Chapter 2661 The old company commander comes to seek shelter_3

Xia ruofei felt a little more at ease after hearing this. However – at the same time, he began to hesitate – the deputy was his company commander in the past. Now that he was working for him, his mentality ...

Ma Jia seemed to have read Xia ruofei's mind and took the initiative to say, "RUO Fei, you don't have to worry. If I go to your side, I'll definitely be in the right position. I was your leader in the Army, but when we're here, you're my boss. I can still distinguish this!"

Guo Zhan laughed and said, "you don't have to worry about that, RUO Fei!" "This phenomenon is very normal. A few years ago, I had an old comrade who transferred to another job. He was a technical level 9 without any administrative positions. He transferred to his wife's hometown and became the Deputy Director of the city's Finance Bureau. In the end, the Deputy Director of the finance Bureau was a soldier that he had led many years ago when he was a platoon leader. After this soldier retired from the Army, he became a civil servant. After so many years, he was promoted to Deputy Director, while he, the old platoon leader, became the Deputy Director of the Bureau. Wasn't he still very positive? In private, the Deputy bureau chief is very friendly with the old platoon leader, but at work, he still does what he should do."

Xia ruofei was a little embarrassed as he said, "I'm not worried about that. It's just that we're a private company, and it's a waste of your talent for you to work with me ... Besides, the people I'm hiring this time are going to work overseas, so they might not be home for a long time ..."

"No problem!" Ma Jia replied. As long as you think that my abilities meet the requirements ..."

"That's for sure!" Xia ruofei said, "do you think I don't know the old company commander's military quality? Even if his explosive power has decreased after his injury, he should be more than enough to deal with my work!"

"Then isn't it settled?" Ma Jia smiled and said, "as for the future ... My parents are no longer alive, and my wife and I have no children yet. If you can bring a family member, I'll bring her to work. If not, then it's fine. Didn't we live in two different places when we were in the Army? We're already used to it!"

"No problem!" Xia ruofei replied without hesitation, "I have many positions on that Island overseas that need people. If I remember correctly, sister – in – Law studied Meteorology?"

"You even remember that?" Ma Jia asked in surprise.

Xia ruofei laughed and said, "who asked you to show off every day?" Sister – in – Law was still your girlfriend at that time! It's her first time in the company, and you introduced her to everyone you met, saying that she's your girlfriend and that she'll be a meteorological expert in the future!"

"She was still in University at that time!" Ma Jia laughed embarrassedly. "After I graduated, I went to work at the weather control station in my hometown. Do you know what a weather control station in a County is like? The forecast results are the same for almost every place. There's only so much land in total! It's also divided into so – and – so town, so – and – so village, so – and – so District ..."

Upon hearing this, everyone could imagine the scene and couldn't help but laugh.

Xia ruofei said, "I don't think the salary at the county meteorological station is high." Ask sister – in – Law to resign and come with you! I have a post there!"

"You even need a meteorological major?" Ma Jia asked in surprise.

"There's a small airport on the island that needs people from the Meteorological Department! If sister – in – Law didn't go, I would still have to recruit people outside!" Xia ruofei said, "it's decided then! Old company commander, call sister – in – Law now. If she has any concerns, tell her that her monthly salary is five thousand Yuan! US dollars! This was only the salary for those who had just joined the company, and it would be increased in the future. In addition, we can help her pay for her insurance and housing Fund in China, just like the employees of our paradise company!"

"Ruofei, your salary is a little high!" Guo Zhan said with a smile.

"Yup! RUO Fei, if I were to say this, your sister – in – Law would definitely think that I've made a mistake and have accepted some benefits in disguise!" Ma Jia also said.

5,000 US dollars was equivalent to more than 30000 Chinese dollars. Some small businesses could only earn this much in a year. Ma Jia couldn't help but feel a little scared after hearing it.

Xia ruofei smiled and said, "that's really not high. If we're working in China, the standard might not be so high. However, there are salary standards for overseas work!" Not to mention that the island is in the South Pacific Ocean. It's isolated and thousands of miles away from home. It's a great sacrifice to work there. This can be considered a kind of compensation!"

Xia ruofei smiled and said, "old company commander, you're not worried that your income won't be as high as sister-in-law's and your status in the family will drop, are you?" There's no need for that at all. After you've joined, your salary will only be higher than sister – in – Law 's! Even if one's financial status determines one's status in the family, you must still be very tough when you speak!"

After hearing that, everyone burst out into laughter, regardless of whether they had families or not. Even those military officers who were having lunch together revealed a wisp of expectation in their eyes.

After laughing, Guo Zhan seriously said, ""RUO Fei, I absolutely trust you! That's why I'm handing over these excellent officers to you ... Among the few who are here today, besides ma su, they are also facing the problem of surplus personnel. Let me introduce them to you ..."

After he finished speaking, Guo Zhan pointed to the major beside him and said, "This is Liu mingtian, the head of the military supplies Department. Due to his age, he has been rehired this time. Old Liu has also chosen to take his own career. I talked to him this afternoon, and he is very interested in your position. Old Liu is an expert in logistics, and his military skills are no worse than the scouts in the general Army. He used to be a Captain of an assault team! He should be able to help you!"

Chapter 2662 A decision made in one word (1)

Hearing this, Xia ruofei was overjoyed and said, "that's great!" Wolf King, you're simply sending charcoal in the snow! I'm going to set up a guard team on the island, and I'll need someone to take care of the vehicles, equipment, and fuel. There's even a super Jaguar on the island! By then, I can get Section Chief Liu to help me manage the entire logistics department!"

Hearing this, Liu mingtian's heart was put at ease. He had been worried that he was too old, and his military skills were not as good as Ma Jia and the others. Besides, he had not had much contact with Xia ruofei before, so he was worried that Xia ruofei would not want him!

He did not expect Xia ruofei to be so forthright and trust him so much.

Liu mingtian stood up with his cup in hand and said, "President Xia, thank you for your trust! I'll use this drink in place of wine to propose a toast to you!"

Xia ruofei quickly waved his hand and said, "Section Chief Liu, you're an old leader. It's too distant to call me President Xia!" You can call me RUO Fei like old company commander!"

Xia ruofei picked up his glass and stood up. He clinked his glass with Liu mingtian's and said, "Section Chief Liu, I'll give you a toast. I hope that after you work in my company, everyone will work together to do a good job! I'll drink first!"

With that, Xia ruofei clinked glasses with Liu mingtian across Guo Zhan, then raised his head and finished his drink.

Liu mingtian also finished his drink and said, "Ruofei, since that's the case, you should stop calling me Section Chief Liu. I won't be able to stay as a Section Chief for long. In the future, I'll be your soldier! I think you should just call me old Liu!"

"I wouldn't dare to." Xia ruofei smiled and said, "I'll call you brother Liu! Having an old man at home is like having a treasure. In the future, with you overseeing my Paradise Island, I will be much more at ease!"

Besides Ma Jia and Liu mingtian, there were two other lieutenants, a first lieutenant and a Lieutenant. Both of their eyes became eager.

Guo Zhan glanced at them and scolded with a smile, "Look at how useless you two are!"

Then, he turned to Xia ruofei and said, "Ruofei, there are still two more! Let me introduce you ..."

Of the two lieutenants, the one with the captain rank was Wu Jiasong, the instructor of the security company. The officer with the rank of first lieutenant was called Zhong Lin, the Deputy company commander of the automotive company.

