Chapter 2571 Challenging the Jade pillar array again (1)

Xia ruofei had been staying in a hotel in Spain and it was not convenient for him to enter the spirit map space. That was why he had not taken out the spirit map scroll for more than half a month. This was probably the first time he had not entered the space after such a long time since he had obtained the magical scroll.

Of course, even though Xia ruofei did not enter the space in person, he had been using his mind to sense the situation in the space and communicate with Xia Qing. It might have been fine before, but now there were hundreds of people working for free in the space. If there were too many people, it would be easy for problems to arise. So even if Xia ruofei had absolute control over the space, he would not let his guard down.

He had directly appeared in the mountain and sea realm.

The time in the spirit map space was roughly the same as that of the outside world in China. Hence, when Xia ruofei arrived at the mountain sea realm, the free laborers had just finished their short lunch break. Xia ruofei was able to see the bustling scene of work.

Xia Qing came to Xia ruofei at once, bowed slightly, and called out respectfully, "Master, you're here!"

Xia ruofei nodded and asked, "have these guys stopped?"

"All of them are very obedient." Xia Qing said, "especially after seeing master's immortal means, they all became honest. During this period, the point system has been getting better and better. These people are now desperately performing, hoping to exchange for more points."

Xia ruofei looked at the back view of the high – spirited people heading to various workplace and smiled. "That's good! I just took a look, and with this batch of manpower, the development speed of the mountain sea realm has clearly increased by a lot!"

The most obvious change was in the medicine garden.

At first, there was only about 15 mu of land in the medicine garden, and this was the result of Xia Qing's continuous development. In just over half a month, the area of the medicine garden in the spatial space had already expanded to nearly 100 mu, and it was still expanding at a very fast speed. After the various upgrades, the area of the mountain and sea realm was extremely vast. Even though the development speed had accelerated a lot, in reality, the land that had been developed only took up a small portion.

Of course, the rapid expansion of the herb garden was also due to Xia ruofei's special instructions. Hence, Xia Qing's focus was on the herb garden. Xia ruofei also considered that the pharmaceutical factory was expanding too fast, and the demand for raw materials would increase in the future. So, it was considered a rainy day.

Xia ruofei patrolled around the mountain sea realm and saw the ex – mercenaries working in full swing. He couldn't help but think of Liu chengfeng, who had been locked up in the spatial space a while ago. This guy was the first cultivator he had captured, and he was now under his control with his soul seal.

Ever since Xia ruofei released Liu chengfeng from the three mountains and asked him to return to the sect, there had been no news of him.

However, Xia ruofei could still sense Liu chengfeng's approximate location through the soul seal.

Liu chengfeng had been controlled by the soul seal, so there was no doubt about his loyalty. Now that the soul seal was fine, it meant that he was very safe, so Xia ruofei was not too worried.

Using the soul seal to control Liu chengfeng was also a precautionary move. If there was any conflict with the cultivation world on earth in the future, Liu chengfeng, as a spy, might be able to play an unexpected role.

After Xia ruofei made a round, his figure flashed and he went to the Archean realm.

Today, he wanted to challenge the Jade pillar array on the first level of the exquisite Pagoda.

According to the rules of the Linglong tower, he would have three chances to challenge the Jade stake array every seven days. He had been Spain for more than half a month, so he had already wasted three chances.

After Xia ruofei arrived at the Archean realm, he did not enter the Linglong Pagoda that was located in the middle of the pond.

This was because he had already experienced the power of the Jade pillar array. He knew that even if he had improved by barging in like this, he would still be far from completely passing the level.

Moreover, Xia Qing had told him that this Jade pillar formation was mainly used to cultivate movement techniques.

Hence, Xia ruofei decided to first practice the "floating steps" movement technique he had obtained from the heaven word jade talisman in the primal realm.

The time flow here was 30 times slower than the outside world. Xia ruofei could practice his martial arts movements very calmly.

He stood quietly in the open space beside the pool, slowly adjusting his condition to the best state, and then began to practice according to the essentials of the [floating steps].

The name of this movement technique sounded a bit similar to the Qinggong in wuxia legends, but in fact, there was a huge difference. This was a movement technique used by cultivators in the true sense. It was much more advanced than the so – called Qinggong.

To use the floating steps, one had to combine both true Qi and mental energy. When using the movement technique, one's true Qi had to circulate according to the specific route of the movement technique. At the same time, it also required the cooperation of mental energy. It could be said to be quite complicated.

This meant that once a cultivator's mental power reached a certain level, their brain development would be far greater than that of an ordinary person. If it was an ordinary person, just memorizing the essentials of these movement techniques would be extremely difficult.

Moreover, the practice of body movement was always in a state of motion. While performing body movement, one must precisely control true Qi and mental power, which was impossible for ordinary people.

The current Xia ruofei could only barely perform it. To really perform it at will, one must go through countless practices to form muscle memory. To be precise, it should form a subconscious reaction because this set of movement technique required more than just muscles.

Chapter 2572 Challenging the Jade pillar formation again (2)

Xia ruofei's mind moved and his essential Qi immediately circulated slowly according to the path of the "floating steps". At the same time, he took a step forward to the right ...

Xia ruofei's figure kept moving around on the empty space beside the pool. His speed was sometimes fast and sometimes slow. It looked like his movements were a little clumsy and there was no sense of beauty to speak of.

Only Xia ruofei himself knew that he could not even perform the entire set of body movement once. Every time, he would be stuck at a certain point. If it were in a real battle, just this one point would basically determine the fate of defeat.

However, Xia ruofei was not discouraged. He knew that this was a necessary process.

Although the techniques he had obtained from the Jade talisman of inheritance were directly imprinted in his mind, and even some of his cultivation experience would be instilled into his brain, this only allowed Xia ruofei to have a deeper understanding of this set of movement techniques than ordinary people who had just come into contact with it. To truly master the floating Lotus steps, he still needed to practice it day after day.

Xia ruofei's starting point was already higher than most people because he could skip the learning process and directly start practicing based on the rich experience in his mind.

Besides, Xia ruofei could also feel his own improvement.

He had used the floating duckweed steps a total of three times. Although he would get stuck each time due to various reasons and was unable to smoothly complete it, he would gain some comprehension after each time. In fact, his gains were not small.

Unknowingly, Xia ruofei had been cultivating at the Archean realm for three days and three nights.

His figure had started off clumsy, but now it was starting to become erratic, and his movements seemed to be much smoother.

In these three days and three nights, Xia ruofei had spent most of his time practicing this movement technique. The total amount of sleep he had was less than six hours.

To be honest, this training process was quite boring. However, Xia ruofei had always been a person who could endure loneliness. When he was in the Army, he could lie in a smelly puddle for more than ten hours during undercover training. Even if he was bitten by mosquitoes or smelled bad, he could not move. In comparison, how boring could this kind of training be?

Moreover, he could feel his own improvement every time he practiced. Under the motivation of this sense of achievement, he actually didn't feel that bored.

In these three days and three nights, Xia ruofei had practiced his body movement technique more than six hundred times.

From the beginning, he had made a lot of mistakes. Now, he could perform his martial arts well by relying on his subconscious reactions. Only Xia ruofei knew how difficult it was.

Of course, Xia ruofei also clearly realized that he was still a long way from mastering his body movement technique.

It was just that he was unable to make any progress in his last few practices.

Xia ruofei knew that he had reached a bottleneck.

Xia ruofei was experienced in facing a bottleneck.

