

God tier Farm 1581

Chapter 1581: Four times the original price (3)

Of course, this was not because Song Wei was greedy. It was the kind of love a girl would have for beautiful jade. Especially since she had personally chosen this piece of Jade from thousands of raw stones. She had cut it out from such an ordinary stone. This sense of achievement was incomparable. Although she had relied on Xia ruofei's guidance, Song Wei still felt very accomplished.

Yu mingdong hesitated and said, "Miss song, I wonder if you're willing to sell this piece of Jade? I'm willing to pay five hundred thousand to buy it!"

At first, the onlookers were fantasizing about competing for it. After all, the quality of the Jade was not bad, and it was not small either. It was enough to get a bracelet.

However, as soon as Yu mingdong's price was announced, everyone suddenly became depressed. The price that Yu mingdong quoted suddenly hit the ceiling. Even if they got it at this price, they would at most break even. Only those Jade merchants who were particularly short of raw materials and did not get much from this bidding would buy it at a loss.

Song Wei held the waxy Jade and said, "President Yu, I'm sorry! I want to keep this piece of Imperial Jade for myself ..."

Xia ruofei could not help but ask, "Song Wei, why?" Now you can make several times more by selling it, so it's useless for you to keep one piece of Imperial Jade!"

Song Wei looked at Xia ruofei and whispered in his ear, "Because I personally discovered it! Since you're so skilled, I'd like to ask you to help me carve a few accessories ..."

Xia ruofei didn't know whether to laugh or cry. "Song Wei, to be honest, this piece of Jade isn't of the highest quality. It can't even be compared to your Doraemon pendant ... I think the best option is to sell it and cash it out. As for the other jade products you want, I can find better ones ..."

Song Wei's eyes lit up and asked, "Are you talking about the few raw stones you bought ..."

"I can't guarantee that. Who can guarantee that there won't be Jade inside and what quality it will be?" Xia ruofei quickly replied. But I have a good relationship with the MA family of Hong Kong, so it's not a big problem for me to buy one or two pieces of top – grade Jade. "

Song Wei nodded. After a moment of silence, she said to Yu mingdong, "Mr. Yu, I've decided to transfer this Imperial Jade to you. The price will be as you said, 500000 Yuan!"

"Thank you!" Yu mingdong was overjoyed. Thank you! Miss song, thank you for giving up your treasure! I'll transfer the money to you immediately!"

In fact, Yu mingdong's surprised expression was more of an act. He didn't have to be so happy for a small piece of glutinous Jade. Besides, there was no profit at this price.

He was giving face to Xia ruofei, and he also wanted to repay him.

Yu mingdong asked for Song Wei's bank account number, then quickly wrote a check and handed it to Shi Lei. He asked him to go to the bank staff working at the public property next door to transfer the money.

Soon, Song Wei received a notification from the bank that 500000 Yuan had been transferred to her account. She couldn't help but feel a little surreal. In just a few hours, her 120000 Yuan had become 500000 Yuan? She had only written a list and she had earned 380000 Yuan!

Was there any faster way to earn money?

Xia ruofei's mind turned and he stopped Yu mingdong, who was about to cut his raw stones. He said, ""CEO Yu, you should sign a formal transfer agreement for your deal with Song Wei!"

Chapter 1582: Breakthrough_1

Yu mingdong was stunned for a moment. He originally trusted Xia ruofei very much. In addition, this transaction was really pitifully small. It was only a mere five hundred thousand Yuan, so he felt that there was no need to sign any transfer agreement.

Song Wei didn't understand either, but since Xia ruofei had brought it up, she wouldn't be stupid enough to ask.

Although Yu mingdong was a little surprised, he didn't take it to heart. He laughed and said, ""Alright! It's good to be more formal ... Lei, go to the committee and get a transfer agreement!"

"Alright, President Yu!" Shi Lei immediately strode towards the door.

Because all kinds of private transactions were also very frequent in the public bid, the organizer of the public bid provided a template transfer agreement. They only needed to fill in the blank space with the amount, the identity information of both parties, and other information, and then sign and stamp their fingerprints to take effect.

Soon, Shi Lei returned with two blank copies of the transfer agreement.

Yu mingdong and Song Wei filled in the blank space together. After both parties confirmed it, they signed and stamped their thumbprints. Then, they each took a copy of the agreement.

After the small interlude, Yu mingdong began to take care of the stone cutting.

Song Wei stood beside Xia ruofei and asked softly, ""Ruofei, why is it so troublesome? what kind of agreement is this?"

Xia ruofei looked around and said in a low voice, ""Keep this agreement and the receipt for the raw stones. You're not from the same family, and uncle song's side is too sensitive. These things are evidence of your 500000 Yuan. If anything happens in the future, you won't be able to explain yourself ..."

Song Wei finally understood. She did not expect Xia ruofei to think so much about her. Even she, who grew up in a leading family, did not think about it. Xia ruofei thought about it and she felt warm inside.

Song Wei folded the agreement carefully and put it away. Then, she said softly, "Thank you, ruofei!"

Xia ruofei smiled and said, "let's go and watch chief Yu cut the stone!"

Yu mingdong's luck was really good. Although he didn't have a stone gambling consultant and the raw stones were all picked by him, the performance after opening them was not bad.

Yu mingdong had won a total of six raw stones, and two of them had lost a little money. This was within the normal range of probability. After all, no matter how experienced a person was, it was impossible to completely speculate the internal situation of the raw stones.

Out of the remaining four, two of them had a small increase, one of them had about doubled, and the last one had a big increase.

In total, Yu mingdong had earned at least another ten million Yuan after opening this batch of raw stones.

Of course, Yu mingdong's family was in this line of business. He naturally wouldn't sell the Jade. He would send it back to his own factory to be processed into various jade products. Of course, he would make more money. Moreover, the Jade Market was on the rise, so it was definitely profitable to hoard some raw materials.

Yu mingdong was so happy that he smiled and gave the master another ten thousand Yuan red packet.

The surrounding Jade merchants were also very envious.

Although Yu mingdong wasn't the most eye – catching and most expensive raw stone in the public bid, including the highest bid in the entire public bid, he was definitely the most efficient person to make money at this public bid.

Those who had spent tens of millions to buy the most eye – catching raw stones might also have good Jade, but they might not earn as much as Yu mingdong.

Everyone congratulated Yu Ming Dong, and Yu Ming Dong also cupped his hands to the surrounding people and expressed his gratitude.

After dealing with the crowd, Yu mingdong handed all the Jade that he had cut out to Shi Lei for safekeeping. He then walked over with a face full of joy and said, "Mr. Xia, it seems that this master's hands are quite good today! Why don't you take out your raw stones and untie them?"

Xia ruofei chuckled and shook his head. "I'm just afraid of embarrassing myself! I'm not going to open these raw stones anymore. I'll bring them back and secretly find a place to open them ... At least this way, I can still maintain my image of being lucky, right?"

Yu mingdong laughed and said, "Mr. Xia, you're overthinking it!" I think your raw stones won't be bad!"

Xia ruofei waved his hand. "Forget it! Forget it! I won't join in the fun!"

Yu mingdong could tell that Xia ruofei was not joking and could not help but say, "Mr. Xia, these raw stones aren't small! And it's worth more than 20 million! I'm afraid it'll be quite troublesome for you to transport it back to the southeast from Yunnan Province ..."

