

## God tier Farm 2451

Chapter 2451 The opportunity for a breakthrough Part If he hadn't taken the risk, their relationship wouldn't have made any substantial progress.

Of course, Xia ruofei might never find out the true secret of the Scripture.

After hearing Xia ruofei's words, Song Wei glared at him and said, "I'm not as thick – skinned as you!"

Xia ruofei leaned back on the sofa comfortably and said seriously, "Wei Wei, since it's like this now, why should we think so much? I see that Qingxue is slowly accepting it. I know that this is unfair to both of you, but that was indeed an accident, wasn't it? I can't give you too many promises, but I can promise that I'll treat you well in the future and won't let any of you feel neglected. "

This was the first time Xia ruofei had told Song Wei about the relationship between the three of them. Song Wei was slightly moved after hearing it. She nodded and said, "Mm ... Qingxue and I both know about it ... Oh right, Qingxue was the one who took the initiative to ask me to come to the capital with her! It just so happens that my parents are also afraid that I'll delay my studies and have been urging me to come back as soon as possible, so I went back to the capital with them. "

Xia ruofei chuckled. "Then, we won't leak any information at all. This is Qingxue's idea, right?"

"It's our idea!" Song Wei laughed.

"Alright! "You've already started to play tricks on me ..." Xia ruofei deliberately made a fierce expression and said, "how do you think I should punish you?"

"You can punish me however you want!" Song Wei laughed. Who asked our cultivation to be inferior to yours! We can't resist you!"

After she finished speaking, Song Wei made a pitiful face. Xia ruofei could not help but feel warm inside. He stood up from the sofa, held Song Wei's slender waist, and lowered his head to kiss her.

Song Wei raised her head in panic. Just as she was about to speak, her mouth was blocked.

Song Wei felt Xia ruofei's hands were getting more and more naughty. She twisted her body gently and said, "Ruofei...Cultivate ... Cultivate first ..."

Although Xia ruofei and Song Wei were already very close during the spirit body joint cultivation, they had never had any physical contact outside of cultivation. Song Wei still had some psychological barriers about this. Of course, it was not that she was unwilling, but she was concerned about Ling Qingxue's feelings.

Xia ruofei sighed and his eyes became clear again. He smiled and said, "Good! Let's cultivate first!"

Song Wei was slightly apologetic as she carefully asked, "Ruofei, you won't be angry, will you?"

Xia ruofei laughed, "silly girl!" Why would I be angry with you? Don't let your thoughts run wild! We haven't been spending much time together recently, so we should hurry up and cultivate when we have the chance. You guys should also seize the opportunity to improve your cultivation!"

Ever since he knew about the situation in the world of cultivation, Xia ruofei had always felt a sense of crisis. Not only did he feel more pressured in his own cultivation, but he also hoped to improve the cultivation of the people around him.

Song Wei and Ling Qingxue were only at refined Qi Level 3. Even though the world of cultivation on earth had declined, their cultivation was still not enough. Even if they were not at the bottom, they were not far from it.

Xia ruofei hoped that Song Wei and Ling Qingxue could at least protect themselves as he could not be by their side all the time.

After Xia ruofei finished speaking, he returned to his bedroom and took out the array flags from the medium. Then, he returned to the living room and set up the array flags skillfully.

Then, he went over to lock the doors and windows, draw the curtains, and set up a few alarm arrays.

“Wei Wei! Let’s go in! Cultivation needs to seize every second!” Xia ruofei said with a smile.

Song Wei looked at Xia ruofei and felt that he was not angry. She let out a sigh of relief and nodded. She held Xia ruofei’s hand and walked into the time formation.

When Xia ruofei, Ling Qingxue, and Song Wei cultivated together, they would usually set up a time array. On one hand, it was to save time. They usually only spent one or two hours together, which was definitely not enough for cultivation. However, if they used time array flags to create a time difference of 90 times, they would have more time.

On the other hand, this was so that once he discovered something, he could react faster. Under the effect of the time array flag, the flow of time inside and outside the array was 90 times slower. When looking at the outside world from the range of the array flag, it was equivalent to 90 times slow motion. If someone really broke into the house, Xia ruofei and Song Wei could exit their cultivation state and respond.

The two of them sat down cross – legged within the range of the array. Then, they reached out their hands in tacit understanding, and their palms touched. At the same time, they circulated the “absolute beginning Heart Sutra” cultivation technique.

They had been cultivating together for a long time, and they were already very familiar with this process. Therefore, after each of them circulated their soul energy for a few cycles, their soul frequencies were adjusted to a state where they were basically synchronized.

“Weiwei, concentrate. Let’s start our cultivation!” Xia ruofei said in a deep voice.

Song Wei nodded her head calmly.

Next, when the two of them circulated their cultivation techniques, their true Qi no longer circulated in their bodies. Instead, through a relay method, their true Qi formed a “big circulation” in their meridians, and their mental energy gradually blended together.

After a few cycles, Xia ruofei felt that their soul frequencies were basically in sync. Hence, he began the next step of the ethereal joint cultivation.

Xia ruofei's spiritual energy entered Song Wei's consciousness through her meridians. A simulated spiritual body was formed on the island in the center of her consciousness. They started to cultivate together.

The scene seemed to be erotic, but in fact, both of their spiritual bodies were solemn. In the extreme trembling of the blending of souls, the speed and efficiency of their cultivation suddenly increased by several times.

The true Qi in their meridians was circulating faster and faster, and the origin crystals in their palms were also being consumed quickly.

Cultivation knew no time. Xia ruofei and Song Wei felt that it was just a short moment, but in fact, they had been in the state of combined cultivation for a few hours.

If Xia ruofei had not felt a slight tremor at the bottleneck of his cultivation, the joint cultivation of their spirit bodies would have continued.

Xia ruofei's face revealed a trace of surprise. He did not expect that the bottleneck of his cultivation had not moved at all. This time, after he combined cultivation with Song Wei's spirit body, he was finally touched.

The cultivation efficiency of the "great way of Dao" was definitely higher than that of the "absolute beginning Heart Sutra". Moreover, the gap between Xia ruofei's cultivation and Song Wei's and Ling Qingxue's was relatively large. When they were cultivating the spirit and body together, Song Wei and Ling Qingxue would definitely benefit more. Xia ruofei's own cultivation would improve relatively slower. There was no other way.

But sometimes, even if one's cultivation efficiency was high, one might not be able to break through. Even if the efficiency of cultivation was low, it did not mean that there would be no effect.

Perhaps Xia ruofei had been cultivating the great Dao Arts all this time and had accumulated a certain level of quantitative change. This time, he was finally going to cause a qualitative change. Perhaps it was because trying different cultivation methods would make it easier to reach a bottleneck.

In short, this was the first time Xia ruofei truly felt the opportunity to break through.

He was only distracted for a moment, and he quickly regained his focus. However, he didn't continue to cultivate, because he felt that it would be more difficult to break through the bottleneck between refined Qi level 8 and 9 with the help of the "absolute beginning Scripture".

Hence, Xia ruofei decided to stop cultivating.

He and Song Wei tacitly withdrew from the state of the spirit body joint cultivation. Then, they circulated the "absolute beginning Heart Sutra" for two more cycles and completely left the state of cultivation.

Song Wei's face was still flushed red as she asked, "Ruofei, is there a problem?"

Although Song Wei did not have as much cultivation experience as Xia ruofei, she could still sense the change in Xia ruofei's emotions when they were in the state of the spirit body combined cultivation.

Xia ruofei said apologetically, ""Wei Wei, I feel like I'm about to break through ..."

Chapter 2452 Refined Qi level 9 (1)

Hearing this, Song Wei revealed a trace of joy and said happily, "That's great! Ruofei, we should continue to cultivate! Why did you suddenly stop?"

Xia ruofei scratched his head and said, "I feel that the" absolute beginning Scripture "is not enough to break through the bottleneck of my cultivation. Once I break through, my state may not be stable. I'm worried that the process of breaking through will affect you. So ..."

Song Wei was a little down and said, ""It's all because my cultivation level is too low. Not only can I not help you, but I might even cause more trouble ..."

