

God tier Farm 2611

Chapter 2611 Elder Liu's decision (1)

88 meters.

This was Xia ruofei's final result.

To increase from 68 meters to 88 meters, at a normal speed, it would be difficult to succeed even after a hundred tries. However, because of the Enlightenment he had gained from the last challenge, Xia ruofei's results had improved by leaps and bounds after repeated practice. This was the preciousness of the Jade pillar array.

It could be said that Xia ruofei's attainment in the floating Lotus steps had improved by a huge margin compared to the time before he had attempted the array.

This time, Xia ruofei had taken advantage of the moment when he had the clearest understanding of the array. He had done it in one go and did not have enough rest. Although his true Qi and mental energy had not been exhausted in the process of breaking through the formation, he had consumed a lot of energy.

He sat on the ground and panted heavily. It had been a long time since he had felt so tired. However, he was in a very good mood, and the smile on his face could not be suppressed.

As his proficiency increased, Xia ruofei's understanding of the wandering steps became deeper and deeper. At the same time, he also felt that this movement technique was more brilliant.

Those that could be included in the Jade talismans of inheritance were indeed the best of the best.

Xia ruofei now had a certain understanding of Earth's cultivation world. This was mainly from Liu chengfeng's retelling. However, Liu chengfeng's cultivation was not very high and he could not get in touch with some information from the upper echelons. Hence, Xia ruofei's understanding was limited to a broader scope.

However, there was one thing that Xia ruofei was sure of. The world of cultivation was not a paradise. On the contrary, those cultivators who looked like Immortals were often more evil than one another. The law of the jungle was even more obvious in the world of cultivation. After all, the secular world was still bound by laws and controlled by state machinery. There was only one general rule in the world of cultivation, and that was strength.

The importance of the floating steps to Xia ruofei was obvious.

It was inevitable that he would have more and more contact with the cultivation world in the future. The "great Dao technique" could allow him to cultivate faster and have a higher cultivation. However, cultivation alone was not enough. Hence, Xia ruofei was also perfecting his Arsenal.

The body technique of the drifting steps, the sword technique of the noble Sword, and the array Dao that he had persevered in learning would become the chips he would use against his enemies in the future.

After understanding the basic situation of the cultivation world on earth, Xia ruofei was even more eager to improve his strength.

He sat on the ground and rested for a while, then got up and went to the open space in front of the tower.

Xia ruofei closed his eyes and silently recalled the process of how he broke through the array a few times. Then, he began to practice the floating Lotus steps.

Although he didn't have a flash of enlightenment like the last time, he still gained a lot of insight in the process of breaking through the array. Such insights would only be produced in an extremely high – pressure environment, so they were also very precious.

Xia ruofei continued to integrate this little bit of insight into his martial art motion. After practicing for five to six hours, he finally stopped to rest.

He raised his hand to wipe his sweat, then took a bottle of spirit pool water and drank it in big gulps. Then, he sat down on the Jade futon and circulated the great Dao chant to absorb the spirit Qi and recover the mental power that he had just lost.

After about an hour, Xia ruofei felt that he was in good shape. He stood up and walked into the pagoda. He had one last chance to challenge the array today and he would not waste it.

After all, he would only respawn after seven days after using up all three chances.

He had adjusted his condition to the best state and had absorbed all the insights he had gained from the second challenge. Hence, Xia ruofei entered the Jade pillar array without hesitation.

For the first 60 to 70 meters, it was still like a hot knife through butter. Now, when he was about 80 meters back, Xia ruofei felt the pressure increase sharply. However, he continued to move forward steadily.

In the end, Xia ruofei fell at the 93 – meter mark.

This time, his score had only increased by five meters, but Xia ruofei was not depressed. After all, the Enlightenment he had gained after his first attempt had already given him a big surprise.

Besides, Xia ruofei could clearly feel that the 200 – meter Jade pillar array was located exactly 100 meters in the middle of the array. It should be a big obstacle. The closer one got to 100 meters, the more difficult it would be.

He felt that it wouldn't be easy for him to break through the 100 – meter barrier.

Unless he had another epiphany like that.

But how could such a rare opportunity be so easily obtained?

Xia ruofei turned back to look at the Jade pillar array that was shrouded in fog and left the Linglong tower.

He cultivated in the medium for a while, and when his mental power and true Qi recovered, he stopped.

Xia ruofei didn't head over to the mountain sea realm's side. Instead, he directly sent a thought transmission to Xia Qing and called her over.

When Xia ruofei was breaking through the array, Xia Qing had already finished brewing the Chinese medicine and mixed it with the diluted spirit Heart Flower petal solution.

Xia ruofei personally filled the bottles into vacuum – sealed medicine bags and sealed them with a machine.

He then left the spirit map space in a flash.

He left the canned Chinese medicine in the spirit map space. He planned to rest in the courtyard for the night, so he wasn't in a hurry to take the Chinese medicine out. In terms of preservation, the best and most expensive refrigerator in the world couldn't compare to the spirit map space.

Chapter 2612 Elder Liu's decision (2)

After Xia ruofei returned to the outside world, she took out a packet of Huafu biscuits from the medium and ate it with milk to fill her stomach. Then, she went to the bathroom to take a hot bath and returned to her bedroom to rest.

He slept until the evening and went to the backyard to have dinner. Xia ruofei was going to the recording room to look for a blockbuster movie. There was a great recording room in the basement of Xuanji courtyard house. The effect was not worse than the movie theater.

Suddenly, Liu Qunfeng called.

Xia ruofei picked up the phone as he walked towards the basement. "Chief Liu."

"Mr. Xia, I'd like to ask ... How's your work going?" Liu Qunfeng asked.

"I've found all the required herbs ..." Xia ruofei said. "Don't misunderstand! These are the herbs needed for the substitute prescription I developed later. I still need a few more herbs to make the previous pill! You guys have to hurry up too."

"Alright! Alright!" "Mr. Xia, are you done with your work?" Liu Qunfeng asked in a low voice.

Xia ruofei replied, "no, I didn't!" "Don't I still have to boil the medicine overnight? The medicine that elder Liu was going to take tomorrow was not ready yet! Your father's health ... He can't stop taking the medicine now. Otherwise, he might not even be able to last a week ..."

Liu Qunfeng was scared witless. He had wanted Xia ruofei to go over tonight, but Xia ruofei had already made it clear. How could he dare to mention it?

So, Liu Qunfeng just said, "Oh!" "Thank you for your hard work!"

"It's alright! It's alright!" Xia ruofei laughed and asked, "chief Liu, what's the matter?"

"I'm fine! I'm fine!" Liu Qunfeng quickly said, "I just want to know more about the situation. Please ... Please ..."

After that, Liu Qunfeng hung up the phone.

Xia ruofei shrugged and put his phone in his pocket. He hummed a song as he walked down the stairs and soon arrived at the recording room.

The computers here were connected to the internet, so he found a blockbuster with good ratings on a video website. It had just been taken out of the cinema chain and had started to broadcast online. Xia ruofei paid for this movie directly.

The computer was connected to a laser projector, and the contents of the screen were directly projected onto the big screen.

The clarity of the laser projection was very good. Coupled with the surround sound system, there was basically no difference in the experience of watching the movie here and in the cinema. On the other hand, the seating conditions and viewing environment here were much better than in the cinema.

.....

While Xia ruofei was watching a movie in the recording room, Liu Qunfeng came to old master Liu's ward on the second floor.

