.

"Then what are you doing here? Don't tell me you want me to recognize you as my master?" The artifact Spirit said,"you're quite talented, kid. You've broken through continuously in such a short time and reached the nascent Soul Stage in your twenties. Even in the golden age of blooming flowers, your achievements are enough to be proud of. But this ... If you want me to recognize you as my master, you're still lacking something!"

Xia ruofei quickly replied,"senior Artifact Spirit, you've misunderstood. I didn't mean it that way!" This time, I'm actually here to bring some of my disciples, disciples, and friends to challenge the seven Star Pavilion! They are all very close to me, so ... So ..."

"So you want me to open a back door for you?" "Yes." The artifact Spirit transmitted,"I'll help you increase their talent, right?"

"Yes, yes, yes! They're all my closest relatives, so I hope senior Artifact Spirit can help me improve their talents as much as possible within your ability! This junior is extremely grateful!" Xia ruofei quickly transmitted his voice.

The artifact Spirit said lazily,"Xia brat, do you know that increasing the talent of cultivators is a waste of energy for me and the seven Star Pavilion itself? you want me to increase the talent of so many people at once, and to the maximum extent that I can do? do you know how great the consumption is?"

"This ..." Xia ruofei was at a loss for words.

Since the artifact Spirit had said so, he could not ask for more. After all, if the consumption was too great, it would damage the seven Star Pavilion and the artifact Spirit. How could he ask the other party to sacrifice himself to help Song Wei and the others?

However, Xia ruofei thought about it again. Almost every disciple of the first heaven society had a chance to enter the seven Star Pavilion. Since only Chen Nanfeng could open and control the seven Star Pavilion, the first heaven society would usually gather enough people to open the seven Star Pavilion again. Among this batch of disciples, many of them had improved their talents. However, the extent of their improvement varied. It was a kind of consumption for the seven Star Pavilion and the weapon spirit!

Moreover, this kind of consumption happened every year, so why would the artifact Spirit still do this? It could go on a "strike," and the people of the first heaven society couldn't do anything to it.

But the artifact Spirit did not do so.

The only explanation was that this kind of consumption could actually be replenished. Perhaps Chen Nanfeng had consumed so much energy when he opened the seven Star Pavilion, but it was actually absorbed by the seven Star Pavilion to replenish his own consumption.

At the thought of this, Xia ruofei immediately transmitted his voice,""Senior Artifact Spirit, if you have any losses, this junior can compensate you. You can name a price, and as long as this junior can take it out, I will definitely not say anything. However, it is not easy for these friends of mine to obtain a chance to improve their talent, so please take care of them!"

"Wouldn't it have been fine if you had said so earlier?" The artifact Spirit immediately said,"the compensation for the consumption is actually quite simple. The vital Qi of a

nascent soul cultivator is the best tonic. That's why every time the seven stars Pavilion opens, I'll suck that Chen Nanfeng dry until he's in a state of ecstasy ..."

Xia ruofei couldn't help but break out in a cold sweat. The artifact Spirit's words were quite graphic ...

He couldn't help but silently sympathize with Chen Nanfeng.

However, his sympathy only lasted for a moment. He immediately transmitted a message,""Senior Artifact Spirit, in that case, you can also absorb Chen Nanfeng's vital Qi to your heart's content this time. He'll also be the one to open the seven stars Pavilion this time!"

At this time, he would betray his teammates when he needed to. He absolutely could not be soft - hearted.

The artifact Spirit replied,"what are you thinking, kid?" "When he opened the seven Star Pavilion in the past, I only picked a few disciples who I liked and had a decent understanding of the mysterious origin Scripture to improve their talent! Would there be any consumption? This time, you're asking me to go all out and do my best to raise all of your friends to the limit. Can the consumption be the same? What profit do I still have from this?"

Xia ruofei almost burst out laughing. So every time Chen Nanfeng opened the seven stars Pavilion, the artifact Spirit would take the opportunity to absorb more vital Qi to replenish itself! It was doing business by improving the talent of the first heaven society's disciples. No wonder the first heaven society was able to keep going. Every time the seven Star Pavilion opened, a portion of the disciples 'talent would be improved.

However, since the artifact Spirit had a clear request, it was easy to handle.

Xia ruofei replied without hesitation,""Then you can just absorb more. Chen Nanfeng will be able to replenish it after cultivating for a while ..."

The artifact Spirit also resolutely replied,"don't even think about it!" Most of your friends are at the Golden core stage, right? How many were there in total? Let me see ... Five Jindan and one lianqi, right? I'll do my best to improve everyone's talent. How much will it consume? Chen Nanfeng only has so much Yuan Qi, I can't really suck him dry! There's no profit in this business, I'm not doing it!"

Xia ruofei didn't know whether to laugh or cry. It turned out that this weapon spirit wouldn't let go of its prey until it saw it. It had to give it some vitality.

However, in order for Song Wei and the rest to improve their talents, Xia ruofei would not be stingy with his vital Qi. He directly transmitted his voice,""Senior Artifact Spirit, then this junior will also release some Yuan Qi for you to absorb. What do you think?"

"I was waiting for you to say that!" The artifact Spirit giggled and said,"as long as there's enough vital Qi, there won't be a problem!"

"However, sect leader Chen is controlling the seven Star Pavilion. Will he notice if I release my Yuan Qi into the seven Star Pavilion?" Xia ruofei couldn't help but ask worriedly.

"You don't have to worry about that. With me here, how could he possibly detect it?" The artifact Spirit said without a care.

Then, the artifact Spirit immediately sent another message,"However ... Helping you raise everyone's talent to the limit that I can raise will consume a lot of energy. If you and Chen Nanfeng's combined Yuan Qi isn't enough, then I'll have to increase it a little less. In short, I'll do as much as I charge!"

Xia ruofei laughed bitterly to himself, thinking that this weapon spirit was really stingy! Was it really that exhausting to help people improve their talents?

He couldn't help but feel a little uneasy. If he really didn't have enough Yuan Qi, wouldn't he have missed this great opportunity? Moreover, everyone could only be upgraded once. Even if they cultivated their Yuan Qi back and replenished it, it would be impossible for them to upgrade again.

This was determined by the characteristics of the seven stars Pavilion and the cultivator's physique, and it was not something that the artifact Spirit could change.

Xia ruofei felt that he should not take the risk.

Therefore, he was a little troubled ... But soon, an idea flashed in his mind, and he quickly sent a voice transmission,""Senior Artifact Spirit, what if it's liquefied elemental essence that's even purer and denser than elemental energy? Will that work?"

"You can directly expel the liquefied elemental essence from your body?" The artifact Spirit's tone was filled with disbelief, but he still said,"of course, liquefied elemental essence is even better! However, I highly suspect that you can't do it ..."

Xia ruofei chuckled and took out a bottle of liquefied elemental essence from the spirit map space. However, he hid it in his palm and used his body as a cover to ensure that no one would see it.

"Senior Artifact Spirit, please check the Jade bottle in my hand," he said via voice transmission.

The artifact Spirit was silent for a moment, and then exclaimed,""Damn...It really is liquefied elemental essence! And it was pure, purified liquefied elemental essence! You have quite a lot of good stuff on you!"

"Senior Artifact Spirit, do you think this liquefied elemental essence can be used as a replacement for vital Qi as compensation?" Xia ruofei asked.

"He's too capable!" The artifact Spirit did not hesitate to send a voice transmission,"give me the entire bottle! I promise that within my ability, I will do my best to help your friend improve his talent. There will be no slacking! You can rest assured! I swear on my Artifact Spirit's honor that I will do as I say!"

Chapter 3859 Full improvement_1

Xia ruofei replied without hesitation," "Deal!"

Although the liquefied elemental essence was precious, Xia ruofei had an abundance of it. At least, it would not be a problem for him to break through to the primordial soul Stage. It would not matter even if he lost one or two bottles by then. It was just that he would need a little more time to cultivate in the early stages. Absorbing spiritual energy would achieve the same effect. He only needed to save enough liquefied elemental essence for his breakthrough.

Therefore, it was not unacceptable to take out a bottle to trade with the artifact Spirit.

Especially when Xia ruofei could not guarantee that his Yuan Qi would be enough for the weapon spirit to absorb. Using a bottle of liquefied elemental essence to buy insurance for Song Wei and the others, to ensure that they could all improve their talents, and that the weapon spirit would do its best to help them improve their talents. This was a great deal.

Xia ruofei couldn't help but ask," "Right. Senior Artifact Spirit, how should I give you the liquefied elemental essence? It's best not to let the people of the first heaven sect find out that I have a connection with the seven Star Pavilion.

"Isn't that simple?" The artifact Spirit said,"pass this bottle of liquefied elemental essence to one of your friends who will be entering the seven Star Pavilion in a while. Tell him to open the Jade bottle after he comes in. You don't have to worry about anything else!"

"No problem!" Xia ruofei said without hesitation,"then it's a deal!"

"It's a deal!" The artifact Spirit said very straightforwardly.

On the side, Chen Nanfeng and the others saw Xia ruofei standing there silently. They thought he was weighing the pros and cons, so they didn't rush him and waited quietly.

"Sect leader Chen, I've given it some thought. Let's just let everyone enter the seven Star Pavilion directly!" Xia ruofei said after a while.

Chen Nanfeng could not help but say,"fellow Daoist Xia, you'd better consider this carefully. I can help you open the seven stars Pavilion multiple times. However, everyone only has one chance to improve their talent. No matter how many times you enter it in the future, it will be of no use.

Xia ruofei smiled and said, "I've thought it through!" Let's do this! My friends are busy and need to go back as soon as possible. There's no need to waste a few more days for an illusory opportunity to increase the probability!"

Chen Nanfeng sighed and said," "Alright! I respect your choice!"

He had already said what he wanted to say and had done his best. Since Xia ruofei had made his choice, he naturally could not say too much. Otherwise, Xia ruofei would easily misunderstand that he was trying to sow discord and destroy the relationship between Xia ruofei and his friend.

Chen Nanfeng looked around and said, ""Since fellow Daoist Xia has already made his decision, I will now open the seven Star Pavilion. Fellow Daoists, please make your preparations. After the seven Star Pavilion opens, you can enter through the main door in order. Fellow Daoist Xia has already explained the specific details to you, so I will not repeat them again!"

"Thank you for your trouble, sect leader Chen!" Xia ruofei said with a smile.

Chen Nanfeng walked to a futon at the side and sat down cross-legged. He waved his palm and sent a stream of vital Qi into the seven Star Pavilion.

The seven Star Pavilion rapidly grew in size. In a short while, it had returned to the size of a normal Pavilion. It just so happened to fill up the empty space in the middle of the garden.

Xia ruofei took the opportunity to give Song Wei a look. The two of them retreated to the side. Xia ruofei passed the bottle of liquefied elemental essence to Song Wei and said, "Weiwei, put this bottle of liquefied elemental essence into your storage ring!"

Song Wei did not hesitate. When Xia ruofei finished his sentence, she had already kept the liquefied elemental essence.

Then, Xia ruofei continued," "Wei Wei, you don't have to say anything, just listen to me!"

Song Wei nodded her head lightly.

Xia ruofei continued, "bring this bottle of liquefied elemental essence into the seven Star Pavilion. You will be transported to a separate space. After the transfer is complete, take this bottle of liquefied elemental essence out of the storage ring and open the bottle cap.

You don't have to worry about anything else. Also... No matter what happens, don't act rashly. Remember to put the empty bottle back into the storage ring!"

Song Wei nodded. Even though she was curious, she did not say anything to Xia ruofei.

She knew that Xia ruofei did not allow her to speak because he was worried that she would leak some information. The voice transmission was not 100% confidential. If the other party's spiritual power was obviously much stronger, they might be able to eavesdrop on the contents of the voice transmission.

Xia ruofei's spiritual power had reached the Saint spirit realm. Naturally, no one could eavesdrop on his voice transmission.

However, Song Wei was only at the late - Stage of the spirit gathering realm. There was an early - Stage nascent soul cultivator present, and Chen Nanfeng's spiritual power was clearly higher than Song Wei's by a whole realm.

Even though the possibility of Chen Nanfeng eavesdropping on Song Wei was extremely low, Song Wei would not let her guard down since Xia ruofei was so cautious.

Anyway, Xia ruofei had already made it very clear. She did not know why she was doing this, but she knew that as long as she followed Xia ruofei's instructions, she would be right.

Song Wei had her own suspicions as well. She knew that Xia ruofei had already been acknowledged by the weapon spirit, but it had not fully acknowledged him as its master. Hence, it was highly possible that she was only acting as a Messenger in the interaction between Xia ruofei and the weapon spirit.

No matter how curious she was, Song Wei would hold back her curiosity and wait until they left the heavenly sect to ask.

Chapter 3860 Full power upgrade_2

On the other side, Chen Nanfeng had already completely opened the seven Star Pavilion.

He said in a deep voice,"alright, everyone can enter the seven Star Pavilion!" As for what you'll gain after entering, it'll depend on your own luck. I can only wish everyone good luck!"

Xia ruofei nodded and gestured to Song Wei. Song Wei was the first one to walk into the seven Star Pavilion.

The others also followed one after another. After a while, they entered the seven Star Pavilion in a single file and disappeared from the entrance one by one.

Xia ruofei had already refined the seven stars order. Naturally, he could sense the situation in the seven stars Pavilion. In fact, his senses were much clearer than Chen Nanfeng 's.

In fact, Xia ruofei could be more meticulous than Chen Nanfeng in controlling the seven Star Pavilion.

However, Xia ruofei did not want Chen Nanfeng and the others to know that he was in control of the seven Star Pavilion. Hence, he would leave the opening of the seven Star Pavilion to Chen Nanfeng. Xia ruofei would not interfere.

Of course, he would not really ignore everything. At the very least, he would monitor the entire situation in the seven Star Pavilion.

Even though the probability of danger was extremely low, Xia ruofei could not ignore it. He had to keep an eye on the situation inside so that he could respond at the first moment when danger arose.

If that really happened, he naturally would not have the time to expose the fact that he could control the seven Star Pavilion.

Xia ruofei could clearly sense that Song Wei and the rest were sent to different independent spaces after they entered the seven Star Pavilion.

Of course, these independent spaces all belonged to the same area.

Furthermore, Xia ruofei was very familiar with this area. Two years ago, when Chen Nanfeng had broken through to the nascent Soul Stage, he gave all the cultivators who attended the ceremony a chance to enter the seven Star Pavilion. At that time, everyone was sent to this area. Only Xia ruofei, after improving his talent, was sent to another area. There, he could receive treasures from the seven Star Pavilion.

The people who came today were all Xia ruofei's friends. In reality, they had nothing to do with Chen Nanfeng. He was just giving Xia ruofei face, so naturally, he could not be as meticulous as he was to Xia ruofei. He would only send everyone to this area to improve their talents. After the improvement, he would send them out. He would not send the Golden core cultivators to the area to obtain Dharma Treasures again.

After all, the seven Star Pavilion was only a Dharma Treasure. They couldn't forge their own Dharma Treasures, so there was a limit to the number of Dharma Treasures they had. It could be said that the more one was used, the less one would be. No matter how big the first heavenly sect was, Chen Nanfeng couldn't be so generous as to give Song Wei and the others a Dharma Treasure each.

Of course, Xia ruofei could understand this. He might not even be interested in the magical equipment in the seven Star Pavilion.

The people close to him followed him, so they naturally did not lack talismans.

The flying swords of Song Wei and the others were all of high quality. There might be better ones in the seven Star Pavilion, but the chances were very low. Most of them were of average quality. To Xia ruofei, they were not attractive at all.

What he valued the most was naturally the ability to help everyone improve their talent.

This would benefit everyone's future cultivation for a lifetime. No matter how high one's cultivation was, the stronger one's talent was, the higher the chances of breaking through.

Xia ruofei's focus was still on Song Wei.

