Chapter 2351 The African continent (2)

For example, Xia ruofei only found out that he needed a small yellow Book called “International Certificate of Vaccination or preventive measures” when he came out of his closed – door cultivation. He flipped through his backpack and saw the small yellow Book.

Zhao Yongjun had naturally prepared this for him.

Xia ruofei did not get any vaccine.

The environment in Africa was relatively harsh, and there were still some stubborn diseases that could not be eliminated, such as malaria. Once you were infected with these diseases, your life could even be in danger.

However, Xia ruofei did not have to worry about that. If a cultivator was infected with a disease, he would be a laughing stock.

Xia ruofei followed “international practice” and inserted a 10 – dollar note into his passport. He quickly passed through the customs.

He walked out of the airport and got into a taxi, heading to the hotel he had booked online.

For the convenience of transferring flights, Xia ruofei had booked a hotel near the airport.

Along the way, Xia ruofei looked out of the car window curiously. It was his first time in the mysterious continent of Africa.

Ethiopia was a poor and backward country. However, as the capital of Ethiopia, it looked good. At least, it was better than the stereotypes in Xia ruofei’s mind.

There were almost no pedestrians on the streets in the early hours of the morning. The shadows of the buildings on both sides of the road could be seen in the dark. Xia ruofei did not feel uneasy after coming to a foreign country. After the novelty had passed, he leaned back lazily in his seat and closed his eyes to rest.

The hotel was very close to the airport, so they arrived in no time.

Xia ruofei went to the front desk of the hotel and was greeted by a sleepy black girl.

Xia ruofei used English and sign language to communicate with the tanned girl with much difficulty. Finally, they completed the check – in procedures.

He took the room card and took a creaking elevator to the fifth floor where the room was located.

Looking at the mottled elevator and the tattered carpet after leaving, Xia ruofei really suspected that this hotel could reach the standard of a three – Star hotel.

Or was it that the standards for a three – Star Ethiopia a three – Star in China were different?

Xia ruofei felt that it was fortunate that he had chosen a ‘three – Star hotel’ for the convenience of his transit. If he had chosen a ‘five – Star hotel’ in the city center, he would have felt even worse.

After finding his room, Xia ruofei opened the door and entered.

He inserted the room card into the power access, turned on all the lights, and looked around the room.

This hotel was indeed a little old, and the furnishings in the room were obviously quite old.

However, he was quite satisfied with the fact that, although it looked a little shabby, at least the sanitary conditions were good. It was not as dirty and messy as he had imagined.

Xia ruofei then used his spiritual power to check the entire room.

The first thing Xia ruofei would do when he was in a strange place was to check the surroundings.

Fortunately, there were no messy micro cameras or listening devices.

Xia ruofei threw his bag on the bed and walked into the bathroom to take a shower.

In fact, according to China's time, it was already six or seven in the morning. Xia ruofei had also slept on the plane, so he was not sleepy at all.

He didn't book a hotel to sleep, but mainly because he had to wait for nearly ten hours. It would be hard to stay in the airport all the time, so he might as well find a hotel. Even lying down and resting for a while would be good.

Xia ruofei was in the middle of a shower when the room suddenly turned dark.

He subconsciously released his spiritual power and found that the entire hotel was pitch black. Only then did he realize that there was probably a power outage.

Power failure was a distant word in the eyes of the Chinese.

Except for power company maintenance or force – less natural disasters, there were basically no large – scale power outages in China. The days of power shortages were long gone.

The water from the showerhead turned very cold.

Xia ruofei did not mind. Even if it was ice water, he could still wash it. As for the darkness, it didn't matter at all. The eyes of a high – Level refinement stage cultivator were much stronger than night vision. At least, they wouldn't see black and white things like night vision.

Xia ruofei finished his shower and wiped his body clean. Then, he took out some home clothes from the space and changed into them. After that, he went out to lie on the bed and rest.

He was very energetic now, and it could be said that he was not sleepy at all.

So, he didn't force himself to sleep. Instead, he took out his phone and read the news for a while. Before he left, he applied for international roaming for the phone number he would be using for the summer. Although the network signal here was a little bad, it was still usable.

Xia ruofei lay down and rested for a few hours. When it was past nine in the morning, he went downstairs to find something to eat.

In the hotel restaurant, Xia ruofei ordered a toast and a glass of beef oil and fruit juice.

The bread tasted ordinary. It felt like it had been baked, and there was a faint burnt smell.

However, the beef oil fruit juice left a deep impression on Xia ruofei. The fragrance was very strong, and it should be of high purity.

He finished his breakfast unhurriedly and asked for an extra glass of beef oil and fruit juice.

After eating, Xia ruofei returned to his room upstairs and packed his luggage. He then went downstairs to check out and asked the front desk to call a taxi.

For this, Xia ruofei even gave a tip of 50 dollars to the black – hearted girl at the front desk.

The dark – skinned girl's eyes lit up. Xia ruofei had no doubt that if he revealed a trace of desire, this dark – skinned girl would definitely lean over without hesitation.

The local monthly salary was only equivalent to a few hundred Chinese dollars. The tip Xia ruofei had given was almost half a month's salary for a front desk attendant.

However, Xia ruofei was not that hardcore. His taste was more traditional. He could accept blondes from Europe and America, but as for dark – skinned girls...Forget it.

Xia ruofei got into a taxi and headed back to Bo Lai airport.

It was morning, local time, so the people outside could see it clearly.

Xia ruofei realized that his first impression Ethiopia last night was based on the concept of "haziness makes beauty." When the veil of the night was removed, he realized that even as the capital of Ethiopia, the level of development in Ethiopia was relatively backward. The buildings outside looked a little shabby. From the hotel to the airport, Xia ruofei could already see a few unfinished buildings.

After returning to Bo Lai airport, Xia ruofei went through the procedures at the counter and entered the restricted area of the airport.

Borai airport was actually very small, and Xia ruofei found his boarding gate very quickly.

There was still more than an hour before his Ethiopia flight took off. Xia ruofei found an empty seat and sat down.

He put his hand into his backpack, but in reality, he took out a book from his space and started to read it casually.

After a while, a hesitant voice sounded beside him, ""You're ... Chinese?"

The man spoke in Mandarin, but his accent was a little strange. Xia ruofei followed the sound and saw a young black man in his early twenties smiling at him.

"Yes, I'm from Huaxia!" Xia ruofei nodded.

"Hello, hello!" The young black man said enthusiastically, "let me introduce myself. My name is fdaskja asdfa Daka ... Well, that's not important! Our African names are really too long, even I sometimes can't remember them clearly. You can call me Daka!"

Xia ruofei wanted to laugh, 'clock in? Is this to remind you to check in at work?"

Daka grinned, revealing a mouth full of white teeth.

He nodded and said, "actually, this is just a syllable in my name. It's easier to remember, so my friends all call me that." By the way, I have a lot of Chinese friends because I studied in Beijing for three years! I also learned my Chinese at that time!"

Chapter 2352 The spirit of the Chinese (1)

"Mister, how should I address you?" asked the black guy, Daka.

"My name is Xia Tian," Xia ruofei replied with a smile.

