

God tier Farm 1651

Chapter 1651: Successfully taking down_1

In fact, after Xia ruofei's analysis, Liu haofan was already tempted. Anyway, he was not the one losing money. When Xia ruofei mentioned that they were going to inspect other plots of land, Liu haofan couldn't help but stop them.

When Zhou Tianyu saw that, he couldn't help but smile bitterly.

He had been in the business world for so many years and had much more experience in negotiating than Liu haofan. Although Xia ruofei's words sounded sincere and her attitude was tough, Zhou Tianyu felt that there was still room for negotiation.

Even though Zhou Tianyu really couldn't think of any way Xia ruofei and the rest could solve the yin gathering place problem after they got this piece of land, since Xia ruofei and the rest dared to buy it, they must have a way.

Hence, this piece of land would be worth more than 260 million Yuan in the hands of Xia ruofei and the rest.

As for what Xia ruofei said about suppressing the yin gathering place's Feng Shui Bureau, the cost would be tens of millions. Zhou Tianyu scoffed at it. If they really wanted to do that, Xia ruofei would definitely offer a lower price.

Zhao Yongjun, song Rui, and the other young masters were not living Lei Feng.

Hence, Zhou Tianyu was prepared to delay a little to see if he could lose less money.

However, he didn't expect Liu haofan to be so impatient. In this way, they, who were already suppressed in every aspect during the negotiation, would be even more passive.

As expected, Xia ruofei stopped and asked with a smile, ""Young master Liu, is there anything else?"

Liu haofan squeezed out a smile and said, ""President Xia, since you're here, don't be in such a hurry to leave! Let's have lunch together and give general manager Zhou and the others some time to ask the Board of Directors ..."

Xia ruofei looked at Zhou Tianyu and asked, ""Director Zhou, what do you think?"

Zhou Tianyu quickly smiled. "I will immediately report the situation of the negotiation to the company's upper management. President Xia, why don't you take a seat for a while?"

He had wanted to try to negotiate further, but it was impossible now. Otherwise, not only would the negotiations break down, but he might also offend Liu haofan.

"Alright then!" Xia ruofei returned to his seat and smiled. "Then we'll wait for your good news, director Zhou!"

Zhou Tianyu smiled bitterly. "President Xia, you guys are too harsh on the price. It's hard for me to convince the company's top management. I can only try my best!"

Xia ruofei laughed out loud. He was already confident and naturally didn't believe Zhou Tianyu's lies. He smiled and said, "It doesn't matter if we can't reach an agreement. General manager Zhou, just do your best ..."

Anyway, no matter what Zhou Tianyu said, he wouldn't give in and add a single cent.

Zhou Tianyu sighed in his heart. He greeted them and left the meeting room.

Zhou Tianyu pretended to go and ask for instructions. The negotiating atmosphere in the conference room was also swept away. Liu haofan and Zhao Yongjun casually chatted about some things in the Beijing rich and powerful circle.

Xia ruofei did not know much about their circle, so he was too lazy to interrupt. However, he listened with interest.

Song Rui, on the other hand, simply wanted to act cool. He didn't talk to Liu haofan at all and just sat there with a long face.

Zhou Tianyu didn't dare to waste too much time and quickly returned to the meeting room.

In reality, when he had been reporting to the company's chairman and several deputy chairmen, he had not spent much time convincing Liu haofan to give up on the company. The other 260 million was only 40 million less than the base price they had in mind. For a company like Great Tang, an extra 40 million was nothing. As long as they could get rid of this hot potato, it didn't matter if they lost some money.

In addition, Zhao Yongjun and song Rui's backgrounds were also terrifying, so Tang real estate naturally didn't mind using 40 million to make friends.

Hence, Zhou Tianyu quickly got the authorization from the company's higher – ups, allowing him to represent Tang real estate to transfer the land to Xia ruofei's team at the price of 260 million Yuan.

If it was a normal business negotiation, even if he had the authorization, Zhou Tianyu would definitely take a long time. He wouldn't be so straightforward. At least, he couldn't let the other party think that success was too easy. However, facing top nouveau riches like Zhao Yongjun and song Rui, Zhou Tianyu didn't dare to have the slightest delay. After coming out of the Chairman's meeting room, he didn't even take a break and rushed back to the meeting room.

As soon as Zhou Tianyu entered the house, Zhao Yongjun and Liu haofan, who were chatting, stopped. Everyone looked at him.

Zhou Tianyu smiled and said, "CEO Xia, CEO Zhao, young master Song, I've tried my best and finally fulfilled my mission. The company's higher – ups have agreed to transfer the land at the price of 260 million that CEO Xia proposed!"

Success! Xia ruofei and Zhao Yongjun relaxed slightly.

Although it was expected, after confirming it, Xia ruofei and the other two couldn't help but feel excited.

Of course, they didn't show it on their faces, including song Rui, who didn't usually hide his thoughts. He still had a cool expression on his face because he felt that it was too degrading to show his joy in front of Liu haofan.

Xia ruofei smiled and said, "thank you, director Zhou!" Then I wish everyone a happy cooperation!"

Liu haofan also heaved a long sigh of relief. He had finally gotten rid of this hot potato.

He also laughed and said, "haha!" Happy cooperation! Happy cooperation!"

?

Chapter 1652: Successfully taking down_2

The next thing was simple. The legal counsel of Tang real estate soon prepared the relevant transfer documents.

Xia ruofei's Hengrui real estate took over the land of datang real estate at the price of 260 million Yuan. Of course, they also inherited all the rights and obligations of the land.

Zhao Yongjun and the others didn't bring a full – time legal counsel, but Zhao Yongjun was still experienced in business. Plus, Zhao Yongjun also knew that they wouldn't dare to play any tricks on the transfer contract even if they had a few guts. So Zhao Yongjun read the contract carefully from beginning to end, making sure there were no traps, and then handed it to Xia ruofei.

Xia ruofei skimmed through the book. He had already reached the spirit stage and his brain development was several times more developed than ordinary people. Hence, he did not miss out on any details even at this speed.

After confirming that there were no problems, Xia ruofei passed the contract to song Rui.

Song Rui was just putting on an act. However, he was also very careful.

After a round of inspection, the three of them nodded.

As the legal person of the company, Zhao Yongjun signed his name on the contract. Zhou Tianyu from Tang real estate signed on behalf of him. At the same time, as the partner of this project, Liu haofan also signed his name on the contract.

When Zhou Tianyu saw Zhao Yongjun take out the company seal from his bag, he laughed bitterly in his heart. Zhao Yongjun obviously came prepared, even the official seal was prepared in advance. The previous discussion about inspecting other plots of land was just a means of pressure.

But now that it had become a reality and he had gotten the approval of the company's top management, Zhou Tianyu was too lazy to care so much. Anyway, it wasn't his own money that he was losing.

After both parties signed and stamped, the transfer contract officially came into effect.

The contract gave a one – week deadline for the payment. As long as Hengrui Corporation transferred 260 million Yuan to the company account of datang real estate within the time limit, the deal would be officially closed.