Xia ruofei laughed and said, "silly!" Do you know how difficult it is to go from refined Qi level 8 to refined Qi level 9? My cultivation has long reached the peak of refined Qi level 8, but it's just a paper window that I can't break through no matter how much I cultivate. I didn't expect that after only cultivating with you for a few hours today, that bottleneck actually began to loosen! You call this not being able to help me! You've been a great help to me!"

Song Wei's worry turned into joy. She opened her eyes wide and said, "Really?"

Her lips curled up into a beautiful arc, and her heart was filled with joy.

Xia ruofei touched Song Wei's hair affectionately and said, ""Of course it is! Wei Wei, you're definitely going to bring fortune to your husband! Otherwise, why would I immediately see the hope of breaking through the moment I started cultivating with you?"

Song Wei blushed and said, "You're full of nonsense ..."

Xia ruofei laughed and then said seriously, ""Wei Wei, I'm going to use the time formation to cultivate in seclusion and try to break through to refined Qi level 9 in one go!" He said.

The smart Song Wei immediately said, ""Cultivate in peace. I'll stand guard outside and ... Protect you!" Zhang xuan said.

Xia ruofei hugged Song Wei gently and said, ""Thank you for your hard work! I estimate that the breakthrough process should not take too long. We can continue to cultivate later! If I break through to refined Qi level 9, our cultivation efficiency will definitely be much higher. You're also close to refined Qi Level 4, so try to achieve a breakthrough in this cultivation!"

Song Wei nodded her head and said, "Mm! Then hurry up and cultivate! I'll be going out first ..."

Xia ruofei and Song Wei walked out of the time formation.

Although the two of them had been cultivating in the array for a few hours, only two to three minutes had passed in the outside world.

Song Wei picked up a book from the shelf beside her and smiled at Xia ruofei. "I'll read a book at the door for a while. You can cultivate in peace! No one will come and disturb you!"

"En!"

Xia ruofei walked Song Wei to the door, then returned to the house and locked the door.

He took back the time formation flag and walked into the bedroom.

The process of breaking through would consume a lot of spiritual Qi. Xia ruofei would not waste his crystals at this time, so he had planned to cultivate in the spirit map space from the beginning.

Furthermore, with the effects of the time array flag and the Archean realm stacked, time could flow 2000 times faster. This way, even if the process of breaking through took longer, Song Wei wouldn't have to wait too long.

Xia ruofei locked the bedroom door and summoned the spirit map scroll from his palm. He casually stuffed it under his blanket and entered the spirit map space, where he was at the primal level.

He went directly to the open space in front of the Linglong tower.

Liu chengfeng was sitting cross – legged and cultivating. The batch of living supplies he had with him had already consumed some of them. A day had passed in the outside world, but Liu chengfeng had been cultivating here for a month.

Because of the soul seal, Liu chengfeng immediately sensed Xia ruofei's presence the moment he entered the space. He immediately stopped his cultivation and opened his eyes.

Seeing Xia ruofei standing not far from him, Liu chengfeng quickly stood up and bowed to Xia ruofei. He called out respectfully, "Good day, master!"

Xia ruofei waved his hand. "I'm also here to cultivate. Don't worry about me. Continue cultivating!"

"Yes! Master!" Liu chengfeng replied.

There was an empty space around the Linglong tower. Xia ruofei walked to the other side and threw out the time array flags. The array was set up in an instant.

Then, he walked into the formation space and sat down cross – legged to calm his mind. He began to circulate the first level of the "great Dao chant" cultivation technique. The entire Qi refining stage was actually cultivating the first level of the great Dao chant cultivation technique.

The majestic genuine Qi surged in Xia ruofei's meridians and quickly circulated according to the circulation route of the first level of the great Dao formula. Traces of spiritual Qi were absorbed into Xia ruofei's body at a speed that was visible to the naked eye. After passing through his dantian, they were transformed into genuine Qi.

In fact, Xia ruofei's dantian was almost full. However, after each circulation, the genuine Qi in his dantian would become more solid.

Xia ruofei circulated the "great Dao technique" over and over again, without any distracting thoughts.

Once he entered the state of cultivation, Xia ruofei would not think about anything else. Even if he was about to have a breakthrough in his cultivation, his heart was still very calm. The only thought in his mind was to control his genuine Qi and continuously circulate it in his meridians according to the "great Dao technique".

The genuine Qi in his dantian became more and more solid. Xia ruofei even felt a swelling sensation. This was a feeling that would only occur when the genuine Qi had been condensed to the extreme.

There was a limit to the compression of true energy, and this was related to one's cultivation realm.

In other words, within the realm of refined Qi level 8, his dantian's capacity limit was more or less this. If he wanted to continue to improve, he had to break through to refined Qi level 9.

#### Chapter 2453 Refined Qi level 9 (2)

Once a cultivator broke through, not only would their dantian's capacity expand, but more importantly, their true Qi would also undergo a qualitative leap. With the same amount of true Qi, there would be a huge difference between a cultivator of the eighth and ninth Qi levels. The density of their true Qi would increase even further.

Wisps of true Qi were continuously compressed in his dantian. The "great Dao Arts" technique did not stop for a moment. The true Qi in his dantian was also approaching the limit of its density.

The spiritual energy within the spirit map was rather abundant. Furthermore, Xia ruofei was within an array that was 70 to 80 times slower than the time of an Archean realm expert. Hence, the spiritual energy consumption per unit of time was tens of times greater.

From Liu chengfeng's point of view, it was as if a vortex had appeared where Xia ruofei was cultivating. The spiritual Qi around him was being devoured at an extremely fast speed, and there was even a temporary 'vacuum zone' of spiritual Qi.

Fortunately, the energy exchange rate between the spirit map space and the chaotic space was very high. It could still maintain such a rapid consumption and did not cause any damage to the foundation of the space. However, the concentration of spiritual energy in the yuanchu realm began to inevitably decrease slowly. The energy formation of the spirit map space could no longer keep up with the speed at which Xia ruofei was consuming his spiritual energy.

Liu chengfeng was dumbfounded. His admiration for Xia ruofei could not be any greater. Especially under the effect of the soul seal, Xia ruofei had become an omnipotent God in his heart.

Although the Archean realm and the mountain and sea realm were relatively independent, they were also closely connected. They were like two connected vessels. The concentration of spirit Qi in the Archean realm started to decrease, and the energy exchange formation couldn't keep up with Xia ruofei's consumption rate. Naturally, the spirit Qi in the mountain and sea realm started to flow towards the Archean realm.

The concentration of spiritual energy in a claimed space would always maintain a dynamic balance.

Xia Qing immediately sensed the change. With a flash, she arrived at the Archean realm.

At first, he thought that something had gone wrong with Liu chengfeng's cultivation. However, the moment he reached the Archean realm, he saw Xia ruofei cultivating in the time array.

Xia Qing's expression was grave as she stood by the pond, closely watching Xia ruofei's situation.

At the same time, Xia Qing also took out a few crystals from the warehouse where Xia ruofei stored his important supplies. Once the spiritual Qi concentration dropped to a dangerous level, he would decisively set up a spirit gathering formation around Xia ruofei and use the spiritual Qi in the crystals to maintain Xia ruofei's cultivation.

Because the mountain and sea realm covered a large area, the total amount of spirit Qi in the spirit map space was also very large. Even though they had been "replenishing" their blood toward the area where the concentration of spirit Qi was low, in general, the spirit Qi in the entire spirit map space had not decreased by much.

Xia ruofei could not feel the passage of time as he was cultivating.

He didn't know how much time had passed, but he was immersed in his cultivation state. He didn't know that Liu chengfeng had been shocked by his cultivation method of swallowing spiritual Qi like a whale, and that it had also shocked Xia Qing.

In fact, if Xia ruofei did not have the realization of breaking through, no matter how hard he cultivated, he would not be able to make any progress. A bottleneck was a bottleneck because it was difficult to break through. In the end, he might even cultivate for half a day without any change in his genuine Qi because his dantian was already full.

Only by sensing the opportunity for a breakthrough could it be possible to break through the bottleneck in one go by continuously compressing the true Qi through cultivation.