After Song Wei was transported to the independent space, she immediately followed Xia ruofei's instructions and took out the bottle of liquefied elemental essence from her storage ring.

Xia ruofei could even sense that the moment the bottle of liquefied elemental essence appeared, the small space seemed to fluctuate slightly. The small area where the bottle of liquefied elemental essence was located was suddenly shrouded in a dense fog.

Xia ruofei knew that the artifact Spirit must have concealed it to avoid Chen Nanfeng's detection.

In reality, Chen Nanfeng's sense of the situation within the seven Star Pavilion was very vague. He could roughly tell where each person was. In Song Wei's small space, the artifact Spirit had only strengthened the shielding of the bottle of origin liquid. Chen Nanfeng did not even notice it at all.

Song Wei opened the Jade bottle that contained the liquefied elemental essence.

Immediately, an invisible suction force appeared, and the liquefied elemental essence within the Jade bottle was sucked out. As soon as it left the Jade bottle, it mysteriously disappeared.

From Song Wei's point of view, the liquefied elemental essence in the Jade bottle continued to drop. In at most a few seconds, there was not a single drop left.

Naturally, Song Wei was extremely shocked when she saw this.

However, she still remembered Xia ruofei's instructions. No matter what happened, she sat still and waited until the liquefied elemental essence was completely absorbed before

she closed the bottle and kept the empty bottle in her storage ring as Xia ruofei had instructed.

Then, she sat down cross - legged and started to circulate the "absolute beginning Heart Sutra".

This was what Xia ruofei had specifically told her.

In fact, after Ling Qingxue and the others were sent to the independent space, they did the same thing.

Ling Qingxue cultivated the absolute beginning Heart Sutra while Li Yifu, song Qiming, Tang Haoran, and Luo Qingfeng each cultivated their own techniques. On the way to the first heaven society, Xia ruofei had already briefly introduced the seven Star Pavilion to everyone, including the practices and precautions after entering the seven Star Pavilion. He had explained everything in detail, and everyone just followed his instructions.

Chapter 3861 Full power upgrade_3

In fact, if Song Wei and Ling Qingxue cultivated the "absolute beginning Heart Sutra" alone, the effect would be average. Only when they cultivated together with Xia ruofei would their cultivation efficiency be worthy of the title of a top - tier technique.

However, everyone did not enter the seven stars Pavilion to cultivate, nor to increase their cultivation. Therefore, in comparison, the "absolute beginning Heart Sutra" was the highest grade cultivation technique that Song Wei and Ling Qingxue had mastered. Cultivating this cultivation technique was the most likely to obtain the recognition of the weapon spirit. The same was true for the others.

Of course, this was just a precaution.

In fact, Xia ruofei had already made up his mind to use the weapon spirit to get in through the back door. However, he did not tell everyone and even urged everyone to cultivate the martial arts that they were best at after entering the seven Star Pavilion. They did not have to do anything else. On one hand, this was to prevent the back door from failing. On the other hand, he did not want everyone to think that it was too easy to improve one's talent.

Time passed by.

Song Wei and her group of six were in their own individual spaces, sitting cross - legged and concentrating on their cultivation.

Xia ruofei couldn't sense any changes in them either. In fact, when Xia ruofei was in the seven Star Pavilion, he couldn't feel it himself. Everything happened silently. Now, he naturally couldn't sense anything.

However, he knew that the artifact Spirit wouldn't go so far as to cheat him of a bottle of liquefied elemental essence. Since the chubby kid's Artifact Spirit had promised to do his best to improve the talents of Song Wei and the others, there was a high chance that he would keep his word.

Xia ruofei still believed in the weapon Spirit's integrity when it came to such matters.

In a corner of the rear Hall's garden, Chen Nanfeng was still continuously transferring Yuan Qi. He could faintly feel that the opening of the seven Star Pavilion this time seemed to consume his Yuan Qi faster than before.

Chen Nanfeng couldn't help but be surprised. According to past experiences, the more people that entered the seven Star Pavilion, the greater and faster their Yuan Qi would be consumed. However, only six people had entered this time, which was much fewer than any other time the seven Star Pavilion had been opened. Why was their Yuan Qi being consumed so quickly?

Chen Nanfeng immediately thought of another possibility. This was also a rule that he had concluded after opening the seven Star Pavilion many times. The more disciples who obtained the opportunity to improve their talent, the more energy he would consume when opening the seven Star Pavilion this time. Especially when a disciple's talent improved greatly, his energy consumption would also increase accordingly.

Chen Nanfeng thought to himself,'could it be that fellow Daoist Xia's friends have all received an opportunity to increase their talent by a large amount? How was that possible?

In fact, Chen Nanfeng's guess was correct. However, he had never expected that the artifact Spirit had already received the reward - the bottle of liquefied elemental essence that Xia ruofei had given him. However, the artifact Spirit still spared no effort in absorbing his vital Qi, hoping to earn more.

If Chen Nanfeng knew that the artifact Spirit could actually control how much vital Qi it absorbed, and that it would absorb a lot more every time, he wondered what Chen Nanfeng would think if he knew that the artifact Spirit was completely treating this as a business.

Before he knew it, half an hour had passed.

Chen Nanfeng felt his Yuan Qi consumption gradually slowing down. He knew that no matter how many people's talents were improved, the opening of the seven Star Pavilion should be coming to an end ...

Chapter 3862 Unified calibrant_1

In fact, based on past experience, Chen Nanfeng knew that regardless of whether the seven Star Pavilion's cultivators had their talents upgraded or not, there was already an outcome after such a long time. However, Song Wei and the others were brought by Xia ruofei. Furthermore, the total number of people was relatively small, so the consumption of Yuan Qi was still within his tolerance range. Hence, he did not rush everyone.

It was because of this that Song Wei and the others were able to successfully complete the whole process of improving their talent. The artifact Spirit was a man of his word. Within the scope of his ability, he combined everyone's physical characteristics and did his best to help them improve their talent. Therefore, it took him more time than the disciples of the first heaven society who entered the seven Star Pavilion to improve their talent.

It was only when everyone's talent had been raised to the point where it could no longer be raised that the weapon spirit began to slow down the speed at which it absorbed vital Qi.

Chen Nanfeng had encountered such a situation before, so he judged that the opening of the seven Star Pavilion was coming to an end.

He focused his mind and continued to inject his vital Qi until the seven Star Pavilion stopped absorbing his vital Qi. Only then did he send a voice transmission to remind everyone that this trip to the seven Star Pavilion was over. With his limited control over the seven Star Pavilion, it was not a problem for him to send a voice transmission to the cultivators in the pavilion.

This was truly a good beginning and a good end. In the past, when there were more people, Chen Nanfeng's yuan Qi might not be able to last until the end. In many cases, he judged that the time was almost up, so he would remind everyone and then teleport them out.

Song Wei and the others had no idea if their talent had improved or how much it had improved.

They were worried that they would waste such a precious opportunity.

However, Xia ruofei had instructed them on the way here. They knew what to do at every step. They knew that they could not feel the changes in their bodies at this stage, so they were not in a hurry.

Even if they noticed that their talents had improved, they had to follow Xia ruofei's instructions and not reveal it.

Xia ruofei even told them not to try to comprehend any martial arts in the seven Star Pavilion or even before they left the first heaven sect. It was best not to do anything related to cultivation or comprehension. Otherwise, they might end up like Lu You when they were in a state of enlightenment due to the huge increase in their talent.

One or two was fine, but if four or five out of six people were in an epiphany, that was obviously abnormal.

After a while, the artifact Spirit had almost stopped absorbing Chen Nanfeng's vital Qi.

Chen Nanfeng knew that it was time for the opening of the seven Star Pavilion. He informed everyone through voice transmission and then sent them to the entrance of the seven Star Pavilion.

Song Wei and the rest walked out of the seven Star Pavilion in a single file. Looking at the beautiful back garden, everyone felt as if it was a lifetime ago.

Xia ruofei was very confident that everyone's talents had improved to the maximum extent possible. Hence, when everyone came out, he immediately sent a voice transmission to everyone, reminding them not to think about the contents of the cultivation technique rashly. He even set a relatively reasonable result for everyone. Tang Haoran, Song Wei, and Ling Qingxue's talents had improved by a large extent. Song Qiming's talent had also improved slightly. On the other hand, Li Yifu and Qingfeng Luo did not gain anything.

This was a more reasonable result. Hence, when everyone was undergoing the transformation to improve their talents, Xia ruofei had already thought about it. Once everyone came out, he would use the same voice transmission.

After Song Wei and the others left the seven Star Pavilion, Chen Nanfeng quickly shrunk the seven Star Pavilion and stood up.

Song Wei and the others bowed slightly to Chen Nanfeng and said in unison,""Thank you, sect leader Chen, for your help!"

Chen Nanfeng looked tired, but he still smiled and said,""Fellow Daoists, you're too polite! You're fellow Daoist Xia's friends, so you're also my friends. There's no need for such formalities between friends!"

Xia ruofei chuckled and said,"we still have to thank him. After all, sect leader Chen has consumed a lot of Yuan Qi to open the seven Star Pavilion. It will take a lot of time to replenish this Yuan Qi. Time is the most precious thing now."

Chen Nanfeng laughed and said,"that's true!" I'm also feeling a great sense of urgency right now!"

As Chen Xuan was still present and Chen Nanfeng did not know if Xia ruofei's friends knew about Xia ruofei's breakthrough to the nascent Soul Stage, he did not make it very clear. His words had a hidden meaning behind them, implying that Xia ruofei's cultivation had already surpassed his and that she had caught up. Naturally, he was filled with urgency. At the same time, what Xia ruofei had told him yesterday about the critical situation in Earth's cultivation world had also increased his sense of urgency.

However, only he and Xia ruofei could understand these things. The others could not.

Chen Nanfeng then asked with concern,""By the way, fellow Daoists, how was your harvest in the seven Star Pavilion? Will there be an increase in talent?"

According to Xia ruofei's voice transmission, Song Wei, Ling Qingxue, Tang Haoran, and song Qiming all nodded their heads. Song Qiming said with a hint of shame,""I seem to have improved, but not by much. Perhaps my potential is really limited ..."

On the other hand, Qingfeng Luo and Yifu li shook their heads with a hint of frustration.

"I don't seem to have changed at all," Luo Qingfeng said with a sigh."Also, I found three spiritual crystals in the seven Star Pavilion ..."

Chapter 3863 Uniform caliblation_2

Li Yifu smiled bitterly."I'm about the same as sect leader Luo. I got a crystal. It's a consolation prize!"

This was what Xia ruofei had taught them. Even their storage rings really had spirit crystals and origin crystals, which had been given to them by Xia ruofei. If Chen Nanfeng really wanted to take a look, they could take them out.

Of course, Chen Nanfeng naturally wouldn't get to the bottom of it. He didn't expect that each of them could improve their talent, so he didn't doubt their words at all.

In fact, out of the six people who went in, four of them had their talents improved. Among the four of them, other than song Qiming who said that his talent had improved by a small margin, Song Wei, Ling Qingxue, and Tang Haoran did not say anything. This meant that the three of them had gained a lot. Such a success rate had already left Chen Nanfeng speechless.

He couldn't help but envy Xia ruofei. Without a doubt, Song Wei and the other three's talents would soon reach a new height. Xia ruofei's cultivation was already so high, and he had so many elite soldiers by his side. If Xia ruofei wanted to dominate the world of cultivation, no one would dare to look down on them when they worked together. They could definitely stir up a storm.

Of course, Chen Nanfeng already knew that the world of cultivation might be facing a major crisis, so he knew that Xia ruofei would not be interested in dominating the world of cultivation. Even he himself didn't want to fight for hegemony anymore. He wanted to improve his cultivation as much as possible. Regardless of whether he could contribute to the cultivation world in the future, at least he would be able to protect himself when the crisis came. At the same time, he wanted to preserve the strength of the first heaven sect as much as possible.

"It seems like everyone's luck is pretty good!" Chen Nanfeng smiled and said,"indeed, people are divided into groups. Fellow Daoist Xia's friends are all outstanding! Congratulations!"

"Many thanks, sect leader Chen!" Song Wei and the rest said in unison.

Chen Nanfeng then looked at Luo Qingfeng and Li Yifu and said with a smile,""There's no need to be discouraged, fellow Daoists. This is actually an opportunity. If you can't improve your talent, it means that this opportunity doesn't belong to you. There are many golden core stage elders in the first heaven society. When they first entered the seven Star Pavilion, their talents didn't improve either. However, this doesn't affect their rapid growth in the future! In addition, with fellow Daoist Xia's assistance, your future cultivation path will definitely be smooth!"

Qingfeng Luo and Yifu li also thanked him.

Xia ruofei could tell that Chen Nanfeng was genuinely consoling the two of them. He could not help but feel a little ashamed. However, it did not make sense for all six of them to improve their talents by a large margin. If he were to tell the truth, it would inevitably cause Chen Nanfeng to make all sorts of guesses. Hence, they had to say the same thing to avoid more trouble. Furthermore, this trouble was related to the seven Star Pavilion. If they really wanted to get to the bottom of it ... Then, strictly speaking, the seven Star Pavilion belonged to Xia ruofei! So, this was at most a white lie.

"Fellow Daoist Xia, the opening of the seven stars Pavilion this time has a rather satisfactory result," Chen Nanfeng said. If you have nothing to do, you can stay in the first heaven society for a few days. I'll let Xuan 'er accompany you around. The scenery here is quite good!"

Xia ruofei cupped his hands and said,"thank you for your kind offer, sect leader Chen. However, we both have many things to do. Furthermore, uncle song has a job in the secular world and can't leave for long. So, we won't bother you this time. If there's a chance, we'll come and visit again!"

"Fellow Daoist Xia, no matter how busy you are, you shouldn't be so busy that you don't even have time to eat, right?" Chen Nanfeng said. I've already ordered people to prepare a banquet. This is the first time your friends have come to my heavenly sect, so I have to at least treat you to a meal. Otherwise, it would be too impolite! Besides, Valley leader Liu

and her disciple will be attending at noon as well. You're all friends with miss Lu, so you can't just leave without saying goodbye, right?"

Chen Nanfeng had already made it clear that Xia ruofei would be unreasonable if she refused.

He nodded and said,"then I'll do as you say!" However, we really can't stay here overnight. We have to return after lunch. Please forgive us, sect leader Chen!"

Chen Nanfeng chuckled and said,"good, good, good!" Let's do this! There's still some time before lunch, so let Xuan 'er bring you around the mountain!"

"Alright!" Xia ruofei bowed slightly and said,"sect leader Chen, you should also take a good rest and recover. You must have used a lot of energy to open the seven Star Pavilion!"

Chen Nanfeng smiled and nodded.

Chen Xuan led everyone out of the Empyrean one Pavilion. Chen Nanfeng had been the one to receive them personally. As the young sect master, he was just a bystander. In front of his father, he was also a little reserved.

Now that Chen Nanfeng was in the quiet room of the Empyrean one Pavilion to recover, Chen Xuan was obviously more relaxed. He walked up the mountain with Xia ruofei and the others, chatting and laughing. He brought them to visit all the beautiful places in the sect.

The first heaven society was rich in natural energy, and the vegetation was very lush. The mountains and rivers were beautiful, and it was definitely a place with excellent scenery. It was no exaggeration to say that the scenery here was much more beautiful than the Mount Tai Scenic Area that had already been developed. Everyone was amazed as they visited.

This was especially true for song Qiming and Tang Haoran, who were entering a cultivation sect for the first time. Everything they saw was new to them. Whether it was the beautiful natural scenery or the exquisite ancient buildings, they were all eye - openers.

Everyone chatted as they visited the place. Xia ruofei also talked about how Chen Xuan had applied for a job at his company in order to gain experience in the world of mortals. Everyone felt that it was very refreshing. As for song Qiming, who had been training in the world of mortals, he could not understand why cultivators could not cultivate in the mountains but had to train in the world of mortals to have greater breakthroughs.