He came to the bed and said to old man Liu respectfully, "Dad, I've already called Mr. Xia."

"What did he say?" Old man Liu asked weakly.

"He's still busy brewing the Chinese medicine for you to drink tomorrow," said Wang Yao. Liu Qunfeng said, "I saw that he was so busy, so I ..."

"Didn't you ask him to come over tonight?" Old man Liu asked.

"En!" Liu Qunfeng nodded and said, "he's been brewing the medicine all night, so he should be here tomorrow morning. I think ... One night won't make a difference!"

"Then you didn't say that I was looking for him?" asked old man Liu.

"No..." Liu Qunfeng shook his head nervously.

"Of course we don't need one more night," old man Liu said with a smile, "but do you believe that if you said that I was looking for him, he would definitely come over overnight?"

"I ... I believe you." Liu Qunfeng said.

"Qunfeng, do you know why?" Old Liu looked at Liu Qunfeng and asked.

"I can't guess." Liu Qunfeng said honestly, "as far as I know, Mr. Xia is a very opinionated person. It's hard for others to change his mind and decision."

"That also depends on who and when!" Old man Liu said, "this little devil, as long as he heard that I'm looking for him, he will definitely run over!"

"Dad, you mean ..." Liu Qunfeng also seemed to have realized something.

"That's right!" Old man Liu laughed. He definitely knows that I'm looking for him ... Which means I'm offering him a condition ... Is he really selfless by sparing no effort in running around? If it's for that stubborn old man, I'll believe it! For me? Hehe ... We don't have any friendship with him!"

"I know that." Liu Qunfeng said, "Mr. Xia has never hidden this. And I guess His fees this time won't be too low."

"That's for sure!" Old master Liu said, "he asked for money twice for the same illness ... It's all that unfilial daughter's fault!"

"Dad, don't get so worked up, you can't ..." Liu Qunfeng quickly said.

"I'm not excited, I'm just sighing." Old man Liu said, "Qunfeng, Did you know? I had always felt that I was used to seeing life and death. I was already able to calmly accept the natural laws of life, aging, illness, and death. However, this time ..."

A trace of fear flashed through old man Liu's eyes, and he continued, "This time, I truly felt the approach of death. When I woke up from my unconscious state, I heard the chirping of birds outside the window and the sunlight shining in. I suddenly felt that it was great to be alive! "When the doctors and nurses are busy removing the catheter for me, I think ... As long as I can continue living, I'm willing to pay any price. Money, reputation, status, power ... They are all mere worldly possessions!"

"Yes!" Liu Qunfeng nodded. "You're the pillar of our family. For your health, our family will do anything!"

"So ..." Old master Liu said, "I've decided to give Xia ruofei a condition that he can't refuse. I want him to not hold back and treat me!"

In fact, old master Liu knew better than anyone that Xia ruofei had held back when she treated him.

He was still not sure about the treatment this time, but he was sure that Xia ruofei did not plan to cure him in a short time last time. Although this 'accident' was a disaster, it was also an opportunity.

Even in his dreams, old man Liu wanted to get rid of the illness. Especially after the near – Death experience, he had become even more protective of his life.

When an ambitious person started to value his life, the bottom line that he had stuck to for the sake of his family in the past would no longer be the bottom line.

Elder Liu looked at Liu Qunfeng and asked, "Qunfeng, do you want to hear what I'm going to offer Xia ruofei?"

"Dad!" Liu Qunfeng said respectfully. No matter what decision you make, I'll agree with it and obey it unconditionally!"

The entire clan belonged to old man Liu. The others could only follow his decision. Not to mention, Liu Qunfeng was the one who was most determined to carry out elder Liu's orders.

Old man Liu's eyes revealed a hint of satisfaction. He said indifferently, " "But I still want to hear your opinion."

"Please speak!" Liu Qunfeng said respectfully.

Old man Liu's eyes lit up. He looked at the ceiling and said slowly, " "I'll give him a few conditions to choose from. First, pay him 3 billion USD for his treatment."

The first condition made Liu Qunfeng take a deep breath. It was not a small amount. Even though the Liu family's family business was large, wealth was not what they were most desperate for. They had not developed it into a super consortium, so it was impossible for the Liu family to take out three billion dollars in one go. To raise so much money, the Liu family would have to sell some of their assets and pay in installments.

What was certain was that if they really had to spend such a large sum of money, it would definitely be a major blow to the Liu family's company Group. It would take several years for them to recover.

Elder Liu looked at Liu Qunfeng and continued, " " Second, give him 40% of the family group's shares! "

This time, Liu Qunfeng couldn't help but scream, " "Forty percent! Dad, you're not wrong, right?"

...

Chapter 2613 The green cloud Island (1)

The three billion US dollars that old man Liu had offered had already given Liu Qunfeng a huge shock. However, according to Xia ruofei's list of medicinal herbs, just the Amethyst blood radish alone had been auctioned off for a sky – High price of 200 million US dollars three years ago. The pill that was made using more than a dozen medicinal herbs that were at least as precious as the Amethyst blood radish and could even cure old man Liu's illness was indeed priceless.

In that case, even three billion dollars was not too much.

Even though this amount of money was definitely an astronomical figure for the Liu family, and they might even have to sell a considerable portion of their businesses to be able to gather it, this was at least an acceptable condition.

After all, three billion dollars was nothing compared to the life of elder Liu.

However, the second condition that elder Liu mentioned made even Liu Qunfeng feel that it was ridiculous.

Forty percent of the family group's shares, what kind of concept was that?

The Liu family was a big family. Some of the core members of the family, including Liu Qunfeng himself, more or less held a part of the family group's shares. The shares distributed among the family members were about thirty percent.

The remaining 70% was actually held by old man Liu himself.

If he gave Xia ruofei forty percent of the shares, Xia ruofei would become the biggest shareholder of the Liu family's business.

Moreover, the human heart was the hardest to guess. The family members held 30% of the shares! These shares were scattered among so many people, so it was hard to guarantee that no one would be willing to sell their shares.

Xia ruofei only needed to buy 11% more of the company's shares to complete his control of the company.

Then wouldn't the Liu family's family business be changed to Xia?

If it wasn't for elder Liu, Liu Qunfeng would have berated him without hesitation, thinking that he was crazy.

However, he did not dare to go against old man Liu's words.

Elder Liu glanced at Liu Qunfeng and asked, "You can't keep your cool anymore?"

Liu Qunfeng smiled bitterly and said, "dad!" Your conditions are a little too scary. I was really startled ... I think other family members, such as uncle Chongli, would have a bigger reaction after hearing it ..."

"Whoever has an opinion has to hold it in!" Old man Liu pursed his lips and said, "it's the same even if you have an opinion!"

"No!" Liu Qunfeng quickly replied. No! If you've decided, I'll definitely support you! No second opinion!"

So what if they didn't support him? With his small number of shares, he had no right to speak at all. Furthermore, even if old man Liu didn't have any shares, no one in the Liu family would dare to disobey his orders.

"I'm not done yet!" Old man Liu said indifferently. My third option is green cloud Island and 500 million US dollars. "

Liu Qunfeng was already drenched in cold sweat when he heard elder Liu's second condition, so he didn't react as strongly to the third condition, even though it was also painful for the Liu family.

This was the result of comparison. If elder Liu had said the third condition first, Liu Qunfeng would have cried out in shock.