After signing the contract, Zhou Tianyu smiled and shook hands with Xia ruofei and the other two. Then, he said, ""Director Xia, director Zhao, young master Song, our company has prepared a table of wine for lunch. We would like to invite the three of you to come!"

Xia ruofei smiled and said, "forget about the meal. We still have to go back and raise money. Also, there's a big problem with this land. We still don't have a clue how to solve it!" I've been too busy ..."

"Chief Zhou, I appreciate your kind intentions!" Zhao Yongjun also smiled and said, "after we're done with this, I'll treat the two of you to a meal!"

Zhou Tianyu was just being polite out of courtesy. Since the other party rejected him, he naturally didn't say anything more.

As for Liu haofan, although he had agreed to have lunch together, he couldn't wait to go back now that the contract had been signed. Only a ghost would be willing to eat at the same table as song Rui! So he didn't mention this matter again.

Hence, Xia ruofei and the other two kept the contract and left the property.

Liu haofan watched the three of them walk out of the meeting room. The polite smile on his face disappeared. He stared at song Rui's figure with a cold smile on his face and his eyes became a little gloomy.

Previously, when they were bidding for the land, Liu haofan had been tricked by Xia ruofei and became a victim for no reason. In addition, he and song Rui had never been on good terms since they were young. With his arrogant character, how could he let go of the old grudge so easily?

However, he was also eager for someone to take over the land. In addition, the results of the investigation on Xia ruofei made him apprehensive, so he pretended to be polite. Now that the deal had been made, Liu haofan could not wait for Xia ruofei and the others to lose everything after buying the land!

At that time, he could also go and watch the joke ...

Xia ruofei and the others did not care about what Liu haofan was thinking! It was definitely a happy occasion for them to get this piece of land at such a low price. So, when they walked out of the elevator, their steps were a little light.

Of course, the three of them were still tense until Wu Qiang drove over to pick them up. After they got in the car and left Tang real estate, they cheered in unison and high – fived each other!

"Well done! RUO Fei!" Song Rui's face was red with excitement. He had been holding back in the Tang real estate company for a long time, and now he could finally celebrate without restraint.

"Ruofei, I was really sweating at that time!" Zhao Yongjun also laughed and said, "you're really too cruel in haggling!"

"The Mingmen is already in our hands, what's there to worry about?" Xia ruofei smiled and said, "what do you think? He had successfully taken down this piece of land! Let's call Zi Xuan and the others for lunch and celebrate together!"

"It's a must!" Song Rui immediately said, "Wuqiang, don't go back to the courtyard house. Go to the private kitchen of the Wang Residence!" I'm so happy today! This meal is on this bro!"

Wu Qiang looked at Xia ruofei and saw him nodding his head. He then said, "Alright!"

He had lived and worked in the capital for several years and was familiar with the roads, so he didn't turn on the GPS. He turned around at the intersection in front and drove in the direction of the Wang family's private kitchen.

On the other side, song Rui had already called Xu Zixuan and the others, summoning them to meet at the Wang family's private kitchen.

Xia ruofei sat in the front passenger seat and said to Zhao Yongjun, ""Big brother Zhao, if that's the case ... We'll have to pay 260 million in cash in one go. Won't we be a little short on funds then?"

?

Chapter 1653: Successfully taking down_3

According to their previous plan, if Liu haofan hadn't intervened, they would have been able to get the land with just 300 million Yuan. However, they definitely wouldn't have paid the full amount. It would be good enough if they could pay half of it.

After that, they would use the land mortgage loan to obtain cash for the early stages of design and construction.

Now that he wanted to buy land from Tang real estate, the 260 million had to be paid in full. They had already raised 300 million in the beginning, so they were short of funds.

Zhao Yongjun thought for a while and said, "it's not a big problem for the time being. After the relevant procedures for this land are done, we will immediately take a mortgage loan. It will definitely not be a problem to withdraw two or three hundred million in cash. Also, the initial design costs of the clubhouse, including the construction costs, can be delayed for a while ..."

"If you have any difficulties with cash flow, you must let me know as soon as possible." Xia ruofei said, "I still have some idle funds on my side. I can pay for it in advance. Don't do anything illegal just because of money."

Xia ruofei had promised elder song that he would do a clean job on the club project. It would be legal even if he didn't earn a single cent. After all, this project involved several people from different families, including song Rui.

"Alright! If you really need money, we won't be polite with you!" Zhao Yongjun said, "when the time comes, we'll all increase the capital together. If Zixuan and the others can't come up with the money for the time being, then as usual, we'll help pay for it together. We're all brothers!"

"With big brother Zhao watching over me, I'm at ease!" Xia ruofei said with a smile.

"Hahaha! Ruofei, our top priority now is to solve the problem of that piece of land!" Zhao Yongjun said, "otherwise, if the rumors spread, it won't be easy to clear your name in the future!"

"Mm! I'll make some preparations in the next two days!" Xia ruofei said, "it's not difficult to reverse the formation. We're not in a hurry to wait for a day or two in case Liu haofan gets suspicious. Besides, we have to make sure that all the land transfer procedures are completed!" What if that Liu er reneges?"

“That’s for sure!” Zhao Yongjun laughed, “let’s go to the bank in the afternoon. The relevant procedures will definitely be completed in a day or two! Although there were some twists and turns in the beginning, the final result was good, and it was cheaper by tens of millions. Not bad, not bad!”

Xia ruofei thought to himself, “this is not just a matter of being cheaper by tens of millions. The key is that the natural nine revolutions heaven and earth formation is too precious. You can say that you’ve picked up a treasure!”

Xia ruofei even thought that after the clubhouse was built, he would have to spend more time in the capital city because the clubhouse would be very suitable for cultivation.

Soon, the group of people gathered at the Wang family’s private restaurant. Song Rui, who was in a good mood today, was also very generous. He ordered all the signature dishes in the private restaurant and even ordered the most expensive Drunken Eight Immortals wine for his brothers to drink to their hearts ‘content.

When Xu Zi Xuan and the rest heard that they had obtained that piece of land at such a cheap price, they were naturally overjoyed. Other than Wu Qiang who had to drive, everyone else had filled their glasses with white wine and were happily chatting while drinking. The atmosphere was very harmonious.

Everyone quickly divided their work. Zhao Yong Jun was mainly in charge of the land transfer procedures, while song Rui was looking for a design company to start the overall planning and design of the club.

As for Xia ruofei, he naturally took on the most crucial task, which was to reverse the nine turns heaven and earth formation into the Yang formation. Xu Zi Xuan and the others were Xia ruofei’s assistants, and they were responsible for preparing whatever materials he needed.

After all, most of them were natives of the capital and were familiar with all aspects of the capital. With their help, Xia ruofei would have a much easier time.

However, plans often could not keep up with changes. After Xia ruofei received a phone call at the table, he immediately changed his plans ...

?

Chapter 1654: Temporary departure from the capital (1)

When the call came, Xia ruofei and song Rui were having a drinking contest. The others were also drinking and the atmosphere was very lively.