Xia Tian's identity was just a cover, and it was recorded in the immigration records. Besides, Xia ruofei had also changed her appearance, so there was no need to keep it a secret.

Daka raised his eyebrows and asked with a smile, "Xia as in summer, and Tian as in summer?"

"Correct!" Xia ruofei was slightly stunned.

To be honest, Xia ruofei felt a sense of closeness when he saw a black man speaking Chinese in the distant African continent. It had nothing to do with national pride or inferiority.

The waiting time was a little boring, so Xia ruofei chatted with him for a while.

Through their exchange, Xia ruofei found out that this black man named Dhaka was also heading to arulei. He worked at a Chinese – funded agency in arulei and was mainly in the job of translation and guide.

Although Dhaka was not from arulei, he had lived in arulei for a few years when he was young. He knew the local language and was also proficient in English. His Chinese was considered good among the foreigners, so the job of translation was actually quite suitable for him.

Xia ruofei was curious. "Dhaka? from what I know, arulei doesn't have a close relationship with China. How come there are Chinese enterprises there?"

Before Xia ruofei set off, he did some research on arulei. Of course, he only did some general research and did not go too deep. After all, he was here to destroy the modr mercenary group in one fell swoop, so he did not need to think too much.

Hence, Xia ruofei only knew that arulei did not have a good relationship with Huaxia.

Of course, the wording was more tactful because he had spent his childhood in arulei.

In fact, arulei was a gangster country. When it needed help, it would be very obedient, but after getting the benefits, it would talk big. It had even broken off relations with China before, and it had only been restored in recent years.

"Xia Tian," said Daka with a smile, "which place in the world doesn't have Chinese enterprises and Chinese people? Especially in the African continent, as long as there are people, there are Chinese companies! I'm doing business! Earning money is the most important thing."

Xia ruofei was stunned and said, "our' Chinese company?"

Daka grinned, revealing his white teeth. He then scratched his head and said in embarrassment, ""When I was studying in China, I fell deeply in love with this magical ancient Eastern country, so ... I'm considered a spiritual Chinese!"

Xia ruofei couldn't help but laugh out loud. On the internet, there were a lot of people who were refined, refined, and even spirited. This was the first time he had heard of this saying, "spirited Chinese." However, it sounded pretty cool, even though it was said by a poor African brother.

Daka continued, "arulei is a very backward country. It's one of the least developed countries in the world. The per capita income there is only 300 to 400 HxB. I work in a Chinese company, so my income is at least 20 to 30 times that of the locals. So, I love China!"

Xia ruofei laughed and said, "you're honest!"

After the two chatted for a while, the announcement announced that they could board the plane, so they stood up, picked up their luggage, and went to line up at the gate.

Because Aruray and Ethiopia were neighbors and the flight distance was not too far, all the planes flying from Ethiopia to Aruray were arej's side planes. They looked very old and were at least more than a decade old.

Such planes did not have first – Class seats and were all Economy Class.

Hence, Xia ruofei had also bought an economy class ticket.

However, the entire voyage was only two to three hours long, and it would be over in no time.

There were quite a lot of passengers on this flight route, and there was a long line at the gate. Xia ruofei stood out among the black men.

He chatted with Daka as he followed the team.

After boarding the plane, Xia ruofei quickly found his seat in the middle of the cabin near the wing with the help of the flight attendant.

It was only then that he and Daka realized that the two of them were actually sitting in the same row, but there was a walkway in between them.

Daka immediately discussed with Brother Black, who was beside Xia ruofei. Brother Black very readily exchanged seats with Daka.

Daka carried his bag and sat down beside Xia ruofei. He grinned and said, ""Hey! Brother, this is fate!"

Xia ruofei chuckled and nodded, thinking that with the company of this cheerful Brother Black, the journey would not be boring.

The two of them put on their seat belts and chatted as they waited for the plane to take off.

When the surrounding passengers saw that Dhaka was able to chat so happily with a Chinese person in Chinese, they all cast envious gazes at him. Now, the whole world knew that Chinese people were getting richer and richer, especially in places like Africa. Chinese people were like gods of fortune ... No,

the Black Brothers did not know about gods of fortune. They were just like ... Like The Walking US dollars.

Chapter 2353 The spirit of the Chinese (2)

When the old passenger plane accelerated, the cabin creaked as if it was shaking everywhere.

Especially after the plane took off from the ground, every time the flap was retracted, the sound of the flap could be clearly heard. The wings were constantly shaking in the process of flight, as if they would break at any time.

Recently, Xia ruofei had been traveling in Gulfstream business planes, which were much more comfortable than commercial planes. Now that he had changed to a small side passenger plane, it was like changing from a sports car to a tractor. He was not used to it.

He looked curiously at Daka and the passengers around him. He found that they all looked normal, as if there was nothing to be afraid of when flying in such a shaky way.

Xia ruofei was not afraid because he was confident. If the plane really fell, he could still hide in the spirit map space. Although it might be more troublesome in the end, at least his life would not be in danger.

However, were the ordinary passengers really not afraid at all?

Xia ruofei was curious and could not help but ask Wenda.

Daka grinned and said, "Xia, you'll get used to it!" I have to take this plane at least once or twice a month, and sometimes three or four or even four or five times. It has been more than two years in a row. Do you think I will still be afraid? Most of the passengers on the plane are used to this route, so they're used to it!"

"I see ..." Xia ruofei smiled and said, "I've learned a lot!"

"You're not nervous?" Dhaka was also a little curious. He smiled and said, "I remember that our company has a Chinese friend who took this plane for the first time. He was so scared that his face turned white and his hands and feet turned cold. After he landed, he swore that he would never take this kind of plane again. When he returned to China, he even crossed the border by car to Ethiopia and then took a train to Ethiopia."

"Isn't this a little too exaggerated?" Xia ruofei smiled and said, "I'm not nervous. I'm just not used to it!"

Fortunately, such bumpiness did not exist throughout the flight. When the plane rose to the cruising altitude, the degree of bumpiness suddenly reduced a lot. The stewardess even began to push a small cart out to serve Jian Jia. When Jian Jia took the domestic plane in the past, when she encountered such a degree of bumpiness, the stewardess would basically be asked to stop service, sit in her seat, fasten her seat belt, and wait for the plane to fly stably before continuing to serve.

Xia ruofei politely declined the in – Flight meal provided by the stewardess. He was not interested in the sticky local specialty "food", especially when the sticky food was cooked and heated on the plane. It looked terrible and Xia ruofei had no appetite at all.

Daka, on the other hand, enjoyed the food very much. Seeing that Xia ruofei did not want to eat, he asked the stewardess to give Xia ruofei's share to him and ate it with relish.

There was a strange smell in the cabin.

Xia ruofei did not know how to describe the smell of the food. To put it simply, it smelled like a mixture of curry and durian. One could imagine how touching the smell in the cabin was.

Xia ruofei even used his vital energy to temporarily seal his sense of smell.

It was not until most of the passengers had finished eating that the smell in the cabin became less intense.

Xia ruofei saw that Daka had finished his lunch and asked with a smile, "Daka, are there any fun places in arulei? Why don't you introduce me to them?"

Xia ruofei had set his identity as a backpacker. Now that China's economy had improved, more and more people were traveling abroad. There were many people like him who carried simple luggage and traveled to non – mainstream tourist spots.