But now, in his opinion, no matter what, it was not as scary as losing 40% of the family group's shares, even though the third condition was also a great sacrifice for the Liu family.

500 million dollars in cash was not a problem. At least it was more acceptable than 3 billion dollars or 40% of the family group's shares.

The key was still the blue cloud Island that old man Liu had mentioned.

This Island was not in the territory of Hua Xia, but in the vast South Pacific Ocean. It belonged to the agate Island of the South Pacific Ocean. This agate was made up of a series of islands, of which the blue cloud Island was far away from the other islands in the archipelago and was the second largest island in the whole archipelago. The largest island was naturally the island where the capital of the agate was located.

Of course, at that time, the blue cloud Island was not called the blue cloud Island. This was the name that the Liu Clan changed after buying it.

The ponautu used to be a colony of France and only became independent in the 1990s. Due to the intentional manipulation of the relevant countries, the domestic situation had always been chaotic, with riots or coups happening from time to time.

The Liu family had also seized an opportunity to buy the permanent ownership of the blue cloud Island during a change of regime in the agate map.

At that time, ponautu was in power of a military government, controlled by a Colonel. Poverty and chaos were the norm in this country. The Liu family offered a sky – High price of one billion US dollars, and the Colonel President agreed with little hesitation. He passed the Congress vote as quickly as possible. Those who opposed him in the Congress had been thrown into the Pacific Ocean to feed the fish. His will was the highest order in the Congress, and it was impossible to pass.

Just like that, the Liu family obtained the permanent ownership of the green cloud Island.

Although it was not an independent country, the Cornelius acknowledged the high degree of autonomy of the island. Moreover, according to the original purchase agreement, blue cloud Island could have its own defensive power, and the ponaintu could not interfere with the daily affairs of blue cloud Island.

In fact, it was already independent.

Chapter 2614 The green cloud Island (2)

After blue cloud Island became a private island, miscellaneous people naturally could not come to the island. The ponautu government had undergone several changes of regime after that, but the Liu family's control over blue cloud Island had always been recognized. In fact, even if they did not admit it, they could not do anything. After many years of construction, the defense capability of blue cloud Island was no longer something that the ponautu Army could break through.

The Liu family was not only building the infrastructure on the ground, but also the construction of various defense facilities of the highest standards. They even purchased air defense systems from the black market.

The other tidal fortifications, detection radars, monitoring systems, and so on were all built according to the highest standards.

In addition, the Liu family had also raised a mercenary army to be responsible for the defense of the island.

It could be said that after so many years of construction, blue cloud Island had become a private island that was armed to the teeth.

To build a large island like this, the cost was naturally not small.

Over the years, the Liu family had been investing a lot of money every year. All of their money added up to at least two or three billion US dollars.

Therefore, the three conditions proposed by old man Liu were basically the same in terms of money.

Old man Liu looked at Liu Qunfeng with a smile and asked, " "Qunfeng, which one do you think little Xia will choose? Or ... Will he still be unmoved and not choose any of the three conditions? "

"That's impossible!" Liu Qunfeng said, " how can I not be tempted by such a good offer? "

Liu Qunfeng started to hesitate, "As for which one you want me to guess ... I'm not too sure ... Logically speaking, he would definitely choose the shares, but Mr. Xia isn't an ordinary person, so it's hard to guess what he's thinking ..."

Old man Liu nodded and said, "Then let's wait and see!"

Liu Qunfeng hesitated for a moment, but he still said, "Dad! I know that no matter how much it costs, it's worth it if it can bring back your health. It's just that ... Aren't the conditions you've offered a little too good? No matter which one Mr. Xia chooses, it'll be like cutting a piece of flesh from our hearts! Let's not talk about other things, just the blue cloud Island is the painstaking effort you've planned for several years! And after we successfully bought it, we spent so many years building it up bit by bit, and now we're giving it to Mr. Xia just like that, don't you ... Feel bad? "

"I've always believed in the principle of equivalent exchange," said old man Liu indifferently. Xiao Xia treated me, so we'll pay the same price. This is the fairest thing to do. QUN FENG, don't tell anyone about this, in case they change their minds!"

"Alright, I understand!" Liu Qunfeng nodded.

Seeing his father's white hair and tired face, Liu Qunfeng couldn't help but feel sad. In the past, elder Liu would not have been so careful. The Liu family would not have dared to object to his decision. However, this time, old man Liu chose to tell him alone and hid it from the other clansmen. He obviously felt that he couldn't follow his heart and couldn't even suppress the people below him.

This was also very normal. In ancient times, if the emperor's body couldn't take it, the ministers under him would still have different thoughts! The princes would also become restless.

Moreover, old man Liu was only the head of a family.

Old man Liu had spoken a lot today, and the fatigue on his face was becoming more and more obvious. Liu Qunfeng quickly told him to lie down and rest, and then he quietly left the ward.

Liu Qunfeng hesitated for a long time, but in the end, he didn't make the call. He sighed, put his phone in his pocket, and walked back to his room.

.....

The next morning, after Xia ruofei had his breakfast at the courtyard in liuhai Lane, he asked Wu Qiang to drive him to the Liu family's residence.

Liu Qunfeng had expected Xia ruofei to come this morning, so he had been waiting downstairs in advance.

Seeing Xia ruofei get out of the car, Liu Qunfeng quickly went up to him.

Xia ruofei took the thermal box containing the Chinese medicine from Wu Qiang's hands and said, "You can go back first! I'll give you a call when I'm using the car!"

"Okay, boss!" Wu Qiang said respectfully.

"Mr. Xia, you've worked hard! You've worked hard!" Liu Qunfeng greeted him with a smile.

“Good Morning, chief Liu!” Xia ruofei said with a smile.

Liu Qunfeng looked at the thermal box in Xia ruofei’s hand. He knew that it was filled with his father’s life – saving medicine.

Xia ruofei smiled and said, “chief Liu, the medicine is ready. As there is a limited amount of medicinal materials, I have only prepared three days’ worth of medicine. Let’s go and give one pack to the chief first!”

“Sure, Mr. Xia, please!” Liu Qunfeng quickly said.

He had been waiting for Xia ruofei to say this!

The two of them made it upstairs. Xia ruofei went to the room next to elder Liu first and placed all the Chinese medicine bags in the thermal box into the refrigerator, leaving only one bag outside.

Liu Qunfeng then strictly ordered the guards to do their best and not allow anyone to get close to the fridge.

Then, he pulled Xia ruofei to the side and said, “Mr. Xia, I need to talk to you about something ...”

Xia ruofei was confused. He followed Liu Qunfeng to the corridor and asked, “Chief Liu, let’s give elder Liu the medicine first ...”

“Wait a moment! I won’t be able to hold you up for long.” Liu Qunfeng quickly said.

“Alright then! Chief Liu, if there’s anything, just get straight to the point, don’t beat around the bush!” Xia ruofei said with a smile.

“Alright! Alright!” Liu Qunfeng said. Then, he looked at the door of elder Liu’s room and said in a low voice, “today, my father will probably propose a few plans to you ... The plans to pay you for your treatment.”

Liu Qunfeng observed Xia ruofei’s expression as he spoke. He could not help but sigh when he saw that Xia ruofei was still calm. It seemed that Xia ruofei had already expected this.

“My father has three options for you to choose from,” Liu Qunfeng continued, “I have a request ...”

