

God tier Farm 1791

Chapter 1791: Song Wei's suggestion (2)

However, everything seemed to be set in stone. What seemed impossible just happened.

Even though Xia ruofei said that, he actually listened to Song Wei's suggestion.

It wasn't a whimsical idea to let Ling Qingxue cultivate it. Song Wei's suggestion to let Ling Qingxue come into contact with the "absolute beginning Scripture" and its special cultivation method made Ling Qingxue understand them. This was also one of the reasons.

On the other hand, Xia ruofei felt that it was time to let Ling Qingxue come into contact with cultivation. Even if Ling Qingxue could not accept Song Wei's existence and even wanted to leave him, at least by guiding her on the path of cultivation, it would still bring her many benefits.

Not to mention strengthening the body and maintaining beauty, Ling Qingxue's ability to protect herself would also be greatly improved. In the worst case scenario, at least Xia ruofei would leave Ling Qingxue a final gift.

The two of them hugged each other quietly. Although they hugged each other very tightly, they didn't have the slightest desire.

After a long time, Song Wei blushed and said, "I ... I should go back ..."

Xia ruofei quickly said, "stay for lunch!" I might be returning to the three mountains tomorrow. I want to cultivate one more time before I leave! We all need to consolidate our cultivation. "

In fact, Xia ruofei had originally decided to return to the three mountains this afternoon. However, he had changed his mind at the last minute.

It would have been fine if Xia ruofei did not talk about cultivation. Once he did, Song Wei's face turned red as if blood was going to ooze out. She glared at Xia ruofei and said, "Your mind is not healthy!"

Xia ruofei was stunned and said, "not healthy?" We've just broken through a realm, and now we need to cultivate to consolidate it. I'm fine! You've also cultivated other techniques, but you only have the "absolute beginning Heart Sutra." If you cultivate it alone, the efficiency of this technique is too low. You have to cultivate it with two people ..."

Speaking of joint training, Xia ruofei finally reacted. He pointed at Song Wei and said, "Oh! Don't tell me you thought ..."

Song Wei's face was as red as a ripe apple. "You were the one who deliberately misled me!"

"Don't, don't, don't. This can't be considered misleading!" Xia ruofei said, "you've really reminded me. We have a more efficient cultivation method! Why would he give it up and not use it? I'm really slow-witted, I can't be compared to you, a top student of Beijing University!"

"I don't want to!" Song Wei said shyly, "I'll go back first! You ... You should just consolidate your cultivation!"

After she finished speaking, Song Wei ran out of the room as if she was escaping.

Xia ruofei quickly grabbed Song Wei and said, "Don't go! Don't go! Can't we just cultivate normally? Now that you've just broken through, it'll be very difficult for you to practice the "absolute beginning Heart Sutra" alone. If your realm is unstable, you'll have a lot of trouble in the future!"

Seeing that Xia ruofei was being serious, Song Wei threw away her shyness and looked at Xia ruofei seriously. "Is it really just normal cultivation?"

"I swear to the lamp!" Xia ruofei raised his hand and said.

"Alright then!" Song Wei said, "I'll stay a little longer then ..."

"Ruofei, I've thought about it ... Before big sister Qingxue accepts my existence, we ... We shouldn't try that kind of cultivation method. Also, in reality, we ..." Song Wei said seriously.

Xia ruofei pressed his hand on Song Wei's lips and said, "You don't have to say anything, I understand what you mean ..."

"Do you agree?" Song Wei looked into Xia ruofei's eyes and asked.

"Can I not agree?" Xia ruofei said.

In fact, he was touched. Song Wei was too kind and considerate. To be honest, even Xia ruofei was addicted to the cultivation method in his sea of consciousness. Song Wei must be the same. However, she suggested that they should not try it again before Ling Qingxue accepted it. Her spirit was great.

"It's good that you agree!" Song Wei said with a smile. Come on! I'm done resting, let's start cultivating!"

Then, Song Wei walked towards the time formation that had not been removed.

Xia ruofei followed him and the two of them sat down cross – legged in the formation.

Before he started cultivating, Xia ruofei said, "Song Wei ... I might be going back tomorrow. The courtyard here isn't of much use. Usually, only Wu Qiang and the others stay here to clean it up. Why don't you move in ..."

Song Wei blushed. "I don't want to. I'm fine living in the dormitory. Also ... Why am I living here?"

There was a hint of resentment in her tone. After all, she was not in a legitimate position.

"It's not convenient to cultivate in the dormitory!" Xia ruofei said, "if you feel embarrassed, you can choose another house to stay in this yard! Even if he's my friend, it's normal for him to borrow a house! Anyway, when I'm not in the capital, Wu Qiang and the others are basically free. It won't affect you if you move in! Moreover ... Wu Qiang and the others are very tight – lipped, they won't spread it ..."

Xia ruofei's words moved Song Wei a little. She hesitated and said, "I ... I'll think about it first! You can go back first tomorrow. If I want to move in, I'll give you a call!"

Xia ruofei knew that it was hard for Song Wei to make a decision so quickly. He smiled and said, "Alright! You can come over at any time. I'll tell Wu Qiang before I return to the three mountains! Let's not talk about this, let's start cultivating!"

Chapter 1792: Song Wei's suggestion (3)

“En!” Song Wei nodded her head.

Hence, the two of them pressed their palms against each other and started to circulate the “absolute beginning Heart Sutra” in tacit understanding.

Time passed by. The two stayed in the time formation for more than half a day before their realms completely stabilized. In reality, only a short while had passed in the outside world.

In the process of cultivation, Xia ruofei really couldn't help but want to try the cultivation in the sea of consciousness. The extreme pleasure in the depths of the soul was too alluring. He was craving for it.

On the other hand, Song Wei's mind was more determined. If Song Wei did not completely open up her sea of consciousness, Xia ruofei would not be able to succeed even if he wanted to. Moreover, he respected Song Wei's opinion, so he only thought about it.

Song Wei was not in a hurry to leave after she was done with her cultivation. The two of them chatted in the room for a while. Naturally, there were many intimate actions. However, Xia ruofei kept his promise and did not overstep his boundaries.

In the afternoon, Xia ruofei asked Wu Xiujuan to prepare a few dishes and send them to the central courtyard. He enjoyed lunch with Song Wei and then drove her back to Capital University.

Xia ruofei watched as Song Wei's figure disappeared behind the gate of Beijing University. He couldn't help but sigh. He took out a cigarette from his pocket and lit it. After taking a deep puff, he started the car and returned to the courtyard house.

The next morning, Wu Qiang drove Xia ruofei to the airport. He took the 10 am flight back to the three mountains.

Before he left, Xia ruofei greeted Song Wei, Zhao Yongjun, and song Rui.

When he called Song Wei, the two of them were naturally reluctant to part and had a long sweet talk. Song Wei even specially instructed Xia ruofei to guide Ling Qingxue in her cultivation as soon as possible after he returned. In the end, she shyly said that she did not want to wait so long before she could try a more efficient cultivation method ...

Song Wei used a soft voice to talk about the cultivation of the sea of consciousness. Xia ruofei almost could not control himself. Long after he hung up the phone, his mind was filled with the charming scene of the cultivation yesterday morning.

As for Zhao Yongjun and the others, Xia ruofei had informed them in the WeChat group.

Zhao Yongjun and the others also felt that Xia ruofei's rush to return to the three mountains was a little sudden. They all advised Xia ruofei to stay for a while longer. They should at least wait until the overall design plan of the Paradise gathering was out and everyone could finalize the plan before going back.

Xia ruofei said that he had been away for too long and there were still many things to do at the company. As for the design of the club, they could communicate it through email.