Xia ruofei didn’t look at the caller ID and picked up the phone. “Hey! Who is it?”

There was some gibberish from the phone. Xia ruofei was stunned for a moment before he realized that the person on the other end of the phone was speaking English. He took a look at the phone and realized that it was old West, the person in charge of the winery in Australia.

After Xia ruofei returned to her senses, she stood up and walked out of the private room. Then, she asked in English, “Uncle Wester? Is there anything I can help you with?”

“Boss,” Old West said. “I hope you can come to the winery immediately!”

Xia ruofei’s heart skipped a beat. He asked, “What happened? Is there a problem with the grape trees?”

“Yes,” Old West said seriously, “not only did something happen, but it’s a big problem! Boss, you’d better come and take a look yourself!”

Xia ruofei was confused. Those grapevines were high – Quality species that he had cultivated in the spirit map space. When he planted them, he had added a lot of spirit Heart Flower petal solution in the irrigation tower! How could there be a problem?

This didn’t make sense!

“What happened?” Xia ruofei could not help but ask, “uncle Wester, what’s wrong with those grape trees?”

Old West could no longer suppress his excitement and laughed. “Xia! Are you scared?”

Xia ruofei also came to his senses and said, “Uncle Wester, it’s such a wonderful afternoon. Instead of accompanying Auntie kaberli for her afternoon nap, you’re making an overseas call to play with me. Is there any meaning to it?”

There was a two – hour time difference between Australia and China, so it should be around three in the afternoon.

Old Wester laughed and said, “Boss, I’m not joking with you. Those grape trees are really abnormal! Do you know? The grapes in our two vineyard’s are completely ripe!”

Xia ruofei was a little confused and asked, “Isn’t it the season for grapes to ripen in Australia? What’s the problem?”

“Is there a problem? The boss! “I might not have explained it clearly ...” Old West said. “Our grapes are fully ripe, and they all meet the brewing standards! Moreover, the quality of the grapes was quite good! This was the first year of planting the grapes! My family has been running wineries for generations, and I’ve never seen a Semillon that could be used to make wine in its first year! The best species will take at least two to three years!”

Xia ruofei didn’t know whether to laugh or cry. So Old West was making a big fuss because of this!

He had grown these grapes in the spirit map space and had absorbed a lot of precious spirit Qi. He had also added the spirit Heart Flower petal solution into the irrigation pool, so in his opinion, it was normal to be able to harvest them and use them to make wine in the first year.

Hence, Xia ruofei did not even think about it.

It would be abnormal if it took two or three years to make wine! Besides, Xia ruofei could not wait that long.

Old West was still excited. “Boss, if I didn’t take a sample of the grapes for the test and everything was normal, I would have suspected that your grapes were genetically modified ...”

Xia ruofei laughed and said, “uncle Wester, you even took it for testing?” Isn’t that a little too careful?”

"This batch of grapes is growing too fast," Old West said seriously. "It's beyond common sense. I have to be responsible for the winery's customers! If it wasn't for the test, I wouldn't have known that the quality of this batch of grapes was so high! It was a miracle! It was God's masterpiece! I can guarantee that this batch of Semillon will be the best of its kind in the market ..."

Xia ruofei couldn't help but find it funny as he listened to Old West's passionate jabbering.

He said, "Alright, alright, uncle Wester, thank you for telling me this good news!" I'm very happy! Is there anything else?"

Old Wester was stunned for a moment and said, ""Boss, of course there is! I want to ask when you're coming to Australia? I'll be able to confirm the time to brew the wine!"

Xia ruofei was also stunned. He asked, ""Do you still need me to be there when you're making the wine?"

"Of course! You're the owner of the winery!" Old West said, "this is the most important and meaningful moment of the year for the winery. How can you be absent?"

After hearing Old West's words, Xia ruofei couldn't help but feel tempted.

The scenery in Australia was pleasant. Whether it was Paradise Farm or the winery, the environment was very good. In addition, Xia ruofei was also a little curious about the wine – making process, so he had the idea of going to Australia.

Of course, Old West's attitude had a certain effect. His matter – of – fact tone made Xia ruofei feel a little embarrassed not to go.

He pondered for a moment and said, "uncle Wester, I understand." I still have some things to deal with in China. After I'm done here, I'll come back as soon as possible!"

"Boss, you'd better hurry up," Old West said. "It's the rainy season in Australia. I can't guarantee that our grapes won't rot if we don't harvest them soon ..."

?

Chapter 1655: Temporary departure from the capital (2)

Xia ruofei was speechless. How could they make the time so tight? he casually said, ""I know, I know. I will come to Australia as soon as possible!"

After hanging up, Xia ruofei returned to the private room.

"Ruofei, you're not a good boy! He actually ran out to hide from the wine!" Song Rui, who was already a little drunk, shouted, "hurry up and drink three cups as punishment!"

Xia ruofei smiled and did not explain further. Anyway, with his current alcohol tolerance, he would not get drunk no matter how much he drank. Besides, he was about to do something that would seem to be letting his friends down ...

Xia ruofei poured himself another glass of wine and drank three in a row.

“Straightforward!” Song Rui shouted.

Xu Zi Xuan and the others also joined in the fun and started clapping.

Liu Jian poured a glass of wine and raised it to Xia ruofei. “Brother Xia, if you need us to do anything, just say it! Anyway, we’ll listen to your command for this period of time!”

Xia ruofei was a little embarrassed. He scratched his head and said, “That ... I was just about to tell you! I ... I have something urgent to attend to and need to leave the capital for a few days. I might have to wait a few days before I can talk about the formation ...”

“What?” Song Rui and Zhao Yongjun both shouted in unison.

Song Rui immediately said, “ruofei, are you joking?” What could be more important than this?”

Xia ruofei smiled awkwardly and said, “my business in Australia ... There’s something urgent that I need to deal with!” It wouldn’t take long! It won’t affect our business here!”

Song Rui asked, “what’s the rush?” Can’t you wait until you’re done with your business here?”

Xia ruofei said, “the situation over there is really urgent!” Besides ... We still need to prepare some materials, and we can’t start work for a while ...”

Zhao Yongjun then realized that Xia ruofei wasn’t joking. He quickly said, “Ruofei, the problem is that we can’t do anything in little Tang town after you leave!” He said.

“I won’t, I won’t!” Xia ruofei quickly said, “I’ll make a list of the things I need today. You guys go and prepare them first! In addition, we don’t have much to do on that piece of land in the early stages. At most, the designers need to survey and measure the site ...”

“How can we let the designers in with the current situation?” Zhao Yongjun smiled bitterly.

Xia ruofei said, “it’s okay!” As long as it’s during the day, it’s best to go there at noon. Generally speaking, there won’t be too much of a problem!”

Zhao Yongjun knew that Xia ruofei had already made up his mind. He said helplessly, “Okay then ... Come back quickly and settle the things over there as soon as possible!”

“Alright!” Xia ruofei said, “I won’t take too long. Don’t worry!”

“By the way ...” Xia ruofei said, “if we don’t have enough money on our account these few days, let me know immediately. I can pay for it first!”