Strictly speaking, the two of them were not official members of the lone wolf assault team, but officers of the logistics support team.

During the military reform, this security team had suffered the greatest impact, and the number of people who had been disbanded was the largest.

Although Wu Jiasong and Zhong Lin were not official members of lone wolf, since they were invited by Guo Zhan to have a meal with Xia ruofei, it meant that their abilities were recognized by Guo Zhan.

After Xia ruofei heard Guo Zhan's introduction, he thought for a while and said, "The two of you are so young, I don't think you've reached the age limit for choosing your own career, right?"

"I've served in the Army for ten years, while Zhong Lin has just served eight years," Wu Jiasong nodded and said.

Ten years of being the principal and eight years of being the Deputy ... Xia ruofei was speechless. Even with the addition of the four years in the military school, the progress of these two was a little slow.

Guo Zhan said, "both of them studied in the military and went to Junior College. After graduation, they started as second lieutenants. So, although their positions are not high now, their military service is relatively long. Compared to other cadres of the same rank, they are a little older."

Xia ruofei suddenly realized that most of the soldiers in the Kongtong Army were either first – Class soldiers or corporals, which meant that they had a few years of military service. In addition, the military school even had three years of Junior College, which also counted military service. After graduation, they had started working from the rank of commander. Now, they were deputy commander and commander commander. It was normal for one to have ten years of military service and the other to have eight years.

Xia ruofei nodded and said, "since you can't choose your own career, even if you want to change your career, you can also choose the method of placement!" At least you'll have a career editor. It's much more stable than going to my place!"

In Wu Jiasong and Zhong Lin's case, if they didn't want to work, they could only choose to be discharged as soldiers. Even if they regretted it in the future, the country would not arrange a job for them. It was a one – time deal, and there was no medicine for regret.

It was not easy for them to get into a military school when they were in the Army and successfully graduate to become an officer of the Republic. This could also be considered as a change in status, and they had the status of cadres. In the end, when he left the Army, he actually took the initiative to give up everything and go according to the veteran treatment. Didn't that mean that all the efforts he had put in for the entrance examination and after that were in vain? everything would return to its original point?

After all, if they didn't take the exam and stayed in the Army, they would be sergeants or staff Sergeant now. Even if they were to leave the Army, they would still be treated like soldiers. There was no difference from now.

If the economic accounts were calculated, the officers would be discharged from the Army and the money they received would be less than the soldiers who were directly discharged.

What were they after?

Guo Zhan looked at Wu Jiasong and Zhong Lin and said, "You guys tell me!"

Wu Jiasong smiled embarrassedly and said, "Actually, the reason isn't that complicated. We're still young, and we don't want to live a life where we can see what we'll be like when we retire on the first day of work. "Moreover, one of us is an Infantry Division commander, and the other is an automobile division commander. Such majors are of no use in other places. Zhong Lin's is slightly better. At least he has some connection with the local major. What can I do when I go back? As a security guard Captain?"

Chapter 2663 A decision made in one word_2

Zhong Lin couldn't help but reveal a bitter smile and said, "This is the current situation in the Army. Many of us graduated from military school, but we don't have a suitable profession when we go to the local area. Unless we change our profession, or go to the Qingshui Yamen and wait for retirement ..."

Ma su, who was sitting beside Xia ruofei, couldn't help but say, "Wasn't there a post some time ago that said that the profession of a retired official wasn't suitable? The following posts are both funny and sad. There are all kinds of professions. There's submarine, tank Cannoneer, land missile, air defense radar ... After these people changed their jobs, most of them became officials and Deputy Directors in various government agencies, enterprises, and institutions ..."

"Deputy instructor MA is right. We're still young and don't want to live a stable life." Zhong Lin said, "that's why instructor Wu and I have the same idea, which is to follow the discharge treatment. Originally, we wanted to go back and start our own business. Today, Captain Guo told us that there was such an opportunity on President Xia's side, and we were immediately tempted!"

"President Xia, if you don't mind us, we'll work for you in the future!" Wu Jiasong said.

Hearing this, Xia ruofei couldn't help but look at Guo Zhan.

In the case of Wu Jiasong and Zhong Lin, directly retiring according to the veteran's treatment was a bit of a desperate move, leaving no way out for themselves.

Xia ruofei was a little hesitant. They were full of enthusiasm now, so they could say anything they wanted. However, if they were not happy at Paradise Island or felt that they could not stand being isolated from the world, they would have nothing left if they left Paradise Island and returned home.

Would they blame him then? Xia ruofei muttered in his heart.

"What are you looking at me for?" Guo Zhan asked with a smile. This is your business! You can decide for yourself whether you want them or not! I can only guarantee that the officers and soldiers I recommend to you are of high quality and are absolutely reliable. You can use them without worry. As for whether I want them or not, that has nothing to do with me. "

Wu Jiasong was more mature and he could see the concern in Xia ruofei's heart. He said, "President Xia, you don't have to feel any pressure. If Captain Guo didn't provide us with the information, Zhong Lin and I were also prepared to be discharged."

He then smiled in embarrassment and said, "Actually, there will be more money after retirement than transferring to another job. Our original intention was to use this money to start a business. However, if we were to work for you, although we are already common people, we can still deal with weapons and equipment. Moreover, there are many familiar comrades around us, so we changed our minds!"

Zhong Lin also said frankly, "and ... President Xia is giving me good treatment." After we heard it, we were even more tempted ..."

Xia ruofei could not help but smile at Zhong Lin's words. He was an honest man.

"So, no matter how long we can work in the future, at least this is our own choice. We will not blame anyone." Wu Jiasong said, "also, if you think that our ability and quality can't meet the requirements of

the job, you can fire us when it's time. We will have no complaints. The local rules are like this. How can there be an iron job?" We all know about this. "

Xia ruofei didn't hesitate anymore. He nodded and said,""Since the two of you have already said this, what else is there to say? Welcome to the paradise Corporation!"

Wu Jiasong and Zhong Lin looked at each other in excitement. They clenched their fists and cheered in their hearts.

"Come, I'll toast to the two of you." Xia ruofei stood up and said,"I wish that we will go to the next level in our work!"

"I also wish that the Paradise company will continue to prosper!" Wu Jiasong smiled.

"You can talk!" Xia ruofei smiled and said,"come, let's drink this glass together!"

After Xia ruofei, Wu Jiasong, and Zhong Lin had finished their drinks, Guo Zhan said,""Ruofei, there's something that I have to tell you. Although the four of them are basically going to retire, it's a critical time for the Army to reform. Furthermore, we're going to move our troops over a thousand miles soon, so it's impossible for them to leave the Army in the near future."

"Understood!" Xia ruofei said,"do you think I don't know the rules of the Army? Moreover, retired officials would leave the Army at least in March every year, and it wasn't even the end of the year yet! The other people I've recruited can go over first, so it won't delay things. "

"It won't take that long ... It's mainly because the troops have been busy moving and defending during this period of time. All the surplus cadres are still holding their posts, and they are no exception. When the troops have moved to the new base and everything has settled down, I'll approve their leave and let them take a break first. Didn't you say that we'll do some training after we recruit them? They're all veterans in the training field. They can go over and help you, and at the same time, they can receive some training. "

As Guo Zhan said this, he took a sip of his drink and continued,"When their leave is over, I'll extend their leave if the unit isn't particularly busy. This way, it won't delay your work. You'll have to let them go through the procedures in March next year. "

Chapter 2664 A decision made in one word_3

Xia ruofei said happily,"that's even better!" The old leader was very thoughtful! With the old company commander, brother Liu, and the others, the guard team's training work was like adding wings to a Tiger! It's decided! I'll give everyone my phone number later. After you're done with your vacation, you can come to San Shan to find me!"