Of course, he had not reached the stage yet. In the future, when he broke through to Jindan or even Yuanying, he would feel that his decades of experience in the officialdom was actually very helpful to his cultivation.

Before they knew it, it was already noon. Chen Xuan brought Xia ruofei and the rest back to the Empyrean one Pavilion.

Liu Mansha and Lu You had just returned as well. Song Wei and Ling Qingxue ran over naturally, and the three beautiful women were chatting away enthusiastically.

Everyone waited for a while before Chen Nanfeng came out of the quiet room. He seemed to have recovered a lot, but his face was still a little pale. It was obvious that he had consumed a lot of Yuan Qi and couldn't recover in a short time. He would need to rest for a few days at least.

Once Chen Nanfeng came out, the luncheon had officially begun.

The luncheon still used a separate dining system. There was a small table in front of everyone, and all kinds of exquisite dishes were served. Many of them were made with ingredients unique to the cultivation world. Not only were they fragrant and delicious, but they were also helpful to cultivation.

Not only song Qiming and Tang Haoran, but even song Wei, Ling Qingxue, and Li Yifu had never seen such a high - Class banquet before.

It was no exaggeration to say that if an ordinary person in the secular world ate at such a banquet, they would definitely strengthen their body and prolong their life. If they ate a few more times, it would not be a problem to live to a hundred years old.

The wild ginseng and other super tonics of the secular world were not worth a penny compared to this banquet.

At the banquet, everyone ate and drank as they chatted about the cultivation world. The atmosphere was very harmonious. The interesting things that Xia ruofei, Chen Nanfeng, and Liu Mansha talked about were very new to Song Wei, Ling Qingxue, song Qiming, Tang Haoran, and even Li Yifu. They were different from the cultivators as they knew more about the secular world. He didn't separate himself from the ordinary people of the secular world, so when he heard some things about the cultivation world, he felt particularly novel and even felt like he had transmigrated.

Chapter 3864 Group epiphany (1)

Before they knew it, the banquet was coming to an end.

Xia ruofei was looking for a suitable opportunity to bid farewell to Chen Nanfeng, have a drink with everyone, and then leave. At this moment, Song Wei smiled and said to Lu You, who was sitting beside her,""Youyou, do you have any plans after you've refined your true Qi in the first heaven society?"

Lu You looked at her teacher, Liu Mansha, and said,""I don't have any other arrangements for the time being. I might return to the flying flower Valley with teacher to cultivate for a period of time."

"Then why don't you find some time to stay with us for a few days?" Song Wei asked with a smile. RUO Fei has found a good place, we usually cultivate there. "

Xia ruofei was sitting opposite song Wei and Lu You. He was surprised when he heard this and looked at Song Wei.

However, he knew that Song Wei knew her limits, so he didn't say anything to stop her. However, he was also a little apprehensive. He didn't know why Song Wei invited Lu You. If Lu You really stayed on the peach source Island for a few days, it would definitely be awkward for everyone to interact with each other.

After Lu You heard Song Wei's words, she was naturally a little moved. Her beautiful eyes first glanced at Xia ruofei, then at Liu Mansha. It was obvious that she could not make the decision herself. It was better to let her teacher make the decision.

Liu Mansha said with a smile,"Youyou, since miss song has invited you so graciously, why don't you go and be a guest for a few days after you're done with your business here? fellow Daoist Xia, miss song, and miss Ling's cultivation levels are much higher than yours. They can also guide you well in your cultivation."

"Yes, teacher!" Lu You nodded and said. Then, she hesitated and said,"but ..."

Lu You looked like she wanted to say something but stopped. Her gaze landed on Xia ruofei. Her meaning was clear.

Xia ruofei could not help but smile bitterly. He looked at Song Wei with some resentment, then cleared his throat and said,"Lu You, if it's convenient for you, we'll welcome you anytime! At that time, everyone can also exchange their cultivation experience!"

Lu You was instantly in high spirits and her face flushed red. She immediately said,""Mm! Then I'll go and bother you for a few days!"

Ling Qingxue chuckled and said,"that's great!" This way, everyone would have company! Youyou, you've been in the first heaven society for the past few days, right? How many days is it estimated to take? When the time comes, I'll have RUO Fei come to pick you up personally!"

The shyness on Lu You's face intensified. She lowered her head slightly and said,""It'll probably take another four to five days!"

Xia ruofei sighed to himself, then squeezed out a smile and said,""Alright! I'll come pick you up in five days!"

"En!" Lu You nodded her head heavily. She felt as if her heart was about to jump out of her chest.

Xia ruofei looked at his two close female friends. He could not say anything in front of so many people, especially when Song Wei's father, song Qiming, was also present. It was even more inconvenient to talk about these things.

Since this was not an urgent matter, there was no need to communicate with her telepathically. He thought about it and decided to wait until they returned to Peach Blossom Island. When they were alone, he would ask her what she was up to!

At this time, Chen Nanfeng saw that it was almost time, so he smiled and raised his glass.""Fellow Daoist Xia, since you're all in a hurry, I won't keep you any longer. Let's have another drink together! This cup of wine will be a farewell wine. I wish you a smooth journey!"

"Many thanks, sect leader Chen!" Everyone picked up their glasses and stood up.

After finishing the last cup of reunion wine, Chen Nanfeng wanted to personally send Xia ruofei and the others out of the mountain Gate. Xia ruofei quickly stopped him."Sect leader Chen, please wait! The juniors can't afford it! Besides, you've consumed a lot of Yuan Qi today, so you should rest well! Just let brother Chen Xuan send us out!"

Hearing Xia ruofei's words, Chen Nanfeng did not force her. He told Chen Xuan to send everyone out of the mountain Gate, then he returned to the quiet room in the side hall to continue his recovery.

In the afternoon, Lu You still had to enter the origin void formation to refine her true Qi. Thus, she and Liu Mansha bade farewell to Xia ruofei and the rest in front of the Empyrean one Pavilion.

Chen Xuan personally sent everyone to the valley outside the mountain Gate. Xia ruofei took out the black Phoenix flying boat and everyone jumped onto it.

Everyone stood by the side of the deck and waved goodbye to Chen Xuan.

The black - Phoenix flying ship slowly rose into the air, then suddenly increased its speed as it sped towards the southeast.

None of them entered the cabin. Instead, they stood on the deck, all of them feeling excited.

Xia ruofei diverted some of his attention to control the flying boat. Then, he smiled and said,""I'm sure everyone's harvest this time is not small!"

Everyone revealed a knowing smile. Ling Qingxue smiled and said,""In any case, our talent should have improved, but we don't know how much it has improved. Didn't you tell us not to comprehend the cultivation method?"

Li Yifu also said honestly,""Senior granduncle, I don't know if my talent has improved. Everything has yet to be verified ..."

Luo Qingfeng, song Qiming, and the others all nodded.

In fact, they themselves were not confident. After all, talent was not like cultivation. There was a specific and objective standard to measure. Even if one's cultivation increased by a little, they would be able to detect it very quickly.

The few of them felt that they were too old and their talents were average. They did not know if they would not be able to gain the recognition of the seven Star Pavilion's weapon spirit. However, Xia ruofei did not tell everyone that he had already made a deal with the weapon spirit in private. No matter what their original talents were, this time, they would have the greatest improvement on their original foundation.

Chapter 3866 The situation is good (1)

Everyone sat in an arc in front of Xia ruofei, staring at him.

Xia ruofei smiled and said,""The path of cultivation is vast and boundless. The root of it is nothing more than being extraordinary and constantly breaking through the limits ..."

Xia ruofei didn't analyze a specific cultivation technique or secret skill. He only explained the most basic content of cultivation. He tried his best to go from the shallow to the deep, breaking the basic content apart and explaining it to everyone.

Logically speaking, Xia ruofei was only in the beginner stage of the original level. His understanding of the great Dao of heaven and earth was also very shallow.

However, his advantage was that he had learned from others. The Jade talisman of inheritance and the large number of cultivation books he had obtained from the top floor of the trial Pagoda were all directly instilled into his mind. At the same time, some of the understanding and insights of the predecessors on cultivation were also instilled into his mind, so his theoretical foundation was very solid.

After all, he was facing a group of Qi condensation and Aurous core stage cultivators. In comparison, his understanding and perception of the great Dao were naturally very deep.

For Song Wei and the others, it was a rare opportunity for him to give a lecture.

Especially after the seven Star Pavilion's transformation, everyone's cultivation talent had improved by a large margin. When they thought back on their previous understanding of cultivation, they would immediately have a lot of new insights. In addition, Xia ruofei was constantly imparting his own understanding of the Dao of heaven and earth. Under such circumstances, it was easy for them to enter a state of enlightenment.

While Xia ruofei was teaching, he used a bit of his spiritual power. His voice seemed to have a magical power that made Song Wei and the others sink into it and focus their attention.

Under such circumstances, sudden enlightenment was something that happened naturally.

Xia ruofei explained while observing the situation.

He was slightly surprised that the first person to enter the state of enlightenment was Tang Haoran.

Xia ruofei spoke for about three minutes. Tang Haoran's eyes brightened. Then, as if he had been enlightened, he fell into deep thought.

After another two minutes or so, Song Wei and Ling Qingxue entered a state of enlightenment almost at the same time.

Song Qiming and Li Yifu were next. They entered the state of enlightenment at the same time, about five minutes later than Song Wei and Ling Qingxue.

The last one was Luo Qingfeng.

He listened for nearly half an hour before his body trembled slightly. He was completely in a state of enlightenment.

Everyone sat in an arc in front of Xia ruofei, staring at him.

Xia ruofei explained while observing the situation.

What made him feel slightly surprised was that the first person to enter the state of enlightenment was actually Tang Haoran.

In addition, Xia ruofei was constantly imparting his own understanding of the Dao of heaven and earth. Under such circumstances, it was easy for them to enter a state of enlightenment.

While Xia ruofei was teaching, he used a bit of his spiritual power. His voice seemed to have a magical power that made Song Wei and the others sink into it and focus their attention.

Under such circumstances, sudden enlightenment was something that happened naturally.

Xia ruofei explained while observing the situation.

He was slightly surprised that the first person to enter the state of enlightenment was Tang Haoran.

Xia ruofei spoke for about three minutes. Tang Haoran's eyes brightened. Then, as if he had been enlightened, he fell into deep thought.

After another two minutes or so, Song Wei and Ling Qingxue entered a state of enlightenment almost at the same time.

Song Qiming and Li Yifu were next. They entered the state of enlightenment at the same time, about five minutes later than Song Wei and Ling Qingxue.

The last one was Luo Qingfeng.

He listened for nearly half an hour before his body trembled slightly. He was completely in a state of enlightenment.

Everyone sat in an arc in front of Xia ruofei, staring at him.

Xia ruofei smiled and said,""The path of cultivation is vast and boundless. The root of it is nothing more than being extraordinary and constantly breaking through the limits ..."

Xia ruofei didn't analyze a specific cultivation technique or secret skill. He only explained the most basic content of cultivation. He tried his best to go from the shallow to the deep, breaking the basic content apart and explaining it to everyone.

Logically speaking, Xia ruofei was only in the beginner stage of the original level. His understanding of the great Dao of heaven and earth was also very shallow.

Xia ruofei explained while observing the situation.

What made him feel slightly surprised was that the first person to enter the state of enlightenment was actually Tang Haoran.

On the way to the Peach Blossom Island, Xia ruofei did not tell them about the "secret realm". Hence, when song Qiming and the others saw this miniature model, they were at a loss. They did not know what Xia ruofei was trying to do.

Xia ruofei chuckled as he introduced."What everyone is seeing now is an immortal abode left behind by an ancient cultivator. It's actually a spatial magical treasure. The secret realm you're going to is inside this Azure immortal abode!"

Song Qiming and the other two were dumbfounded. Song Qiming asked in disbelief,""RUO Fei, you ... You mean ... We can enter this place? Then wouldn't our bodies have to shrink a lot?"

Xia ruofei smiled and nodded.""Uncle song, you're mistaken. In fact, the immortal mansion we're looking at is not in the same space as the terrace we're on right now. It's just that this magic weapon has a certain uniqueness, so we can directly see the immortal mansion from here. Therefore, when we go to the green touring immortal abode, it's not that our bodies have shrunk, but that we've entered another space from one space. Moreover ... The size of this green touring immortal mansion can be changed. I've only shrunk it to this size for the convenience of placement. Before this, it was just an Island of normal size, drifting aimlessly in the ocean ..."

Song Qiming nodded, not fully understanding.""This is too magical!"

Although song Qiming had been in contact with cultivation for some time, he had been living in the secular world for a long time. He was only exposed to work every day, so his thoughts were still in the past. Although he could understand some things in the world of cultivation, he always felt that it was not real.

"Ruofei, I'll go in with you later!" Song Wei said. I'm also a little worried about my dad going to the mystic realm ..."

"No problem!" Xia ruofei smiled and said,"although the secret realm is not big, it's not a problem for one more person to stand here!"

Tang Haoran had a child's heart after all. He could not help but ask curiously,""Master, if people are inside the immortal mansion, can they be seen from the outside?"

Xia ruofei smiled and nodded.""Of course!"

Tang Haoran's eyes couldn't help but light up. "That's the little kingdom that the storybooks talk about! Master, can you let me see it?"

Xia ruofei didn't know whether to laugh or cry."Haoran, you're a cultivator in the Golden core stage. Although this kind of spatial magic weapon is precious, it's not out of the scope of the cultivation world. You should understand the principle of two different spaces, right?"

Tang Haoran scratched his head in embarrassment and said,"I know that, but I just find it a little magical ..."

"Ruofei, Haoran is still a child, so please satisfy his curiosity!" Song Wei said with a smile. How about this! I'll go into the immortal mansion first. Won't You Be able to see it from the outside?"

Tang Haoran was overjoyed and quickly said,""Thank you MA ... Auntie song!"

He was so happy that he almost blurted it out. Fortunately, he changed his words in time at the last moment. Song Qiming's attention was completely attracted by the magical green immortal mansion and he did not notice it.

Xia ruofei broke out in a cold sweat. He glared at Tang Haoran.

Tang Haoran secretly stuck out his tongue, then quickly changed the topic.""Auntie song, hurry up and go in! We all want to experience it!"

Song Wei looked at her father, song Qiming, and Luo Qingfeng, who was beside her. She found that the two of them were also very interested, so she nodded and said,""Alright! I'll go in first. RUO Fei, you can bring everyone in later!"

Then, Song Wei took out the talisman that Xia ruofei had made for her. With a thought, she disappeared from the spot.

The next moment, her figure appeared in the green immortal mansion.

In order to let everyone see her more clearly, she did not appear directly near the bamboo building, because there was a large ancient building complex there. If she appeared there, it would not be easy for people to notice her, so she simply appeared on the most conspicuous beach.

Song Qiming and the other two stared unblinkingly at green touring immortal abode. When Song Wei's figure appeared out of thin air on the beach, everyone could not help but click their tongues in wonder.

Especially Tang Haoran, when he saw that Song Wei had become the size of a citizen of the little kingdom in the storybook, and was even smiling and waving at everyone on the beach, he couldn't help but cheer.

Xia ruofei cleared his throat and said,"Alright, it's good that you've seen it. Let's hurry up! We'll be in the secret plane for a long time!"

"Oh!" Tang Haoran stuck out his tongue.

Xia ruofei smiled."Uncle song, Haoran, Qingfeng, relax and don't resist. I'll bring everyone into the immortal mansion!"

Song Qiming and the other two quickly nodded in agreement.

Xia ruofei communicated with the residence - guarding wooden token with his mind. In an instant, an invisible force enveloped everyone and teleported them to green travel Immortal Island.