“Ruofei, if you really want to ship it back, I can help you contact someone. I know someone in the airline. It won’t be a problem to do it by air!” Song Wei said.

Xia ruofei laughed and said to Yu mingdong, “President Yu, did you see that? The transportation problem was solved! I’d better transport it back and untie it myself! If it doesn’t work, I won’t tell anyone ...”

“If the price increases and Mr. Xia is interested in selling it, don’t forget to contact me first!” Yu mingdong quickly said, “don’t worry about the price. I will definitely satisfy you!”

Xia ruofei laughed and said, “definitely!” I will!”

He definitely wouldn’t look for Yu mingdong to sell his Jade anymore. In fact, he had plenty of money now. After the Jade was cut out, he might not sell it. If he had good quality Jade, he could keep it for himself to carve some pendants, bracelets, and so on. It would be good to give it to family, friends, and elders. Moreover, Jade was also a good carrier for array patterns. His current array Dao level was no longer the same as before. These jades could be used to play a lot of roles.

Chapter 1583: Breakthrough_2

Even if it was just an ordinary Jade, Xia ruofei would have kept it for himself. If he were to encounter this situation when the space was upgraded in the future, he might be able to deal with it.

The group of people went next door. Xia ruofei found an empty Service Desk and showed the second copy of the bid form for the raw stone. He swiped his card to pay for it and at the same time, went through the deposit procedures. The organizer of the public bid could deposit it for free for three days. After three days, the entire public bid would be over.

After doing all this, Xia ruofei and Yu mingdong took the escort company’s car back to the hotel. There was also a lot of Jade this time. Ruizhou was quite chaotic. Although Shi Lei was skilled, Yu mingdong still did not dare to take it lightly. So, he hired the escort company to help transport this batch of Jade back to the hotel.

.....

“Song Wei, contact your friend in the airline. I want to ship these raw stones back to the three mountains as soon as possible.” After returning to the hotel room, Xia ruofei said, “as long as the check – in is settled, we will book the return ticket immediately!”

Song Wei felt a sense of loss. She knew that this dream – like journey was coming to an end. However, she thought about it and realized that her connection with Xia ruofei could no longer be cut off. The two of them had to cultivate together and deal with the miasma together!

At this moment, Song Wei felt for the first time that the miasma didn’t bring her all the bad things ...

“Alright, I’ll make the call now,” she nodded.

After a while, Song Wei walked over and said to Xia ruofei, “I’ve already contacted them. Air China has a flight to Sanshan tomorrow. There’s still some left in the cargo hold. I’ve already told my friend about

the situation of this batch of raw stones and their approximate weight. He'll arrange for special items to be checked in. We'll just go to the airport tomorrow to complete the procedures."

Xia ruofei nodded and said, What time is the flight tomorrow? What was the flight number? I'll book the tickets online now. Let's take the same flight back!"

"We're leaving at 12 noon tomorrow, and I've already booked the tickets!" Song Wei said with a smile. Two first class seats! After checking in tomorrow, you can just change your boarding pass!"

"Hey! You're smart enough!" Xia ruofei said, "praise him!"

"Isn't there any substantial reward?" Song Wei asked with a smile.

"What reward do you want?" Xia ruofei asked.

Song Wei looked at Xia ruofei in embarrassment and said, "Can you ... Train with me for a while more today? I want to ..."

"You want to break through, right?" Xia ruofei laughed and said, "no problem! However, the prerequisite is that you must have a solid foundation. Anyway, with the time formation, I've also prepared a lot of dry food. This time, I'll wait for you to break through to Qi disciple Level 2 before you stop cultivating!"

Originally, Xia ruofei was prepared to help Song Wei break through to Qi disciple Level 2 before leaving Ruizhou. After all, after returning to the three mountains, the two of them would not have such convenient conditions where they could cultivate together at any time. Moreover, the effect of cultivating the "Scripture of the heart of beginnings" alone would be very poor.

Of course, Xia ruofei did have other cultivation techniques. He even had a few techniques that were suitable for women. In terms of individual cultivation, they were definitely not inferior to the "absolute beginning Heart Sutra".

However, the main purpose of Xia ruofei leading Song Wei to the path of cultivation was to get rid of the miasma. If Song Wei cultivated other martial arts, it would not do her any good to get rid of the miasma. If she wanted to get rid of the miasma on her own, who knew when she would be able to.

Furthermore, if he cultivated different martial arts, it might even interfere with the cultivation of the "absolute beginning Heart Sutra". Hence, Xia ruofei would never do that, at least not before the threat of the peach blossom miasma was completely eliminated.

"Really?" Song Wei was overjoyed. That's great! That's great! RUO Fei, where are your array flags? Hurry up and take it out! Let's start cultivating now!"

Xia ruofei said, "don't worry!" Shouldn't he make some preparations? Also, I have to tell President Yu that I'm leaving tomorrow. He has helped me a lot these days!"

"Yes, yes, yes. You should go and prepare first!" Song Wei said, "I'll be waiting for you here!"

Xia ruofei nodded. He went out to Yu mingdong's room and told him that he was leaving tomorrow.

After all, Yu mingdong had helped him a lot these past few days. It was reasonable for him to tell him that he was leaving. It would be rude to call him directly. Besides, it was only a few steps from Xia ruofei's room to Yu mingdong's room.

When Yu mingdong heard that Xia ruofei was going back to the three mountains, he enthusiastically urged him to stay for a few more days. However, he was not as busy as these days, so he could take Xia ruofei to enjoy the scenery of the border.

However, when he heard that Xia ruoxin had already booked her flight tickets, Yu mingdong did not keep her any longer. Instead, he warmly invited Xia ruofei to visit him when he had time. At the same time, he once again mentioned that if there was Jade in the raw stones and Xia ruofei wanted to cash it out, he would be the first person to consider.

Xia ruofei laughed it off and returned to his hotel room.

He took out a bunch of biscuits and instant noodles from his bag and placed them on the sofa in the living room. Then, he took out the array flag and set up the time array. He then stepped into the array with Song Wei.

This time, Xia ruofei was prepared for a long battle. He was afraid that Song Wei would not leave the array until she reached Level 2.

The two of them quickly entered a state of cultivation.

With time flowing more than 90 times faster, the two of them had enough time to complete their cultivation tasks.

Hence, Xia ruofei kept telling Song Wei not to be impatient and to lay a good foundation step by step so that the breakthrough would be a matter of course.

This time, the two of them stayed in the array for more than half a month.

Of course, it was impossible for them to cultivate all the time in the past half a month. Usually, they would stop after cultivating for a few hours to take a break, eat something, drink some water, and then sleep every twelve hours.

Of course, in order to save time, other than going to the bathroom to wash up after waking up, and occasionally going to the toilet, everything else was basically done in the array.

Although she had been eating dry food and sleeping on the sofa these days, Song Wei was still happy to do so. She could feel her progress at all times. The true energy in her body was also becoming more and more abundant. This feeling of being filled with power was something she had never experienced in her life.

Although she had not practiced any special combat techniques, with Song Wei's current true Qi cultivation, as long as she used her true Qi well, even a few burly men who knew martial arts would not be her opponent.

After all, practicing martial arts and cultivating were two completely different levels.