Guo Zhan thought for a moment and said,"I suddenly thought of a problem!" RUO Fei, you said that your Paradise Island is overseas, but Ma Jia and the others are active soldiers. They can't leave the country at will before completing the transfer procedures. And even after changing jobs, according to our unit's confidentiality level, the period of confidentiality is at least five years ... It seems that working abroad is not possible!"

"There shouldn't be a problem," Xia ruofei said with a smile. That Paradise Island was a little special. In terms of sovereignty, he belongs to theagate map of the South Pacific island, but he has transferred his permanent ownership, or the right to use, to me. Also, there are docks and airports on Paradise Island, so we don't need to go through any entry procedures to go to Paradise Island. It was a bit like an enclave in some Western countries, but this land belonged to me and not the country. Therefore, strictly speaking, even though Paradise Island is tens of thousands of miles away, going there isn't considered going out of the country, so it shouldn't be considered a violation of the policy. "

Guo Zhan raised his eyebrows in surprise and said, "There's such an operation? I thought I was being thoughtless just now ... But considering how big your business is in the country, it's not a problem to arrange a few old comrades. At most, we can just go to your peach source Island. "

"Of course, I've considered all these factors before coming to you to ask for her." Xia ruofei said with a smile.

"That's good!" Guo Zhan said happily,"come, ruofei, I'll give you a toast! Thank you for solving my problem!"

Xia ruofei quickly said,"Wolf King, I should be the one toasting you!" You should be the one who helped me solve the big problem!"

"Hahaha! It didn't matter who he respected! Let's go!" Guo Zhan said with a hearty smile.

Xia ruofei and Guo Zhan clinked their glasses, raised their heads, and drank the drink in their glasses.

Guo Zhan glanced at ma su beside Xia ruofei and saw that his expression seemed to be a little conflicted. He couldn't help but say,""Little ma! What are you still worried about?"

"Captain ... This ... Going to such a far island ... Is it really not considered a violation of the rules?" Ma Jia asked with hesitation.

"What are you worried about, kid?" Guo Zhan cursed,"ruofei has already made it very clear. It won't violate the policy at all! Besides, don't you know what kind of person you are? Even if you're outside the country, will you betray your country and sell out your secrets?"

"Of course not!" Ma Jia didn't even think about it and said,"even if I, Ma Jia, leave the Army, I will never forget the oath I made in front of the military flag when I joined!"

"Then isn't it settled?" Guo Zhan said,"you've only been a political cadre for a few years. How did you get the bad habit of being so fussy?"

Xia ruofei almost laughed out loud. Wu Jiasong, who was sitting opposite him, did not know whether to laugh or cry. He was the political instructor of the company, a standard political cadre. Guo Zhan's attack had affected him too.

"Understood!" Ma Jia raised her head and said. Great captain, I was wrong!"

"Don't think about those things! If there's a problem, I'll be responsible for it!" Guo Zhan said.

"I'm just worried that you'll be implicated!" Ma Jia immediately said,"if you transfer to a new unit, everything will be unfamiliar. If anything happens, you won't be able to handle it ..."

“Nonsense!” Guo Zhan said without mercy, “if you guys are worried that I will be implicated, then work hard at RUO Fei’s place. As long as you don’t cause any trouble, I will be fine, understand?”

“Yes!” Ma Jia and the other three replied in unison.

They didn’t say anything more, but their eyes showed that they were touched. Everyone could feel Guo Zhan’s care and love for them.

Guo Zhan glanced at Ma Su and said, “I think that Ma Jia is the only one who is wavering! How about this ... Didn’t RUO Fei just say that he had arranged work for your family? Call Xiao Lin now! Tell her about this and ask her to quit her job in her hometown as soon as possible!”

“Ah? Are we going to fight now?” Ma Jia said, “this ... Isn’t this a little too rushed?”

“Let’s fight now!” Guo Zhan said without any room for discussion.

Guo Zhan’s authority in the lone wolf assault team was Supreme. Ma Jia didn’t dare to say no. He obediently took out his mobile phone and called his wife.

When everyone saw Ma Jia making the call on the spot, they all quieted down.

The call was quickly connected. Ma Jia said with a nervous look, “Wife, what are you doing? You’re off work, right? I’m having lunch. Is everything okay at home?”

Guo Zhan saw that Ma Jia didn’t talk about the main topic for a long time, so he directly stretched out his hand and said, “Give me the phone!”

“Wife, wait a moment!” Ma Jia quickly said. Captain Guo will tell you!”

With that, Ma Jia obediently passed the phone to Guo Zhan, Xia Ruofei in between.

Guo Zhan didn’t stand on ceremony. After taking it, he directly turned on the speaker and put the phone on the dining table. Then, he shouted in his loud voice, “Sister – in – Law, I’m Guo Zhan!”

Ma Jia’s wife’s voice came from the phone, “Brother Guo, Hello! Did Ma Jia make a mistake in the Army? Don’t be polite, if he makes a mistake, you can hit and scold him however you want!”

Xia Ruofei was busy dealing with a piece of red braised meat. It was the best red braised meat for the fat pursuer. Xia Ruofei had not eaten it for a few years and missed the taste. After he heard Ma Jia’s wife’s words, he almost laughed out loud. He quickly swallowed the meat in his mouth and then took two tissues to cover his mouth. He interrupted and laughed silently.

Wu Jiasong, Zhong Lin, and Liu Mingtian didn’t make a sound either, but their bodies were also trembling. It was obvious that they couldn’t hold it in any longer.

Xia Ruofei had never thought that the old company commander’s wife would have such a fierce side. In his impression, Ma Jia had always been an awe – inspiring company commander, but now his image was completely destroyed ...

Chapter 2665 I said it before (1)

Guo Zhan's dark face couldn't help but reveal a smile. He said, "Xiao Lin, there's no such thing. With me around, would this brat dare to make a fuss?"

"That's good, that's good ..." Ma Jia's wife, Lin Yue, said. She then asked, "brother Guo, is there something you need from me?"

"Oh! 'There's such a thing ...' Guo Zhan muttered to himself for a moment before asking, "this reform ... Ma Jia has been left behind, and he may have to take off his military uniform. Did you know about this?"

Lin Yue said, "he told me about it ... Big brother Guo, are you trying to persuade the family members of the cadres?" 'There's no need for that ... I think it's pretty good!' All these years, he's been away from home in the Army, and I have to take care of all the big and small matters at home. Moreover, the two of us only see each other for less than a month in a year ... After he transferred to another job, at least he can accompany me more often ... Do you know? He's in the Army all year round and almost never comes back. The aunties in my unit even think that I'm divorced! You're already trying to introduce me to someone! Later on, there was a time when Ma Jia was on leave, and I took him around the unit. I introduced him to everyone I met, saying that he was my husband and that I wasn't divorced, nor was I a widow!"