Xia ruofei smiled and said, “Chief Liu, since it’s a presumptuous request, why don’t you just keep it to yourself so that we don’t hurt each other’s feelings?”

Liu Qunfeng couldn’t help but be stunned. Why didn’t this guy play by the rules? I was just being polite ...

Liu Qunfeng smiled awkwardly and said, “That being said, I still have to say ... It’s like this. One of the plans my father proposed is to give you a certain amount of shares, the shares of our family group. If possible ... I hope you don’t choose this plan.”

Without waiting for Xia ruofei to speak, Liu Qunfeng quickly said, “Of course, I can guarantee that the three plans my father put forward are all of the same value. If you choose either of the other two plans, you definitely won’t lose anything ... The main thing is the shares of the family group. The implications

are relatively large. You know my father's temper. No one can change his mind once he's decided on something. So, I can only be thick – skinned and beg you ...”

After Xia ruofei heard this, he said, “I know, I'll consider it. But ... I don't have much confidence in the treatment right now, so isn't it a little too early to talk about the treatment fee?”

Liu Qunfeng thought to himself, I'll never believe you! If you weren't confident, would you have the patience to listen to me?

Although Xia ruofei's lofty image from a few days ago had an impact on him, he was also secretly glad that Yingluo had done so. At least, his father's difficulties could be overcome, and there was a high chance that he could get rid of the disease.

“I understand! I understand!” Liu Qunfeng quickly said, “I'm just telling you this in advance. If my father brings this up, please consider my request.”

“Alright,” he said. Xia ruofei said indifferently, “then ... Can we go in now?”

“Of course! Of course!” “Please, Mr. Xia,” Liu Qunfeng said.

Chapter 2615 Elder song (1)

Xia ruofei walked into elder Liu's ward and handed the bag of Chinese medicine to the nurse. He asked her to heat the Chinese medicine and put it into a bowl. The nurse did all the work in this room under Xia ruofei's eyes, so naturally, there was no need to worry about the safety of the medicine.

After passing the Chinese medicine bag to the nurse, Xia ruofei smiled and greeted her. “Old man, how do you feel today?”

With a faint smile on his face, old man Liu said, “It's all thanks to you! I've been feeling pretty good these past two days. ”

“That's good!” Xia ruofei sat down by elder Liu's bed and took his pulse. “What you need to do now is to cooperate with the treatment and not let your thoughts run wild. I'll do my best to come up with a treatment plan for you. ”

“I'm much more at ease with you here ...” Old man Liu nodded.

Xia ruofei smiled and didn't say anything. He closed his eyes and focused on examining elder Liu.

After a while, he opened his eyes and said, “At the moment, it seems that this prescription will still have a certain effect. In the case of not being able to gather all the medicinal herbs, I'll use this prescription for the time being!”

At this moment, the nurse had already heated up the Chinese medicine and brought it over.

Xia ruofei took the bowl of medicine and gestured for the medical staff to leave. He held the bowl and smiled. “Old man, drink your medicine first!”

“Xia, your medicine is quite effective, but ... I still want to recover faster.” Old master Liu looked at Xia ruofei and said, “I know you have a way, right?”

Xia ruofei's expression did not change. He smiled and said, "An illness is gone like silk," Wang Yao said. "You should understand this principle. Your illness is very dangerous. We must be very careful in treatment. This can't be rushed."

Without waiting for old man Liu to speak, Xia ruofei immediately said, "Here, drink the medicine first. We'll talk about the other things later!"

Old master Liu looked at Xia ruofei deeply and said, "Alright then!"

He did not ask for Xia ruofei's help. He took the bowl of medicine and gulped it down in big mouthfuls.

Although there was still some residue at the bottom of the bowl, when elder Liu's lips came into contact with the medicinal soup, the spirit Heart Flower petals contained in the Chinese medicine had already begun to seep into elder Liu's body. Therefore, the little bit of Chinese medicine left behind was not very effective.

Xia ruofei put the bowl of medicine aside.

"Xiao Xia, this is all family Liu's fault," old man Liu said. "But we've caused you so much trouble. You've flown all the way here from San Shan, and we've used up a lot of precious herbs for this new prescription. I've always felt bad about it."

At this point, old man Liu paused for a moment. It seemed that his body was still weak, and he would feel tired if he spoke too much in one breath.

After catching his breath, old man Liu continued, "Especially since you didn't mention anything about the remuneration these past few days, I felt even more apologetic. He originally wanted to call you over yesterday to talk about this problem, but you were busy brewing medicine yesterday, so he didn't mention it to QUN FENG. Today, I still want to talk to you about the medical fees."

Xia ruofei had already known about this through Liu Qunfeng, and this was within his expectations, so he was not surprised.

Xia ruofei smiled and said, "go on, I'm all ears."

Old man Liu nodded and said, "In order to treat my illness, the medicinal herbs you consumed were too precious, so the consultation fee last time was already low. This time, my condition is even more troublesome, so I don't know how much I should pay. I thought about it for a long time yesterday and came up with three plans. You can choose one of them."

After that, old man Liu told him all three of his plans.

Xia ruofei sat by the bed and listened attentively. He didn't interrupt the whole time. When elder Liu finished, he smiled and said, "I have to say ... The plans you proposed are too tempting. No matter which one it is, I'm still tempted!"

With a glimmer of hope in his eyes, old man Liu asked, "So ... You're willing to choose one of the plans as your medical fee?"

Xia ruofei did not answer directly. Instead, he said indifferently, "Old man, you should know my situation better. It should be said that at this stage, my pursuit of money is no longer so strong. I have never been a slave to money. I have more than enough money to spend now, so ..."

"Free and easy!" Old man Liu gave him a thumbs up and said, "in the face of the temptation of billions of dollars, I admire you for being able to say this!"

Xia ruofei said, "old man, I still have the same words." It's still too early to talk about the treatment fee before I'm 100% sure that I can cure you. Also ... I really don't know how to choose between your three treatment plans, so ... I hope you can give me some time to think about it. At the same time, I'll use this time to further improve the treatment plan and see if it can relieve your pain as soon as possible."

When elder Liu heard this, he was secretly delighted.

Old master Liu knew that since Xia ruofei said so, it meant that he had a better plan for the treatment. Besides, it also meant that Xia ruofei was likely to accept such a treatment plan, but he still needed to weigh the pros and cons before making a decision.

Chapter 2616 Asking elder song for advice 2

"Of course!" Old master Liu said, "this is not a small matter after all. You can take your time to consider it. However ... I still hope that the progress of my treatment can be faster. I hope that it won't be delayed because of the consultation fee."

Xia ruofei laughed and said, "how is that possible?" I've been thinking of a way to cure your disease every night."

Old master Liu knew that Xia ruofei's words were half true and half false. He had to believe it, but he couldn't completely believe it either. However, no one was stupid enough to make it clear now, so he smiled and nodded. "I know all of this. It's been hard on you, little Xia!"

"You're welcome. This is part of my job, isn't it?" Xia ruofei smiled and said, "take your medicine and rest. I'll come back in the afternoon to check on you!"

"Alright!" Old man Liu said.

As soon as Xia ruofei left elder Liu's room, he saw Liu Qunfeng waiting in the corridor not far away.

"Mr. Xia!" When Liu Qunfeng saw Xia ruofei, he immediately walked up to him and asked with a nervous look, "how did the discussion between you and the old man go?"

Xia ruofei smiled. "Mr. Liu has indeed suggested three payment plans for the treatment. I can choose from them."