Daka grinned and said, "brother, you've asked the right person!" I'm quite familiar with arulei!"

"Oh? Then can you recommend some fun places?" Xia ruofei said with a smile.

"Let me think!" Daka raised his head and thought for a moment. Then, he said with a bitter smile, "arulei really doesn't have many tourist resources. There aren't many places to play. Speaking of interesting places ... The temple of arulei should be one. Although we locals don't look like much, I think you'll be interested. After all, you can appreciate a different culture from the East there. "

"Arulei temple?" Xia ruofei smiled and said, "a temple named after the country. I really have to go and take a look!"

"Arulei is a very small country. It's not even as big as a province in China!" Said Daka, pouting. No... Even many Prefecture – Level cities were bigger than it! You'll get used to it after seeing it for a while. For example, our destination this time is arulei city. This city is the capital of arulei and is also named after the country. "

Xia ruofei couldn't help but laugh, 'Daka's spirit as a Chinese is really not an exaggeration. He always shows this kind of thinking inadvertently. The words 'our China 'were said so naturally without any sense of disharmony.'

Along the way, Xia ruofei chatted with Dhaka from time to time and gained a better understanding of Dhaka and Aruray.

The Chinese company that Dhaka worked for was involved in road and bridge construction and had contracted many projects in arulei. There were several construction sites in the country that were working at the same time.

Of course, the so – called "nationwide" was actually not as big as a Prefecture – Level city in China.

In addition, arulei, the president of this country, was also a weirdo. He had issued many ridiculous laws, such as “no farting in public” and so on. The regulations were very detailed. If farting was not discovered, it was not considered illegal. However, if they were discovered and reported, they might even face jail time.

In addition, the president had also given him many titles, such as the commander – in – chief of the arulei Republic’s armed forces, the arulei Navy honorary Admiral, and so on. In fact, arulei’s armed forces were very weak, and as a small, purely inland country, it did not have a Navy at all.

Even a mercenary group like mord could become the local tyrant of arulei. One could only imagine how backward the armed forces of this country were.

With the spirited Chinese, Dhaka, sitting beside him, Xia ruofei’s journey was not so boring. He felt that the flight time seemed to have passed faster, and soon, the plane began to lower its altitude.

The crazy jolts started to appear again.

Xia ruofei and Daka put on their seat belts and calmly waited for the plane to land. Da ka saw that Xia ruofei’s expression was so relaxed. He could tell that he was really calm and was not pretending. He could not help but give Xia ruofei a thumbs up.

Although the plane was shaky, the pilot’s skills seemed to be good.

Today, the crosswind at arulei airport was quite strong. The side flight was relatively small, so landing in the crosswind was a test of skill. When it finally landed, the plane was almost perpendicular to the runway. This was using an angle to offset the influence of the crosswind.

After the rear landing gear touched the ground, the pilot adjusted himself. When the front landing gear also touched the ground, the plane was also adjusted to the center of the runway.

After getting off the plane, Xia ruofei put a US dollar in his passport as usual and quickly passed through the customs.

Daka worked here and often entered and exited the country, so he was naturally faster than Xia ruofei.

When Xia ruofei walked out of the restricted area, he saw that Daka was already waiting for him at the exit with his luggage.

“Brother, do you need me to be your guide?” Daka asked enthusiastically. It’s free of charge!”

Since Xia ruofei was going to cause trouble for the modr organization, he naturally could not bring Dhaka along. He smiled and said, “I want to walk around alone first. Don’t you have to go back to report? I’ll contact you again in two days!”

Daka smiled and nodded, “no problem!” We’ll keep in touch on WeChat!”

The two of them had already added each other on WeChat at the airport.

Of course, Xia ruofei was using a new WeChat account.

The two of them walked out of the airport Hall and waved goodbye. They got into a taxi and headed toward the city.

Chapter 2354 Begin the operation (1)

After Xia ruofei and Dhaka parted ways, he took a taxi to the hotel that he had booked online.

This binster hotel was one of the few hotels in arulei that accepted online reservations. It was said to be a five – Star hotel, but Xia ruofei took a look at it when he checked in and felt that it was only about the same as the four – Star or even three – Star hotels in the country.

The key was that the facilities looked old and the service was not very good. Perhaps it was the nature of black people to be lazy. Anyway, Xia ruofei did not feel the warm and thoughtful service of a five – Star hotel.

The most obvious sign was that none of the staff at the front desk could speak fluent English. Xia ruofei finally managed to complete the communication with some gestures.

After getting the room card, Xia ruofei picked up his backpack and took the elevator to the guest room.

He had booked a large executive suite at \$300 per day.

At this point, Xia ruofei couldn't help but complain in his heart that the economic development in arulei was extremely backward, but the prices were not as cheap as he had imagined.

On the contrary, the cost of living here was much higher than in China.

In fact, it wasn't just arulei. When Xia ruofei was in Ethiopia, he had also discovered this feature.

A taxi could easily cost twenty to thirty dollars, but a meal would cost at least a hundred to two hundred dollars.

Xia ruofei was also curious about this question with Dhaka. According to this level of consumption, how did the locals who earned 50 to 60 dollars a month survive?

After Daka explained it to Xia ruofei, Xia ruofei finally understood.

It turned out that the local people would not spend like this. The big shops, restaurants, and car rental were mainly to earn money from foreigners. When the local people needed to buy things, they basically did not go to the supermarket. There were many roadside stalls, and the things were much cheaper than in the shops.

Fortunately, Xia ruofei had put a lot of US dollars and Chinese dollars in his interspace. It did not matter even if the expenses were higher.

In fact, in many parts of Africa, the strength of the Chinese dollar was no less than that of the US dollar. It could be said to be a hard currency, and one could even directly use the Chinese dollar to buy things. Merchants would be more welcoming of it.

After Xia ruofei entered the room, he was already mentally prepared for a room that was not up to the standard of a five – Star. He did not care about the living conditions. Instead, he released his mental power to check the room thoroughly.

Xia ruofei was obviously more concerned about safety than comfort.

Xia ruofei was satisfied with the results of the inspection. There were no messy things in the room.

He hung up the 'Do Not Disturb' sign and locked the door.

Then, he walked to the window and quickly observed the situation outside. Then, he closed and locked the window, and drew the curtains.

With a thought, Xia ruofei took out a few pieces of jade from the space and arranged them in place with a wave of his hand.

This was a very simple formation with a simple function, which was to give early warning.

Once someone opened the door and entered, the formation would be activated immediately. Even if Xia ruofei was in the space, he would still be alerted immediately.

This way, he didn't need to divide a trace of mental strength to keep an eye on the outside world while he was in the space.

After setting up the formation, Xia ruofei strode into the bathroom and locked the door.

Xia ruofei would usually avoid entering the medium when he was outside. However, he had to go in today, so he had to be extra careful.

According to the current layout, even if someone sneaked in or a waiter accidentally barged in, Xia ruofei would be able to come out of the spirit map space immediately and put it away, creating the illusion that he had been in the bathroom.

Xia ruofei summoned the spirit painting from his body and carefully placed it in the bath towel on the towel rack. Then, with a thought, he disappeared from the bathroom.

