

God tier Farm 1521

Chapter 1521: Seeing the light of day again (2)

Very quickly, when the sound of the “dried corpse” died down, Xia ruofei felt that the pulling force had disappeared. The feeling of spatial disorder had also disappeared.

Then, he felt a piercing light and couldn’t help but squint his eyes.

The light was warm and Xia ruofei immediately understood. He had been sent outside by the senior in the coffin. This was the sunlight from the outside.

Xia ruofei had entered the underground palace in the middle of the night. He did not know how long he had been in there, but at least he had spent five to six hours breaking the stone wall array. It should be the next day by now.

Xia ruofei felt someone lying beside him. He squinted his eyes and turned around. It was Song Wei, who was unconscious.

At this moment, Xia ruofei heard a heart – wrenching voice.””Ghost!”

.....

Fang laosan was a farmer from gan province. He had been working for a security company in Yuezhou for the past few years. Two months ago, he was assigned to guard mount Yu.

Fang laosan heard that this place used to be an ancient tomb, but it was later sealed off except for some problems. The government paid for a security company to send people to guard it.

His hometown was near Mount Longhu, and he had heard many stories about strange powers and gods since he was young. He was actually a little afraid of this mission.

However, the security company also took into account the harsh environment of the wilderness, so they sent people here with extra bonuses. In addition, there were several co – workers who worked with them. Fang laosan didn’t go back during the spring Festival. He wanted to make more money to demolish and rebuild his old house at the end of the year, so after weighing the pros and cons, he still had the courage to come to Yushan.

After a period of guarding, nothing happened, and Fang laosan gradually dispelled his fear.

They patrolled by themselves during the day and only patrolled in groups at night.

Today, it was his turn to patrol the vicinity of the ancient tomb. As soon as he turned around a small hill, he saw two pale – faced people lying on the blocked entrance of the ancient tomb. Their bodies were also stained with blood.

Fang laosan’s hair stood on end, and he felt as if all the blood in his body was rushing to his head.

Even if it was broad daylight, Fang laosan was still scared out of his wits when he saw this scene. He had just patrolled this place three minutes ago, but he had not seen a single person. How could two people appear out of thin air after he had just made a round?

Moreover, they were at the entrance of the ancient tomb, and their faces were completely pale. They looked like ghosts!

Fang laosan howled and frantically ran away.

The security guards who were not on patrol duty heard Fang laosan's wailing and rushed out of the mobile house.

When they saw Fang laosan's pale face, they all went up to ask about the situation.

Fang laosan couldn't even say a complete sentence. He just kept mumbling, "damn it ... Damn it ..."

In the end, under everyone's comfort and questioning, Fang laosan finally told them what he had just seen with lingering fear.

No one believed him and thought that Fang laosan was being paranoid, so they suggested going out to check it out.

Fang laosan was not willing to go there again. The security guards had no choice but to ask for the location and came to the hill together.

As expected, they didn't even see a ghost. This made everyone think that Fang laosan was hallucinating because he was too nervous.

The security guards all thought it was a farce and returned to the mobile house one after another.

What they didn't expect was that Fang laosan had already packed his luggage and called the head of security, asking for a change of position. If he couldn't change, he would resign and not even ask for his salary for the past few days.

The security guards watched as Fang laosan left the station with his luggage without looking back. They couldn't help but look at each other, and they felt a little scared.

.....

Xia ruofei didn't know that he had been mistaken for a ghost, a malicious ghost that could appear in broad daylight.

After he was discovered by the security guard, he immediately carried the unconscious Song Wei on his back and quickly ran into the forest.

Xia ruofei looked at the group of security guards who came to check on the situation from afar. After they left with nothing, he carried Song Wei on his back and went around to the entrance to the underground palace that they had cleared out last night.

The rope was still quietly hanging down the hole. Xia ruofei looked at the dark hole but did not have the courage to go down again.

He placed Song Wei under a tree and let her lie flat. Then, he untied the rope and threw it into the hole. He took out a shovel and quickly filled up the hole. Finally, he found some branches and weeds to cover up the traces.

He believed that as long as there was a heavy rain in the next few days, and the weeds here grew again, even if someone came here again, they would not be able to see anything.

After settling everything, Xia ruofei looked at Song Wei, who seemed to be in a deep sleep, and felt worried.

The old senior in the coffin didn't finish his sentence. He didn't know how to wake Song Wei up.

Xia ruofei knew that it was hard to recover from damage to the soul. Even if he went to the best hospital and used the best equipment for a check – up, there would be no problem with his body. However, he would remain unconscious.

That senior had said that their lineage was very good at nurturing the soul, but he had only cultivated the “great Dao Arts.” How would he know how to nurture the soul?

Just as Xia ruofei was scratching his head, he heard a chirping sound.

Xia ruofei turned around and realized that the White realm Fox was following him.

This little guy was probably sent out of the underground palace by that senior. It was just that Xia ruofei had been discovered by someone and was in a hurry to bring Song Wei away. Moreover, the realm Fox's target was very small, so he did not notice it at all.

Xia ruofei did not expect this little guy to follow him.

Xia Qing had also reminded Xia ruofei that this white – colored world Fox was naturally a pet of space. Furthermore, it had a unique ability in finding world stones.

Hence, Xia ruofei's heart skipped a beat. He asked, “Little guy, you've been sent out too? If you don't have a place to go, why don't you follow me?”

The white fox stared at Xia ruofei for a while. It liked the aura that Xia ruofei exuded after he had cultivated the “great Dao technique”. More importantly, Xia ruofei seemed to have a very profound spatial fluctuation, which made it want to get closer to him.

Therefore, after pondering for a moment, the white fox nodded.

The realm spirit agreed so readily that Xia ruofei felt a little surprised. Previously, in the underground palace, when they were splitting the realm stone, both parties did not give in an inch. This realm spirit did not seem to be so easy to talk to!

Hence, Xia ruofei tried again. “Then you'll be in charge of searching for the world stones in the future. We'll retrieve them together, and we'll split the harvest 50 – 50. How about it?”

The realm Fox chirped twice, but still nodded its head readily.

Xia ruofei was in disbelief. He was well aware of how attractive the world stone was to the White realm Fox, yet it had agreed to a 50 – 50 split so easily?

One must know that without the realm Fox's detection ability, Xia ruofei's search for the realm stone would be like looking for a needle in a haystack. Moreover, not every place with a realm stone would encounter such a huge obstacle like the underground palace.

In that case, the realm Fox would be at a loss if they split it 50 – 50.

"You're not planning something, right?" Xia ruofei looked at the Fox and asked.

A look of disdain flashed across the eyes of the realm Fox. It squeaked twice, turned around, and was about to leave.

"Wait!" Xia ruofei quickly shouted. Wait a minute! I'm just saying, why are you so angry?"

The white fox stopped in its tracks and turned to look at Xia ruofei.

Xia ruofei laughed drily and said, ""Then you'll be by my side from now on! If we find a world stone, we'll work together to excavate it. We'll split it 50 – 50 according to our agreement!"

The white fox nodded with a look of disdain. It walked to Xia ruofei's side and lay on the ground lazily.

After Xia ruofei and the white fox reached a gentleman's agreement, he started to worry about Song Wei's situation.

Nurturing the soul ... Could it be? Xia ruofei suddenly had an idea.

?

Chapter 1522: Hard to resist_1

A thought flashed across Xia ruofei's mind. He had consumed the spirit nourishment soup many times. It might be beneficial to Song Wei's recovery. After all, the spirit nourishment soup could help with her spiritual power cultivation. In essence, it was a form of nourishment for her soul.

"Xia Qing, quickly brew a portion of spirit nurturing soup!" Xia ruofei used his divine sense to communicate with Xia Qing.

Xia Qing, who was in the space, said with a bit of difficulty, ""Master, I'm still lacking one more medicinal herb to make the spirit nourishment soup ..."

"How could there be a missing medicinal herb?" Xia ruofei asked in confusion, "didn't I prepare a lot of these commonly used herbs?"