Since communication was so advanced nowadays, there would be no delays. Moreover, with the help of a Feng Shui Master like Xu lang and an expert like Zhuo Yiyi, the chances of the plan going wrong were very low.

If they really needed to meet and decide, transportation was very convenient now. It was only a two – hour flight from Sanshan to Beijing, and there was no problem for a day round trip.

Since Xia ruofei had said so, Zhao Yongjun and the others naturally did not try to persuade him anymore. They gathered at Xia ruofei's courtyard house that night and said that they were here to send Xia ruofei off. They had a meal openly and even drank a few bottles of Xia ruofei's treasured Drunken Eight Immortals.

Xia ruofei's Boeing plane landed smoothly at San Shan airport.

After the plane landed, Xia ruofei stood up from his first – Class seat. He opened the overhead luggage rack and took out his small suitcase. He looked out of the porthole and slowly approached the covered bridge. He took a deep breath.

Today, Xia ruofei did not inform the company to pick him up. Instead, he gave Ling Qingxue a call and told her that he would be back at Sanshan today. He hoped that she would pick him up at the airport if she was free.

Ling Qingxue felt a little strange that Xia ruofei had suddenly asked her to pick him up. However, she was naturally very happy that Xia ruofei was back at San Shan. No matter how busy she was with work, it was not a problem to squeeze out some time to go to the airport, so she agreed readily.

The cabin door opened. Xia ruofei dragged his suitcase out of the cabin and stepped onto the covered bridge.

He had to face what he had to face. This time, Xia ruofei didn't want to drag things out.

Chapter 1793: Reveal your strength (1)

Walking out of the departure hall of the Sanshan International Airport, Xia ruofei saw Ling Qingxue, who was waiting for him in the crowd. Her light yellow down jacket was very eye – catching in the crowd. Ling Qingxue's face was filled with the joy of a reunion after a short separation, as well as the deep affection that could not be dissolved.

"RUO Fei, this way!" Ling Qingxue shouted as she jumped and waved at Xia ruofei.

Seeing the excited Ling Qingxue, Xia ruofei had mixed feelings. He forced a smile and quickened his pace.

As Xia ruofei walked out of the restricted area, Ling Qingxue had already pounced into his arms.

"Was the journey smooth?" Ling Qingxue raised her head and asked with a bright smile.

Xia ruofei nodded and said, "yes!" Qingxue, let's go!"

Lovers were very sensitive to their emotions. Ling Qingxue immediately noticed that Xia ruofei seemed to be in low spirits. However, she did not think too much about it and thought that it might be because he was tired from the journey.

So, Ling Qingxue said, "let's go!" The car is just outside!"

The two of them walked out of the airport lobby and came to the parking lot.

Ling Qingxue's car was parked not far from the entrance of the parking lot, and they soon arrived next to the orange Porsche 911.

Ling Qingxue opened the trunk skillfully and let Xia ruofei put the luggage in. Then, the two of them got into the car, one on the left and one on the right.

"Where are we going next?" Ling Qingxue started the car and asked, "are we going back to the farm?"

Xia ruofei thought for a while and said, "let's go to the city!" Let's have lunch together!"

"Alright!" Ling Qingxue said happily, "but I still have something to do at the company this afternoon, so I might not be able to accompany you ..."

"It doesn't matter!" Xia ruofei laughed. "If you're busy, then go!"

Ling Qingxue felt that there was something strange about Xia ruofei, but she could not put her finger on it.

It had only been a few days since they had parted. Xuxu had just returned from the capital. However, in just a few days, Xia ruofei had changed.

After the car drove onto the airport Highway, Ling Qingxue finally couldn't help but ask, "RUO Fei, is there something wrong?"

"Why are you suddenly asking this?" Xia ruofei forced a smile.

Ling Qingxue glanced at Xia ruofei and said, "Usually, when you return to San Shan, the most you do is give me a call. But today, you suddenly asked me to pick you up, and you give me a feeling today ... Something's not right!"

Xia ruofei couldn't help but sigh. Sometimes, a woman's intuition could be very scary.

"Um ... I do have something to tell you." Xia ruofei spoke carefully, "but ... Let's eat first!"

Ling Qingxue laughed and said, "boss Xia, why are you being so wishy – washy?" With our relationship, do we still need to hide things? You'd better say it quickly! Otherwise, I wouldn't be in the mood to eat! Besides, I'm not hungry right now!"

Xia ruofei gritted his teeth and said, "Alright then! Qingxue, get off the highway at the exit of Zhanggang in front. Let's go for a walk by the sea! I do have something to tell you. "

"So Grand?" Ling Qingxue said half – jokingly, "it can't be a proposal, right? Don't scare me! I don't want to get married so early!"

Even though Xia ruofei had a lot on his mind, he was still amused by Ling Qingxue. He said, ""Silly girl! Didn't I have to arrange the proposal in advance? I didn't plan to go to the beach just now. You were the one who suggested it at the last minute ..."

"That's true ..." Ling Qingxue mumbled, "what is it?!" Can't we talk in the car?"

"Let's go to the beach!" Xia ruofei said.

Ling Qingxue didn't say anything else, but the curiosity in her heart grew.

Very quickly, Ling Qingxue drove her Porsche 911 out of the highway. After driving along the provincial road for a while, she turned into a beach.

The two of them got out of the car and walked onto the White beach. Ling Qingxue smiled and said, ""After keeping me in suspense for so long, you can finally tell me now, right?"

Xia ruofei took a deep breath, looked at Ling Qingxue, and said, ""Qingxue, there's something I have to tell you, but not now ..." He said.

Ling Qingxue laughed and said, "not now ... Then why are you going through so much trouble?" You want me to pick you up personally and even ask me to get off the highway to the beach in advance ... Ruofei, are you kidding me?"

Xia ruofei said seriously, "Qingxue, the timing was not right. You might not believe me even if I told you. So ... I wanted to tell you something else first."

Ling Qingxue was confused. "Ruofei, you're beating around the bush. I'm getting dizzy ... If that's the case, why don't you just say what you can say now?" she asked. As for the other matter, can't you tell me when the time is right? If you say it now, aren't you just letting me hang on to it? There's no one like you who keeps me in suspense!"

Xia ruofei smiled bitterly, "you'll understand in the future!" Let's not talk about this anymore. Qingxue, I've called you here today because I have something to tell you!"

Ling Qingxue shrugged and said, "alright!" I will also listen very seriously! Go ahead!"

Xia ruofei organized his thoughts and asked, ""Qingxue, do you believe that there is another kind of person in this world who possesses unimaginable power? I'm not talking about money or power, but the great power that the human body can possess. They might be able to fly through the air, grab things from a distance, or even topple mountains and overturn the seas ..."

Chapter 1794: Displaying strength (2)

Ling Qingxue's eyes slowly widened. She really felt that Xia ruofei was making fun of her.

"RUO Fei ..." Ling Qingxue didn't know whether to laugh or cry. "You're not joking with me, are you? Or perhaps ... Your paradise Corporation is preparing to enter the film industry and want to make a Xianxia movie? Were you talking to me about the script of the movie?"

Xia ruofei laughed bitterly to himself. At the same time, he was glad that he did not tell her about his relationship with Song Wei.

Judging from Ling Qingxue's reaction, if he told her about his experience with Song Wei, she would probably think that Qianqian, who treated him like a fool, could have come up with such a lame excuse.

"No, I'm serious ..." Xia ruofei said.

Ling Qingxue touched Xia ruofei's forehead and said, "I don't have a fever! Why are you talking nonsense now?"