In the next moment, he appeared in the vast mountain and sea realm of the spirit map space.

This place was different from a few days ago, especially around the mobile house where Bao Guijun and the others lived. It was like a construction site.

The 30 mobile houses that Xia ruofei had sent into the medium had been opened by Bao Guijun and the others. They had also assembled some parts together. The rest of the assembly work required Xia ruofei's help to complete.

Assembling a mobile house wasn't a very technical job. They were familiar with it, so Bao Guijun and the others' work efficiency became higher and higher. Finally, they finished the preparatory work within the time that Xia ruofei had set. Under Xia Qing's supervision, they also flattened the land around the mobile house.

All that was left was the final assembly.

The reason why Xia ruofei was in arulei and had to come in to complete the assembly work was that these mobile temporary buildings might come in handy later. Other than helping song Qiming eliminate future problems, he had another purpose in dealing with the mord organization. It was to add some free labor to the spirit map space.

The moment Xia ruofei appeared in the mountain and sea realm of the spirit map space, Xia Qing immediately sensed it. He appeared in front of Xia ruofei in a flash and called out respectfully, "Good day, master!"

Chapter 2355 Begin the operation (2)

Bao Guijun and the others also came back to their senses and ran over, "Good day, master!"

This group of people had completely given up on resisting, and their fawning looks were completely different from those of the Morde organization.

Xia ruofei nodded and said, "Time is precious, so I won't waste any more time. Let's hurry up and start assembling the mobile house!"

"Yes, master!" Bao Guijun and the others responded.

Xia ruofei's mind moved slightly, and the half-finished parts that were scattered all over the place slowly floated up. Then, he accurately found a set of parts for the mobile house and used the invisible spatial force to place them in their respective positions.

Bao Guijun and the others immediately climbed up the ladder with their tools and used bolts and nuts to lock the parts one by one.

There were still too few people in the realm. This was a strong feeling that Xia ruofei had after completing this task.

Thirty mobile temporary houses could only be assembled one by one due to the lack of manpower.

By the time all thirty mobile temporary houses were assembled, more than ten hours had passed.

Bao Guijun and the others were so tired that they almost fell to the ground.

Xia ruofei looked at the results of the dozen hours of work with satisfaction and said, "Everyone has worked hard. Xia Qing, give everyone some extra food. Consider it my reward to them, and there is no need to deduct points!"

"Yes, master!" Xia Qing said without the slightest hesitation.

When Bao Guijun and the others heard this, they felt their strength come back. They all rushed to express their infinite gratitude to Xia ruofei.

Xia ruofei waved his hand and said, "Okay, okay!" After you're done eating, take the time to rest. Everyone worked overtime today, so you can get up an hour later!"

"Thank you, master!" Bao Guijun said excitedly.

They had already passed the initial stage of fear. Now, it seemed that Xia ruofei was still a kind master. Although there was heavy work every day and they had no freedom, at least they were safe. They could clearly feel that living in this environment, even if they were so tired that they didn't want to move a finger, they could still be full of energy the next day.

These days, everyone felt that their physical fitness had become much stronger.

Xia ruofei said, "remember this. As long as you are loyal to me and no longer have any fantasies, you can live a better life. Other than losing your freedom, you will feel like you are in heaven! Also.....You will have new companions soon. At that time, if any of you perform better, I can consider selecting a few managers!"

Bao Guijun and the others were even more excited. Becoming a manager meant that they didn't have to do heavy physical labor, and it was easier to earn points. Their living conditions would also be greatly improved.

Since Xia ruofei wanted to recruit some new people, they would have an innate advantage if they arrived a few days earlier. As long as they worked hard, they could become managers.

From this point of view, it seemed that becoming the first batch of free labor was not a bad thing.

Xia ruofei gave a simple boost to everyone's morale and brought Xia Qing around the area.

Originally, there was only one mobile house here, but now it had become a small village.

Thirty – one mobile temporary houses were arranged in five neat rows, with six mobile temporary houses in each row. The other mobile temporary house that Bao Guijun and the others were staying in occupied a row in the front.

This 'small district' of mobile temporary houses also had roads, drains, and so on. In addition, every mobile temporary house had a toilet, and the living facilities were basically in place.

Xia ruofei decided to wait for the new batch of people to come in before making further changes. For example, he could connect a water pipe from the big River in the distance so that the mobile house community could have running water.

As for electricity, it was a resource shortage in the realm for the time being. There was no day and night here, so electricity was indeed not a necessity for life.

Of course, as more and more people joined in the future, this problem would eventually have to be solved.

Xia ruofei encouraged Xia Qing with a few words, and then left the space with a thought.

He put the painting back into his body and immediately used his mental power to investigate. He didn't find anyone peeking nearby, so he opened the door of the bathroom and walked out.

He had been in the spirit map space for more than ten hours. It was already around four in the morning the next day in the outside world.

Xia ruofei made something to fill his stomach, then lay on the bed to catch up on sleep.

After the baptism of the in – Flight meal's unique taste, Xia ruofei had no interest in arulei's local food at all. He did not even have the slightest confidence in the hotel's restaurant.

Anyway, there were a lot of ingredients in the interspace, and there were also a lot of resources stored. Things like doujinshi were piled up like a mountain in the interspace.

Of course, those things were mainly prepared for Bao Guijun and the others. They could use their points to exchange for these living supplies from Xia Qing.

The time difference was not a problem for a cultivator. Xia ruofei could adjust to it easily and was not affected at all.

As long as he wanted to sleep, no matter what the environment was, whether he was sleepy or not, he could enter a deep sleep state in a very short time. This was also trained in the years of being a soldier.

Xia ruofei slept until two or three in the afternoon.

After he woke up, he went to the bathroom to wash his face. Then, he sat on the bed and used origin crystals to cultivate for a while. It was only after Five O' clock that he stood up in high spirits.

Xia ruofei took the elevator down and strolled around arulei for a while. With a backpack and a camera around his neck, he looked no different from an ordinary backpacker.

However, when he came out of a public toilet, he had changed his appearance.

Not only did he change his clothes and appearance, but he also put his camera and backpack into the interspace and replaced them with a satchel. In addition, he also made use of the disguise and investigation skills he learned in the Army to make his skin slightly darker. In addition, he deliberately controlled the adjustment of his muscles and bones, making him look like a completely different person.

Now, Xia ruofei did not have any Chinese characteristics on him. He looked more like someone from Southeast Asia.

He waved at a taxi and asked the driver to take him to the nearest used car shop. Without much effort, he successfully bought a used pickup truck. A new pickup truck like this cost about 10000 dollars and the car shop offered 7000 dollars. Xia ruofei did not even negotiate the price and bought it.

The car shop Naturally welcomed such a generous customer. Even when Xia ruofei asked not to go through the transfer procedures for the time being, the shop owner agreed to Xia ruofei's request. Xia ruofei also knew that the car's origin was not very clean, and the shop owner probably did not care what he took the car for.

This kind of situation was almost impossible in China. After all, if the car had a serious accident before the transfer, the original owner would have to bear the responsibility.

However, arulei's side was clearly much more chaotic than China's.