Xia ruofei continued to cultivate in the array for more than ten hours.

Finally, he felt that a layer of shackles had been broken, and he had a feeling of satisfaction.

When the shackles were broken, the genuine Qi in Xia ruofei's body flowed faster and his dantian began to expand slowly.

Xia ruofei was slightly happy, but he quickly collected his thoughts and continued to operate the "great Dao technique".

The process of the breakthrough lasted for almost an hour.

During this process, Xia ruofei felt as if he was soaking in a hot spring. Every pore on his body was filled with comfort.

All the meridians involved in the first level of the "great Dao Arts" had been widened during the process of this breakthrough. At the same time, they had also become tougher.

The expansion and strengthening of the meridians meant that they could withstand more and more powerful true Qi.

After his dantian expanded, it seemed to have become much emptier.

The true Qi in his dantian had also been compressed to the extreme during the breakthrough process, and a qualitative change finally appeared.

The true Qi of lianqi level 9 was obviously more condensed than when he was at lianqi level 8. Xia ruofei roughly sensed that the same amount of true Qi was at least twice as powerful as before.

Besides the strengthening of his Energy Center and meridians, Xia ruofei felt that his body had also been tempered after he had reached refined Qi level 9. He was much stronger.

Especially in the process of breaking through, when the genuine Qi was transforming the meridians, a part of it seemed to seep into the muscles and internal organs, strengthening Xia ruofei's entire body to a certain extent.

He knew that this was something that would definitely happen when one was about to reach the peak of the refinement stage. The next time would be when he broke through a major realm, and at that time, the strengthening of his body would be even more obvious.

Due to the expansion of his dantian and the condensation of his true Qi, Xia ruofei could clearly feel that his dantian was much emptier. He was feeling an obvious 'hunger'.

Xia ruofei prepared to continue cultivating. On one hand, he wanted to fill up his empty dantian. On the other hand, he wanted to consolidate his cultivation.

However, he suddenly frowned.

Xia ruofei could feel that the spiritual Qi in the surroundings had decreased slightly.

He raised his head and saw Xia Qing standing on the shore with a worried look on her face, watching him.

Xia ruofei thought for a while and gave up on his cultivation plan. He stood up and walked out of the time formation. In a flash, he appeared by the pool.

Seeing Xia ruofei stop cultivating, Xia Qing quickly bowed and called out, "Master!"

Xia ruofei nodded and asked, "Why do I feel that the concentration of spirit Qi in the space has decreased?"

Xia Qing revealed a bitter smile and said, "Master, the speed at which you absorb spirit Qi during your cultivation is too fast. The energy exchange between the spirit map world and the chaos Space can't keep up with your absorption speed, so the concentration of spirit Qi will naturally decline. Fortunately, you haven't been cultivating for a long time, and the total amount of spirit Qi in the spirit map world is relatively large, so it won't harm the foundation of the spirit map world."

Xia ruofei raised his eyebrows in surprise and asked, "I was absorbing it so quickly just now? By right, there shouldn't be a problem for the spirit map world to support the cultivation of several Qi refinement cultivators together!"

Xia Qing was stunned and pouted at Xia ruofei's time formation flag that had not been removed.

Xia ruofei suddenly understood.

The time array flag didn't accelerate to the limit. It created a difference of 70 to 80 times time flow.

Compared to those at the Archean realm, the rate of spirit Qi consumption per unit time was 70 – 80 times faster.

To put it more vividly, it was equivalent to 70 to 80 Xia ruofei's cultivating at the same time. Moreover, it was a cultivation breakthrough that consumed a lot of spiritual Qi.

This was similar to the time array when he was cultivating the heart condensing grass in the past. In order to prevent the spiritual Qi consumption in the spirit map space from shaking the foundation, a spirit gathering array had to be set up outside the time array, and spiritual crystals were used to supply the spiritual Qi consumption of the array.

It was no wonder that the spirit Qi concentration in the spirit map world had begun to decline slowly.

Xia ruofei revealed an awkward smile.

Fortunately, the process of breaking through was not very long. Over ten hours inside the formation was equivalent to a few minutes in the primal region.

It was just that it had consumed spiritual energy that would normally take more than ten hours in a few minutes, so it looked a little scary.

Xia ruofei said, "it's fine. I'll remove the time array flags immediately." I just wanted to save some time, but I didn't expect to cause such a big commotion. "

With that, Xia ruofei dismissed the time formation.

Only a few minutes had passed since he reached the Archean realm. To Song Wei, who was in the outside world, the time spent was less than a minute. She probably had just sat down at the door and had not even turned a page of her book! Hence, Xia ruofei was not in a hurry.

After he removed the time formation, he rested for a while by the spatial spirit pond. When he felt the concentration of spirit Qi in the spatial space slowly rise back to a relatively saturated state, he returned to the open space in front of the Linglong Pagoda in a flash and sat down cross-legged to consolidate his cultivation.

He didn't dare to use time formation flags this time.

Chapter 2454 Both of them broke through Although Xia ruofei was still practicing the first level of the "great way of the way" after he had reached level 9, his Energy Center and meridians had undergone a qualitative change, so his cultivation efficiency had increased a lot. After each Qi circulation, his Energy Center would produce a wisp of true Qi, which was much faster than when he was at level 8.

The higher the efficiency of cultivation, the faster the rate of absorption of spiritual energy.

However, no matter how fast it was, it couldn't be as fast as when he used the time array flag to increase it by 70 or 80 times. Therefore, the spirit map world could support such an intense cultivation. Although the spiritual Qi around Xia ruofei was being consumed quickly, it could be replenished immediately. Moreover, the spiritual Qi concentration in the entire space had not changed significantly.

Xia Qing saw that the spiritual Qi concentration in the space had returned to normal and that Xia ruofei's continued cultivation was not affected. She was relieved.

He bowed slightly to Xia ruofei, who was cultivating in the middle of the pool. Then, he silently left the Archean realm and continued to supervise the free labor in the mountain and sea realm.

Two hours later, Xia ruofei felt that his dantian was full. His true Qi was much higher than that of refined Qi level 8, both in terms of quantity and quality.

After more than two hours of cultivation, Xia ruofei's cultivation level had been completely consolidated at refined Qi level 9.

He had an urge to continue cultivating.

Although his dantian was filled with true Qi, if he continued to cultivate, his true Qi would continue to be compressed.

In fact, the process of cultivation was the process of continuously compressing true energy. When the true energy was compressed to the extreme, it was the bottleneck of the breakthrough.

The efficiency of this compression was naturally determined by the cultivation technique.

Xia ruofei's "great Dao Arts" was a top – tier cultivation technique, so her cultivation efficiency had always been very high.

Although he didn't know much about the current cultivation world and all the information he had was from Liu chengfeng's description, he had also obtained many other cultivation methods from the human jade talisman. These methods were naturally good, but they were still far from the great Dao Arts. Even the wonderful "absolute beginning Heart Sutra" was much worse than the "great Dao formula".

Hence, Xia ruofei was very clear that the "great Dao Arts" must be very precious. If it were to be leaked to the cultivation world, it would definitely cause a bloody fight.

Considering that Song Wei was still waiting outside, Xia ruofei suppressed his urge to continue cultivating. He stopped after he had consolidated his cultivation.

When he stood up, he found Liu chengfeng standing not far away from him with his hands down.

Liu chengfeng saw Xia ruofei stand up and immediately bowed. "Congratulations on your breakthrough, master!"

Xia ruofei had broken through to refined Qi level 9 and was in a good mood. He laughed and said, "Chengfeng, you have to work hard on your cultivation too! If I can't break through to refined Qi level 8 within a year, I can't afford to lose face!"

"Master!" Liu chengfeng quickly said. You've given this subordinate such a good cultivation environment, and an entire year's time at that. If I still can't make a breakthrough in my cultivation, then this subordinate really won't have the face to see you!"

Xia ruofei laughed and said, "it seems like you're very confident!" Then I'll wait and see! Work hard!"

"Yes! Master!" Liu chengfeng said with a bow.

Xia ruofei nodded and left the medium with a thought. He returned to his bedroom outside.

