

God tier Farm 2551

Chapter 2551 Super long – range hanging shot (2)

This was a drop shot! A long – distance lob over forty meters away!

Neto had just abandoned the goal to attack and was still on the edge of the penalty area. He did not have time to return to the front of the goal. At this time, Xia ruofei actually made a drop shot.

Neto felt all the hair on his body stand up. He desperately ran in the direction of the goal with all his strength, but he saw the football go over his head. It was futile for him to reach out. The height difference was far too great!

Neto symbolically jumped high. He did not expect to have teammates on the goal line waiting to clear the siege. Neto just wanted to change the flying trajectory of the football even if his fingertips touched the football a little.

However, he did not touch the ball at all.

Neto's tall body fell heavily on the grass, his head still turning along with the football's trajectory, his eyes full of despair.

In Neto's eyes, the football seemed to have slowed down, or rather, the flow of time in the entire world seemed to have slowed down. He watched the football approach the goal bit by bit.

Bang! Bang!

The football slammed heavily into the lower edge of the crossbar!

However, it did not bounce into the goal. Instead, it landed on the goal line and then bounced toward the small penalty area.

At this moment, Neto felt that the flow of time had returned to normal. He also subconsciously used his hands and feet to rush in the direction of the football. Finally, with a strong push of his legs, he pounced over and pressed the football under his body.

These few short seconds felt like a long time to Neto.

He panted heavily and pressed the football tightly under his body, not moving.

On one hand, Neto was feeling scared. At this moment, his back was already drenched in cold sweat. On the other hand, he also wanted to use this opportunity to buy as much time as possible within the scope of the rules.

The moment Xia ruofei closed the door, the entire court quieted down. Everyone stared at the ball that was spinning at high speed.

When the ball hit the bottom of the goal, it bounced off the goal line and was caught by the inner support. Valencia's fans heaved a long sigh of relief, feeling like they had just survived a disaster.

The Spanish fans in the visiting stands let out a huge sigh.

Beijing, PP sports studio.

“This pass is too small! Wu Lei was trying his best to catch up! Good luck, Wu Lei!” Shen fangjian shouted excitedly, “Aiya! The opposing goalkeeper, Neto, got the ball out of the encirclement first ... Wait! Wu Lei touched the ball, and now the ball bounced near the sidelines! Xia ruofei! He had grabbed the second landing point! He directly fired a drop shot! The goalkeeper did not touch the football ... Aiya! The beam! It’s such a pity ...”

“It’s such a pity!” Jia Tianning couldn’t help but sigh, “if that goal had gone in just now, he would definitely have been selected for the best goal of the round!”

“Let’s watch the slow – Motion replay!” Shen fangjian said, “a moment ago, Xia ruofei was still in the front field fighting with Wu Lei and iglaisias for the high post. After Neto rescued him, he had already rushed to the sidelines. I have to say that Xia ruofei’s judgment of the landing point was too accurate! That was a beautiful shot. To be honest, this position was a little off, but Xia ruofei did not hesitate to choose to shoot from the side. This was beyond everyone’s expectations!”

Jia Tianning said, “Xia ruofei’s shot was perfect in all other aspects, except that it didn’t bring a goal!” From this, it could be seen that Xia ruofei’s footwork was very good! Some netizens are questioning Xia ruofei’s qualifications to compete. I think ... This is the best response for Xia ruofei!”

“After Xia ruofei went on stage, he only touched the ball twice. This time, it hit the lower edge of the scale again!” Shen fangjian said, “we can see the whole picture from the tip of the iceberg. We can be sure that Xia ruofei’s footwork is not inferior to those big star players!”

.....

Thousands of miles away in the capital city’s PP sports studio, the two commentators were still passionately discussing the goal. Xia ruofei, who had missed the goal, did not seem too upset. He just waved his hand casually and started to walk back.

Neto lay on the ground for a while before he slowly stood up at the referee’s urging.

Before the kick – off, he carefully placed the ball on the line of the small penalty area and then slowly backed away. His speed was like a snail, and he dawdled for a while.

In the end, when Neto kicked the goal ball out, the referee blew the whistle to end the first half of the game.

The players walked off the field. The Valencia players looked serious as they thought about how their performance at the start of the game was like a dream. They had already led by two goals, and everyone thought that it would not be a problem to score three points.

They did not expect the game to turn out like this in the last ten minutes or so, and they were almost equalized by Espanyol.

The Spanish players walked off the field, talking and laughing. Most of them were talking about Xia ruofei’s shot, and their words were filled with regret.

Xia ruofei and Wu Lei walked side by side to the changing room. Wu Lei covered his mouth and said, “Brother Xia, that ball just now was such a pity! I’m a little unlucky!”

Now, a lot of players paid attention to covering their mouths when they spoke on the field. This was not because they had just finished eating garlic, but because they covered their mouths with their hands after being caught by the broadcast camera so that the lip – reading experts hired by the TV stations would not read what they had just said.

Xia ruofei laughed and said, "it's okay. Let's do another lob in the second half!" The kind that is even further away than this!"

Wu Lei knew that he did not have many chances like what he had just done, but he did not refute Xia ruofei. Instead, he nodded his head heavily. At this time, he could not say anything to give up.

However, Xia ruofei did not feel regretful, nor did he lose confidence. He had already done his best with the lob shot just now. That was the only way to get the football past the tall goalkeeper, Neto. He could even roughly judge that the football would hit the crossbar at the moment of the shot, but whether it would enter the goal or bounce out after the rebound would really depend on luck.

In other words, if it were any other player, the result of this drop shot could not be better.

Since it was destined that they would not be able to score a goal, what was there to regret?

During the 15 – minute break, head coach Ruby kept cheering for the players. He even praised the cooperation between Xia ruofei and Wu Lei. When they were arranging the tactics for the second half, Ruby and Xia ruofei had agreed to let Wu Lei try to withdraw and receive the ball. In addition, Ruby emphasized that everyone should try to create free kick opportunities in the front field, because Xia ruofei's free kick technique had not been fully utilized yet!

The halftime interval soon ended and the players from both teams returned to the field at the referee's urging.

Both teams did not make any substitution adjustments and still had the same lineup at the end of the first half.

Espanyol kicked off in the second half.

The referee blew the whistle and the center forward, Iglesia, who was stepping on the football, nudged the ball towards Wu Lei and then ran to the front field.