“You don’t have to worry about this!” Zhao Yongjun waved his hand and said, “take this land as a mortgage. It should be approved very soon. There will definitely be enough funds for the early stage!”

After everyone had finished eating, Xia ruofei directly listed out the materials needed for the reversal formation on his phone and sent it to their WeChat group, letting Xu Zixuan and the others use the next few days to prepare.

On the way back to the courtyard house, Xia ruofei used his phone to book a ticket from the capital to Australia the next morning. Then, he called Ling Qingxue to report to her. Ling Qingxue was used to Xia

ruofei running around and she was very understanding. She repeatedly reminded Xia ruofei to be careful when he was out.

Xia ruofei suggested that he take Ling Qingxue to Australia as a vacation to relax. However, Ling Qingxue had been busy with work recently. Although she wanted to go, she could only wait for the next opportunity.

Then, Xia ruofei called Feng Jing.

As the head of the company, she had to inform Feng Jing before going overseas. She had called Ling Qingxue just now and talked about going to Australia together. She also gave Xia ruofei a reminder. Was ran ran going to bring Feng Jing along this time?

After Feng Jing came to work at paradise Corporation, it could be said that she worked hard without any complaints. As the boss of the company, he had to pay more attention to such employees. Not to mention, Paradise Farm was also considered an overseas business of the Paradise Corporation. As the company's general manager, Feng Jing had yet to inspect it!

Xia ruofei felt that it made more sense. So, after briefly telling Feng Jing that he was going to Australia, he immediately said, ""CEO Feng, I want to bring you along to Australia this time. You can put aside your work for now!"

Feng Rao, who was resting in her dormitory, heard this and her heart skipped a beat. She blushed and said, ""Why did you bring me along? There's a lot of things to do at the company!"

"After you joined the company, you didn't even take a break for the Spring Festival. The company is thriving under your leadership. As your boss, I have to reward you well! Otherwise, what if you run away?" Xia ruofei made a joke and continued, "besides, you're the General Manager. You haven't even been to our overseas farm. This isn't appropriate. This time, I'll take you to Paradise Farm for an inspection!"

Feng Rao wanted to decline, but she realized that it was difficult to reject Xia ruofei's suggestion. She said weakly, ""Ruofei, I can't leave the company ..."

Xia ruofei said, "isn't dong Yun already employed?" She should be able to help you share a lot of pressure! Take advantage of your trip to Australia in the next few days and hand over the company's administrative affairs to her temporarily. At the same time, you can also observe her ability! We're training her to be the Vice President, let's see if she can do it!"

The more Xia ruofei spoke, the more he felt that it made sense, so he said firmly, ""It's decided! I've booked a ticket to Australia for tomorrow morning. Arrange the work at hand immediately and meet me in Beijing by tonight at the latest! Oh right, I'll send you my flight number. Ask your administrative colleagues to book a ticket for you on the same flight immediately! Remember to book a first – Class ticket! The company will reimburse the expenses!"

After that, Xia ruofei hung up the phone and found his ticket page. He took a screenshot and sent it to Feng Jing.

Three mountains, Taoyuan farm.

Feng Jing sat cross – legged on her bed in the dormitory, her face still a little red. Xia ruofei had made his decision in a domineering manner. She could not help but criticize him in her heart, but subconsciously, she was filled with anticipation for this trip to Australia. Just thinking about it made her heart throb ...

She sat on the bed in a daze for a long time before she realized that time was tight. She quickly got up and sent a WeChat message to her assistant, asking her to book a ticket for the evening flight to Beijing and a ticket for the morning flight to Australia. She also sent the flight number in the screenshot of Xia ruofei's flight to her.

Following that, Feng Jing got her assistant, Liu Qian, to inform the company's top executives, including Dong Yun, Xiao Qiang, and pang Hao, to head to the meeting room for work. She had to hold an impromptu meeting to arrange the work at hand.

Feng Jing had already decided to follow Xia ruofei's instructions. Dong Yun would temporarily be in charge of the daily affairs of the company, while Xiao Qiang and pang Hao would be in charge of the sales and financial matters. If there were any difficult decisions to make, they would call and report it immediately.

In fact, the current paradise Corporation had already embarked on the road of formal management. Everything had corresponding rules and regulations, and there would be no problems in the company's operation just because a senior executive was absent.

Feng Jing had hesitated when she found out that Xia ruofei wanted to bring her to Australia. On one hand, it was because she had been employed by the Paradise company when it was still a workshop. She was in charge of all the company's Affairs, big and small, and it had become a habit. On the other hand, it was naturally because of that trace of emotion in her heart that made her feel a little guilty.

Feng Jing had just used WeChat to arrange for her assistant, Liu Qian, to book the tickets and inform her of the meeting when her phone vibrated again.

Feng Rao took a look and her heart skipped a beat. It was Xia ruofei again.

She muttered in her heart, "could this guy have changed his mind again?" I've already asked Liu Qian to book the tickets ...

?

Chapter 1656: Going to Australia together (1)

With a conflicted heart, Feng Jing picked up the phone, ""Is there anything else, ruofei?"

"Haha, I forgot to remind you just now!" Xia ruofei smiled and said, "remember to send me your flight number to Beijing. I'll arrange for someone to pick you up. Stay in my courtyard house tonight!"

Feng Rao's heart skipped a beat as she said in a panic, ""I know ..."

"Alright, hurry up and book the tickets!" Xia ruofei said.

"Got it ..." Feng Jing prepared to hang up.

Unexpectedly, Xia ruofei suddenly said, ""Wait!"

Feng Rao was shocked and couldn't help but ask, "What is it now? Why are you so surprised today?"

Xia ruofei laughed in embarrassment and asked, "I suddenly forgot something. You don't seem to have applied for a visa to Australia, right? Then I might not be able to leave tomorrow ..."

It was Xia ruofei's first time going to Australia. He had applied for a three – year round trip visa, so he would not need to go to the Embassy again in three years.

It was only then that he remembered that if Feng Jing didn't apply for a visa, even if they went to the consulate the next day, they wouldn't have enough time.

"I applied for a three – year traveler's visa two years ago, but it hasn't expired yet!" Feng Rao said angrily.

Feng Rao thought to herself, "if there was a problem with the visa, I would have mentioned it earlier. Why would I wait for you to remind me?"

Xia ruofei heaved a sigh of relief and said, "Then there's no problem! You should hurry up and arrange your work! Let's meet tonight in Beijing!"

After Feng Jing hung up, she didn't feel sleepy at all.

She gave up on her nap, got up, changed her clothes, and went to the office downstairs.

Feng Jing turned on her computer and sorted out some of the important work that she had recently done. She made a document and was prepared to emphasize it during the meeting later and appoint someone to take charge of it.

The moment she got to work in the afternoon, Feng Jing went to the meeting room and told everyone that she was going overseas. She also made arrangements for her work for the next few days.

Although everyone was surprised by Feng Jing's sudden decision to go to Australia, they were relieved after she explained that she was going to Paradise Farm.