Xia ruofei smiled and said, "I know you find it hard to believe ..."

"It's not that I don't believe it, but anyone with a normal brain wouldn't believe a plot that only appears in movies!" Ling Qingxue said, "ruofei, you're really acting weird today. Is it because you've been under too much pressure lately that you ..."

At this point, Ling Qingxue suddenly stopped. Her eyes were wide open, and the expression on her face was completely frozen ...

Because she saw that while she was speaking, Xia ruofei suddenly reached out and grabbed at the air. Then, a hole appeared on the beach. A ball of sand completely violated the laws of physics and just floated one meter in front of her.

"This ... This ..." Ling Qingxue was flabbergasted.

Xia ruofei smiled and drew a line in the air. The ball of sand immediately fell apart. However, it did not land on the ground. Instead, it hovered in the air and formed the words "Ling Qingxue"!

Ling Qingxue's mouth was wide open. After a while, she said, "Ruofei, where did you learn magic? This was too amazing! No wonder you were talking about the power to topple mountains and overturn the seas. It was all for the magic effect!"

Xia ruofei almost fell over. He had thought that seeing was believing. As long as he showed a little of his strength, Ling Qingxue would accept what he had just said. He did not expect that it would all be in vain.

"Magic?" Xia ruofei smiled bitterly. "Qingxue, you actually thought it was magic ... What about this?"

After he finished speaking, Xia ruofei struck his palm at the coastline not far away. This time, he used 70% to 80% of his strength and a huge amount of genuine Qi was exuded.

A one – foot – deep trench appeared on the beach, extending all the way to the sea. Then, the seawater that was hitting the beach was also split in two, forcibly separated from the middle. After a few seconds, the trench slowly disappeared.

"And this?" Xia ruofei said.

This time, he made a grabbing motion in the air, and Ling Qingxue felt a gentle force lift her up. Her entire body left the ground, and she was suspended in the air ...

Ling Qingxue was so scared that her face turned pale. Fortunately, Xia ruofei quickly put her down and smiled. "Qingxue, do you still think it's magic?"

Ling Qingxue felt that her brain wasn't enough. Of course, she didn't think that this was magic.

Magic tricks were all smokescreens. They relied on props and techniques. They had clearly come to this beach on the spur of the moment. The place had been randomly chosen by Ling Qingxue. If the sand turning into a ball just now could have been a magic trick, then Xia ruofei's shocking performance after that could not have been the result of magic.

At this moment, Ling Qingxue started to seriously consider what Xia ruofei had just said.

"You ... You ..." Ling Qingxue stuttered, "RUO Fei, was everything you said just now true? Also, you ... You also have this kind of power?"

Xia ruofei heaved a sigh of relief. The conversation could finally proceed normally.

He nodded slightly and said, "Qingxue, I know that this is a little hard to accept. In fact, it has completely gone beyond the scope of science that we've been taught since we were young. However, as long as it exists, it is reasonable. Facts have proven that such a power exists."

Ling Qingxue nodded. The truth spoke louder than words. No matter how hard she thought it was impossible, the eyes would not lie to her. Even if what the eyes saw might not be the truth, Xia ruofei would not be so bored as to lie to her about such things.

Xia ruofei continued, "actually, the magic of this power is far beyond what I have just said and ... Those performances. If one can master this power, one's lifespan can be greatly extended. If one reaches a certain level, one can even look young forever."

Women really valued beauty the most. After Ling Qingxue heard this, her eyes clearly lit up.

Xia ruofei laughed to himself and continued, "Qingxue, what I'm going to tell you today is this power that we call supernatural! In fact, this power isn't inborn, but acquired through cultivation. When we first met after I retired from the Army, I didn't have this power at all, but now ... You've seen it for yourself!"

"Training? You're saying ... It's like Qigong?" Ling Qingxue asked in surprise.

Xia ruofei nodded. "Yes, you can think of it as a way of cultivation that is much more advanced than Qigong. In fact, we call it cultivation!"

"RUO Fei," Ling Qingxue said, "my mind is a little confused right now. My ... My boyfriend has actually become a cultivator who can fly into the sky and dive into the ground. He has the power to destroy everything?"

Xia ruofei chuckled. "It's not that exaggerated. My cultivation is not that high. After all, I entered the sect late!"

At this point, Xia ruofei said seriously, "Qingxue, the reason why I'm telling you all this today is that I hope you can cultivate with me! I don't want to be like this after a few decades while your face gradually ages. Time will eventually take you away, and I have to endure the loneliness in my endless thoughts ..."

Ling Qingxue's eyes reddened when she heard that. Xia ruofei used a bit of his spiritual power to make Ling Qingxue fall into that situation.

An image flashed through her mind: Many years later, Xia ruofei still had the same young face and strong body, but she couldn't resist the erosion of time, and wrinkles gradually climbed up her forehead ... Many years later, she said goodbye to this world reluctantly, and then Xia ruofei wandered alone to the place where the two of them had once been, his eyes filled with deep longing ...

Tears welled up in Ling Qingxue's eyes. Then, she caught the main point in Xia ruofei's words and asked impatiently, ""RUO Fei, you ... You're saying that I can also cultivate? To have such power? Can you maintain your youthful appearance?"

"As long as one's cultivation reaches a certain level, there is indeed the effect of retaining one's youthful looks," Xia ruofei nodded.

Xia ruofei did not lie to Ling Qingxue. If one could cultivate to the foundation establishment stage, one's appearance would not age. Only when one's life was at its end and one's life was about to end would one age rapidly. For most of the time, one would maintain the appearance of one's youth.

Xia ruofei continued. "Cultivation requires a certain amount of talent. However, my Qingxue is so smart. She will definitely have no problem!"

Ling Qingxue nodded and said, ""Mm! I can definitely do it! RUO Fei, please teach me how to cultivate! I'll definitely work hard to catch up to you!"

Xia ruofei laughed and said, "no rush!" I'll first check if your Constitution is suitable for cultivation and what kind of attribute cultivation technique is suitable for you to cultivate!"

With that, Xia ruofei reached out and grabbed Ling Qingxue's wrist. A stream of gentle true Qi mixed with spiritual energy entered Ling Qingxue's body.

Ling Qingxue suddenly felt a warm current flowing into her palm and flowing through her meridians. It was warm and comfortable.

She looked at Xia ruofei nervously, but his expression did not change even when he opened his eyes.

"How is it? RUO Fei, can I cultivate with my physique?" Ling Qingxue asked urgently.

Chapter 1795: At all costs (1)

Xia ruofei laughed and said, "of course, no problem!" Didn't I tell you? My Qingxue is so smart, how could she not be suitable for cultivation!"

Ling Qingxue immediately said happily, ""Really? That's great, you almost scared me to death just now. As long as I think of me becoming an old woman and you still looking like a young man, I ..."

Xia ruofei laughed and said, "isn't that good?" Everyone will be envious of you! An old cow eating young grass!"

Ling Qingxue playfully hit Xia ruofei a few times and said, ""A dog's mouth can't spit out ivory! You only know how to talk nonsense ..."

Xia ruofei laughed, "wife!" Let's return! The wind by the sea is quite strong, don't catch a cold ..."

“Then when will you teach me how to cultivate?” Ling Qingxue asked, full of anticipation.

Xia ruofei had opened a door for her, a door to a whole new world. Ling Qingxue couldn’t wait to see him.

Xia ruofei laughed and said, “don’t worry!” I’ll have to find the most suitable cultivation technique for your attribute according to your body’s condition! After I’m done tidying up, I’ll have to help you recuperate a little before I can start cultivating! This is called sharpening a knife will not delay the work of cutting wood!”