The most important thing was that when the two of them were operating the “absolute beginning Heart Sutra”, their souls were more and more synchronized.

It was a wonderful feeling. It was as if the two of them had become one. The intimacy that came from the soul made Song Wei feel like she was in a dream.

Even Xia ruofei could not control himself. Although his rationality told him not to develop feelings for Song Wei, there seemed to be an invisible force from the depths of his soul that made him feel closer to Song Wei.

On the seventeenth day of entering the formation, the two of them were still cultivating as usual.

The true Qi that had fused with each other flowed through their meridians and energy Center. The true Qi in Song Wei’s Energy Center was also becoming more and more abundant.

Unknowingly, Xia ruofei felt that the speed of his genuine Qi circulation had increased a little as if it was out of control.

Xia ruofei was not shocked. Instead, he was happy. He knew that Song Wei was about to break through.

What was commendable was that this breakthrough was really natural. He did not deliberately try to break through the bottleneck and it happened unknowingly.

“Calm down and strengthen your control over your true Qi!” Xia ruofei said in a deep voice.

The fused true Qi quickly flowed through her meridians. The true Qi in Song Wei’s dantian also started to surge. Then, an invisible force acted on her dantian and the true Qi started to compress rapidly ...

Chapter 1584: Return with a full load (1)

After the true Qi in Song Wei’s dantian was compressed to an extreme, her entire dantian seemed to tremble slightly. Then, she felt a majestic power erupting out.

The bottleneck between Qi disciple Level 1 and Qi disciple Level 2 was like a window paper, easily broken through.

Song Wei felt an indescribable comfort throughout her body, and the circulation of her true Qi was much smoother.

This kind of improvement was all – Round. The same amount of true Qi, the energy contained in it had more than doubled, and the meridians in his body had also become wider and tougher during the breakthrough process.

Even though Song Wei had not trained in any specific techniques, with her current level of training, even three to five men who had trained in martial arts would not be her match. After all, training and training were on completely different levels. As long as Song Wei used a little bit of her true Qi, ordinary martial artists would not be able to withstand a single blow from her.

Xia ruofei's face showed a trace of joy, but he still concentrated his energy. He worked with Song Wei to control the genuine Qi and circulated it for a few more rounds. After stabilizing the realm, he stopped and stood up.

"Song Wei, very well done!" Xia ruofei said, "let's rest for half an hour. We'll cultivate one last time. We must consolidate our realm!"

"I feel full of energy, I don't need to rest," said Song Wei.

Xia ruofei laughed and looked at Song Wei. "Did you forget what I said again? Hurry ..."

"Haste makes waste, right? My ears are getting calluses from this!" Song Wei chuckled. "I know! I know! I'll listen to you, alright?"

"Hehe ... Eat something and replenish your energy!" Xia ruofei said.

Song Wei said as she moved her arms and legs, "Is there nothing else to eat other than biscuits and instant noodles? I've been eating it for half a month. I don't have any appetite when I smell it now ..."

"I'll make do with it!" Xia ruofei said, "I'll treat you to a big meal when we return to the three mountains!"

"You said it!" Song Wei said happily, "you can't go back on your word when the time comes!"

"Look at you! You're a rich lady with a net worth of at least 500000 Yuan, why would you care about the money for a meal?" Xia ruofei said jokingly.

"But I still can't compare to you, a billionaire!" As Song Wei spoke, she tore open the last bag of biscuits, grabbed a piece and stuffed it into her mouth.

The two of them ate something and drank some water. After resting for about half an hour, they sat down and continued to cultivate.

The training lasted for about three hours. In these three hours, Song Wei's realm was completely consolidated at Qi disciple Level 2.

The reason why she was able to consolidate her realm so quickly was partly because of the massive amount of spiritual energy contained in the spiritual crystal. For Song Wei's current cultivation, the spiritual energy in a spiritual crystal was almost endless, enough to support her cultivation for a long time. On the other hand, under Xia ruofei's guidance, Song Wei's Foundation was extremely solid. This breakthrough was just a matter of time, so it was very easy for her to consolidate her realm.

After Song Wei's realm was consolidated, Xia ruofei kept the array flags and officially ended the long cultivation.

Although only four to five hours had passed in the outside world, they had actually stayed in the time formation for 17 to 18 days. Even Xia ruofei was feeling a little tired, mainly in terms of his spirit.

Therefore, after they finished their cultivation, the two of them went back to their rooms to take a bath and rest.

.....

The next morning, Xia ruofei and Song Wei called Yu mingdong and Shi Lei to have breakfast at the hotel. Then, they waited in the hotel lobby for a while. An escort vehicle that Yu mingdong had contacted in advance arrived at the hotel.

They took a car to the site of the public Jade bid and took out all five of Xia ruofei's raw stones. They packed them into boxes and loaded them into the escort company's car. Then, they went straight to Hongzhou, which was more than 90 kilometers away.

Originally, Xia ruofei did not want Yu mingdong to send him off. After all, the airport was not in Ruizhou and it was nearly a hundred kilometers away. However, Yu mingdong insisted on sending him off, so Xia ruofei let him be.

Shi Lei was on high alert throughout the journey, but it was calm and peaceful. After more than an hour, the car arrived at Hongzhou airport smoothly.

When they were about to reach the airport, Song Wei made a phone call. As soon as the car passed the lift bar at the airport intersection, a middle – aged man in a suit waved at the escort car.

Song Wei gestured for the car to stop and asked through the window, "Is this manager Gu?"

"Yes!" The middle – aged man quickly replied. Yes! You're miss song, right?"

"I am." Song Wei smiled and said, "sorry to trouble you, manager Gu."

"Where? I should!" Manager Gu hurriedly said, "miss song, I have already negotiated with the airport. The car can be driven directly to the cargo transfer area. I was worried that you might not be familiar with the way, so I came to help you."

"Thank you so much," Song Wei said.

"You're too polite!" Manager Gu said, "miss song, you can just follow my car!"

Manager Gu waved to Song Wei and jogged to a car by the roadside.

After the car started, Song Wei asked the driver to follow.

Xia ruofei laughed and asked, "Song Wei, who's your friend?" Isn't this treatment a little over the top ..."

Chapter 1585: Return with a full load (2)

Song Wei smiled and said, "she's from the air China headquarters. She's my best friend!" This manager Gu was the person in charge of Air China's Hongzhou airport. He might be more concerned about the matters entrusted by the headquarters! Actually, my best friend's rank isn't that high ..."

Xia ruofei laughed.

He knew that Song Wei's best friend might not have a high status in Air China, but she definitely had a powerful background. Otherwise, Song Wei would not have asked her to do this so easily.

The escort vehicle followed manager Gu's car through a security door and entered the cargo transfer area.

Manager Gu greeted them with a staff member, while Shi Lei organized the escorts to start unloading the vehicles.

The five raw gemstones were packed into four boxes. Three of the larger gemstones were packed separately.

After the goods were unloaded, the escort asked Xia ruofei to sign and the mission was considered complete.

Meanwhile, manager Gu arranged for people to take over the batch of raw stones. They completed the consignment procedures in the shortest time possible and handed them over to Song Wei with both hands.