Even Xiao Qiang, pang Hao, and a few others wanted to go to Australia! After all, the company's overseas business was so big, and as a senior executive, he had never been there before. It was a bit unreasonable!

This time, as the company's CEO, Feng Jing was there. Who knew, the executives might have a chance next time!

Also, when Feng Jing announced that Dong Yun would be temporarily in charge of the company's daily affairs while she was away, the other executives didn't have any objections. However, the sales Director, Xiao Qiang, was a little uncomfortable.

After all, he had his eyes on the vice president's position! Ever since Dong Yun had joined the company, he had always felt a sense of crisis.

However, Feng Jing's prestige in the company was very high, so Xiao Qiang didn't dare to raise any doubts about her decision.

Feng Jing quickly arranged her work and got off work early. She went upstairs to pack her luggage and told Liu Qian to book her a flight at around 5 p.m., Which meant that she had to leave at around 3:30 p.m.

The seasons in Australia were the exact opposite of China. It was currently summer, so Feng Jing didn't need to bring too many thick clothes. She quickly finished packing.

.....

At around eight in the evening, Feng Jing dragged her suitcase out of the terminal of Jing City International Airport.

"Sister Che!"

When Feng Rao heard this voice, her face lit up with joy. She quickly turned her head and saw Xia ruofei, who was not far from her left, walking towards her with a smile.

"Ruofei, didn't you say that you'd send someone to pick us up? Why did you personally come over?" Feng Rao was a little surprised.

"I don't have anything to do at home." Xia ruofei smiled and said, "since sister che is here, of course I have to welcome her personally. That's the only way to show my sincerity!"

"You're so talkative!" Feng Rao pouted.

At this moment, Wu Qiang, who was behind Xia ruofei, came forward to take Feng Jing's luggage.

Xia ruofei smiled and said, "sister ran, let me introduce you. This is Wu Qiang. He's in charge of managing the siheyuan in the capital. He's also my driver and bodyguard!"

Then, Xia ruofei turned to Wu Qiang and said, "Wu Qiang, this is Feng Jing, the CEO of our paradise Corporation!"

"Hello, chief Feng!" Wu Qiang quickly greeted.

Wu Qiang's labor relationship was linked to the peach blossom company, so Feng Jing naturally knew him.

"Hello, Wu Qiang, thank you for your hard work ..." Feng Rao said with a smile.

"You're welcome. This is my job!" Wu Qiang said in a tone that was neither haughty nor humble.

Xia ruofei laughed and said, "let's go!" Let's talk in the car!"

The three of them walked to the parking lot not far away and got into the land Rover.

Xia ruofei and Feng Jing sat in the back seat. He smiled and asked, "Sister che, I didn't eat on the plane, okay? Why don't we find a place to eat first?"

"No need! No need!" Feng Rao said, "Air China's in – Flight meals are pretty good! I'm quite full, and I can't eat anything now!"

"Alright!" Xia ruofei said straightforwardly, "Wu Qiang, go home directly!"

“Okay, boss!” “Yes, sir!” Wu Qiang replied in a concise manner as he drove.

Feng Jing couldn’t help but sigh as she looked out of the car window at the passing street lights and the bustling night scene of the capital. Just a few hours ago, she was still in the quiet farm in the suburbs of Sanshan! They had already arrived in Beijing, and they were flying to Australia the next day ...

?

Chapter 1657: Going to Australia together (2)

After returning to the big courtyard in liuhai Lane, Xia ruofei wanted to give the master bedroom to Feng Rao, but Feng Rao firmly rejected it. So, he settled for the second best and let Feng Rao live in the side room in the second courtyard.

After Wu Qiang returned to his room in the backyard to rest, Xia ruofei invited Feng Rao to his room to make tea and chat.

After taking a sip of the hot tea, Feng Rao felt that the house, which had a floor heater, was even warmer than spring.

She smiled and asked, “ruofei, what are you doing in the capital?” It must have been many days! You’re really leaving the company to me!”

Xia ruofei scratched his head and said, “sister che, I swear to God. I didn’t mean to be idle. There are a lot of things in the capital. I haven’t settled them yet!” When they heard that I was going to Australia at the last minute, my friends had some opinions!”

Then, Xia ruofei told Feng Jing about the club that he, Zhao Yongjun, and a few others were planning to set up together, as well as the inspection and land acquisition.

Of course, he did not mention the nine revolutions heaven and earth formation and the battle of wits and courage with Liu haofan.

After Feng Rao heard this, she smiled and asked, “Then what are you going to Australia for this time?”

Xia ruofei was excited when he heard that. He said, “Didn’t I buy two wineries over there? It’s the season for grapes to ripen over there, and the winery is about to start picking grapes to make wine. I have to go and take a look!”

“Alright then!” Feng Jing was a little speechless. “You seem to be very busy too ... But why do I feel like you’re slacking off?”

“Prejudice! This is definitely a prejudice!” Xia ruofei said.

Feng Jing couldn’t help but cover her mouth and laugh. Although the journey was a little tiring, drinking tea and chatting with Xia ruofei was Feng Jing’s most enjoyable leisure time.

Considering that they still had to take a long flight tomorrow morning, Feng Jing returned to her room to rest after chatting for a while.

.....

The next morning, when Xia ruofei and Feng Jing were having breakfast in the courtyard and preparing to leave for the airport, at the Capital International Airport tens of kilometers away, Zhifei's Australian Air Service crew, which was flying from the capital to Chetminneginsford Smith Airport in Australia, had just finished their pre-flight preparation meeting. They were walking out of the conference room, boarding the crew car at the door, and driving towards the terminal building not far away.

In the group, there were three pilots at the front. The first two were captains with four bars, and the third was the co-pilot with three bars.

On the flight route between Qanduin and the Achetani, it was conventional to have two pilots instead of two crew. Three pilots took turns to fly to ensure that one person could take turns during the long-distance flight.

The 32-year-old co-pilot was Wilkinson. He was Eurasian, his father was Portuguese, and his mother was from Wei nation. He had been living in Australia with his immigrant parents since he was a child.

Wilkinson had the distinctive features of a traditional European. His eye sockets were deeper, and he had beautiful blonde hair and blue eyes. At the same time, he had the features of an Asian, and the lines of his face were softer than that of Europeans.

Wilkins had a handsome appearance, a strong body, and a good family background. His parents had immigrated to Australia many years ago and had a large business in Australia, so naturally, many flight attendants were interested in him.

However, Wilkins was a quiet person and gave off an unapproachable feeling. In the past, a few female flight attendants who felt that they were very charming had tried to get close to Wilkins, but they had all returned in failure.

However, the stewardesses who were walking at the back of the group noticed that Wilkinson seemed to be in a good mood. There was a special glow on his face, and he even smiled, which was rare.

He even told the purser beside him, "Today's really a good day for flying!"

The purser also smiled and nodded, "It's indeed rare to see the blue sky and white clouds in the capital of China ..."

Those who often flew on this route had a deep understanding of the haze in Beijing.