“Alright then! You have to be quick!” Ling Qingxue didn’t doubt him and nodded happily.

“Don’t worry!” Xia ruofei said and then reminded her, “by the way, Qingxue, you must keep your cultivation a secret! This thing is quite sensitive, and it will cause a lot of unnecessary trouble if it gets out. ”

Ling Qingxue giggled and said, “I know!” I won’t tell anyone! And ... Even if I tell others, no one will believe me!”

“That’s true ...” Xia ruofei smiled and said, “just keep it a secret!” It’s best if you don’t even tell uncle Ling. ”

Ling Qingxue nodded. She hesitated for a moment before asking, “Ruofei, then ... My dad ... Can he cultivate?”

Xia ruofei did not hesitate and said, “Uncle Ling is already too old and has missed the best time to cultivate. In fact, our age is no longer the best age to cultivate. It’s just that we can still cultivate with some auxiliary means.”

Ling Qingxue’s disappointment was evident in her words. She said, “Oh ... I know!”

Xia ruofei smiled and patted Ling Qingxue’s head. “Although uncle Ling can’t cultivate, as long as we cultivate well, it’s still very easy to provide him with some longevity – extending spiritual medicine. Not to mention other things, it’s definitely not a problem to live to a hundred years old!”

“Really?”

“When have I ever lied to you? Don’t you worry!” Xia ruofei laughed. “Isn’t your father my father too?”

Ling Qingxue blushed and said, “no way!” Don’t think too highly of yourself!”

“Eh? My wife has grown up!” Xia ruofei laughed. “You’re forcing me to use the Family Law!”

When Ling Qingxue heard the word ‘family punishment’, her face turned even redder. She could not help but roll her eyes at Xia ruofei and said, “Let’s go! Aren’t you going back to the city for lunch? If you dawdle any longer, you’ll miss the meal time!”

“Hahaha! Let’s go, let’s go!” Xia ruofei said, “it’s your treat today!”

The two of them left the beach and walked together to the parking lot.

Ling Qingxue didn’t notice that Xia ruofei’s eyes were clouded.

The actual situation was not as optimistic as Xia ruofei had made it out to be. There were so many people in the world, but only a few were suitable for cultivation. Ling Qingxue's physique happened to belong to the general public. Even if she forced herself to cultivate, it would be difficult to achieve much. It would even be difficult to get started.

Xia ruofei had made up his mind to bring Ling Qingxue on the path of cultivation not just to explain his relationship with Song Wei. The scene that he had just described to Ling Qingxue had actually appeared in his mind many times. He also found it hard to accept the fact that Ling Qingxue would leave this world so early one day ...

If Ling Qingxue couldn't cultivate, Xia ruofei would only be able to extend her lifespan to a hundred years old at most. With Xia ruofei's current cultivation, it would be easy for him to live to a hundred and fifty years old. As his cultivation level increased, his lifespan would also increase. If he could successfully build his Foundation, his lifespan would be at least three hundred years.

Xia ruofei was very confident that he could reach the foundation establishment stage.

Could it be that when he was over a hundred years old, he would have to watch Ling Qingxue leave the world with regret and reluctance, and then live alone for another one or two hundred years?

No! He would not allow such a situation to happen! Xia ruofei roared in his heart.

Of course, he didn't show these emotions on his face, and Ling Qingxue had been in a state of extreme joy the whole time, so she naturally didn't notice anything.

The two of them returned to the city and had a happy lunch. Of course, Ling Qingxue's happiness came from the bottom of her heart, while Xia ruofei was more or less forcing a smile.

After the meal, Xia ruofei did not ask Ling Qingxue to send him back, as she had work to do in the afternoon. He called a taxi and went back to the farm.

Xia ruofei's departure this time would take about a month. When they heard that he was back, Feng Jing and the other higher – ups were waiting to report to him about the work at this stage. However, Xia ruofei directly sent a message to the higher – ups 'WeChat group, saying that he was tired from the journey and needed to rest. If there was anything else, he would talk about it tomorrow.

Chapter 1796: At all costs (2)

Then, he returned to the small villa.

Feng Jing and the others felt that it was strange. Xia ruofei had always given them the impression that he was full of energy, which was rare. Of course, as the boss, Xia ruofei gave himself a half – day break after a long – distance flight. No one would say anything, and no one would come to the small villa to disturb him.

The villa's cleaning company would arrange for people to clean it regularly, including the Veterans from the security Department who would feed Blackie and the red Arowana in the house. Hence, the place was no different from when Xia ruofei had left a month ago.

Xia ruofei was not in the mood to play with Blackie and the rest who were happily circling around him. He patted their heads and walked straight into the villa.

He quickly went upstairs with a sullen face and locked himself in his room. He took out the spirit map scroll and entered the medium.

“Master!” Xia Qing called out respectfully.

“En!” Xia ruofei nodded and went straight to the point. “You know about Qingxue’s condition. Is there any way to change her Constitution so that she can cultivate?”

When Xia ruofei was examining Ling Qingxue at the beach, he had specially communicated with Xia Qing using his divine thoughts. Hence, Xia Qing was also aware of Ling Qingxue’s condition.

Xia Qing said, “master, it’s more complicated to change one’s Constitution ... Everyone’s Constitution is different. Some people’s meridians are naturally stronger, some are weaker, and some people are even born with blocked meridians. Of course, if their meridians are blocked, they’re basically useless people, and it’s impossible for them to cultivate.”

Xia ruofei nodded and quietly waited for Xia Qing to continue.

He had examined Ling Qingxue’s condition. Although her physique was not suitable for cultivation, it was not to the extent that her meridians were blocked. In fact, if her meridians were really blocked, such a person would have died early.

Xia Qing continued, “actually, the problem with her meridians is not the main issue. The effect of the acquired improvement is still very significant. Although miss Ling’s meridians are not very strong, they have reached an above average level ...”

“En!” Xia ruofei nodded.

He knew very well that Ling Qingxue’s main problem wasn’t her meridians.

Xia Qing said, “in fact, the most important factor that determines whether a person has the talent for cultivation is still the soul. Some people are born with a strong affinity with spiritual energy, so their cultivation will naturally be twice as effective with half the effort. And some people, even if they try their best, can’t sense the existence of spiritual energy, so they naturally can’t cultivate. And what determines the affinity with spiritual energy is a person’s soul.”

Speaking of this, Xia Qing paused and said, “But it’s quite difficult to change the nature of the soul ...”

Xia ruofei frowned and asked, “even the heart – concentrating grass won’t work?”

The reason why Song Wei’s cultivation speed was so fast was not only because of her talent, but also because Xia ruofei had used a precious heart – concentrating herb to save her. This had greatly improved her cultivation talent.

Xia Qing said, “the heart – concentrating grass can naturally have a certain effect on improving one’s cultivation talent. It’s just that I don’t know to what extent this effect will reach. On the other hand ... Master, we no longer have the heart – concentrating grass in our spirit map world ...”

Xia ruofei's expression darkened. In order to save Song Wei, he had upgraded the spirit map space by two levels at all costs. A small island had appeared in the mountain and sea realm, and the only heart concentrating grass had been picked from that small island.

"Wait!" Xia ruofei called out, "Xia Qing, the heart concentrating grass has only been picked for use. I remember you saying that as long as there is enough time, it can still grow back! Is that so?"

Xia ruofei remembered that he had described it as harvesting leeks.

"You're right," Xia Qing nodded. "But the heart – concentrating grass takes more than ten years to mature. Master obviously can't wait that long."

Xia ruofei asked urgently, "don't we have time acceleration?" If we transplant the heart condensing grass to the Archean realm and stack the time array flags, it will only take two to three days to complete a dozen years!"