He knew that he couldn't be too stubborn in times like this. Under such circumstances, even if he practiced a hundred times or a thousand times, the bottleneck would still be there and there wouldn't be any changes. Some people would even be shaken by the intensity of the practice.

"It seems like it's time ..." Xia ruofei muttered to himself.

Since he had reached a bottleneck, Xia ruofei did not force himself to continue cultivating. He was ready to go to the Jade pillar array in the Linglong Pagoda to see if he could find an opportunity to break through the bottleneck. At the same time, he could also test the results of his three days and three nights of cultivation.

Hence, Xia ruofei walked directly to the Linglong Pagoda through the Jade Bridge.

Although it was not the first time they had crossed the Jade Bridge, Xia ruofei could not help but be amazed when he saw the bridge widening every time he took a step.

Of course, he now knew that it wasn't the Jade Bridge that had changed, but that he had shrunk accordingly.

Or to be more precise, he himself didn't experience any changes. He achieved this magical effect mainly by relying on the extremely complicated space formation of the Linglong Pagoda.

The door of the Linglong tower opened and Xia ruofei strode in.

A ray of light shone down and landed on his body.

This was Xia ruofei's second time entering the Linglong tower. He was already aware of this, so he was not flustered.

He turned around and saw the Golden word "3" on the wall beside the tower's door.

Now, Xia ruofei knew that this number represented the number of times he could pass the levels.

Xia ruofei finally confirmed that even though he had not been here for more than half a month, the number of times he had passed the levels did not accumulate according to the actual number of days. It was still three times.

He could not help but feel a little disappointed.

Xia ruofei quickly gathered his emotions. After adjusting his state of mind, he stepped across the dividing line and entered the area where the White fog was rising. In front of him, a path made of Jade pillars was faintly visible in the White fog, extending directly to the depths of the first level of the Linglong Pagoda ...

Xia ruofei took a deep breath and stepped on the Jade pillar closest to him.

As expected, an egg – sized glow shot towards Xia ruofei from the depths of the fog at an extremely fast speed.

This was Xia ruofei's fourth attempt, so he was not nervous at all. He dodged the light with a slight turn of his body and took a step forward at the same time. Both of his legs landed firmly on different Jade pillars.

Another ball of light shot out from the depths of the fog. At the same time, the ball of light that had missed did not disappear. Instead, it made a beautiful arc and changed its direction to continue attacking Xia ruofei. Together with the new ball of light, they formed a pincer attack on Xia ruofei.

Almost subconsciously, Xia ruofei circulated his essential Qi according to the heart technique of the drifting steps. At the same time, he leaped up lightly and landed on a Jade pillar two meters away.

In the process of flying, two halos brushed past Xia ruofei's body and they missed again.

However, the two halos did not disappear. They continued to chase after Xia ruofei. At the same time, more halos emerged from the depths of the fog.

These halos did not have a constant speed. Although their overall speed was very fast, there was a certain difference in the speed of each Halo. Some halos were even moving at different speeds, making it difficult for Xia ruofei to predict.

Of course, Xia ruofei had some experience now. The first part was not too difficult, so he could deal with it easily and did not panic.

Besides, Xia ruofei knew that the number of halos did not increase indefinitely. The Halos that appeared before would disappear one by one after he had advanced a certain distance.

Of course, the overall difficulty was getting higher and higher. The speed at which the Halos disappeared was much slower than the speed at which new halos appeared. Hence, the deeper Xia ruofei went, the more halos he had to face.

Under this kind of pressure, Xia ruofei's previous practice of body movements came into effect very quickly. He realized that using the floating duckweed steps to break through this Jade pillar array was much easier than the last time when he had to force his way through.

Without realizing it, he had already gone twenty meters deep.

The last time he tried the Jade pillar array, his third attempt had the best result, which was a little more than twenty meters.

This was because the difficulty of the Jade pillar array immediately increased once he entered the twenty – meter mark. He could only manage to advance two to three meters before he could not avoid it. In the end, he was hit by the Halo and was eliminated.

Xia ruofei felt that he still had some energy left in him even though he was 20 meters away.

His mind jolted and he felt that he could use the floating duckweed steps more freely. His figure also became more erratic. In the light that shot over from all directions, he was like a floating duckweed, appearing extremely free and unrestrained.

Xia ruofei did not know how long it had been, but he had completely entered a state of oblivion until a ball of light hit him.

He was immediately thrown out of the range of the Jade pillar array by an irresistible force. At this time, the Golden word on the wall had also changed to “two.”

...

Chapter 2573 Remarkable effect (1)

Xia ruofei stood up from the ground, slightly panting. In fact, the physical consumption was secondary. In the process of breaking through the array, the greater consumption was on the mental aspect. Firstly, the body movement technique of the floating steps required the cooperation of mental power, and it also consumed a lot of mental power. Secondly, he had to maintain a high level of concentration. Even though he had not been in the formation for a long time, he still felt a wave of exhaustion, mainly from the mental level.

However, Xia ruofei was very excited.

Although the process of breaking through the formation was like a moment of enlightenment, with only the scattered and irregularly distributed Jade pillars and the Halos flying over from all directions in his eyes, in fact, after the entire process was over, he remembered every detail of breaking through the formation very clearly.

Of course, he also knew that his score this time was a staggering 35 meters.

Last time, he was defeated very quickly after crossing the 20 – meter checkpoint. At that time, Xia ruofei had a deep sense of powerlessness. He felt that after 20 meters, even if he tried again, his improvement would be limited.

However, after only three days of practicing the floating steps, his results had improved by a large margin.

It could be said that the effect was very remarkable!

Xia ruofei couldn't help but look forward to the remaining two chances. At the same time, he was also looking forward to the movement technique, the light steps.

However, Xia ruofei did not immediately use up his second chance.

On one hand, his body and spirit were not in their best condition. If he were to attempt it now, his results would not be too good.

On the other hand, Xia ruofei's understanding of the floating duckweed footwork had deepened during his first attempt at the Jade pillar formation. He needed some time to digest this.

Xia ruofei caught his breath and walked out of the Linglong tower. He returned to the pond through the Jade Bridge.

Then, he sat down and replayed the process of challenging the Jade pillar array in his mind like a movie. He then combined it with his understanding of the floating steps and analyzed where he had done poorly in the process of challenging the array.

Xia ruofei was a very patient person. He also found his analysis very interesting and not boring.

He sat by the pool for a few hours without moving, like an old monk in meditation.

Suddenly, Xia ruofei, who had been sitting there for a long time, stood up and started wandering around the pool.

The transformation from extreme stillness to extreme movement happened in an instant.

He was still using the floating steps, but it was more elegant and graceful than before he entered the Linglong tower. There seemed to be a wonderful rhythm as he dodged and moved.

Of course, this rhythm was still very unrefined, and it was intermittent. It was obvious that there was still a big gap to the great success of the movement technique.

Xia ruofei performed the floating Lotus steps several times in a row, and he gained new insights every time.

The results of his analysis by the pool were starting to show.

The former was a theoretical analysis, while the latter was a test of practice. Neither of the two was dispensable.

Xia ruofei continued to practice for almost an hour until his mental power was almost exhausted and his genuine Qi was also greatly consumed. He then stopped reluctantly. While panting slightly, he waved his hand and took a stream of spiritual water from the spiritual pool. He gulped it down directly.

Xia ruofei took the Jade futon from the stone room and sat down on it. He continued to analyze his movement technique while recovering his spiritual power.