Xia ruofei bought a lot of the Chinese herbs needed to make body tempering soup, pregnancy soup, heart nourishing soup, and jaded skin ointment and stored them in his storage space.

And with the improvement of his cultivation, the supplementary effect of the soup on his spiritual power cultivation was getting smaller and smaller, so he hadn't taken it much recently. Why did he suddenly run out of medicinal herbs? Xia ruofei was also very curious.

"I had enough medicinal herbs," Xia Qing said with a bitter smile. "But ... Last night in the underground palace ... They were all used up!"

"You mean the thorny vine root!" Xia ruofei immediately shouted.

He suddenly remembered that the magical beast was hiding in a narrow cave at that time. Xia Qing thought that the smoke from burning the thorny roots could force the magical beast out, so she took out a lot of thorny roots for him to use.

Xia ruofei also knew that the thorny vine roots were one of the ingredients needed to make the spirit nourishment soup. He just didn't expect Xia Qing to be so honest and take out all the thorny vine roots in the stock, not leaving a single one.

Xia Qing said with some embarrassment, "Master, I was also worried that the dosage wasn't enough to force out the Mirage beast. Thus, I gave you all the thorny vines stored in the Archean realm ..."

Xia ruofei waved his hand and said, "it's okay!" Thorned vine root isn't a precious herb anyway. This kind of common Chinese medicine can be bought in any pharmacy!"

"Yes! Master. " Xia Qing said, "miss song's soul injury shouldn't worsen in a short period of time. But master, it's better to treat your own injuries as soon as possible to avoid any lingering effects."

Just now in the underground palace, Xia ruofei had entered the stone room for the second time and was severely injured by the spirit body. He did not even have time to deal with it and hurriedly set up a time formation to deal with the spirit body.

After that, when the senior in the coffin appeared, Xia ruofei was in a very nervous state the entire time. Only now that Xia Qing reminded him did he feel pain all over his body.

There was no doubt that at least a few of his bones were broken, and his internal organs were somewhat displaced.

Xia ruofei did not dare to let his guard down. He immediately took out Two Spirit Heart Flower petals from the space and absorbed them into his body with his palm. Then, he took out a bottle of the spirit Heart Flower petal solution and gulped it down. He was a little thirsty, so he might as well use the spirit Heart Flower petal solution as a drink to speed up his recovery.

If this small bottle of highly concentrated spirit Heart Flower petal solution was poured into the farm's water tower, it could at least provide enough water for the entire farm to irrigate for a month. Xia ruofei drank it directly like it was a drink to quench his thirst. Only he had the confidence to be so extravagant.

After all, there were still hundreds of spirit Heart Flower petals in the medium!

Xia ruofei did not notice that when he took out the item from the spirit map space, the White sector Fox, which had been lying lazily at the side, immediately perked up and raised its head to look at him with a burning gaze.

The white fox could feel the familiar spatial fluctuations. This was one of the reasons why it was willing to stay by Xia ruofei's side.

Xia ruofei didn't seem to notice it. After drinking the petal solution, he kept the bottle back in the medium, not wanting to waste it.

The White realmfox was originally lying on the ground, but now it could not help but stand up.

Xia ruofei looked at the realm Fox strangely, but he did not take it to heart.

"Master, the realm Fox must have sensed the existence of the spirit map world ..." Xia Qing suddenly said.

Xia ruofei couldn't help but jump in shock. He quickly asked with his spiritual will, ""No way? I've never taken out the painting!"

"The realm Fox is very sensitive to spatial fluctuations," Xia Qing said. "I noticed that every time master saves and collects items from the spirit map world, the realm Fox would react."

"F * ck! "I was too careless ..." Xia ruofei said. He then asked, "Xia Qing, is there any danger of the spirit map world being exposed?"

Xia ruofei knew that although the realm raccoon looked like a raccoon, it was actually very intelligent. If it could speak after it evolved, there was a chance that it would reveal its secret.

The spirit map space was Xia ruofei's top secret. He couldn't even reveal it to his family, so he was very concerned about this secret.

Xia Qing thought for a moment and said, "as long as the realm Fox is always by master's side, there should be no problem." The world Fox is very sensitive to the power of space, and the spirit map world is a space of its own. I think the reason why it is willing to stay is probably because of the spirit map world. "

Xia ruofei glanced at the realm Fox and revealed a malicious look. He asked with his divine sense, ""Xia Qing, is there a contract that allows the spirit beast to recognize a master and not betray it for life? For example, with a thought from the master, the spirit beast will bleed to death from its seven orifices ..."

Xia Qing couldn't help but stare blankly for a moment before she forced a smile and said, ""Master, how can there be such an overbearing contract? It's not that there's no such thing as a spirit beast recognizing a master, but it must be of the spirit beast's own free will. Moreover, this kind of soul contract only makes the spirit beast extremely loyal, and the spirit beast's master can't simply decide the life and death of the spirit beast. "

?

Chapter 1523: Hard to resist_2

Xia Qing also felt very strange. Where did her master hear about this kind of messy contract? Moreover, spirit beasts that could recognize a master were the most important companions of cultivators. How could the master bear to ...

Xia ruofei was a little disappointed. He laughed dryly."It seems like the rumors were wrong ..."

He thought to himself, it's all those cultivation novels 'fault ...

Then, Xia ruofei glanced at the realm Fox with a strange look and asked with his spiritual will,""Since there's no chance of master recognition, I'm afraid there's the danger of leaking the secret if we let it go. Should we ..."

Xia ruofei and Xia Qing had been communicating with their divine thoughts and did not speak. However, during this period, they had looked at the White realm Fox several times with malicious eyes. This made the White realm Fox reveal a trace of vigilance and intentionally or unintentionally increased the distance between Xia ruofei and it.

Xia Qing, who was in the spirit map space, quickly said,""I can not! No! Master, the realm Fox is a rare beast, and it is extremely sensitive to the realm stone. It will definitely be of great help to master!"

Xia ruofei was a little depressed."This won't do. That won't do. What should we do?"

Xia ruofei did not expect this little guy to become a hot potato.

Xia Qing muttered to herself for a moment before she said,""Master, actually ... It's not convenient for you to keep this world Fox by your side. You can put it in the spirit map world ..."

Before Xia Qing could finish her sentence, Xia ruofei shouted,""No!"

In a moment of desperation, he did not use his divine telekinesis to transmit his voice. Instead, he said it out loud. This also gave the White realmfox a shock and it subconsciously took a few steps to the side.

Xia ruofei calmed himself down and continued to use his spiritual sense to say,""Didn't you say that this little guy's spatial talent is extremely strong? Put it in the space, what if he causes damage inside?"

Xia Qing smiled and said,"master, you're underestimating the spirit map world." Although the realm Fox is the darling of space, the space of the spirit map world is ... Personally constructed by that person. Not to mention that this realm Fox is still young, even if it had evolved into an adult, it would not be able to destroy the stability of space!"

Xia Qing paused for a moment before she continued."Furthermore, master's current level of spiritual power cultivation is enough to control the spirit map world to a high degree. As long as the realm Fox is in the spirit map world, master can control it with a single thought. What is there to worry about?"

"Really?" Xia ruofei asked. Then, he noticed a key piece of information in Xia Qing's words and immediately asked,"who is the 'person' that constructed the spirit map world that you mentioned?"

"Master, this ... You'll naturally find out in the future. I'm sorry I can't reveal it now ..." Xia Qing said after a moment of hesitation.

"It's that damn rule again?" Xia ruofei smiled bitterly.

"Please forgive me, Master ..." Xia Qing said.

Xia ruofei waved his hand and said,"it's not your fault!" Xia Qing, you can continue ..."

“Yes, master!” Xia Qing said, “the realm Fox should be unable to resist the temptation of the spirit map world. The spatial structure of the spirit map world is brand new, and there is also a time array. It will definitely be willing to enter. In addition, even in the spirit map world, it doesn’t stop the realm Fox from finding the world stone. If a world stone appears within its ability, it will still sense it in the spirit map world.”