Song Wei was confused. She hoped that song Qiming could enter the formation a few more times so that his spiritual power could improve. However, she had used the formation many times and knew that every time he entered the formation, he would cause some minor injuries to his sea of consciousness. Even though the formation's protective mechanism would not harm his Foundation, any injuries to his sea of consciousness would not be easy to recover from.

Xia ruofei himself needed about a week to fully recover from the injury in his sea of consciousness. Song Wei and Ling Qingxue also took about the same time.

When Li Yifu's spiritual power was at a lower level, the recovery time was slightly shorter. However, it would take at least four to five days. Now that his spiritual power had increased, the time he took to recover his sea of consciousness was basically the same as Xia ruofei and the others.

Even if song Qiming's mentality was weaker than Li Yifu 's, it was impossible for him to enter the formation multiple times in a day!

Before Song Wei could ask, Xia ruofei took out two more things. They were a whole set of time formation flags and a big pot of medicinal soup.

Seeing this, Song Wei immediately understood that Jian Jia wanted to use the time formation flags to create a difference in the flow of time. This way, song Qiming would need two to three days or even longer to recover in the time formation, but only a little time would have passed in the outside world. Moreover, the herbal soup would definitely help him recover his sea of consciousness. With this two - pronged approach, song Qiming could recover his sea of consciousness in a short period of time and enter the formation again to train his spiritual power.

Song Wei looked at Xia ruofei with gentleness and gratitude. She knew that Xia ruofei had prepared everything meticulously because song Qiming was her father.

Xia ruofei poured out a bowl of medicine and handed it to song Qiming.""Uncle song, drink this bowl of medicine and immediately recover from the injuries in your sea of

consciousness. I will set up a time formation around you. You don't need to worry about how long it will take to recover. You must wait until your sea of consciousness is completely recovered before coming out!"

Song Wei quickly interjected,"dad!" RUO Fei's time formation could make time flow more than 90 times faster inside. That is to say, only one minute would pass outside while you're inside for one and a half hours. Even if you recover for a few days, you'll only spend dozens of minutes or a couple of hours. Therefore, you don't have to worry about time!"

Song Qiming understood immediately. He said,""Alright! RUO Fei, I'm really grateful for your meticulous arrangements!"

Xia ruofei smiled and said,"uncle song, you don't have to be so polite with me!" Hurry up and drink the medicine, then go and recover from your injuries!"

"Good, good, good!" Song Qiming said.

He took the bowl of medicine and gulped it down in one go. Then, without wasting any more time, he wiped his mouth and sat on the Jade futon, closing his eyes and regulating his breath to recover from his injuries.

Xia ruofei waved his hand and the time array flags flew out, forming a time array in an instant.

Chapter 3872 Great harvest (1)

It was clearly impossible for Tang Haoran to be the first to enter the formation in the second round.

Song Qiming had been recuperating in the time formation for more than half an hour. According to the time flow difference of 90 times, he had been in there for almost two days.

Since song Qiming's spiritual power was the lowest, his sea of consciousness was the least injured. Even if everyone entered the time formation to heal at the same time, he would be the first to come out.

In fact, after Tang Haoran entered the time formation, Xia ruofei and Song Wei had only waited for a dozen minutes. Song Qiming's sea of consciousness had recovered completely. He stood up and walked out of the formation.

Song Qiming took about three days to recover. On one hand, the injury to his sea of consciousness was relatively light. On the other hand, the medicinal soup that Xia ruofei had prepared in advance was very helpful in the recovery of the sea of consciousness.

At this time, Luo Qingfeng and Tang Haoran were still fully focused on healing their injuries.

Xia ruofei checked on song Qiming's condition and let him enter the array to train his spiritual power.

This time, song Qiming managed to hold on for about a minute and a half before he was thrown out again. He had also held on to his limit and triggered the protective mechanism of the array.

Xia ruofei did not waste any time. After he caught song Qiming, he immediately handed him the spiritual pond water and the medicinal soup.

Song Qiming gulped it down and nodded to Song Wei and Xia ruofei. He walked into the time formation and sat down on the futon to heal.

From the time song Qiming left the time formation to his second attempt to entering the time formation, there was only a total of three minutes.

In other words, only four or five hours had passed in the formation.

Xia ruofei and Song Wei waited for another half an hour. Luo Qingfeng had finally finished healing and walked out of the time formation.

Xia ruofei used his spiritual power to check and then indicated that he could enter the array to train his spiritual power.

Luo Qingfeng was full of fighting spirit. This time, he lasted for about 15 minutes in the array. Compared to the first time he entered the array, his spiritual power had obviously improved a lot.

While Luo Qingfeng was still in the array, song Qiming had already recovered from the injuries in his spiritual sea and came out first to wait at the side.

After Luo Qingfeng was thrown out of the array, Xia ruofei asked song Qiming to enter the array for the third time to train his spiritual power.

Then, he handed the spirit pool water and the medicinal soup to Luo Qingfeng.

At this time, Tang Haoran had finally recovered from the injuries in his sea of consciousness. He strode out of the time formation and passed by Luo Qingfeng.

Tang Haoran took a look at the formation and noticed that song Qiming had just activated it. He could not help but ask,""Master, is this Sensei song's second time entering the formation?"

"He's already in the third round!"Xia ruofei laughed.

"Ah?" Tang Haoran's eyes widened and he said dejectedly,"how did he recover so quickly?"

Song Wei laughed and said,"Haoran, generally speaking, the higher the level of spiritual power, the stronger the impact on the sea of consciousness in the formation. The injuries will be more serious, so the recovery time will be longer." Your recovery is the slowest, which means that your spiritual power is the highest among the three of you! Every time your master enters a formation, the time it takes to recover his sea of consciousness is much longer than yours!"

"Then wouldn't I have fewer opportunities to train my spiritual power?" Tang Haoran said in distress.

"Strictly speaking, the opportunity is equal to everyone." Xia ruofei said,"as the number of times they enter the array increases and their spiritual power level increases, the time it takes for them to recover from the injuries in their sea of consciousness will also increase accordingly!"

Just as everyone was still talking, song Qiming, who was in the formation, reached his limit once again. He grunted and was thrown out of the formation.

Xia ruofei's eyes were sharp and his hands were fast. His body flashed and he was right beside song Qiming. He reached out and caught him.

"Master, I'll go in then!" Tang Haoran did not want to waste even a second and quickly shouted.

Xia ruofei nodded without turning his head. Then, he took some water from the spiritual pond and fed it to song Qiming. He also poured a bowl of medicinal soup for him.

Song Qiming finished the medicine and the spiritual pond water. He did not even bother to talk to Xia ruofei and Song Wei. He quickly greeted them and walked into the time formation to heal his injuries.

This time, song Qiming managed to last three minutes in the array. He had improved a lot compared to the second round.

One could imagine that his spiritual power was improving at a godly speed under such high - intensity pressure.

In comparison, Tang Haoran would be able to use the formation for a longer time.

He had already broken through to the intermediate stage of the spirit gathering stage. In the first round, he had managed to last for 26 to 27 minutes in the array. Now that his spiritual power had broken through another small realm, he could naturally last longer.

However, it was still difficult for him to break through the first Halo since he had just entered the intermediate stage of the spirit gathering realm. This time, Tang Haoran managed to hold on for about 29 minutes, almost half an hour, but he was still thrown out by the protective mechanism of the formation.

Xia ruofei did not say much. He reached out to catch Tang Haoran and passed him the spiritual pond water and medicinal soup.

Chapter 3873 Great harvest (2)

Tang Haoran gulped it down, then wiped his mouth and went back into the time array.

Xia ruofei and Song Wei waited outside the time formation for a while. Song Qiming left the time formation again. Once again, he was ahead of Luo Qingfeng.

Xia ruofei did a quick check and let song Qiming go into the array to train his spiritual power.

In fact, when song Qiming had just entered the array, Luo Qingfeng had already finished healing. The two of them had just finished.

Luo Qingfeng could only wait outside for a while. Fortunately, song Qiming had only used the array for the shortest amount of time, so Luo Qingfeng did not have to wait too long.

Of course, even if he had to wait a little longer, he would not have any complaints.

This was the fourth time that song Qiming had entered the array, while Luo Qingfeng and Tang Haoran had entered twice each. Luo Qingfeng was about to start his third attempt.

Clearly, song Qiming's low level of spiritual power had given him the convenience of entering the array many times to temper his spiritual power.

In the fourth round, song Qiming managed to last for more than five minutes before he was thrown out again.

Luo Qingfeng immediately entered the array ...

Just like that, song Qiming and the other two took turns to enter the time formation to train their spiritual power. They took turns to enter the time formation to heal their injuries. Everyone took turns to break through the formation again and again, and their spiritual power also improved.

Xia ruofei and Song Wei couldn't help much, so they just helped with the logistics.

Of course, Song Wei had the most free time, so Xia ruofei did all the work by himself.

However, she was worried about her father challenging the array here and insisted on staying in the secret realm. Hence, Xia ruofei let her cultivate at the side instead of waiting with him.

In one night, song Qiming had gone through a total of ten rounds of the array challenge, while Luo Qingfeng had entered the array eight times and Tang Haoran seven times. The results of everyone's challenge were also quite remarkable.

Song Qiming finally broke through to the spirit gathering stage in the eighth round. After 10 rounds of array training, he lasted 18 minutes in the last round, which was far better than Luo Qingfeng's first time.

Song Qiming's cultivation was at the peak of lianqi level 9, but his spiritual power had broken through to the spirit gathering realm, which was equivalent to the Golden core stage. Moreover, he had made further progress on this Foundation. Not only had he consolidated his realm, but he had also taken a big step toward the middle stage of the spirit gathering realm. It could be said that this had laid a very solid foundation for his next cultivation, including breaking through to the Golden core stage.

It would not be an exaggeration to say that the difficulty of song Qiming breaking through to the Golden core stage would be reduced by at least 30%.

It was clearly impossible for Tang Haoran to be the first to enter the formation in the second round.

Song Qiming had been recuperating in the time formation for more than half an hour. According to the time flow difference of 90 times, he had been in there for almost two days.

Xia ruofei used his spiritual power to check and then indicated that he could enter the array to train his spiritual power.

Luo Qingfeng was full of fighting spirit. This time, he lasted for about 15 minutes in the array. Compared to the first time he entered the array, his spiritual power had obviously improved a lot.

While Luo Qingfeng was still in the array, song Qiming had already recovered from the injuries in his spiritual sea and came out first to wait at the side.

After Luo Qingfeng was thrown out of the array, Xia ruofei asked song Qiming to enter the array for the third time to train his spiritual power.

Then, he handed the spirit pool water and the medicinal soup to Luo Qingfeng.

At this time, Tang Haoran had finally recovered from the injuries in his sea of consciousness. He strode out of the time formation and passed by Luo Qingfeng.

Tang Haoran took a look at the formation and noticed that song Qiming had just activated it. He could not help but ask,""Master, is this Sensei song's second time entering the formation?"

"He's already in the third round!"Xia ruofei laughed.

"Ah?" Tang Haoran's eyes widened and he said dejectedly,"how did he recover so quickly?" Thê source of this conte/nt n/o/v/(*e*l)bi((n))

Song Wei laughed and said,"Haoran, generally speaking, the higher the level of spiritual power, the stronger the impact on the sea of consciousness in the formation. The injuries will be more serious, so the recovery time will be longer." Your recovery is the slowest, which means that your spiritual power is the highest among the three of you! Every time your master enters a formation, the time it takes to recover his sea of consciousness is much longer than yours!"

"Then wouldn't I have fewer opportunities to train my spiritual power?" Tang Haoran said in distress.

"Strictly speaking, the opportunity is equal to everyone." Xia ruofei said,"as the number of times they enter the array increases and their spiritual power level increases, the time it takes for them to recover from the injuries in their sea of consciousness will also increase accordingly!"

Just as everyone was still talking, song Qiming, who was in the formation, reached his limit once again. He grunted and was thrown out of the formation.

Xia ruofei's eyes were sharp and his hands were fast. His body flashed and he was right beside song Qiming. He reached out and caught him.

"Master, I'll go in then!" Tang Haoran did not want to waste even a second and quickly shouted.

Xia ruofei nodded without turning his head. Then, he took some water from the spiritual pond and fed it to song Qiming. He also poured a bowl of medicinal soup for him.

Song Qiming finished the medicine and the spiritual pond water. He did not even bother to talk to Xia ruofei and Song Wei. He quickly greeted them and walked into the time formation to heal his injuries.

This time, song Qiming managed to last three minutes in the array. He had improved a lot compared to the second round.

One could imagine that his spiritual power was improving at a godly speed under such high - intensity pressure.

In comparison, Tang Haoran would be able to use the formation for a longer time.

He had already broken through to the intermediate stage of the spirit gathering stage. In the first round, he had managed to last for 26 to 27 minutes in the array. Now that his spiritual power had broken through another small realm, he could naturally last longer.

However, it was still difficult for him to break through the first Halo since he had just entered the intermediate stage of the spirit gathering realm. This time, Tang Haoran managed to hold on for about 29 minutes, almost half an hour, but he was still thrown out by the protective mechanism of the formation.

Xia ruofei did not say much. He reached out to catch Tang Haoran and passed him the spiritual pond water and medicinal soup.

Tang Haoran gulped it down, then wiped his mouth and went back into the time array.

Xia ruofei and Song Wei waited outside the time formation for a while. Song Qiming left the time formation again. Once again, he was ahead of Luo Qingfeng.

Chapter 3874 Looking forward to the future (1)

"Sure!" Song Qiming laughed. Even if you didn't tell me, I would have tried my best to arrange for time to come over! In the future, I'll try to come here for a day or two regularly. Not only can I train my spiritual power here, but the cultivation environment is also very good. I benefit a lot every time I come here!"

"Dad!" Song Wei said with a smile. Then you might as well retire! You can bring mom to live on Peach Blossom Island. There are many rooms here, so RUO Fei will reserve a big room facing the sea for you!"

Song Qiming smiled and said,"I want to!" However, it's unlikely that I'll retire within the next one or two years. The organization put me in this position because they trust me. I can't just quit without a reason! However, I've thought about it. After this term is over,

I'm going to apply for retirement from the organization due to my health. After all, I've been seriously injured before!"

"You've been injured, but your body condition is better than the young man 's. Do you think the higher - ups will approve of it?"Song Wei smiled.

A leader like song Qiming had regular physical examinations and a full - time health care doctor. Therefore, his health condition could not be hidden from others.

Song Qiming chuckled and said,"good physical indicators don't mean that there's no problem!" There are many problems that medical equipment can't detect. From today onwards, I'll go to see a Chinese medicine doctor every once in a while. They say that I often have headaches ... My head was severely injured before! The structure of this brain is the most complicated, and there are many medical questions that can't be answered at all. I want to lay the foundations for about a year, and then I can naturally propose retirement. Besides, my current position is considered a relatively important position. If I retire, I think it's not a bad thing to make room for the comrades behind me. "

Xia ruofei smiled and said,"that's true. It might take some effort to get promoted. It shouldn't be difficult to resign." Uncle song, I've prepared a room in advance. You and Auntie can come over and live here for a long time ..."

Song Qiming said hesitantly,""Your aunt Fang doesn't know anything about the world of cultivation. If she comes here, will she ..."

Xia ruofei smiled."It's okay. However, you can give her a heads up in advance and reveal it to her bit by bit. Otherwise, there'll be too much information at once and she won't be able to accept it." Furthermore ... I'm already in the nascent Soul Stage and I have more resources than before. I believe that in another year or two, I should be able to find a way for ordinary people to embark on the path of cultivation. By then, not only aunt Fang, but Qingxue's father, Ling Xiaotian, uncle Ling, and some of my close friends can also try to let them come into contact with cultivation. It doesn't matter if they can go far on this path, even if they can only reach the Qi condensation level for the rest of their lives. That's also good, at least your lifespan will be greatly extended!"