When Lin Yue said this, the few men in the private room became silent, and Ma Jia's eyes began to turn red.

Lin Yue continued, "so ... Brother Guo, since it's the organization's need, we will definitely obey it!" The organization asked him to take off his military uniform. As his family, I can't be ignorant, can I? You don't need to persuade me, I understand!"

Guo Zhan looked around at everyone and then said to the phone, "Sister – in – Law, we all know that you're a righteous person. This time, we're not trying to persuade you. By the way, did you know that Ma Jia chose to choose her own career?"

"He said that I think it's pretty good!" Lin Yue said, "you don't have to go to work, and the country gives you a retirement allowance every month. What a good thing! He did the math with me, and his retirement pay is higher than my salary! You play at home every day, but you get more money than me, a person who goes to work every day. That's why I said, the country is already good enough to us, we should know when to be content!"

Guo Zhan couldn't help but reveal a smile and said, "It seems that Ma Jia is quite honest to have reported all this to you! Sister – in – Law, then I'll get straight to the point ... It's like this ... A veteran in our unit started his own business after he retired from the Army, and now his business is quite big. You should have heard of his business, it's called paradise company."

"I know! This is the company that produces the jade skin cream." Lin Yue said, "I heard that the effect is extremely good, but we, the working class, can't afford it. Moreover, we have to rush to buy it ..."

Xia ruofei couldn't help but sweat. He leaned over to the phone and said loudly, "Sister – in – Law, I'll give you two sets of jade skin cream. I'll ask the old company commander to send them to you personally!"

On the other end of the phone, Lin Yue clearly did not expect that there was someone else besides Guo Zhan and Ma Su. She was stunned for a moment before she said a little unnaturally, "Then ... Then thank you. May I know who you are?"

When Ma Su saw that Guo Zhan and Xia Ruofei were chatting with his wife, he couldn't help but lean over and say, "Wife, the one who just spoke was Xia Ruofei. You've met her before. She's Xiao Xia from class one when I was the company commander! He's amazing now! The company's market value is in the billions, and we make so much money every day that our hands are tired. So, you don't have to be polite when he said he would give you the jaded skin cream! That's what their company sells!"

Lin Yue pouted and said, "What do you mean you're welcome?" Didn't they need to pay for this business? You, go to the side! I'm talking to brother Guo and Xiao Xia!"

Ma Jia was immediately frightened by his wife's words. He dejectedly returned to his seat and sat down, his face full of resentment.

Lin Yue continued, "little Xia!" I remember now. At that time, you and Lin Hu were the two youngest soldiers in the company. Every time I went to visit my relatives, you two would be the ones fighting to help me carry my bags!"

"I told you, sister – in – Law, you can't forget me!" Xia Ruofei said with a smile.

"Ruofei, don't interrupt me," Guo Zhan said. "Let me talk to Xiao Lin about serious matters!"

Then, Guo Zhan continued, "little Lin!" It was like this ... RUO Fei's company had a project that needed to set up a guard team, and it just so happened that they needed talents in the Special Forces. Wasn't Ma Jia preparing to choose her own career? So I recommended him to RUO Fei. Now that we've basically decided, Ma Jia will work for RUO Fei in the future. "

"Is that so ..." Lin Yue said with some hesitation, "I thought that after he changed his career, he would be able to accompany me at home every day ... But it's fine. Since you recommended him and he's going to little Xia's company, it can't be wrong! He was a man! I still have to put my career first. "

"I knew you would support me!" Guo Zhan chuckled and said, "but you've been living separately for a long time. Now that you've changed jobs, you still have to live in different places. Ruofei and I can't bear it. RUO Fei still remembers that you major in Meteorology, and he needs people in that field as well. He wants you to work with him, so that your income will be much higher than your current job. You and your wife won't have to live in two different places anymore. "

After Guo Zhan finished speaking in one breath, he paused for a moment before he continued, "That's the main reason I called today. I wanted to ask for your opinion. "

Chapter 2666 I said it before (2)

Lin Yue was very surprised. She was stunned for a while before asking, "Brother Guo, then ... I'm going to quit my work at the meteorological station?"

"That's for sure," Guo Zhan said, "however, Ruofei's company is also a legitimate one. After you join, you can continue to pay the five insurances and one fund. It's a seamless link. And because the salary is higher, the base amount will definitely be much higher than what you're paying now. "

Lin Yue muttered to herself for a moment before saying, "Alright! Then I'll resign and go over!"

Guo Zhan couldn't help but feel surprised, "You've agreed so quickly? I haven't even said how much the salary is!"

Lin Yue smiled and said, "I'll still say the same thing. It's recommended by big brother Guo. It's definitely not wrong!" Since you're suggesting that I resign, then I'll definitely be better off after that! So ... I don't need to think about it! I'm going to resign tomorrow!"

Guo Zhan couldn't help but raise his thumb and say, "Good! Sister – in – Law, I'll let Ma Jia tell you the details later! Let's do this first!"

"Mm! Thank you, brother Guo!" Lin Yue sweetly said, "when there's a chance, Ma Jia and I will treat you to a drink!"

After hanging up the phone, Guo Zhan threw the phone to Ma Jia and said, "Did you see? Even your wife is more straightforward than you!"

Ma Jia laughed and scratched her head.

Xia ruofei stood up and said, "Wolf King, can I say a few words?"

Guo Zhan nodded and made a gesture of invitation.

Xia ruofei cleared his throat and said, "everyone here is an old leader. Since you trust me and are willing to work for my company, I welcome you with open arms! Now that we've basically decided, I'll talk about the work situation and the salary issue. "

Ma su, Liu mingtian, Wu Jiasong, and Zhong Lin all looked at Xia ruofei. As what Xia ruofei was going to say next was closely related to their work, everyone listened very carefully.

Xia ruofei said, "maybe the wolf King has already told us some things, but he didn't go into detail." I personally purchased an Island in the South Pacific, which is about seven square kilometers in size. There is an airport on the island, as well as a small deep – Water dock. Some of the basic infrastructure construction has also begun to take shape. Currently, the security of the island is handed over to an international mercenary group. I hope that the next step is to replace this mercenary group with someone we can trust. This is the original intention of forming the guard team. Training and Daily Alert after landing on peach source Island will be your main tasks. Of course, brother Liu is an expert in logistics, so you may have to take on more responsibilities. The resources, equipment, logistics, and so on on the island will be handed over to you in the future. "

"No problem! I'll do my best!" Liu mingtian declared without hesitation.

Ma su, Wu Jiasong, and Zhong Lin also expressed that they would devote themselves to the defense of Peach Garden Island.

Xia ruofei said, "for the composition of the guard, other than the few people here who are the backbone, Wolf King will also help me recruit some veterans who have retired from lone wolf in the past few years. I have also recruited some retired Scouts and special Forces through other channels. It can be said that the entire guard is basically made up of retired veterans."

Xia ruofei took a sip of his drink and continued, ""I'm planning to place the guards at the three mountains for a period of training and cooperation. During this period, I'll also purchase the equipment and weapons that everyone needs and store them on the Paradise Island. After the training and assessment were completed, this guard team would be deployed to Paradise Island and replace the International mercenaries to begin the duty of island defense. So when the wolf King gives everyone a leave of absence, you can just go to the three mountains to find me. "

Xia ruofei considered that it would be inappropriate for so many people to train together in the capital. After all, the capital was the political center of the country. This place was too sensitive. Gathering so many people would easily attract the attention of the relevant departments.