Xia ruofei pondered for a while and said, “So you’re saying that there are only benefits and no harm?”

“Yes, master!” Xia Qing said.

Xia ruofei nodded and said, “I understand ...”

After he finished speaking, Xia ruofei turned to look at the realm Fox, his eyes becoming much gentler.

The white fox was even more alert now. It meowed at Xia ruofei as it retreated and waved its forelimbs threateningly.

However, looking at its posture, it was clear that this little fellow was also acting tough on the outside but was actually a coward on the inside. It was simply prepared to quickly escape into the forest once something went wrong.

Although the true energy emitted by this young man was very attractive to it, and there was also that mysterious spatial aura, how could all of this be more important than its life?

Xia ruofei smiled gently at the realm Fox and said in a seductive tone, “Little guy, are you curious about the spatial fluctuations on my body?”

The White realmfox was stunned and looked at Xia ruofei in confusion.

Xia ruofei smiled and summoned the spirit painting from his palm. He had already checked the surroundings before and there was not a single shadow around. He did not have to worry about anyone spying on him.

When the scroll appeared in Xia ruofei’s hand, the realm Fox’s eyes suddenly narrowed. Its pouty little mouth opened involuntarily, staring at the scroll and unable to look away.

As a natural – born pet of space, the realm Fox sensed the strange fluctuation hidden in this seemingly ordinary scroll almost immediately. It was different from any fluctuation it had previously grasped, but it was certain that it was a kind of spatial fluctuation.

Xia ruofei saw the look on the Jie Li’s face and acted like a weird uncle who was trying to deceive a kindergartener. He struck while the iron was hot, “Do you want to take a look inside? The space here is very different from the outside world! And I can even allow you to live there, who asked us to be fated ...”

Hearing this, the realm Fox immediately nodded its head like a little chick pecking at rice. As Xia Qing had said, the temptation of the new spatial fluctuation was something it could not resist. It did not even consider its own safety.

Of course, it could also be that the realm Fox was very confident in its attainments in space.

Xia ruofei's "evil plan" had succeeded. He did not care what the realm Fox was thinking! With a gentle smile on his face, he said,""Then I'll let you in. Remember, don't resist ..." He said.

The realm Fox nodded repeatedly.

Hence, with a thought from Xia ruofei, the realm Fox completely relaxed its resistance. Xia ruofei easily moved it into the spirit map space.

The spirit map space was at the primal realm.

As soon as the realm Fox appeared, it immediately revealed a look of great joy.

The spirit Qi here was extremely dense, to the point that it had already formed a mist in the sky. Even if it didn't rely on absorbing spirit Qi and instead relied on eating world stones to grow, living in such an environment was still more comfortable than living in the outside world where the spirit Qi was barren.

In addition, the spatial fluctuations here were extremely profound. They were different from all the spatial laws it had come into contact with, but they were extremely stable.

At the same time, the realm Fox also keenly sensed that the flow of time here was different from the outside world.

This was undoubtedly the best place for the realm Fox who was obsessed with the rules of space.

So as soon as it entered, it closed its eyes impatiently and quietly comprehended the rules of this space.

At this moment, Xia ruofei's voice rang in the air."Oh, I almost forgot about the flow of time. Little guy, this place is not suitable for you. I'll find you another place!"

As soon as Xia ruofei finished speaking, the realm Fox felt an irresistible pulling force. It was involuntarily pulled into an invisible space vortex.

If the realm Fox had resisted in the outside world, Xia ruofei would not have been able to keep it in the space. But now that it was in the spirit map's space, Xia ruofei was the only master of this space. Naturally, it would be easy.

In the next moment, the realm Fox found itself transported to another independent space.

The boundary Fox protested and waved its forelimbs at the sky. However, it did not receive any response, so it could only give up gloomily.

Of course, the most important thing was that the laws of space here were basically the same as the space just now. The only difference was that there was no time formation.

To the realm Fox, just the comprehension of the spatial laws alone was already unfathomable. It did not matter whether it had a time formation or not.

As for Xia ruofei, he was mainly concerned about how fast time passed at the Archean realm. He did not know how long a realm Fox's lifespan was. If he died after staying for a few days, it would not be worth it.

Even if the realm Fox had a long life, Xia ruofei did not want it to use the time formation to improve rapidly before he could truly establish a close working relationship with it.

Although Xia Qing had said that with the realm Fox's strength, even if it evolved into an adult, it wouldn't be able to cause any waves in the space, it was better to avoid unnecessary trouble. When it came to the core benefits of the spirit map space, Xia ruofei had to do his best to ensure that nothing went wrong.

The realm Fox protested symbolically for a moment before it started to comprehend the rules that had been set up in the spirit map space.

?

Chapter 1524: Time (1)

Xia ruofei gave it a few instructions not to touch anything in the space. He also told Xia Qing to look after the realm Fox, especially not to let it come into contact with his precious world stone.

In fact, these world stones were all at the Archean realm. Even if the world Fox had the ability to turn the world upside down, it could not return without Xia ruofei's permission. Xia ruofei was also confused because of his concern.

After successfully swindling a precious realm Fox, Xia ruofei started to worry about the unconscious Song Wei.

Xia ruofei wasn't sure if the soup would work.

The biggest problem now was that they were in the wilderness, and one of the herbs needed to make the soup was missing, so they had to go back to the city to buy the medicine.

But the problem was, was he really going to carry such an unconscious beauty down the mountain?

Although they were in the wilderness, they would enter the scenic Area if they went further down the mountain. Even if there were not many tourists, there were still some surveillance cameras on the roadside.

Besides, it was not convenient to bring Song Wei along! There was no way to explain staying in a hotel, and he might even be called the police as a criminal.

Xia ruofei thought of this and asked with his spiritual will, "Xia Qing, with Song Wei's current condition, she shouldn't be able to wake up on her own, right?"

"Master," Xia Qing said, "it's very difficult to heal the damage to the soul. At least, miss song won't wake up in a short time."

"I see," Xia ruofei nodded.

He had already made up his mind and brought Song Wei into the spirit map space.

Naturally, Song Wei could not be placed in the Archean realm where time flowed 30 times faster than normal. Hence, Xia ruofei sent her directly into the stone chamber in the mountain sea realm.

There was a stone bed there. Xia ruofei used the invisible force in space to place Song Wei on the stone bed. At the same time, he moved the Jade futon over and placed it under Song Wei's head.

This Jade futon was very helpful for the recovery of mental power. It should be able to more or less nourish her soul, or at least stop the damage to her soul from worsening.

After doing all this, Xia ruofei checked his own condition. His injuries had almost recovered, at least 60 – 70% of his usual strength.

Unless he encountered the spirit body in the underground palace last night or an abnormal master like senior copper coffin, Xia ruofei's current state was enough to deal with anything.

Xia ruofei turned around and looked at the underground palace for a long time. Then, he turned around and ran into the forest.

Half an hour later, Xia ruofei found the off – Road vehicle that he had parked in the bushes the night before at the foot of the mountain.

Although it had only been a night, Xia ruofei felt like it was a lifetime ago.

After driving to the city, Xia ruofei first found a Chinese medicine pharmacy.

Thorned vine root was a common herb and Xia ruofei could get it easily.

Although the staff of the Chinese medicine shop felt that it was strange that Xia ruofei only bought one herb and asked for a large amount, there was no reason to reject business. Besides, the thorny vine root was not a special medicinal herb and had nothing to do with synthetic drugs. It would not be a problem to sell a truck full of it to Xia ruofei. Why not make money?

Hence, Xia ruofei had successfully bought almost all the thorn vines in the store.

After he returned to the car, he put the big bag of thorny vines into the medium and asked Xia Qing to start brewing the spirit nourishment soup.