Xia ruofei didn't spend much effort on the transportation problem. After he gave a 50 – dollar tip to the sales assistant, the assistant enthusiastically took him to buy a barrel of gasoline and loaded it in the back of the pickup truck.

Xia ruofei drove the pickup truck towards the outskirts of arulei.

His destination was the town of Basoko, which was about a hundred kilometers away.

The structure of the modr mercenary group was quite strict. It was impossible to wipe out the whole organization with only the confessions of Bao Guijun and the others. This was because Bao Guijun's level

was still too low, and it was impossible for him to come into contact with the higher – ups of the organization.

As the saying goes, a cunning rabbit has Three Burrows. It was impossible for all the higher – ups of the modr organization to stay in one place and wait for Xia ruofei to wipe them out.

This town of Basoko was the breakthrough point that Xia ruofei had found.

Chapter 2356 Sneaky_It wasn't realistic to get detailed information on the executives of the Morde organization from Bao Guijun.

After Xia ruofei had analyzed a few people's statements, he realized that there was still something to write about. The key was this town of Basoko.

Xia ruofei realized that when Bao Guijun and the rest joined the modr mercenary group, they were sent to a secret training camp in Basoko town for concentrated training before they became official mercenaries.

On the one hand, it was to cultivate their tactical quality, and on the other hand, it was to brainwash these quasi – mercenaries to make them absolutely loyal to the mercenary group.

The person in charge of the training camp was naturally an important figure in the modr organization.

Bao Guijun and the others did not join the modr mercenary group at the same time, but Xia ruofei found out that they all gave out the same person in charge of the secret training camp in Basoko town. This person with the code name "Golden Fox", although his real name was unknown, it was obvious that he had a high status in the mercenary group.

This was the only person that Bao Guijun and the others could confirm was a high – Level figure in the modr mercenary group.

Naturally, Xia ruofei chose "Golden Fox" as his breakthrough point. As long as he could capture Golden Fox alive, he could easily make him talk. Then, he could follow the clues and deal with the other higher – ups of the modr organization.

Of course, there was another factor that prompted Xia ruofei to choose the secret training camp in Basoko town. According to Bao Guijun and the others, this secret training camp maintained a size of about 100 people all year round. Many of these trainees would die in the training process, but new people would replace them very quickly.

In Xia ruofei's eyes, this training camp of more than a hundred people was like more than a hundred free laborers!

Those who joined the modr mercenary group were basically not good people. Some of them had committed murder cases in their own country, some of them had nowhere to hide from gang vendetta, and some of them just liked this kind of bloodthirsty and exciting life.

In short, Xia ruofei would not have any psychological burden if he were to capture these people into the spirit map space.

Xia ruofei had already transformed into a dark – skinned Southeast Asian. He drove the pickup truck out of arulei city.

Aruray was located between Ethiopia and South Sudan. It was in the gap between the two countries, and its territory was long and narrow in a North – South direction.

At this moment, Xia ruofei was driving south from arulei city, which was in the North of arulei. Basoko town was located in the central region of arulei.

Of course, due to the small size of this country, the distance between the two places was only about 100 to 200 kilometers.

After leaving the city of arulei, the road was full of potholes, and the road was full of dust when a car drove past.

They were in the suburbs the capital. The road conditions in the more rural areas would probably be worse, which was evident from the low level of infrastructure in arulei.

Xia ruofei had one hand on the steering wheel, looking very relaxed. There was still a light disc in the CD player in the car. Xia ruofei opened it and listened. He couldn't tell what song it was, but the rhythm was very distinct and had obvious African characteristics.

As the car jolted, Xia ruofei's body swayed along with the rhythm of the music. Soon, the buildings on both sides of the road became fewer and fewer. The area outside arulei city was deserted.

Xia ruofei drove as he searched. He soon found a small forest and drove the car in to hide.

After about half an hour, when the car drove out of the bushes again, it had changed greatly. There were many stickers on the car, and some rough graffiti, which almost covered up the original color of the car. The license plate had also been changed ingeniously, so it was hard to tell if one didn't look carefully.

After that, Xia ruofei would definitely remove the license plate and throw it away.

Xia ruofei even removed the car frame number and the engine number. For a cultivator, this kind of work could be done with his bare hands. It was not a difficult task.

After that, Xia ruofei continued to drive towards Basoko town.

After changing his appearance several times, Xia ruofei had done his best to hide his identity.

Even if the car was eventually found, it would take a lot of effort to find out the car's origin. Even if they traced it back to the second – hand car shop, they would only be able to find Xia ruofei's appearance after he had transformed into a Southeast Asian. It would be difficult to even find out Xia Tian's identity, let alone Xia ruofei's true identity.

Xia ruofei had always adhered to the principle of always planning for defeat before winning.

It was already dark not long after they left arulei city. In addition, the road conditions were bad, so Xia ruofei did not move quickly.

Of course, he wasn't in a hurry. As he drove the car steadily, he went through the action plan in his mind again.

The main target of this operation was, of course, the person in charge of the secret training camp in Basoko town, "Golden Fox." Xia ruofei would only consider expanding the results of the battle after capturing Golden Fox alive.

If he wanted to capture the rest of the executives in the group, he would have to pry open the mouth of the "Golden Fox", or else it would take a lot more effort.

The Morde organization could be said to be the local tyrants of arulei, and the weird President of arulei didn't even dare to make a sound in front of the Morde organization.

If it wasn't for the fact that they were worried about the attack from the international community, it would be a piece of cake for Morde to launch a coup and directly control arulei.

Chapter 2357 Sneaky_According to Bao Guijun and the others, the secret training camp in Basoko town had very tight security. It was almost impossible for ordinary people to infiltrate.

After all, the modr mercenary group was a group of valiant and battle – hardened. Their combat power was much stronger than that of arulei's government army. This secret training camp was also a camp that provided a steady stream of effective strength for the mercenary group. It had experienced instructors and very good students, so naturally, the defense was very professional and tight.

Xia ruofei made a few plans according to Bao Guijun's description.

Of course, as he had never seen it in person and had only heard about it from Bao Guijun and uncle Xu, Xia ruofei did not have a direct understanding of the training camp's terrain and military deployment. Thus, these plans were relatively rough.

At around Teno' clock in the evening, the navigation system showed that they had arrived at the outskirts of Basoko town.

Xia ruofei drove the car into the forest that he had chosen to hide.

According to Bao Guijun's description, the training camp would set up mobile sentries outside the town at night. If they got too close to Basoko town, it would be easy to arouse the other party's suspicion.

After Xia ruofei parked the car, he changed into black clothes and dashed to the edge of the forest. Then, he released his spiritual power to investigate.

It had to be said that a high level of mental power cultivation was quite useful in this situation, especially when facing ordinary people. It was equivalent to having a high – precision early warning radar that could be turned on at any time.

With the help of his mental strength, Xia ruofei was fully aware of the situation around him. Under the cover of the night, he advanced towards Basoko town at a moderate pace.

In the small town ahead, the lights could be vaguely seen.

When Xia ruofei reached the edge of the town, he suddenly stopped and hid in the grass by the side of the road. He used his psychic power to sense that there were two people with guns patrolling in the twelveo' clock direction.