After about two to three hours, Xia ruofei felt that he was full of energy again. The misty spiritual pool and the Jade futon had the effect of helping him recover his spiritual energy. The spiritual Qi in the space had turned into mist. In such an environment, he naturally recovered quite quickly.

Xia ruofei felt that he was in a good state.

Therefore, he stood up and stepped across the Jade Bridge again, re – entering the Linglong tower. This time, he didn't plan to keep the number of chances he had to pass the levels. He was going to use up all three chances.

This time, Xia ruofei did not hesitate. He stepped into the range of the Jade pillar array, took a deep breath, and stepped onto the Jade pillar.

The light that was moving at an extremely fast speed once again arrived as promised ...

Half an hour later, Xia ruofei was once again thrown out by the strange power of the Jade pillar formation. He landed outside the range of the formation.

Xia ruofei got up and left the Linglong tower without a word. He returned to the pool.

He still sat on the ground and analyzed the situation. Then, he stood up and practiced his movement technique.

After digesting all the knowledge he had gained from the challenge and turning it into an improvement in his body movement, Xia ruofei waited for his condition to recover before entering the Linglong tower to challenge the array again.

This time, he persisted for almost 40 minutes.

When Xia ruofei was once again thrown out of the Jade pillar array by the mysterious force, he could not help but laugh.

The harvest this time was indeed not small!

In his second attempt, his score was already close to the 50 – meter mark.

As Xia ruofei had predicted, 50 meters was not a small gap. After absorbing the knowledge and experience he had gained from his second attempt, he successfully broke through the 50 – meter barrier on his third attempt. Then, he felt the pressure increase sharply. However, with the help of his more and more skilled body movements and the unstoppable momentum in front of him, he was still able to avoid the attacks of the Halos time and time again. Finally, he reached the 60 – meter barrier. Then, he really could not avoid it and finally ended the challenge.

Chapter 2574 Remarkable results (2)

From the last three chances to reaching the 20 – meter mark, to the 60 – meter mark this time, the difference was not just in numbers. In the beginning, the 20 – meter mark was a hurdle. The difficulty would also increase at the 40 – meter mark, but the real hurdle was at the 50 – meter mark. When he broke through the 50 – meter mark on his third attempt, he realized that the difficulty of the Jade pillar array would increase with every ten meters he passed. In the end, he also fell at the 60 – meter mark.

In terms of difficulty, Xia ruofei's challenge this time was more than ten times more difficult than the previous one.

If he had not cultivated the floating duckweed steps, it would have taken him God knows how long to reach 60 meters just by relying on his body's flexibility and reaction speed.

Of course, Xia ruofei also knew that his body movement was still very young. In other words, he still had a lot of potential to develop in his body movement.

In addition, the length of the Jade pillar array was 200 meters, and he was still far from breaking it.

It was conceivable that the difficulty of the formation would increase greatly at the junction of 100 meters. With Xia ruofei's current level of movement, it was already difficult to rush to the 100 – meter point, let alone the second half of the 100 – meter point.

However, Xia ruofei did not feel discouraged at all. On the contrary, he was full of fighting spirit.

After a short rest, he quickly left the Linglong tower and returned to the pool to sit down and examine the process of his third attempt. He had gained a deeper understanding of the floating duckweed steps, especially after crossing the 60 – meter mark. Although he had only persisted for less than 10 seconds, he had gained a deeper understanding of the floating duckweed steps under the extreme pressure.

He naturally had to take advantage of the moment when these insights were the most profound in his memory to properly digest and absorb them. After all, the opportunity to challenge the array was rare, and could only be used once every seven days.

He sat on the Jade futon in deep thought. Although he seemed to be motionless, the scene of him breaking through the array just now kept flashing through his mind at an extremely fast speed.

After thinking for a while, he stood up and practiced the formation a few times. Then, he sat back down and continued to ponder and comprehend.

This cycle repeated. After Xia ruofei used up his third chance to challenge the array, he stayed in the Archean realm for another day and night. Finally, he felt that he had absorbed the insights he gained from the three arrays and transformed them into actual improvements in his movement technique.

In total, Xia ruofei had stayed in the Archean realm for seven to eight days. Other than the necessary time to eat, sleep, and settle the “three emergencies”, he had spent all his time practicing the floating steps. Kasaya's challenge of the Jade pillar array could also be considered as practicing the floating steps, and it was a very effective method of practice. It was a pity that there was a limit to the number of times he could use it. Otherwise, Xia ruofei would not have been willing to leave.

He guessed that it had something to do with energy. Maintaining the magical Jade pillar array definitely required energy. This energy would not be produced out of thin air. It must consume the energy of the spirit map space itself, and this energy was very likely to be spiritual Qi.

It was also because of this that after the appearance of the Linglong tower, the spirit map space could exchange energy with the chaotic space outside.

If the Linglong tower's Jade pillar array could be used limitlessly, it was likely that the spiritual Qi absorption rate in the space would not be able to keep up with the consumption rate, which would hurt the foundation.

Anyway, the rules were like that. With Xia ruofei's current strength, he could not go against the rules of the spirit map space. Hence, he could only do things within the scope of the rules. He was still far from being able to set the rules himself.

Of course, Xia ruofei was not an insatiable person. He knew very well that with the help of the Linglong tower's Jade pillar array, he had taken a shortcut in his body movement training. If it were a cultivator without a spirit map space, it would take ten years, a few decades, or even a hundred years to master the floating steps.

This also depended on whether the person who cultivated had the talent.

However, Xia ruofei had only practiced for a few days and his progress was godly.

It was important to be content.

After finishing his training, Xia ruofei didn't even go to the mountain sea realm to take a look. He left the space with a thought and returned to his room in the outside world.

He had not bathed for seven to eight days and had slept for less than twenty hours. Xia ruofei looked unkempt and unshaven.

When he was cultivating his movement technique, he was completely focused on it, so he didn't feel much. After he finished his cultivation, Xia ruofei, who always loved to be clean, suddenly felt that something was wrong.

In addition, although he had stayed in the Archean realm for seven to eight days, due to the difference in the flow of time, only five to six hours had passed in the outside world and in the mountain and sea realm. He reckoned that those free laborers had just finished their afternoon work and were currently packing up and going back to rest. Thus, there really wasn't much to see.

Once he returned to the bedroom, the first thing he did was to rush into the bathroom and thoroughly clean himself up. After taking a shower and shaving his beard, Xia ruofei put on his bathrobe and walked out of the bathroom. He instantly felt refreshed.

It was already dark outside. Xia ruofei picked up his phone and saw a message from Ling Qingxue. She said that she had to work overtime today and would not be coming over. She asked Xia ruofei to eat by himself.

In fact, when Xia ruofei was in the spirit map space, he had always left a trace of his spiritual will in the outside world. This was also a form of security measure.

Even when he was fully immersed in the process of challenging the Jade pillar array, he would temporarily withdraw his spiritual will. Once he was done challenging the array, he would immediately check the situation outside.

Therefore, when he received the WeChat message, he actually knew. However, he also knew that if there was really something that needed his help, it would definitely be a phone call. Since it was a WeChat message, it meant that the matter was not very urgent, so there was no need to waste the time of practicing his body technique to come out.

Xia ruofei replied to Ling Qingxue, "She had just woken up and was about to go downstairs to get something to eat. You have to take care of your body! Also, don't forget to eat.

After replying to the WeChat message, Xia ruofei put on his bathrobe and slippers and went downstairs to the kitchen.

He heated up the dishes that he hadn't finished in the afternoon, then made an egg fried rice with the remaining rice. Dinner was ready in no time.