Things were much better in San Shan. Xia ruofei had circled out a lot of land in San Shan for the expansion of the farm. After the company's headquarters moved, the staff dormitories in Tao Yuan farm were much more empty. The farm's cafeteria was also much more deserted. After the ex – soldiers went over, they had a place for training, food, and lodging.

"Alright! After this shift is over and the troops have settled down, the four of us will take a break!" Ma Jia said.

Xia ruofei nodded and continued, ""Old company commander, after sister – in – Law resigns, ask her to go to San Shan first. You can meet up there."

"Alright!" Ma Jia said with a smile.

Xia ruofei continued, "as for everyone's salary, during the period of working on Peach Blossom Island, everyone's starting salary will be 10000 US dollars. According to the position and responsibility, the actual salary will be between 10000 to 30000 US dollars. In the future, it will continue to increase according to the number of years of work and contribution! In addition, considering that you've just left the Army, the company will give you a home allowance of 30000 US dollars!"

The four of them were all officers, and their commanding skills had been tested. Once they were appointed to the guard, they could directly take on the responsibility of commanding. To Xia ruofei, they were talents that could not be bought with money. For such talents, Xia ruofei was not stingy with the benefits.

He now had more than two billion dollars in his overseas account. Giving his comrades in his old army thirty thousand dollars as a settling – in allowance was not even a drop in the bucket.

However, this sum of money was not a small amount for Ma Jia and the others.

When they were transferred to another profession, the country would also give them a sum of settling – in allowance, which was a part of the transfer allowance. According to their military age, the settling – in allowance would definitely not be as much as 30000 US dollars.

"Ruofei, you're giving us too much!" Ma Jia said, "you can't give so much money just because we're old comrades! This was not appropriate. We know you're rich, but you earned it with your own abilities ..."

Xia ruofei smiled. "Old company commander," he said. "You didn't think that I was deliberately giving everyone more money, did you?"

Ma Jia smiled but didn't say anything. It was obvious what she meant.

Xia ruofei laughed and said, "you're undervaluing yourself!" Do you know how high the salary of those international mercenaries is? What was the most valuable thing these days? A talent! If you were in a mercenary group, you would get a lot more money than what I give you! So, I've earned a lot from this!"

Guo Zhan looked at it for a long time before finally saying, "Since RUO Fei is giving you this treatment, it means that you are worth it! I think it's quite suitable. Who made the rule that soldiers had to live a poor life? Who said that soldiers can't get a high salary? You guys need to be confident!"

"The wolf King is right!" Xia ruofei laughed and said, "I've also told everyone that the guards will definitely have an Elimination System. If you don't meet the requirements, you will definitely be eliminated. Of course, the elimination only means that you can't work in the defense of peach source Island anymore. I can still arrange suitable positions for you in the country. "

At this point, Xia ruofei smiled at everyone and said, ""But ... The pay won't be as high if you're working in China."

"There's still more!" Xia ruofei thought for a while and said, "the island defense work is not without risks. Some of the island countries in the South Pacific are more chaotic. The ponaattu nation, where Paradise Island is located, has frequent civil strife. If there are rebels or pirates who want to land on the island, our guards must be able to get out! And there might even be sacrifices. So ..."

"We know all of this, and we're mentally prepared!" Ma su smiled and said, "if there is no danger, why are we still in charge of security? That's a vacation!"

Ma Jia's words made everyone burst into laughter. Almost all the soldiers of the lone wolf assault team had participated in actual combat and seen blood. They had a clear advantage over the Veterans from ordinary troops in this regard.

Xia ruofei also saw this point, so he invited them to be the backbone of the guards as if he had obtained a treasure.

Chapter 2667 Identity confirmed_1

Since Xia ruofei had already made it clear, everyone naturally would not hold back. Liu Ming Tian, Ma Jia, and the others also got into the mood relatively quickly. They had already begun to ask about the specific situation of the Peach Blossom Island. This would be very important for their future tasks such as vigilance and defense.

Xia ruofei was also an outstanding member of the lone wolf assault team. He was very well – trained in military affairs. Although he had only been to Peach Blossom Island twice and had flown two rounds around the island in a helicopter, he was already familiar with the terrain and characteristics of Peach Blossom Island.

So, he simply found a pen and paper and drew a simple topographic map of the island. He also marked some important targets such as the airport, the dock, the residential area, the tidal flat, the reef area, etc. He also emphasized on the secure shelter at Mount Qingyun.

So, everyone gathered in front of the topographic map and began to discuss the island's defense from their own professional point of view, how to arrange the troops, where to use what equipment, how to respond in case of an enemy attack, and so on.

Even Guo Zhan joined the discussion with great interest.

Therefore, this meal lasted for more than three hours. Of course, most of the time was spent discussing the deployment of the defense of Peach Blossom Island around the dining table.

Everyone in the room, including Xia ruofei, could be considered as experts in Special Operations. The defense deployment of a seven – Square – kilometer Island was actually a very typical real – life case. As everyone discussed, the island defense plan gradually took shape.

This included the setting up of the barracks, the distribution of firing points, and so on.

Especially in terms of equipment, which weapons needed to be purchased, how to deploy heavy weapons, how to equip the standard individual equipment, and so on. Everyone quickly came up with a solution.

Of course, it was inevitable that there would be some “smuggled goods”. Horse lances and the others had always been envious of the equipment from the foreign Army. This time, they had also included everything in the equipment list, hoping that Xia ruofei could purchase them through special channels. That way, they would be able to satisfy their craving.

When it was almost 10 pm, everyone dispersed.

Xia ruofei already had a rough plan and a list of equipment to purchase.

After he returned to the guest house, he found that there was an email notification on his phone.

Xia ruofei's spirits were lifted. Liu chengfeng must have sent him the information about heart picking sect and stars Corporation.

Xia ruofei felt that the screen of his phone was not big enough to read the information, so he took out a laptop from his space. After connecting it to the power, he turned it on.

There was no internet connection in the guest house room, but fortunately, the cell phone signal here was pretty good. Hence, Xia ruofei set a hotspot on his phone and connected his laptop to the hotspot to connect to the internet.

Soon, Xia ruofei saw a compressed package that Liu chengfeng had sent to him.

After unzipping the file, he opened the document and read it carefully.

There was indeed some information about the star Seizer sect and the stars Corporation. When Xia ruofei scanned through the first paragraph, his expression turned grave.

As an important stronghold of the heart excising sect in the secular world, the stars corporation's intelligence report also had a lot of space.

The first paragraph was about the general situation of stars Corporation. Xia ruofei was surprised to find that the CEO of stars Corporation was Wang Boshan, and the words on the business card were exactly the same.

In addition, Wang Boshan was also a cultivator, and his information showed that his cultivation level was temporarily unknown.

Stars corporation's LOGO was also in the file, which was exactly the same as the name card.

This clearly showed that the two people who came to the courtyard in liuhai Lane to look for Xia ruofei were indeed from the heart excising sect.

According to Wu Qiang's description, there was another elder in a long robe besides Wang Boshan. It seemed that this elder should be Wang Boshan's martial uncle or martial uncle. In short, his status in the sect was much higher than Wang Boshan's.