Wilkinson laughed out loud. He felt as if a ball of lava was boiling in his heart. After a long period of preparation, the best opportunity had finally arrived for the thing that he had always wanted to do ...

.....

At around 8:30 am, Xia ruofei and Feng Jing arrived at the Capital International Airport. They successfully went through the boarding pass, customs, license inspection, quarantine, and other exit procedures and entered the waiting area.

At this time, on the tarmac, an Airbus A350 aircraft was parked quietly. The carbon fiber wing tips were glistening under the rare sunlight in Beijing.

In the cockpit, the co – Pilot, Wilkinson, and the other Captain, Brook, were carrying out the pre – take – off routine inspection, while the responsible Captain, Johannson, was doing a lap inspection on the tarmac.

Wilkinson pressed down on his pocket, and then glanced at the ink mirror box next to him. There was a trace of eagerness in his eyes, as if his soul was trembling.

Time passed by.

Xia ruofei and Feng Jing waited in the waiting room for nearly 40 minutes before they finally heard the announcement that they were boarding.

The two of them walked to the boarding gate with their luggage and successfully boarded the plane through the covered bridge.

The two of them were in the Airbus A350 piloted by the Wilkinson family.

The first – Class cabin was at the front of the plane and was connected to the kitchen. Further ahead was the cockpit.

Under the guidance of the A.I. Air stewardess, Xia ruofei and Feng Jing successfully found their seats. Although the 350 first – Class cabin was not as luxurious as the 380, it was still quite comfortable compared to the economy cabin. Moreover, the seats could be flattened during the long flight so that they could get better rest.

The two of them naturally ordered the two seats close to each other. After they sat down, a flight attendant brought over a tray with toiletries. The toiletries were divided into gender – specific types. The male – Type kit that Xia ruofei received was made of black leather. After opening it, he found that the items inside were all SK III. In addition, there was a razor, toothpaste, toothbrush, and other items. It was quite complete.

Then, another flight attendant came over to distribute the pajamas. The pure cotton charcoal black pajamas were wrapped in a black wire, with slippers and socks in the middle. It felt quite good to the touch.

These items were all included in the ticket payment. Of course, passengers could also choose to take them away after using them.

After the two of them put their luggage away, they sat down and chatted while waiting for the plane to take off.

In the cockpit, the in – charge Captain Johannson had already taken his seat. On his right side was the co – Pilot, Wilkinson, and the second captain, Brook, who was in the back seat. The three of them were making the final preparations before take – off.

Wilkinson tried his best to calm himself down, and even secretly took a few deep breaths.

It was rare that there was no traffic control at the capital Airport today. Everything went smoothly. After the plane door closed, it pushed out the parking lot on time.

The take – off was personally controlled by Captain Johannson. After the plane glided on the runway, it jumped into the air lightly.

After the busy air – ground communication and flight control during the initial stage of take – off, the plane finally entered a level flight posture.

In the back seat, Captain Brook unbuckled his seat belt and said goodbye to the two colleagues in front of him. Then, he left the cockpit. According to the flight schedule, he would rest in the cabin at the top of the cabin for the first four hours of the flight. Then, he would take over from Wilkins.

After resting for four hours, Wilkinson would return to the co-pilot's seat. Captain Johannson would then rest, while Brook would take the captain's seat.

At the end of the landing phase, Captain Johannson would return to the cockpit.

The first – Class cabin was at the forefront of the cabin. Xia ruofei and Feng Rao could see Brook coming out of the cockpit and opening a small door at the back of the cockpit. He went up the secret stairs to the lounge that was almost above the kitchen.

The long – distance flight was actually very boring. Although it was daytime, most of the passengers chose to rest in their seats.

After Xia ruofei and Feng Jing chatted for a while, they both adjusted their seats and leaned back to rest.

In the stratosphere, the plane was very stable and the cabin was very quiet.

No one knew that in this calm, a shocking Super Storm was brewing ...

?

Chapter 1658: A strange deviation (1)

The huge Airbus A350 was flying steadily at a cruising altitude above China. After more than two hours, it began to leave the mainland of China and entered the sky above the sea.

At this moment, the air stewardesses began to distribute lunch to the passengers.

The food served in the first class cabin was very exquisite. Before the food was served, the table was filled with knives, forks, and other tableware. There was also sea salt and olive oil dipped in bread.

There were a total of six dishes for a first – Class lunch, and each step was very particular. First, an Apple Soup with a crispy dough ball was served, followed by a shrimp cocktail and a shepherd's pie and a slice of lamb meat covered with cheese and mashed potatoes. After the four dishes, a light vegetable salad was served.

The main course was a more Oriental – style braised tadpole fish with green curry with grilled eggplant, jasmine rice, and snow beans. The tadpole fish was cooked at the right time, soft and tender, and the fragrant rice was clear and had a good taste.

The last dessert was a warm honey tower with creamy milk, which was also a very English dessert.

Xia ruofei really liked this dessert. After eating, he ordered two more first – Class servings of Xuanji's food. It was more than enough. Under normal circumstances, he could order more if it was not enough.

Of course, dinner was accompanied by the champagne bottle, which was the proudest product of the Australian Airlines, "Royal Taittinger Comte de champagne 2000." This was awarded the title of the best champagne in the ball first – Class cabin for four consecutive years in the cellars of the Skywalkers' selection. It was refreshing and had a rich fruity fragrance.

After enjoying a sumptuous lunch, Feng Jing laughed and said that she had wasted her time saving Yingying's food. The food was too high in calories, especially the dessert at the end. So, even though it was delicious, Feng Jing resisted the urge to order another serving and wiped her mouth with a hot towel after eating.

Feng Jing was both envious and jealous as she watched Xia ruofei enjoy three desserts without restraint. Xia ruofei never controlled his diet, but he maintained a good figure and his skin was the envy of many girls. Feng Jing even suspected that Xia ruofei had been using the handmade Jade skin cream for a long time ...

After lunch, the two of them sat down and chatted.

At this time, the cockpit was also in a relaxed atmosphere. The autopilot had taken over the entire flight. The pilot only needed to monitor the state of the plane and constantly maintain contact with the air traffic control along the way. He just had to make fine adjustments to the route according to the instructions of the air traffic control.

Below the plane was the boundless ocean, but it couldn't be seen at this time because the plane was already flying above the clouds.

Johannson, the captain, was playing with his retro – looking Ray – Ban flying glasses as he said with a smile, "Wilkinson! I'm going to retire in another three months, so I'm going to buy a farm in the Hunter Valley area and plant some artilleries and cabbages!"

"That's a good idea!" Said Wilkinson, smiling. Captain Johannson, you must be looking forward to your retirement, right?"

"Of course! Of course!" Johannson laughed and said, "I've been flying for most of my life. It's time to enjoy my leisure time. I've already bought a piece of land in Hunter Valley in advance. You're all welcome to visit! I'll treat you to the best half – I'll wine!"

"It's a deal!" "I'll definitely go when I have time!" Said Wilkinson with a smile.