After dinner, Xia ruofei went upstairs to change into casual clothes and strolled out of the villa, ready to take a walk in the community to digest her food.

Before he knew it, he had already reached Feng Rao's little terrace.

Xia ruofei looked up and saw that the lights in Feng Rao's house were already on. It seemed like she had finished work on time today.

Xia ruofei thought for a while and walked towards Feng Rao's little terrace house.

As he walked, he put his hand into the inner pocket of his coat and took out a small gift box from his space under the cover of his coat.

He had bought it while he was in Spain. He had bought a lot of small gifts like this and had stored them all in the spirit map space.

After all, he was on vacation overseas. He had to bring back some gifts.

Not only did he prepare it for Feng Jing, but his godmother, Lin Qiao, pang Hao, Guan Ping, his seniors, classmates, and friends were also included.

Of course, he did not buy gifts according to the number of people. He bought a few good things when he saw them while strolling around Barcelona and threw them into the spirit map space when he returned to the hotel.

The gift box that Xia ruofei took out now contained a unique crystal brooch. It was not too expensive, about 300 to 500 euros. Of course, this price was already quite high for ordinary people. Even in Spain it was considered a luxury item.

In fact, these were all the gifts that he could give to his female friends. There was one major category that he couldn't choose from, and that was the Tao Yuan brand Jade skin cream in the cosmetic category. Other cosmetics, whether they were ordinary products that cost hundreds of Yuan or high – end products that cost tens of thousands of Yuan, were all floating clouds in front of the Jade skin cream.

People like Feng Jing and Dong Yun only had a set of jaded skin cream on them. They didn't need any other makeup products.

Xia ruofei soon arrived at Feng Jing's house with the small gift box in his hand. He rang the doorbell.

Chapter 2575 Visiting (1)

Feng Jing's voice came from the infrared camera at the door, ""Who is it?"

Before Xia ruofei could say anything, Feng Jing's exclamation came from the intercom. Xia ruofei even heard the sound of her kicking something.

"Sister ran, are you alright?" Xia ruofei asked hurriedly.

"I'm fine! I'm fine!" Feng Jing said from inside the house, "wait a minute!"

"Oh! "It's okay, there's no rush ..."Xia ruofei said, somewhat baffled.

Didn't she just come to visit? Why are you so surprised?

Xia ruofei suddenly thought of a possibility. Could there be someone else at sister ran's house? Boyfriend? If that was the case, then he had really sinned ...

He waited for seven to eight minutes before he heard the door open. Feng Rao pushed the door open and looked at him."Come in!"

After Xia ruofei entered the house, he changed his shoes and looked around.

"What are you looking for?" Feng Rao couldn't help asking.

Xia ruofei hesitated and asked, ""Sister ran, are you home alone?"

Feng Rao couldn't help but laugh."Nonsense! My family didn't come to live with me. If I'm not alone, how many people can I have?"

"Oh ..." Xia ruofei secretly heaved a sigh of relief.

"Why are you acting so weird?" Feng Rao chuckled.

"Oh! It's fine, it's fine!" Xia ruofei quickly said, "Oh right, this is for you. I bought it in Spain as a gift!"

Feng Rao received the gift box and smiled."At least you still have some conscience!"

Feng Jing opened the gift box and exclaimed in surprise, ""What a beautiful brooch! Thank you!"

"I'm glad you like it!"Xia ruofei smiled.

"This brooch isn't cheap, right?" Feng Rao asked.

Xia ruofei laughed."You're an elite with financial freedom. Why do you care about the price?"

Feng Rao glared at Xia ruofei and said, "You're the one with financial freedom, okay? I'm just a higher – Class worker!"

Xia ruofei laughed and said, "alright!" Let me put it another way. Since it's a gift from an elite with financial freedom, why do you still care about the price? It's just a small amount of money to me!"

"Alright, alright!" Feng Rao didn't know whether to laugh or cry. You're right ..."

"Do you want to try?" Xia ruofei said, "Speaking of which ... Your clothes go well with this brooch! The effect should be pretty good! But ... Why are you wearing such formal clothes at home?"

Feng Rao's face turned red and she glared at Xia ruofei.

Wasn't it you? You didn't even say hello before coming to visit. Do you think he's going to welcome you in his home clothes?

When Feng Jing saw that it was Xia ruofei standing at the door through the video intercom screen, she was overjoyed. At the same time, her first thought was to quickly change out of her loose home clothes.

Her closet was set next to her bedroom on the second floor, so she ran upstairs as fast as she could to change and tidy up her hair.

Speaking of which, it only took seven to eight minutes to complete all of this. This speed was already a miracle.

Feng Jing did not answer Xia ruofei's question, nor did she try the brooch on the spot. She closed the gift box and said, "Come over and sit! By the way, what would you like to drink? I have black tea, green tea, and coffee, but they're instant."

"I'll just have a glass of water! I just finished dinner." Xia ruofei said with a smile.

The two of them walked into the living room. Feng Jing brought Xia ruofei a glass of warm water and sat down on the sofa.

Xia ruofei looked around and said with a smile, "I haven't been here since your house was renovated!"

"Now you know how improper you are?" Feng Rao said, "I'm afraid you haven't spent more than 20 days in the three mountains in the past few months!"

Xia ruofei chuckled. "It's a little ... But it's mainly because my CEO sister is too capable. I don't need to worry about the company at all!"

"It's my fault!" Feng Rao rolled her eyes in annoyance.

"I'm complimenting you!" Xia ruofei said, "why would I blame you?"

Feng Jing was actually enjoying her current job. However, after seeing Xia ruofei, she couldn't help but complain. This was already a daily routine for them.

Soon, the two of them started talking about the company.

"RUO Fei, you won't leave immediately after coming back, right?" Feng Jing asked, "if you're free, you should visit the company more often. Some new employees might not even know what the chairman looks like!"

Xia ruofei thought for a while and said, "if there's nothing urgent, I'll stay at the three mountains for a while." Don't worry, I'll start working at the company tomorrow! I promise I won't be late and leave early!"

Xia ruofei realized that he did not have anything urgent to attend to recently. He did not need to worry about the peach blossom society in the capital. Zhao Yongjun, Song Rui, and the others were all taking care of things well. Even if he went, he would be slacking off. It was also impossible for the spirit map space to upgrade in a short period of time, mainly because there was no pattern to the world stone, and it was basically the kind of fate that could find it. As for the Spanish clubs, he did not intend to participate in any games unless they were particularly important.

Chapter 2576 Visiting (2)

After thinking about it, he felt that the most urgent thing was to improve his movement technique. After witnessing the wonders of the floating steps, he couldn't wait to cultivate it to the great success stage.

Challenging the Jade pillar formation was one thing, but Xia Qing had said that once one passed the test of the Jade pillar formation, there would be a reward. Xia ruofei valued the help of the Jade pillar formation in the cultivation of movement techniques more than the final reward.

Combining it with the Jade pillar formation to practice the floating steps was simply the best partner.

Other than the floating steps, there was also a set of swordsmanship called the gentleman sword. This required the use of a flying sword, and Xia ruofei planned to try it out when he was free.

However, regardless of whether it was the floating Lotus steps or the noble Sword technique, he could cultivate them anywhere. If he stayed in San Shan, his villa would be very convenient. No one would disturb him.

Feng Rao couldn't help but burst into laughter. "You're the boss in the company, who cares if you're late or leave early! As long as you can show up at the company more often, I'll be thanking you already!"

"Alright, alright, alright! I'll listen to you." Xia ruofei smiled and said, "actually, it doesn't matter if I'm in the office or not. Haven't you guys been doing well recently?"