Song Qiming and Song Wei's eyes lit up. Ling Qingxue asked excitedly,""Ruofei, is there really a way to make my father a cultivator?"

Xia ruofei nodded with certainty and said,""There's no problem with their cultivation techniques. I have a large number of cultivation techniques, so I can always find a cultivation technique that is suitable for them. In terms of talent, he could totally gather everyone together and use the seven Star Pavilion to improve by a large margin. It was just a matter of consuming a little resources. Everyone may have already seen that everyone's talent has been improved to the greatest extent after entering the seven Star Pavilion. This is not luck. In fact, I can communicate with the tool spirit. In a sense, as long as I'm willing to pay some cultivation resources, the people I send in will be able to

improve their talent to the greatest extent. Of course, you must keep this a secret, especially not the first heaven society. I don't want them to overthink things ..."

Song Wei and the others nodded in agreement. Actually, Song Wei and Ling Qingxue both knew about the seven Star Pavilion's situation. Xia ruofei's words were mainly to instruct song Qiming, Tang Haoran, and Luo Qingfeng.

Xia ruofei continued,"the last problem is none other than the problem of physique. Some people are born with a physique that can't cultivate. No matter how good the cultivation environment is or how rich the spiritual Qi is, they can't absorb any spiritual Qi at all. However, this isn't unsolvable. Qingxue's physique was not suitable for cultivation back then. I used some rare spiritual herbs and finally succeeded in changing her physique. For people like aunty Fang, uncle Ling, and the others, if their physiques are not suitable for cultivation, then they can only spend more time to transform their physiques. At this stage, all the conditions are met. "

Xia ruofei was well aware of the importance of heart concentrating grass in the transformation of one's physique. Thus, during the past two years when he was in closed - door cultivation, as long as he did not use the time array flag, he would place them in the realm Heart island's medicine garden to speed up the cultivation of the heart concentrating grass. Thus, even though only two years had passed, the heart concentrating grass in the realm Heart island's medicine garden had already been cultivated for one to two hundred years. Not only did a few stalks mature, but they had also multiplied. The amount of heart concentrating grass was enough.

Hearing Xia ruofei's words, Song Wei, Ling Qingxue, and song Qiming felt relieved. At the same time, they were overjoyed. If an ordinary person wanted to become a cultivator, they had to have talent, physique, and techniques. At the same time, they had to have enough cultivation resources. All these problems could be easily solved by Xia ruofei. There were no more difficulties.

It could be said that as long as Xia ruofei was willing to pay the cost, he could turn an ordinary person who had no talent at all and was not suitable for cultivation into a cultivator. He could then successfully embark on the path of cultivation.

Xia ruofei continued,"of course, there's no hurry. On one hand, Auntie Fang, uncle Ling, and the others need some time to slowly accept it. On the other hand, we've just used the seven Star Pavilion. Chapter 3876 Strategic adjustments (1)

In a short while, the villa, which had been bustling with noise and excitement a moment ago, was now deserted. Only Xia ruofei and Luo Qingfeng were left.

Xia ruofei didn't even keep the black Phoenix flying ship. He smiled and said,""Qingfeng, let's go! I'll send you back to the star Seizer sect!"

He had originally planned to return to the three mountains after sending off Tang Haoran, and then send off Luo Qingfeng. Thus, the black Phoenix flying boat had been hovering above the second - Floor balcony. Upstodatee from n(o)/v*e*/lbIn/.(co/m

"Master, we're already back in the country," Luo Qingfeng said quickly."I can just fly back on my sword. I don't dare to trouble you anymore!"

Xia ruofei waved his hand and said,"it'll only take half an hour at most on the black Phoenix flying ship. Not only will you waste time by riding a flying sword, but you'll also consume a lot of Yuan Qi!" Don't be pretentious here, hurry up and get on the airboat! I haven't been to the star Seizer sect in a while, so I'll go back with you!"

Since Xia ruofei had already said this, Luo Qingfeng naturally did not dare to refuse. He quickly said,""Yes! Master!"

Xia ruofei and Luo Qingfeng jumped onto the black Phoenix flying ship one after another. Soon, the black Phoenix flying ship took off again and flew in the direction of the star Seizer sect.

Xia ruofei increased the speed of the black Phoenix flying boat to its maximum. It took them about 20 minutes to reach the star Seizer sect.

The star Seizer sect's protective array had been personally modified by Xia ruofei, so he did not even need Luo Qingfeng to control the array. He found a path and flew straight into the sect. The protective array was not usually in a completely defensive state because it consumed too much energy. Furthermore, the star Seizer sect did not have that many resources and could not maintain the Taixu xuanqing array like the Peach Blossom Island. Therefore, it was basically in a state of alert. Xia ruofei knew formations like the back of his hand. Naturally, he could find a path that would not trigger the formation.

Xia ruofei steered the black Phoenix flying ship to the star - picking tower at the peak with ease. This was the core of the star - picking sect. The quiet room where Luo Qingfeng usually cultivated was also here.

The black Phoenix flying ship stopped on the roof of zhaixing tower. Xia ruofei and Luo Qingfeng stepped on their flying swords and flew away from the black Phoenix flying ship.

With a thought, Xia ruofei shrunk the black Phoenix flying ship and kept it. Then, with Luo Qingfeng, they rode their flying swords and nimbly passed through the window on the top floor of zhaixing tower. This was the quiet room where Luo Qingfeng usually cultivated.

"Thank you, master! This subordinate is terrified!" "Yes!" Qingfeng Luo said respectfully.

Xia ruofei waved his hand."You should know me. You don't have to be so polite!"

With that, Xia ruofei's Saint spirit realm spiritual power swept out and enveloped the entire star Seizer sect. In a short while, he had a basic understanding of the star Seizer sect's situation. Naturally, the star Seizer sect's disciples did not notice the Saint spirit realm's spiritual power.

In reality, when the black Phoenix flying ship had entered the sect through the formation, no one had noticed it either. Up until now, they still didn't know that their sect master had returned to the sect.

Xia ruofei nodded in satisfaction and said,""Not bad! The strength of the disciples had increased by a little. The overall strength of the star Seizer sect should be ranked in the top ten in the cultivation world! However, compared to the top sects, their top combat power is still lacking. "

"Yes, I am!" Luo Qingfeng immediately said,"it's all my fault for being useless ..."

Xia ruofei waved his hand and said,"I don't blame you. How can it be so easy to cultivate an Aurous core stage cultivator?" Talent, strength, resources, and even luck were all indispensable! The star Seizer sect's Foundation was rather weak in the past, and it'll take time for them to catch up!"

"Thank you for your understanding, master!" Luo Qingfeng said,"however, the gap between us and master is getting bigger and bigger. I'm afraid that it will be difficult for us to help master in the short term. We have also wasted so many of master's cultivation resources ..."

Chapter 3878 New atmosphere (1)

Xia ruofei nodded and said,"have a seat!"

Then, he continued to write a few words on the paper. He picked it up and took a look at it again. He nodded with satisfaction and handed the paper to Luo Qingfeng, saying with a smile,""This is the list of fifty people that I've selected. From tomorrow on, the fifty people will be transferred out of their original posts and gathered together. You will follow their training in person and observe them in secret. If there are any problems, they will be eliminated at any time. We'd rather not have enough than have too many!"

Xia ruofei's accuracy in screening the star Seizer sect's disciples was definitely very high. However, people's thoughts could change. Hence, even if they were very loyal now, it did not mean that there would be no problems in the future. Hence, Xia ruofei urged Luo Qingfeng to take advantage of the time before they went to Peach Blossom Island to conduct a certain period of observation on these people. It was similar to military training. They would gather them together and then come up with a standard of evaluation. It would be best if they could give a quantitative evaluation.

Luo Qingfeng quickly took the piece of paper and said,""Yes! Master! This will be the most important matter for the star Seizer sect in the near future. Your subordinate will do his best to carry it out!"

After saying that, he couldn't help but glance at the list on the paper. When he saw some familiar names, he couldn't help but sigh in relief. Basically, the few disciples that he had focused on training, including the two elders that he valued more, were all on the list. This showed that there was no problem with the loyalty of these people, and their talents were at least passable.

There were still some names on the list that Luo Qingfeng only had an impression of. They were obviously low - Level disciples who had previously held unremarkable positions. However, the fact that they had been chosen by Xia ruofei showed that these people had a strong sense of belonging to the star Seizer sect and were extremely loyal. To these people, it was like a carp leaping over the Dragon's Gate.

It was just that they didn't know about it.

Xia ruofei continued,""The ones with a horizontal line below their names are the disciples that I think can be trained with emphasis. These people have a relatively higher chance of breaking through to the Golden core stage. In addition, there are a few other disciples whose cultivation is not bad at the moment and their loyalty is not a problem, but their room for improvement is limited. Even if they can break through to the Golden core stage in the future, it will be more difficult for them to go further. They can still get the opportunity to go to the Peach Blossom Island to cultivate, but they won't be able to receive special training and will have to undertake some work within their capabilities. "

Luo Qingfeng looked at the name list and found two disciples at refined Qi level 8. He usually paid more attention to them. Their names were not crossed out, which meant that Xia ruofei believed that their development potential was limited and that they were not worthy of a large amount of resources to focus on training.

Luo Qingfeng naturally did not doubt Xia ruofei's judgment. He nodded without hesitation and said,""I understand! Master, I'll also allocate cultivation resources to the disciples who are being heavily trained during this period of time so that they can make great progress before they reach the peach source Island!"

Xia ruofei nodded and said,"yes!" Two of them have relatively low cultivation levels, but they have great potential. You can pay special attention to them, and if necessary, you can personally guide them!"

"Alright!" Qingfeng Luo quickly went through the list again and asked tentatively,"master, are they Yuan Wenlong and Xu Wenfeng?"

There were only a dozen or so disciples that were marked as the focus of attention, and most of them were people that Qingfeng Luo knew well. He only had a vague impression of Yuan Wenlong and Xu Wenfeng's names, so it was easy for him to judge.

Xia ruofei nodded."Yes, they are only at refined Qi Level 3. However, they are talented and deserve to be trained!"

"Understood!" "Yes!" Luo Qingfeng replied respectfully.

Xia ruofei smiled and said,"you have to hurry up and train him!" You need at least one golden core cultivator to guard the sect. Only then can you go to the peach source Island to cultivate without worry!"

"Master, this subordinate will definitely do his best!" "Yes," Luo Qingfeng said."I also want to stay on the Peach Blossom Island to cultivate!"

Xia ruofei laughed and said,"then work hard to cultivate disciples!" When there are more golden core cultivators, you can take turns to guard the place!"

Xia ruofei stood up and said,""Alright, I'm almost done with the things here. I'll be going back to Peach Blossom Island!"

Xia ruofei nodded and said,"have a seat!"

Then, he continued to write a few words on the paper. He picked it up and took a look at it again. He nodded with satisfaction and handed the paper to Luo Qingfeng, saying with a smile,""This is the list of fifty people that I've selected. From tomorrow on, the fifty people will be transferred out of their original posts and gathered together. You will follow their training in person and observe them in secret. If there are any problems, they will be eliminated at any time. We'd rather not have enough than have too many!"

Xia ruofei's accuracy in screening the star Seizer sect's disciples was definitely very high. However, people's thoughts could change. Hence, even if they were very loyal now, it did not mean that there would be no problems in the future. Hence, Xia ruofei urged

Luo Qingfeng to take advantage of the time before they went to Peach Blossom Island to conduct a certain period of observation on these people. It was similar to military training. They would gather them together and then come up with a standard of evaluation. It would be best if they could give a quantitative evaluation.

Chapter 3879 A new atmosphere (2)

Luo Qingfeng quickly took the piece of paper and said,""Yes! Master! This will be the most important matter for the star Seizer sect in the near future. Your subordinate will do his best to carry it out!"

After saying that, he couldn't help but glance at the list on the paper. When he saw some familiar names, he couldn't help but sigh in relief. Basically, the few disciples that he had focused on training, including the two elders that he valued more, were all on the list. This showed that there was no problem with the loyalty of these people, and their talents were at least passable.

There were still some names on the list that Luo Qingfeng only had an impression of. They were obviously low - Level disciples who had previously held unremarkable positions. However, the fact that they had been chosen by Xia ruofei showed that these people had a strong sense of belonging to the star Seizer sect and were extremely loyal. To these people, it was like a carp leaping over the Dragon's Gate.

It was just that they didn't know about it.

Xia ruofei continued,""The ones with a horizontal line below their names are the disciples that I think can be trained with emphasis. These people have a relatively higher chance of breaking through to the Golden core stage. In addition, there are a few other disciples whose cultivation is not bad at the moment and their loyalty is not a problem, but their room for improvement is limited. Even if they can break through to the Golden core stage in the future, it will be more difficult for them to go further. They can still get the opportunity to go to the Peach Blossom Island to cultivate, but they won't be able to receive special training and will have to undertake some work within their capabilities. "

Luo Qingfeng looked at the name list and found two disciples at refined Qi level 8. He usually paid more attention to them. Their names were not crossed out, which meant that Xia ruofei believed that their development potential was limited and that they were not worthy of a large amount of resources to focus on training.

Luo Qingfeng naturally did not doubt Xia ruofei's judgment. He nodded without hesitation and said,""I understand! Master, I'll also allocate cultivation resources to the disciples who are being heavily trained during this period of time so that they can make great progress before they reach the peach source Island!"

Xia ruofei nodded and said,"yes!" Two of them have relatively low cultivation levels, but they have great potential. You can pay special attention to them, and if necessary, you can personally guide them!"

"Alright!" Qingfeng Luo quickly went through the list again and asked tentatively,"master, are they Yuan Wenlong and Xu Wenfeng?"

There were only a dozen or so disciples that were marked as the focus of attention, and most of them were people that Qingfeng Luo knew well. He only had a vague impression of Yuan Wenlong and Xu Wenfeng's names, so it was easy for him to judge.

Xia ruofei nodded."Yes, they are only at refined Qi Level 3. However, they are talented and deserve to be trained!"

"Understood!" "Yes!" Luo Qingfeng replied respectfully.

Chapter 3880 Methodically (1)

Xia ruofei returned to the suite after breakfast.

Although he had already made up his mind to transfer the ordinary workers and security guards on Peach Blossom Island, it was not something that could be done in a day or two. It had to be done step by step. Hence, after Xia ruofei handed over some of the preliminary work to Li Yifu, he went upstairs to cultivate.

Xia ruofei returned to his bedroom, locked the door and set up an alarm array. Then, he took out the spirit map and entered the space.

He decided to train his spiritual power first. His sea of consciousness had fully recovered these days, but he was busy with other things and didn't train his spiritual power. Since he had nothing to do today, he thought of breaking through the array first.

Since Song Wei and the rest were not with him, Xia ruofei did not need to go to green Immortal Island to set up a 'small secret realm'. He could just enter the spirit map space in his room.

He also appeared directly on the island in the depths of the space ocean. After adjusting his state slightly, he stepped into the array.

The Halos lit up one by one and then extinguished one by one from the inside out. In the end, only the third Halo remained lit.

The array would record the aura of every cultivator who entered it. The last time Xia ruofei tried to break through the array, which was when he broke through to the Saint spirit realm, he was already in the third Halo. Hence, he did not need to start from the first Halo.

Xia ruofei strode past the first and second light rings and entered the third light ring.

The powerful spiritual pressure and the impact of the hammer in the sea of consciousness came almost at the same time. Xia ruofei's body shook a little but he quickly stabilized himself.

In the past few times, Xia ruofei could last for a while in the third Halo, but every second was extremely torturous. After all, the third Halo was equivalent to the Saint spirit realm. To him, it was a cross - Realm challenge.

Now that his spiritual power had broken through to the Saint spirit realm, it was much easier for him to reach the third Halo.

At least, it was like this when the formation was first activated.