He glanced at the electronic clock on the bedside table. Only five or six minutes had passed in the outside world since he entered the spirit map space.

Xia ruofei kept the painting in his palm and walked out of the room.

He came to the living room and took out the time formation flag from the space, but he didn't set it up immediately. Instead, he put it on the sofa.

Then, Xia ruofei opened the door and saw Song Wei reading a book on the recliner under the roof.

Song Wei heard the noise and immediately turned her head.

"RUO Fei! You're done with your cultivation!" Song Wei asked happily, "how is it? Have you broken through?"

Xia ruofei deliberately showed a proud expression and said, "That's a must! From now on, I'm a cultivator at refined Qi level 9! Wei Wei, you guys have to work hard too! Otherwise, I'll pull you further and further away ..."

When Song Wei heard that, she immediately stood up and said happily, "He really broke through so quickly! That's great!"

Xia ruofei scratched his head. "Actually, it's not that fast. You know ... We have the time formation."

"That's still very soon!" Song Wei looked at Xia ruofei with admiration and said, "that's refined Qi level 9!"

Xia ruofei enjoyed the feeling of being worshipped. He laughed and held Song Wei's hand. "Let's go! Let's go in and continue cultivating! I'll try to help you break through to refined Qi Level 4!"

Song Wei had reached the peak of Qi cultivation Level 3 a long time ago. At that time, Ling Qingxue hadn't even started cultivating. Now, Ling Qingxue's cultivation was almost at the peak of Qi cultivation Level 3, but Song Wei still hadn't broken through.

Although Song Wei did not say anything, Xia ruofei knew that she must be worried.

Now that Xia ruofei had reached refined Qi level 9, it would be more efficient for him to practice the "absolute beginning Scripture". Song Wei would also benefit more from it.

Chapter 2455 Both of them broke through\_The two still had an afternoon. If they used the time array flag to create a time flow difference of 90 times, they could cultivate for at least ten days inside. Excluding rest, food, water, and toilet, the remaining time should be enough for Song Wei to break through the bottleneck of refined Qi Level 3.

As Xia ruofei pulled Song Wei into the house, she said, "RUO Fei, you've just broken through. You must take a rest first! And didn't you say that it's best to consolidate your cultivation as soon as possible after breaking through? I'm not in a hurry to cultivate, so I don't want to delay you from consolidating your cultivation!"

Xia ruofei laughed, "silly girl!" Of course, I'll only stop cultivating after I've consolidated my cultivation! Furthermore, wouldn't cultivating the "absolute beginning Heart Sutra" also help me to further

consolidate my cultivation? As for rest ... Hehe! I feel like I can kill a bull by blowing on it! I don't need to rest!"

Song Wei was stunned for a moment, then she giggled. "Killing a bull by blowing on it ... Isn't this the legendary 'bragging'? Hahaha ..."

Song Wei was so happy that she couldn't stand up straight. Xia ruofei "flew into a rage" out of embarrassment and reached out to scratch Song Wei's waist. "You actually dare to laugh at me! It seems that I have to enforce the Family Law! Otherwise, you won't be able to keep your dignity!"

Song Wei was so scared that she giggled and hid far away, begging for mercy. "Don't come any closer ... Ruofei, I'm most afraid of tickles! I was wrong, alright?"

Xia ruofei laughed evilly and pounced on Song Wei. Just as Song Wei was about to move around the sofa to avoid him, she felt an invisible force restraining her.

As a Qi Level 3 cultivator, Song Wei naturally knew that Xia ruofei had used his spiritual power. She couldn't help but exclaim, "Hey! How can you go back on your word!"

Xia ruofei grabbed Song Wei and laughed, "How can you call that cheating? You're clearly the one who's inferior! Tell me, do you still dare to make fun of me in the future?"

Song Wei looked up at Xia ruofei with her big eyes and said, "I won't dare ... I won't dare to do it again ..."

Xia ruofei looked at Song Wei's lovely face and almost couldn't resist his impulse. He sat down on the sofa awkwardly and said, "I'll let you off this time!"

Then, Xia ruofei picked up the time array flag on the sofa and said to Song Wei, "Wei Wei, let's prepare something to eat and prepare to cultivate for a few days in one go!"

Song Wei nodded her head and said, "En!"

"Wait a minute!" Xia ruofei said.

After saying that, he walked into the bedroom and came out with a paper box in a short while. It was filled with instant noodles, compressed biscuits, mineral water, and so on.

These were naturally taken out by Xia ruofei from the spirit map.

"Why did you leave so much food in the bedroom?" Song Wei laughed.

"We don't have to panic when we have surplus food at home!" Xia ruofei said with a smile.

Then, he placed the box on the floor of the living room and set up the time formation again.

"Let's go!" Xia ruofei said. Time is precious, we should start cultivating!"

The two of them walked into the time formation hand in hand and sat down cross – legged.

This time, the two of them quickly entered a state of cultivation.

Xia ruofei could feel that after reaching refined Qi level 9, it would be easier for him to practice the “absolute beginning Scripture” with Song Wei.

Since Xia ruofei’s genuine Qi had improved, the efficiency of their joint cultivation was higher. Not only did Song Wei improve significantly, but Xia ruofei could also feel that his spiritual power and genuine Qi were slowly growing.

Time passed by slowly.

The two of them had been cultivating in the time formation for more than ten hours. Both of them felt a little tired. Xia ruofei then signaled for Song Wei to stop cultivating. They left the time formation to get some food and rest.

Just like that, they continued to cultivate with high efficiency.

In order to save time, Xia ruofei found a blanket from the bedroom. When they needed to rest, they would sleep in each other’s arms in the time formation.

The two of them cultivated in the array for about nine days before Song Wei finally broke through.

Xia ruofei felt that Song Wei had broken through her bottleneck and was slightly happy.

At the same time, he reminded her in a deep voice, “Wei Wei!” Don’t be distracted, continue to focus your energy and circulate the “absolute beginning Heart Sutra”!

Song Wei didn’t say anything and only nodded slightly.

Xia ruofei’s understanding of the “absolute beginning Scripture” and his control of genuine Qi were better than Song Wei’s. Hence, even when Song Wei was in the process of breaking through, he could control his genuine Qi very well and cooperate with her perfectly.

Soon, Song Wei’s breakthrough was completed. Her Energy Center and meridians were strengthened to a certain extent, and her true Qi density increased.

Xia ruofei didn’t stop cultivating. He continued to cultivate the “absolute beginning Scripture” with Song Wei until Song Wei’s cultivation was completely stabilized at refined Qi Level 4. Then, the two of them stopped cultivating.

Song Wei, who had not spoken during the cultivation process, was very excited. She hugged Xia ruofei’s neck and kissed him on the cheek. “RUO Fei! I’ve finally broken through! Thank you!”

Xia ruofei chuckled and said, “you have to be careful of arrogance and rashness!” Qi refining stage level 4 ... It’s not too powerful among Qi refining cultivators. In fact, even for me, I’ve only just started on the road of cultivation!”

“En!” Song Wei nodded her head.

The two of them walked out of the time formation. Xia ruofei kept the formation flag and threw the blanket on the sofa.

Song Wei sniffed and blushed, “Ruofei, I’m going to take a shower!”

In order to save time, they would leave the time formation at most when they were eating or going to the toilet. They would even sleep in the time formation at other times, so they didn't have time to take a bath.

It had been nine days since she last took a bath. In addition, when Song Wei was breaking through, her body had discharged a lot of impurities. Naturally, the smell on her body was very strong. To a gentle and understanding beauty, this was absolutely unbearable.

Xia ruofei smiled and nodded.

Song Wei immediately ran out of Xia ruofei's room and rushed to the guest room.

There was a bathroom in the guest room. Song Wei's luggage was still in the guest room so she would not shower at Xia ruofei's place. No matter how smelly she was, she had to at least take a shower there.

Xia ruofei looked at Song Wei's back as she 'fled'. He smiled and shook his head. Then, he started to clean up the house.

Although only an afternoon had passed in the outside world, the two of them had actually spent nine days. Now, the house was filled with a lot of plastic containers, empty mineral water bottles, and other trash.

After Xia ruofei cleaned up the house, he went to the bathroom to take a shower.