Although Xia ruofei wasn't in the three mountains during this period of time, Qin Yanan would sort out the important work every day and email it to Xia ruofei. If there were more important things that needed Xia ruofei's approval, she would even call him directly to ask for instructions.

Hence, even though Xia ruofei was in Spain, he was still very familiar with the company's situation.

Feng Rao didn't know whether to laugh or cry, "you're everyone's pillar! It was the soul of the company! It's all because of you that the Paradise Corporation is so dazzling! Otherwise, this would just be a mediocre startup."

"Although I think you're right, I'm still embarrassed to praise me in front of you ..." Xia ruofei chuckled.

Feng Rao couldn't help but burst out laughing. She pointed at Xia ruofei and said, "Your shamelessness is quite ..."

"You have the same style as you did back then?" Xia ruofei asked with a mischievous smile.

"No way!" Feng Ye pouted.

After a few jokes, Feng Jing gave Xia ruofei a simple report on the company's work.

Even though it was already time to get off work, to Feng Jing, there was no difference. In her eyes, there was only work that she had completed and unfinished.

During this period, the company's operations had been relatively stable, and the sales of each product line were as good as ever. The progress of the manufacturing factory in Changping and the expansion of Tao Yuan farm was also very smooth. The manufacturing factory in Qiantang city, Zhejiang Province, had also been fully taken over. Part of the production line equipment was already in place, and the preliminary debugging work had already begun.

It could be said that everything was fine.

“After Xue Jinshan brought this group of employees back to China, they started working at flying money pond this afternoon,” Feng Jing said with a smile.

Xia ruofei raised his eyebrows and said, “this Xue Jinshan, why is he acting so obediently?” Didn’t I tell him to give his employees a day or two off?”

These employees had performed well in the process of taking over the pharmaceutical Group, so Xia ruofei had rewarded them with a vacation in Spain. Most of them had their first experience in flying a private plane.

Although a vacation was a reward, to be honest, it was quite tiring to travel, and the return trip was a dozen hours of flight.

Hence, Xia ruofei gave everyone a two – day break so that they could rest at home and have more energy to work when they came back.

He didn’t expect Xue Jinshan and the others to fly back to Qiantang in the afternoon after getting off the plane in the morning.

“Ruofei, this is what the employees strongly requested!” Feng Jing quickly said. Even if Xue Jinshan can’t put down his work, he’ll go alone. He can’t force all the employees to give up on their leave!”

Xia ruofei’s expression softened and he said, “”But he can’t just agree to his employee’s request! Don’t you know how to balance work and rest?”

Feng Jing said, “these employees are all very eager. They all say that President Xia has given them such good treatment. In the past, they didn’t even dare to dream of traveling abroad. This time, they even took a private jet. So, they all want to get back to work immediately to repay you!” I’m just short of writing a letter of challenge!”

Xia ruofei laughed and said, “”Are you exaggerating? We must punish those who make mistakes and reward those who make contributions. This is our consistent principle!”

“You don’t say. Other than burning a lot of money, your way of encouraging others is perfect!” Feng Jing laughed. “With this experience, this batch of employees will definitely work for you with all their hearts!”

Then, Feng Jing started to talk to Xia ruofei about the other business matters of the company.

Although the sales of Yangxin soup and jade skin cream accounted for more than 80% of the company’s income, neither Xia ruofei nor Feng Jing had ever thought of reducing other businesses. They had even expanded Taoyuan farm several times.

Speaking of which, the profits brought by the vegetables and fruits in Taoyuan were really not much from the company’s perspective.

However, both Xia ruofei and Feng Jing knew that every product of paradise Corporation was the best in the market. Whether it was paradise vegetables, Paradise Tea, or paradise – Brand iron – skinned fengdou, one – headed abalone, truffle, and so on, every product was the trademark and face of paradise Corporation.

It was these products that formed the overall “quality” image of paradise Corporation.

Besides, low profits were only relative. If other farm operators heard this, they would be furious.

Compared to ordinary farms, Paradise Farm's profits were definitely huge.

Xia ruofei considered the fact that it was his break time and that he and Feng Jing were the only ones in the house, so he did not stay for long. After chatting for a while, he got up and left.

At night, Ling Qingxue did not come over to Xia ruofei's place to tease him. After all, she lived with her father and was not married to Xia ruofei. It would not be appropriate for her to spend the night over at Xia ruofei's place.

Even though Ling Xiaotian would definitely not mind, he might even encourage her.

After Xia ruofei returned to his house, he did not go to bed immediately. Instead, he took a shower and sat on his balcony, lighting a cigarette. As he smoked, he thought about a problem.

He wanted to choose a cultivation technique that was suitable for song Qiming.

Ever since song Qiming's head was severely injured in the accident, Xia ruofei had used the precious heart – concentrating grass to treat him. His body had undergone a sudden change. He had no talent for cultivation at first, but now he was suitable for cultivation.

Even though song Qiming was getting on in years, Xia ruofei had promised Song Wei that he would choose a martial art for song Qiming.

In fact, cultivation was different from what many people thought of as martial arts. Practicing martial arts was really about the Virgin boy technique, but cultivation was not the same.

Of course, it would be even better if he could start cultivating from a young age.

However, even if one missed the golden period, as long as there was a suitable cultivation technique, one could still cultivate it. However, song Qiming was indeed too old, and his body's various functions had deteriorated. Therefore, he was destined to not achieve much in cultivation.

Song Wei did not expect her father to achieve immortality through cultivation. In reality, cultivation was extremely difficult. No one could guarantee that they would reach the peak. Even Xia ruofei, who was blessed by the heavens, could not guarantee it.

As long as song Qiming could become a cultivator, even if he was a low – Level cultivator, it would be very beneficial to him. He could easily live to a hundred years old and he would be free of any illness. He would be much better than ordinary people.

Xia ruofei's brain was filled with many cultivation techniques. They were all recorded in the Jade talisman of inheritance. The techniques that could be stored in the Jade talisman might be slightly inferior to the "great Dao techniques", but they were definitely not too inferior. Otherwise, they were very unique, like the "absolute beginning Heart Sutra".

It was not good to have too many techniques. Xia ruofei had difficulty choosing when he was sorting through the techniques in his mind ...

Chapter 2577 Ruoxu Heart Sutra (1)

Those martial arts were all stuffed into Xia ruofei's mind from the Jade talisman of inheritance. Although every martial art seemed to be engraved in his mind and he would never forget it, and even some of his cultivation insights and experiences were ready-made, Xia ruofei would not study those martial arts that he had no use for.

It was a little difficult for him to choose the most suitable one for song Qiming.

Xia ruofei carefully looked through them. There were a few martial arts that were not bad, but he was not sure which one was the most suitable.

After much thought, Xia ruofei decided to consult Xia Qing.

If it wasn't for those damn laws, Xia Qing's knowledge in cultivation would definitely be much more profound than Xia ruofei's. However, due to the restrictions of the laws, Xia Qing couldn't reveal many things to Xia ruofei.

However, these cultivation techniques from the Jade talismans of inheritance were all unlocked by Xia ruofei himself. In theory, all the ownership belonged to Xia ruofei, so they shouldn't conflict with Xia Qing's rules.

At the thought of this, Xia ruofei immediately used his mind to contact Xia Qing, who was in the spirit map space.

"Xia Qing!"

"Master, your subordinate is here!" Xia Qing immediately replied to Xia ruofei's summoning.