After Xia ruofei finished speaking, he saw Xia Qing's strange expression and couldn't help but ask, "Right, I've always wanted to ask you! Why were those spirit herbs and herbs planted on small islands in the mountain sea realm and not in the Archean realm? There's a time acceleration of thirty times there!"

Xia Qing forced a smile and said, "master, there must be a reason for this!" If it was possible to simply use the time – accelerating formation to plant large amounts of aged spiritual herbs, my previous master, immortal mountain river, would have done so long ago ..."

"What's the problem?" Xia ruofei asked, frowning.

Ordinary crops, including agarwood and ginseng, could be planted in the Archean realm to enjoy the benefits of time acceleration. Why couldn't those spiritual herbs and herbs be planted? Xia ruofei could not understand.

"Spiritual Qi!" Xia Qing said. It was mainly because of the spiritual energy! For these spirit herbs and grass to grow, the amount of spirit Qi they require far exceeds that of ordinary crops. The reason why they can only be planted in the mountain and sea realm is because the spirit map world can recover on its own at this level of consumption of spirit Qi. However, if they are planted in the Archean realm, the total amount of spirit Qi required for the growth of the spirit herbs will remain the same, but the rate of consumption will increase by thirty times. The spirit map world will not be able to absorb and transform enough spirit Qi to support the growth of the spirit herbs, and it will definitely damage its Foundation!"

Xia Qing paused and looked at Xia ruofei, "Master, it's the same principle as when I reminded you not to cultivate in the spirit map world for long periods of time. If we do as you say and add the time array flags, it'll be equivalent to consuming more than ten years' worth of spirit Qi in these three or four days. The spirit map world definitely can't replenish it in time. Such a large amount of spirit Qi will be consumed so quickly that it may even cause the entire spirit map world to collapse!"

Xia ruofei couldn't help but be in a daze. So this was the reason.

In the past, no matter if it was his cultivation or planting other crops, the amount of spiritual energy he consumed was nothing compared to the spiritual energy needed for a spiritual herb like the heart

concentrating grass to mature. So as long as he did not cultivate in the space without restraint, there would be no problem no matter what he did.

However, if he rashly transplanted the heart condensing grass into an Archean realm expert, there would be a huge problem!

“Is there no other way?” Xia ruofei’s expression turned ugly.

He had already found out that Ling Qingxue’s affinity with spirit Qi was very low. If he wanted to forcefully change her Constitution and let her embark on the path of cultivation, the heart concentrating grass was a must.

Was he going to make Ling Qingxue wait for more than ten years? This was definitely not realistic.

“Master, if you don’t mind the price, it’s not impossible to accelerate the ripening of the heart – concentrating grass with time ...” Xia Qing said after hesitating for a moment.

“What is the price?” Xia ruofei quickly asked.

“Spirit crystals!” Xia Qing said, “the only way is to set up a spirit gathering array and consume the spiritual Qi of the spirit crystals for the heart concentrating grass. This way, the spiritual Qi in the spirit map world will not be affected.”

“Yeah!” Xia ruofei’s eyes brightened and he said, “can’t we just use spiritual crystals? Xia Qing, it’s not a good habit of yours to speak halfway! He had to change it in the future! Why are you hiding such a good idea? you should have said it from the start ...”

Seeing Xia Qing’s strange expression, Xia ruofei’s excited expression also froze. He asked weakly, “Did it consume a lot of energy?”

“That’s right.” Xia Qing nodded and said, “it takes all the spiritual Qi contained in at least five spiritual crystals for a heart concentrating grass to ripen ...”

Xia ruofei couldn’t help but take a deep breath. The amount of spiritual Qi in a spiritual crystal was quite terrifying. Basically, the spiritual Qi in a spiritual crystal was equivalent to the total amount of spiritual Qi in the entire spirit map space.

He only had a little over 100 spiritual crystals in total!

A hundred crystals might seem like a lot, but it would be consumed very quickly. Xia ruofei was not cultivating alone. He had given one to Tang Haoran, one to Song Wei, and half of the last one to himself. In the future, if Ling Qingxue were to cultivate, he would at least give her some crystals. He might even give his Grand – disciple Li Yifu from the United States some crystals in the future.

How long could 100 spiritual crystals last for so many people?

Xia ruofei had been cultivating for so long and had not even used up a single spiritual crystal, but it actually took him five spiritual crystals to grow a small plant! It was no wonder that perfected mountain river did not dare to plant those spirit herbs in the Archean realm ...

However, Xia ruofei did not hesitate and said, "Five then! Xia Qing, immediately set up a spirit gathering array and then move the heart condensing grass to the Archean realm! I want to see a mature heart condensing grass in a few days!"

Chapter 1797: Cultivating the heart - concentrating grass (1)

Xia Qing thought that Xia ruofei would hesitate, but she didn't expect him to be so determined. She couldn't help but freeze.

"Master, that's at least five spiritual crystals!" Xia Qing couldn't help but remind him, "moreover ... It's still unknown how much effect a stalk of heart concentrating grass has. We might need two or three stalks ..."

Xia ruofei waved his hand and said, "as many as you want!" As long as he had enough crystals! Even if I need ten or even twenty, you can cultivate them as much as you want!"

Seeing this, Xia Qing also knew that there was no need to persuade him anymore. She nodded and said, "Yes, master, I'll do it now!"

Xia Qing continued: "but ... Master, you will need to personally retrieve the heart condensing grass from the realm Heart Island. Other than you, no one else can enter."

"No problem!" Xia ruofei asked, "are there any precautions for digging out this heart concentrating grass?"

"There's nothing special to pay attention to. There's only one thing, and that's that you must use a wooden shovel." Xia Qing said, "in addition, try not to hurt the roots of the heart concentrating grass. Otherwise, you may need more spirit crystals to recover!"

"I know!" Xia ruofei said, "I'll go now!"

With that, Xia ruofei waved his hand, and a wooden shovel flew into his hand from the tool rack. Then, with a single thought, he appeared at the seaside of the mountain sea realm.

Xia ruofei got on the motorboat and sped towards the direction of the realm Heart Island.

After arriving at the realm Heart Island, Xia ruofei did not waste any time. He immediately found that heart concentrating grass.

Because Xia ruofei had just harvested it not long ago, there was only a small section of the heart condensing grass left and it looked very unremarkable.

Xia ruofei mumbled to himself. "It's up to you whether Qingxue can cultivate successfully. You have to work hard!"

With that, Xia ruofei started digging with a wooden shovel. His movements were very careful because he would have to spend more spiritual crystals if he accidentally touched any of the roots.

Although he had told Xia Qing that he would cultivate enough heart – concentrating herbs at all costs, Xia ruofei still cherished the spiritual crystals, which were extremely precious cultivation resources. It would be good if he could waste less.

It took him more than an hour to dig out the soil around the heart condensing grass. In the end, he pulled up the entire heart condensing grass.

Xia ruofei had even left some soil to maintain the vitality of the heart – concentrating grass.

After everything was settled, Xia ruofei did not waste a single second and immediately left.

After leaving the boundary of the realm Heart Island, Xia ruofei directly used his mind and disappeared from the sea. The next moment, he appeared in the middle of the Archean realm.

Due to the difference in the flow of time, Xia Qing had already set up a small spirit gathering array in the Archean realm. Six spirit crystals were neatly stacked at the eye of the spirit gathering array. This array was slightly different from ordinary spirit gathering arrays. After the array was activated, it would only absorb spiritual energy from the spirit crystals at the eye of the array and would not use the spiritual energy within the spirit map space.