Of course, he had also specifically instructed Xia Qing to brew the spirit nourishment soup in the mountain sea realm. Xia Qing also needed to watch over the realm Fox to prevent it from causing any damage. Xia ruofei could not possibly split a strand of his divine sense to pay attention to the situation in the space at all times.

After buying the thorny vine root, Xia ruofei drove to the Tianhao hotel and booked the "Presidential Suite".

As soon as he entered the room, Xia ruofei immediately used his spiritual power to cover the entire room and checked it thoroughly.

After making sure that there was no audio or surveillance equipment, he went straight into the bedroom, locked the door, and drew the curtains.

Xia ruofei took out the spiritual map and entered the space.

He went straight to the mountain sea realm. Xia Qing was at the entrance of the cave, concentrating on brewing the spirit nourishment soup. Not far away from Xia Qing, the realm Fox seemed to be lying there lazily, but it was actually comprehending the rules of the spirit map space. Even when Xia ruofei suddenly appeared out of thin air, it only raised its eyes, then closed them again to comprehend.

Seeing the realm Fox in this state, Xia ruofei's worry was greatly reduced. Previously, he was afraid that the realm Fox would run around in the space. There were many treasures in this space, such as the precious Cordyceps, truffles, abalones from the sea, and even herb gardens. These were all from the mountain sea realm.

Now, it seemed that the realm Fox had no time to cause trouble, so he was relieved.

Xia ruofei didn't disturb Xia Qing, who was concentrating on brewing the medicine. He directly entered the cave and walked into the stone room.

Song Wei was still lying quietly on the stone bed. Her expression was very calm, as if she was sleeping peacefully.

However, Xia ruofei knew that if her damaged soul was not repaired, she would continue to sleep like this. If she could not maintain her bodily functions, she would die soon.

Xia ruofei sighed. He walked forward and grabbed Song Wei's wrist. Of course, he did not want to do anything bad to her when she was unconscious. He just wanted to check her body.

After Song Wei's body was taken over by the terrifying spirit, she had been in the stone chamber in the underground palace. The stone chamber was filled with cold air and unknown poison that had killed the archeologists. Song Wei had been in there for a long time, so there was a high possibility that the poison would take advantage of her.

?

Chapter 1525: Time (2)

As expected, after Xia ruofei's spiritual power entered Song Wei's meridians, he quickly found the poison in her body. He was very familiar with this poison. It even had the aura of the realm stone. It could be said that he was right on the mark.

Xia ruofei did not hesitate to use the "great way of Dao" and transferred his Qi into Song Wei's body. With the cooperation of his spiritual power, the poison was naturally exposed and was quickly burned into nothingness by the Qi.

Just as Xia ruofei was circulating the "great Dao chant", the White realm Fox outside the cave seemed to have sensed something. It opened its eyes and looked into the cave.

However, it did not get up. It was not that it was not interested in the pure Qi, but it had already sensed that there was an invisible spatial barrier at the entrance of the cave. Only Xia ruofei could pass through it easily.

Without Xia ruofei's permission, no one else could enter the cave, not even the realm Fox, the darling of the space.

The realm Fox quickly closed its eyes and began to comprehend the strange space rules. Xia ruofei used his true Qi to clean Song Wei's body and used his spiritual energy to check repeatedly to make sure that nothing had escaped.

When Xia ruofei used his spiritual power to check on Song Wei, he felt that something was wrong. However, he could not find anything.

Xia ruofei shook his head in confusion and mumbled to himself, "Perhaps I'm being too sensitive?"

He let go of Song Wei's hand and walked out of the cave with a tired look on his face.

"Master, the spirit nurturing soup is ready!" Xia Qing immediately said respectfully.

Xia ruofei nodded and said, "thank you."

He picked up the bowl of herbal soup with the fragrance of the spirit heart fruit and walked back to the stone room. He put the soup aside first, then went over to help Song Wei up and let her lean against the bed.

Xia ruofei tested the temperature of the soup and fed it to Song Wei.

People who had lost their minds could not be fed medicine like this because they would not be able to swallow it under such circumstances. However, Xia ruofei had his own way. He only needed to release a small wisp of essential Qi to wrap the medicine and send it directly into Song Wei's stomach.

After feeding her the medicine, Xia ruofei carefully laid Song Wei flat and observed her condition.

Song Wei was still lying on the stone bed, motionless. The bowl of medicinal soup was like a stone sinking into the sea. There was no movement at all.

Xia ruofei could only wait.

The theory of the soul was vague, but Xia ruofei had been cultivating for a long time. He knew that the soul existed. When one's cultivation was strong enough, even if the body was destroyed, the soul could still survive independently under certain conditions.

For example, the spirit that tried to possess Song Wei.

Unfortunately, Xia ruofei's cultivation was still too low. He could not even check on the situation, let alone help Song Wei recover her soul.

According to the common knowledge in the world of cultivation, a person's soul existed in the sea of consciousness. As an ordinary person without any cultivation, Song Wei's sea of consciousness was quite fragile. Moreover, her soul was damaged. If Xia ruofei were to investigate rashly, there might be an unpredictable accident.

If the soup did not work, Xia ruofei really did not know what else to do.

He sighed and walked out of the cave.

“Master, what’s the situation?” Xia Qing asked.

Xia ruofei smiled bitterly. “There’s no change ... Xia Qing, other than the gestation soup, do you know of any other methods to help recover from soul injuries?”

The pregnancy soup could only be used once every seven days. Xia ruofei did not dare to let Song Wei take it continuously.

One of the main herbs used to make the pregnancy soup was the spirit heart fruit. If consumed alone, it would be highly toxic. Who knew what would happen if it was consumed continuously instead of seven days?

However, he found it hard to accept that Xia ruofei had to wait for seven days and then try his luck with a bowl of pregnancy soup.

Song Wei was going to start school soon. She had left the house on the pretext of traveling. If she did not contact her family for a long time, Song Qiming and his wife would definitely notice that something was wrong.

The power of a vice – Minister was not to be underestimated. Once Song Qiming used all his connections to find Song Wei, there was no way to hide the fact that he and Song Wei were in Xiang Nan Province. Even Song Zhengping knew about it. There was no way to keep it a secret.

At that time, the situation would become difficult to deal with.

Moreover, Xia ruofei could not accept letting Song Wei continue to be in a coma.

Xia Qing’s face showed that she was in a difficult position. “Master, the effect of the spirit nurturing soup in the aspect of nourishing the soul is already very good. The main reason is that we have sufficient raw materials. As for the other methods ... The spirit herbs that can nourish the soul are very rare. Now that the outside environment is deteriorating, I’m afraid it will be even more difficult to find ...”

Xia ruofei looked disappointed and said, “So ... There’s no other better way?”

“Master,” Xia Qing said, “actually, the spirit nurturing soup should be effective. It’s just that Miss Song’s soul injury might be a little serious. One or two doses of medicine are definitely not enough ...”

“That’s the problem!” Xia ruofei said, “you can only take the soup once every seven days but Song Wei can’t be away for too long. There’s not enough time now ...”

At this point, Xia ruofei suddenly stopped and mumbled, “There’s not enough time...Time ...”

Then, he smacked his head and said, “How could I have forgotten about this?”

If he didn’t have enough time, he could just accelerate time!

At the Archean realm, time could be accelerated by 30 times. If Song Wei was placed inside for five hours (outside world time), she would have spent seven days in the Archean realm. After that, she could continue to consume the spirit nourishment soup.

He didn’t even need to reach the Archean realm. Xia ruofei still had array flags that could accelerate time even more quickly.

If the small area around Song Wei was covered by the time formation, it would be accelerated by at least 90 times.

This way, it would only take slightly more than an hour.

“Xia Qing!” Xia ruofei said to Xia Qing, “Xia Qing, immediately make another portion of the pregnancy soup!”

“Yes, master!” Xia Qing quickly responded.

Xia ruofei turned around and returned to the cave. With a thought, he sent the array flag from the Archean realm over. At the same time, he brought a few bottles of flower petal solution. Song Wei’s body definitely could not last seven days without eating or drinking. Hence, she still needed these flower petal solutions to maintain her vitality.