"There's something I'm not sure about, and I'd like to ask for your opinion." Xia ruofei said, "I want to teach someone a cultivation technique but I don't know which one is more suitable for him. This person's physique is suitable for cultivation, but he's a bit older, about 50 years old ..."

Xia ruofei told Xia Qing about song Qiming's basic condition. When Xia ruofei treated song Qiming, especially after he used the medicine made from the heart – concentrating grass, he had done a comprehensive examination on song Qiming many times. Therefore, he was very familiar with song Qiming's physical condition.

"I've obtained a lot of martial arts from the Jade talisman of inheritance. Can you help me analyze which one is the most suitable for this person?" Xia ruofei asked.

Xia Qing clearly knew the contents of every jade talisman of inheritance. After hearing Xia ruofei's words, he didn't ask any more questions. Instead, he muttered to himself for a while and said, "Master, if the person you're talking about is already over 50 years old, and he's only starting to cultivate now ... I'm afraid it's already a bit too late. Even if he successfully steps onto the path of cultivation, his future achievements will probably be limited."

"I know that." Xia ruofei said, "you don't have to worry about this. I just need to know which martial arts technique is most suitable for him and at the same time, it can offset the disadvantage of being older."

"If that's the case, I recommend the modest Heart Sutra." Xia Qing said, "the author of this cultivation technique is the famous perfected RUO Xu. He was an expert who shattered the void back then, and the cultivation technique he created also pointed directly to the great Dao!"

Xia ruofei couldn't help but raise his eyebrows as soon as Xia Qing mentioned "if modest Sutra".

This cultivation method was also among the few cultivation methods he had just selected, but he was not particularly optimistic about it. Although it was difficult to choose, if he had to rank the cultivation methods he had just selected, he was afraid that the "modest Sutra" would be the last priority.

Of course, it wasn't that this cultivation technique was bad. Just as Xia Qing had said, the creator of this cultivation technique, master RUO Xu, was an expert who could shatter the void. He created this cultivation technique, and it was even named after him. How could it be bad?

The only reason why Xia ruofei did not think highly of this technique was that it was incomplete.

To be more precise, in the inheritance he had obtained, this cultivation method only had about one – third of the contents of the first part.

The value of an incomplete cultivation technique was naturally greatly reduced.

Even Xia ruofei was a little confused. Every technique in the Jade talisman of inheritance had its own characteristics but the rest of the techniques were complete. Only this technique was only one – third complete, but it was still recorded in the Jade talisman of inheritance.

Xia ruofei frowned."I know the 'modest Sutra'. It's a good technique. But ... It's not complete!"

Xia Qing smiled and said,"master, if the" modest Heart Sutra "is complete, then its value is probably no less than that of the" great Dao formula."It is precisely because it is incomplete that it is recorded in the" human "jade talisman."

Speaking of this, Xia Qing paused for a moment and immediately continued,""Although the [modest Sutra] is not complete, the Jade talisman only taught you the first one – third of it. Even without the latter part, the first part can still be cultivated. And ... Even if it's only one – third of the content, it's enough for a cultivator to reach the nascent Soul Stage!"

Hearing this, Xia ruofei couldn't help but take a deep breath and said,""It sounds very powerful ... But I think you didn't choose this incomplete cultivation method just because of this, right?"

Even though song Qiming was still far from being able to learn any techniques after the nascent Soul Stage, Xia ruofei had many techniques that could help him reach the nascent Soul Stage.

Since that was the case, why would he choose an incomplete cultivation technique?

Xia Qing smiled and said,"master, there's no comparison between a cultivation technique that can only reach the nascent Soul Stage after complete cultivation and a cultivation technique that can reach the nascent Soul Stage after cultivating one – third of its content." In terms of potential, the "modest Heart Sutra" 's advantage was obvious. In addition ..."

Chapter 2578 Ruoxu Heart Sutra (2)

Speaking of this, Xia Qing kept him in suspense and asked with a smile,""Master, do you know about the life of Reverend RUO Xu?";

Although the Jade talisman of inheritance contained a lot of general knowledge and anecdotes of the cultivation world, Xia ruofei had never specifically tried to understand anything about master RUO Xu.

"I'm not too sure about this,"he said." Is his experience related to the cultivation method you chose?"

Xia Qing smiled and said,"when Reverend RUO Xu stepped onto the path of cultivation, he was already 63 years old." In other words, he's an ordinary person without any cultivation before he's 63 years old. By right, at this age, even if he's lucky enough to step onto the path of cultivation, his achievements will be very limited. "

Xia ruofei's eyes lit up.""However, master RUO Xu has cultivated to the terrifying extent of shattering the void!"

"Yes! This has something to do with his cultivation technique. " Xia Qing said,"this 'modest Heart Sutra' was created by him before he ascended. He combined his own insights with the cultivation techniques he had cultivated. This cultivation technique has a very low age requirement. Basically, as long as one is not old, the possibility of success in cultivating this cultivation technique is higher than other cultivation techniques. It can be said that ... The 'if void Heart Sutra' is the most suitable cultivation technique for the person you just mentioned. This is without a doubt!"

Hearing this, Xia ruofei couldn't help but click his tongue in wonder. He had only stepped onto the path of cultivation at the age of 63, yet he could still level up and even break through the void. This was simply too incredible.

Among all the cultivation techniques, only this 'modest Heart Sutra' only had one – third of its contents that were incomplete. It did not have any cultivation experience or insights.

Xia ruofei guessed that this was because Shanhai Zhenren himself had not tried to seriously practice 'if modest Sutra', and the technique was incomplete.

Therefore, he only knew the content of this cultivation method but did not know the story behind it. He did not know that cultivating 'if modest Sutra' had such a special effect on cultivators who were over the age limit.

No matter what, Xia Qing's words had successfully convinced Xia ruofei.

He smiled and said,"I believe in your judgment!" Then this is the cultivation technique! Xia Qing, thank you!"

"You're too polite, master!" Xia Qing said respectfully,"it's my honor to be of service to you!"

"Alright, you can go! I'll look for you if I need you. " Xia ruofei said.

After cutting off the connection with Xia Qing, Xia ruofei unconsciously took out a cigarette and lit it up. At the same time, he looked a little embarrassed. He had decided on a cultivation technique, but he had no idea how to let song Qiming cultivate it.

To song Qiming, who had graduated from a proper University and was a high – ranking leader, cultivation was simply a fantasy.

If he was told all this, he would definitely not believe it.

Moreover, even song Wei could not help in this matter. A leader of this level was very determined. It was impossible for him to change his decision just because of a few words from his daughter.

As for showing song Qiming his abilities as a cultivator, Xia ruofei did not plan to do so. At least, he did not plan to do so unless he had no other choice.

Some big shots, including elder song, had some guesses about Xia ruofei's ability. He was just a young man in his twenties, but his incredible medical skills and so many magical deeds were not something that could be achieved with just ability. With elder song's rich experience and sharp eyes, how could he not see it?

They just didn't say it out loud.

If Xia ruofei were to reveal his abilities as a cultivator in front of song Qiming, it would be the same as putting the whole matter on the table.

Of course, if there was no other way, Xia ruofei would try this method.

He was only afraid of trouble, not trouble.

He believed that even if the matter of cultivators was spread to the higher – ups, he would have the ability to deal with it. At least, he could do things he didn't want to do without being disturbed.

To put it bluntly, it was all due to his ability. It was simply an original sin to have such a magical thing without ability.

Xia ruofei thought for a long time and finally came up with a compromise.

...