Valencia's players quickly spread out their formation and pressed forward to take a break. Their manager stressed that they had to maintain the force of the press and not let the Spanish team organize an effective attack.

Wu Lei did not stop the ball. Instead, he passed the ball diagonally behind him. The ball flew accurately towards Xia ruofei on his right.

After Xia ruofei stopped the ball, he took a step forward and passed the center line.

At that moment, a player from Valencia quickly approached from the side. Xia ruofei did not need his teammates' reminders. It was as if he had eyes on his back. He gently nudged the ball to the side and used his body to separate the ball from the player.

Then, Xia ruofei changed his rhythm and sped up to dribble the ball forward, leaving the Valencia player in the dust.

At this moment, Xia ruofei raised his head and saw that the goalkeeper Neto was standing a little forward.

He said in his heart, "damn!" This is looking down on my shooting skills! What could be tolerated?

Even though the ball had just crossed the center line, Xia ruofei did not hesitate and immediately swung his leg over.

With a bang, the football was like a cannonball that was shot out of the barrel, flying quickly in the direction of the Valencia team's goal ...

Chapter 2552 Lost again (1)

In fact, Neto's move was not considered overconfident. After all, the second half of the game had just begun. Valencia's tactic was to carry out a strangulation in the midfield, forcing the Espanyol to continuously pass the ball back. He did not expect the Espanyol's second pass to accurately find Xia ruofei, and Xia ruofei easily dodged the interception that Valencia's players were determined to get.

Also, Xia ruofei's decisiveness was beyond Neto's expectations. In fact, Xia ruofei did not even look in the direction of the goal. It was not until he lifted his foot that Neto realized that it was a hanging shot.

Neto's eyes narrowed. He stared at the football as he quickly retreated.

At this time, Neto was not very flustered, because the position of Xia ruofei's kick was too far from the goal. According to his judgment, even if the ball was shot within the goal range, he would have enough time to react.

However, Neto's expression quickly changed. He found that the speed of Xia ruofei's hanging goal was beyond his expectations. It was much faster than he had predicted. In the blink of an eye, the football had already flown into the penalty area.

Neto hurriedly accelerated his retreat, but it was too late.

The ball was already over his head, and he was still a few meters away from the goal.

Neto gritted his teeth and stomped his feet in the process of retreating. He pulled up in place, hoping to intercept the ball in the air.

However, Xia ruofei's leg shot was executed perfectly.

Even if Neto jumped with all his might, he still could not touch the ball, not to mention that he jumped in the process of retreating, which made the height even less.

Neto could only watch the football fly past at least 20 to 30 centimeters from the highest point of his fingertips.

When he fell heavily to the ground, he could still see the football whizzing into the net from the corner of his eye. It bounced around inside the goal and finally stopped.

Even the referee was stunned for a moment. Then he whistled and pointed to the serve point in the center circle.

A lightning – fast goal!

Less than a minute into the second half, or 13 seconds to be precise, the Spanish team was equalized by number 25, Xia ruofei, with a shocking drop shot near the center circle!

The Valencia manager did not even have time to sit down in the technical area. He was dumbfounded as he looked at the football that was still spinning inside the goal. He could not believe his eyes.

On the other hand, the Spanish substitutes' bench was in an uproar. The substitutes and coaching staff all jumped out of their seats and hugged the people around them to celebrate the goal.

Even Puado jumped out of his seat reflexively, but he immediately realized that the one in the limelight was the Chinese player he hated the most, so the smile on his face was retracted before it could bloom.

However, the substitute player beside him held him and shouted in his ear, "This goal was too cowardly! It's so fucking awesome, isn't it?"

Puado forced out a smile and said, "Yes, yes ..."

The substitute did not notice Puado's perfunctory reply. In fact, he was already in an extremely excited state. After hugging Puado, he immediately turned around to hug another teammate.

Espanyol's head coach, Ruby, widened his eyes in disbelief. At the same time, he waved his hands as if to confirm that he was not dreaming.

Ruby's action was also faithfully recorded by the camera and became a very interesting behind-the-scenes footage of this round of La Liga. The Chinese sports media, in particular, repeatedly played this scene in the next few days.

From the perspective of the Chinese media and Chinese fans, it was indeed a very satisfying thing for a Chinese player to successfully stun their own head coach with his amazing performance.

In the away team's stands, the fans had long gone crazy. From falling behind 0 – 2 not long after the start of the first half to the equalizer at the start of the second half, the feeling of the roller coaster – like ups and downs was too exciting.

Moreover, Xia ruofei's hanging shot was so wonderful that it could be said to be one of the top ten goals in this round. Even in the long season, such a goal would be often mentioned.

Valencia's goalkeeper, Neto, had it tough. Every time the goal was replayed in the future, he would become the backdrop, showing his most embarrassing scene in front of everyone.

Xue Jinshan and the others were jumping and shouting in the stands, completely free. Some of the employees of Paradise Corporation did not watch football much before this. In the first half, they were still a little embarrassed, but now it seemed that they had already become one with the pure Spanish fans, there was no difference at all.

Xue Jinshan jumped as he shouted, "What did I say? As long as the chairman wanted to score, no one could stop him! What was awesome? This is called awesome!"

After half of the match, Xue Jinshan's voice had become hoarse. His voice sounded somewhat comical, but no one laughed at him because they were all in the same mood.

PP sports studio.

The moment Xia ruofei kicked, Shen fangjian said subconsciously, "Xia ruofei was a little too hasty with this shot! He had already dodged the other side's rush, and his own players had not yet cut in. Such a Big Shot ... Wait! This was a hanging door! Valencia's goalkeeper, Neto, was running back with all his might! He jumped up ... But did not touch the ball! The ball went in! The ball is in!"

Chapter 2553 Lost again (2)

After Shen fangjian spoke a long paragraph in one breath, he quickly took a breath and immediately said excitedly, "This ball was so beautiful! It was really too beautiful! It was like a piece of art! I really can't believe that this was kicked out by us Chinese players ... Please forgive my words, but this is indeed how I feel at this moment!"

"Xia ruofei was very calm with that shot!" Jia Tianning said from the side, "and after he deftly dodged the other side's rush, he didn't even look at the goal and directly shot a high – Quality drop shot! This meant that he had been observing the situation throughout the game and had a very good field of vision. He immediately noticed that the goalkeeper was standing closer to the front, so he did not hesitate to shoot! There was no doubt that Xia ruofei's vision and awareness were much better than the domestic players! Just this goal alone was something that many big – Name European star players might not be able to achieve! This goal is destined to be remembered for a long time!"