Xia ruofei first fed Song Wei half a bottle of the petal solution. He still used his essential Qi to wrap the petal solution and sent it directly into her stomach through her esophagus.

After waiting for a while, he checked on Song Wei’s condition and found that she was still alive.

Hence, Xia ruofei did not hesitate any longer. With a thought, he appeared on a flat grassland outside.

Beside him, there were array flags and a porcelain bottle that contained the solution of the spirit Heart Flower petals.

Song Wei was also moved out of the stone room in the cave. He carefully laid her flat on the grass.

Then, Xia ruofei grabbed the array flags and waved them. The eight array flags immediately occupied eight positions around Song Wei and accurately stabbed into the soil.

The next moment, Xia ruofei felt the difference in the flow of time.

He stood outside the formation to monitor Song Wei’s situation. After about 15 minutes, Xia ruofei teleported Song Wei out of the formation.

Fifteen minutes in the outside world meant that Song Wei had spent more than a day in the formation. Xia ruofei needed to replenish her energy.

He carefully fed Song Wei half a bottle of the spirit Heart Flower petal solution. After two minutes, the components of the spirit Heart Flower petal were completely absorbed. He then sent Song Wei into the array.

Just like that, every fifteen minutes or so, Xia ruofei would move Song Wei out to replenish the solution of the spirit Heart Flower petals and then send her back to the formation.

Although it was complicated, Xia ruofei did it seriously.

Before he knew it, more than an hour had passed.

Xia ruofei did a quick calculation. Song Wei had actually been here for at least seven days, maybe even eight.

He glanced at the cave entrance on the mountainside not far away and asked with divine telekinesis, ""Xia Qing, is the spirit nurturing soup ready?"

?

Chapter 1526: Upgrade! Upgrade!_1

Spirit map world, mountain and sea realm.

Xia ruofei's face was pale. Song Wei was lying quietly on the grass, not showing any signs of waking up.

It had been more than eight hours since Song Wei first drank the soup.

In these eight hours, Xia ruofei did not rest at all. He kept sending song Wei into the time formation.

Song Wei had also consumed a total of seven bowls of soup.

However, there was no effect after he had consumed so much of the soup.

If not for the fact that the essence of the herbs in the soup was immediately absorbed by the body, Song Wei's stomach would have burst.

Fortunately, Song Wei's metabolism was extremely slow in her unconscious state. Besides, she did not eat anything other than the petals of the spirit Heart Flower. Hence, even though she had already been in a coma for 40 to 50 days, she did not need Xia ruofei to help her relieve herself.

Otherwise, it would be really awkward.

Although it wouldn't affect a person much if they aged more than 50 days than normal, the key question was, when would this end?

If there was no effect after drinking so much soup, would it be effective if he continued to drink it?

Not to mention Xia ruofei, even Xia Qing's tone became uncertain.

Xia ruofei wanted to curse. The senior in the coffin must have had a way to wake Song Wei up, but he refused to say anything. Xia ruofei was helpless.

Were all experts this arrogant?

"Xia Qing, is there really no other way?" Xia ruofei asked, frowning.

"Actually ..." Xia Qing hesitated for a moment and said.

Xia ruofei's eyes brightened. He grabbed Xia Qing's shoulder and said anxiously, ""You must have a way, right? Hurry up and tell me!"

Xia Qing revealed a very difficult expression. Xia ruofei immediately understood. Like a deflated ball, he asked weakly, ""It's that damn rule again?"

Xia Qing silently nodded.

Xia ruofei let go of his hand dejectedly. He knew how the rules were binding Xia Qing. No matter how he ordered or begged, Xia Qing would never be able to go against the Supreme rules.

This was like the famous Three Laws of Robotics.

After a long while, Xia ruofei still asked, ""Xia Qing, I know you can't tell me, and I won't force you ... But, can't you give me a hint? Just a little bit ..."

Xia Qing also revealed a conflicted expression. He lowered his head and muttered to himself, while Xia ruofei looked at Xia Qing nervously. He did not reject her, which meant that there might still be a chance.

Finally, Xia Qing raised her head and said, "master, I really can't tell you ... But ... You've obtained so many world stones this time. Why don't you let the spirit map world absorb them first?"

"I don't have the time to care about the world stone now ..." Xia ruofei suddenly stopped mid – sentence and stared at Xia Qing's eyes. Then he said, "I understand. Let's try to see if we can upgrade the space first!"

Xia ruofei knew that Xia Qing wouldn't speak without thinking. Just now, they were clearly discussing Song Wei's soul injury, but Xia Qing suddenly brought up the world stone. This change of topic was too stiff and illogical.

The only explanation was that there might be an opportunity to heal Song Wei after the space was upgraded. Xia Qing could not say it directly due to the rules, so she could only hint to him.

After all, Xia ruofei had obtained the world stone. It was normal for Xia Qing to suggest him to upgrade the spatial realm. This was not against the rules. However, if she told him what he would gain after upgrading the spatial realm and that the gain might be helpful to Song Wei's soul injury, then it would be against the rules.

It must be like this! Xia ruofei was certain.

At this time, the White realm Fox, which had been concentrating on comprehending the space rules at the entrance of the cave on the mountainside, suddenly opened its eyes. Then, in a flash, it flew down from the mountainside and ran in the direction of the herb garden.

The White realmfox's speed was too fast. In addition, Xia ruofei was discussing with Xia Qing about treating Song Wei's soul injury, so he did not notice it. Hence, by the time Xia ruofei reacted, the White realmfox had already run into the herb garden.

Xia ruofei was stunned for a moment. He saw the white fox waving its forelimbs a few times, and suddenly, a few herbs were uprooted. Everywhere it passed by was a mess.

Xia ruofei was shocked and angry. He quickly shouted, ""Stop!"

This herb garden was painstakingly opened up by Xia Qing. A large portion of the herbs planted here were provided to the manufacturing factory to produce heart – nourishing soup and jaded skin ointment. Many of them were very precious Chinese herbs. Seeing these herbs destroyed by the realm Fox, Xia ruofei's heart ached.

After letting out a cry, he immediately used the invisible force of space without hesitation to imprison the white fox.

The realm Fox wanted to struggle, but with its current weak cultivation, it was unable to compete with the power of the entire spirit map space. It was as if it had been frozen, unable to even move its toes. Only its black eyes showed a look of fear.

With a thought from Xia ruofei, the white fox was lifted by an invisible force and brought in front of him.

“Little brat! Are you crazy!” Xia ruofei asked, “do you know how precious those herbs are?”

The white fox had an innocent look on its face. In fact, it had just gained some insight when it was comprehending the rules of space and wanted to go to one of the space nodes to verify it. And that space node just happened to be in the medicine garden.

?

Chapter 1527: Upgrade! Upgrade!_2

In its eyes, precious herbs were no different from ordinary weeds. Since they were blocking its way, it would naturally destroy them. It did not expect Xia ruofei to have such a big reaction.

“Do you still dare to run around?” Xia ruofei raised his eyebrows and asked, “you still dare to ignore me ... It seems like you’re not repenting even if you die!”

“Master,” Xia Qing said weakly, “you’ve confined him. He can’t move at all!”

“I’m so angry that I’m confused ...” Xia ruofei smacked his head and relaxed the restriction a little. However, he still restricted the white fox to a certain area.

“Do you still dare to run around?” Xia ruofei asked with a vicious expression.

The white fox kept shaking its head. Its two forelimbs were cupped together, making it look pitiful.

Seeing the White realmfox acting cute, Xia ruofei couldn’t get angry even if he wanted to. However, he still said with a straight face, “Remember, it’s fine for you to comprehend the laws of space here, but you can’t damage a single grain of sand, stone, grass, or tree. Otherwise, don’t blame me for imprisoning you. Do you understand?”