"Miss song, don't worry. Before the cargo door closes, our people will keep an eye on the cargo. We won't let the cargo leave our sight." Manager Gu said, "Sanshan airport has also coordinated with each other and found you a pickup truck from the airport. After you land, don't get off the plane with the ordinary passengers. The crew will take you directly to the tarmac to wait and then help you transport the goods out of the restricted area. You just have to arrange for the car to wait outside."

"You're too thoughtful!" "Thank you, manager Gu!" Song Wei said.

"You're welcome, you're welcome!" Manager Gu quickly said, "if you need anything, please call me at any time!"

"Alright," he said. Song Wei said.

The group left the cargo transfer area and went straight to the departure hall.

Xia ruofei and Song Wei's tickets were first – class, so they went directly to the air China VIP counter to exchange for their boarding passes. There was a dedicated service staff to lead them to the VIP lounge.

Standing at the entrance of the VIP security passage, Xia ruofei said to Yu mingdong, ""President Yu, Shi Lei, thank you for sending us off at the airport. If you have the chance, come to San Shan! I'll definitely entertain you warmly!"

"Good, good, good! I'll definitely find time to go there. " Yu mingdong said.

Xia ruofei nodded and said, "alright, we'll meet again ..."

"Mr. Xia, please wait!" Yu mingdong shouted.

Xia ruofei stopped in his tracks and turned to look at Yu mingdong.

Yu mingdong walked over and took out something wrapped in a newspaper from his bag. He handed it to Xia ruofei and said, ""This is a small gift from me, Mr. Xia, please don't reject it ..."

Xia ruofei opened the newspaper package in confusion and quickly gave it to Yu mingdong. ""President Yu, I can't take this. You should keep it for yourself!"

There was a piece of Jade in the bag. It was about the same size as the one that Song Wei had cut out yesterday, but the quality was much higher. It was an ice type jade, close to the glass type, and it looked crystal clear.

Xia ruofei had learned a lot about this in the past few days. He was familiar with the market. He conservatively estimated that this piece of Jade was at least ten times the value of Song Wei's piece, which was at least five million Yuan.

Yu mingdong pushed the Imperial Jade back and said, "Mr. Xia, listen to me ... That day, you already gave me a friendship price for that piece of violet floating flower, but you didn't buy the Jade that I promised was worth five million Yuan. Instead, you took a piece of Jade. Although it was also an ice – Type jade, it was definitely not worth five million Yuan. This piece of Jade is my small compensation. If you still don't accept it, I'll feel really bad!"

On one hand, Yu mingdong felt that he couldn't take advantage of this. On the other hand, he was really grateful to Xia ruofei for criticizing He Ping for misjudging the raw stone. If Xia ruofei had not reminded him softly, it might have fallen into his own hands. How could fatty Luo have taken over?

Furthermore, Yu mingdong had attributed the two consecutive huge gains in stone gambling to the luck that Xia ruofei had brought him. Hence, he was grateful to Xia ruofei from the bottom of his heart and was willing to give him this piece of Jade.

"President Yu, if you put it that way ... This piece plus the one from that night is worth more than five million!" Xia ruofei smiled and said, "besides, your own processing plant has a huge demand for high – end Jade. You should keep it for yourself!"

"No! Mr. Xia, although I, Yu mingdong, am a profit – seeking businessman, I also clearly distinguish between gratitude and grudges!" Yu mingdong said, "I know Mr. Xia may not care about that little bit of money, but I care about my principles. If you really treat me as a friend, then take it!"

Xia ruofei thought for a while and laughed. "Alright! I'll make you my friend! I'll be taking the item!"

"That's the way!" Yu mingdong happily stuffed the Jade into Xia ruofei's hands and said, "you guys go in quickly! Lei Zi and I are also going to Rui Zhou, we still have some things to do!"

Xia ruofei waved goodbye to the two of them and walked to the security checkpoint with the Jade.

In the VIP lounge.

Xia ruofei gave ye Lingyun a call and told him his flight details. He asked him to drive the company's pickup truck to the airport and wait there.

Song Wei played with the Jade that Yu mingdong had given Xia ruofei and said with a smile, "President Yu is really good to you! I'll give such a beautiful piece of Jade to you, you can't just reject it!"

"If you like it, I'll give it to you!" Xia ruofei said with a smile.

Song Wei quickly stuffed the Jade into Xia ruofei's hands and said, "You should quickly put it away! This was something that was worth more than five million! I don't dare to take it ..."

Xia ruofei laughed. "Didn't you say that after we go back, you'll still need me to personally carve Jade for you?" he asked.

"That's different. I'll buy it from you!" Song Wei said, "I can't accept such a big piece of Jade."

“You still want to listen to principles ...” Xia ruofei smiled and kept the Jade without saying anything.

The quality of this Jade was not bad. If the Jade from his raw stones was not as good as this one, he was prepared to use this high ice type jade to carve some accessories, such as earrings, bracelets, pendants, and so on. He would definitely prepare a set for Song Wei.

As for the money, Xia ruofei would not accept it.

However, his raw stone had not been opened yet. It was too early to talk about this, so Xia ruofei did not continue to argue with Song Wei on this topic.

After the two of them rested for a while, at around 11 am, an Air China ground service staff came over to remind them that they could board the plane.

The flight was smooth, and the plane landed at Sanshan airport around two in the afternoon.

Looking at the terminal outside the porthole, Xia ruofei felt like it was a lifetime ago.

He had been out for more than ten days and had experienced many things. Of course, he had gained a lot. The only imperfection was that Song Wei’s peach blossom miasma had not been completely cured. However, after a few rounds of cultivation, Xia ruofei was confident that he could completely eliminate the miasma in the near future.

The passengers got up and got off the plane. Xia ruofei and Song Wei took their luggage and continued to wait in their seats.

After a while, the first – Class flight attendant came over and led the two of them out of the cabin door. After crossing the covered bridge, a door opened from the side and took the two of them through the stairs to the tarmac.

A pickup truck was already waiting there, and the air China person in charge of San Shan airport had also arrived.

The cargo hold was already open, and the staff were sending the passengers’ luggage onto the conveyor belt.

The boxes that contained Xia ruofei’s raw stones were quickly unloaded and loaded into the pickup truck.

Xia ruofei and Song Wei left the restricted area in the pickup truck and drove to the airport parking lot.

Xia ruofei gave ye Lingyun a call. In no time, he drove the farm’s pickup truck to the parking lot.

Ye Lingyun and the air China ground service staff worked together to pour the raw stones into the pickup truck on the farm. Xia ruofei expressed his gratitude to the other party, then took Song Wei and left the airport in the two pickup trucks.

Chapter 1586: New space skill (1)

“Song Wei, are you coming back to the farm with me first, or are you going home?” Xia ruofei asked, “if you’re going back directly, we’ll send you off first.”

After returning to San Shan, he had to be more careful. After all, Song Qiming was the official in charge of the city. Song Wei’s identity was also more sensitive. If he was not careful, he would be seen by someone with ill intentions.

This was also the reason why Xia ruofei had asked Ye Lingyun to pick him up personally. Ye Lingyun was someone he trusted absolutely and was very tight-lipped, so he would not spread the news.

Although Song Wei really wanted to return to the farm with Xia ruofei, she still knew when to stop.

It would be fine if he visited the farm normally, but he had just returned from a foreign land. If he went to the farm directly instead of going home and was noticed by people with ulterior motives, it would inevitably lead to suspicion.