Liu Qunfeng looked at Xia ruofei nervously and asked, "Then you are ..."

"Don't worry! I didn't choose to take your group's shares." Xia ruofei laughed and said, "to be exact, I didn't choose any of them! I think it's better to focus on the treatment now. It's too early to talk about the treatment fee before we're completely confident."

Liu Qunfeng heaved a sigh of relief. No matter what, it was good news that Xia ruofei did not choose the 40% shares.

Based on Liu Qunfeng's understanding of his father, if Xia ruofei chose to take the 40% shares, the old man would not delay it for even a day. He would complete all the paperwork for the change of shares today. The other members of the Liu family would not even have the chance to object. Xia ruofei would then become the largest shareholder of the Liu family corporation.

At that time, would this large corporation with a scale of nearly 10 billion US dollars be surnamed Liu or Xia?

As the leader of the Liu family's next generation, how could Liu Qunfeng face the doubts of so many people?

After all, not many people were successful in their official careers, and there were obviously more mediocre people. Many of the Liu family's people had no hope in politics and were incompetent in business. They lived a decent life by relying on the dividends of their family group's company.

Losing 40% of the shares all of a sudden, and possibly controlling the entire Liu family in the future, was definitely a disaster for these family members.

"Thank you, Mr. Xia!" Liu Qunfeng said sincerely.

Xia ruofei smiled and said, "chief Liu, it's too early to thank me. I just haven't made a choice yet." Maybe when I have to make a choice, I'll be interested in the 40% shares again? As far as I know, the scale of the Liu family's family business is not small. 40%... It's much more valuable than my own small company."

Liu Qunfeng's heart skipped a beat, but he forced a smile and said, "You must be joking ... The Paradise Corporation is the one with endless potential and a bright future. Although it's small now, it has much more room for development than our family group!"

Xia ruofei laughed. "Chief Liu, don't be so nervous. I haven't made my choice yet."

When you make your choice, it'll be too late to say anything! Liu Qunfeng couldn't help but curse in his heart.

Xia ruofei did not wait for Liu Qunfeng to speak and said, "Chief Liu, I worked overtime to boil the medicine until very late last night, so I'm still sleepy! I'm going to catch up on sleep, please excuse me!"

"Good! Good! Good!" "Thank you for your hard work, Mr. Xia!" Liu Qunfeng said.

Xia ruofei nodded and turned to the guest room that the Liu family had arranged for him.

After returning to his room, Xia ruofei set up a soundproof formation. Then, he took out his phone and dialed a number.

The call was picked up quickly. Xia ruofei asked with a smile, "Manager Lu? My little Xia!"

"RUO Fei!" On the other end of the line, manager Lu was also very enthusiastic. "What brings you here today?" Is there something wrong?"

"Did you guys receive the jade skin cream set that I brought for Auntie last time?" Xia ruofei asked with a smile.

The last time manager Lu mentioned it, Xia ruofei had instructed Qin Yanan to arrange for the e – commerce Department to send some Jade skin cream to manager Lu's lover.

"Got it!" Manager Lu said. I received it! I received it a long time ago ... But if you send so much at once, my wife won't be able to use it all!"

Xia ruofei did not know how much the e – commerce Department had sent to them, so he smiled and said,""Use it slowly! The shelf life of our mass – produced version is quite long. If you still can't use it up, you can give it to your relatives and friends! At present, the production of jade skin cream hasn't come up yet, so many people can't buy it even if they want to!"

"You! You're just too polite!" Manager Lu smiled and said,"Oh right, you're looking for me for something, right?"

Xia ruofei smiled."Yes, I have something to ask Grandpa song. I wonder when he'll be free."

"You're coming over?" Manager Lu said,"anytime! Even if the chief is busy, can't you just wait here for a while? Didn't the chief say it last time? This place is like your own home, who needs to report when going back to their own home?"

Xia ruofei laughed and said,"that's what you said!" Next time, I won't say a word and directly kill my way over!"

"Sure!" Manager Lu said.

Xia ruofei said,"manager Lu, let's stop joking." I can't leave today, so I wanted to ask Grandpa song a few questions. What is he doing right now? Is it convenient for you to answer the phone?"

"I think he's playing chess with his old comrade!" Manager Lu said,"how about this? I'll help you keep an eye on it. When the chief is free, I'll call back for you so that you can talk to him directly. How about it?"

"Alright!" Xia ruofei said,"then I'll leave it to you!"

.....

Xia ruofei didn't have to wait for long. About half an hour later, his phone rang. It was manager Lu.

As soon as Xia ruofei picked up the call, he heard old song's angry voice."""RUO Fei, I heard from Xiao Lu that you were looking for me? Why didn't you just come over?"

Xia ruofei quickly said,"Grandpa song, I'm busy with something. I can't leave at the moment, so I called you directly to ask for your advice."

"You're at old Liu's house, right?"elder song asked after a moment of silence.

"En!" Xia ruofei replied,"I've been staying here for the past few days."

"Isn't this old man recovering well?" Elder song asked,"why did his condition worsen all of a sudden?"

"The reason is a bit complicated. I'll explain it to you when we meet again. Anyway, I'm not responsible for this at all, and the Liu family will admit it." Xia ruofei smiled and said, "Grandpa song, it's like this. Elder Liu came to talk to me today. It was mainly about the cost of the treatment. He gave me three plans, and the conditions were quite attractive!"

"Oh?" Elder song laughed and said, "it seems that this old man has really begun to cherish his life! Tell me, what are his conditions?"

Xia ruofei naturally would not hide anything from elder song. He told elder song about the conditions that elder Liu had given him.

In the end, Xia ruofei said, "Grandpa song, to be honest, all three conditions are very good. I don't know which one to choose. So, I want to hear your opinion."

After a moment of silence, eccentric song said, "Since you don't know what to choose, let's use the process of elimination! If you ask for my opinion, then the first thing I'll eliminate will definitely be the forty percent shares!"

"Oh? Why?" Xia ruofei asked curiously, "I thought you would suggest that I choose these shares! After all, this seems to be the most valuable item. "

Chapter 2617 Beyond expectations (1)

"These shares look like they're worth about three billion US dollars," elder song said with a smile. "Some intangible assets might even be worth more, and there's still room for growth in the future. However, choosing the shares also means choosing a lot of trouble. "

Elder song paused for a moment, took a sip of water, and continued, ""For a big family like the Liu family, their internal relationships are very complicated. Their company's equity structure is also very complicated. If you take 40% of it, it will affect the interests of too many people. Also, you only have the shares. Do you have the energy to get involved in the actual management?"

"I'm afraid that's not realistic." Xia ruofei said.

"That's for sure. Even if you send a professional team to settle in, it will be difficult to form an effective management." Elder song said, "although the company is large, it is still a family business in essence. The management is made up of the backbone of the Liu family. I can tell you with certainty that if you accept these shares, it may not take more than a year for your shares to become worthless. They will only leave behind a shell company. If they are a little black – hearted, they will even leave you with a huge debt!"

"It's so dark?" Xia ruofei was speechless.

"You should never underestimate the distortion of human nature in the face of benefits." Elder song said, "as I said just now, the Liu family's company has a very complicated equity structure. They also have a large number of companies under their actual control. On the surface, they have nothing to do with the Liu family's family group, but they can transfer high – Quality assets at any time. By then, you will only be left with a mess!"