The White realmfox shook its head out of habit, but it immediately came to its senses and nodded its head like a chick pecking at rice.

“Go!” Only then did Xia ruofei let go of the white fox. “Remember, do not destroy those herbs!”

The white fox ran towards the herb garden as if it had been pardoned. This time, it did not dare to run around recklessly. It carefully avoided the herbs and soon arrived at a spatial node it had found. It then closed its eyes and began to comprehend.

Xia ruofei shook his head helplessly and asked, ""Xia Qing, when the spirit map world is absorbing the world stone, do we need to take that little fellow out first?"

Xia Qing said, "master, every time the seal of the spirit map world is unlocked, the spatial fluctuations are at their most intense. You should just let it stay inside!" This will be very beneficial for its comprehension of the spatial laws. "

"Don't worry," Xia Qing said. "I'll take good care of it!"

Xia ruofei thought for a while and said, "okay!" But I have to bring Song Wei out. "

With so many realm stones this time, the spirit map space could definitely be upgraded if nothing unexpected happened. Xia ruofei did not know what would happen when the space was upgraded. With Xia Qing and the realm Fox's cultivation, it would not be a big problem to stay in the space. However, for safety reasons, it was better to let Song Wei leave the space.

With a thought, Xia ruofei and Song Wei left the spirit map space.

He first settled Song Wei on the bed in the bedroom, then picked up the ancient spirit painting scroll and used his mind to establish a connection with the space.

The spirit map space was at the primal realm.

A box containing 12 world stones automatically opened, and one of the world stones slowly floated up.

An invisible force wrapped around the world stone. Under the faint light that it emitted, the world stone slowly became smaller and finally turned into nothingness.

Soon after, the Second World stone slowly floated into the air and soon bloomed with a dazzling light.

The third one ... The fourth one ... The fifth one ...

At the mountain and sea realm, the White realm Fox, which had lost itself in comprehending the laws of space, suddenly opened its eyes. Even though it was in a completely independent space, it could still keenly sense the aura of the world stone. Moreover, it could easily discover that the world stone was disappearing one by one.

The White realmfox's face showed a pained expression, but it quickly changed.

This was because it sensed that the spatial fluctuations in the entire spirit map world had suddenly become active.

The space rules that were originally a little obscure became even clearer.

The White realmfox had no idea what was going on, but it naturally wouldn't let go of such a good opportunity to comprehend the rules. Therefore, it immediately concentrated and began a new round of comprehension.

In the hotel room outside, Xia ruofei also felt that the spirit map space had finally begun its upgrade process after absorbing five world stones.

He didn't let the spirit map space continue to absorb the world stones. Instead, he kept the spirit map scroll in his palm and then looked at Song Wei who was lying quietly.

The upgrade of the spirit map space required some time, and Xia Qing would naturally inform him after it was completed.

Looking at Song Wei who seemed to be sleeping soundly, Xia ruofei felt a deep sense of guilt. He also secretly decided that no matter what price he had to pay, he would make Song Wei recover.

"I hope I can find a way to cure Song Wei after the realm upgrades ..." Xia ruofei thought to himself.

The sky outside the window had already darkened. Xia ruofei had come out of the underground palace in the afternoon. On the way, he went to buy medicine, check into a hotel, and then stayed in the interspace for more than eight hours. It was already night.

Xia ruofei did not eat or drink for the entire day. However, he was not in the mood to eat. In fact, at his level of cultivation, not eating for one or two days would not affect him at all.

Xia ruofei stayed by Song Wei's side. After more than an hour, Xia Qing finally informed him that the spirit map space had been upgraded.

Xia ruofei took out the spirit map scroll without hesitation and entered the space.

The concentration of spirit Qi in the spirit map's space had increased once again.

Clouds appeared in the sky. These clouds were all formed by the condensation of the liquefied spiritual energy. When these clouds gathered to a certain scale, they would even form spiritual liquid, which would fall on the ground like rain.

This was pure spirit Rain. One could imagine that anything that was planted in such an environment would definitely grow well.

There were no other changes to the Archean realm. It had stopped expanding a long time ago.

Xia ruofei immediately went to the mountain and sea realm.

Unsurprisingly, the area of the mountain and sea realm had expanded greatly once again.

Now, Xia ruofei's control over space was much stronger than before. He didn't even need to patrol. With a slight thought, every blade of grass and tree in the entire mountain sea realm would be under his control.

As for the area of this space, Xia ruofei didn't need to measure it as he already knew it in his heart.

Eight thousand mu.

The land and sea area of the entire mountain sea realm had reached 8000 mu, which was double the size of the previous realm.

By now, the mountain sea realm was already larger than the entire area of Paradise Farm in Australia.

The ocean was also expanding. Now, one could no longer see the space membrane at a glance. It was already as vast as the outside world.

Of course, with Xia ruofei's eyesight, he could still easily see the space membrane at the end of the sea.

The land had also expanded by more than twice its original size. The mountain and sea realm, which was originally filled with a large number of herb gardens, along with a breeding ground for Hornets, and a garden for cultivating Cordyceps, had once again become empty.

The mountain peak with the stone chamber had almost doubled in height, and had become a steep peak from the original small hill. Standing at the foot of the mountain, the cave had become a small black dot.

A waterfall also appeared on the peak of the mountain. It was as if white silk fell from the sky, flowing into the surging River that had also widened.

Xia ruofei was not very interested in the changes in the space. He was more concerned about the injury of Song Wei's soul. After a brief inspection, he turned his eyes to Xia Qing.

Xia Qing's expression was a little awkward, and she said weakly, "Master, it seems like the world stones we obtained this time have not been used up ..."

Xia ruofei was stunned. Xia Qing's meaning was clear. It was not enough to upgrade the space by one level. It might need to be upgraded again.

He was stunned for a while before he said, "I know ..."

Xia ruofei did not hesitate and left the spirit map space with a thought.

After returning to the outside world, he didn't want to waste any time. He immediately used his mind to connect to the spirit map space, allowing the newly upgraded space to start absorbing world stones again.

There were seven world stones left. Hopefully, they could last until the realm leveled up again ... Xia ruofei paid attention to the absorption of the world stones as he prayed in his heart.

?

Chapter 1528: At all costs (1)

This time, the space upgrade had used up five world stones, and it was based on the surplus space energy from the previous upgrade. According to Xia ruofei's experience, the spirit map space's difficulty increased with each upgrade.

Hence, Xia ruofei was not sure if the remaining seven world stones would be able to upgrade the realm again. All he could do was to pray to the heavens.

The Jade Emperor, Tathagata the Buddha, Taishang Laojun, Guan Yin Bodhisattva ... Xia ruofei prayed to all the gods he could think of, and soon, the seven world stones were completely absorbed.

When the last World stone was absorbed by the space and turned into nothing, Xia ruofei was stunned. Then, his heart sank. There was no movement in the spirit map space.

Clearly, 7 world stones were not enough to upgrade the realm to the next level. This was an awkward situation ...

The mountain and sea realm in the spirit map space.

Xia ruofei and Xia Qing stood at the foot of the mountain. In the herb garden in the distance, the White realm Fox was greedily comprehending the wonderful spatial rules.

“Do I have to level up again?” Xia ruofei asked.

Xia Qing nodded silently. He couldn’t say too much, but his meaning was clear.

Xia ruofei nodded and waved his hand. A huge invisible force immediately enveloped the White realm Fox, who was seriously comprehending the laws of space. It was then carried out of the herb garden and flew to Xia ruofei.

The White realm Fox was immersed in the mysterious space rules. It was naturally very unhappy that Xia ruofei had interrupted it.

“Little fellow, do you have any way to find new world stones in the shortest time possible?” Xia ruofei asked.

The White realmfox was stunned for a moment and then shook its head repeatedly. In its heart, it was filled with disdain for Xia ruofei. “Do you think realm stones are like cabbages?” If I could find it so easily, why would I stay in that dark place for more than a month and not bear to leave?