Shen fangjian's emotions had calmed down a little. He smiled and teased, "Tianning, the netizens are saying that you're the Vice – Leader of 'wuchui Hall'. I think you should be promoted and directly become the leader of 'xiachui Hall'!"

Upon hearing Shen fangjian's words, many fans who stayed up late to watch the game almost spat on the computer monitor. No one had expected Shen fangjian, who was from the National television station, to have such a mischievous side.

"I dare say that if Xia ruofei continues to play professional football, his achievements will definitely be beyond our imagination!" Jia Tianning didn't mind Shen fangjian's teasing. He said, "but considering Xia ruofei's identity, I don't think he'll really become a professional player!"

Perhaps Shen fangjian thought of the current situation of the national football team and felt a little heavy, so he directly changed the topic and said, "Let's just enjoy happy football! I believe that a month ago, we wouldn't have dared to imagine that two Chinese players would score in the top league. Tonight's game is simply a Chinese – only game!"

"I've even thought of the headlines for tomorrow's press," Jia Tianning laughed. China's Twin Stars, dazzling West a!"

It was indeed a familiar smell! Whether it was wuchui Tang or xiachui Tang, Jia Tianning was indeed a very competent Hall Master.

.....

Back on the field, the Spanish players were celebrating wildly at Valencia's home ground. The home fans in the stands were unusually quiet. They were shocked by Xia ruofei's brilliant shot. Some fans even applauded the beautiful goal.

Football was never just about confrontation. When pure fans saw such a goal, even if it was scored by an opposing player, they would also express appreciation from the bottom of their hearts.

It had only been a minute since they had watched the game, and the players from both sides had returned to their own half to prepare for the kick – off. The difference was that this time, it was the valentian team who kicked off, and the score on the field had already been rewritten to 2:2。

The referee blew the whistle and the game resumed.

The valentian team did not press on and attack wantonly just because they were equalized by their opponents at home. After they kicked off, they kept passing the ball in the middle and backfield, sending safe passes. They would rather return the ball if they did not have a good opportunity to attack.

Before they knew it, they had already passed the ball more than 20 times and had always firmly controlled the ball under the feet of their own players.

It was not that Valencia's players did not want to win on their home ground. Against the Spanish team, who were obviously not as good as them, and on their home ground, Valencia would definitely want to score all three points.

However, these players were very experienced. They knew that after Xia ruofei's wonderful long shot, the Spaniards' morale must have been greatly improved. In contrast, the mentality of their own players would be more or less affected. In addition, they still had a lot of game time, so they decided to stabilize their position first.

As a result, after a lightning – fast goal in the first ten seconds, the game gradually entered a calm period.

The players on both sides were mainly focused on the midfield. Once they lost the possession of the ball, both sides would launch a counter – grab on the spot, which naturally led to more fouls. The referee's whistle rang continuously, and the game was cut into pieces.

The fans at the venue were a little drowsy, not to mention the Chinese fans who were watching the live broadcast on TV or in front of the computer. It was now past four o' clock in China time. Fans who had the experience of staying up late to watch the game knew that if the pace of the game was fast and smooth, it was fine. But once the game reached a deadlock and became dull, the sleepiness could not be suppressed even by a few cans of Red Bull.

Just as many Chinese fans were yawning, the situation on the field suddenly changed and another goal was scored!

However, the goal was scored by the Valensia team.

The loss of the ball this time was due to the opponent's high – Post rush. After successfully intercepting the ball in the Spanish backfield, they counterattacked on the spot. With a simple inverted triangle Pass, Valencia's No. 9 forward, Gamero, faced most of the empty goal and easily pushed the ball into the net.

Ruby's lungs were about to explode on the sidelines. It was not easy to equalize the score, and the team saw the hope of taking away a point in the away game. They did not expect that after holding on for more than 20 minutes, the goal was lost again.

And the reason for conceding the goal was, to be honest, an old habit of Spain.

Espanyol was a team that paid attention to pass control and did not easily use long balls or long passes.

Chapter 2554 Lost again (3)

The fans who often paid attention to Espanyol's games knew that the scene looked a little thrilling when the team passed the ball back and forth in the backfield.

Sometimes, when he passed the ball back to the goalkeeper, the other side had already rushed up at high speed, and there were opposing players near several points of the ball. In this case, most goalkeepers would choose to send the ball out with a big kick, or even directly destroy the sidelines.

However, in such a dangerous situation, Spain would still choose a short pass or even a cross pass in the penalty area, which was frightening.

It was the same with the goal concede just now. The old goalkeeper, Diego Lopez, still chose to pass the ball over when there were already opposing players behind his teammates in front of the penalty area. As a result, the opposing player accelerated forward and directly intercepted the ball.

At this time, the RCD Espanyol's players in the middle and front field had spread out and launched an offensive formation. As a result, they lost the ball all of a sudden. The result was obvious.

The other party directly took two steps into the penalty area and made a shot. Just as Diego Lopez was about to get down and save, he turned his ankle and made a pass.

The defense in the middle had completely lost its position. Without anyone marking him, Gamero pushed the ball at close range, while the goalkeeper, Diego Lopez, had lost his center of gravity and could only watch as the ball entered the net.

3:2, the home team once again exceeded the score.

At this time, the game time was close to 70 minutes, and many players were almost at their physical limits.

Many Spain players had a feeling that they had lost the game after conceding another goal at this time.

In the remaining twenty minutes of the game, Valencia would definitely strengthen their defense in the hope of holding on to their one – point lead. It would not be easy for Spain to equalize the score again.

Wu Lei was helpless. Xia ruofei's stunning shot had leveled the score. However, due to a mistake in their backfield, the point that was almost in their hands had flown away.

He was a newcomer and couldn't blame his teammates in the backfield. He could only walk to the center circle with his head down.

Xia ruofei walked to Wu Lei and patted his shoulder. He smiled and said, "Lei Zi, the match is not over yet, don't be discouraged!"

"It's such a shame to concede so many goals," Wu Lei said helplessly.

"It doesn't matter. The game is not about who concedes fewer goals, but who scores more!" Xia ruofei smiled. "Since we're behind again, we'll just try to score more goals!"

"It's easier said than done ..." Wu Lei said with a bitter smile.

"That's why we have to work hard! I can't be discouraged at this time!" Xia ruofei said.