"I roughly understand." Xia ruofei smiled and said, "actually, I don't want any shares. I'm not interested in the Liu family's business."

Even if Liu Qunfeng did not say it, Xia ruofei was not prepared to use these shares as the medical fee. He was a person who was afraid of trouble. As elder song said, choosing the shares meant choosing a lot of trouble.

Perhaps the trouble that Xia ruofei could think of was not as thorough as elder song's analysis. However, just the things that he could think of were already giving him a headache.

"As for the three billion dollars in cash, I'm sure you won't be too interested in it," said elder song with a smile.

"Oh? Why did you make such a judgment?" Xia ruofei smiled and asked, "that's three billion US dollars! If I take it, it'll be enough for me to squander for a few lifetimes!"

Elder song laughed and said, "you're testing me, kid ... Ruofei, based on my understanding of you, you don't have a strong desire for money. If it's just financial freedom, your assets now are more than enough. I believe that you won't be blinded by money."

Then, he changed the topic and said, "Of course, no one would think that the money is too little. It's a waste not to take the money that's given to us. At least, it's much more reliable than choosing the 40% shares."

"You're right. To be honest, when I heard elder Liu's proposal, I was a little tempted." Xia ruofei said with a smile.

"But even with house Liu's wealth, it's almost impossible to come up with three billion US dollars." Elder song said, "in fact, other than those super – Large companies, there are almost no other companies with such a large cash flow. Therefore, even if you chose this plan, it was basically impossible to get the money in one go. It's very likely that they'll propose a plan to pay in installments or cash in through some assets. In short, it'll be a lot of trouble."

"So ..." Xia ruofei said, "you're suggesting that I take a portion of the cash and the green cloud Island?"

"Of the three proposals we have, this is undoubtedly the most suitable one for you." Elder song said, "and based on my understanding of old Liu, if there is a measure for these three plans in his mind, I think he would want you to choose the first plan the most, and the second would be the 40% shares, and the last would be the green cloud Island plus cash plan!"

"Oh?" Xia ruofei's interest was piqued. He smiled and said, "I thought you would give the shares the highest priority! I also think that elder Liu doesn't want me to choose the equity the most! And ... Liu Qunfeng even came to me in private, hoping that I wouldn't choose the shares ..."

"Hmph Hmph!" Elder song laughed coldly and said, "Liu Qunfeng is still a little lacking compared to his father. At least on this matter, he is a little short – sighted."

"So ... This blue cloud Island is not simple!" Xia ruofei smiled and said, "I really don't know anything about this. Can you introduce us to each other?"

"Although the Liu family's development of blue cloud Island is a secret, it's not a secret at all to us, Song Jia." Elder song said, "green cloud Island is actually not in China, but an Island in the South Pacific Ocean."

Legally, it belongs to the state of Cornelius. However, through some political operations, the Liu family has actually taken control of this Island and has been recognized by the state of Cornelius.”

“Hmm, so ... They’ve spent a lot of effort on this Island.” Xia ruofei said.

Chapter 2618 Beyond expectations (2)

“In fact, the development of green cloud Island has been going on for more than ten years. This is also the overseas project that old Liu values the most.” Elder song said, “he built the blue cloud Island as the last resting place for the Liu family in order to prevent the Liu family from having no place to live when the situation in the country is irreversible. Therefore, after more than ten years of development and construction, this Island has already become a strong fortress. It’s simply a military fortress.”

Hearing this, Xia ruofei’s interest was piqued. He said, “You’re saying ... The Liu family has also set up military facilities on this Island?”

“Yes, and it’s definitely a big deal!” Elder song said, “according to the information we have, there is a small mountain on green cloud Island that has been hollowed out. The refuge embedded in the mountain can withstand the blow of a nuclear explosion. On the surface, they also spent a lot of money to set up a large number of defense systems, and hired mercenaries to guard it all year round. It can be said to be impregnable.”

“Now that you’ve mentioned it, I’m very interested!” Xia ruofei said, “this is a ready – made paradise!”

“According to the official data, the size of the cyan Cloud Island is almost five square kilometers, which is about the size of two Yongxing islands.” Elder song continued, “however, after the Liu family obtained the permanent ownership of Qingyun Island, they have been encircling the sea. Now, it has expanded by about one to two square kilometers, so the area is still very large. Moreover, green cloud Island has a natural deep – Water port, and the Liu family has also built a dock there. In addition, they have also built a 3000 – meter long runway, which can totally provide the take – off and landing of Boeing 737 – Class aircraft. The conditions are quite good!”

Xia ruofei was surprised, “it’s much bigger than I thought!” I thought it was just a small island!”

“If it’s just a private island in the ordinary sense, why would old Liu sell it for 2.5 billion dollars?” elder song laughed. According to my calculations, the Liu family’s investment in the past few years should not be less than this amount. So, if I had to choose, between 3 billion US dollars and blue cloud Island plus 500 million US dollars, I would definitely choose the latter.”

“Understood!” Xia ruofei nodded and said, “Grandpa song, thank you for your suggestion! This information will be very helpful to me!”

“So, you already have a choice?” Elder song asked with interest.

“If I have to choose one out of the three, since you have already analyzed it so thoroughly, of course I will choose the blue cloud Island Plan.” Xia ruofei smiled and said, “but I have the initiative now. Why do I have to charge the treatment fee according to the plan proposed by elder Liu? The blue cloud Island could be considered an option! However, I still want to have a chance to do some field research. After all, the cost of maintaining such an Island is not low. If I don’t use it well, there’s no need to do so.”

"That's true." Elder song said, "this kind of Island is specially prepared for big families. You're single, so there's no use for such a big place!"

"I have a girlfriend, okay?" Xia ruofei was unconvinced. "The term single dog doesn't suit me anymore."

He added another sentence in his heart, 'not only do I have a girlfriend, but I have more than one!

"If you're not married, doesn't that mean you're single?" elder song laughed.

Then, elder song continued, "but if you choose the green cloud Island, you can sell it to the song family even if you don't need it!" I can give you an additional 5% based on the actual valuation. However ... We also need to pay in installments. After all, the song family can't afford such a large sum of money. "

"If you want it, I can get it from the Liu family and give it to you," Xia ruofei said.

"That won't do!" Elder song said without hesitation, "if it's just a small gift, even if it's a slightly more precious gift, I'll take it as your filial piety and accept it. But the entire blue cloud Island ... I can't accept it!"

"Then I'll have to consider whether to choose this blue cloud Island or not." Xia ruofei smiled and said, "according to my wishes, I hope that the Liu family will make some concessions in other matters. I don't want too much in terms of economic benefits."

Elder song naturally understood what Xia ruofei meant. He said seriously, ""Ruofei, if you don't have to get involved in the family business, try not to. The relationship between the Liu and song families is very complicated. Last time, we already broke the rules a little. This time, you must not get involved!"

"Grandpa song, I can feel that Grandpa Liu's attitude has changed after his relapse. I believe that if I'm willing to work for him, the Liu family and the song family ..." Xia ruofei was stunned for a moment.

"RUO Fei, listen to me!" Elder song said, "the situation is very complicated. It's not just about the Liu and song families. Our two families are already top families in Huaxia. Some people are happy to see our two families fight over some things. In the past few months, the Liu and song families have stopped fighting, which has already made some people very uneasy. If our two families show signs of cooperation, I'm afraid there will be many undercurrents. In short, don't bother about this matter! You can charge however much the treatment fee is. You don't have to be polite with the Liu family, and you don't have to help them save money. However, you shouldn't get involved in some family matters. "

Xia ruofei could guess what was going on. Where there were people, there would be fights. The big families in Huaxia were not just the Liu family and the song family. Although there were not many families that were on par with these two families, there were still some. Moreover, if some of the weaker families were to join forces, they could not be underestimated.