Even if he did not train, Xia ruofei was still outstanding in individual combat. After he discovered the enemy's mobile Sentry, he immediately used the cover of the night to grope his way forward in the grass, slowly approaching the two sentries.

At the same time, he also continuously released his spiritual power to investigate the situation around the mobile Sentry to prevent other hidden sentries that crossed each other to cover him.

Perhaps it was because this was only the outskirts of the town, so the defense was not as tight as expected. Within a 200 – meter radius, the other party had only set up these two mobile sentries.

Moreover, these two mobile sentries were obviously not very alert. They casually carried their guns on their backs with the muzzles tilted down and chatted in low voices as they strolled.

The manager of the training camp probably didn't expect that someone would dare to attack the training camp of the modr organization in the country of arulei.

The scope of activity of the two mobile sentries was not large, and they patrolled back and forth in the area at the northern entrance of the town.

The clouds were thicker that night and even the moon was blocked. The visibility was also very low. In addition, with Xia ruofei's current skills, the two sentries did not notice him at all and he had already sneaked up behind them.

They were two black men, chatting as they walked forward. Just as they stopped and were about to turn back to patrol, a black shadow suddenly leaped out of the grass and pounced on them.

The two of them only felt a gust of wind behind them. Before they could turn around, Xia ruofei had already cleanly and accurately cut their carotid arteries with two hand knives.

The two sentries didn't even have time to make a sound before their bodies went limp.

Xia ruofei was already prepared. He held them up with one hand each and dragged them to the grass nearby.

Xia ruofei had controlled his strength well. The two of them had only fainted, but their lives were not in danger.

He skillfully tied the two black men up like dumplings, and then directly checked them with his mental power to confirm that they did not carry any poisonous drugs on them.

It seemed that only the mercenaries who were sent out for missions would be prepared for the worst. These people were still not qualified mercenaries, and they were only students.

Xia ruofei gently hit one of them with his palm. The man groaned and opened his eyes.

Xia ruofei didn't waste any time and immediately enveloped him with his huge spiritual force. He was already very familiar with the technique of using spiritual force to hypnotize. This black mercenary student didn't even have time to show fear in his eyes before he fell into a state of confusion.

Xia ruofei asked in English, "Tell me your name!"

To Xia ruofei's surprise, the black mercenary looked confused and did not answer his question.

Xia ruofei could not help but raise his eyebrows. Could it be that the hypnosis did not succeed?

He quickly denied his own guess, because this black mercenary student's state was clearly already in a state of confusion, and he could only instinctively answer questions. And if the hypnosis had failed, the black mercenary would have been crying for help.

Xia ruofei thought about it carefully and could not help but smile bitterly. He had roughly guessed the reason why Yingying, the black mercenary, did not understand English.

If he didn't understand what you were asking, he naturally wouldn't be able to answer.

Xia ruofei muttered to himself and increased the pressure of his spiritual power. The black mercenary student immediately fainted.

Then, he woke up the other person and used his spiritual power to hypnotize him.

"Do you understand English?"

"....."

The black mercenary student was also dumbfounded.

Xia ruofei was dumbfounded. This was an unexpected situation.

He couldn't put the two men into his space. On one hand, he had to ask about the town's defense situation, and more importantly, he didn't know when the sentries would change shifts. If he left and the new sentries couldn't find the two men from the previous shift, the entire training camp would be on alert.

By then, it would be impossible for Xia ruofei to sneak in without anyone knowing.

Xia ruofei would not attack unless he had no other choice.

Xia ruofei thought for a while and came up with an idea.

.....

In the spirit map space, Bao Guijun and the others had finished their day's hard work and were resting in their beds.

At this moment, a voice rang in everyone's ears.

"Which one of you knows arulei's dialect?"

No matter if they were chatting on the bed or in Dreamland, they all sat up when they heard the voice because they could tell it was Xia ruofei.

Bao Guijun and the others looked around.

At this moment, Xia ruofei's voice rang out again. "Stop looking, you can't see me. Answer my question!"

"Master, I've lived in arulei for two years. Although I'm not very proficient in the local language, I have no problem communicating with it!" Bao Guijun quickly said.

Huang rujue also quickly raised his hand and said, "Reporting to master, I also know a bit of arulei's language!"

"Very good!" Xia ruofei's voice was heard. "I need a translator. If you complete the task well, you will be rewarded with a pack of cigarettes!"

"Master, I'll go!"

"I can, master, let me go!"

Bao Guijun and Huang rujue fought to be the first to speak. As for Qian guiyou and the others who didn't know the arulei dialect, they looked at the two with envy.

All of them were quite addicted to smoking, but in the spirit map space, cigarettes were considered a luxury. According to their current situation, they might only be able to exchange their points for a pack of cigarettes after working for several days. Before their survival problems were solved, it was impossible to use their precious points to exchange for cigarettes.

Now, as long as they did some translation work, they could get a pack of cigarettes. Where else could they find such a good deal?

Actually, Xia ruofei was just giving it a try as he did not know if the two black men were local to arulei. It would be best if they were, as he could get first-hand information. If not, he wouldn't suffer any losses. At most, he would just wait for the new guards to come and deal with them.

Xia ruofei was very patient.

"No need to argue, Bao Guijun first!" He said after some thought.

Then, he moved Bao Guijun out of the spirit map space ...

Chapter 2358 Cleaning up_Bao Guijun only felt the world spin and then he was shocked to find that he was no longer in the mobile house and his surroundings were very dark.

There was no day or night in the spirit map space. Ever since they were captured into the spirit map space, they had never seen the sky turn dark. Even when they were sleeping, it was still bright outside. So Bao Guijun was not used to it.

However, he soon found out that he was very familiar with the environment here. When Youyou first joined the modr organization, he had undergone a long period of demonic training in the training camp in Basoko town, so he was very familiar with the surrounding environment.

"Don't be surprised!" Xia ruofei's calm voice came from behind him. "Hurry up and start working!"

Bao Guijun turned around and realized that Xia ruofei was standing behind him.

“Master!” He quickly bowed respectfully.

At this time, Bao Guijun’s heart was surging with excitement. In fact, during the days they had lived in the spirit map space, they had faintly felt that the place they were in seemed to be isolated from the outside world. Even though the environment there was more beautiful, it looked no different from the outside world. There was even a boundless sea, but they could still feel a slight difference from the outside world. For example, there was no day and night there.

In reality, the construction rules of the spirit map’s space were definitely different from the outside world. After all, this was a small space that was man – made, while the outside world was the work of the heaven Earth Law. However, Bao Guijun and the others were ordinary people. They had lived there for a long time and had some vague feelings. However, it was impossible to grasp this feeling and express it accurately.

The experience that night made Bao Guijun even more sure of this.

He had been caught in Sanshan city in Huaxia. In a moment of distraction, he had arrived at that paradise – like place. After shifting the stars again, he had arrived in the African continent, which was thousands of miles away.

In reality, if Bao Guijun were to shout loudly now, it would definitely alert the other sentries on the outer perimeter. However, he didn’t have any such thoughts at all.

He had already betrayed the organization, and if he returned to the organization, he would be punished countless times more severely than death. Furthermore, Xia ruofei’s magical skills had already surpassed the limits of an ordinary person. Bao Guijun could not even muster the will to resist.