It was much easier for men to take a bath than for women. When Xia ruofei came out after changing, there was still no movement in Song Wei's room.

However, the sound of a car came from the backyard.

Xia ruofei's hearing was very good. He could tell that it was Toyoda's Elfa.

So he walked to the backyard.

Sure enough, Ling Qingxue had returned from Alphard and was walking towards the courtyard in the middle.

"Qingxue, how's the preparation for the Taoyuan gathering going?" Xia ruofei asked with a smile.

"There shouldn't be any problems!" Ling Qingxue said confidently, "for tomorrow's opening ceremony, our private kitchen will definitely not fail!"

Then, Ling Qingxue looked left and right, then asked in a low voice, ""Ruofei, how's your cultivation going?"

Xia ruofei laughed and said, "the effect is unexpectedly good." I'm already at refined Qi level 9, and Wei Wei has also broken through a level and reached refined Qi Level 4!"

In fact, Xia ruofei's breakthrough was the result of his accumulation during this period of time. He also broke through by relying on the "great Dao Sutra". The joint cultivation with Song Wei could only be considered as a catalyst.

Ling Qingxue's eyes widened. "It's only been an afternoon and I'm already so far behind! No, no, no! I have to cultivate well tonight!"

"I can do it anytime!" Xia ruofei smiled and said, "I'm in an amazing state now!"

Hence, after dinner, Song Wei sensibly left all the time for Xia ruofei and Ling Qingxue and went back to her room to rest.

Naturally, Xia ruofei began to bring Ling Qingxue along to continue cultivating the "absolute beginning Scripture". His goal was very clear, and that was to let Ling Qingxue break through to refined Qi Level 4!

#### Chapter 2456 Getting better and better (1)

Xia ruofei was not blindly confident. It was just that Ling Qingxue's cultivation had also reached the peak of the third Qi layer. From the third Qi layer to the fourth Qi layer, it was not too difficult to break through the bottleneck. Furthermore, after taking the heart concentrating grass, Ling Qingxue's physique had become very suitable for cultivation. With one night's time and the help of array flags, it was completely possible to help Ling Qingxue break through.

After all, Ling Qingxue's talent was actually better than Song Wei's after consuming the heart concentrating grass. This was also the main reason why she was able to catch up even though she started cultivating later than Song Wei.

The facts had proven that Xia ruofei's judgment was very accurate.

He had cultivated with Ling Qingxue in the array flags for about seven to eight days, and Ling Qingxue had successfully completed the transformation from Qi layer level 3 to Qi layer 4. The process of breaking through was without any danger, and it could be said that success came naturally when water flowed.

After Ling Qingxue had consolidated her cultivation, Xia ruofei and Ling Qingxue left the time formation.

Xia ruofei kept the time array flag and smiled. "Qingxue, you broke through faster than I expected,"

"Compared to Wei Wei? Who's faster?" Ling Qingxue asked.

Xia ruofei couldn't help but smile bitterly. He thought to himself that he had to be more careful in the future, especially in terms of cultivation. If one of them cultivated too fast, he would be in an awkward situation.

"I think you're faster ... We spent about nine days to help Wei Wei break through," Xia ruofei said.

"It seems that my cultivation speed is not bad!" Ling Qingxue smiled in satisfaction.

Xia ruofei said seriously, "Qingxue, you're only cultivating your true Qi and mental energy now. You're not practicing the secret techniques of cultivators. Also ... Your and Weiwei's cultivation is still too low. So, you must be careful when you're outside. Don't expose your identity as cultivators. If you meet other cultivators, no matter what their cultivation is, you must avoid them at once!"

Ling Qingxue nodded and said, "I understand." Don't worry, RUO Fei! We won't go around showing off! Besides ... When it comes to cultivation, unless you're experiencing it yourself, no one would believe you!"

Xia ruofei smiled and said, "I'm just giving you a reminder. Don't get carried away just because your cultivation has improved." Including myself, I'm still far from that ..."

"Yes ..." Ling Qingxue nodded her head lightly.

Xia ruofei continued. "Also ... After you've improved your cultivation, you have to get used to the power you control as soon as possible. I don't want you to become the Kings of destruction."

If one's cultivation didn't break through to a new level, in addition to the strength of their true Qi, their body would also be strengthened. The corresponding physical strength would naturally increase a lot. If they couldn't adapt to this power in a short time, there would be problems of overexerting. It was fine if they accidentally damaged some things, but it would be bad if they hurt people.

"Don't worry!" Ling Qingxue pursed her lips and smiled. "It's not like this is the first time we've broken through. We'll be careful!"

"Mm! That's good!" Xia ruofei said.

Then, he sniffed and asked with a smirk, "Qingxue, don't you smell something weird?"

Ling Qingxue was stunned for a moment. She did smell something unpleasant, but she was too focused on talking to Xia ruofei and did not pay much attention to it. Now that Xia ruofei reminded her, she immediately realized that the pungent smell was coming from her.

Ling Qingxue couldn't help but cry out in shock. She said shyly, "Xia ruofei! How can you be so bad! Why didn't you remind me when you smelled it ..."

Ling Qingxue couldn't stay there any longer. She wanted to rush back to her room to take a shower.

Xia ruofei grabbed her hand and looked into her eyes. "Qingxue, you can shower at my place ... You can stay at my place tonight!"

Ling Qingxue's heart trembled. She lowered her head and said, "My ... My change of clothes is still over there ..."

"I'll help you get it!" Xia ruofei said decisively.

"But ..." Ling Qingxue hesitated, but she couldn't think of any reason to reject him.

Xia ruofei laughed and said, "no buts!" Hurry up and take a shower! I'll go get your clothes now!"

"Then ... Hurry up!" Ling Qingxue said, half – heartedly.

"Immediately!" Xia ruofei said happily. Then, he tapped his feet and used his true energy. His speed was as fast as lightning and he rushed into the room next to Song Wei 's.

He picked up Ling Qingxue's luggage and immediately returned to his room, locking the door.

Seeing Xia ruofei lock the door, Ling Qingxue's pretty face could not help but heat up. "I'll find my own clothes! You're not allowed to look!"

Xia ruofei laughed and said, "good, good, good!" I don't want to ..."

With that, Xia ruofei turned around and walked to the sofa opposite him. He sat down with his back facing Ling Qingxue.

Ling Qingxue took out some clean clothes from her luggage and quickly hid in the bathroom.

After the shower, Ling Qingxue did not mention that she wanted to go back to the guest room. The two of them very naturally walked towards the bedroom with each other in their arms.

After a while, a heart – shaking Sonata was played in the room ...

After a long time, Ling Qingxue snuggled into Xia ruofei's arms with a faint smile on her face.

She nestled in Xia ruofei's arms comfortably and said lazily, "Ruofei, there's something you have to pay more attention to ... Don't forget!"

Chapter 2457 Getting better and better (2)

Xia ruofei caressed Ling Qingxue's hair as he asked, "What is it?"

"About uncle song!" Ling Qingxue said, "didn't uncle song's Constitution change after he was injured this time? you can try cultivating, right?" You have to think about this and choose a better cultivation technique for him ..."

Xia ruofei patted his forehead and said, "Qingxue, I almost forgot about this if you didn't mention it! You're still the most meticulous!"

Song Qiming had profited from his misfortune. His head was severely injured, and even his sea of consciousness was damaged. When Xia ruofei used the heart – concentrating grass to save him, his sea of consciousness had also changed. Just like Ling Qingxue, his physique had changed, and it was possible for him to cultivate.

Ling Qingxue pouted and said, "since you've already accepted Wei Wei, you should pay more attention to her father!" Otherwise, she'll feel aggrieved. "

Xia ruofei's heart skipped a beat and he said, "Qingxue! Thank you ..."

Ling Qingxue pursed her lips and smiled, "alright!" Don't think of me as a jealous woman! Although I did feel a little uncomfortable when I first found out about you and Wei Wei, I also know what it feels like to practice the spirit body Fusion. I'm afraid it's not just the spirit body Fusion. Wei Wei already has someone in her heart for you, right?"

Xia ruofei smiled awkwardly.