The reason why six of them were placed was naturally to ensure that nothing would go wrong.

In theory, five spiritual crystals were enough. However, if the spiritual crystals were all used up and the heart – concentrating grass was not ripe yet, the array would automatically start to absorb the spiritual Qi in the space.

The heart – concentrating grass consumed a lot of spiritual energy, especially at a time flow of 2000 times. If Xia Qing was delayed for even a moment and didn't notice this situation in time, the spirit map space might suffer a great loss of vitality due to the excessive consumption of spiritual energy.

Therefore, it was the safest to put six crystals in.

Xia ruofei's heart ached as he looked at the spiritual crystals. If these six spiritual crystals were used for cultivation, it would be enough to support Xia ruofei's cultivation to the foundation establishment stage. If it were given to others, Xia ruofei could cultivate at least seven or eight cultivators who were at the same level as him.

And now, just to cultivate a small blade of grass, the price paid was quite high.

Of course, Xia ruofei was just lamenting. He would not change his mind just because of the consumption.

He carefully handed the heart concentrating grass to Xia Qing and said solemnly, "Xia Qing, I'll be counting on you for the rest of the matter!"

"Don't worry! Master, although I can't guarantee that the heart – concentrating grass will be of great use, I'm confident that I can quickly cultivate a mature heart – concentrating grass without considering the cost!" Xia Qing said.

"You can go plant it!" Xia ruofei said, "I'll wait here!"

“Yes, master!”

Xia Qing re – planted the heart – concentrating grass in the spirit gathering array. Then, Xia ruofei quickly set up time array flags around the spirit gathering array.

The entire formation had been compressed to the extreme. Compared to the outside world, the time inside the spirit gathering formation was about two thousand times faster.

“Xia Qing, you can temporarily put aside the other matters!” Xia ruofei reminded him, “you must take good care of this heart concentrating grass. If you really can’t do it, you can stop all other work and focus on taking care of the heart concentrating grass!” You must ensure that the cultivation is successful, and at the same time, it can not affect the spirit map world. If even six spirit crystals are not enough, you must replenish them in time! You don’t need to ask me anymore!”

“I understand! Don’t worry, master!” Xia Qing said.

“Thank you for your hard work ...” Xia ruofei said.

Although Xia Qing was only a soul puppet, he didn’t need sleep and was absolutely loyal to his master, Xia ruofei still felt that Xia Qing’s sleepless work made him look like a capitalist who was exploiting his labor.

Chapter 1798: Cultivating the heart - concentrating grass (2)

When he had gone to the mountain and sea realm to retrieve the heart condensing grass, he had also seen a large oak Forest. This was the result of Xia Qing’s work these past few days.

As Australia would need a large number of high – Quality oak trees next year, Xia ruofei arranged for Xia Qing to start planting from Australia.

In order to ensure that these oak trees could be cut down next year, Xia Qing had to plant them in yuanchu. When the oak trees had grown to a certain extent, she would then transplant them one by one. One could imagine the amount of work required.

Xia ruofei said, “I’ve already gathered the materials from the outside world. Once I’ve gathered all the materials, I’ll try to make a puppet. Then, you won’t have to work so hard like you are now!”

“That’s great!” Xia Qing happily said. With a few helpers, my work efficiency will be even higher!”

When Xia Qing heard the news, the first thing she thought of wasn’t to rest. In fact, he didn’t need to rest. The first thing she thought of was to work more efficiently.

Xia ruofei smiled and said, “then I’ll go out first!” That’s right, that realm Fox hasn’t been dishonest recently, right? You have to take good care of it!”

“Yes, master!” Xia Qing said, “little white won’t mess around now, and it seems to have some enlightenment. It hasn’t moved from its nest recently, and it has been cultivating every day.”

“He has a new comprehension so quickly!” Xia ruofei said, “as expected of the space pet! Forget it! He would let it cultivate and comprehend in peace during this time! When I have the time, I should ask it for some rent! You can’t just eat and not work!”

Xia ruofei ‘s’ rental fee ‘was naturally to make use of the White realmfox’s spatial talent and get it to help him find more realm stones.

Xia ruofei did a simple inspection of the space. After seeing that everything was normal, he did not stay any longer and returned to the outside world.

When he came back just now, he didn’t even pack his luggage and directly entered the spirit map space.

Of course, Xia ruofei’s luggage was all for show. His things were all stored in the spirit map space.

After returning to the bedroom, Xia ruofei went to take a shower and changed into a set of clean and comfortable clothes.

Then, he took out his phone and gave Song Wei a call.

“You’ve met sister Qingxue?” Song Wei asked with a smile as soon as she picked up the phone.

“Yup!” Xia ruofei said, “I asked her to pick me up from the airport today!”

“How is it? Did you tell her about your cultivation?” Song Wei asked with concern.

“Yes, she didn’t believe it at first.” Xia ruofei said, “I had no choice but to show her my skills. That’s how I managed to subdue her!”

Song Wei laughed hysterically and said, “You can’t blame sister Qingxue for this! If you had told me a few months ago that there were still xiuzhenists in this world, I would have never believed you. ”

Then, Song Wei asked with concern, “Then have you checked sister Qingxue’s Constitution? Can she cultivate the “absolute beginning Heart Sutra”?”

Xia ruofei pretended to be relaxed and said, “don’t worry!” There’s no problem ...”

“That’s good ...” Song Wei heaved a sigh of relief, but at the same time, she felt a little disappointed.

Ling Qingxue was able to cultivate, which meant that in the near future, she would be able to experience the spirit body joint training. Song Wei believed that if Xia ruofei were to reveal everything to Ling Qingxue then, there was a high chance that Ling Qingxue would accept the fact that she was with Xia ruofei.

Did he really have to share his lover with others? Song Wei could not help but feel a little unwilling.

After all, Song Wei was a well – educated modern woman. It was impossible for her not to feel uncomfortable about sharing her lover with another woman.

However, she quickly pushed these thoughts out of her mind. She was the first to suggest this. When she thought of Xia ruofei and the wonderful feeling of the spirit body joint training, Song Wei felt that her unwillingness had disappeared.

Xia ruofei did not know that so many thoughts had flashed through Song Wei's mind in such a short time. He smiled and said, "Let's not talk about Qingxue anymore. Weiwei, did you miss me?"

It was strange. Ever since the spiritual bodies of the two went through the joint training, Xia ruofei and Song Wei could say such sweet words without any obstacles in their hearts. It was as if the two of them were a couple who had been together for a long time.

It had to be said that the contact at the soul level was really too magical.

Song Wei's face heated up slightly and she said in a low voice, "Don't try to be glib with me, let's settle sister Qingxue first! Otherwise, when sister Qingxue kicks you out, you won't even have a place to cry!"

Xia ruofei laughed and said, "you're looking down on me too much!" Wei Wei, just wait and see! It won't be long before a female cultivator with the same cultivation level as you will appear!"

At this point, Xia ruofei's tone turned gloomy. He said, "When the time comes, I'll be honest with Qingxue. As for where she should go, it's up to her to decide!"

Song Wei's heart trembled and she said, "Ruofei, don't think too much ... I think sister Qingxue will understand! If she really can't accept it, you have to keep her. Just tell her that we've only practiced together once as spiritual bodies, and that we're still innocent in real life ... At that time, I ... I can ... Leave you on my own ..."

Song Wei was a girl, so she had to endure a lot of shyness to say this. However, she still mustered up the courage to say it.

Xia ruofei's heart felt warm as he said, "don't let your thoughts run wild!" You're destined to be my woman!"

Although Song Wei was very shy, she felt sweet in her heart.