Then, he clapped his hands and shouted in Spanish, "Guys! All of you raise your heads! The match was not over yet! We're only one goal behind! There's still a lot of time for us to equalize and even overtake the score!"

Although Xia ruofei was not the captain, he was one of the bosses of the club. This special identity, coupled with his amazing free kick technique, made him very prestigious among his team members.

Xia ruofei also saw that everyone was a little discouraged and confused, so he stood up in time to boost the morale of the team. At this time, the captain, Victor Sanchez, was immersed in deep regret and annoyance.

After hearing Xia ruofei's words, the players' spirits were lifted.

Xia ruofei said to Wu Lei, "Lei Zi, pass the ball to me after the start of the game. After that, just focus on charging towards the other half of the field!" Run as fast as you can! I'll pass the ball to the most comfortable position for you!"

Wu Lei nodded heavily. He was not sure if he could turn the score around, but he had absolute trust in Xia ruofei.

At the 73rd minute, Espanyol kicked off again and the game resumed!

After Iglesias passed the ball to Wu Lei, Wu Lei passed the ball back to Xia ruofei who was behind him on his right. Then, he rushed to the front field without hesitation. He really used all his strength and quickly overtook the team's main center, Iglesias.

However, Wu Lei did not stop. Even though Valencia's defensive line was right in front of him, he did not slow down.

Wu Lei believed that Xia ruofei would definitely pass the ball and would not let him be offside.

Sure enough, after Xia ruofei and his teammates backcourt passed the ball twice, he quickly raised his hand for the ball. Without any hesitation, Mark Roca passed the ball to Xia ruofei again.

At this moment, Xia ruofei turned his body to face the goal. He did not stop the ball. Instead, he made a half-turn and the ball suddenly changed direction and flew towards the front field at high speed.

Just as Xia ruofei made his move, Wu Lei had already crossed the opponent's defensive line.

It was a wonderful anti – offside cooperation!

As Valencia's defender chased after Wu Lei, he raised his hand at the assistant referee to signal for Wu Lei to be offside.

However, the assistant referee had clearly seen that when Xia ruofei had passed the ball, Wu Lei had not been in an offside position at all, so naturally, he had not been moved.

Wu Lei quickly turned his head to take a look and saw the ball fly past him and land not far in front of him on the right. The ball did not accelerate after it landed, so Wu Lei caught it very comfortably.

He took the opportunity to lead the ball forward and saw that the front was a wide expanse of flat land.

However, Valencia's defender was also very fast. As soon as Wu Lei started to speed up, the defender, Voss, was already behind him.

Woos pulled Wu Lei's Jersey very discreetly. Wu Lei was in the stage of accelerating forward. Although he did not use much strength, it destroyed Wu Lei's center of gravity. Wu Lei suddenly fell on the grass and angrily spread his hands at the referee.

The main judge's angle was very good. Although woos' movements were very hidden, he could see them from his angle. Therefore, the main judge didn't hesitate to blow his whistle and quickly ran to the scene of the incident.

Chapter 2555 Super elevator ball (1)

Woos couldn't help but loudly defend himself, while at the same time he kept making diving movements, indicating that Wu Lei was "diving," which meant a dive.

However, the main judge was unmoved. He walked straight to worthy, reached into his pocket, and took out a card, flashing it at him.

It was only then that everyone saw that the hand of the referee was actually red!

The home fans in the stadium immediately booed loudly, and all of Valencia's players on the field surrounded them. Voss was even more agitated, blocking in front of the referee and trying to explain himself. His saliva was almost on the referee's face.

"Mister! How could this be a red card!" Weiss had an innocent expression on his face. "I didn't even touch him! This Chinese man is a shameless liar!"

The referee shook his head and then pointed to the outside of the field with a firm look, indicating that woos should stop pestering him and leave the field as soon as possible.

In fact, everyone knew that when the main referee made a decision, it was extremely unlikely for him to overturn his decision and change the judgment, unless it was a major misjudgment related to a goal, penalty kick, or red card. According to the rules, the assistant referee could remind the main referee through the walkie – talkie, but the final decision was still in the hands of the main referee.

Like this ball, if there was a problem with the referee's decision, the video assistant referee would remind him over the walkie – talkie. After all, it involved a red card.

No matter what the result was, every time there was a penalty that was not conducive to their side, the players would certainly rush forward to appeal. At this time, everyone was as innocent as a little white rabbit.

In China's capital, PP sports studio.

Shen fangjian said, "I don't know what's there to argue about." The action of pulling him up was so obvious that Wu Lei's Jersey was deformed! Also, Wu Lei has a chance for a one – on – one shot, and woos is the last defender besides the goalkeeper. According to the rules, this is definitely a red card!"

Jia Tianning said with some regret, "Xia ruofei's pass just now could be said to be wonderful. It's a pity that such a good one – on – one opportunity was wasted!" Even though Valencia paid the price of a red card, she managed to secure the lead in the score. In the next 20 minutes, they will definitely be more determined to defend. After all, it's 10 against 11. "

Shen fangjian said, "the most infuriating thing is this place!" If Wu Lei advanced another ten meters, he would at least get a good free kick. Of course, it would be even better if he could break into the penalty area! But now ... The goal is nearly 35 meters away from the goal. This excellent chance to score can be said to be far away from the RCD Espanyol!"

On the internet, the Chinese fans 'imaginations were running wild. The most liked comment was as follows:

Woos didn't do enough homework before the game! He definitely didn't know Wu Lei's characteristics! Otherwise, he would have just let the ball go. Now, he was sent off with a red card ...

He was ridiculing Wu Lei's impenetrable defense.

On the court, Valencia's players gradually accepted the result. Woos, under the persuasion of his teammates, slowly walked off the court with a wronged expression. Since it was already an irreversible fact that he had been sent off, he could only make one last contribution to the team, which was to leave the court as slowly as possible. It was good to buy some time.

Instead of going straight back to the locker room after leaving the field, vos stood at the players 'passageway and looked around.

On the other side, the Spaniards were ready to take the free kick.

In the PP sports studio, Shen fangjian said in surprise, ""Xia ruofei is the main penalty?"

"It looks like it. Xia ruofei is standing in front of the ball alone. There's no one to cover him." Jia Tianning said.

"I didn't expect Xia ruofei to become the first free – kick player the moment he joined the team!" Shen fangjian said with a smile.