This wasn't easy to answer!

Ling Qingxue glanced at Xia ruofei and continued, ""Wei Wei's sacrifice was huge. We're on the path of cultivation after all, and it's time for us to change our mindsets. So, I've thought it through a long time ago ..."

"Then why did you leave me hanging for so long?" Xia ruofei asked.

Ling Qingxue glanced at Xia ruofei with a half – Smile and said, ""If I don't teach you a lesson, what if you find a few more sisters like Wei Wei?"

Xia ruofei was instantly embarrassed. He laughed dryly. "It's not ... It's not ... Wei Wei and I were just an accident ..."

When he said this, Monica's figure involuntarily appeared in his mind.

Back then, when he and Monica had a one night stand, to be honest, they did not have much emotional Foundation. It was completely an impulse after being hot – headed. However, as they got along, this passionate woman from the Mediterranean region had undoubtedly occupied a certain position in Xia ruofei's heart.

Besides, Xia ruofei also thought of Lu You.

This girl, who looked cold on the outside but had a very rich inner world, had boldly taken the initiative to confess to him in the past. It had been a long time since he had heard from her.

Of course, this was just a flash of knowledge. Xia ruofei did not dare to reveal any flaws in front of Ling Qingxue. Otherwise, not only Ling Qingxue, but Song Wei would also be furious.

He secretly sighed and said worriedly in his heart, "These were all debts he owed ..."

Ling Qingxue didn't pursue the topic any further. She said, ""Ruofei, about uncle song ..."

Xia ruofei waved his hand and said, "Qingxue, I know what to do. I'll find a suitable martial art for uncle song first." However ... The actual implementation was still a bit difficult. First of all, we have to make uncle song accept the existence of practitioners. Besides, he's a little old, after all, so it might be difficult to make him a practitioner!"

Ling Qingxue nodded. "It's okay. Let's take it slow. Just remember this ..."

"En!" Xia ruofei said.

Ling Qingxue revealed an envious expression and said, ""If uncle song can become a cultivator, Wei Wei will be very happy! Even if your cultivation can't reach a high level, you can at least extend your life!"

Xia ruofei saw through Ling Qingxue's thoughts. He patted Ling Qingxue's smooth and tender shoulder gently and said, ""Qingxue, don't worry! In the future, when my cultivation has improved, I will think of a way to let uncle Ling cultivate with me. Even if he can't cultivate, I will find some spiritual medicine for him to consume. At least, he will live to a hundred years old!"

"I know ..." Ling Qingxue smiled sweetly at Xia ruofei and said, "it's late. Go to sleep!"

The two of them fell asleep in each other's arms.

Since the afternoon, Xia ruofei had been cultivating in the time formation. He had been cultivating for almost twenty days. In addition, he had fought with Ling Qingxue for 300 rounds at night. He was mentally exhausted and soon fell into a deep sleep.

The next morning, Xia ruofei did not wake up to cultivate. He slept all the way until dawn.

Ling Qingxue was also lazily sleeping in Xia ruofei's arms. When she woke up and saw the sunlight coming in through the window, she immediately got up from the bed in a hurry.

Xia ruofei rubbed his sleepy eyes and said, "It's still early! Sleep a little longer!"

Ling Qingxue said in a panic, "I'm dead because of you. The sky is already bright!" Wei Wei must be up by now. If she sees us ..."

Xia ruofei said lazily, "so what if I see it!" You're my wife, so you're open and aboveboard!"

"I'm too lazy to talk to you!" Ling Qingxue lowered her eyes and said.

Ling Qingxue and Song Wei had an agreement. Other than when they were cultivating, Ling Qingxue would not be alone with Xia ruofei, let alone spend the night with him.

If Ling Qingxue went back on her promise and even spent the night with Xia ruofei, she would be too embarrassed to face Song Wei if she was caught red – handed.

Ling Qingxue hurriedly put on her clothes, tidied her hair, and walked out of the bedroom in a hurry.

She opened the door of the hall a crack and poked her head out to look around. Then she quickly slipped out and tiptoed to the other side of the courtyard, to the guest room that belonged to her.

Even though Xia ruofei was still in bed, he had been paying attention to Ling Qingxue's condition with his spiritual power. He could not help but laugh when he saw this.

Xia ruofei's spiritual power also detected that Song Wei had already woken up. Just as she was about to come out of the guest room, she saw Ling Qingxue coming out from Xia ruofei's room, so she went back to her room.

Obviously, Song Wei already knew that Ling Qingxue had spent the night in Xia ruofei's room. However, she did not want Ling Qingxue to feel awkward, so she took the initiative to avoid her.

Xia ruofei couldn't help but smile. Yesterday, Ling Qingxue had taken the initiative to remind him to prepare a cultivation technique for Song Qiming. Today, Song Wei had pretended not to notice that Ling Qingxue had spent the night here. It seemed that the situation was developing in a better direction.

Xia ruofei was no longer sleepy. He jumped out of bed in a good mood, put on his clothes, and went out.

At that moment, Ling Qingxue and Song Wei also walked out of their rooms.

Ling Qingxue felt a little guilty and greeted Xia ruofei and Song Wei. Song Wei's expression was normal, as if she had no idea what had happened last night.

After the three of them had breakfast in the backyard, they took the Toyota Elfa commercial car driven by Wu Qiang and headed to the Paradise gathering celebration site in Little Tang town.

Although Song Wei was considered an industry insider, she did not want to join in the fun. However, after Xia ruofei and Ling Qingxue's persuasion, she agreed to go to the celebration with them.

It was the weekend, so there wasn't as much traffic on the road in the morning. The Elfa van quickly drove onto the ring road and headed out of the city.

40 minutes later, the car arrived at the Paradise gathering.

Although it was an opening ceremony, it was a high – end club, so it wasn't as loud as usual celebrations, with an inflatable arch or balloon banners. There were only some decorations along the road to embellish the festive atmosphere.

As soon as the car entered the entrance of the Paradise gathering, it stopped. Zhao Yongjun, song Rui, and the others were standing at the entrance to welcome the guests.

Xia ruofei, Ling Qingxue, and Song Wei alighted from the car. Naturally, there was a staff member who guided Wu Qiang to the side parking lot to Park his car.

"RUO Fei!" Zhao Yongjun came up to greet him with a smile, his face full of joy.

Chapter 2458 The peach blossom gathering (1)

In addition to Zhao Yongjun and song Rui, Liu Jian, Xu Zixuan, Hou Liang, and Wei Jun were all present. They were all wearing well – ironed suits and their hair was neatly combed.

"We look like bridegroom today!" Xia ruofei laughed.

Because of the opening ceremony, Zhao Yongjun and the others, who were the hosts, all had a corsage on their chests, making them look like bridegroom – to – Groom.

On the other hand, Xia ruofei was also dressed in a suit, but his suit was more casual. At least, his hair was not greasy, and he did not wear flowers on his chest. Relatively speaking, his outfit was not as eye – catching.

On the other hand, Song Wei and Ling Qingxue had specially dressed up today. The two of them were wearing dresses of the same color. They stood on either side of Xia ruofei, looking like a pair of pure and beautiful sisters.

"You're a major shareholder," Zhao Yongjun laughed, "you'll have to put on a brooch too! By the way, President Ling can't avoid it either, we all have to go on stage!"

Xia ruofei quickly waved his hand. "I'm fine. You guys can handle it. I'm just here to freeload some food and drinks!"

"You're getting more and more shameless!" Song Rui couldn't help but curse with a smile.

Xia ruofei shrugged innocently and said, "It's not easy to survive in any industry if you're not thick – skinned these days ..."

Ling Qingxue and Song Wei could not help but laugh when they saw Xia ruofei bickering with song Rui and the others.

They could tell that Xia ruofei was very relaxed when he was with Zhao Yongjun, song Rui, and the others.

Only when they were truly close friends could they be so casual and not have to worry about offending others.

“Let’s go, ruofei!” Zhao Yongjun said. I’ll accompany you around the club!”

“Don’t you have to receive guests?” Xia ruofei asked with a smile.