If people knew that she had gone out with Xia ruofei alone for more than ten days, it would be even easier to arouse all kinds of speculations.

Hence, Song Wei pondered for a moment and said, “I’d better go back directly! I haven’t been home for so many days ... You don’t have to send me back to the city, just find a place where it’s easy to get a taxi on the way.”

Xia ruofei had also considered sending Song Wei back with a pickup truck. It did not seem to make sense. Song Wei had flown back from another city. If she did not ask her family to arrange for a car to pick her up, she should have taken a taxi.

He thought for a moment and said, “I still have to do it. How about this ... I’ll make the arrangements.”

Xia ruofei took out his phone and dialed Pang Hao’s number.

“Boss Xia, Ling Yun sent a car to the airport this afternoon. Are you back?” As soon as Pang Hao picked up the phone, he complained, “you’re really good! Leaving behind such a big stall and running away to have fun for more than ten days ...”

Xia ruofei laughed and scolded, “why are you so full of complaints?!” By the way, has Pingzi reported to work?”

“I’ve been reporting to the company since the seventh day of the new year,” Pang Hao said, “that kid still wants to start from the bottom, but according to your instructions, the company has arranged a project team leader position for him, under the e-commerce Department.”

Xia ruofei thought for a while and said, “sure. The e-commerce business will grow. Although it’s a little tiring, it can train people. It’ll be easier to promote him in the future ...”

After asking about Guanping’s situation, Xia ruofei went straight to the point. “Little fatty, are you driving to work today?”

“Of course, I’ve been up since seven in the morning ...” Pang Hao said. “I’m looking forward to moving to the new headquarters in the city as soon as possible. It’s really too painful to wake up early every day!”

Xia ruofei ignored pang Hao's complaints and said, ""Give Lei Hu a call and ask him to drive your car to the intersection between our farm and the National Highway. I want to borrow your car."

After pang Hao earned some money, he quickly got his driver's license and bought a Volkswagen Bora.

The car was not eye – catching. Besides, with the development of online car – hailing, Song Wei would not attract much attention if she took this car back. Hence, Xia ruofei decided to commandeer pang Hao's car.

"No problem! I'll make the arrangements immediately. " Pang Hao said.

After hanging up the phone, Xia ruofei said to Song Wei, ""I'll send you back later!"

Song Wei was overjoyed because she could spend more time with Xia ruofei. She nodded her head.

The airport and Tao Yuan farm were both located in Changping County, not far from each other. It didn't take long for the car to reach the intersection leading to the farm.

A white Volkswagen Bora was parked at the intersection, and Lei Hu stood beside it.

The pickup truck stopped slowly beside the Bora, and Xia ruofei and Song Wei got out of the car.

"Hu, I'll take over director pang's car. You can go back to the farm with Ling Yun!" Xia ruofei said to Lei Hu.

"Alright, brother Xia!" Lei Hu replied.

Xia ruofei leaned on the window of the passenger seat and said to ye Lingyun, ""Ling Yun, help me move my things to the second floor of the mansion when we get back. Get a few more people. It's quite heavy!"

"Alright!" Ye linyun grinned.

Ye Lingyun had the spare key to Xia ruofei's Villa. Xia ruofei would often be away for many days. Ye Lingyun was the one who helped to feed the fish and the dogs.

After Xia ruofei gave ye Lingyun some instructions, he went into pang Hao's Volkswagen Bao' Lai with Song Wei.

The car drove towards the city. Along the way, Song Wei was not as active as she had been in the past few days. She seemed to be in low spirits.

Xia ruofei knew the reason for Song Wei's low spirits, but he did not say anything. He could only find a light topic and chat with her on the way.

Half an hour later, Xia ruofei stopped the car by the road.

"Song Wei, the municipal committee's family housing area is just around this corner. There are a lot of people there, so I won't drive there. You can take a few more steps ..."

"Alright!" Song Wei said.

She opened the car door and took a step out. Then, she turned to Xia ruofei and said, ""RUO Fei, what should I do with my cultivation in the future?"

Xia ruofei pondered for a moment and said, "I can come to the city to look for you. You can also go to the farm under the name of visiting. We have the time formation. We don't need to interact too much. We can still cultivate."

"But my school is about to start." Song Wei said, "although the postgraduate curriculum is not very tight and it's easy to take leave, my parents will definitely be suspicious if I stay in Sanshan for no reason and not go to Beijing ..."

"Is that so ..." Xia ruofei frowned, then relaxed again and smiled. "That's fine. I'll be going to the capital for a while soon. I have something to do there."

Chapter 1587: New spatial ability (2)

Xia ruofei chuckled and continued, ""I have a courtyard house in the capital. It's a stand – alone place, and it's far away from the three mountains. It'll be easier for us to cultivate together."

Song Rui and the others had been working on the club since before the new year. As one of the major shareholders, Xia ruofei could not just sit back and do nothing. Song Rui would probably urge him to go to the capital soon.

When Song Wei heard that Xia ruofei was going to the capital soon, her face lit up and she said, ""You're going to Beijing too! There's no problem then ..."

However, she quickly said dejectedly, ""But this isn't a long – term plan! You'll have to return to the three mountains eventually, and you're only staying in the capital temporarily ..."

Xia ruofei laughed and said, "don't forget that we have a time formation. If you stay in the capital for a while, it should be enough for you to break through to Qi disciple Level 3. Then, we can try to get rid of the peach blossom miasma!"

However, Song Wei did not feel happy. She asked, ""What happens after the peach blossom miasma is removed? What if I still want to continue cultivating?"

Xia ruofei was stunned. He scratched his head and said, ""This ... This doesn't matter. The" absolute beginning Heart Sutra "ultimately requires two people to cultivate together, and it is indeed a little troublesome. When the time comes, I will find you a cultivation technique that is suitable for girls to cultivate. You can cultivate it as your main cultivation technique, and then you can cultivate it alone!"

Song Wei's eyes flashed with a hint of disappointment. She forced a smile and said, "Alright! You're very thoughtful ... I'll go back now ..."

"Mm! Think about how you're going to tell your parents, don't let anything slip!" Xia ruofei reminded.

"I know!" Song Wei smiled.

"Ruofei, did the diary in my phone scare you?" she suddenly asked.

Xia ruofei's heart skipped a beat. However, he quickly revealed a look of appropriate shock and asked with a blank face, "Diary? What diary?"

Song Wei had been observing Xia ruofei's expression. However, with Xia ruofei's mental fortitude, he would not reveal any flaws. From the moment he heard Song Wei's sudden question until now, his reaction had been flawless. It was a normal reaction.

Song Wei sighed in disappointment and said, "Oh, it's nothing ... Ruofei, I'll take my leave first!"

"Mm! Be careful!" Xia ruofei said.

He looked at Song Wei's back through the car window. When she turned the corner of the street, Xia ruofei muttered to himself, "It's not that easy to trick me into coming out. Song Wei! I don't know how to face this either, so ... I'll just pretend I don't know anything ..."

Xia ruofei sighed and started the car again. He made a turn at the intersection and drove out of the city.

.....

Taoyuan farm, a small villa.

Xia ruofei passed pang Hao's car keys to ye Lingyun as he walked into the courtyard.

At this moment, lightning and Blackie rushed out of their kennels and wagged their tails at Xia ruofei affectionately. Xia ruofei had been away for more than ten days, and these highly intelligent pets missed him very much.