Jia Tianning said, "the distance of the ball is too far. The possibility of a direct shot is very low. From today's game, Xia ruofei's footwork is still very outstanding. I think he will be the one to hang the ball

into the penalty area. As for whether to snatch the nodding ball to attack the goal or to do it back and then shoot, it will depend on the tactical arrangement of the Spanish team.”

In fact, Jia Tianning was not the only one who made such a judgment. The Valencia players on the field thought so too. Youyou only sent two players to form a symbolic human wall. Most of their forces were concentrated in the penalty area, ready to grab the first drop point.

The Spaniards also sent a considerable number of players to wander back and forth in the penalty area, making it look like they were fighting for the drop point.

The referee showed the whistle in his hand to Xia ruofei, indicating that he wanted to hear the whistle for the penalty shot.

Xia ruofei smiled and nodded. The main judge then ran to the side and blew the whistle.

“Let’s take a look at this free kick!” Shen fangjian said, “Xia ruofei’s run – up distance is not far. It seems that coach Jia’s judgment is right. This ball will not be shot directly.”

For such a long – ranged free kick, if he were to shoot directly, he must retreat a sufficient distance. Only through a sufficient distance of run – up could he ensure that the kick had enough initial speed.

Now, Xia ruofei had only taken three or four steps back. He had no intention of directly opening the door.

Valencia’s goalkeeper, Neto, was also focused on the penalty area. His biggest advantage in the penalty area was that he could use his hands. After the ball was hung into the penalty area, he would rush up immediately. It would be best if he could pick it up directly. If it was not easy to get, he would at least drive the ball out of the penalty area and keep it away from the danger zone.

Chapter 2556 Super elevator ball (2)

Neto had this thought in mind to defend against this free kick.

After the referee blew the whistle, Xia ruofei started to run.

His run – up speed was not fast, but it had a unique rhythm, as if every step was stepping on people’s heartbeats.

The distance of three to four steps was covered in the blink of an eye. Xia ruofei started to swing his legs. His thighs moved his calves and he kicked the ball out with a bang.

The players from both teams in the penalty area started to move. Wu Lei, who was not particularly tall, was near the penalty area. After Xia ruofei sent out the free kick, Wu Lei immediately rushed towards the goal at high speed.

As soon as the ball was kicked, Valencia goalkeeper Neto had a preliminary judgment. It was too high!

According to the normal trajectory, the ball was too high and no one in the penalty area could reach it. The ball had a high probability of flying directly into the stands.

Just as Neto heaved a sigh of relief in his heart, he was shocked to find that the football had actually begun to fall rapidly.

If the ball were to follow a normal parabola, it would fly directly out of the end line as it fell.

But now, the trajectory seemed to have changed. The upward curve was relatively flat, but when the football reached the highest point and fell, the curve suddenly became steep. The height of the football dropped rapidly.

This was not a pass! This thought came to Neto's mind.

His body reacted quickly and he moved to the other side of the goal without hesitation.

In the process of moving, Neto leaped up. His body was extremely stretched, and his arms were stretched to the straightest.

However, Xia ruofei's kick had hit a theoretical dead corner. Neto's position had been slightly to the left. It was too late for him to react.

With a whoosh, the ball flew directly into the goal from the corner between the crossbar and the pillar!

"The ball is in!" Shen fangjian roared with passion, "this ball is like a fairy from beyond the heavens! The elevator ball 35 meters away! It was really unimaginable! I don't know what words to use to describe such a beautiful goal! This night belongs to Huaxia, Xia ruofei, and Wu Lei!"

Even the newly appointed Hall Master Jia Tianning didn't know how to brag at this moment. For the first time, he suddenly felt his vocabulary was lacking.

On the major TV stations and broadcasting platforms, commentators in various languages also went crazy. They were all searching for words of praise, but they found that no matter what kind of language they used, in the face of such a beautiful goal, they seemed so pale and powerless.

Most of the commentators just kept shouting "goal", using their hoarse voices to release their passion to their hearts 'content, and also infected the fans who were watching the game.

Valencia covered her head in disbelief on behalf of the rest of the substitute players.

In sharp contrast, in the substitutes 'bench of Spain, all the players, coaches, and staff members were huddled together and celebrating the goal.

One of them was Espanyol's manager, Ruby.

Ruby had seen Xia ruofei's free – kick skills and had made targeted arrangements in tactics. However, when Xia ruofei really used this weapon to score a goal, he could not suppress the ecstasy in his heart.

This was a goal worth a fortune!

Because of this goal, Espanyol tenaciously equalized the score again.

3 to 3.

It was supposed to be Valencia's match, but because of the two Chinese players, Xia ruofei and Wu Lei, it had turned into a game of goals.

Also, when Wu Lei made this free kick, he successfully caused the opponent's main defender to be sent off with a red card. It could be said that the situation on the field had been completely reversed.

When Xia ruofei was standing in front of the ball, Ruby was worried. The ball was further away and the position was slightly off. Although Xia ruofei had a high hit rate at a distance of 30 meters, the difference between 35 meters and 30 meters was not just a small difference in numbers. Ruby was not confident.

However, it was soon proven that Xia ruofei's shooting range could go even further. His free kicks were like precision – guided missiles!

The moment Xia ruofei scored, Ruby felt a sense of pride. He had never had much hope for Xia ruofei's goal to enter the European tournament. However, when he realized that he had Xia ruofei as his trump card, this goal did not seem so far away.

However, Ruby quickly returned to reality and forced Xia ruofei to fight with the team for the next season. This was basically unrealistic.

After returning to reality, Ruby quickly became excited again. No matter what the next match was, it was fine as long as he felt good! What's more, the Spaniards were not weaklings. They had a chance against the league's visiting teams. Even without Xia ruofei, they had a high chance of staying in the league this season.

Furthermore, Xia ruofei had promised to play for the team in some crucial games, which was enough.

The players were still celebrating wildly on the field. Ruby's imagination was already running wild. If Xia ruofei could play in the team's game against Barcelona, would there be a miracle? What could be more exciting than cutting off a piece of meat from a mortal enemy in the same city? Even if this mortal enemy from the same city did not even look him in the eye.

Chapter 2557 Super elevator ball (3)

The RCD Espanyol players ran towards Xia ruofei, high – fived him, and hugged him. Xia ruofei, who was surrounded by the crowd, had become the spiritual leader of the team.