Zhao Yongjun was stunned for a moment, then he couldn’t help but laugh, “”You little brat, a dog’s mouth really can’t spit out ivory! No wonder Xiao Rui dispels you every time we meet!”

“Brother Xia’s tongue is getting more and more poisonous!” Xu Zi Xuan also said with a smile.

“Xiao Rui and the others are all here, it’s fine if I leave for a while,” Zhao Yongjun said with a bitter smile. You’re a major shareholder, so it’s our responsibility to keep you company!”

Xia ruofei laughed, “brother Zhao, I’m just joking!” Let’s go! Take me to see our club!”

Just then, a Polo drove into the club.

This car was very unremarkable among the many luxury cars, even a little shabby. However, the security guard at the entrance of the club obviously recognized this car. He did not stop it for questioning, but directly waved his hand to let it through.

When song Rui saw the car, he was obviously happy and took two steps forward.

The Polo stopped. Xia ruofei looked at the person who got out of the car. It was Zhuo Yiyi. No wonder song Rui was so attentive.

However, Zhuo Yiyi ignored song Rui. Instead, she walked quickly towards Xia ruofei and the others.

“Wei Wei! You’re here too!” Zhuo Yiyi cried out in surprise.

“Yiyi!” Song Wei was also very happy to see her old classmate.

The two women hugged each other passionately the moment they saw each other. They then held hands and chatted non – stop. Song Wei even introduced Ling Qingxue to Zhuo Yiyi. The three women were on the same stage, so their conversation became even more lively.

She didn’t know why they had so many topics to talk about.

Song Rui, who had followed Zhuo Yiyi over, had a bitter expression on his face. Xia ruofei, who was holding back his laughter, leaned over to Zhao Yongjun’s ear and whispered, “”Brother Zhao, it seems like Xiao Rui’s status in the family will be worrying in the future!”

Zhao Yongjun laughed and said, “being henpecked is actually a good quality ...”

It was only when song Rui walked to Zhuo Yiyi’s side that she seemed to have just noticed his presence.

Zhuo Yiyi felt a little strange and said, "song xiaorui!" What are you still doing here? Hurry up and Help Me Park the car! Can't you see that I'm reuniting with Wei Wei after a long time? How can you be so blind?"

Song Rui looked like he had nothing to live for and said, "Oh! I know!"

Song Rui carried out his girlfriend's orders with determination. Although he looked bitter, he still ran to the Polo car parked at the entrance.

"Yiyi!" Song Wei said with a smile. That's good! He actually taught my uncle song Rui to be so well – behaved! You're really good at this!"

Song Qiming and elder song were from the same village. They were relatives for several generations. Song Qiming and song Rui were of the same generation. Therefore, Song Wei should call song Rui uncle. However, they were of the same age, so she would not call him that under normal circumstances.

Zhuo Yiyi said casually, "I didn't teach him anything. He did it willingly!" Besides, I'm quite good to him. I even applied for a fitness card for him some time ago! That guy just eats and drinks all day and doesn't exercise. He's so young and already has a small stomach ..."

Ling Qingxue smiled and said, "Yiyi, you're really good at this!"

However, Song Wei caught the main point and said, "Yo! You even know uncle song Rui's stomach so well! It seems that you guys are developing very quickly!"

No matter how insensitive Zhuo Yiyi was, she couldn't help but feel her face heat up. She said in a low voice, "Wei Wei, why are your thoughts so dirty! I saw it when I was swimming with him! What are you thinking?"

"What else could I be thinking?" Song Wei replied with a smile. I just wanted to say that you guys went swimming and working out together. It's obvious that your relationship is developing very quickly! Where do you think I was thinking?"

Chapter 2459 The peach blossom gathering (2)

Zhuo Yiyi was at a loss for words. After a long while, she glared at Song Wei and said, "I didn't expect that you'd become bad after not seeing you for a few months! Sister Qingxue, Wei Wei used to be an obedient girl! Now it's simply ... I don't even know who he learned it from!"

Ling Qingxue glanced at Xia ruofei with a half – Smile and said, "A bad man must have led her astray!"

"That's right, that's right!" Zhuo Yiyi said, "Weiwei, you've fallen!"

Xia ruofei laughed bitterly to himself. "It's fine for you women to tease each other, but why are you looking at me?" So Wei Wei was led astray by me? Was this considered a collateral damage?

Luckily, Ling Qingxue only glanced at Xia ruofei and did not make it too obvious. Hence, Zhuo Yiyi and Zhao Yongjun did not notice anything unusual.

Song Wei was standing diagonally opposite Ling Qingxue. She had seen everything that had happened just now, and she could not help but feel embarrassed.

Although Song Wei and Xia ruofei did not have any physical contact, they had tried all kinds of embarrassing positions when they were cultivating their spirit bodies together. Therefore, Song Wei was much bolder when it came to sex.

In the past, the shy Song Wei would not have teased Zhuo Yiyi like that.

She felt a little guilty from Ling Qingxue's intentional or unintentional gaze, so she quickly changed the topic."Big brother Zhao, didn't you want to show us around the club? Yiyi, you come with us!"

"Good, good!" Zhuo Yiyi said happily, "I was worried that I'd be bored attending the celebration here! I didn't want to come at first, but now that sister Qingxue and Weiwei are here, I'm sure it won't be boring!"

Following that, Zhuo Yiyi shouted at Wei Jun, who was not too far away, "Little Wei! Help me tell song xiaorui that I'm going on a tour of the club with Weiwei!"

"Alright!" Wei Jun quickly replied. Sister Yiyi, you go! I'll tell brother Rui!"

"Let's go!" Zhuo Yiyi said excitedly, "big brother Zhao, I'll have to trouble you!"

Zhao Yongjun and Xia ruofei looked at each other and smiled bitterly. The three women had chatted for a long time and finally remembered them.

And so, Zhao Yongjun led Xia ruofei and the other three into the club.

Zhao Yongjun introduced as he walked, "Ruofei, you should be more familiar with the area on our left. It's the mushroom house where xiangnan TV filmed life to look forward to. As it doesn't take up a lot of space, we managed to retain the original feel. There are also a few guest rooms there. Members who are interested in experiencing it can stay there or make their own meals. You can even fish at the side. It's a little like a homestay!"

Xia ruofei smiled and nodded. "I even stayed there for a night! The environment there isn't bad, and it seems to match the style of our entire paradise gathering. There's nothing that feels out of place!"

"Yeah!" Zhao Yongjun laughed. Xiangnan TV has just finished filming. Originally, before the filming ended, the first few episodes would have been broadcast at the same time, but because of an internal issue with their seating arrangement, they had a conflict with another variety show, so there was a delay. A few days ago, when xiangnan TV's production team left, they even asked me to explain it to you!"

Xia ruofei waved his hand and said, "what's there to explain?" Wasn't it the same when it was broadcast? Even if it's not broadcasted, I don't care. I'll just treat it as a one – day trip in the countryside!"

Xia ruofei had agreed to participate in the recording of life's dream because of Zhao Yongjun and the others, including Feng Jing. On the other hand, it was for the publicity company's consideration.

He didn't really want to be exposed to the public, so even if the show couldn't be aired and some of the company's exposure was lost, he didn't really care.

Zhao Yongjun nodded and continued, ""The area on the right is a small golf course. Although it's not a standard 18 – hole course, it's very good for leisure and entertainment!"

"If you have time, go and try it out!" Xia ruofei said with a smile.

At this time, song Rui's voice came from behind them, ""Ruofei, you know how to play golf?"

After song Rui parked his car in the parking lot inside the entrance, he heard from Wei Jun that Ling Yiyi and Xia ruofei had gone to visit the clubhouse. He immediately ran over and was still panting.

Xia ruofei turned around and smiled. ""All of you, go away. Are you really okay? We didn't neglect any guests, right?"

"How many people in the circle deserve to be welcomed by me personally?" Song Rui waved his hand nonchalantly and said, "besides, there's still Liu Jian, Xu Zixuan, and the others!"

Then, song Rui asked with great interest, ""Ruofei, have you played golf before?"

Xia ruofei shrugged and said, "no!" I've seen it on TV before! Now we have our own golf course. If there's a chance, we can come and play!"