At this moment, the cockpit's doorbell rang. Johannson glanced at the monitor screen and said with a smile, "It's miss Guli!"

Then he pressed the door lock control switch. After the cockpit door opened, the flight's flight crew head Guli walked in with a smile.

"Handsome guys, what would you like to have for lunch?" Guli asked.

"What do you have?" Johannson asked.

Guli thought for a while and smiled. "Today's meal is more than enough. This is the first – Class menu, you can choose freely ... By the way, the honey tower is more popular, and there's not much left, but I know that this is Wilkinson's favorite, so I asked them to save one for you!"

"Thank you very much!" Said Wilkinson with a smile.

Johannson looked at the menu and ordered a few dishes. He then handed the menu to Wilkinson.

Wilkinson also chose a few of his favorite foods. Of course, he also chose his favorite honey tower.

Guli quickly jotted everything down in her little notebook, then smiled and said, "It seems that Wilkinson has a good appetite today! Please wait a moment, lunch will be ready soon!"

After that, Guli took the menu back and left the cockpit.

The cockpit was quiet again, and the two pilots were chatting. After a few minutes, Wilkinson said, ""Captain Johannson, I'm going to the washroom!"

Johannson made an OK gesture and said, ""Go! I'll take over the communication!"

"Thank you!" Said Wilkinson with a smile. He then took off his headphones, stood up, and left the driver's seat.

Wilkinson opened the cockpit door and waved to a male flight attendant in the front cabin. When the flight attendant walked over, Wilkinson smiled and said, ""I'm going to the washroom! I'll have to trouble you to stay in the cockpit for a while!"

"Alright!" Said the flight attendant with a smile. He then walked into the cockpit, greeted Captain Johannson, and sat down in the back seat.

After Wilkinson walked out of the cockpit, he smiled and nodded to the flight attendant working in the kitchen, then walked into the washroom in the front cabin.

After a while, Wilkinson walked out and took a look at the kitchen. He asked with a smile, ""Is this Captain Johansson's lunch?"

"Yes, I am!" The first – Class flight attendant nodded and said.

?

Chapter 1659: A strange deviation (2)

"If you're ready, I'll bring it in!" "My food will be sent in half an hour later!" Said Wilkinson with a smile.

Under normal circumstances, two pilots would not eat at the same time. On one hand, someone had to monitor the flight status and maintain communication with the air traffic control on the ground, so they had to concentrate on their work. On the other hand, it was also to prevent extreme situations. If there was a problem with the food, at least they wouldn't get food poisoning at the same time.

"Thank you, Mr. Wilkinson!" The flight attendant said with a smile.

"It's no trouble at all!" Wilkins smiled as he picked up his plate and said, "when you guys send me my food, you can come back and take captain's portion!"

“Understood!” The flight attendant said.

Wilkinson walked towards the cockpit with a plate of food. No one noticed that he took out a small paper bag from his pocket and quickly poured the powder inside into Johannson’s corn soup. He then stirred it a few times.

Wilkinson rang the doorbell at the door of the cockpit, and Johannson quickly turned on the door switch. Wilkinson walked into the cockpit and patted the male flight attendant on the shoulder. “Buddy, thank you for your hard work!”

After the flight attendant left the cockpit, Wilkinson locked the door from the inside and smiled. “Mr. Captain, your lunch is here!”

“Oh! I’m so grateful!” Johannson did not suspect that the co – Pilot had brought in the food when he returned to the cockpit. It was normal.

Johannson pulled out the small table in front of him and turned around to take the plate from Wilkinson.

Wilkinson sat back in the front passenger seat, put on his earphones, and asked, “Mr. Johannson, how’s the plane?”

“Everything is normal!” Johannson said.

“Alright, I’ll take over from now on!” “You can enjoy a delicious lunch now!” Said Wilkinson with a smile.

“OK!” Johannson said with a smile. He picked up his fork and started to enjoy the food. Of course, he would put down his fork and knife from time to time to drink his favorite corn soup.

Time slowly passed by in peace.

In the kitchen of the front cabin, a beautiful blonde flight attendant looked at the time and smiled at her companion. “It’s been half an hour. I’m going to deliver food to the handsome man, Wilkinson!”

“I wish you good luck!” Her companion chuckled.

The blonde flight attendant blinked at her companion and said, “Thank you!”

Then, she walked to the cockpit with a plate of food.

At the door of the cockpit, the blonde flight attendant tidied up her hair with one hand, then showed the most charming smile she had ever been trained to. She pressed the doorbell of the cockpit, and then looked up slightly, her charming blue eyes looking at the surveillance camera above the door.

There was no sound in the cockpit, and the smile on the blonde flight attendant’s face was almost frozen. She felt that something was wrong and pressed the doorbell a few more times, but there was no response from the cockpit.

“What happened?” The blonde flight attendant muttered to herself.

She picked up the communication device at the door and tried to talk to the cockpit, but no one picked up.

The blonde flight attendant looked even more worried.

Usually, such a situation would only happen when the pilot's cabin was extremely busy and had no time to care about other things.

However, the plane was currently cruising at a high altitude, and the flight had been relatively stable from beginning to end. There wasn't even a small bump. What could the two pilots in the cockpit be busy with?

The blonde flight attendant didn't dare to delay. She quickly returned to the kitchen and put down the plates. Then, she found the chief flight attendant Guli and reported this strange situation to her.

Guli was also confused. She tried to use her communication device to contact the cockpit, but there was no response.

At this moment, another flight attendant exclaimed in a low voice, "Purser, look!"

Guli turned her head and saw that the LCD screen showed that the plane was slowly deviating from the scheduled route, and the altitude was also slowly decreasing.

There were many LCD screens on the Airbus A350, allowing passengers to see the plane's current position, altitude, and a diagram of the virtual route. Even the real-time image of the plane's exterior captured by the tail camera could be seen by everyone.

As such, the screen would immediately display the moment the plane started to deviate.

However, Guli wasn't too surprised. During the actual flight, the plane might adjust the flight route and altitude level under the Command of the Air traffic control, or after taking the initiative to apply for approval due to the weather, airflow, and other factors. This was a very normal phenomenon.

Of course, combined with the fact that she couldn't contact the cockpit, Guli couldn't help but feel a little uneasy.

As the chief flight attendant of this flight, Guli didn't panic in front of her subordinates and first-class passengers. She decided to observe for a while longer.

However, the result of waiting made Guli feel even more uneasy. The qinhuang plane was no longer just deviating at a small angle. The plane's course was now in the opposite direction of the planned route. Moreover, its altitude was constantly decreasing. Although the rate of descent was not very high, this phenomenon was too abnormal.

Guli knew that she couldn't wait any longer. She decided to wake up the second captain, Brook.

She picked up the cabin's communication device and connected to the pilot's lounge.

Brook, who had just fallen asleep, picked up the call in a daze. "Hello?"

"Captain Brook, I'm the chief flight attendant, Guli." Guli's expression was grave as she said, "the plane seems to have some problems. I would like to invite you down to take a look!"

Brook didn't dare to delay and quickly said, "I'll come down immediately!"