Xia ruofei pointed at the two black men who had fainted on the ground and said, “I’ll wake one of them up, and then you’ll help me question them!”

Bao Guijun then noticed the two black men leaning against a tree. Because the visibility was not very high tonight and the two men’s skin was dark, it was not easy to find them without looking carefully.

Bao Guijun took a closer look and exclaimed in surprise, “Pardu?”

“You know these two?” Xia ruofei raised his eyebrows and asked.

Bao Guijun pointed to a black soldier on the left and said, “I know this one. He’s called pardu, a permanent guard of the training camp. The other one should be a student. At that time, we were on duty at the outer perimeter. It was also a guard with a student. ”

“Can you communicate?” Xia ruofei asked.

“Yes! Pardu is a local of arulei. I can communicate with them in their native language!” Bao Guijun said without hesitation.

“That’s great!” Xia ruofei said.

Then he gently patted pardu’s head, and he immediately woke up.

Of course, before he could react, Xia ruofei's majestic spiritual energy attacked him again and he fell into a state of confusion.

"Let's start!" Xia ruofei said indifferently, "ask for his name first!"

Bao Guijun quickly asked in his local language and looked at pardu curiously.

He was very familiar with Pasu's state. At that time, they had watched their teammates being interrogated by Xia ruofei. Bao Guijun and the others also guessed that it was a very advanced hypnosis technique. However, after the hypnosis, would it be effective if someone else was questioned?

Bao Guijun quickly got the answer. After listening to Bao Guijun's question, pardu didn't hesitate to mumble a long string of strange syllables.

Xia ruofei looked at Bao Guijun.

"Master," said Bao Guijun awkwardly, "the names of the people here are very long and their pronunciation is very strange. We all called him pardu at that time."

Xia ruofei nodded. The "spirited Chinese" Dhaka that he had met at Ethiopia's airport also had a very good name. He thought that Bao Guijun would not dare to lie.

"Continue asking!" Xia ruofei said indifferently.

Then, Bao Guijun acted as Xia ruofei's translator and continued to ask questions to pardu.

In this state of hypnosis, pardu would tell him everything he knew and would not hold anything back.

In a short while, Xia ruofei had asked all the questions he wanted to ask.

Then he woke up the other black man and finished the interrogation.

Xia ruofei was satisfied with the information he got. He nodded and said, "That's right ... Old Bao, I hope you're not lying to me,"

"Master, I promise I'll translate it word by word. Even if you give me a few more guts, I wouldn't dare to lie to you!" Bao Guijun quickly said.

Xia ruofei nodded slightly and said, "go back and rest!" When you go back, you can think about what you should say and what you shouldn't say. "

Chapter 2359 Clean – up (2)

After he finished speaking, his mind moved and he directly grabbed Bao Guijun back into the space.

Bao Guijun felt a familiar sense of dizziness and then he found himself back in the mobile house.

Qian guiyou and the others looked at him with wide eyes.

Bao Guijun looked around and couldn't help but ask in surprise, "Where's Huang rujue?"

"Baosang!" Qian guiyou said. Just now, you suddenly disappeared from the room and then appeared here without any warning. Almost at the same time, Huang sang disappeared again!"

Park taishu from bangziguo couldn't help but ask curiously, ""Brother Guijun, where did you go just now?"

Bao Guijun thought of Xia ruofei's last warning and couldn't help but shiver. He quickly said, "Park taishu, can you just ask about master's matters?"

Park taishu's face changed slightly and he hurriedly said, ""I misspoke!"

In the mobile house, no matter how curious they were, they didn't dare to ask what happened when Bao Guijun disappeared.

Of course, they didn't feel like sleeping anymore. They were all waiting for Huang rujue to appear.

Naturally, Huang rujue had been taken to the outside world by Xia ruofei.

Although he felt that Bao Guijun didn't have the guts to play tricks, he still brought Huang rujue, who also knew the arulei dialect, to the outside world. He let Huang rujue translate and asked the same question again.

Huang rujue and Bao GUI definitely wouldn't have thought that there would be a temporary mission tonight, so they couldn't have gone ahead of time. The answers they got from the two inquiries confirmed that Bao GUI was not playing any tricks.

In the end, the answer Huang rujue got was almost the same as the one Bao Guijun gave him. Some of the expressions were slightly different, but the overall meaning was almost the same.

This meant that neither of them was lying.

Xia ruofei nodded with satisfaction and warned Huang rujue as well. Then, he put him into the medium.

In the mountain and sea realm of the spirit map space, inside the mobile temporary house.

Bao Guijun thought for a while and understood Xia ruofei's intention. Fortunately, he didn't play any tricks, so he didn't feel guilty at all.

After a while, Huang rujue also appeared out of thin air in the mobile house.

Then, Xia ruofei's voice rang in the air. ""Xia Qing, Bao Guijun, and Huang rujue did well. You will each be rewarded with a pack of cigarettes."

Xia Qing was a spiritual puppet, so he didn't need to rest. After sending Bao Guijun and the others into the space cage, he returned to the herb garden to work.

After hearing Xia ruofei's voice, Xia Qing immediately put down her hoe and bowed slightly, ""Yes, master!"

After a while, two packs of cigarettes flew in from the window of the mobile house. They came to Bao Guijun and Huang rujue and floated in front of them.

Bao Guijun and Huang rujue grabbed the cigarettes in their hands as if they had found a treasure. They shouted, ""Thank you, master! Thank you, manager Xia Qing!"

Qian guiyou and the others looked at Bao Guijun and Huang rujue enviously, especially Park taishu, who also knew some arulei dialect. He felt quite regretful. If he had known that it would be so easy to get the reward, he would have been the first one to step forward! It was too late to say anything now ...

Xia ruofei naturally had no time to care about the thoughts of the people in the medium. He raised his hand and looked at his watch. Then, he directly put pardu and the other black man into the medium.

During the interrogation, Xia ruofei had specifically asked if they had killed anyone and if they had killed the innocent or committed any other crimes.

The answer was naturally yes, especially training camp guard Pasu. After being in Basoko town for so many years, he had already killed several people. Once, because he coveted a student's money, he even secretly found an opportunity to kill the student.

The other black man was also responsible for the lives of others. He was also a local of arulei, and it was precisely because he had killed people that he had come here to become a mercenary.

Hence, Xia ruofei did not have any psychological burden and directly put the two of them into the medium.

Xia ruofei had specially designated a space cage with a large area to imprison the free labor force that they had captured. Just like that, pardu and the other Black Student became the first two "residents" of the space cage.

After capturing the two black men, Xia ruofei was not in a hurry to sneak into the town.

According to the statements he had just obtained, Xia ruofei knew that they would change shifts at midnight, then every four hours. At four in the morning, someone would come and change shifts.

Xia ruofei decided to wait until the next group of sentries was subdued before sneaking in.

This was because at two or three in the morning, one would usually be the most soundly asleep, and their vigilance would be very low. This way, the success rate of the operation would naturally be higher.

Xia ruofei was very patient. He sat down unhurriedly and hid behind the shadow of a big tree. He raised his hand to look at his watch from time to time. At the same time, he would use his mental power to scan the surroundings.