"No problem!" Song Rui said with a smirk. I'm pretty skilled, I can teach you! When the time comes, let's have a few matches and train in actual combat. Your level will definitely improve very quickly!"

"Alright!" Xia ruofei said.

"But there's got to be a bit of a stake for the competition!" Song Rui said with a smile, "otherwise, without stimulation, I can't perform to my best!"

Xia ruofei replied nonchalantly, "no problem!" What's the big deal with adding a little bit of luck! Even if I lose, I'll just treat it as my tuition fees!"

Zhuo Yiyi looked at him in disdain and said, "song xiaorui, how can you do this?" Handsome Xia doesn't even know how to play golf, and you're still pulling him into a bet! Isn't this a scam?"

"How can it be a scam?" Song Rui said, "You don't know this, but ruofei is too rich. All of us combined don't even have one – tenth of his wealth! This was called beating the rich and dividing the rich! You see, RUO Fei himself doesn't have any objections, right?"

Then, song Rui immediately said, "I saw a Swarovski crystal pendant last time and I've been thinking of buying it for you, but I'm short of money!" After winning against RUO Fei, won't I have enough money to buy you a present?"

Xia ruofei stood at the side and laughed as he watched song Rui show off. He did not say anything.

Ling Qingxue and Song Wei pursed their lips and laughed. They looked at song Rui with sympathy. Even if Xia ruofei had never touched a Golf Club before, he was a cultivator at level 9 of the Qi refining realm and his spiritual power had reached the spirit gathering realm. With his precise control of his power, wouldn't it be easy for him to win against song Rui?

She just didn't know what song Rui's expression would be like if he lost all his pants.

Zhao Yongjun still had the air of an older brother and didn't join in. He just continued to lead everyone forward.

Zhao Yongjun pointed at a six – story building and said, ""This is the main building of our paradise society. Most of the entertainment and leisure facilities are inside, and the area is about 2500 square meters."

Then, Zhao Yongjun led everyone into the main building of the club.

The work of an internationally renowned designer was extraordinary. The building looked very spiritual from the outside. It was not a rigid square shape, but was made up of square modules of various sizes that were put together like building blocks. There was a sense of harmony in the disorder, and many of the designs were in line with Chinese traditional culture.

These modules used a large number of glass curtains, so the internal lighting would be very good.

After entering the main building of the club, Zhao Yong Jun brought Xia ruofei and the rest to look around. There was a gym, a bowling alley, a SPA, a KTV, a sauna, a swimming pool ... Basically, all the common entertainment facilities were here, and there were also many guest rooms of various styles.

Of course, the Ling's private kitchen was also arranged to be in the main building, on the first floor.

After leaving the main building, Zhao Yongjun brought Xia ruofei and the others on a tour. Other than the main building and the mushroom house, there were also some small villas scattered around. They could provide accommodation, parties, and other needs.

Zhao Yongjun pointed at a small villa by the lake and smiled. ""We built a villa in that area according to your request. We've also given orders that it's not open to the public!"

Xia ruofei couldn't help but stare at the array core. He was the one who had specifically suggested building a villa on it.

As cultivators, Song Wei and Ling Qingxue were also keenly aware that the spiritual Qi in that direction was much denser. Their beautiful eyes couldn't help but reveal a trace of amazement.

Chapter 2460 Diamond card (1)

Xia ruofei was very excited, "let's go!" Let's take a look together!"

The group walked towards the small villa.

The entire peach blossom gathering was designed as one. The villa also had some Chinese elements, but it also used some of the modern villa's assembly concepts. The two were integrated together, and there was no conflict at all. It could be seen that the designer's level was high.

After walking into the villa, everyone clearly felt their spirits lift.

In fact, because of the natural array, the spiritual Qi concentration in the entire paradise gathering was higher than that in the outside world. Therefore, after stepping into the paradise gathering, even ordinary people could feel refreshed, and even their mood would inexplicably become better.

This was the magical thing about spirit Qi.

This villa was built on top of the array eye, so it could be said to be the core of the entire array. Of course, the spiritual Qi was the densest.

Of course, compared to the spirit map space, it was still a far cry.

However, to Ling Qingxue and Song Wei, this place was already quite good. They could even cultivate here directly.

They all knew that this was Xia ruofei's doing, and they looked at him with admiration.

Song Rui said enviously, "I feel that this is the most comfortable place in the entire club!" I even want to move here!"

"Xiao Rui," Zhao Yongjun said, "this was decided by RUO Fei first. You can't take what he likes!"

"Don't worry!" Song Rui pouted. Am I that kind of person?"

Xia ruofei laughed and said, "if you like this place, then move in!" Just leave me a room!"

Then, Xia ruofei pointed to the guest room on the first floor and said, "I want this one! You can arrange the other places as you wish! The reason why we don't want to open this villa to the public is that we want to have our own space. Also, some things have to be hidden well to prevent others from destroying them, right?"

Xia ruofei's words were vague, but when Xia ruofei first set up the array, Zhao Yongjun, song Rui, and the others had personally experienced it. At that time, Xia ruofei set up a Yin array, and it was called a Yin wind! Song Rui almost fainted on the spot, so he naturally had a deep impression of it.

Later on, it was Xia ruofei who took action and turned the yin formation into a yang formation. The aura of the entire paradise gathering's location was also completely reversed. The gloomy aura was completely gone. Not only that, everyone who came here would feel as warm as spring and their mood would be at ease.

Hence, Zhao Yongjun and song Rui understood what Xia ruofei meant.

They were well aware of the importance of this place to the entire paradise Association.

If the formation core was destroyed, the formation would lose its effect, or even worse, it would turn into a Yin formation, and the club would not be able to continue operating.

Song Rui immediately said, "ruofei is right. This place can't be opened to the public!" It's not bad for us to set up our own land! But ... Ruofei, I'll leave the master bedroom upstairs for you!"

Xia ruofei waved his hand and said, "I want this guest room! In addition ... Pass down the order that no one is to enter that room at will. Otherwise, if there is any danger, you will have to bear the responsibility!"

That guest room was located directly above the array eye, and the spiritual Qi was the densest. The master bedroom upstairs was more than three meters above the ground, so the spiritual Qi concentration was naturally not as dense as that of the guest room on the first floor.

Even though Xia ruofei no longer needed to cultivate in the outside world, he could still let Song Wei and Ling Qingxue use it. Cultivating in such an environment would even slow down the consumption of spirit crystals and origin crystals, because the cultivator could also absorb the spiritual energy from the outside world.

Besides, Xia ruofei also had to set up a series of protective arrays in the room.

He had already decided to use his knowledge of arrays to the fullest. This defensive array was as strong as it could be. There was only one purpose, and that was to protect the array eye of the array.

This was why Xia ruofei had warned Zhao Yongjun and Song Rui in advance.

"Alright then!" Song Rui said, "since you like to be down – to – Earth, I'll leave the room on the first floor for you!"

Song Rui had guessed Xia ruofei's intention when he said that. However, he knew that this matter was of great importance, so he did not say it in front of Ling Qingxue, Song Wei, and Zhuo Yiyi.

The group of people took a look around the small villa, then went out from the back door of the villa. They walked around the lake and then prepared to go back.

After all, it was the opening ceremony today. Zhao Yongjun and Song Rui were the leaders of their small team, except for Xia ruofei. His status was a little high and he didn't like to show his face in the circle of rich people in the capital. There would be a lot of guests today, so Zhao Yongjun and the others had to go back as soon as possible to socialize.

The group walked along the lakeside and headed in the direction of the club's entrance.

After walking for a while, Zhao Yongjun patted his forehead and said, ""Look at my memory! I almost forgot about this!"

Then, Zhao Yongjun took out a few cards from his shirt pocket. He gave the top card to Xia ruofei, then gave the rest to Ling Qingxue, Song Wei, and even Zhuo Yiyi.

Zhao Yongjun smiled. "This is the highest level diamond card in our club. Everyone here has one!"

Xia ruofei took the diamond Membership card and played with it for a while. When he saw the number 001 on it, he was slightly stunned and said, ""Brother Zhao, why did you give me the number 1 card? Isn't that a little inappropriate?"