He took out his phone from his pocket, found song Qiming's private phone number, and dialed it.

After the phone rang twice, song Qiming picked it up. On the other end of the phone, song Qiming said very enthusiastically, "RUO Fei! You finally remembered uncle song? Tell me, how long has it been since you last came to see me? He didn't even make a phone call!"

It was no exaggeration to say that Xia ruofei had snatched song Qiming's life from the gates of hell. If it were someone else, even if they had a higher cultivation than Xia ruofei, they might not be able to save song Qiming.

Song Qiming was already very close to Xia ruofei because of elder song. After the emergency rescue, he was even closer to Xia ruofei.

Xia ruofei laughed and said, "it's my fault!" Uncle song, how's your recovery going?"

"It's all thanks to your amazing medical skills!" Song Qiming sighed."I've basically recovered. Director Luo from the provincial Hospital said that I've completely recovered, except that I won't be able to do any strenuous exercise for a while!"

"That's great!" Xia ruofei said happily.

"Where are you now? Is he in Spain or has he already returned?" Song Qiming asked.

"Oh, I just returned to the three mountains this morning!" Xia ruofei said,"didn't I call you as soon as I came back? Uncle song, do you have time tomorrow? I wanted to visit you and give you a follow – up. "

Song Qiming agreed without hesitation.""No problem! You're always welcome to come over. If I knew you were coming, your aunt Fang would be so happy!"

Song Qiming continued,"however, I have an important meeting tomorrow. I might only be free in the afternoon. Can you come over tomorrow afternoon?" You can have dinner at my house! I'll ask your aunt Fang to cook a few good dishes for you!"

"Alright!" Xia ruofei said,"aunt Fang's braised carp is the best! I haven't eaten in such a long time, I'm starting to miss it!"

Song Qiming could not help but laugh out loud."Then it's settled! I'll ask your aunt Fang to cook you a big carp tomorrow! I guarantee you'll have a good time eating!"

"Alright! Uncle song, I'll see you tomorrow!" Xia ruofei said.

"See you tomorrow!" Song Qiming chuckled and said,"I have to quickly tell your aunt Fang and make her happy too!"

It could be seen that the couple really loved Xia ruofei from the bottom of their hearts. He wondered what they would think when they found out that Xia ruofei had already taken their precious daughter away.

When Xia ruofei thought of this, he couldn't help but feel a little guilty ...

The next day, Xia ruofei arrived at the office on time in the morning. He met with the leaders of the Department and listened to their recent work reports.

Working in such a company with great potential and high benefits, everyone was full of energy and the whole company was filled with a positive atmosphere.

After Xia ruofei heard everyone's report, he gave them a few words of encouragement. At the same time, he said that the year – end bonus would not disappoint everyone. It could be considered an early boost of morale.

After the meeting ended, Xia ruofei returned to his office to deal with some backlog of work. At noon, he had some food in the staff cafeteria that had been built and went back to the office lounge to take an afternoon nap. When he woke up, he continued to work until around four o' clock.

Then, he stood up and walked out of the office. At the door, Xia ruofei informed Qin Yanan, who was on duty personally, and then took the private elevator down. He drove the Knight XV SUV and went straight to the Provincial Party Committee's courtyard.

Chapter 2579 Home visit for follow – up visit (1)

Song Qiming's respect for Xia ruofei was reflected in every detail.

For example, because of Xia ruofei's visit, he had to postpone two of his plans in the afternoon. After attending an important meeting, he left the office in advance and returned home to wait.

Another example was that song Qiming personally called the gate guard of the compound and reported Xia ruofei's car plate number. Such a small matter could have been done by the Secretary or even the driver, but he chose to do it himself.

Because of this, when Xia ruofei's car arrived at the family compound, the armed police on guard only had to glance at the license plate and immediately signaled for them to let him through.

The bar was raised slowly. Xia ruofei's car did not even stop. It only slowed down a little and entered the family compound.

This was not the first time Xia ruofei had come to song Qiming's house, especially when song Qiming was recuperating at home after his injury. Hence, he did not need anyone to guide him. He drove to the building where song Qiming lived easily.

He carried the two boxes of nutritional supplements he had bought in Spain from his interspace on the way there. He walked through the grape trellis in the courtyard and went straight to song Qiming's door. He rang the doorbell.

After a while, the door opened. Song Qiming stood there with a warm smile on his face and said, "RUO Fei is here! Hurry and come in!"

Xia ruofei was stunned and quickly said, "Uncle song, why did you personally open the door for me?"

For a leader like song Qiming, the housekeeping service staff, security guards, driver, and chef were all standard. This was the treatment that high – ranking officials should enjoy. No matter what, song Qiming did not have to open the door personally. He must have had an intention to do so.

"What's there to be afraid of?" song Qiming laughed. You're my Savior! Your aunt Fang always told me that my parents gave me life, and you, ruofei, gave me a Second Life!"

"You're too serious ..." Xia ruofei said.

Fang Liyun's voice came from behind song Qiming. "Old song, what are you doing at the door? Hurry up and invite RUO Fei in!"

Song Qiming laughed and said, "leader, I've criticized you!" RUO Fei, quickly come in!"

When Xia ruofei entered the house, he saw song Qiming personally bringing him a pair of slippers. He quickly stepped forward and bent down to take the slippers. "Uncle song, I'll do it myself, I'll do it myself ..."

Song Qiming's courteous treatment made him feel a little uncomfortable, especially when he thought about what had happened between him and Song Wei. He felt even more guilty ...

After changing his shoes, Xia ruofei saw Fang Liyun standing at the side in an apron, smiling. He quickly greeted her, "Hello, aunt Fang!"

"Ruofei, you haven't been home for a long time!" "Your uncle song and I always talk about you!" Fang Liyun said with a smile.

"I've been flying around the world recently. I was in Beijing before and opened a club with a few friends. " Xia ruofei said, "then I went to Spain. Now ... I just returned to the three mountains, so I thought of coming to visit you guys and check on uncle song's recovery!"

"Ruofei, you're too kind." Song Qiming said with a smile.

"Weiwei told me about the club you're working at in the capital. She attended the opening ceremony when she went back to school last time. I heard that business is going well!"

"It's alright. It's mainly handled by a few of my friends in Beijing. " Xia ruofei said, "I usually don't care about such specific things."

Song Qiming laughed and said, "ruofei, Speaking of which, this paradise gathering that you've set up is really not bad!" It's not important whether you can make money or not, at least you'll give some of the boys something to do. Many people are giving you thumbs – up!"

The 'many people' that song Qiming was referring to were the elders of Zhao Yongjun, Hou Liang, and the others. Of course, this included the elders of song Rui.

The meaning of the Paradise gathering had never been just about economic benefits, or rather, economic benefits were only a small part of it. The big shots were only interested in resources. Of course, there were also the younger generation who had nothing to do and caused trouble all day long. Now that they were finally doing serious business, they were naturally very comforted!

Xia ruofei smiled humbly. "It's not my credit. It's brother Zhao Yongjun and song Rui's work."

"That's because you're a team!" Song Qiming said with a smile.

Xia ruofei was a little embarrassed by song Qiming's compliments. He quickly changed the topic. "By the way, these are the two boxes of nutritional supplements I bought in Spain. Consider it a little token of my appreciation!"

Song Qiming pretended to be angry and said, "why did you bring something with you when it's my turn?" Aren't you being too polite?"

"I'm a little embarrassed to come here empty – handed to freeloader ..." Xia ruofei scratched his head and said with a smile, "besides, it's not worth much!"