“Aren’t you very sensitive to world stones?” Xia ruofei’s eyes widened as he asked, “hurry up and sense it! I have an emergency!”

The realm Fox chirped a few times and gestured at Xia ruofei with a look of disdain.

“What does it mean?” Xia ruofei turned around and asked.

Xia Qing smiled bitterly and said, “master, world stones are extremely rare in any era. It’s already very lucky that we were able to obtain so many world stones at once. Even a world Fox wouldn’t be able to find them so easily.”

“Then what use do I have for you?” Xia ruofei looked at the white fox and said, “I’ve provided you with such a good place for free to comprehend the space rules, but you’re so lazy at the critical moment. You can’t help at all ...”

The White realmfox panicked, afraid that Xia ruofei would drive it out of the spirit map space. The rules of space here were extremely attractive to it, and it was impossible to come into contact with them in the outside world.

Xia ruofei looked at the white fox and said, “Little guy, don’t act pitiful with me. I don’t buy it! I’m really in need of world stones right now. Quickly, help me think of a way!”

The White realmfox seemed to be struggling, as if it was having a mental struggle.

One had to lower one’s head when one was under the roof ...

In the end, the white fox opened its mouth in pain and spat out a black stone.

Xia ruofei's eyes brightened. He was extremely familiar with this aura. It was undoubtedly a world stone.

"You still have stock?" Xia ruofei said.

"Master, the world stones that the world Fox can't finish absorbing are stored in the body first." Xia Qing explained.

"But ... I clearly saw it biting those world stones into pieces!" Xia ruofei said.

Right now, they were looking at a complete world stone.

"I guess it's temporarily unable to absorb so much, so it swallowed some whole. Now, it's storing them in its body!" Xia Qing said after thinking for a while.

The White realmfox nodded its head quickly. It was feeling very depressed. It had only been in this place for a short while, and it had already paid a protection fee of a realmstone. It was really too expensive!

As long as Xia ruofei had the realm stone, it was fine. He didn't care if the realm stone was disgusting when it was spat out from the realm Fox's body, nor did he care how it was left behind. He immediately threw the realm stone into the air and with a thought.

The invisible force of the spirit map space immediately enveloped the world stone and began to absorb it rapidly.

The White realmfox looked at the shrinking realmstone in the sky with heartache. Immediately, it closed its eyes and began to comprehend. When the surrounding space absorbed the realmstone, the spatial fluctuations would become more distinct. This was a good opportunity that could not be missed.

Xia ruofei simply stayed in the space and stared at the world stone that was being absorbed. He was filled with anticipation and apprehension at the same time.

The spatial dimension was absorbing the world stone at an extremely fast speed. The black world stone was shrinking at a speed visible to the naked eye, and it was completely absorbed in a short while.

Xia ruofei's eyes, which were full of anticipation, suddenly dimmed. The space still showed no signs of upgrading. The world stone was like a small stone thrown into the sea, not causing any waves at all.

Xia ruofei immediately turned to look at the white fox.

The white fox was so scared that it took a few steps away and looked at Xia ruofei with vigilance.

"Hehe ... Little fellow, do you still have any more world stones?" Xia ruofei looked at the white fox with ill intentions and said, "can you give me another eight or ten Yuan for emergency use?" I'll just take it as I borrowed it from you. I'll return it to you the next time I get it!"

The White realmfox shook its head frantically. What a joke! That was the last piece, and it had saved it up by scrimping. Where was it going to find eight or ten pieces now?

?

Chapter 1529: At all costs (2)

“You really don’t?” Xia ruofei squinted his eyes and asked, “upgrading the space will be good for you too! You’ll be able to better comprehend the spatial laws, right?”

“Ji Ji!” The White realm Fox looked as if it was not afraid of death. It firmly expressed that there were no more extra realm stones.

Since the temptation was not effective, Xia ruofei tried to threaten it. He said that if there were really no world stones, he would throw it to the outside world so that it would never be able to come into contact with such profound spatial laws again.

Even Xia Qing couldn’t stand it anymore. Yingluo was facing such a cute exotic beast. Her master was really ruthless!

However, the white fox remained unmoved, and Xia ruofei had no choice.

He couldn’t really throw the white fox out. He wasn’t such a heartless person. Even if he was, he couldn’t bear to abandon such a rare beast that could help him find the world stone!

It seemed like the White realm Fox really did not have any more realm stones, and the space had not been upgraded. Xia ruofei was a little at a loss.

“Master, why don’t you ... Try the spirit nourishment soup again?” Xia Qing asked carefully.

Xia ruofei waved his hand and said, “forget it. The soup is not effective.” I’d better think of another way to upgrade the space!”

Then, Xia ruofei asked, “Xia Qing, you should be able to level up once more, right?”

Xia Qing hesitated for a moment, but she still nodded.

Xia ruofei knew in his heart that if another level up was not enough, then he really had no other way.

Since it wasn’t realistic to find the world stone in a short period of time, he could only use other methods.

Before the appearance of the world stone, the spirit map space had to absorb Jade to level up. Now, Xia ruofei could only use this stupid method.

Although the spirit map space had developed to its current scale, if it were to upgrade using this method, it would require a huge amount of Jade.

However, the most important thing for Xia ruofei was to heal Song Wei’s soul. Nothing else was important.

Xia ruofei didn’t mind even if it would cost him a lot of money.

Furthermore, this space had already absorbed eight world stones. Perhaps it had already reached the critical point of leveling up. Perhaps it wouldn’t need too many jades to level up.

Xia ruofei's body flashed and he left the spirit map.

Xia Qing sighed and also turned to walk to the medicine garden. Xuxu had a lot of daily maintenance work to do every day.

The White realmfox heaved a sigh of relief. This fierce – looking guy didn't seem to be too bad. At least he didn't really drive it away.

The White realmfox quickly flew toward the spatial node in the herb garden and seized the time to comprehend the rules of space.

After Xia ruofei returned to the outside world, she checked on Song Wei's condition before sending her back into the medium.

He directly placed Song Wei in the stone room of the cave. There was a natural space barrier here, and without his permission, even Xia Qing couldn't enter. Moreover, the Jade futon in the stone room was more or less helpful in nourishing the soul.

Then, Xia ruofei tidied up his things and threw them into the space. He took his car keys and went downstairs to check out.

It was already midnight. Xia ruofei had checked in in the afternoon, so the hotel staff was a little surprised to check out at this time.

However, since it was the guest's request, they had nothing to say. After checking the room and making sure there were no problems, they checked Xia ruofei out.

Xia ruofei left the hotel in the rented SUV and headed straight for the provincial capital of Hunan, Tanzhou.

Although the car rental agency allowed people to return the car from a different place, Xia ruofei still had to go back to Tanzhou first because there was an airport in Tanzhou. No matter where he went, it was the most convenient transit station.

As the car sped along the highway, Xia ruofei took out his phone.

This time, he wanted to buy a large amount of Jade, but he didn't have any channels himself. The best way was naturally to ask for help from the MA family. After all, they were in the jewelry and jade industry and had a lot of resources in the industry.

Although it was already midnight, Xia ruofei did not bother to disturb his rest. He called Ma Zhiming directly.

Hong Kong.

In fact, Ma Zhiming and Tian Huixin had just fallen asleep not long ago.

After Ma Zhiming's "unspeakable secret" had been cured by Xia ruofei, he had been abstinent for a period of time. He had just been released not long ago.

Only after losing it would one know how to cherish it.

During this period of time, the frequency of Ma Zhiming and Tian Huixin's "early bedtime" had increased significantly. They would hand little Huanhuan over to the nanny to coax her to sleep early and then return to their own bedroom.

Today, the two had just finished making love. After taking a shower and lying on the bed, Ma Zhiming's mobile phone rang not long after he fell asleep.

In fact, Ma Zhiming's work phone was turned off at night. Only a few relatives, trusted subordinates, and a few important friends had the number of this phone.

Ma Zhiming opened his tired eyes and fumbled to turn on the bedside lamp impatiently. Then, he picked up his phone in a daze.