One minute, two minutes, three minutes ...

After a short while, Xia ruofei had lasted longer in the third Halo than the last time, and he felt that he still had some energy left.

It seemed that the breakthrough of a major realm had a rather obvious increase in his overall strength.

As time went by, Xia ruofei gradually felt that it was getting harder. The pressure of his spiritual energy was constantly increasing, and the hammering and vibration force in his sea of consciousness was also increasing. Each round of hammering was stronger than the previous round. Although it was only a little increase each time, the accumulation was not to be underestimated.

Moreover, the frequency of the hammering was extremely high, a few times per second, so the speed of the increase in the hammering strength was also quite fast.

Xia ruofei managed to hold on for 11 minutes. Finally, he couldn't hold on any longer. He groaned and was thrown out of his control.

Chapter 3882 Proper arrangements (1)

Xia ruofei chuckled and said,"old company commander, I'm just here to have a chat with you. The guards have been stationed on peach source Island for two or three years. How are our brothers 'thoughts?" Is everyone satisfied with your current life?"

Ma Jia looked at Xia ruofei strangely and said,""Why are you suddenly asking this? You've given us a good salary, and there are many new weapons and equipment from foreign armies here. Everyone must be very satisfied with the current situation!"

"I don't think so?" Xia ruofei chuckled."We're stuck on a small island all day long. It's so big and there are so many restricted areas. We'll see more than a hundred people every day. I'm sure you'll feel uncomfortable after a long time, right?"

Xia ruofei casually asked the Guard's opinion at the entrance of the camp. In fact, this was human nature. After all, humans were social animals, especially ordinary people in the secular world. Compared to cultivators, they yearned for a lively life. The environment of Paradise Island was indeed pleasant. It should not be a problem if it was a few months to a year. It could be considered a vacation on the island. However, after a long time, everyone would probably become a little irritable.

Ma su was silent for a moment before saying,"there is a situation like what you said. However, it is not serious. The main thing is that everyone used to be in the Army. They are more adaptable to this relatively closed life than ordinary people." In my case, it's better for my family to still be working on the island. Of course, there are still some problems. For example ..."

Speaking of this, Ma Jia showed a trace of embarrassment and said,""We originally planned to have a child, but we didn't dare to have one for the past two years. One, we were afraid that your sister-in-law's pregnancy would affect her work. Two, after the child is born, it would be a problem to take care of it. These were the more realistic problems. However, the difficulty was temporary and could be overcome! If your sister - in - Law is pregnant in a year or two, I'll ask her to resign and go back to take care of the child. I have a high income here, so it won't be a problem to give the child a good life. "

Xia ruofei nodded silently, then took out a cigarette from his pocket and gave one to Ma Jia. The two lit the cigarette and took a few puffs in silence.

In the end, it was Ma Jia who broke the silence. He asked,""Ruofei, do you have any new ideas for suddenly asking this today?"

Xia ruofei nodded and said,"old company commander, I've been thinking about this problem for a while. We can't go on like this for a long time. Other brothers must more or less have the same problem as you. I know many of them don't have a partner yet. If we stay on this Island, where are we going to find a partner? Just a few days of vacation for a blind date? This is not reliable ..."

"Ruofei, you ... You want to disband the guards?" ma su asked calmly.

Xia ruofei said seriously,"to be precise, I want to remove all the staff on Peach Blossom Island. After all, the situation around the island has been stable for the past few years. Besides, I don't have much time to come here for vacation. It's really unnecessary to place so many people on this Island."

Ma SU's heart couldn't help but tremble. He had already realized that Xia ruofei might have made a big adjustment, but he didn't expect it to be so thorough.

However, he also knew that the guards were Xia ruofei's mercenaries. Even if Xia ruofei was an old comrade, he was still a private boss and could not be compared to a secure job. Even in the top 500 companies, it was normal for an entire Department to be laid off due to strategic adjustments. As long as they were compensated according to the law, there was nothing wrong with it.

Furthermore, Xia ruofei was his former soldier. As Xia ruofei's former company commander, he had to set a good example and support Xia ruofei at this time.

So, with a quick thought, Ma Jia immediately said,""You're right. There aren't many jobs on this Peach Blossom Island, and everyone's salary alone is a huge expense. But ... It's not appropriate for you to talk about this. Ruofei, let me talk to the brothers! I believe everyone can understand! We've all earned a lot of money in the past few years, so we should have enough capital to start a small business. "

Xia ruofei knew that Ma Jia had misunderstood him.

He smiled and said,"old company commander, I don't want to fire everyone. I just want to change your workplace. I don't plan to have permanent staff on peach source Island. If you need to go on a vacation in the future, we can hire a professional team to protect you."

"Change to another workplace?" Ma Jia couldn't help but feel surprised.

Xia ruofei chuckled."This is my initial consideration. There are a few options for everyone to choose from. First, let me talk about my brothers in the guards. I have a farm in Australia and I need some security personnel there. If anyone wants to continue working overseas, I can arrange for them to go to Australia. In addition, the security Department of the Paradise Corporation in Sanshan also needed to be expanded. The other

brothers could choose to work in the Paradise Corporation. Of course, if you go to paradise Corporation, the pay might not be as high as here. "

"That's for sure. "Ma Jia quickly said," this is an Island in the outer sea, after all, and the conditions here are not as convenient as those in China. "

Chapter 3883 Proper arrangements (2)

Xia ruofei smiled."The main thing is that the salary and treatment can't be too different from the old employees. Otherwise, it will easily cause internal conflicts." However, if the treatment is really much worse, I can pay for everyone out of my own pocket. It won't cause a big difference in treatment. "

Nowadays, money in the secular world did not mean much to Xia ruofei. Besides, he had so much money that he could never finish spending it. Even if he did not make any investments, just the interest of his bank savings was enough for him to squander. Even if he used his own money to subsidize more than 100 people, it was not a big deal even if it was 10 to 20 million US dollars a year.

"No need!" Ma Jia quickly replied. Where you work, it'll be based on the market. How can you pay out of your own pocket? There's no such logic!"

Xia ruofei waved his hand and said,"old company commander, we'll talk about this later. Do you think this arrangement is appropriate?" After all, I'm the one who brought my brothers overseas. It wouldn't be good if everyone misunderstands that I'm not going to care. "

"That's not necessary. If you didn't provide us with this job, many of our brothers in the guard would have had a hard time. We can't even thank you enough!" Ma su said,"ruofei, you've already considered everything for everyone. I don't think there's any problem! How about this! I'll tell you the two options you've proposed and let you sign up first. If there are too many people in Australia who don't need that many people, we'll choose the best!"

Xia ruofei nodded and said,"let's ask for our brothers" opinions first!" If everyone is willing to work in Australia, I will try my best to satisfy everyone's wishes!"

Peach Blossom Farm was so big, so it was not a big deal to put a few more security personnel there.

Of course, if they didn't need so many people, they could also send some to the winery or to Tang Yitian's company. These were all Special Forces and Scouts with very good skills. They were absolutely competent in the security position.

Xia ruofei thought for a while and said,"Oh right, if you're going to work in Australia, you'll need to apply for a work visa as usual. I'll ask the people in Australia to send an invitation letter. The visa should be fine!"

"Alright!" Ma Jia nodded.

Then, Ma Jia couldn't help but ask,"RUO Fei, what about the staff members other than the guards? What are your plans?"

Ma Jia's wife, Lin Yue, was working at the meteorological station of Peach Blossom Island Airport, so he was still more concerned about this matter.

Xia ruofei laughed and said,"let everyone choose!" "I'll be in charge of making arrangements for those who wish to work in Australia. Paradise Corporation can provide suitable positions for those who wish to return to China. However, some of them will have to change their profession. The company doesn't need someone like sister - in - Law who specializes in Meteorology. Of course, if sister - in - Law really loves this profession, I can arrange for her to work at a bigger meteorological station through some personal connections in the country. There's no problem!"

Even if Xia ruofei couldn't take care of everyone's feelings, he could still make arrangements for the old company commander's family.

"I'll ask her later, but no matter what we choose, we'll definitely choose the same place. " Ma Jia forced a smile and said,"when I was in the Army a few years ago, I had enough of living in two different places!"

Xia ruofei laughed and said,"no problem!" You can choose to go to Australia to work. My farm in Australia is located in the Hunter Valley near Sydney. The scenery is beautiful and the air is good. The most important thing is that it's not as closed off as peach source Island. The people there are very simple and honest, and it's also very convenient to go to Sydney, including going back to visit relatives. It's much more convenient than here!"

Ma Jia was immediately moved. He smiled and said, "I'll go home later and ask your sister - in - Law for her opinion!"

Xia ruofei nodded and said,"okay!" Old company commander, in these two days, you should seize the time to ask for everyone's opinions and then summarize them. I'll do it tomorrow ... The day after tomorrow! I'll come over the day after tomorrow and we'll decide on the final distribution plan. "

"Alright! Just leave it to me!" Ma Jia said straightforwardly.

As a matter of fact, Ma Jia had been living a somewhat depressing life in the last two or three years on the peach source Island. If he could leave the island and the treatment wouldn't be reduced too much, he would be quite willing to do so. Besides, many of the

guards were able to persist because of the high salary, so he believed that everyone would not reject the idea of separation.

Xia ruofei stood up."Then I'll go back first. Old company commander, see you in two days!" He said.

As he left the guard Camp, Xia ruofei looked back again. The camp had been set up with great care. He had put in a lot of thought in the beginning, and Xia ruofei had even spent tens of millions of dollars to get Li Yifu to buy a large number of advanced weapons and equipment from the black market overseas. The guards could be said to be armed to the teeth. Once the personnel were withdrawn, these weapons and equipment could not be taken away. Their ultimate fate was to be sealed in the shelter's warehouse. Never to see the light of day.

After all, with Xia ruofei's strength, he had no need for these firearms.

However, it was imperative to evacuate the people. Although Xia ruofei was a little reluctant, he turned around and left resolutely after a few glances.

When they reached the forest, Xia ruofei used his spiritual power to sense the surroundings. There were no hidden guards. Hence, he casually activated a concealment talisman and flew back to the Yanhuang building on his sword.

The guards were all Xia ruofei's old comrades and some of them were even his old superiors. Out of respect for Xia ruofei, he had to personally come to inform Ma Jia about this matter. As for the staff members in other positions, Li Yifu had to inform them. Some of Li Yifu's trusted subordinates could directly return to the United States to work, and their mouths would be tightly sealed. When they returned, they would naturally tell the family members the news as soon as possible, so Xia ruofei did not need to worry.

After returning to the Yanhuang building, Xia ruofei called Li Yifu over and asked him about the coordination between the various parties. At the same time, he told Li Yifu to inform the staff at other positions other than the guards that they were ready to evacuate. Xia ruofei especially told Li Yifu to make it clear to the staff who were more skilled and had to stay in their positions after the cultivators arrived. They were the last batch to evacuate and needed to stay on the island for a while. With a cultivator's learning ability, it wouldn't take too long.

Li Yifu took the order and left, while Xia ruofei continued to cultivate in the suite on the top floor.

He had originally planned to meet Ma Jia at the guard Camp on the third day. He did not expect Ma Jia to call him on the second day. Every location in the inner part of the island could be contacted through the internal telephone. Ma Jia also knew the internal telephone number of Xia ruofei's suite in the Yanhuang building, so it was easy to find Xia ruofei.

"RUO Fei, do you have time today? If you have time, come to my house now!" Ma Jia said.

Xia ruofei smiled and said,"old company commander, you're very efficient!" I gave you two days, and you've finished your work in less than a day?"

"I'm sure everyone would be willing to work outside the island,"Ma Jia said with a smile." So, when I suggested it, everyone responded one after another and even actively signed up!" We'll talk about the details when we meet!"

"Alright!" Xia ruofei said,"I'll go over now ..."

He raised his hand to look at his watch and found that it was almost lunch time, so he smiled and said,""Old company commander, let sister - in - Law prepare a few dishes to go with wine! I've brought two bottles of good wine, let's drink and chat!"

"Alright! We haven't had a drink together in a long time!" Ma Jia said with a smile,"it just so happens that we have fresh beef and a lot of seafood at home. They were all purchased from the outer island by our brothers on the supply ship yesterday. I'll ask your sister - in - Law to make a few dishes!"

Chapter 3884 Reunion of old friends (1)

Ma Jia's house was located between the guards and the airport. A row of bungalows was originally built here, but it was later used as the staff dormitory for the couple on the island.

It wasn't too far from here, whether it was to the guard or the airport weather station.

Of course, the Paradise Island itself was not very large. Even if it was from the easternmost end to the westernmost end, the distance was very close compared to the commuting distance of a few kilometers, ten kilometers, or even dozens of kilometers in big cities.

Xia ruofei drove an off - Road vehicle from the Yanhuang building and arrived at the single - story dormitory where Ma Jia and his wife were staying in a few minutes.

He was holding two bottles of aged wine Eight Immortals in one hand and a food bag in the other, which contained a Whole Smoked Goose.

This was the first time he had seen a specialty store selling authentic Wuyi Mountain's langu smoked geese on the San Shan Street two or three years ago. He bought more than a dozen in one go. Because it was stored in the spirit map space, the smoked goose was almost the same as when it was just bought. Because it had been placed in an environment rich in spirit Qi for a long time, the taste was even better than before.

Moreover, for ordinary people, this kind of food soaked in rich spirit Qi was definitely very good for their bodies.

When Xia ruofei was young, his grandfather had brought him to a small restaurant on the street to eat LAN Gu's specialty smoked goose. Since then, Xia ruofei had fallen in love with this unique taste, especially the one with the strongest spiciness. The batch of smoked geese he had bought last time were all the spiciest.

However, Xia ruofei remembered that Ma Jia and her husband were good at eating spicy food, so he felt that this smoked goose should be to their taste.

When they saw Xia ruofei, Ma Jia and her husband welcomed him warmly.

"Old company commander, sister - in - Law, one more dish!" Xia ruofei chuckled as he handed the smoked goose to Ma Jia's lover, Lin Yue."The smoked goose from Wuyishan. It's from the cold chain by air. I took it out of the refrigerator this morning to prepare for lunch!"

"Then I'll take it and cut everything!" Lin Yue did not stand on ceremony with Xia ruofei and said with a smile,"you two brothers can chat first. I'll just cook two more dishes. You can drink some first!"

"Alright! It's been hard on sister - in - Law!" Xia ruofei said with a smile.

Ma Jia and Xia ruofei came to the table and sat down. Xia ruofei immediately placed two bottles of wine, Drunken Eight Immortals, on the table and said with a smile,""Old company commander, there's nothing much to do today, so let's each take a bottle. No one is to play dirty!"

Ma Jia's alcohol tolerance was not bad, and one pound of white wine was not enough to make him drunk. However, he still hesitated and said,""Ruofei, I'll be very busy for the next two days. I still want to go to the guard Bureau to talk to a few brothers in the afternoon!"

Xia ruofei waved his hand and said,"there's no rush." You should rest well in the afternoon after drinking. No matter what happens, we can talk about it tomorrow!"

"This ..." Ma Jia hesitated for a moment, then nodded and said,"alright!"

After all, he had not drunk with Xia ruofei for a long time. With his alcohol tolerance, he would not lose consciousness even if he drank half a liter. He could still handle some work at home.

The two of them opened their bottles and didn't pour each other any wine, minding their own business.

After the glass was filled, Xia ruofei raised it and said,""Old company commander, I'll first offer you a toast! Thanks to your help these past few years, this Peach Blossom Island has been impregnable!"

"Your words make me feel very embarrassed!" Ma Jia said with a bitter smile,"except for a few Pirates who appeared in the first year, who were far away from Paradise Island and were scared away by a few shots, this place has been calm since then. The annual salary of the guards is in the millions of us dollars. I even felt that I had received the reward for nothing!"