Xia ruofei chatted with Song Wei for a while and said a lot of sweet nothings. It was about three in the afternoon when he hung up.

Now that Xia ruofei had nothing to do, he had to wait for two to three days for Xia Qing to cultivate the heart concentrating grass. Only then could he continue to worry about Ling Qingxue's cultivation.

However, since he had already said that he was taking a break in the afternoon, Xia ruofei did not go to the office building. He went downstairs to play with Blackie and the rest for a while. At Five O' clock, he went to the kitchen to make some noodles.

At night, he continued to cultivate and consolidate his cultivation, then he went to bed early.

The next morning, Xia ruofei arrived at the staff canteen in the complex.

The cafeteria was quite popular. Many young employees lived in the company dormitory, so they were used to having breakfast in the cafeteria.

Hence, when Xia ruofei entered, everyone greeted him.

Xia ruofei smiled and nodded at each of them. Then, he walked straight to Feng Jing's table.

Although the cafeteria didn't have a clear seating arrangement, everyone was used to having fixed seats. The table in the middle was usually for the company's senior management.

Feng Jing was the only one at the table.

"Good Morning!" Xia ruofei greeted Feng Rao with a smile.

Feng Rao smiled at Xia ruofei and said, "Chairman, you look good! Did you rest well yesterday?"

"It's alright!" Xia ruofei said with a smile.

He saw that there were no other employees around, so he lowered his voice and said, "Sister ran, gather all the higher – ups above the director level this morning. I want to hear about everyone's work during this period!"

"Don't worry! I've already made the arrangements yesterday." Feng Jing said, "it's 9 am in the company's big meeting room. You're okay with the time, right?"

"No problem!" Xia ruofei said.

The two of them chatted as they ate. When they were about to finish eating, Cao tieshu's wife, who was working in the canteen, came out with a plate and said, "President Xia, President Feng, I just fried two Lotus – wrapped eggs. Try them!"

"I can't eat anymore ..." Feng Jing laughed. "I'll give it all to President Xia!"

Xia ruofei replied readily, "sure!" I have a good appetite! Digesting two more eggs would not be a problem! Thank you, Mrs. Cao!"

As Xia ruofei spoke, he picked up a poached egg and stuffed it into his mouth. After chewing for a while, he gave a thumbs up and said, "It's still sweet, the heat is just right! Mrs. Cao's cooking skills are getting better and better!"

Cao tieshu's wife wiped her hands on her apron and said, "It's good that you like it, President Xia. I'll make you two a day later ..."

Following that, Cao tieshu's wife hesitated for a moment before saying, "President Xia, there's something ... I want ... To report to you ..."

Chapter 1799: Net assets over 1 billion (1)

Xia ruofei couldn't help but laugh when he heard this. Cao tieshu's wife had actually used the erudite word "report".

Actually, the moment she came, Xia ruofei knew that she must have something to discuss with him. She did not hide her thoughts. It was written all over her face!

Although Cao tieshu's wife was only a canteen staff, Xia ruofei had never put on any airs. He asked with a pleasant expression, "Mrs. Cao, what's the matter?"

Mrs. Cao hesitated for a moment and asked, ""President Xia, the company's headquarters is moving to the city. Does that mean the cafeteria here will be closed?"

"Who did you hear that from?" Xia ruofei asked, stunned.

He then turned to look at Feng Rao, who shook her head slightly, indicating that she had no idea.

"That's what everyone's saying ..." Mrs. Cao said.

Xia ruofei said with a pleasant expression, "Mrs. Cao, don't worry!" The staff cafeteria will still be preserved. After all, there are still many people working on the farm!"

Some of the villagers who worked near the farm were also used to eating in the staff cafeteria. On one hand, it was clean and hygienic, especially for couples who worked here. After eating in the cafeteria, they didn't have to cook when they went home, which was very convenient.

More importantly, the company would subsidize the meals in the staff cafeteria. Everyone only had to spend 5 yuan to eat two meals, and the actual consumption was at least 20 yuan. The rest of the money was subsidized by the company, so everyone was naturally willing to enjoy such benefits.

"President Xia," Mrs. Cao said, "if there are fewer people eating, does that mean the cafeteria won't need so many employees?"

In fact, Cao tieshu's wife was not worried about layoff. The two of them had joined the company at the beginning stage and could be considered as the company's founding members. Cao tieshu was also in the middle level of the company and was in charge of the farm business. She would not be the one getting laid off. She was mainly asking on behalf of the other young employees in the cafeteria.

Feng Rao chuckled and said, ""Don't worry! Everyone has signed a formal employment contract with the company, so even if the cafeteria staff is reduced, the company will make appropriate arrangements. "

Xia ruofei nodded and said, "yes!" And the company still had to study whether or not to reduce the size of the cafeteria! Just tell everyone to relax! I definitely won't let everyone lose their jobs!"

Cao tieshu's wife said happily, "I understand. Thank you, director Xia!" Thank you, President Feng! Then ... Then I won't disturb your meal ..."

After she finished speaking, she happily walked back to the kitchen. Xia ruofei couldn't help but laugh again. "Sister che, have you noticed that big sister – in – Law Cao's words are a lot more advanced now?"

In the past, as a peasant woman, she would never have been able to say words like "report" or "eat."

Feng Rao rolled her eyes at Xia ruofei and said, ""Your focus is really strange ..."

Xia ruofei scratched his head and said, "it seems that the relocation of the headquarters is urgent!" Even the basic level employees are spreading it ..."

"You only just found out!" Feng Rao snapped. If you don't come back soon, the employees will start a rebellion!"

"Is it that serious?" Xia ruofei laughed.

“Why not? The headquarters building is ready, we’re just waiting for you to come back and host the relocation!” Feng Jing said, “there are a few young people who have rented a place near the building in advance. The company has not moved yet, and they have wasted the rent for nothing. Their faces are turning green ...”

“It’s decided today!” Xia ruofei said.

It turned out that the relocation of the headquarters was what everyone was most concerned about.

In the morning meeting, the first thing the Executive Director Dong Yun reported was this problem.

Dong Yun, who had officially taken office, still had short hair and was dressed in a fitting black business suit. She looked very neat.

She opened the folder and gestured to Feng Jing before saying, “Chairman, while you were away on your business trip, the headquarters ‘renovation has been completed. The relevant office equipment has also been purchased. We have hired a professional organization to conduct a Comprehensive Environmental test of the building. All aspects have met the standards and we can move at any time.”

Xia ruofei nodded. “After the meeting, I’ll go to the headquarters building to take a look. Then, we’ll set a date and move the headquarters there!”

Although everyone had already known about the relocation of the headquarters, when Xia ruofei finally made the decision, the company’s senior officials present were still excited.

The relocation of the headquarters meant that the company had moved out of the remote suburbs and was officially on the road to great development.

In the heart of Sanshan city where every inch of land was worth its weight in gold, owning an entire building was definitely a reflection of the company’s strength! As the company’s senior management, everyone was also honored.

Next, the marketing director, Xiao Qiang, reported to Xia ruofei about the company’s overall operation.

In fact, the Paradise corporation’s products had always been in a state of supply falling short of demand. Needless to say, paradise vegetables, which was the first company to establish a brand, had a rather mature cooperation channel. For example, they also had a stable distribution channel. In addition to supplying it to cooperative channels such as Tongren Hall, the company’s sales in e – commerce channels were also quite hot.

It was worth mentioning that the sales of the Chinese perch were also very smooth.