After seeing the name on the caller ID, the dissatisfaction and sleepiness on Ma Zhiming's face disappeared without a trace. He glanced at Tian Huixin, who was sleeping soundly, and carefully got out of bed. He took the phone and walked to the study next door, then picked up the call.

"Nice to meet you, Xia Sheng!"

Xia ruofei said apologetically, "Mr. MA, I'm sorry to disturb you so late at night ..."

"No, no, Xia Sheng, you're too polite." "Is there anything I can do for you?" Ma Zhiming quickly asked.

Ma Zhiming's gratitude and respect for Xia ruofei came from the bottom of his heart, because Xia ruofei had done too much for his family.

He had pulled his father back from the brink of death, cured his precious daughter's autism, and even he himself had to rely on Xia ruofei's miraculous hands to regain his manliness.

All of these incidents, no matter which one of them was mentioned, were enough to make Ma Zhiming extremely grateful, not to mention that there were so many of them. Furthermore, Xia ruofei's paradise Corporation was now a relatively important partner of the MA family's Hengfeng group.

Therefore, Xia ruofei's matter was definitely Ma Zhiming's top priority.

"Mr. MA, I'm in urgent need of a batch of Jade." Xia ruofei said.

"No problem!" Ma Zhiming said without thinking, "I'll check the company's inventory right away and transfer it to you from the nearest warehouse ..."

"Mr. MA, I may need a large amount this time, and I need it very urgently." Xia ruofei said, "so ... I want to ask if you have any reliable channels in the origin of the raw materials. I hope to buy them directly from the origin."

The MA family's jewelry and jade industry was huge. Their company's inventory of raw materials must be a lot, but the demand was also very large. They needed to constantly carve various grades of raw materials into finished products. If they took too much at once, it would inevitably affect their normal business.

"I see ..." Ma Zhiming pondered for a moment and said, "no problem. What Xia Sheng needs is Jade, right?" "I'll contact them first and give you a call later!"

"Then I'll have to trouble Mr. MA." Xia ruofei said, "I'm in xiangnan province now. If it's convenient, I hope that you can book me as soon as possible so that I can buy a plane ticket."

"No problem!" Ma Zhiming said, then asked, "is Xia Sheng in Tanzhou city in xiangnan?"

"Yes, I am!" Xia ruofei replied, "my phone will be on at all times. Mr. MA, call me if you have any news!"

"Alright!"

After hanging up, Xia ruofei turned the volume of his phone to the maximum and placed it on the dashboard. Then, he split a part of his consciousness to check on Song Wei's situation in the medium. He then focused on driving the SUV to tan Zhou.

There weren't many cars on the highway in the second half of the night. Xia ruofei drove at the speed limit.

When the car was about 80 kilometers away from the exit of Tanzhou, the phone on the dashboard rang. It was a call from Ma Zhiming.

?

Chapter 1530: The girl's Secret (1)

Xia ruofei quickly put on his Bluetooth and answered the call. "Mr. MA!"

"Xia Sheng, I'm sorry! Sorry to keep you waiting. " Ma Zhiming said, "it's mainly because it's a little late, so it's not convenient to contact friends."

Xia ruofei smiled. "I should be the one to say sorry. It's already so late. I'm still disturbing you and your friend."

"Xia Sheng, don't be so polite!" Ma Zhiming quickly said, "xiasheng, I've contacted a few good friends, and one of them happens to be participating in the public Jade bid in Ruizhou city in Dian province. Ruizhou is close to the China – Myanmar border, so it's very convenient to buy jade there. My friend is quite popular in Ruizhou, and he will help you settle the matter of raw jade materials."

"I'm really grateful!" Xia ruofei said, "Mr. MA, thank you so much for this!"

To be honest, Xia ruofei was very touched that Ma Zhiming could be woken up by a phone call in the middle of the night and immediately spare no effort to ask his friend for help.

"You're welcome, you're welcome ..." Ma Zhiming said with a smile. "I'll send you the contact information of my friend later." It just so happens that there's a rather large public Jade bid in Ruizhou these few days. If Xia Sheng is interested, you can go and have a look!"

"Alright, alright." Xia ruofei said, "then I'll fly directly to Spring City tomorrow!"

Ma Zhiming quickly said, "Xia Sheng, the nearest airport to Ruizhou city is not in Chun city, but in Hongzhou. I just checked the flights for you. There's a direct flight from Tanzhou to Hongzhou at 10 a.m. Tomorrow. I've already booked a ticket for you. You can go directly to the airport tomorrow!"

"This ..." Xia ruofei was so touched that he didn't know what to say.

This service was too thoughtful!

"My family's plane just so happens to be in use, otherwise I would have been directly transferred to tan Zhou to serve you tonight!" Ma Zhiming explained.

"No, no, no, Mr. MA, I'm already embarrassed. Actually, I can book my own ticket ..." Xia ruofei said.

Ma Zhiming laughed and said, "Xia Sheng, you don't have to be so polite with me!" By the way, do you have any friends who want to go with you? I'll help you book the tickets. "

"No, no, I'm alone!" Xia ruofei quickly said.

"Alright, I'll send you my friend's contact information later!" Ma Zhiming said.

"Alright! Mr. MA, then you should rest early too!" Xia ruofei said.

After hanging up, Xia ruofei took off his Bluetooth headset and threw it in front of the dashboard. He felt a wave of emotion in his heart. The MA family really had nothing to say about him. Whether they were doing it to repay his kindness or for other reasons, Xia ruofei was still indebted to him.

When Xia ruofei arrived at tan Zhou, it was already half past two in the morning.

He decided not to look for a hotel and parked his car near the car rental office. Then, he took out a blanket from the spirit map space and got into the back seat to sleep for a while.

The main reason was that he had already placed Song Wei in the spirit map space. There was no need for him to go through all that trouble alone.

Speaking of which, these conditions were already very good. When Xia ruofei was a soldier, he would often wear a raincoat in the wilderness and sleep soundly.

Xia ruofei woke up at eight in the morning.

He took out some toothpaste, a toothbrush, and a towel from his interspace. He also fetched a basin of spiritual pond water and got out of the car to wash up by the roadside.

Then, Xia ruofei packed up his things and put everything in the car into the spirit map space.

Xia ruofei looked at the time. The car rental office should be open for work, so he drove over and returned the car as fast as he could.

After finishing the procedures, Xia ruofei hailed a cab at the door of the car rental office and headed straight to Tanzhou airport.

The flight that Ma Zhiming had booked for him would take off at 10:35. It was just 9:30 when he arrived at the airport, so he had plenty of time.

Xia ruofei went straight to the check – in counter to change his boarding pass. As expected, Ma Zhiming booked him a first – Class seat. Very soon, a dedicated attendant led Xia ruofei through the security check through the VIP passage and brought him to the VIP lounge.

There was still some time before boarding. Out of habit, Xia ruofei took out his phone to check the news.

Just as he was about to light up his phone screen, he suddenly thought of something. It had been more than a day since Song Wei had entered the underground palace. During this time, her family and friends might contact her. If she did not reply, they would be worried.

If song Qiming found out that he had lost contact with his precious daughter, he would definitely use his connections to look for her.

Thinking of this, Xia ruofei could not sit still.

He furrowed his brows and pondered for a moment before he made a decision and sent his divine sense into the spirit map space.

Mountain sea realm, in the stone chamber in the cave.

A phone slowly appeared from Song Wei's pocket and floated beside her. She used an invisible force to touch the power button and the phone screen lit up.

Xia ruofei thought to himself,"luckily, Song Wei's phone has good battery life."

Of course, what made Xia ruofei even happier was that Song Wei's phone could be unlocked with a fingerprint. If it was unlocked with a password, he could only stare at it helplessly.

Xia ruofei thought to himself,"Song Wei, this is an emergency. Please don't blame me for taking your phone!"

As he thought, he controlled the invisible spatial power.