Soon, the cabin door behind the cockpit was opened. Captain Brook was buttoning up his uniform as he asked, "What happened? The flight seems to be very stable!"

Because the first – Class passengers were not far away, in order to prevent the passengers from panicking, Guli slightly lowered her voice and said, "Captain Brook, we seem to have lost contact with the cockpit ..."

"Lost contact?" Brook raised his eyebrows in surprise. "How is that possible?"

"We tried to ring the doorbell and use the cabin's communication facilities, but we couldn't contact the cockpit!" Guli said seriously, "what's worse is that the plane has deviated from the scheduled course and has been dropping in altitude!"

Brook's expression changed slightly when he heard this. He quickly walked to the LCD screen and took a look. His heart couldn't help but skip a beat. The plane had already deviated for dozens of nautical miles, and the altitude had dropped to about 30000 feet, and it was still falling.

Brook knew very well that their normal cruising altitude was 36000 feet. Even if it was adjusted due to the weather or airflow, they would not have dropped so much.

Captain Brook personally went to the door of the cockpit and rang the doorbell, but there was no response.

He had already realized that there might be a problem with the cockpit, but there was still a glimmer of hope in his heart. That was, the communication problem had caused the cockpit to not hear the doorbell or the call ringtone.

However, there was no explanation for the deviation and the lower height ...

Brook didn't dare to think of the worst possibility. He took a deep breath and began to knock on the cockpit door. If it was a communication problem, the pilot in the cockpit would have reacted when he heard the knock. This was the last hope that Brook was trying.

However, there was still a dead silence, as if the two people in the cockpit had fallen asleep.

Captain Brook's expression changed drastically as he quickly analyzed the current situation. "Now that the plane was controllable, the first possibility that could be ruled out was that both pilots had lost their abilities at the same time.

Even if the pilot had lost consciousness, under normal circumstances, the aircraft's autopilot would continue to fly according to the route and altitude they had input in advance. At most, it would not respond to the adjustment instructions of the air traffic control, but it would never cause such a large magnitude of deviation and drop in altitude.

It was obvious that this was man – made! Only by manually changing the autopilot's parameters would the plane have such a large deviation.

If it was caused by a mechanical failure, the entire process would not have been so smooth.

What was going on? The two Air Accidents of Malaysia Airlines and wings of Germany quickly flashed in Captain Brook's mind. The air accident of Malaysia Airlines 'Flight 370 had not been finalized yet, while

the air accident of wings of Germany had been confirmed to be the co-pilot's suicide by deliberately controlling the plane to crash into the ground ...

Brook's forehead was suddenly covered in sweat, and his face became very pale.

?

Chapter 1660: An earth – shattering event (1)

"Guli, were there any abnormalities in the cockpit before this?" asked Captain Brook quickly.

"About forty minutes ago, I entered the cockpit and asked the two pilots what they wanted to eat for lunch. At that time, I didn't find anything unusual. Later, I went to the back cabin ..." Guli said.

Captain Brook then looked at the other first – Class flight attendants.

"The co – Pilot, Mr. Wilkinson, had gone to the washroom once ..." One of the flight attendants said.

"What? Wilkinson has left the cockpit!" Brook cried out.

The first thought that came to Brook's mind was that there was something wrong with Captain Johansson! After the co – Pilot left, he was the only one left in the cockpit.

However, the flight attendant immediately said, ""When Mr. Wilkinson left, he called me into the cockpit according to the rules. I only left after he returned to the cockpit."

Since the plane crash at wings of Germany caused by the pilot's suicide, most of the world's airline companies had urgently updated a new rule, which was to always maintain two or more people in the cockpit.

Wilkinson's actions were completely in line with the rules.

Brook was confused. He asked again, ""What else is there?"

"When Wilkinson came out of the washroom, he brought Captain Johansson's lunch into the cockpit." Another flight attendant said, "he also told me to send his lunch in half an hour. I was delivering his lunch when I realized that I had lost contact with the cockpit ..."

"I've seen Captain Johansson's lunch before ..." Brook felt that something was not right.

The plane was now slowly descending to 28000 feet. Brook's heart was racing. He was about to knock on the door and try to get in touch with the cockpit when he suddenly saw the indicator light of the communication device next to the cockpit door flash. Then, the communication device also made a prompt sound.

Brook and Guli looked at each other. Then, Brook stepped forward and picked up the communication device with a serious expression.

"This is the cockpit!" The voice of the co – Pilot, Wilkinson, came out of the communication device.

"Wilkinson, this is Brook!" Brook quickly replied. What was happening? Quickly open the cockpit door!"

"Captain Brook, I have decided to end my life!" Said Wilkinson calmly.

Brook felt as if he had been struck by lightning. The worst situation had happened.

He quickly said, "Wilkinson!" Don't do anything stupid! Quickly open the cabin door!"

Wilkinson remained unmoved and calmly said, "Captain Brook, I've been planning for this day for a long time. I've long lost the courage to live. My only wish is to do something earth-shattering so that all of Australia and the world will remember my name forever!"

Brook's face turned pale. Such crazy words came out of Wilkinson's mouth, but he was so calm. It was clear how strong his will was. Besides, Brook could almost tell from Wilkinson's words that this man might have already suffered from serious depression.

But how did he pass the psychological assessment? What are the company's aviation doctors doing? Brook roared in his mind.

He could only try his best to calm his tone as he tried to persuade her. "Wilkinson, you must not go to the extreme! This is just a mental illness. You can recover through active treatment!"

"Captain Brook, don't do things in vain." "I've been waiting for this day for far too long. No one can persuade me to turn back, not even God!" Said Wilkinson with a chuckle.

"No..." Brook said in despair, "where is Captain Johansson? What did you do to him?"

"He's already gone to see God before us." "I want to apologize to his family. He's a good old man, and he's going to retire in three months ... I put a highly toxic drug in his lunch. I didn't want to do it, but if I didn't, he'd definitely stop me!"

"You're crazy ..." Brook felt his blood turn cold.

"Even though you can't help me convey these words to Captain Johansson's family, don't you still have the black box?" "If they can find it at the bottom of the sea ..." Said Wilkinson with a smile.

The black box contained a cabin sound recorder that would record all the sounds in the cockpit. If the plane crashed and the rescue personnel could find the black box, Captain Johansson's family would indeed receive Wilkinson's "apology."

After listening to Wilkinson's words, Brook finally realized that they were now in the middle of the vast ocean.

If the plane crashed, there would basically be no corpse left. Just thinking about it was enough to make people shudder.

"Don't be like this, Wilkinson!" Brook pleaded, "there are more than 200 passengers on the plane, and so many crew members. They are all innocent ..."

From Brook's words and expression, the crew members had already guessed the truth of the matter. Their faces were all pale and their hearts were filled with despair.

"Perhaps this is God's choice!" Wilkinson laughed and said. Goodbye, Captain Brook! Don't worry, I'll control the plane to fall into the sea smoothly. I'll try my best to make everyone feel more comfortable at the last moment ..."