Xia ruofei's heart was heavy. Although he was mentally prepared, he still felt great pressure when he was sure that a cultivation sect had their eyes on his peach source Island.

Xia ruofei calmed down and continued to read seriously.

The scale of Stars Group was about 10 billion US dollars, and the scope of their business was very wide. They started with the main pharmaceutical business, but later gradually involved themselves in the financial industry, real estate, and so on. In short, they did whatever they made money from.

Xia ruofei only gave a brief glance at the information regarding stars Corporation. Since he could confirm that the star Seizer sect had set their eyes on Peach Blossom Island, then stars Corporation, as an agency of the star Seizer sect in the secular world, was not worth mentioning at all. The battle between the two sides would not stop at the business level, so there was no point in studying stars Corporation.

Xia ruofei skipped over this part and focused on the intelligence of the star Seizer sect.

The star Seizer sect was located in the South China Sea and occupied an uninhabited island. The sect was protected by the sect's protective array all year round, so even through satellite photos, it was only an uninhabited island with rocks.

There were two cultivators of the "Qing" generation with the highest seniority in the star Seizer sect. They were the sect leader of the Aurous core stage, Luo Qingfeng, and the elder of the ninth level of the aura refining stage, Chi Qingcheng.

In addition, there were 21 second – generation Yong generation disciples. He yonglun, who had the highest cultivation, had also reached the ninth Qi layer. Other than he yonglun, most of the second – generation Yong generation disciples were either at the seventh or eighth Qi layer.

The information also specifically mentioned Zheng Yongshou, who was at the seventh Qi layer. Although this person's cultivation was below average among the second – generation disciples of the star Seizer sect, his talent in array Dao was extremely high. It was said that even a ninth Qi layer cultivator couldn't break through the trapping array he set up. He was a person worth paying attention to.

When Xia ruofei saw this, he couldn't help but look at Zheng Yongshou's name.

The star Seizer sect actually had an array expert. Could it be that this Zheng Yongshou was the one who discovered the secret of the Paradise Island? He recalled that among the two people who went to look for him, apart from Wang Boshan, there was also a silent old man in a long robe. Could this person be Zheng Yongshou?

Now that he thought about it, the possibility was very high.

Xia ruofei was also on guard.

He continued to read. There were about 60 people in the third generation of the “Bo” generation in the heart picking sect. Most of them were still between the third and fifth Qi layer. Some of them were even at the second Qi layer.

Although these people were not a cause for concern, when there were too many ants, they could bite an elephant to death. No matter how weak they were, they were still proper cultivators!

There was some other information about the star Seizer sect in the document. Xia ruofei read it quietly for a while. His thoughts gradually became clear and a plan began to form in his mind ...

Chapter 2668 Calm response_1

Xia ruofei was very clear that in the world of cultivation, it was useless for him to deal with his forces in the secular world alone.

He was a level 9 “rogue cultivator.” Under normal circumstances, he wouldn’t have any chance of winning against a cultivation sect with a golden core cultivator and 20 to 30 cultivators above level 7.

The people of the star Seizer sect definitely didn’t know his identity as a cultivator yet, so they wanted to get in touch with him according to the rules of the secular world.

Xia ruofei did not even need to think to know that Wang Boshan wanted to meet him to buy Peach Blossom Island. That was why he said it was a business worth billions of US dollars.

If there were no accidents, the price offered by Wang Boshan should be a high price that no one could refuse under normal circumstances. If he refused it in person, the other party would definitely be suspicious. Even if they were not suspicious, once they lost their patience, they were likely to give up using the rules of the secular world to do things and switch to the methods of the cultivation world.

With Xia ruofei’s current strength, he would not be able to withstand the power of the entire sect.

Hence, Xia ruofei felt that the best choice now was not to meet with Wang Boshan and the others.

Besides, in this battle of Peach Blossom Island, Xia ruofei’s only chance of winning was that the strength of the island itself was not comparable to his own. Naturally, he could only rely on the power of the formation.

Once Xia ruofei activated the natural formation, the Taixu xuanqing formation, it would be difficult for an ordinary Aurous core stage cultivator to break through it. Or perhaps, they were extremely proficient in array Dao.

The cultivation world on earth had declined so much that Xia ruofei guessed that not many inheritances of the array Dao could be left behind. In addition, the intelligence showed that the sect leader of the star Seizer sect, Luo Qingfeng, had only broken through to the Golden core stage in recent years. It could be seen that this person's cultivation talent was not bad. However, according to the current cultivation environment on earth, Luo Qingfeng was likely to be stuck in the early stage of the Golden core stage.

If that was the case, the possibility of Luo Qingfeng breaking the Taixu xuanqing formation was not high.

In this case, Xia ruofei's top priority was to set up the array on the Peach Blossom Island.

His original plan was to take it step by step. First, he would train the guards to replace the International mercenaries on the island. On the basis of actual control of the island's defense, he would withdraw the Liu family's people and replace them with people he trusted in every post.

After all of this was done, the final step was to set up and activate the formation.

This way, he could minimize the risk of leaking the secret.

However, there was no time now. Xia ruofei could only put the matter of setting up the formation at the forefront.

Setting up a formation at the level of the Taixu xuanqing formation was not as simple as a small spirit gathering formation, which could be done by carving the formation patterns on a few pieces of jade. Even though the Peach Blossom Island itself had already formed the key node of the natural formation, it still took a lot of effort to activate such a large formation.

This was also one of the reasons why Xia ruofei did not put setting up and activating the formation first.

Naturally, there was no time for Xia ruofei to play it safe.

After reading the information provided by Liu chengfeng, he let out a long breath and closed his eyes to think for a long time. Then he stood up, took out his phone, and dialed Li Yifu's number.

It was 10 p.m. in Huaxia, and it was morning in the United States so when Xia ruofei called, Li Yifu picked up immediately.

"Senior granduncle!" Li Yifu greeted him respectfully.

Although Li Yifu was older than Xia ruofei's grandfather, he had always been extremely respectful in front of Xia ruofei and put himself in a very proper position as his Grand – disciple. In fact, when he saw the caller ID, even if Xia ruofei was not in front of him, he would still stand up respectfully to answer the call.

"Foster husband, there's something I need you to help me with!" Xia ruofei said directly.

"Martial granduncle, please give me your orders!" Li Yifu said respectfully.

"Help me purchase a batch of materials for the formation immediately. I'll send you the list later!" Xia ruofei said, "most of these materials should be available on the market. If you can't find any, report to me immediately!"

"Yes!" Li Yifu didn't even ask what materials he wanted to buy, and he agreed without hesitation.

“Some of the materials may be more expensive. Do you have enough cash flow? I’ll transfer some money over?” Xia ruofei asked.

Although Li Yifu’s assets were much more than Xia ruofei’s, assets did not mean cash. In fact, a large company did not mean that it had abundant cash flow. That was why Xia ruofei asked.

“No need, no need. I have money.” Li Yifu said. He was afraid that Xia ruofei would not believe him, so he added, “there’s no problem with the three billion USD. You can withdraw it at any time.”

Hearing this, Xia ruofei was relieved. No matter how expensive the materials for Xuanji’s formation were, it would not cost as much as three billion US dollars. In fact, some materials were expensive mainly because they were precious metals. Their market price was relatively high, but it did not mean that they were precious in the world of cultivation. Otherwise, they could not be bought with money.