As for Wu Lei, he did not hesitate to move forward when Xia ruofei took the free kick. He did not slow down after the ball went into the net. He rushed into the goal and before the Valencia players could react, he picked up the ball and ran towards Xia ruofei.

Many people thought that it was a great achievement to be able to force Valencia to a 3 – 3 draw in the away game, but Wu Lei felt that it was not enough.

There are still more than ten minutes left, and the morale of the other side has been greatly reduced. Moreover, they are now one person short, so why can't we reverse the score?

Xia ruofei also noticed Wu Lei's actions. He was also a supporter of Wu Lei's brothers, and he did not want to play with them just for a draw!

Hence, Xia ruofei quickly asked everyone to speed up and return to their own half of the field.

When they arrived at the center circle, Wu Lei placed the ball in his hand heavily on the starting point. He then looked at the Valencia fans with a burning gaze, showing his endless fighting spirit.

Valencia's players were a little dumbfounded. They had not recovered from the shock of losing the goal, and Wu Lei's move had more or less angered them.

They really think we're their bellies! Since when did Espanyol dare to be so arrogant at our home ground?

The point was that even though the score was 3 – 3, the strength of the Spanish team was still there. Even if Valencia was down one player, it was not difficult for them to maintain the score. If the opponent was Barcelona, Real Madrid, or Atletico Madrid, and the opposing players were eager to kick off, the morale of Valencia's players might be affected even more. However, the effect was the opposite since the opponent was Espanyol.

After Valencia kicked off, the players gathered their energy and ran and rushed to make up for the disadvantage of having one less player. Even though they were almost exhausted, they gritted their teeth and persevered.

Moreover, because of the grievances in his heart, his defensive actions inevitably became bigger. The referee repeatedly whistled to stop the game and even showed a yellow card, which barely suppressed the smell of gunpowder on the field.

Of course, Xia ruofei's free – kick had made Valencia's players very alert, so they controlled their actions and did not easily foul near their own goal area. This so – called "area close to the goal" had been expanded to more than thirty – five meters.

It was already the 85th minute, and the score was still three to three.

The Spanish team tried to attack a few times, but they were all defended by Valencia tenaciously. They were almost counterattacked. If it were not for the fact that Valencia was short of one player and everyone was exhausted, the score might have been rewritten.

As time passed, the morale of the Spanish players, which had been boosted after Xia ruofei's goal, gradually fell. Especially when they saw that the game was about to end, everyone gradually had the idea of playing it safe.

After all, if the opponent scored a goal at this time, the one point they had won would be gone. In the case of a draw, the closer the end of the game was, the more cautious both sides would be.

However, Wu Lei was still very active in the front field. As long as his side was attacking, he would spare no effort to run for the gaps. Even if eight out of ten times the ball was not passed in his direction, he was not discouraged at all.

There was also Xia ruofei. Although he did not seem to have much presence in the game and did not touch the ball many times, he was like a lurking sniper, patiently waiting for the opportunity to pull the trigger.

Xia ruofei felt that this moment would not be too far away ...

Chapter 2558 Heavenly fairy! Fatal blow!_1

One spurt of energy, then waning, and finally exhausted.

This principle was not only effective on the offensive side, but also on the defensive side.

With the score equalized and one player down, the Valencia team was so tense that many people forgot about their fatigue and spared no effort in running.

And when the Spanish team's offensive gradually weakened, the valentian players' energy also began to involuntarily leak.

At this time, the regular game time was about to end. Including the injury time, there were only six or seven minutes left in the game.

Valencia's players thought that they could hold on to the draw. The players of the two teams were exhausted and they were short of one player, so they did not have the confidence to get all three points. They just thought that a draw would be good enough.

However, this was actually the most dangerous time.

The valentian players were not aware that a crisis was quietly approaching.

It was still the Spanish team that organized the offense. It was almost the norm in the last ten minutes of the game, but because of the Valencia team's strong defense, this kind of attack was basically ended in the midfield.

Spain's young midfield core, mark Roca, took the ball. Xia ruofei pulled it to the right flank and raised his hand to request.

Xia ruofei's action was rare in this game. Mark Rocca was already a fan of Xia ruofei. At the moment, Xia ruofei did not have any Valencia players defending him, so he naturally would not turn a blind eye to it and passed the ball directly.

After Xia ruofei took the ball, a Valencia player immediately came forward to defend, and another player not far away also moved closer to form a defensive position.

However, Xia ruofei did not move the ball away in time like before. He controlled the football to move forward at a moderate pace. Although he did not look around, his mental power had long been released, and he knew the situation of the entire game like the back of his hand.

Valencia's player was already in front of Xia ruofei. He followed Xia ruofei's rhythm and slowly retreated while staring at the ball, waiting for an opportunity to intercept.

At this moment, Xia ruofei turned his head to the left, as if he was looking for a point to pass the ball. The rhythm of his dribbling seemed to have become a little chaotic.

A chance!

When the Valencia players saw the situation, they did not hesitate to snatch the ball.

At that moment, Xia ruofei's head was still looking to the left, but he seemed to have predicted the player's actions in advance. He did not look back at all. Instead, he used his right foot to pull the ball back lightly. While he dodged the fierce interception, he used his left foot to pull the ball forward. His body used the defender as the axis and he turned around nimbly, going past the defender completely.

Marseille turn!

The commentators all exclaimed.

Xia ruofei's performance was very eye-catching, but it was mainly in terms of passing and free kicks. Of course, there was also that shocking hanging shot, which showed that his footwork was superb.

However, Xia ruofei did not perform well when it came to breaking past players. Basically, he would pass the ball out immediately when the opposing players went up to defend.

Although Xia ruofei's passing was very reasonable, and a simple pass could make the complicated situation clear, he had almost never broken through anyone, which gave everyone the illusion that he was not good at one-on-one breakthroughs.

They did not expect Xia ruofei to be able to do this so easily even though the competition was coming to an end and everyone was exhausted.

The Marseille turn was very light and agile, without the slightest smoke or fire, and easily passed the defensive player.

Generally speaking, by this time, the players' physical energy would have been almost exhausted. Many people would even have technical movements deformed because of the overexertion.

However, Xia ruofei did not seem to be affected.

After he used a Marseille turn to bypass a defender, another defensive player was already in place. It was the experienced captain, Parejo.

As soon as Xia ruofei passed a defender, Parejo was already in front of him.