Xia ruofei squatted down and played with the dogs as he said to ye Lingyun, "Ling Yun, I'll have to trouble you to send the car keys to pang Hao. He'll definitely need the car after work."

Now that it was almost time to get off work, Xia ruofei did not want to appear in the office building again. Otherwise, Feng Jing, pang Hao, and the others would have a lot of things to report to him after he had been away for so many days. He was not in the mood to care about the company now. He would think about it tomorrow!

"Alright, brother Xia!" "Your suitcase is in the guest room on the second floor," ye Lingyun said. "I've also brought people to clean up the room."

"You're so attentive!" Xia ruofei smiled and said, "Alright, you can go first! Come over tonight, let's have a drink together as brothers!"

"Alright!" Ye linyun said.

After ye Lingyun left, Xia ruofei played with Blackie and lightning for a while more before he got up and walked into the villa.

The windows in the villa were clean, even the corners were very clean. It seemed that ye Lingyun not only brought people to clean it just now, but he also came to maintain the cleanliness often.

Xia ruofei went straight to the guest room on the second floor and put the four boxes of raw stones into the spirit map space. Then, he returned to his master bedroom.

Even though he had absolute trust in ye Lingyun, Xia ruofei still checked the room carefully. After making sure that there was no problem, he went to lock the door and pulled the curtains.

He first went to the bathroom to take a shower. After washing away the dust on his body, he changed into loose and comfortable home clothes and went back to the bedroom in his slippers.

Xia ruofei summoned the spirit map scroll from his palm. With a thought, he disappeared from the room and appeared in the spirit map space at the beginning realm.

“Master!” Xia Qing stood by the spatial spirit pond and bowed respectfully to Xia ruofei.

Xia ruofei nodded and asked, “is everything fine in the spirit map world?” Did that little guy cause any trouble?”

The little guy that Xia ruofei was talking about was naturally the world Fox, the darling of the space.

“I’m fine. It’s just that I was too engrossed in my comprehension and accidentally damaged the herbs I planted ...” Xia Qing said.

When the realm Fox was comprehending the rules of space, it often needed to go to different spatial nodes. Some of these spatial nodes were located in the middle of the herb garden. Sometimes, when it was too engrossed, it would accidentally step on a few herbs. There was even a node in the area where the terrifying Hornet was kept. The realm Fox also wanted to break into it, but it was fortunately stopped by Xia Qing in time.

After Xia ruofei heard this, he said, “it seems like we need to teach it a lesson!” Otherwise, this little guy might take advantage of you!”

Xia Qing smiled and didn’t say anything.

Xia ruofei continued. “I didn’t have a suitable opportunity for a while. I came in today to see if there are any new changes after the space was upgraded.”

The last time, Xia ruofei did not hesitate to upgrade the spirit map space by two levels in order to unlock the spirit Island on the sea and find the heart – concentrating grass to treat Song Wei’s soul injury. He did not have the time to pay attention to the changes in the other parts of the space.

Although Song Wei had woken up, it was not convenient for her to stay in a hotel all the time. Besides, it was not an urgent matter like finding the heart – concentrating grass to save her life. Hence, Xia ruofei did not enter the spirit map space again.

The spirit Qi in the spirit map space naturally became denser. In many places, there was even a drizzle of Liquid Spirit Qi. This Liquid Spirit Qi fell into the earth, soil, mountains, and rivers in the space, then gradually turned into gas and rose slowly. It condensed in the upper half of the space, then turned into liquid and fell down, continuing to nourish the earth. This process was like a cycle of nature.

Xia ruofei felt that if the space continued to upgrade, there would be a day when spiritual crystals would be produced underground.

The area of the mountain and sea realm had doubled again, reaching almost 20000 mu. If Xia ruofei could not cover the entire area with his mind in the space, he would have had to spend a long time calculating this area.

Xia ruofei walked around the space and felt that he was more in sync with the spirit map space. Naturally, his control of the spirit map space was strengthened. He could even feel the basic rules of the space.

Although this feeling was very hazy, it still made Xia ruofei's understanding and use of space improve by more than one level.

Xia ruofei's eyes were slightly closed. After a long time, he suddenly opened his eyes. With a slight thought, the reclining chair beside the spiritual pond suddenly disappeared.

In the next moment, the reclining chair appeared about ten meters above the spatial spirit pool and floated steadily in the air.

Xia ruofei's face could not help but reveal a trace of joy. His heart could not help but feel excited. This was not supported by the invisible force of space. It could be said that Xia ruofei's successful experiment was something that he could never have done before. This was a new level of control over space, just like a new skill developed in a game.

After thinking about it, Xia ruofei knew how useful this new skill was. Even the steady him could not help but be overjoyed ...

Chapter 1588: Rare black jadeite (1)

Xia ruofei's seemingly simple action had in fact gone beyond the application level and pointed directly to the basic rules of the spirit map space. He had built an independent space above the spirit pool and moved the reclining chair in it.

This meant that Xia ruofei did not need to use the invisible spatial force. Even if he left the spirit map space, this independent space would still exist and its structure was very stable.

Without absolute control of the spirit map space and a deep understanding of the rules of the spirit map space, Xia ruofei would never be able to do this.

Even Xia Qing couldn't help but be slightly moved when she saw this scene. Xia ruofei's talent in space was not weak, and he had the unique conditions of controlling the spirit map's space. He was actually able to construct a space independently when he was only in the Qi cultivation stage, which was somewhat beyond Xia Qing's expectations.

Of course, Xia ruofei's understanding of the laws of space was still very shallow. He could only perform such operations within the spirit map space. In the outside world, his ability in the aspect of space was far inferior to that of the realm Fox.

Xia ruofei was like a child who had just gotten a new toy. He was happy to try it out repeatedly.

He first constructed multiple layers of space in the Archean realm. Then, he moved all the large wine jars that contained the Eight Immortals drunken white wine into these multiple layers of space.

Previously, Xia ruofei had built some solid metal frames so that the wine jars could be stacked on top of each other to save as much space as possible. However, in essence, they were still in the same space and the metal frames could not be too high or they would be unstable.

However, it was different now. Xia ruofei had constructed layers of independent spaces according to the height of the wine jar. These spaces were also very stable and connected to the entire spirit map space.

In theory, these wine jars could be stacked up to the space Dome, which saved a lot of space.

In other words, as long as Xia ruofei wanted to, he could use the space on the ground level. Now, it had become a three – dimensional space. The space utilization rate was like heaven and earth compared to before.

The 30 times time acceleration at the Archean realm was very useful for Xia ruofei's letter. Things that he couldn't do previously due to the limited space could now be done.

Taking the Drunken Eight Immortals wine as an example, Xia ruofei could definitely increase the production of the wine factory by a few times. He would not have to worry about the Archean realm being filled to the brim.

As for the mountain sea realm, it was incomparably vast to begin with. If one added in these layers of independent space, it could be said that space was basically endless.

Xia ruofei had once again arrived at the mountain and sea realm. That white realmfox was still greedily comprehending the spatial laws.

The moment Xia ruofei appeared in the mountain and sea realm, the realm Fox seemed to have finished its comprehension of this spatial node. Its figure flashed like lightning as it rushed to the next node.