If these array materials were not handled by an array Dao expert, they would be worthless in the eyes of cultivators.

In fact, the most valuable thing was the knowledge of array Dao that array Dao experts had.

“Alright then! I won’t send you any money.” Xia ruofei said.

It was not that he wanted to take advantage of his Grand – disciple, but compared to the value of the Taixu xuanqing formation, a little money from the secular world was nothing. If he were to tell Luo Qingfeng now that the natural array on the Paradise Island was the Taixu xuanqing array and that he was to exchange it for the star Seizer sect’s sect – protecting array, Luo Qingfeng would definitely agree without hesitation.

Once the formation was set up, Xia ruofei was prepared to let Li Yifu stay on the island to cultivate and help guard the place. If Li Yifu knew about this news, he would definitely be ecstatic. In comparison, what were tens of millions or even hundreds of millions of dollars?

Then, Xia ruofei said, “adopted husband, after you’ve purchased the materials, use the transport aircraft to transport them to an Island in the South Pacific Ocean. I’ll send you the coordinates and the map later. This time, you have to escort them personally. There must be no problems!”

Li Yifu also realized the importance of this matter, so he quickly said, “Yes! Don’t worry, senior granduncle! This disciple will definitely handle this matter beautifully!”

“Mm! I’ll have to trouble you this time!” Xia ruofei said, “I’ll be going to that Island too. If everything goes well, I’ll probably arrive earlier than you. Remember, you must keep this matter a secret. The purchases must be done in secret. It’s best to buy separately, and don’t let people trace it back to you. Also, during the transportation process, the scope of knowledge must be reduced as much as possible, and no one can know what the specific goods are.”

“I understand! Martial granduncle, I will definitely be extremely careful!” Li Yifu replied excitedly.

He had always been the one receiving Xia ruofei’s favor. He was not capable enough and had no way to repay him. Today, he finally had the chance to help his senior granduncle with something. Furthermore, it was an extremely important matter. Li Yifu was naturally very excited. He was already so old that he even felt his blood boiling. He had the high – spirited spirit he had when he was young.

Xia ruofei said a few more words and then hung up.

Chapter 2669 Urgent arrival at peach source Island (1)

After Xia ruofei hung up the phone, he sent the coordinates and navigation map of Paradise Island to Li Yifu. When he was handing over Paradise Island, the Liu family had already given him the information in advance. All he needed to do was to pull it out from his computer and add it to his email.

Then, he called the flight crew's head, Liu An, and asked him to immediately apply for the flight route to Peach Blossom Island tomorrow morning. At the same time, he asked him to check the condition of the plane and prepare enough fuel.

Although it was late, Xia ruofei had to leave early the next morning. The flight route had to be applied in advance, and the plane had to be prepared. So, he did not care if he would disturb Liu An and the others' rest.

Fortunately, the pilots of the private planes were always on standby to serve their employers. Liu An and the others were also used to such sudden missions, so everything was prepared in an orderly manner.

After the call, Xia ruofei created a new Word document on the computer. He took a deep breath and started to type in the names and quantities of the materials while thinking.

At this moment, it was as if there was a three – dimensional map in his mind, and he could see the entire situation of the Peach Blossom Island in one glance.

The looming Taixu xuanqing formation gradually became clear in Xia ruofei's mind. Which part needed to be strengthened, which part needed to be modified, which part needed to be relieved ... What materials were needed to carry out these modifications, how to strengthen the core of the formation, how to start and maintain the formation more simply ...

When Xia ruofei was thinking about these problems, he had to constantly refer to the diagram of the Taixu xuanqing formation and rely on his own skilled formation skills to quickly calculate and deduce.

This amount of calculation was actually much more complicated than many other mathematical problems, but there was not much comparison between the two.

If Xia ruofei's spiritual power had not broken through to the spirit gathering realm and his brain had not been greatly strengthened, he might not have been able to complete such a calculation.

Of course, even if he could complete it now, it would still be a little difficult.

Fortunately, Xia ruofei did not need to make the most precise plan immediately. He only needed to roughly estimate the materials needed, the quantity, and the types.

The content of the document window gradually became richer.

After calculating for more than two hours, Xia ruofei finally listed out all the materials he needed. He also left some surplus for the quantity.

He spent another half an hour checking it again to make sure that there was no problem. Then, he packaged the file, encrypted it, and finally sent it to Li Yifu by email.

Xia ruofei gave Li Yifu a call to inform him and told him the password for the encryption bag. Then, he threw the phone on the bedside table and fell asleep on the bed. He did not even take a shower and was too tired. He was not able to control a formation like the Taixu xuanqing formation as the huge amount of calculations had made his brain extremely tired.

Xia ruofei slept all the way until dawn. The familiar sound of the wake – up call outside the window woke him up. He rubbed his sleepy eyes and could not remember where he was at that moment. When he heard the loud bugle call, he felt like he was still in a dream.

After a few minutes, Xia ruofei finally came back to his senses.

His head still hurt a little, so he took out a bottle of spirit pond water from the spirit map space and drank it. After a while, he got out of bed and went to the bathroom to wash up.

Xia ruofei had breakfast with Guo Zhan at the lone wolf assault team's cafeteria. Then, he confirmed some details with Liu mingtian, ma su, and the others. After the blue Vatican guards arrived at the three mountains, they would start training. Xia ruofei also had to ask the farm to arrange the site in advance.

Although there was the star Seizer sect as an uncertain factor, Xia ruofei did not delay the formation of the guards.

He hoped that he could get rid of the star Seizer sect's troubles before the guards were fully trained. That way, the guards would be stationed on the island, and with the protection of the great formation, the island would be impregnable.

Of course, the premise was that the scope of this secret's disclosure had not been further expanded.

If the secret of Paradise Island were to spread from the star Seizer sect to the entire cultivation world, Xia ruofei could not guarantee that the Taixu xuanqing formation would be able to withstand it.

Although the cultivation environment on earth was getting worse by the day, the world of cultivation was once very glorious. No one dared to say that there were no nascent soul old monsters who had survived until now. Even if there were no nascent soul old monsters, if they encountered a veteran golden core robber, Xia ruofei's Taixu xuanqing formation would not be easy to resist.

After all, the power of an array was closely related to the person who set it up. With Xia ruofei's current cultivation and array skills, in addition to the natural array, it was already quite impressive for him to be able to fight against a cultivator in the intermediate stage of the Golden core realm.

Xia ruofei's mind was focused on the formation, so he didn't have the mood to stay in the old army. He gave his latest contact information to Ma Jia and the others and left.

Guo Zhan sent a mengshi command vehicle to send Xia ruofei directly to Jinling's Lu kou airport.

Xia ruofei entered the airport through the private passage for the business plane. At this time, Liu An had already completed the flight preparation with the crew and was standing beside the plane to welcome Xia ruofei.

Xia ruofei walked over and patted Liu An's shoulder. ""Captain Liu, I'll have to trouble you again this time ... I originally said that I would recruit one or two more pilots. Otherwise, it would be too tiring for the

two of you to fly such a long flight! However, we don't have enough time, so we can only do this for now."

Liu An smiled."It's alright, Mr. Xia. We don't usually have many flying missions. It's not a problem to fly occasionally on a long route!"

"I've been too busy recently. After a while, the matter of recruiting new pilots will definitely be settled!" Xia ruofei said.