In the beginning, Xia ruofei had asked them to arrange for some soft articles to be published on the internet. It had indeed evoked many people’s memories of delicious food. Although fresh Chinese perch was only sold in the three mountains area and was frozen in other areas, the taste of the Chinese perch had quickly won over a large number of gluttons. The expensive Chinese perch was often out of stock.

Chapter 1800: Net assets over 1 billion (2)

It was even more so for the pharmaceutical factory. The jade skin cream was completely sold through the online channel, but up until now, it was still in the mode of regular purchases. The production capacity of the pharmaceutical factory was full, but it still could not meet the demand.

And this was only the Chinese market. If it were to go global, even if the pharmaceutical factory expanded several times, it might not be able to meet the demand.

The director of the pharmaceutical factory, Xue Jinshan, also told a joke. He said that the business of overseas shopping had been very popular in recent years. Many people went abroad to bring goods for others. However, the Jade skin cream had given rise to the business of “overseas shopping.” It was said that many foreigners who came to China would try to buy a few sets of Jade skin cream to bring back.

Although the jade skin cream was not officially sold overseas, its reputation was not weak at all.

It was the same for heart – nourishing soup. Most of the heart – nourishing soup was purchased directly from the hospital because it was the only special medicine for autism in the world. Moreover, the effect was very significant, so it was consumed quite quickly.

Xia ruofei did not intend to profit much from the heart – nourishing soup. The price was also quite affordable, so most of the autistic families could afford it.

In addition, taking into account that many children with autism had received all kinds of correction training from a young age, and that many families were poor due to illness, and that many children from very poor families could not afford to use heart – nourishing soup, the Paradise corporation’s charity fund had also set up a “Star Fund” program to help children with autism.

As long as an autistic child was confirmed to be from a poor family, they would be able to receive funding from the star Fund. Not only would they get a certain amount of free medicine, but they would also receive a certain amount of cash funding.

This also brought a huge amount of social prestige to the Paradise Corporation, and the Paradise Charity Foundation also became famous.

Xia ruofei had been quietly listening to the reports. After Xue Jinshan finished, he said, “Factory manager Xue, let me interrupt! The supply of the heart – nourishing soup can’t be changed in a short period of time. Have you ever considered that the hospitals that have received our medicine may have some corruption problems?”

When there was a need, there would naturally be benefits. Although most doctors were good, it was inevitable that a small number of people would have some crooked thoughts in this area for the sake of benefits.

Now that the supply of heart – nourishing soup was controlled, there was a problem of some people using the medicine first, while some people had to wait in line for a period of time. The doctor had a great deal of autonomy over who used the medicine first.

In even more extreme cases, the doctor might not be able to make up a prescription, get the heart – nourishing soup out, and then sell it at a high price.

“President Xia,” Xue Jinshan said, “it’s unrealistic to completely put an end to this situation. But we still have countermeasures. We have permanent pharmaceutical sales representatives in central hospitals with relatively large quotas, and they can play a supervisory role. We also occasionally investigate some small hospitals in the open and in the dark. I believe that large – scale reselling of patients will definitely not exist!”

Pharmaceutical sales representatives from other companies would try their best to curry favor with the department in charge and the doctors in the hospital, but the pharmaceutical sales representatives from paradise pharmaceutical factory did the opposite. This was a very strange phenomenon.

Xia ruofei nodded. “We have to form a long – term mechanism for this. We even need to increase our manpower. I don’t want the medicine that we’ve worked so hard to develop and produce to become a tool for a few people to profit from!”

“Yes, President Xia!” Xue Jinshan quickly took down notes as he said, “after I go back, I’ll arrange for all the supervisors and pharmaceutical sales representatives to carry out a comprehensive investigation!”

“Yes. After we find out, we have to report to the hospital. On the other hand, we have to take measures to reduce the quota when necessary!” Xia ruofei said, “there’s only so much production anyway. If this one loses, the others will have more. In general, the patients’ interests will not be affected.”

“Chairman, I suggest we set up an exposure channel on the company’s official website,” Dong Yun also said. “We’ll expose all the hospitals and doctors with problems and write down measures to reduce quotas. In addition, we can appropriately increase the quota for hospitals that are more capable of controlling themselves. This way, on one hand, it’ll serve as a deterrent, and on the other hand, it can also mobilize the enthusiasm of the hospitals in self – discipline!”

Xia ruofei said, “director Dong, that’s a good suggestion!” Factory manager Xue, please take note of the adjustments needed for the website. You can directly contact the technical department!”

“Yes, Chairman!” Xue Jinshan quickly replied.

Then, the Chief Financial Officer, pang Hao, began to report the company’s financial situation.

Pang Hao held the thick report and said, “Chairman, as of yesterday, our company’s revenue has reached 320 million. The higher revenue is 180 million from Yushi ointment, as well as high – end Chinese medicinal herbs such as Cordyceps sinensis and iron maple. Taoyuan vegetables’ revenue is also very stable, reaching about 53 million. From the perspective of the income composition, the proportion of online channels is also growing, mainly because Yushi ointment is sold in e – commerce channels.”

Pang Hao paused for a moment before continuing, “in terms of expenses, other than normal expenses such as wages, benefits, and taxes, there’s also the remaining funds for the purchase of the headquarters building, as well as the renovation and purchase of office equipment. This amount is about 220 million. Currently, the company still has around 90 million Yuan in liquid funds!”

Xia ruofei smiled and said, “the situation is much better than I thought!” I thought that after buying the building, the company would be out of money! I didn’t expect there to be surplus food!”

Everyone laughed when they heard that.

“How much is our company’s net worth?” Xia ruofei continued.

Pang Hao was clearly prepared for this as he immediately replied, “The company’s liquid capital is 90 million. In addition, it owns a pharmaceutical factory, a building, and a farm. These fixed assets can be valued at about 600 million. The recent rise in land and property prices may increase even more. “Of course, in terms of the company’s intangible assets, the value of our paradise brand is also getting higher and higher, especially for the two projects of Jade skin cream and heart – nourishing soup. I have referred to the evaluation of several professional institutions, and the intangible assets value can reach one billion. As for the debt ... It’s zero!”

Pang Hao’s expression was a little strange when he said this. He was a very professional financial staff. To be honest, he had never heard of such a large company having zero debts.

“So, our company is worth 1.7 billion?” Xia ruofei asked with a smile.

“This is just a conservative estimate.” Pang Hao said, “in fact, some organizations have valued us at more than 2 billion.”

“I’ve been receiving a lot of inquiries from other institutions recently, and they’re all interested in financing!” Among them is a famous venture capital company like Sequoia Capital. ”

“That’s because they saw the value of the Paradise brand!” Xia ruofei said, “capital is all about profit. Otherwise, why would people be interested in a small company like ours?”

Then, Xia ruofei changed the topic and said, “But we’re not short of money, so why should we accept their financing?”

Feng Jing already knew Xia ruofei very well. Although Xia ruofei was usually kind to everyone, he was a little independent deep down. She knew that Xia ruofei would definitely not let his shares be diluted by the capital.

However, Dong Yun, who came from a Business School, had a different opinion. She said, “Chairman, there are benefits to financing. On the one hand, you can get development funds, and on the other hand, you can get some other help. Those venture capital institutions have strong connections ...”

Xia ruofei smiled. “We’ll talk about the financing later. Let’s not talk about it today.”

When Dong Yun heard this, she knew that Xia ruofei had not considered financing at all. Although she felt that this was a common problem for private enterprises and would definitely limit the development space of the company in the future, she was still a newcomer. Since the chairman had decided, she did not say anything more.

Xia ruofei laughed and said, “everyone has already reported the good news. Don’t you have any problems?” If you have it, say it! We’ll try our best to solve it!”