Seeing that the realm Fox was rushing towards the Cordyceps sinensis plant nursery, Xia Qing quickly reminded loudly, "Slow down. Don't damage the fungi in the soil!"

The corners of Xia ruofei's mouth curved up slightly, revealing a smile.

With just a slight thought, the realm Fox bounced back as if it had hit a wall.

The White realmfox was also stunned. It did not believe it and rushed in another direction. However, it was blocked again after only two or three meters.

The realm Fox attacked in all directions, but it was to no avail.

"Master ..." Xia Qing said, "I'm afraid this spatial cage can't trap this little fellow. It has a deep understanding of the spatial laws ..."

As it spoke, the realm Fox seemed to have noticed that something was wrong. It did not continue to attack madly, but calmed down instead.

Xia ruofei could tell that the spatial cage was about to be broken.

Sure enough, in the next moment, the body of the realm Fox seemed to emit a mysterious space rule. Then, with a light wave of its claws, the small sealed space that it had built was broken.

Xia ruofei was not surprised. The realm Fox was unable to break the rules of the spirit map space. However, the small space that Xia ruofei had created through the basic rules of the spirit map space could be easily broken by the realm Fox as long as it calmed down and analyzed it.

After the realm Fox escaped, it was not in a hurry to comprehend the new spatial node. Instead, it looked at Xia ruofei proudly, as if to say, "What can you do to me?"

Xia ruofei walked up to him with a smile and said, "Little guy, I don't object to you comprehending the spatial rules here, but you're not allowed to destroy a single blade of grass or tree in my space. Otherwise ... The spatial cage just now wouldn't be a good feeling, right?"

The white fox pouted and gestured at Xia ruofei, implying that the space cage was nothing more than this and posed no threat to it.

Xia ruofei did not take it to heart. He smiled and said, "One space cage is no threat to you, but what about ten, a hundred, or a thousand?"

As Xia ruofei spoke, he waved his hand and set up space cages around the white fox. Some of the space cages were independent of each other, some were nested together, and some even formed an array, just like a complicated maze.

Xia ruofei looked at the white fox and said, "Even if you have the ability to crack them one by one, I'm sure it'll take a lot of energy, right? In this spirit map world, it's as easy as blowing off dust for me to create such a small space. Besides ..."

Chapter 1589: Rare black jadeite (2)

Xia ruofei paused and continued, "If you keep breaking these spatial cages, how will you have the time to comprehend the spatial laws? I have plenty of time to play with you ..."

This was the true weakness of the white fox.

After the realm Fox tried to break through a few spatial cages, it gave up dejectedly. It stood up on its hind legs and put its two front paws together in a very human – like posture, looking very pitiful.

Xia ruofei knew that the Jie Li was wild and hard to tame, so he did not loosen his restraint immediately. Instead, he asked, "I reminded you last time. I'll ask you again today. Do you still dare to mess around in the space?"

The White realmfox shook its head and looked obedient.

Xia ruofei continued, "when I'm not in this space, Xia Qing will represent me. You must obey his words. Can you do that?"

"Ji ji ji ..." The White realm Fox nodded repeatedly.

Xia ruofei waved his hand and removed all the space cages.

Looking at the white fox's docile appearance, Xia Qing said in admiration, ""Master, you're amazing, you managed to control it with one move!"

Xia ruofei laughed and said, "this little guy's wildness won't disappear in a short time. If it causes trouble here, inform me immediately. I'll teach it a big lesson!"

When the White realmfox heard this, it could not help but shiver in fear. Its eyes became more gentle.

"Yes, master!" Xia Qing replied.

Xia ruofei continued to patrol the mountain sea realm. Then, he stood by the sea and looked at the small island in the distance. He had wanted to go to the island again to take a look, but Yingying had been pressed for time last time, so he had not been able to explore the entire Island. After taking the heart – concentrating grass, he had left in a hurry.

However, on second thought, Xia ruofei realized that the island had a special spatial barrier. He could not teleport there directly and had to swim in. Hence, he gave up on the idea of going to the island.

Xia ruofei thought to himself, "I'll buy a small motorboat tomorrow so that it'll be easier to enter and exit the island. I don't have to get" wet "every time I go up ..."

After patrolling the space, Xia ruofei returned to the Archean realm.

Four boxes filled with raw gemstones were placed neatly on the grass of the Archean realm. Xia ruofei was prepared to open them today. He was also looking forward to what surprises these five raw gemstones would bring him.

Xia ruofei strode to the side of the wooden box. He injected genuine Qi into his hand and pulled it open gently. The wooden box that had been nailed shut was pulled open.

Soon, Xia ruofei opened the four wooden boxes and took out the five raw gemstones of different sizes.

If Yu mingdong had seen this scene, he would have been shocked speechless. The two raw stones that needed a forklift or several people's cooperation to move were lifted by Xia ruofei effortlessly as if they were weightless.

Then, with a thought, a small gasoline engine was moved to his side. He pulled the rope hard and the gasoline engine started running.

After seeing that the voltage and current on the meter had stabilized, Xia ruofei picked up a hand grinder and replaced the grinding plates with new ones. He then plugged it into a socket connected to the output end of the gasoline – powered generator.

Xia ruofei had bought the grinding machine and grinding sheets from jadeite Street, where they were well equipped for cutting stones.

He turned on the power of the grinding machine and began to cut the stone from the smallest piece.

Xia ruofei did not have much experience in this area, but he had precise control of his hands and good eyesight. He could use this method of polishing bit by bit to cut the raw stone without damaging it at all.

Of course, there were some parts that could not be polished by the grinder. Xia ruofei only needed an ordinary carving knife and infused with genuine Qi to easily remove the unnecessary stone parts.

The screeching sound of friction was accompanied by the roar of the gasoline engine. Xia ruofei's hand was full of stone chips.

After a short while, the smallest raw stone was cut out.

Ice seed! And it was the relatively rare red silk! Xia ruofei had spent about 700000 Yuan on this raw stone, but this piece of Jade was worth at least three to four million Yuan!

Without a doubt, this was a good start.

Xia ruofei was not as fanatical as those who gambled on stones. He did not show any signs of excitement at the expected huge increase. He used the carving knife in his hand to clean some of the corners. Then, he placed the priceless Jade aside and continued to cut the second raw stone.

The second piece, a huge increase!

The third piece, great increase!

.....

Xia ruofei cut four raw stones in a row without stopping. The Jade in each stone was pretty good, mainly ice – Type jade. Even the worst one was worth at least three to five times its original value.

Just these four pieces of jade were worth more than 20 million Yuan. Xia ruofei had already earned back the capital he spent on these raw stones.

There was only one piece left, and it was the one that Xia ruofei had the most faith in.

Xia ruofei had spent more than three million on this raw stone. It was not the most expensive of the five raw stones, but Xia ruofei felt that it had the most potential.

This was because it could cause a strong vibration on the spirit painting scroll. The intensity of the vibration was almost the same as the original stone that became the king of bidding, but the price was not even one – tenth of that stone.

Xia ruofei rested for a while and drank some water. Then, he walked towards the raw stone with the grinder in his hand.

He had done this many times, so he was at least familiar with grinding raw stones.

Xia ruofei turned on the power of the grinding machine and started to grind the last raw stone with confidence.

In the midst of the stone debris, Xia ruofei stared at the raw gemstone without blinking.