At this time, Lin Yue brought the smoked goose that had been cut up and said with a smile,""Ruofei, you guys drink first. I'll go and make two more dishes!"

"Sister - in - Law, there's already a lot of food, you don't have to be busy! Let's sit down and eat!" Xia ruofei said.

"Don't worry, it'll be quick! You guys have a chat!" Lin Yue said with a smile.

Xia ruofei felt that Lin Yue's mood should be quite good. She must have known that the staff of Peach Blossom Island were about to evacuate. It seemed that Ma Jia had already discussed it with her.

After Lin Yue returned to the kitchen, Xia ruofei asked,""Old company commander, have you told sister - in - Law?"

"I told her yesterday!" Ma Jia nodded.

"What is sister-in-law's consideration?" Xia ruofei asked.

Ma Jia smiled and said,"she thinks it's a good choice to leave peach source Island. It's far away from the prosperity here. It'll be lonely for a long time. Moreover, her parents are still in their hometown. They can only contact each other through the phone and the Internet. Her parents are getting old day by day. As their children, it's really a helpless thing that they can't be filial to their children ..."

The external communication on the Peach Blossom Island was completed through satellites, so both the telephone and the Internet charges were relatively high. Although Ma Jia and the others had a good salary, it was impossible for them to fully access the internet, so it was indeed a problem to contact their families.

Xia ruofei nodded and said,"so you two have the same opinion?" Do you want to go back to work or go to Australia?"

"After careful consideration, we've decided to return to China to develop our business!" Ma Jia said. Although Sanshan isn't our hometown, it's in China, after all, so it's much more convenient to contact! Besides, we've been making a lot of money in the past few

years, so it shouldn't be a problem to buy a big house with a mortgage in Sanshan. When the time comes, I'll bring my in - laws over. If we have a child in a year or two, life will be perfect!"

Chapter 3885 Reunion of old friends (2)

Xia ruofei replied without hesitation,"no problem!" If the old company commander is willing to return to China to develop your career, I can make the decision to let you be the Vice president of the company's security Department. The salary, bonuses, and dividends will not be worse than working here! "If sis - in - Law wants to work at paradise Corporation, that's fine too, but she'll have to give up on her profession. After all, our company doesn't really need people in the field of Meteorology ... If she still wants to work at the meteorological station, I can help you contact her. Whether it's the southeastern province's or Sanshan city's meteorological station, it shouldn't be a problem!"

Ma Jia was touched and said,""Ruofei, thank you for helping your sister - in - Law! "She still wants to work in her major. It would be great if she could work at the provincial meteorological station. It doesn't matter if she has an establishment or not, as long as her job is relatively stable ... As for me ... The position of Vice President is too high, I can't afford it. It would be good if you could arrange a supervisor or Deputy Supervisor of a team. The main reason is that some of my brothers will also work at Sanshan. It would be more convenient for me to continue to bring them to serve the company at that time. Otherwise, I would be fine with not having a position!"

Xia ruofei waved his hand and said,"old company commander, don't be humble!" Do you think I'm not clear about your ability? Not to mention the Vice President, even if the entire Security Department was handed over to you, there would be no problem! However, the company's security Department was established a few years ago, so I can't just replace the head of the security Department. However, it's not a problem to add a Vice President of the security Department. As you said, you'll be mainly responsible for leading our brothers in the police force!"

"That's fine ..." Ma Jia nodded and said,"thank you, ruofei!"

Xia ruofei quickly said,"old company commander, you don't have to be so polite with me!" Come to think of it ... If you two return to work, your family income will definitely be less than here. It's fine for you to be the Vice President, and your salary will only be a little higher than here. However, if sister - in - Law goes to the provincial meteorological station, you know how much the public institution pays her ... I'm also responsible for this. "

Lin Yue's monthly salary here was 30000 to 40000 US dollars. If she went back to San Shan to work, she would probably only get 4000 to 5000 at most, and it would be in Chinese dollars.

This was the treatment of public institutions. Moreover, the meteorological station did not bring much benefit. It was basically the Qingshui Yamen. It was certainly impossible for them to get such a high salary as peach source Island.

"What does this have to do with you?" Ma Jia said with a smile. What responsibility do you have? It was your sister - in - Law and I who chose it! Besides, we've been earning around a million dollars every year for the past few years, and there's nothing to spend here. We'll be multimillionaires when we go back, so what's there to be unsatisfied about?"

Xia ruofei continued,"old company commander, how about this?" I won't say anything about compensating sister-in-law's income, but you definitely can't accept it! How about this! I'll give you a flat near the provincial meteorological station. This way, you don't need to use your savings to buy a house, and it'll be much easier financially!"

"Aren't you talking nonsense?" Ma Jia was anxious when she heard this."Can I take your house? I've already said that this is our own choice, and it has nothing to do with you! If you can arrange for your sister - in - Law to work at the provincial meteorological station, it'll be our friendship as comrades. If you give me a big house, what will it become? RUO Fei, if you really think I'm your old company commander, don't mention this again!"

At this moment, Lin Yue walked over with two dishes and glared at MA tuo with a reproachful look, saying,""What are you doing? I can hear your anxious voice in the kitchen, can't you talk properly? RUO Fei hasn't been here for so long, and you're giving him a hard time the moment you come. Is there a big brother like you?"

"Aren't you talking nonsense?" Ma Jia was anxious when she heard this."Can I take your house? I've already said that this is our own choice, and it has nothing to do with you! RUO Fei hasn't been here for so long, and you're giving him a hard time the moment you come. Is there a big brother like you?"

Ma Jia was a little afraid of his wife, but today he straightened his neck and said,""You didn't hear what he said just now! "He said that if we return to San Shan, he'll give us a house. It'll be a subsidy for your decrease in income ..."

When Lin Yue heard this, she couldn't help but say to Xia ruofei,""Ruofei, this is your fault. Your old company commander's criticism is right! It's true that we're comrades, but you can't just give me a house! We can't accept such a valuable thing!"

"Yeah!" Ma Jia also said. Thanks to you, we now have a certain amount of assets and can afford a house. Why are you giving us a house?"

Xia ruofei saw the couple echoing each other and could only say weakly,""I ... I'm just thinking that if you really work at the provincial meteorological station, your income will be much lower."

"The provincial weather station?" Lin Yue's eyes could not help but light up.

"We'll talk about the weather station later," said Ma Jia."Now we're talking about the house!"

"Yes, yes, yes! We can't take the house!" Lin Yue said with a firm stand.

"Aren't you guys planning to have children? Can't you just treat it as my gift to nephew Gu?" Xia ruofei said,"you guys know that I'm not short of money. A house is nothing to me!"

"Why would you use a house as a birthday gift?" Ma Jia smiled bitterly."If you're really sincere, when our child is born, you can give us a pair of gold bracelets or something. We'll accept it without a second thought. Even if you're rich and use more gold, we won't embarrass you. But a house definitely won't do. You know how expensive the houses in San Shan are. A large flat costs at least a few million Yuan! Do you think I can take it?"

"Alright! Then I take back my words!" Xia ruofei said helplessly.

He respected Ma Jia, the old company commander, from the bottom of his heart. He also felt that money meant nothing to him. Spending millions and tens of millions to buy a house for Ma Jia was not even a drop in the ocean for him. But now that he thought about it, he was a little too subjective. To Ma Jia and her husband, this was a little like charity. They would definitely not accept it.

If he didn't want to accept it, then so be it. Anyway, there were many ways to repay the old company commander. It would be good enough to give their future child a jade pendant or something. This jade pendant must have been made by him himself. It would be no problem to ensure the child's safety for the rest of his life. Wasn't this more precious than a house?

After thinking it through, Xia ruofei no longer felt conflicted.

"That's the way!" Ma Jia said with satisfaction,"if you know your mistake and correct it, then you are a good comrade!"

Lin Yue also sat down and asked somewhat anxiously,""What did you mean by the provincial meteorological station?"

"Just now, RUO Fei said that if you're willing to accompany me to San Shan to work at the an family, he'll be in charge of coordinating your work at the provincial meteorological station ... Of course, if you want to work at the city meteorological station, that's not a problem!" Ma Jia said with a smile.

"Really, ruofei?" Lin Yue asked in surprise and joy.

Xia ruofei nodded with a smile and said,""It shouldn't be a big problem to coordinate this matter in San Shan. As long as sister - in - Law is willing, she can go to work at any time!"

Song Qiming was now the boss of the entire Southeast province. It was not a problem for him to get an official position in a public institution. Xia ruofei only needed to say the word and he could get it done on the same day.

"Thank you so much!" Lin Yue happily said. Then, she took Ma Jia's bottle and poured herself a glass of wine, saying,"come! Let sister - in - Law give you a toast to express her gratitude!"

Xia ruofei smiled and said,"sister - in - Law, you don't have to be so polite with me!" However, I can't refuse sister-in-law's offer to drink with me!"

After he finished speaking, he raised his glass and clinked it with Lin Yue 'S. He then raised his head and drank the white wine in the glass.

Then, Xia ruofei turned to Ma Jia and asked,""Captain, have you informed the guards? What's everyone's reaction?"

"Yes." Ma Jia nodded and said,"in general, everyone is more willing to leave Paradise Island. As for the choice of destination ... Perhaps it's because they've lived overseas for a long time, so there are more people who choose to return to work. There are about a hundred people! I'm still counting the number of people, but there are still some things that I want to report to you in advance!"

Chapter 3886 An orderly evacuation (1)

Xia ruofei smiled and said," old company commander, do you have to be so formal in private? " Report ... Speak! What's the situation? "

"There are a few brothers who might not want to accept the job you're offering,"said Ma Jia."They want to start their own business ..."

Xia ruofei was not surprised. There were more than 150 people in the guard. Everyone had different thoughts. It was impossible for everyone to be willing to continue working if

the guards on peach source Island were to be evacuated. Furthermore, if they were to work in China, the salary would be greatly reduced.

After all, in the past few years, even an ordinary security guard had a monthly salary of about 30000 US dollars. In other words, each of them had an income of more than a million US dollars. It was a large sum of money when they brought it back to China. It was very normal for some people to want to start their own business.

Of course, Xia ruofei did not mind. In fact, he had offered them the job opportunities because of his camaraderie and the fact that he had recruited them to be responsible for their work. If they were willing to give up, Xia ruofei would not force them.

"Are there many people who don't want to accept the job? " Xia ruofei asked.

"Not too many, just a dozen!" Ma Jia said, " two of them are the backbone of the team. They are Wu Jiasong and Zhong Lin. "

Xia ruofei remembered the name as soon as he heard it. He was quite familiar with these two people because they were both part of the lone wolf assault team. Wu Jiasong was the instructor of the security company and Zhong Lin was the Deputy company commander of the automobile company. As both of them were part of the security team of the lone wolf assault team, Xia ruofei was not very familiar with them during his service in the Army. However, he went to the lone wolf assault team to recruit veterans. Wolf King Guo Zhan invited him to dinner. At the same time, she introduced him to a few outstanding retired officials, including Wu Jiasong and Zhong Lin.

Xia ruofei smiled and said," the two of them!" I remember the wolf King introduced them to me before. These two were left behind because of the military reform and were about to transfer to another job. At first, they chose to be discharged and prepared to use the money to start their own businesses. Later, I went to recruit security guards, and they changed their minds at the last minute and joined the peach blossom security team."

"Yes!" Ma Jia nodded and said. Yes! Back then, they had chosen to join the Paradise guards because they valued the advanced weapons and equipment that the guards could access from foreign armies. In addition, they were also familiar with military life and the benefits were higher. "Now that the Paradise Police force is going to disband and evacuate, they aren't very interested in new jobs, be it in Australia or in the Paradise company in China ... In addition, they've saved a large sum of money over the past few years, enough to start a business. Therefore, the two of them made their decision without much consideration."

"Are the other people in the same situation?" Xia ruofei asked.

"Almost!" Ma Jia nodded and said. A few of them are preparing to start a business with Wu Jiasong and Zhong Lin, and a few of them are preparing to return to their hometown

because of some practical situation at home. After all, they've made quite a lot of money in the past few years. "

Xia ruofei thought for a while and said,"sure. A melon that is forcefully twisted is not sweet. Since it's everyone's wish, we must satisfy it." Old company commander, how about this! I'll personally compensate each of the brothers who chose to leave 150000 US dollars. Whether it's compensation or dismissal fee, it's still my personal compensation to them. Tomorrow, go to the guard and announce this new condition. If anyone wants to change their mind and quit voluntarily, we will not stop them!"

Ma Jia hesitated for a moment, but she still nodded and said,"Alright! I'll gather everyone together tomorrow to talk about it!"

When Xia ruofei said that he wanted to compensate ma su with a house, he had a strong reaction and rejected it sternly without even thinking. But this time, Xia ruofei wanted to compensate his brothers who had quit voluntarily, so he could not refuse. After all, this involved so many people, and he could not represent everyone to reject it.

Even in an ordinary company, there was a need to compensate employees when they were laid off. Whether it was N+1 or N +1, there was always a policy basis. Of course, Xia ruofei's compensation was higher because of youzhan's friendship.

Xia ruofei smiled."That is to say, according to the current situation, about 100 people are willing to work for paradise Corporation. More than 10 people voluntarily quit. That means about 30 to 40 people will choose to work in Australia?"

"That's about it," Ma su nodded and said,"after we announce the new compensation method tomorrow, it's hard to say if anyone will change their mind. But even if someone changes, the number of people who need to be arranged will only be fewer."

Xia ruofei thought for a while and nodded.""No problem! When the time came, everyone would return to the country and settle down in Sanshan. For those who wanted to go abroad to work, the company would send out invitations and organize for them to apply for their passports. Then, they would go to the consulate to get a visa. Under normal circumstances, there should not be a big problem. It'll be even easier to join the Paradise company. It'll be done very quickly after we return to the three mountains!"

Xia ruofei smiled and said,"old company commander, do you have to be so formal in private?" Report ... Speak! What's the situation?"

"There are a few brothers who might not want to accept the job you're offering," said Ma Jia. "They want to start their own business ..."

Chapter 3888 The embryonic form of a sect (1)

Three mountains, paradise building.

At this time, the sky outside was slightly dark, and it was almost time to get off work.

In the spacious and luxurious CEO office, Feng Jing was intently looking through a report, showing no signs of getting ready to leave.

She had been officially in charge of paradise Corporation for more than two years now. She was no longer the White - collared worker who had returned from abroad. She had established a high prestige in the company. Although she still looked weak on the outside, she always gave people a feeling of power without being angry.

Feng Jing looked at the report for a while before putting it down. She massaged her temples and let out a long sigh.

She wasn't worried about her work. In fact, the development of paradise Corporation in the past two years could be said to be smooth sailing, especially the rapid expansion of the pharmaceutical factory, which brought a large amount of cash flow to the company. Paradise Corporation had always been operating with zero debt, and the amount of funds deposited was increasing. In the past year or so, under Feng Jing's suggestion, the company had already begun to invest in other fields, and the embryonic form of a large corporation group had begun to take shape.

As the leader of this money - sucking behemoth, Feng Rao felt an incomparable sense of accomplishment.

However, she would always inadvertently think of the figure that she had been dreaming of.

Sometimes, when she was not working, that figure would suddenly barge into her mind and disturb her mood.

In fact, Xia ruofei had almost stopped caring about the business of the Paradise Corporation. However, the personal mark he had left in the company was still deeply engraved in the hearts of every founding member.

Even though Zheng Yongshou was an outstanding contact person, even better than when Xia ruofei was handling the company's Affairs personally. After all, Xia ruofei had so many things to do, and he would often miss out on the company's Affairs. However, after handing these contact matters to Zheng Yongshou, Zheng Yongshou handled them well every time. This included some work that Feng Jing and the others didn't know about, such as adding the spirit Heart Flower petal solution at Taoyuan farm.