Xia ruofei's body leaned slightly to the right. The outer instep of his right foot swept along the bottom of the football from inside to outside. Palreho subconsciously shifted his center of gravity to Xia ruofei's right side, but he did not rush to kick out because of his rich experience.

However, Xia ruofei quickly used the inner instep of his right foot to hook the ball in the opposite direction.

The football obediently took a turn and bounced to the left.

At this moment, palrejo's center of gravity had shifted to the right. Although he realized that Xia ruofei was going to break through from the left, he realized that his body could not keep up. It was impossible for him to change his center of gravity continuously so quickly, so his body was stiff.

Xia ruofei nimbly brushed past Parejo. Parejo could only watch as Xia ruofei successfully broke through, as if he was frozen.

"Deep-fried meatballs!" Shen fangjian couldn't help but exclaim, "Xia ruofei used a deft Marseille turn and connected it with a deep-fried meatball. He passed two opposing players in a row, including the experienced captain, Parejo! Right now, there's nothing but flat land in front of him!"

"Seeing our Chinese players make such a gorgeous move in the European top league, I feel like I'm dreaming!" Jia Tianning couldn't help but sigh.

Chapter 2559 Heavenly fairy! Fatal blow!_2

After passing palrejo, Xia ruofei did not hesitate to dribble the ball forward at high speed.

No one, including the players of Espanyol, realized how fast Xia ruofei's speed would be if he were to charge. This was under the condition that he did not use his true energy. He was much faster than these active professional players by relying on his body alone.

Parejo quickly turned around and gave chase. However, he realized in despair that his sprinting speed could not match Xia ruofei's dribbling speed. The distance between the two was getting wider and wider.

The Spaniards also realized that this was a great opportunity. After the valentian team was bypassed by two players in a row, a huge gap appeared on the right side.

Both Wu Lei and iglesias immediately ran forward at high speed. Iglesias went straight into the penalty area, while Wu Lei ran on his most familiar right side.

Xia ruofei was not greedy for the possession of the ball. Before the opponent's defenders were in position, he calmly raised his leg and passed the ball. Similarly, he passed the ball without any observation.

Although Xia ruofei did not even look at it, the accuracy of the kick was outrageously high. It went straight to iglesias in the penalty area.

In fact, Xia ruofei had also noticed Wu Lei, but compared to him, Iglesia's position was obviously better to see that the opponent's defensive formation was not tight in a hurry, and they had changed positions. Now, the one defending against Iglesia was a small man, and Iglesia had an absolute advantage in fighting for the header.

The ball was almost sent to iglesias's head. All he needed to do was to pull it up on the spot and then swing his head to attack the goal.

Everyone's hearts were in their throats the moment iglésias headed the goal.

The ball was too fast and too close. In addition, Xia ruofei's pass had an obvious forward charge, which made the ball even faster.

It could be said that as long as iglesias was within the range of the goal, the goal was almost certain to go in.

Valencia's goalkeeper was also in despair. He could only watch as iglassias headed the reverse corner and the football flew toward the left corner of the goal. Even if his arm was ten centimeters longer, he would not have been able to reach it.

As soon as the ball was headed out, he felt like it was there. He even wanted to start celebrating.

However, with a loud bang, Iglesia's heart sank to the bottom. The ball was almost in his mouth. He actually headed it a little higher, and the football hit the crossbar and then bounced out of the penalty area.

The football bounced in the direction of Wu Lei's forward plug, but the height was a little high. Wu Lei jumped with all his might, but the football still fell behind him through his hair ...

This was the best chance, and the game was quickly entering injury time. Perhaps this was the last chance. He did not expect Iglasias's header to miss by a hair's breadth, and he was unable to grab the second drop point in time. He had missed it just like that!

Just as Valencia's players heaved a sigh of relief, a blue figure rushed toward the ball from the right flank at high speed!

It was Xia Ruofei!

He did not slow down after passing the ball, but continued to rush in the direction of the penalty area.

Then, the football bounced back just like that.

No matter how strong Xia Ruofei's spiritual power was, it was impossible for him to predict this kind of ball. He did not know at all that Iglecia would head sideways, let alone where the football would bounce to. It was purely his attacking instinct.

In fact, Xia Ruofei had overdone it. However, his strong body coordination allowed him to adjust his center of gravity in time and stop.

At this time, the football had already flown to his side and behind him. He quickly turned his body and did not wait for the football to land. He directly did a half – turn and fiercely kicked the football. The football suddenly crossed a beautiful arc and whizzed back to the goal!

The ball was so fast that Valencia's goalkeeper, Neto, could only turn his head in time and watch the ball enter the net.

The stadium was silent. The Valencia players held their heads in their hands and looked at the ball that was still spinning in the net in disbelief.

We're falling behind just like that? The game is about to end, so ... Are we going to lose? To lose to a weak team like RCD Espanyol on our home ground?

These players were all filled with confusion. The opponent's number 25 player was simply on steroids today. A Chinese player who had never appeared in front of the media, who seemed to have descended from the sky. In today's game, there was a super long – distance drop shot, a super elevator ball from 35 meters away, and a high shot from the corner of the penalty area. There were a total of three shots, and three goals were scored. It was a hat – Magic!

This was simply a bug that had no solution!

Valencia's players and the coaching staff on the sidelines felt a sense of helplessness.

The home fans quieted down the moment Xia Ruofei scored the goal. Then, sparse applause rang out from the stands. Soon, the applause grew louder and louder, and finally resounded throughout the entire Stadium!

The home fans stood up and applauded their opponent's beautiful goal!

The away team's stands became a boiling ocean. The Spanish fans were singing and dancing. Xue Jinshan and the others became the most popular people in the stands because they were Xia ruofei and Wu Lei's compatriots. Everyone enthusiastically came over to chat with them.

Despite the language barrier, football was the best language.

Beijing, PP sports studio.

"After Xia ruofei broke through two of the opposing players, he quickly dribbled the ball through the center line. There is a wide open space in front of him and he has many choices! Wu Lei and iglesis are both quickly cutting forward. This is an opportunity for the Spanish team!" Shen fangjian said excitedly, "Xia ruofei has chosen a 45 – degree angle! The ball could actually go further down the end line ... The drop point was not bad! 'Iglasias' header!' This ball is ... Sigh! It actually hit the crossbar ... Wu Lei didn't get the ball either, it's too ... Wait! Xia ruofei grabbed the second drop point. He did not wait for the ball to land and directly shot it with all his might! Woah! The ball went in! The ball went in! The ball ... Is in!"