Very soon, it was close to midnight.

In order to avoid missing the target, Xia ruofei's spiritual power began to investigate continuously.

After a while, two people with long Spears on their backs appeared within the range of Xia ruofei's spiritual power. They were getting closer and closer. They were obviously here to change shifts.

Xia ruofei's spirit was lifted. He got up from the ground and dusted off his pants. Then, he lowered his body and stared at the two prey that were getting closer and closer.

His hearing was extraordinary, so when the two were still far away, he could hear the two of them chatting. This time, they were speaking English.

"Why don't I see Pasu? Our Sentry's activity area tonight is over here!"

“They’re probably patrolling in front! Let’s go a little closer and see!”

“Don’t tell me that this kid left his post with the students and ran back to sleep?”

.....

The two of them didn’t notice anything. They were talking in low voices as they walked towards Xia ruofei.

Xia ruofei also held his breath quietly. When the two people walked past him without him noticing, he suddenly jumped out of the grass.

It was still two clean hand – Blades, and the two sentries didn’t even have time to groan before they fell to the ground.

Xia ruofei dragged them to the side of the road, one in each hand. Then, it was the familiar interrogation.

This time, the two of them knew English, so Xia ruofei did not need the help of a translator. He could ask directly.

After a while, Xia ruofei finished his questions. With a thought, he kept the two of them into the space, locking them in the same cage as the two black brothers.

After Xia ruofei had succeeded, he immediately followed the small path to the Northwest and moved quickly. By now, the guards at the various positions outside the town should have finished changing. Xia ruofei was going to start a big clean – up.

In the silent night, Xia ruofei’s figure was like a ghost.

It took him about an hour to subdue all the sentries outside of Basoko town.

Every time he caught one, he would ask for their statement. If he met one who couldn’t speak English, he would ask Bao Guijun and Huang rujue to help translate. If they couldn’t speak English or arulei, he would put them directly into the space. Anyway, these people weren’t good people, and the probability of them being wronged was negligible.

By oneo’ clock in the morning, Xia ruofei had already cleared the security perimeter of Basoko town.

He rested for a while and adjusted his condition. Then, he raised his hand and looked at his watch.

It was around two in the morning, the time when one was most soundly asleep. It was the best time to sneak into the training camp.

After asking more than ten confessions, Xia ruofei now had a more comprehensive understanding of the training camp, including where the person in charge of the training camp nicknamed “Golden Fox” was most likely.

In the dark of the night, Xia ruofei’s figure was as fast as lightning as he flew directly towards the modr organization’s Secret training camp in the southeast of Basoko town.

Chapter 2360 Capturing the Golden Fox (1)

In a short while, the outline of the campsite appeared in front of Xia ruofei.

Although this camp was called a secret training camp, it was not low – Key at all. It occupied nearly half of the land in Basoko town.

Tall walls, electric barbed wire, searchlights that swept through the night, tall watchtowers ...

Everything here clearly showed that this was a heavily – guarded military fortress.

Xia ruofei was very calm. To be honest, this operation was not difficult for him at his current level of cultivation. However, he still maintained his cautious habit.

Even a Lion would use all its strength to hunt a rabbit.

Xia ruofei sneaked to the edge of the training camp. He hid in the shadows and released his spiritual power to investigate.

According to the statements of pardu and the other captives, the defense of the modr training camp was very tight. Not only was there a high wall installed with live barbed wire, but there were also many infrared cameras installed around the area. Sentries patrolled the training camp 24 hours a day. In addition, there were ten watchtowers at the highest point. It was almost impossible for outsiders to sneak into the training camp without anyone knowing.

Of course, to Xia ruofei, it was only a little troublesome. He was not stumped by these defensive measures.

The results of the investigation quickly formed a three – dimensional structure in Xia ruofei's mind. He had already known every camera in the area.

Xia ruofei continued to use his spiritual power to investigate patiently, silently memorizing the movement pattern of the mobile outpost.

He calculated a few times in his mind. When his mental power detected that a patrol team had just passed by this side of the wall, he said to himself, ""This is the time!"

Xia ruofei did not hesitate. He tapped the ground with the tip of his foot and shot out like lightning. In the blink of an eye, he had arrived at the training camp's wall.

The location he chose was also very particular. It just so happened that there was a very small blind spot for the camera, and the nearest Watchtower was about 20 meters away from here. Under the cover of the tree shadow, as long as he was fast enough, the Sentry on the Watchtower would not easily find him.

Especially at two in the morning, when people were the most tired. In addition to the notorious reputation of the modr training camp, under normal circumstances, very few people would dare to cause trouble. Therefore, it was almost impossible for the Sentinels to be on high alert at all times.

In fact, Xia ruofei thought that as long as the sentries on the Watchtower did not doze off, they would be considered very professional.

He stopped for a moment under the wall and used his mental power to scan the nearest Watchtower.

Sure enough, the Sentry lazily held his gun and looked around from time to time, as if he was dealing with business.

The Sentry had just turned around, and his back was facing this direction.

Xia ruofei no longer hesitated. He tapped the ground lightly with the tip of his foot and leaped up. When the lifting force was gradually exhausted, he gently tapped on the wall, and his body suddenly rose a little higher.

The next moment, Xia ruofei's hand grabbed the edge of the wall. He exerted a little force and his body flipped over the wire mesh above the wall. He disappeared into the dark shadows on the other side of the wall.

After Xia ruofei landed on the ground, he rolled forward to dissipate the force. He was as light as a civet cat and did not make any sound at all. He had already easily hidden in the shadows under the wall.

From the moment he came out of hiding to the moment he easily jumped over the wall and landed on the ground, the whole process only took two or three seconds.

After entering the modr training camp, Xia ruofei used his spiritual power to scan the area and quickly locked onto a three – story building.

The three – story building was located on the west side of the training camp. According to pardu and the others, it was where the higher – ups of the training camp and the instructors worked and lived. The person in charge of the training camp, the guy codenamed “Golden Fox,” was likely to be in this small building.

In addition to rows of single – story houses as student dormitories, there were several other buildings in the training camp. The three – story building was located in the middle of these buildings, and there was a very spacious tactical training ground between it and the student dormitories.

There were all kinds of obstacles set up by humans in the tactical training ground. There was also a building about four stories high. The building looked old, especially the walls, which were very mottled. It was specially used for students to train their climbing skills. No one lived in it at night.

If Xia ruofei wanted to reach the three – story building, he had to pass through the tactical training ground.

This was a large open area, and the searchlights on the Watchtower would turn around from time to time, so it was not easy to pass through.

Fortunately, the tactical training ground was not an ordinary field. There were many obstacles set up here, and in many places, in order to simulate the battlefield environment in the wild, some grass was also planted to block the vision.

Xia ruofei kept using his spiritual power to scan the tactical training ground. At the same time, he was silently calculating the pattern of the searchlights on the watchtowers turning.

After a long time, he took a deep breath and jumped out of the shadow under the wall. With lightning speed, he jumped into a single soldier pit in the training ground that was half the height of a person.

Then his figure flashed and moved on the training ground, sometimes using the cover of the training logs to move forward, sometimes jumping into the grass and crawling forward, during which he also deftly rolled to avoid the searchlight.