"Thank you for your understanding, Mr. Xia!" Liu An said with a smile.

Not long after Xia ruofei boarded, paradise was allowed to take off.

After entering the cruising phase, Xia ruofei went to the bedroom in the back cabin to rest. Paradise still made a short stop in BlackBerry and continued to fly after refueling.

After more than ten hours of flight, paradise finally landed smoothly on the airport runway of Paradise Island.

Today's airport was a bit deserted. It was not as Grand as the previous two times. Only Liu Qingfeng stood alone on the tarmac and waited.

Xia ruofei got off the plane. Without waiting for Liu Qingfeng to greet him, he asked directly,""I didn't tell anyone that I came to Paradise Island, right?"

"Yes, Mr. Xia. I've been keeping it a secret since you asked me to. I didn't tell anyone." Liu Qingfeng said respectfully.

Xia ruofei nodded in satisfaction and said,""In a while, follow the name list I sent you this morning and tell everyone on the list to come to my room!"

"Alright!" Liu Qingfeng said,"the car is opposite. This way, please!"

Chapter 2670 Initial screening (1)

This time, Xia ruofei did not inform anyone but Liu Qingfeng about his arrival at the Peach Blossom Island. He even strictly ordered him to keep it a secret. The purpose was naturally to prevent the possible existence of a mole from leaking the news.

Xia ruofei had taken Peach Blossom Island from the Liu family, and the fact that the star Seizer sect had found the courtyard in liuhai Lane in the capital in such a short time meant that someone must have informed them.

On the way to the airport in the morning, Xia ruofei had called Liu Qunfeng to ask about it. As he had expected, when the Liu family was still in control of the island called green cloud Island, someone had asked them to buy the island and had kept raising the price. However, old man Liu valued green cloud Island very much and did not care about it.

Therefore, Xia ruofei had a basic judgment. The star Seizer sect had already set their eyes on peach source Island before he had obtained it. They had only been using secular methods, hoping to buy the

island in a low – Key manner. After he had obtained ownership of the Peach Blossom Island, the star Seizer sect had still used the same method.

The other party wanted to keep a low profile. Xia ruofei could roughly guess that their purpose was to not make too much of a commotion so that other cultivation sects would not notice.

To Xia ruofei, this was an advantage. He could use some methods to stall for time.

The fact that the star Seizer sect was able to so quickly learn of the island's change in ownership meant that someone within the island had definitely informed them. This was a very high possibility.

Liu Qingfeng was a core member of the Liu family. Under normal circumstances, he would not be the mole. Moreover, Xia ruofei needed Liu Qingfeng's cooperation in many aspects when he was doing things on peach source Island, so he could only assume that Liu Qingfeng was clean.

The first thing he did when he arrived at the peach source Island was to identify the mole.

Otherwise, the various arrangements he had made on the peach source Island would all be leaked by the mole. The star Seizer sect also had a formation master named Zheng Yongshou, who might be able to deduce that he was setting up a formation from the limited information.

If that was the case, the star Seizer sect would definitely lose their patience.

By that time, Xia ruofei would not be in position. How could he resist a golden elixir realm master like Luo Qingfeng?

Hence, Xia ruofei made a list of all the middle managers who were still on Peach Blossom Island.

Fortunately, Xia ruofei's memory was superb. He had only met these people once or twice, but he remembered their names, looks, and the scope of their work. Then, according to his own analysis and judgment, he roughly ranked them according to the degree of suspicion. The most suspicious ones were naturally the first to be screened.

After all, although he had concealed the news that he had come to Paradise Island, the island was only so big. Although paradise had landed under the cover of night, it would definitely be noticed by people with ulterior motives. With a little analysis, it was not difficult to determine that he had come to the island.

Xia ruofei got into Liu Qingfeng's car and drove towards the only high – rise building on the island, the project department building.

On the way, Xia ruofei had first screened Liu Qingfeng.

Liu Qingfeng had brought a bullet – proof Mercedes – Benz. After Xia ruofei got into the car, he asked the driver to raise the partition that isolated sound and vision on the grounds that he had to discuss important things with Liu Qingfeng.

Immediately after, Liu Qingfeng fell into a state of hypnosis in an instant.

Xia ruofei's question was simple. "Did you tell anyone that I obtained Paradise Island?"

Xia ruofei was satisfied with Liu Qingfeng's answer, even though he was completely defenseless.

“The family has a strict order,” he said. “It’s forbidden to disclose this matter to anyone. I didn’t tell anyone, including my wife.”

After Xia ruofei got the answer, he immediately removed the hypnosis. Through some simple methods, Liu Qingfeng would not remember what happened in these few seconds. For him, it was just like being stunned.

Xia ruofei didn’t need to ask any more questions, nor did he need to test Liu Qingfeng’s loyalty. Liu Qingfeng was originally loyal to the Liu family, and it was only a short – term cooperation with him. With old master Liu’s personal instructions, Liu Qingfeng would definitely do his best during this time.

That was enough.

Seeing that Liu Qingfeng was out of the hypnosis state, Xia ruofei immediately said, “In about five hours, a transport plane will land on Peach Blossom Island. I’ll send you the details later, and you can ask the airport to prepare in advance.”

“Yes, Mr. Xia!” Liu Qingfeng quickly responded.

He didn’t know why he was suddenly in a daze, but fortunately, he didn’t delay his conversation with Mr. Xia.

Xia ruofei thought for a while and continued, “When I’m talking to someone later, arrange for reliable people to monitor the rest. If any of them make any strange moves, especially if they try to contact the outside world, then decisively control them!”

“Alright! Mr. Xia!” Liu Qingfeng replied, and then he hesitated for a moment, “Mr. Xia, is there a problem with our people?”

“It’s just a suspicion for now,” Xia ruofei said indifferently. “Someone leaked the ownership of Peach Blossom Island. Some people even found my home in the capital ...”

“There’s actually such a thing ...” Liu Qingfeng was also very surprised.

He had nothing to say about Xia ruofei’s arrangement. Although many people on the island knew that Peach Blossom Island had changed hands, only a few middle managers could know the exact situation.

Xia ruofei did not say a word along the way. He just leaned back in his seat and closed his eyes to rest. In fact, his mind was spinning fast. He was thinking about every step of the cultivation. The sect’s strength was too terrifying. He had to make sure that there were no mistakes in every step. Otherwise, he might not be able to protect Paradise Island and might even be in danger of his life.

The car drove into the underground parking lot of the building in the night. Xia ruofei and Liu Qingfeng did not alarm anyone and took the elevator directly to the floor of Liu Qingfeng’s office.

Xia ruofei walked into the office and turned to ask, “Has everyone been gathered?”

“Everyone’s here. “Liu Qingfeng nodded and said, “I just informed everyone that there’s a middle – rank meeting, so everyone is in the conference room now. ”

Xia ruofei nodded and said, "let's start!" Pay attention to monitoring and don't alert others, and don't cause unnecessary panic. "

"Understood!" Liu Qingfeng replied.

Xia ruofei walked into the office calmly and sat down on the guest sofa.

Liu Qingfeng, on the other hand, calmed his mind. First, he arranged a few guards, and at the same time, he ordered two confidants to keep an eye on the monitoring of the conference room.

After that, he took a deep breath and walked into the meeting room on the other side of the floor.