Shen fangjian shouted with passion, "this is a beautiful high – Air shot!" The football drew a charming arc and went straight to the dead end of the goal. Neto did not even make a move to save it! Xia ruofei performed a hat – trick! This is a great competition!"

Jia Tianning was also very excited, he said, ""The fans who stayed up all night to watch the game tonight were worth it! I even feel like I'm dreaming! Our Chinese players scored four goals in one game of the top league, and Xia ruofei even scored a hat – trick! This is simply unbelievable!"

"I really regret using the term 'fairy from beyond the heavens' when Xia ruofei scored the second goal!" Shen fangjian said, "this is clearly the perfect replica of the transcendent flying immortal! And Xia ruofei's ball was even further away from the goal! The arc is more beautiful!"

"Fairy from beyond the heavens" was used to describe Zidane's winning goal in the 2002 UEFA Champions League Final game against Reynold's Reynold, where he used his amazing left foot to do a half – turn in the air and score an angry goal.

Indeed, Xia ruofei's shot was very similar to Zidane's famous fairy from beyond the heavens. Moreover, Xia ruofei's shooting position was in the corner of the penalty area, much further than Zidane's shot.

Through the slow – Motion replay, everyone was more aware of the difficulty and excitement of the goal.

At that time, Xia ruofei continued to plug in after passing the ball. In fact, when the ball bounced back from the crossbar, he had already run two body lengths away. However, he forcefully braked to a stop and turned around.

The ball was at the height of Xia ruofei's chest. Under normal circumstances, Xia ruofei would have run towards the ball and stopped it.

But in this way, the opposing defenders would definitely come up and they could only play the position attack again.

Xia ruofei had chosen the extremely difficult half – turn to shoot in the air. At this time, he could not see the goal at all. Moreover, the football was so high that his body was almost horizontal when he shot.

Even so, the football still drew a beautiful arc and hit the absolute dead end!

Chapter 2560 President Xia_stop using your magical power

When Xia ruofei scored, the game had officially entered injury time. There were more goals in the second half and the game was very fragmented at one point, so the referee gave them four minutes of injury time.

Now that the Spanish players were not in a hurry and they were already in the lead, Wu Lei naturally would not run into the goal to pick up the ball. Everyone was surrounding Xia ruofei and celebrating wildly.

Markelka even knelt down on one knee in front of Xia ruofei. It was a gesture of worshiping the king. He even motioned for Xia ruofei to put his foot on it, and then made a shoe – wiping gesture.

Then, the Spanish players surrounded Xia ruofei and jogged all the way to the away team’s stands to greet the Spanish fans who had come from afar.

Xue Jinshan and the others in the stands were cheering at the top of their lungs and waving wildly at Xia ruofei. At this moment, Xia ruofei was no longer just the chairman of paradise Corporation. Xue Jinshan and the others were completely infected by the fanatical football atmosphere and were now acting no different from real Spanish fans.

Valencia’s players were dumbfounded and their faces were ashen. The Spanish team’s celebration was a little long, but none of them stood up to protest. They had no intention of resuming the game at all.

Faced with such a Spanish team, Valencia’s players had the thought that they would be unrivaled. No matter how hard they tried, the opponent had a bug like Xia ruofei and could always score more goals than them ...

In the end, it was only under the intervention of the referee that the Spanish players slowly walked to their own half.

After the valentian team kicked off again, they did not organize any effective attacks. Their morale had been hit to the freezing point by Xia ruofei’s last goal.

The four minutes of injury time quickly passed.

The referee could also see that the valentian team had lost their fighting spirit, so when it was the 94th minute, he decisively blew the whistle and ended the game.

4 – 3, Espanyol had the last laugh at Valencia’s home ground and successfully took away three league points!

The moment the whistle was blown, Valencia’s players felt a sense of relief. They did not have to suffer on the field anymore!

As for Ruby and the coaches, players, and staff on the substitutes 'bench, no one could sit still after the valentian team resumed their kick – off. They all stood on the sidelines and rushed into the field frantically as soon as the whistle was blown.

Although it was just an ordinary game in the long season, it did not prevent the Spanish team from feeling the sense of winning the final.

Because there was a big gap in strength between the two sides, the Spanish team did not expect to get points in this game. Getting a draw was already an unexpected surprise, let alone getting all three points.

In addition, the game was full of twists and turns. First, they were two goals behind, and after a hard – won equalizer, Valensia scored again. At this time, the whole Spanish team was in despair. They did not expect Xia ruofei to use a free kick and a half – turn to shoot in the air, directly snatching the three points from the Valensia team.

This feeling of getting something back and getting it back was naturally more exciting than winning the game smoothly.

The Spanish team celebrated wildly at Valencia's home ground, while the players of Valencia looked dejected. Some of them were so exhausted that they fell to the ground as soon as the game was over. The goalkeeper, Neto, sat on the goal line and lifted his Jersey to cover his face. The impact of the game on him was too great.

While his teammates were celebrating, Wu Lei ran straight to the side of the field to get a ball for the game. Then, he ran to Xia ruofei and stuffed the ball into his hands. He smiled and said, ""Brother Xia! After the hat – trick, you must collect a game ball!"

"Yes, yes, yes!" Xia ruofei said, "I almost forgot about it if you didn't mention it. I still don't have any experience!"

"You're a hat – trick without any experience. This is a bit of a blow!" Wu Lei said with a smile.

Xia ruofei rubbed Wu Lei's hair and said, ""You're already on the right path. Keep going and you can also perform a hat – trick. No! We have to set a higher goal and have four great blessings!"

"En!" "Yes!" Wu Lei nodded firmly, his eyes shining with determination.

Ruby walked over and gave Xia ruofei a big hug.

Ruby said, "Mr. Xia, your performance was really amazing!" I really wish you weren't our boss! That way, I can have a phenomenal star player in every game!"

Xia ruofei laughed. "It's just a competition. It's far from being a phenomenal event. This is too much ..."

"No, no, no! When I was shaking hands with Valencia's manager just now, that guy was full of jealousy and told me to set the penalty for your breach of contract a little higher, or else there will be big teams waving checkbooks to poach you!" Ruby said.

Xia ruofei couldn't help but laugh.

Although the game had ended, the major sports channels and live broadcast platforms around the world were repeatedly broadcasting the highlights of the game, especially Xia ruofei's three goals, which were constantly replayed from multiple angles.