Actually, song Qiming was just putting on an act. However, Fang Liyun could not stand it anymore. She took the two boxes of nutritional supplements from Xia ruofei and rolled her eyes at song Qiming. "This is just a small gift from the child, you can just accept it! Why are you putting on airs at home? It's not like ruofei is asking you for help!"

“Madam, I didn’t say I wouldn’t accept it ...” Song Qiming said with a bitter smile.

Fang Liyun glared at song Qiming, then put on a smile and said to Xia ruofei, “RUO Fei, ignore that old man! I’m used to being serious at work!”

Chapter 2580 Home visit for follow – up visit (2)

Xia ruofei looked at song Qiming in amusement. The black – haired song Qiming looked young and strong. He did not look like an ‘old man’ at all! However, from the look of helplessness on song Qiming’s face, it was obvious who was the master of the house.

Song Qiming said, “ruofei, don’t just stand there and talk. Let’s sit over there!” Um ... Liyun, didn’t you say that you wanted to show off your cooking skills? You can go! I’ll greet RUO Fei!”

Fang Liyun slapped her head and said, “yes, yes, yes!” I’m so happy to see RUO Fei, there’s still a lot of things to do in the kitchen! Ruofei, chat with your uncle song for a while. I’ll go cook for you!”

“It’s been hard on you, aunt Fang!” Xia ruofei said.

Fang Liyun waved her hand and laughed, “you silly child!” What’s so hard about cooking? Quickly go over and sit for a while! Don’t just stand there!”

Then, Fang Liyun went into the kitchen while song Qiming led Xia ruofei to the living room and sat down. He personally arranged the tea set and made tea for Xia ruofei. He smiled and said, “Ruofei, you’ve caused quite a stir on your trip to Spain!”

Xia ruofei knew that song Qiming was referring to the time when he played for RCD Espanyol, so he smiled and said, “This matter ... Is also a coincidence. The earliest we met was in Beijing, on the day of our paradise gathering’s opening. I had a chat with President Zhou of glory world Corporation, and then ...”

Xia ruofei briefly told song Qiming about his purchase of shares in the Spanish club, his vacation in Spain to reward his employees, and his decision to register as a player on a whim to join the team and play a game.

Song Qiming laughed and said, “I say! Why is a Big Boss like you working so hard and even playing football ... You don’t lack that little bit of money, do you? This is your family’s business!”

Xia ruofei smiled and said, “it’s mainly a hobby!” When I was studying, I liked to play football. After I joined the Army, I played football with my comrades every week. I didn’t have much time after I retired.”

“You’re a person who’s good at creating miracles. ” Song Qiming said, “if it were someone else who had never received any systematic professional training and was already 27 years old, it would be unimaginable for them to suddenly appear in the world’s top professional league. However, all of this seems to be so logical when it happens to you. ”

“That’s too high of an evaluation ...” Xia ruofei said, a little embarrassed.

"I'm not trying to flatter you," song Qiming waved his hand. Ruofei, I've known you for quite some time and have seen you create many miracles. Whether it's the Bureau chief's illness or my injury from a while ago ... Other than you, no one else could have done it. "

Song Qiming continued,"from a business point of view, you're killing two birds with one stone by buying the shares of this Espanyol club!" Especially when you joined the team and played an amazing game, that was even more amazing. As long as this momentum is maintained, whether it's glory world Corporation or your paradise Corporation, it'll be extremely beneficial. This Zhou leiyun sure has sharp eyes!"

Xia ruofei smiled."Director Zhou is a good person. You know how to please others."

"Hahaha! In the business world, this is considered a fair and just method!" Song Qiming said,"nowadays, some businessmen are keen to invest in the 'good' of certain leaders. It's worth being wary of ..."

Song Qiming's thoughts were a little scattered, but this involved a sensitive issue. Xia ruofei did not answer and only smiled and nodded.

Song Qiming obviously knew that it was not appropriate to talk about this with Xia ruofei. Besides, Xia ruofei obviously did not care about politics, so he quickly changed the topic.

The two of them chatted for a while before Xia ruofei took the initiative to say,""Uncle song, it looks like you're recovering well! However, I still want to give you a comprehensive examination to prevent any hidden dangers!"

"You're so kind ..." Song Qiming said,"ruofei, you're a doctor. I'll do whatever you want me to do!" Do you need to change locations?"

"Oh, there's no need for that ..." Xia ruofei said."Chinese medicine is all about looking, listening, asking, and feeling. It's fine here! I'll take your pulse first!"

"Alright!"

Song Qiming extended his hand in cooperation.

Xia ruofei felt song Qiming's pulse and closed his eyes to feel his pulse.

Although the main purpose of coming to song Qiming for a check – up was not to do so, Xia ruofei was not pretending. He still analyzed song Qiming's pulse seriously and even used his spiritual power to do a comprehensive physical examination of his body.

Even though he could tell with a glance that song Qiming's body was recovering well, he still did not let his guard down. On one hand, he wanted to check if there were any hidden injuries. More importantly, he wanted to see if song Qiming's physical condition was suitable for cultivation.

The most important task of his visit today was to help song Qiming start cultivating the ruoxu Heart Sutra.

Yesterday, Xia ruofei had thought about it and felt that it was not a good plan to let Song Wei come back and show her affection or to show off some of his cultivation skills.

So, he eventually chose a more secure way to use his identity as a doctor.

There was no doubt that song Qiming had absolute trust in Xia ruofei's medical skills, especially after the emergency treatment and the near – Death experience. He trusted Xia ruofei even more. He would not doubt Xia ruofei's words at all.

What Xia ruofei needed to do was to use his identity as a doctor to get this done without song Qiming knowing.

After a long time, Xia ruofei took song Qiming's pulse and checked his tongue.

Finally, Xia ruofei said, "uncle song, it's just as I expected. You're recovering well!" There were no hidden dangers in the injured area. If nothing unexpected happens, you'll definitely pass this test. You're bound to have good fortune after surviving a great disaster. I'll congratulate you in advance!"

Song Qiming laughed and said, "after what happened last time, I've come to terms with it. The future isn't important. As long as the family is healthy, that's more important than anything else!"

"That being said, wouldn't it be better if there were better opportunities and a higher platform for you to realize your political ambitions?" Xia ruofei said with a smile.

Generally speaking, this kind of topic was a little sensitive, especially when it came to song Qiming's level.

However, song Qiming did not treat Xia ruofei as an outsider. He did not hide anything and laughed.

"That's even better! It's just that after that incident, my mentality has become a lot more free and easy. I'll be lucky if I get it, but if I don't, it's my fate!"

"This kind of mentality is very good! It's easier to lose your cool if you worry about gains and losses!" Xia ruofei said with a smile.

Then, he changed the topic and said, "Uncle song, although you're recovering well, the serious injury last time has damaged your body's Foundation, so I suggest you continue to receive treatment,"

That was lying through his teeth. How could song Qiming's body be damaged after being repaired by the precious petals of the spirit Heart Flower? Not only was he not injured, but because of the magical effects of the heart concentrating grass, he even had a physique that could cultivate now.

However, song Qiming believed Xia ruofei's words. He did not expect Xia ruofei to lie to him.

Therefore, song Qiming's expression turned serious when he heard that. He asked, "So ... There's still a hidden danger in my body?"

Xia ruofei smiled and said, "uncle song, don't be nervous." Even if you don't receive treatment, at most, your body will be a little weaker when you get old, and you'll get sick from time to time ... For the quality of your life in your later years, I suggest you continue to receive treatment!"