However, Feng Jing felt that something was missing.

She usually lived in the jiangbin villa district. If she was not busy with work, she would take a walk in the district when she returned home early. Every time, she would unknowingly walk near Xia ruofei's Villa. However, without exception, the villa was dark and empty.

Once, she saw someone in the villa. Before Feng Jing could feel any joy, she realized that it was the housekeeper who came to clean the villa regularly.

Feng Rao had no idea what Xia ruofei had been busy with for the past two years. She even felt that Xia ruofei had left the three mountains.

She just threw such a huge company to them and left on her own ... Feng Jing couldn't help but grit her teeth every time she thought about this.

After a long day of work, Feng Jing felt exhausted. She put down the report and was about to take a break when she couldn't help but think of Xia ruofei.

Where was he now? What was he doing? Why didn't they care about the Paradise Corporation? Could there be anything more important than running such a big company?

At that moment, Feng Jing's phone on her desk rang.

Feng Jing rubbed her eyes and adjusted her emotions. She then picked up the phone and said in a calm voice,""Hey ..."

"Sister Che!" Xia ruofei smiled and said,"long time no contact!"

Feng Jing was completely stunned. She even wondered if she was dreaming. After all, this wasn't the first time she had dreamed of such a scene.

Xia ruofei didn't hear anything and thought that the signal was bad. He couldn't help but say,""Hello? Hello? Sister che, can you hear me?"

Feng Rao came back to her senses and said,""I'm here ..."

Feng Jing was trying her best to keep her voice as calm as possible, but her voice was still trembling.

"Sister che, are you alright?" Xia ruofei asked with a smile.

"I'm fine! I'm busy with work at the company, and I've had a fulfilling day!" Feng Rao said, then pretended to be relaxed and asked,"where are you having fun? Why did you suddenly call me today?"

However, Feng Jing felt that something was missing.

She usually lived in the jiangbin villa district. If she was not busy with work, she would take a walk in the district when she returned home early. Every time, she would unknowingly walk near Xia ruofei's Villa. However, without exception, the villa was dark and empty.

Once, she saw someone in the villa. Before Feng Jing could feel any joy, she realized that it was the housekeeper who came to clean the villa regularly.

Feng Rao had no idea what Xia ruofei had been busy with for the past two years. She even felt that Xia ruofei had left the three mountains.

She just threw such a huge company to them and left on her own ... Feng Jing couldn't help but grit her teeth every time she thought about this.

After a long day of work, Feng Jing felt exhausted. She put down the report and was about to take a break when she couldn't help but think of Xia ruofei.

Where was he now? What was he doing? Why didn't they care about the Paradise Corporation? Could there be anything more important than running such a big company?

At that moment, Feng Jing's phone on her desk rang.

Feng Jing rubbed her eyes and adjusted her emotions. She then picked up the phone and said in a calm voice,""Hey ..."

"Sister Che!" Xia ruofei smiled and said,"long time no contact!"

Feng Jing was completely stunned. She even wondered if she was dreaming. After all, this wasn't the first time she had dreamed of such a scene.

Xia ruofei didn't hear anything and thought that the signal was bad. He couldn't help but say,""Hello? Hello? Sister che, can you hear me?"

Feng Rao came back to her senses and said,""I'm here ..."

Feng Jing was trying her best to keep her voice as calm as possible, but her voice was still trembling.

"Sister che, are you alright?" Xia ruofei asked with a smile.

"I'm fine! I'm busy with work at the company, and I've had a fulfilling day!" Feng Rao said, then pretended to be relaxed and asked,"where are you having fun? Why did you suddenly call me today?"

Three mountains, paradise building.

At this time, the sky outside was slightly dark, and it was almost time to get off work.

In the spacious and luxurious CEO office, Feng Jing was intently looking through a report, showing no signs of getting ready to leave. n/ô/vel/b//jn dot c//om

She had been officially in charge of paradise Corporation for more than two years now. She was no longer the White - collared worker who had returned from abroad. She had established a high prestige in the company. Although she still looked weak on the outside, she always gave people a feeling of power without being angry.

Feng Jing looked at the report for a while before putting it down. She massaged her temples and let out a long sigh.

She wasn't worried about her work. In fact, the development of paradise Corporation in the past two years could be said to be smooth sailing, especially the rapid expansion of the pharmaceutical factory, which brought a large amount of cash flow to the company. Paradise Corporation had always been operating with zero debt, and the amount of funds deposited was increasing. In the past year or so, under Feng Jing's suggestion, the company had already begun to invest in other fields, and the embryonic form of a large corporation group had begun to take shape.

As the leader of this money - sucking behemoth, Feng Rao felt an incomparable sense of accomplishment.

However, she would always inadvertently think of the figure that she had been dreaming of.

Sometimes, when she was not working, that figure would suddenly barge into her mind and disturb her mood.

In fact, Xia ruofei had almost stopped caring about the business of the Paradise Corporation. However, the personal mark he had left in the company was still deeply engraved in the hearts of every founding member.

Even though Zheng Yongshou was an outstanding contact person, even better than when Xia ruofei was dealing with the company's Affairs personally. After all, Xia ruofei had so many things to do and he would often miss out on the company's Affairs. However, after handing these contact matters to Zheng Yongshou, Zheng Yongshou handled them well every time. This included some work that Feng Jing and the others did not know about, such as adding the spirit Heart Flower petal solution at Taoyuan farm.

However, Feng Jing felt that something was missing.

"I'm fine! I'm busy with work at the company, and I've had a fulfilling day!" Feng Rao said, then pretended to be relaxed and asked,"where are you having fun? Why did you suddenly call me today?"

Chapter 3890 A drama (1)

Lu You was silent for a moment before she said faintly,""Then I'll wait a few days! With Weiwei and Qingxue around, I'll have a companion ..."

Xia ruofei heaved a sigh of relief. He quickly said,""Alright! I'll give Chen Xuan a call later. "

"No need. I'll just ask teacher to inform sect leader Chen!" Lu You said.

Xia ruofei thought for a while and asked hesitantly,""Lu You, that ... Valley master Liu ..."

"Teacher is going back today!" Lu You was very smart and immediately understood Xia ruofei's concerns."There are also many things to do at the soaring Flower Valley. She has been out for too long this time, so she is in a hurry to return."

Xia ruofei immediately heaved a sigh of relief. If Liu Mansha had asked to accompany Lu You, he would have been in a dilemma.

He naturally didn't want the Paradise Island to be exposed to the world of cultivation. Although it might eventually be known to people in the future, he still wanted to keep it a secret as long as possible to avoid a lot of trouble.

However, Liu Mansha had always been friendly to Xia ruofei. Furthermore, if she was accompanying her student, how could Xia ruofei reject her? This was hard to say.

Fortunately, Liu Mansha might have already considered this, so she did not even mention that she wanted to come with Lu You. Instead, she returned to the soaring Flower Valley ahead of time. This made Xia ruofei heave a long sigh of relief.

"Oh right, when will Weiwei and Qingxue return?" Lu You asked again.

Xia ruofei replied,"I'm not too sure about that. Probably in the next few days." They usually wouldn't be back for too long. How about this! I'll give them a call in a while and let you know when they'll be back. I'll come to pick you up in advance!"

"Alright, I'll have to trouble you then ..." Lu You said.

She was very polite to Xia ruofei and seemed to be a little distant. Xia ruofei understood Lu You's thoughts and felt a little pity for her.

Xia ruofei sighed to himself, then smiled and said,"Lu You, we're all good friends. You don't have to be so polite ..."

"Mm! I know. " Lu You said,"if there's nothing else ... I'll hang up first."

"Alright! I'll see you in a few days!"

After hanging up the phone, Xia ruofei stood there in a daze for a long time before he let out a long sigh.

He picked up the satellite phone and called Song Wei first.

The phone rang a few times before Song Wei picked it up.

"RUO Fei!" Song Wei sounded happy.

Xia ruofei was a little depressed. He asked,""Wei Wei, are you home?"

"Mm! I was having dinner just now, and I saw you calling me, so I came to the courtyard to pick you up. " Song Wei smiled and said,"my parents were talking about you when we were having dinner just now! This person really can't bear to be missed. I was just talking about you, and you called. "

Hearing this, Xia ruofei put aside Lu You's matter for the time being. He smiled and asked,""Me? Don't tell me you've already told Auntie about cultivation?"

"No, we didn't ..." Song Wei said,"but we did reveal some things!" Didn't you teach my dad a breathing technique that's good for his health? My dad has mentioned it a few times these few days. He even said that I've been learning with him and the results are pretty good. If there's a chance in the future, my mom will also learn ..."

Xia ruofei laughed and said,"but your martial arts don't suit aunty!" Besides, auntie's body still needs to be modified, or else she won't be able to cultivate. What if she's very interested now and wants to learn from you?"

"My dad is going to tell my mom bit by bit. He's afraid that if he says too much at once, my mom won't be able to accept it all at once ... Later, he's going to show off his abilities as a meditational cultivator. According to his plan, if my mom doesn't believe him, he'll let me fly in a circle in front of her on my sword ..."

At this point, Song Wei couldn't help but chuckle. She must have been in a good mood because she thought that her mother would be able to start cultivating soon.

Song Wei and Ling Qingxue had been cultivating under Xia ruofei's protection. They did not know how cruel the world of cultivation could be. They did not know that the entire cultivation world could face a huge crisis. They only thought that their bodies would be better after cultivating. The most direct effect was that their lifespans would be greatly extended.

Who wouldn't wish for their loved ones to live a long life?

Xia ruofei smiled."That's a good idea. However, we have to do it step by step. We don't want to scare Auntie."

"That's for sure!" Song Wei said,"my dad said that we don't have to be in a hurry since we've been waiting for so long. Besides, it's impossible for him to focus on his cultivation for the next one or two years ..."

Xia ruofei couldn't help but laugh."Uncle song, you're not worried that Auntie will stay on Peach Blossom Island for a long time after she starts cultivating, are you? then, you'll leave him alone in the three mountains, right?"

Song Wei couldn't help but burst out laughing."We can't rule out this possibility! But my dad said that he definitely won't wait until he's completely retired before telling my mom. Otherwise, he'll probably be in the Golden core stage by then, while my mom has just entered the sect. The gap between the two is too big, and it'll make my mom feel depressed!"

"Uncle song, you're so thoughtful." Xia ruofei said with a smile.

"Ruofei, what have you been busy with these days?" asked Song Wei. Qingxue and I aren't by your side, so you can't be lazy in your cultivation!"

Chapter 3891 A drama (2)

"Don't worry! I'm always working hard on my cultivation!" Xia ruofei said with a smile.

Then, he briefly told Song Wei about the things that he had been busy with for the past few days.

When Song Wei heard that Xia ruofei was preparing to evacuate all the ordinary workers on Peach Blossom Island and turn the entire Island into a cultivation sect, she was very supportive of him.

In the past, because of the presence of ordinary staff on Peach Blossom Island, their scope of activity was basically limited to the Yanhuang building. They rarely went to other places on the island. After all, Peach Blossom Island was so small. There were obviously no planes taking off and landing, but there were a few more people on the island. Anyone would feel strange.

If all the ordinary people left, they would have more freedom to cultivate on the island.

After the two of them chatted for a while, Xia ruofei asked,""Wei Wei, when do you and Qingxue plan to come back? Don't tell me that you're planning to wait until after you've finished discussing the cards with Auntie?"

"Of course I won 't!" Song Wei smiled and said,"I just want to spend a few more days with my parents. Qingxue has the same thoughts. What's wrong? Did you miss us?"

"Of course I miss you guys! Do I even need to say that?" Xia ruofei smiled and said,"but other than missing you guys, there's one more thing ..."

"What's wrong?"

"Come to think of it, you guys are the ones who caused the trouble!" Xia ruofei smiled bitterly and said,"don't tell me you've forgotten that day at the first heaven society ..."

"You mean Youyou!" Song Wei chuckled and said,"I'm just creating an opportunity for you! What's wrong? She has already purified her true Qi?"

"What do you think? They called today!" Xia ruofei said in a bad mood,"what do you think I should do? I can only find an excuse to say that you and Qingxue aren't around, and then say that I'll pick her up in a few days ... This is so troublesome ..."

Lu You was silent for a moment before she said faintly,""Then I'll wait a few days! With Weiwei and Qingxue around, I'll have a companion ..."

Xia ruofei heaved a sigh of relief. He quickly said,""Alright! I'll give Chen Xuan a call later. "

Chapter 3892 Like a dream (1)

Xia ruofei was feeling a little uneasy along the way. The first heaven society was located in China. Although it was located in the Mount Tai mountain range, which was considered the north of China, the black Phoenix flying ship was extremely fast and it only took 10 to 20 minutes to get there.

While Xia ruofei was still in a dilemma, the black Phoenix flying ship had already entered the Mount Tai mountains. The first heaven society was right in front of them.

Xia ruofei hesitated and said,""Why don't ... Weiwei give Lu You a call and tell her that we have something to do at the last minute and invite her to be our guest next time?"

Without waiting for Song Wei to speak, Ling Qingxue couldn't help but burst out laughing."What are you worried about? Lu You is also our friend. What's the problem with inviting her to stay on the Peach Blossom Island for a few days? Her current cultivation level was relatively low, so cultivating on the Peach Blossom Island was a very

good opportunity for her. When would she be able to break through to the Golden core stage if she cultivated in the outside world? You're not that cold, are you?"

"What's cold?" Xia ruofei couldn't help but smile bitterly."I just feel ... Inconvenient."

"It's not inconvenient at all!" Ling Qingxue giggled and said,"unless you have a guilty conscience ..."

Xia ruofei couldn't help but roll his eyes. This was exactly why he felt that it was inconvenient. Look ... They hadn't even picked her up and Ling Qingxue had already started ...

Song Wei smiled and said,"ruofei, it's our fault that we didn't discuss it with you last time. However, since we've already invited Lu You and we contacted her yesterday, telling her that we'll be picking her up today. I'm afraid it's not very good to stand her up at the last minute ..."

"If it's an emergency, it shouldn't matter! "She can understand ..." Xia ruofei said hesitantly.

"If it was me, I would definitely turn hostile!" Ling Qingxue smiled and said,"alright! We're almost there, so don't give up!"

"And ... Even if I wanted to call Lu You, I can't get through now!" Song Wei added.

Within the first heaven society, cell phone signals could not penetrate through at all. It was completely blocked. Xia ruofei had contacted Lu You yesterday through a phone call near the first heaven society's Mountain Gate. Then, the disciple on duty on the other side had invited Lu You over. It was very difficult to even make a single call.

Xia ruofei had completely given up. He sighed and said,"Okay then ... But you two will be in charge of reception! I need to go into seclusion for a while!"

He had made up his mind to avoid any suspicion. Not only did he not want Song Wei and Ling Qingxue to have any misunderstandings, he also did not want Lu You to have any misunderstandings.

Xia ruofei was very clear about Lu You's feelings for him. The last time when he pretended to be a golden core senior in the capital, Lu You had revealed her feelings. Later on, when his identity was exposed, Lu You had never denied it. In fact, Lu You had never hidden her feelings for Xia ruofei.

Xia ruofei had no intention of adding a cultivation partner. He was worried that if he interacted with Lu You too much, the other party might misunderstand or have some hope. That would be even worse.

"We'll see!"Song Wei said with a smile. You're the owner of the Peach Blossom Island, so it's not good for you to not show up at all ... We'll discuss this later!"

Xia ruofei smiled bitterly and said,""This is the first time we've brought cultivators from other sects to the Peach Blossom Island! What are you guys thinking?"

"Youyou is different from other cultivators!" Song Wei said.

Xia ruofei was feeling a little uneasy along the way. The first heaven society was located in China. Although it was located in the Mount Tai mountain range, which was considered the north of China, the black Phoenix flying ship was extremely fast and it only took 10 to 20 minutes to get there.