The stone Skin was worn off bit by bit. Suddenly, a pure black color entered Xia ruofei's sight. He subconsciously raised his arm and moved the grinder away from the raw stone.

After turning off the power, Xia ruofei picked up a wet cloth and wiped it with force.

It really wasn't an illusion. There was a pure black piece of Jade at the window position. It looked like it could be planted with water. Xia ruofei shone it with a strong flashlight and felt that it was very transparent. However, in a daily environment, the piece of Jade was actually pure black.

Was this still considered Jade? Xia ruofei couldn't help but feel apprehensive.

However, since the spirit painting scroll had such a strong reaction, it meant that the Jade inside was definitely not bad.

It might be a rare type of Jade! Xia ruofei said in his heart.

He turned on the power of the grinding machine again and continued to grind carefully.

This raw stone was a Little Big, but the Jade inside was not that big. Hence, Xia ruofei had to grind it for more than two hours before he finally took out the head – sized Jade.

He spent another twenty minutes carefully removing the impurities on the corners of the Jade with a carving knife.

Then, a piece of black jade was presented in front of Xia ruofei.

Although it wasn't the traditional green color, this black jade seemed to have a kind of soul – stirring beauty. The black jade flesh was like a black hole that could attract people's eyes involuntarily.

With Xia ruofei's half – baked knowledge of Jade, he could only judge that the quality of this black jade was at least of the ice type. As for its value or whether it could be considered a type of "Jade", he had no idea.

Xia ruofei thought for a while and decided to leave the spirit map space with the strange Jade.

After returning to his bedroom, Xia ruofei picked up his phone from the bedside table and took a few photos of the black jade.

Then, he opened his WeChat and sent the photo to Ma Zhiming, who was far away in Hong Kong.

Xia ruofei wrote on WeChat, "Mr. MA, can you help me see if this piece of Jade is Imperial Jade?" If so, what's the value?"

He was worried that some things couldn't be seen clearly in the photo, so he sent the size and approximate weight of the Jade to Ma Zhiming. Then, he put the black jade into the medium and waited for Ma Zhiming's reply.

Chapter 1590: Over a hundred million Yuan (1)

Xia ruofei didn't have to wait long for Ma Zhiming to reply.

"Mr. Xia, this is a top – grade black jade!"

This sentence was followed by three shocked emojis.

Xia ruofei had never doubted the value of this piece of Jade. At least until now, the reaction of the spirit painting scroll had never been wrong. Therefore, when he saw Ma Zhiming's reply, although he was very happy, he was not overjoyed.

Before Xia ruofei could reply, Ma Zhiming quickly sent another message. "Mr. Xia, the picture doesn't look very real. Do you want to buy this piece of Imperial Jade? Black jade of this level is very, very rare. Even I have never seen one in my many years of work!"

Xia ruofei couldn't help but laugh. His fingers quickly tapped on the screen and replied to Ma Zhiming, "Mr. MA, there is no doubt about its authenticity, because I personally cut this piece of Jade out of the raw stone, and it is an old raw material!"

After Xia ruofei sent this message, Ma Zhiming's side was silent for a while. Then, he directly gave up on WeChat communication and called.

Xia ruofei picked it up and smiled. "Mr. MA!"

Ma Zhiming's voice was very excited as he said, "Mr. Xia, so you are the owner of this top – grade black jade?"

"You can say that!" Xia ruofei laughed.

"Mr. Xia, are you interested in selling this piece of Imperial Jade?" Ma Zhiming asked excitedly, "our Hengfeng jewelry is willing to buy it at a high price! The specific price will need to be evaluated after seeing the real thing, but I can guarantee that the purchase price will not be lower than 100 million!"

Ma Zhiming didn't doubt the authenticity of this piece of Jade at all because he had absolute trust in Xia ruofei. Since Xia ruofei said that this piece of Jade was cut out from the raw stone by himself, it couldn't be fake.

Xia ruofei was mentally prepared. He knew that this piece of Imperial Jade might be worth a lot, but when he heard Ma Zhiming personally promise that the purchase price would be at least 100 million Yuan, he couldn't help but feel his heart jump.

It would be a lie to say that he wasn't tempted. Even if Xia ruofei was considered to be a little wealthy now, it wasn't to the extent that he didn't care about a hundred million Yuan.

However, Xia ruofei quickly resisted the temptation. He said apologetically, "I'm sorry, Mr. MA, I might have a use for this piece of Imperial Jade, so I don't plan to sell it for the time being ..."

"I see ..." Ma Zhiming said regretfully. "That's really a pity. This kind of extremely rare Jade can be regarded as the treasure of our Hengfeng jewelry ..."

"Mr. MA, I would like to ask ... If such a black jade is cut into a finished product, what kind of product should it be made into?" Xia ruofei asked with a smile.

Ma Zhiming answered without thinking, "black jadeite represents darkness, and at the same time, it also represents righteousness. Therefore, it is generally made into pendants in the image of Zhong Kui, Bao Gong, Guan Gong, or other ornaments. It can also be made into beads, bracelets, and so on. It can ward off evil spirits and avoid disasters. Ordinary evil spirits can't get close to it!"

In fact, Hong Kong had a relatively well – preserved culture of Feng Shui and metaphysics, especially in the upper class of society. Many people believed in this, so black jade products were the most popular in Hong Kong.

Xia ruofei's Black jadeite was of the best quality in terms of quality, purity, hardness, water head, and so on. If it was made into a finished product, it would undoubtedly be favored and pursued by countless people. Hence, Ma Zhiming was eager to buy this black jadeite.

"I see. I've learned a lot ..." Xia ruofei smiled.

"Mr. Xia, do you want to make a finished product of this Jade?" asked Ma Zhiming. If that's the case, there are a few old masters in the processing plant under our company who are very good at carving. Do you want them to be processed here? We don't charge a single cent for the processing fee. As long as the finished product is completed, if there are any extra pieces, Mr. Xia, you can sell them to our company at the market price!"

Xia ruofei was a little embarrassed to reject Ma Zhiming's offer when he saw how enthusiastic he was.

However, he obviously wouldn't let others do it for him. In terms of carving skills, there might be many people who were better than him. However, Xia ruofei was very confident in the finished product. Even the old master of Hengfeng jewelry would not be able to compare to him.

This was because he could carve out a kind of divine charm that other Masters couldn't show. In addition, the most important point was that he could carve all kinds of array patterns on these jade products, so that they were no longer simple ornaments, but had a certain function.

"Thank you for your kindness, Mr. MA. I'll contact you again if I need to." Xia ruofei said.

When Ma Zhiming heard this, he knew that Xia ruofei had already tactfully rejected him. He could not help but secretly sigh.

"It doesn't matter where this piece of Jade is processed. If there are any remaining finished products, Hengfeng jewelry will be my first consideration," Xia ruofei added.

Ma Zhiming suddenly had a feeling of a ray of light at the end of the tunnel. He was overjoyed and said, "That's great! Thank you, Mr. Xia!"

"You're welcome, I'm just doing business! I'll be more at ease if I work with you, won't I?" Xia ruofei said with a smile.

"That's right, that's right!" Ma Zhiming said and then asked, "Mr. Xia, do you really not need our master to help? Our Hengfeng jewelry's old master's skills are much better than some famous mainland Masters ..."