All sorts of forces were complicated, and the disputes of interests were even more complicated. For big families like the Liu family and the song family, any slight adjustment in their strategy could cause a chain reaction.

Since elder song had said so, Xia ruofei would not do anything bad.

"I understand, Grandpa song." He nodded. Don't worry, I won't act rashly. "

"Mm! You just need to listen to me." Elder song said,"by the way, the Liu family is very sincere this time. If you are satisfied with the treatment fee, try your best to treat old Liu! You don't have to worry that he'll harm you after he's recovered, or that he'll go against the song family again. I'll protect you from all these things, and the Liu family knows my determination, so they won't dare to go against you easily."

Xia ruofei's heart warmed, and he said,"I understand, Grandpa song." In fact, elder Liu's condition is really complicated this time. I don't have any intention of delaying it."

Eccentric song smiled and said,""Let's not talk about this. Ruofei, if you're not too busy, can you find some time to have a meal with me and have a chat? Old people tend to reminisce, but my children and grandchildren are busier than one another, and it's rare to see them ..."

"Alright!" Xia ruofei said,"I'll go over to see you after I'm done with my work these few days! Grandpa song, take care of yourself, I'll hang up first ..."

"Good, good, good!" Elder song laughed and said,"I'll be waiting for you at home. Don't forget to bring two bottles of good wine!"

"Alright!" Xia ruofei said,"don't worry. I promise I won't forget!"

After hanging up the phone, Xia ruofei rested for a while in his room. When it was close to noon, he went to elder Liu's ward to give him a checkup.

After they came out, Xia ruofei found Liu Qunfeng and asked,""Chief Liu, elder Liu mentioned the green cloud Island today. I wonder if it's convenient for us to go and inspect it? It's really too difficult for me to choose. After all, this blue cloud Island is just a name. It's not as intuitive as three billion US dollars or 40% of the shares ..."

Chapter 2619 Heading to the green cloud Island (1)

Liu Qunfeng's first reaction was to refuse, but when he heard the word "shares," he couldn't help but tremble. As the future leader of the Liu family, the last thing he wanted to see was nearly half of the shares of the family group being taken away.

This would bring about too many unstable factors.

Of course, regardless of whether Xia ruofei wanted the money or the green cloud Island, he was still very distressed.

Of the two evils, the lesser one was the shares.

Liu Qunfeng hesitated, then said,""Mr. Xia, you may not know the situation ... The blue cloud Island is actually not within the borders of Huaxia ..."

"I know," Xia ruofei smiled and said,"I've already asked around. Green cloud Island is located in the South Pacific Ocean. It's an Island that belongs to the agate Kingdom. However, the permanent ownership has been bought by the Liu family, right?"

The Liu family had managed an Island overseas with a strong defense. This was a secret to ordinary people, but it was impossible to hide it from the big families. Liu Qunfeng knew that Xia ruofei had already gotten the news from the song family.

“Yes ... That’s why ... The Azure cloud Island is a little far away, and my father’s current situation ...” He nodded.

“As far as I know, there’s a 3000 – meter long runway on the island, which is more than enough for private planes to take off and land.” Xia ruofei smiled and said, “we can take my paradise and go there directly. One day will be enough. Elder Liu’s condition is still stable, and I have a few bags of medicine with me, so there’s no need to worry about his safety.”

The airport on Qingyun Island was not open to the public, but it was the Liu family’s own Island. Xia ruofei could land on the Paradise. This way, he did not need to transfer flights or change passenger ships from the Carnelian Island. He could take off from the capital and land on Qingyun Island. Although it seemed like a long distance, it would not take much time.

Since Xia ruofei had already said so, Liu Qunfeng naturally could not refuse.

“Mr. Xia, I’ll have to ask my father about this,” he said after some thought.

“Of course!” Xia ruofei smiled. “Then I’ll have to trouble you to ask for instructions as soon as possible, chief Liu!” Since elder Liu has already brought up this matter, I don’t want to drag it on any longer. It’s better to make a decision as soon as possible. If the inspection of green cloud Island can’t be carried out, then I may have to choose between three billion US dollars and 40% of the shares, and what my company doesn’t lack the most is cash flow ...”

“I’ll go ask for instructions now!” Liu Qunfeng quickly said, “Mr. Xia, please wait a moment.” Don’t worry, since my father proposed this plan, he definitely won’t refuse your inspection. The only thing he’s worried about is his own safety. I’ll tell him your judgment!”

“I’ll have to trouble you then, chief Liu.” Xia ruofei smiled and nodded.

“It’s no trouble at all!” Liu Qunfeng quickly replied, “of course! I should!”

Then, Liu Qunfeng walked quickly into old man Liu’s ward. Xia ruofei did not return to his room. Instead, he stood in the corridor and waited.

After a while, Liu Qunfeng pushed the door open and walked out.

He did not wait for Xia ruofei to speak and said with a smile, “Mr. Xia, the old man has agreed!”

Then, Liu Qunfeng immediately explained, “Because I’m a public official, the procedures are a bit troublesome, and I have to report it to the higher – ups, so the old man decided to let uncle Kuan go with you. Don’t worry, uncle Kuan will be able to represent my father when he’s there. ”

Liu Kuan was old man Liu’s chief butler. He had been with old man Liu for decades and could be said to be loyal. On the green cloud Island, Liu Kuan could indeed represent old man Liu. Since it was not convenient for Liu Qunfeng to leave the country, it was most appropriate for Liu Kuan to accompany Xia ruofei.

Xia ruofei nodded with a smile and said, "Sure, chief Liu. Sorry for the trouble."

"Where? Where!" Liu Qunfeng quickly said, "this is a very normal request. Even if you go to the market to buy vegetables, you still have to look at the quality of the vegetables! Not to mention such a big deal? Mr. Xia, when do you want to leave?"

Xia ruofei thought for a while and said, "Of course I hope it'll be as soon as possible. Paradise will take off from Beijing tomorrow morning. I just don't know if other things can be arranged."

"No problem!" Liu Qunfeng said without hesitation. "We'll coordinate the flight route. In addition, you can fly directly to Qingyun Island from China. You don't need to apply for a visa for the Carnelian Island, and you don't need to go through any entry procedures after landing!"

The Liu family had absolute ownership of green cloud Island, which was equivalent to taking it away from the map of the state of Ponaattu. At least it was a country within a country, and the customs of the state of Ponaattu had no jurisdiction over green cloud Island. As long as the Liu family agreed, anyone could enter the blue cloud Island directly without going through any procedures.

"What about when we leave from China?" Xia ruofei asked.

"Just follow the normal domestic departure procedures." Liu Qunfeng said, "in short, everything will be calculated according to domestic travel. There is no need to go through the border inspection process or go through the exit procedures."

"Alright, that's much more convenient!" Xia ruofei said with a smile.

Chapter 2620 Heading to the green cloud Island (2)

"Then we'll leave tomorrow morning. You just need to be responsible for sending the plane to Beijing." Liu Qunfeng said.

"OK! It's decided!" Xia ruofei said.

"Mr. Xia," Liu Qunfeng continued, "before we leave, please do a full body examination for my father. Also, I hope you can teach the medical staff how to deal with emergency situations if there are any changes to his condition."

"No problem!" Xia ruofei replied readily, "let's arrange it after dinner today!"

"Alright!" "Thank you," Liu Qunfeng said.

"You're welcome!"

.....

There was nothing much to do during the day. Xia ruofei called Captain Liu An and asked him to land the plane at the Capital International Airport and wait for orders. He also informed him that he had to fly to Qingyun Island the next morning. There would be someone to liaise with him on the specific route application and route plan.

After Liu An received the mission, he immediately brought the flight crew to apply for a temporary flight route to Beijing. On the same day, the plane landed at Beijing International Airport and the flight crew found a hotel near the airport to settle down.

In the evening, after Xia ruofei had dinner, he took out a bag of Chinese medicine from the refrigerator next door. He heated it up and let elder Liu drink it.

Then, he used his mental power to perform a comprehensive examination on old man Liu and confirmed that his condition would not worsen in the short term.

In the end, Xia ruofei gathered the medical staff in charge of elder Liu and told them how to deal with sudden emergencies.

Of course, Xia ruofei's method was very simple. Once elder Liu's condition suddenly worsened, he could give him a bag of Chinese medicine immediately without considering the time and interval of the medicine.

If the situation still couldn't be improved, they would have to decisively adopt Plan B. They urged Xia ruofei to use the afternoon to let Xia Qing make two pills in the medium. The ingredients in the spiritual heart Flower petals were more than the Chinese medicine in the vacuum bag.

Of course, in order not to let the Liu family think about the batch of pills that had been destroyed by Liu Lifang, Xia ruofei specifically asked Xia Qing to choose a new prescription. Whether it was the smell or the taste, these two emergency pills were different from the previous pills.

Xia ruofei had also repeatedly advised that only when elder Liu's condition worsened and the Chinese medicine that was prepared in advance did not have any obvious effect could he use the emergency pill.

Furthermore, when taking out the pills, the requirement was the same as before. They must not come into contact with the skin.

After Xia ruofei emphasized a few things to take note of, he immediately warned again in a warning tone. Unless the condition worsened and the medicine was ineffective, the pill was not allowed to be used. If the old man's condition was normal, taking the pill would not be beneficial. It might even cause danger because the medicine was too strong.

After these few days of interaction, the medical staff had long regarded Xia ruofei as a God. Naturally, no one dared to question his medical advice. They all nodded in agreement.

Liu Qunfeng, on the other hand, was on high alert. He carefully put the box containing the two pills into the refrigerator. He also sent two more guards to guard the refrigerator, not allowing anyone to get close.

Liu Qunfeng also made it clear that when Xia ruofei was not around, he was the only one who had the right to open the fridge. No one else was allowed to come near, including the core members of the Liu family.

At night, Xia ruofei held the origin crystal in his hand and sat on his bed to cultivate for a while. Then, he went to bed early.

The next morning, Xia ruofei had breakfast at the Liu family's house and then took a bus to Jing International Airport with Liu Kuan.

Xia ruofei didn't ask Wu Qiang to drive the car over for assurance. Instead, he directly used a commercial vehicle of the Liu family.

Xia ruofei and Liu Kuan successfully passed the security check in the private plane next to Beijing International Airport's T2 terminal.

Soon, Xia ruofei saw the pilot, Liu An, who came to welcome him.

"Captain Liu, I transferred you here last minute yesterday. Thank you for your hard work!" Xia ruofei said with a smile.

"You're too polite! This is our job." Liu An quickly said.

"Is today's flight plan ready?" Xia ruofei asked, "this is the first time you're all flying to this airport. However, the route is relatively simple and the airport is surrounded by the sea. There are no tall mountains or buildings, so it shouldn't be too difficult for you."

Regarding the issue of the route, the Liu family had specially assigned people to communicate with Liu An, which included the route from the capital to Qingyun Island. The Liu family had applied for it yesterday. In addition, since the airport of cyan Cloud Island was not open to the public, even the basic information such as the airport navigation platform, the switching of the Flight Information Region, the airport tower frequency, the instrument entrance procedure, and so on were not made public. Therefore, the Liu family had sent someone to contact Captain Liu An and directly sent this information to him.

"After receiving the data, the flight crew immediately drew up the flight plan and ran a simulation of the entire process," Liu An nodded. It's just as you said. As long as the weather gives us face, there won't be any difficulty in this flight. And according to the current forecast, the weather conditions are very good!"

"That's good!" Xia ruofei smiled and nodded.

Liu Kuan was still the same as before, keeping a low profile and not having much presence.

Xia ruofei and Liu An chatted as they walked, and Liu An quietly followed behind them.

After a while, the three of them passed through the passageway of the private aircraft building and arrived at the tarmac.

This time, paradise was parked in a long – distance plane, so the three of them took the commuting vehicle inside the airport and finally saw paradise.

After they got on the plane, Captain Liu An began to introduce the flight plan to Xia ruofei and Liu Kuan. "Mr. Xia, as this voyage is close to the Gulfstream G650's limit, for safety reasons, we will land in Australia's Cape to refuel. After a short stop, we will continue to fly to Qingyun Island. The entire journey is about 16 hours, and the flight time is relatively long. The two of you can choose to take a nap on the plane."

Xia ruofei nodded and said, "it's been a long journey. I'll have to trouble the two of you."

“You’re too polite!” Liu An said with a smile.

For a two – person flight crew, a continuous flight of 16 hours was indeed very tiring. In fact, according to the regulations of China Civil Aviation, such a long – distance flight had exceeded the stipulated continuous flight time. However, the peach source’s flight crew was not the airline’s staff. With the Liu family’s coordination, it was considered a matter of pushing the boundaries.

Xia ruofei said, “in the future, if there are more long – distance flights like this, I will recruit two more pilots. For non – long – distance flights, we will use a four – man crew. This way, you can take turns to rest.”

“Thank you, Mr. Xia!” Liu An said politely, “in fact, compared to Civil Aviation pilots, our overall working hours are still very short. It’s just that this kind of continuous flight is relatively longer, so it’s relatively harder. But we can persist, and please rest assured that it will not affect the flight safety.”

Xia ruofei nodded. “Anyway, it’s impossible to recruit pilots on the spot. I’ll have to trouble you this time.”

Liu An couldn’t help but laugh and said, “No problem!”

Xia ruofei continued, “how about this?” We’ll stop by Sydney on the way back and stay in Australia for a day. You can also rest. ”

Xia ruofei thought that since they were going to stop by Australia, why not take this opportunity to visit Paradise Farm and West Winery? The Hunter Valley was not far from Sydney anyway, so a day’s rest was more than enough for the flight crew to rest for a day before they continued their flight.

Liu Kuan’s mouth was wide open, but he didn’t say anything in the end. He subconsciously wanted to end things here as soon as possible and rush back to Beijing. After all, Xia ruofei wasn’t in Beijing. Whether it was him or Liu Qunfeng, they were both very worried about old master Liu’s health.

However, Liu Kuan remembered that before they left, old master Liu had told him to put Xia ruofei in charge, so he chose to remain silent.

“Alright! Let’s change our return flight plan. ” Liu An said, “Mr. Xia, I’ll go to the cockpit to make preparations!”

“Mm! Thank you for your hard work, everyone!” Xia ruofei said with a smile.
